AGRICULTURE COMMITTEE ORGANIZES...Members of the newly organized Agriculture Committee of the Muleshoe Chamber of Commerce are shown at the organizational meeting held Tuesday night at the Corral Restaurant. The Committee is broken down into 14 categories with a local farmer heading each one. The Committee is designed so the farmers can work through the local Chamber of Commerce to keep abreast of new ideas and methods in the agriculture field. Harmon Elliott is the chairman of the committee.

## Chamber Agriculture Committee Organizes

The Agriculture Committee of the Muleshoe Chamber of Commerce had an organizational meeting Tuesday night, April 25, at the Corral Restaurant. All members were present.

The defined purpose of the committee is for the Chamber to work with farmers and in turn, farmers being able to work through the Chamber of Commerce in getting all the attention possible from outside areas focusing on crops grown here.

Many different kinds of crops are grown here in addition to the basic cotton and milo economy some areas have.

Efforts will be channeled through the farm organizations and agricultural programs that the area news media and utility people have. The committee will work very close with the many farm magazines that cover the area.

The committee will also work closely with the agriculture departments of Texas Tech University, A & M University and the research foundations to stay abreast of all of the new agriculture research and keep in touch with any new program that might effect the area.

A list of categories and the farmers related follows: Alfalfa, Myron Pool II; Castor beans, James Wedel; Cattle feeding, Harold King; Corn, Doyce Turner; Cotton, A.R. McGuire; Hogs, Kenneth Nesbitt; Milo, Weldon Timms; Peanuts, Jimmy Pitcock; Ranching, Bernard Phelps; Seed growing, Carl Bamert; Sheep feeding, Max King; Vegetables, James Enson; and Wheat, Conrad Williams. Harmon Elliott is chairman of the Agriculture Committee.

The list is incomplete as there may be other categories

Area banks showed an increase in deposits totaling over one million dollars above last year's figures at this same time. Reasons for the increase varied from the favorable cattle market to overall good crops last year to the conservatism of local people in depositing their money and not spending as much.

The First National Bank of Muleshoe showed an increase in deposits by \$838,361.49 over deposits at the same time last year. This year's total deposits were \$9,111,232.31. Last year's figures showed a total of \$8,272,870.82. Assets at the First National Bank also showed an increase with last year's assets totaling \$9,409,897.04 and this year's assets being \$10,212,618.64.

# Barnes, Leader In Field Of Ethics

Lt. Gov. Ben Barnes has been the leader in the field of ethics and legislative reform since first being elected to the Texas House of Representatives in 1960.

Under Barnes' leadership as Speaker, the House in 1965 passed a legislative ethics bill which later was killed by the Senate leadership.

As Speaker, he also reformed House rules to prevent conference committees composed of 10 men from adding

funds and language in committee reports without consent of the entire House.

The Senate leadership also refused to go along with those changes, and it was not until Barnes became Lieutenant Governor that he was able to get the Senate to adopt such rules.

Barnes also took the lead among top state officials, filing full financial disclosure statements before any of the others.

While ethics and reform have been high on his list of priorities

and remain so—Barnes also has constantly pushed and been responsible for passage of dozens of pieces of legislation in the last decade.

In the 59th Legislature, Barnes was instrumental in helping Governor John Connally create the Texas Department of Mental Health and Mental Retardation board along with a nine-member governing board.

He helped Governor Connally establish the Coordinating Board of Colleges and Univer-

sities and was active in school reform. Barnes took the lead in revision and codification of the Uniform Commercial Code and a revised Code of Criminal Procedure.

In the called session of the 59th Legislature, Barnes helped enact a new system of annual voter registration. In the fall elections of 1965 voters approved a constitutional amendment creating the Texas Opportunity Plan Fund which opened the door for student loans to

allow more young people to attend college. Barnes was a key factor in getting the amendment on the ballot.

During the 60th session of the Legislature, Barnes took the lead in revision of the Consumer Credit Code which resulted in more protection for consumers in all areas.

He pushed through elimination of 11 floratorial districts rearranging the 150-member House into 80 districts and reforming legislative procedures.

An Advisory Council for Language-Handicapped Children, known as the Barnes-Wright Act, was established.

Without Barnes assistance, there would have been no school teacher pay bill enacted during that session.

Two institutes for Urban Studies at The University of Texas at Arlington and the University of Houston were opened because of Barnes' participation.

He was active in passage of the Clean Air Act of Texas passed in 1967 and in legislation to allow the Department of Mental Health and Mental Retardation to operate half-way houses and community centers.

Barnes guided the Texas Traffic Safety Act which created statewide traffic safety programs and helped to establish the state's third national park in the Guadalupe Mountains.

Another highly important item enacted that year which Barnes helped was establishment of the Texas Water Quality Board.

Voters later in 1967 approved \$75 million bond program which Barnes endorsed to create the Texas Park Development Fund. This far-reaching program will enable the State of Texas to acquire and develop park lands in the future.

The 61st Legislature in 1969 saw Barnes expertly guiding the Senate through a maze of legislation with perhaps the most progress made in a field close to the Lieutenant Governor's heart—education.

He led in creation of nursing schools in El Paso and San Antonio; two University of Texas dental schools, one at Houston and one at San Antonio; the Texas Tech University medical school in Lubbock and the University of Texas medical school in Houston; and was instrumental in establishing four new senior colleges.

Education at all levels always has been an area in which Barnes has taken the lead.

During that same legislative session the state's first minimum wage bill was enacted and the workmen's compensation law was reformed resulting in increased benefits to workers.

Barnes also was in the forefront of legislation creating the Texas Mass Transportation Commission and the Commission on Rehabilitation.

Other reform measures that year included changes in the Texas Liquor Control Act and passage of the "implied consent law."

The 62nd session in 1971 again saw Barnes presiding over the Senate and taking the lead in numerous reforms within state government.

A Texas Department of Community Affairs was formed to assist local governments in providing services, and the Texas Commission on Services to Children and Youth came

into being.

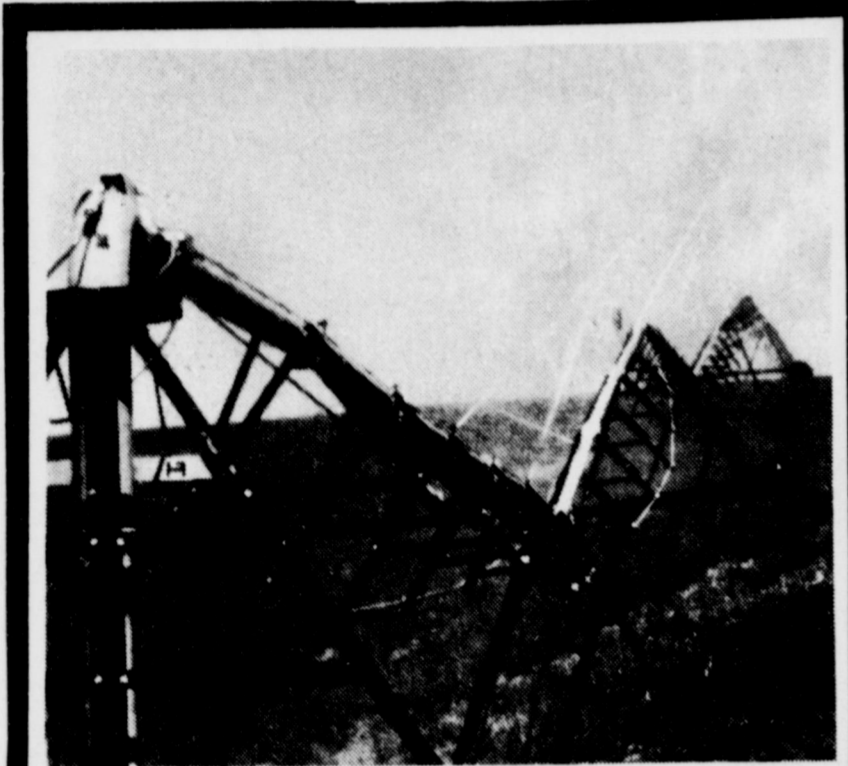

A highly important Consumer Protection Division within the Consumer Credit Commission was made possible because of Barnes' active support.

Barnes directed the Senate Investigating Committee to probe state banking procedures with the result that nine reform bills were recommended, with seven passing.

The Lieutenant Governor was instrumental in a study of the Penal Code; however the proposals recommended did not come to a vote.

Barnes saw to it that funds for higher education research and for the Air and Water Quality Control Boards were increased to push Texas forward in the environmental field.

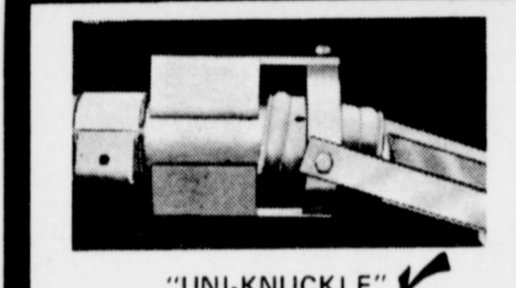

Additional progress in the field of health was made with passage of immunization bills for school children in addition to stepped-up programs on drug abuse.

### The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson light bulb. Let's forget all about grass farm takes a rather violent reaction to an oddity in the news.

Dear editor:

There's enough violence in the world without any additional help from me, for example a Washington commission has just finished an alarming study on the effect of T.V. violence on children, although it failed to study the effect of children's violence on adults, but, to pick up this sentence where I started it, I don't want to add to the sum total of violence but I heard about something the other day that needs perhaps violent attention.

It's a light bulb. There's a light bulb in California that's been burning for 71 years and is still going strong. Located in a fire station, it stays on night and day and is as good now as the day it was first turned on.

Understand I'm not suggesting it and it'd be a shame for it to happen, but perhaps somebody who understands world economy ought to shoot that thing out.

Have you stopped to think what would happen to the world's economy if everything lasted as long as that light bulb?

Buy a new car every 71 years? Never have to take it to a garage? Plug in a new refrigerator and an air conditioner and sit back with the comforting thought that your great grandchildren will have cold sodawater and never swelter in the summer time? Buy a new T.V. set and realize you won't have to buy a new one for the next 8 or 10 wars?

You can see immediately what this would do to manufacturing throughout the world and the ruination of the economy. You know what it did to the maker of that light bulb. The firm closed up for lack of new business.

Wouldn't be much left for people to do but sit around on sofas that won't wear out listening to old men tell about the excitement throughout the country when the last new model car came out years and years ago.

Actually, I ought to be ashamed of myself for calling ev-

en this much attention to that it, even if it does indicate the only known way to halt inflation.

If you want to keep the wheels turning, let your light so shine that it will burn out at least every 90 days.

Yours faithfully,  
J.A.

# STATE Capital NEWS

By BILL ROYKIN

AUSTIN, Tex.-- Atty. Gen. Crawford C. Martin jarred legislators with an opinion that they are prohibited from hiring not only their own relatives but those of other lawmakers.

The opinion, requested by new House Speaker Rayford Price, thus declared illegal a long-standing practice which, only within the last few weeks, has attracted widespread critical attention.

Meanwhile, State Sen. David Ratliff of Stamford, whose family hiring practices and son-and-daughter job swapping with another legislator triggered a threatened investigation, said he may resign.

More than 40 legislators freely admit relatives were on the state payroll (usually in the Senate for House members' kinfolks and in the House for the Senate kin) during the last five years. Many of the cases involved nothing more than legislators' children working as pages, but combined salaries of the improperly-hired totaled more than \$120,000 since 1967.

Martin said an article of the penal code forbids a member of one house of the legislature from hiring a relative (within Muleshoe...

Librarians from the Lubbock area will meet Tuesday, May 2, at 9:30 a.m. at the Reddy Room, Monterey Shopping Center in Lubbock to sharpen their skills in planning special projects for their libraries.

Conducting the session will be Richard Getz, field consultant for the Texas State Library. This is one of a series of workshops being held throughout the state for librarians in the state's 380 public libraries. Since adequate preplanning is an essential ingredient of successful implementation of projects carried out under federal Library Services and Construction Act programs, the workshops are particularly important for librarians in those libraries which meet criteria of local support to qualify for Title I grants.

restricted degrees by both blood and marriage) of a member of either house when the employee is paid from public funds.

Lt. Gov. Ben Barnes issued prompt orders that any Senate employee related to a legislator will be dropped from the payroll immediately.

House Speaker Rayford Price said he also plans full cooperation.

With one state representative indicted for allegedly using state postage stamps to buy a pickup truck and another known to have leased furniture for his state office from his own firm, the House administration committee also proposed new limitations on lawmakers' expense accounts.

NO NEW TAXES: Smith--Gov. Preston Smith, in a statewide campaign speech via television, threatened to veto any tax bill passed by the legislature in special session this summer.

"I will present a budget that will require no new taxes, and I will use every available authority of the governor's office to insure that such a budget is enacted by the Legislature," said Smith.

Smith claimed he is the only candidate for governor who can and will insure that taxes will not be higher in 1973.

Financial observers are waiting to see how the governor is going to shave the 1973 budget.

by an estimated \$150 million to avoid another tax bill. He may rely on increased federal revenue-sharing or an increasingly-improved revenue picture.

REVENUE-SHARING AIDS CITIES, counties--A federal revenue-sharing bill approved by the U.S. House Ways and Means Committee last week would provide \$202 million a year to Texas cities and counties.

Allocation of the funds would be retroactive to Jan. 1, 1972, if the bill becomes law.

Enthusiasm of some city officials for the revenue-sharing plan was dampened by an apparent provision that states participating would have to adopt state income taxes or receive a lesser amount than those which do levy taxes on income.

DOUGHT GETTING WORSE--A Texas climatologist reported spring drought conditions are getting worse over most of Texas.

Agriculture Commissioner John White said the drought already cost agricultural producers hundreds of thousands of dollars.

There was little rain anywhere except in North Central Texas.

Climatologist Robert Orton said there is a moderate drought in the High Plains, North Central Texas, East Texas, Trans-Pecos, and the Edwards Plateau.

The Low Plains and the Upper Coast still are listed in a state of mild drought. South Central Texas, Southern Texas and the Lower Rio Grande Valley have not entered the mild drought category.

ALLOWABLE STAYS UP--The Texas oil production allowable for May will stay at 100 percent due to increasing demands. A Railroad Commission order last week retained the April maximum after major buyers of crude asked for an increase in output of 83,312 barrels a day or a total for next month of more than 3.6 million barrels.

Ten of the 16 big buyers requested the same amount as April. Five asked an increase, and only one said less oil is needed.

The April 100 percent figure was the first wide-open allow-

able since 1948.

Careful study will be continued to prevent waste, Commission Chairman Byron Tunnell said.

NEW DEADLINE FIXED--April 30 is a new tax deadline for about 72,000 Texas employers. Wage reports must be filed by then with Texas Employment Commission for purposes of unemployment taxes during the first quarter of 1972.

Employers have been notified by mail and sent forms and instructions.

Reports must include wages paid and names of employees, along with taxes due. Employers brought under coverage of the Texas Unemployment Compensation Act are mainly those who have one to four employees. New employers receive a tax rate of one per cent, which may scale downward after two years depending on unemployment experience. Some non-profit, charitable and educational organizations are subject only if they have four or more workers.

COURTS SPEAK--The U.S. Supreme Court upheld a Massachusetts law requiring the state's public employees to take a "loyalty oath" that they oppose overthrow of the government by illegal force.

The State Supreme Court a Tarrant County case upheld minimum filing fee and petition requirements for getting on the Texas primary election ballot as set by Secretary of State Bob Bullock.

The High Court also found the legislature can not exempt non-profit water supply corporations from property taxation.

A corporation in Williamson County sought exemption from Leander school district taxes.

Third Court of Civil Appeals held Southwestern Bell Telephone Company owes all the taxes on telephone pole rental payments which it paid under AG OPINIONS--A prohibitory against a person who holds any state or local office of profit or trust from serving as chairman or a member of any political party executive committee is unconstitutional, Attorney General Martin held.

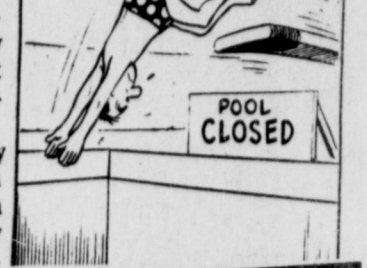

In other recent opinions, Martin concluded:

\* County party executive committee or primary committee members are not entitled to compensation for expenses of attending their official meeting.

\* The filing deadline for independent school district trustee is midnight of the 31st day preceding the election, not counting the day of the election.

\* A justice of the peace may order removal of a finger from a dead body for identification purposes, but only the county health officer or a duly-licen-

sed and practicing physician trained in pathology can do the amputation.

She said, "In arranging flowers, one searches for something all the time to be different." An arrangement of black and white daisies stressed this point. She emphasized working with flowers the way they grow. "The rose," which was the favorite flower of most of the members, "can express joy, give comfort, and say 'I love you,'"

### Green Thumb Tips

Crowding cabbage plants in a row does not result in an increased crop. Instead, crowding causes plants to go to seed rather than form heads.

For this reason set plants or thin seedlings to allow at least 12 and, for large-headed varieties, 18 inches between plants.

stated Mrs. Howell.

Present were the guest speaker, and members, Mrs. John Agee, Mrs. J.G. Arnn, Mrs. H.L. Blackburn, Mrs. Joe Costen, Mrs. Douglas DuBose, Mrs. John Farley, Mrs. Jewel Grif-

### Wedding Policy

The Muleshoe and Bailey County Journals will hereafter print wedding stories and pictures under the following guidelines:

1. Newspaper reproduction is best with black and white photographs which have good contrast. Color prints often do not have enough contrast to reproduce well and are slower to have developed and must be done by professional studios. Those taking pictures at the wedding should have at least one black and white picture taken of the bride before the altar, to be ready immediately following the ceremony, to be submitted with the wedding story. Pictures submitted for publication should be of the bride only.

2. Photos and stories must be in the office by noon Monday for the Thursday Muleshoe Journal and noon Thursday for the Sunday Bailey County Journal.

3. Story with picture must be presented by deadline for publication in issue no later than two weeks following the ceremony.

4. Stories without photos will be printed if received in time for publication within the same two weeks deadline.

5. All information will be printed as desired and as space allows with the exception of out-of-town guests. The immediate family of the bridal couple will be printed as out-of-town guests, as space allows. If serving in some capacity at the wedding, names will not be repeated in the guest list.

6. Information preferably should be typed, either on a form provided by the paper, or in story form, in which case it should be double spaced, on one side of the paper only. The paper will not be responsible for misspelled names taken from handwritten stories or forms.

7. Photos are returnable following publication and appropriate arrangements should be made with the Society Reporter.

8. When announcing engagements, the Journal's wedding form may be obtained from the Society Reporter. The staff is available to assist brides-to-be and her family.

9. As with all copy, the Journal reserved the right to edit all stories to fit newspaper standards and policies.

10. Any society story received after deadlines will be subject to further editing or publication in later issues.

## Aleene Embry Travels On Alaskan Adventure

Aleene Embry, daughter of Mr. and Mrs. Calvin Embry of the Lazbuddie community, and Travel Counselor for the Linn Travel Agency in Lubbock has been busy this week selecting warm clothing, from her already stored winter wardrobe, for a forthcoming trip to Alaska. Aleene will be departing Lubbock, Saturday April 29th on Continental Airlines for Seattle where she will be joined by a group of other travel agents. Sunday the group will fly to Alaska with the first stop Sitka.

Sitka is an old Russian city, dating well back before the United States purchased the now 59th state from Czarist Russia. The city became a major Russian trading center on the North American continent and the town's Russian heritage is still visible in buildings, artifacts, and many interesting monuments.

The second stop in Alaska will be Anchorage where sightseeing will include a scenic drive on Highway One along the north shore of the beautiful Turnagain Arm. This turbulent fjord boasts the second highest tide in the world, Portage Glacier, Iceberg Lake, Mt. Alyeska Ski Resort, and Earthquake Park, with its reminders of the 1964 Good Friday quake, will also demand the travel advisors attention in Anchorage.

The most northerly point to be visited will be Nome, approximately 200 miles south of the Arctic Circle and east of Russia. There will be plenty of snow on the ground in Nome in early May and Aleene will have an opportunity to ride on a real dog sled. A kayak demonstrat-

ion and visit to the village of the King Island Eskimos is also planned. The Eskimos will entertain their visitors with ivory carving, skin sewing, chants and dancing to the rhythmic beat of Eskimo music.

Hotel inspection, meeting tour company officials, studying the history and folklore of Alaska, and shopping for unusual souvenirs will round out the week's activities. Aleene will arrive back in Lubbock on Friday, May 5th.

Miss Embry's interest in travel dates back to her school days at Lazbuddie High School. After graduation she enrolled in the Atlantic Airliner School in Kansas City and earned her certificate as a travel advisor. She now has over five years experience with travel agencies in Amarillo and Lubbock. She joined the Linn Travel Agency of Lubbock in February of 1971.

First hand experience is the travel agent's greatest asset and Aleene has had the opportunity to visit most of the 50 states, including Hawaii, England, Holland, Germany, Switzerland, and France in Europe, Mexico and Canada. Also, earlier this year she enjoyed a Caribbean cruise to St. Thomas, San Juan and St. Maarten.

Gene Linn, President of Linn Travel Agency, Inc. stated, "Aleene is one of the hardest working young people I have ever known and we are extremely pleased to have her on our staff. This Alaskan adventure will help her to become even better qualified to serve our customers in the future."

The Rainbow Girls had a Bake sale on April 15 and collected \$60 to be used toward financing their trip to the Grand Assembly in June.

On April 21, the Rainbows were the hostesses for a party given in honor of the Grand Worthy Advisor, Nancy Blout, in the home of the Don Cihak's. Two Grand Representatives from the state of Texas also attended.

The Rainbow Girls traveled to Earth on April 22 for a joint meeting with the surrounding area assemblies.

The annual Rainbow-DeMolay Banquet was held Wednesday, April 26.

# Smith Names Davis As Texas Rural Development Chairman

Governor Preston Smith charged the newly-created Texas Rural Development Commission Saturday with responsibility for finding methods to improve living conditions in the State's rural areas.

In remarks prepared for delivery at the opening meeting of the Commission in the House Appropriations Room at the Capitol, the Governor told the 25 members that the State's efforts have recently been directed more toward solving urban problems, than those of our rural areas.

"Our rural work force has declined, the countryside is being drained of its young, and the economies of our small towns and cities are suffering," Governor Smith said.

## Murrah Elected State Parliamentarian

### State FHA Meeting Held In Ft. Worth

Wednesday, April 19, the FHA state officer, state degree girls' and voting delegates left Ft. Worth, Texas, for the FHA state meeting. The meeting was held in the Tarrant County Convention Center. The girls represented the Rose, Rose Blossom, Rosebud, and HERO chapters.

Tani Murrah, the state officer representing Area I, attended the convention with the Muleshoe chapters. Wednesday night she and Mrs. Ben Gramling, Tani's advisor, attended a reception for the in-coming and out-going state officers. All day Thursday, Tani attended an executive council meeting. At this meeting, all the in-coming state officers were interviewed by a representative from each area. These representatives appointed the girls to their offices.

Thursday night there was a rehearsal for the State Degree ceremony which was to be held Friday afternoon. Each girl was given a charm representing a torch, the symbol of the State Degree and a certificate of achievement. The girls representing Muleshoe as State Degree girls were Sharon Kelson, Vowery Throckmorton, Tani Murrah, Donna Grimsley, Debbie Blaylock, Christy Ford, Dagmar Poteet, and Linda Lam-

bert. Friday morning was the first general session of the state meeting. The theme of the meetings was "We Can If I Will." The speaker for the morning session was Mr. Don Williams, a well-known and respected man.

It was during the Friday morning session that the girls were informed as to which state officer would hold what office. Tani Murrah is the state Parliamentarian. That night all incoming and out-going officers and their advisors met with Mrs. Romans, the state advisor from Austin.

The second general session was held Friday afternoon. This was the degree ceremony. Each girl was given a red rose as she walked across the stage. Friday night a talent show was held. The theme was the "FHA Hope Chest". Areas I-IV were represented.

Saturday morning was the final session. First, there was a business session. Afterwards the new state officers were installed in a beautiful ceremony. This concluded the annual FHA state convention.

The meetings were beneficial to everyone who attended. Each girl was inspired to do more for her chapter and for FHA as a whole.

### El Cinco De Mayo

Por que se celebra el cinco de mayo? En 1861, Benito Juarez suspendio el pago de los intereses de la deuda exterior. Francia, Espana e Inglaterra querian una intervencion Europea en Mexico bajo el achidquie Maximiliano de Austria. Inglaterra podia cobrar su deuda e impedir la expansion de los E.U.A. hacia Mexico. Espana podia colocar a un catolico en el trono de Mexico y Francia podia controlar el pais.

Al invadir a Mexico las fuerzas francesas fueron derrotadas la primera vez en las cercanias de Puebla el 5 de mayo, 1862, pero estas entraron en la ciudad de Mexico en Julio de 1863. Maximiliano y Carlota llegaron en 1864. Juarez y sus soldados peleaban heroicamente y constantemente contra los tropas francesas. Maximiliano temia a Juarez mas que el diablo mismo.

Juarez peleaba desde el 5 de Mayo de 1862 hasta el 19 de junio de 1867 cuando ejecuto a Maximiliano en Queretaro.

El 5 de mayo marca la primera batalla de los valientes e ilustres soldados mexicanos contra el agresor frances, e lo celebra en memoria de la importante batalla de Puebla que era el primer paso para la libertad mexicana. Aqui en Muleshoe tambien se celebrara el 5 de mayo.

FRANCIA PODIA CONTROLAR EL PAIS.

AL INVADIR A MEXICO LAS FUERZAS FRANCESAS FUERON DERROTADAS LA PRIMERA VEZ EN LAS CERCANIAS DE PUEBLA EL 5 DE MAYO, 1862, PERO ESTAS ENTRARON EN LA CIUDAD DE MEXICO EN JULIO DE 1863. MAXIMILIANO Y CARLOTA LLEGARON EN 1864. JUAREZ Y SUS SOLDADOS PELEABAN HEROICAMENTE Y CONSTANTEMENTE CONTRA LAS TROPAS FRANCESAS. MAXIMILIANO TEMIA A JUAREZ MAS QUE EL DIABLO MISMO.

JUAREZ PELEABA DESDE EL 5 DE MAYO DE 1862 HASTA EL 19 DE JUNIO DE 1867 CUANDO EJECUTO A MAXIMILIANO EN QUERETARO.

EL 5 DE MAYO MARCA LA PRIMERA BATALLA DE LOS VALIENTES E ILUSTRES SOLDADOS MEXICANOS CONTRA EL AGRESOR FRANCES, E LO CELEBRA EN MEMORIA DE LA IMPORTANTE BATALLA DE PUEBLA QUE ERA EL PRIMER PASO PARA LA LIBERTAD MEXICANA. AQUI EN MULESHOE TAMBIEN SE CELEBRARA EL 5 DE MAYO.

# Lady Candidate All For Reform

I am Frances Farenthold. I am a candidate for Governor of Texas in the Democratic Primary.

My campaign headquarters is located at 602 West 13th Street in Austin, Texas. My mailing address is Post Office Box 66, Austin, Texas.

I am a candidate in order to give the people of Texas a choice—a choice other than between two contaminated can-

didates and a legislator from the fifties.

I choose to challenge, so that we can create our own political realities rather than sit on the sidelines, belaboring the insufferable political condition of our state.

I am not part of the entrenched Texas political system, a system that spawned this present era of corruption and stock fraud scandal. My political life has been unorthodox

for Texas because my initial support has come from people and in this campaign it is again to the people I turn. My political life is unprogrammed, because I am not part of any arrangements. And our state political life is filled with pre-ordained arrangements, trading offices around as if they were fiefdoms.

This past session, thirty or so of us in the Legislature attempted to plant the seeds of

reform in State Government. We felt this was the overriding issue at hand. In this pursuit there was leadership neither from the Governor nor the Lieutenant Governor, rather obstruction, nor was there any encouragement from the third major candidate in this race. Little more than a year ago, the public became aware of the corruption that has prevailed in Austin. When this awareness could not be smothered, there

appeared to be mass conversion to the reform movement by incumbents and candidates. And this present season finds us deep into the rhetoric of reform. Reform is too important to be made a mockery of. And for either the Governor or the Lieutenant Governor to carry a banner of reform is to make a mockery of reform. The current question is, "how can we continue to fight to bring about the reform Texas needs and de-

serves?" Reform consists of honest men and women serving in office; of people who do not enrich themselves while holding public office by merging the public with private interest; of people who, unlike the Governor and Lieutenant Governor, do not use offices of trust as collateral nor conceal their business enterprises through the use of partnerships.

Look at the other candidates for Governor. Who made \$62,500 on a Sharpstown Bank stock deal? The present Governor of Texas.

Who has parlayed his forty-eight hundred dollar a year salary into a fortune while supposedly serving the people of Texas? The present Lieutenant Governor of Texas.

And who has been running—and been silent—while all this has been going on? The third candidate in the race.

My pledge is to restore integrity to Texas state government and to make it serve the people of this state. I will have position papers on specific issues which I will release before the primary election date.

When the stench of corruption and greed and self-serving profit-taking no longer prevails in Austin, then the problems of the people can be met. And I ask the people of Texas to help me accomplish this pledge.

# LONGING

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

To every child there comes a time when they begin to wonder . . . Where did I come from? Who made the trees? Who made the mountains? EVERYONE has a desire to know their creator. "O GOD, thou art my God; early will I seek thee: my soul thirsteth for thee..." This longing for knowledge of God should be satisfied at an early age. "Train up a child in the way he should go: and when he is old, he will not depart from it." Plan NOW to attend church with your family.

# Texas Newspapers Support Briscoe

AUSTIN--A statement released from Briscoe's campaign headquarters, Texas newspapers from one end of the state to the other have thrown their support behind Dolph Briscoe, the Uvalde rancher, in his campaign for governor.

At last count 43 papers--14 dailies and 29 weeklies--had endorsed Briscoe, and the number is growing daily. It is very probable that endorsements have been made by some papers which have not yet reached the attention of Briscoe's state headquarters in Austin.

The following is a list of those on record at headquarters:

Daingerfield News-Ledger, Fort Stockton Pioneer, Glade-water Mirror, Graham News, Hamlin Herald, Henderson Herald, Houston Tribune.

Also Hughes Springs Herald Ledger, Iowa Park Leader, Italy News-Herald, Lone Star Tribune Ledger, Lynn County News, Midlothian Mirror, Mission Times, Oak Cliff Tribune, Omaha Times Ledger, Post Post-Dispatch, Rio Grande (City) Herald, Uvalde Leader-News, Weslaco Mid-Valley News, Wise County Messenger.

Here are a few examples of what they are saying about Briscoe: Gladewater Mirror--"His experience, vision and ability to reach and communicate with all Texans can restore prestige and confidence in state government."

governor stands alone today as the Texan who can restore to our statehouse the integrity and respect which it once commanded and of which Texas has always been so fiercely proud.

Austin American-Statesman--"There is no blemish on the Briscoe record of legislative service or on the Briscoe record of business success in ranching and banking...Dolph Briscoe gives himself unstintedly to movements for the public good."

Victoria Advocate--"Dolph Briscoe has no political obligations and no political 'I.O.U.'s' which might hamper his determination to restore the higher ideals of government in

this state. He carries no political scars."

Edinburg Daily Review--"Briscoe is truly an independent. He resisted the efforts of the big money boys to sidetrack him into the Senate campaign or hold him off in his bid for governor. If elected he can operate without the overwhelming commitments to groups that have seduced one governor after the other in Texas history."

Chico Texan--"The Uvalde rancher, banker and businessman offers new hope--perhaps the last hope--for a return to sound, efficient government."

Post Post-Dispatch--"His answer is a simple one. To prevent another 'stock fraud scandal' he will veto any bill which passes the legislature without a public hearing in both houses."

Midlothian Mirror--"Dolph Briscoe will get our support. Briscoe may not be as polished politically as his opponents, but he is more honest, Ben Barnes and Preston Smith do not deserve the support of honest people."
