Twenty-Five Mile Avenue Is Graded Thru County

County Commissioners Paddock and Hill were out Saturday inspecting the work just completed by the county road crew in grading Twenty-Five Mile Avenue. This jeb included every foot of road from the Oldham county line to the Castro county line and satisfies a long demand from the public for such improvements. The road has been double worked and a crown erected that will not wash away at the first rain. Farmers along the route have been engaged to drag it at regular intervals and the court is determined to keep it in first class condition. A little work yet remains south of town, where the recent heavy rains washed out a section or two before culverts could be completed, but the entire stretch of road is practically finished

The commissioners are now negotiating for the whiening and grading of the cut-off road leading from Twenty-Five Mile Avenue to the Dimmitt road just south of the Ward place in South Hereford. When this is done and the new bridge and fill is completed across the Tierra Blanco, farmers can use this cutoff and reach the elevator without crossing the railroad and at the same time not have much of a hill to ull at the river.

The best college is not measured by endowment; it is measured by the men and women it turns out. The test of culture is the ability to sever, the power of giving, not setting; of helping, not bindering.

The college will ofttimes pass a man the world will quickly flunk. Many men have been housered in college who have been dishonored by acciety because with all their high gradings is classes they have not fearned how to march with the meases.

The college is a starter but it never completes the education job. Your education does not end when you pick up your diplonia. That is when it is ust begins. That is why graduation day is Commencement Day.

Mainy of the best educated people got their education without the help of college courses. Test your self. If you can houseity answer "yes" to all the questions that follow you are indeed educated, even though you never heard of Xenophon's Anabasis and never owned a parchment encased in a fin table.

Has education given you sympathy with all good causes and made your enjoures them?

Good news bears repeating, and when After Miss Laura's talk on Korea, it is confirmed after a long lapse of at first hearing, we feel secure in accepting its truth now. The following experience of a Hereford woman is confirmed after four years:

Mrs. W. G. Ross, 310 W. 3rd St., Hereford, says: "I used Doan's Kidney Pills which I got at Burns Drug Store and from the results I had they are a good remedy. I gladly advise anyone to try them if bothered with weak or disordered kidneys."

Man Power Too High

One Hereford man who works by the day, lays off one-half day each week to help his wife wash. Figuring his time at \$3.00 per day, it is costing him in time lost, \$78.00 per year to turn the washing machine by hand.

He can run that washing machine electrically for about 50 cents per month, or about \$6.00 per year. A Western Elecrtic Washing Machine will pay for itself in a few months at that rate.

And the joy of a camp-fire grand, Come join the jolly vagabonds, Making merry in gypsy-land."

Such was the call received by the members of the Senior Class and the faculty of Dimmitt, from the loyal Juniors, entertaining at the home of Miss Myrna Montgomery Friday, May 18. Early in the evening the guests began to arrive-gypsy maids and vagabond youths, hailing from the plains of Hungary and the desert sands of Egypt and Araby. Around the blazing camp-fire gathered the merry band : her bacon was broiled crisp and brown and served with light rolls, pickles and coffee. Then the gallant gentlemen bravely toasted marshmallows over the blaze; they soon became "expert toasters"-even toasting their faces, but they didn't worry about that.

Then with tin cups and tambourines, all danced gaily around the campfire, chanting wierd incantations, which rang out on the clear night air. Then, while all huddled closely together around the camp fire, Mr. Reeves told a spooky host story. Our one resident pastor, Rev. John M. Peyton of the Congregational Church makes a practice of calling on the tourists who camp in our town and making theb feel welcome with social conversation, and takes pleasure in telling them of the good things and general conditions prevailing in the town and surrounding country. We think this a very commendable practice and think it would be well if more of our people would adopt it. It gives the stranger something pleasant to think about concerning Friona.

The hard rain of last week may cause some of the farmers some extra work in replanting the crops they had already planted, but sure put the moisture deep in the ground.

Those of our people who have fruit trees are beginning to feel quite hopeful of another fruit crop this year as it seems hardly possible that there will be a killing frost this late in the season. Unless some unforseen calamty happens there will be a good crop of apples, peaches, plums, cherries and grapes, as the trees and vines are well' loaded with the young fruit. Strawberries are already in season and many of our people are now feasting on this luscious fruit.
