

# THE RAILROAD PROBLEM

The consolidation of railroads is one of the most vital current problems. Under the Esch-Cummins Law, the Interstate Commerce Commission is now engaged in working out a plan for putting all the railroads into a few systems. The President of the United States in several speeches advocated railroad consolidation. A member of his cabinet, Secretary Hoover, wants the government to buy the roads so that they may be put together and then resold to whomsoever might want to buy them. Senator Cummins of Iowa wants to compel consolidation.

Commissioner Walter Splawn of the Railroad Commission of Texas has been asked by his associates to represent the Railroad Commission. He has also been requested by commercial interests of Texas to act for their interests in the matter of consolidation now pending before the Interstate Commerce Commission. Commissioner Splawn has prepared a series of brief articles in which he traces the development of this movement toward consolidation, states the arguments that have been made in its behalf and against consolidation, gives an account of the work of the Interstate Commerce Commission and its efforts to put the roads together in a few systems, and discusses the objections to such consolidations as have been proposed.

## ARTICLE III Arguments For and Against Consolidation of Railways

In the preceding article I have called attention to the problem of the weak and strong roads operating as competitors in the same territory. Congress called upon the Interstate Commerce Commission to consolidate these properties so that each strong road would be given its due proportion of weak properties, so that rates could be prescribed which would bring a fair return to the roads as a system. For many months, the Interstate Commerce Commission has been working on this problem of putting the weak roads with the strong. It has found its task almost insuperably difficult. For example, in the Northeast, there are three huge systems that have grown up through the years—the New York Central, the Pennsylvania, and the Baltimore & Ohio. The other roads of the Northeast are relatively much weaker than these three systems, with a few exceptions. To place all the railroads of the Northeast in three systems would perhaps be necessary if the mandate of Congress were obeyed to the letter, that is, that the strong and weak roads should be actually put together. But that would make three systems so large that operating officials are skeptical as to the wisdom of attempting to do so. Moreover, consolidation is voluntary, and it is hard to conceive how it could be otherwise, for it would be very difficult to compel a railroad to buy another railroad. A man may be compelled to sell his property for public use, but we have as yet no law to compel a man to buy what he does not want. Now it has appeared from the hearings that the New York Central does not care to buy the weak roads paralleling it. The same is true of the Pennsylvania and the Baltimore & Ohio.

When we come west of the Mississippi River we get a similar situation. The strong railroads of the West like the Union Pacific and the Hill lines, the Southern Pacific, and the Santa Fe are not very desirous of taking on hundreds and even thousands of miles of property that have not been able to earn a living. We have in the Southwest a number of railroads that from time to time have been in the hands of receivers. It is true that much of the financial difficulties have been due to their being overcapitalized. But financially weak they are, piling up deficits from month to month and from year to year and passing through one bankruptcy proceeding after another. Congress had in mind that such properties would be consolidated with financially strong systems. But it appears to be very difficult to interest the strong competitors in taking over these weak non-dividend paying and frequently bankrupt railroads. Consequently the tentative proposal, put out by the Interstate Commerce Commission in August, 1921, to provoke criticism and thought, contains several systems made up almost entirely of financially weak roads. There are such systems in the Northeast, in the Southeast, in the West and particularly in the Southwest. The so-called systems 18 and 19 of the tentative plan, the consolidation of the Frisco, the Katy, and the Cotton Belt into one system, and of the Old Gould lines into the Missouri Pacific system, furnish examples of the difficulties which are actually met in consolidating these roads. Since the Commission evidently was not able to get any assurance from the strong systems that they would take over all of these Southwest lines, these lines have treated individually and consolidated into two relatively local and competing systems composed of financially weak properties. A strong chain cannot be made up of weak links. A strong system can hardly be constituted of financially weak properties.

## First Round Matches For Tournament Announced

The qualifying round in the tournament just begun by the Hereford Golf Club has been completed, and the officers of the organization, president Jim Black and secretary Homer Fox, have matched the players by classes based on their qualifying scores. Class A will include players who turned in a score not exceeding eighty for eighteen holes; Class B, scores between 81 and 94, inclusive, and Class C, scores from 95 and up. It had been originally intended to try a handicap system, and in fact a match or two under this system was played, but opposition to it developed, and a switch has been made in the method of play. The first round matches follow:

Class A—Mercer vs Hough, Steckman vs Williams, Merrill vs Herbst, Johnathan Pitman, odd man.  
Class B—Clark vs Rice, Russell vs Estes, Acker vs Gabbert, Marr vs Holman, Dubs Pitman vs Stambaugh, Cuning vs Wilson, Black vs Doug Fox, Mac Pitman vs Thompson, Homer Fox vs Wilkinson, J. H. Pitman vs Rutherford, Skelton, odd man.  
Class C—Price vs Collins, Hastings vs Sharp, Posey vs Dameron, Ireland vs Barnett, Robinson, odd man.

This is a hole contest, the majority of holes in eighteen played deciding the winner.

**International Sunday School Lesson**  
Barnabas, the Big Hearted  
Today we study of the adventures of the first missionaries to leave Jerusalem after the death and burial of Christ—Jesus Barnabas.  
He is first to become the missionary to the Gentiles, opening many new fields, spreading the gospel in foreign lands.  
Having been raised on the island of Cyprus, in the Mediterranean sea, he is familiar with the language and customs of these people, mostly Greeks.  
**Generosity**  
Jesus, because of his sympathetic personality, his great desire to help and uplift humanity, is called Barnabas by the apostles. He is a land owner and a Levite by birth. Big hearted, broadminded and ready to ever alleviate the suffering about him, he sells his property in Cyprus, places the money in a common fund and lays it at the apostles' feet, who distribute it among the needy.  
Barnabas gives all he has—of himself he gives in service.  
He proves himself to be a true Christian, not in name alone but by every act, word and thought—in his everyday life he proves his sincerity.

**Persecution Helps the Cause**  
Scattered by persecution, many Christians traveled as far as Phenice, the country of Tyre and Sidon, Cyprus the Mediterranean island, and Antioch, the capitol of Syria. Everywhere they teach and preach to the Jews. Those who have formerly lived in Cyprus and Cyrene and are familiar with the language of the Greeks, are capable to instruct the Gentiles, converting many and adding daily to the church.  
Tidings of these things come to the mother church at Jerusalem and she sends Barnabas to Antioch to oversee

**National Shoe Thrift Week**  
Aug. 27—Sept. 1  
Have 'em Repaired!  
Look in your closet today for your shoe cast-offs. If the uppers are good we can make the shoes as good as new at a nominal cost. Mothers should see that their children's shoes are sent to the repair shop this week so that they will be ready for school wear.

You'd be surprised at the good service that still remains in many a pair of shoes that have been thrown away as being of no more good.  
Folks who wouldn't think of tossing even a penny into the trash can, sometimes thoughtlessly cast aside a pair of shoes that still have several dollars worth of wear and comfort in them if properly repaired.  
Don't throw away your old shoes until they have been condemned by your repairman. Be Thrifty—Have 'em repaired.  
You don't throw away your watch because the main spring breaks. Why throw away your shoes because the soles wear through?

**Tubb's Shoe Shop**  
You'd be surprised at the good service that still remains in many a pair of shoes that have been thrown away as being of no more good.

this great Gentile movement. He was in a position to render excellent service. Zealous and full of faith he is able to give them the encouragement and exhortation they so needed.  
When Barnabas saw the grace of God, he was glad, and exhorted the people that with a purpose of heart they cleave unto the Lord. Many, again, were added to the church.

**The Able Assistant**  
Barnabas sees in Antioch a prospect. In his mind he associates this big opening with a powerful man, capable of doing big things—Saul, of Tarsus.

Tarsus is seventy-five miles away, a long distance in those days, but to Barnabas this meant little when the objective more than justified the undertaking.  
When the two men reached Antioch together they hold an intensive series of meetings, lasting a year. Saul, who was known as a persecutor, has now become Paul, the great apostle.

Many people become devout followers, and it is here they were first called Christians.  
**Brotherhood**  
In the meantime prophets from the home church at Jerusalem arrive at Antioch. Among them is one called Agabus. He has a message for the people, a warning of disaster, and foretelling need.

He signifies by the spirit that there will be a great drouth throout the land during the reign of Claudius Caesar.  
The disciples take immediate action. Every one determines to send relief according to his ability unto the brethren which dwell in Judea.  
Having gathered the supplies they place them in the hands of Barnabas and Saul to be distributed by elders of different places.  
The new religion has endowed them with love for humanity. "Time of scarcity often yields rich spiritual harvests."

### T-Anchor Cowboys Reunion Big Success at Canyon

R. W. Baird, J. W. Brady, John L. Wilson and son, Earl, and others from this community attended the second annual reunion of the T-Anchor Cowboys held at the old ranch headquarters near Canyon Thursday. The first meeting was held at Sulphur Park last year. In reporting the Thursday meeting the Amarillo News said:

"The old T-Anchor ranch days were brought to life again yesterday and grizzled veterans of the Plains, of the cattle trail and days of the Buffalo got together within the shades of the old ranch house near Canyon to the number of 75 and with the old settlers and guests totaling 200 people and lived the scenes over again, voted to make the meeting an annual affair and round-up the boys as long as two could hobble down the creek bottom and up to the drooping cedar log house, the first to be built in the thirty six counties of the Staked Plains.  
"Just before the closing of the session Miss Laura V. Hamner suggested that within the next few years that a lasting monument be erected somewhere on the Plains to memories of the

cowboys. Her motion was received with applause except from those modest fellows of the range. They wished it for their comrades who have gone.  
"A real barbecue prepared by Gus Lea, the old negro cook for the T-Anchor boys, reinforced by food prepared by the women who attended the meeting made up a real feed for the 200 or more present. The chuck wagon was dispensed with this year.  
"During the morning Judge Thomas F. Turner spoke on the development of country and dealt to a small extent on frontier life.  
"Judge L. Gough told of the old T-Anchor ranch-house and of its history. The old house was built during the winter of 1877-78 of cedar logs secured from the Canyons just below the falls. A Mexican hewed the logs. It was the first house in the county and the only cedar log house in thirty-six counties.  
"E. P. Alhart told of old time trail driving. He went into detail about the long trips to cattle markets.  
"The roundup with its burry and bustle, its speeding horses, elusive cattle and sweating, yelling cowboys was told of by Sid Boykin.  
"Jim Barton talked about the early women in the Panhandle and of some of the social life.  
"Horace Russell, who as a boy lived near the T-Anchor ranch, told of his recollections of the cowboys as a boy.  
"A roundtable discussion was held and a meeting called for some convenient date in May, 1924, to make plans for the annual picnic."

### Star Theatre to Present Big Picture Next Week

The inauguration of nightly service by the Star theatre, under the new management of G. B. Overton is meeting with a hearty response from the Hereford public and the patronage is steadily increasing from night to night. There is very little recreation here for the people as a rule and there has always been a demand for a picture show of the better class. Mr. Overton is securing some really worth while releases, and has lined out for more of them right along, and every right thinking citizen in Hereford is in sympathy with his effort to establish the Star in the minds of the people as a

clean, wholesome, worth-the-price place of amusement and relaxation. One particular release that Mr. Overton has obtained for next Wednesday and Thursday, August 29 and 30, is attracting attention. It is a Metro production entitled "Trifling Women," by Rex Ingram. The cast includes Barbara La Marr, Ramon Navarro, Lewis Stone, Pomeroy Cameron and other screen artists and is said to be a gorgeous and entrancing offering.

## There is a right way to buy Farm Insurance

THE farmer who buys his insurance wisely adopts the same methods that he uses in purchasing seed, fertilizer or farm machinery. He buys enough insurance to fit his needs. He buys insurance of the best quality obtainable. He makes sure of the integrity and high standing of the company with which he does business. He consults an insurance agent in whom he has confidence—a man who specializes in farm insurance. He thinks insurance in terms of a possible loss.

Make sure of your protection. Call on this agency of the Hartford Company.

**PROGRESSIVE**

The big Plateau Singing Convention has secured the famous Vaughan Quartet to conduct a Normal at Clovis. This quartet is considered among the best in the south. James D. Vaughan's songs are extensively used. They are beautiful and never grow old. Mr. Virgil, the basso of this quartet, enjoys the distinction of having taught more schools in the South than any man of his age, and is her leading composer. We shall be honored to have this famous quartet with us at our next Convention.

TO OUR CUSTOMERS AND FRIENDS:

Effective September 1st, coupons will be packed in every pound of Mistletoe Butter. Upon receipt of ten of these coupons and \$6.98, which is the actual potter cost, we will ship express collect, or deliver from our Amarillo plant, one 42-piece Limoges China Dinner Set.

We have bought several thousand sets of these dishes direct from the largest pottery in the world. Our customers will save the difference between \$20.00, the retail value, and \$6.98, because we are buying in carload lots and turning them at cost.

Don't confuse these dishes with the usual ones offered for premiums. They are dainty and attractive and in keeping with the quality reputation of Mistletoe Butter.

Yours very truly,

## Work

There is probably no greater element in success than just plain hard work.

However, properly directed energy, thrift and saving will enormously increase the results of work well done.

We take the keenest interest in assisting our customers to develop their accounts and in promoting their success. We are growing with the community because we render the type of banking service that appeals to hundreds of our best people.

**FRIONA**

At this writing (Tuesday night) a heavy rain is falling in Friena and the surrounding territory and bids fair to continue the greater part of the night. This rain has been much needed and wished for and our people will surely carry grateful hearts for a while at least.

At a meeting of the people at the schoolhouse Saturday night it was definitely decided to hold a county fair at Friena this year and the date was set for Sept. 22. A committee was appointed to prepare and publish a catalog and said committee is meeting with very encouraging results so far as the canvass has proceeded. No entry fee will be charged and the management hopes to give small premiums for the best exhibits.

Rev. Florence, pastor of the local Methodist Church is conducting a revival meeting here this week, beginning Sunday night.

A company of road graders and their equipment passed through town Tuesday morning enroute to begin work on the main highway of the county between Farwell and Summerfield.

Sheriff Jim Martin was in town Monday night on official business. Sheriff Martin has little to say about his official affairs and few, if any, know that his errand was but all feel assured his intentions were good and wish him success.

Mr. Moore has a force of carpenters, tucklayers, mixers and waiters at work on the school building and they are making a very distinct showing of growth of the walls. Some very attractive placards are out

announcing the C. E. Convention to be held here August 31 to September 2. The local endeavors through their committees are doing all in their power they know to do to make the convention a success and are hoping for and expecting a good delegation from every society in the district.

**DIMMITT**

Rev. G. R. Fort and family moved to their farm near Big Square Tuesday. We regret very much to give them up as they are fine folks to have in our midst. Rev. Fort will continue to do to preach here, so we feel that we haven't entirely lost them.

Cliff Kellum, who lives near the Flag ranch, is quite ill this week with appendicitis. We hope he will soon recover.

Judge and Mrs. Ray Sheffy spent a part of last week in Canyon, where the Judge was transacting business. They returned home Saturday. Mrs. Sheffy's mother, Mrs. Miller, returned home with them for an extended visit.

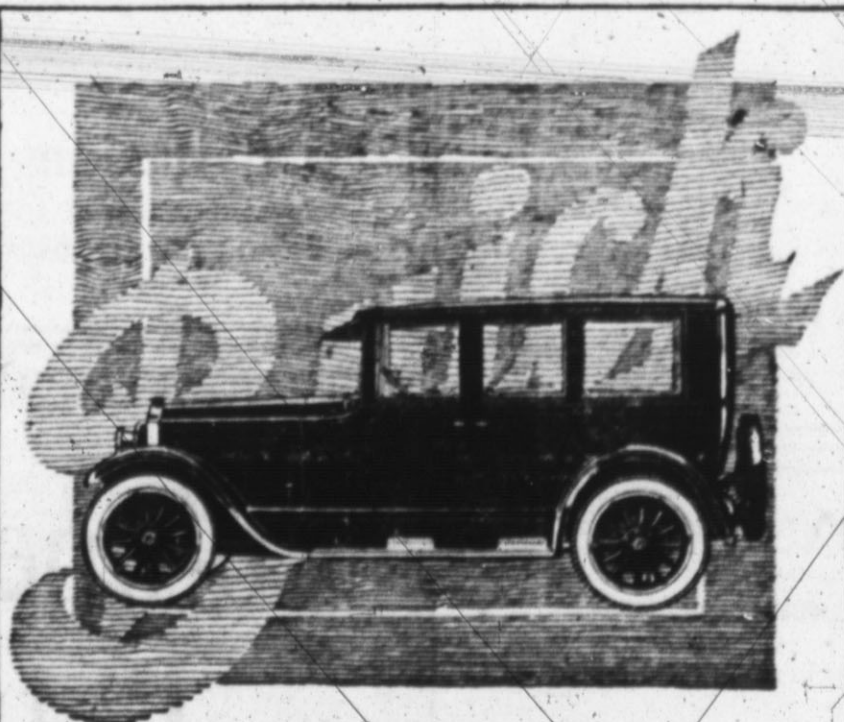

Everyone is rejoicing over the fine rain that fell here Tuesday night. About two inches were reported in Dimmitt.

Mr. and Mrs. Iffbeck and Miss Lange of Nazareth were in Dimmitt Wednesday.

## The Buick Double-Service Sedan

Another 1924 Buick innovation—this six-cylinder double-service sedan—has been especially created for those who wish a combined practical business car and family sedan.

Its upholstery is comfortable, yet sufficiently serviceable to withstand severe daily usage. The power provided by its new Buick 70 H.P. valve-in-head motor is more than enough to carry it over the heaviest roads. Its staunch Buick four-wheel brakes assure ample safety whatever the driving conditions.

The admiration which you may feel for its service utility will be matched by the pride which your family will take in its comfort and suitability.

## Robs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Unpleasant Qualities Removed. Periparted Tablets Called "Calomel".

The latest triumph of modern science is a "de-constipated" calomel tablet known to the drug trade as "Calomel". Calomel, the most generally useful of all medicines, has been upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache and indigestion, and in a great variety of liver, stomach and kidney troubles Calomel was the most successful remedy, but its use was often restricted on account of its objectionable qualities. Now it is the easiest and most pleasant of medicines to take. One Calomel tablet with a crust of water, or a glass of milk, is all that is required. No griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fresh, with a clear liver, a purified system and a big appetite. But what you should know—

Calomel is sold only in original, sealed packages, price thirty-five cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to sell the price as a guarantee that you will be thoroughly delighted with Calomel.—(Adv.)

A litter sired by one of them would be a valuable addition to any herd.

Now is the time when you can buy registered hogs at a lower figure than you have ever heard of before. At this sale you buy them at your own price. With this possible every farmer should take this opportunity to place good hogs on his farm replacing the grade or scrub stock that you may have been keeping, and build a herd with seed stock that costs you less in the long run by more economically converting your feed into pork, earlier marketing, faster growth and greater capacity. You will lose if you miss this sale.

At the Farm, Saturday, September 1st, at 1:30 p. m. Five miles west of Amarillo on the paved highway. Write for catalog and be sure to attend.
