

Splinters

See where they took a man out of the pen to try him for robbery. He already had sentences totaling 120 years. Frankly, a trial of this sort is a farce and only serves one purpose—to provide extra fees for a few officials.

Old Man Winter, who has been loafing on the job so far this year, decided to make a last minute effort to accomplish something and the result was freezing weather the last week. Being what is called a wet freeze it did not do so much damage to fruit, shrubs, and other growing things as it might have done under different conditions. But even if the weather has been chilly we saw a big bunch of butter cups blooming about sundown the other evening and a robin on the courthouse lawn. Robins are not so well known in this section and this one is the first Ye Ed ever saw in the city.

M. M. Briet of the Liotype company was here this week rebuilding the machine which was badly damaged in the recent fire. Mr. Briet lives at San Antonio. He was born in Germany but learned English from an Irish nurse and talks with an Irish brogue. Having been in the trade since 1900 he knows his stuff on rebuilding typesetting machines and ours will now do tricks that we didn't think possible. He is a master of his trade and a fine fellow.

Miss Lucille Stephens of Dallas and Miss Marguerite Stephens of Chillicothe are here this week end visiting their father. Both are teachers in their respective towns.

Parks Wright was a business visitor in Wichita Falls the first of the week.

C.W.A. Work Stopped New Set-Up Will Start April 14

All C. W. A. jobs in Knox county will come to an end this week and no more labor will be used under the present set up, although work is expected to be resumed in a limited manner, April 16, under the Work Division Program being inaugurated to take the place of the CWA. Until that time there will be a number of persons out of jobs and the office force at the county relief office ask that the public list all jobs that they need done and labor will be furnished whether the job is only for an hour or for several days.

Dr. Joseph Easley of Seymour was in Benjamin Wednesday on business. Dr. Easley is a young dentist and originally hailed from Knox county having been raised at Munday. He graduated from the Seymour High School and attended Baylor Medical School at Dallas. After graduation he was connected with the Wichita Falls Clinic Hospital where he practised the last four and a half years. He recently moved back to Seymour and is now engaged in the practice there. Your attention is called to his professional card in this paper.

Mr. and Mrs. Lewis Williams and Mrs. Oran Driver were Wichita Falls visitors Thursday.

Members Soros's Club Entertain with Bridge Luncheon

Mmes. Earl Sams, O. W. Driver and Frank Patton entertained with a bridge party at the Sorosis club rooms.

Easter suggestions were used in bridge assortories.

Mrs. J. J. Driver won the prize for high score and Miss Hazel Ivey the consolation prize.

A salad course was served to the following guests: Mmes. Atterbury, Armour, Armstrong, Brookreson, Bisbee, J. J. Driver, Galloway, Gardner Hudson, Haynie, L. C. Moorhouse, J. B. Moorhouse, Leroy Melton, H. T. Melton, Walter McMeans, Propps, P'Pool, Rouse, Morrison Sams, L. M. Williams, Weaver, Waldron, Grady West, W. T. Ward and A. H. Sams

Misses Mabel Moorhouse, Helen Bisbee, Catherine Jones, Joy Sams, Hazel Ivey, Grace Bisbee, Elizabeth Myers, Frances Moorhouse, Annie Lee Wright, Sarah Wright.

Out of town guests, Mrs. Glenn Burnett, Truscott; Mrs. Tommie Glover, Seymour.

THE CHILD WHO WILL NOT EAT

When the child is old enough to feed himself, which should be when he is eighteen months old, he should be given twenty minutes to finish his food, and if he has not finished it in that time, the dishes, food and all should be removed without any comment being made. He may refuse for three or four meals, but he can go without food for one or two days without harmful results if he is not sick. When he finds that not eating fails to attract attention, he will want to satisfy his hunger. Success or failure depends upon the parents. If there is one bit of over interest or concern shown, the whole battle will have to be fought over again.

A parent should never shout at a child, punish him, nor plead with him in order to get him to eat. Nor should the parent entertain him at meal-times with singing, talking or reading, or in any way in order to get him to take his food.

Foods and the eating of them should not be discussed with the child, or with anyone else in the presence of the child. In every way possible, the child should be made to believe that the parents care little whether he eats or not, and then the appetite will take care of itself.

The food should be simple, of the right kind, cooked in the right way, served in an appetizing manner in clean surroundings. If a child is offered burned, under cooked, or highly seasoned foods, he will not take the same kind of food later on when it is cooked properly.

Each meal should be served on time and at the same time each day.

No food should be given between meals unless all the food is eaten with good appetite at each meal.

Meal time should be a happy time. The child should not be given food when he is tired, cross or angry, for the appetite is poor at such times.

Only small amounts of food should be put on the child's plate at one time. The amount he will eat should be found out and just that amount and no more should be give.

The mother may sit by the child when he is eating, meanwhile occupying herself with sewing or something of the kind but she should never seem over concerned about his eating.

The parents' example goes far in training children to eat properly. Children tend to do as father and mother do, and the youngsters are apt

(Continued on page four)

Location Made For Wildcat Test Near City Goree

Christie and associates of Olney have filed application for a permit to drill an oil well near here. According to the latest information, active work will begin as soon as the permit can be secured and the machinery put on the ground.

The location has been made on what is known as the Hampton farm about one-half mile northwest from the northwest corner of the town-site. The well will be about 300 feet from the south line of the above tract and about five hundred yards west of the road that runs from Goree to Hefner.

The report that an oil test would be made here brought a number of oil people in the country lately. Rumors are current that two or three other oil companies or individuals are interested and may start a test here sometime soon.

The beginning of operations here again recalls the experiences of companies in this territory during the past fifteen years. Several tests have been made in this immediate territory and in every case some oil has been found. Every test that has been made near Goree has found quite a lot of gas and oil showings. A fair showing has been found in all these wells before reaching a depth of 1,000 feet, another at about 1400 feet and still a better sand at 1800. It is believed that one well about a mile southwest of town would have been a fairly good producer had it been given a shot or given the acid treatment that is being used in the oil fields today.

Those who have been living here during the past few years since the first test was made in this territory are the ones who are most confident that the territory will some day be an oil field. However, regardless of whether a test will open a new field, the people here are glad to see the test made.—The Goree Advocate.

Track Meet Will Be Held Here On Saturday, March 31

The county interscholastic track meet, which was scheduled to have been held here Saturday, but which was postponed on account of the rain and inclemency of the weather, will be held Saturday, according to an announcement made early this week by Supt. J. Horace Bass.

The field for the events will be in much better condition than it would have been had the meet been held last Saturday, as the rain has settled the newly graded street where the events are to be held and it will be in fine condition for the meet Saturday and students from all sections of the county will be here to compete in the events.—Monday Times.

1.25 Inch Rainfall With Cold Weather During Past Week

The Benjamin country is jubilant over another fine rain which fell Sunday, and which amounted to approximately 1.25 inches, bringing the total rainfall here for March up to near three inches. The rain was followed by a cold snap which made the populace wonder if there was not some mistake about the Easter season being at hand, but it's like that out here in West Texas.

Good Road Ass'n Urge Fed. Appropriations For Texas Roads

Houston, March 29—All but approximately \$5000000 of the present \$26000000 NRA road-building program for Texas is now under contract, and unless Congress sets aside added funds for highways in the new public works appropriation, tens of thousands of Texans will be thrown out of work this autumn and the state's hope for adequate main roads for its Centennial will be blasted.

This was the warning issued by the Texas Good Roads Association today through its president, Judge W. O. Huggins of Houston, who appealed to all influential Texans to impress upon members of Congress their wishes regarding provision of funds for roads.

Col. Ike Ashburn, manager of the Association, has been in Washington for two weeks urging the case of road construction upon congressmen, senators and administration leaders. In company with officials from other under improved states, he has been pleading for an added \$400000000 especially for highways.

This would provide Texas with another \$24000000, duplicating the present program which spreads over every one of the state's 254 counties on a minimum basis of \$4 per capita.

The present program will reach its peak in June or July and begin dropping off thereafter at the rate of \$2000000 to \$4000000 per month, throwing thousands out of work unless the supplemented appropriation is made the statement said.

Hope of closing the gaps in Texas' main roads for her Centennial and in order to boost the tourist hiegra to Mexico hangs on getting this federal money, it added.

Col. Ashburn wired his office this week that congressional leaders have promised early consideration of the \$400000000 fund, which was reported favorably by the House Committee on Roads last Wednesday, and asked all interested motorists to let their opinions be known to their representatives.

GILLILAND 4H CLUB NEWS

The Gilliland 4H club girls met at the Gilliland school auditorium Wednesday March 21 for their regular meeting in clubwork.

The meeting was called to order by the president. As the secretary called the roll each member answered by giving the improvements that she had made in her clubwork since the last meeting. Immediately following the roll call, the secretary read the minutes of the last meeting.

The girls presented the designs for our tufted bedspreads, and Miss Faulkner taught us how to do tufted hand work.

Most all of the girls are planning to lay twenty five feet of tile and to plant their tomatoes. All the girls have their club pins and the buying of uniforms has been discussed. A committee has been appointed to select a play to be given by the club the receipts of the play are to finance at least two club members to the Farmer's Short Course at A and M College.

Those present were demonstration agent Miss Faulkner, sponsor Mrs. Omar Cure and members Fayè Cure Gladys Martin Frances McGuire Mary Etta Eubank Martha Lois Meek Eva Lea ilcrease Elsie Snow Gertrude Cure Erna Lee Welch Ruth Woods Willie Lou Combest Lucille Riley and Bertha Mae McKinny.

Cotton Ginnings of County Reach 56,374 For Year

Cotton ginnings for Knox County for the year 1933 reached a total of 56,374, as compared with a total of 65,888 for the previous year, according to figures given out this week by Hoyle A. Sullins, enumerator for the Department of Commerce.

Sheriff Elliott Goes To San Tone For Wanted Mexican

Sheriff C. R. Elliott left Wednesday morning for San Antonio to bring back Charles Gonzales, one-arm Mexican, who is under indictment in Knox County for violation of the liquor laws, and who has been taken into custody by San Antonio officials.

Gonzales was indicted at the last session of the grand jury as a result of evidence introduced before that body, and the Mexican is alleged to have sold liquor here during the fall, having operated an eating place in the south part of the city, from which place he is alleged to have sold liquor. He left here shortly before the grand jury convened and has just been apprehended in San Antonio.

Mrs. Elliott accompanied Mr. Elliott on the trip.

Training School To Be Conducted At M.E. Church

A Sunday school training school for the Stamford district for all points in the district north of Haskell, will begin Sunday afternoon at the Methodist church with a capable corps of teachers. The opening session will be held at the church at 3 o'clock Sunday afternoon and sessions will be held each evening during the week following, and a number of courses will be offered.

Man Wanted Here On Liquor Charge Held At Littlefield

Sheriff C. R. Elliott will go to the plains the latter part of the week to return "Slim" Langford, who is under indictment in Knox County for violation of the liquor laws, and who has been placed under arrest and is being held in jail at Littlefield awaiting transfer to this county. Langford was indicted by the recent grand jury.

Easter Style Show At Roxy Theatre Draws Big Crowd

An Easter Style parade that reflected much credit on its sponsors, the Hat Shop, was given at the Roxy Theatre Tuesday evening. Tall baskets of Easter lilies flanked on either side by baskets of springtime flowers made a pretty setting for the youthful models as they paraded across the stage. Miss Merle Lowe, standing at one side of the stage, announced the models and described the dresses. Miss Maxine Lane wore a morning dress of linen Reding gate style, round up sailor and white sport shoes. Miss Angel Jones, wearing a linen college campus frock, a white linen sport hat and white pigskin shoes. Mrs. Ike Huskinson wearing an imported pure Irish linen Carcraft sport suit with stitched linen hat, patent trim and white shoes. Miss Mary Couch wearing the new homespun Devine suit, brown trim, blouse of net embroidered with Augora, brown milam hat and white shoes. Miss Irene Clifford wearing

a striking frock of dotted navy sheer navy crepe coat, white hat and shoes.

Miss Virginia Atkeison wearing a Baucle suit of aquatone blue with white trim, large white plate sailor and white shoes. Mrs. Hubert Isbell wearing a wash crepe yellow trimmed in aquatone blue, natural ball buntle hat, white pigskin shoes. Miss Hazel Clough wearing a college campus frock in beige with brown moire trim, plate sailor with brown moire crown, beige shoes.

Mrs. L. M. Palmer wearing a navy blue Mildred frock of corded sheer with pique trim, navy blue hat of Sisol straw and blue shoes. Miss Louise Ingram wearing a homespun sport red trim, with pique panama hat with red trim and red sandals.

Miss Maudie May Bennett wearing a Mildred frock of blue moss crepe with white trim, white hat and white shoes. Miss Betsy Reeves wearing a college campus frock in powder blue organdie trim, white rough straw and white shoes. Miss Evelyn Williams wearing a navy blue frock, white trim Gayland hat and blue moire crown and bow and white shoes. Miss Mauvoren Reeves wearing a college campus in a mellon red with organdie blouse and trim, white linen hat and white shoes.

Mrs. Joe Davis sang "Alice Blue Gown" while afternoon and evening gowns were being modeled, led by Miss Louise Atkeison in a blue embroidered organdie with large flop lace hat with blue trim. Miss Maxine Newsome a lovely shade of peach organza, hat of hair braid. Miss Darwin Campbell in a pink organdie with hair hat to match.

Miss Lorene Parker in a black and white lace sheer crepe with large black lace hat. Miss Launette Hand in an evening gown of printed chiffon with taffeta coat. Mrs. Irene Dickerson in a pale green evening frock of crepe with pleated ruffle of chiffon trim.

Miss Inez Campbell in a stunning red pleated organdie with red taffeta coat.

The hit of the evening came when little four year old Sarah Lou Dillingham appeared as Mae West gowned in a beaded evening frock with the Mae West curves and wearing a horse hair hat turned high on the side and trimmed with green and pink ostrich feathers, carrying a beaded bag and wearing silver slippers, and glittered as only Mae West could.

While Mrs. Joe Davis sang "Easter Parade" the models paraded across the stage and down the aisle.

Much favorable comment was heard on this, the Hat Shop's first offering of a style show, and a large crowd gathered at the Roxy for this spring event.

Ruling of Cotton Chief That Tenant Will Be Protected

Believed to be the outgrowth of discoveries that some landlords were attempting to deprive tenants of their share of federal cotton money, stringent rules have been sent all county agents in cotton producing

states by C. A. Cobb, chief of the cotton production section of the agricultural adjustment administration.

The ruling declares that any contracts obtained by subterfuge will not be accepted by the AAA, and that any money paid on the contracts will be subject to recovery by Secretary Wallace, whose approval is given the rulings.

The ruling holds that no contracts signed either by a landlord or a tenant will be accepted if it appears there exists an agreement of any kind, made before or after the signing of the contract, if such an agreement would have any of the following effects or purposes:

To obligate either landlord or tenant to pay to the other his share of any benefit payments under the contract.

To change the status of any tenant for 1934, whether the tenant rents for cash or a share of the crop or for the purpose of causing the contract to be signed by the landlord as producer in order to deprive the tenant of any part of the payments or of any other right or privilege.

To reduce the tenant's proportionate share of the crops raised on that part of the farm not rented to the government.

To increase the rent paid by the tenant for the part of the farm not rented to the government.

To give any reason to believe that the owner or landlord has adopted any device or scheme of any sort for the purpose of depriving the tenant of his share of the payments or of any other right of the tenant under the contract.

Any contract will be subject to cancellation if the landlord and tenant have entered an agreement either before or after signing, and any payment under any such agreement out of the federal money will be subject to a trust in favor of the Secretary of Agriculture and will be repaid to

the secretary by the person receiving it, in addition to costs of collection, the secretary to have the right of collection if he deems it necessary to effect the purposes of the adjustment act.—Exchange.

GILLESPIE CLUB REPORT

The Gillespie Home Demonstration Club met Wednesday, March 28, at the school building. There were ten members present. They were Mrs. R. L. Myers, Mrs. J. G. Swaner, Mrs. C. H. Harrell, Mrs. L. L. Womble, Mrs. W. C. Kimbrough, Mrs. Roscoe Partridge, Miss Harrell, Mrs. L. M. Melton, Mrs. E. E. Nix, and Mrs. J. L. Hughes. Our president, Mrs. R. M. Almonrode is in Lubbock attending the meat show.

On April 13 and 14 there is to be a Dairy Show at Albany. There will be no entry charge and the judging is to start Friday at 10:00 a. m., April 13.

Our club should have at least one product for each entry. There are five entries. If any of the ladies would like to go, it would be well to notify Miss Faulkner or Mrs. Almonrode before April 7. Those who will make entries, have them ready by our next club meeting, Wednesday April 11, and Miss Faulkner can get them then—all except milk or cream.

Council meeting meets Saturday, April 7. May each member make out her report of what she has done this month and give it to Mrs. Roscoe Partridge or Mrs. J. L. Hughes in time for the report to be made and carried to Benjamin.

After the meeting the club was invited to Mrs. Harber to attend chapel. At this time the girls who lettered in basket ball, eight in number, were surprised with new sweaters.

By Frank Parker Stockbridge

CLIMATE . . . crop control

One result of the severest Winter known in the East since Valley Forge is that the ground has frozen to unprecedented depths in some parts of New England. Following a season of the most abundant rain for several years, with the soil well moistened, the frost-line has gone as deep as six feet in my own Berkshire County.

We had two years of severe drouth which lowered the water-table ten to fifteen feet. Then we had two years of rains and open winters. This Spring the melting of the heaviest snowfall in a century has flooded all the valleys, washed out bridges, and inundated low parts of many towns.

My guess is that it will be mid-June before my river meadows are dry enough to till, and at least that late before the chill gets out of the upland soil.

It won't take drastic action on the part of the Federal Government to reduce agricultural production this year in New England.

PESTS . . . few survived

This ought to be a good year for fruit trees in the East. Agricultural biologists tell us that the San Jose scale, the codling moth and other tree pests whose larvae hibernate in the ground, have been pretty well killed off by the extraordinary penetrating cold weather. Rabbits squirrels and field mice, like all the other warm-blooded wild animals will be comparatively scarce next Summer. I hear reports of many deer having been frozen or starved to death in the woods around my farm, and there is some reason to believe that the frost got deep enough into the ground to kill off a good many woodchucks, though they are pretty tough critters to get rid of.

I look for more than the usual volume of raid on chicken-houses by red foxes this season, for those animals usually survive any sort of Winter, while the smaller creatures which are their natural food succumb.

FINGERBOWLS . . . in England

Until Edward VII, father of the present King of England, ascended the throne in 1901, there had been no fingerbowls on the royal table for two hundred years. That was because many of the English nobility believed that all the kings and queens of England since James II were usurpers, and that the rightful king was one of the House of Stuart in exile on the Continent. So when the toast to the King was drunk they would hold their wine-glasses over the fingerbowls and thus drink to "the King over the water."

There are no lineal descendents of James now living, but the memory of the "Jacobite" rebellion—so called because "Jacobus" is the Latin word for James—is kept alive by a secret society known as the Order of the

White Rose, which has branches in the United States as well as Canada, England and Scotland, so one of my friends who belongs to it told me the other day.

"It's nonsense, of course," he said, "but no more than any other secret orders whose important function, after all, is to get men together in goodfellowship."

LINDBERGH . . . his place

All doubt as to whether Col. Lindbergh is still the great popular hero of the American people was dispelled when his appearance before the Senate Committee investigating the air mail drew the largest crowd that has ever attended such a gathering. The eagerness with which folk listened over the radio to his testimony, and the applause which greeted him everywhere in Washington, the columns which the newspapers printed about him and what he said, and the universal approval of his modest yet well-considered statements, have, I believe, increased his popularity, if that were possible.

After all, the underlying commonsense of the American people has always discriminated between the mere notoriety-seeker who is always talking about something—usually himself—and the man of character and achievement who keeps his mouth shut when he has nothing important to say.

H. D. CLUB.

ITINERARY OF JEWELL
FAULKNER, CO. AGENT,
FIRST WEEK OF APRIL

Monday—Office.
Tuesday—Sunset and Hefner girls, Hefner women, all-day meeting, agent will check foundation patterns in afternoon.

Wednesday—Dixon and Gilliland girls, Gilliland women, all-day meeting on making foundation patterns. Agent will check patterns in afternoon.

Thursday—Truscott girls, Antelope Flat women, all day meeting on making foundation patterns in home of Mrs. C. R. Haynie, with agent present.

Friday—Union Grove girls, Knox City women, all-day meeting on foundation patterns.

Miss Jewell Faulkner, Knox County Home Demonstration Agent and Misses Margaret Shannon and Mary Helen Partridge. Sunset 4-H club girls left Wednesday for Lubbock to attend the Quality Meat Show.

Mary Helen and Margaret will enter the meat team demonstration contest for 4-H club girls and will demonstrate the preparation and canning of mincemeat and feature the finished products using mincemeat they have made.

ALBANY DAIRY SHOW

Entries of American cheese, cottage cheese, butter, whole milk and market cream will be made in the Albany Dairy Show, April 13-14 by many Knox County Home Demonstration Club women. The judging of these products will begin at 10:00 April 13. A judging demonstration

will be given Saturday, April 14 at 10:00 o'clock by the judges who will be from Washington, D. C., and College Station.

Another feature of this show on Saturday will be a dairy products judging contest in which any club member or farm woman is eligible to enter. The names of these contestants must be sent in by April 7. It is hoped that Knox County will have several women to enter this. The products to be entered should be prepared as follows and in the agent's office by Thursday, April 12.

American Cheese, 1 pound, in pint glazed cartons and contain salt to taste.

Butter, 1 pound, in rectangular mold, wrapped with waxed paper and covered with plain carton.

Sweet milk, whole milk exhibited in quart bottles with standard caps. Market whipping cream in pint milk bottles—standard caps.

NOTICE: I have what is known as the Jones pastures just south of Benjamin leased, and I positively will not allow any wood hauling, stock grazing, or trespassing of any kind by anyone. This means you.

CAROLINA

RHINELAND

This week is an active one for the communicants of the Catholic Church at Rhineland. It is known as Holy Week. On Wednesday, Maundy Thursday, and Good Friday evenings Lenten services, including Stations of the Cross and Lamentations of Jeremiah the Prophet, will be at 7:30. On Holy Saturday evening at 7:30 resurrection services will be held. During these services the Blessed Sacrament will be transferred again to the high altar to rehabilitate the tabernacle after an absence since Friday's Mass of the Presanctified.

At 8:00 o'clock Sunday morning our principal Easter services will take place. The High Mass will be sung by Rev. Boniface, O.S.B.

The choir under the direction of Mr. Hoffman, who is also the organist, has been doing much work to carry out its part in enhancing the beauty of the Easter services. The repertoire for the occasion includes a wide range of musical selections, from the simplest monotonical recitations to the more difficult classical compositions. The following is the program:

1. Vidi Aquam II—by C. Witzka.
2. Proprium Missae
- a. Introitus—by A. Edmonds Tozer
- b. Graduale—by A. Edmonds Tozer
- c. Offertorium—Terra Tremuit—by Carl Greith
- d. Communio—by A. Edmonds Tozer

3. Ordinarium Missae
(Mass in Honor of St. Peter—Gruber)

- a. Kyrie
- b. Gloria
- c. Credo
- d. Santus
- e. Benedictus
- f. Agnus Dei
4. Regina Coeli, Laetare—Antonio Lotti

The choir is composed of the following singers:

Sopranos: Misses Mary de Aguirre Loretta, Gertrude and Victoria Kuehler and Frances Diarsing.
Altos: Misses Leona Albus, Martha

and Monica Loran and Frances Bruckner.

Tenors: Messrs. L. Loran, Victor Diarsing, Edward Stengel, and Raymond Wilde

Basses: Messrs. John J. Hoffman, Peter Loran, Alfred Diarsing, H. N. Claus and U. R. Houser

Our English teacher, Miss Mary de Aguirre, who has been absent from school several weeks, paid our school a visit last Monday. She will begin teaching in a few days and we are glad to know that she will be back with us again in a few days.

Mr. and Mrs. John J. Smith and children of Wichita Falls spent last Saturday here visiting relatives and friends

Mr. Alfred Homer, who is in Wichita Falls taking treatments spent last Saturday in the home of his

Mr. John Albus and son Clement, made a business trip to Dallas, on Friday of last week.

The following were visitors to Wichita Falls during the past week: Messrs. Joseph Blasche, Kilian Homer Jr., John Schumacher, John Albus and son, Clement, Mr. and Mrs. George Petrus, Mr. August Schumacher and son, Robert.

Capital News Letter

By W. D. McFarlane,
Member of Congress

Our Money and the Constitution
WASHINGTON, March 29, 1934.—
Article 1, Section 8 (e) "The Congress shall have power to coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures." (Constitution of U.S.)

Recently I called to your attention the tax exempt Government Bonds which are now costing the tax payers more than \$700,000,000 annually with \$10,000,000,000 additional tax exempt bonds authorized by the 73rd Congress, which with the now average interest rate, 3 7/8% would add \$378,000,000 additional expense. Last week the House passed the bill authorizing payment of the Adjusted Service certificate by a vote of 295 to 125 through the issuance of new non-interest bearing currency. This would place nearly \$5,000,000 in new currency in circulation in the 13th District, and would actually cost the Government only the cost of printing the money and this expense would be nominal. The Government is borrowing \$112,000,000 annually from the bankers to create a sinking fund to retire this indebtedness in 1945 and the Veterans Administration for this department is almost \$1,000,000 annually; this expense could be saved by payment now.

Nearly all the veterans have borrowed 50% of their certificates and if not paid until 1945 the interest will practically eat up the balance due. We need some NEW MONEY in circulation NOW. This money, if immediately placed in circulation, would immediately increase the values of all property and would be worth millions in increased valuation added to all kinds of property and would start the wheels of industry moving in an increased ratio in the right direction—would mean more employment.

Production and Consumption

Our greatest problem is not over production but under consumption. Bank credit is gone. Our big problem today is; how to distribute goods which we can produce in such abundance. Otherwise, we are threatened with the fate of starving in the midst of plenty or destroying ourselves in a greater world war. The crux of the situation is the present financial system. It is the bottle neck between the goods which are there and the people who want the goods. Money should be subordinate to production and consumption; as matters stand today industry and the consumer are subordinate to money. The tail is wagging the dog.

This is caused by the fact that money is issued and destroyed by the money-monopolists (the bankers) at a false rate; at a rate that suits their trade as dealers in money. Like all monopolists, they seek to increase the value of their wares by keeping them in short supply. By their absolute control of money the bankers control in principal all industry

and all consumption (i.e., the standard of living of the whole community.) They also control the political government, which can only carry on the services of the nation the banking system is today the real government of this and every other country.

The banks do not own the nation's credit, although they act as if they did. They create it and account for it, but it is not their property. The only real basis of credit is the nation's power of producing goods and services, using all available skill, organization, labor, plant, etc. This belongs to the nation as a whole. At present it is hypothecated by a group of private trading companies (the banking system), responsible to no one but their own shareholders.

The Remedy

Our problem today is to make a \$500.00 income buy commodities priced at \$1250.00. In order to do this we must stabilize our medium of exchange and tie it to the commodity price level so that earnings and expenses will fluctuate together. Since the bankers in the '70's were allowed the right to issue new money and credits used in this country we have periodically had booms and crashes. Since the 1929 crash the people have become awakened to the situation and are now determined that the constitutional provisions of Article 1, Section 8 (e), above quoted shall be returned to the people and that Congress shall fulfill its long neglected constitutional duties and that the Government alone—"shall coin money and regulate the value there-

CITATION BY PUBLICATION

To the Sheriff or any Constable of Knox county—Greeting:

You are hereby commanded, that you summon, by making Publication of this Citation in some newspaper published in the County of Knox if there be a newspaper published therein, but if not, then in any newspaper published in the 50th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 50th judicial district, for four weeks previous to the return day hereof, Chas. H. Plumlee whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, in Benjamin, Texas on the 4th day of June, A. D. 1934, the same being the first Monday in June, A. D. 1934 then and there to answer a Petition filed in said Court, on the 10th day of January A. D. 1934, in a suit numbered on the docket of said Court No. 2418, wherein Alice M. Plumlee, is plaintiff and Chas. H. Plumlee is defendant.

The nature of the plaintiffs demand being as follows, to-wit:

Suit for divorce, costs of suit, plaintiff alleging abandonment for a period of more than three years, further asking for the care, custody and control of three minor children, namely: Zella Theo Plumlee; Chas. H. Plumlee Jr. and George Raymond Plumlee, and for general and special relief.

Herein Fail Not, And have you before said Court on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Benjamin, Texas this, the 28th day of March, A. D. 1934.

Mrs. Rowena Phillips,
Clerk District Court Knox County, Texas.

Get Rid of Malaria!

Banish Chills and Fever!

To conquer Malaria, you must do two things. (1) Destroy the infection in the blood. (2) Build up the blood to overcome the effects and to fortify against further attack. There is one medicine that does these two things and that is Grove's Tasteless Chill Tonic! The tasteless quinine in Grove's Tasteless Chill Tonic destroys the malarial infection in the blood while the iron builds up the blood. Thousands of people have conquered Malaria with the aid of Grove's Tasteless Chill Tonic. In addition to being a noted remedy for Malaria, it is also an excellent tonic of general use. Grove's Tasteless Chill Tonic is pleasant to take and contains nothing harmful. Even children like it and they can take it safely. For sale by all stores.

From page one. The child who will not eat

to become fussy or "finicky" in their eating, if that is the habit among the grown ups. Therefore wise parents, who wish to give their children a balanced diet, will overcome their own dislikes for certain foods in order to train their children to eat them.

Above all they should ever threaten bribe nor use force in order to get the child to eat.

Wonders of Science and Invention

OVER 400 PICTURES

Pictures tell the story. The articles are short, concise, and fascinating. Here are a few subjects covered:

- Arts and Craft Work—Astronomy—Automobile Repairing—Aviation—Boat Building—Care of Tools—Chemistry—Electricity—Home Made Furniture—Hunting, Fishing—Ideas to Make Money in Spare Time—Jigsaw Work—Metal Working—Model Making—Motion Pictures—Radio—Toys—Wood Turning.

"Written So You Can Understand It"

Told In Simple Language

Would you like to keep posted on all the new developments in this remarkable world of ours? The new Inventions—the latest Scientific Discoveries—the amazing Engineering Feats—the progress made in Aviation—Radio—Electricity—Chemistry—Physics—Photography, etc.? These and many other fascinating subjects are brought to you each month through the pages of POPULAR MECHANICS MAGAZINE.

Something for Everyone!

Special departments are devoted to the home craftsman and practical shopman. The radio enthusiast has a large section filled with news and helpful information on construction and maintenance of both transmitting and receiving sets. For the housewife, there are scores of hints to lighten her daily tasks... It's the one magazine everyone in your family will enjoy.

When You Discuss Electrical Appliances

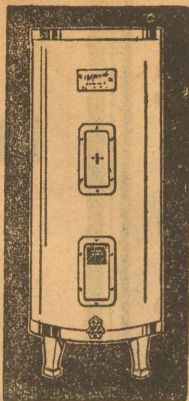

What are the most important operations of your home?

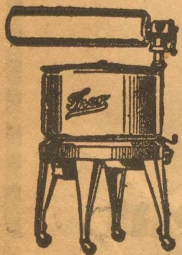

Modern homemakers all agree on these!

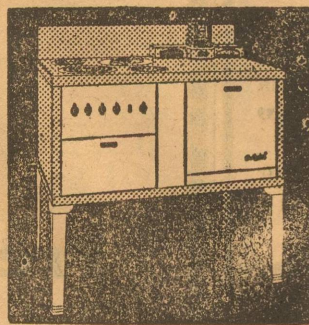

REFRIGERATION . . . You need constant refrigeration the year round, and you will enjoy the money-saving, health-guarding superiority of electrical refrigeration.

WATER HEATING . . . You need hot water many times each day. The modern electric water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, comfort and convenience.

COOKERY . . . Nothing so important. This inexpensive "Electric Cook" is worth immediate investigation. Electric cookery is simple—yet accurate, clean and economical.

LAUNDRY . . . Very necessary—but dreaded each week. Enjoy a "happy" washday by installing a combination washer and ironer. Cut washday to a fraction of the time usually required the old way.

THESE WILLING, INEXPENSIVE SERVANTS—the electric range, refrigerator, water heater, and washer and ironer—will improve your home by doing your work better, and save time, health, money and clothes. Don't consider these modern and efficient automatic electrical servants as longed for luxuries! . . . They are all dividend-paying necessities. They pay for themselves. Take advantage of these appliances at our convenient terms and prices—and take advantage of the lower step in electric rates. A representative will be glad to call and discuss them with you.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and operating costs amount to but a few pennies a week?
