### A RATTLING GOOD LUNCH ON MONDAY

THIRTY THREE BUSY MEN ATTENDED LUNCHEON

### SCHOOL BALLOT

April 7. Judge Megert Asked to Call a Mass Meeting

Thirty-three business men, one of the largest crowds in weeks, gathered about the dining table at the Stockmen's Cafe at the weekly Chamber of Commerce luncheon. It had been hoped to have some Santa Fe officials at the meeting, but they were unable to be here. It is planned to invite them for a meeting in the future when it will be more convenient for them.

The Rev. Woodie Smith asked a blessing upon the meal, after which vice president Harrison, presiding until the arrival of president Wilkinson, discussed the grain rate situation in the Panhandle, reading from letters from Grain Association officials and telling of the work of the Panhandle Chamber of Commerce for the relief of the rate situation in this section.

After the meal President Wilkinson referred to the coming meeting here next Friday between the citizens and General Manager Davis and party of the South West Trail, and a vote decided that the meeting should be held in the county court room and every man present act as a committee of one to boost the attendance. A letter from army headquarters at San Antonio asking for an advisory committee of three to boost for the citizens military camps this summer was read, and the chair authorized to appoint the committee. Agent Beyer of the Santa Fe discussed the "Cow, Sow and Hen" train run by the Santa Fe and carrying exhibits and lecturers from the A. & M. College, which will arrive here March 30 at 8:30 a. m. The train will stay here about two hours and the importance of securing a record attendance of farmers and their wives was stressed by several speakers. Chairman Barter of the school board was asked to see about letting out the schools while the train is here.

Mr. Parker called attention to the fact that an election in the Hereford Independent school district will be held on April 7 for the choice of three trustees to succeed Messrs. B. F. Guthrie and E. W. Harrison and A. O. Thompson. After discussion it was voted to ask county judge Megert to call a mass meeting of the citizens of the district, to be held prior to the date of the election and at which time candidates for the positions will be nominated. Mr. Harrison was asked to notify Judge Megert of this request.

Mr. Parker of the Cotton Committee discussed the cotton acreage situation, stressing the point that the recent fine rains removes the last doubt and that planting time is near at hand. He reported that there were less than four hundred bushels of the Acala seed left here, which is sold at \$1.25 per bushel, and that planting seed is getting scarcer and higher in price daily. Everyone present was urged to talk cotton and to help in the work of getting in every acre possible so that a gin may be secured soon.

Next Monday the meeting will be held at the Corbora Hotel and a program will be announced in Friday's Brand. Those present Monday were: C. A. Skelton, Herman Gray, Charles Paddock, Doug Fox, Luther Hough, Walter Dunlap, C. H. Dyer, Homer Wilkinson, H. E. Ogden, Rev. Woodie Smith, H. L. Broadwell, N. C. Vogelz, F. H. Oberstler, Arch Foster, Leonard Foster, W. E. Dameron, J. E. Beyer, E. S. Ireland, N. E. Gass, Lee Biggs, E. W. Harrison, C. C. Rockwell, Ralph Barnett, W. R. Steckman, D. F. Ashbrook, William Ashbrook, L. Raskin, G. A. F. Parker, J. L. Pevley, Rev. W. R. Hill, Rev. J. R. Sharp, A. M. Jones, Seth B. Holman.

### Cow, Sow and Hen Special Train is Very Interesting

Amarillo, March 13.—The Cow, Sow and Hen Demonstration Train, under the auspices of the Texas A. & M. College and the Santa Fe Railway, held its first meeting at Brauham Monday morning March 12. The train is moving northward, holding four to six meetings a day. The train will reach Sweetwater March 22 and will visit forty-six stations on the plains of northwest Texas during a ten day run, ending April 3 at Shattuck, Oklahoma. The staff of the Texas A. & M. College brings a timely and constructive message to the people in this part of the state and a cordial invitation is extended to all to come and hear this message. The talks deal with practical farming, the growing of corn, dairying, the steady job in the world, states C. M. Evans, livestock and dairy specialist with this train. "And therefore on the average is the best type of farming for those who manage it properly," Mr. Evans has plenty of helpful suggestions on the farm dairy.

"The pig is the only farm crop that can be produced twice each year," says A. L. Ward, College swine husbandman with the train, "and he is the only crop that can be produced and marketed all in six to eight months." Mr. Ward has a practical message on profitable pork production on the farm.

"Good birds, given proper houses, a balanced ration, plenty of fresh water, grit, and clean sanitary quarters, will prove profitable producers," says E. O. Edson, College poultry husbandman. Mr. Edson knows the poultry game thoroughly and brings the plains people a pointed story on successful chicken raising on the farm.

The program is so varied that it has something of interest to all: the grown-ups, men and women, the boys and girls, the farmer and the city dweller. It deals with the subjects that will make the plains develop and prosper.

The exhibits alone are worth a visit to the train. They include splendid types of milk cattle, hogs and chickens; the kind that make a profit on the feed.

"The plains country has made wonderful progress since I first knew it," says T. B. Gallaher, General Freight and Passenger Agent of the Panhandle lines of the Santa Fe Railway. "But to make the development of the wonderful resources of these rich plains, it is necessary that the milk cow, the hog, and the chicken, get a more important place on the general farm program on the Plains. We are bringing the Texas A. & M. College here to encourage the right sort of farming program."

B. A. Winter and family and E. M. Christian of Albuquerque, N. M., reached Hereford Saturday night enroute for Amarillo where Mr. Winter and family will make their home.

### Prairie Dog Poison To be Furnished By the Court

Extermination Law Will Be Enforced, Commissioners Say

The commissioners court Monday decided to purchase enough poison to treat 4,000 pounds of grain with which to kill the prairie dogs in Deaf Smith county. The poison was ordered from the A. & M. College Extension Department, which is acting as agent for the Federal government in this state. Upon its arrival the mixture will be made in the basement of the courthouse, sacked up, and sold to the land owners at cost. The courthouse janitor will have the grain in charge until sold. Proceeds derived from its sale will go to the county to reimburse it for money advanced to purchase the grain and poison.

L. C. Whitehead, Federal agent in charge of prairie dog eradication in this section, appeared before the court and aided them in their decision. Mr. Whitehead will return here when the poison is received and will mix the grain with it for the court.

The court is preparing to issue a circular letter to all land owners calling attention to the prairie dog law and advising them of the necessary steps to take. Under the law, if the landowner does not comply with the law, the sheriff is instructed to kill the dogs on the land and the bill will be charged against the property.

While in session the court also appointed a jury of view to law out a road asked for in a petition from residents along the three mile lane west of town. The petition, calls for opening the road to the Tierra Blanca school. The road would go through the Mounts pasture and a compromise was agreed upon between Mrs. Mounts and the court whereby the road will probably use the Harrison Highway for part of the way, dropping south and taking in the homes of the petitioners and then coming back over the Highway. After the jury of view has reported this compromise will be inserted in the final findings of the court.

### JENKINS DESHAZO AND MISS MARY V. ISAACS MARRIED

Just at the close of the night service of the revival at the Baptist Church on Saturday night, and before the larger part of the congregation had gone from the church, the pastor, Rev. Warren R. Hill, said the words uniting for life, Jenkins Deshazo and Miss Mary V. Isaacs of Sommersfield.

Mr. Deshazo is a well-known young business man and Mrs. Deshazo is the highly esteemed principal of the Sumnerfield School. Their many friends wish them the greatest of bliss and prosperity in life.

### SOUTH WEST TRAIL MEET ON FRIDAY

MANAGER DAVIS AND PARTY DUE HERE AT 1:30 P. M.

### TRAIL A WINNER

One of Hereford's Best Bets. Big Attendance is Urged

A road meeting, holding interest for every citizen of this community, is scheduled for the county court room on next Friday afternoon, at 1:30 o'clock. At that time an official party representing the South West Trail, Hereford's main highway artery, will talk to the people of Hereford about the Trail, its past, present and future.

E. W. Harrison, highway director of the Chamber of Commerce, is in receipt of a letter from Frank A. Davis, general manager of the Trail, written at Woodward, Okla., stating that his party is touring the Trail and will arrive here next Friday for a meeting with the people of this county. Mr. Davis is located at Kansas City and is the leading spirit and main cog in the Trail.

The South West Trail is admitted to be the best-marked and easiest to follow transcontinental route in the country today. It is in full operation from Kansas City to El Paso and soon will be from Chicago to El Paso. It is already sending hundreds of tourists through this way to California, New Mexico and Arizona every month, as the records of the local filling stations and garages will testify, and is rapidly becoming known as the "all-the-year-round route," being below the heavy snow line in winter and above the heat line in summer. It is one of Hereford's most valuable assets and an effort will be made Friday to turn out an unusually good audience for Mr. Davis.

### MODERN WOODMEN INITIATE EIGHT CANDIDATES HERE

The Amarillo degree team of the Modern Woodmen came down last Friday night and assisted the local lodge in the initiation of eight candidates. The work was put on in the I. O. O. F. Lodge rooms.

The Modern Woodmen lodge here for years but it has been rather inactive of late. There is a big movement on foot now to revive interest and increase the membership and the work Friday night was the first step in this direction.

### Signs of Life in Postmaster's Fight for Office

There has been a good deal of local interest for months in who would be the next postmaster at Hereford. Six candidates filed their applications for the job with the Civil Service.

Last week all six candidates received notices on the same day. It is understood that four of them were notified that their applications would not be considered and that the other two were graded. It is presumed that these two will be notified to the president, who will appoint one of them to the position.

Notices of appointments to various post offices in Texas are appearing almost daily in the press and there is keen interest here as to who will receive the coveted political plum.

### Baptist Workers Continue to Get Definite Results

The Woodie W. Smith party of evangelistic workers, in meeting with Pastor Hill and the Baptist Church, began their third week of meetings in Hereford on Sunday. The first service of the day was greatly handicapped in the attendance by the wonderful rain of the night before, and the rain and snow were still falling when the people began to come.

However, the morning service was a meeting of great results. Six of the finest members of the Baptist Church publicly dedicated their lives to definite religious work. Those with the young woman now in the S. W. Training School at Ft. Worth and the young preacher recently ordained, give the work here an enviable standing among the churches of the state.

At three o'clock all the clouds had gone and he sun was doing his work in a wonderful way, however, the streets were full of water, and car travel next to impossible. A great congregation gathered to hear the evangelist, who has made such a deep impression on Hereford, deliver his noted address on "Breaking the Alabaster Box." At the close the enthusiasm ran high in spiritual power. No one who attended this (Continued on Last Page)

### RETURNED MISSIONARY AT CHRISTIAN CHURCH ON FRIDAY

Mrs. Morton is said to have a message of interest and importance, and the church issues a cordial invitation for the general public to hear her.

### A SPLENDID RAIN ROUTED PESSIMISTS

TOTAL TWO AND HALF INCHES WAS SOAKED UP THOROUGHLY

### CROP PROSPECTS

Court Hardly be Better And Small Grain is Practically Sure

One of the most beautiful rains that ever blessed any man's country began falling here about dusk last Saturday night and kept it up until after breakfast time Sunday morning. It was generally the slow, soaking kind, but at intervals during the night it came down in torrents. At daylight the earth hereabouts was a sheet of water. Then to cap it all off a sudden heavy wet snow, so thick one could hardly see through it, covered the roofs, and trees and muddy landscapes with a thin coating. By afternoon the snow was nearly all gone. The official weather gauge at the First National Bank says that Hereford received an even two and one-half inches of moisture in this one precipitation.

Just what this means to this country can only be understood by a local resident who knows conditions here at this time. It was literally a life saver in every sense of the word. Following so closely upon the inch of moisture the week before it was practically all absorbed by the thirsty ground and assures one of the greatest spring seasons this country has had in years. There are hundreds of acres of fall wheat, with roots still alive, that this rain will mature. There were hundreds of other acres of small grains planted just before the rain and the big event could hardly have come in at a better time, if a year had been taken on it. It was a general rain, too, the Santa Fe reporting moisture from California to Kansas City, although it seemed to be lighter to the south of Hereford.

There's a grand and glorious smile in the rounds now and a pessimist is as scarce as a set of natural hen's teeth.

### County's Heroes Names Asked by Amarillo Legion

County Judge W. M. Megert is in receipt of the following letter from J. C. Sebastian, Post Adjutant, Hanson Post No. 54, American Legion, Amarillo, Texas, concerning the names of all Deaf Smith county's soldiers who sacrificed their lives during the recent Great War.

"The Municipal Auditorium of the City of Amarillo is now nearing completion, and as the building is to be dedicated in memory of the soldiers, sailors and nurses of the Panhandle Fighting section of Texas who made the supreme sacrifice during the World War, we are asking your co-operation in securing the names of those from your county who gave their lives in the service of their country.

"These names will be listed on a bronze tablet to be placed on the building, and we will greatly appreciate your promptly furnishing us a list of those from your county who made the supreme sacrifice; giving us also the organization with which they were serving."

This beautiful building will be dedicated by the American Legion on April 2nd, and you and the citizens of your county are cordially invited to be present at the dedication. Names to be listed on the bronze tablet should, however, be mailed to us not later than March 20th. We will appreciate your giving this invitation publicity in your local newspaper.

Judge Megert will be glad to receive the name of all local men who died while in uniform, from parents or friends, so that the official record may be checked and no chances taken of overlooking any one of the loyal boys who laid down their lives for their country.

Mr. and Mrs. H. G. Kilgore and baby left Hereford Monday morning for Amarillo. Mr. and Mrs. Kilgore visited over Sunday in the home of relatives, Mr. and Mrs. Geo. Dent.

### Marvin Jones' Work

A Texas member of the House, Marvin Jones of Amarillo gives promise of becoming the "Jim" Mann of the House, many members believe.

For years the late James B. Mann, republican, Illinois, was famed for putting through of perfecting amendments to legislation. Representative Jones, just completing his third term in the House, is also getting a reputation as an "amender".

It is unusual for a democrat to have any considerable voice in the shaping of legislation during a republican administration. However, Representative Jones has the distinction of having secured more amendments during the last three years, to pending legislation than any other democratic member.

Some of the amendments proposed by Mr. Jones and adopted by the house are the following:

Amendment abolishing the council of National defense, which effected a saving of \$300,000 a year, on the ground that practically the same work was being done by the war department.

Amendment requiring that when the government institutes suit against any citizen it be in the district of his residence.

Amendment permitting completion of service of process in the Federal Court in cases removed to such court.

Amendment transferring the Panhandle of Texas and Oklahoma from mountain time to central time, thus placing all of Texas in the same zone.

Amendment extending the time of holding court in the Amarillo division from one week twice a year to three weeks twice a year.

Amendment to the pending radio bill authorizing cancellation of license of any person or corporation seeking to obtain a monopoly.

Amendment to the warehouse act authorizing issuance of negotiable receipts on graded and ungraded products stored therein.—Houston Chronicle.

## De Laval Makers are Separator Specialists

The De Laval Company has specialized in the making of separators alone for nearly forty years. Their factories are the best in the world and are devoted to this single purpose. Other separators are usually made as an adjunct to some other line of manufacture of a much inferior mechanical quality.

The inexperienced buyer of a cream separator may well benefit by the experience of others. Almost every user having had experience with different machines is now a De Laval user. Few buyers of a second machine risk anything else. More than 40,000 users of other makes of separators replaced their machines with De Laval's during the past year alone.

### Buyers May Well Profit by Others Experience

Fifteen years ago there were a dozen makes of power or creamery separators in use. Today 98 per cent of the separators in the world's creameries and commercial cream plants are De Laval machines.

This great object lesson should appeal to every buyer of a small machine. The difference in results is relatively the same with a small machine as a large one. They are simply not always as self-evident to the small user.

The cream separator either saves or wastes every time it is used, twice a day every day in the year.

# COTTON LIST!

## STILL GROWING!

The cotton acreage list for this community, subscribed in the effort to secure a gin, has been revised to date and sub-divided by counties. Some of the owners do not live in the counties listed, but their land is there, if no error has been made. Any corrections to the list should be called to the attention of the Chamber of Commerce at once.

The more acreage secured the easier it will be to secure that gin. A lot of people have been heard to declare that they intend to plant some cotton but won't list it. If everybody took that point of view there would be no gin here in 1923.

Kick in—put in your acreage if you intend to plant any—and help the cause along.

**BAPTIST WORKERS CONTINUE TO GET DEFINITE RESULTS**  
(Continued from Page One)

service will ever be the same person again. The practical application was that each one should be careful to show appreciation to all who help. The merchant, the banker, the doctor, the school-teacher, the pastor, the S. S. workers, the deacons and other church officers, parents, husbands, wives and children. Scores of the congregation rushed to those who had been a blessing to them and fervently embraced and cried and shouted, and thanked. Just as the preacher closed his soul-stirring address. It was doubtless one of the greatest religious services ever held in Hereford.

At the night service the house was taxed to find seats for the great congregation. The subject the evangelist used, after the congregation had been wonderfully led in song worship by Ogden and the wonderful little pianist, Miss English, was "The World's Greatest Day in Court." It was a great and fervent call to the hearers to be prepared to meet God at the Judgment. The solo just before the sermon by Mr. Ogden, on "When My Name is Called He Answers in My Place," was an appropriate key-note to the powerful plea of the evangelist. On the invitation six new converts were received for membership in the church, other will unite with other churches according to their preference.

One of the "big features" of Sunday was the visiting orchestra from the Baptist Church of Tulla. The Evangelistic Party had just closed a very successful meeting at Tulla before coming here. These young people with violins, trombone, cornets and saxophones added much to the music of the day, and their visit was much appreciated by the congregation. They were ably assisted in their renditions by Mr. George Smith of the local church.

Monday was a "rest day" in the revival save the personal work done, which was very effective, and the night service. A well-known citizen of mature years was gloriously converted in one of the leading business houses, and thrilled the congregation at night with his great joy as he told how he had been working for Satan all these years and now he had "gone in business with the Saviour." A little granddaughter of ten years was presented to the congregation by the evangelist as the one who had led the well-known citizen to Christ. The joy cups ran over, and the people cried and some smiled and some laughed for joy. Seven converts were at the front as the invitation song ceased. There were lads and lassies

and grey-headed men and women in the group. A great service was about to close. It was surely one of those real occasions where converting power was evident.

Smith is a hard-hitter of sin, but loves the soul and interests of the lost in a remarkable way. The fitness of the man for this particular work is manifest in the sounds of the falling of the tall timbers of sin in Hereford. Seldom does a revival get such a grip on the men and women of a community. Scores of people attend from nearby communities.—Contributed.

**ELI DUNLAP AND DAUGHTER RETURN FROM DALLAS TRIP**

Eli Dunlap and Mrs. Mary Monday and children came home Monday from Dallas, where they have been for some time. They started home from Amarillo with D. L. McDonald, but Mr. McDonald's car broke down at Dawn and the party came on in home in another car offered for the occasion.

**RICE'S NEW BUSINESS HOUSE NEAT AND UP-TO-DATE**

H. L. Rice's new reinforced concrete business house is the only steam heated building in Hereford, with the exception of the Hereford Laundry where they have their own boiler service.

And the installation of the heating system is original and unique. Mr. Rice has his heating plant sunk in the concrete floor in the rear room, where he does his tire vulcanizing and repairing. Steam-pipes run from the little boiler to the repair molds, and another line runs into the front of the shop facing the street and gives out a gentle and cheering glow from six long pipes strung together in radiator form and hung back of the display window. It's a neat, clean and attractive arrangement.

Mr. Rice's whole layout is somewhat out of the ordinary. The building itself, 20x50, is built to stay. Free water and air has been installed in front. The front retail department, where the stock of tubes, tires and accessories is kept, is carefully thought out as to detail and arrangement, and the display is very attractive.

The rear room, where the rough work is done, is planned with an idea in economy of space and convenience for reaching things. Every modern device in the vulcanizing and repair line is installed back here, and the entire plant is a model for efficiency and service. It is well worth a visit of inspection.

**LUBBOCK MAN TO PLANT SUDAN AND COTTON NEAR HERE**

A. R. Groves and his farm hand, T. I. Taylor, reached Hereford Monday overland from Lubbock. Mr. Groves is on the old Will Gilbreath ranch, twelve miles northwest. He says he will break out 600 acres of sod and plant it all to sudan, and 100 acres of old land to cotton.
