PUBLISHED EVERY THURSDAY

**MINSTREL HIGHLIGHTS** — Mr. Interlocutor (Johnny Clark) is in the middle of a bunch of funny business at rehearsal for Friday and Saturday nights' Hereford Lions Club Minstrel in Review. Poking fun at the minstrel M.C.—as they will be doing during the show—are, from the left, Don Chaney, David Hamblen, Roy Simpson, C. R. Brandon, Bill Gentry, and Ray Moore. FRIDAY, SATURDAY NIGHTS

## Lions' Minstrel On Stage

Laughter — "the best medicine" — will be dished out in heaping proportions as the Hereford Lions' Minstrel in Review goes on stage Friday and Saturday in the high school auditorium.

**CURTAIN RISES** at 7:30 p. m. both nights with the sound of music with a beat and a one and a half hour song-and-fun-fest is underway.

The Hereford Lions Club minstrel had its origin many years ago, but this year's production has all the markings of a completely new show.

Tickets are on sale from any member of the Lions club, or ducats may be purchased nightly at the door.

A **FULL-FLEDGED** variety show gets the minstrel off to a musical start — then the Lions take to the stage with routines destined to tickle the funny bone.

There'll be a wide range of musical selections ranging from old to new throughout the show, according to Ben Gollehon, musical director.

**AND THERE'S** not much telling what Mr. Interlocutor (Johnny Clark) and company will offer, but if the past Lions' min-

strel presentations are an indication, it's sure to bring more than a few laughs.

In addition, dozens of prizes valued at a total of some \$2,000 will be given to members of the audience. The prizes have been donated by area merchants.

**PROCEEDS** from the minstrel go for the Lions many civic and charity projects.

Then there's the traditional minstrel favorites — the Hi-Brown Gals, a lively chorus line comprised of a bevy of high school beauties.

**SETTING** the tempo for the show will be the National Champion High School Stage Band, otherwise known as the Hereford High School Stage Band. Also appearing with selections from "Oklahoma" will be the prize-winning high school Accapella Chorus.

Other variety acts will include vocal numbers by Mrs. Dick Jackson, husband-wife song and dance team Chuck and Mary

Kay Everitt; vocals by Don Chaney, a banjo band, a guitar band, and baton twirling by Patti Roach.

**THE VARIETY** show portion of the minstrel will be topped off by the Jubilee Chorus — comprised by members of the Hereford Lions Club.

Also included is a "surprise" See **LIONS** Page 2

## Population Research Puts County In Lead

### Area Growth Pacesetter For State

Deaf Smith County virtually leads the 254 counties in the state of Texas in percentage of annual population increase according to a survey recently completed by the University of Texas.

A report entitled "Population Estimates for Texas Counties" prepared by the Population Research Center of the university's Department of Sociology estimates the county registered a 7.1 percent annual population increase for the past five years.

This report placed Hereford second only to Randall County (south Amarillo and Canyon) in the annual percentage of growth for all counties in the state. Figure for that county was 7.7 percent.

Estimates compiled at the university pegged this county's population as of April 1, 1965, at 18,866, as compared to 13,187 persons counted in the 1960 federal census.

The estimated increase of 5,679 in the county's population since 1960 makes the county one of only four counties in the state with an annual percentage of six percent, according to the survey.

The university's report was published in the March issue of "Texas Business Review," which was received by the Deaf Smith County Chamber of Commerce.

The Population Research Center has prepared population estimates for each of the 254 Texas counties each year since 1960.

**ACCORDING** to the survey, 167 Texas Counties gained in population during the five-year period, while 87 counties lost.

Just 1.6 percent of the counties registered annual population growth percentage over six percent; 2.7 percent of the counties had annual increase percentage of 4.0 to 5.9; 41 counties or 16.1 percent gained by 2.0 to 3.9 percent annually; and 115 counties or 45.3 percent gained by 0.0 to 1.9 percent annually.

Some 71 counties, or 28 percent, noted population decreases of 0.1 to 2.0 percent annually.

**THE SURVEY** pegged Castro County's annual growth rate at See **AREA** Page 2

## Uncontested School Balloting Saturday

### ABSENTEE VOTE UNDERWAY

### City's Elections Slated Tuesday

Only two persons had voted in absentee balloting for Tuesday's city commission and city tax bond issue elections as of Wednesday.

**ABSENTEE** balloting remains open until 5 p. m. Friday in city hall for the city elections, which will determine the fate of a \$610,000 tax bond proposal for proposed water and sewer department expansion.

Two city commissioners, Albert Maxwell and Lloyd Sharp, seek re-election. They are unopposed.

**BONDS PROPOSED** would provide \$436,998 for water department expansion and \$173,002 for sewage system improvement, city officials pointed out.

Growth of the city necessitates the expenditures, to put it simply, according to city manager Dudley Bayne.

Much of the proposed work must be commenced immediately in order to have ample water pressure available for city residents during the summer, Bayne said.

**AND \$38,500** is needed immediately to provide sewer service to La Plata Junior High School, now under construction in northwest Hereford, where existing sewer lines will not handle the addition next fall of the school's wastes.

Another major item included in the proposed bond issue is extending municipal water and sewer service to South Hereford.

**TOTAL COST** of this expansion would be some \$221,168. See **ABSENTEE** Page 2

### Only Two Absentee Votes Cast

Hereford Independent School District's first uncontested trustee election in a decade comes off Saturday with balloting for three board posts being sought only by incumbents.

And county voters may vote in elections for the county school board and the Walcott School board the same day, with these elections also uncontested on ballots.

Only two persons took advantage of the absentee voting period which ended Tuesday for the Hereford schools board election.

**POLLS FOR ALL** three school board elections will open at 8 a. m. and remain open until 7 p. m. Saturday.

A total of 3,801 persons are qualified to vote in the county, but a light turnout is anticipated for each of the elections.

**SEEKING** re-election to the Hereford schools board are Olin Parris, Hugh Clearman, and Bill Gentry.

Names of candidates for the county and Walcott school boards elections were placed on ballots by petition of qualified voters.

### Cropland Signup Underway For USDA Programs

The Cropland Adjustment Program — available in 1966 for the first time — offers major advantages to farmers, Frank J. Bezner, Chairman, Agricultural Stabilization and Conservation, said. Signup in the program now is under way at the ASCS County Office.

**THE PROGRAM** is designed to fill a need not quite met by the annual acreage allotment and diversion programs in achieving and maintaining supply-demand balance for farm products. It is also expected to provide more hunting, fishing, and other opportunities for outdoor recreation.

**CAP** is especially attractive to farmers who want (1) to shift from production of surplus crops to other activities, (2) to retire gradually from farming while continuing to live on the farm, (3) to continue working off the farm, or (4) to take advantage of other local employment opportunities.

**FARMERS** participating in CAP will receive adjustment See **CROPLAND** Page 2

### MARKER DEDICATED

## County Conducts Routine Business

Deaf Smith County Commissioners heard a report from the County Historical Survey Committee concerning progress towards establishing a local museum and then attended a dedication ceremony for an official Texas Historical Marker in the county Monday.

In a light session, the commission also handled several other items of routine business, including the purchase of a tractor and backhoe loader by bid.

**COMMISSIONERS** accepted the low bid from Case Power and Equipment of \$6,433.65 for the equipment. A total of four bids from local implement houses were received for the item.

**APPEARING** before the commission was the historical survey committee to outline its current projects and particularly progress towards beginning a local museum.

Mrs. Elmer Patterson, committee chairman, told the commission that the idea of establishing a museum here "has definitely not been abandoned" and that work would begin soon to collect and catalogue items for the museum.

Commissioners have discussed the matter on numerous occasions and have designated the former Catholic school now owned by the county to house collections, at least until a more suitable location can be obtained.

Later, the commission accompanied the historical committee to a site 4.2 miles south of Hereford on U. S. Hwy. 385 for the official dedication of the re- See **COUNTY** Page 3

### STUDENTS GET EXTRA HOLIDAY

## Board OKs Pre-School Work

In a called meeting Tuesday morning, the Hereford school board handled several items of routine business which included setting the dates of Apr. 8-12 for Easter vacation.

Also approved were plans to continue the pre-school summer classes for non-English-speaking students who will enter the

first grade next year.

**THE PROGRAM** has been conducted for several years and, according to officials, apparently is advantageous for Latin American and other youngsters who do not freely speak the language.

Concerning the Easter school holiday, it was pointed out that

the winter's less-than-usual interruption of school made it possible to dismiss classes an extra day and still meet the state's required number of school days.

**CLASSES WILL** dismiss Thursday afternoon April 7, and not convene again until Wednesday, April 13.

Originally, the school calendar had called for school holidays on Friday and Monday, only.

**THE SUMMER** classes for non-English-speaking children are designed to offer students a basic knowledge of the English language in order to better prepare them for the first grade.

Transportation to and from the classes will be provided by the school.

Further details and date for registration will be announced.

**IN OTHER** business, the board accepted the resignations of teachers Melba Michael, Nancy Pannel, Wanda Zavada, Lloyd Payne, Johnny Griggs, Jan Griggs, Mary Jean Morris, and Virgil Young.

The board also elected two new teachers, Eleane Tim and Donna Ivy.

## Deadline Today For Vehicle Tags

A host of last-minute vehicle registration tag purchasers is expected today in the county tax office at the courthouse as

this afternoon's 5 p. m. deadline for purchase of the plates arrives.

**VEHICLE** owners found long lines at the tax office seeking 1966 vehicle tags during most of the week, according to tax assessor-collector Nell Miller.

As of Wednesday afternoon, a total of 4,785 automobiles had been registered in the county, plus 2,479 trucks.

**TAX OFFICE** officials said the office will remain open during the noon hour today to take care of vehicle tag purchasers, as it has for the past several days.

It was pointed out that tags must be on vehicles by Friday. Beginning at 12:01 a. m. Friday, vehicles on public streets and highways which do not bear 1966 registration tags will be subject to ticketing by law enforcement agencies.

**FINE FOR** operating a vehicle with expired registration tags could be up to \$200.

Vehicle owners were also reminded that 1966 safety inspection stickers must be in place on cars and trucks before April 15.

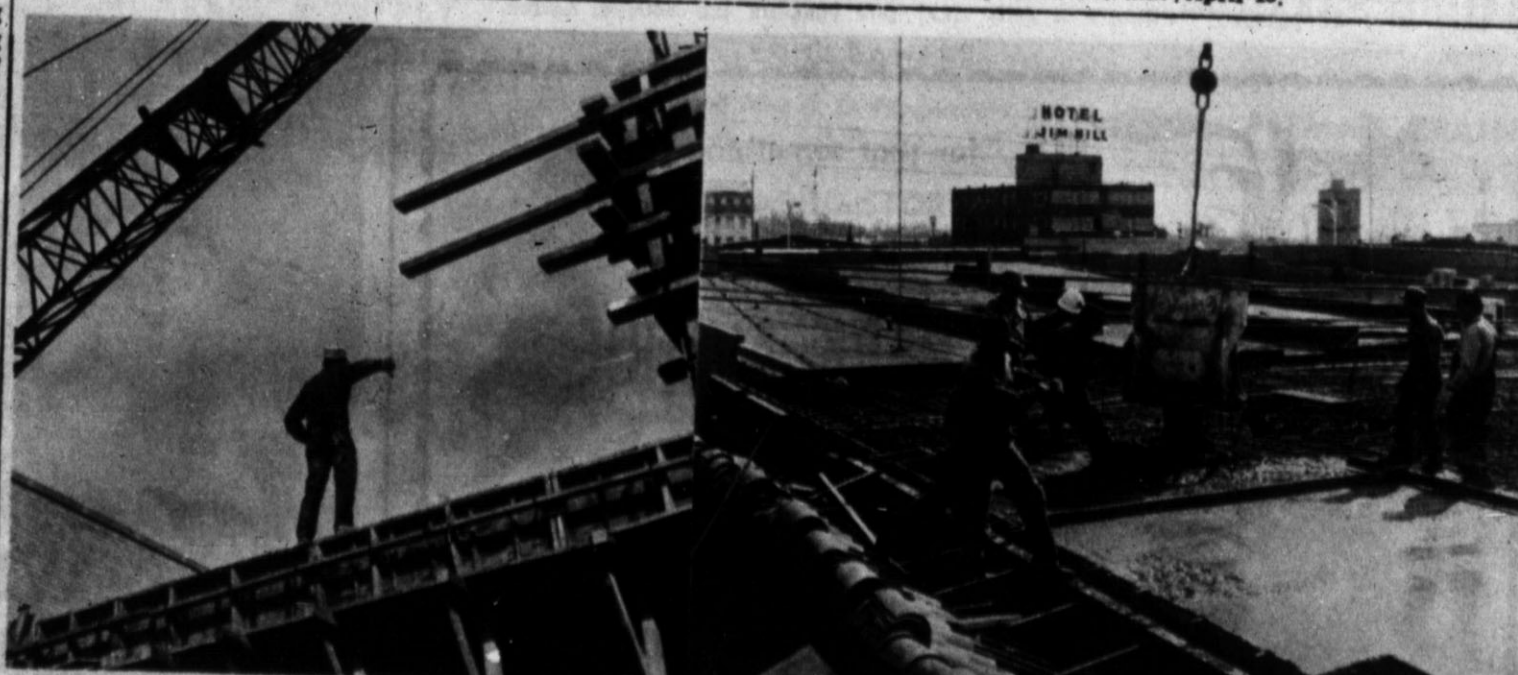

## Spelling Bee Winners Named, Contest Slated

Deaf Smith County Spelling Bee and Junior Spelling Bee will be held Monday and Tuesday and contestants for the annual event have been named following eliminations in each school.

The Junior Spelling Bee will be held Monday at Bluebonnet School, where two contestants from each elementary school in the county will compete for honors.

**THE COUNTY** Spelling Bee will be held at 2:30 p. m. Tuesday in the Hereford High School Cafeteria, with seventh and eighth graders competing.

Winners of the junior bee will also be eligible to compete See **SPELLING** Page 2

**BIG JOB** — When it came time to pour cement for roof and structural supports for the addition to Southwestern Bell Telephone Co. facilities here, a huge crane came into use and created these scenes of the Fourth and Miles location. The addition is to house phone interchange expansion and also equipment to make possible the installation of "Touch-Tone" push-button phones here this summer—the first such system in the state for Southwestern Bell. ## Fire Total For Month Hits 32 As Dry Weather Here Continues

Continued dry weather and other factors have combined to keep firemen busy again this week, with the latest of a series of grass fires bringing the total number of fire alarms for the local department to 32 during the month of March.

Firemen pointed out that grass

fires continue to be the most frequent problem, as the county has received just .9 inch of moisture since the first of the year.

Fires thus far this year have greatly exceeded the county's normal total. Carelessness has been blamed for many of the grass blazes and other alarms.

### HHS Teacher Earns Grant For Institute

Earl Eugene Keese, a member of the Mathematics Department of Hereford High School, has been awarded a grant by the University of South Carolina to attend the University's academic year institute for high school teachers of mathematics, according to an announcement by Dr. W. L. Williams, institute director. An allowance is also provided for travel, dependents, and textbooks.

The institute, made possible by a grant from the National Science Foundation, will run through the academic year beginning in September. Its purpose is to provide teachers with an opportunity to improve their subject matter competence to gain a better understanding of some of the modern and basic concepts of mathematics, to increase their skills as teachers, and to strengthen their ability to inspire their students to choose careers in mathematics.

Dr. Williams stated that approximately 300 applications were received and that Keese was one of the 30 applicants who was accepted.

### Absentee . . .

(Continued from Page 1)  
Bayne said. However, it was pointed out that this will be the only bond expenditure needed in the near future for serving all of the city located south of Tierra Blanca Creek — which appears to be mushrooming with recent and planned housing and industrial developments.

Much of the proposed projects are needed immediately, it was emphasized. OFFICIALS hope to get three new water wells in operation prior to the summer peak water usage period, which would strain existing supplies unless new ones are added.

Officials have stressed the point that passage of the proposed tax bonds would not increase city taxes in the foreseeable future.

IT WAS ALSO pointed out that a light vote could defeat the issue, as those opposing an item generally are more determined to get to the polls in any election.

The City of Hereford has never had a bond proposal turned down by city voters, however.

In October, 1963, voters approved a \$500,000 bond issue for water and sewer expansion to the tune of 21 for and 66 against, with a total of 385 votes cast.

MINSTREL VOCALISTS — Among local talent participating in the Hereford Lions Club Minstrel in Review Friday and Saturday nights will be Chuck and Mary Kay Everitt, top, who do a song and dance routine; and Don Chaney, bottom right, who will sing a popular ballad accompanied by the high school stage band. Guitarist Olin Nelson is shown with Chaney. (Staff Photos)

Four representatives of Deaf Smith County Red Cross Chapter attended a meeting of the combined service territory at Perryton Monday, and heard an explanation of changes in the Red Cross blood bank program and an outline of the youth program.

Hereford will be host to the next territory meeting, in June. Melvin Jayroe, Deaf Smith Chapter chairman; Mrs. Clint Forby, youth chairman; Mrs. Henry Sears, blood program chairman, and Mrs. Genevieve Miller, executive secretary, represented this country at Perryton.

Archie Williams of the Wichita, Kan., Red Cross Blood Center, discussed that program. Miss Mary Carruthers, regional director of Red Cross youth activities, was a visitor from the Midwestern Area office at St. Louis to speak of her phase of work.

A film was shown to illustrate the organization of a combined service territory, which embraces a number of county chapters.

### Slate Changes Give Stanton Runners Rest

Stanton Junior high thinclads will get a two-week rest from competition.

A meet at Springlake was scheduled earlier this season for Saturday, but was changed to Mar. 19 and has already been run.

Another meet was scheduled at Levelland for Apr. 7 and officials from Levelland called this week and postponed that tournament.

Hereford will go back into action Apr. 15 when they will host the Hereford triangular meet here at Whiteface Stadium.

### ONE MINUTE, PLEASE

THE CHURCH I LOVE . . . IS TAUGHT TO GROW IN GRACE AND KNOWLEDGE (20th in a series)

"But grow in the grace and knowledge of our Lord and Savior Jesus Christ." (II Peter 3:18).

Jesus said, "Truly, I say to you, unless you turn and become like children, you will never enter the kingdom of heaven." (Matthew 18:3). The Lord further said, "Unless one is born of water and the Spirit, he cannot enter the kingdom of God." (John 3:5). When God "delivered us from the dominion of darkness and transferred us to the Kingdom of his beloved Son, in whom we have redemption, the forgiveness of sins," (Colossians 1:13, 14), we came into the church as new creatures, new born babes. It makes no difference whether we are 20 years old or 60 when we are born anew, we are still babes in Christ. And we need to grow in grace and knowledge.

The writer of Hebrews rebukes the Christians of the first century for not growing and maturing as they should have. They had time to grow since they experienced the new birth, but had not taken advantage of their opportunity. "For though by this time you ought to be teachers, you need some one to teach you again the first principles of God's word." (Heb. 5:12).

"So put away all malice and all guile and insincerity and envy and all slander. Like newborn babes, long for the pure spiritual milk, that by it you may grow up to salvation." (I Peter 2:1, 2).

Christians are to continue "building up the body of Christ, until we all attain to the unity of the faith and of the knowledge of the Son of God, to mature manhood, to the measure of the stature of the fullness of Christ; so that we may no longer be children, tossed to and fro and carried about with every wind of doctrine, by the cunning of men, by their craftiness in deceitful wiles. Rather, speaking the truth in love, we are to grow up in every way into him who is the head, into Christ, from whom the whole body, joined and knit together by every joint with which it is supplied, when each part is working properly, makes bodily growth and upbuilds itself in love." (Ephesians 4:12-16).

# GRACE

... that is greater. Grace that comes from God. Grace that has survived both victory and defeat. Grace that comes through long years of gentle conduct and tender devotion and utter dependance in each other. That's what these life-long partners have been able to garner. *God united them and they have depended on Him to keep them.* They gave over the control room of their lives to God. Devotion to His cause has sweetened the influences they exert. It hasn't been hard for them to keep up their church attendance record, nor administer to the sick, nor give to the poor. It made a difference when they placed their lives in the hands of God. *It will make a difference with you too, for Blessed is the man that walketh in the path of righteousness.*

## Survey Suggests Bobwhites OK

Post-season quail counts in the Texas Panhandle indicate that bobwhites weathered the cold, heavy snow periods of the last two months with less losses than expected, according to Wildlife Biologist Richard DeArment.

The Texas Parks and Wildlife Department's staffer pointed out that bobwhites went into the winter season in excellent condition weighing around 202 grams in December and 208 grams in January. Normally bobs weigh around 190 grams at mid-winter.

The added layer of fat plus adequate habitat in much of the Panhandle accounted for the unexpected survival of many bobwhites.

The search continued through Saturday evening and Sunday morning until the two were spotted west of Hereford on the Clovis highway by a couple on their way into town to church. A sheriff's unit then went out and picked the boys up and found that they had been on an overnight camping trip and were still headed west when they were picked up.

AT ONE TIME during the search some 19 units of the local Citizens Band Radio Club, two units of the fire department, and the police department were searching the city for the boys. The group covered the city and decided that the boys must have left town. An all-points bulletin was sent out by the local police department. An unconfirmed report from an Amarillo resident reported spotting the boys on East 10th St. in that city, but was later disproved.

### Funeral Rites Conducted For Charles E. Hood

Funeral services for Charles Ernest Hood, 78, were conducted Monday afternoon in First Methodist Church by the Rev. Herschel Thurston, pastor, and the Rev. Eugene Suttle of Dawn Baptist Church. Burial was in West Park Cemetery with a flag ceremony by the Hereford Post, Veterans of World War I, of which he was a past commander. Mr. Hood died Saturday in Deaf Smith County Hospital.

He was a native Texan, born Nov. 4, 1887 at Post Oak, and he married Bertha Williams in February, 1932 at Vashiti. Mr. Hood was a member of the Methodist Church, and a memorial fund has been established in his name for the Methodist Children's Home. Survivors include his wife; three daughters, Mrs. Hershel Miller Jr. of Dawn, Mrs. Gene Moore of Titusville, Fla., and Mrs. Tom Wilson of Eastland; four sisters, including Mrs. T. W. ### ACS Gifts Aid In Search For Leukemia Cure

There are signs that leukemia — the long-dreaded cancer — of the blood-forming organs — may be conquered in the foreseeable future. Advisor for the Deaf Smith County Unit of the American Cancer Society commented that "It would be both foolish and cruel to arouse hopes before they can be justified—but there is good ground for cautious optimism about the prospects for the conquest of leukemia." Among the reasons for such "cautious optimism," Dr. Mims mentioned: —RECENT research has yielded findings which suggest that viruses may have a causal role in human leukemia. If leukemia is caused by a virus, the chance is heightened of finding a pre-chemical treatment, or a combination of the two. —Continued discovery and improvement of drugs and other forms of treatment which can extend the lives of leukemia patients from weeks to months, or even years.

"IN SPITE of these encouraging aspects of the situation, however," Dr. Mims continued, "at present leukemia still remains an incurable disease. There will be an estimated 18,000 new cases of it during the coming year, and there will be roughly 14,000 deaths from the disease over the same period. "What's needed is research, more research, and still more research."

TO HELP meet the urgent demands on this research front Dr. Mims pointed out that the American Cancer Society grants more funds to leukemia and related studies than to any other type of cancer. As of March 1, 1965, there were 83 grants for research related to leukemia for a total of \$2,500,831. This brings the Society's support of leukemia research to almost \$15,000,000 over the last eight years. "More needs to be done," Dr. Mims emphasized. "If leukemia is caused by a virus, we must identify it. If a test to diagnose leukemia before the disease shows symptoms, is possible, it must be discovered. Most vital of all: if a preventive vaccine or curative form of treatment is possible — we need it as quickly as it can be found."

In summing up, Dr. Mims declared that "Cancer Research holds out perhaps its brightest promise in investigation of leukemia. But that very research demands unremitting support financially. Just when leukemia will be conquered none of us can say. But contributions to the ACS Crusade Against Cancer here in Hereford will bring the day measurably closer.

### Local Club To Handle Crusade

Organizing for the business drive of the Deaf Smith County Cancer Crusade, Hereford Jaycees at their meeting Tuesday heard instructions to team captains and workers from Harold Kids and Andrew Shoval, drive chairmen, and U. G. Berry, business chairman of the Potter-Randall County crusade. MAPS SHOWING division of the city into six sections, each with a team captain, were distributed by Shoval. Captains are Bob Stevenson, Chuck Everett, Jerry Fowler, Dale Barkley, Jim Vines and Kent Turner. Each was assigned a group of workers, and materials were passed out. Berry answered questions and gave pointers on conducting a business crusade for the American Cancer Society. He suggested training sessions for volunteers before the drive begins. IN ADDITION to collecting money from businessmen and their employes, volunteers will distribute life-saving information concerning detection and treatment of cancer. They will also distribute facts on how business can have a planned employee program of giving through the year. This program provides for employees and employers, throughout the year, to designate a certain amount each month to be set aside for a gift to the American Cancer Society. Also present at the Jaycee meeting were Mrs. Armon Launderback, crusade chairman, and Mrs. Edwin Axe, publicity chairman in the Deaf Smith County Cancer Society.

### Water Depletion Rule Explained For Exemptions

WASHINGTON, D. C. (Special) —Congressman Walter Rogers said today farmers entitled to water depletion tax allowance for 1962 may protect their rights to tax refunds even though preparation of technical data has not been completed by the April 15 deadline. The Congressman said he had consulted with officials on the Internal Revenue Service because many Panhandle-South Plains farmers had indicated they would not be able to obtain the information to support their claims by April 15. "Taxpayers who believe they are entitled to depletion on water for 1962 should file protective claims for refund with the District Director of the Internal Revenue Service before April 15, 1966, estimating the amounts of depletion and tax refunds to which they are entitled," Congressman Rogers said. Congressman Rogers said he had been assured by Internal Revenue Commissioner Sheldon S. Cohen that "protective claims covering water depletion for 1962 filed on or before April 15, 1966, will be considered, pending the furnishing of the most exact information required."

# Hereford High-Jinks

by Randy Hopson

The year's at the spring  
And days at the morn.

**Browning**  
Even if the wind does blow  
and it is occasionally chilly in  
the morning spring has finally  
come to H. H. S. Students are  
oblivious to anything other than  
the fact that spring is here.

Tuesday afternoon the Here-  
ford Whiteface baseball team  
battled it out once more with  
the Tascosa Rebels. Practice  
makes perfect and it won't be  
long before district competition  
is underway. Make it a point  
to attend the game Friday af-  
ternoon against Bovina High  
here.

Last week end two former H.  
H. S.'ers were in town visiting  
friends. It was nice to have  
Cliff and Greg Crowell back in  
town if only for a week end.

**SUPER-BALLS** are the cur-  
rent rage or fad for entertain-  
ment. They are so much fun  
to play with that even some of  
the teachers have been seen  
hunting for them after they  
bounce away.

If by chance you think that  
fashion has gone completely  
mad it will only be because Fri-  
day is Slave Day. The upper-  
classmen have the opportunity  
of doing what they will with the  
underclassmen, within reason  
that is. So, if on Friday you see  
some odd character coming

down the hall, don't turn and  
run the other way, it's only a  
slave.

Spring is bringing many chan-  
ges and among them are shor-  
ter hair styles. Among the  
girls. Several females with re-  
cent hair-cuts are Nancy Smith,  
Camille Pavlichek, Gwyn Cargo,  
and Judy Summers to name a  
few. Judy not only has a shor-  
ter hair style but is also now  
wearing contact lens. You have  
to look twice to be sure it is  
Judy.

**IT IS REALLY** good to know  
that some of our athletes take  
an interest in things more "cul-  
tural" than athletics. For one  
example Mark Hicks is a great  
puzzle fan. Oh, well.

Don't forget what will be com-  
ing up this next week. So hit the  
books now and save a little  
time.

Don't forget the game with  
Bovina here tomorrow. Support  
the boys and give them encou-  
ragement. It's not just the idea of  
winning so much as the sports-  
manship behind it. But then of  
course, no one really likes to  
loose.

For Wynn Buck:  
A stale article, if you dip it  
in a good, warm, sunny smile,  
will go off better than a fresh  
one that you've scowled upon.

### Story Music From Play Combined For Program

Music from the stage and screen production, *Sound of Music* with a review of the book on which it was based, made up the program of Music Study Club Monday afternoon in the home of Mrs. Lowell Sharp. Mrs. Bill Lankford shared hostess duties with Mrs. Sharp.

Mrs. W. S. Fisher, program leader, reviewed *The Story of the Trapp Family Singers* by Marie August Trapp, the true story which was the subject for the musical play. It tells of the family's loss of property and wealth in World War II, and their successful efforts to form a choral group which finally became world-renowned on concert stages.

Hammerstein's songs for the play which is a currently popular movie was sung in a medley by the club chorus directed by Bob Wert. Tunes from another Rodgers-Hammerstein musical, *South Pacific*, were played as a piano medley by Mrs. Sharp.

Election of delegates to the Texas Federation of Music Clubs convention was the principal business, Mrs. T. W. Roberson was named delegate and Mrs. A. O. Thompson alternate. Mrs. Thompson is a state board member. The convention will be held Sunday and Monday at Six Flags over Texas near Arlington.

Mrs. Tommy Phillips and Mr. Wert were guests of the club. Members present included Miss Frances Dameron, Mmes. Clyde Estes, Paul Lyons, Frances Parker, A. J. Schroeter, Dale Young, W. T. Thompson, W. T. Carmichael, R. P. Conaway, J. R. Allison, Bill Brady, Eugene Brink, Ellis Coombes, B. Y. Crosthwait, Bill Dameron Roberson Fisher and A. O. Thompson.

### Garden Club Delegates Attend District Meet

Delegates from Hereford Garden Club and Bud to Blossom Club, affiliates of Texas Garden Clubs Inc., attended the 14th annual convention of District I in Lubbock Tuesday and Wednesday. Mrs. O. G. Hill Sr. of Hereford is district governor.

She presided for the Wednesday business session and presentation of awards, and at the district board meeting at a buffet dinner Tuesday evening. Mrs. A. L. Manjeot, district treasurer, conducted a conference on finance Wednesday.

District I judges met Tuesday afternoon in a pre-convention event to hear a talk by Mrs. C. B. Martin on the subject, *Art Is Where You Find It*. A tea followed this program and a get-acquainted party entertained visitors after the board dinner.

Theme of the entire program was *Three-Dimensional Look in Garden Clubs*. The Wednesday morning session was preceded by a breakfast for club and council presidents and zone directors, with Mrs. John P. Gammill of Kermit, Southern Zone director, presiding.

Mrs. Hobert Nelson of Lubbock, district vice governor, presided at the luncheon at which Mrs. Dale Smith of Big Spring was the speaker. Her topic was *Liberating Materials in Slower Arrangement*.

Mrs. Smith has been a guest speaker to garden clubs here, discussing abstract flower arrangements. She used fresh flowers to illustrate her talk at Lubbock, rather than the dried blossoms and inert material used in her demonstration here.

An optimist is a man who checks into a hotel in a sport shirt and no luggage and tries to cash an out of town check.

About the time the dirt starts blowing, and we get to feeling "down in the dumps," along comes a letter from Corinne Neely to boost our morale. Corinne always manages to say the nicest things. We appreciate her more than she knows.

A sign near Honda, Texas:

"This is God's Country. Don't drive through it like hell"

Also seen on the highway recently: A Volkswagen towing a Cadillac.

Going down hill of course.

Don't forget the school trustee election, Saturday, April 2, and the city election Tuesday, April 5.

There is no opposition in either the trustee or city commission race, but everyone should vote regardless. If these are the

people that you want to guide the schools and the city for another term, then go by and at least give them a vote of confidence.

Also to be voted on Tuesday, April 5, in connection with the city commission election, is a \$610,000 tax bond issue for expansion of the water and sewerage systems. A light vote could spell defeat, so it is important that everyone interested in seeing this bond issue pass, should come out and vote.

City voting will be held in the Tax Office at City Hall.

Some of the money from the above tax bond issue will be used to supply water and sewer facilities for the new La Plata Jr. High School located in Northwest Hereford. Extensive sewer work will be needed in this area, and probably a pump station to assure adequate water pressure for residents as well as the school.

This bond issue is important to all of us. Let's get out and vote.

The Deaf Smith County Historical Survey Committee is now laying the ground work towards the eventual establishment of a museum in Hereford. The committee, headed by Mrs. Elmer Patterson, reported their progress to the County Commissioners Monday preceding the dedication ceremony for MacKenzie Trail historical marker.

Present plans call for the use of the old Catholic School building as a collection point for historical items and artifacts for the museum. There will be more on this as soon as a committee is selected to take care of the task of receiving museum items. The committee is working hard to see that a museum is established here, and we should give them all the support possible. Certainly there will be many problems to overcome, but this looks like a logical place to start.

Meanwhile, the Hereford Lions are working hard, and fast making plans for their upcoming District 27-1 Convention to be held here about the middle of April. This should be one of the biggest ever to hit Hereford, and should set the pattern for many more in the future.

Hereford is becoming known as a convention city. Our local citizens apparently go all-out to make the visitors welcome, and this goes a long way towards assuring a return trip at another date. Let's keep up the good work.

A swift-driving motorist lost control of his car and ran into a telephone pole. When he came to his senses, he was on the ground clutching telephone wires.

"Thank goodness," he murmured, "it's a harp."

Mrs. J. B. Noland placed the crown on her grandmother's head after a reading, This Is Your Life. Songs were by a quartet, the Boyers with J. B. and Larry Noland; a duet, Vickie Kendall and Becky Owens; a trio, Brenda, Barbara and Becky Owens; and soloists, Donna Kendall, Betty Owens and a long-time family friend, Mrs. Hattie McGuire of Clovis, N. M.

Voter Register Turnout Six Times That Predicted

By VERN SANFORD Texas Press Association

AUSTIN — Texas has some 615,000 new voters as a result of the March 3-17 free registration period.

Turnout was six times larger than state officials had predicted and could be an indicator of a dawning new era in Texas politics.

MORE THAN half the total came from four big counties — Harris with an estimated 100,000; Dallas with 96,617; Bexar with 88,100 and Tarrant with 50,662.

Gubernatorial candidate Stanley C. Woods and two members of the State Democratic Executive Committee are attempting to intervene in the federal court action resulting from the poll tax suit and force reopening of the registration period.

They are urging the court to allow registration up until 30 days before each election.

Atty. Gen. Waggoner Carr is strongly opposing the motion — arguing that all Texans interested in voting this year had ample opportunity to sign up during the 15-day period provided by the Legislature.

FEDERAL JUDGES have promised a decision — after they review evidence — on whether the period would be lengthened.

Carr has submitted a 7,500 — page report (including 2,500 newspaper articles from 500 Texas newspapers) to support his claim that everybody who wants to vote got a chance to qualify.

APRIL ALLOWABLE RAISED Texas Railroad Commission, at a time when oil demand usually lightens, has raised state oil allowance for April to 33.7 per cent of potential.

Increase was the seventh straight monthly boost. Only once before in the last 20 years has April allowable been higher than March.

New allowable permits maximum production of 3,199,550 barrels a day. March operation is under 33.2 per cent of potential factor, permitting production of 3,170,316 barrels daily.

FEDERAL FUNDS

Texans hope to have eight new programs approved by the federal government by April 1 to launch a venture to promote technical services for business and industry.

Under the State Technical Services act of 1965, programs approved by the U. S. Department of Commerce would make available new scientific and technological discoveries to inquiring businesses, industries and commercial enterprises.

Texas now is seeking \$144,000 for the last quarter of this year to get the requested programs started at Texas Woman's University, University of Texas, Texas A&M University and Southern Methodist University.

Federal funds fully support these planning programs.

THESE EIGHT fields have been suggested in proposals submitted to the Commerce Department:

Texas A&M — Training formation specialists, chemical engineer workshop; electronic corporation managers; primary metal industry and petroleum industry workshops.

University of Texas — Continuing education for engineers. Southern Methodist — Technical information services. North Texas.

Texas Woman's University Activation analysis workshop.

DRAFT QUOTA DOWN

Col. Morris S. Schwartz, State Selective Service director, says 979 men will be called to fill the April draft quota. This is the lowest call since August, 1965.

Monthly calls in the period from March ranged from a low of 1,968 to a high of 1,523.

Pre-induction physical and mental examinations will be given to 3,905 men during April. This also is a reduction from March, when 5,515 were tested.

During the same period, he said, men classified as students rose from 85,000 to 104,000. At the end of January, there were 106,000 men classified in 2-S as students.

EDUCATION COMMISSIONER

Gov. John Connally has announced approval of Community Action Program grants for El Paso (\$246,988); Dallas (\$46,905); Waelder (\$21,915); and Lockett (\$649).

Land Commissioner Jerry Sadler has announced that more than 515,000 acres of submerged lands off the coast of Texas of uplands and riverbeds, most of them in far West Texas, will be offered for oil and gas leases at the Lease Sale to be held in the General Land Office on May 3.

TEXAS CRIME rate increased nine per cent last year, to 2,967.2 for each 100,000 population, for an all-time high of 284,249 offenses, according to Col. Homer Garrison, Texas Department of Public Safety director.

Texas Water Pollution Control Board will send a representative to the Rio Grande Valley to consult on cleaning up the Arroyo Colorado Watershed from Harlingen area to Gulf of Mexico.

Autos must have safety checks by April 15 inspection deadline and Department of Public Safety says more than 1,300,000 cars still are to be inspected.

Attorney General Carr has announced recovery of \$4,830 in judgments from two defendants for allegedly operating slanted

NAMED

Dr. Jack Kenny Williams, Clemson University dean and academic vice president, is Texas' new Commissioner of Higher Education, at a \$40,000-a-year salary.

Coordinating Board, Texas College and University System unanimously selected Dr. Williams offering him \$15,000 more than the governor makes. Some \$17,500 of the total salary will come private foundations or from members of the coordinating board itself. On August 1 Dr. Williams will assume his far-ranging duties — Coordinating activities and planning of 22 state supported senior colleges and universities and 32 public junior colleges.

BOARD SET hearings for April 4 on staff recommendations for new role and scope of state educational institutions to overhaul and strengthen the system. Final decision is due April 18. East Texas State University is protesting proposed loss of its doctoral programs and reduction to college classification. Texas Southern University wants to hang onto its law school, which the Board staff feels should be eliminated.

After requesting an attorney general's opinion on its responsibility to pass on college buildings financed by general revenue, Board approved \$1,800,000 library buildings financed by general revenue. Board approved \$1,800,000 library addition for Texas College of Arts and Industries, Kingville, and endorsed purchase of Rosemont Apartments and land by Angelo State College, San Angelo, for \$350,000. Apartments are being used for student housing.

IMPORTANT ADDITION

Securities Commissioner William M. King believes a recent decision by the Texas Court of Criminal Appeals is an important addition to the legal protection afforded Texas investors against fraudulent practices in the sale of securities.

Court held that misrepresentation of material facts in offering securities for sale is a crime under penal provision of the Texas Securities Act.

SHORT SNORTS

Gov. John Connally has announced approval of Community Action Program grants for El Paso (\$246,988); Dallas (\$46,905); Waelder (\$21,915); and Lockett (\$649).

## Small Talk

By SUE COLEMAN  
Women's Editor

By my grandmother's calculations, the recent freeze that nipped our spring blooms was the Equinox Spell and the next one will be the Easter Spell. After that it will be safe to put the winter woollens away.

**WEATHERMEN** now talk about cycles and fronts and pressure areas, but grandma's spring "spells" seem to come around rather regularly, one about the time of the vernal equinox, or first day of spring, the other some two weeks later, about the average date of Easter (if you can average anything as variable as the date of Easter.)

Of course it isn't a sure thing that the temperature will get down to freezing, or even in threatening distance, but — well, betternot put all the woollens in mothballs quite yet.

**THERE'S SOMETHING** about my request for a rice pudding recipe which prompted long-distance response.

If you've already tried the ones that came from Waco a week or two ago, maybe you're ready for another, which was sent by a former resident whom many Deaf Smith County women will accept as an authority on recipes, Sadie Lee Oliver.

After service as Home Demonstration Agent here several years, Miss Oliver went on to higher positions in Extension Service before she retired to devote time to the care of her aged mother and the family home and farm near Belton.

She has kept in touch with Hereford people through subscription to the Brand, and says in the nice note she sent with the recipe, that her copy is always read by six or more families.

She recommends this recipe because the pudding can be mixed quickly, put in the oven and left to bake while the remainder of the meal is prepared. It does sound easy and good.

### RICE PUDDING

- 1 cup rice
- 4 cups milk
- 1 tsp. salt

1/4 to 1/3 cup sugar (4 or 5 lb.)  
1/2 stick butter (4 tb.)  
Mix and place in 350 degree oven for an hour or until done. It can be stirred once but this need not be done.

"We like it plain as above," Miss Oliver adds, "But variations can be made by adding 1 tsp. vanilla, or raisins, or cinnamon, or other flavoring."

**WHICH REMINDS ME** that as children we liked rice pudding better when Mother chopped up stewed dried peaches or apricots and added them. Or you can always put in some chocolate — with a little extra sugar, of course.

**WOMEN** are taking over men's jobs so completely that another example is no occasion for surprise. But last week I saw two women doing rather unusual types of work.

One was at a construction site out in the Bluebonnet Addition, sawing away. Several men were working on the foundation of a house and she apparently was just one of the crew.

Looked like she knew exactly what she was doing, too, but she wasn't trying to fool anybody about being a woman. Her hair was tied with a bright yellow scarf, the ends fluttering gracefully in the wind.

Another lady worker, who apparently was a teenager, was sitting flat on the driveway in front of a car busily turning the screws to fasten a new license plate in place.

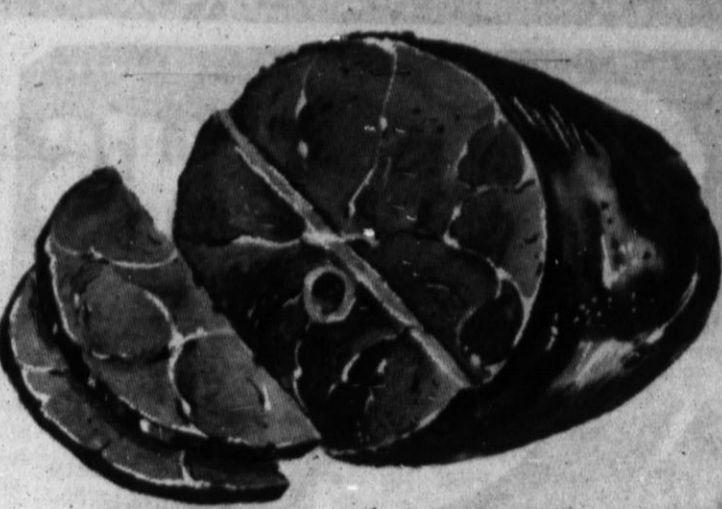

**MAYBE IT WON'T HURT** to remind you not to take any wooden nickels tomorrow, it's April Fool's Day, you know.

LET'S COOK SOMETHING!

# Bean Salad Has Extras

By SUE COLEMAN  
Women's Editor

When she goes to a church supper or family gathering, it's a pretty safe guess that Mrs. Ira Ricketts will be asked to bring a dish of her special bean salad. Those who sample it agree that it has an "extra something" and Mrs. Ricketts doesn't mind telling her secret. Basically, she makes it by a recipe which is generally used, but she does have her own variations. First, here is the original recipe, without Mrs. Ricketts' special touches:

- THREE-BEAN SALAD:**  
 1 No. 303 can cut green beans  
 1 No. 303 can cut yellow wax beans  
 1 No. 303 can red kidney beans (this is where one change will be made)  
 1 small green pepper, finely chopped  
 1 small onion, finely chopped  
 1/4 cup sugar  
 1 tsp. salt  
 1/2 tsp. black pepper  
 1/2 cup vinegar  
 1/2 cup salad oil  
 Drain liquid from all beans. Place beans in a glass bowl and mix in the pepper and onion. Combine the other ingredients and put over the bean mixture. (Another change will be made here). Mix well and refrigerate until ready to serve.

This is best if mixed a day before serving so the vegetables will be marinated. For a crisp texture, thinly sliced celery may be added. This recipe serves 10 or 12.

**NOW FOR MRS. Ricketts' changes.** First she uses, instead of the red kidney beans, a pint jar of pinto beans which she cans herself. They are shelled beans, mature but not dried. Or she says dried pintos may be soaked and boiled without seasoning, and substituted.

Second, she mixes the sauce to pour over the beans, and heats it to boiling instead of pouring it on cold. She has found by experience that this salad, if kept in the refrigerator, will remain crisp and good for as long as two weeks "and maybe longer; I haven't kept any longer than that."

**BOTH MR. AND MRS. Ricketts** are old-timers in Hereford, who came here about the turn of the century, she from Navarro County, he from Ellis County. They are heads of a clan which holds a reunion here each summer with dozens of relatives attending.

Ready to celebrate their 60th wedding anniversary this year, they have five children living and boast 27 grandchildren and 50 great-grandchildren. Mrs. Ricketts was Miss Annie Hughes before they married here in 1906.

The couple lived on a farm many years before moving into Hereford. They are long-time active members of First Christian Church.

Mrs. Ricketts learned to cook and sew when she was growing up, along with other household tasks which girls were expected to know by the time they were in their teens.

**SHE REMEMBERS** the first dress she made, when she was eight or nine years old. The material was calico, from a dress of her mother's, and she sewed it all by hand with her mother supervising to see that all stitches were properly done and the seams substantial en-

ough that it would last well.

Hand sewing is a hobby now she is not so active, although in the intervening years she made many a garment by machine. She pieces quilts for pastime, and often uses the sewing machine to stitch together blocks which she pieced by hand. That way, she doesn't get tired of doing either, she explains.

**MOST OF THE** beautiful quilt tops she completes go as gifts to family members and friends, although she occasionally sells one. Working on one in wedding ring design, she showed others in dahlia and ship patterns, and one made from the ends of men's neckties in a

## Adrian School Board Election Set Saturday

A contested election for two Adrian School Board posts will be held Saturday. Voting will be in the school building at Adrian, with the polls open from

colorful hit-or-miss design. Another major interest of Mrs. Ricketts is her yard, where she cultivates a variety of flowers and is credited with the proverbial green thumb.

The Ricketts' children are Mrs. Clyde Russell, who lives northeast of Hereford, Mrs. Howard Higgins of Texline, Mrs. Archie Dougherty of Clovis, N. M., Mrs. Luke McBrayer of Dalhart and Glenn Ricketts, a minister at Artesia, N. M.

8 a. m. to 7 p. m. J. M. Boothe, Charles Dean Durham Sr. and Jesse Fincher are candidates for the first time, opposing incumbents Oscar B. Bronniman and G. D. Webb for the two positions.

At a recent meeting the Adrian Board reelected all the faculty and auxiliary employees of the school for another term. Possibility of adding another grade school teacher for 1966-67 was discussed. This would permit division of the combination third and fourth grade room which now has a single teacher.
