Displaced Family Reminds Readers of Many Blessings

(Ed. Note — Requests for anonymity letters to the editor are usually complied with as long as The Brand has the name of the author on file. The following article was received in our office with the author's request that we withhold his name. We feel, however, that the request was made out of modesty. It is with pride that we credit the true author with the following feature. It should make us all a little thankful — and proud, too — of the blessings we enjoy so effortlessly.)

We're rushing around to get the last of the grain out before the weather beats us to the draw again. Seems like there is no end to our struggles to keep up with the work and not get too far behind with the bills, taxes, insurance, and half a dozen payments on things that will more than likely be worn out before they are paid out.

Lee Smith
Rt. 3, Hereford
This may be a "beautiful day in Chicago" but it's a "Thing" in this little part of Texas known as Jumbo. Vitamin "K" is sailing around in the atmosphere till it's monotonous, pure and simple.

Not a minute to get your breath in. We're asked to take something for a displaced family to the Simpson farm tonight.

So at the end of this long full day, we collect quite a few things we can no longer use and that have no sentimental value to us and quite pleased with ourselves and the gifts we are taking, we head for the Simpson's.

The dining room table is well loaded with canned foods, linens, clothing, toys, and books for the children, so we set our box on the floor and sit with our neighbors to await the coming of the little German war bride, Annie Brashier, who is to interpret for us.

Soon she is here. She explains to the Kovacs what this is all about.

As this is Anna Kovac's birthday, we sing "Happy Birthday" to her as we present the gifts. She was born 32 years ago and God only knows — and I say this reverently — what has happened to her between that day and this.

As we sing, Anna cries. So do the rest of us and suddenly she is no longer a stranger from a strange place, a "displaced person." She is our sister, our friend, our neighbor with small Annalisesa — who might be our beloved

PMA Allotment is \$115,300 for '52

Deaf Smith county's Production and Marketing administration allotment for 1952 conservation practices is \$115,300, according to Faust Collier, local PMA administrative officer.

The 1952 allotment figure was released to the agency this week. This is almost a \$100,000 decrease in funds allotted locally for the 1951 calendar year. An original allotment of \$177,500 for 1951 was supplemented on August 31, 1951 by an additional \$12,400; on September 24, 1951 by another \$12,500; and on October 22, 1951 by \$7,100, for a 1951 total of \$209,400.

Reasons for the cut in practice funds were not available, but the nation was allotted less funds on the whole than for last year. Counties ordinarily receive their allotments on the basis of need.

Of the amount allotted for 1951 the unused total is \$35,000 as of Friday, Nov. 16. That figure may vary before the end of the practice year on December 31.

In 1950, an unused sum of \$25,030 on December 8 had grown to \$14,298 through cancellations of practices for which funds had been allotted.

The new county committee will meet soon — probably the last week of November — to select the practices for payment out of the \$115,300 allotment.

The practices allotment for the 1950 fiscal year in this county were \$180,900 originally. Two boosts in funds made a total of \$192,414.

The annual surplus in local PMA practice funds is not kept by the local agency, but the credit is returned to the agency.

Herd Shines in 6-0 Win Over Tulia Hornets Fri.

A pulverizing Hereford football squad wrote "finis" to a so-so football season Friday night at Tulia with a decisive and heart-warming 6-0 triumph over 1951's District 2-AA champs, the Tulia Hornets.

Hereford, not Tulia, looked like the champs Friday night as they sliced and crunched their way through a game but out-classed Tulia defensive.

The Herd was up — way up — for the battle with the previously-undefeated Hornets. They wanted the game and they went out and got it.

Tulia never got the chance to get rolling. The Whitefaces kept them off balance all night. When the Herd took over the pigskin, it was roll, roll, roll.

Coach Dalton Criswell's grid-ers overpowered the Tulia squad, racking up 12 first downs as against the Hornets' five.

Hereford's overpowering ground game took its toll in the yardage column as compared with the Hornet effort. The Whitefaces rolled up 183 via the ground and only four through the ozone.

Tulia managed 68 yards on the turf and supplemented that with another 35 skyward.

For Hereford, it was clearly their best game of the year as they pulled the Hornets' stingers and stamped to their fourth triumph of the season.

Besides being a brilliant team victory, each and every member

of the Hereford squad comes in for individual credit. Without a superior game by each squad member the victory could have been defeat.

Hereford's stubborn forward wall gave ground even more grudgingly than it did in the Canyon affray. There was no place for Tulia to go.

From the first few plays of the game, one could sense that the Herd was going places.

In addition to the line work, Kelly, Morton, Graham, Whitehead, Self, and Winget must be given due credit for the magnificent job they did of grinding out yardage. It was the incessant punching through the middle for 3,4,5, and more yards play after

play that kept the Hornets off the shaky defensive all night.

For the Herd touchdown, it came in the waning moments of the first half. A fumble on the Hornet 45 by Tulia was recovered by Winget. Morton scampered to his left for 15, Graham picked up none, Whitehead 6, and Morton 14 to rest the ball on the 11 and Tulia's doorstep.

In four downs, the Herd managed their first and 10. A loss of one yard was incurred in a fumble and a five-yard penalty added to the Herd's trouble at the goal.

Ray Graham tried with a lefty pass which was no good and immediately following, hit Bill

School Bond Issue Defeated 613-491

Ples Turnbow Dies Friday, Rites Saturday

Funeral services for Ples A. Turnbow will be conducted Sunday afternoon at 3 p.m. at the Gilliland Funeral home. Rev. Roy Bickford will be in charge of the services.

Turnbow died early Friday morning at the Hereford Clinic.

Born in July 1874, Turnbow married Daisy Spence in December 1945.

Turnbow came to Deaf Smith county in 1891 from Jack county Texas.

Survivors include: his wife, one son, Willard, of Washington D. C., and three daughters, Mrs. Dave Grimes of Hereford, Mrs. Ina Kearns and Mrs. L. Harlach of California.

Voters of the Hereford rural school district turned down a second bid for a bond issue to finance a new \$950,000 high school on Saturday by 122 votes. A high percentage of voters — 1116 — went to the polls Saturday to inflict a defeat on the proposal.

The vote on the question was 613 against and 491 for the \$950,000 issue.

Voting on the issue this time was much heavier than when a million-dollar bond issue to build the same unit was placed before the voters on March 3, 1951.

The issue, when presented in March, failed to pass the voters by 162 votes. A total of 1060 votes were cast in that election, 611 against and 449 for the issue.

"I'm sure that those opposed to it have a valid reason, but I feel they're making a mistake for the benefit of our children and the school system," School Board President A. J. Schroeter said

when informed of the outcome of the election.

He added, "The individuals and organizations that worked in our behalf, we appreciate their help and hope it proves not to be in vain at some later date."

Prior to the first election on the bond issue, members of the board appeared before Hereford civic groups and explained the need for the new plant.

They pointed out that the present facilities would be inadequate by 1952 when current increased enrollment in the grade schools would be felt in the high school.

This time, however, the school board kept in the background and let interested civic groups or citizens take the lead on calling for acceptance of the issue.

A second election totalling \$150,000 was held September 9, 1949 and passed by a 5 to 1 margin, 537 to 134.

Hearing on Truck Line Dec. 12-15

Vance Funeral Services Held November 17

Funeral services for Clarence Franklin Vance were conducted Saturday afternoon at the Gilliland Funeral home at 3 o'clock.

Rev. Russell Winget was in charge of the services.

Vance, who died at his home early Friday morning, was born in West Virginia on April 1, 1880. He married Em Barker at Cumberland, Maryland in 1904. They came to Deaf Smith county from Ohio in 1910.

Survivors include: a son, William C. Vance of Washington D. C.; a daughter, Mrs. Onias Carroll of Hereford, two grandchildren and two great-grandchildren.

A hearing on a petition by the Miller and Miller Freight lines of Wichita Falls on extending their operations north to Hereford from Dimmitt will be held before the Railroad Commission in Austin on December 12-15.

Notice of the hearing was given to local businessmen by Hope Newman, company representative, who made personal contacts with them this week.

Direct testimony on the witness stand by Hereford businessmen — either as receivers or shippers of freight — will be required at the hearing, Newman said.

Granting of the truck line's petition would give Hereford direct overnight freight service from Dallas, Fort Worth, Wichita Falls, Lubbock, Abilene, and intermediate points.

In addition, Newman told The Brand on his previous trip here in September that his firm would

put in a terminal here and possibly hire a local freight agent.

At the present time, Dimmitt is the northern terminus of the line. Hereford has no connecting freight lines from the south.

The Miller and Miller line has 185 trailers and 215 road trucks — including tractors and pickups — in its fleet of vehicles.

Sister of Local Man Interred in Canyon Nov. 16

Funeral services for Mrs. Leola Thomas McBroom, sister of A. L. Thomas of Hereford, were conducted November 16 at Canyon. Rev. Hubert Thompson and Rev. Thurston were in charge of the services at the First Methodist church.

Mrs. McBroom was born November 12, 1877 in Dexter and married Tom McBroom August 16, 1899. She died on November 14 at her home in Canyon.

Survivors include: her husband, two daughters, Mrs. A. F. McMinn, Texarkana, Tex., and Mrs. Sam Griggs of Amarillo; five sons, Jack, Clarence, Johnny, Oran and Marvin all of Canyon; one brother, A. L. Thomas of Hereford, one sister, Mrs. Jim LeGrand of Amarillo, 24 grandchildren and four great-grandchildren.

Miss Troxell Keeps Busy As Collector of Hobbies

Crocheting, painting, leathercraft and collecting salt and pepper shakers are just a few of the hobbies that occupy Dorothy Troxell's spare time.

When Miss Troxell's 200 sets of salt and pepper shakers began to crowd the cabinet where she displayed them, she didn't hesitate very long before beginning to build two small cabinets to hold the overflow.

She says that she can't remember when she didn't do creative work of some kind. Even when she was in school she was always called on when there were posters or decorations to be made.

Crocheting is one of Miss Troxell's favorite hobbies and she is currently working on crocheted Christmas gifts for her friends and relatives. She says she thinks things that you make are better appreciated than gifts you buy.

Her latest hobby is painting Dresden figures. Still in the experimental stage, she isn't sure whether she likes it or not.

Last year for Christmas, Miss Troxell made a set of doll-size furniture for her nieces and nephews. Whenever any of the children's toys need repairing they always take them to "Aunt Dot" because they know if anyone can fix them, she can.

Sewing is also one of Miss Troxell's accomplishments and she makes all her own clothes. She said that she can't remember the first dress she ever made because she has made so many since.

Two years ago, Miss Troxell

got a book on leathercraft and proceeded to learn how to make purses, belts, billfolds, etc. from leather. While she learned, she made a purse for herself.

Painting holds a fascination for Miss Troxell and she does oils, pastels and water colors. She also has several opaque washed

pictures.

Miss Troxell enjoyed wood-carving and has made several book ends and wall shelves.

Textile painting was at one time one of Miss Troxell's hobbies. She made numerous pillows slips and chair sets before she

Grandstand Gropings

By Kent Snare

This is to no intent or purpose of saying "I told you so" but it is nice, isn't it? Referring, of course, to Hereford's emphatic handling of Tulia on Friday last which was a team victory eliminating some of the bad taste of bitter disappointment from the season's toll of contests — Although I misplaced most of my game statistics in the melange of shivers and shakes impelled by an ice condition of my frozen extremities I still enjoyed the spectacle. Whatever the situation demanded the Whitefaces had—for instance, in the third stanza, number 21, Luke, booted one dead on the Hereford three, whereupon the hometowners, undaunted and without preamble, picked up the pighide and Tulia for three consecutive first downs, alleviating the pressure no little. At no stage of the fracas did the Hornets mount anything commensurate to a concerted offensive, Luke and Hutson went through the motions from a single wing but found it exceedingly difficult to generate any offensive maneuvers with a churning Whiteface appended to various and sundry parts of their anatomy. In fact, on the basis of Friday night's contest, I strongly suspect that Tulia favors issuance of backfield playing time to Dement, who maintained a tatoon on Tulia's quartette throughout his tenure—he made a telling return to the game after being injured in the initial half. I even suspect that some of Tulia's backfielders felt like the character in the ensuing fable: "A team of footballers was absorbing a classic beating. In their ensemble they had only one effective actor,

a small, fragile character who nonetheless had the moxie to stop the assaulters during the time he was in, but at a fearful cost to himself—on numerous occasions, by dint of being bereft of consciousness or by simply giving out, he was, of necessity removed from the game. Then his harassed coach would stick him back in the fray, oftentimes before he had caught his breath. Finally at the fag end of the festivities, he was again forced to leave the tussle and in desperation, loop-legged his weary way to the bench of the opposition. The enemy coach detected his presence and apprised him of his misplacement. The battered gladiator affixed him with a partially opened, bloodshot orb and wailed, "You stay out of this. They may not find me here." The Herefords had the drive from the jump go even after a scoring avenue closed on them, via a fumble, in the first quarter deep in the heart of Tulia—But they never looked back, their backfield surge was omniscient and consistent — Kelly, Morton and Whitehead blasted and sheered for many a yard festooned with Hornets meanwhile. Tulia must have also waxed sick and tired of our number 28, Self, who discommoded them, one and all, at various and sundry stages of the contest. And don't harbour any thoughts that the boys were facing any inept foe, though I grant that Tulia looked likewise by dint of comparison—actually they impressed me as being a poised, well coached outfit that was kept off balance by a determined, hard charging outfit that threw a season of heartbreak into a final,

Okay, minion, to you I doff the skimmer-you forewarned me plenty, however, pally, if you foul this one up I will tab you as a reprehensible character — get your teeth into that one.

Local Red Cross Taking Blood Donor Pledges

Pledges for blood donations are now being taken at the local American Red Cross office, according to Mrs. Dyalitha Brady, executive secretary.

No facilities for taking the whole blood are available here at the present time, but all who are willing to donate a pint of blood are asked to leave their name at the local office as a reference for the day when mobile facilities will be in Hereford.

"Many people have been calling the Red Cross office in response to the current newspaper and radio publicity regarding the need of blood in Korea," Mrs. Brady said in a statement to The Brand. "That response," she continued, "is appreciated and pledges are being taken for future use when the Red Cross mobile reaches us."

"There is no information as to when the unit will arrive," the Red Cross secretary said. She pointed out that because Deaf Smith is such a sparsely settled county, it may be some time before a unit is dispatched here.

Asked to prepare a statement on the blood situation for local consumption, Mrs. Brady submitted the following:

"Red Cross has been furnishing blood for our Armed Forces since World War II and has collected it through the large city centers. With the increased uses of blood and its derivatives, Red Cross has established, as fast as possible, additional blood centers and others are being set up.

"In World War I, 8 to 11% of the men wounded died. In World War II, the number was reduced to 4.5%. And in the Korean conflict, it has been reduced further to 2.6%. The ups and downs on the amount of whole blood the Red Cross collected. When the going has been tough in Korea, the collections have been good. Conversely, when the United Nations forces have had the upper hand, collections have been well below normal.

"Indicative of this is the fact that since the Kaesong cease fire negotiations began, collections have dropped to one third of the requirement and left the stockpile of human blood plasma gravely depleted. In order to build this up, the department of defense has set up a nation-wide publicity effort to awaken the people to the need.

"The response has been wonderful. And although we cannot give our blood just now, we want all to understand why.

"The facilities for handling blood are most expensive and rural areas cannot be covered at once. There is no way of giving our blood before the mobile units arrive unless we are in one of the cities where Red Cross blood centers, defense blood centers, or cooperating blood banks are located.

"Military installations will handle collections of blood when geographically located to make it practical. The following cities are defense centers and blood collections are being made at all times: Chicago, Indianapolis, Kansas City, Cincinnati, Memphis, Pittsburgh, Baltimore, Des Moines, Jackson, Miss., Little Rock, Oklahoma City, Shreveport, and Fort Worth.

Mrs. Brady added, "The local Red Cross office will take your pledge to donate blood when the mobile unit reaches us. When calling to pledge, please leave your name, telephone number, and mailing address. This community will not fail."

Seven From Community Share in 4-H Achievement Awards Tuesday

By Mrs. R. C. Childers

Three girls and one boy, and three leaders from this community, were presented with awards at the 4-H Achievement program held in the Veterans clubhouse Tuesday night. They were Paula Beth Corbett, Colleen Cooke, Sue Cooke, Kenneth DeHart, Mrs. Louie Olson, Mrs. Jack Renfro, and Mrs. R. N. Cooke.

Paula Beth received a dress review award, which was presented to her by Paul Harvey. She was a first place winner in the dress review in May.

Colleen Cooke won the canning award. This award was presented to her by Gaylord Newell.

Sue Cooke received the Frozen Food award, presented to her by Wayne Evans. This award was furnished by International Harvester. All of the awards were given by local business firms.

The only boy from this vicinity to receive an award was Kenneth DeHart who won the field crop award for the growing of certified Wichita Wheat. This award was presented by Wayne Evans also. Kenneth's wheat placed in the Tri-State fair at Amarillo this fall.

Mrs. Paul Corbett surprised the 4-H club leaders and sponsors of the county Tuesday night by presenting them with awards for their work with these boys and girls. There were 16 sponsors to receive awards, those from this vicinity were Mrs. Louie Olson, Mrs. R. N. Cooke, and Mrs. Jack Renfro. "You're all invited for Thanksgiving"

Thanksgiving, country-style... with Grandma's famous "punkin" and mince pies... and golden-brown turkey... It's amazing how a simple telephone call can set the stage for so much pleasure. And yet—the average cost of a local call, including tax, is only about 2 1/2¢. What else does so much for so little?

"Seven Joys of Reading" New Book on Escape in Books

Reviewed by Corinne Jennings
The seven wonders of the world are known to exist by us, but too few know of the seven joys of reading which are just as wonderful. For what would this world be if we could not read and if there was nothing to read?

Mary Wright Plummer in her small book titled, "Seven Joys of Reading" is quite timely for National Book Week being celebrated along with National Education Week November 11-17.

First is the joy in familiarity in reading. It gives us joy and assurance. This we feel in reading such old friends as "David Copperfield", "Mill On the Floss", "Henry Esmond" and other such novels. In poetry there is "Thanatopsis", "In Memoriam", "Snow-bound", and many more.

"The joy of familiarity comes not alone from novels and poems. You can turn at the right moment (and there are mental as well as physical settings for enjoyment) to many an essay, the pages of which show that is where the book has been opened most often."

In the joy of surprise, which may recall childhood, everything is new and unexpected and there are fairy tales for the youngsters and oldsters too. "This most often works in the old book rather than a new one. For example we are astonished often to find in the old what we though modern and that love, compassion and friendship are as old as the hills. And one's respect for Solomon, who said there is nothing new under the sun, continues to grow."

The new books come in for their share of surprises too, in that, one finds something unusual where he had expected to find the average or ordinary.

Third is the joy of sympathy—not the weepy kind we feel as a child when we read and reread the chapters that made us cry—for we no longer find that kind of sympathy a joy. Nor do we mean the anxious sympathy where we re-read hoping to find deepening characteristics in a

character.
"The joy is the finding of a writer who would be congenial with us and does not rub us the wrong way, one who does not explode fireworks in our ear, nor lay traps for our feet but goes along at the same pace we like best, turning aside as we would and coming in neck to neck with us to a common conclusion."

"The essayists are best in this and sometimes it is found in a biography. Even in life, best friendships are based not so much on propinquity and contact as on touching of minds and spirits, and this is ALMOST obtainable in a book."

Appreciation is the fourth joy and belongs to our mature years, the way of saying things. There are refrains that seize us powerfully with some haunting quality and sing themselves in our ears all day. Quick Terms of speech that bring responsive smiles, the use of an old word in a new and exactly fitting sense that gives an accountable thrill of pleasure—word pictures, that have all the color and vividness of those on canvas. The wondering why we cannot say things so since we enjoy them when others say them. The subtle funny things that you do not see until you have passed them—the one you must read about to someone—and the pathetic aspect of things shown by a mere word or two catches unawares and makes a clutch at your throat—and then one realizes the time wasted on common place stuff.

"Expansion is another pleasure which means to be taken out of the ordinary, to make friends with another land, to escape from our own surroundings, to find wider horizons, broader sympathies, deeper comprehensions and a firmer grip on essentials."

"The people who like only one

kind of a book and will read no other, who reads only to confirm their own opinion and prejudices forever miss this exhilarating joy"

Sixth is that joy of shock. "To most of us it is an acquired task and it takes time to make shock a joy. If we make a joy of shock we get from books, our mental circulation becomes wide awake. Writers like these are good for us and we learn new tricks. Ibsen is one of these writers and with the proof."

And last is the joy of revelation. This comes in music, art, sculpture, drama and other arts as well as in reading. So revealing at times one becomes dizzy. Mostly we obtain it in snatches and they are gone before we realize it or can capture it, except for a fleeting instant.

There is inspired reading and writing of this type, and is not only as one would think in a religious book, but in any book written in seriousness. So rare is it that it may not come but once in a lifetime.

Your library is a treasury of books offering you all these joys of reading, points out Mrs. J. J. Boydston, librarian at the Deaf Smith County Library.

niece — upon her lap. Shy, dark-eyed, attractive 12-year-old Jacob could so easily be our 12-year-old. We watch little Hans, five years old, play with our neighborhood children,

though as yet they have no single word in common.

We who have never known despair and fear, who have such an abundance of good things, think we glimpse for an instant something of what is in the heart of Ludwig, husband and father, as he tells us through Annie how much he thanks us and how much he wants to be a

good American. He looks forward to being able to talk with us and wants sometime to give each of us a present.

Oh! Ludwig Kovacs! You who have spent four of your precious years in concentration camps, who have schemed for a little black market milk for your baby while we in our plenty have fed it to our hogs, whose little girl came across the ocean and half way across America with no shoes on her small feet, have given us presents. Who else but you?

We came here tired, overworked farmers, burdened with taxes, bills and payments. We return to our homes rich!

We have more food than we can eat. We have more clothing than we can wear. We have more friends than we can number. We've "got the sun in the morning and the moon in the evening". And we have Vitamin "K", the Democrats, Republicans, and income taxes, but at midnight November 11, 1951, at the end of a very long day, we feel like standing up and singing "God Bless America, Land That We Love."

Herd...

(Continued from page 1)

Kelly off right end for a four-yard exchange that was good for a TD.

The extra point kick was blocked and limped harmlessly off to the right of the uprights.

Hereford had the situation well in hand all night as they have never had it before this season. The Herd took charge throughout the game.

Tulia came into Herd territory four times during the game, but never inside the 30 yard-line.

In the last two minutes, the Hornets tried to sky their way over the Herd bulwark as Luke started hitting Nelson and Hutchens. A Bill Kelly interception off the hurried arm of Hornet Luke stemmed the tide in the last 45 seconds. Ray Graham kept the clock going with sneaks to sew up the game.

Friday's game was the first time since 1942 that Hereford had beaten Tulia in the Hornets' nest. The job in that year was accomplished by Coach H. V. Stanton's regional champion Whitefaces.

Following Friday's thriller, the keyed-up Whitefaces displayed their pent-up emotions by carrying their coaches — Dalton Criswell, Wayne Stark, and Medford Hammon — off the playing field on their shoulders.

Tulia takes undisputed honors in the District 2-AA loop because

of their previous victory over Canyon, who shares a 2-1 record with the Hornets. A league ruling provides for this type of decision in case of ties. Canyon cinched second place in the district with a 25-21 operation on the Floydada Whirlwinds at Canyon.

took up another hobby. Painting glorified glass pictures was Miss Troxell's favorite pastime for a while and she has not yet entirely abandoned the idea.

Her nieces begging for rag dolls gave Miss Troxell the idea

of making rag dolls. She got a pattern and made several for the nieces.

She has almost stopped brooding in favor of hobbies that are easier and quicker to finish.

Miss Troxell gets most of her hobby ideas from hobby books and magazines. She teaches herself in most of her work by getting a book on the subject and then proceeding to learn how to do it.

Miss Troxell keeps a file of ideas for hobbies, pictures to be used in designs and to give her ideas for painting. Whenever she runs out of anything to do she gets out her file and in a few minutes has "forty-eleven different ideas".

One of Miss Troxell's main interests is church work and she is an active member of the Church of the Nazarene. She is often called on to sing for church services.

A lack of time to do all that she would like to do continually bothers Miss Troxell. Her hobbies have to be enjoyed after her working hours at the PMA office, where she is a secretary.

Miss Troxell is always hunting for something different to do, but she puts one limit on her hobbies. She wants a hobby that hobby that she can't finish before she can finish before she loses interest.

Children in Mrs. J. R. Fowlkes' kindergarten are shown in observance of America's oldest celebration. Giving thanks and singing praises to God are part of their daily routine as they learn about Him and His love for little children.

Those seated at left in an attitude of Thanksgiving just before their mid-morning lunch are, from left: Johnny Moore, Sandra Nunnally, David Evans, Doris Ruth Smith, Larry Oglesby, and Ann Brady.

Annual Guest Day of Bay View Observed

Bay View Study club shared the program with special guests Thursday afternoon in its annual guest-day meeting held in the home of Mrs. Francis Hardwick. Mrs. Corinne Jennings was guest speaker for the day and presented a review of the book "The Way West", by A. B. Guthrie.

Mrs. A. M. Jones welcomed the guests and Mrs. Colby Conkright, program chairman, introduced the guest reviewer.

Mrs. Jennings told something of the author's life and works and described his style of writing. She introduced the review by explaining that the 1950 Pulitzer Prize novel is an historical novel dealing with the story of a wagon trek from Independence, Mo., to Oregon, beginning in the spring and ending in early fall.

She said in part "It was patriotism that moved many of them to make the trip—was

Oregon to be British or part of the United States? Throughout the long trip this ideal glowed through Lige Evans, who became leader of the trek, as he was able to inspire others with his stalwart qualities which ripened into true traits of democratic leadership. "Which is the democratic strength? which qualities grow, which wither, which fester, which survive? The answer is found as the authentic story of hardship, death and tragedy that marked the trip, is unfolded". She said.

After the review refreshments were served from a table laid in white linen and centered with a mass of yellow chrysanthemums. Mrs. A. M. Jones, presided at the silver coffee service.

Special guests included: Mesdames Russell Wingert, E. L. Naugle, Howard Armstrong, Bill Kranz, S. L. Waiser, J. E. Kirby.

She gave a practical talk to the young mothers urging them to remember that "You set an example for a child to follow. They seek knowledge, and if parents have not taught them the basic principles of honesty and fair play they won't know them. Parents should fortify and prepare their children for everyday living. "Do unto others as you would have them do unto you" is the rule they live by at Girlstown."

During the social hour when refreshments were served and while chatting over tea cups, Miss Anthony conducted an informal round table of questions

Rev. Roy Ford was guest speaker for the El'Nino Study club Monday night at a meeting held in the home of Mrs. John Jacobsen Jr.

Mrs. W. H. Patton was program chairman for the day and introduced the speaker who spoke on "Children and Religion".

Rev. Ford stressed the importance of the religious life of a child and urged parents to accept the responsibility of early religious training in the home. He stated that "a child will accept the love of God naturally if presented by the parents as soon as the child is able to understand". He closed his discussion by advising parents to seek to understand the child's world, realizing that minute by minute and hour by hour explanations must be given instead of waiting until the child is able to understand the larger answer.

Roll call was answered by nine members and plans were made during the business meeting for pre-Christmas activities.

Besides Rev. and Mrs. Ford,

those attending were Mesdames; Jim Bookout, Byron Durham, O. G. Hill Jr., John Kelly, Sam Nelson, W. H. Patton, Edgar Sky-pala, Bruce Wooddell, and the hostess.

Got Enough?

Lamp bulbs, that is. Enough lamp bulbs for all your fixtures — with spares, too — will assure you plenty of light for your home. Remember, too, that the right size bulb is also important for good light means good sight. Don't use small bulbs for work with your eyes — the strain's too great. On the other hand, don't use large bulbs for decorative lighting where shades and blends are important.

Check your lights and then get enough bulbs for your winter lighting needs at your bulb dealer.

DIMMITT NEWS

Mrs. Garnett Holland on Way To Join Husband in Manila

By Mrs. C. J. Mapps

According to a report from Mrs. Garnett Holland who sailed on the Fred C. Ainsworth for Manila on October 30, she is due to arrive in Guam on November 16. Mrs. Holland is on her way to join her husband, Lt. Garnett F. Holland, in Manila.

Traditional observance of the 33rd anniversary of the end of World War I was not observed in Dimmitt on Monday, the official holiday. On Sunday, the churches were filled to capacity in reverence of the ones that have paid the price and those that are still holding our banner high. Fervent prayers were offered for lasting peace.

Elmer Dixon chauffeured his mother, Mrs. W. S. Dixon, and Mrs. Garland Brown to Rockport, Texas, on November 11. The two ladies have shortened the winter months at this resort for a number of years. Elmer may have to thumb a ride back but Mesdames Dixon and Brown plan to keep Mrs. Brown's new Mercury for their transportation while there.

John Pierce Murphy and family of Hedley, Texas, were among the out-of-town football fans to attend the Dimmitt-Oilton football game Friday night. He also visited his mother, Mrs. Ola Murphy. John Pierce is one of our home boys, and was a top-notch on the gridiron through high school. John Pierce entered Abilene Christian college in 1949. He has pastored the Hedley Church

Christ for the past two years. Mr. and Mrs. Horace Blagg spent last week-end at the home of his parents in Ralls, Texas. Mesdames Ed and Willie Waggoner entered Baylor hospital in Dallas this week for minor operations.

Messrs. and Mesdames M. Hardy and F. Pinkert of Hereford, and Mrs. Grant of California were dinner guests in the home of Mr. and Mrs. E. B. Wright on Sunday. Diversion for the evening was Canasta. Mrs. Faye Holland also enjoyed the Wright hospitality.

Jack Teague, son of Mr. and Mrs. Elzie Teague, a junior at WTSC, Canyon, reports that Dimmitt is well represented. Seven other Dimmitt students are enrolled. Jack is to be commended for the effort put forth in securing his education. Jack is required to spend so many hours in bed; he meets his classes in the remaining hours and is making remarkable grades. This week, "Educational Week" is being observed throughout the nation. Chapel programs, PTA, and other civic organizations of our fair city are promoting this event.

Mr. and Mrs. Jack Gregory and family attended the football game between Austin college, Sherman, and Abilene Christian college. Also, to visit their son, Carol, who is a junior at ACC. A "Dinner Party", stew served at six o'clock Saturday at the home of Miss Hazel Merritt provided very enjoyable as well as luscious. Those partaking of the feast were: Mesdames Myrtle Wright, Willie Waggoner, Faye Holland, B. B. Boren, and Mr. and Mrs. Newman. Miss Jerry Suits, a visitor from Crosbyton, and the hostess. The guests were royally entertained throughout the evening by Miss Suits' collection of movies of Yellowstone canyon.

Mesdames Bob McClean and B. B. Boren were in Lubbock Tuesday in the interest of the "March of Dimes." Little Miss Kay' Lynn, infant daughter of Mr. and Mrs. G. L. Willis, will have Apparillo recorded as her birth place, but she is another addition to Dimmitt's population.

Mrs. Ola Murphy and family accompanied their son and brother, John Pierce, and family, to Abilene Saturday for ACC homecoming and to attend the Austin college-ACC football game.

Miss Hazel Merritt will be hostess for the annual Thanksgiving dinner of the B&P.W. Baked turkey and all the trimmings.

Mr. Dyer Slaton of Plainview and C. J. Mapps attended the registered cattle sale at Raton, N. M. Friday. They were joined by Fred B. Mapps at Clayham. After the sale they motored to the Fred B. Mapps ranch and returned home Saturday.

The Achievement-Awards program held Tuesday night was the best program of the year. Every boy and girl who was to receive an award was present with the exception of two boys who are students in college. Every donor was present.

Those club members, parents and other interested individuals who missed the program truly missed a treat.

The most coveted award is the Gold Star award. This year Thelma Joyce Epting of the Jolly Girls club was chosen the Gold Star Girl of Deaf Smith county.

This award is given by extension service in appreciation to 4-H members and their families for exceptional work done. The girl must be an active 4-H member during the current year and

Texas Top Ranking 4-H'ers

TRIPS to the 30th National 4-H Club Congress in Chicago were given four Lone Star State club members for their outstanding records in the 1951 National 4-H Canning, Field Crops, Garden and Girls' Record programs. The state winners and brief outlines of their records follow:

Better methods of doing everyday homemaking skills proved to be a challenge to Patsy Harris, 16, of Plainview. Her selection as state winner in the 4-H Girls' Record program proves that this versatile young miss is a first-rate housekeeper and manager. Patsy has been in club work seven years and has completed 30 projects, among which are poultry, clothing, canning and home improvement. Her record shows 59 garments made, 2,588 jars of food canned, 630 chickens raised, as well as meal preparation and gardening. One of her favorite projects was the refinishing and upholstering of six pieces of furniture for her bedroom. She is active in all community activities, speaking before groups and on the local radio station and gives generously of her musical talents throughout the county. Montgomery Ward provided Patsy's trip award.

Growing a garden has served a three-fold purpose for Joyce Weber, 16, of Victoria, state winner in the 4-H Garden program. Joyce has supplied the family with a variety of fresh vegetables, reduced the cash outlay for food, at the same time promoting relaxation and good health. Her trip award was presented by Allis-Chalmers. During the four years she has carried gardening she has raised 3,265 pounds of food, canned 887 jars of it. She has also been in clothing for the seven years of her 4-H Club work and taught crafts not only to club girls but to adults as well. Mrs. Fonda Graham, county agent, says that Joyce is known throughout her community as a gracious hostess and for her winning smile.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

They are 75c for 5x7 print and \$1 for 8x10. If you want these leave your order at The Brand office—money in advance, please.

During November, 4-H club leaders have charge of both club programs. The leaders have the club achievement program and also the poultry program.

For making an outstanding record in her food preservation project Virgie McCarley, 18, of Quitman, was named State champion in the 4-H Canning Achievement program. Experimenting with new ideas, she has broadened her knowledge of better homemaking methods through her 4-H art. Home canning also has made it easy to follow the nutrition yardstick and keep the budget low. During seven years in club work, she has canned 471 quarts of food; also made 95 garments, improved 24 bedroom articles, and carried a landscaping project for five years. Two years ago she entered East Texas State Teachers College but still carries 4-H demonstrations on canning and clothing and continues active in church work. Kerr Glass furnished funds for Virgie's trip to Chicago.

Utilizing improved field crop methods has earned state honors for Ray Riley, 16, of Hart, in the 4-H Field Crops program. Long hours and much effort went into learning good farm practices and expert use of farm machinery, but the increase per acre production of food, feed and fibre crops has more than compensated. Seven years in 4-H work, and much individual research and experiment, particularly in the field of seed selection, has brought Ray the title of the youngest licensed certified seed breeder in the State. He has completed 66 projects, is an outstanding leader and has trained judging teams for the last three years. A total of 230 acres in field crops has yielded him an average of \$83 an acre. International Harvester provided Ray's Chicago trip award.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

They are 75c for 5x7 print and \$1 for 8x10. If you want these leave your order at The Brand office—money in advance, please.

During November, 4-H club leaders have charge of both club programs. The leaders have the club achievement program and also the poultry program.

We, Like Pilgrims, Can Count Many Blessings

Thursday, Nov. 22 is Thanksgiving Day. What we now observe as Thanksgiving Day was begun in 1621 at Plymouth, Mass., by our Pilgrim Fathers immediately after the first harvest in their new homeland.

The sincere and forceful emotions that prompted our forefathers to set apart this day as one of special thanks to their Maker can be described in the same simple language in today's complex civilization.

Their problems in 1621 are basically the same we face today.

We like the Pilgrims—are thankful for the bountiful harvest God has blessed us with. A bountiful harvest in temporal things, yes, but even more important, a bountiful harvest in the same spiritual blessing of freedom of worship.

On Thanksgiving Day, 1621, the Pilgrims gave thanks in words dictated by their hearts, not by anyone else. Today we, too, give thanks for that same freedom of speech.

In 1621, the Pilgrims were a guiding

light before a troubled world as they found refuge in this new country where man's equality with his fellow man was inviolate.

Today, as then, America still lights the way for a world struggling against tyranny. In 1951 as in 1621, we can be thankful for our America—a haven for the oppressed.

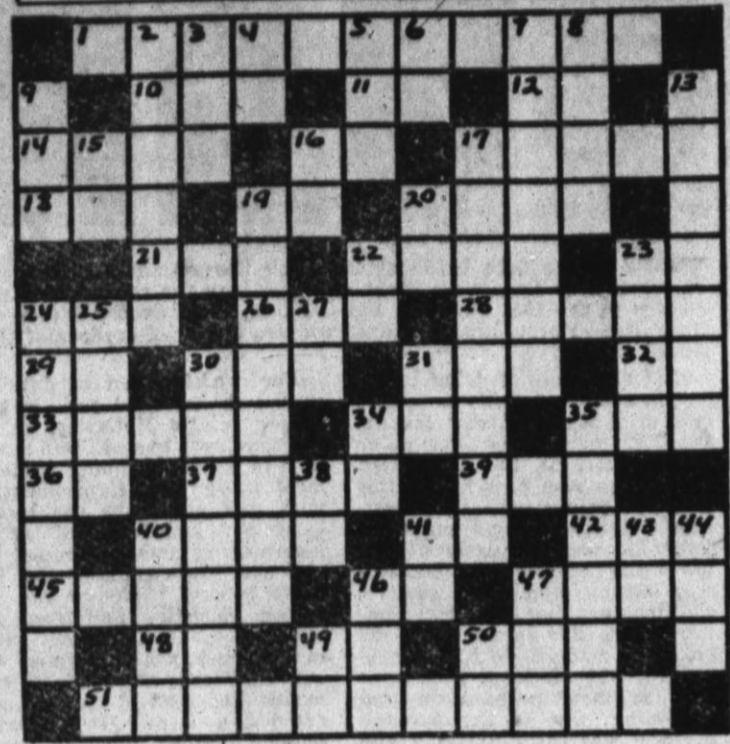

In this day we should thank our Creator for freedom from want and freedom from fear which was bought for us with the life blood of our forefathers, who have taught us how much we have to be thankful for.

Courage and sacrifice established the America of 1621. Courage and sacrifice have preserved this spirit of freedom for all until 1951.

We all have something to be thankful for on this Thanksgiving Day.

As free citizens of a bountiful America, each of us should—in his own way—offer a prayer of Thanksgiving to God for our many blessings.—W. W. K.

I'll Never Forget

In 1890 the ranchers of Deaf Smith and Eastern New Mexico had no law protection except a small Ranger force at Amarillo. Soldiers at Mobeile and Fort Sumner, N. M., got together and organized Deaf Smith county, which had until that time been joined to Oldham county.

October 3, 1890 a special election was held and the county was organized and the center section of the county was designated as the county seat. A town was started there which was called Grenada and later changed to La Platta.

At this time there was nothing on this section of land but grass and prairie dogs. This was 60 miles from Amarillo, the closest railroad. There was not a house in sight on the road from Amarillo to La Platta and but one fence 60 miles. There wasn't a fence from the Terra Blanca creek to the Canadian river.

We freighted everything in wagons from Amarillo to La Platta.

The first road was laid off by the headwaters of the Paladara creek which was later called Dean Past Office. At this time this was the only place we could water our freight teams, so we had to carry our water in barrels on the side of our wagons, it took four days to make the trip to Amarillo and back.

We had to camp out two and sometimes three nights on the trip.

I still think of the nights when it would be snowing and we would have to roll our beds out in the snow and go to bed.

When I arrived the first of November in 1890 there were three or four houses built or under construction at La Platta. The town continued to grow until at one time there were some 28 houses in the town consisting of courthouse, jail, large general store (consisting of a post office, hardware, dry goods, groceries, and implements), drug store, saloon, printing office, hotel, livery stable, blacksmith shop, school house and 18 residences.

One year we had about 65 enrolled in school including several from eastern New Mexico.

One church was organized there, the Presbyterian church while other denominations had

High-Pressure Recruiting Program Not Worth Cost

Representative Walter Rogers did a commendable job of "reporting on his trusteeship" to the people of this area when he addressed civic and business leaders at Hotel Jim Hill last Monday.

Rogers gave his frank opinion on several phases of legislative and governmental procedure and outlined some of the happenings on the Washington scene.

The war cry that he sounded—an alarm over government taxing and spending—is a rallying point across the nation for aroused citizens.

His words, "none of us deny the defense program, but because you call something a defense program doesn't make it a sacred cow," hit a familiar chord in our minds and served to bring another of our "pet peevs" to the fore.

With the military budget—paying for past, present, and future wars—taking 81% of our government's appropriations, we should be especially firm and demand each dollar be put to the best use.

It is with this in mind that we submit the following as one of the first steps in cutting down the military budget:

It is the belief of this writer that the military is forcing upon the American people a flagrant waste in its method of recruiting young men and women for the various armed forces.

In the first place, we have an efficient and patriotic Selective Service set-up doing the job of procuring men for the armed forces.

The members of the board serve without pay as a patriotic gesture. Their services were good enough for World War I, World War II, and the present Korean War.

They have supplied the fighting men—not only for the Army, but the Navy and Marines as well—both in WWII and the Korean War.

Does this suffice? No! In the face of the system of Selective Service—which could supply all the needed men—we have elaborate and expensive recruiting set-ups for all the services.

What does the American public pay for in the recruiting system? Expensive national magazine ads, posters, newspaper ads, "name" bands, radio programs, writers for the programs, top vocalists, "sales" schools, "sales" programs and the necessary literature to instruct our recruiters how to sign a man up.

Our present recruiting is nothing but an expensive program of pressure selling. It is NOT NEEDED. Not with our selective service system.

The allegation that a so-called "more desirable" recruit is obtained through voluntary recruiting is nothing but a lot of hog-wash.

IN MANY CASES, the recruiters get their "leads" off the draft board lists and the recruiter need do nothing but go around and slyly hint of "a better deal" by enlisting.

If that's paying for itself through a ser-

vice to the armed forces, it's a peculiar way to do it.

In addition to the promotional ballyhoo and the expense it entails, consider the personnel costs of the recruiting system.

Although many recruiters are combat veterans who are rewarded for their service with a recruiting assignment, they could be used in other stateside capacities and relieve the manpower clog in the services and free more men for combat.

It would be interesting, if the figures would be made available for public consumption, to compare the cost per man inducted of administrative operations for the Selective Service and the recruiting program of all services.

The comparison would be an eye-opener.

If the draft boards around the country are good enough to supply men during war time and to supplement the recruiting programs of the various services, why couldn't they REPLACE recruiting systems in the interests of national economy?

That idea wouldn't be popular with a lot of brass who would have visions of soft jobs flying out the windows.

The services know better than to try and pull the old one about a "better type" of soldier, sailor, or marine becoming available through recruiting.

Men who were interrupted in their civilian pursuits by the call of their country have always done their share of the fighting and dying and displayed their share of the bravery in wars past and will continue to do so.

We would like to see an attempt made to abolish the razz-matazz that marks the recruiting of our services. "Name" bands or top singers have never been known to lure anyone into the service.

Pumped-up sales talk by the services have hurt more than they have helped.

What our government should worry about is teaching our young men and women that what they have in America is unique in this troubled world. We should tell them of the glories of living in a country where a man may say or do what he pleases as long as it doesn't interfere with his neighbor.

Most of all, we should practice Americanism and we won't have to resort to a lot of cheap glitter and polish to stir the hearts of our young people.—W. W. K.

The utterances of some editors and politicians indicate that they believe in the truth, even if they do not know it.

The law cannot be sustained or crime discouraged by acts of mercy based upon emotional sympathy for the accused or his family.

Nobody has to read a newspaper now that the radio gives the news.

SUNDAY'S CURRENT QUESTION

Local Voters Express Doubt on Truman's Bid For Third Term

Do you think President Truman will be a candidate for re-election in 1952? If not, who do you think is the most likely candidate on the Democratic ticket?

PAUL HARVEY—I wouldn't be a bit surprised if he did. If he didn't run I don't have any idea who might run on the Democratic ticket.

WAYNE EVANS—I think Harry Truman will run but I think Governor Allan Shivers would be a better candidate. However, Shivers would probably feel that he would not stand a chance for nomination or for election should he be nominated. I think that Shivers would be the type of man that we would want for President though.

TROY MOORE—Personally, I don't think that President Truman will be a candidate for re-election. I don't know who might run on the Democratic ticket, but I think General Eisenhower is the candidate most likely to win the election.

HARRY CAYLOR—He won't if Eisenhower comes out on either ticket.

S. B. McLALLEN—I think that he will but I hope that the other side puts up someone that will beat him. If he shouldn't run, I don't know of anyone else who will.

BYRLE ELLISTON—I hope that President Truman won't be a candidate for re-election. I think that if Eisenhower would run he would go over in a landslide. He's the only one besides MacArthur that would make a good president. If Warren or Stassen would run I think the Democrats would vote for them.

'Tater Peelin's

By Roberta Campbell

We almost missed the turkey dinner at Mrs. Stan Barrett's Tuesday evening to attend the 4-H club meetin' but it worked out all right after all because the supply of good food held out in spite of the big crowd that filled the house and we also had the pleasure of seein' the youngsters receive recognition for their year's work.

Course we were proud as punch when our youngun walked up for one of the awards.

Home Demonstration agents sure know how to get a woman to work.

Here we are in a fairly tranquil state of mind because we had plenty to eat and a roof over our head when we left home Thursday afternoon to make a tour of modern homes with the North Hereford Home Demonstration club but after we were so graciously received in those spic and span attractive well arranged residences we came back to our little shanty all in a muddle as to where to start first to make it even liveable.

Perhaps we should take Wes Lizzard's advice and pick out only two or three things at a time to worry about to keep from goin' crazy but even then we wouldn't know whether besides the house we should worry about the U. S. lettin' the Reds continue to use peace talks as a blind to build up an offensive and our corn and dry blackeyed peas still in the field to be gathered, or the weeds that are too wet to burn yet and the Christmas fruit cake that should be made by now.

Then too there is Thanksgiving to give us concern.

We would like to ask our sister (who feeds us turkey once or twice a year) and her family over to eat with us and also some friends who have been especially nice to us but our turkeys are so small that we would have to dress the whole flock and serve them individually like duck so maybe we had better just go visitin'.

services there once a month. There were no other churches organized.

1893 and 1894 were very dry years and we lost the most of our population.

In 1894 we had only 90 voters in the county.

During this drought there were no crops grown so it was either leave the country or go in the cattle business. So all the farmers and part of the ranchers left. At that time it was impossible to make a living farming (Continued on page 5)

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his farm near Bootleg turns his thoughts to economics this week and we don't mind saying he knows as much about that field as any other.

Dear editor:

I was out here yesterday wonderin why I didn't fix up things around this place a little snuggler earlier in the Fall before it got cold, I remember tellin myself there wasn't any use shiverin through another winter, windows on the north side of the house at least could be weather-stripped, but while I'm convinced when it's cold the job ought to be done, when the norther plays out and things warm up, the necessity seems to dwindle away, and while I was sittin by the fire last night I noticed an article in a newspaper stickin out of the kindlin box and since I wanted to warm myself a little better anyway I moved over close enough to pick it up and read where some of the experts in Washington are afraid this country may spend itself to death.

Accordin to them, this country may push itself into economic ruin by over-spendin, and one Senator says "the Russians prefer to defeat us by forcin us to spend ourselves to destruction."

Personally, I don't believe it can be done. We've tried it. The American people have had too many years of rugged experience in over-spendin, to ever go under from that cause. Over-spendin is what gives most people their drive to keep ahead of the installments, is what makes business hum. If all the complainin over Washington over-spendin was limited to the folks who don't over-spend themselves, things would be fairly quiet.

Our whole economy is based on the assumption more people are gonna buy cars and radios and television sets and washin machines than can afford em. If the average man, which includes me, waited until he could afford a car, the number of unemployed fillin station attendants, automobile mechanics, gasoline dealers, new car dealers, used car dealers etc., would put such a strain on the relief rolls Congress would never get through appropriatin enough money to stem the tide.

If you ask me, we're experts at over-spendin, and if Russia or anybody else is sittin back waitin for us to go under from that cause, they've got a long sit ahead of em. If there was ever a country which has mastered the art or spendin more than you make, this is it. I don't know how it's done, but I'm sure in favor of it myself. Renew my subscription to your paper and I'll pay you when I get around to it.

Yours faithfully,

 in this country with the tools we had. They consisted of mold-board plows, harrow and syrup bucket for a planter.
 The cow men that did stay had a pretty hard time staying as we had quite a few handicaps to contend with first was the prairie fires, which we had to guard against every winter. Then the loco weed which came about every three years then we had the bad winters with big snows sometimes two feet deep which would keep the grass covered for a week or 10 days. At this time we depended on the grass for winter feed.
 Now this is what I will never forget—on February 1, 1897 it began sleeting, covering the whole ground about 4 inches with sleet and then snowed about 8 inches on top of that. The thermometer dropped from freezing to 8 below for 21 days.
 My father and myself had about 350 head of cattle and not one bite of feed. The closest feed was at Amarillo and no way to get it but by freight wagon and it was impossible to go 60 miles with a big snow on the ground to get feed.
 We had good wind breaks for the cattle but they stood there 21 days without a bite of feed.
 That is what made my gray hairs and this is what I can

never forget.
 La Platta did a little worse than our cattle for by this time La Platta had lost about all her population. About all that was left were the county officers and my father's family.
 In 1898 the railroad started to build through the county where Hereford is now so in the general election in November, 1898 we voted to move the county seat to the railroad.
 I was glad of this because I didn't want any town on my ranch.
 When the county seat was moved to Hereford we loaded what houses were left at La Platta on wagons and moved them down here.
 There were nine houses moved here including the courthouse and jail.
 Came spring of 1900 where was La Platta nothink but a small pile of rock and the cemetery (LaPlatta, the Ghost Town) was left. Even part of the cemetery is gone. The boot-hill part of the cemetery is now a wheat field and undetectable.
 Mrs. Don T. Martin and Mrs. Dalton Criswell attended funeral services for Mrs. Criswell's grandmother at Throckmorton last week.
 Miss Audrey Hood, student at Texas Tech, came home for the Armistice Day holiday to visit with her parents, Mr. and Mrs. Charles Hood, and friends.

Thanksgiving Beginning Of Pumpkin Pie Season

Thanksgiving starts off what might be called "the pumpkin pie season". From that feast on through Christmas the traditional dessert has its day, running a close second ven at Christmas time to the old-fashioned plum pudding and fruit cake. It furnishes a fine way to end most any menu both delightfully and inexpensively.

Once people taste pumpkin pie made by Mrs. Homer Fox, they never forget it and she receives many requests for the recipe. It is time tested as well as tested for taste and always turns out the same. Here is the basic recipe —

nuts or raisins may be added if desired.

Pumpkin Pie

- 3 eggs
- 1 cup cooked pumpkin (canned or fresh)
- 1 cup white sugar
- 1 cup heavy cream
- 1 teaspoon cinnamon
- 1 teaspoon nutmeg
- 1/4 teaspoon allspice
- 1 teaspoon vanilla
- pinch of salt.

Beat eggs well and add all the other ingredients gradually, bending well. Pour in an unbaked nine-inch pie shell and bake in

400-F oven for 20 minutes. Reduce heat to 350-F and allow to bake 30 minutes more.

Children Problems Lone Star Club Topic

Built around the theme for the day "Children have more need of models than of critics" a program on "Children" was presented at the Lone Star Study club session held Tuesday afternoon in the home of Mrs. Jim Higgins. Mrs. Robert Lingenfelter was cohostess.

Mrs. Higgins, president, conducted a short business session when the annual Christmas party was discussed and plans were made for a gift exchange. Roll call was answered with "A child's unusual pastime."

Mrs. L. L. Wombie gave the first part of the program in a discussion of the subject "Illegitimate children — and Sweden faces the facts". She told of the problems of illegitimate children and their parents and cited inadequate laws which are expected to cope with the problems.

She also told how Sweden has passed laws making the government self appointed guardians of illegitimate children.

Mrs. Jack Grady presented the second portion of the program under the title "Dogs and Children — Not Wanted". This was a frank discussion of the discrimination against children by landlords. She outlined a survey made recently when it was found that in reality, more damage to apartments and duplexes by grown-ups than by children and she scored landlords for placing children in the same class with dogs in considering the rent question.

Those in attendance were: Mesdames Roger Corbett, V. E. Dodson, Leo Forrest, Jack Grady, Berry Jacobsen, John Jacobsen Jr., C. D. Kendall, Vivian Major, Guy Newsom, Coy Phillips, M. T. Sparkman, J. E. Springer, C. O. Wilkins, L. L. Wombie and the ostesses.

How to make old roads seem NEW

PICK a road that you know by heart. Not too good a road. One that has some bumps—some unbanked turns—a tough hill or two.

Then get in touch with us, and let us put you behind the wheel of a Buick, with Dynaflo Drive.*

Now you're all set for a new experience. You'll find out this:

Those bumps seem to lose their bobble. You just take them with a smooth and level stride.

Those unbanked turns don't seem so sharp, and those hills seem almost to flatten out.

How come? Well, a lot of things are different when you travel in a Buick.

You're riding on big, soft coil springs that let every wheel dance beneath you, without passing on the jolts to you in the car.

You're driving a car that's plenty inches broader than it is high—a sure-footed road-hugger if there ever was one.

And you're riding behind a Fireball Engine — Buick's time-tested version of a high-compression valve-in-head — an engine that packs more power than most people ever need to use.

With this power — and with Dynaflo Drive* — you don't have to "rush" a hill at the bottom to soar serenely over

the top. You just feed the power as you need it—climb with a sure, steady swoop without buck or bobble all the way up.

There's a lot more that we could tell you about a Buick. But such things as room, and comfort, the confident way it steers, and the way it shortens the miles are things you can best discover from personal experience.

So why not follow the routine already suggested? You supply the road — we'll supply the car — and let it speak for itself.

Thanksgiving Day Dinner Short Cuts Possible With Home Freezer

COLLEGE STATION —Home-makers the country over are faced with the problem of preparing Thanksgiving dinner and at the same time being able to visit with family and friends during the day. Louise Mason, Extension foods and nutrition specialist of Texas A.&M. College, says advanced planning and preparation plus the use of the home freezer can just about take the homemaker out of the kitchen.

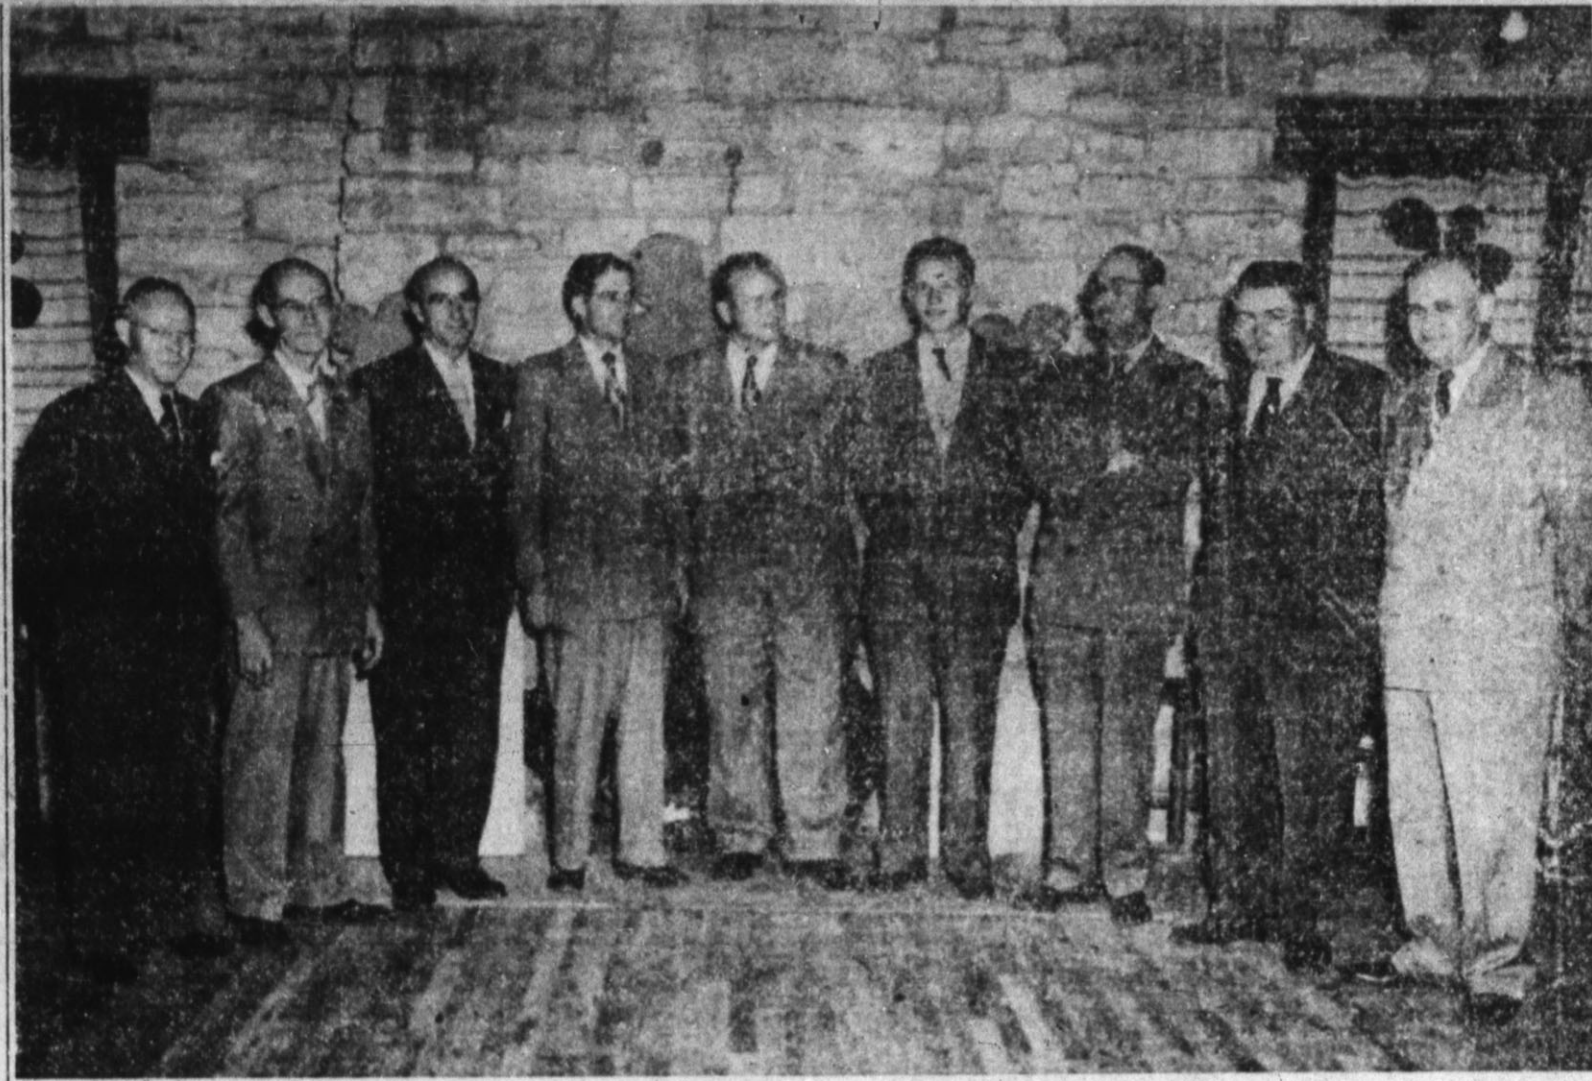

For the Thanksgiving dinner, Miss Mason recommends a traditional meal: roast turkey with stuffing; giblet gravy and cranberry sauce; mashed potatoes; creamed onions with toasted peanuts; string beans; celery; peach pickles; hot rolls-butter; pumpkin pie-whipped cream and coffee.

The turkey can be dressed and stuffed four or five days ahead of time, wrapped and placed in the home freezer. The pumpkin pies

and rolls can be baked and stored in the freezer. The fresh vegetables can be washed and held in the refrigerator. The cranberry sauce can be prepared and stored ahead of time. This advanced preparation will lessen the hustle and bustle of preparing the meal, says Miss Mason.

Other members of the family can help prepare and arrange the table decorations. They may also assist by helping to do the grocery shopping. For after all, points out Miss Mason the Thanksgiving dinner should be a family affair.

The turkey may be roasted with or without a stuffing. The skin should be greased to hold the moisture in and the grease can be applied with a folded cloth that has been dipped in melted fat. Miss Mason says the bird should be placed breast down on a rack and in a shallow

FRIO NEWS

Home Makers in Study of Cake Decorating

By Mrs. Owen Andrews

The Frio Home Makers Club met Wednesday in the home of Mrs. T. L. Sparkman with a guest speaker on the program. Mrs. Mike Cassels of Hereford decorated a cake as she spoke on the art of cake decoration. She mixed her icing and colors at the beginning of the operation and showed various ways of using the decorator. Mrs. E. H. Little also demonstrated making icing roses with another type of decorator.

Present for the meeting were: Mesdames E. F. Vogler, Luther Ellis, Henry Andrews, W. A. Springer, Henry Dobbs, Olin Parris, C. N. McClure, Joe Deavenport, T. L. Sparkman Jr., Sam Lindley, E. H. Little, Frank Robbins, Owen Andrews, Mike Cassels, Miss Alma Andrews, and the hostess.

The next meeting will be on November 28 at the home of Mrs. E. H. Little and will be on "Christmas Decorations." All members are asked to bring any samples of home made or unusual decoration ideas.

Mrs. Floy Grant, of Omard, Calif., visited from Tuesday until Saturday in the W. A. Springer home. Mrs. Grant formerly lived in this vicinity and was here visiting friends and looking after business interests. On Friday afternoon she and Mrs. Springer visited in the home of Mrs. Grant's sister-in-law, Mrs. Egbert Ramsey and Mr. Ramsey.

Mrs. Elbert Summers and children of Hart spent the first of the week in the home of Mrs. Summers' parents, while her husband and Geo. A. Spring took a load of sheep, belonging to the Summers, to Oklahoma for sale.

Mr. and Mrs. W. A. Springer, Charles Ralph, Mr. and Mrs. Geo. A. Springer and Dianna had Sunday dinner at the Summers home at Hart.

Phillips Parrish of Carey visited the last of the week in the J. E. Warrick home. They all visited Sunday night at the W. A. Springer home. On Saturday the Warricks and Mr. Parrish went to House, N. M., to visit in the Will Battles home.

Mrs. H. E. Lindley has been ill most of this week. Mrs. Glenn Grip was expected to be able to come home from the hospital on Thursday.
