COMMISSIONERS ORDER ELECTION ON PROPOSED COUNTY ROAD TAX

CLEAN TOWN WORKERS FIX SCORE RATE

Committee Heading Drive for City Beautification Meets Canyon Group In Business Session.

To co-ordinate clean-up work in the city beautification contest between Hereford and Canyon a group of committeemen from here met Tuesday afternoon with Canyon committeemen at Canyon. Ways and means for conducting the contest and a basis upon which to score were most important of many matters discussed.

Hereford's group included Mrs. J. P. Slaton, Miss Gladys Hicks, T. E. Seigler, Rev. J. T. Ross and Elbert W. Smith. Meeting with them in the club room of the Randall county court house were Meses. J. S. Humphreys, Dan T. Saunders, John Fry and G. W. Sternberg; and Clyde W. Warwick and J. C. Thompson.

Determine Scoring. Division of the contest into five main groups as a basis for scoring was determined upon by the committee, after which a sub-committee drew up a schedule of points to be used by the judges in making their decisions.

Main contest divisions are Business District, Residence District, Public Buildings, Cemetery and Tourist Camps. In the scoring each group will count 100 points, these units to be apportioned as follows:

Business District.	
1. Paving and walks	15
2. Provisions for traffic regulations	5
3. Fire regulations	5
4. Water and sewer service	10
5. Garbage disposal	10
6. Light and heat	5
7. General appearance and improvements	30
8. Vacant lots	15
Residence District.	
1. Amount of sidewalks	10
2. Street paving and crossing	10
3. Shade trees	10
4. Size and appearance of lawns	10
5. Shrubs and flowers	10
6. Cleanliness of back yards and alleys	20
7. General appearance and upkeep of residences	15
8. Vacant lots	15
Public Buildings.	
1. General appearance and upkeep	35
2. Size and appearance of premises	15
3. Shrubs and flowers	15
4. Cleanliness of premises	20
5. Trees	15
Cemetery.	
1. Size and location	40
2. Landscape and planting	20
3. Arrangement for upkeep	20
Tourist Camps.	
1. Location	10
2. Provisions for sanitation	40
3. General appearance	40
4. Management	10

The group voted Tuesday to terminate the contest September 14 and 15. On those days, disinterested judges who have had some experience in this sort of work will go over the two towns scoring them on the above basis.

LODGES IN SERVICE

Odd Fellow and Rebekah Organizations Plan Yearly Memorial Observance at West Park Cemetery Next Sunday Afternoon.

Annual memorial services by the local Odd Fellows and Rebekahs will be held next Sunday afternoon at the cemetery, beginning at 4:00 o'clock. All members of the two orders are being asked to assemble at the hall at 3:00 p. m. It is especially urged that flowers be brought to the hall for use at the cemetery.

Graves of all departed members will be decorated and an appropriate ceremony is being planned by the officers and committees of the two lodges. The general public is invited to attend.

PLAN SALE

Advance Information Indicates Fine Outlook for Annual Sale of Registered Herefords Here.

Advance information that the annual combination Hereford breeders sale for 1929 will surpass any similar event ever held here was furnished this week by the announcement that already 115 purebred registered Hereford have been chosen for consignment to the sale to be held February 6 and 7, 1929.

The cattle have been consigned from ten outstanding breeders of this section and are tops from each herd. They are mainly of the famed Anxiety Fourth strain of pedigreed stock.

This year the greatest crowd ever seen here for an auction sale attended the combination sale. The event is awaited with interest by breeders over the entire Southwest. Hereford retains its place as leading breeding place in this country for fine Hereford cattle.

Nobles Players Here for Game With City Nine

Third opportunity to see the Hereford Whiteface baseball team in action will be furnished local fans when Nobles Brothers Grocery Company of Amarillo sends their team here for a game next Sunday, June 17.

Hereford is developing a fast, hard-hitting team which promises to give an excellent account of itself before the season's end. According to Captain Ralph Smith, support of Hereford fans is urged and the admission price of games has been cut to twenty-five cents per person.

Nobles Brothers' players are among the best in Amarillo and are now at the head of the city league there. They have played and defeated the Santa Fe team which played here last Sunday. Probable line-up next Sunday will include Young, Royal, Poyer, Jess Russell, Captain Smith, Murphy, Carroll, Robinson and Arlis, Poyell.

Judges will be named by the president and secretary of the chamber of commerce of the two cities. They will be asked to submit a written report which will be published after the contest.

FULL TIME MAN ASKED AT MEETING

Commerce Body Urges Directors to Procure Services of Paid Secretary for Organization.

Authorizing the board of directors to secure the services of a full-time, paid secretary was the chief matter up for discussion before the Hereford Chamber of Commerce at the regular luncheon meeting of that group at the Hereford Hotel. After a series of short talks by members, it was voted unanimously to hire such an official.

In talking over a municipal bond tax for the support of a city band, the organization voted to circulate immediately a petition calling for a special election to vote the necessary small tax.

G. A. F. Parker reported on the highway meeting held at Fort Sumner last Thursday. Mr. Parker and E. B. Black were sole delegates from this city.

A movement to appropriate fifty dollars to have signs and markers for the benefit of passing aviators was tabled and sent to the board of directors for later action.

More than forty members were present at the meeting Monday. Vice-president J. T. Cronin presided. Next meeting will be held at the Hereford Hotel Monday noon, June 18.

Airway Marker Arrangements In Advisement

L. Baskin and W. D. Kelleher, acting as a committee from the Chamber of Commerce, have arranged with the Panhandle Lumber Company for the privilege of placing two large air markers on their long southeast shed. The word "Hereford" will be painted in six by eight feet letters on both the east and west roof of this building.

A landing field located between the old electric light plant and the new Marland wholesale station, taking in the old ball park, has been tentatively selected by this committee. If this location is approved and satisfactory arrangements can be made with the owners of the land, consisting of nearly eighty acres, it will be properly marked and lighted at once.

The plan is to use kalcath in making raised letters on the ground, the word "Hereford" to be spelled out in letters twenty feet high. This location will enable planes to land near the business district.

Road Company Present Plays All Next Week

Direct from successful showings in Roswell and Clovis, the Merry Madcaps stock company of thirty artists, including band and orchestra, come to Hereford Monday night, June 18, to remain an entire week. Their appearance here is under auspices of the Hereford fire department.

Feature opening play Monday night in the laughable rural comedy success "Figs." This attraction enjoyed extended runs in New York and San Francisco, and at present the Merry Madcaps company have exclusive road rights.

Admission to each performance is 10c and 20c. Ladies will be admitted free when accompanied by one paid adult admission on the opening night, it was announced. This is the second year this company has played Hereford.

ARCHITECT CHOSEN

Methodists Select Amarillo Firm to Handle Construction of New Parsonage and Church Improvement Program Beginning Soon.

A. C. Towns of Amarillo was the architect named to have charge of the building and improvement plan now under way at the Methodist church. He was selected by the board of stewards who made a trip to Amarillo for that purpose Tuesday. Those making the trip were Rev. E. B. Bowen, L. W. Carlyle, D. F. Ashbrook and E. B. Black.

Plans and specifications are being drawn and will be presented by the architect here Friday. Estimates have been asked for the construction of a new parsonage, completion of the basement of the church, interior improvements on the building itself and installation of a new \$4,500 pipe organ.

A committee of ladies of the church who have charge of installing the organ made a trip to Amarillo today to compare different makes of church organs in use there. Making this trip were Meses. E. B. Black, Jesse Stanford, H. H. Hawkins and Rev. and Mrs. E. B. Bowen.

Clovis Drops Close Games To Hereford

An interesting inter-city golf match was fought out on the local course Sunday afternoon when ten golfers from Clovis invaded the links made famous by Dow Mercer. The visitors were beaten, six matches to four. The Clovis men are a fine set of clean sportsmen, playing hard, clean, sociable golf. As usual, the Friona members of the Hereford club gave a good account of themselves. Rogers and Lange won their matches, while Wilkinson had an off day and was trimmed.

Two weeks from now, June 20, Hereford will send a team to Clovis in a return match.

The scores Sunday: Rosten, Friona, beat Williams, Clovis, 7 up; A. A. Foster, Hereford, defeated Boone, Clovis, 8 up; Lange, Friona, won from Hill, Clovis, 4 up; Rice, Hereford, won from Pierce, Clovis, 4 up; Homer Fox, Hereford, defeated Awall, Clovis, 3 up; Doug Fox, Hereford, nosed out Howard, Clovis, 1 up; Pittman, Hereford, lost to Beard, Clovis, 5 up; Clark, Hereford, lost to Lindley, Clovis, 3 up; Stonehill, Clovis, defeated Marrs, Hereford, 2-up, and Monroe, Clovis, won from Wilkinson, Friona, 7 up.

Two of the visitors, Beard and Monroe, showed the low score of the day with an eighty each. Marrs was low man for Hereford with an 82.

The two club presidents, Volks of Clovis and Rosson of Hereford, engaged in a little unofficial tilt of their own. The result was not divulged.

These inter-club matches are doing a lot for golf in this section, to keep the public interested in educating the game and in promoting harmony, understanding and sociability among the cities of the Plains country. Several more matches with different teams are planned for the remainder of the summer.

Parmer Commissioners Divide Black District

Division of the Black school district into two parts was determined upon at the meeting of the Parmer county board of education last Saturday at Farwell. The northern half of the old district will be known as Black District No. 1, and the south half has been designated as Parmer County District No. 7.

Chief reason for division urged by petitioners who brought about the measure was that the former district covered too much territory for those living in the extreme southern end. It was originally eighteen miles from end to end. Funds and other school property will be divided equally between the new divisions.

Mr. and Mrs. O. A. Olson were Amarillo visitors Tuesday.

NEW SEWER PIPE LINE UNDER WAY

Water Line for Use In Cleaning Disposal Plant Now Under Construction. Completed Soon.

Vast improvement in Hereford's sewerage disposal plant system is seen by the city commissioners who have ordered construction of a 2,200 foot pipe line from the city pumping station to the septic disposal tank near the Tierra Blanco creek.

The contract calls for a two-inch pipe to be laid the entire distance. Men have already completed digging the necessary ditch and are awaiting arrival of the pipe. Work is under the direction of Howard and Farmer, paying contractors with the Jordan Construction Company.

Purpose of the new line is to provide water for cleaning and flushing the septic tank at regular intervals. Other sewer improvements includes several tons of new crushed rock for use in the purifying tank.

Already excellent, Hereford's sewer and water facilities will rank after these additions with those of any city this size in the Plains, it is believed.

Official Says Pickwick Plans Large Station

Plans for the erection of a \$125,000 bus station in Amarillo were announced this week by Charles Hill, district traffic manager of the Pickwick Stages Company. Arrangements have been completed to make this the finest structure of its kind in this section of the Southwest.

Located at the corner of Fourth and Fillmore streets, the building will be two stories in height, 150x70 feet. It will face on Fillmore Street.

At present the Pickwick Company operates about 1,000 buses and their lines extend across the country from Portland, Oregon, to Los Angeles, thence all the way to Chicago, Cleveland, New York and Boston.

Crowds See Human Fly Scale Court House Wall

Necks craned and mouths gaped here yesterday when Mrs. Henry Henry, 28-year-old, famed human fly, ascended the walls of the four-story Deaf Smith county court house here Friday night.

Besides his climb, Roland performed several balancing feats atop the structure.

PANHANDLE BANKERS ATTEND SESSION

Handfuls of bankers throughout West Texas attended this week the twenty-fourth annual session of the Panhandle Bankers Association, held at Memphis. Great attendance of any previous session was reported. H. B. Fritz of the First State Bank here was the sole Hereford banker present.

MASONS PICK HEADS

Wes Bradley Named Worshipful Master of Hereford Order. Installation of Officers Scheduled for Second Meeting Next Month.

Wes Bradley will head Hereford Masons as Worshipful Master for the ensuing year. It was voted Monday night at the election of officers held by Hereford lodge No. 849, A. F. and A. M. Other officers chosen were C. L. Roberts, senior warden; L. A. Ray, junior warden; J. W. Holley, tyler; J. S. Jones, secretary, and H. B. Webb, treasurer.

These officers will be installed the second Monday night in July. Worshipful Master Sank Ramey said today. According to Ramey, an especially attractive coming event will be the appearance here June 26 of Wilbur Keith and Mr. Quinn of Dallas, who will deliver illustrated lectures on Masonry.

TALK ROADS

Highway Session In New Mexico Draws Enthusiastic Response from Many Counties.

E. B. Black and G. A. F. Parker were Hereford's only delegates at the Texas-New Mexico highway meeting held last Thursday at Ft. Sumner, New Mexico. Purpose of the gathering was the discussion of a paved highway from Amarillo to Holbrook, Arizona, which might be used as a branch of Federal Highway 96.

Enthusiasm over the proposed route was high. Mr. Parker reported. More definite result was a promise by Parmer county delegates that their county will pave as soon as possible.

Hereford Auctioneer Conducts Dimmitt Sale

A big town-site lot sale is being planned at Dimmitt, some where around July 1, when the railroad to that little city is finally completed, according to Colonel Ray Barber, who is handling the project. Something like 250 lots will be offered at public auction, and interest is already keen. Dimmitt, county seat of Castro county, feels that the entry of her first railroad is an event without parallel in her history, and the enterprising people there are planning a nonster celebration for the occasion. Prospects are that Dimmitt will experience a boom in business with the advent of the railroad, and the promoters of this lot sale feel that it will be a great drawing card as well as a rare opportunity for purchasers to obtain an acre of ground.

Spratt Produce Store Installs Cream Station

Ranks of Hereford cream buyers were augmented this week when I. H. "Jack" Spratt, proprietor of the Hereford Produce, announced that he has added a cream station to his store.

Agent Asked For Aid With Safety Plans

Newspapers throughout the country have been asked to co-operate in a nation-wide movement to lessen the number of accidents at railroad crossings.

In a message to J. E. Beyer, Hereford agent, Safety Superintendent Hale of Topeka, urged the importance of this movement. "We are spending time, energy and money in our effort to protect people from themselves and feel, frankly, that serious-minded, right-thinking people should lend a hand with the project," Hale said.

At 233,158 railroad-highway crossings in the United States in 1927, there were 5,640 accidents with 2,371 persons killed and 6,613 injured. Automobiles were involved in eighty-nine per cent of these accidents, and more than 1,100 instances occurred of automobiles colliding with sides of trains.

REV. PIERCE SPEAKS

Rev. W. M. Pierce, presiding elder of the Amarillo Methodist district will occupy the pulpit of Rev. E. B. Bowen at the Methodist church here Sunday night. It was stated this morning. He will later reside at the quarterly conference to be held at the end of the evening service.

COURT SETS ROAD POLL NEXT MONTH

Commissioners Order An Election On New Fifteen Cent Tax Measure for Some Time In July.

Deaf Smith county voters will decide the fate of a proposed 15c county road tax next month, it was announced this week following a regular meeting of the commissioners court. Commissioners acted following a petition signed by more than 300 qualified taxpayers urging such an election.

If voted, the new measure will provide for an additional tax of fifteen cents on the \$100 valuation on property in this county. All revenue thus received, it is understood, will be used to construct and maintain highways in this county.

According to County Judge Earl W. Wilson, a ballot box will be placed at every voting precinct in the county.

Little other business of importance was transacted at the court session. An appropriation was made to paint and renovate the county jail and premises.

Four Brothers Appear Soon In Big Concert

Hereford concertgoers are expected to turn out en masse Friday night to hear the Prokofoff Brothers, Russian string quartet, who will appear in concert at the First Christian church here. Advance information indicates that the crowd will be large.

According to Rev. Thurman Morgan; these men have been enthusiastically received at every appearance. They are stopping here en route to Los Angeles where they will represent Russia at the International religious conference this month.

All four of the brothers are freshmen at Phillips University, Enid, Oklahoma. They are making their way through school by the music. Songs and concert numbers are all done in native costume. Appearances are financed by a free will offering at the end of each concert.

IT IS NECESSARY TO GET YOUR MAIL BOXES NOW

Did you know that the delivery of mail within the corporate limits of Hereford is scheduled to start July 1?

And did you know that before this progressive step is taken it is necessary for all the patrons of the post office to provide a receptacle, or mail box, or slots in their front doors in order to insure this service?

Postmaster Wear MUST notify the department at once that such action has been taken. The Chamber of Commerce office is handling the details for the postmaster. Mail boxes may be obtained for a small sum, and MUST be put up at once if the service is to begin July 1.

Call the Chamber of Commerce at No. 358, get the details of how and where to secure the boxes, and put your name in the pot, so that delivery of mail on July 1 will be certain.

The Chamber of Commerce committee on this matter consists of S. P. Rosson, A. H. Stree and George Stambaugh. They are anxious to help in any possible way.

DON'T DELAY THIS IMPORTANT MATTER, AS THERE IS NO TIME TO LOSE—DO IT NOW!

FOR NEW COUNTY ROADS.

In response to a petition signed by more than 400 citizens of Hereford and this county, the commissioners' court, in regular session Monday, called a special election here for an indefinite date next month. Purpose of the election is to vote on a proposed fifteen cent additional county road tax.

Like every worthy public movement, this tax has its opponents. This time the number is fortunately small. They constitute, however, a minority with which voters and those supporting the movement must reckon.

They fall, these opponents, into two classes. Of the first class—those who oppose every improvement measure per se, simply because it means a change—the less said the better. It is the second group, or those who fail to see the advantages of such a tax, which must be taken into consideration. Lack of sufficient information may be said to be their chief motive for opposing the measure.

If voted, the new tax will mean increased funds with which to build and maintain roads in this county. Scarcely a week passes, commissioners say, that there is not a demand to open a new road. This costs money. It costs far more than the present tax will justify.

Every penny of the funds procured by the new tax will remain in Deaf Smith county to benefit every resident. Who does not know, of at least one road or bit of highway which he would like to see improved? Such improvements can be made only when sufficient funds are available.

More important, perhaps, is the trade and market advantage of the new revenue measure. As has already been pointed out, unless the people of Hereford and vicinity provide suitable inlets and outlets over good highways into this city and county, trade which should and would come here will go elsewhere. The strongest trade argument out-of-towners will find is a good system of well-graded highways. It is up to this county to provide such highways and up to the people to vote the county sufficient funds properly to do it.

PASTURE POOL PROGRESSES.

Every second Sunday, Hereford golfers compete with those of neighboring cities in a tournament match. So far this season Hereford has won two, lost one of these series of matches. Had they lost all of them, however, they would have gained something far better than any possible golf trophy.

By the very nature of the game, golf fosters a spirit of sportsmanship found in few other sports. Exhibitions of temper, poor losing and similar unsportsmanlike qualities have no place in golf.

In playing this series of inter-city matches, the golfers of Hereford are to be congratulated. They foster a better spirit of friendliness between competing towns; make better individual sportsmen; and, finally, lay a firm foundation for the growth of what is coming to be recognized as one of the best all-round games known in the world of sport today.

WELL, A DEMOCRAT WINS.

Journalistic hats throughout Texas are off this week to the editor of the Memphis Democrat, weekly paper adjudged best in the entire state. Each year the best all-round weekly newspaper is selected and the winner presented a trophy by the Dallas News and Dallas Journal.

The old-time country newspaper is gradually passing. Standards and ethics of the profession are being elevated to a point where the best and nothing else is in constant demand.

Any newspaper in any state which earns the title of "Best" is deserving of praise. To the Democrat staff, from publisher to the boys in the back room who, after all, do run the paper, we offer our heartiest congratulations. Next year we're going out to beat 'em.

Texas & Texans

By WILL H. MAYES

Beautiful Highways.

The Federal highway act has been amended to provide that hereafter specifications for Federal aid projects may include planting and maintenance of shade trees. The policy has heretofore been to provide only for the roadbed and construction operations. While many years will be required to beautify public highways as they should be, this amendment will stimulate state and local authorities to take greater interest in road beautification.

A number of Texas roads that penetrate forests are much admired by all motorists but in many cases the road builders apparently have had no regard whatever for beautification and have destroyed ruthlessly many beautiful shade trees and damaged others beyond measure.

Much can be done by local authorities to save the trees along highways and to encourage the planting of trees where none are already growing. In a few places the local women's clubs have taken up the work of local highway beautification.

Pictured Roadways.

If something isn't done to keep the Sunday papers and the magazines from printing such enticing pictures of Texas roadways, Texas lakes and rivers, Texas camping places, Texas mountains and hills, Texas seaside resorts, Texas flowers—Isn't it a shame that a fellow has to stay at home and work a day longer when the Texas outdoors is calling so loudly and

there is so much to be seen and enjoyed.

Speed Manias.

A Houston druggist boasts in the papers that he has defiantly violated the speed laws of Texas by making a trip of 819 miles from Houston to El Paso in 17 hours and 30 minutes, with a running speed average of 47 miles an hour, climbing from sea level to 5,010 feet above, running over desert and mountain roads and fording rivers along the route and ignoring all speed laws and traffic rights. Such speed manias, even if they are testing out certain possibilities, should be fined in every justice's precinct through which they pass. Here is some work for vigilant officers.

Road Accommodations.

The Marfa Sentinel states a condition that exists yet in a number of places in Texas, though these have been wonderful improvements in accommodations for travelers in the last few years in most Texas towns. That paper says it knows people who have been forced to pass through Marfa without stopping because they could find no place to spend the night in that town. Marfa is ideally located to get a large tourist business but tourists are not going to stop where they are not wanted, if they hear of a neighboring town where they will be more comfortable.

Texas Tourist Camps.

While Marfa and some other places may be backward in providing for tourists, Texas stands first in the entire United States in number and beauty of auto tourist camps, according to the secretary of the Texas Camp and Park Owners Association who is in a position to know.

He names a number of the large city camps that are among the best equipped in the whole country, and says that there are many others just about as good. Texas has 350 tourist camp now, with

about 50 more under construction and being hurried for the summer trade.

Polo Interest Increases.

A glance at the papers shows the interest in polo is increasing in Texas. Especially is this true in the western part of the state where the climatic conditions are so favorable to the development of the strong lungs necessary for the best polo ponies. The increased interest in polo is in keeping with the growing interest in good horses. A while back statements were freely made that the auto was putting the horse out of business but as long as people like the outdoors and outdoor pastimes the horse will be popular and in demand.

Graduates Wear Cotton.

To show their interest in the cotton industry graduates of the Carthage high school were dressed in cotton when they appeared on the platform to receive their diplomas and they looked as well as any class that has graduated in Texas this year. Only one objection can be urged to their clothing—it was not made in a Carthage cotton factory.

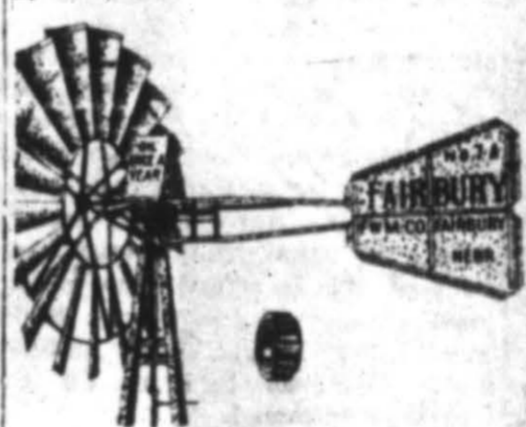

Cotton-Wrapped Cotton.

A Shreveport manufacturer has made the suggestion that spinners pay half a cent a pound more for cotton wrapped in cotton bagging than for that pale in jute, and gives the figures to show that spinner could pay the \$2.50 a bale and be 80 cents ahead on every bale. The figures are based on a tare of 21 pounds of jute bagging and ties. If the tare is greater than 21 pounds as it is on cotton shipped to Liverpool, the savings to the Liverpool spinner would be \$2.69 a bale.

Air Passenger Service.

There is now a regular air passenger service from Dallas to San Antonio, and from Dallas to Houston and Galveston. The planes stop at Fort Worth, Waco and Austin to unload and receive passengers. The transportation charges are high enough to correspond with the height of the service and the initial business has not been large. It was found necessary to reduce

NEWS FROM DIMMITT, CASTRO COUNTY

FOR QUICK JOB SERVICE SEE THE BRAND

A special meeting of the Chamber of Commerce was called Wednesday night to discuss plans for the big railroad celebration to be held in July and it was decided to join the other towns to help make the celebration at Sterile, 16 miles east of Plainview a big success. A committee was appointed to secure a special train for Dimmitt to make the trip in.

"Big Bill" Passes On

William ("Big Bill") Haywood, former "uncrowned king of the I. W. W." in the United States, died in his self-imposed exile at Moscow in his sixty-sixth year. Haywood had been a fugitive from American justice since 1921, when he came to Russia to escape serving sentence for obstructing the war.

Mrs. Jay Hastings left for Lubbock Monday to attend Texas Tech in order to finish her work necessary to get her degree. Mr. and Mrs. J. H. Flannagin and son Bob returned Tuesday from a two weeks trip to Hot Springs, New Mexico, having made the trip for the benefit of Mrs. Flannagin's health. They report a great trip with quite an improvement for Mrs. Flannagin.

A number of Dimmitt citizens motored to Bethel Sunday and enjoyed a good sermon at the 11 o'clock hour, "Love" being the theme used by Bro. Strong, who had been assisting Bro. Naugle, Dimmitt pastor, in a revival meeting the past week. A bountiful dinner was served at the noon hour.

Mrs. Clem Maples who has been in the Plainview sanitarium the past two weeks recovering from an operation, returned home Wednesday.

The many friends of Mrs. Ross Newton, formerly Miss Watts, one of the teachers in the Dimmitt school last term, will be glad to know that she is able to be up again after an operation at the Plainview sanitarium last week.

Dimmitt was visited by a good rain Saturday night of last week, also a light shower Sunday afternoon, with some hail.

Boon Kilgore and wife who have been on an extended visit to Southern Texas, returned home last week.

The Methodist Missionary Society met Tuesday afternoon at the home of Mrs. E. B. Wright for their regular monthly social. All the other societies in town were invited and a very enjoyable afternoon was spent.

Members of the society were led in rhyme how they had earned a dollar the past month. A great amount of "poetic ability" was discovered among the members. Delicious refreshments were served to about fifty ladies.

The Ladies Union Aid is going to have an all day meeting at the home economics room at the school building Thursday, June 14. The object of this meeting is to sew for the orphans at the Amarillo Orphan's home. Everybody is urged to come and help in this work.

"As much as ye have done it unto the least of one of these, ye have done it unto me."

Dimmitt is still growing and new dwellings and a large brick building are under construction at the present.

Mr. and Mrs. W. G. Baxter, Mrs. Elva Baxter Carson and little daughter are having the house for an extended pleasure trip. A number of friends of interest will be visiting them, among them the Yellowstone Park.

Mr. and Mrs. Carlos Reynolds and children, Mrs. S. J. Crawford returned Tuesday from a two weeks visit with relatives and friends at Brownwood and other points. They report a nice trip.

Mr. Dean, a lawyer from Clarendon, and wife were here this week hunting a location.

Rev. Naugle, Methodist pastor, and wife and Mrs. Dempsey attended the workers meeting held at Floydada Wednesday and Thursday of last week.

The Ladies Aid met Thursday afternoon with Mrs. W. A. Wright. A very interesting lesson was studied, the subject being "Christ Before Pilate." Several good thoughts were brought out, the main one being the personal question for each of us, "What shall I do with Christ?" During the social hour music on violin and piano was rendered by Mrs. Hunter and Mrs. Carson, which was greatly enjoyed by all.

Delicious refreshments of cake and ice cream were served to fifteen ladies.

Easter Items

The young people of this community spent an enjoyable evening in the Geo. Chubbless home last Friday. After several hours of old-time games refreshments were served to about thirty-five guests.

Woodburn in Hereford.

The marriage of Miss Nelle Bruton of this community and Robt. C. Morgan of Portales, N. M., was solemnized at the home of the bride's parents Saturday morning at 8:30 o'clock, with Rev. J. F. Nix of the First Baptist church of Cloris, in charge of the ceremony. Only immediate relatives of the bride were in attendance. Miss Bruton was a student in W. T. S. T. C. the past year and the two years before she taught in the Summerfield school. The groom is a young business man of Portales. The young couple left immediately for Portales where they will make their home. In a few days they will go to the White Mountains for several weeks outing.

Another wedding of much interest to people here was that of Miss Helen Storey, daughter of Mr. and Mrs. Duke Storey and granddaughter of Mr. and Mrs. C. H. Churchhill of the Rance community, and Andrew Behrends, a young farmer, also of Rance. Miss Storey and Mr. Behrends were married at the home of the bride's parents Thursday evening at 8:00 o'clock. Only immediate relatives and friends of the bride and groom were in attendance. Guests from a distance were Mrs. Robt. Rowan and daughter, Canyon, and Mrs. Jim Florey and daughters of Amarillo. Mr. and Mrs. Behrends will make their home in the Rance community.

Measuring Flour for Cakes. In baking cakes it makes a difference whether flour is measured before or after sifting. So always examine recipes carefully, noting directions in this respect. Newer recipes invariably specify the use of prepared cake flour sifted once before measuring, then sifted as many additional times as the recipe directs. This makes lighter, fluffier cakes.

THE SUNDAY SCHOOL LESSON

Subject: The Crucifixion.
 Scripture Text: Mark 15:10-17, emphasizing verses 22-26, 33-39.
 Scripture Side-lights: Luke 23:32-43; John 19:23-31; Mark 15:47-49; Romans 5:1-11; Isaiah 53:7-12.
 Golden Text: "God commendeth his love towards us, in that, while we were yet sinners, Christ died for us."—Romans 5:8.

We arrive in this lesson at the story of sin's most desperate effort to thwart the purposes of God for human redemption. That effort finds itself more than matched in the divine effort to make divine love show itself mightier than sin. Well might we understand that Paul could gather from the fact of the cross the genius of the conflict with evil which he expresses in Romans, 12th chapter, when he says, "Be not overcome of evil, but overcome evil with good."

We cannot fail to be impressed with the manner in which Christ conducts himself in the presence of the great tragedy of the Cross, that tragedy, indeed, in which he is the chief victim. We can permit ourselves to be overcome in our tragedies, or we can show ourselves possessed of the mastery in the presence of tragedy.

It was the conduct of Christ on this occasion which turned the shafts of wickedness into the bosoms of the perpetrators of that wickedness. The cross was not the victory of wickedness—it was the victory of Jesus. And, the events which developed from that experience show us that this is true.

Golgotha.
 How grimly significant the picture is of what was happening! The grim contours of that hill, which being interpreted is, the place of a skull, is filled with suggestions of the situation. The skull is and has been for a long time, the emblem of whatever produces death. The death head of Golgotha holds out the suggestion of those deadly poisons in human experience, chief of which is sin, which means death. Sin is the chief poison. It is certain death.

There, on Golgotha, the place of a skull, sin pierced the flesh of the Son of God. But on Golgotha, Christ bruised the serpent's head, and the bruising of the serpent's head is the most effectual means of its destruction. Golgotha becomes forevermore the symbol of the death stroke to sin, for it was there, that sin lost its power to hurt.

He Drank the Cup.
 When he thirsted and suffered men offered their anesthetic to him. He refused the cup of anesthetic mixed from wine and myrrh. He asked no relief of men from the suffering which divine will had decreed for him. The cup which could not pass from him as he prayed in Gethsemane, he chose to drink. The cup of men offered in alleviation of his suffering he refused to drink.

"He tasted death." He drank of his bitter cup for every man. He asked no exemption from the bitterest pangs of death which man

must suffer. Man crucified; Christ accepted crucifixion. What man had not sought to exempt him from for righteousness sake, man could not exempt him from for pity's sake. He drank his cup as the victim of man's sin, and as the Lamb slain of God for man's redemption from sin.

The Gamblers Were There.
 The leaders of the people had trafficked with principles; Judas had trafficked with the life of his Lord; Pilate had trafficked with justice, yielding to the dictates of expedience. Now comes the rear guard of the traffickers. They gambled over his garments. Up above, the cross and the crucified Saviour, purchasing the salvation of man; beneath that cross, the lowest strata of those who traffic away his garments and gamble away their own salvation.

The Superscription.
 The clamoring multitude had taken upon themselves and their children the responsibility for the blood of Jesus. In three languages, Pilate wrote their accusation over the cross, "The King of the Jews." The Hebrew language, told the sad story of a people who rejected their hope; the Latin told the judicial world of what the Jews contended in their poor sense of justice. The Greek, then universal language of the world, published the fact to the world that the uncrowned king of the Jews had suffered death at the behest of the Jews.

No protest of the priests could cover their shame. What Pilate had written, he refused to erase. Having accepted the consequences of his death, the Jews had to accept the custom of Romans in writing the crime above the head of the crucified. Their accusations when heralded to the world seemed not so clever as when banded about in the judgement hall. Nevertheless, the superscription remained. A mere hearsay of the Jews, refuted by the testimony of Jesus that his kingdom was not of this world, justly throw the responsibility back on the Jews.

No one had been found who could be convicted of complicity with Jesus in the crime of insurrection. There could have been no insurrection without complicity of others. The fact that the Jews tried to put into the mouth of Jesus a profession of kingship over them, could get nowhere. They charged. Nothing could connote the crime of crucifixion but the superscription.

Left Alone.
 Man led him to his sufferings. God left him for a season to his sufferings. His outcry of forsakenness, men interpreted as a cry for help. Such it was not. It was the publication to his people of the fact of the divine sacrifice now offered and the outcry of his soul at the withdrawal of that loved fellowship which had been his joy and solace, the object of those trysts of the mountain top, when he had left the multitudes behind to be alone with God. It was the greatest moment of suffering and the last, for God received back his Son, from whose sufferings he had turned away his face for the moment.

A Testimony and a Confession.
 Three hours of earthly darkness, three hours in which the Son of God was descending the dark valleys of death, came to a close with the expiration on the cross.

Within the temple got made with hands the divine sacrifice made by the hands of the Great High Priest who offered not the body and blood of goats and heifers, but his own body and blood and spirit—within the high sanctuary of God the sacrifice for sin was finished.

The shadowing sacrifices of earthly priests availed no more. The veil of the temple which had been the entrance of man into the holy of holies, that sacred place of earthly sacrifice, kept forever from the sacrifice of human gaze, should no longer be the place of the atonement for sins. It had been superseded by the sacrifice of the Lamb of God, now slain in the experience of man, but slain in the experience of God from the foundation of the world.

The divine had had offered its sacrifice; the veil of the temple was rent in twain as the symbol of a completed sacrifice and a transfer of the sacred altar to a temple not made with hands. No more could an earthly priest make offerings for sin; no longer was it necessary. The old priesthood had passed and the priesthood of believers had taken its place, with Christ as the Great High Priest.

A centurion stood by the cross. The veil of the Jewish temple was rent in twain; the sanctuary of God for all mankind was now opened to all. The Centurion approached that sanctuary now made available for all. At that sanctuary, the Cross of Calvary, a moment ago the scene of a Roman execution, now the altar of the divine sacrifice, the Centurion stood transfixed for a moment, then confessed, "Truly this man was the Son of God." The temple of the Jews had passed; the temple of humanity had been reared in its stead.

The above described surveys being out of Capitol Leagues Nos. 348, 349, 350, 351, 352, 353 and 361, and aggregating a total of 23,145.35 acres of land more or less; and

WHEREAS, an order of sale has issued out of said suit directing me to sell the above described property as under execution; and WHEREAS, on the 2nd day of June, 1928, at 10:10 o'clock a. m., I did levy on said above described real estate as directed in order of sale, as the property of J. A. Oden, and notice is hereby given that on the first Tuesday in July, 1928, same being the 3rd day of July, 1928, between the hours of ten o'clock A. M. and four o'clock P. M., on said day, I will offer for sale and sell at public auction for cash the above described real estate at the court house door of Oldham County, Texas, in the City of Vega, Texas, after having given notice of such sale in the manner required by law.

WITNESS MY HAND at Vega, Texas, this 2nd day of June, 1928.

Social and Society

Early Morning Marriage for Popular Couple

Pleasantly surprising to Hereford friends was the early morning ceremony Sunday in which Miss Audrey Carroll, daughter of Mr. and Mrs. W. A. Carroll, was married to Herman Galbraith, well known Hereford young man. The ceremony was performed by Rev. J. T. Ross at the home of the bride. Mr. and Mrs. Chas. Carroll were the only attendants.

Attractive, popular, Miss Carroll's marriage was of wide social interest here. She has lived here the greater part of her life and is a graduate of the local schools. For the last three years she has been manager of the local telephone exchange.

Mr. Galbraith has been in Hereford from time to time for the past five years. While here he is employed as barber at the Beene & Shaw shop. He is a brother of Charles Galbraith and Mrs. Luke Ramsey of this city. During his absence from the shop his place will be filled by his brother Charles, just returned from his graduation exercises at Trinity University, Waxahatchie.

Mr. and Mrs. Galbraith left overland immediately after the

ceremony for a trip to California. They will be away about three weeks. They plan to visit in Oregon, then return via Colorado to make their home here.

Friends of Bride-Elect Attend Pretty Shower

Dozens of friends and relatives attended a beautiful shower Friday afternoon in honor of Miss Dyalthis Stovall, charming bride-elect, given by Miss Frances Gulm at her home on Lee Avenue.

After a short program of musical numbers and readings, a veritable shower of useful and beautiful gifts were presented the honoree, following which a delightful refreshment course of brick ice cream and angel food cake were served.

A pink and white color scheme was carried out in decorations and refreshments. Favors were tiny Cupid place cards.

Bradly-Stovall Ceremony Gains Social Interest

Most beautiful of recent home weddings was that solemnized Sunday morning, June 10, uniting Miss Dyalthis Stovall, daughter of Mr. and Mrs. W. M. Stovall, to Egbert Bradly, son of Mrs. L. R. Bradly. The ceremony was performed at 7:30 a. m. by the Rev. E. B. Bowen.

The only attendants were Miss Wanda Wilkinson, girlhood friend of the bride, and Roger Corbett, a close friend of the groom. Miss Desse M. Steele played the wedding march.

The bride was beautifully gowned in a travelling frock of blue georgette with accessories to match.

Both of these young people are among the most popular members of Hereford's younger set. Both were reared in this city and graduated from the Hereford high school. Mr. Bradly is a prominent young cattleman, dealing in registered Hereford cattle.

After the ceremony Mr. and Mrs. Bradly left overland for an

unnamed Western destination, on a honeymoon of two weeks. On their return they will be at home on the Bradly ranch northeast of town, in the new home just completed.

Mrs. Mercer Entertains Honoring City Visitor

Mrs. Dow Mercer entertained, informally, with three tables of bridge on Saturday afternoon, honoring Mrs. Paul Barnett, a charming visitor from Wichita Falls.

At the conclusion of the games a delicious salad course was served by the hostesses.

Beautiful Country Place Scene of Club Session

The beautiful country home of Mrs. G. W. Ward was the scene of the regular meeting of the Young Matrons Missionary Society held Tuesday afternoon, June 12. Twelve members were present. Taken from the Scriptures according to Luke and John, the lesson was led by Mrs. Dowell, assisted by Miss Jennings, Henslee, Embanks, Gilliam and Sutton. A business meeting closed the club work.

After the club report meeting proper, members entertained with a delightful basket dinner, to which husbands and families had been invited. This was in honor of the birthday of Mrs. Homer Henslee. The remainder of the evening was spent in various games.

Those present were Mr. and Mrs. Carl Gilliam, Mr. and Mrs. Dowell, Rev. and Mrs. E. B. Bowen, Mr. and Mrs. E. C. Embanks and daughter, Mr. and Mrs. Frank Richards, Mr. and Mrs. Ralph Sutton and daughter, Mr. and Mrs. W. J. Smith and family, Mr. and Mrs. Lomas and son, Mr. and Mrs. Dixon and daughter, Mr. and Mrs. Douglas and family, Mr. and Mrs. Henslee and family, Mr. and Mrs. Carl Jennings and family, Mr. and Mrs. Ward and Mr. and Mrs. Ward's daughter and husband.

KENTUCKY VISITORS HERE.

Mrs. J. D. Lyle, Mrs. L. C. Woodford, Mr. and Mrs. V. L. Heatt, Lyle Woodford and L. W. Heatt, all of Winchester, Kentucky, arrived Sunday for a visit with relatives here. Mrs. Lyle is mother and Mrs. Woodford and Mrs. Heatt are sisters of the Mrs. J. H. Patton, H. G. Conkright and C. T. Guseman.

HOSPITAL NOTES.

Miss Virgil Brumley is recuperating rapidly from an operation for appendicitis last Friday.

Kelth Guthrie was removed to his home Sunday.

Both Mrs. S. F. Warren, of Friona, and her baby, born last Thursday, are doing nicely.

Miss Della McKenzie is doing as well as could be expected.

Jealous Lions Attack Trainer.

SYRACUSE.—Seven veteran lions of Spark's circus became jealous when a new lion was brought into the act. They started fighting and John Gullfoyle, trainer, in trying to rescue the new lion, was bitten and clawed severely and is in a serious condition.

Harriet Gullfoyle, leopard trainer, was the first to enter the cage to help her husband, who is expected to recover. There were over 1,000 spectators, and a panic was narrowly avoided.

Shoots Bird, Then Himself.

SAN ANTONIO.—Edward Perrenot, 12, committed suicide by hanging himself in the doorway of his home. A note left by the boy said simply: "I killed myself on account of shooting a redbird."

Some Game!

BERKELEY, Cal.—The University of California and Stanford have been playing a game of chess since 1925. The game is likely to last ten years.

Seven players at the University of California started the game in 1925. Only one member of the original team still attends the University. Each day at noon the California team decides on a move and mails it to Stanford. Stanford mails its move to Berkeley. And the same game still goes on!

Iron Bar Bent On Head.

CHICAGO.—Police were told of three men who attacked a fourth, bending an iron bar over his head. "The guy got up and walked off," a spectator told them.

Doesn't Like Reducing.

BAYONNE, N. J.—Leo Feuer, local "fat boy," who weighs 276 pounds, disappeared from the old Presbyterian hospital because he did not like the diet which had

reduced his weight ten pounds. When he was found after several days his father had him arrested on a technical charge of disorderly conduct. Later he was bailed out.

Steals Locomotive.

ATLANTA, Ga.—Artist Henry, negro, ran off with a locomotive! He took an A. B. and C. locomotive, under steam in the railroad yards and drove it from a side track into a string of box cars. There is now a legal quibble on as to whether he should be indicted for theft or for malicious mischief, as there seems to be no way of telling whether he intended to divert the engine for his own use or not. He will undergo a sanity test.

He was a dorky on trial for making whiskey.

What's your name? asked the judge.

THIS WEEK

By ARTHUR BRISBANE

NOGUCHI BRAVE MAN.
LAND OF OPPORTUNITY.
THE AUTOMATIC MACHINE.
SHE WEIGHED 240 POUNDS.

The death of Dr. Noguchi, a courageous Japanese scientist, is a great loss to the world.

Backed by the Rockefeller Institute, Noguchi was a leader in the war against disease, and poverty and misery born of disease.

Yellow fever killed him at last, as he sought for more knowledge in the African yellow fever regions.

Some bronze bandit on horseback should give his high place to Noguchi, whose memory really deserves honor.

America is the land of opportunities and Milwaukee is one of the best American cities. All over America are opportunities visible to the majority when it is too

late to seize them. What everybody knows is not so valuable.

For instance, consider the baby carriage business that C. J. Smith managed in Milwaukee up to 1887. Fifty thousand dollars would have bought it. A. O. Smith inherited it and made bicycle parts.

In 1904 the A. O. Smith Corporation was formed and L. R. Smith, grandson of C. J., took charge. His father put \$85,000 and others put \$97,000 more into the corporation.

L. R. Smith did new things, making frames for automobiles, keeping up with the times and ahead of them.

Time passed and in 1921 J. E. Ullrich advised this writer and other friends, "buy stock in the A. O. Smith Corporation." A very able man, with new ideas is running it, he told us.

The stock sold for \$13 a share a little later it sold for \$25 a share, and five shares were given for one.

The baby carriage business that you could have bought in 1887 for \$50,000, or in 1923 for \$1,300,000, now sells on the Stock Exchange at \$40,000,000.

The ablest American manufacturers could learn about mass production and labor saving in L. R. Smith's plant.

One of his mills, making 35,000 automobile frames a week for Chevrolet, using marvelous automatic machinery, does with 200 men work that requires 2,000 men in other plants.

One automatic machine, changing steel sheets into steel frames, is 350 feet long. In one place machinery and thirty-four men handle 14,000 side bars and 30,000 crossbars and drive 1,000,000 rivets per day.

Machines do the work, men look on. From the floor below, heavy steel rivets are blown up through thin pipes by air power, placed in the frames and fixed there, no hand touching anything.

There you see solved the problem raised by inadequate immigration.

You wonder the marvelously efficient long lasting automobiles can be sold at present prices, but remember for one item, that painting an automobile frame, baking it so that it comes out with a beautiful coat of brilliant black enamel, costs for human labor alone one and a half cents, and the labor is highly paid, if any pay can be called high for labor producing such results.

Mr. Smith's Institution, revolutionizing important branches of American industry, is one of the

many such plants throughout the nation. Our manufacturers, using their brains, relying on new methods, not on low wages, can undersell Europe and Asia. The thinking brain and the automatic machine are the real wealth producers.

Weight has its advantages. Falstaff to the contrary notwithstanding. Mrs. Myra Huddleston, of Mattoon, Ill., has broken the world record for long swimming. She swam fifty hours, beating any other woman's record by an entire day, and beating the best masculine record by four hours.

Mrs. Huddleston weighed 240 pounds when she started, 20 pounds less when she finished. Skinny girls and women, you need not weigh 240 pounds, but you should be ashamed to cut down your vitality for the sake of an ugly, bony figure.

Hints for the Home

'Tis the month of gifts and surprises—gifts for the bride and the graduate, the Bon Voyage gift; remembrances for vacation and week end trips.

And now in most households the question of what shall the gift be is so all important that the question of how shall it go will be forgotten until the last moment.

Remembering previous scrambles for pretty wrappings, let us be prepared this time with a supply of accessories that help the simplest gift to make a good impression.

There should be on hand a few sheets of fancy paper, a bolt of ribbon or perhaps monogram seals in silver or gold. And above all things there should be suitable greeting cards, for the daintiness and apt message of a well chosen greeting card give a personal touch that the visiting card is powerless to convey.

Spanish Corn Pudding.

A delicious recipe that can be made in a hurry from provisions on the emergency shelf.

Use a can 2½ cups green corn; ½ chopped green pepper, 2 tablespoons chopped pimiento, 1 tablespoon chopped onions, 1 teaspoon salt, 2 eggs, beaten and ½ cup sweetened condensed milk. Blend thoroughly, pour into buttered baking dish and bake in moderate oven 25 minutes.

THE TIGER TRAIL

by Edison Marshall

CHAPTER II.
I heard the conductor shout behind me. I turned from her, even as her eyes were upon me. It was my station; and I did not stop to realize the screaming folly of leaving the train.

Men who have thrown away the wrong card in the biggest poker hand of their lives might have some inkling of the way I felt. For three minutes I stood fuming, watching the vanishing end of the train. It swept out of sight.

"Is this Dr. Long?" spoke a voice behind me.

The voice was deferential; yet it had neither the tone nor rhythm of our Florida colored men. I think that I expected to turn and see a white servant—one of those gray-haired English butlers of an old and incomparable school. I was a low voice with a rather peculiar purring quality. And so I was surprised to see the dusky face that looked into mine. It wasn't black, yet quite dark enough to be that of a mulatto. But in a glance I knew that the man had no African blood whatever.

The shape of his features was distinctly Aryan. He had a very straight, finely chiseled nose and rather high cheek bones. He wore the snow-white turban of a Mussulman. But most of all I noticed his eyes. They were the eyes of a mistic, very black and as soundly deep. They gave no key to his thoughts, but suggested the somber mysticism of the East. Of course he was one of Southley's servants, and a native of Hindustan.

"Yes, I'm Long," I told him.

"I come from Southley Downs sahib—and the car is waiting," he went on in his strange, purring voice. The great black eyes fascinated me.

He took my bag and led the way to the car. I am not usually particularly observant of casual acquaintances; but I found myself studying the dark, straight form in front of me. There was a quality in his carriage that was particularly absorbing. I couldn't quite grasp what it was, I rather think it was the somewhat stealthy way with which he placed his feet, a simultaneous and grace that one might expect of a dancer. I couldn't hear his footfall on the gravel; I felt

to conjecturing what a successful hunter he would be in the Western mountains. It usually takes years of practice to learn to stalk. He seemed to know how intuitively. The man walked just like a cat. He placed his feet the same way.

"The other must have missed the train," he told me in his correct but hesitant English, as he helped me into Southley's great touring car.

Southley himself met me on the great veranda. The shadows were heavy there and his face just a white blur. But when we went into the lighted hall I saw that the months had changed him. The sight of his fine old face in the soft candle-light was, I think, the first real shock of my stay at Southley Downs.

He greeted me with the finest hospitality. He couldn't live in a Southern manner house and do any other thing. It's in the air and the atmosphere, as all men know who have visited the South. It is tradition, too. The voice itself was rather wavering and shrill rather more aged than I remembered it. Then he turned to the impassive Oriental behind him.

"Ahmad Das," he asked, "didn't Joe come?"

I didn't hear the answer for I turned to shake hands with a tall, straight youth that was Southley's son. He was about twenty-one, evidently an undergraduate at college.

"My son, Ernest," the old man told me. He tried to straighten up. "Already taller than his father."

We walked into the great drawing room and there two other men arose to greet us.

"Mr. Hayward," my host explained. "And another Mr. Hayward, his son."

It was wholly possible that his voice changed slightly when he introduced these two. But, of course, it was to be expected. An instant before he had just introduced his son, evidently the joy and pride of his life. But now it seemed to me that the voice had an alien tone—a strain and a nervousness that was not readily explained. I bowed over the older man's hand.

He was a huge creature—six feet tall and more than a little obese, and perhaps sixty-five years of age. He was closely shaven and his

white hair was clipped close. He had rather peculiar, piercing gray eyes, a firm mouth and he had the look of overflowing opulence. As I shook his hand a bell jingled in the hall. For an instant the Hindu's face showed in the doorway and Southley went to meet him. They talked together an instant and the old man was beside me again by the time I had turned to the younger Hayward.

He was a man possibly my own age. He also was in the newest of dinner garb. He had a rather large, dark face—perhaps a trifle severe and forbidding. There was a dull light that might have been ambition and might have been a thousand other things in his eyes.

"I've heard Southley speak of you," the younger man told me. "I am Vilas Hayward. It may help you to keep us straight to know my given name."

"I think that is Joe now."

Then we all stood up. The whole world faded—the glittering table, the watchful faces of the men, the dark body of the Hindu servant—and left only the slender form at the threshold of the door.

"She's been on a visit to the shore and she was carried past her station—like the little stupid that she is," I heard Southley saying from far away. "I had to send for her in the car. Josephine, come up and meet my friend, Doctor Long, Long, my daughter, Miss Southley."

The girl at the doorway was the same girl I had carried in my arms that afternoon, and she had not yet removed the intriguing little hat from the fine, brown hair.

"I hope you don't mind candle-light," Southley apologized during the excellent meal. "We have a private lighting plant but it's seriously out of order. We're sending for new parts."

"I prefer candles, and I'd have

em if I had enough servant to keep them trimmed," I replied. "It's the most restful light on earth."

Then the elder Hayward grunted in his place.

"I fall all over the house with 'em," he said. "I like bright lights, and lots of 'em. And the worst of it is the plant broke three days after I came. Spite work, I think."

I looked at him, expecting to find him in jest. There are men that joke like that sometimes. But his face gave no sign. And I was to learn before the night was done that such remarks were quite to be expected from the elder Hayward.

A long, tremulous call suddenly shivered out of the darkness—seemingly just below the veranda. It was a plaintive, haunting cry, but except to a naturalist not worth a moment's thought. I had been enough in the wilderness to recognize it as the cry of a certain large species of owl—a night hunter that is often found in our Florida marshes. Those on the veranda with me must have heard the same sound dozens of times. But four of them started in their chairs and one of the four uttered a half-smothered gasp of dismay.

GOOD TEAMWORK SEEN AS HEREFORD BEATS SANTA FE IN FAST CONTEST SUNDAY

Johnny Royal Allows Only Two Hits In Entire Nine Innings and Strikes Out Eight. Hereford Errors Few and Runs Well Scattered Over One-Sided Contest. Work Indicates Good Showing In Future.

Playing their first game under their new manager, Ralph Smith, the Hereford baseball team last Sunday put on a "heads up" exhibition, full of fight, pep and enthusiasm, and decisively defeated the strong Santa Fe team from Amarillo, 5 to 1. John Royal hurled a beautiful game, allowing only two hits, both two baggers, the visitors being held without the semblance of a hit for five innings. In addition, he struck out eight and allowed only one walk.

But a feature of the game was the tight support rendered Royal by all eight of his mates. A slight let-down in the ninth, when two errors allowed Amarillo a score, was all that prevented a shutout. Every man was hustling throughout and all were smacking the ball hard. George Murphy at third sparked with his fielding, while Ardis Russell in right pulled down a couple of mean ones in big-league fashion. In the sixth Cook and Johnson collided while chasing a fly-ball and both were floored, but neither was hurt. Rain threatened during the contest but held off for nearly an hour after the finish.

This was Hereford's third game and first victory of the season. They showed marked improvement Sunday, a spirit that will win in most cases, and are planning big things for the remainder of the summer. Next Sunday afternoon at 3:30 o'clock they will take on another strong member of the Amarillo City League, the Nobles Bros. Grocery outfit. The boys are determined to annex this game also.

Manager Ralph Smith announces that hereafter the admission price to these games will be only 25c to all, with kids admitted free. It is believed that this price will attract more support, and if the patronage is strong enough to break even on the expense the team members will be tickled and well repaid for their work.

Things You Should Know

About Your
HEALTH

Jno. Jos. Gaines, M. D.

LIGHT AND HEAT.

In these bright spring and summer days, few people stop to think what wonderful values are for us in the warmth and light of the sunrays. Science has it that, possibly Radium makes up a part of the sun's luminous body. Were it not for this great solar dynamo, humanity would fade from the earth, like flowers cut from their stems. The value of heat and light is unquestioned.

Various "rays" have been isolated, resulting from an analysis of light in nature. The ultra-violet, an element of sunlight, is concentrated in apparatus used by the specialist. Perhaps the "infra-red" is the most valuable of the re-produced heat rays, and it is within reach of the ordinary family. A red-hot iron liberates infra-red rays—valuable in treating all deep inflammatory conditions.

Light heat is more beneficial in most conditions than dark heat, such as hot packs, poultices and hot water bags. Light and heat together set the microscopic particles of tissue into rapid vibration; this serves to "scatter" violently congested areas which may be painful to the point of agony. The infra-red ray is in my office, used almost daily—and with satisfactory results.

Then—there is a difference in dry heat, as in lamp treatments—and in moist heat, as in hot wet packs applied to the body. Light reaches deeper, and with more lasting effects. There is very little even temporary relief in hot wet packs. But all these methods are worth study, by the family. They afford a means of relief outside of the realm of drugs.

Flowers for Poor Soil.

If you are confronted with poor soil in the place you wish to grow flowers you will have to select those varieties that will succeed in spite of the soil they find themselves in. At one time I had a spot in a garden I was building that was nothing but an ash pile covered with an inch of soil on top. I did not wish to take the time to replace the soil so I planted Nasturtiums and they grew and bloomed to perfection. If you plant Nasturtiums in rich soil they will all go to foliage and be a total loss.

I will mention just a few annuals that may be depended upon to give you bloom in most any soil that may be worked at all. They are all of the easiest culture and may be seeded right where you want them to bloom and with a little care to see that they get water enough they will bloom very nicely. Here is the list: Portulaca, Verbena, Ice Plant, Sweet Alyssum, Cockscomb, Kochia, Nasturtium and Bachelor Buttons.

If your soil is poor the thing to do is to make it better. Most any soil may be improved by adding plenty of leaf mould or com-

post, and if neither of these is available you may add a liberal supply of pulverized peat moss. Too, you will find that constant cultivation will help your soil. If you are able to obtain some well-rotten barnyard manure it will help the soil wonderfully.

so that you would hardly know it. This may be done with green manuring. Have it plowed early in the spring and plant it with cow peas or soy beans, when these are fifteen to eighteen inches high plow them under and plant another crop. Do this constantly for two whole seasons—and you will hardly know the soil. You can improve your soil if you really want to.

MILTON SILLS HAS GREAT 3-IN-1 ROLE IN "THE HAWK'S NEST"

Milton Sills, without resorting to a dual role, enacts two distinct characterizations in his First National starring production, "The Hawk's Nest" which will open at the Star Monday and Tuesday, June 18-19.

It sounds impossible. But in this underworld drama, Sills is first a disfigured World War veteran who owns and runs a night club in Chinatown and then, thru plastic surgery, is restored to his former appearance and undergoes a like change in personality.

Doris Kenyon plays opposite the star while the well selected supporting cast includes Montagu Love, Sojin, George Kotsouros, Frances Hamilton and Yola d'Avril. Benjamin Christensen directed.

Enjoy golden hours of restful, refreshing sleep. Each summer night may be calm, peaceful, undisturbed. Everyone may have them. Just by using FLY-TOX. Spraying the sleeping rooms. Hen Team Makes Record.
MODESTO, Cal.—A team of ten white leghorn hens on a poultry farm near here has been doing very well indeed. The team is believed to have established a world record for egg production during a contest taking thirty days. The Modesto hens laid 271 eggs or an average of 27.1 eggs in 30 days for each hen. One bird laid thirty eggs making an individual record.

Developers of This Territory Perfect Plans

The movement to secure immigration of competent farmers into the Panhandle-Plains section of Texas took fresh impetus Tuesday when the committee on ways and means of the Panhandle Development Association, acting under instructions from the association, met in Amarillo, reorganized under the name of Panhandle-Plains of Texas, Inc., elected officers, authorized the employment of an exhibit manager, authorized securing space at 18 fairs in Kansas, Nebraska and Iowa, and approved purchase of \$1500 worth of publicity as a start in that direction.

The new name was deemed more descriptive of the section that that heretofore used and was adopted for that reason. The institution will be incorporated without stock. Officers elected were E. B. Black, Hereford, president; J. W. Stephens, Tulsa, first vice-president; Col. Harve H. Haines, vice president and general manager of the Amarillo board of city development, was named vice president and general manager with authority to perform the duties of secretary and treasurer. Five directors at large were named. Dr. O. H. Lloyd, Vega; F. H. Hill, Panhandle; M. R. Avery, Dimmitt; W. B. Quigley, Memphis, and Matt A. Cram, Plainview. The above named will comprise the board of directors.

The first action of the board was to authorize employment of an exhibit manager who will prepare three exhibits of the agricultural products of the Panhandle for presentation at six fairs in each of the three states named above. The board approved a publicity program that was outlined and authorized purchase of 300,000 copies of the first piece of literature to be used for distribution at the fairs while exhibits are on display. The follow-up campaign outlined June 11 at a meeting was approved by the board of directors and authority given for its preparation and continuance.

Plans of the board of directors contemplate that the name of every prospective settler secured by the association will be furnished to each chamber of commerce in the thirty-two counties of the territory to be represented by the organization so that each county will have ample opportunity to present its

claims to every prospective settler. The board has other plans in making for getting lists of available lands at guaranteed sale prices and the publicity committee is at work on additional publicity matter.

Miss Una Beach and Miss Adelle Townsend drove to Amarillo this afternoon.

Teacher—Can anyone tell me the meaning of the word, collision? No one knows? Well, it is when two things come together unexpectedly. Now can anyone give me an example? Johnny, what is it? Johnny—Twins!

Mr. Newlywed—Please, doctor, tell me at once—is it a him or a her? Doctor—It's a them.
