A young colt constructed out of metal gets a bit of touching up by Mary R. Baca, curator of the National Cowgirl Hall of Fame located in the basement of the Deaf Smith County Library across from the county courthouse. The hall, which features western art displays and mementos of the first three inductees, was established officially by the Girls Rodeo Association in Hereford earlier this year and opened its doors in May. It is opened from 10 a.m.-5 p.m. Tuesday-Saturday and from 1 p.m.-5 p.m. on Sundays. It is also open on all holidays.

# Mahon To Speak Before Lions Club Wednesday

U.S. Congressman George Mahon, 19th Congressional District, will be guest speaker at the Hereford Lions Club weekly luncheon meeting Wednesday in Civic Club Center. During his visit to Hereford, the congressman will also talk with farm representatives Wednesday morning and will be available to visit with interested citizens at an informal coffee hour beginning at 8 p.m. Wednesday at the Deaf Smith County Chamber of Commerce office.

and Yoakum.

As a member of Congress, Mahon has been interested in all legislation, but has been most active in defense and agricultural matters. The 19th District is a leading producer of agricultural crops.

The House Committee on Appropriations is the largest committee in Congress, consisting of 55 members. This committee annually screens requests for funds for the operation of the federal government. The chairman of the committee is one of the important posts in government. Mahon has been an outspoken advocate of economy and pay-as-you-go policies throughout his tenure in the House.

Mahon was born Sept. 22, 1900, at Mahon, La. The family moved to Etoile in West Texas in 1908. He was reared on a cotton farm and has been engaged in farming all his life. In 1924, he received a

(See MAHON, Page 2A)

Rep. Mahon requested that representatives of various farm organizations meet with him at 10:30 Wednesday morning in the county commissioner's room at the courthouse. "I don't want to make a speech; I want to listen to some grassroots talk concerning the agricultural picture," stated the veteran congressman. The meeting will be open to interested ag leader and producers.

Rep. Mahon, chairman of the House Committee on Appropriations, will be featured speaker at the Lions Club meeting at noon. Following the civic club luncheon, the C of C will host the "coffee break with Congressman Mahon" beginning at 3 p.m. Bud Eades, C of C president, said Rep. Mahon asked for an informal time to visit with interested constituents of his district.

Mahon has served as representative of the 19th Congressional District for the past 40 years. Deaf Smith County was added to his district in 1972. Other counties in the district include Andrews, Bixley, Castro, Cochran, Dawson, Ector, Gaines, Hale, Hockley, Lamb, Lubbock, Lynn, Martin, Midland, Farmer, Terry

# Local Swine Quarantines Are Lifted By Agencies

By JIM STEIERT  
Brand Farm Writer

Quarantines which had restricted the movement of hogs in Deaf Smith and Castro Counties for about two months came to an end early Thursday as the U.S. Department of Agriculture and the Texas Animal Health Commission lifted their lids on the area.

THE QUARANTINES were imposed

July 10 after an outbreak of cholera was confirmed here July 4 in a herd at Hereford Livestock Co.

A second infected herd was discovered locally on July 21, automatically extending the quarantine.

A spokesman for the task force which conducted field work during the quarantine told the Brand in a telephone interview Thursday that the original source of the infection in the area has not been established, but investigative work on the matter will continue.

Investigation of any sick pigs reported and testing of blood samples taken at slaughtering plants will continue as a precautionary measure in the Panhandle area, according to the spokesman.

THE TASK force, which numbered 58 persons at the height of the cholera investigation, was disbanded Thursday, the spokesman reported.

A total of 71,347 hogs in 655 herds were checked by the task force members.

Members of the task force checked movement of hogs into surrounding states, and during the course of their investigation, 25 herds in Texas and six in Oklahoma were destroyed, due to exposure to animals from the infected herds.

Some 2,350 hogs were destroyed in Texas and 1,134 were destroyed in Oklahoma.

OWNERS OF the destroyed hogs will be compensated with federal indemnity funds to the tune of \$224,564.96 in Texas and \$130,671.42 in Oklahoma.

A total of 1,418 hogs with an appraised value of \$144,497 were destroyed in Deaf Smith County.

Several states, including Oklahoma, Iowa, Missouri, Michigan and North Carolina placed at least partial embargoes on the movement of Texas swine when the quarantines were imposed in the state.

The task force spokesman reported Thursday that it will be up to the individual states to decide when they will lift their embargoes on Texas swine, but the embargoes are normally lifted with quarantines are terminated.

IF NO FURTHER cases of cholera are reported within six months of the last quarantine in July, Texas will regain status as a hog cholera-free state.

The July outbreak of the disease was the first country in over a year.

Prior to the outbreak in July, the last previous cases of the disease were

We hear the Whiteface Kiwanis Club has a new project going in connection with a membership drive. If the club enrolls at least eight new members by Oct. 1, R.C. (Honest Abe) Hoelscher is going to shave off his beard! Before they came up with the idea, Kiwanians had thought of turning the matter over to the C of C clean-up committee.

oOo

The Brand joins other citizens in welcoming Congressman George Mahon to Hereford Wednesday for a visit with constituents and an appearance at the Hereford Lions Club meeting.

It has been this writer's privilege to know Mr. Mahon for about 30 years. I have always found him to be very responsive to the people he represents, and he is to be commended for his outstanding service to the entire 19th Congressional District, the State and the Nation during his long tenure in office.

Mahon became a member of the House Appropriations Committee in 1939 and began his service on the War Department Subcommittee in 1940. In 1949, all defense appropriations were consolidated into one bill and Mahon became chairman of the subcommittee. From the beginning he championed a strong national defense program for the nation. Under his chairmanship, despite some mismanagement and waste in the Defense Department, the funds provided have enabled the United States to maintain military superiority over any other country.

Mahon has been praised by many people, in and out of government. We believe President Gerald Ford summed it

(See BANQUET, Page 2A)

## School Enrollment Expected To Exceed Last Year's Figures

Preliminary, incomplete figures released Thursday by officials of the Hereford Public School District show enrollment for the schools here rapidly moving toward last year's totals, with officials expecting enrollment for this year to exceed last year's total.

As of Thursday 5,094 students had enrolled for the 1975-76 year, as compared with 5,368 for the 1974-75 year. Since students continue to enroll daily, totals for this year are expected to increase substantially.

A total of 940 students had enrolled in

regular classes at the High School, plus 15 special education students there. This compares to 934 students in regular classes last year, and an overall total of 49 special education students.

So far this year, 362 sophomores, 266 juniors, and 312 seniors had enrolled in the High School. This compares to 359 sophomores, 339 juniors, and 236 seniors last year.

A total of 1,379 students had enrolled in Junior High School as of Thursday, with 675 enrolling at La Plata and 704 at Stanton. Last year, 1,415 students enrolled in the two junior high schools.

So far this year 483 students had enrolled in seventh grade in the two schools, 447 in eighth grade, and 449 in ninth grade.

Total elementary enrollment as of Thursday was 2,304, as compared with 2,545 last year. A total of 410 students had enrolled at Aikman, 406 at Bluebonnet, 458 at West Central, 355 at Northwest, 325 at Shirley, and 350 at Tierra Blanca.

In all the elementary schools, 358 students had enrolled as first graders, 358 in the second grade, 349 in the third, 357 in the fourth, 441 in the fifth, and also 441 in the sixth grade.

The total for five-year kindergartens, as of Thursday was 350 students, as compared to 317 a year ago. At Aikman, 55 kindergarten students, age five, had enrolled; at Bluebonnet, 63; at West Central, 73; at Northwest, 46; at Shirley, 59; and at Tierra Blanca, 54.

Four-year kindergarten classes total 15 at Aikman, 14 at Bluebonnet, 20 at West Central, 12 at Northwest, 20 at Shirley, and 11 at Tierra Blanca, for an overall

total so far this year of 92, as compared to 108 a year ago.

There are 14 special education students as Shirley, which along with the 15 at the High School composes a total of 29 special education students here, as compared to 49 a year ago.

The overall total Thursday was within approximately five per cent of last year's final total. Total enrollment for this year could exceed last year's total by several percentage points.

## Loan Approved For Deficit Budget

# Cof C Board Elects Women's Division President for 1976

Election of the Women's Division president for 1976, discussion of the chamber's financial position, and special committee reports were highlights of a Thursday morning directors' meeting of Deaf Smith County Chamber of Commerce.

Georgia Sparks, nominated by the Women's Division, was unanimously elected to head the women's organization for 1976. A two-year board member, she will succeed Lavon Nieman as president in January. Other officers and directors are named by the women in October and November.

A REPORT from the C of C finance committee Thursday morning revealed the chamber had a deficit financial picture. Bud Eades, president, explained that the 1975 budget was prepared on the basis of increased memberships after a deficit in 1974.

"If we can't get more support in the form of memberships from local businesses, as well as collect delinquent dues, we will have to look at increasing dues or decreasing services," Eades said.

Due to a number of past-due bills, the directors voted to borrow \$5,000 to help

complete the fiscal year and repay the loan by Jan. 1. Eades reported that directors had agreed to seek new memberships, with each striving to enroll five new members in the chamber. If the campaign is successful, the chamber could end the year in the "black."

BILL ALBRIGHT, executive vice president, reported that the Goals for Progress committee is planning a public meeting Sept. 23 to present the goals as proposed by the various sub-committee groups. The GoPro committee, composed

# Day Care Needs Filled by Service Clubs

## Financed Solely With Local Funds

By JOE LACKEY  
Brand Staff Writer

Community pride is reflected in the Hereford Day Care Center, the pride of a town which has refused to permit the state government to control its day care activities, the pride of a town which continues to support those activities with enough time and money to insure continued quality in day care for small children here.

Mike Patrick, who serves as chairman of the board of the Hereford Day Care Center in addition to his full-time job as manager of Southwestern Bell here, said recently "Our center is not subsidized by the government other than the commodity program, which only involves providing needed food. We have one of the few day care centers sponsored entirely by the community."

A FEW YEARS AGO, he said, there was an inquiry from the state government about the possibility of the state subsidizing the center here. "Things with the finances of the center were tough at the time," Patrick said, indicating that the state offer was tempting. So local officials met with a representative of the state Department of

Public Welfare to discuss the situation. But when it was discovered that the state offer to subsidize the center would also have involved state control over the center, the offer was rejected.

Since that time community support has ended the center's financial crisis, and considerable long-range planning has been done, involving renovation of the center and plans to considerably expand and enlarge the center.

Mrs. Betty Roberts, the director of the center, stated that "Life is a fascinating world of activity to a young child. The Day Care Center provides a place for doing, discovering, and trying things out through a planned program of activities."

THE PROGRAM at the center is for children age six months through eight years. Mothers of the children must be helping to earn a living for their families, or must be enrolled in an educational program, such as college, nursing school, technical school, or whatever.

The Center's program includes a library, a science table, a television nook (for educational programs), a homemaking center, "manipulative materials," speech and symbol experiences, a block center and art center, and a music center, as well as a playground equipped with

preschool equipment, a playhouse, and a sandpile.

The day care center here is a non-profit organization, and was organized in 1970 by a group of concerned citizens. Hereford's First Baptist Church donated the land and the building used by the center, to be used so long as the center operated as a non-profit day care center.

Renovation of the interior of the center, its exterior, and the playground equipment has been undertaken during the last two years. The interior of the center has been painted, which has included murals on the walls; indoor-outdoor carpet has been added; and additional toys and other projects have been purchased.

Additional playground equipment has been purchased, and the exterior of the center has been involved in a painting project. Patrick said the kids served by the center are "tickled to death by the new playground equipment," much of which was bought with the aid of donations by the Hereford Lions Club.

THE ROTARY CLUB here has paid for laying concrete at the center for playground equipment and a new storage building.

Other civic groups and businesses have

contributed recently to the center, including Southwestern Bell, Pioneer Natural Gas, El Llano Study Club, the Women's Division of the Chamber of Commerce, the Pioneer Study Club, the Parent's Advisory Board, Troop 50 of the Boy Scouts, the North Hereford Home Demonstration Club, Natural Gas Pipeline Co., George Warner Seed Co., the Jaycees, and Arrowhead Mills.

The center is open from 7 a.m. to 6 p.m. Monday-Friday. The average daily attendance of the center averages about 38, but varies somewhat.

Children at the center are taught the value of sharing, personal hygiene, physical coordination, table manners, and in general are taught how to work well and play well together.

All teachers at the center are required to have teacher's training. Although the state does not have direct control over the center, the operation is licensed.

This means that a certain ratio of teachers to children must be maintained if the license is to be kept. In the age group involving children from six months to two years, the ratio is four children to one worker; for two-year-old children, an eight to one ratio is maintained; for those aged three years old, the ratio is 13 to one; and for four and five-year-old children, there must be one teacher, or worker, for each group of 17 children.

OLDER CHILDREN come in after school, Mrs. Robert explained, after the smaller children have started to go home; therefore no particular ratio is maintained for the older children.

## Innocence Of Youth

Small children, enjoying the innocence of their youth, contentedly play on swings in the playground area of the Hereford Day Care Center. The center has been renovated recently, and much has been added, including much new playground equipment. The center here is one of the few supported entirely by the community, and is not effected by state funding or controls.

About \$38,000 per year is required to maintain the operation, Mrs. Roberts said. This amount is derived from contributions from local groups, businesses, and individuals.

Patrick said the center is already operating near its maximum, which has led to plans to possibly enlarge the center

in the future.

Hustlin' Hereford's dynamic future will include an expanded, enlarged day care center, designed to serve the working woman with small children, so long as the community continues to support center activities.

# New Plans Outlined Here For Coffee Blood Donations

New arrangements for blood donations to the Coffee Memorial Blood Center, and through it to Deaf Smith General Hospital, were presented Thursday to a committee from the Chamber of Commerce Women's Division which as-

sumes local sponsorship. John Mitchell, community relations director for Coffee Center of Amarillo, was here to confer with Mrs. Bill Albright, chairman of the blood project for the Women's Division, her committee and Hereford news-

men. Of immediate interest is the monthly collection of blood in this community, scheduled from 4 to 6 p.m. Wednesday at Community Center. As in all regular visits of the mobile blood bank on fourth Wednes-

days, a team from the blood center will be here to receive donations. Residents of the county are asked to provide enough blood to meet requirements of the local hospital, which uses 250 to 300 pints a year.

Fourteen hospitals in the Panhandle area are served by the Coffee Blood Bank, and Mitchell said Amarillo and Dimmitt were the only communities which supplied the amount of blood used in their hospitals last year.

Hereford almost reached the break-even point last year, he added, and the new sponsoring groups hopes to better that record.

The Women's Division adopted the blood bank program recently, and a committee comprising Mrs. Albright, Mrs. Waldo Baxter and Mrs. Pete Caviness was named to direct it. Mrs. J.H. McCrary resigned this summer after serving as local chairman several years.

Mitchell discussed with the committee the possibility of changing the basis of blood donations here as an incentive to donors. Further discussion, to include Ron Welty, hospital administrator at Deaf Smith General, was scheduled for Aug. 28.

In use at present, Mitchell said, is the hospital pool system which credits a hospital blood bank bill with \$10 for each pint donated in its community. Cost of blood to the hospital is \$35 a pint.

The alternate system of family blood insurance assures each donor of a pint of blood, all the blood needed by himself or his family for a year.

Blood Bank Discussed

Mrs. Bill Albright, new chairman of the Blood Bank program which is now under sponsorship of Deaf Smith Chamber of Commerce Women's Division, meets John Mitchell, community relations director with the Coffee Memorial Blood Center, who was here Thursday to discuss new plans for the program.

of some 40 persons, has scheduled a study retreat on Sept. 5 at the High Plains Baptist camp northeast of Umbarger.

Mike Patrick reported that his committee, appointed to study the overall tax situation, is still compiling statistics. The committee plans to present tax comparisons over a three-year period. Bud Snyder and Donald Hicks also are on the committee.

Albright reported that the "Texas First" committee, headed by David Pruitt, has sent letters to some 60 employers and responses are expected soon. The program was initiated by the governor's office in an effort to get jobs and people together.

Lavon Nieman submitted the name of Mrs. Sparks as the nominee for president of the Women's Division next year. She also reported that the women's board had approved a request from the Coffee Memorial Blood Bank to sponsor the local blood donor drive. Inez Albright was appointed as chairman of the project.

# Childbirth Classes Start September 4

Childbirth education classes will soon be started at Deaf Smith General Hospital for any expectant mothers past their 6th month of pregnancy.

These classes cover many topics including posture training, anatomy, and physiology of pregnancy, various pre-and post-partum exercises, and the father's role during labor and delivery. The Lamaze Method of childbirth will be

taught, which uses relaxation and breathing techniques during labor and delivery to decrease the need for anesthesia or analgesia.

Classes will be conducted once each week for six weeks, for both the father and mother. A written consent is needed from the attending physician. The first class will be held at the hospital at 7:30 p.m. Sept. 4. A small fee will be charged.

These classes will be taught by Mrs. Marlene Bolton, a licensed physical therapist. She is a 1974 graduate of the University of Wisconsin. Recently she completed instructional seminar on the Lamaze Method of childbirth.

To register for class, or for any additional information, call Ed Hankard at the Deaf Smith General Hospital, Physical Therapy Department. The phone number is 364-2141.

## County Court Regular Meet Called Monday

The Deaf Smith County Commissioners Court is scheduled to consider a seven item agenda at a regular meeting at 10 a.m. Monday in the county courthouse.

Included on the agenda are requests for Criminal District Attorney Andy Shuval concerning equipment for his office and a welfare program participated in by the county in conjunction with the state.

Sandy Coleman, representing the American Shepherd Club will ask the commissioners for use of the Bull Barn. No dates were specifically requested.

Other items to be considered are approval of the 1976 tax roll and a general discussion on county policies. The court had decided earlier to write down all existing county policies and formulate new ones if deemed necessary. These are primarily in reference to personnel practices and use of county facilities such as the Bull Barn and library.

## Board-- from page 1

THE WOMEN are sponsoring a self-improvement course Sept. 15 with a registration cost of \$3 per person. The ladies are handling decorations for the New Teacher Banquet. Mrs. Nieman reported. She also announced the women

## Local School Board Sets Special Meeting For Tuesday

The Board of Education of Hereford Independent School District will conduct a special meeting at 7:30 a.m. Tuesday, August 26, in the Administration Building at the High School.

The agenda includes amending the 1974-75 budget, a discussion of school policy, and the resignation of Robert Allen.

Also on the agenda will be the election of new teachers, including Kima Marsh, Cheryl Meyer, and Harold Wilson.

## Miss Tucker Board Member

The National Cowgirl Hall of Fame board of directors have secured the services of Tanya Tucker, country music star, as a member of the board. Her acceptance to serve on the board fills out all positions on the supervisory body according to W.L. (Bill) Albright, board treasurer and hall of fame manager.

Miss Tucker is considered one of the top performers in the country-western music field. As one of its youngest, she hit the top of the charts when she was 13-years-old with her recording of "Delta Dawn." She is managed by her father Bo Tucker.

She joins her famous counterpart in the movies and television Dale Evans as members of the board of directors. They and Jon Birdsong, western artist from Amarillo and formerly of Hereford, are the only non-local board members.

Others include Pete Caviness, national fund-chairman; Terry Caviness, Caviness Meat-Packing Co.; James H. Sears, mayor and president of the First National Bank of Hereford; and Butch White, Boots and Saddle Western Wear.

Officers of the hall of fame include Roy D. Faubion, president; Margaret Clemmons, vice president and president of the Girls Rodeo Association (GRA); Sam Morgan, vice president and Deaf Smith County Judge; Penny Jessup, secretary and GRA member; and Albright.

The GRA sanctioned Hereford as the only official location for the National

## Hereford Bull-- from page 1

up pretty well last year at an unveiling of a painting of Mahon on Capitol Hill: "Mr. Mahon has devoted all of his energies and boundless resources to keeping American morally and fiscally strong and is a man who not only rises above party politics, he soars above them in his pursuit of what is right for all Americans."

oOo

## Mahon-- from page 1

BA degree from Simmons College in Abilene, and in 1925 he received a law degree from the University of Texas Law School.

Mahon began the practice of law in Colorado City in 1925, and he was elected county attorney of Mitchell County in 1926. A year later he was appointed district attorney and was subsequently elected to that office three times: in 1934, upon creation of the 19th District. Mahon was elected as a U.S. Representative, and he has been re-elected at two-year intervals since that time.

Mahon has received a number of honorary degrees from colleges and universities. In 1963, he was presented with the Congressional Distinguished Public Service Award of the American Legion. He became chairman of the Committee on Appropriations in 1964. He is also chairman of the joint Senate-House Committee on Reduction of Federal Expenditures.

The George Mahon Elementary School in Lubbock was named for him, and the new George and Helen Mahon Library there was named for him and his wife.

## Mahon married his high school sweetheart, Helen Stevenson, in 1923. They have one daughter, Daphne, who is married to Duncan Holt. The Holts, who reside in Dallas, have three children.

## Quarantine-- from page 1

reported in Puerto Rico May 4, 1974, and in Mississippi Feb. 7, 1974.

A cooperative state-federal eradication program which has been conducted since late in 1962 has helped bring one of the swine industry's biggest enemy's under control.

PRIOR TO THE start of the eradication program, some 5,000 to 6,000 swine herds were affected by the disease each year at a cost to swine producers of around \$50 million annually.

Swine producers are urged to remain alert and continue checking their herds, and to report any suspicious symptoms to their veterinarian or animal health officials.

**Rodeo Prizes**

Members of the Hereford High School Rodeo Club show off prizes that will be awarded to the winners of the sixth annual HHS rodeo Aug. 29 and 30. Pictured from left are Chris Melwes with the saddle to be awarded the all around cowboy, Thornton Monroe, club reporter David Bell and club president Curtis Smith with belt buckles and club vice president Scott Hall with the saddle to be awarded to the all around cowgirl. In foreground are the trophies which will be presented to the high point teams.

**High School Rodeo Set**

Approximately 200 contestants are expected to take part in the sixth annual Hereford High School Rodeo Aug. 29-30 at the Hereford Club Arena. The event is sponsored by the Hereford High School Rodeo Team and is approved by the Tri State Rodeo Association. Performances are set for 8 p.m. Aug. 29 and 2 and 8 p.m. Aug. 30. Admission will be \$2.50 for adults and \$1.50 for students.

Events will include bareback bronc riding, calf roping, barrel racing, ribbon roping, pole bending, team roping, bull riding, steer wrestling, goat tying, steer riding and girls' breakaway roping. James Martin of Spearman is stock contractor for the rodeo. Mike McFarland of Canyon will serve as rodeo clown. Announcer will be Jim Tucker and arena director will be Spicer Gripp. Gary Cotten will serve as flagman and Virginia Phillips is rodeo secretary. Timekeepers will be Carol Tucker and Twanaha Kendrick. Ed Jessup and Bussy Kaul will serve as judges. Bucking director will be Steve Robison and Gene Duren will serve as roping director. Buckles will be awarded to the top three contenders in each event and saddles will be awarded to the all-round cowboy and cowgirl. Team trophies will be awarded to the high point boys' and girls' teams. Dances will be held on both rodeo nights from 9 p.m. to 1 a.m. at the Little Bull Barn. Music will be provided by the "Young Country Sound." Approximately 30 members of the HHS Rodeo Club are expected to participate in the rodeo events. The HHS rodeo is the fourth rodeo of the 1975-76 Tri-State rodeo season.

**Weaver To Teach AC Class Here**

Willie Weaver, former Hereford Public School teacher, will return to Hereford this fall to instruct a Human Relations Class for the Mid-Management Department of Amarillo College. Weaver states, "Mid-Management is a two year college program designed to train men and women for supervisory and middle management positions in their chosen fields. Mid-Managers implement the policies and programs of top-managers and direct the work of various numbers of employees. They may be called supervisor, assistant manager, or department head. In order to function intelligently, efficiently and creatively at this level, mid managers need education, training and experience." Human Relations in management is a course designed to help the student understand himself and improve his efficiency on the job. It includes Human Relations and theory.

the supervisor's role in building good human relations, leadership qualities and techniques. Taught concurrently with the course is a Human Relations seminar that deals especially with human relations problems that arise on the job. In conjunction with the human relations course, lecture and seminar for four college credit hours, the student may enroll in the management training portion of the course for two additional college credit hours, bringing total college credit to six hours for the complete course. Enrollment for the three part Human Relations Course will be Tuesday, August 26 from 6:30 p.m. to 10:00 p.m. at Hereford High School. The course will be taught on Thursday evenings beginning August 28 through December 18, 1975. VA benefits are available to veterans. Weaver says, "The beauty of the Human Relations Course is that it is a core course that will apply to all Associate Degree areas in Mid-Management, Agri-Business, Aviation Management, Retail Merchandising, Hotel-Motel Restaurant Management."

**Villarreal Assigned To Ft. Hood**

Army Specialist Four Pablo A. Villarreal, 618 Ave. F, Hereford, Tex., is assigned as a truck driver in the 1st Cavalry Division at Ft. Hood.

**Jaycees Plan Rest Stop Here**

The Hereford Jaycees will sponsor a highway rest stop here during the long labor Day weekend. Jaycees will set up the rest stop on the Garrison Seed Co. parking lot on Highway 60. Coffee, cokes and cookies will be served to motorists. The rest stop will open Aug. 29 at 5 p.m. and will remain open until midnight Aug. 30. The stop will be open on Labor Day from noon until midnight. Jaycees conduct the rest stop project as a nationwide undertaking.

**Phone Company Breakup Could Hurt Customers**

Mike Patrick, local manager of Southwestern Bell, told Noon Kiwanians the pending anti-trust suit against American Telephone and Telegraph could cause poorer service and higher rates to phone customers.

Electric, Long Lines and several other branches. Western Electric supplies, Bell with phones and phone equipment. Patrick said without all the Bell System working as a team, phone customers would be in for poor service and higher rates. A film showing how the companies work hand-in-hand was seen by the Kiwanians. "Miracle on Second Avenue" depicted the near-disaster in

February of this year when a fire destroyed a central phone office on Second Avenue in New York. Phone service to over 170,000 customers was cut off. Different branches of the Bell System pitched in to rebuild the complex in three weeks, a complex that had taken years to

build. Without the compeaxy of the Bell System, the job might have taken much longer. Kiwanians made plans for the upcoming "Minister Appreciation Day", set for Sept. 4. Kiwanians will play host to clergymen from the city's churches on that date.

Thursday's meeting marked the last for 1974-1975 Sweetheart Monica Herring. Miss Herring was presented with a gift. Next year's Sweetheart, Melinda Watts, will begin attending meetings next Thursday.

**AC Slates Registration**

Students registering for the fall semester at Amarillo College will not have to wait in long lines as they did last year, due to the overwhelming success of advance registration. More than 2,500 students have already completed enrollment procedures, easing the hassle of regular registration. Aug. 27 and 28 are the dates set aside for regular registration, which will be conducted in

the College Union Building this year instead of in Badger Gym. Day college registration is set for 1 to 4 p.m. Aug. 27 and from 9 a.m. to 4 p.m. Aug. 28. Registration for evening classes is slated from 1 to 9 p.m. Aug. 27 and from 9 a.m. to 9 p.m. Aug. 28. A late registration fee of \$5 will be charged after Aug. 28, said J. Fred Balderston, AC registrar.

## Bible Courses Offered Here

Two Bible courses will be offered in Hereford for the fall semester under the direction of Amarillo College.

The courses are New Testament Archaeology and History, and also the Life and Letter of Paul.

The courses will be taught in the First Baptist Church of Hereford in a room provided by the church. The teacher will be Rev. Melvin Hooten, pastor of the Summit Baptist Church of Amarillo.

The courses may be taken for college credit, but students not desiring college credit may also take the courses.

The courses will be taught Thursday nights beginning September 4. The New Testament course will be taught from 6:00 p.m. to 6:50 p.m., and the Life and Letters of Paul will be taught from 7:00 p.m. to 9:45 p.m. each Thursday night.

Registration for college credit may be done at Hereford High School, Tuesday, August 26, at 7 p.m. At that time, representatives of the Registrar's Office of Amarillo College will be present to assist in registration.

Registration for taking the courses without college credit will be done on the first meeting night of the courses, Thursday, September 4, at the First Baptist Church.

If enrolled for college credit, tuition and fees would be the same as for any other Amarillo College course. If not enrolled for college credit, a small tuition fee will be charged.

## Troop Charter Presentation

Bill Albright, (left) executive vice president of the Deaf Smith Chamber of Commerce and District chairman for the Boy Scouts, presents a troop charter to Danny Vermillion, (center) president of the Whiteface Kiwanis Club, during a weekly meeting Friday morning. The organization sponsors a local troop. Walter Kreig, district vice chairman is shown at the right.

## Historical Program Slated At Lake Meredith

A National Park Service Bicentennial Living History presentation, "People of '76", will be staged at Lake Meredith Recreation Area Wednesday, August 27, according to Bill Dyer, Superintendent at Lake Meredith.

This performance will be the only showing in the State of Texas during the 1975 tour, which opened August 5 in Boston and will close Sept. 14 in San Francisco.

During the afternoon from 1:00 p.m. until 4:00 p.m. visitors will wander through a small colonial village, chat with the citizens, and learn about their day-to-day lives. The citizens of New Bristol will be working at colonial crafts and will discuss politics, economics, or just plain gossip of the Revolutionary times.

The afternoon segment will also feature an encampment of the Continental Army. The soldiers will be performing daily chores and drills, as well as discussing what it means to be fighting the war.

At 9:00 p.m., the characters will come together to present a dramatization of the events of the war and how it affected the town of New Bristol as well as the nation. The theatrical presentation will last approximately an hour.

High school and junior high students will probably enjoy and benefit most from the "People of '76" presentations. There is no charge for either the afternoon or evening showings.

Arrangements will be made for bus parking in the Sanford-Lake area, about one mile west of the marina.

Both productions reflect the lives of ordinary Americans on the military front and at home during the Revolutionary period. The great names of history are notably absent for this is the story of the "People of '76."

If you wish more information or have any questions concerning "The People of '76" call Superintendent William E. Dyer-806-857-3151-Fritch, Texas.

## Club Members Win Honors At Earth

Members of the Deaf Smith County 4-H Horse Club recently competed in the six county show at Earth and brought home a number of honors.

Patty Johnson, displaying her gelding "Little Cash Down" in the division for those 14 and over, garnered five trophies.

She exhibited the Reserve Champion, took second in the halter class, and also had second place finishes in the western pleasure and western horsemanship classes. Miss Johnson finished sixth in showmanship.

Phylecia Rowland exhibited her registered gelding "Whimpy's Ace" in the division for ages 9-13. She placed third in the halter class and fourth in western pleasure. Miss Rowland also placed sixth in western horsemanship and sixth in showmanship.

Sherie Whitaker placed third in the 9-13 showmanship division and fourth in the halter class.

Lee Washington finished sixth in barrel racing for 9-13

year olds. In the 14 and over barrel racing, Jeanine Jobe was second and Kathy Eggen sixth.

Brad Cunningham and Don Lawson had the fifth and sixth place grade geldings respectively.

Laura Thames had the second place registered mare and Lee Washington displayed the fifth place registered mare.

In the class for registered mares under five, Linda Walker exhibited the fourth place animal and Kristin Stallings placed sixth with her animal.

Kelli Stallings exhibited the first place mare in the class for grade mares five and over and Bob Pledge placed fifth with his mare.

Laura Thames finished fourth in reining. Allyn Rowland posted a fourth place finish in western horsemanship and Linda Walker placed fifth with her aged gelding.

Jana Johnson was all around winner in the pee wee class.

## HI NEIGHBOR.

### Boosters to Hold Ice Cream Supper Monday

# Herd Puts On Pads

Following several days of conditioning drills in shorts and shoes, the Hereford Whiteface football team put on the pads and started physical contact Friday afternoon.

Coach Fred Upshaw praised the attitude and enthusiasm of his gridders, pointing to fine senior leadership and a good group of juniors on this year's squad.

Upshaw reported that some 103 prospects had turned out for drills this first week. This included about 40 on the varsity, 30 on the junior varsity and 33 on the sophomore team. He invited interested fans to view varsity workouts, from about 4

to 6 p.m. each day.

All of the players will be introduced to boosters Monday night when the Whiteface Booster Club sponsors an ice cream supper in the high school cafeteria. A charge of 25 cents per person will be made for the ice cream. Booster club memberships will be on sale for \$5 each.

Upshaw believes one of the keys to a successful season could be the performance of the offensive line, where tight end Archie Crim is the lone returning starter. He added that the defensive line was "young and inexperienced, but we have some young men who we think

will perform well."

Three returning starters, all seniors, have been named as captains of the 1975 team. They are quarterback Mike Crim, back Dave Charest, and linebacker Dennis Evans.

Crim, who started all 10 games last year, is a strong thrower and will guide the offensive attack. The squad has three lettermen returning at running-back positions—juniors Terry Brady, Roy Martinez and Carlee Graves. Another back, Russell Harkins, has looked good in drills, according to Coach Upshaw, as well as Mike Dudding, who missed spring practice due to a broken hand.

The Whitefaces have one scrimmage session scheduled before opening the season. Amarillo Tascosa will come here Friday, and the two teams will have a controlled scrimmage so coaches can look for the weak and strong points of team play.

As an added attraction for football fans, Farwell and White Deer will also hold a scrimmage session at Whiteface Stadium Friday afternoon. The Herd-Tascosa scrimmage will follow.

The Hereford junior varsity and sophomore teams will travel to Amarillo High Thursday evening for controlled scrimmage sessions.

### Whiteface Captains

These three seniors have been named captains of the 1975 Hereford Whiteface football team. Left to right are quarterback Mike Crim, back Dave Charest, and linebacker Dennis Evans. All three were regular starters on last season's team.

Charest, named "sophomore of the year" in District 4-AAAA two years ago, will probably be used on both offense and defense. All the players will be introduced Monday night at an ice cream supper sponsored by the Whiteface Booster Club.

## Boys Ranch Slates Labor Day Rodeo

Two performances of the 31st Annual Boys Ranch Rodeo are scheduled for 2:30 p.m. the Labor Day weekend, Sunday and Monday, with approximately 10,000 people expected to drive to Cal Farley's Boys Ranch for the event.

All of the 370 boys of the Ranch will have some part in the

rodeo, with about 150 competing with each other on the Brahma bulls, bareback broncs, steers and calves. The rodeo is the only kind in the nation that has boys as the only contestants riding professional rodeo stock under R.C.A. rules. Top honors of the rodeo are the titles of Senior and Junior All-Around

Cowboys.

The rodeo is also a traditional homecoming for graduates of the Ranch who are members of the Boys Ranch Alumni Association. Some will travel long distances with their families to attend. More than 3,000 boys have lived at the Ranch since its founding by Cal Farley in 1939.

An added attraction will be bar-be-que beef plates and

other refreshments sold by the boys. Reserve box seat tickets are on sale at the Boys Ranch Office, 600 West 11th Street in Amarillo and can be obtained by writing P.O. Box 1890 or calling 806-372-2341.

The reserved box seat tickets are \$2.50 and general admission is \$1.50 for adults and 75 cents for children. Proceeds of the rodeo are used for the operation and expansion of the Ranch.

Former Florida Senator Gurney found innocent.

## Hunters Confused By Dove Season

A change to all-day dove shooting hours during a special 1976 season apparently has confused a great many hunters. But the Texas Parks and Wildlife Department is emphasizing that the full days of dove hunting will apply only during the second portion of a split season—from January 3 through January 18—in the South Zone of the state.

Traditional noon-to-sunset hours must be observed during the continuous mourning dove season Sept. 1 through Oct. 30 in the North Zone and in the first portion of the season in the South Zone, Sept. 20 through Nov. 2, except in those counties where white-winged doves and mourning doves may be hunted in early September, when the fall open season closes Oct. 26 instead of Nov. 2.

According to P&WD Executive Director Clayton T. Garrison, "The all-day season was established by the Parks and Wildlife Commission to determine public opinion on morning hunting and to measure any effects on our dove populations. We were given the option to hunt full days during

all or any part of our open seasons on doves by the U.S. Fish and Wildlife Service, but chose to use it only during the winter hunt in the South Zone." The South Zone includes all those counties south and east of and including: Maverick, Zavala, Frio, Atascosa, Wilson, Guadalupe, Caldwell, Bastrop, Lee, Burleson, Brazos, Madison, Walker, Trinity, Angelina, San Augustine and Sabine.

Garrison said that Texans have not had day-long dove shooting since 1950. Another major departure this year is seven half-days of white-winged dove hunting—Sept. 1 and 2, Sept. 5, 6, and 7, and Sept. 13 and 14—the longest whitewing season since 1943.

### NEW TAX CREDIT

HEW has announced that private employers can for the first time claim tax credits of up to \$1,000 for wages paid to welfare recipients working as maids, cooks and housekeepers.

Air Force sponsored LSD study.

### FOOTBALL

By Pete Fritchie

WASHINGTON, D.C.—John McKay made the college All-Stars a competitive team in the star-pro tilt with the Pittsburgh Steelers and for three quarters—as the Stars led the world champs—fans couldn't believe their eyes.

Going into the fourth quarter the Stars still held a 14-7 lead and had not one receiver dropped a pass about that time, the Stars might have gained field position to enable them to gain a tie.

But it was not to be. The Steelers dominated play solidly after the first quarter and deserved to win. The college stars, in fact, really can't be expected to play world champion pros an even game.

And that brings us to the question of changing the format of this game. Why not an All-Star pro team against an All-Star college team? Then neither group of players would have played together and it would make for a more even contest.

As it is, the Stars can't be expected to win for they give away an advantage of having not played together—to the best pro team which has trained and played together for years.

### FORD ON TAX CUT

President Ford said he'll consider asking Congress to extend tax reductions for another year if the economy does not improve during the remainder of 1975.

Good music often achieves surprising results.

Progress isn't achieved by following the crowd.

**Letter to the Editor**

Dear Editor:  
This letter is written in an effort to stimulate some interest in developing better recreational facilities for the community of Hereford in Deaf Smith County. It is well known that Deaf Smith County is No. 1 in agriculture and agri-business in the State of Texas, but I am sorry to say it is not No. 1 as far as providing the proper type of recreational facilities for our youth, young adults, middle-aged people, and senior citizens.

It has been brought to my attention again, painfully, in the last week in which several new families have moved into our community from other parts of the United States and are appalled by the lack of recreational facilities, especially for the youth of our community. It seems to me that we have made one giant step forward when we have gotten the city commissioners, county commissioners, and school board together to agree to work on developing a much needed tennis complex in this city.

I think this is an excellent beginning but we need not stop here; rather, we should continue this type of approach where everyone is involved in the community for the good of the community. Of course this will take a lot of hard work, but there is a lot of work to be done. I believe that there is no task too great for Deaf Smith County to tackle.

Therefore, if the civic leaders and members of various clubs and organizations, as well as the county, city and school officials of our community can just get together, the problem will be solved I'm sure. We, as a community, are interested in attracting new industry to our community as well as good red-blooded Americans. There must be some attractions here in order for industry to move into this area, including good local churches, a good school system, adequate law and fire protection, and medical services.

The one area in which most communities seem to fall behind, is in providing adequate recreational facilities for the people of their community. We strive to provide an excellent place for our children to be reared in Deaf Smith County and we want them to have the best education possible, but it is not good enough to develop only the mind, we need to develop the body also.

The old saying "sound mind and sound body go hand-in-hand" is quite appropriate I think. It is good that we have the summer track programs for our youngsters in the community but I think we are leaving out too many people that need physical exercise, namely young adults, middle-aged people, our senior citizens, and adults who are recovering from serious medical illness.

I have had recent correspondence with the local probation

officer here in Hereford, who is very interested since I was interested in starting the YMCA program here several years ago. He feels very strongly that this is needed in our community and that it will help the young people that he has on probation by putting these youth into useful activities during the summer months, as well as all year long.

I can think of no finer facility than a local YMCA for our community as it would serve all people from the very young to the very old, male and female, and all races. There is not enough variety of recreational facilities for this community, because everyone does not play golf, tennis, basketball, swim, or hunt.

We have people who are unable to take advantage of these facilities during the summer months due to a busy farming season and late working hours. If there were a local YMCA available, most people in the community could use this at some time during the week, especially after working hours.

One point of special need is an olympic-size indoor swimming pool that can be used the year-round by the whole community, and such a facility would help our local Red Cross group a great deal I am certain. I believe that if we can get the leaders of our community together with interested people, this problem can be solved. There seems to be no advantage in putting off till tomorrow what can be done today. Because of inflation, it will not be any cheaper five or ten years from now to build a YMCA complex or any other recreational facility. I listen to parents in my office every day complaining about the lack of facilities for their children during the summer months as well as throughout the year.

If feel it is our responsibility to get help for our youth by keeping them off the streets with supervised and directed recreational and allied programs, either directly or indirectly, with the YMCA complex.

As an interested citizen of this community, I would be very interested in hearing the comments of other people expressing their views about at least looking into this possibility with our local civic groups, city commissioners, county commissioners, and local school board trustees. I think it is a shame to delay this most needed project in Hereford any longer and would welcome any suggestions from anyone on getting the ball rolling. We need to, as a community, make our recreational facilities No. 1 to go along with our rating in the agri-business.

Sincerely yours,  
H.R. Johnson, M.D.

Noisy people wonder why anyone desires to be quiet.

**Treasury Sells Retirement Bond**

The Department of the Treasury has placed on sale U.S. Individual Retirement Bonds.

They are specifically designed for investment by persons who lack coverage by any other retirement plan. The Bonds are issued pursuant to the provisions of the Employee Retirement Income Security Act of 1974.

They are sold at face value in denominations of \$50, \$100 and \$500. Interest accrues at the rate of six per cent per year. Compounded semiannually, and is payable upon redemption.

Individual Retirement Bonds may be purchased from any Federal Reserve Bank or Branch, or directly from the Treasury Department. They may be registered in either single ownership or beneficiary form, in the names of natural persons only. Individual Retirement Bonds are nontransferable; they cannot be sold or used as collateral.

The new Bonds permit persons, who work for employers unable to finance a pension plan, to set aside a portion of their annual income up to a yearly limit of \$1,500, or 15 per cent of gross income, whichever

is less-for retirement. The amount set aside annually is deductible from gross income for federal income tax purposes.

Because they are designed to be used for personal retirement, the Bonds carry certain redemption restrictions. During the first year after issue, they may be redeemed without interest or penalty.

They may be cashed, with a tax penalty, until the owner reaches age 59-1/2, after which the Bonds may be redeemed without penalty. The Bonds may, however, be cashed without penalty, at any time until maturity, for the purpose of changing investments.

In addition, they may be cashed without penalty before age 59-1/2, in cases of disability. The maturity date is the first day of the month in which the Bond owner reaches age 70-1/2, or five years after the date of the owner's death, whichever is earlier.

Both principal and interest are reportable for federal income tax purposes, at time of redemption or maturity.

Complete regulations covering the Individual Retirement Bond may be found in Treasury Department Circular, Public Debt Series I-75.

**Social Security**

(Have you a question about social security? Address it to the Social Security Administration, 317 East Third Street, Amarillo, Texas 79101. You will receive an answer in this column or by mail.)

Q. I am getting ready to send in my first claim under Medicare and I hear that I should send it to the Medicare "carrier". What is a Medicare "carrier"?

A. The "carrier" is an organization selected by the Social Security Administration to handle medical insurance claims in your state. Your Medicare Handbook contains a list of carriers and their addresses.

Q. My mother, age 65, applied for Supplemental Security Income two weeks ago. How long will it take to process her claim?

A. Supplemental Security Income claims from people age 65 or over take at least 30 days to process.

**Hustle Hustle Hustle**  
By Bill Albright, Executive VP  
Chamber of Commerce

There are two things you can give to some one else that won't cost you one cent.

One is a smile! The other is a pint of blood! A person won't die for lack of a smile, but surely could for lack of blood.

Do something special for someone on Wednesday. Visit the Community Center between 4 and 6 p.m. and leave a pint of blood-you'll feel better for having done it and I'll bet you'll even give 'em a smile, too!

Your Chamber is Hustlin' for you. That simple little statement will never make headlines, but it really deserves to. And the reason it should be summed up in the many many activities through which the Chamber expresses the desires and will of the people to make this

community "a better place to live and earn a living."

Oh, I know the reaction of the uniformed and the misinformed; 'he's just blowing his own horn'-But that's just the point, I want to make-I am blowing a horn-but it's YOUR horn. Because it's you WHO constitute the Chamber-not me, not the board of directors, not the officers, but YOU, the citizens of Hereford and Deaf Smith County. YOU, who care enough about the essentials required for quality growth-YOU who care enough about the future of our young people, YOU who care enough about the progress of our civic and cultural efforts, and everyone of YOU who cares enough and has an interest in our economic development and well being and who doesn't?

The Chamber works for you in everything that it endorses, promotes, supports and accomplishes. It works directly for you, its members, and it reflects your ideas, your hopes, your talents, and your investments; it's a mirror image of YOU!

So the Chamber of Commerce is YOU. The plans and programs, which are yours are administered by the staff-the projects are carried out by YOU-Volunteers working for community betterment.

Those of YOU who hold membership in the Chamber have a voice and a vital part in our progress-If you are a member, congratulations-on accepting your responsibility for continuing improvement.

If you're not a member, shouldn't you be?

Don't forget, it takes three-YOU, your Chamber and me-and plenty of Hustle, Hustle, Hustle!

Courtesy is a virtue that seems to be on the wane.

**Golden Gleams**

The man who lacks patience, although few be willing to practice it.

All men commend patience, although few be willing to practice it.  
-Thomas A. Kempis.

A man must learn to endure that patiently which he cannot avoid conveniently.  
-John Florio.

Patience and delay achieve more than force and rage.  
-Jean De La Fontaine.

He that can have patience can have what he will.  
-Benjamin Franklin.

Patience is a necessary ingredient of genius.  
-Benjamin Disraeli.

## Chamber Needs You

The Deaf Smith County Chamber of Commerce is the voice of business, industry, agriculture, and the professions in our community, with the purpose of helping to create and maintain a healthy and growing economy for all of us.

In order to accomplish this purpose, the C of C must have active volunteer leadership and the financial support of every segment of the area it serves. Every business, large and small alike, benefits from the activities of the chamber.

The chamber, it was revealed this week, has financial difficulties. It boils down to the fact that financial support is lacking from some segments of the business community. There is a long list of prospective firms and individuals who are not dues-paying members.

Membership is only \$7 a month for business firms. Some businesses have taken out more than one membership, but many are taking a free ride. Support the chamber, and your fellow merchants. Invest in the C of C this week.

## Hometown Shopping

Another chapter in the "Shop at Home" continuing story was referred to us this week. The item was a letter in the popular Ann Landers column, and it had to do with one of the economic problems of the small, independent businessman.

A Hereford merchant, tired of seeing local citizens drive to Amarillo for what they think are bargains, brought the item to our attention. He thinks it reflects the thinking of a number of local merchants. Here's what the letter-writer had to say:

"I'd like to ask the American people a few questions. It's a matter of economic survival to me as well as millions of other "little people" who have small stores.

"Who do you ask to cash your checks? Who do you ask for credit when things are tight? Who do you ask to take ads for your organizations, yearbooks and programs? Who do you ask for contributions for your church suppers, raffles, etc.? Who do you call after hours when you need a special item? Who do you ask to put up your posters for special events?"

"It's your local, hometown small businessman. After all, he's your friend, your neighbor.

"But when you want to make a purchase, how often do you drive past his place of business and go to a giant store thinking you might save a few cents, without giving your local merchant a chance or even comparing his prices?"

"We are competitive with the biggest stores price-wise and our services are often better. But we can't survive much longer. When we go, you'll miss us."

## The Brand Files

ONE YEAR AGO

Deaf Smith County Commissioners were planning to meet as a Board of Equalization to act on a proposal to change the assessment of all taxable property in the county from 22 to 24 per cent of the assessed value...Controversy developed in a school board meeting after a local businessman complained that the policy of the Hereford High band director involving recommending certain brands of musical instruments to students was "discriminatory." The school board took no formal action on the issue. The board did, however, change school policy on married students, and also changed policy on pregnant students, bringing school policy in line with federal guidelines...Preliminary figures showed that 5,368 students had enrolled in public schools in the Hereford School District. The total represented an increase of 141 students over the same time in 1973.

FIVE YEARS AGO

A controversy apparently caused by a misunderstanding between the offices of the Sheriff and the County Judge resulted in a man being released from jail nine months before his sentence was up. It was decided that in the future signed releases would have to be obtained before prisoners could be released, so that problems of this sort would not again develop...The Downtown Variety Park Association, a group of representatives of downtown Hereford businesses, held its first complete meeting, and was told by Ernest Langley, local attorney, that the association could lead to "bigger and better things for Hereford." Formation of the association came during a period of rapid economic growth here. During his talk to the association Langley traced the business and industrial growth of Hereford over the years...It was estimated that 5,700 students would return for the new school term. The registration for the school year was expected to exceed the previous year by 500.

TWENTY-FIVE YEARS AGO

Some fourteen candidates in seven races were involved in a Democratic Party Primary run-off ballot. Races attracting the most interest included the contest for the Democratic nomination for state representative between Kenneth Wheatley and Morris Cobb, and the struggle for the nomination for Congress between Walter Rogers and Mrs. Altavene Clark. Mrs. Clark emphasized Christian leadership in government, while Rogers in his speeches talked about the necessity to resist socialist trends...Irvin Ward, then manager of the Star Theatre, and Bill Hardwick, an area rancher, loaded a sprayer on a pickup and sprinkled several sidewalks and alleys in Hereford with a DDT-sylene emulsion in an attempt to repel flies. The emulsion used was not strong enough to harm humans or animals...Nearly 300 Jaycees were expected in Hereford for their semi-annual bi-regional meeting. The Jaycees expected were from an area from Perryton on the north to Lamesa on the south...An oversupply in the local cantaloupe crop caused a drop in prices locally...

FIFTY YEARS AGO

Courses required by the local high school were similar to the courses still required today. The required list included four units of English, courses in algebra and plane geometry, three years of history, including American History and modern history, and two years of science. Science courses offered included chemistry, physics, biology, general science, home economics, and agriculture. Such other courses as foreign languages, commercial law, commercial geography, music, and Bible were also offered.

Page 8A Sunday, August 24, 1975 Hereford, Texas.

## Talk of Texas

By Jack Maguire

**FOOTNOTE TO HISTORY**—The Republic of Texas, lacking a national anthem, adopted an Irish ballad as its battle song in its struggle for independence from Mexico.

The song was "Will You Come to the Bower I Have Shaded for You?" It was written in the early 1800's by Sir Thomas Moore, the Dublin poet who went on to become the national lyricist of Ireland. The ballad was set to the tune of an old British Army song and had become popular in the U.S. in the 1830's.

Soldiers of the Texian Army sang the song in their camps and it is traditionally associated with the Battle of San Jacinto. However, historians disagree as to whether or not "Come to the Bower" actually was played or sung that afternoon of April 21, 1836, when General Sam Houston's little raggle-taggle army routed the well-drilled troops of Mexican General Santa Anna.

"The Handbook of Texas" does not mention the song in its account of San Jacinto. R. Henderson Shuffler, the late director of the Institute of Texan Cultures, said the Texians charged while a band of three fifes and a drum played "Come to the Bower." Most sources agree with Shuffler.

As long as the Republic of Texas existed, "Will You Come to the Bower?" remained its unofficial anthem.

It was not until 1929, when the Legislature chose "Texas, Our Texas," that the state got an official song.

oOo

**HEAR THE TRAIN BLOW**—Soon every railroad crossing in the U.S. and Puerto Rico will have an identification number recorded in a Texas computer.

A joint effort of the Texas Transportation Institute and A&M University, plus more than 400 railroad companies, the project is designed to reduce accidents at railway crossings.

oOo

**DONKEY TOWN**—For a couple of years during the Great Depression, riding burros was a popular pastime in sophisticated Dallas.

Mayor of "Big D" in those days was a fellow named J. Wendy Tate. He had a life-long affection for the Mexican burro and wanted every

child to have a chance to ride one. Using his own money, he purchased enough donkeys to stable some in every Dallas park where they were available for children to ride.

In 1931, when Tate's term as mayor ended, his successors apparently didn't share his enthusiasm for burros. The little donkeys were taken from the parks and fed to the lions at Marsalis Park Zoo.

oOo

**THE READERS WRITE**—The first hard surfaced road built by the Texas Highway Department was a 25-mile stretch across Hays County in 1918 (as "Talk of Texas" reported last month.) It was made of asphalt.

S.L. Austin, who lives in Austin but has traveled Texas for 54 years, writes that the state's first concrete road was built only two years later. It was in Cameron County and linked Harlingen and San Benito.

It was a county road built under the regime of Oscar C. Dancy, long-time Cameron County judge. Building the road earned him the nickname "Concrete."

## On Wall Street

By BOB HILL

about pump sprayers—they have been around since the 1940's and several cosmetic manufacturers were pushing them before all the hubbub about aerosol sprays and their damaging effects. It seems that a spray pump controls more easily the amount of liquid being pumped out of the bottle. The pump is also more conserving because it does not spray out in a fairly large pattern nor in the large volume an aerosol container will spray.

The relative cost of the pump spray over the aerosol is about even. Contents of an aerosol spray can are more expensive than the contents of a pump container. However, the pump costs more than the aerosol spray valve.

Actually, there's little new

containers won't do all the work of aerosol sprays, however. Manufacturers estimate that pump sprays can take over only about 30 per cent of the products now dispersed in aerosol cans.

## School Time

Students all over America are now returning to school and college. The hope of seniors is that 1976 will offer better economic prospects than did June, 1975.

But whatever the condition of the economy next summer, the school year beginning challenges all students to prepare themselves for the task of making a living in a free enterprise society.

That has not always been easy, but one virtue of the American system is that all are free to pursue their own goals as they wish.

That means Americans can choose the work they like best. No bureaucrat makes that decision.

## Bobby Templeton

## Aggie, New York Jokes Require Sense of Humor

Aggies may be getting a reprieve from their role as the patsy to all those jokes told about them during the past decade or so. Almost in any conversation especially in Texas and Oklahoma, someone will brighten the discussion at least a bit with a pun or story of Texas A&M University's image for producing the less than smart.

Of course, this is actually only done with the idea that Aggies have a great sense of humor and enjoy laughing with others at themselves. Even in the book shops around College Station, Aggie joke books sell. So it must be done with some acceptance by local citizens there. After all, it has put them in the center of attention and directing attention away from the all powerful University of Texas football team.

In spite of the sense of humor that most of us profess to have, it doesn't always show through and may cause tempers here and there to fly widely loose.

Such was almost the case this month on the Tonight Show (occasionally hosted by Johnny Carson) when Joey Bishop substituted for Carson. His premier guest that night was Alan King, who as everyone knows is a grand comedian and certainly should retain the ability to laugh even at what he considers serious.

Well, Bishop told a joke about King's beloved New York City (you know, "The Big Apple") in his monologue and it didn't set too well with the easterner. He was the first guest and his first works were a condemnation of all the New York jokes that have been floating around the country.

It is these jokes on the precarious financial situation that the snobs of New York have found themselves in that have allowed the Aggies to take a breather and laugh at someone else for once. But, this is no doubt a partially temporary situation as the Aggie joke can't simply be snuffed out by a bit of Eastern Seaboard idiosyncrasy. Naturally UT alumni won't let the Aggies rest in peace.

Anyway, back to the Bishop-King

encounter. With all the seriousness he possessed, King said he was tired of all the putdowns of New York City, claiming it as his beloved town. He cited the contributions the city has supposedly made to cultural society and its distinctive character as reasons enough for fewer demeaning jokes.

Bishop retorted back that it is a comedian's consistency to make fun of the elite and serious. It is everyone's right to feel sensitive about jokes, but surely not to go overboard when it is all done in fun.

King drew a unison of boos from the audience when he supported New York City with a statement that it was as safe to walk down its streets as those of any other big city. He said statistics put New York in about 15th place as far as crime of the major metropolitan areas.

King said he didn't plan to get serious about the whole thing and finally contradicted himself and cracked a joke about New York. However, he received very few laughs when he quipped that the city was indeed in a bad fix when its Mayor Abe Bean, an accountant, couldn't correct the city's budgetary problems. "That's Why we elected him. He's an accountant."

King fell just short of losing his temper over the jokes and apparently was reminded that even a comedian could become too serious and should hold on to that sense of humor he depends on others having.

Naturally, we can't always laugh and do find ourselves on the defensive. But, we don't have to be hypocrites about it.

If all the presidents and politicians overreacted to all the jokes made about them, this country would not be a very enjoyable place to live. Everyone would start hating everyone else and we wouldn't be able to overcome some of our problems as well as we have been able to with humor.

Yes, King, we sympathize with New York City's plight, which was its own fault (too much welfare and too little work). But if you can dish it out, you sure ought to be able to stomach what is thrown back at you.

**Editor's note: The Bootleg Philosopher on his Deaf Smith grass farm on Bootleg Corner reflects on last week's grain crop estimate, we think.**

—O—

Dear editor:

At 3 o'clock one day last week the whole world nearabout was on needles and pins to hear what the Agriculture Department estimated the U.S. grain crop will be for this year.

This is, everybody but the Russians; they apparently already knew and had stocked up on U.S. grain at a satisfactory price a few weeks ahead of time. I guess if the CIA hadn't had all its men tied up trying to overthrow governments in other countries it could have spared a few to check up on weather conditions in Russia and find out that the Soviets would be in the market for grain let's see if we can't out-trade them just

this once at least. Looks like somebody sometime would think of swapping some of our grain for some of their oil, but the trouble is they buy our grain in the summer time and it's not till winter time we find out we're short of heating oil.

But what I started out to say was that crop estimating, which makes the farmer's grain market go up or down, ought to be applied to other things. Why should farmers and ranchers, not counting the speculators, be the only ones to grab a newspaper or listen to the radio every morning to find out whether the price of their crops and livestock has gone up or down over night?

For example, the government ought to estimate the number of cars and pickups coming out this year, so the manufacturers could wake up in a sweat every morning wondering what the market price on cars is today. The same ought to apply on estimates of oil production, tractor production, etc.

For too long farmers and ranchers have hogged the market fluctuation business. They ought to let the car manufacturers, the oil people, etc., in on this. It makes life a lot more adventuresome.

Say, I notice somebody in Washington has found a bureau costing \$70,000 a year which has acted only twice in seven years, and there's an outcry to abolish it. Be the worst thing you can imagine. Any time you've got a set of bureaucrats you hear from only twice in seven years, I say that's the kind we need more of.

Yours faithfully,  
J.A.

**BIBLE VERSE**

"I have fought a good fight, I have finished my course, I have kept the faith."

1. Who is the author of the above declaration?
2. To whom was he writing?
3. Where was he at the time of this writing?

4. Where may we find this statement.

**Answers To Bible Verse**

1. Paul the Apostle.
2. To Timothy, a young preacher.
3. In prison in the city of Rome.
4. II Timothy 4:7.

*The Abundant Life*

**You're Somebody**

By BOB WEAR

According to some standards, most of us do not rate very high; but these are shallow and inadequate standards. They do not include the life elements which really make us somebody. The fact that we have being makes us somebody. When we know this, and think and act accordingly; living is going to be better for us.

Your name may not be a household word, but you're somebody just the same. You may not be wealthy, but wealth cannot make you somebody. The lack of wealth does not prevent your being somebody. Your name may not be in any of the social registers, but you are somebody.

**YOUR FAMILY NAME** may not be found among the prominent names of history, but this does not mean that you are a nobody. On the contrary; you are somebody because you are you. This is all any of us have as the proper basis for the realization that we are somebody.

Of course, many people use many other things, artificial things to fantasize preferred identity for themselves. Eventually, this action is disillusioning and hurtful.

You may not fill some high position, most of us do not. Nevertheless, you're somebody. The work you do is not the reason for your being somebody, or not being somebody. Your work may be the lowest, honorable work; or it may be the highest work; but you are somebody regardless of the work you do.

People who do not consider themselves somebody have

trouble with themselves, and most of the serious trouble in society is instigated by these people. They do strange things, and sometimes they do very wrong things, in seeking the identity which all of us need. We can do better in our consideration of each other to help supply this need, and do so in ways which are legitimate and constructive. We must do this.

**YOU CAN TREAT** others as if they are somebody, because they are somebody. This will be a normal way for you to treat others, when you realize that you are somebody. You will be treating them as you like to be treated. Everybody is blessed in the climate formed by such wise behavior.

The growing technology cannot destroy the view that you are somebody, unless you want this to occur. Much of present-day life is impersonal, but there is nothing wrong with this. It does not automatically destroy one's personal identity. If you lose your identity, it will be because you give it up. Don't make this mistake.

Everything will be better in your living experience, when you realize that you are somebody; and think, and plan, and act accordingly. This is not contrary to any worthwhile aspect of life, but helps create the situation in which all desirable life elements grow and flourish.

Yes, you're somebody.

**Will Be Hard**

One of the hardest jobs of reconversion is making a school pupil out of a vacationer.

-Gerald, Boston.

**Not Always**

Man does not live by words alone, despite the fact that sometimes he has to eat them.

-Beacon, Philadelphia.

**Women May Attain Social Security**

By MAURINE A. TRAVIS  
Acting District Manager  
Amarillo Social Security Office

1975 is International Women's Year and women are asking questions regarding their rights to social security benefits on their own work record.

Social Security Insurance Coverage furnishes additional security to the working wife. A popular theory has been that a working wife does not need social security coverage on her own work since she could qualify on her husband's work record.

While it is true that a wife can qualify for benefits on her husband's record, she has rights on her own record not available to the nonworking wife.

A wife who has acquired insured status on her own record may receive retirement, medicare, or disability benefits on her own record when she attains retirement age or becomes disabled.

The fact that her husband may still be employed full time will not affect the amount of her check. Her dependent children may qualify on her record even though their father is working

and contributing to their support.

A wife who has acquired insured status on her own record has additional security in knowing that should she become divorced she could still rely on social security in her retirement plan.

A working wife has the knowledge that in case of her death her dependent children will receive monthly benefits to partially replace her lost earnings.

Also father's monthly benefits are now available for her husband if he has her children under 18 or disabled in his care. Of course if he continues to work these benefits may be affected by his earnings. If he earns more than \$2520 his benefit will be reduced \$1 for each \$2 he exceeds that amount. His earnings do not affect the children's check.

Women who are working are not only contributing to their present financial needs but are buying social insurance protection for themselves and their families, in addition to protection on their spouses work record.

**Foundation Warns Of Cystic Fibrosis**

Mothers who participate in "Kiss Your Baby Week" beginning Sunday August 24, may be giving their children the kiss of life.

One of the signs of cystic fibrosis—the most serious lung-damaging disease—is a salty taste of the skin. That's why the Cystic Fibrosis Foundation is asking mothers of "Kiss Your Baby" with very special attention.

If a mother does taste salt on her baby, she should see the doctor and make sure the baby has a test for CF. Early diagnosis and immediate treatment are vital to the child's life.

Additional signs of cystic fibrosis—and other lung-damaging diseases are: recurrent wheezing; persistent coughing

with excessive mucus; pneumonia more than once; excessive appetite but poor weight gain; clubbing (enlargement of fingertips); persistent bulky diarrhea and nasal polyps.

One out of every 1,500 babies has cystic fibrosis and many people don't realize that it is the number one genetic killer of children. For children who are diagnosed early, the outlook is very hopeful. Children with a chronic cough and wheeze sometimes are confused with allergy patients. They should have a sweat chloride test for cystic fibrosis.

Local chapter of the Cystic Fibrosis Foundation may be contacted for further information.

**Social Security**

Questions and Answers

[Have you a question about social security? Address it to the Social Security Administration, 317 East Third Street, Amarillo, Texas 79101. You will receive an answer in this column or by mail.]

Q. I have worked as a maid in a private home for the same family for the past 15 years. My pay has been ten dollars a week, but my employer has never reported my wages. Since I will become 65 next month, will I be entitled to any monthly benefits and for Medicare?

A. You should contact your local social security office and file an application for retirement benefits immediately. We will check your employment to determine if you have enough work under social security to qualify for monthly benefits and Medicare. If your earnings were supposed to have been reported for social security purposes, but were not, we will work with your employer in correcting your records.

Q. In July my wife hired a lady who comes to our house twice weekly to help with the cooking and cleaning. When

should her wages be reported?  
A. If your household employee is paid cash wages of \$50 or more in the July-August-September quarter, you must report her wages and send the social security taxes to the Internal Revenue Service by October 31st. You may obtain a copy of the leaflet "Social Security and Your Household Employee" at your local social security office for more information.

Q. I have hired a woman to stay with my mother as a companion while she is recuperating from an operation. I am paying her \$50 a week. She told me that I did not have to pay social security taxes on her wages since she was already receiving social security benefits. Is this correct?  
A. No, this is not correct. Social Security taxes are imposed on one's earnings and not on the person. Therefore, it makes no difference that the employee is receiving social security benefits. If you pay her at least \$50 or more in a calendar quarter, you, as the employer, are responsible for reporting the wages paid and remitting taxes to the Internal Revenue Service.

*Accent on Health*

J.E. PEAVY, M.D., Commissioner of Health

Employers across Texas have a service available to them which can limit on-the-job injury and illness and also may keep them from violating federal safety and health standards.

The Texas Department of Health Resources offers the help and advice of its expert consultants in understanding and complying with these standards—at no cost to the employer.

Walter G. Martin, director of the Division of Occupational Safety for the Department of Health Resources (formerly the State Health Department), will handle the safety inspections. Health hazard evaluations will be made cooperatively by engineers of the Division of Occupational Health and Radiation Control. The Division has signed a contract with the U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) to provide on-site consultation.

Under the contract, said Martin, there initially will be 13 highly qualified state job safety and health experts to meet on request with employers at their places of business, explain OSHA standards that may apply, and detail other OSHA requirements.

There are approximately 200,000 businesses in Texas with some four million employees.

Priority will be given to employers with smaller businesses and those with particularly hazardous operations.

"The priority system is designed to give help first to those employers who do not have the resources to employ their own full-time safety experts, or to hire consultants," said Martin.

The Secretary of Labor

emphasized that his agency and the state will share the costs of the program and that no fee be charged the employer.

It also was emphasized that the consultant visits by state inspectors won't trigger a formal OSHA inspection. On request to the state, a consultant will visit an employer's establishment, conduct an opening conference, walk through the establishment to identify any existing hazards, outline standards which apply, and suggest means to eliminate the hazards. Within a few days, a written report will be sent to the employer summarizing the consultant's findings and recommendations.

If hazards are present which could reasonably be expected to cause death or serious physical harm, state consultants can require employers to eliminate such hazards.

The total value of home loans guaranteed by the Veterans Administration since the GI home loan program started shortly after World War II exceeds \$112 billion.

More than one-fifth of all owner-occupied private residences today were built under the GI home loan program administered by the Veterans Administration.

About 2 million more people than attend National Football League games during a regular season receive treatment annually in outpatient visits to Veterans Administration medical facilities.

## Fred Blakey

Fred Blakey, 87, died Friday morning at Westgate Nursing Home, and funeral services are pending in Garden Plains, Kan. A one-year resident of Hereford, Mr. Blakey was a retired auto parts wholesaler. Services and burial will be announced by Wulf Mortuary of Garden Plains, Kan. Local arrangements were by Smith & Co. Funeral Home.

Survivors include one son, H.H. (Jim) Blakey, 510 McKinley St.; one daughter, Mrs. Frank Walker of Winfield, Kan.; one sister, Mrs. Pauline Adkins of Manhattan, Kan.; one brother, P.T. Blakey of Oregon; four grandchildren, and five great-grandchildren.

## H.G. Holman

Funeral arrangements for H.G. (Ike) Holman of Amarillo, son-in-law of Mrs. Glenn Snyder of 110 West Ninth, are pending with Wallace Funeral Home of

Tulla, where burial will take place.

Mr. Holman, who had lived in Tulla about 20 years before moving to Amarillo, died at Dallas Friday of an apparent heart attack. His wife, whose death occurred in September of 1973, was the former Jean Snyder of Hereford.

He is survived by two daughters, Mrs. Glenda Stevens of Dallas and Mrs. Julie Brice of Amarillo, and a grandson.

## Leo Kuper

A rosary service will be conducted at 8 p.m. tonight in Rose Chapel for Leo John Kuper of Westgate, who died early Saturday morning in Deaf Smith General Hospital after a long illness. A funeral mass will be conducted Monday morning at 11 a.m. at St. Anthony's Catholic Church, with Rev. Bernard McGorry, pastor of St. Anthony's, officiating.

Mr. Kuper was born July 12, 1883 at St. Henry, Indiana. He married Catherine Hoffman in

1909 at Oak Grove, Louisiana. She preceded him in death in 1966.

Mr. Kuper came to Texas in 1916 from Indiana, and moved to Deaf Smith County from Happy in 1925.

Mr. Kuper was a farm owner, and a member of the Catholic Church.

He is survived by two daughters, Anna Dupnik of Hereford and Marian Ellison of Big Spring; by a son, Henry, of Summerfield; by two brothers, Bruno of Jasper, Indiana, and Louis, also of Jasper; 18 grandchildren and 26 great grandchildren.

## Veterans Questions

**EDITOR'S NOTE:** Veterans and their families are asking thousands of questions concerning the benefits their Government provide for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

**Q—**I am a veteran. Will the VA give me a physical examination including x-rays?

**A—**If you are in need of medical attention, you may report to the nearest Veterans Administration hospital where you will be examined to determine need for treatment. Routine physical examinations are not conducted by the VA.

**Q—**Can both the widow and surviving child of a veteran who died of a service-connected disability receive dependency and indemnity compensation (DIC) and educational benefits?

**A—**The widow is entitled to both DIC and educational benefits from the Veteran Administration. If the child elects to receive educational benefits, he cannot receive DIC.

# Fly Fishing Under-Developed

Fly fishing in Texas is a case of missed opportunity for many fishermen who are intimidated by fly rods. There is plenty of water just waiting for fly fishermen.

Texas has some 80,000 miles of streams punctuated by more than 350 public reservoirs. The surface area of the lakes along totals more than 1.5 million acres.

Fly fishing is less expensive than bait casting and easier to learn. A good fly rod, automatic reel and line can be purchased for around \$30. Another \$20 will buy plenty of lures and small accessories. If you are not sure what to buy, tell your local sporting goods dealer you have \$50 to spend and you want to start fly fishing. He will know just what to do.

Many books have been written on fly fishing. But the best place to learn is by casting in your back yard. Working a fly rod is 90 per cent rhythm. Have an experienced fly fisherman get you started, then practice.

Start with the line length of the rod. Work it back and forth and learn to set your fly on target. Let our a little more line and learn the new rhythm. Once you can handle about 15 feet of line you are ready to start fishing.

Wade fishing is a good way to begin. This requires two additional pieces of equipment. First get an old felt hat and run several small copper wires through it. Tie some safety pins to the wires. These will be holders for your lures.

A wading tube is also necessary item for wade fishing. You can buy one for around \$20 or buy a used pick-up truck inner tube which works just as well. Tie a rope loop to both sides of the inner tube to use as a seat. The tube is necessary to get across deep holes and for a work bench while changing lures.

There are some good reasons why the beginning fly fisherman should start with wade fishing. It's unnecessary to make long casts because you can move within range according to your ability. In open water there is less chance of your back cast hooking a stationary object to the rear. In water you will not pop your flies to pieces when you start your forward cast too soon, an error most beginning fly casters commit.

Wade fishing is very productive. You will find that in most areas wade will produce the most fish. And wading, since you feel the bottom, will help find areas which harbor fish. You can feel bream beds, brush and rocks where bass might hide.

Largemouth bass, spotted bass, crappie and several species of sunfish are some of the native fish which can be caught on a fly rod. And there are more.

The Texas Parks and Wildlife Department in recent years, mainly with the objective of

filling some of the deep, open water of large impoundments, has introduced a number of species of fish from outside the state. They include striped bass, walleye, smallmouth bass, northern pike, and rainbow and brown trout.

Federal fish hatcheries are assisting the department in maintaining put-and-take trout fisheries. Each year from fall to early spring 225,000 trout are stocked in five locations. There are two tailrace sites, one at Canyon Reservoir extending for eight miles below the dam and the other at Possum Kingdom Reservoir for about a mile below the dam. A stream trout fishery is found in the Angelina National Forest in East Texas at Boykin Springs. There are two reservoir fisheries in the Texas Panhandle, one at Rita Blanca Reservoir in Hartley County and the other at MacKenzie Reservoir in Briscoe and Swisher Counties. Purists catch their trout with small wet flies; others use canned corn or salmon eggs.

Texas reservoirs, particularly those in the eastern half of the state, offer some of the best bream fishing in the United States.

Much of the shallow areas of these lakes become overgrown with aquatic weeds which make navigation difficult. This sometimes can work to the advantage of determined fly fishermen who, by working their way good distance through vegetation, find "forgotten" streams which enter the lake. These streams usually have open water and are particularly suited to wade fishing.

Heavily vegetated areas can sometimes be fished with a fly rod when it is impossible to fish by other means. And there are times when streamers and spinners are the only lures which will take bass and crappie.

There is a unique type of fly fishing territory in the Beaumont-Orange area—freshwater tidal swamps, marshes and bayous. A non-resident will need a boat and guide to find these places but the action in school bass and large sunfish makes the trip worth the effort. Take plenty of mosquito repellent.

Many Texas fishermen are lake-bass fishing-oriented and

consequently there are many small private streams which are underfished. These streams, if one can gain permission of the owners, produce excellent stringers of bass and sunfish.

Access to Texas streams is a problem. Fishermen should always check with local authorities to find which are public or private. Entrance to most public streams is a public roads or parks. You may wade or float up and down a public stream but in most cases you cannot get out on the bank.

South Texas and the Hill Country have a number of clear, cold freshwater rivers: the Medias, Blanco, Llano and Guadalupe. Largemouth bass may be taken in pools and small

but scrappy spotted bass in the still water. In these waters streamers and spinners usually will take more fish than popping bugs. Besides bass and sunfish, an extra-hungry channel catfish will sometimes take an underwater bait.

Of these rivers, the Guadalupe is the largest and is navigable by flatbottom boat and canoe along most of its length. It is ideal for fly fishing but the scenery alone is worth the trip on most stretches.

Major dams on many rivers have changed the character of the streams for the betterment of the fly fishing. The waters are clearer with more submergent vegetation. The Colorado and

parts of the Brazos, Trinity, Neches and Sabina Rivers fit into this category. While different in many ways, all have good fly-fishing stretches and most sections of these streams are navigable by small boats.

Few workers retain their usual composure when the clock says it's time to stop work.

Life should not be all work; everyone is entitled to some recreation and amusement.

There's little honesty left in conversations these days.

## Just-Married Pair On Canadian Honeymoon

A honeymoon trip to Canada began for Mr. and Mrs. Joseph Ralph Kuper after their marriage Friday evening in St. Anthony's Catholic Church. The bride was Miss Kathryn Rae Vogel before the ceremony. She is the daughter of Mr. and Mrs. Herbert Vogel, 305 Stadium Drive, and the bridegroom is son of Mrs. Walter Kuper, Route 5, and the late Mr. Kuper.

The Rev. Bernard McGorry was celebrant for the nuptial mass, with Mark Koenig as lector and brothers of the bride, Gary and Randy Vogel, as acolytes. Large bouquets of white mums with apricot ribbon bows adorned the central altar. Miss Carole Vogel was her sister's maid of honor and Gerald Marnell was best man. Bridesmaids were Miss Alice Kuper, sister of the bridegroom, and Miss Chris Marnell. Ray Schlabs and Roger Jesko acted as groomsmen.

Brothers of the couple completed the wedding party, with Richard Kuper and Larry

Vogel as ushers and Rickie Vogel ring bearer.

Mrs. Allan Evers was the organist and Larry Kuper the soloist who sang The Lord's Prayer, Wedding Song and Follow Me. They are the bridegroom's cousins.

Escorted by her father who gave her in marriage, Miss Vogel wore white silk organza over bridal taffeta, designed with empire bodice, bishop sleeves and slightly gathered skirt which swept into back fullness forming a chapel train.

A band of venise lace circled the neckline above a sheer yoke, and lace was applied on the bodice and cuffs. A Camelot cap of lace in the same floral design held bouffant tiers of illusion which extended the full length of the train.

Her bouquet was a Windsor cascade of white carnations with touches of color supplied by roses in apricot shade and tendrils of English ivy.

Tangerine chiffon flocked with white daisies made the attendant's dresses, which featured ruffled neckline, long sleeves and empire waistline with sash tied at center back.

Their tangerine picture hats had bands of the dress fabric. They carried apricot roses, daisies and ivy in white lace baskets, accented with apricot bows and streamers.

The same flowers were arranged with silver candelabra on the table which held the wedding cake at the reception in

the Knights of Columbus Hall.

Four heart-shaped layers formed a base for the three-tiered cake, ornamented with tangerine roping and daisies, and topped with wedding bells, and cherub figurines.

Mrs. Danny Koenig, sister of the bride, served punch while another sister, Mrs. Lynn Brisendine, and the bridegroom's sister-in-law, Mrs. Roy Kuper, sliced the cake.

Assisting as hosts were Mr. and Mrs. F.A. Marnell and the houseparty included Mmes. Walt Warren, John Warren, Leander Reinart, Ed Schilling and Raymond Schlabs.

The bride's mother greeted guests dressed in a mint green, floor length gown with chiffon overlay and a matching short jacket. The bridegroom's mother wore a turquoise dress with trim in lace motifs.

For travel Mrs. Kuper changed to a pantsuit in apricot and mint green knit print. After Sept. 1 the couple will be at home on Route 5, where the bridegroom farms.

Both are Hereford High graduates, and the bride recently completed studies in the Amarillo College Vocational Nursing Program.

A number of out-of-town

relatives and friends were here for the wedding, including Mr. and Mrs. Charles Lyies of Fort Sill, Okla., Mr. and Mrs. Carl Vogel of Keota, Iowa, Mr. and Mrs. Adrian Pfeiffer of Davenport, Iowa, Mr. and Mrs. John Adam of Fairfield, Iowa.

Also Charles Vogel of Blairtown, Iowa, Bud Adam of Richland, Iowa, and from Amarillo, Mr. and Mrs. David Davis and son John David, Miss Elaine Erwin and Miss Kay Porter.

Wedding party members were entertained at the rehearsal dinner in the Calson Steak House Thursday evening.

## Miss Mosely Is Bride In Twilight Ceremony

Marriage vows were repeated in a twilight ceremony Saturday by Miss Valerie Jean Mosely, daughter of Mr. and Mrs. Jake Mosely, Route 1, and Bill Williams, son of Mr. and Mrs. H.E. Williams of Morton.

Fresh fern leaves and twining greenery covered an arch at the altar of Wesley United Methodist Church where the Rev. Jack Moore, pastor, read the service. Tapers burned in seven-branch candelabra on either side.

Her father gave the bride in marriage and she was attended

by Miss Lynn Wiley of Canyon as maid of honor. Larry Wade was best man. Brothers of the bride, Larry and Dennis Mosely, ushered guests to the pews.

Preceding the wedding, Miss Donna Stroup sang the solo, We've Only Just Begun. Miss Amy Cox played accompaniment and traditional music at the organ.

Silk organza over satin made the bride's gown, with empire waistline and softly gathered skirt entrain. Lace scallops from shoulderline to waist on either side of the bodice were studded with sequins.

Long, full sleeves were gathered to similar lace scallops, and the entire hemline was edged with lace as were the three tiers of illusion forming her veil. If fell fingertip length from a Juliet cap encrusted with seed pearls and sequins.

As luck pieces she wore her mother's pearl necklace and the wedding band of her great aunt, Mrs. Emil Klemm of Ruidoso, N.M. Yellow roses, white carnations and daisies were arranged in a cascade for her bouquet.

Miss Wiley wore a buttercup yellow organza with a print design of tiny rosebuds. Short

sleeves were puffed, the empire bodice was attached to a skirt that ended with a wide flounce at toetip length. She carried a nosegay of yellow roses and white carnations.

The wedding reception was held in the church fellowship hall, where Miss Julie Gooch of Ruidoso, cousin of the bride, invited guests to register. Mrs. Dennis Mosely ladled punch while Mrs. Larry Mosely served the cake.

Silver candelabra centered the table, which was covered with yellow organza.

The couple left on a trip to Oklahoma City, Mrs. Williams wearing a red and white polka-dot knit pantsuit. After this week they will be at home on Route 3.

Both are 1975 graduates of Hereford High School. The bride is employed at Anthony's Mall Store and the bridegroom with Tri-State Cattle Feeders.

Wedding guests from out of town were Ron Swanson of Muleshoe; Mrs. Tamsy Speer, Mr. and Mrs. Richard Fulton, Mr. and Mrs. John Ellis of Dallas; Mr. and Mrs. Emil Klemm, Mr. and Mrs. LeRoy Gooch of Ruidoso.

## Swim Party Entertains 4-H Groups

An ice cream supper and swimming party at the municipal pool was an event this week for 4-H club members of the county and their families at the beginning of a new club year. About 125 persons were present.

After homemade ice cream and cake were served, the parent-leader group met informally, as did team leaders, to plan for the year ahead. Plans centered on the Youth Fair slated for Sept. 6 in the County Bull Barn.

It was decided that county food shows will be held in the fall instead of the spring. Committees for various programs were set up.

Sherry Harder and Garland Stewart, 4-H leaders on the county Extension Service staff, directed the meetings.

MRS. JOHN STEVEN CARROTHERS ...nee Marianne Baker of Richardson

## Wedding Read At Dallas

Family members of the bridegroom, John Steven Carrothers, took part in the wedding when Miss Marianne Baker of Richardson became his bride Saturday in an early afternoon ceremony at the Church of the Transfiguration in Dallas.

His parents, Mr. and Mrs. John G. Carrothers of 119 N. Texas, were among the wedding guests. The bride is the pretty

daughter of Mr. and Mrs. Edward N. Baker of Richardson.

Bill Carrothers of Austin acted as a groomsman for his brother with Mark Lund, and another brother, Bob of Dallas, was one of the ushers. Larry McLain was best man. A sister, Miss Cathy Carrothers, was a bridesmaid.

Mr. and Mrs. Carrothers were hosts for the rehearsal dinner Friday evening at the

Marriott Inn where the wedding reception was held also.

The couple will make a home in Austin where both are students in the University of Texas. The bride will be a senior this year and Mr. Carrothers is working on a masters degree in the school of business.

He is a graduate of Hereford High School and Southern Methodist University of Dallas.

## Marriage Solemnized In Afternoon Ceremony

A mid-afternoon marriage ceremony was read for Miss Evelyn Ann Urbanczyk and Mike Morrison Thursday in St. Anthony's Catholic Church, with the Rev. Bernard McGorry, pastor, officiating.

Parents of the couple are Mr. and Mrs. C.P. Urbanczyk of Route 5, Mr. and Mrs. Cecil Morrison of 108 Aspen.

A large bouquet of white chrysanthemums was set on the main altar as a background for the wedding party.

Her father gave the bride in marriage and she was attended by her sisters, Miss Julie Urbanczyk as maid of honor and Mrs. Robert Schmucker as bridesmatron.

Danny Morrison served his brother as best man and a cousin, Steve Hinkle, was groomsman. Ushers were brothers of the bride, Sidney and Connie Urbanczyk, and a cousin of the bridegroom, Brent Johnson.

Shannon Morrison, the bridegroom's small sister, was flower

girl and the bride's nephews, Heath Urbanczyk and Alex Schmucker, carried the rings. Her cousins, Brian Urbanczyk and Andy Stengel, served as altar boys in the ceremony.

Other cousins presented wedding music. Larry Kuper sang We've Only Just Begun, More, The Lord's Prayer, and Mother At Your Feet. Mrs. Allen Evers was the organ accompanist who also played the marches.

The bride wore a gown reminiscent of the Edwardian period, with tightly fitted pean d'ange lace bodice above a flared skirt of nylon organza which shaped into a circular train, all edged with a wide double flounce of the material.

Lace was scalloped around the V-neckline and extended over the shoulders to form the top section of lace-cuffed lantern sleeves. Another scalloped band made the heading for the skirt flounce.

Her illusion veil, waist length, had a border and floated from a beaded lace Juliet cap. White carnations were arranged with

babybreath and leatherleaf in her bouquet.

All in mint green knit, the attendant's empire dresses had A-line skirts and wide cape collars trimmed in white lace. Their flowers were green and white carnations and babybreath in nosegays.

After the wedding a reception was held in the Knights of Columbus Hall on Country Club Drive. Mrs. Martin Urbanczyk was at the guest book.

Miss Babette Stengel, cousin of the bride, was assisted by Miss Barbara Richardson in serving the four-tiered cake, iced in pastel green with scallop trim and topped with bride-and-groom figurines.

Miss Mary Jean Reinart, also the bride's cousin, poured punch. The bridesmaids' bouquets decorated the table.

For a wedding trip to Colorado Mrs. Morrison wore a pastel green pantsuit with white touches and a corsage from her bridal bouquet.

The couple will return Aug. 30 to a home 14 miles west of Hereford where the bridegroom operates a farm. Both are 1975 Hereford High graduates, she with the May class and he as a January graduate.

MRS. RICHARD P. BENAVIDEZ  
...nee Blanca Trevino of Plainview

## WTSU Students Marry Saturday

Married in Plainview Saturday, Richard P. Benavidez and his bride, the former Miss Blanca Estrella Trevino of Plainview, are spending a week in Colorado Springs.

They will be at home Friday at 1909 Eighth Ave. in Canyon, where both are seniors in West Texas State University. Their parents are Mr. and Mrs. Jesus M. Trevino of Plainview and Mr. and Mrs. Herman G. Benavidez of 623 Ave. 1.

The mid-afternoon wedding ceremony was conducted by the Rev. Rex Nichols, pastor, at Sacred Heart Catholic Church in Plainview. The bride was given in marriage by her father.

She was gowned in white silk quiana designed with high-rise bodice, long-fitted sleeves and A-line skirt which had side and back fullness to form a sanctuary train. Venise lace motifs were appliqued around the portrait neckline, at the wrists and over the molded bodice.

Seed pearls and sequins adorned the headband which held an illusion veil that floated the length of the train. Her bouquet of ivory flowers was imported from Mexico. She wore pearl earrings, gift of the bridegroom, and a gold cross necklace given her by her aunt and uncle, Mr. and Mrs. Jose Perez.

Her maid of honor was a sister, Miss Anna Maria Trevino, and best man was Edmund Gomez of Ruidosa, N.M. Herman Benavidez Jr.

acted as an usher. Padrinos attending the couple were Mr. and Mrs. Jose C. Perez of Plainview, Mr. and Mrs. James Garcia of Canyon, Mr. and Mrs. Raul Martinez of Killeen, Mr. and Mrs. Mike Morales of San Antonio, Miss Ida Perez, Luis Trevino and Lewis Gamboa.

The feminine attendants were dressed in pale yellow quiana floor length gowns with pearl button decoration. Each carried a long stemmed yellow rose.

Yellow and white daisies were in the altar bouquets flanking the candle of eternal happiness which was lighted by the bride and groom at the start of the ceremony.

Miss Christina Casteneda of hereford sang the wedding solos, One Hand One Heart, Wedding Song, Ave Maria and Our Father, with organ accompaniment by Miss Yolanda Madrigal.

A reception and dance at the National Guard Armory in Plainview followed the wedding. Miss Ana Lisa Perez was at the guest registry.

Miss Lilia Benavidez, sister of the bridegroom, served the cake, its three tiers decorated

with yellow daisies and topped with bride and groom figurines backed by a gold cross. Another sister, Miss Oralia Benavidez, and the bride's cousin, Miss Connie Trevino, poured punch.

Mrs. Benavidez is majoring in social studies at WTSU. She is a 1973 graduate of Plainview High School. Benavidez, completing pre-medical work at WTSU, plans to attend medical school in

Mexico. He graduated from Hereford High with the 1972 class.

Some of the wedding guests came from Mexico, Efrain Trevino Sr. and Mr. and Mrs. Efrain Trevino Jr. of Monterrey. Another special guest was the bridegroom's grandmother, Mrs. Eduarda Enriquez of Floydada.

## Lueb Home Is Location For Reunion Of Family

A reunion in the home of Martha and W.J. Lueb recently brought together for the first time in 14 years all children of the late Frank and Ann Erdman, with a number of others in the family.

The children are Mrs. Lueb, Frances Kierle of El Paso, N.M., Mary Ann Menard of Exeter, N.H., John and Lawrence Erdman of Amarillo.

Attending the reunion were Mr. and Mrs. Carl Kierle of El Paso, Mr. and Mrs. Al Menard of Exeter, Rosemary Miller of

Raymond, N.H.; Mr. and Mrs. Thomas Short and children, Arthur, Danny, Richard and Troy, of Stratford.

Also Mr. and Mrs. John Erdman, Mr. and Mrs. Lonnie Wilson and Tammy, Mr. and Mrs. Jerry Don Erdman, Kevin and Yvette Erdman, Mr. and Mrs. Lawrence Erdman, Nancy and Janna Erdman, Cheryl McKinney and Melissa McKinney, all of Amarillo.

Family members here are Mr. and Mrs. W.J. Lueb, Mr. and Mrs. Neal Lueb, Jason and Jeremy Lueb.

## Shower Precedes Autumn Wedding

Autumn colors which will decorate the wedding of Cheryl Turner and John Richard Sparks Sept. 20 at Big Spring, were used for a shower-toa Friday honoring the bride-elect.

Miss Turner and her parents, the C.D. Turners, were weekend visitors here from Big Spring. The party was in the home of Mrs. Dean Herring north of the city.

She was at the door with Mrs. W.E. Sparks, mother of the prospective bridegroom, to greet guests and introduce them to the honoree and her mother. Kerrie Womble presided at the book where they registered.

Connie Matthews and Tonya Black served refreshments from a table where wheat stalks and pheasant feathers were blended into an arrangement of bronze and yellow pompons and daisies set in the center of an ecru cutwork cloth.

Yellow mums and pheasant feathers made corsages worn by houseparty members.

Hostesses were Mmes. Clinton Masie, Lloyd Sharp, G.D. Calson, Dick Montgomery, Joe

Reinauer Sr., Benny Womble, Herschel Black, Bobby Owen, Otis Lee, W.W. Gilbreath, Phillip Shook.

Also Mmes. Clinton West, Ed Lemons, J.C. Mercer, Rex Lee, Lynton Alfred, Ed Line, Bud Snyder, Raymond White, Clint Formby, Waldo Baxter, Elmore Rain, Edgar Vinson and Herring.

## Ex-'Lawman' Is Named Honoree

The only woman who has served as Deaf Smith County sheriff, Addie Miller, will be honoree on her 90th birthday Saturday with friends invited for cake and coffee from 1:30 to 2:30 p.m. at Dickies Restaurant.

A family dinner will precede the coffee hour. Hosts will be children of Mrs. Miller, who now resides in a convalescent home at Dimmitt after living for many years in Hereford.

Her husband, John B. Miller, was serving a fourth term as sheriff when he was killed in an accident in the mid-1930's and Mrs. Miller was named to complete his term. She did not seek reelection to the office.

She continued to live in Hereford until she entered an Amarillo nursing home several years ago, and then moved recently to Dimmitt. For a number of years she operated a downtown hotel here.

Her birthday is actually Aug. 29, but the following day has been chosen as a more convenient date for the party.

Mrs. Miller's son, Bill, is the only one of her family still residing in Hereford. Her daughter, Betty Cartwright, lives in Dimmitt and the other sons, John G. Bob and R.V., in Amarillo. They and their families will be hosts for the informal party to which they invite all her friends.

# Baker-Burks Vows Said In Candlelight Service

Lighted by tapers in spiral candelabra, the altar of First United Methodist Church was the setting for the early evening marriage of Miss Janet Marie Baker and Larry Joe Burks of Tyler Saturday.

The bride is the daughter of Mr. and Mrs. Arvel L. Baker, 208 Northwest, and the bridegroom's parents are Mr. and Mrs. Joe J. Burks of Tyler. Dr. Jordan Grooms, pastor of the church, read the ceremony.

Miss Kim Galle of Houston, maid of honor, preceded the bride in the processional, followed Miss Debbie Rogers of Gainesville and Miss Mary Ballou of Ashland, Neb., the bridesmaids.

Jerry Burks acted as his brother's best man. Grooms-men were Tom Ramsour and Dale Rachell of Tyler.

Mr. Baker gave his daughter in marriage as the wedding party stood between bouquets of blue and white carnations.

Another bouquet was placed at center back, with unity candles which were lighted in the ceremony. Toward the front and on either side were paired spiral candelabra.

Miss Baker wore a candlelight pea de sole gown with pearls embroidering the Chantilly lace bodice, high circle neckline and bands of lace that alternated with English net to form long fitted sleeves.

The skirt swept from a molded waistline to scallops of lace that circled the hem, rounding into a chapel train. A pea d'ange lace mantilla edged with deep scallops was attached to a Camelot cap above her brow.

Her bouquet was a cascade of white sweetheart roses and babybreath with tendrils of English ivy and tufts of forget-me-not blue net.

Crape in a similar shade of blue made the attendants' dresses, styled with A-line skirts and bertha collars edged with royal blue. Their picture hats were in the same colors, with the darker shade in bands of ribbon.

Each carried a nosegay of royal and pastel blue carnations, daisies and babybreath with royal blue streamers.

For her daughter's wedding Mrs. Baker wore petal pink chiffon with pleated skirt, sashed waistline and high neck. The sleeveless gown was worn with a blazer jacket in harmonizing floral print.

Mrs. Joe J. Burks chose a dress in blue floral print, floor length, with beaded jacket. The mothers' corsages were white orchids.

Wedding music was by Robert McFarland, singing Twelfth of Never and The Lord's Prayer, and Mrs. Tony Calkins, who played organ accompaniment and the marches.

The newly married couple and their parents greeted friends at a reception in Ward parlor of the church after the ceremony. Mrs. James Moore was at the registry table.

Miss Angie Graham of Hobbs, N.M. and Miss Sally Bayne served the wedding cake, Mrs. Danny Boyer ladled punch and Mrs. Randy Thompson poured coffee. Table decor was in blue and white featuring the bridesmaids' nosegays.

Mr. and Mrs. Burks will be at home after Aug. 30 in Tyler, where he is associated with the Cooperative Rose Growers. She wore for travel a three-piece suit of navy and white with navy accessories and a corsage from her bridal bouquet.

An August graduate of Texas Tech University, the bride earned a bachelor of arts in social welfare and was on the dean's honor list. She was a member of Delta Gamma social sorority, Angel Flight and Phi Kappa Psi Little Sister of the Shield. High school studies in Hereford were completed in 1972.

Also a Tech graduate, the bridegroom received a bachelor of business administration

degree last December. He previously graduated from John Tyler High School and Tyler Junior College. His fraternity was Phi Kappa Psi.

His parents were hosts Friday evening at the rehearsal dinner for the wedding party. It was given at the Caison Steak House.

Out-of-city wedding guests included Mrs. Harlan D. Hall, Miss Tanner Hall and Billy Hall of Longview, Mr. and Mrs. Leonard Baker of Plainview, and Mrs. Margie Baker of Hobbs, N.M.

Also, from Tyler, Mrs. T.W. Perdue, Mrs. Tom Ramsour, Miss Kay Ramsour, Mrs. Tom Ramsour Jr. and Mrs. Dale Rachell.

## Tiny Visitor Is Honoree

A very young visitor from Lubbock, Kyla Elaine Bullock was the three-week-old honoree at a recent layette shower in the home of Mrs. S.N. Thweatt Walcott community.

The baby is the daughter of the David Bullocks and her mother is the former Linda Sorrells. They were visiting her grandparents, the J.E. Sorrells of Harrison Highway.

Hostesses with Mrs. Thweatt were Meses. Bill Page, Charles Burk, Jack Weaver and Eldred Brown. Refreshments and favors had a nursery motif, and a series of games rewarded guests with prizes useful to a baby so they were all presented to the little honoree.

## SMILES

Wise Woman Student—To whom was Minerva married? Professor—My boy, when will you learn Minerva was the goddess of Wisdom? She wasn't married.

MRS. W.E. SPARKS

now; his twin, Jerry, and John Richard live in Amarillo, Gene in Colorado Springs.

She is not formally schooled for teaching; in fact she left high school to marry Bud Sparks, a Hereford native. But her interest in widening her education continues, and her desire to learn is reflected in membership in La Madre Mia Study Club.

She was on its charter list when it was formed 24 years ago as a child study club for young mothers. She has served in all its offices over the years, was president twice and is now treasurer.

As its members' aims broadened with the growth of their children, and its projects turned to community service, Mrs. Sparks gained experience in that field which is a valuable background for her present office.

For hobbies the busy homemaker whose hair is now touched with grey to match her eyes, likes to play bridge with a congenial club group, and read.

Cooking, especially baking, is also counted a hobby. She particularly enjoys making pie or other dessert to serve with coffee to guests, a casual type of entertaining that is her favorite way to host the Sparks' friends.

Although she attended Hereford High School she began school at Lorena, near Temple where she was born as Georgia Thompson.

## Women's Division Head Job Fits Interests

By SUE COLEMAN  
Special Staff Writer

With strong family orientation, the newly designated president of the Women's Division, Deaf Smith Chamber of Commerce, is interested in its programs to make this a better community for families to live.

Mrs. W.E. Sparks has been a Hereford resident 32 years and "just loves it. Wouldn't want to live anywhere else." She has given time and effort in work through club and church to make it constantly better.

Chairman of public affairs for two years of her four-year membership in the Women's Division, she has also served on various committees and worked actively in promoting the Miss Hereford pageants.

She considers the pageants thoroughly worthwhile for the girls involved as well as valuable to advertise the city in state competition. Value to Hereford youth is a strong point in her consideration of any C of C program.

The summer youth programs of the last two years she believes are among the best activities developed by the Women's Division. Although this program was a phase of the public affairs division, she gives full credit to the youth committee which actually planned and carried it out.

A new activity in the division as she takes office will be sponsorship of the Blood Bank drives. Mrs. Sparks looks forward to work with new programs as well as those from the past.

She is a part-time employed woman as well as a homemaker. Five years ago she began substitute teaching in the First Baptist kindergarten and soon was teaching regularly three mornings a week, her present schedule.

Previously she had been a substitute in the kindergarten for migrant children and she taught a Sunday School class for beginners the past 18 years.

Her affinity for small children was developed with her own children, four sons. Terry is the only one at home

## Birth Of Daughter Announced By Couple

Mr. and Mrs. Muri May of 4209 Merida, Fort Worth, are the parents of a daughter, Mary Jane, born Aug. 4 in a hospital at Fort Worth. May is a former Hereford resident.

Grandparents of the baby, who weighed five pounds three ounces at birth, are Mr. and Mrs. Robert H. Trowbridge of 849 Irving and Mr. and Mrs. Bill C. Williams of Fort Worth. Mrs. Olive Rector of Friona is the great-grandmother.

## October Vows Planned

Engaged to be married in an evening ceremony Oct. 18 at St. Anthony's Catholic Church here are Miss Jeryllyn Monroe of Amarillo and Frank J. Bezner Jr. of Hereford. The bride-to-be is the daughter of Mr. and Mrs. J.T. Monroe of Midland and Bezner is the son of Frank J. Bezner Sr. and the late Mrs. Bezner. A dental assistant in the office of Dr. J. W. Barnett at Amarillo, Miss Monroe attended West Texas State University after graduation from Midland High School in 1973. She was a member of Delta Zeta sorority. Also at WTSU, Bezner's sorority was Lambda Chi Alpha. He was a 1972 graduate of Hereford High and now farms and ranches south of Hereford.

# Blooms Of Late Summer Lend Hues To McBride-Gilbert Vows

A garden in deep summer, with blooms of vivid colors, was suggested in the setting for Miss Martha Ann McBride's marriage to Robert Allan Gilbert of Houston in First Baptist Church Saturday evening.

The Rev. Doug Manning, pastor, conducted the exchange of wedding vows by candlelight. Parents of the couple are Mr. and Mrs. Juston Thomas McBride of 611 East Fourth and Mr. and Mrs. Allan Gilbert of Houston.

Lemon leaves and magnolia leaves on arched candelabra holding pillar candles formed a background in the choir shell. Pointed cathedral candelabra stood on either side of a larger central candelabrum.

Three tall brass urns held bouquets of August garden blossoms—yarrow, vermillion zinnias, Killian daisies, babybreath and yellow spikeflowers.

The couple knelt on a bench draped in white brocade for communion, using the original silver Lord's Supper decanter and goblet belonging to the church. Tapers burned in a seven-branch candlestick on the communion table.

Miss Sally Kathleen Ward of El Paso was the maid of honor and David Patterson of New Caanan, Conn. the best man.

Also in the bridal party were bridesmaids, Miss Carol Gilbert of Houston, sister of the bridegroom, Miss Mona Gale Gibson, Miss Susan Browning of Dallas, Miss Valerie Velten of Brownsville and Miss Gail Miller of Palestine.

Groomsmen were Sandy Saxe and the bridegroom's brother-in-law, Jim Cowan, both of Houston, Sid Bemus of Schulenberg, Bill Simons of San Antonio and Mike Cantrell of Fort Worth.

Closing the procession, Mr. McBride escorted his daughter to the altar and gave her in marriage. She was wearing a summer gown of white Irish linen with accents of point de venise lace appliqued on English net.

A picture frame net yoke was bordered with lace scallops and etched in lace flowers and snowflakes. Candlestick sleeves of the net had a line of the appliques to the shoulder, and lace scallops at the cuffs with button and loop closure.

The princess silhouette dipped to a crescent waistline at the back, complemented by a full circular chapel train. The entire hemline was edged with lace starflowers, as were tiers of her veil which repeated the circular lines of the train and drifted past it.

The veil was attached to a Camelot cap with the lace etching; the three tiers were sprinkled with lace flowers and snowflakes.

More flower colors appeared in her cascade bouquet of tropicana roses, cornflowers and yellow daisy poms. Carrying a white linen handkerchief edged in lace, owned by the bridegroom's maternal grandmother, she wore her mother's wedding earrings and the wedding band of her maternal grandmother.

India gauze in sunny yellow made the bridesmaids' shirtwaist dresses, sashed with brilliant tie silk in vermillion, blue, yellow and fern green.

They wore garden hats of loosely woven Italian straw banded with vermillion streamers. Their nosegays of garden flowers had zinnias, cornflowers, babybreath and daisies with green foliage.

Wedding ushers were Terry O'Quin of San Angelo and Dave Blankenship of Dallas. Tre Cowan of Dallas, nephew of the bridegroom, lighted candles before the ceremony.

A traditional nuptial song which was part of the music in weddings of both the bride's and bridegroom's parents, "Because (D'Hardlot)" was heard in the musical prelude with "I Quietly Turned To You and The Lord's Prayer."

Misses Donna Kendall and Vickie Kendall were the soloists and Jan Walser the organist.

The wedding reception and supper in the church fellowship hall followed the ceremony. Piano selections by the Misses Kendall were played as a background to informal conversation.

Mrs. Jerry Sublett and Mrs. Jimmy Halle of Canyon alternated at the registry table. Mrs. Larry Stephenson of Groom poured punch, Meredith Wilcox and Mrs. Steven Olson presided at the coffee service.

The bride's cousin, Mrs. Bill Wooten of Austin, and Miss Patti Turrentine sliced the wedding cake, its four tiers loed all in white and topped with fresh tropicana roses, cornflowers and babybreath. It was flanked with white tapers in silver candelabra twined with ivy tendrils.

Airy white organza overlaid the satin cloth and a band of heirloom linen venise lace belonging to the bridegroom's grandmother edged the table with sprays of English ivy.

An openwork gold screen backed the supper table where varied finger-food prepared and served by friends of the bride's mother was arrayed on brass appointments. Coffee was poured from a brass samovar.

Dried blooms of yarrow, babybreath and zinnias were arranged in a cloisonne urn set on coral, blue and ivory drapes to center the table.

Attending the table were Miss Carol Scott, Mrs. Ed Thompson of Amarillo, Mrs. Joe Wallace, Mrs. George Black and Mrs. Ron Whelan of Lubbock. Kristie Cowan, Robin Devin and Christy Powell distributed rice bags to the guests.

The newly married couple left on a New Mexico honeymoon, Mrs. Gilbert wearing for travel a chino gaberdine suit with floor length skirt buttoned down the front, topped with a belted safari jacket over a multi-colored striped blouse.

They will return to a home in Austin, where both are candidates for graduation from the University of Texas in December.

Majoring in Spanish and journalism education, the bride

is a member of Sigma Delta Chi professional journalism society. She has also attended Texas Tech University and Cole Institute of Arts and Languages at Cuernavaca, Mexico since graduation from Hereford High School in 1971.

The bridegroom is employed with the university through a bio-medical engineering research grant while he completes work for a degree in that field. His fraternity is Sigma Chi. He was graduated from high school at Westchester High in Houston.

Among wedding guests were a number from out-of-state, including Mr. and Mrs. H.H. Lanford of Mazatlan, Mexico, Dr. and Mrs. H.G. Lanford of

West Memphis, Ark., Mr. and Mrs. R.H. Ehrke of Douglaston, N.Y., Brother Denis Sennett of Garrison, N.Y., Mr. and Mrs. Robert Schure of St. Louis.

Also from other cities were Messrs. and Mmes. Raymond Thompson, Roy Stevens and Bud Roark of Vega; Messrs. and Mmes. Kenneth Holloway and Robert Roark of Dumas; Mr. and Mrs. Robert Devin of Dalhart.

Also Mrs. Herbert Lanford of Midland, Mrs. H.L. Ehrke of Brownwood, Mr. and Mrs. Jim Cowan of Houston, Mr. and Mrs. Alan Bailey of Lubbock, Mrs. James Browning of Dallas, Mr. and Mrs. Foster Whaley of Pampa.

## Canyon Setting Unique For Wedding Breakfast

Martha Ann McBride's wedding day began with a sunrise breakfast in the picturesque setting of Palo Duro Canyon Saturday, with out-of-town guests as honorees with the couple and their attendants.

Miss McBride and Robert Gilbert of Houston were married Saturday night.

Mrs. Tom Draper and Mrs. George Turrentine assisted her parents, the Juston McBrides, as hosts for the unique wedding breakfast, planned to give guests from other states a taste of

true western scenes and food.

Invitations noted that "campfire coffee will be served at sunrise, twelve minutes after seven o'clock," for the early arrivals.

Afterward the breakfast included steak, scrambled eggs, cantaloupe slices and whole wheat muffins with wild plum, wild grape and crabapple jelly.

It was served at Crossing No. 5 on the creek which runs through Palo Duro State Park, taking guests far enough into the canyon to view some of its most spectacular features.

## Karen Anstey Is Shower Honoree

A pre-wedding courtesy for Karen Anstey, whose marriage to Eldon Casey is planned for Sept. 5, was a shower in the home of Mrs. Roy Smith, 407 Union.

One of the hostesses, Lisa Rose, invited guests to register. In the receiving line were the bride-to-be with her mother, Mrs. Alvin Anstey, and Casey's mother, Mrs. Mal Manchec.

Mrs. Rick Nunley and Debbie Mize served refreshments from a table, where pink roses in a

center arrangement matched the cloth that was overlaid with lace. Corsages for those in the receiving line were pink carnations.

Cherie Anstey assisted her sister in opening the gift packages.

Other hostesses for the party were Mmes. Alton Fraser, Mary Waldrip, Tom Thompson, Waldo Baxter, John Claypool, Lloyd Crume, Ira Ott, Charles Watson, Steve Jeffries, Lewis Fanning, and Bill Gentzel.

**Wedding Date Set**  
Mrs. Virginia Mongold of 709 Irving announces the approaching marriage of her daughter, Donna Stroup, to James Tice. He is the son of Mr. and Mrs. J.T. Tice of Hereford. The couple will wed Oct. 4 in Mesa, Ariz. Miss Stroup is a senior in Hereford High School. Tice is a 1973 graduate of HHS and is employed by Arrowhead Mills.

# Coffee Is Event For Bride Elect

A coffee and shower complimenting Rene Daphne Carroll of Dallas was given in the home of Mrs. Earnest Langley Saturday morning by friends of her fiancé, Jimmy Bayne, and his family.

The couple will be married Saturday in a chapel ceremony at Highland Park United Methodist Church of Dallas. Now a resident of that city, Bayne grew up in Hereford, son of Mr. and Mrs. Dudley Bayne.

Greeting coffee guests with the honoree was her sister, Mrs. Kenneth Young of Liberal, Kan.

Sisters of the bridegroom-elect, Sally Bayne and Mrs. Bill Radinger of Dallas, presided in turn at the coffee table with DeAnn Dickson, Mrs. Gene Drummond and Mrs. Danny Boyer.

Daisies gave their look of summer freshness to the

centerpiece and their colors to the cloth, sheer white over yellow. These are the colors chosen by Miss Carroll for wedding decor.

Hostesses were Mmes. Dennis Lomas, C.E. Leasure, Elmer Kimball, Cord Hammock, Nell Cooper, Jimmie Gillentine, A.T. Mims, Boyer and Langley.

### BIBLE VERSE

"And why beholdest thou the mote that is in thy brother's eye, but considerest not the beam that is in thine own eye?"

1. Who spoke these words?
2. Upon what occasion?
3. Where are they recorded in the Bible?

### Answers To Bible Verse

1. Jesus.
2. Sermon on the Mount.
3. Matthew 7:3.

## TOPS Club Contest Set

A contest with an enticing prize, merchandise stamps, will begin at the Monday meeting of the TOPS Club in Community Center. The goal is that which motivates club members at all times, weight loss.

Members and former members, plus any other area residents who wish to achieve this goal, are invited to the 6 p.m. meeting to begin at the start of the contest. It will continue Sept. 29.

Each entrant is to contribute a book of stamps and the entire collection will go to the winner. Rules will be outlined at the meeting. Interested persons who want further information may telephone the club leader, Mrs. Bill Gilleland.

At the end of this happy life, the man with the most money will find it means very little.

# Nancy Brink And Richard Spleth Married

A rich tapestry of music was woven through the marriage ceremony of Miss Nancy Elaine Brink and Richard Lee Spleth of Dallas Saturday evening in First Christian Church. The minister, her father Eugene Kent Brink, conducted the service.

John W. Long, minister of Memorial Christian Church in Midland, assisted in the ceremony after a harmonic prelude beginning with organ solos, Trumpet Voluntary (Stanley), Cantabile (Jongen) and Three Chorale Preludes (Manz) by Miss Sheryl Bristol of Fort Worth.

Randy Spleth of Dallas played as a violin solo Bach's composition, Jess, Joy Of Man's Desiring; Miss Harriett

McCleary of Princeton, N.J. was soprano soloist for Mozart's Alleluia and Jim Brink of Portales, N.M., brother of the bride, sang a baritone solo, The Call (Vaughn Williams.)

All were accompanied by Miss Bristol, who continued by playing Processional (Shaw) and with the congregation as it sang the hymn, Praise To The Lord The Almighty.

For the communion solo, Miss McCleary presented Proulx's Of The Kindness Of The Lord. Another congregational song, A Parting Hymn We Sing, preceded the organ recessional, Bach's Fugue in D Major.

Miss Brink and Mr Spleth son of Mr. and Mrs. Wallace L. Spleth of Dallas, entered the

sanctuary together after the processional of attendants. Her matron of honor was Mrs. Bill Jacobs of Lubbock and Mr. Jacobs was best man.

Bridesmaids were Miss Rojean Block of Fort Worth, Miss Martha Jean Spleth, sister of the bridegroom, and Mrs. Jim Brink. Brothers of the couple acting as groomsmen were David Brink of Borger, Randy Spleth and Jim Brink.

Completing the wedding party was Kelly, small daughter of the Jim Brinks, as flower girl.

Tracery of seed pearls was the only ornament on the bride's gown of candlelight jersey.

Pearl embroidery on the fitted bodice was repeated at the Victorian neckline and on wide

cuffs of the full sleeves.

Unadorned, sculptured folds of the skirt swept into a circular train. A Camelot cap of pearled Alcon lace caught her elbow length tiered veil to her dark hair. She carried three orchids and stephanotis on lemon leaves.

Her pearl necklace and earrings were the bridegroom's gift and she wore for the traditional "something old" her late mother's engagement ring.

Two tones of blue blended in the bridesmaids' dresses, fashioned in shirtwaist style of Java knit, with wide circular skirt, long full sleeves and belted waistline.

Friends wished the couple happiness at a reception in the church parlor as Jim Alkin, pianist, played background music.

Mrs. David Brink was at the registry, Miss Suzy Cox of Houston at the punch bowl and Miss Kathy Bouchard at the coffee service.

As Miss Libby Word cut the three-tiered white cake topped with daisies, Miss Gayle Gripp spooned strawberries, peaches and blueberries over the slices. The cake and accompanying fruit bowl were the table decorations.

Later this week Mr. and Mrs. Spleth will be at home in Apartment 13, 2917 Princeton, Fort Worth, 76109.

Both will continue studies in Texas Christian University this fall, she as a senior and he as a student in Brite Divinity School after graduation with a bachelor's degree in May.

Miss Brink was a 1973 graduate of Hereford High School. She is employed in the TCU religion department, and the bridegroom will work as a student associate at University Christian Church in Fort Worth.

His high school study was completed in Hillcrest High of

Dallas in 1971.

Wedding guests from other cities included the bride's grandparents, Mr. and Mrs. H.L. McCleary of Houston and Mrs. Cleo Brink of Jackson, Mich., and grandparents of the bridegroom, Mrs. Mary Spleth of Waukomis, Okla. and Mrs. Imogene Ruth of Dallas.

Others were Mrs. Dorothy Black, Mr. and Mrs. Bob Leibrock, Mr. and Mrs. John Long, Tracy Long, Mr. and Mrs. Ralph Danner, all of Midland; Mr. and Mrs. Duard Spleth and Jody Spleth of Waukomis.

Also Kent Brink of Lincoln, Neb., Mr. and Mrs. Kirk Miller of Lubbock, Mr. and Mrs. Steve Spleth of Medford, Okla., Mrs. and Mrs. Norval Spleth of Tulsa, Mr. and Mrs. William Oscar Ruth of Grove, Okla., Mrs. Charles Bennett and Miss Kathy Mabee of Dallas.

Shower At Country Club

Admiring one of the gifts presented Charlotte Doan at a bridal shower in Hereford Country Club Thursday evening are, from left, her mother, Mrs. Allan Doan of Tulsa, the honoree and her fiance's mother, Mrs. N.E. Tyler.

## Bride-To-Be Is Feted

Fiancee of a Hereford man, Jerry Tyler, Charlotte Doan of Tulsa was complimented with an evening party and shower Thursday in the Halbert Room of Hereford Country Club.

Fall colors which will appear in decor of the couple's wedding Aug. 30 set the note for the party. Yellow daisy mums were on an oak pedestal in the entry, and an orange candle burned in a smoked madonna goblet based in fern with golden butterflies on the registry table.

Mrs. Gary Victor, sister of the bridegroom-elect, was at this table. Mrs. Billy Doan of

Wilmington, Del. and Mrs. Parker Doan of Tulsa, sisters-in-law of the honoree, served refreshments.

Gold and rust chrysanthemums were arranged with yellow tapers in a silver epergne surrounded with fern to center the table. The yellow cloth had a moss green net skirt. A modern lucite candelabra with votive candles stood tall in a corner of the room.

Yellow cloths covered small tables where guests were seated; butterflies and candles decorated each table. Rust and gold mums with babybreath made corsages for the honoree

and houseparty. Special guests were the bridegroom's grandparents, Mr. and Mrs. Tom Hall.

In the hostess party were Mmes. Charlie Riggin, David Hutchins, Melvin Cordray, Robert Hickman, Jack McKinster, Robert Josseland, Melvin Henderson, Bill Griffin, Jimmie Victor, C.F. Newsom, Charlie Burk, Pete Caviness.

Also Mmes. Reece Lawson, W.R. Duggan, Olen Caviness, J.D. Whitaker, Sherman Tanner, Jim Ferrin, Billy Wall, Hap Hagar, Dick Coupe, Richard Fortenberry, Harold Head, Walter Kaul and Joe Reinauer.

## Book Review With Plus Slated

Not a conventional book review, the August presentation in a Deaf Smith County Library series will be a collection of stories about marriages celebrated in the White House and the brides and grooms involved. Mrs. Glenn Reeve of Friona will relate the tales, gathered from various sources, and show her dolls that she has dressed in authentic fashion for each bride, at 10 a.m. Tuesday.

From early years of the nation, weddings of U.S. presidents' families have been solemnized in the official residence in Washington, D.C., continuing to include the daughters of Presidents Lyndon Johnson and Richard Nixon.

Also Reeve has done research to authenticate the costume of each bride and has made a replica in miniature as accurately as possible.

Open to the public, the program in the library's Heritage Room is free. Some residents who have seen Mrs. Reeve's collection as she spoke to clubs here, have expressed the wish to repeat the experience.

### Scholarships Given

Cash scholarships to be used in college this year are presented to Susan Wartes, center, and Beverly Auten by Mrs. Otis Lee, chairman of First Baptist Night WMS. The Women's Missionary Union of the church gives scholarships each year to girls who attend Baptist colleges. Miss Auten will return to Wayland College at Plainview this fall and Miss Wartes to Baylor University at Waco.

## Scribbles and Scratches

By SUE COLEMAN  
Substituting for KERRIE WOMBLE

MAYBE it's a new occupational hazard for the employed woman that we discovered in a chance chat at the CowBelles' coffee break.

Anyway it's a matter that has sort of bothered me for some time but I've hesitated to mention it because, frankly, it sounds nutty, and it has never been discussed by psychologists so far as I know.

But I recognized the symptoms immediately when Kathleen Caylor remarked that she always planned to catch up on her housekeeping chores on weekends, but "I just putter and piddle around every Saturday until after 5 o'clock before I get started."

KAY HALLOWS promptly chimed in that she found everyday off the job like that, so she didn't accomplish all the wonders she had mapped out for her vacation. I've noticed the same trouble for years, especially the last few months when I haven't been an employed woman.

It apparently stems from the routine which must be followed by the woman with a job and also a house to keep. She has to begin the household tasks after she gets home from work, usually just after five.

Years and years of that, and take my work the habit gets you. Even when you don't go to work, it's useless to try to get things done early in the day; somehow you just can't get in gear to clean house or do the ironing until after five.

Of course this doesn't apply to early birds who hop out of bed before daylight and do the housework before they go to the office. That's something else entirely.

AN ECHO of the Hereford Chamber Singers' recent good-

will stop in Austin when they were enroute to an appearance in San Antonio, was heard the other evening when Beas Oertli of Austin was introduced to Mrs. Steve Hodges.

Mrs. Oertli is here visiting her daughter, Sarah Lawson, and the rest of the Reece Lawson family, and she went with them to a housewarming for the Craig Smiths.

When she met Mrs. Hodges and learned that she is a member of the chorus, she offered her congratulations and then explained that she heard the Hereford singers highly praised by a relative who is a member of the Optimist Club at Austin.

It's odd how word spreads about something good, like the Chamber Singers.

THAT Smith housewarming, by the way, was a surprise to Mycedia and Craig Smith who have lately moved into their new home at 304 Elm. A bunch of their neighbors and friends got together to arrange it all.

They took party refreshments that were prepared in advance, and also took a money tree as a gift for the Smiths to use for something to add to the furnishings, or plant the yard (or maybe pay an installment on the new house?)

IT WASN'T the J.B. Sowell's first granddaughter, but it was the Eugene Jennings' first daughter who was born earlier this month, two more granddaughters of the Sowell's insist.

They are Jill and Devany, children of the Sowell's other daughter, Mrs. Larry Paschel.

Mrs. Jennings, of Farwell, is the former Lynn Sowell and her other child is a boy. Hope this clears up an apparent communications gap—or comprehension gap.

### Who's Who Includes Local Girl

Rhonda Thompson, a senior in Hereford High, has been named to Who's Who Among American High School Students.

Her parents are Mr. and Mrs. J.B. Thompson of 507 Avenue J. in Hereford.

Both her grandmothers live here. They are Mrs. W.H. Thompson and Mrs. C.M. Godman.

Most bargains are not bargains.

## Comings And Goings At King's Manor

By FAY GAUGGEL

Roberta Wilson and Jessie Mae Dodson went to Canyon Friday to see Mrs. Dodson's newest grandniece, Allison Leigh, daughter of Mr. and Mrs. Willie Weaver.

Latest person to take residence with us is Mrs. Fred Moreman. Mr. Moreman occupies room 314B at Westgate and Mrs. Moreman is in King's Manor room 114. We welcome Mrs. Moreman heartily and hope we can make her happy here.

Thursday night brought a very pleasant surprise to Ruby Jennings and Roxie Travis and Ruby's entire family came and brought a huge birthday cake, baked by Cora Belle and a homemade freezer of strawberry leccream, the handiwork of Glenda. Neither could have tasted any better.

Of course, it was a fun occasion. Those in the party besides the hostesses, were son, Je Bates and Cora Belle; grandsons, Darrell, Glenda and Jonessa, Joe Bryan, Marcella and Mia Jennings; Daughter Pat Nickels and granddaughters, Jerre, Jenda and Jerrimy Bruns, Kerma & Jeffery McGuire.

Maybe birthdays are not so bad after all.

Eleven Kings Manor residents attended a session of activities of the Creative Years Camp Aug. 14 at Ceta Canyon,

part of the United Methodist program under direction of Barbara Summerville.

They arrived about 10:30 in time for a service conducted by Dr. Clifford Trotter. Next they walked to the dining hall where a fried chicken dinner was served.

There were about 60 persons encamped there for four days—all aged 65 or over from the Northwest Texas Conference.

We understand plans are in the making for a much larger number to enroll in the camp next year with more time for discussion, handcraft work and such varied activities.

There is a most attractive bit of nostalgia in Jessie Boardman's room which is rich, charming and authentic in that it describes a facet of primitive living in nearly any place in the early days of our country.

It is what I call a wooden lap-desk which rests on the arms of a chair with a waist-sized space cut out in the center for one's body to occupy, leaving a space in front and on each side in the shape of a desk.

As a whole, this board pictures an old fashioned rub-board for washing the primitive way. It is all highly polished then decoupage where directions for washing are as follows:

#### "RECEET" FOR WASHING CLOTHES

1. bld fire in backyard to heat kettle of rain water.
2. set tubs so smoke won't blow in eyes if wind is pert.

3. shave one hole cake lie sope in bilin water.

4. sort things. make 3 piles. 1 pile white, 1 pile culord, 1 pile werk briches and rags.

5. stur flour in cold water to smooth, then thin down with bilin water.

6. rub dirty spots on board, scrub hard, then bile, rub culord but don't bile-just rench and starch.

7. take white things out of kettle with broomstick handel, then rench, blew and starch.

8. spred tee towels on grass.

9. hang old rags on fence.

10. pore rench water in flower bed.

11. scrub porch with hot, sofy water.

12. turn tubs upside down.

13. go put on cleen dress, smooth hair with side combs, brew cup of tee, set and rest and rock a spell and COUNT BLESSINGS.

All around the edges of the "receet" are small colorful illustrations. Some captions of these decorations are "Hang old rags on fence", "Pore rench water on flower beds", "Scrub porch with hot sofy water", "Take biled close out of pot with old broom hande".

No, don't go trying to buy one of these treasures. You can't. This one was made from scratch by Artists Lottie Wertemberter and Mrs. Owen Seaman of Douglas street. True artists and artisans, they are.

We understand Clyde Hudson is making some of these desk for residents of Westgate and that the arts and crafts department there are helping but that beautiful "receet" does not appear on them.

## Local Teacher To Attend TCTA Meeting

Teachers in a 26 county region will be represented by a Hereford teacher at an August 29-September 1 meeting in Austin.

Nancy Richey Hall, a member of the board of directors of the Texas Classroom Teachers Association, is an elected representative in TCTA's district 16. She is one of two directors from the district. Hall is a music teacher at Northwest Elementary in Hereford.

In addition to sitting on the board of directors, Hall is a

member of the TCTA state Organizational Affairs Committee. That group will meet on August 30.

The TCTA board is expected at the Labor Day meeting to look at the association's legislative program for the next session of the legislature. The board also will be studying a completely new constitution for the organization.

Other topics will include TCTA property, college credit for teachers attending TCTA meetings, and the 1976 regional meetings.

## DEAF SMITH COUNTY

### FARM NEWS

#### Bruns Elected SCS Director

Herbert E. Bruns, soil scientist with the Soil Conservation Service in Hereford has been elected director of the Golden Spread Chapter of the Soil Conservation Society of America.

Bruns received word of his election to the post from Allen King, president of the Golden Spread Chapter.

The local conservationist has

made soil surveys in Deaf Smith, Castro and Parmer Counties. Both Deaf Smith and Castro County have published soil survey reports available at the local SCS office.

Does the center color of your SMV emblem look like a weak egg yolk? Orange fluorescent centers fade and need replacement every two to four years. Replace entire emblems with new ones or get replacement centers with pressure sensitive backing to restore brightness. Bright emblems help alert motorists.

# Action Urged To Save Insecticides

Unless corn growers, farmers and farm leaders act quickly, they may soon lose two more of their important weapons of fighting destructive and costly corn insects, warns Robert M. Morris, president and chairman of the board of Velsicol Chemical Corporation.

With 25 years of accumulated scientific research data, it is obvious the hearings will have to be skimpy and sketchy, Morris said. This is why the help of every corn grower and farmer, and every interested farm organization, is needed.

Train is to pick off these vital working tools of agriculture, one by one, stripping the farmer of all freedom of choice in how he runs his business," Morris explained. "Even if you do not use chlordane and heptachlor, you still have a stake in saving these two highly effective insecticides, because the insecticide you do use may very well be next."

Next spring, with no chlordane and heptachlor at all, the number of acres damaged or destroyed could run into many millions. This would be disastrous to thousands of corn growers, and eventually result in higher food costs for consumers.

small part of our business. We're fighting because chlordane and heptachlor are essential to modern agriculture, and our farm friends and customers need them to produce corn profitably."

research data to a completely independent Scientific Advisory Committee for evaluation, he refuses. Thus it seems evident, Morris said, that Train is more interested in spectacular headlines, designed perhaps to coerce Congress into voting more funds, than in the facts. And more interested in a suspension action where he is the sole prosecutor, judge and jury, than in the unbiased truth.

If the action taken recently by Russell Train of the EPA (Environmental Protection Agency) is his "Notice of intent to suspend" is upheld, sales of chlordane and heptachlor for crop use could be cut off completely in the next two to three months—and this, Morris continued, could wreak havoc with next spring's corn crop.

Telegrams and letters should be sent to individual congressmen and senators at once.

Last spring, it's estimated over 1,500,000 acres of corn were damaged or destroyed by cutworms, wireworms and armyworms, due to a shortage of chlordane and heptachlor in

"We're not fighting just because we manufacture chlordane and heptachlor," Morris asserted. "Actually, these two chemicals represent a relatively

In 25 years of research there is no evidence that chlordane and heptachlor pose any significant threat to the well-being of people or animals, Morris continued. And a majority of the scientific community agrees.

But the real victims of such a bureaucratic ploy are the corn growers, Morris concluded, and they should lose no time in letting their congressman and senators know how they feel.

## Chaloupka Says Grain Boycott Is 'Stab In Back'

Boycott of grain shipments to Russia by U.S. maritime unions is a "self-serving gesture that stabs American farmers in the back," the president of the state's largest farm organization said.

inbusiness, the Farm Bureau leader said. "In the past year, we exported about two-thirds of our wheat and rice, more than a third of our cotton, and about one-fourth of our feed grains. On the national average, the production of one acre in four is sold abroad."

Carroll Chaloupka, head of the 175,000-member Texas Farm Bureau, said the unions are not as concerned about protecting American consumers as they are with forcing exporters to use American ships and sailors.

The farm leader said exports are not only essential for farmers, but good for consumers as well. "Our large farm export business enables us to have volume production and lower per-unit costs," he said. "This results in lower prices to American consumers."

"Their patriotism stops at the pocketbook," the farm leader said.

Chaloupka said that farm exports of \$21.6 billion in the past year produced an agricultural trade surplus of \$12 billion—which enabled the U.S. to have an overall favorable balance of \$2.2 billion for fiscal 1975.

The Dalhart cattle and grain producer said the principle of freedom to market is at stake. "Farmers have won legitimate markets around the world by being competitive," he said. "The maritime unions, on the other hand, have priced themselves out of work. Now they want to use the boycott weapon to capture jobs."

The TFB president said bumper crops this year assure Americans of adequate food supplies at reasonable prices.

Chaloupka said the Russian grain sales this year have amounted to less than one-tenth of the amount of grain that is available for export.

The U.S. Department of Agriculture on Aug. 11 estimated that wheat production is up 19 per cent over last year, corn production up 26 per cent, and feed grains up 25 per cent over 1974.

"U.S. grain exports to Russia over the past four years averaged only 3.2 per cent of all U.S. farm exports," he said. "The 1972 sales, which triggered the export dispute, amounted to only 7 per cent of total farm exports that year," he added.

Chaloupka said it is ridiculous to blame grain exports to Russia as the cause of higher food prices.

La Fleur stated that he expects a strong demand for beef products in the coming months.

"We sold very little grain to Russia last year, yet food prices increased by 14.5 per cent—and more than three-fourths of that increase took place after the food left the farm," he said.

#### Farmers Union Plans Meeting

The Deaf Smith County Farmers Union will meet Tuesday night, Aug. 26 at 8 p.m. in the Deaf Smith REC Medallion Room.

Kenneth Moss of Lubbock will be the featured speaker. He will speak on the need for farmers to band together now due to the fluctuating prices of farm products.

All farmers and their families and those interested in farming are invited to attend.

The Farmers Union will also conduct a business session during the meeting.

National 4-H Week is October 5-11. This year's theme: "4-H-'76... Spirit of Tomorrow."

#### Netting Protection

Dr. Jerry Johnson, sorghum breeder with the Texas Agricultural Experiment Station, adjusts a protective netting used on selected greenbug resistant sorghum varieties being developed at the Lubbock TAES center. The greenbug resistant hybrids will be on display Tuesday, Sept. 9, as the Lubbock Experiment Station commemorates its 68th Annual Field Day.

#### MBPXL Corp. Announces Earnings

David J. La Fleur, President of MBPXL Corporation, announced today that MBPXL corporation had earned \$1,565,000 on sales of \$180,718,000 in the quarter ending July 26, 1975. The per share earnings of \$.87 compare with \$.47 in the corresponding quarter of the 1974 fiscal year. This is the second quarter in a row in which earnings have exceeded the earnings in the corresponding quarter of the preceding year. However, the first quarter in 1975 ran behind the first quarter in 1974 which benefited from the pent-up supply and pent-up demand arising from the ending of the federal government's freeze on beef prices.

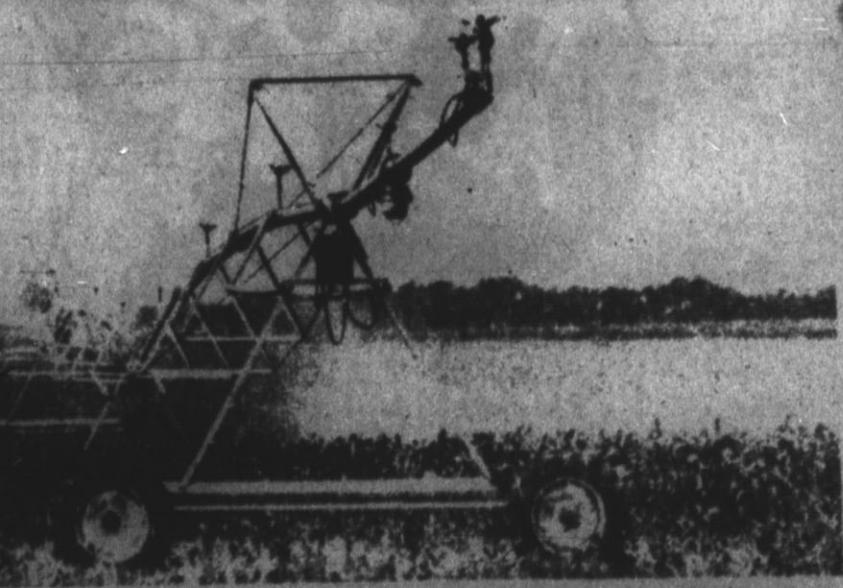

#### Mr. Farmer:

When buying or selling farm and ranch lands, your selection of a realtor is of supreme importance. Why not choose a fellow farmer who is also a realtor to help you? If your realtor does not understand well logs, underground line sizes and types, water tables, investment credit, repair costs, fuel costs, irrigation horsepower requirements, friction loss, soil maps, insurance rates, tax matters, and detailed production cost figures, then you may have the wrong realtor. Let us serve you. We understand farmers and farming.

# On The Turnrow

By Jim Stelert

There's something uniquely reassuring about the powerful and steady thrum of a tractor engine. It's the sound that goes with a man getting a big job done in an independent sort of way.

**MODERN, NOISE** reducing cabs equipped with radios, tape decks and various other conveniences have more or less alienated the tractor driver from the sound of his engine. With today's big machines and long hours, such comfortable cabs are more a necessity than a luxury.

In a way, however, it's unfortunate that the big workhorses of the farm have developed to the point where they all sound alike.

In years past, tractors had a sound that reflected their personality, and often, that of their operators.

**ONE OF THE MOST** cheerful summertime sounds on a farm for many years was the rhythmic pop-pop-pop of the old two cylinder John Deeres, or "Popping Johnnies" as they were often fondly referred to.

The popping sound made by those tractors was a reminder that a man was steadily plugging away at the job at hand and making good progress at it. Somehow, that sound prompted cheerfulness in a lot of individuals.

Many's the time you could hear the happy whistling of a farmer intermixed with the music of the popping tractor.

Maybe it's just that we live a faster-paced life now, but it has been a long time since I've heard a farmer whistling from the driver's seat of a tractor.

**THE M FARMALLS** that were the mainstay of many local farms for a lot of years had their own special kind of music. An M purred like a contented cat while it worked, emitting a sweet sound while doing everything from shredding and discing to cultivating.

And what farmer can forget the classic sounds of the bright orange Case tractors of years past? Powerful engines, hammering with authority while pulling homes or oneway plows. That engine sound was often accompanied by the hum of a busily turning flywheel. And a knee-crunching hand clutch on many models helped keep the operator dodging that cold metal stick when he pulled it back.

There are certainly other old tractors with their own classic sounds and personalities. All of the old favorites had their own little eccentricities, which made them even more fascinating.

**GRANTED, SOME** of them were man-killers to start, maybe that's why they sounded so sweet when they finally kicked in. But a certain rattle, a particular whine in one gear, accompanied by those unique engine sounds, gave those tractors special personalities that will never be duplicated.

Agricultural officials and representatives of the maritime unions have locked horns in verbal battle over the past few

See Mark Andrews for prompt service whether you wish to sell or purchase a home.

205 S. 25 Mile Ave. 364-6633

that they're going to save the consumer money by refusing to load grain.

Income from the sale of farm products to foreign countries is about all that's keeping this country of ours above water right now.

Just how long will those same self-righteous longshoremen have a job when there's no longer any grain for them to complain about loading?

**OF COURSE,** when it gets so bad that the farmer can't produce grain, labor unions won't be looking to cause trouble. They'll be too busy just trying to find something to fill their empty bellies.

-TURN-

We received a letter from Robert M. Morris, president and chairman of the board of Velsicol Chemical Corp. of Chicago, this week. The letter concerns the banning of chlordane and heptachlor by the EPA.

**IN HIS LETTER,** Morris pointed out that only about 50 days remain before Russell Train will render his official decision on the attempt to ban the two important agricultural insecticides.

According to Morris, Train hopes to complete the suspension with fast action, before farmers can be warned in time to take action. The suspension was announced suddenly, without forewarning, and with no impact statements on the effects of the ban of the insecticides on the farm economy, inflation, consumer food costs or public health.

Public hearings were set to begin Aug. 18, and a decision could be rendered by late October or early November.

**THE PESTICIDES** involved are important in protecting corn and wheat from wireworms, cutworms and other pests, and are far more economical to use than comparable pesticides.

Looks like this is another issue the farmer will have to make some noise about if he wants any consideration.

A letter to our representatives in Washington now could mean the difference in effective insect protection for future corn and wheat crops.

# Special Care Needed for Shaded Lawns

Shaded lawns require special care to maintain a satisfactory grass cover.

That means mowing higher and more frequently, watering more often, giving particular attention to controlling leaf diseases, and removing tree leaves that fall, points out a turfgrass specialist for the Texas Agricultural Extension Service.

"Shaded turf is weakened by lack of sunlight and competition from roots of trees and shrubs for water and nutrients," says Dr. Richard Doble. "Thus, grass growing in shade is generally shallow-rooted and is more succulent and less hardy than grass growing in full sunlight."

"As a result, the shaded grass is more susceptible to drought stress and disease attacks," notes the Texas A&M University System specialist.

To reduce stress and to promote healthy turf, Doble recommends mowing the grass one-half to one inch higher than grasses growing in full sunlight. Also, mow shaded lawns frequently enough so that only one-third of the foliage is removed at each mowing. Thus, grass mowed at a height of two

inches should be mowed when it reaches three inches.

Since shaded turf is shallow-rooted and tree roots are competing for available moisture, the specialist advises watering more frequently during drought stress periods. And, since grass growing in shade is not able to utilize fertilizer as readily as grass in full sunlight, fertilizer should be applied only in early spring and fall.

Leaf diseases, particularly Gray Leaf Spot and Helminthosporium, can seriously thin St. Augustine grass that has been weakened by the effects of shade. So Doble suggests applying a fungicide containing PCNB, maneb, chlorothalonil or cycloheximide to shaded areas at monthly intervals during the growing season. Severe disease infestations will require more frequent applications. Treated areas should not be watered for 48 hours.

The specialist advises against using chemicals for weed control on St. Augustine grass in heavy shade since they may further weaken the grass and increase its susceptibility to diseases. Trees and shrubs may

also be damaged by some weed killers.

"Removing tree leaves that accumulate in the fall will help the shaded grass. Of course, once trees are thinned due to shedding their leaves, a fertilizer application is in order," points out Doble.

"In many home landscapes, shade develops to such a degree that grass cannot be maintained. Even St. Augustine grass, the most shade tolerant turfgrass, requires at least 30

per cent direct sunlight to maintain satisfactory growth." When shade reduces light below this level, Doble advises thinning the trees and pruning their roots or planting a more

shade tolerant ground cover such as English Ivy or Asiatic Jasmine.

More than 7 million boys and girls 9-19 take part in 4-H projects and activities.

**FARMERS NEED TO BAND TOGETHER NOW DUE TO THE FLUCTUATING PRICES OF FARM PRODUCTS**

Deaf Smith County Farmers Union will meet Tuesday evening, Aug. 26 at 8 p.m. in the Medallion Room of the REC Building. Kenneth Moss, Field man from Lubbock will be the Featured Speaker. All farmers and their families or those interested in farming are invited to attend. Other business will be conducted at the meeting. Get Involved Now And Help Protect Your Income.

The one time you expect to see a Zimmatic broken down.

About the only time you expect to see a Zimmatic broken down is when it leaves one of Lindsay's plants. Once assembled in your field, it seldom causes a problem. Those big, sure-footed towers power their way around the field, carrying water to crops.

Hour after hour, day after day. Until you decide to shut down. That kind of performance doesn't just happen. It's the result of constant testing — both in the plant and in the field. Lindsay puts these rigs through the most punishing conditions — loads on more stress in a week, usually, than they're likely to see in a lifetime of normal use.

But we know that no system is 100% perfect all the time. That's why we're ready to help with an extensive parts inventory and factory trained servicemen if you ever have a problem. Before you buy any center pivot irrigation system, be sure to let us tell you about all the advantages of owning a Lindsay Zimmatic.

# By The Garden Gate With Glad

By Gladys Manjeot

**GARDENER'S MEMOS:** In your garden notebook the following should be listed, to be done now.

Neil Sperry, landscape horticulturist, Texas Agricultural Extension Service, cautions gardeners to be alert during the month of August. He warns us of additional generations of fall webworms in pecans, mulberries, fruit trees, elms and other trees.

Not only are webworms appearing but spider mites are everywhere. Lace bugs are attacking sycamores, pyracanthas, and other shrubs and plants.

To aid in controlling these insects the following are recommended: Kelthane is best for spider mites, malathion or diazinon will also aid in freeing the plants of these.

For webworms spray with Sevin, also malathion or diazinon in combination, with a thick-sticker (my mother used a heavy suds in sprays). If a kill is not made on the webworms, then the next remedy is to prune them out, and to spray the infested trees generously. This will probably have to be repeated.

Webworms are bad and if not controlled they can kill a beautiful tree; also they spread from tree to tree, not only in their yard, but wind and erosion can spread them to neighbor's yards. One year I lost most of my garden vegetables by webworms which were blown into my garden. Trees were also infested.

By cooperation and continued treatments they were finally eradicated and one of the loveliest trees in town was saved. It was a very fine mulberry tree with an excellent spread, and made a silhouette against the lovely blue sky.

Lace bugs and white flies can

be controlled by the use of kelthane or diazinon. I also use malathion. I find it an excellent all purpose product for garden use.

Check all evergreens, the needled as well as the leaf. Red spiders can infest the needled evergreens and damage them quickly. Late evening use the water hose in a forceful fine spray and play the stream up and down thoroughly on the evergreens. Once a week spray with one of the above recommended sprays. Sevin is very good.

Check leafed evergreens for blight and diseases. I have found through experience that a heavy suds of Tide, used generously on the boxwoods, etc., is very effective.

Late summer is a make-or-break time of the year for your lawn. Check the turf thoroughly and look for grubs. Signs are the sod lies lifeless on the top soil, and if lifted one will find that the roots are chewed off. One year our lawn became infested with grubs, from un-sterilized manure. A caution...check manure before use.

White grubworm is one of the main killers of lawns and their damage in certain areas last year alone, ran into many millions of dollars. In some instances entire lawns were killed.

Our lawns are one of the features of landscaping which is very expensive. If doubted, check the amount of your investment against other investments.

Lawns are truly worth the expenditures and care and do add attraction to any landscape design, aids in making living conditions better and more beautiful, also property value.

Grubs can be controlled by the application of diazinon or dursban spray. This is to be used consistently and thoroughly. Follow treatment with a deep and saturating watering.

This will aid in taking the treatment to the roots and down to where the tiny grubs are starting to grow (3 to 6 inches). Usually takes from two to three weeks to have complete control of the problem. One thorough treatment should suffice for one year.

If you do not know, grubworms are the immature stage of the June bug. If these were plentiful back 6 to 8 weeks, it is certain that there are plenty of grubs.

After treatment for lawn pests and diseases, it should be fertilized again. This is to be one of my first projects when I return home. Summertime is growing time for lawns and by now they have expended all their food. Use a well recommended fertilizer (food), and one which is balanced, 12-8-4 or 12-12-12, for good green color and root growth for fall and to enter winter.

**OTHER CHOMPERS** are cinch bugs (especially on St. Augustine grass). I have become re-acquainted with them in my son's St. Augustine lawns. Also Bermudagrass mites, grasshoppers (they really grow big) and crickets, these are all around the landscape as well as in the lawns.

Many different kinds of weeds are making their final big growth now, also crabgrass, grassburns, and other invading grasses should be treated now. This will aid all lawns to be in good condition as fall and winter

months come.

Hot summer temperatures and rapid growth often being caused by iron deficiency. Tell tale symptoms are yellow leaves; usually with dark green veins and newer leaves affected first, those at the tips.

To correct this apply soil acidifiers plus either chelated iron or copperas. Foliage sprays may give quickest green-up. Use care that the iron products are kept off wood and masonry surfaces if used in foliage treatment.

If you plan a late feeding for your roses make it a foliage treatment. Reason, deep fall growth should not be stimulated this late. Check tiny new buds and tender growth for aphids and greenbugs. They do attack these portions of the roses first. Tender edibles are real tasty to them.

Crape myrtles were beautiful in Dallas, and they have been used throughout the entire area around Big D. Not only in parks and civic plantings, but many home gardeners have used them extensively.

Garden Clubs have planted trails, etc. for civic development and in their beautification projects. I was delighted at the range of colors, the pure white is so pretty, then the reds, pinks, purple, lavender and fuschia.

I was thrilled and excited when I saw them in full flower. There are many lovely plants in Hereford but I would like to see more of them planted. They come in bloom just at a time when there are not many other flowering shrubs blooming.

Care is important. When the fronds have flowered and are shedding, cut them back and water thoroughly. Foliage feeding would be beneficial. If this maintenance is kept up, there will be a continuous flowering for some time, and beauty enjoyed.

Upon my arrival home and my first visits in the gardens, I saw at once that we are having a siege of caterpillars (fuzzy worms) and they are doing a lot

# Joyce's Journal

BY JOYCE SHIPP

Deaf Smith County Extension Agent

Teaching children safety measures for getting to and from school is serious business—but parents can use a "play" approach to make it easier.

First thing to do is talk with the children to see how much they remember about walking on the correct side of the street, crossing traffic and stopping at stop signs.

Then develop a road-precautions game. This can be done by substituting appropriate safety questions for the ones in their favorite game. Base the questions on things they need to remember about safety.

Another suggestion is to make trial run with the children before the first day of school.

Walk down the correct streets and go through all the motions—pretend getting onto the bus and follow through all the things that happen there. Or ride bikes to the school ground and be sure the youngsters know bicycle safety rules and where to park their bikes.

The whole family can participate in these activities. View safety as something positive to do—instead of a defensive maneuver.

Despite the higher costs,

of damage. They not only feed during the day, but some hide away and feed at night.

So spray at once with Isotox, Malathion or Sevin. If they are not controlled they will do a lot of damage, can kill tender plants and damage the foliage until some will have to be cut away and destroyed.

A summer garden thought: Happiness in the heart puts sunshine in the day, not only for oneself but for others.

Glad.

Topping those jeans is the old faithful T-shirt. It's updated this year with brightly designed front motifs of scenic prints, cartoon characters, Bicentennial designs or '76 Olympic pictures.

More dressy looks include colored corduroy and brushed denim for slacks and western cut jackets. Brightly colored shirts and turtle-necks complete the style.

Older boys who like sweaters will be seen in cardigan and pullovers in rich, earthy browns, greens and rust.

Turning to shoe styles, the athletic canvas shoe featured in Bicentennial colors and the western look in cowboy boots complete the school wardrobe.

# New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed. For you—the telephone customer—it means most rates are going up. But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills. Because with our new discount for dialing your own calls, you can better control your Long Distance costs. In some cases, you may be able to save money on your Long Distance bill by taking advantage of these rates. For example, there's a new one-minute rate on all calls that you dial yourself—without the operator's help. Under the old rate, the initial rate period was for three minutes. Now on One-Plus dialed calls the initial rate period is one minute. That means you can save by reducing the length of your call.

**"DISCOUNT RATE PERIODS FOR ONE-PLUS CALLS WITHIN TEXAS"**

	Mon	Tues	Wed	Thurs	Fri	Sat	Sun
8 a.m. to 5 p.m.	Day Rate Period						Eve. 30% Discount
5 p.m. to 11 p.m.	Full Rate						
11 p.m. to 8 a.m.	Evening Rate Period						Night and Weekend Rate Periods
	30% Discount						
	40% Discount						

NOTE: The Evening rate applies all day on the following holidays: New Year's Day, July 4, Labor Day, Thanksgiving and Christmas Day, except in instances where the holiday falls into Night/Weekend period. In this case, the lower rate applies.

\*On operator-assisted calls, the same rate applies at all hours in all days.

Nights and Weekends there will be a 40 per cent discount. So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible. But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time—night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number. The initial rate period of three minutes will continue for these and other operator-assisted calls. And, person-to-person calls will cost more than any other type call.

**"EXAMPLE OF NEW RATES FOR MAXIMUM DISTANCES"**

	#One-Plus	Each Additional One-Plus Minute
DAY RATE	50¢ or less	41¢ or less
EVENINGS 30% Discount	35¢ or less	29¢ or less
NIGHTS AND WEEKENDS 40% Discount	30¢ or less	25¢ or less

#One-Plus charges for 1 minute.

NOTE: One-Plus rates also apply on station-to-station calls placed with an operator where One-Plus facilities are not available.

\*Rates quoted do not include taxes.

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more. Now our new rates offer you a choice. By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls. Using the Day rate as the base, the Evening rates will be 30 per cent less. And, on

# Eastern New Mexico Registration Set

Registration for Eastern New Mexico University's fall semester will be held Aug. 27 with classes to begin the following day, according to Dr. George Jones, dean of Academic Affairs. All students are to enter the east door of the south wing of the Physical Education Complex to receive registration materials. Identification cards are to be presented by all students with complete registration material available at this time. Incoming freshmen who participated in New Student

Week Activities on Aug. 24-26 may register in time periods according to their last name. Students-G through L will register at 8 a.m., M through R at 8:30 a.m., S through Z at 9 a.m., and A through F at 9:30 a.m. Graduates and seniors with their last names from A through H will register at 10 a.m., while I through P registers at 10:30 a.m. Students with names Q through Z will register at 11 a.m. Freshmen, sophomores, and

juniors with last names L, M, and N may register at 11:30 a.m.; O through R at 1 p.m.; S and T at 1:30 p.m.; U through Z at 2 p.m.; C, D, and regular registration not completed according to the above schedule at 2:30 p.m.; E, F, and G at 3 p.m.; H through K at 3:30 p.m.; and A and B at 4 p.m. Registration for evening classes and those who did not register during the day will be held from 6-7:30 p.m. Students may register for evening classes during the day.

### THE SCIENTISTS TELL ME ...

By Robert L. Haney, Science Writer  
The Texas Agricultural Experiment Station

#### "Weaker Sex" Actually Stronger In Life Expectancy

Texas women, long noted for their good looks, have other interesting statistics that don't meet the eye.

In fact, in day-to-day encounters you probably won't notice the difference, but statistics show that at some age levels women outnumber men in this state almost 2 to 1.

This female-dominated ratio has emerged only since 1960. In 1970, 95 males per 100 females resided in Texas, and population projections predict that by 1980 females will outnumber males by a margin of 410,000.

This revolution in population has come as a complete surprise since,

historically, men have always outnumbered women in the Lone Star State.

In the early days, migration of men to the Texas frontier left the ratio at 115 males to 100 females. This male number dropped to 107 when the Civil War took its toll of Texas men and more women and children were among immigrants. Men finally regained some lost ground by 1890, and the ratio was 111 to 100 females.

Dr. R. L. Skrabanek, a former Texas Agricultural Experiment Station (TAES) researcher who is

now with the Texas Real Estate Research Center at Texas A&M University, noted several reasons for this turn about in the population.

A big factor is longer life expectancy on the part of the female—she is simply becoming the stronger of the species genetically. At present, the Texas female will outlive her male counterpart by an average of 8 years, compared to 3 years in 1900, and the gap is widening.

Also in this state, the number of widows has increased 100,000 to 495,000 in the last 10 years, while the number of widowers has decreased more than 2,000 to 100,000 in the same period.

Actually, we all begin with the male sex outnumbering females about 105 to 100, but death rate is higher for boys at all age levels.

Whether a rural envi-

ronment lengthens the life span of a male or the female "goes to greener pastures" is unknown, but the fact is in 1970 there were 100.1 males to 100 females in rural areas compared to 94.8 per 100 in urban areas of Texas. Within urbanized areas, the sex ratio is lower in the central cities than in suburban fringes—the more urban the area, the fewer males to females.

Females numerically dominate many ethnic groups. Blacks have about 92 males per 100 females, Indians strike a balance with approximately 100 to 100 as do Filipinos. The Japanese ratio is 54 males to 100, and Spanish and Anglos both claim approximately 96 males to 100 females.

Differences in sex ratio among ethnic groups is based on various patterns of immigration into the United States and migration into and out of the state at different age levels. The unusually low number of Japanese males to females happened because of the number of marriages between white male Texans and Japanese females, especially in the late 1940's and early '50s. Another reason for the low ratio is lack of job opportunities for the Japanese males in Texas as compared with some

other sections of the nation.

Balance between the sexes is more important than it seems on the surface.

When there is an imbalance at the most marriageable period of life, then marriage is impossible for some, or it forces persons to go outside of their regular group to find a mate.

A large share of the state's wealth is controlled by women who have survived their male spouses, and the margin by which women outnumber men in the voting ages (18 and over) more than doubled during the past decade (from 146,000 to 304,000).

A couple of traditions could change with this new era of a female majority. First, the situation could become more balanced if younger men marry older women—a practice becoming popular in West Germany, Great Britain and Sweden.

And, if the trend continues of women outnumbering men in Texas, politicians likely will be increasingly receptive to concerns voiced by women.

#### Possible

A Columbia professor now opines that the sum of the parts may be greater than the whole.

"He must have tried to put olives back into a bottle."

#### WHY PAY RENT?

600 Acres, 600 cultivation, 1 windmill well, on paving \$50,000.00 down, good terms on the balance. Possession of the wheat land.

114 acres of Dryland \$135.00 per acre.

650 acres near Hereford. 600 acres in cultivation, 5 irrigation wells connected with tile, 3 bedroom house, barn and other improvements. \$350.00 per acre. \$60,000.00 down.

Extra nice 370 acres near Hereford, all in cultivation, one good 8" and 4 other irrigation wells connected with tile, 50'x100' barn. \$40,000.00 down.

385 Acres Northeast of Edmonson. 350 acres in cultivation, 35 acres permanent grass, 2-4' and 1-5' wells connected with tile, 1 tall water pit, 3 bedroom house, barn, shop and corrals. \$610.00 an acre, \$65,000.00 down and terms on the balance.

5 acres \$300.00 down and \$65.00 a month.

Nice 75 acre irrigated, on paving, 4 bedroom house and other improvements. \$18,000.00 down.

10 brick apartments, 2 frame apartments in a good location. \$26,500.00, only \$5,000.00 down. Will carry balance at 6 per cent interest.

4 bedroom older home \$1000.00 down, \$125.00 per month.

precluded."**

**AUSTIN**—Governor Dolph  
Briscoe has assigned top  
priority to curbing soaring  
state governmental spending  
and thwarting predictions  
of a major state tax bill  
in 1977.

At the same time, the  
governor said all his political  
options for the future  
remain open, although he  
emphasized he is making no  
present plans for a third  
term.

Briscoe's predictions that  
the state can avoid a tax bill  
in two years fly in the face of  
forecasts by Texas Research  
League and Comptroller  
Bob Bullock. TRL only a  
week earlier said the legis-  
lature may have to raise  
\$750 million to balance the  
next budget in view of 1975  
spending levels.

However, Briscoe stated:  
"I am optimistic that we  
can meet the fiscal needs of  
the state for a third time  
without new and additional  
taxes. We can't do it unless  
we try. That is our No. 1  
priority. I will work toward  
that end."

Briscoe said he is hopeful  
the new Joint Advisory  
Committee on Government  
Operations will point the  
way to how to economize,  
increase efficiency and  
reorganize government ef-  
fectively.

As for his own plans, the  
governor said it's too early  
for serious talk about a  
third term. But he acknowl-  
edged the subject has been  
discussed in private conver-  
sations — "just passing the  
time of day."

**Hospital Savings**  
A new \$1.8 million state-  
federal program aims to  
save Texans who have to go  
to hospitals \$14 million a  
year.

Three centers will be es-  
tablished to make group  
purchases and collections  
for hospitals — the  
statewide center in Austin,  
with regional offices in  
Abilene and Texarkana.

The centers will try to re-  
duce hospital management  
and bring about better dis-  
tribution of other health  
personnel.

At the same time, Texas  
Hospital Association an-  
nounced 189 hospitals have  
indicated they will partici-  
pate in a proposed THA-  
backed hospital company.

Texas State Insurance  
Board set an August 21  
hearing on the Texas Hospi-  
tal Insurance Exchange ap-  
plication for charter.

**Democrats Moving**  
Texas liberal Democrats  
are getting organized for  
the 1976 presidential pre-  
ference primary, while, at  
the same time, challenging  
legality of the primary.

Democratic National  
Committeewoman Billie  
Carr of Houston and others  
are inviting Democratic  
presidential candidates to a  
September 20 meeting here.  
The group calls itself "Tex-  
ans for Somebody Else"—  
somebody else, that is,  
besides U. S. Senator  
Lloyd Bentsen or Alabama  
Governor George Wallace.

Ms. Carr and others filed  
a challenge with the na-  
tional Democratic Com-  
pliance Review Commis-  
sion, contesting the 1976  
presidential primary act,  
passed by the legislature  
this year, was largely to  
help Bentsen.

**AG Opinions**  
Notice of meetings under  
the Open Meetings Law  
must be specific on subjects  
to be discussed, Attorney  
General John Hill held.  
Hill said general phrases such  
as "new business," "old busi-  
ness" and "regular busi-  
ness" do not meet require-  
ments.

In other recent opinions,  
Hill concluded:  
Comptroller Bob Bullock  
should not release infor-  
mation on amounts of sales or  
use taxes paid or owed by an  
individual prior to a "final  
determination."

Texas Youth Council can  
furnish information on  
child abuse cases to the  
Texas Interagency Task  
Force on Youth Care and  
Rehabilitation under  
proper limitations on dis-  
tribution.

There is no state agency  
with authority to license  
facilities to store human  
bodies.

A landscape architect  
must renew his license by  
August 31 each year to re-  
main eligible to practice.

A paid fireman, who also  
serves as a volunteer fire-  
man, may participate in  
pension plans covering both  
positions.

**Appointments**  
Six new State Parole  
Commissioners are Edward  
Odus Johnson of Austin,  
Gilberto de Leon Jr. of  
Uvalde, Helen Copitka of  
Houston, Don R. Stiles of  
Grapevine, Paul F. Crom-  
well of San Antonio and  
Paul J. Manemann of Fort  
Worth.

Reagan Houston III of  
San Antonio is the sixth  
gubernatorial appointee to  
the Joint Advisory Commis-  
sion on Government Oper-  
ations to study governmental  
economy, efficiency and  
reorganization.

R. Doug Lewis has been  
named executive director of  
the Republican Party of  
Texas, succeeding Zack  
Fisher of Memphis.

John Barclay Armstrong  
of Kingsville was appointed  
to a vacancy on Texas An-  
imal Health Commission  
created by death of John  
Biggs of Vernon.

Philip K. Maxwell of Dal-  
las is the new chief of Atty.  
Gen. Hill's Consumer Pro-  
tection Division. Lee  
Clyburn of Conroe heads  
Hill's new Anti-Trust Divi-  
sion. Mike Barron of Groes-  
beck is assistant chief of  
Anti-Trust.

C. A. Dickerson of Rosen-  
berg was appointed criminal  
district attorney for Fort  
Bend County and Lawrence  
L. Barber Jr. of Monahan  
as district attorney for the  
143rd judicial district.

Lieutenant Governor Bill  
Hobby named Senator Max  
Sherman of Amarillo to the  
Governor's Energy Advis-  
ory Council.

Rusk County Judge  
James Porter was selected  
by the governor as prime  
sponsor for the Manpower  
Planning Council East  
Texas Region.

**Short Segments**  
Actual start of the Senate  
impeachment trial of 229th  
District Judge O. P. Carrillo  
may be delayed until Sep-  
tember 22.

Texas liberal Democrats  
have filed a challenge of the  
Texas presidential prefer-  
ence primary law and pro-  
posed 1976 party delegate  
selection procedures.

Top brass of the Republi-  
can Party will be in Dallas  
September 11-13 for the  
18th biennial convention of  
the National Federation of  
Republican Women.

Texas farmers produced a  
record wheat crop and the  
second largest sorghum  
crop ever, Agriculture  
Commissioner John C.  
White reported.

An end to the slide of the  
Texas economy is in sight,  
according to a Texas Busi-  
ness Review report. Indus-  
trial production is up for the  
second straight month.

Texans are paying higher  
long distance rates—but not  
nearly as high as requested  
originally by Southwestern  
Bell Telephone Company.  
Atty. Gen. Hill blocked the  
initial proposal and forced a  
court compromise last  
week.

**PORTRAIT UNVEILED**  
A portrait of the late Gen.  
Creighton W. Abrams has  
been unveiled in a Pentagon  
corridor honoring men who  
have served as Army chiefs  
of staff.

**ON LAND USE BILL**  
The House Interior Com-  
mittee has voted to defeat a  
controversial bill that would  
set up government machinery  
to plan the growth of unde-  
veloped land throughout the  
United States.

# Tech Offers Night Classes This Fall

Back-to-school means classes from 7:30 a.m. to 10 p.m. at Texas Tech University—and hundreds are expected to register for the night classes offered for the 1975 fall semester.

More than 200 courses will be offered at night starting Sept. 2. All are offered for credit. Some are for beginners, at the freshman level. Many are for graduate students.

Courses are being offered at night in all of the university's six colleges—Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering, and Home Economics—and in the Graduate School.

To make it easier for working people to register, a special registration will be conducted for the night classes or for students taking only one or two courses.

This registration will take place in the Division of Continuing Education office in Building X-15, across from the Lybbeck Municipal Auditorium. Dates and times are Aug. 20-22, 12 noon to 8 p.m.; Aug. 23, 8 a.m. to 12 noon; and Aug. 25-26, 12 noon to 8 p.m.

Late registration will be available Sept. 2-3, 12 noon to 8 p.m.; but students registering at the Coliseum.

late run the risk of not being able to get the classes they want, according to Dean C. Thomas Reese of the Division of Continuing Education.

Dr. Sam E. Curl, associate vice president for Academic Affairs, said that students regularly enrolled in the university are expected to register at the hours assigned to them during regular registration at the Coliseum.

Dean Reese said that increasing numbers of individuals are taking advantage of the night classes.

"For some it is the only way they can hold a job and still work toward a degree," he said. "For others the degree is not the goal. Some want to advance on the job by improving skills or advancing the range of their knowledge. For some a night school course is taken just for the enjoyment of learning."

"We don't question goals," Reese said, "but we do urge students to obtain counseling, and this is imperative for students who are working toward a degree." Counseling is available in departmental or dean's offices, Reese said, and this should be done before registration.

Reese said that night classes

begin at 6 p.m. and most are over by 9 p.m. although some last until 10 p.m.

Courses range from geology to masterpieces of literature, from agricultural plant science to art courses in drawing, design or sculpture, from elementary accounting to legal and political aspects of marketing. More than 50 education courses are offered.

One three-hour course costs \$86.50 plus a \$7.00 refundable property deposit. Two three-hour courses cost \$109 plus deposit. A four-hour course costs \$94.00 plus deposit. For lab courses a lab fee will be added.

Bootland is recruiting American teachers.

Nicklaus wins his 5th Masters by a stroke.
