### Hereford, Texas Thursday, March 12, 1981

## TRLA Leads Civil Rights Suit Against County

County has been named as the defendent in a civil rights suit filed by a Hereford man who alleges that county officials have systematically

Beleaguered Deaf Smith equal employment oppor-

tunities. Texas Rural Legal Aid is representing the plantiff in

the case. The suit was filed WednesClerk's office in Amarillo by Abel Villarreal, a resident of the San Jose Labor Camp here and a former county employee.

Villarreal alleges in his suit that the county's policies regarding "hiring, promotion, pay, lay-off, recall and termination practices against discriminate

Hispanics. Villarreal filed charges of discrimination against the

county with the Equal **Employment Opportunity** Commission in September after he was laid off as an employee of the county road

maintenance department. He was employed in that

Villarreal claims the county attempted to re-hire him at

a lower wage June 17, 1980. The suit contends that Villarreal was paid a lower wage than Anglo workers during his employment with the county and was repeatedly denied equal employment opportunities as a result of his race and national origin.

U.S. Department of Justice approval will be required for Villarreal to bring the suit against the local government entity as lawsuits cannot be brought against governmental entities by individuals unless a "Notice of Right to Sue" is first obtained from the Justice Department.

A delay in proceedings has

District Judge Mary Lou Robinson until such notice is received.

Villarreal is seeking to make his suit a class action, which could open the door for claims by past and present Hispanic employees of Deaf Smith County.

He is seeking wages lost by himself and other Hispanics who were allegedly affected by the county's alleged discriminatory employment practices, and is also seeking to have the court order the county to take affirmative action to correct such practices by re-hiring him and other Hispanics.

Villarreal was represented in the lawsuit action by Lori J. Potter, an attorney with

the Texas Rural Legal aid of-

Representation of Villarreal by a TRLA attorney creates a question among many local residents concerning the propriety of the TRLA's involvement in the

TRLA's purpose, according to its charter, is to represent low income migrant farmworkers.

There is some question as to the status of Villarreal as a migrant farmworker in regard to his employment with the county.

A county source indicated that Villarreal was employed as temporary help only, and that the pay scale for temporary help has traditionally been lower than for yearround employees.

## Rains Rare Treat For Month of Lion Dawn surpassed the 1.40 inch

By JIM STEIERT **Managing Editor** 

The month of March, traditionally a lion, has treated local residents to a rare treat thus far, giving area farmlands gentle showers in lieu of the blustery blasts of gusty grit that are more familiar for this time of year.

Intermittent showers continued through much of the day Wednesday, adding to greatly appreciated moisture accumu'ations coross, the

county's farmlands. While the cliche is old, many farmers are still thinking of the current waterworks in terms of a "million dollar rain," although the actual value of the showers may far

exceed the sum if additional showers carry over the county wheat crop and save farmers some pre-plant irrigation expenses.

Showers Wednesday added from .10 to .30 inches to the two-day rainfall total over widespread areas of the county, and the soaking nature of the rains should do more to replenish low soil moisture levels here.

Wednesday afternoon's showers pushed the moisture accumulation total for March for the city of Hereford past the one inch mark according to KPAN radio.

Rainfall accumulations renained spotted over the county despite continuing rains Wednesday, however.

The two-day rain total for the Bootleg Corner area was .30 inches according to Mrs. Eldred Brown, who reported thirsty dryland wheat in that area was greening up, even on a small amount of

moisture. At the other extreme, rainfall totals at Farmer's Elevator five miles north of

Jailed A Deaf Smith County jailer was arrested for possession of marijuana last night in the Deaf Smith County Jail.

Lonnie Douglas, 28, was on duty last night when he was discovered with the legally controlled substance.

Douglas, an employee of the Sheriff's office for about a month, was arraigned Thursday morning before Judge O.K. Neil.

Loy Smith, deputy, made the arrest.

#### Steiert Resigns; Nigh to Head News the American Cancer Socie-

Jim Steiert, longtime staff member of The Hereford Brand, has resigned as managing editor, effective March 20, to assume a new position with a farm and ranch magazine, it was announced this week by Publisher O.G. Nieman.

Bob Nigh, retail ad manager and former sports editor of The Brand, has been named as managing editor of the newspaper, according to Nieman.

Both men are longtime staff members of The Brand: Nigh, 30, came to the newspaper as sports editor in 1976. After a brief stint with KPAN Radio in 1978, he returned to The Brand as

advertising manager. A graduate of Central State University in Edmond, Okla., Nigh was sports editor of The Marlin Democrat before moving to Hereford. He is active in community affairs with the Lions Club, Deaf

ty. He and his wife, Glenda, have two children. Steiert, 30, joined The Brand staff six years ago as

farm editor and staff writer. He has earned a number of awards for his farm reporting and outdoor feature articles. He will be a regional editor of the Texas Farmer-Stockman, but will continue to reside in Hereford. A graduate of Hart High

School and West Texas State University, Steiert had served as news editor of The Castro County News before coming to Hereford. He is married to the former Kerrie Womble and they have one daughter.

"Steiert has been a valuable asset to our editorial department, and we regret the loss of such a capable newsman," said Nieman.
"We believe he is one of the top agricultural writers in the country, and we wish him success in his new

**Mud Takes Toll** 

This week's rains brought more than spring to the Hereford area - they brought mud. An 18-wheeler hauling a full load of green hay was totally destroyed after it slid off a muddy county road and caught fire at dawn. The truck, driven by Rick Coats of Dexter, NM, skidded off the saturated road surface about two blocks north of Tagco Industries on West Highway 60. Volunteer firemen were still dousing smoking bales of hay at Brand presstime. (Photo by Cheri Ward).

## Hereford Senior Citizens Set Up Building Fund With Eye to Future

Citizens have established a building fund in an effort to build a center that can serve the increasing membership of the group.

According to Sam Morgan, president, the citizens voted to open the fund when they met recently.

"We don't know how long it migh take, but we felt we just needed to start somewhere," Morgan said.

Among the first funds contributed to the account will be the money given in memory of Debs Knox, who was serving as president of the organization when he died in

February. 'We will set up a memorial for anyone who donates to the fund and a plaque will be placed in the new building," Morgan continued.

Morgan said the membership has grown to 713.

### Two Given Prison

Sentences

A 222nd District Court jury convicted 29-year-old Jackie Ray Williams of Amarillo of burglary yesterday and handed him a life prison sentence according to District Attorney Roland Saul.

Williams was convicted of the June 24, 1980 burglary of the Travis McGaughey home 10 miles north of Dawn.

A second suspect in the rural burglary, Pete De La Rosa, 53, of Lubbock, was scheduled to go on trial but pleaded guilty and was assessed a five year sentence in the state penitentiary.

Williams' case was enhanced by two priof felony convictions, according to Saul. Formal sentencing in the case is set for March 26.

The Hereford Senior Although, the present center, younger citizens of Hereford which is housed at the old have been so good to us that Central School, is greatly appreciated, the members feel a new facility could be built to those who will later become better serve their needs, ac- senior citizens," Morgan cording to the group's presi-

## Nation's Water Faucet is Leaking

By LOUISE COOK **Associated Press Writer** 

The national faucet is leaking. Billions of gallons of water are being wasted and no one even knows how much

is going down the drain. "Water is wasted wherever it's used," says William Sharp, a conservation expert at Pennsylvania State University. There is waste in the home and at the factory. In the city and on the farm.

Consider: -Because of leaks, 40 percent of the water delivered to Boston every day is lost. New York City doesn't know how much water it loses; many of its buildings, including residences, have no meters.

-A pinhole leak in a bathroom faucet can add up to 170 gallons of water lost in 24 hours. That's enough to fill six to eight bathtubs.

-Agriculture is the biggest user of water. Three times as much water is withdrawn from the system for irrigation as for manufacturing. Experts say that up to 30 percent of the water could be saved, but many of the conservation techniques are ex-

pensive and difficult. It is even impossible to determine what is waste and

Everyone agrees, however, what is not. "One person's that waste - in one form or waste is another person's another - is a problem, and, livelihood," says Dr. Robert says Sharp, "The problem's A. Clark, associate director for hydrology of the National Weather Service. Water that is "wasted" at one irrigation project may eventually find its way into streams, to be ment and planning programs,

McQueen suffered from a rare and virulent form of cancer which doctors considered to be untreatable. His physicians cooperated with the metabolic therapy program tried later, Kelley said.

#### Government Prison

Farms to Close

#### WASHINGTON (AP) - The

government's eight prison farms, encompassing some 63,000 acres, will be shut down later this year, officials of the U.S. Bureau of Prisons say.

"They really don't make very much and they don't cost very much,' bureau spokesman Michael Aun said Wednesday. "Our best analysis is that they are marginal operations at best and may be costing us up to \$200,000 a year more than they bring in."

Aun said the closings, party of

President Reagan's budget reduc tions, have "all been worked out with the Justice Department. The budgetcutters are counting on it."

The eight farms are operated in conjunction with prisons at Leavenworth, Kan.; Lewisburg, Pa.; Petersburg, Va.; Terre Haute, Ind.; La Tuna, Texas: Texarkana, Texas: El Reno, Okla.; and Lompoc, Calif.

Aun said the 69 employees assigned to the farms would be given other jobs at the prisons or be reassigned within the prison system. He said the 314 inmates now working on the farms will get other jobs at the prisons.

The other prison industries, which employ some 6,500 federal inmates, will be unaffected by the budget reductions, he said. Those industries, which Aun said were all profitable, include furniture manufacturing, metal working and electronic data process-

Although Aun said no date has been set for closing the farms, Hubert Teufel, who heads the farming operation, said he has been notified that they will be shut down Sept. 15.

#### Car Sued

#### For 'Wanton Acts'

DALLAS (AP) - Next time that lemon of a car refuses to cooperate. don't beat on it. Sue it.

That is what happened to a 1957 Chevrolet accused of "wanton and malicious acts

The car, abandoned at an auto repair shop three years ago, "has failed and refused to divulge its ownership or provide ... any information which would lead to the identity or location of any person which might claim any right, title or interest in the defendant, past or present," claims the suit filed Tuesday in state district court.

Even worse, the car ran up a \$1,050 bill for body work at the repair shop and hasn't even tried to settle its debt.

"The defendant wouldn't pay us. We beat on it, and it wouldn't pay us." said James H. Baumgartner Jr., attorney for the Vette Shop.

The shop filed the suit in an effort to gain title on the car - an action common in federal tax courts but not in state courts, Baumgartner said.

#### Satellite Contribution

Proceeds from the Lone Star Ballet performance sponsored in Hereford by the L'Allegra Study Club were presented to the Hereford Satellite Center this week. A check in the amount of \$1,250.25 was presented to Helen Cherry (center) president of the center's

board of directors from Susie Mannschreck (left) and Kathy Allison, members of the study club. The check is the largest single contribution ever donated to the center according to Mrs. Cherry.

specialty.

Dr. Brian MacMahon, the study's director and head of

the epidemiology department at the Harvard School of Public Health, said researchers felt that if people were concerned about a possible link between coffee and pancreas cancer, "they should know there is at least a suspiMe

cion of this. "But I don't think it's time to put on the missionary role yet," he said.

The study was published in today's edition of the New England Journal of Medicine.

"The National Coffee Association has sponsored numerous research projects on possible adverse effects of coffee in humans and none have been established to date," said David Kuhnert, a spokesman for the trade organization.

MacMahon said, "The association with coffee should be confirmed in other studies before too much effort is put into identifying a specific causative agent or ingredients.'

In addition, the researchers wrote that the association "should be evaluated with other data. If it reflects a causal relation between coffee drinking and pancreatic cancer, coffee use might account for a substantial portion of the cases of this disease in the United States.

ly's consumption. In most places, water costs only a fraction of a cent a gallon. That means, Sharp says, that it costs less to get a delivered to your home than it does to get a ton of dirt

dirt cheap," he says

#### cent to 30 percent of the water. withdrawn from the system for irrigation. Some of the equipment involved is expensive, however. Other techniques, such as different land preparation methods and nighttime irrigration, are dif-

ficult or unpopular

Repairing city water

systems also would help cut

waste. Sharp said it is not uncommon to find a water system, particularly in the Northeast, that loses one gallon for every two it pumps out to customers. Again, money is a problem. Sharp and Ms. Phelan pointed out that the pipes and mains in many older cities have been in use since the turn of the century. It would cost millions to replace them. "We've paid too little for water for too long," Sharp says, adding that the rates

charged by water companies

#### from Page 1 Ms. Phelan said there is a make repairs or replace outpotential for saving 20 permoded equipment.

Both Ms. Phelan and Sharp said that manufacturers have made great strides in cutting water losses, often by recycling waste as part of antipollution efforts. Sharp said further savings are possible. "A lot of industries have taken great steps," he said.

"Some haven't done anything. Sharp also says that some industries argue that watersaving programs would be too expensive: plants would have to close, jobs would be lost. In trying to eliminate waste, Sharp says, each community must consider two factors: who is the biggest

user of water and where can you cut without hurting. Meanwhile, the pleas for individual conservation continue. "What else can you do?" asks Ms. Phelan. "The only thing they (the authorities) can do is tell you

#### have not been high enough for them to accumulate capital to not to wash your car." Reagan to Sell Radar

WASHINGTON (AP) -The Reagan administration has decided to sell four sophisticated radar planes to Saudi Arabia and to build up an Egyptian air base near the Red Sea to bolster Western security interests in the Mid-

dle East and the Persian Gulf, sources say. The plan, sources said, calls for American civilians and Air Force personnel to be stationed in Saudi Arabia to help maintain, support and operate the complicated jets. And while it is unclear whether Americans would be aboard during flights, that is considered likely in view of the sophisticated equipment

involved. The moves would increase the American military presence in both Arab countries and extend military facilities available in the region to the United States.

They also would strengthen ties with Egypt and Saudi Arabia, considered friendly and pro-Western, and could cause concern in Israel because of a possible impact on the Arab-Israeli military balance. Sale of the four Airborne

Warning and Command

Planes to Saudi Arabia System (AWACS) planes to Saudi Arabia, for about \$400 million apiece, could enable the Saudis to monitor Israeli air movements up to 500

miles away. The presence of American personnel is regarded as a safeguard against use of the planes against Israel, sources say. The theory is the United. States would not allow that because it could expose

Americans to Israeli fire. The sources, who asked not to be identified, said the decision was final except that Congress, which could veto the AWACS sales, has yet to

be notified.

however, said Wednesday no final decision has been made. Building up Egypt's Ras Banas base near the Red Sea would make it easier for the United States to use the Rapid Deployment Force

culosis," discovered a

remedy, and TB has all but been obliterated from the civilized nations of the earth. Similarly - we used to call

it "old age. We would say that he or she had become "senile" - that he or she "died of old age." Now we have discovered that much of what we considered "senility" or 'dementia' is in fact

"Alzheimer's disease. And there is something we can do about it. degenerative manifestations of "old age" have included memory loss,

disorientation, confusion,

perceptional difficulties,

speech problems. Now we have learned that those are not necessarily symptoms of "old age"; they may instead be symptoms of Alzheimer's disease and may affect people as young as 40.

I know of a man 55 who is

struggling to hang onto his

executive position because he

can no longer read with com-

prehension and has difficulty even signing his name. As the illness progresses he will be unable to find the bathroom in the home in

which he has lived for 30 vears. Eventually, he may not

recognize members of his own family. Finally, he will become a 'vegetable.'

Heretofore, this patient has been considered "senile," a victim of hardened arteries. Actually, only 20 percent of such dementias result from hardened arteries. More than half are Alzheimer's disease

- a progresive, degenerative, organic brain disorder. It is a major health problem which has gone untreated because we gave it the wrong name, assumed it

to be a normal result of aging.

Now that Alois Alzheimer

that there is a national association devoted to its diagnosis and treatment - we are developing a counterat-Diet, drugs and altered

the brain by this disease. As of now, all that's known is that careful use of drugs can lessen agitation and depression, improve sleep patterns. Proper nutrition is particularly helpful.

## Miss Watts Honored At Bridal Shower

elect of Mark Blasingame, was honored at a bridal shower recently at the Ward Parlor of the First United Methodist Church.

Miss Watts is the daughter of Mr. and Mrs. Glenn Watts, 222 Douglas, and the prospective bridegroom is the son of Mrs. Deloris Bonny of Albuquerque, N.M. and Robert Blasingame of Vega.

The couple plan to marry Saturday at the First Baptist Church at 7 p.m. with the Rev. Doug Manning officiating.

The serving table was laid with a soft yellow cloth and centered with a silk flower arrangement of yellow, rust and orange flowers. Yellow napkins and silver and

Melinda Sue Watts, bride- crystal appointments were used to serve coffee and almond tea, sausage and cheese balls and a variety of coffee cakes.

Mrs. Mark Drake and Mrs. Rick Hutson were servers for

Bill Bradly, David Brumley, State Norvell, John Schneider, Don Shipley and Charles Bell.

#### At Wits End By ERMA BOMBECK

If you are under ten years old, there are three things you

cannot relate to: A day without denim.

Real money.

A home-cooked meal.

Last year, in a typical household in this country, everyone in it ate out 6.4 times a week (mainly the main meal) at a cost of \$25.86 per week per household.

It should be obvious to everyone that Moms have not kept pace with the competition. While fast-food emporiums were developing secret sauces, mopping floors to music, hiding prize-winning numbers under the lettuce and putting apple pie under a red spotlight, Moms were pushing the same tired well-balanced meals.

Face it! Food is show biz! You have to have pizzazz to keep kids eating at home. When was the last time she wore a derby hat and tap-danced with a cane while serving with pizza? Or cooked Chinese food at your table while juggling two meat

I don't excuse myself. I was one of the mothers who thought home-cooked meals would go on forever. I became sloppy, careless and took the family for granted. Then I realized we were eating out all the time.

I said to my children one night, "How would you like to stay in this evening and have a home-cooked meal?"

"What's a home-cooked meal?" they asked. "It's where we stay at home and Mommy cooks dinner." My son propped my mouth open with a fork and said, "I'll

have two burgers, three fries and a chocolate malted." "No, no, dear," I said, removing the fork. "You don't understand. Mommy cooks whatever she wants and serves

Later as I spooned beef stew generously on their plats, I saw them heading toward the car. "Where are you going?"

"To the car, and how do you eat this stuff with your

fingers?" "You don't. You use silverware and you eat at the kitchen

"What's silverware and where's the little flag on the table that we raise for more catsup and more to drink and seconds

on the chips?' "You get up and get the stuff yourself." Afterward, as I washed and dried dishes into the night, I couldn't help but wonder if the home-cooked meal didn't

### Local Study Club Names New Officers

New officers were elected Dale Tinnin, J.C. Williams, when the Lone Star Study, S.S. Williams, M.H. Club met at the home of Mrs. Baker Womble Tuesday.

Mrs. John R. Stevenson was elected president; Mrs. John Davidson, vice president; Mrs. V.E. Dodson, recording secretary; Mrs. Arthur Dettmann, corresponding secretary; Miss Hilda Havens, treasurer; and Mrs. John Jacobsen Jr., parliamentarian.

John Stienbeck's "The Winner of Our Discontent," was reviewed by Mrs. Ansel McDowell. The book told of the trials and tribulations of the people in the small village of Baytown.

"Mrs. McDowell introduced each character so vividly and described their characteristics so well you felt like you knew them. Those characters who were victorious in overcoming their discontentment were those who held to honest, true and high principles," Mrs. J.C. Williams, reporter for

the club, said. Members present at the meeting were Mmes. Jim Bookout, L.N. Cox, Don R. Davidson, Arthur Dettmann, V.E. Dodson, J.J. Durham, W.H. Goettsch, H.E. Henslee, John Jacobsen Jr., Frank Morgan, F.L. Naylor, G.W. Newsom, John Stevenson,

the occasion. Hostesses for the shower

were Mmes. Danny Boyer, Marvin Coffey, Mark Drake, Pete Gooch, Howard Gore, Rick Hutson, Chuck Laing, Lewis Lea, O.G. Nieman,

#### THE WAGMAN FILE

#### A party in search of itself-

**Bob Wagman** 

WASHINGTON (NEA) - Members of the Democratic National Committee met here recently for the first time since their party's debacle at the polls last November. There was much swapping of horror stories as is common at reunions of survivors of a common disaster.

The meeting signaled the start of the Democratic Party's search for new leadership and new ideas. It is beginning to appear that this search will be long and difficult.

At the heart of the problem is a disagreement among Democrats as to what exactly happened on Election Day.

Some party chiefs refuse to concede that a majority of the

voters turned their backs on the themes that have united Democrats for nearly 50 years. Instead, they blame the party's losses on Jimmy Carter and John White, the former president's hand-picked DNC chairman. These Democrats say that the party needs only to return to its traditional values to regain momentum for the 1982 and 1984 elections.

Others in the party attribute the Republican victories to the disenchantment of many voters with those same traditional Democratic values. These Democrats agree that their party must redefine itself for the 1980s but disagree on what its new identity should be.

Initially, the biggest decision facing the party is who will lead its rebuilding. Several factions are fighting for control

Some Democratic leaders want former Vice President Walter Mondale to be at the center of power; others support Sen. Edward M. Kennedy, D-Mass. Some say that the leadership should come from the still-Democratic House, which would mean a big role for House Speaker Thomas P. "Tip" O'Neill,

Still others say that Washington's Democratic establishment has been thoroughly discredited and should be replaced by an entirely new power structure of Democratic leaders from outside the nation's capital.

The top order of business at the Washington meeting was the election as party chairman of Charles Manatt, a California lawyer who had served as national finance chairman and as

chairman of the California Democratic Party. Manatt fought hard for the post and won almost unanimous approval through

by Barry McWilliams

the time-honored political strategy of offering his opponents important party jobs in exchange for their support.

Manatt plans to take a leaf from the book written by Bill Brock, who headed the Republican National Committee during the comeback years of 1977 to 1980.

The new chairman says that his first responsibility will be to rebuild the party's tattered organizational structure. He gives high priority to recruiting professionals who will remain

gives high priority to recruiting professionals who will remain independent of any candidate.

Another of Manatt's early tasks will be launching a major fund-raising program that will rely on direct-mail solicita-

The Republicans have raised millions of dollars in small The Republicans have raised millions of dollars in small contributions through direct-mail appeals, while the Democrats have traditionally relied on large sums from a relatively small number of contributors. Manatt especially wants to solicit donations from younger, moderately affluent voters who might give annual amounts in the \$500 range.

Manatt also realizes that the party must begin a serious reappraisal of its philosophy. But events at the Washington meeting illustrated how hard it would be for the party to turn even slightly away from its traditional liberalism.

Above all, party leaders wanted to present to the nation a picture of a party unified and beginning to rebuild. But they were prevented from doing so by a series of bitter regional and racial battles.

and racial battles.

For example, many blacks have called upon the party to aggressively fight President Reagan's economic proposals, which they view as anti-black. Manatt, however, does not want to involve the party in major national issues while it is preoccupied with the nuts and bolts of rebuilding.

So, the blacks sought to increase their strength on the DNC at the same time that organized labor was seeking to boost its strength at the expense of two black seats. A walkout was narrowly averted when Manatt agreed to maintain black representation at the existing level.

### Ann Landers

#### Midwest Indiana

DEAR ANN LANDERS: I would like to say something in defense of the job applicant who, in an interview, said, "I am working now, but I can start right away." (The person who wrote to you said he would not hire anyone who had so little integrity that he would leave his employer without giving notice.)

If I were you, Ann, I wouldn't be so quick to side with the employer against the applicant.

I was one who always felt it was important to conduct myself with integrity. After several years with a certain company, I decided to change careers. I gave my boss two weeks' notice. He became angry and said, "You can

quit right now. Someone else will be sitting at your desk tomorrow morning!" This resulted in my being without an income for two weeks while I wanted to begin my new job. Where was HIS integrity?

I'm not saying it's wrong to give two weeks' notice. Just stupid .-- Shafted In St. Petersburg

DEAR SHAFTED: Just because you ran into a lemon is no reason to turn sour on the whole human race. And whatever happened to severance pay? A boss has the right to say, "You can quit now," but he should have had the decency to give you

Living Sound Performs

two weeks' salary, then and

DEAR ANN LANDERS: My younger sister and her husband, both 36 years of age, have been trying to have a family for five years. Last September they finally succeeded. Our joy was shortlived. The child was born brain-damaged. The doctors said it was due to her difficult and complicated delivery.

How can I help my sister with this horrendous challenge?--Upstate New York Reader

DEAR FRIEND: Buy your sister a subscription to "The Exceptional Parent". It is a superb magazine for parents

whose children require a great deal of love and understanding because of emotional, mental or physical problems. This publication is a gold mine of information. It will give your sis and her husband a tremendous lift - as well as hope, which is what they need desperately at this time.

Price for an annual subscription is \$14. Write to Stanley D. Klein, editor of "The Exceptional Parent". 296 Boylston St., Boston, Mass. 02116. Those parents will bless you forever.

DEAR ANN LANDERS: The woman who was always getting lost and was told she had some form of dyslexia asked if there were others like her. Tell her yes. I am

#### Special Concert Friday Living Sound-International manently based in Europe working out of headquarters in England. The four teams are rotated between state-

will be in Hereford for a special concert Friday at 7 p.m. at the Community Center.

Living Sound, based in Tulsa, Oklahoma, is an American Christian musical group with a message that began 2000 years ago. The group will be sponsored by the First Church of the Nazarene in their second appearance here.

Living Sound is a unique blend of music and ministry that has gained attention and respect worldwide. The music of Living Sound has allowed them to share the stage with personalities such as B.J. Thomas, Si Zenter and Andrae Crouch. Their ministry has opened doors to work with such persons as Billy Graham, Oral Roberts, Robert Schuller, and Leighton Ford.

Both Oral Roberts and Robert Schuller have had Living Sound as their guests on their national television programs. They worked with Billy Graham in his great African crusade in 1973 and with Leighton Ford at the 1976 Olympic Games Crusade in Montreal. Terry Law, President of Living Sound, served as a U.S. delegate to the International Congress on World Evangelism in Lausanne, Switzerland, where his group presented a concert. Living Sound was also the guest of Poland's Stefan Cardinal Wyszynski for three years, 1975-1977, at a huge religious festival where nearly a quarter of a million

Poles gather annually. Music has proven a valuable key for getting into places where traditional missionaries have not been permitted to work. Even in situations where the language could be a barrier, Living Sound has been allowed to minister freely throughout Communist countries including Russia, Poland, Yugoslavia, Hungary, and

Romania. Living Sound is interdenominational, having ministered in more than 2,000 different churches in at least 40 different denominations. Team members also come from about 20 different denominational backgrounds brought together with a common goal of sharing God's message of reconciliation to the world.

At present, there are four teams. Two teams are per-

## Mize, Foster Named to Baseball's Hall of Fame

TAMPA, Fla. (AP) - The "Big Cat" and "Ol' Rube" made it, but it was a long time coming.

For John (Big Cat) Mize, the slugging first baseman hose bat rocked three cades of pitchers, it was 28 years of waiting and hoping.

oFor Andrew (Rube) Foster, the long wait covered more than half a century, but he wasn't around to appreciate it. The grandpop of the old

Negro leagues died in 1930 at age 51.

Now both Mize and Foster will be in baseball's Hall of Fame - chosen here Wednesday by the Veterans Commit-- with the inductions to take place, in Foster's case posthumously, next summer in the museum at Cooperstown, N.Y.

Mize, in his home at Demorest, Ga., had helped carpenters pile up some lumber and gone into the records of outstanding house shortly before noon Wednesday to eat lunch and catch the news on the radio.

The 6-foot-2, 215-pound bull of a man had been told an announcement was expected at noon from Tampa and he knew from reading the papers that his name was high on the list of the Veterans Committee.

The job of this committee is to review the names and

players who had failed to be honored by baseball writers in the 15-year specified period five years after quitting the

Big John watched the midday news and kept his ear tuned to a telephone ring. Came 12:30. No news. No call.

"I told my wife that there was another year gone," he said, "and I went out to finish stacking lumber. I'd already

given up when the phone started ringing."

The "Big Cat" was in. So was Rube Foster. Celebrations could start.

"The first word came from sports writers a little before 1 p.m.," Mize said by telephone from his Georgia home. "The

committee was a long formally notifying me. They had the wrong number - a '5' instead of a '6' at the end."

It was a bit ironic as well as poignant.

"My mother, Emma, had always looked forward to this day," Mize explained. "But she's now in a nursing home after having five operations and both legs amputated above the knee.

"Last year she was fine and could have appreciated it. Now she recognizes me and talks a little but she doesn't know what this means from the man in the moon."

Most baseball men think Mize, one of the game's premier power hitters, should make it.' have been in the Hall years

"The year after I retired in 1953, baseball writers put in the rule that a player had to wait five years to be considered," the hulking slugger said. "Then for a while elections were held every other year alternating with the Old

## Old Dominion Falls to Bulldogs, 74-60

By The Associated Press

The Georgia Bulldogs, laden with heavily recruited schoolboy basketball superstars, know they have one weakness - the lack of what has come to be known as an "aircraft carrier," the towering center underneath the basket.

The talent of such blue-chip recruits as Dominique Wilkins, Vern Fleming and

Terry Fair carried Georgia to 18 victories this season, but the fact that none of them are taller than 6-foot-7 is conceded to be the reason it lost 11.

So when the Coach Hugh Durham's Bulldogs met Old Dominion Wednesday night in the first round of the National Invitation Tournament, they stressed rebounding and came away with a 74-60 victory.

"We knew rebounding was one of their strong suits," said Fair, who scored 15 points and pulled down 13 rebounds as Georgia won the battle of the boards 47-43.

"We came out ready to play." In other first-round games, Minnesota bounced Drake 90-77. South Alabama beat Texas-Arlington 74-71, Toledo tripped American University 91-83 and Texas-El Paso nipped San Jose State 57-53. The home team was the winner in each case.

The first round continues tonight with Connecticut at South Florida. Duquesne at Michigan, North Carolina A&T at Duke, Temple at Clemson, Alabama at St. John's, Holy Cross at Southern Mississippi and Rhode Island at Purdue. On Tuesday, Dayton edged For-

dham 66-65 in double overtime.

Wilkins, the Southeastern Conference's leading scorer with a 23.8 average, led Georgia with 21 points, and the acrobatic 6-6 forward also pitched in underneath with 12 rebounds.

Old Dominion shot only 28 percent in the first half and never caught up after trailing 32-20 at intermission. Leading

Monarchs scorer Ronnie McAdoo scored only two points in the first half before

finishing with a team-high 18. While Georgia won with its small front line, 7-3 Randy Breuer and 6-10 Gary Holmes both scored 21 points as Minnesota, a 1980 NIT finalist, defeated Drake. The Gophers led by as many as 21 points in the second half before Drake,

led by Lewis Lloyd's 28

before falling back again.

Senior forward Ed Rains scored 26 points, including the clinching basket with one second left, as South Alabama held off Texas-Arlington in a game that had 20 lead changes and 11 ties.

Harvey Knuckles scored 29 points and Mitch Adamek 20 and both had 10 rebounds in

points, cut the lead to eight Toledo's triumph over American.

> Julius Wayne led defense, minded Texas-El Paso with 14 points, including six free throws in the final 64 seconds against San Jose State. The Miners led 36-26 with 10 minutes left, but the Spartansi cut the margin to one before Wayne led UTEP down the

## HHS Baseball Team Hosts Tourney

Intermittent rains soaking Hereford and the surrounding area this past week have forced the annual Deaf Smith dg County Chamber of Commerce Invitational Baseball Fournament, which was 9182 formerly scheduled to begin eills today, to be postponed until

> The initial schedule of the tournament had called for first-round games to played between Plainview vs. Ca

nyon, Amarillo High vs. Borger, Pampa vs. Levelland and Dumas vs. Hereford. As a result of the postpone-

ment, all first-round games will be determined by single elimination Friday (four games will be played overall). The winners of each separate bracket will then meet in the semi-finals Saturday morning before the championship games is concluded Saturday afternoon.

#### THE HEREFORD BRAND

Page 8-- Thursday, March 12, 1981

**SPORTS** 

But the weather isn't the only setback facing Hereford going into its home-field advanatage Friday. The

meet the Dumas Demons, a squad who mastered them earlier this week, in the firstround of the affair.

"That will be one of the

tough spots facing us as we head into the tournament,' said coach David Ashby. "We'll have to overcome a team, in our first game, who asked to pick a favorite in the

tage with 1:52 remaining. A

basket by Sikma and two free

throws each by Brown and

Wally Walker locked up the

victory. Brown finished with

17 points, as did James

Cliff Robinson's 26 points

lifted New Jersey over

Washington and dropped the

By The Associated Press

Gets Underway

The road to Philadelphia begins tonight when the National Collegiate Athletic Association's 43rd annual basketball tournament gets underway in such far-flung outposts as Providence, R.I., and Los Angeles, with inbetween stops at Dayton, Ohio, and Austin, Texas.

Four members of The **Associated Press Top Twenty** will see first-round action tonight - No.16 Brigham Young, No.17 Wyoming, No.18 Maryland and No.20 Arkansas - while the other 16, led by top-rated DePaul, drew opening-round byes and swing into action over the weekend.

Tonight's lineup sends BYU (22-6) against Princeton's Ivy League kings (18-9) and Georgetown (20-11) against James Madison (20-8) in the East regional at Providence

and Wyoming's Western Athletic Conference cochamps (23-5) against Howard (16-11) and Kansas State (21-8) against West Coast Athletic Conference winner San Francisco (24-6) at Los Angeles in the West regional.

The other half of the 48-team draw pits Maryland (20-9) against Tennessee-Chattanooga (21-8), the Conference Southern representative, and

Creighton (21-8), winner of the Missouri Valley Conference tournament, against St. Joseph's, Pa., (22-7) of the

East Coast Conference in the Mideast regional at Dayton. In the Midwest regional at

Austin, Arkansas' regularseason Southwest Conference champs (22-7) meet Mercer (17-12), the Trans-America Conference tourney survivor, while Southland Conference titlist Lamar (24-4) faces Missouri (22-9), the regularseason Big Eight winner.

The first round continues Friday night at four other sites. In the East at Charlotte, N.C., Houston meets Villanova and Virginia Commonwealth goes against Long Island. The West shifts to El Paso, Texas, with Fresno State-Northeastern and Idaho-Pittsburgh on the schedule.

11

Friday's Mideast action will be at Tuscaloosa, Ala., where Boston College meets Ball State and Alabama-Birmingham faces Western Kentucky. In the Midwest at Wichita, Kan., Wichita State plays Southern and Kansas tackles Mississippi.

#### Baseball Coaches

To Meet

Hereford Kids Incorporated will hold a meeting of individuals interested in coaching boys' baseball in the pee wee, minor and major leagues Friday, March 13.

The meeting will be held at :30 p.m. in the Southwestern Publi Service Co. Reddy Room, according to Jerry Collier, president of Bronco League baseball here.

## Piston Victory Over Atlanta Termed Best of Season' by Detroit Coach

ms By The Associated Press

ent It may not be saying much -zer since they have won only 18 games all year, but Coach ber Scotty Robertson said the a to Detroit Pistons' 100-97 go triumph over the Atlanta bay Hawks Wednesday night was anil "the best one we played all

.elu season." 811 Center Kent Benson had am eight points and guard Ron vs Lee added seven in a fourthperiod flurry that lifted Detroit to victory. The Pistons trailed 81-80 early in the period before two baskets by Lee helped shoot them in front 88-83. Benson followed with three baskets and a free throw before the Hawks closed within 98-97 but two free

throws by Lee clinched the victory.

Paul Mokeski, Benson's backup, wound up with 16 points, Benson had 15, John Long 14 and Lee 13. Dan Roundfield led the Hawks

In other National Basketball Association games, the Boston Celtics trounced the Milwaukee Bucks 122-108, the Philadelphia 76ers whipped the New York Knicks 115-95, the Houston Rockets trimmed the Golden State Warriors 109-92, the Seattle Super-Sonics downed the Cleveland Cavaliers 101-95 and the New Jersey Nets defeated the Washington Bullets 109-104. Celtics 122, Bucks 108

Joe Freelong of Albuquer- nyon and Happy que, N.M. has been named district executive for the Boy Scouts of America, it was announced by David Bailey, council field director.

Freelong, 29, will work with the Boy Scout program in both Deaf Smith and Randall counties including Hereford, Friona, Vega, Adrian, Ca-

JOE FREELONG

"He has already started working with the district committee in Hereford and will continue to work closely with the group," Bailey said.

This is the first time Freelong has been in the Texas Panhandle area, but said he is looking forward to moving here in two weeks.

"I'm ambitious and ready to make everything go. I'm real excited about the job and ready to do a lot of work," Freelong said.

While attending the University of Albuquerque, Freelong worked as paraprofessional with the Boy Scout program for a year. He received a bachelor of arts in political science and a minor in Spanish when he graduated. In addition, he served in Vietnam in 1970-71.

Freelong is replacing David Cortz who recently resigned from the program.

## FCC Chairman Unhappy with Deal

WASHINGTON (AP) -Charles D. Ferris retains the chauffered car and \$55,000 salary that come with being chairman of the Federal Communications Commission although he hasn't really worked at the FCC since late January

He didn't want it this way, but that's part of a political deal the veteran Democrat worked out with the new Republican administration.

What Ferris gets is permission to stay on as chairman until he can start drawing a \$25,000-a-year pension when he retires next month.

What the Reagan administration gets is the opportunity to fill Ferris' seat on the commission three years before his FCC term

But that deal was not quite thinking

Newspaper

BIBLE

The

adequate for the Reagan forces, who wanted to make sure Ferris could make no mischief at the FCC as a lame-duck chairman.

So Ferris, 47, agreed to do no work between late January, after Reagan's inauguration, and his April retirement. He hasn't overseen an FCC meeting, participated in agency business or exercised any control over the commission's staff.

Ferris, known to be embarrassed about all this, declines comment.

But he has made it clear to associates he believes he should have been allowed to finish his FCC career as a working chairman, as did his Republican predecessor.

Ferris is not alone in his

#### IF I COULD ONLY TOUCH HIM ...

One day Jesus went out into the mountains to pray, and prayed all night.

At daybreak He called together His followers and chose twelve of them to be the inner circle of His disciples. (They were appointed as His "apostles," or "missionaries.")

Here are their names: Simon (He also called him Peter), Andrew (Simon's brother), James, John, Philip, Bartholomew, Matthew, Thomas, James (the son of Alphaeus), Simon (also called "Zealotes"), Judas (son of James), Judas Iscariot (who later betrayed Him).

When they came down from the slopes of the mountain, they stood with Jesus on a large, level area, surrounded by many of His followers who, in turn, were surrounded by the crowds. For people from all over Judea and from Jerusalem and from as far north as the seacoasts of Tyre and Sidon had come to hear Him or to be healed. And He cast out

Everyone was trying to touch Him. For when they did healing power went out from Him and they Luke 6:12-19

Big Sister, Little Sister

"Sharing A Child's Tomorrow," this year's theme for Big Brother-Big Sister Appreciation Week, means different experiences for each volunteer involved in the Hereford program. Little sister, Tina Lopez (standing) helps her Big Sister, Janie Rodriguez drink water from a fountain. This year's appreciation week is set aside to thank those volunteers and to make people aware that more volunteers are needed for the 39 children needing a Big Brother or Big Sister.

### Soap Opera Aimed at Teen

LOS ANGELES (AP) -Susan is distraught after discovering her mother in bed with a gangster. Her football hero brother. Brad, is confused. He's been having sex with one girlfriend but wants to date another without feeling guilty.

Melanie, a high school friend of Susan's and Brad's, is not getting along with her parents. But her problems are dwarfed by those of her 14-year-old brother, an underachiever with an affection for

Hmm. I don't think this is guite what the Federal Communications Commission had in mind when it asked for more TV programming aimed at youngsters.

"Young Lives," a syndicated soap opera, wasn't invented to please the FCC. The 30-minute weekday serial is

teen-age audience (and its spending money). The series, made by Post-Newsweek Productions, will be peddled to stations at next week's National Association of Television Program Executives convention as a lateafternoon transition program that can bridge the daytime soaps and evening news.

A viewing of the show's five half-hour pilots leaves the impression that teen-agers, who compose a healthy portion of soap opera audiences "already, will eagerly embrace "Young Lives." It has all the seductive qualities of classic soap opera, but with teen-age situations and characters.

The trick will be to convince stations that "Young

meant to capture the elusive the producers' protests to the "Afternoon contrary, Special" or "CBS Afternoon Playhouse" this ain't.

"People have already ask ed me, 'How can you have this kid smoking marijuana and not be punished for it?' The answer to that question is that problems in real life are never solved at the end of 30 minutes, as they are on most episodic television," says Ken Livesay, who created 'Young Lives' for Post-Newsweek.

"If you want to give teenagers something positive, you can't preach, you can't be didactic, because they'll turn it off...underlying the soap opera is the message, 'Hey, this problem is something that will eventually be solved.'

under. The prime object here

#### Underlying, is right. Way Lives" is worth the trouble it may bring. Notwithstanding

To burn up the calories in one slice of cheese pizza, you would have to either run for ninutes, swim for 16 minutes or walk for 35 minutes.

## Employees Lend Money to Firms

NEW YORK (AP) - Confronted with interest rates that sometimes exceed 20 percent, small businesses

percent, small businesses throughout the country are considering or actively financing their operations by borrowing from employees.

The extent of the borrowings aren't busins, because the loans generally are neither regulated nor publicly recorded that inquiries of those who have borrowed indicates the interest is widespread.

The heart from companies all over the country," said Alfred Kneif, president of Lincoln Contractors Supply, Inc. of Milwaukee, who raised over \$100.000 in one week to finance; sensonal in-

week to firm need sensonal inventories.

The benefits flow both

ways. By offering 12 percent or so, companies cat their in-terest costs for below the typical prime rate-and-two points offered to small businesses. There also afford

businesses. The raise afford workers a change to earn far more than the 25 percent passbook interest rate:

"Solong as the differential (between passbook savings and what as addividual can obtain by latting to a company) stay large or gets larger this injuries will grow," says reofessor William Durkelberg, associate director of Purdue associate director of Purdue University's Credit Research

Center.
Those inclined to lend to their employers, he says, are those who may not unders-tand or may not trust money market mutual funds, some of which now gield 15 percent

or more. They prefer the personal touch and the security that comes from dealing with people they know.

There are dangers, especially for the unsophisticated lender.

Says Dunkelberg: "The way problems will come up are (1) if a company fails, and (2) if someone says he has been coerced into giving a loan or was denied a raise because he wouldn't lend."

Meanwhile, enthusiasm seems contagious among workers and employers.

Lincoln Contractors was founded 25 years ago but its greatest growth has been in the past few years. Revenues in 1979 totaled \$3.5 million, more than double those of four years earlier.

"We're vastly undercapitalized - under \$200,000" said Kneif, "so we depended on banks to finance inventory." Now, 17 loans from employees and relatives. payable on three days demand, handle that.

Robert Loughlin and Lynn Wallace, chairman and president respectively of Western Food Equipment Co., Portland, Ore., have been borrowing from employees for at least 20 years. "We average 4 points under prime," said Wallace, while employees earn an average of about 15 percent.

He said the company has \$300,000 outstanding, and would like to bring the total to \$600,000, replacing its line of credit at banks.

Loughlin and Wallace, whose annual revenues total \$8.5 million, have taken the practice a bit further, inviting relatives and friends to lend to them. In fact, they've helped change the law to make it easy.

Before the change, small companies might have had to spend as much as \$8,000 to make a public offering. Now. with cooperation from the state securities commissioner, Frank Healy, they may solicit up to 35 lenders without a license. All they need do is register their plans.

A Helping Hand

Judy Baker (left) and Linda Thorell display the Helping Hand emblem which volunteers will be placing in home windows as a sign to tell children that help is available if they are in any kind of trouble. The program, sponsored by Parent Teacher Organization of Northwest Primary. is designed to assist children who encounter any difficulties while enroute to and from school.

## Helping Hand Program Underway in Hereford

A Helping Hand program is stranger trying to entice a being organized in Hereford to help children who encounter any difficulties while away from home or enroute to and from school.

The program is sponsored by the Parent Teacher Organization of Northwest Primary School under the direction of Judy Baker and Nelva Swopes.

"People who volunteer to help with place an emblem of an upraised hand in a window of their home as a sign to children that help is available," Mrs. Baker said.

child into a car, indecent exposure to a child, attack by an animal or danger due to a storm.

'We are trying to get this organized city-wide, but right now we are just starting Northwest Primary. We have 19 people who have volunteered to help," Mrs. Baker said.

Before a person is accepted to show the Helping Hand, references must be presented with the application. The program is not limited to parents of school children. Anyone Children have been in- who is at home early in the structed to call on the Helping morning or in the afternoon Hand whenever they need after school is encouraged to help in incidents such as a participate in the program.

other cities have the same program and a similar program was active in Hereford several years ago.

#### Give and take

That extra energy Popeye gets from spinach is no joke; dieticians say that spinach is exceptionally high in nutri-tional value. Starting in the 1920s, spinach received much publicity for its wealth of calcium and iron, along with vitamins A and C. But research has found spinach is also rich in oxalic acid, which prevents the calcium from being utilized by the body.

The States IIC flog raised officially for the first time on July 4, 1960.

#### FORT WORTH, Texas (AP) - Western Preferred Corp. announced Monday that the merger of Tidelands Capital Corp. into a wholly owned subsidiary had been

completed. Tidelands formerly was a 45.1 percent-owned affiliate

of Western Preferred. The company also said that, pursuant to the merger, about 1.9 million of its common shares would be issued to the former minority shareholders of Tidelands and that the merger would be effective for accounting purposes as of Jan. 1.

Both companies are insurance holding companies.

ABILENE, Texas (AP) -Harken Oil & Gas, Inc., Tuesday announced a net loss of more than \$1.2 million in revenues for 1980.

Revenues increased over 1979, however, and the company said the increase was because of production from certain oil and gas properties acquired in December 1979 from private drilling programs through a common stock exchange offer.

The company reported a

net loss of \$811,000 in 1979. Key factors in the increased loss were a 73 percent growth in personnel and a higher rate of depletion, depreciation and amortization of oil and gas properties, the company said.

AUSTIN, Texas (AP) -Tracor, Inc., has entered into a new credit agreement with its six bank lenders, providing for the immediate availability of \$20 million as a revolving credit line, the company announced Tues-

Under the agreement, the availability increases to \$40 million in 1985, and is reduced gradually thereafter until the expiration of the agreement in 1989, the company said.

Banks involved include Bank of America National Trust and Savings Association of Los Angeles, Continental Illinois National Bank and Trust Co. of Chicago, First National Bank of Boston, Mercantile National Bank of Dallas, American National Bank of Austin and Capital National Bank of Austin.

SAN ANTONIO, Texas (AP) - La Quinta Motor Inns' shareholders voted Monday to increase the company's authorized common stock from 10 million to 20

Texas Briefs

million shares. The company also announced it would implement the five-for-four stock split authorized by its board of directors Jan. 14. Shareholders of record March 16 will be entitled to one additional share of stock for each four shares held.

After the split, the company will have about 9.6 million shares of common stock outstanding.

AUSTIN, Texas (AP) -Sen. Kent Caperton has found an unexpected loophole in state laws on birth certificates: you can't fix mistakes, even if the document says your baby boy is a

The Bryan Democrat said Monday the problem came to his attention recently when a Houston woman wrote complaining she couldn't correct her son's erroneous birth certificate. His sex was listed as "female."

"She felt this might cause him some problems later on, but when she tried to change it she found out there was no way to do it," Caperton said. He has introduced legislation to remedy the situation.

AUSTIN, Texas (AP) -Sen. J.E. "Buster" Brown has introduced a bill that would require dealers in precious metals to register. The measure also would require dealers in temporary locations to hold their purchases for eight days.

"I am concerned about the ease with which a person can steal gold or other precious metals and sell them to a transient dealer who is not required to keep records of their purchases. The present system encourages this type of activity, and I want to stop it," said Brown, R-Lake Jackson.

AUSTIN, Texas (AP) -Rep. Jim Turner, D-Crockett, has introduced two proposals providing for a gradual phase-in of property tax reappraisals starting in 1982.

Turner said a bill and proposed constitutional amendment had been signed by 36 other House members, and Roy Blake, D-Nacogdoches, would sponsor the measures in the

Senate. "Full implementation of statewide reappraisal under current law will generate a taxpayer rebellion in this state that will threaten the economic and governmental stability that has long made Texas one of the best places to live and do business in the United States," said Turner.

He said under his proposals the increase in appraised value of property would be phased in over five years.

For example, he said, a Texan with a home appraised at \$20,000 might find it reappraised in 1982 at \$80,000. The \$60,000 increase would be phased-in over five years.

### **Armed Forces** Support Proposal

WASHINGTON (AP) -The four branches of the armed forces are uniting behind a proposal to revive the GI education program and give military volunteers up to \$600 a month to attend college after they leave the service.

The aim is to attract a larger number of high school have held that high school graduates are more

trainable, more reliable and less likely to be discipline problems than school dropouts. Enlistments of high school

graduates dropped sharply after the old GI education law, which began in 1944, was replaced in 1976 by the plan now in effect. Under the pregraduates and thus raise the sent program, the Veterans level of quality in the ser- Educational Assistance Provices. Military leaders long gram, a service person receives \$2 in benefits for each \$1 he or she contributes.

# In the competitive world of business, the people of Texas start with one major disadvantage.

People in 47 states can use UPS to send packages into Texas.

But people in Texas can't. The season is that UPS does not have what's known as intrastate authority here. We're not permitted to pick up a package in Texas and deliver it in Texas.

This is a major disadvantage for Texans

who make their living by sending goods to customers in Texas. In effect, it prevents them from surplying their customers as promptly or as economically as their competitors in other states as:

Towersome this handicap, several Texas states of their parcels to URS (recilities in

money trucking their parcels to UPS facilities in other actes. UPS is then permitted to take the parcels back into Texas for distribution.

The Texas Legislature is now discussing a bill which would clarify the authority of the Texas Railroad Commission (the agency that regulates transportation matters) to consider requests such as ours to provide service from and to all points in Texas.

We feel this bill would be a step forward. We'd like to see it pass, and we'd appreciate your support. If you agree with us, a note to your Senator and Representative in the Texas Legislature could be very helpful.

For more information, please get in touch with us at the address below.

## Victim's Family to Endure Nightmare Once Again

their accounts.

**Associated Press** 

HOUSTON (AP) - Billie Webster's anguish for her slain teen-age son has played a chapter at a time in courtrooms and television studios, but the Lousiana woman says she has steeled herself to endure the nightmare one more

She already has agonized

through two lengthy trials and reviewed a portrayal in a California studio. Tonight. she says she'll relive it all again when she watches a made-for-television drama, "The Killing of Randy Webster."

Her 17-year-old son, Randall Alan Webster, was shot to death as he stepped from the stolen van he drove as he led police on a high-speed chase through southeast Houston in February of 1977.

The pistol later tossed down beside the body of the dead Shreveport, La., youth was traced to the Houston Police Department property room.

A year later, former officers Danny H. Mays and

N.W. Holloway were convicted on federal perjury and conspiracy charges and given 5-year probated sentences.

The Websters also filed a \$2 million civil suit against the City of Houston, Mays, Holloway and a third former officer, John T. Olin, to "get the truth out."

Former officers claimed city to pay the Websters \$1.4

throw-down guns were available to at least threefourths of Houston police officers in 1977 and were considered a means of protection, according to depositions

read at the trial last October. A federal court jury exonerated Holloway, but ordered Mays, Olin and the

million in punitive damages. The city has appealed the decision to the 5th U.S. Circuit of Appeals in New Orleans, but Mrs. Webster insists the money is unimportant.

"If we don't ever get a cent,

I think there were things that had to be brought out. Things like how hard it was to get in-

Antonio, Dallas and Houston where rats are already problem pests.

"Plague once wiped out about two-thirds of Europe's population because of the tremendous numbers of rats and mice," said Gary Simmons of the Texas Rodent and Predatory Animal Control Service at Texas A&M. "It's mainly a rural problem now, particularly in the Southwest where prairie dogs, rats, rabbits, foxes and squirrels roam."

Bubonic plague cannot be transmitted between humans. It's carried by fleas that act as intermediate hosts from one animal to another, Simmons said.

Last year, 18 plague cases were reported in the nation, most in New Mexico. In the past two years, incidences of plague have been reported in Muleshoe on the Texas High Plains and as far west as Los. Angeles.

Five people died last year and the first death has been reported this year in Dell Cia man was apparently bitten by diseased fleas while skinning an infested fox about a week before becoming ill.

A \$100 FACTORY REBATE

Install Gas Air Conditioning now, and you'll not only be cool the first day this spring . . . you'll save a cool \$100! Buy before May 1st and you'll receive a \$100 rebate direct from the factory . . . plus you can defer monthly payments until May, too. But \$100 and deferred payments are not the only reasons for intelling Can Air Conditioning stalling Gas Air Conditioning.
Gas Air Conditioning Systems are very

energy efficient. They now use less gas energy because the constantly burning gas pilot has been replaced with a new pilotless ignition system. Pilotless ignition saves gas, and saving gas will

save you money.

Gas Air Conditioning is also very dependable. It's built to last and last with no loss of cooling capacity. Hand-crafted of sturdy stainless steel components, Gas Air Conditioning has fewer moving parts and no compressor to wear out or break down. That means less wear and lower maintenance costs. And to prove its dependability, Gas Air Conditioning gives you the longest warranty - the 10year "No Sweat" limited warranty\*\* twice as long as all others.

Gas Air Conditioning. It's energy efficient. It's designed to lower maintenance costs, to lower operating costs. Gas Air Conditioning will save energy and that will save you money. And when you combine Gas Air Conditioning with adequate conservation measures, like caulking, insulation, storm doors and windows, you'll save even more.

But don't wait too long. The \$100 rebate ends May 1, 1981. Call now for a free home cooling survey and cost estimate. There's no obligation.

\*\*Manufacturer's limited warranty covers all defects in material and workmanship on the sealed refrigeration unit for ten years from date of installation of the air conditioner when it is installed in a single-family residence. All other parts are warranted for one year from date of

telecast.

WINDS DAMAGE YOUR ROOF?

You Need To Consider Johns-Manville Fiberglass Shingles

- 1. Conventional shingles have a paper felt base. Fiberglass shingles have a tough inorganic base that won't rot.
- 2. Because fiberglass shingles are lighter than conventional shingles, they are easier to work with on the roof and put less strain on the structure.
- 3. Besides being rotproof, fire resistant and easy to apply. fiberglass shingles are constructed to still look good many, many years after installation.

## Modern Day Posses Power of Wisconsin Counties

Meet the Posse, 1980s style.

As in the days of the Old West, they come from the local community but now they ride pickup trucks, not horses. They stack semiautomatic military rifles in gun racks and hide .45s in their pockets in place of saddle-holstered Winchesters or six-guns at their hips Instead of assembling in saloons, they gather at private mobile home parks.

But they share something with the posses of the West a willingness to ride against the bad guys. The problem is, their definition of bad guy doesn't usually square with the sheriff's.

They call themselves the Power of the County. In rural Wisconsin where they are constant conflict with the

Taking root in the past decade in the poor scrublands of northern Wisconsin, the organization is trying to spread its philosophy of "power to the people" by tax conservative administration

TIGERTON, Wis. (AP) - revolt and other activities against state and federal regulations. It is reaching beyond the farmers to a wider audience in the discontented middle class.

Jack - Anderson, an investigative reporter for the West Bend (Wis.) News, describes Posse members as "deadly, cold-blooded, serious, but men of integrity. They want to arm the people to buck what they see as a national monetary, tax and

court conspiracy. State officials are less sympathetic. Rep. David Obey, D-Wis., has referred to the posse as "an extremist group with stormtrooper fantasies."

People interviewed in near-Posse Comitatus - literally, by Tigerton Dells expressed concern about Posse activities. Some suggested that most numerous, they are in large supplies of ammunition and guns were buried in the woods and that a system of underground bunkers had been built.

> The group's leaders, who say they are less concerned about speaking out now that a

is in Washington, openly identify with hate groups.

The KKK and the Minutemen know what we are talking about," said James Wickstrom, who describes himself as the "new national director of counterinsurgency of the posses of America.

Wickstrom, a Vietnam veteran, said that while his group was "psychologically blended" with such other groups, there were no plans to consolidate.

He said the Posse has held joint paramilitary training sessions in the Sierra Nevada mountains of California with the Klan and the Minutemen, a group with a philosophy of racism and right-wing politics.

Membership numbers are not known, but leaders claim to have cells in every state but Hawaii, with up to 2,000 members in 13 Wisconsin counties. Wickstrom received 16,000 votes last year in a run for a U.S. Senate seat from Wisconsin; some 2 million

votes were cast. Posse Comitatus claims

legitimacy from English common law that authorized sheriffs to seek assistance

from the citizenry. Wickstrom agreed to meet with The Associated Press late one evening and at breakfast at a fast food restaurant near Oshkosh.

With him was Thomas Stockheimer, the Posse's state chairman, who wore a tin star bearing the words "Sheriff's Posse Comitatus" on the left pocket of his blue leisure suit.

Both men have spent many hours in legal and armed confrontation with authority. Stockheimer was convicted of assaulting an Internal Revenue Service agent named Fred Chicken in 1974 and jailed for 90 days.

Wickstrom, who said "we are willing to shoot, if necessary," has been highly visible at Posse confrontations with local law enforcement officials.

These sometimes occur when Posse members resist orders to move their illegally parked mobile homes from public land or are faced with losing their farms because of unpaid taxes.

Wickstrom and a score or more other members in paramilitary garb sometimes arrive with loaded semiautomatic weapons to defy the peace officers. The law has so far backed off.

Posse Comitatus members have also harassed local officials with blizzards of common law liens, some amounting to millions of dollars, that tie up personal assets even though courts have ruled the liens have no legal basis.

Despite the rulings, court hearings are still generally required to sort out the lien claims. "We, as public officials, should not have to tolerate this kind of intimidation," state Rep. Edward Mc-Clain said.

The Posse has also founded the "Life Science Church." Some donate their land, their personal property, even their guns to the church. Declaring themselves "ministers" and their mobile homes "chapels," they write off donations as tax-deductible religious contributions.

Beyond these local confrontations are the wider aspirations of the posse as detailed by Wickstrom, a stocky 38.

"We are losing three police officers a day in the cities. America is at war," he said. In his view the Posse "is the rebirth of the militia prior to the enemy includes police SWAT teams and "the international banking houses of Jewry.'

Posse member Gary Thomas, 26, was holed up in a mobile home in Tigerton with his newly wed wife and half a dozen guns. An American flag flew upside down from a pole "to show how distressed the country is," he said.

Up the road at Tigerton Dells was a larger concentration of mobile homes on part of 640 acres of forest land given the Life Science Church by Posse member Donald Minniecheske. The area is posted with threatening

Wickstrom admitted the

the Revolutionary War," and forest was the main training camp for the Wisconsin Posse, and a neighbor, Robert Kosciesza, told the AP he had seen "more than 300 men training there, wearing gas masks, swinging from trees and running with guns and other military equipment."

> Minniecheske, who had a camouflaged pickup truck parked outside his house, said he joined the Posse "because it's every man's duty to protect his property."

st

Asked about military training nearby, he said, "It's a lot better to be prepared and not have anything happen, than have something happen and not be prepared."

## Lighter Side

WASHINGTON (AP) -The long-standing rivalry between South Carolinians and North Carolinians over the merits of their states is heating up over a new issue,

be Virginians and Georgians. At issue is barbecued pork and an invitation issued by Rep. Gene Johnston of Greensboro, N.C., to his 6th District counterpart, Rep. John Napier of Bennettsville, but the winners this time may S.C., for a "barbecue bowl" on April 1 in the nation's capital.

> Napier comes from a section of the Palmetto state noted for its pork barbecue basted in a mustard sauce, while Johnston's part of North Carolina is known for pork barbècued in a tomato sauce.

Each congressman will provide 100 pounds of meat cooked according to his hometown recipe.

And the congressional delegations from Virginia and Georgia will pick the winner.

COLUMBIA, S.C. (AP) -It took Lou Miller almost a year to make up her mind, but Dave Williams was pa-

On Monday, the 101-yearold Williams married the former Mrs. Miller, 70, in a ceremony at the Forest Hill Nursing Home's chapel.

The two rolled down the aisle in their wheelchairs to the altar, where they exchanged yows before the Rev. W.H. Neal.

"I do" and "amen," said the jubiliant bridegroom, twice a widower. The new Mrs. Williams was a bit more subdued, but she smiled just as much as her new husband as she said "I do."

ing with Forest Hill residents and employees and members of the couple's families. Some cried. Williams said he decided to

The chapel was overflow-

get married again because he was in love. "I just loved him," said his

bride. "He had been courting me so long I had to make up my mind.

It wasn't an easy decision. The couple feared their Social Security benefits might be cut if they tied the knot. But when social worker Virginia Peterkin checked with Social Security officials, she learned that the benefits wouldn't be reduced if the two got married.

Neal said the couple was also beginning to consider marriage so they wouldn't feel guilty about holding hands and talking to each other so much.

"He's been mentioning marriage for the last year or so, but she just got on the bandwagon about two months ago," Mrs. Peterkin said.

and Dave was always definite."

The couple will now share a room at the nursing home.

SAN DIEGO (AP) - Cornelius, a rare black rhinoceros who became the symbol of a Canadian political party, joins the San Diego Zoo today.

The 600-pound rhino was being flown to San Diego in the baggage compartment of an Air Canada jetliner. The first rhinoceros born in

Canada, Cornelius served as the symbol of that country's Rhinoceros Party Canada's fourth-largest party. Last fall, that party nominated a hobo named Adam Nobody for president and used the slogan: "Nobody for president and everybody for vice."

Cornelius was obtained in a trade for a 7-year-old female giraffe.

NEW ORLEANS (AP) -The bills are green and look somewhat like American currency. But they have Love 22's smiling, bearded face in the center of the front side, the number 22 on each corner and a composite on the back of clippings from bills of various denominations.

Love 22 - one of the many street entertainers and characters who came to New Orleans for Carnival season was arrested on Ash Wednesday, while sitting astride a beat-up bicycle, allegedly selling his \$22 bills at five for a dollar.

The misdemeanor charge is illegally reproducing parts

"Lou would say 'I don't know" of official U.S. currency, but Love 22 — he refuses to say what his name was before he had it legally changed in 1975 - intends to fight it.

He contends that his \$22 bills are just as legal as other kinds of paper money. "They're not fake. They're real \$22 bills," he said.

Besides, he added, "I have my good name to protect."

CARSON CITY, Nev. (AP) Assemblywoman Karen Hayes was a bit put off when she showed up for the meeting of her Select Committee on Public Lands. It was being held at the Capital City Men's Club - which does not admit women.

Mrs. Hayes, a staunch opponent of the Equal Rights Amendment, refused to go into the club, and the committee meeting had to be moved to a hotel coffee shop.

"In the capital city of a state that prides itself on not needing ERA because women are accorded equal status, your unequal policy is a contradiction," she told officials at the Orsmby Hotel, which

houses the club. The Las Vegas Democrat said Tuesday she was not offended by the exclusive policy of the club, but by its prominent location on the main floor of the hotel. "I have no problem with men's clubs," she said.

She added that her complaint to the hotel "was

rather tongue-in-cheek. "I just wanted to jog their memory a little...there are female members of the Assembly," she said.

## Sexually Abused Children Hounded

AUSTIN, Texas (AP) Sexually abused children who report their problems but are left in the home, without protection from authorities, are often harassed by their families, a Dallas lawyer said.

Dee Miller, head of the juvenile section of the Dallas district attorney's office, told the House Judiciary Committee late Tuesday night that the children need protection but can't get it under current

The committee is considering a bill by Rep. Ted Lyon, D-Mesquite, that would let officials take custody of the child without a hearing if they thought he or she had been sexually abused within the

Нарру

Love, Tricia, Kerri & Pamela

preceeding year. The bill was sent to a sub-

committee. At present, Ms. Miller said, only "immediate danger of physical harm" is grounds for emergency removal of the child from the home.

"With very young children who have to be taken to the hospital, or in the case of rape, this is no problem. But the child who's been sexually abused over a period of years is not being physically hurt," Ms. Miller said. "She won't require medical attention, because the harm is emotional. But it will be continu-

Ms. Miller outlined cases that she said were "common," in which police arrested abusers but the child was left at home.

"The abuser is bonded out, returns home, and the family corners the child," she said. 'They hound her, tell her it's all her fault, that daddy's going to be humiliated if she doesn't take it back.

"By the time we get the case, the child is saying it never happened at all. The family has closed, the child won't open up to anyone but the abuse goes on.

"We know this because many, many times after three or four years we get her younger sister," Ms. Miller said.

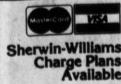

A recent Department of Human Resources study of sexual child abuse showed that slightly more than threefourths of sexual abuse cases are incestuous, and twothirds involve the child's father or stepfather.
