

The Hereford Brand

TUESDAYS—TWICE-A-WEEK—FRIDAYS

23RD YEAR, NO. 51.

HEREFORD, DEAF SMITH COUNTY, TEXAS, TUESDAY, JULY 17, 1923.

KICK IN!
Help the Bonus Committee raise the money to secure a Cotton Gin for Hereford! Certainly money is scarce and times are hard, but the man or the company that will not fight in a pinch is using poor headwork and cannot forge ahead. Lay aside your little prejudices, and personal hammers, and ego, and dislikes and do your bit toward a movement that will be for the good of all.
The cotton acreage is large, the crop is doing remarkably well, a cotton market that means cold dollars and cents to every inhabitant of this town looms before us if the opportunity is seized.
Mabe you have a different idea from the one presented; but you can't have your own way by yourself—community success comes only from organized effort. A plan has been agreed upon. Can't you trust the combined judgment of your neighbors in such a matter?

AND NOW IT'S GOLF

The fellow who has unhooked his radio set and stowed it somewhere out of the way is playing golf now. In the South it has taken us by storm. Youngsters behind the counters and desks of the city are getting up before the dawn to hurry out to the links and "whack the old pill" for a half-round or so. Older men are speeding up in their offices in order to slip off a half hour earlier and see what they can do toward lowering their stroke records. It's catching.

According to the Springfield Republican, golf caught on in the North when Francis Ouimet showed Vardon and Ray, a new brand of golf at Brookline. Outmet, young and slender, appealed to young America, and young America adopted him and his game. Prior to that golf was an old man's game and the faddist's game. In a way golf is a fad now, but it is being played by thousands who have no other fad. And the men who know claim that it will have no setback such as radio has had.
It cannot be doubted that golf "arrived" in Dallas with the establishment of the municipal course. Within a few weeks of the opening of the course it was seen to be inadequate to take care of the large numbers who came to like the game. Hartford, Conn., set up a golf course seventeen years ago, and it is estimated that about 26,000 people used the course within a year. This figure out at about 500 players per week, whereas that is rather under the number who visit the Dallas municipal course. It is said that the average daily attendance at golf courses in and around Dallas runs up to about 1,100. This is pretty nearly the capacity of these courses, so that the vogue of golf might easily exceed that figure if there were more facilities for playing the game.—Dallas News.

The Golf Association awarded by the Parent Teacher Association to pupils of Central School who made 100 percent in the first of the closing contests in spelling, are now in the hands of the committee. Pupils entitled to his award are asked to call at the home of Mrs. B. F. Guthrie and receive same. The delay in distributing these prizes was occasioned by failure of the publishing house to ship order within a reasonable time and a consequent replacement of the order.
The Vacation Reading Club now numbers thirty-seven members, about twenty-five of whom have done many times the required amount of reading and are still enthusiastically at work. Through the kindness of interested patrons several new books have been received for use by the club and it is now an almost assured fact that any child may find at least three books he will thoroughly enjoy in the club library. Parents of club members are asked to assist in having the books given reasonable care when in use, as these books belong to the private libraries of members of the Parent-Teacher Association.
The next general meeting and club picnic will be held in Mothers' Park Thursday, August 2. Each club member over eleven years of age is asked to memorize Holmes' "The Chambered Nautilus" by this date.
Membership certificates will be issued at this meeting.
Mrs. B. F. Guthrie, Pres. P. T. A.

Guard Boys Get Off to Camp on Sunday Morning

Three officers and eighteen enlisted men of Company E, 142nd Infantry, Thirty Sixth Division, Texas National Guards, left Sunday in a special Pullman via Texico and Sweetwater for Camp Mabry at Austin, Texas, where they will participate in the annual two weeks training camp of the state Guardsmen. The officers of the company had secured permission to bring only fourteen men, owing to the pressure of the harvest season here, but at the last minute four additional recruits came in, attracted by the desire for a real mans' vacation trip.

Captain Robert Elliott's address to the men in the Armory when they lined up to march to the depot was a gem of brevity and earnestness, and was a real sermonette worth remembering. Bellowed down Captain Elliott said: "Fellows, there'll be no gambling or drinking in this outfit on this trip, or at any other time. There will be no exceptions to this rule. If I catch one of you at it it's the hoosegow for yours. I have promised the people of this town a clean, wholesome, moral military company, one that will reflect credit upon the community and upon the National Guards. I ask you for my own sake, if for no other reason, to remember this promise and conduct yourselves like the real gentlemen you all undoubtedly are."
The officers and men were all in high spirits and were wished Godspeed at the depot by a large crowd of relatives and friends. The personnel of the party consisted of:
Capt. Robert Elliott, C. C. Acker, 1st Lt. B. B. Farmer, 2nd Lt. E. M. Kelly, Harry Cannon, M. R. Corbett, Jr., Wallace Cox, Abe Martin, J. H. Biggs, Jno. B. Orr, Alton Robinson, Erven Robinson, Harvey Griffith, Ramsey Landrum, C. B. Carroll, C. E. Lookenbill, Eugene LeGrand, Keith Bruner, J. E. Hughes, Sam Ratcliff, C. G. Karr.

CONTRACT ON BRIDGE FILL IS AWARDED

W. L. CRAIG SECURES WORK AT 17½ CENTS PER CU. YD.

IS IMPROVEMENT

Cut Out Pull and Puts Road Within Reach Highway Idea

W. L. Craig, who lives on the Kelly Gray place in the western part of the county, received the contract from the commissioners court last Saturday for the fill work on the new bridge now under construction across the Tierra Blanco at the foot of Main street. Mr. Craig bid seventeen and a half cents per cubic yard for this work, and it is estimated that the fill will amount to between nine and ten thousand cubic yards. The bids ranged from his figure up to twenty-four cents per cubic yard. The contract calls for the work to begin by July 30 and to be completed in forty-five working days.

The present grade will be raised five feet, which will bring this crossing within the state highway requirement of not more than a five per cent grade. It is understood that the soil will be scraped out from along the sides, from the hill on the south side and also from the old railroad dump, if that is necessary.

The city of Hereford contributed \$500 toward the expense of this fill, as most of it lies within the city limits, and will also construct guard railings on the north approaches. When completed the new bridge and approaches will eliminate a bad pull that has always annoyed people with heavy loads of any kind and will be a big step forward toward the eventual securing of a state highway north and south.

Scrappy Session Commercial Club Over Cotton Gin

The cotton gin question has a much healthier outlook, following the weekly luncheon on Monday held at the Stockmen's Cafe. To those who attended the tumultuous session Monday this may seem strange. But the healthfulness grows out of the fact that everybody seemed roused to the necessity for a gin and a determination to get one.

It was a scrappy, frank-making session. Herebefore the cotton committee and the secretary have had a lot of responsibility thrust upon them in this matter without adequate moral backing by the business men. Everybody admitted the necessity for the gin but nearly everybody left it for "George" to look after.

The gang "woke up" Monday. A report from the committee was handed, a new committee to raise a bonus of \$3,000 for an "adequate cotton gin" was named, and there were some frank statements to the effect that "nothing had been done" to date. All of which was accepted in the right spirit by those who are responsible for this state of affairs, because each one saw in this spirit of criticism a promise of real action and an awakening.

As one member of the committee put it: "What we want is a COTTON GIN—criticism shows we are getting somewhere and are on the road to definite results."

In the absence of president Homer Wilkinson, vice president E. W. Harrison presided. The bone of contention centered about the desire of some for a brand new gin in preference to a second hand one. The bonus committee appointed consists of C. A. Skelton, chairman, Carl Cockrell and Lem Carlisle, who went to work at once to see what they could do. G. A. E. Parker and F. H. Oberthier were empowered to make a trip as soon as the bonus total is ascertained. Mr. Skelton's definite proposition now before the committee. D. L. McDonald volunteered to take the field and secure more detailed data regarding the present condition of the crop.

The gin outlook is brighter as a result of the meeting; there are more people taking a direct personal interest in it and the lethargy the committee has had to contend with all along seems to be slipping from the shoulders of the business men.

Attention was called to the coming Amarillo Tri-State Fair in September and it was resolved to secure all the agricultural and live stock exhibits possible for it. J. E. Bray was elected chairman of the agricultural committee with power to act and to draft help from the membership as he needs it. The hospital committee asked for more time in which to report.

Next Monday the meeting will be held at the City Cafe and the program promises plenty of pep and accomplishment.

STREET PEDDLING ORDINANCE NEXT? CITY COMMISSION IS WAITING ON VIEW OF PEOPLE ON STREET ONLY

Commission Has no Power to Stop Practice on Private Ground

ON STREET ONLY

Strong representations have been made recently to the city commission to pass an ordinance prohibiting the peddling of meat and fruit in carload quantities on the streets of the city. The meat market people have argued that they thought the fact that they were serving the best meat obtainable at reasonable prices, in a modern, sanitary way should be recognized and protected from competition that did not provide such desirable service. Other merchants have objected to the hauling of carload fruits from the trucks and trucks, though there has been no objection raised to the farmers-marketing their produce and garden truck.

The city cannot prevent anyone from rearing a lot and selling their wares but can stop the use of the streets for such purposes.

The city commission desires the sentiment of the people on this subject. Mayor Knight states that "The people rule," and if a majority favor such an ordinance then the commission will pass it; otherwise not. Accordingly an ordinance covering the subject has been drawn and is now being considered. The commission would like to hear from the people before finally disposing of the question. Here's the ordinance:
AN ORDINANCE TO BE KNOWN AS THE PEDDLING, BASTERING, AND SELLING OF CERTAIN COMMODITIES ON THE STREETS, ALLEYS AND OTHER PUBLIC PLACES IN THE CITY OF HEREFORD.

BE IT ORDAINED BY THE BOARD OF COMMISSIONERS OF THE HEREFORD Sec. 1. That it shall be unlawful hereafter for any person to hawk, barter, peddle or sell, or to offer to hawk, barter, peddle or sell on or in the streets, alleys or other public places within the City of Hereford, any meat, apples or oranges.
Sec. 2. Any person violating Section 1 of this ordinance shall be deemed guilty of a misdemeanor and on conviction thereof for the first offense may be fined in any sum not less than one dollar nor more than twenty-five dollars and for each succeeding offense may be fined in any sum not less than one hundred nor more than two hundred dollars.

Robs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotabs".

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs". Calomel, the most generally useful of all medicines, thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs—(adv.).

The Laundry
Since we have no laundry now we suggest that you investigate the Electric Washer—its practical value—what it will do for you. Many will be surprised to know that their neighbors have been doing their washing for years very satisfactorily with electric machines. You can get the same results without any drudgery and have your clothes done just as you want them—without damage—and you don't have to count the clothes in and out to see that you have all of them. Any child can turn out big washings electrically. Put the drudgery on the electric Company.
