## Several Local Improvement Projects Receive Recommendation

### First Load Wheat Tests 61 Pounds To Bushel; From Jeff Gilbreath Farm

The first load of 1933 wheat was received in Hereford last Friday afternoon at the McLean & Pittman elevator. This wheat was from Castro county and was grown on the farm of Jeff Gilbreath. It was well ripened, with well-formed grain.

It tested 61 pounds to the bushel, and Mr. Gilbreath was paid a premium of five cents per bushel, making the price paid 63 cents.

Harvest is well under way in some localities. Wheat harvest is getting under way. Quite an important announcement in this part of the world just now, especially when one realizes that many of the fields are going to yield much higher averages than expected a few weeks ago.

Black, Dawn and Summerfield are getting the bulk of the crop so far, because of their location in those regions where the crop is best and the yield will be heaviest.

Cool nights and moderate days are ripening the grain rapidly, and the tests so far have averaged from 61 to 62 pounds. It is expected the protein test will be high enough that all wheat grown in this region will bring a premium.

Thursday morning's daily papers carried itemized details of orders by Secretary of Agriculture Wallace, putting into effect provisions of the new law governing acreage reductions, process taxing and other features which he has decided upon for the cure of the ills of the wheat situation.

Due to the closeness of press time, The Brand is unable to summarize these instructions but hopes to do so next week for the benefit of its readers, who do not take daily papers.

### Local Postage Rate of Two Cents After July 1

Under a recently enacted law, a two-cent rate on first class mail matter will take effect on July 1. This order was signed by Postmaster General Farley.

The reduction from three cents first class to two cents, it is believed, will increase the postal receipts in many ways, and provide employment for thousands of postal employees who otherwise might be furloughed without pay.

The new two-cent rate will be for local first class mail only.

### MEN AND WOMEN BIBLE CLASS GROWS RAPIDLY

The men and women Bible class meets each Sunday morning at 9:30 in the I. O. O. F. hall.

The class enjoyed a very spiritual meeting last Sunday. This always happens when God's Holy Word is read and accompanied with the Comforter. Absent members missed a blessing.

Next Lord's Day new membership cards will be distributed to every one present. An extra card will also be given, the motto being, "Bring a Friend." We appreciate the interest the ladies are taking in the services. Their voices in song is a great supplement.

John 15 will be the chapter for next week. It will bring the message, "This young man knows nothing but the Bible and that is the great need of the world. Let the whole class be present and on time. The opening song will be "Rock of Ages, Cleft for Me."

### SUMMER BEGAN WEDNESDAY, ACCORDING TO CALENDAR

In case one has been bothered the past few weeks as to whether the country was having spring or summer weather, the explanation is offered, that summer really began Wednesday, June 21. The days from now until December 21 will grow steadily shorter, and the only consolation the sweeter people can now find is that it will not be long until time to drag out the overcoat and ear-muffs.

### David Martin Returns Home.

David Martin left Tuesday for his home in Astec, New Mexico, after a several days visit with his aunt, Mrs. S. E. Askren.

Mr. Martin formerly lived in Hereford, his father, Asa Martin, being taught the first organized school here. While here Mr. Martin had the pleasure of renewing school boy friendships.

L. F.illard of Friona was a business caller here Monday.

### Methodist Revival In Second Week of Services

The revival meeting at the Methodist church is in its second week, with Rev. W. L. Tittle of Plainview doing the preaching.

Services will continue to be held at 10:00 o'clock each morning, except Sunday, and at 8:30 each night. The regular Sunday morning services are held at 11:00.

Dr. E. E. Robinson, pastor of the Methodist church says: "This is a real revival, because of the presence of the Spirit of God in the meetings that are now going on. We have had the opportunity of seeing many souls converted to God during the past week and we know that more will come to the light if we do our duty and pray fervently for the unsaved."

A young man who has been away to college re-dedicated his life to God and the church last Sunday morning. A young lady came forward and pledged herself to give up a worldly life.

The sermon Sunday morning on "How much better is a man than a sheep?" was pronounced one of the strongest of the series. Sunday night the sermon on "What shall the harvest be?" brought most favorable comment. Monday night the sermon, "The high cost of serving the devil," was pungent and brought conviction. Tuesday night the sermon subject was "America's profit complex, and how the devil uses it."

Rev. Mr. Tittle is one who does not let his business affairs damage his evangelistic fervor. He was an able lawyer before taking up the work of the ministry and this vocation is aiding him in being a searching and dynamic preacher.

### CHARLES FERGUSON HOME FROM SEEKING WORLD'S FAIR

Charles Ferguson, Jr., returned home the first of the week from Chicago where he spent about one week seeing the Century of Progress Exposition. Mr. Ferguson, prior to going to Chicago, was at Hollister, Missouri, attending the Southwestern conference of Y. W. and Y. M. C. A., where he had charge of vocal music during the conference. Mr. Ferguson represented Stephen F. Austin College, of Nacogdoches, Texas, the school he has been attending for the past year.

### CLARENDON TO HAVE INVITATION GOLF MEET

The second annual invitation tournament of the Hillcroft Golf club of Clarendon will be held on July 4-5. Eighty-seven golfers from 14 towns in the Panhandle attended this meet last year, which was won by Elliott Hatch, now of Fort Worth, but then of Amarillo.

Golfers who plan to enter this year may qualify at home over 18 holes and mail their cards to W. S. Bagby, secretary of the club, by 7 p. m. July 3. Flights of 13 players each will be used with attractive prizes offered for the winners, runners-up and winner of the consolation of each flight.

### SID FARLEY, OLD CITIZEN HERE FROM CALIFORNIA

Sid Farley of the Imperial Valley, California, arrived in Hereford Monday. Mr. Farley left here about 25 years ago and is here renewing old acquaintances. He purchased land north of Hereford in 1882 and improved the place now known as the E. B. Posey place. He has no relatives here, but a sister, Mrs. Gilliam Parker, formerly of this place, now lives in Amarillo.

### CARL GILLILAND, TREE SERGEANT, HARD WORKER

Most of the time when one thinks of Carl Gilliland, he is thought of as a very able lawyer. However, he has other lines, one of which might be listed as a tree-sergeant. For the past few days he has been busily engaged at his home on Lawton Avenue treating a number of the beautiful trees growing about the premises.

He's an expert. One tree which showed signs of decay and hollowing was neatly chiseled out, and the cavity filled with concrete. Unsightly knots, blemishes and other defects get attention, and the entire premises are being improved by Mr. Gilliland's care.

### J. R. Roden Buys Corner Drug; Clark In Charge

The Corner Drug Store, one of Hereford's oldest business institutions, was purchased Tuesday of this week by J. R. Roden, Friona druggist.

It has been announced that J. J. Clark, who has been in charge of this store for several weeks, will continue as manager, assisted by Ralph Roden, brother of the owner. J. R. Roden formerly was pharmacist at the Corner Drug Store, also at the City Drug, moving to Friona about six years ago, where he has conducted a successful drug business. Mr. Roden was one of the most popular and well liked young business men in Hereford and has many friends here who are delighted to welcome him back into the social and business life of the city.

### HEREFORD PEOPLE TO PLAINVIEW SING-SONG

Several from Hereford and Deaf Smith county attended the Plateau Singing Convention held at Plainview last Saturday and Sunday. Among those who drove to Plainview and took part in the singing were Mr. and Mrs. J. P. Griffin and son, Charles; Mrs. W. B. Green and son, Joe; Mrs. Walter Easter, J. S. Garrett and family, and C. C. Bowman and Lather Wright.

### Federated Clubs In Session Here Friday, June 16

A special meeting to bring to a close all business connected with the recent district meeting of the Federated Clubs of the Seventh District, which met in Hereford April 19-21, was held by the executive board of the Association of Women's Clubs of Deaf Smith county, in the county court room Friday, June 16, at 2:30, with Mrs. Bob Wilson, general chairman, presiding.

After an itemized financial statement was given the board they had a small balance in the treasury, which they recommended to be placed as a foundation fund to be used to furnish a room for the club women of the county.

Since the loyal cooperation of the different clubs made the convention a success, the executive board feels that the clubs should have a voice in the placement of this fund and earnestly asks the presidents of the various clubs to call a meeting and vote on this recommendation not later than the 15th of July so that the board may be discharged from duties connected with the convention.

### DIMMITT MEN REPORT CROP CONDITIONS AS GOOD

E. W. Thomas, newly elected county agent of Castro county, and George W. Burch, prominent cattlemen and farmer, also of Castro county, were visitors in the Brand office Saturday afternoon. They report that conditions are beginning to look brighter in the neighboring county and that some good wheat will be harvested.

### Odd Fellows Take Lead.

BY HOMER FOX  
Dadgum those hard-hitting Peculiar fellows—the only way to throw a ball by them is to get it behind them. They beat the stuffin' out of us Midgets in the first inning Wednesday afternoon.

### How They Stood.

The Midgets scored two runs in the first inning with a walk and three hits, but those flat heads came back in their half and scored six runs on one walk, three errors and three hits; made two more in the second with two hits and one error; Curtsinger striking out three men to get them out and that was the end of their scoring, but was plenty to win the old ball game.

The Midgets threatened in the fifth and only fell short three runs. Smith singled, Baker flew out to left, L. B. Russell picked one out of Ted's fancy fence balls and hit for the circuit to score Smith ahead of him. A Russell singled, Clayton was safe on an error at second, but Russell was out on the play. Center erred on Seed's fly and Womble doubled into right

center, scoring Clayton and Seed. Cockrell was out to third and that was the end of the scoring for both sides.  
—We won't alibi, but will say that the Odd Fellows hits and the Midgets errors came at the same time and the same thing in the fifth when the Midgets made their

### WIAQ On Air Several Times Daily; Tune In

Although it has been operated for several months, many citizens do not know that Hereford has a genuine, dyed-in-the-wool broadcasting station. It has—and it is the innovation and invention of local lads. This station is owned and operated by Rex Tynes, Jr., and associates. Spaulding Bartley is the announcer. The station is located at the home of Rex Tynes, and develops from 5 to 25 watts, according to requirements.

These boys have shown a great deal of inventive genius in the construction of their broadcasting apparatus, much of it being home-made, and they deserve the praise of all.

Tune in on Station WIAQ on a frequency of 940 kilocycles, at 10:30 to 11:30 a. m., 2:00 to 3:00 p. m. Later broadcasts may be heard at 5:00 to 7:00 p. m.

The boys are doing their best to entertain you—a phone call or letter expressing your pleasure will be highly appreciated, and doubtless acknowledgment will be made over the station.

### Smith McLeroy, Old-Timer, Brand Employee

Ira A. Connell, who has been an employee of the Brand for several years, last week resigned his position with the paper, and, with his family, left early this week for Yuma, Arizona, where he has accepted a position as printer with a daily paper.

His place on the Brand will be filled by Smith McLeroy, recently of Chicago. Mr. McLeroy is no stranger to the older citizen of Hereford, he having worked on the paper "away back" in 1907, when it was owned by J. Ray. While here then he was married to Miss Grace Robinson, a sister of J. Wallace Robinson, and Misses Boyd London and Criss Renfro. She is a daughter of Mrs. J. D. Curtsinger. Mr. McLeroy is a thoroughly competent printer, and any work entrusted to his care will receive the same careful attention as in former years.

### Visits In Lubbock.

Mr. and Mrs. Elmer Patterson left Friday evening for Lubbock where they visited the I. S. Hamilton home over the week end, and while there attended the Panhandle Plains Singing convention held there Saturday and Sunday. Mr. Patterson estimated the attendance at the convention at 3000 each day.

### Attends Wheat Meeting.

Mr. and Mrs. E. E. Feidley and daughter, Miss Ursulee, and W. C. Hromas, Mr. and Mrs. J. B. Davis and children of Summerfield and W. R. Snapp of Dawn were Amarillo visitors Friday of last week. Messrs. Fridley, Davis and Snapp attended a meeting of the Great West Mill & Elevators managers.

### W. M. Stovall of Nara Visa, N. M., was here Wednesday visiting his daughter, Mrs. Egbert Bradley, and family. He was accompanied home by his little grandson, Billie Lewis Bradley.

### Andrew Pat Jones Breaks Leg In Accident Friday

Andrew Pat Jones met with a very serious accident last Friday evening about dusk. Andrew Pat was plowing with a tractor and large one-way disk plow on the Allen Bell farm, six-miles southwest of Adrian, when in an attempt to relieve the disks of dirt and trash while the plow was in motion, he lost his footing, and slipped between a disk and the frame of the plow. He had presence of mind enough to hang on to the lift lever, which is used to lift the disk out of the ground, and succeeded in freeing himself from the plow, made his way to the tractor and stopped it.

Assistance was given Mr. Jones by one of Mr. Bell's sons, who was plowing about 300 yards from where the accident occurred. He was rushed to the county hospital where the limb was dressed and set. A cast will be fitted to the broken leg in a few days as soon as the swelling has gone down. Both bones of the leg were broken just above the ankle. He is reported as doing nicely Wednesday evening.

### Rug Show, Dress Contest to Be Held June 27th

The Deaf Smith County Council of Home Demonstration clubs held their regular meeting in the county court room Saturday, June 17, with delegates and representatives from six clubs present.

Miss Hostetter, county librarian, gave an interesting and instructive talk on "Planning a Profitable Program" for next year's work, which included the possibilities of finding a market for home canned vegetables and hooked rugs made from worn out garments.

Mrs. Etie Brown stressed the necessity of each club woman growing one extra row of vegetables and of giving one day or more of her time to canning the surplus for those who are less fortunate.

The Council voted to have an all-day picnic at the City Park instead of the encampment, as originally planned.

Plans were completed for the rug show and dress contest to be held at the high school auditorium Tuesday, June 27. Due to financial conditions it was decided the Council would not purchase prizes for the winners in the dress contest, and each club woman is asked to contribute one jar of canned fruit, vegetables or meat to be given as prizes in the contest.

Miss Campbell, who has been studying at the Amarillo College of Music, will contribute to the entertainment of the club women.

Each woman will bring a covered dish and luncheon will be served in the home economics room.

### J. Hoyt Lewis Dies At Ada Home Thursday

Mr. and Mrs. Henry Wilson received a message Thursday morning of the death of their son-in-law, J. Hoyt Lewis, at his home in Ada, Oklahoma. Mr. Lewis had visited here several times during the past year and has many friends in Hereford who will regret to learn of his death. Mrs. Lewis will be remembered as Miss Hazel Wilson.

Mrs. Henry Wilson and daughter, Miss Floyd, left early Thursday for Ada to attend the funeral services.

### GASTON BAER RELATED TO NEW WORLD CHAMPION

Gaston Baer, owner of the Popular Store, claims kin to the coming world's champion prize fighter, Max Baer. Gaston says that after an interview with his pugilistic name sake some time ago that they dug up enough evidence to show they were second cousins. We do not know how much hearing this close relationship with so prominent a fighter will have on the scrapping abilities of Gaston; but we advise his friends to avoid, as far as possible, any serious arguments with the Popular Store proprietor.

### HEREFORD HORSE IN PANHANDLE RACES

Tom Sanders and wife attended the horse races at Panhandle last Friday, Saturday and Sunday. Mr. Sanders' three-year-old racing stallion, Escapany, made a good showing in the extremely fast company classes. Escapany won third place in the half mile race Friday, Sunday the same horse won first place in the five eighths mile race. Earl Wilson rode Mr. Sander's entry.

### Recreation Parks Named As Deserving Objects Of Governmental Assistance

#### Ceta Encampment, Attended by 200

Two hundred people attended the young people's camp in Ceta Canyon, which convened June 14-16. The camp was the second annual one conducted for the young people of the Tierra Blanca Baptist Association. Registrations were made from Dimmitt, Canyon, Happy, Tulla, Summerfield and Hereford. Thirteen people attended from Hereford.

Mrs. Chas. Harter of Happy is director of the camp. Study classes were conducted by Mrs. Murray Malone, Mrs. C. E. Roark, Taft Holloway, all of Plainview; Mrs. Carl Tulla, Tulla, and Mrs. Carence Harwell, Dimmitt. Mrs. John Scott, Happy, headed the round table discussions for boys, and Miss Lucille Malone of Plainview led the girls. Mrs. Kirkpatrick of Dimmitt and Mrs. Roark delivered inspirational addresses. Sermons were preached by Rev. John Scott and Rev. J. R. Hicks.

In addition to study classes, swims and hikes were enjoyed. One hour of directed recreation was conducted daily.

#### Parking Space Scarce Here Saturday Night

Back a few years ago the sight of all those parking spaces marked north on Main Street to the vicinity of the churches was enough to arouse the amusement of a casual visitor and cause him to wonder why they did not continue the marking to Vega on the north and Dimmitt on the south. That point was not wasted—every one of those spaces have been in demand many times, and Saturday night was one of the times.

Parking space was the one big demand Saturday night. They were here from far beyond the forks of the creek. The town began to fill up in the early afternoon, and by dusk they were leaving town to find a place to park. An endless procession up and down Main Street in the hope of finding a vacant spot finally ended when late-comers found they had to be content with a side street place.

This big crowd did not come to Hereford looking for a good place to park—they came to buy goods. Hereford merchants, almost without exception, report one of the best days of recent months. The cash customers came looking for bargains—and found them.

#### A delegation of Hereford business men attended the Texas Rehabilitation and Relief Commission meeting held in Amarillo last Friday and Saturday.

T. W. Hanson, Jr., who represented the state relief commission at the Amarillo meeting, urged immediate decision as to the work projects to be undertaken in the various cities and counties and to place its loan application on file in Austin not later than Saturday, June 24. The Hereford delegation brought back the information that Texas was allowed the sum of 200 million dollars and that on acceptable projects, the Federal Government will make a grant or gift of 30 per cent of the construction cost and will lend the balance of 70 per cent at a low rate of interest, said obligation liquidating in a period of 40 years, if necessary, but that additional security will be asked by the government where the projects are not so acceptable and where they may not pay a sufficient revenue on the loans borrowed on it.

Following the Amarillo meeting, Mayor E. B. Black called Hereford business men into conference at the city hall for the purpose of formulating ideas of the most needed projects for Hereford and Deaf Smith county. The final conclusions of these meetings have been reduced to writing by the City Commission and are summarized below for the information of the general public.

#### The Projects Selected.

To Hereford and Deaf Smith County People:  
You will understand that Congress, just adjourned, passed what is known as the National Industrial Recovery Act, under which funds will be made available to carry out the Federal Public Works Program.

This money is available in cities, counties and school districts or other taxable subdivisions for construction of any useful project that such community or county may favor. The City of Hereford is favorably located. That makes it possible for us to utilize this opportunity of getting a number of useful projects which will improve our city as well as the county, and at the same time give needed employment to idle people, which was the main object of the Congressional Act.

We would advise that much time and thought has been given this subject of late, with a view of offering several projects as a local program, that employment might be given our people. We have attended district meetings in Amarillo, meeting state officials and talking over our projects and getting their views, etc. We have called a number of our citizens together for a free discussion of the matter and the proposed activity was well received and commended.

The program was adopted and a request made that your mayor and city commission send in application for filing to the proper authorities. You understand this is all tentative. If our projects are looked upon with favor, we will be so advised. Then, under advisement, with proper committees and with competent engineers and architects, plans will be worked out and men put to work.

The following projects were thoroughly discussed and requests that we make application:

#### Project No. 1.

To develop and equip a municipal golf and recreation park on the land used at present by the privately owned golf club. It is proposed to place a concrete dam across Tierra Blanca Creek near the South Main Street bridge, and to excavate sufficient dirt from the creek bed to make a channel varying in width from 50 to 200 feet, and to provide for water in the channel varying in depth from 8 feet to 15 feet. The dam will back the water up for one mile or more and will form a large lagoon, greatly increasing the possibilities for game fishing, and will also present a pleasing landscape effect to travelers passing along Highway No. 90, as well as the north and south state designated highway. The channel will be bordered on the south by the rock bluffs, and large trees on the lower land; and on the north by trees and a level natural beach, to be equipped with wharf and boat houses. The bottom of the channel will be covered with crushed rock obtained in excavating along the rock bluffs. In

On Texas Farms

By W. H. Darrow, Extension Service Editor.

A hog shipping association in Hookley county shipped 300 head for its members in May at prices estimated to have made owners about \$300 extra for the cooperative marketing effort.

Farmers often joke county agents about making water run up hill. L. E. Moore of Harmony community in Jones county is interested in making water stay up hill. Twenty hours after a 1 1/2 inch rain he called the county agent to tell him that the top of his newly contoured hill was still too wet to plant.

Paying for her cans by canning for city relatives, Mrs. Ebra Pertus of Morince home demonstration club in Van Zandt county, put up 420 containers of vegetables from her garden. Valuing produce at 3 cents a pound, her 90x90 garden netted a profit of more than \$100.

All the old type out-door toilets in one Hill county community are to be replaced by the sanitary concrete slab toilet recommended by the State Department of Health following demonstrations in the making of the new type by the county agent. Every well, except one, was found to be contaminated, explaining a typhoid epidemic of two years standing.

The answer to Wilson county farmers to the May drought that threatened a no crop corn year has been to dig trench silos. The county agent reports them built in all sorts of ways and in many sizes, ranging from 100 feet long, 15 feet wide and 10 feet deep, down to short ones 30 feet long. Some have already been filled.

Potatoes kept well in log potato dry kilns built last summer by Jasper county farmers, and the county agent plans the building of 12 more demonstration kilns this season. Several farmers are now finding these houses very satisfactory for storing Irish potatoes.

Mr. and Mrs. Dean Rice of the John L. Wilson ranch, near Adrian, were in Hereford Monday.

A COMPANY THIRTY YEARS OLD

Last Friday the Ford Motor Company completed 30 years of automobile making.

It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.

Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.

Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.

Of course, there is one thing we cannot share—everyone must get it for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.

But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead.

Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.

That is the outlook for this young thirty-year old Company of ours.

**The Life of the Lord.**  
The story of the Son of man as given in all the Gospels may be told in seven short chapters:

**I. The Fulness of Time.**  
God sent forth his Son in the fulness of time because the world was then ready for his coming as never before—ready to diffuse the new faith throughout the mass of humanity, having at hand the universal empire of the Romans, the wide dispersion of the Jews, and the adequate language of the Greeks.

**II. The Silent Years.**  
The infancy for about two years affords us several glimpses of the Holy Child. Thus we have: The

nally before Pilate who signed the death warrant. On, then, to Calvary, Jesus sinking under the cross, and by nine o'clock in the morning nailed to the cruel tree. Six dreadful hours on the cross with their agony and outcry and earthquake and darkness, and he bowed his head and gave up the ghost.

**VII. The Forty Days.**  
On Saturday a guard was placed at the tomb, so determined were the Jews to forestall any semblance of the resurrection. But early on Sunday morning the great seal was broken, and the soldiers were driven back by him who emerged as Conqueror of Death and the Grave. Ten times within forty days he appeared to his disciples, each time with a special mission and message.

Forty days after he rose from the grave, Christ gave his last lesson to the disciples in Jerusalem and along that well-known road over the slope of Olivet. But as he talked he began to rise; and higher and higher he rose till the enveloping cloud hid him from view and the Father gave him we come back to his throne.

One day He will come again; will come in like manner as he went up; will come to occupy the Judgment Throne and crown his people forever.

"Even so; come, Lord Jesus!"

child and the angels, the Child and the shepherds, the Child and the wise men, the Child and the king, the Child and his home at Nazareth among the Galilean hills. The period from about 2 A. D. to 30 A. D. is a period of almost total obscurity, broken by but a single incident on the sacred record. It was the time of the first Temple visit at Twelve, and then of the long eighteen years of toil and discipline and bidding his time.

**III. The Year of Beginning.**  
The era from the baptism in the Jordan to the settlement in Capernaum, covering actually about eighteen months, presents Jesus upon the threshold of his public life and reveals his introduction to his work, his earliest triumphs in it, and his chosen field for it. The field chosen as the scene of his activities was not Jerusalem as might have been expected, nor yet Judaea with the capital ultimately in view, but Galilee; and in this region, as was further shown, he was not to locate in Cana, the scene of the first miracle, nor at Nazareth, his former home, but at Capernaum by the populous seashore.

**IV. The Year of Tours.**  
During a year of intense evangelism from Capernaum as a base, Jesus made three notable preaching tours through Galilee and reached the height fame on earth. The first tour was prefaced with the call of four disciples and several miracles of healing, extended into Southern Galilee, evoked some opposition, both in Capernaum and in Jerusalem, and culminated in the choosing of the Twelve Apostles in the summer of A. D. 28, about the middle of Jesus' earthly ministry.

**V. The Year of Withdrawals.**  
From the summer of 29 A. D. to Passover the following spring, there were four withdrawals from the center of his activities in Galilee in addition to three appearances in Jerusalem. The first withdrawal was toward Tyre and Sidon, the return including a visit to Decapolis. The second withdrawal was toward Caesarea Philippi. Two autumn visits were made to Jerusalem. The third withdrawal was to Perea where the seventy disciples were sent forth, the disciples were instructed, the call to sorrowful Bethany was heeded and Lazarus was raised from the grave. The fourth withdrawal was northward to Ephraim, eastward to Perea and back again to Bethany, where, on Saturday evening before the crucifixion the feast was spread and Jesus anointed against the day of his burying.

**VI. The Crucifixion Week.**  
From the village of Bethany into the city he went on Sunday in his triumphal entry amid the shouting multitudes. Along the way from Bethany to Jerusalem early Monday morning he uttered his malediction against the fig tree—so true a picture of Pharisaic fruitlessness and hypocrisy. In the Temple a little later on Monday he cast out the money-changers. Late in the evening of Tuesday on the mountain he delivered to the Twelve the wonderful discourse on "The Last Things." After a quiet Wednesday in retirement at Bethany, the scene shifted on Thursday evening to the Upper Room in Jerusalem where the Passover was kept and the Lord's Supper was instituted. Then about midnight came the visit to Gethsemane with its dreadful agony and its bitter betrayal. The mock trials followed—three ecclesiastical and three civil. First before Annas, then before Caiaphas, and at daybreak on Friday before a legal meeting of the Sanhedrin; early on that fateful day before Pilate, then before Herod and

**POISON GRAIN AVAILABLE AT COUNTY COURT HOUSE**  
B. H. Hopkins announces that plenty of poison grain is now available at the court house for those who desire to rid their premises of various rodents. All who want a supply of this grain should call at the court house as soon as possible.

**ALFALFA HARVEST SHOWS SOME SPLENDID YIELDS**  
One crop that apparently never fails in the Hereford country is alfalfa. A number of farmers are now cutting their first crop and placing it in storage for future use or putting it on the market. The crop is extra good this year and the yield depends a great deal on the amount of irrigation it gets, according to most growers.

## Seen On the Screen at the Star

What news... "The Kiss Before the Mirror," the drama full of Continental atmosphere, intrigue and romance, the film that is being acclaimed as even better than Fodor's stage sensation which swept Europe—"The Kiss Before the Mirror"—will be here for you to see and enjoy.

You'll never forget the man who let a kiss cast him into a hell of jealousy—the woman who let a kiss drag her through tortures and a dramatic trial in court. Two husbands, two wives and two lovers. A double triangle of screw drama that is unlike anything you have ever seen before.

Nancy Carroll, Frank Morgan, Paul Lukas, Gloria Stuart—that is the cast that Universal selected as being worthy of the great drama, which William Anthony McGuire, the famous playwright adapted from the Continental smash, James Whale, the great directors of "Journey's End," "Frankenstein," put all of his great talent in directing this film.

Plan now to be here for "The Kiss Before the Mirror." It's one of the biggest human dramas you will have the privilege to see for many months.

It will be at the Star Theatre Saturday midnight preview, Sunday matinee and Sunday night at 9:30.

When Oliver asks for "more porridge" in "Oliver Twist," at the Star Theatre Monday and Tuesday, June 26-27, note the look of jealousy on the face of George K. Arthur, who plays Toby Crackit in

the picture. The reason is, Arthur's Scotch, and he hates the thought of anybody except himself—even little Oliver—getting something for nothing. Especially when that "something" is porridge—the native dish of his own Scotland.

## BALL GAMES

(Continued from Page One)

ing the bases, with one man out. Carroll replaced Witherspoon in the box. McCracken struck out—and with two men out and the bases drunk, Wiltshire was at bat. Doc shouldered his club, pulled his cap down over his ears, set his jaws and dug in. Onias was bearing down. He got one strike on Doc, then two. Looked bad, but Doc changed ends with his bat or something, set his mind on just how he would do it if he had a chance to pull about four teeth for the Firemen's captain—Arts it-sell—and if that son-of-a-gun didn't bust the next one for a single over first base we don't want a cent—scoring all three runners and Doc made it to first—but he won a ball game right then and there and that is enough for one man in one day.

The Firemen failed to threaten in any frame—in fact only two men reached second base. The Lions scored again in the sixth, with a walk and two errors, and in the seventh made five more. Smith struck out, J. Russell was safe on an error; L. B. was safe on an error; everybody safe on Allison's fielders choice. Robinson was safe on an error. Hopkins was safe on an error—in fact everybody was safe on an error. Then Mike Davis singled and what was left on the bases scored.

Terrible, folks—those fire boys called out every kind of fire fighting apparatus they had—called for Dows—sent out a call for Dubs—but no help. Those old Lions had gone back to the wilderness and gone mad—they would hit a ball to some Fireman and he couldn't stop it, and it he did stop it he could not pick it up, and if he did he threw to the wrong base. Finally they started tagging each other, and when the smoke had cleared away it looked like Custer's Last Stand. It was just the Firemen's day off with ten errors behind them and only gathering three bingles off Allison's offerings—someone should have turned in the fire alarm before the fifth frame. And the Lions playing heads-up ball, with two errors, five hits and Allison's fine chunking. Looked like a real ball club. Davis led with the bat, with 3 walks and a single for 1000.

Hereford Tops Golf League. Sunday this old bunch of Hereford golf bugs slipped down to Farwell and whammed that outfit for a row of ash cans to the tune of nine matches to one. Jim Clark took Harry Rice's place in the loss column this time for the only match.

The clubs now stand as follows:

Team	P	W	L	Tie
Hereford	4	4	0	
Frioka	4	2	2	
Dimmitt	4	2	2	
Farwell	4	1	2	1
Vega	4	0	3	1

that Hereford lost, and as good as Jim can count, we can't accept any alibi from him.

John Patton took a tall spin on his birdie job on the second nine and J. M. Posey took the job over and busted the Farwell course record with a sizzling 68 and in a high wind at that. Here they come: J. M. Posey, cold-checked Anderson; E. D. Fox, out-measured Wiltshire; Patton, insured Sprawls; McCuan, busted Clark; Foster, white-faced McCuan; Rice, vulcanized Rose; B. Posey, smashed Farville; Downs, produced Massey; Jenkins, greased Rowe; Alfred, retired McCuan.

## CITY PLANS

(Continued from Page One)

excavating the channel, great care will be exercised to clean out the existing springs to promote a maximum flow from these springs. The present lay-out of the golf course will be improved as much as possible and foot bridges will be placed across the channel where necessary. The city water mains will be extended to provide artificial irrigation for trees and grass on portions of the tract that are not subject to natural sub-irrigation. A large pavilion would be built near the proposed wharf and boat houses. It is proposed that this project, when completed, will provide a beautiful and useful park and playground for the people.

Project No. 2. To build and equip a city natatorium and civic center on land owned by the city on the north side and adjacent to the Lake Park. The structure to be of Spanish design, one story frame, stuccoed, with a large court or veranda. The building would contain a standard size concrete indoor swimming pool, lined with tile, and provided with modern heating equipment, also dressing and locker rooms with shower baths. American Legion club and reading rooms and kitchen. The veranda would be available for band concerts and various open air gatherings. The water, when drained from the swimming pool, would be used to irrigate the trees in Lake Park. This project, when completed, would provide a much-needed civic center for the people of this county.

It is proposed that the above mentioned projects would be self-liquidating and would, in no way, increase the tax burden of the people of Hereford.

## Project No. 3.

To grade and excavate for drainage and to place an eight-inch layer of crushed local caliche rock on natural earth base, with top dressing on oil on 120 blocks of the principal residential streets of Hereford, and to place top dressing of oil on 50 blocks of residential streets, that have been previously improved with the piling of caliche. The cost of this project will be apportioned as follows: The

city to pay 40 per cent, and the abutting property owners to pay 30 per cent each, which would amount to approximately 15 cents per front foot.

## Project No. 4.

To construct and install a water softening and filtration plant as an extension to the present city water system. The possibilities of this project are the subject of a thorough investigation at the present time, and a more definite report will be made at a future date.

It is proposed that Projects Nos. 3 and 4 will be eventually liquidated with a portion of the delinquent taxes now due the General Fund of the City. It is strictly understood that in the execution of these projects there will be no additional tax burden placed upon our people. It is proposed by the Act that the President of the United States be empowered to make an out-right grant of 30 per cent of the cost of the labor and materials expended on each project. The remaining 70 per cent of the cost of the projects will be paid for as outlined.

In carrying out these projects, there will be approximately 150 men employed for a period of 12 months, with an average payroll of approximately \$6,000 per month. Hereford and the territory surrounding within a radius of five miles has a population of approximately 4000 people who will directly or indirectly benefit from these projects.

If any of our citizens have any suggestions to make on any particular worth while project, the City Commission and Mayor will be glad to hear from you. Respectfully yours, THE CITY COMMISSION. E. B. BLACK, Mayor.
