Speech of Sam Houston In 1853 Gives View of State Regulation of People's Conduct On Sundays

The Brand is in receipt of a document or paper which was printed by the Dallas-Herald in 1882, and contains a speech delivered by General Sam Houston in 1853. The document is therefore 48 years old and the speech 77 years old.

While General Houston, who was a United States Senator at the time of making the speech, is one of the most distinguished of Texas statesmen and had a large part in the early history of this state, yet his personal views on some of the most prominent questions of that time and of the present as well are very little understood by a large majority of our people and feeling that the viewpoint of this great man as given in this document might be of interest and benefit to readers, The Brand is quoting it in this issue for their benefit. It came as a result of an incident related in this paragraph: "In 1853 a delegation of ministers having knowledge that Senator Houston had joined the Sons of Temperance, called upon him in Eastern Texas on his way home from congress and requested him to bestow his influence and aid to secure the enactment of a Sunday and prohibition law. The following is his reply as taken from the biography of this great man: "I agree with you that any unnecessary amusement that is calculated to disturb and annoy persons in religious worship on the Christian Sabbath is wrong and censurable, such as horse-racing, gambling of all devices, and indulging in a social glass in public.

"You request me to use my influence and exertions, such as I possess, to induce the legislature to enact a law to effect the suppression of the same. I understand by that you desire the law making power to declare a penal offense for persons to perform certain acts on a particular day.

"In reply, I hold and maintain that it is far better to endure and suffer from the ills of a great evil than to violate in the least a vital principle of civil and religious liberty.

"When tyrants ask you to yield one jot of your liberty and you consent thereto, it is the first link forged in the chain that will eventually hold you in bondage.

"The Irish, that noble race so prolific of brave warriors, grand statesmen and brilliant orators, whose deeds of bravery have immortalized every battle field over which waved the British flag, permitted the English Lords to be centuries in forging their fetters such by inch, here a little and here a little, until today they are in helpless bondage.

"The time to resist the encroachment of tyranny is in the incipient stage thereof. The Constitution of the United States says: Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise hereof. Our state Constitution says: Ministers of the gospel, being by their profession dedicated to God and the souls of men, shall not be diverted from the great duties of their functions; therefore, no minister of the gospel or of any denomination whatever shall be eligible to the legislature.

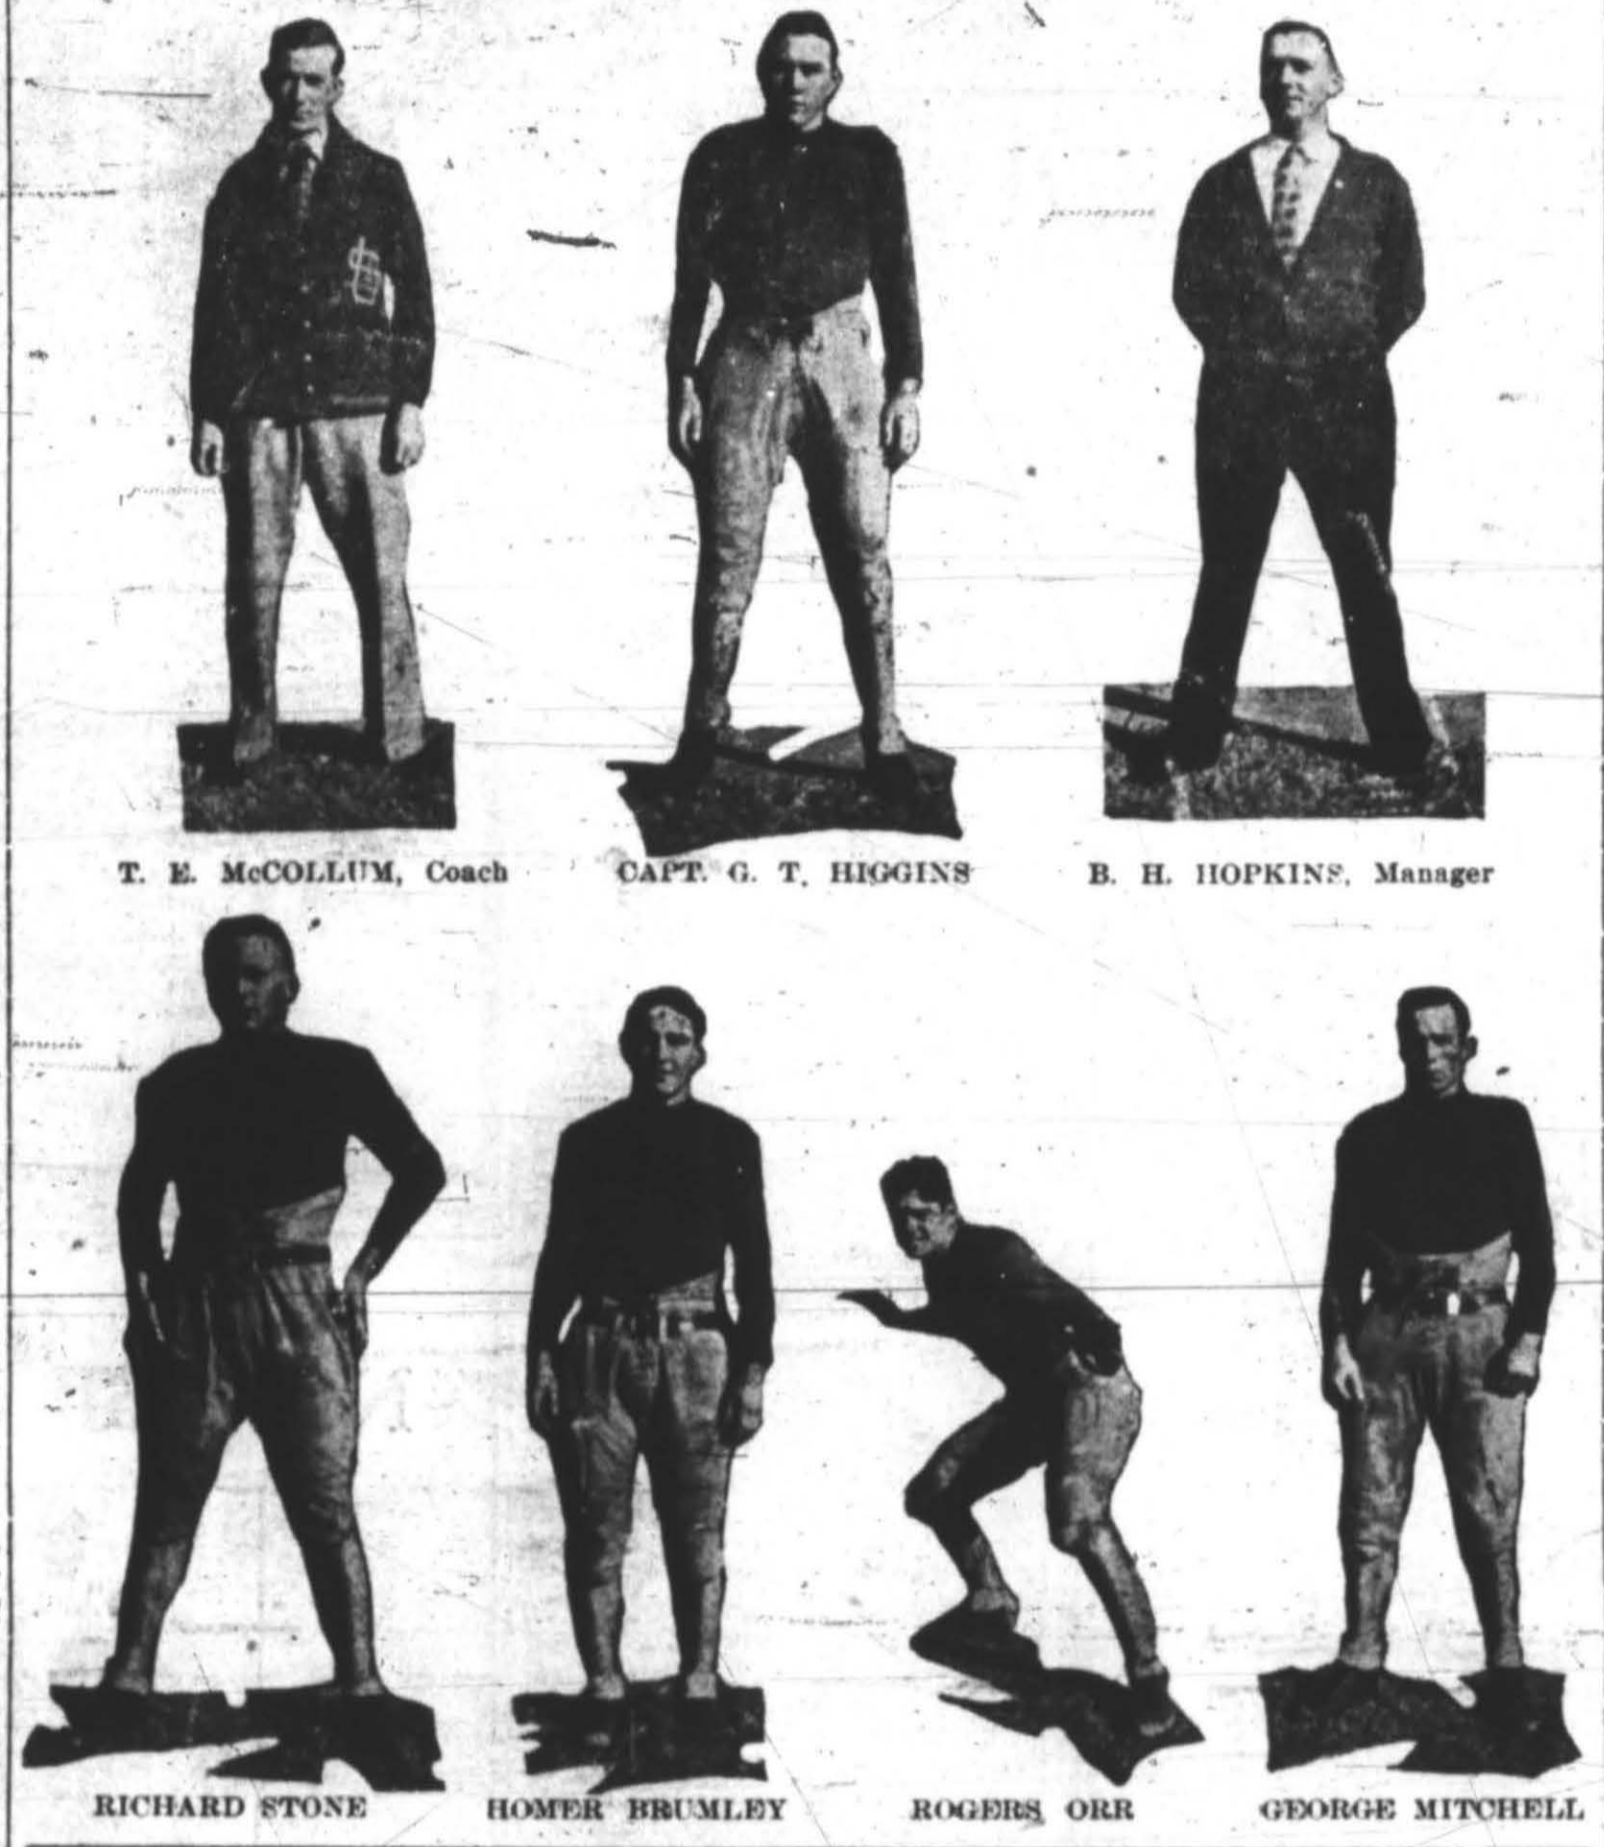

"The clause in our State Constitution just quoted disfranchising clergymen I think is an abridgment of religious liberty. Had I been a member of the Constitutional convention I should have not given it my support. It violates the very principle intended to protect, inasmuch as it recognizes the right to control the free enjoyment of religious belief by law. The men, many of them, that framed and voted for it were smarting from the effects of the tyrannical acts of the Mexican priesthood which was the cause. I have no doubt, that inspired the enactment.

"I wish to be understood in my remarks that I have no prejudice against the persons embracing the catholic faith that would debar me from according to them the same rights due to any other denomination of Christians or any other religious creed.

"History teaches us that men opposing all denominations of religious faith when clothed with ecclesiastical and temporal power combined, have been tyrants.

"Now, any law made by the making power of the state, intended to regulate a person's religious or civil conduct on Sunday, is a violation of the spirit of the constitution of the United States,

W. C. Hromas spent Sunday in Farmer county with his brother and family.

Mrs. Wilson, who formerly lived north of Hereford, now of Amarillo, visited Mrs. O. L. Rutherford this week.

Celebrating the birthday of Harry Kibbe, a large number of relatives and friends took dinner to the R. J. Kibbe home last Sunday, which was served under the trees in the yard. More than fifty were present.

PAINT COMPANY ON FULL TIME; BUSINESS BETTER

D. H. Alexander of the Panhandle Lumber Company, states he received a message this week from the president of the Sherwin-Williams Paint Company to the effect that all factories of the company have been put back on full time basis, due to pick-up in orders and the company's confidence in improved business. This action confirms Mr. Alexander's views based on his observations in this vicinity.

Cleve Newman, brother of Mrs. O. L. Rutherford, and his family of Big Spring, were guests in the Rutherford home this week.

Mr. and Mrs. A. L. Tolle and family of Plainview were in Hereford first of the week visiting Mrs. Tolle's sister, Mrs. O. L. Rutherford.

Mr. and Mrs. Kenneth Grantham, Woodward, Okla., spent Tuesday evening in the L. J. Bennett and E. E. Fridley homes.

Christianity Is Claimed Only Religion that Offers Complete Forgiveness of Sins to Mankind

Trend of Big Development Pointed Here

Asserting that Christ alone, over all the religious prophets and the great religious leaders of the whole world, has a complete program of saving mankind and that Christianity is the only faith that provides for complete and full forgiveness of sins, Rev. J. W. Boultinghouse spoke with enthusiasm Sunday evening to what was probably the largest assembly of the united congregations and was the last of the cooperative movement.

The speaker's subject was "Jesus the Way," taken from the text, "I am the way, the truth, and the life; no man cometh unto the Father except by me". Scriptural reading was the first nine verses of the 14th chapter of John, beautiful and comforting lines.

The purpose of the sermon, it was announced, was to hold high the name that had been exalted above all others, and to lay a foundation for the evangelistic services beginning next Sunday.

"The world is sick and sore from sin and needs a savior today," said Rev. Boultinghouse, "and Christ alone has a complete program of salvation. Buddhism, the great religion of Orientalism, can only sympathize with the sin-cursed people, advise them to bear up under their sufferings and await the Nirvana, where there will be no desires to be fulfilled; but Christ teaches and lifts up, and is the only one that offers full forgiveness for man's transgressions. He offers a heaven where we will have our best hopes realized, in sharp contrast to the Hindu Nirvana, made arid by being stripped of any possible longing or fervor."

Step by step the minister portrayed how Christ is the way into the kingdom, and the only way, shaping a pleasing pathway and expounding the ethics and spirituality of the Galilean teacher.

"Christ cleanses and purifies," he continued, "through his plan of salvation. He transforms, makes new creatures of us. His is the power to purify the soul of Lady Macbeth, even though the stains of murder were dyed so deeply on her hands that she exclaimed all Neptune's seas could not wash them clean; her bloody hands would 'them incarnadine, making the green one red.' He will blot out: 'their sin I will remember no more.'

"Paul, chief of sinners, was transformed on the road to Damascus, and he became the outstanding apostle of the ages.

"Christ restores; he rescues the lost, raises up the spiritually dead; reestablishes our heirship. He is the scientist of the soul and knows how to reanimate it, as the chemist knows his alchemy.

"He is willing and able to give us eternal life, and that life is a superior one. In my Father's house are many mansions."

"We need a more fundamental knowledge of God. Your God-concept is your god, and your god determines your character. There is no higher concept than that furnished through Christianity.

"The pathway of ideal manhood is in Christ. He spoke and his message has fit every race and age, and is applicable to their needs.

"That moral and supreme idealism was Christ's greatest contribution toward civilizing mankind. He showed us a God of forgiveness, pity and love. He inspires with beauty and strengthens with hope. Life with its sickness, its bereavements and disillusionments would be unbearable without that poetic faith he has shed over the prose of our existence.

"Today we need a hope that is steadfast and sure. We need a power by which we may live and by which we may die. The poet, scientist, philosopher are no comfort to the dying. When we would bring them solace in their last hours we tell them of the hope that Christ gave the world.

"Christ is the guiding star of our hope. He is the way, the truth and the life."

Predictions of L. Baskin, 1925, Are Interesting

Publication in the Amarillo News of Tuesday of a letter written by L. Baskin to the general manager of the Santa Fe railroad more than five years ago comes as an interesting commentary on the foresight of some of Hereford's citizens.

The letter revealed local effort to have this section served by a north and south route, especially a south rail line, and practically every prediction made by Mr. Baskin in 1925 is being fulfilled.

Hereford, the abundant shallow water supply, was pointed out, and the Santa Fe was urged to build a railroad from Hereford to Dimmitt and from there to Lubbock. He claimed such an action would not only be a good investment, but would estop the Denver system from taking the Castro county rich farm land under its shipping wing and would forever ban invasion by other systems into the belt which the Texas & Pacific is now claiming.

Hereford had practically offered the Santa Fe the old track bed to Dimmitt and ample terminal grounds here.

NO GOVERNMENT RELIEF NEEDED BY DEAF SMITH

In certification by Governor Dan Moody of a number of Texas counties eligible to receive relief from the national government, Deaf Smith county is conspicuous by not being included. The relief to be given will take the form of reduced freight rates on cattle and livestock feed.

Some of the counties mentioned in the list are Armstrong, Bailey, Briscoe, Castro, Childress, Collinsworth, Hale, Hall and Lamb, the bulk of the 84 certified being out of the Pappahaddle.

Mr. and Mrs. Tom Hamm, en route to their new home in Amarillo, spent part of this week here with his sister, Mrs. R. O. Douglas.

Arrangements are being made to serve Summerfield with natural gas by the West Texas Gas Company. Practically everyone of the town will be using gas within another month.

Ford Doings

BY MISS EDITH MANN

The Ford Community Welfare club was delightfully entertained last Friday afternoon by Mrs. D. B. Mann when 15 members answered roll call by: The number of hens in my flock. Visitors included Mrs. Robert Dyer and Miss Edna Kliever. The lesson for discussion was Poultry. First topic: What I fed my hens and how I cared for them during the summer, was discussed by Mrs. Beryl Davis. Why produce infertile eggs from May through September and why grade them? by Miss Gunter. How and where I market my eggs, by Mrs. Hardy Benson. During an open discussion several questions of interest were answered by the home demonstrator, also final information concerning fair exhibits. The club voted to become a member of the Federation of Women's clubs. The members enjoyed quilting for the hostess. The next meeting will be Friday afternoon, September 19 in the school auditorium with Mrs. Beryl Davis as hostess. Refreshments of sandwiches, salad and punch were served those present and all departed saying an enjoyable time was spent. Ford school started Thursday morning with an enrollment of 88 and Mr. and Mrs. Jenkins of Willadorado as teachers. The students greatly enjoy their work. There was an attendance of 98 at Sunday school last Sunday. Rev. Mr. Thompson of Canyon delivered a fine sermon. Singing was not so well attended at night on account of farmers being busy with fall work. Miss Edna Kliever was honored for Newton, Kansas, where she will enter her junior year at

Bethel College. The young lady is majoring in home economics and expects to teach that subject when she has finished. James Garrett left Monday for Amarillo where he entered school. Mrs. Beryl Davis spent Friday in the D. B. Mann home. Miss Ruby Rempel spent Friday night with Miss Marine Norton. Misses Nell and Mildred Casey took supper with Misses Dorothy and Marine Norton. Miss Edna Kliever was honored by a farewell party at the home of Mr. and Mrs. D. S. Larson Saturday night, when games were enjoyed until a late hour, after which refreshments were served all present. Miss Van Noy Davis ate dinner with Misses Byrdline and Tiny Brunson Friday. Henry Rempel, Sr., and son, Paul, left for their home in Cardell, Oklahoma, Monday after a short visit here with relatives. Mr. and Mrs. J. E. Hill of Hereford were dinner guests in the D. B. Mann home Sunday. Mr. Bagwell and son and Ernest Koch of Bessie, Oklahoma, arrived at the A. Koch home Thursday for a short visit. Ernest Koch has recently moved to Oklahoma and will take his cows back with him. Mr. and Mrs. Dennison Hill spent Sunday in the Atchley home at Summerfield. Mr. and Mrs. Albert Buller and family were visiting in the A. Koch home Sunday.

Sunday Sermon by H. Hicks In Baptist Church

Flounces Give Fullness to New Furs

THE STRAIGHT LINE COAT GIVES WAY TO ONE WITH SLIGHT FITTING THROUGH THE BODY—HUDSON SEAL STILL A BEST BET, HARRIET SAYS

BY HARRIET

BUYING new furs for old this winter will tax the selective powers of all women. There are so many diversified styles and lovely skins to choose from.

The main thing about new fur coats is their rather classic beauty. If a woman can have several, she can well afford to have her second or her third bizarre cut and trim. But since one is the usual quota, it is better to look at the more conservative coats.

Most of these have a slight fitting through the body. The straight-line coat, short and boxy, is no longer good. There may, it is true, be slight body fitting. But there are two new treatments that allow plenty of fullness at the lower edge. These are flounces and pleats. The flounces may be in the form of flounce depth godets. And the pleated flares may also be set in godets. Both are new and correct.

A second point to watch is the bloused bodice—part of the coat. This style is very good for older women. Usually there is a belt where the blouse ends, usually at normal waistline or slightly above. Boleros are good, the back bolero or the cape effect being ultra stylish.

Mink is still the classic fur. This season mink coats are luxurious in the manner in which they collar and cuff themselves. Sleeves are as interesting as the cut of the body of most coats. Puffs, flaring cuffs, even mousquetaire sleeves are quite in order.

DYED squirrel is excellent this year, the new vanilla shade the most popular. Caracul, broad-tail, shawl lamb and lapin coats are usually made in more varied styles than the mink, the seal or the chinchilla would be.

One of the safest and most stylish coats of the season is a Hudson seal, made with a bolero and banded with a black satin sash. It is essentially the correct coat for an older woman. It has dignity, beauty and grace. The sleeves are narrow, ending in a belted cuff, and the collar is one of the new

Typical of the newest styles in furs this season is the dyed squirrel coat, left, in rich brown tone. A flared flounce is its distinguishing feature. Excellent for older women is the bolero coat of Hudson seal, right, with black satin sash. A band of seal faces the white felt turban.

military ones. If one tires of the sash, a narrow belt is just as chic. It might be, of color, to match a hat or gown.

A flared flounce distinguishes a brown squirrel coat, in the Lelong vanilla tone. It has its skins used horizontally, in slightly curving line, so that the flounce gives the impression of a most natural wave below the hipline. This coat fits rather snugly through the body; has plain cuffs and a cushion collar that uses the fur vertically.

Crafty Andy Carnegie Stirred Up Students

Once when Andrew Carnegie was visiting his sister-in-law on Jekyll Island she told him she could not get any letters from her sons who were at Yale. She was anxious about them. Carnegie bet her he would have a letter from them as soon as the mail could reach New Haven and return. The bet was accepted.

He wrote the boys that their mother was worried about them; that he was visiting her; that all were very well at their home; and gave them other news that would interest them. Then he added that he was enclosing \$5 for each, and he signed himself their affectionate uncle.

But he did not enclose the \$10. As he told the story himself (recalls Mr. Morris), his twinkling little eyes enjoyed the slyness of it immensely.

Then, in two or three days a reply came. It revealed the atrocious fact that he had forgotten to send the \$5 bills. He should send them at once, as the boys were nearly dead broke.

He had outwitted his nephews and won his bet; the power of his money was demonstrated.—Kansas City Star.

Couldn't Pass Up That Chance for Easy Money

"One reason why auto insurance rates are no cheaper than they are," says an auto club official, "is the tendency of most people to magnify minor accidents in the hope of obtaining larger adjustments. Most of the insurance companies give the policy holder the benefit of the doubt and therefore base their premium rates accordingly."

"I am sorry to say that the majority of policy holders seem to be like Jones."

"Jones, you know, had been in a collision but it was so insignificant that he passed it up without a thought. Next day, however, he met a friend who asked: 'Hello, Jones, I thought you were seriously injured in an accident yesterday?'"

"So I discovered when I read the morning papers," admitted Jones, adding, "I'm on my way home to bed right now and have sent for my lawyer."

Convent in the Clouds

If you want to see a real medieval convent in Italy go to Tuscany, and from Bibiena you will be able to get to La Verna, the convent on the rock, either on foot or in a carriage. La Verna is indeed on the summit of an impressive rock, a strange wooded height amid barren lands. It was given to St. Francis of Assisi by Conte Catani, lord of Christ, in 1213. Here the saint lived his hermit life, and it is affirmed to be the scene of his stigmata in 1223. Within are many fine works of art, and in the little Church of the Angels there is some Della Robbia. The surrounding forest is magnificent, and the view from La Penna will be ample reward for the climb.

Boiling Point of Water

The boiling point of water varies with the pressure. In water under ordinary conditions it is 212 degrees Fahrenheit or 100 degrees Centigrade, but it becomes less with lessened atmospheric pressure, as in ascending a mountain, being lowered about one degree Fahrenheit for every 550 feet of ascent or one degree Centigrade for every 901 feet. The boiling point of water at the summit of Mt. Blanc (15,781 feet) is about 85 degrees Centigrade. It would take less heat to raise the temperature of water to 85 degrees Centigrade than it would take to raise it to 100 degrees Centigrade. Thus water would boil more quickly at higher level.

No Place Like Home

A person is hurt every 30 seconds in the American home. The trouble is that is where the Jay-walkers, the speed boys, the youngsters who race for crossings, the idiot who takes the wrong side of the street, the daredevils at intersections, the morons on the wheel, the drunk drivers, the aged, the babies that play in the street, the absent-minded, the fellows who race through signals, the near-sighted, the road hogs, the slow pokes, folks who are just learning to drive, children who are too young to get a license, the careless, the incompetent, the scamp who gets mad, all live.—Los Angeles Times.

Bid for Fame

The late Luther Burbank said one day to a Los Angeles reporter: "Almost any man can succeed if his aim is a good one. Too many men adopt bad aims." "A long-haired musician rushed into the kitchen and said to his wife: 'At last, love, I have fame within my grasp.'" "How so?" the poor woman asked, and she looked up at him from the wash tub rather skeptically. "You know Mendelssohn's 'Wedding March'?" "Yes." "Well, I'm going to write a 'Divorce March'."

Originated in Germany

Skat, a card game now known throughout the world, originated in Altenberg, Germany, in 1821, writes George F. Hembrecht in the Wisconsin State Journal. Up to 1817 the Italian game of tarock held full sway over the card-playing public in their clubs and societies in Germany, but in that year tarock began to be replaced by schafkopf, which became the nucleus of the modern skat.

Gets Flowers From President

Charles Johnson, 13, of Anderson, S. C., was pretty disappointed when he got sick in Washington just before he was to see the president with a group of Boy Scouts. CLOVER DELL FARM WILL HAVE COW SALE AT FAIR

Fourteen head of Jersey heifers and cows and six young bulls, all of the Finance and Interest blood lines, will be sold at auction next Thursday, last day of the fair. The sale will take place in the pavilion under direction of Ray Barber, auctioneer.

The cattle in this sale are from the Clover Dell Jersey farm, owned by Berry Orr. These cows have

good official test records, and that butterfat is reaching a fancy price, a rare opportunity is offered to farmers and dairymen to start a herd or supplement the present ones with some choice cows and add to the farm income this fall and winter.

WHITEFACES

You open your conference season for the supremacy in Class B Football of District 1 tomorrow, and we folks of the home town just want to tell you we are pulling for you, not only in this game but in every one you play this year. We want you to play the clean,

sportsmanlike way the two great teams Hereford Hi put out the past two seasons has played, and, of course, we want you to win, but most of all we want all your opponents this year to respect you for clean playing that was too hard for them to handle.

Department Will Be Open Monday Afternoon for Entries; Floral Exhibits to Be Placed Tuesday

By MRS. BOB WILSON
Superintendent

I want to urge all the people to have their exhibits in for the Women's Department on time. The department will be open to receive entries Monday afternoon, September 15, at 2:30 o'clock, and we will be glad for as many as can to bring their products at that time. All articles to be shown must be in place by ten o'clock Tuesday morning—nothing will be received after that hour.
Judging will begin at ten o'clock Tuesday morning in the clothing department. Miss Mary Sitton, demonstration agent of Potter county, and Miss Minnie Mae Grubbs, district home agent, will judge clothing, canning and foods. Mr. and Mrs. H. C. Gettys, florists from Clovis, will judge the flowers Tuesday afternoon at 1:30 o'clock.
In the canning department all jars should be clean and polished and properly labeled. The Texas 4-H labels will be used, having names of products, exhibitor, club and county. Place label in center on plain side of jar, one-quarter inch from bottom. Labels must be typewritten or printed with waterproof ink. They may be secured from Miss Emma Gunter, home agent, at the booths when you bring in your entries.
All articles entered in clothing department should also be properly labeled. Use piece of white material 2 1/2 by 4 inches, write with waterproof ink or indelible pencil, giving exhibitor's name, club and county, thus:
Mrs. Paul Jones,
Worthwhile Club,
Deaf Smith County.
Sew the label inside front of neck of all garments such as dresses, shirts, aprons, underwear, etc.; at corners of lunch cloths, napkins, towels, pillow cases and scarves; and in inconspicuous places on all other articles.
If you know of any pretty flowers in your community, or any pot plants, please encourage the owners to exhibit them at the fair.

At the monthly meeting last Friday of the community chairmen of the women's departments, it was decided to use uniform containers for flowers. Quart milk bottles, large glasses similar to peanut butter glass, and baskets for larger flowers (cosmos and gladiol) are to be used. Milk bottles will be used for roses and dahlias. Tall peanut butter glasses and baskets for all bouquets, excepting annual phlox, which should be exhibited in low glass bowls.
All exhibitors of flowers are asked to bring them Tuesday between the hours of ten and one o'clock. The committee will take the best of care of all plants. There will be some one in the booth at all times during the three days.
"This is your fair and the purpose of the floral department," said Mrs. John P. Slaton, chairman, "is to inspire you to have better flowers and more of them for every home in the county. Get a catalog, look over the list of entries, and if you have anything that is listed, please bring it in. Your exhibit may win first prize."
Because so many people are interested in dahlias and roses, wherever you can, please name your dahlias and roses. The object is to find the variety that is best suited to our soil and climate.
I am sure everyone is interested in making the Deaf Smith county fair the most successful of all fairs ever held in Hereford. No one person can make it great, but it will take cooperation and help of every man, woman and child in the trade territory.
May I ask that you study the catalog thoroughly; then you will be in position to help others. Please let the chairman of the various divisions of the women's department know what you are doing and who has exhibits to show.
The superintendents and assistants are hard at work and any aid given them will be appreciated. You will find any one of them anxious to cooperate with you.

NEW BOY SCOUT TROOP FORMED WITH 15 BOYS

Organization of a new boy scout troop, No. 23, was completed Monday night at the Christian church when 15 boys were enrolled. Rev. J. W. Boultinghouse is scoutmaster, and the new troop is being sponsored by the Lions club.

Patrols were formed and patrol leaders were elected. Regular meeting dates will be Monday nights from 8 to 9:15 o'clock, and for the present the Christian church will be used for assemblies.

Church Supper Will Be Held Friday Evening

The big church entertainment, as a result of attendance records during the summer at united services, will take place at the Mooney farm on Tierra Blanca creek Friday evening at six o'clock, according to an announcement made by Rev. E. P. Gleaser, who heads the guest congregation.
Methodists and Christians are the hosts to Presbyterians, and a picnic supper is being arranged for the three church memberships, and if the average attendance is present about 400 people will be fed.

Boy Scouts to Erect Indian Tepee at Fair

A boy scout troop exhibit at the fair during the three days was announced by Scout Executive Roberts, who was here Monday and Tuesday. He stated that he would be here for the full time of the fair and would erect a large Indian tepee to house the scout display. Craft work will be shown, and a history of activities will be written around the tepee in Red Man hieroglyphics.
The scouts plan on having one of the centers of attraction with their unusual exhibit.

Home Demonstration News

MISS EMMA GUNTER, C.H.D.A.

The Home Demonstration Council met in the club room Saturday afternoon in regular monthly session.

Since there is a shortage of fruit in the county and citrus fruit is not cheap, it is an advantage for the housewife to can all fresh vegetables possible. Tomatoes may be used in so many ways in the diet, are accessible at reasonable prices, it behooves the home maker to be sure and fill her empty jars. A few nice recipes are:

Canned Tomatoes.
Blanch uniform ripe tomatoes in boiling water for one minute, quickly dip them in cold water to make them firm, remove skins and care and pack whole in quart jars, using one teaspoonful salt to jar; fill with boiling water or juice of overripe or cut tomatoes, straining juice through sieve. Cook in water bath 25 minutes; in a pressure cooker, cook at five pounds pressure for ten minutes.

Tomatoes and Okra.
Cut okra into slices and cook slowly until tender with tomatoes equal quantities. Pack hot into pint jars and add one teaspoonful salt to each jar. Process ten minutes in hot water bath. In pressure cooker, put raw vegetables in steamer together, bring to boil, pack in jars and cook in pressure cooker 30 minutes at ten pounds pressure.

Chili Sauce.
One gallon chopped ripe tomatoes, 1/2 c chopped white onions, 1/2 c chopped sweet green peppers, 1/2 c chopped sweet red peppers, and 1/2 c brown sugar; 2 tsp ginger, 1 tsp cinnamon, 1 tsp mustard, 5 tsp salt, 1 tsp grated nutmeg and 1 quart vinegar.

Chop onions and peppers fine, boil all ingredients except vinegar, together for two hours or until materials are soft and tender. Add vinegar and cook for one hour slowly. Stir frequently. Can in pints while hot, seal at once.

Miss Minnie Mae Grubbs, district agent, and Miss Mary Stinson, home agent of Potter county, will arrive in Hereford to judge clothing, foods and canned goods Monday afternoon and Tuesday.

Miss Gunter has begun to enroll poultry demonstrators for 1930. Mrs. J. W. Berry, of Frio club, and Mrs. H. Cook, Ford club, have been selected as their club demonstrators to begin November 1. Mrs. Murdock, Summerfield, with a flock of 300 hens, and Mrs. H. Benson of Ford, with a flock of 400 hens, gave fine reports on their egg marketing, reporting about \$100 each month on their egg sales for 1930.

Miss Gunter finds larger flocks on an average; of 40 ladies answering roll call, there was an average of 140 hens to the farm. Some have 300, others as high as 600.

Jokes in Jest

Today's worst pun: The Chinese may be up in arms, but they do manage to keep coolies.

"Hail Columbia" Written as Offering to Friend

Just to oblige an insistent friend, a Philadelphia judge back in 1798 spent part of one week-end composing a patriotic song which he thought would sink back into obscurity within a week or two. And the result was one of America's greatest national airs—"Hail Columbia."

The composer was Joseph Hopkinson, who was widely known for his artistic, musical and literary tastes. It was in the middle of the summer of 1798 that a young actor, Gilbert Fox, for whom the benefit was to be given, went to Hopkinson's home at 338 Spruce street. He explained that there was little prospect for attracting a crowd and asked his friend to help him out. That was Saturday. The performance was to be on Monday. And early that morning "Hail Columbia" had been completed.

Fox sang the song, accompanied by a full band and a "grand chorus." Crowds sang it in the streets as they left the theater. And a short time later Hopkinson wrote to George Washington: "The theaters here and in New York have resounded with it night after night and men and boys sing it wherever they go."—Kansas City Times.

Sabbath for the Jews

The period from sunset Friday to sunset Saturday was adopted by the Jews as their Sabbath about 300 A. D. It is erroneous to suppose, as many do, that the ancient Jewish Sabbath always fell on what corresponds to our Saturday and that the weekly cycle has never been broken. In ancient times the first day of the Jewish year was also the first Sabbath of the year and the day was determined by the high priests or the sanhedrin by observing the new moon. A Sabbath followed every seventh day thereafter until the end of the year. Consequently the Sabbath was not a regularly recurring seventh day in the sense that our Saturday or Sunday is, and the Sabbath did not fall on the day corresponding to our Saturday more often than it fell on other days of the week. At that time, of course, all the days began and ended at sunset. The Jews, after being scattered over the world, found the ancient Hebrew calendar difficult to follow, and about 300 A. D. under the leadership of Hillel II, they began to adopt Saturday as their regular Sabbath.—Pathfinder Magazine.

"Playing Safe"

A portion of the river was partitioned off as a swimming bath available for both sexes. A meek-looking man went up to the attendant, who was eating his lunch, and said:

"When you have quite finished I should like to have a word with you."

After ten minutes had passed the attendant said: "What do you want?"

"My mother-in-law," he replied, "dived in off the deep end about

twenty minutes ago, and she hasn't come up yet. Would you please lend me a lifebuoy to throw after her? I shouldn't like it to be thought I was unkind."—London Tit-Bits.

Gulls Which Keep to Shore

The black-headed gulls of Europe, unlike the ordinary seagulls common along the coast of this country, are not sea-going birds. They will not follow ships day after day, but keep themselves well within reach of land. In fact, they are not adverse to flying inland and feeding in new-plowed land, on insects, worms and larvae.

The gulls breed from the British Isles east through Europe, as far as Turkestan. In winter they range all the way from the Azores to Japan, living largely along the shores, on crustaceans, small fish and any food which finds its way into the waters along the shores.

Brittany Druid Stones

Brittany, the "Land of the Sea," is one of the oldest lands in the world, and its Druid stones of colossal size date back thousands of years before the Christian era and, like those at Stonehenge, in England, are visited annually by thousands.

St. Milo, on the coast, has the appearance of a large ship at anchor. It stands on a rocky peninsula and is surrounded by massive walls which were built in the sixteenth century as a defense against the French and the British. The town is named after a Welsh monk named St. Milo, or Maclou, who held a bishopric there in the sixth century.

Catching Up With Bullets

If a shotgun is fired directly ahead of an airplane, within a few seconds the plane will run right into the shot, declares Gen. William Mitchell (in "Skyways"). This is because the shot has an initial velocity of 900 feet a second, which falls off very rapidly, until at 60 yards it is only about 400 feet velocity left, and at 100 yards it has none. An airplane going 100 miles an hour covers 100 yards in two seconds, which does not give the shot time to drop.

Where Men Excel

While woman is superior to man in the matter of endurance of pain, she is inferior in the senses of taste and smell. In an experiment made with 38 women, young and healthy, and the same number of men it was found that no woman could detect essence of lemon further than in a solution of one in one hundred thousand, but several men recognized it down to one in two hundred and fifty thousand.

Pipe-Laying Methods

Pneumatic methods have revolutionized the work of laying gas mains. A truck provides air to operate tools for digging the trench and to drive wire brushes for cleaning the pipe preparatory to assembling and an air blast blows out the pipe before joining.

DEAF SMITH COUNTY FAIR

September 16 - 17 - 18

We'll be ready to welcome you at any of three places during the Fair—our used car lot on East Third, our Fair exhibit of New Chevrolets in the basement of the court house, or at our fine office building just southeast of the court house. At either place you will find courteous attendants who will be glad to explain to you the high value put into "O. K. Used Cars" or the superlative new features of the low priced Chevrolet New Six, "priced in the same range as a four cylinder car".

During the fair we offer fine values in the following list of "O. K. RE-CONDITIONED CARS":

- 3—1929 Chevrolet Coaches
- 1—1930 Chevrolet Sedan
- 2—1929 Ford Coupes
- 1—1929 Buick Sedan
- 4—1929 Chevrolet Coupes
- 2—1929 Chevrolet Trucks
- 2—1928 Chevrolet Coaches
- 2—1928 Chevrolet Sedans

All the above mentioned cars can be seen on our used car lot, Mr. A. B. Clark will be in charge. Be sure to visit there during the Fair. A full line of fine new chevrolts will be on exhibit in the auto show rooms under the court house those three days, too.
