TWO VACANT PLACES YET FACE BOARD

G. A. F. PARKER HAS RESIGNED PLACE AS TRUSTEE

MEET SATURDAY

To Choose New Trustees And Organize For Another Year

At the first meeting of the new school board held the first of the present week it was found that two vacancies will have to be filled by the board and some delay in organization for another term will be caused thereby.

President G. A. F. Parker of the board tendered his resignation at this meeting. Without stating his reasons for the action Mr. Parker expressed his appreciation for the support and cooperation given him by board members in the past, stated that he had always been and always would be deeply interested in the welfare of the schools, and offered any aid and assistance he could render in the future. At the same time it was announced that Mrs. L. R. Brady, newly elected member of the board, would not qualify for the office, owing to the fact that a relative is a teacher in the schools.

F. H. Oberthier was elected temporary president of the board, to serve until the two vacancies can be filled, and the new members became familiar with the routine of the work. Mr. Oberthier declined the permanent position as president.

A second meeting of the board will be held at 1:30 o'clock Saturday afternoon, when it is believed the vacancies will be satisfactorily filled and new officers elected and installed.

Marvin Jones to Speak Here Soon; Date Given Later

Congressman Marvin Jones will be unable to attend the luncheon next Monday and address the people at night, but will be here before very long, according to advice received from him this week.

Mr. Jones was extended an invitation by the Chamber of Commerce last Monday to come here next Monday and break bread with the people and talk to them at night. But previous engagements prevent the young Congressman from accepting the invitation on the date assigned. He expressed his appreciation of the invitation and said he would set a definite date in a few days when he could be here and spend the day with the Hereford people.

Business Men Are Guests of Guards At Regular Drill

On invitation of Captain Robert Elliott twenty-one business men and well wishers of the local National Guard company attended the weekly meeting of the Guards in the Army Wednesday night. Part of the visitors participated in a setting-up exercise directed by Sank Ramey and also tried their hands at the manual of arms, creating much merriment by their earnest awkwardness. The special committee of the Chamber of Commerce on Guard and Summer Camp matters, consisting of Ralph Barnett, Sheriff Purcell and Dr. W. F. Gabbert, were present.

President Homer Wilkinson of the Chamber of Commerce made a short address on behalf of the business men, explaining the efforts being made to raise the standard of the Guards in every way, of the necessity for trained military men, and the physical and mental benefits derived from the Guard training, and assuring the boys that the business men of Hereford as a whole are solidly behind them and will help in making their company one they will be proud to claim allegiance to. Captain Elliott stated that a radio would probably be installed soon and that social as well as physical benefits would accrue to any business man who cared to come up Wednesday nights and participate in the exercises and drills. Dr. Gabbert, Medical Reserve Officer for this district, stated that he had a quota of twenty-five men allotted him for summer camp training at the expense of the government this summer, and would be glad to give full information to any one interested. After the formalities were over Captain Elliott put the company through a short drill.

The affair was designed to arouse interest among the citizens generally and also to encourage the members of the company in their work. It was highly successful from every angle and promises a high-class company of the best young men of the community backed by the united sentiment of the moral element of Hereford.

Captain Elliott asks The Brand to stress the invitation to all the people to attend the Wednesday night meetings, either as onlookers or as participants in the physical exercises and drills.

Half Inch Rain Brings Smile to Farmers' Faces

After frowning upon the Plains country all winter and withholding needed moisture for grass and ground season, the Weather Man seems to have suddenly relented this spring and is now making up for past delinquencies in the timeliness and frequency of his favors.

Following the recent splendid rains that started off the farmers and ranchmen on a new season, rejoicing a half inch of moisture came along Thursday night and Friday morning. It was of a rather general nature, too, judging from the following account in the Amarillo News of Friday morning: "The Panhandle-Plains section of Texas enjoyed good rains early last night and the wheat crops have been materially benefited.

"Thirty-five hundredths of an inch rain fell here, beginning about 7 o'clock and continuing for two hours. Indications were that more rain would fall before morning.

"Rainfall, averaging from one-eighth to one-half inch was reported by the Santa Fe from Higgins west to Belen, N. M.; one-eighth to one and one-half inch from Amarillo south to Sweetwater; one-eighth to one-half inch to Artesia, N. M.

"The Rock Island Railway Company reported good rains on its lines from Tucuman to Amarillo. No report was received from the eastern division. The Fort Worth & Denver reported good rains over its entire division, from Texline to Childress."

The many friends in Hereford of R. T. Evans will be concerned to hear that he is seriously ill in the Baptist Sanitarium at Dallas. Sheep Men Securing Excellent Prices For New Crop

Buyers Contract as High As 42½ Cents Per Pound for Wool

Wool prices this spring appear to be better than on many years, and sheep men are predicting that there will be good money in the business for some time to come. Some of the local wool producers this week contracted their output for July delivery at a price ranging from forty cents per pound upwards. Allen Bell and S. Florshelm of Roy, N. M., representing a Boston concern, were the buyers and something like 12,000 head of sheep are concerned in the deal. Among those who sold their wool in this agreement are C. W. Murry, Jim Cox, W. H. Gilbreath, Frank Lambert and Overton Bros. Some received as high as forty-two and a half cents per pound. With the clip here averaging around eight pounds per animal, some idea of what this price means in the way of income for the sheepmen this year can be realized.

Thomas Elmore Lucey, a Famous Entertainer, is Billed Here April 6-7

Mr. Lucey is an internationally known entertainer and Hereford is fortunate in securing the opportunity to see and hear him. Additional information concerning the coming attractions will be given in a later issue.

Two More Golf Matches Played Off This Week

Results announced in the Golf tournament for this week to date since Tuesday's reports are as follows:

Stroke competition, second round—E. B. Posey eliminated J. J. Clark 113 to 119; the wind and rain storm of Thursday afternoon seriously interfered with the accuracy of the players in this match.

Consolation competition—Cliff Estes eliminated Dr. W. F. Gabbert, 99 to 108. Several additional matches are partly played or in prospect as soon as the weather settles.

In all probability the final date for this round, next Tuesday, will be advanced several days, owing to the weather.

Reed, and Mr. and Mrs. Will Sawyer. It is understood the first and last have not yet been named while Mr. and Mrs. Reed announce their new daughter will be called Lawanda Jean.

Next Wednesday April 25 is Big Hereford Day

Next Wednesday, April 25, is Prize Day and Auction Sale Day for the month of April in the campaign of Hereford's merchants known as "Dollar Wednesday".

Prizes to the value of \$100 will be given away to the holders of the lucky coupons and a big Auction Sale of anything brought in for trade or disposal will also be pulled off.

The Auction Sale begins at 1:30 p. m. sharp, and the prizes will be distributed at 4:00. If the weather permits the prizes will be awarded on the vacant lot on Main street; otherwise, it will be held indoors.

Prospects are that the ground will be too wet Wednesday for farmers to work in the field and a large crowd is expected for the prize awards, auction sale and special bargains for the day offered by the merchants and shown in this issue of The Brand.

New Filling Station Will be in Operation Soon

The contract for a new modern double drive-in Filling Station was let Thursday to Contractor Jake Tietel by Glen Snyder and C. L. Roberts. These gentlemen recently purchased the corner lot directly across the street from the Hereford Light & Power Co. from F. H. Oberthier for a consideration of \$2,500 and the new station will occupy this corner, on Third street and east across the street from the fire station.

Mr. Roberts has been a resident of Ranger, Texas, and will bring his family here at once. He is a cousin of Ralph Barnett. Glen Snyder has farmed in this county for several years and is well and favorably known.

The building will be 25x45, with tile and stucco walls and tile roof. It will contain a Ladies Rest-Room and will be right-up-to-the-minute in every way. Construction work will begin as soon as materials can be collected.

TOOK THREE TOP PLACES AT AMARILLO

IN MUSIC MEMORY CONTEST DURING FESTIVAL

THEY RANK HIGH

Music Study Club Claimed To be One of Highest Ranking Clubs

In addition to the honors scored by Hereford junior musicians at Amarillo during the Music Festival recently, three of Hereford's ladies, members of the Music Study Club, captured first, second and third prizes in the adult class of the Music Memory Contest held at the same time. Mrs. G. A. F. Parker took first prize, Mrs. Homer K. Fox second, and Mrs. H. L. Broadwell third place.

For some time past the Music Study Club of Hereford, rated among the most efficient in the Panhandle, has been conducting a local Music Memory Contest in preparation for this test in Amarillo, and the results appear to be overwhelming. Competent critics have for years maintained that Hereford has more and better musical talent of a high order than any other town of its size in this part of the country, and the gratifying results of the contest during the Festival would seem to bear out this claim.

Womble Sells 40 Head Splendid Bulls for \$100

What local cattlemen declare to be the "most uniform bunch of high bred young registered bulls ever shipped out of Hereford by one man went to Deming, N. M., Wednesday consigned to Edgar Timberlake, large-scale ranchman of that section. The bulls were sold to Mr. Timberlake by W. T. Womble, and brought \$100 a round.

The bulls were all around a year in age, large boned, straight backed, well fed fellows, as like as pens in a pod, showing to the eye of even an inexperienced observer the results of fine line breeding and careful selection and mating. Their heads were all good, their horns, none of which had been weighted, all at about the same angle, of extra heavy bone and with heavily-mated hind quarters.

Mr. Womble has one of the best herds, and best ranches in this country and is producing better animals annually than stick out wherever they go. It is understood the purchaser will use the bulls on his big ranch near Deming.

Plans were carefully laid for one of those overwhelming surprises but by the electricity that usually precedes a storm the honorees detected a "change in the weather" about an hour before the clouds blew up. Forty-two proved a most interesting game and afforded much fun and laughter, the hours passing altogether too quickly. Late in the evening sandwiches, coffee and cocoa were served to about sixty guests.

De Laval Separators

Important Considerations in the Selection of a Cream Separator

THOROUGHNESS OF SEPARATION: A separator must be capable of thorough separation with all conditions of milk, whether cows be fresh or advanced in lactation, whether the temperature of milk at separation be 70 degrees or 90 degrees, and whether a 15 per cent or 50 per cent cream be run. The De Laval is the only separator which fulfills these conditions.

SPEED REGULATION: The proper speed of a separator must be regularly maintained and practicable means provided for insuring this. Every De Laval machine is equipped with a Bell Speed-Indicator.

International Sunday School Lesson
For April 21. Moses, Liberator
And Law Giver. Ex. 14:10, 13-22

After Joseph died in the land of Egypt "there arose a new king who knew not Joseph." As a nation Egypt ceased to be generous and friendly and became tyrannical and selfish. To the Hebrew children she became very oppressive, setting taskmasters over them to afflict them with burdens, forcing them to serve with rigor, and making their lives bitter with bondage. When the dynasty of Pharaoh knew no mercy the God of Abraham, of Isaac and of Jacob heard their groaning, took up their cudgel and called a Liberator to deliver them out of the land of Egypt.

In Moses the Israelites found a national leader of the first order, a law giver and intercessor, the like of whom cannot be found in all history. Reared as a prince and educated in all the learning of the Egyptians marked him for the beginning of the preparation required for leadership of a nation of slaves. Luxury and position falls to turn such a towering personality, such a character sublime. He remained ever devoted to his people, ever true to his religion. His visits among his brethren while a young man aroused loyalty and true patriotism within him, his heart fairly burned with a great desire to help his oppressed and enslaved people.

Then for forty years Moses roams over the vast prairies and hills of Midian, away from the courts of Pharaoh, in search of wisdom and training of a deeper and higher nature to better prepare himself for his task before him. His life became rich in many deep religious experiences and one day from the burning bush Moses heard the

voice of the Lord: "I will send thee to Pharaoh that thou mayest bring forth my people, the children of Israel, out of Egypt."

But Pharaoh refused to let them go. Ten plagues were visited upon him and his people, but their hearts were hardened. Not until the death angel visited the land and all the first born of Egypt died, did Pharaoh consent and urge them to leave. Yet when he saw his cities void of workmen he made ready his six hundred chosen chariots, his trained men, pursued the Israelites and overtook them by the Red sea.

And when the children of Israel saw the hosts of Pharaoh coming they were sore afraid. The situation seemed hopeless and desperate. Escape seemed impossible, mountains to the south, sea in front and enemy in the rear. They, a nation of slaves, unarmed and untrained, were to meet a well disciplined foe who many times had been victorious in battle. To die or surrender seemed their fate.

So they cried unto the Lord, the only resource. But with their prayer they mingle a complaint and upbraid Moses for having brought them out in the wilderness to die.

Calmly, and with utmost self control, Moses commands these people, some two million five hundred thousand in number, to "Fear not, stand still and see the salvation of the Lord. For the Lord shall fight for you, and ye shall hold your peace." When there was nothing else to do the battle with them became one of mastering self.

And the Lord said unto Moses "Wherefore criest thou unto Me? Speak unto the children of Israel, that they go forward." Why stand praying

when praying implies action, to "go forward" and prepare, to receive the answer. "Eyes front and keep moving." Explicit directions followed, a miracle was about to be performed: "Lift thou up thy rod, and stretch out thine hand over the sea, and divide it; and the children of Israel shall go on dry ground thru the midst of the sea. An the Egyptians shall know that I am the Lord."

And the angel of God in the presence of a pillory cloud moved from before them and the enemy, leaving the latter in darkness and casting its rays over the Israelites camp, that they might move by day and night.

And Moses stretched out his hand over the sea, and the waters were divided making the passage safe and dry. With a wall of water on each side the Israelites went into the midst of the sea, upon dry ground, the Egyptians pursued, the waters returned and the Lord overthrew them. "Nature is God's creation and obeys His will."

All of us like to think of a reserve to fall back upon in the hour of trouble. In the last analysis, reserve is thrift. Thrift is the opposite of improvidence and waste.

Thrift means better homes, better food and clothes; more comfort and enjoyment; less waste and anxiety. Money is the insignia of labor. It represents an investment in brawn and brain. It is the most elastic reserve.

Money is Power. It means liberty and a freedom from the curse of poverty

Start today in building a reserve. Maybe in a saving account—maybe in a wise investment. We can help you in either.

The bountiful rains that have fallen all over this section of the plains are a great blessing to the country, as it seemed that the grass would not grow without more moisture.

Note above the eight (8) walls of insulating material in the Automatic. You are insured proper refrigeration for every bit of ice you buy. Cold, dry air circulating constantly makes your ice do its duty. Note the arrows showing the air currents.

Insulation like that in the Automatic is a question of honor with the manufacturer. Always look for the Automatic trade mark. Think of the Economy! Think of the convenience; think of being saved from the annoyance of always finding the ice "gone". Think of the saving on foods!

And—The AUTOMATIC WATER COOLING SYSTEM is the most wonderful convenience of all. Ask to see it. We now have a full line on display.

Announcing
The Opening of a New Grocery Store

Saturday morning, April 21, it is my intention to present a new Grocery stock for the patronage of the people of this community. My store is centrally located, in the brick building between the Western National Bank and the Stambaugh Store, and it is my purpose to give to my patrons the best values and courteous service within my power.

My stock will be complete in every particular and include all the standard brands of table necessities and delicacies demanded by good cooks everywhere. And it will all be absolutely fresh, too, just received from the wholesalers. The business will be conducted on a cash basis, without deliveries, and my customers will be given the benefit of close prices made them on all savings from the usual heavy overhead of a grocery store.

I invite your patronage and pledge you a square deal in real values and prices.
