Around Town

SIGHTS, FACES SEEN

Probably of paramount interest around town this week was the Texas-Oklahoma football game which, incidentally, thinned the ranks of Hereford fans as people left in droves to see the game.

Congressman Ben Gull was in Hereford Friday morning, visiting along Main Street. He spoke Thursday evening at the farm association meeting in Bovina.

Dr. M. C. Adams left Albuquerque at 1 o'clock Saturday for San Diego, according to word received by Mrs. Adams just before noon.

Opening of the new butane distribution plant west of town on highway 60 was this week announced by Glenn Snyder, manager of Consumers.

Loud praise resulted from each serving at the St. Thomas Episcopal Guild Enchilada dinner at Shirely School Friday evening.

Texas Citrus and Vegetable Growers and Shippers Association President Abe Wise, Robstown, and Secretary Austin Anson, Harlingen, spent most of the week in Hereford investigating shipping and packing conditions of the area.

Ban on employment of child labor in farm operations spread from the cotton areas into Deaf Smith County this week as County Agent Hugh Clearman issued a warning to all farmers.

Corn Promises Largest Yield

The corn harvest got underway this week, and the yield for the county is expected to be the largest ever known here.

With 4,000 acres estimated planted throughout the county, farmers are moving into the fields preparing for the harvest.

Grant Hanna began harvesting with a new machine Thursday afternoon. He has approximately 25 acres of Dekalb variety corn planted.

LETTUCE HARVEST was well underway for B. F. Cain (upper photo) on his farm on the Harrison highway. His 50 acres were averaging 170 crates apiece and the market at the time the harvest was made (Thursday) stood at \$3.75 per crate.

PICKERS (below) were busy when this picture was made Thursday. Shown picking heads of lettuce and placing them in the rows, Mexican laborers bring the harvest on the B. F. Cain farm to a speedy conclusion.

Lettuce Harvest May Be Worth \$900,000 For Year

Harvest is well underway on the Deaf Smith County lettuce crop, which may be worth between \$900,000 and \$1,000,000 for the entire season.

With an estimated 2,000 acres planted in lettuce and an abundant supply of good weather on hand, prospects for the season's harvest went forward.

All packing and loading sheds at Hereford are working every day, each plant loading out between eight and 12 cars per day of ice-packed lettuce.

The quality of the product is reported excellent. Hard, heavy heads in good, clean shape are pouring into the packing sheds every day.

The market, which began at approximately \$2.75 per crate for five-dozen size crates and \$3.25 for four-dozen crates went up to \$3.25 and \$3.75 in the early part of this week, but dropped back again to its original figure.

It is assured that the market price will climb again as soon as the first killing frost hits eastern fields. Present prices result from the abundance of good weather in the east, according to local packers.

The past week of warm, clear weather has made prospects better than ever.

Lettuce is estimated averaging 150 crates per acre in most of the county where it is produced.

Lettuce Harvest Photos

In the pictures at left packers at Aterbury and Beasley are shown crating and preparing heads of lettuce for shipment—one of the major chapters between the field and the dinner table.

In the top photo a trailer full of lettuce is being delivered to the shed for packing. In the next picture the assembly line at which the lettuce is sorted and cleaned moves rapidly along.

When ready for crating the heads are packed in wooden boxes between layers of ice. Shown shoveling ice into the crates the worker in the third picture has one of the vital jobs of the processing.

Lindley Gins First Bale Of 1950 Cotton; Crop Is Short

H. E. Lindley, eight miles south of Hereford, this week started-off the cotton season by ginning the first bale of 1950 cotton in the area.

Cotton season is expected to get underway within the next two weeks, according to McCleskey, who estimates approximately 1,700 bales for the area.

Absentee Vote Begins Oct. 17

Absentee voting will begin October 17 and be continued until November 3 for the general election November 7, County Clerk Robert L. Thompson announced this week.

Applications for ballots may be made immediately. Votes may be cast here, or elsewhere before a Notary Public, Thompson said.

According to a sheet of instructions for absentee voting, application for an official ballot must first be made in writing to the county clerk. The application, including fifteen cents to cover postage, should then be mailed to the clerk of the elector's residence, who will in turn mail to the voter a blank official ballot and ballot envelope.

Upon receipt of the ballot, the elector votes before a notary public and mails the ballot back to the clerk's office.

this year. This will be less than half of the 1949 production, which he set at around 4,500 bales. Lower production, he attributes solely to government acreage restrictions, which will be lifted in 1952.

Cotton is bringing from 33 to 40 cents a pound, which should total near \$300,000 income for producers in this immediate section.

Concert Artists Named In First Fall Presentation

Helen Clayton, soprano, and Howard Jarratt, tenor, will appear in the first fall concert of the Hereford Mutual Concert Association at the local high school auditorium on Monday evening, October 23, at 8 o'clock.

One of the most beautiful scenes from one of the best-loved of all grand operas, "La Boheme", and highlights from the ever-popular light opera, "The Merry Widow", will be features of the concert.

Realizing that present-day audiences prefer something more than the standard type of concert presentation, Miss Clayton and Mr. Jarratt have developed a program including these scenes from opera and musical comedy in costume as well as fine concert songs. Two groups of solos by their concert pianist-accompanist, Miss Moreland Kortkamp, add even more variety.

Their program opens with two tuneful duets from Sme-

Over 500 Leases Filed Since May

A total of more than 500 oil and gas leases on land in Deaf Smith County have been filed by over 20 individuals and companies since May 1, according to records in the county clerk's office.

The largest number of leases are shown on the books to have been delivered to or filed by

Cities Service-Oil Company, R. C. Bowden of Midland, Texas, and the Hunt Oil company of Dallas. R. C. Bowden, whose leases are shown delivered to himself and various individuals, leads all others in number of leases filed. Cities Service Oil company, is second with number of leases filed.

Hunt Oil company, the Hassle Hunt trust and H. L. Hunt, if combined, run a close third in number of leases. Others among those who have filed a large number of leases or had them delivered to them include Nebo Oil company, Dallas, Humble Oil and Refining company, Wichita Falls, Gulf Oil corporation, Amarillo, and Ohio Oil company, Houston.

Still others include W. O. Fontenberry, Charles V. Nelms Oil properties, W. C. McQuetter, Placid Oil company, Shreveport, Louisiana, Sun Oil company, Dallas, J. F. Huntley, Dallas, and Shamrock Oil and Gas corporation, Amarillo.

A large number of the leases for Humble were shown filed by Ewing E. Johnson. Besides the companies and individuals listed above, various others have oil and gas leases scattered throughout the record books since May 1.

Leasing began in May and has increased steadily until the present time. Almost 400 of the leases on record were filed since July 1.

The majority of the leases are for land north, east and west of the Town of Hereford.

No Local Doctors Register For First Draft October 16

None of Deaf Smith County's members of the medical profession will be required to register in the first registration October 16, according to a news release from General Paul Wakefield, state director of Selective Service, explaining the new draft law for doctors.

General Wakefield said, "Although all members of the medical profession under 50 years of age will eventually register for the draft, only a small number of them will register Monday, October 16."

In compliance with instructions from General Lewis B. Hershey, the National Director of Selective Service, only those (continued on page 3)

Bank Deposits Show Small Decline For Past Quarter

Despite adverse conditions, Hereford bank deposits this week showed only a small decline from those of the previous call on June 30. Deposits in the two Hereford banks totaled \$6,728,772.95—a drop of \$362,445.54, as compared with the deposit total of \$7,091,218.49 on the previous call.

Bank loans and discounts, on the other hand were up. Total loans on the June 30 call were \$2,666,551.26 as compared with \$2,900,992.96—an increase of \$234,441.70.

Failure of the 1950 wheat crop, due to drought, plus loss of near half of the potato crop from too much rainfall, were attributed as chief reasons for decline in deposits this year. Prospects from lettuce, carrots, sugar beets and a tremendous grain sorghum crop—still to be harvested—indicated, however, that deposits might again reach a normal point later in 1950, or in early 1951.

HIGH MILLET grows on the Jack Brown farm near the Bippus Community. Pictured above with one side of this year's crop, Jack reports he planted the African millet in June on his dry-land farm and set back to watch it grow. Higher in almost all parts of the 100-acre field than a man can reach, the millet will be grazed by cattle, except for 25 acres which will be cut and banded for feed.

Roundup Of Saturday Grid Results

Twenty-four straight wins for Oklahoma, 23 games without a loss for Army, and two new intercollegiate passing records for Red Bagnell of Pennsylvania. Those are the football headlines tonight (Saturday).

Oklahoma came from behind in the last five minutes to beat Texas 14 to 13 in the game of the day. Texas was a one-touchdown favorite, although Oklahoma ranked third and

Texas fourth in the United Press Coaches' rating. Bill Porter of Texas, trying to punt, dropped the ball and lost it on the Texas 11 to set up the winning touchdown for Oklahoma.

Army took advantage of a fumble, an intercepted pass and a blocked punt in the second half to beat Michigan 27 to 6 at New York. Michigan held Army to a 6-all tie at the half.

Bagnell accounted for 490 yards through the air... another collegiate record. The old mark of 458 yards was set by Bob Hoernschmeyer of Indiana in 1943.

Penn beat Dartmouth 42 to 26 as Bagnell—once the Penn water boy—completed 14 straight passes. That breaks the collegiate record of 12 straight, set three years ago by Pete Dorset

of Cornell against Princeton. Notre Dame scored twice in the first half and held on for a 13-9 victory over Tulane. Last week, Purdue upset Notre Dame to snap the Irish streak at 30 games without a loss.

Today Purdue got a taste of its own medicine. Miami of Florida, a three-touchdown underdog, beat Purdue 20 to 14. (continued on page 3)

(continued from page 1)  
A letter from the Dimmitt Parent Teachers Association has come to the Hereford P-TA, inviting all members and others interested here to attend the meeting Tuesday at 8 p. m. at the Dimmitt school.

Mrs. Robert Estes, president of the Dimmitt P-TA, wrote the letter, and explained that A. R. Bevin, a member of the State Board of Education, will be principal speaker for the evening.

The subject of Bevin's talk will be "The New Foundation School program."

### Lettuce

(continued from page 1)  
Jess Thomas, sales manager at Atterbury and Beasley said between 10 and 12 cars per day are being loaded and shipped from that plant. These figures are in addition to the three or

four cars per day of dry-packed lettuce. He said production probably will be up to between 13 and 15 cars of ice-packed lettuce per day next week. Making a rough estimate, Thomas said probably between 700 and 800 cars would be loaded this season.

P. W. Williams and J. N. Harding of Williams Farms Company of Texas said their plant is processing for 17 individual growers in the county. Production will reach 15 cars per day at Williams Farms in the very near future. Williams said the quality of lettuce is excellent. The heads are beautiful, he said.

The harvest began on or about Wednesday, October 4. Packers estimated it would continue until the first week in November. It could be later, but not much earlier, according to Thomas at Atterbury and Beasley.

Ohio State ground out a 26 to 14 win over Indiana. Halfback Ed Withers scored one touchdown and set up another with pass interceptions to give Wisconsin a 14 to nothing victory over Iowa. Those were Big Ten games. Kansas beat Iowa State 33 to 21 in the Big Seven.

In the South: Duke scored in the last period to beat North Carolina State 7 to 0. Billy Cox of Duke completed 22 out of 36 passes, but the Blue Devils scored on the ground.

tate in an undivided one-third thereof, all of which lands are more particularly described in said application to which reference is here made for such descriptions;  
That L. H. Foster, judge of the county court of Deaf Smith County, Texas, on the 11th day of October, 1950, duly entered his order designating the 23rd day of October, 1950 at 10:00 A. Wilda Womble  
Wilda Womble, Guardian of the persons and estates of Robert Wilson Womble, Lewis Ray Womble, Gordon Douglas Womble and Leddon Baker Womble, all minors.

of this citation, same being the 27 day of November A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 13 day of October A. D. 1950, in this cause, numbered 3295 on the docket of said court and styled First National Bank of Hereford, Hereford, Texas Plaintiff, vs. E. H. Fretz, et al Defendants.

A brief statement of the nature of this suit is as follows, to wit:  
For the title to and possession of the following described land in Deaf Smith County, Texas, to-wit:

All of Lot 10; and all of the West 115 feet of the South one half of Lot 11, all in Block 1 of the Town of Hereford, as shown by the plat of such Town of Hereford of record in the deed records of Deaf Smith County, Texas;

The plaintiff alleges that it has been in the actual, continuous peaceable adverse open possession of all of said land since December 4, 1928, claiming and asserting the fee simple title thereto and holding said title under deed, dated December 4, 1928, duly recorded on December 5, 1928, in the Deed Records of Deaf Smith County, Texas, and having paid all taxes and assessments against said land, each and every year before the same became delinquent since said date, and having fully complied with the three, five, ten and twenty year statutes of adverse possession and limitation of the State of Texas, in such way and manner as to fully vest the fee simple title to all of said land in plaintiff; and praying further for the removal of all claims and assertions of title on the part of the defendants, each, either and all of them, apparent, or real, as clouds to plaintiff's fee simple title thereto as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.  
Issued and given under my hand and the Seal of said Court, at office in Hereford, Texas this 13 day of October A. D. 1950.

You are hereby commanded to appear before the Honorable District Court of Deaf Smith County at the Court House thereof, in Hereford, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance

of this citation, same being the 27 day of November A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court, on the 13 day of October A. D. 1950, in this cause, numbered 3295 on the docket of said court and styled First National Bank of Hereford, Hereford, Texas Plaintiff, vs. E. H. Fretz, et al Defendants.

A brief statement of the nature of this suit is as follows, to wit:  
For the title to and possession of the following described land in Deaf Smith County, Texas, to-wit:

All of Lot 10; and all of the West 115 feet of the South one half of Lot 11, all in Block 1 of the Town of Hereford, as shown by the plat of such Town of Hereford of record in the deed records of Deaf Smith County, Texas;

The plaintiff alleges that it has been in the actual, continuous peaceable adverse open possession of all of said land since December 4, 1928, claiming and asserting the fee simple title thereto and holding said title under deed, dated December 4, 1928, duly recorded on December 5, 1928, in the Deed Records of Deaf Smith County, Texas, and having paid all taxes and assessments against said land, each and every year before the same became delinquent since said date, and having fully complied with the three, five, ten and twenty year statutes of adverse possession and limitation of the State of Texas, in such way and manner as to fully vest the fee simple title to all of said land in plaintiff; and praying further for the removal of all claims and assertions of title on the part of the defendants, each, either and all of them, apparent, or real, as clouds to plaintiff's fee simple title thereto as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.  
Issued and given under my hand and the Seal of said Court, at office in Hereford, Texas this 13 day of October A. D. 1950.

Attest:

## Jackson-Willier Ceremony Held October 6 At Raton

Announcement has been made here of the recent marriage of Miss Virginia Jackson of Colorado Springs and Corporal Glenn Willier, son of Mr. and Mrs. N. L. Willier of Hereford.

The wedding took place Friday, October 6, in Raton, N. M., and the couple spent the following weekend here with relatives.

For her wedding, Mrs. Willier chose a brown gabardine suit with brown velvet accessories, worn with a pink blouse. Attendees were Mr. and Mrs. Eddie Bales of Colorado Springs.

Mr. Willier attended Hereford schools and has been in the U. S. Army for the past two years. He is stationed for the present at Camp Carson near Colorado Springs, where the couple will make their home.

were opened before the couple cut their double wedding ring cake.

Card games were played throughout the remainder of the evening and pictures were taken of guests and activities.

Those present were Tommy Polasek of Coy City, Texas, Mr. and Mrs. Johnny Kotora of White Deer, Mr. and Mrs. Conrad Urbanczyk and family, Mr. and Mrs. Ed Dzulak and family, Mr. and Mrs. Ted Higgins and son, Mr. and Mrs. Arhart Reinart and daughter and Mr. and Mrs. Leo Ohlig and son.

### Cattle Thrive On Irrigated Pasture

Burch A. West will soon have a 200 cow ranch on his farm northwest of Hereford. That is, if the 155 acres of irrigated pasture he planted this fall produces comparable to his present pasture.

In March of this year, West planted 18 acres of a grass mixture consisting of brome, orchard, perennial rye, and crested wheat grass. He is grazing 24 cows and 19 calves on this pasture. Although he does not know the exact rate of gain of these cattle he says: "They are really doing good."

While talking about the merits of the irrigated pastures Mr. West said: "I don't like to ride the tractor and I have my plowing done for several years on my pasture." He added further: "To show profit I will not have to make as much money as on cultivated crops because my expenses will not be as heavy."

Burch reports that he planted the grass with an ordinary grass drill and found that if he added cracked grain sorghum or wheat at the rate of one part to 4 parts of grass mixture the grass would feed through the drill with very little trouble.

Mr. Mal Stewart, Chairman of the Board of Supervisors of the Tierra Blanca Soil Conservation District, says that when farms are protected with a good grass cover, water and wind erosion are negligible and that grass is desirable in rotation to improve the structure of the soil. He highly approves of the rotation system that Mr. West and many other cooperators with the Conservation District are employing.

### Rotarians Hear Student Report

Hereford's Rotary Club heard Jerry Brisco discuss his impressions of England and the English people, at their Friday noon luncheon meeting. Mr. Brisco is the student selected from this district to spend a year in a foreign country as part of the function of the Rotary Foundation Fellowship Fund.

Each student selected must have already completed his college or university education in the United States. The impression the speech left was fresh and clear without the usual prejudices of politics.

Mr. Brisco defined the British people as he saw them, and he stated that he felt that the relationship between the United States and England was very strong. He said that he felt no matter how rough the going was the British people would hang on.

Guests were introduced and various committees reported on their activities previous to the talk by Mr. Brisco.

### Couple Surprised On Anniversary

Mr. and Mrs. Ben Janacek were surprised by friends October 8 on their tenth wedding anniversary, with a dinner and gifts. Dinner was served and gifts

### At Basic Training Mayes J. Mitchell

Mayes J. Mitchell, 17, son of Mr. and Mrs. R. S. Calhoun, 402-A West Fifth street, is now in his sixth week of basic training at Fort Ord, California.

Recruit Mitchell volunteered in the army August 28. He attended Hereford High school while growing to manhood here.

The soldier believes he will be assigned to Fort Hood upon completion of his basic training, but is not certain.

### CARD OF THANKS

I take this means of thanking everyone for the nice cards and pretty flowers sent me and also the doctors and nurses for their services during my stay in the hospital.

## Manpower Scarce, But

With the armed services expanding, it is vitally important for the nation to consider its use of manpower in connection with the necessary build-up of our fighting strength.

There have been a number of reports of draftees being rejected for various reasons, including lack of sufficient intelligence to become a soldier. Of course, we are aware of no such incident in the local draft area. Several draftees from Deaf Smith County have returned from their preliminary physicals and declared glasses, busted ear drums and missing fingertips were pretty generally acceptable portions of draftee anatomy.

The suggestion has been made, however, that the men who do not pass the military tests, if physically able to work, be put in labor battalions. Such a suggestion could not have been made by any man in the draft age who might be physically unfit for military service. Not many Americans—or human beings for that matter—willingly subscribe themselves to slave labor, even if it would relieve physically-fit soldiers for combat duty.

We believe the work to be done re-

quires as much skill, intelligence and physical stamina as that to be done in the military stratas during the war. Perhaps less courage or psychopathic stability in some cases. But no less physical stamina.

Economists, historians and almost every other authority on the subject will admit that the war was won because of the amount of war-time production in the United States—made possible, please remember, by free Americans working voluntarily, believing in themselves and their nation. The citizens of the Axis walked in the shadow of slavery, did the bidding of a master, nursed the bruised souls that resulted when men were not free. Their production never reached the point necessary for winning the war.

When our nation begins forming battalions of civilian laborers, calling them such, regarding them as the lower element of our society, dictating their every move, then we have gone even farther than did Hitler and Joe Stalin toward the formation of a freedomless nation.

If we cannot win as free men, what reason have we to win at all?

## Ford Fortune

The Ford Foundation, with more than \$2,000,000 at its disposal, plans to center its work on five fields of inquiry: (a) the quest for world peace; (b) the strengthening of democracy; (c) world-wide economic improvement; (d) the expansion of education; and (e) a study of human conduct.

The work of the Foundation can benefit the entire human race if those in charge of its studies will relentlessly pursue the truth, regardless of previously formed opinions and the vested interests of anybody or anything. The truth is an elusive goal. Its discovery is often thwarted by adherence to custom, yielding to prejudice and shrinking from its consequences.

The Foundation owes its life to the fortune amassed by Henry Ford, who, be it clearly understood, made his wealth in a competitive field and without special favors. That a considerable portion of his fortune now goes into the unselfish service of mankind in general is extremely fortunate and demonstrates, once more, the tendency of men of wealth to do something for the world with their resources.

## Swiss Want Tanks

The Swiss, it seems, continue to make plans to defend their territory and to prevent anybody from overrunning or conquering them.

Present plans call for the building or purchasing of 550 medium tanks at a cost of more than \$100,000,000, according to the commander of the Swiss mobile troops. Back of the purchase, we presume, is the Swiss intent to make invasion of their mountains more hazardous to the invader than any prospective benefit.

While the willingness of the Swiss to fight for their country has been noted for centuries, the probability is that the independence of the tiny nation has been due more to its mountainous position. Chasing armies have found it easier to go around them than to attempt to climb over the natural bulwark that makes such operations difficult, if not impossible.

## Force With Force

"Force must be met with force," declares Secretary of the Treasury, John W. Snyder, who does not think that the people of this country have any notion of the size of the defense program that is underway or that "a quick end to the Korean war will have no effect" on the program designed to build up our defenses.

It is high time for all of us to realize the gravity of the menace which faces the free nations and the extent to which we must rearm if we expect to save our freedoms. The existence of an unprincipled dictatorship, controlling a nation of great wealth in people and resources, makes possible a sudden, unprovoked attack.

So long as this condition obtains in the world, it is necessary for free peoples to possess sufficient fighting strength to balance that of would-be aggressors. At the present time, it is admitted that the Red Army could probably overrun Europe and the peace is being maintained, according to the opinion of Mr. Winston Churchill, by the overwhelming preponderance that the United States possesses in atomic bombs.

## Edward Sims Says

By EDWARD H. SIMS, Brand Washington Correspondent

WASHINGTON, D. C.—Of all the political maneuverings in Washington, of late, no doubt the juiciest was the release of a book by Jonathan Daniels, ex-White House aide. The book tore into James F. Byrnes' reputation with a vengeance seldom displayed. It would certainly end national respect and affection for little Jimmy Byrnes if believed by the majority of the people.

Behind the release of the Daniels book lies a story, involving the President. The people of the country are more interested in the President's role than in Daniels'. Before coming to any conclusions, a look at the facts are in order. James F. Byrnes returned from Moscow after that now-famous session with Communist chiefs, and tendered his resignation, almost a year before he actually resigned.

When he did resign, President Truman sent him a letter congratulating him on the service he had done his country. At that time everyone assumed the President was sincere. Nothing happened to change this national opinion until after James Byrnes made a speech in June of 1949. At that time he warned that some of the administration's programs threatened to make the average citizen a galley slave, with an oar, on the great ship of state.

Certainly I don't like that, nor do I like to blame him for resenting the release of the book when Byrnes announced his candidacy for governorship of his native state. Truman made his first public blurt remark about Byrnes—the man he worked for at the 1944 Democratic convention. Byrnes was a free agent and could do as he pleased. This reporter asked for the comment, but was more stunned than most of the others at the White House that day. No such remark had been anticipated, even though the political philosophies of the two men had been separating for some months at the time.

The remark showed President Truman's bitterness toward Byrnes, but nothing much more happened for a while. Byrnes was meanwhile nominated by the Democrats for the governorship of his native state. That meant he was elected. The next episode came late in September, 1950. When the Jonathan Daniels book was published, reporters couldn't wait to get at Truman to see if the remarks attributed to him were authentic. Daniels said Truman charged Byrnes with failure, losing his nerve, running out on him, etc., etc.

Most of the reporters knew Truman didn't feel this way a few short years ago. Most of them thought their chief executive did not feel this way the day Byrnes left Washington and the State Department. Most of them actually thought Truman began to feel this way only after the June, 1949, Byrnes speech. So they asked the President—is the book accurate? Truman said the book spoke for itself. Thus he backed up the savage attack on Byrnes' reputation.

What the American people would like to know is why the sudden attack on Byrnes' accomplishments. There has been much talk that he will be a spokesman for Democrats who are arrayed against the President, but there is little evidence of any such plot. Surely he is too old to consider a presidential nomination, even if he could get it, which he could not. President Truman will probably offer his services, and if not, Byrnes would face the same foes he faced in 1944—organized labor and the Roman Catholic church, to some extent. Certainly he cannot get a Democratic nomination with the hostility of the one and the coolness of strong forces in the other.

So, President Truman must have known Byrnes was finished as a political rival. His only fear was that Byrnes might rally allies round him, in opposition to the administration. If so, did the President deliberately set out to discredit his former Secretary of State? And was the President involved in the campaign to deliberately smear General Eisenhower a year or two ago?

One wonders about these charges, but some are frank to make them. Even a liberal, generally pro-administration paper, like the Washington Post, speculated editorially that Truman has attempted to smear Byrnes. If the President is up to this game, it is certain that many voters will be disappointed.

## The BOOTLEG Philosopher

(EDITOR'S NOTE: The Bootleg Philosopher seems to be disagreeing with the Secretary of Agriculture in his letter this week, but we don't look for any shake-up in the Agriculture Department as a result of it.)

I picked up a copy of a newspaper out here yesterday which one of my cows had been chewing on, you can say what you please but the best newspaper on earth is a mighty poor substitute for salt for a cow and I am to get my cows some the next time I'm in town and can think of it, and I took the balance of the paper home and got on the sunny side of the barn and read where cotton restrictions will be removed next year and the cotton farmer turned loose.

Now I don't like to disagree with the Secretary of Agriculture, I like to get along with everybody, especially the man with the checks, but Secretary of Agriculture Brannan's announcement that cotton controls will be removed next year and farmers can plant all their land in cotton if they want to and haven't got better sense comes too late out here.

My new farm program is already underway, that is I have it mapped out in my mind, and I haven't got time to change it. That is, reduce your cotton acreage was one of the most far-seein' ideas ever to come out of Washington, it suited me so exactly I adapted all my crops to the same program, reduced 'em all, and news that the pro-

Dear Louisa:

I am a young girl sixteen years old and want your advice. I have been going with a boy for about two months. My mother thinks I have just started going with him. She is very strict. He is about 18 or 19 years old and says he loves me very much. But lately he has been going with a girl friend of mine. He

## 'Tater Peelin's

By Roberta Campbell

We quite agree with Jimmy Conkright who thinks last Friday's Cub Pack meetin' was the best one yet.

Most of us have probably felt that we had been doin' our part when we squeezed out the dues and the price of a uniform and took time to attend a meetin' now and then, and of course we are always as proud as punch when these little boys clad in blue and gold step up front to receive their awards and give a snappy salute in return, but we feel a little guilty when we realize just how much time these leaders are puttin into the Cub Scout program in Hereford and how little we really do to help out.

Jimmie Allred's part of the program that night likely sent most of the kids racin' for the kitchen sink with a pop bottle to discover that the only magic they could do was with a mop.

Well, now that our wheat is up to a good stand and cainn' is about over it looks as if we are bound to take time out and visit Rutherford's who look so fancied up in their new location.

We met Mr. and Mrs. Ray Downey at the Good House-keepin' Shop and think that little four way arrangement they gave us is the cleverest-thing-we've seen-in-the-way-of-a-measurin' spoon.

Anybody with a yen for rut huntin' needn't go any farther than our back yard if they want black walnuts to plant.

Course you can eat 'em if you want to but we don't guarantee that you will ever get full as a year or so ago we decided to put some in a fruit cake and after pickin' them out for a half a day we only had a half a cupful and never could taste them in the cake either.

Newton wouldn't have to sit under one of these trees long right now to prove the law of gravity.

## Homer Fox Says: Did You Know..

It happened back in the fall of 1934 and about time for the hunting season to open on Ducks and Geese. The first of the black dusters had already been around (unwelcome) and the Bank Holiday was in force. I think the Gov. was guaranteeing your Dept. up to \$5000.00. We had checked the Bank inside and out, made main street and all the alleys, and decided definitely that it would take just about 500 men including the Bankers themselves to make one \$5000.00 Dept. so that was out. Course there was 3 or 4 guys in town that had that much dough salted away, but it wasn't in the bank; they had it counted, folded, and stored away right over a big fat callous. Business was about as far out in front as a wooden horse would be at the Kentucky Derby.

Some old boy back in Indiana or Illinois was telling us what wonderful feed baled tumble weeds made. Don't try 'em. They are just about as good for starving cows as spinach and swiss chard is for starving humans. May eat a little if they are hungry enough, but both of them will have briars in their bellies in a few days. Those old cows got so weak they couldn't even lift their eye lids.

Anyway, one afternoon after the hunting season had been open just a few days, I went out on the street trying to get a bunch to go Goose hunting the next morning. When I walked back in the Store, I noticed my brother, Doug, had a customer (very unusual) and I also noticed at a glance that he had a pretty fair bunch of mdse on the wrapping counter, and

He tried his best to tell us where it was located. We finally made out like we knew where it was, cause we knew we could find it anyway, and we didn't want to call anyone else in on it, cause that was a secret that was worth keeping, and we want-

## SUNDAY CURRENT QUESTION

### Wide Variety Of Opinions On Civilian Regimentation

Do you believe that in the event of war, draft-age men, physically or mentally unfit for military service, should be placed in labor battalions and worked at the discretion of the Federal government?

Francis Hardwick: Although there should be some controls on labor, if such men were placed in labor battalions we would be going in the opposite direction from the goal toward which we are fighting.

Jim Wood: Yes. Those who must make personal sacrifices by entering the military service and serving in combat should not be required to make more sacrifices than the people back home. The plan for drafting workers would provide utmost utility of our scant manpower.

Mrs. Don T. Martin: I think everybody should help toward the war effort, even if they are not in the army. I don't think they should necessarily be placed in labor battalions, but there should be some sort of system of control.

Mrs. Frances Houston: I do not. I think we are a free nation and I don't believe in such a plan. I think we are capable of working out our problems as a free people without resorting to civilian regimentation.

(Name Lost): Yes. If the men are able to work, I believe they should do everything possible to further the war effort. If the boys stronger than they are willing to fight, I believe all of us should be willing to back them up.

Mrs. George Sumner: Yes, I do. If they are capable of holding a job, but incapable of military service, I believe they should work for the war effort on federal pay. Of course, if they are not able to work, if they are handicapped or crippled, they should not be called on to work.

Mrs. Joe G. Storey: The question would require a certain amount of thought before it could be answered intelligently. Off-hand it seems to me that everyone should do his share if able. If the boys who are qualified are willing to fight, I believe all of us should be willing to do our share. However, if draft-age men, unfit for military service are doing their job well at home, I do not believe they should be regimented. I don't know about signing complete control over to the government. Little by little we are signing away our lives to the government. As long as men are not slacking in their work at home I believe they should be permitted to continue doing it.

gram has been ended is too late out here to do the nation any good.

A thinkin man don't wait until the last minute to figure out his course of action, in a manner of speakin my whole life's work has been pointin in the direction of reduced cultivation, and when the Department of Agriculture finally got around to my way of seein it, I was pleased to have my leadership recognized and reduced my cotton acreage last year as though I was fallin in with a new idea, when as a matter of fact I been limitin my production for so long some of my neighbors have confused my scientific program with what they ignorantly call laziness.

But unrestricted plantin next year leaves me cold. My 1951 farmin program is already set. I aim to hold the line, keep my acreage restricted, and I'm bettin now that if you'll wait and see you'll find that the Secretary of Agriculture, even if it ain't the same one, they come and go like wives in California, comes around to my way of seein things and we'll have acreage control again. Meanwhile, I'll keep on blazin the trail out here. You might stampede me into restin, but you can't stampede me out of it.

traveling and he wants me to travel with him. Tell me what I should do and whether to believe him or not.

Heart-broken, U. S. A.

Answer:  
There are three excellent reasons why you should not marry this boy. The first is that he is undependable. One thing necessary to the happiness of married people is the trust-wor-

thinness of a partner. If you cannot believe anything he says now he is not likely to improve as time goes on. For all you know he may be married all ready and have a wife in some other little town.

The second reason is that you haven't finished your education and are too young. Every girl should finish school and prepare herself to make a living for she never knows what life has in store for her.

The third reason is that you have not known him long enough to judge what kind of husband he will make. Getting married is a serious business and should not be entered into unless you know this man and his people well.

So take my advice and refuse to get serious. Any boy who is urging a sixteen year old to run away and get married is either up to no good or hasn't much practical common sense.  
LOUISA.

Dear Louisa:

I am a widower—my wife having died several years ago. I am very lonesome.

I have a woman neighbor who seems to be a very fine person and who is alone in the world. She is about forty-five years old and I am about sixty.

Do you think there is too much difference in our ages to think of marriage? How should I go about finding out how she thinks about it?

LONESOME.

Answer:

I think it would be a fine thing for you to get a congenial companion to share the rest of your life. The woman you speak of sounds like an ideal match for you.

The difference in ages doesn't matter after a person reaches forty nearly so much as if you were forty and she were twenty-five. Both of you have reached the age where companionship and congeniality means more than romance.

Ask her to go to the movies or to church with you some evening. You can talk to her about how much you miss having a woman in the home and if she is interested I am sure she will let you know it.

LOUISA.

(Continued from Page 2)  
ed to be the first ones to shoot into this bunch of almost tame Geese.

I believe I would know the fellow if I would see him today, but maybe not. Anyway when he got ready to leave, he gave us a check on the Vega Bank for \$42.50 and we had a date with him for Sunday morning.

We just couldn't stand it—talked about it all afternoon and finally decided that something should be done about it. We both couldn't go. It turned out that we better do something the very next morning. So Doug rounded up Dubs' Panman, swore him to secrecy over a plate of ham and eggs early next morning, and they tore out for "Paradise" lake.

I worried all day about what we would do with all of those Geese. I knew when they started shooting into a bunch like that, they would wind up with a lot too many Geese and break the law. Game wardens were having just as hard a time as we were and I knew they would stick the hound out of those boys if they caught them, and I didn't want to divide that \$42.50 sale with no durned warden.

About four that afternoon, I looked out and there was Doug and Dubs. Those two old boys looked bad. You know, they looked like they had gone out to pick cotton and forget their sack, sent for and couldn't go, low as a moles' belly. They came in shaking their heads, said "We have driven miles and miles and miles, and we haven't seen enough water to wet your handkerchief, except at a wind mill. In the first place there is not a lake up there with a house on the hill east of it. In the second place there is not a lake in a hundred miles with water in it, and Dubs added, in the third place I don't think that guy said south of Adrian, I think he said south of the Mason Dixon line, cause it "Aint" out there.

I knew better, though. I knew I would find the place the first time I could get off. For some reason though, I didn't get away in the next week. Then one morning—"WHAM"—the roof fell in. Santa Claus was a fake. Underneath that red coat the rascal was wearing a

"skunks" hide. That \$42.50 check came back marked, "no account." We had lost our mdsse, we lost our Goose hunt, we lost our man and now we had lost our \$42.50 and we had already spent it. Doug says, "Call the Sheriff." I said, "The Sheriff can't help us and the way I feel right now, the Sheriff sure won't do that guy any good if I see him." We mortgaged the fam-

ily Heirlooms (whatever that is) scraped the bottom of several barrels and finally got that \$42.50 paid off.

I lost Faith in about everything for some time, but that old boy gave us something to remember him by, and we won't forget being a "sucker." He was about the most clever liar I ever knew and his story was beautiful. I still love it.

**Uncle Horace filled his house with horses**

He figured to run his house by horse power instead of electric power. No more electric bills for him!

So he hitched Dobbin to the washing machine, and old Nell to the refrigerator. Bought another nag for the vacuum cleaner and more for the other jobs.

Poor Horace! All he got was a hate for horseflesh and a hatful of debts.

But a great love for his electric bills!

And why not? Electric power is about the handiest, quickest, easiest way to get work done. And about the

cheapest . . . what else can you buy that does so much, yet costs so little? (An average family in a day uses electric power equal to the work of 5 or 6 horses—and buys it for a few pennies!)

That's good business for anybody who has housework—or almost any kind of work—to get done. Business-managed electric companies like ours have made it that way. By pioneering electric service. By showing people how useful it is. By finding ways to make it the best bargain in a family's budget.

## Good Recipe Now; Fine For Holiday Repasts

Here is a fall-favorite recipe of Mrs. Maurice Tannahill's collection. It is good now but is really wonderful with the Thanksgiving turkey or baked chicken or ham. Her family tests it over and over again and when they have a choice in salads it's tomato cheese salad every time.

Men like this salad as an accompaniment for meat dishes and Mrs. Tannahill likes it because it blends in with so many other foods. She obtained the recipe from a sister-in-law in Lockney about ten years ago, and

ingredients and pour in mold and chill until firm.

When ready to serve, remove from mold, place on a lettuce leaf and top with French dressing.

For party fare, garnish individual servings with salted almonds or pecans.

West Texas State's point-happy Buffaloes spent a rugged day in drills today as they prepared for Saturday night's conference tilt with unpredictable New Mexico University in Amarillo Stadium.

Following a long skull-session, the Thundering Herd took to the drill fields and worked on their defensive and offensive patterns which is hoped will wreck the Lobo threat to the Buff Border Conference title hopes. At present the Herd has racked up four wins for the season in as many starts with three of them being over circuit members.

## Scots Guild Members Visit Hereford On Mexico Trip

"Oh, but Hereford was a surprise," declared Agnes. "But a most pleasant surprise," added Agnes. And they meant it, every word.

Two women, each born in Scotland, each with the given name of 'Agnes', and each filled to overflowing with admiration for the work of Rev. Fr. Colman Gallacher, S. A., now stationed with St. Anthony's parish, have been guests in Hotel Jim Hill this week. The ladies are Mrs. Agnes Furlie of Detroit, Mich., and Miss Agnes Kelly of Brooklyn, N. Y.

The two ladies met, travelled as companions, and later became close friends as a result of the first Transatlantic Pilgrimage from the United States and Canada to Dunfermline, Scotland, in 1948. Since that time they have exchanged visits and this year decided to take their vacation together, stopping over in Hereford for a few days en route to Mexico City, which is their ultimate goal.

It was also during the pilgrimage that the two ladies came to know better and admire Fr. Colman Gallacher, who was a prominent figure in planning and conducting the pilgrimage which took them to Saint Margaret's

tomb at Dunfermline. St. Margaret of Scotland Guild, Inc., was, in fact, founded by Fr. Colman in 1938, since which time it has grown in scope to more than 11,000 members.

"Stopping in Hereford was part of our vacation plan," the two ladies said. "We wanted to see Fr. Colman, and we wanted to see Hereford. Perhaps you do not realize it, but 11,000 people back east are talking about Hereford every day and every week," they continued. "This is because the Guild members so admire the work of Fr. Colman."

The Guild came into existence as a means of banding Scotch-Irish Catholic immigrants and their friends into an organization so that its members would contribute to American life under sound spiritual auspices, the ladies pointed out.

"One of our aims in making this trip is to carry a report to our fellow Guild members," said

Miss Kelly, who is employed by an insurance company. "I will report to my Guild in New York and Mrs. Furlie to her Guild in Detroit."

"You people hardly realize the ability of Fr. Colman," said Miss Kelly. "He is a wonderful organizer, a splendid worker with young people, and one of the country's finest speakers. We are glad to lend him to you," she added, "but 11,000 hearts are bleeding in the East for his return."

The ladies praised Hereford for its modern hotel, and especially for the fine churches—even

greater, however, was their praise for the crisp, October weather.

"We were disappointed, of course," said Mrs. Furlie, "at finding no cowboys. In fact, we have yet to even see a horse," she added. "We understand now, to be sure, but all of the things you read about this country indicate horses. All of the Texans you see back East wear big hats, too."

Fr. Colman, who appeared on the scene at about this time, said that he was making arrangements for the ladies to visit a ranch and that he planned

to show them some real cowboys.

(continued from page 1)

"I Love Life" by Manacca—this was the highest rating given. The boys' quartet was composed of John Estes, Richard Ireland, Larry Trimble, and Donald Henslee.

In 1941-1942, these were only one change made in the boys' quartet—Harold replaced Donald Henslee, who was graduated in the spring of 1941.

Miss McMinn was out of school during the next two years because of illness, during which time Miss Mary Helen King taught music. The girls' sextette of 1945-1946 was composed of: Bettye Katheryne Hodges, Ludie Virginia Turck, Anne Morgan, Mary Katherine Edwards, Doris Hooker, and Ramona Gunstenson. Later in the year, Doris Hooker was replaced by Wilma Roberson. It was during this year that the sextette began to become popular with the civic organizations, and frequently appeared before the Lion's club, Rotary club, B. P. W. club, Teachers' meetings, men's fellowship classes and even revival services of the various churches. With the addition of Louise Young and Diane Jowell, a girls' octette was formed and this group likewise appeared many times, chief of which was at the Northwest Teachers' Conference in Amarillo, in March, 1946. The girls' sextette rendered the music for the Annual Chamber of Commerce Banquet on March 7, 1946, an appearance each sextette has always counted high honor.

The girls' sextette of 1943-1947 was the same as of the previous year with the exception of Wilma Roberson, who was replaced by Louise Young, Barbara Burney and Patsy Slagle were added to the sextette to make up the girls' octette.

**Christmas Cantata**  
The school year of 1947-1948 was remembered by the glee club and its friends as the presentation of the Christmas Cantata-Pageant entitled "Memories of the Holy Night" which was written, compiled, and directed by Miss McMinn; this pageant was her thesis for her Master's degree which she received in 1948 from West Texas State College, and was acclaimed as "an outstanding piece of valuable work excellently done" by the graduate council. During this year there were three small ensemble groups which were much in demand during the entire year. They were:

the girls' octette, composed of Bettye Katheryne Hodges, Mary Helen McGilvary, Mary Kathryn Carroll, Patsy Slagle, Jacqueline Newell, Diane Jowell, Patsy Longbottom and Alma Faye Knox; the boys' sextet, composed of: Bob Hamilton, L. T. Hawks, Eugene Roberson, Reuben Knox, Danny McLallen, Don Davison, and Jackie Luck; and the senior mixed octet, composed of: Bettye Katheryne Hodges, Mary Helen McGilvary, Patsy Slagle, Jacqueline Newell, Diane Jowell, Reuben Knox, and Eugene Roberson.

At the beginning of the school 1948-1949, the a cappella choir was organized for its first time in the history of the Hereford High School with 36 members selected from the glee club of 110 members. A junior high school chorus was also organized, Miss McMinn directing all of the musical organizations. Highlight of the year's work was the Easter cantata given jointly by the high school chorus, junior high chorus, and the a cappella choir in the high school auditorium, the a cappella choir forming a cross in the center of the improvised platform of 9 elevations. The girls' sextette was composed first of: Reba Dones, Betty Shockley, Mary Kathryn Carroll, Doris Jean Smith, Patsy Longbottom, and Alma Faye Knox. Later in the year, Jeanie Holman replaced Betty Shockley who moved to Oregon, and later in the spring Martha Thomas replaced Jeannie Holman. The boys' sextet consisted of: Don Davidson, Jackie Luck, Danny McLallen, Bob Hamilton, Eugene Roberson, and L. T. Hawks; they proved as successful and popular, if not more so, than the girls'.

**Chorus 100 Voices**  
The school year of 1949-1950 proved to be the most successful in the eyes of the singers and the town. At Christmas, the junior high chorus of 75 voices, the high school chorus of 100 voices, and the a cappella choir rendered a combined Christmas Cantata in The First Christian Church. The a cappella choir furnished the Easter music for the sunrise program at the new Drive-in theatre at 6:15 A. M., and also rendered a sacred program in the First Methodist Church in Canyon on Sunday evening. So popular was this program that three other out-of-town churches made requests for the same program. Both the junior high and the senior high groups climaxed the year's work by giving an operetta during National Music Week. Girls mak-

ing up the sextette this year were: Reba Dones, Colline Brown, Patsy Wiltshire, Shirley Sharp, Audrey Hood, and Alma Faye Knox. Colline Brown replaced Jeannie Holman and Shirley Sharp replaced Myrtle Smith during the year. Besides singing before every civic organization in town and for some of them many times, the mixed choruses have presented assembly programs in surrounding schools, and the a cappella choir (although recently organized) has rendered sacred concerts for church worship.

Each year the choruses gave either a Christmas or an Easter Cantata (some years both) as well as cooperating with the local churches by rendering the services for joint Thanksgiving services and revival meetings. Climaxing this year's work, both the junior high school and senior high school choruses presented outstanding operettas as their contribution to National Music Week. On Tuesday evening the Junior High Chorus, organized last year, presented "Aunt Drusilla's Garden". It was the first stage appearance for many of the participants yet not one time was there any "prompting" done. On Friday night the Senior High School Chorus presented the operetta, "The Sunbonnet Girl"; this was the second time that this operetta had been presented in Hereford, before in 1936. Miss McMinn stated however that this was a far better rendition. The highest compliment that could be said of this performance though is that many townspeople requested that it be presented a second evening with an increase in the price of the tickets and for the performers to express their strong desires to present it again, saying that they didn't want it to be over.

For the past two years the glee club has sponsored the school radio programs over station KPAN and members of the club agreed that these programs aided them in many ways.

Miss McMinn attributes a great part of the success of the choral groups to the parents of the students and people of Hereford who gave unstintingly of their time and interest in any endeavor. "At all times in any way," she explained, "I could count on their co-operation and able assistance." "Then, of course, there was the type of the personnel of the groups."

Last fall she decided not to teach this year, but she will never quit teaching. It is her

The Adrian Methodist Women's Society for Christian Service met Tuesday afternoon in Fellowship Hall for the second session of the approved study, "Near East Panorama" in which the religions of the Near East were viewed.

This proved to be a very interesting lesson since the four monotheistic faiths originated in the countries under discussion.

TWELVE SECONDS TO GO. LUCILLE'S STILL HAVING HARD LUCK. SHE SCOOTs 47 YARDS TO A TOUCH-DOWN ONLY TO HAVE THE PLAY CALLED BACK FOR OFFSIDE.

SIX SECONDS TO GO!.. SWISH! LUCILLE'S ON HER WAY TO ANOTHER TOUCHDOWN WHEN HER WEARY LEGS COLLAPSE.

ONE SECOND TO GO! LUCILLE DROPS THE BALL! SHE TRIES TO PICK IT UP, ACCIDENTALLY KICKS IT INSTEAD...

AND THE GAME IS OVER:

WOW! WHAT A GAME, FOLKS! YIPPAHOOPY WINS, 9 TO 7, THANKS TO THE SPECTACULAR FIELD GOAL OF THEIR BRILLIANT GIRL FULLBACK.

# JOHNNY HAZARD by FRANK ROBBIN

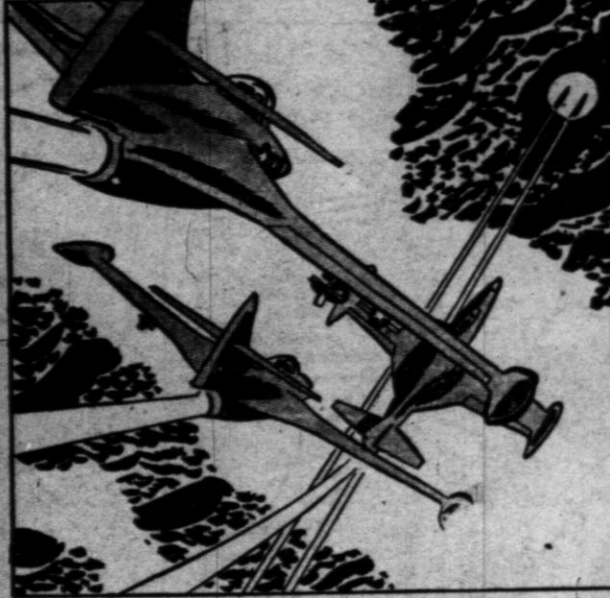

AS JOHNNY, FLAME AND PETEY ESCAPE IN THE DISC FROM AUNT TIZZIE'S JUNK... THE NAVY JETS START A ROCKET FIRING RUN ON THE VEGGEL AND...

P-PHEW, THAT W-WAS CLOGE!

L-LEAST WE GOT AWAY CLEAR!

HEY! SEE THAT?! THE BLASTED JUNK MANAGED TO LAUNCH A DISC! LET'S GET IT!

PETEY! THOSE ARE ROCKET TRACKS! THE JETS ARE FIRING ON US!

G-GOSH! BETTER PUT ON THE POWER AND PULL OUT OF RANGE!

AFTER LOSING THE JETS, WITH A FURIOUS BURST OF SPEED, PETEY CRUISES THE DISC FOR A COUPLE OF HOURS TILL...

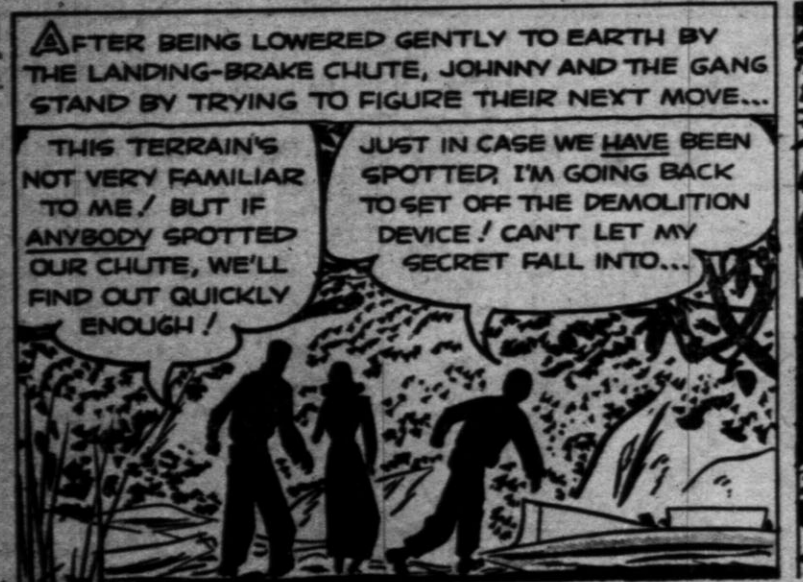

HEY, LOOK WHAT WE'VE GOT... ONE OF AUNT TIZZIE'S ILL-GOTTEN GAINS! AT LEAST WHEN WE LAND, WE'LL BE WELL-HEELED!

THAT'S FINE! 'CAUSE WE DO HAVE TO LAND... RIGHT NOW! WE'RE OUT OF FUEL!

L-LAND?! D-DO YOU K-KNOW W-WHERE WE ARE?

NOPE! BUT THAT NEVER STOPPED THE PULL OF GRAVITY... HERE WE GO!

AFTER BEING LOWERED GENTLY TO EARTH BY THE LANDING-BRAKE CHUTE, JOHNNY AND THE GANG STAND BY TRYING TO FIGURE THEIR NEXT MOVE...

THIS TERRAIN'S NOT VERY FAMILIAR TO ME! BUT IF ANYBODY SPOTTED OUR CHUTE, WE'LL FIND OUT QUICKLY ENOUGH!

JUST IN CASE WE HAVE BEEN SPOTTED, I'M GOING BACK TO GET OFF THE DEMOLITION DEVICE! CAN'T LET MY SECRET FALL INTO...

PETEY! LOOK OUT...
