

CHURCH PLAN IS AGREED

Architect J. C. Berry, of Amarillo, Will Handle Methodist Work

As a result of the remarkable campaign recently made by the Methodists of Hereford, a \$35,000 brick church building is to be erected at once on the lot already owned by the church on Main Street, south of the McGhee Studio.

Definite assurance of this was given Tuesday night at a meeting of the Building Committee of the church with Architect J. C. Berry, of Amarillo, when pencil sketches submitted by Mr. Berry were approved, and he was formally employed as architect and supervisor of the work. Mr. Berry will at once work out complete plans and specifications, and when this is done, contract for the building will be let without any unnecessary delay.

The building committee of the church is composed of Eli Dunlap, chairman, G. A. F. Parker, Secretary-Treasurer, Chas. Williams, D. F. Ashbrook, Henry Wilkinson, Jno. P. Slaton, John McLean and D. W. Hawkins. In the absence of Mr. Parker, J. E. Crouch was appointed acting Secretary-Treasurer until his return, and will classify the pledges made and send out notices of payments due from time to time, as the purse of the community will justify. These pledges have been turned over to Mr. Crouch by Rev. W. H. Terry, the Director General of the recent successful Drive for funds.

The building is to be of face brick with three entrances, a double one on the southeast corner and one each on the east and south. There will be no balcony, but committee and rest rooms will adjoin the main auditorium and can be thrown together with the auditorium for overflow gatherings. The League room will be upstairs over these rooms. A full basement will be provided, with all modern conveniences, such as steam heat, etc. Approximately \$22,000 was pledged in the recent drive, which brings the total in cash and pledges to \$30,000. The drive will continue, however, and many citizens who did not contribute at the time the drive was on will be asked to complete the fund.

Meeting Proposed For Panhandle Men

The Panhandle-Plains Chamber of Commerce is making rapid headway in organizing the forty counties included in its scope. At the headquarters office in Amarillo the great part of the preliminary work for its various undertakings has been definitely outlined. F. R. Jamison, the Secretary-Manager, and Hamlin Palmer, the Traffic Manager, have visited a considerable number of counties in the interest of the organization of such counties and a meeting of the Board of Directors has been called at Amarillo at 1:00 p. m. Wednesday, August 6th, for the purpose of considering the report of Mr. Jamison as to what has been done and his plans for further activities. Anyone interested in this work will be welcome, Mr. Stinnett says, at this meeting.

Rev. McClurkin is Planning Vacation

The Rev. J. E. McClurkin, pastor of the Baptist church, has been granted a thirty day vacation by his congregation, and will leave next Monday for Alabama, where he will visit at McWilliams, Pineapple, his old home, Camden, and other points. Rev. McClurkin is making arrangements to have his pulpit filled during his absence.

Four Checo-Slovak Troop Trains Pass

Four separate trainloads of Checo-Slovak troops from Siberia passed through Hereford on Wednesday, enroute from the Far East to Europe, via San Francisco and an Eastern U. S. port. Efforts were made to have these trains stop here for a few minutes, that our people might have the opportunity of showing our appreciation of the gallant fight for liberty these new citizens of a new State have made. However, schedules had to be maintained and the trains swept through town at a good rate of speed.

Mrs. W. A. Price, Chairman of the Canteen Service of the local Red Cross, had an urgent letter from St. Louis headquarters, asking that if a stop was made the Canteen put the big pot into the little one for the visitors. Chairman Asbell of the local Chapter also had a telegram to the same effect. Preparations for a royal reception were completed, but the mandate of the railroad schedule maker upset all these plans.

J. H. Cardwell Store Has Changed Hands

Announcement is made this week that J. H. Cardwell has sold his grocery interests to Frank Gyles and James Rutherford, and that the new proprietors will take charge of the business on August 1, under the firm name of The G & R Grocery.

It is understood that Mr. Cardwell will devote his time to the development of his farming and irrigation interests. The Cardwell store is one of the oldest and most successful in the mercantile history of the city, and Mr. Cardwell's retirement was something of a surprise to his many friends and customers.

Both the young men who succeeded him in the business were raised in Hereford, are known as keen hustling young fellows, and their many friends and acquaintances believe they are billed straight for business success. Both have recently returned from service with the United States Army.

The Brand wishes the new firm the most abundant success and prosperity.

Fifteenth Child is Born to H. Hellman

If Teddy Roosevelt were alive he would probably enroll Henry Hellman of Hereford, among his Band of Patriots, for having the largest family in Deaf Smith county. At least Mr. Hellman believes he holds this honor, after the birth of his fifteenth child, a boy, last Sunday. Thirteen of these children are living, several of them grown and married.

Mr. Hellman has been twice married, four children being the result of the first union and eleven by the second. One child was lost in each instance. Mr. Hellman is 55 years of age.

Tucumcari's Boy Scout Band Coming

The famous Tucumcari Boy Scout Band is scheduled to play for us sometime next week, the exact date being still undetermined. This Band, composed of youths, but a skilled and efficient organization, is being sent out over the Panhandle to advertise the coming Cowboy's Convention at Tucumcari.

Mrs. A. E. Chamness who has been visiting relatives in Illinois all summer, returned home last week. Mr. Chamness went to Illinois to spend a few days and accompanied Mrs. Chamness home.

Misses Mae Raht and Adelaide Smart, who have been visiting Misses Lavina and Gladys Howton, left Friday. Miss Adelaide went to Canyon where she is attending school and Miss Mae Raht to her home in Hedley, Texas.

RIG FOR TEST IS HAULED

Three Carloads Machinery For Ricketts Well is Being Placed

The first well drilling oil rig to reach Hereford as a result of the Texas oil boom is being hauled out to the location made for the well, under the terms of the Ricketts-Smith contract, about eighteen miles northwest. Three carloads of machinery have arrived and been unloaded. Every available team that could be secured has been put at work in making the transfer. Messrs. Ricketts and Findley are actively in charge and superintending the work. It looks like real business.

Meanwhile it begins to appear as though there will be a circle of holes punched down to see what we have under us. Once started, the excitement has spread until nearly every neighborhood is pooling land and leases and figuring on a well in that particular community. The streets have been full of lease solicitors the past ten days, and it is understood that Jackson Bros., to the northwest, closed a deal for a well last Saturday, although The Brand has not been informed as to the details. Indications are that a string of wells will be started shortly and if there is oil under us it will surely be found by one outfit or another.

Miss McClurkin is Enjoying Her Work

The Brand is in receipt of the following letter from Miss Mattie McClurkin, who is studying in Chicago this summer:

"I am enjoying my work at the Lyceum Arts Conservatory very much. I think Mr. Day is one of our most wonderful dramatists and it is indeed an inspiration to study with him. I have been made to feel very much at home by meeting so many Texans and Oklahomans. A party escorted by a Texas Professor went out to Chicago University one day last week. While there we met Mr. Brodie, formerly of Hereford. We then went through Marshall Field's Museum at Jackson Park which was very interesting. This museum was built in 1892 as one of the world's fair buildings and is considered one of the largest in the world.

Yesterday we took the "Christopher Columbus" boat and went a cross Lake Michigan to Milwaukee. We proved ourselves excellent sailors as no one in the party suffered with seasickness, although we were in the edge of a storm.

I shall return to Hereford by September 1st to begin my work. I wish to thank you for the assistance and courtesies shown me in the past. Since I've been in Chicago I have had a position offered me in Kansas to teach dramatic art in the high school but did not accept because I wish to prove myself worthy of the Hereford people's patronage. I am returning with a new method of teaching and hoping to do more efficient work than ever before.

Respectfully,
Mattea McClurkin,
1300 N. Dearborn St.,
Chicago, Ill.

Santa Fe Officials Give us Once Over

Superintendent D. S. Farley and T. B. Gallaher, Division Freight and Passenger Agent of the Santa Fe, with Amarillo headquarters, passed through Hereford Tuesday. Their special car was attached to the west-bound local. They spent a few hours in town, visiting the business men and looking into the oil situation.

REGISTERED BREEDERS PURCHASE SALE BARN; HOLD ANNUAL PICNIC

The Hereford Breeders' Association, of Deaf Smith County again demonstrated Tuesday night the strength and business ability of their young organization, at a meeting held at the Progressive Schoolhouse, seven miles northeast of town. About twenty active members out of thirty were in attendance, and the meeting was full of pep and vim from start to finish. By resolution it was decided to assess each member and make first payment on the old Bowe barn, opposite the passenger depot in Hereford, for a Sales Barn and feeding ground for the association. It is understood this property cost the Association about \$2500. In addition, it was agreed to immediately spend about \$1,000 in improvements on the barn, equipping it for from eighty to one hundred head of animals. It will be repainted attractively and the right kind of sign put on the south

side for the passing tourists to read. Also the membership donated crews and teams for the work of cleaning up and leveling the floor and yards to the barn. The building will be used to house the registered cattle brought in for the County Fair and Annual Sales, and in addition probably members may use the barn at different times for feeding show and sale stuff.

Another resolution adopted Tuesday night makes the Picnic recently held an annual affair, a sort of get-together meeting of a social nature.

Many other questions of vital importance were discussed. The business-like activities of this young Association argue well for the future of the organization and the personal fortunes of the members, as it is admitted that Deaf Smith county cannot be recognized over the land as a center of registered activity without community co-operation.

Continue Harvesting Unusual Fine Crop

The work of harvesting the best crops raised in this country in years has not been retarded by the oil excitement in the least. Farmers and ranchmen have been busy as beavers for two weeks or more cutting, shocking and threshing. Wheat wagons and trucks have been rolling into town. The Santa Fe has shipped out exactly seventeen cars of wheat from Hereford so far this season, and the shipping has hardly started good as yet.

Reports of remarkable yields in spots filter in from day to day. It is reported that W. E. Hicks made ninety bushels of oats to the acre, with corresponding yields in other crops; J. P. McMinn, of Summerfield threshed out 43 bushels of wheat on one plot, and J. H. Wagner 40 bushels.

The range is getting dry in spots although some sections have green grass and lake water. For the past two or three days the signs have been promising for more rain, and a general shower would not make anybody mad.

Nursing Work to Start With Vim

Active preparations for the work of the Nursing and Home Hygiene Division of the Deaf Smith County Chapter, American Red Cross, are now under way. Mrs. Chas. Donald, the newly elected chairman of this Division, is enthusiastically planning the campaign for the fall. The Executive Committee recently voted to employ a trained nurse for not to exceed three months, who will teach these subjects in the homes and in the schools. Anyone interested in this course of instruction should communicate with Mrs. Donald at once.

Mrs. Witherspoon Is Gracious to Us

Waxahachie, Texas, July 28, 1919
The Brand, Hereford, Texas.
Dear Sirs:—
Enclosed find money order for subscription to Brand.
Your paper is growing better all the time and I enjoy it very much. Hear from so many friends through its columns.
Respectfully,
Mrs. C. G. Witherspoon.

Born—To Mr. and Mrs. J. C. Renfro, July 31, a girl, named Frances Marie.

Rev. Sharp was an Amarillo visitor Tuesday of this week.

Grady Picnic Draws Crowd From Here

A party of local citizens representing the Merchant's Association drove over to a big Picnic and neighborhood gathering held at Grady, N. Mex., last Saturday and spent a most enjoyable day mixing with the neighbors on the northwest. The party consisted of Sherm Williams, D. F. Ashbrook, H. B. Webb, T. H. Mace, Jarrell Buser, J. O. Newell, Mr. and Mrs. Geo. E. Burns, Mr. and Mrs. G. M. Suggs, and Mr. and Mrs. Jim Lipscomb.

Entertainment For Library Is Planned

The following program will be rendered at the First Christian Church Thursday, August 7th, at 8:30 p. m., under the direction of the City Library Board. A free will offering will be taken. Come hear a good program by Hereford's best talent and lend your assistance to the Public Library.

Amarillo Ball Team Noses Out in Front

Sad to relate, our gallant baseball team took another licking last Sunday, this time at the hands of an independent outfit from the city of Amarillo. It was a regular battle, just the same, and the visiting aggregation just did nose across the wire, 1 to 0, with the locals hanging on their flank. It was a good ball game, if we did lose, and the Hereford team is steadily improving. Next Sunday they are scheduled to get revenge in Amarillo.

Oil Brings Boom For Cisco, Texas

H. L. Broadwell returned home last Sunday after a two weeks' visit to Galveston, Cisco, his old home, and other points. Mr. Broadwell reports large activities at Cisco, growing out of the oil boom, although the town itself is merely headquarters for oil interests in that section and has no nearby oil wells.

NOW IS TIME TO ASSIST

Come Out to the Meeting of Merchants Tuesday and Help

The newly organized Merchants' Association, of Hereford, of which E. W. Harrison is Chairman and Walter E. Dunlap, Secretary-Treasurer, held another business session at the Courthouse Tuesday night. Only a few members were in attendance, and definite decisions were left until another meeting to be held Tuesday night, August 5, when it is hoped the merchants of the city will attend and lend their support to this necessary undertaking.

The principal matter before the merchants at this time is the repair of the roads leading northwest, the installation of more automobile gaps, the financing of a telephone line to that neighborhood, etc.

Every merchant in the city is vitally interested in this work and should be a member of the Association, not only in name but in active participation. Every merchant in Hereford is urged to attend next Tuesday night's meeting.

Narrow Escape Mrs. Valentine's Brother

In its issue of July 17 the Colchester Independent, published at Colchester, Ill., has an account of the narrow escape from death of Mr. McCullough, a brother of Mrs. W. I. Valentine, of Hereford.

The threshing machine which Mr. McCullough was driving was thrown into the creek near Colchester by the sudden collapse of a bridge he was crossing. A man with him was thrown clear of all wreckage into the water, but Mr. McCullough had his arm caught under water, though he could keep his head above the stream. Escaping steam, however, forced him under the water again, and finally, by super-human efforts, he extricated his arm and swam down stream under water until out of range of the steam, when he was picked up and hurried home for medical attention.

In addition to all this the rig lost was valued at \$5,200, about \$2,500 of which will be a total loss.

Story Telling Hour Is Very Popular

The "Story Telling Hour," inaugurated by the Bay View Club recently for the benefit of the children has proven popular, and plans are now on foot to systematize the work to avoid repetition. The Club members are working on a plan to co-operate with the Library Board in the matter of suitable books, and with the teachers of the public schools, so that the stories will aid in the current work of the school term.

Advertising and News Copy Should be Early To Insure Satisfaction

Effective next week, advertising copy for The Brand should be in by Wednesday noon, and news items by 5:00 p. m. Wednesday in order to insure insertion for that week's issue. No copy will be received for any one week after those hours.

This rule is adopted in order to get the paper out on time, and the good will and support of the public in making these rules effective will not only enable us to give you a better paper but will prove more satisfactory to all concerned in the long run.

BIG MEN OF AFFAIRS

buy insurance as a matter of course, as a purely Business Proposition. Keen men of millions would not waste their time or money on insurance if they did not KNOW, from long years of experience, that it is a GOOD INVESTMENT. The Test of Time is the gauge of any business proposition. Time has shown that the man who does not provide liberal insurance for his property and his family is a very poor business man.

All insurance is better than none, but as is the case in any other business, there is some BETTER insurance. Call in and look over the list of true and tried Companies we represent.

Bank Shipping in Hogs

The Guarantee State Bank received this week six registered pigs, which they sold to their customers at actual cost, which was something like \$20.00 around.

This institution informs us that they have placed an order for twenty-seven more hogs, which are expected Saturday. These swine were bought at Whiteright, Texas.—Lynn Co. News.

MERCHANTS HAVE CASH FOR BAD CHECKS GIVEN

A woman has been arrested in Roswell, N. M., as a result of forged checks passed on a number of the business men of Plainview. The checks have practically all been made good with the cash. The checks were made out on H. H. McDermott, of Ralls, and drawn on a Ralls bank and endorsed by the woman under a fictitious name. Sheriff J. C. Terry secured complete information concerning the checks before they were presented to the Ralls bank for payment.—Plainview Herald.

PERRY WILSON HIT BY CAR IS SEVERELY INJURED

Perry Wilson was hit by a car yesterday when he rode on his bicycle from behind another car standing in front of the postoffice. The car was moving very slowly, but the boy was thrown to the ground with such force as to cause concussion of the brain. He did not gain complete consciousness during the night. It is not known how badly he may be hurt, but the physicians believe he will recover without permanent injury. The car which hit him was from Amarillo and the driver could not

see the boy as he started on his wheel on account of the car standing by the sidewalk.—Randall County News.

Judge Tatum Ill

Dalhart, Texas, July 23.—Reese Tatum, District Judge, Sixty-ninth Judicial District of Texas, has been confined to his home in Dalhart for several days with a severe attack of throat trouble.

Judge J. W. Elliott of Stratford is holding court in the district at Stratford during the illness of Judge Tatum.

South to the Front in Road Building

Recent reports received by the United States Department of Agriculture on Federal aid road projects show the South moving forward in the road-building campaign, with projects showing higher grade construction. Of the 16 Georgia projects approved for April, two were for bridges, 7 for concrete and 1 for either a brick, concrete, or bituminous road, the others being for sand-clay roads. The concrete roads will cost from \$30,000 to \$32,000 a mile, indicating the highest type construction, for the cost in the South is usually less than that in the North. Louisiana will build a short bituminous macadam road at an estimated cost of \$36,377 a mile. Virginia has one bituminous macadam and three concrete roads in 9 projects approved.

You are welcome at the Christian Church Thursday night, August 7.

PERMITTING PRISONERS TO SHARE IN THE NET PROCEEDS FROM THE STATE PENITENTIARY SYSTEM

House Joint Resolution No. 38.

Proposing an amendment to Article 16 of the Constitution of the State of Texas, by adding a new Section thereto to be known as Section 60; providing that the Legislature shall have power to enact laws authorizing a division of the net proceeds arising from the operation of the prison system of this State between the State and prisoners confined in the Penitentiary or their dependents; providing for the submission of a proposed amendment to a vote of the people, and making an appropriation to defray the expense of such election.

Be it resolved by the Legislature of the State of Texas:

SECTION 1. That Article 16 of the Constitution of the State of Texas be amended by adding thereto a new section to be numbered Section 60 as follows:

Section 60. The Legislature shall have power to authorize a division of the net profits arising from the operation of the prison system during any one fiscal year between the State of Texas and the prisoners confined in the Penitentiary during said fiscal year or any part thereof, or their dependents in such proportion as the Legislature may determine, not to exceed fifty (50) per cent to such prisoners or their dependents.

Section 2. The foregoing amendment to Article 16 of the Constitution of Texas shall be submitted to the qualified electors of this State for its adoption or rejection, a special election hereby ordered for the fourth day of November, 1919. All voters on this proposed amendment at said election who favor its adoption shall have printed or written on their ballots the following: "For amendment to Article 16 of the Constitution, authorizing a division of the net proceeds of the prison system of this State between the State and prisoners confined in the Penitentiary or their dependents." Those voting against its adoption shall have printed or written on their ballots the following: "Against the amendment to Article 16 of the Constitution authorizing a division of the net proceeds of the prison system of this State between the State and prisoners confined in the Penitentiary or their dependents." Previous to the election the Secretary of State shall cause to be printed and forwarded to the County Judge of each County, for use in said election, a sufficient number of ballots for the use of the voters in each County, on which he shall have printed the form of ballots herein prescribed, for the convenient use of the voters.

Section 3. The Governor of the State is hereby directed to issue his necessary proclamation ordering this election, and have the same published as required by the Constitution and laws of this State. The sum of five thousand dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury not otherwise appropriated, to defray the expenses of publishing said proclamation, and printing and distributing the necessary tickets and blanks for use in said elections.

Oil Boom Hits Quay Co., N. M.

An oil boom that promises to equal Barbarnett and Ranger when it gets nicely started is promised in Quay county and particularly around Tucumcari. A new refinery will be erected during the coming six months. There is one test well down a thousand feet and more than a dozen more contracted for. With more than a million and a half acres in the field, according to geologists, thousands of acres are changing hands daily.

Originally, the acreage was leases for from five to ten cents per acre, and prices have increased until the market record, is thirty five dollars per acre within two miles of the well.

Much of the interest in the oil boom centers around the Peco Producing and Refining Company, a local corporation formed to build a lubricating oil refinery and put down a test well. This refinery will be the first ever built in the state, which at present for years has been controlled exclusively. Gasoline is selling in Tucumcari at 32c per gallon and in practically every other town in the state for more money.

For the very few years to which the information is confined, the consumption of peaches in this country has been about one-quarter to one-half of a bushel per capita; of pears, about one-tenth of a bushel; of oranges, about one-fifth of a box; of cranberries, about one pint.

PERMITTING GALVESTON COUNTY AND CITY TO ISSUE BONDS FOR GRADE RAISING PURPOSES.

Senate Joint Resolution No. 23

A Joint Resolution proposing and submitting to the people of the State of Texas an amendment to Article sixteen of the Constitution of the State of Texas by adding thereto a new section and authorizing the City of Galveston and County of Galveston to issue bonds for the protective works, irrespective of Constitutional limitation, in the aggregate of five million dollars for both city and county, as may be by the city or county deemed necessary for the raising of the grade, building seawalls and breakwaters and doing any and all kinds of protective works in said city and county, and to levy and collect taxes to retire said bonds, principal and interest, providing for a sinking fund and creating an emergency.

Be it resolved by the Legislature of the State of Texas:

Section 1. The City of Galveston and the County of Galveston, and each of them are hereby authorized to issue bonds in such amounts not to exceed in the aggregate five million dollars, for both City and County, as may be by the city or county deemed necessary for the raising of the grade, building of seawalls and breakwaters, and doing any and all other kinds of protective works in said city and county, without regard to and irrespective of any provisions of the Constitution of the State of Texas limiting tax levies and governing bond issues, and for that purpose to levy and collect taxes to retire and pay same, principal and interest, but no debt shall ever be incurred for such purpose, unless provision is made at the collecting a sufficient tax to pay the interest thereon and to provide at least two per cent, as a sinking fund, this provision being cumulative, and authorizing the issuance of such bonds in addition to those heretofore issued for such purposes and still outstanding, the amount of such additional bonds to be issued by the county hereunder, not to exceed one million dollars, and the amount of such additional bonds to be issued by the city hereunder not to exceed four million dollars, but nothing herein shall apply to bonds heretofore or hereafter issued for purposes other than those herein defined, provided however, that that portion of Galveston County not lying within the corporate limits of the City of Galveston shall not be taxed for the purpose of issuing bonds for any of the purposes herein provided within the corporate limits of the City of Galveston, unless such bond issue and tax levy be authorized by a majority of all the tax paying voters residing in Galveston County outside of the Corporate limits of the City of Galveston; provided that no such bonds issued by the city of Galveston shall be valid unless such bond issue and tax levy be authorized by a majority of all qualified tax paying voters of the city of Galveston, voting at an election to be called for that purpose by the Mayor and Board of Commissioners of said City of Galveston.

Sec. 2. The Governor is hereby directed to issue the necessary proclamation for submitting an amendment to the Constitution to the qualified electors of the State of Texas on the first Tuesday in November, 1919, being the fourth day of November 1919. Those favoring the amendment shall have written or printed on their ballots the words "For the amendment to Article sixteen of the Constitution of the State of Texas, authorizing the issuance of bonds by the City and County of Galveston."

Sec. 3. The sum of five thousand (\$5,000.00) dollars, or so much thereof as is necessary, out of the funds in the State Treasury not otherwise appropriated, is hereby appropriated to pay expenses for the carrying out of the provisions of this Resolution.

And those opposed to the said amendment shall have written or printed on their ballots the words, "Against the amendment to Article sixteen of the Constitution of the State of Texas, authorizing the issuance of bonds by the City and County of Galveston."

IGNORANCE, IDEALISM AND SUCCESS

With Henry Ford on the witness stand, the libel suit of that gentleman against the Chicago Tribune, at Mount Clemens, Michigan, developed into a cross between a high school and a civil service examination.

What kind of a rating, high school teachers of Hereford, would you give Henry?

He flunked in History. "Did you ever hear of Benedict Arnold?" he was asked. "Yes," Ford replied. "Who was he?" "A writer," was the answer.

On civil government, he was also hazy. He said he had no idea as to the relation between the United States and Porto Rico, although he was impressed that this country, for some purpose or other, kept an army on the islands.

"What was the United States before the revolution?"

"Land, I guess," said the manufacturer of the world's greatest flyver.

Mr. Ford was opposed to the war. Professional soldiers, to his mind, were murderers. He was against preparedness until it became inevitable the United States must go into the war; then he advocated preparedness to the limit.

He is for the league of nations, and for universal disarmament. If the league of nations is rejected, however, he would have the country place itself on a war basis immediately.

Ford is today the most successful individual manufacturer in the world.

He admits he is an "ignorant idealist."

When the Liberty engine campaign was on the Ford people were approached with a contract for cylinders. A firm in the East was then making them for \$19 each.

The experimental cylinders, drilled from solid blocks of steel,

cost \$40. Ford took a contract for 400,000 at \$8.25 each. When the contract was completed the government forwarded another contract at the same price of \$8.25. Ford corrected it to \$8, despite the rise of labor and material.

When the armistice was signed 69,000 cylinders had been made at the \$8 price. On the two contracts the Government saved \$5,000,000.

To other firms the Government paid \$1200 for caissons, but Ford made 9300 and billed the Government \$600 for them. He delivered 29,000 motor cars of different styles and types at a discount of 15 percent and in these two instances saved the Government \$10,000,000.

What can be done with a fellow like Ford? What should be his rating, his average, as a citizen?

HEADLINES

It is a rank injustice for persons who are apologetic of their lack of information to excuse themselves, as Henry Ford did, by saying they read only the headlines in newspapers. The conscientious headline reader cannot be otherwise than well-informed. True, he obtains his knowledge of affairs and events in concentrated doses; but does he not also take it without the trimmings and garnishments and the petty, though not necessarily uninteresting, details that load themselves on the mind of the man who absorbs his newspaper line by line and word by word?

After all, are not the things in the daily news grind that you retain the very things you saw in the headlines?

Headline writing is a science and an art. It requires genius. The good headline, compressed into a few words so that he who runs may read, should permit a visualization of the reading matter that follows. It should be complete, comprehensive, absolute, so

far as concerns essentials. In a word, it should be a picture.

Now, if the headline is what it should be, and it mostly is, why should anybody speak of it as if it and ignorance were synonymic?

It may be interesting to know that headline writers coin more words than, probably any other class of educators. And you may be certain their new words are always short and expressive. It was the headline fellows who made it possible for the whole world to recognize a great American by the mere use of two letters of the alphabet, those letters being "T. E."

The headline writers stand in the same relation to the English language that Theodore Roosevelt stood in relation to our national life. They inject pep into it.

WHAT IS GERMANY?

Is Germany, under its present government, a republic or a monarchy?

The impression one gets who is a constant student of the daily news-mediums is that Germany, if not actually a republic, is headed in that direction. But information of a disconcerting nature is discovered in the reports of the ceremony of the signing of peace at Versailles.

M. Clemenceau, in his speech, referred to Germany as "the German republic." From across the room, where the German delegates sat, was hurled a cry that was almost a shout of "Reich!"

"Reich!" M. Clemenceau, the cable dispatch said, corrected himself and repeated the words "Reich Allemand."

The German word "Reich" really means "realm," but long usage has given it the significance of "empire." Therefore, it would seem that Germany, officially, regards itself not as a republic, but as a monarchy.

ELIMINATING THE SCRUB

We suppose it would be quite impracticable to suggest to all the cattle raisers of the country that they should come to the Panhandle section, and particularly to Deaf Smith county, if they would learn the value of breeding only high grade stock. There are magnificent herds of white face cattle here that would be a liberal education to persons seeking information on the question of live stock improvement.

Since an ocular demonstration at this center of the world's greatest Hereford cattle country is denied to most of the cattle raisers, we commend to the attention the national better live stock crusade which the Department of Agriculture purposes to start on October 1. The slogan of the campaign is, "Better sires; better stock." The plan is to hasten the replacement of the multitude of scrub domestic animals in the United States with pure-bred or high grade stock, and also to improve the quality of the pure-bred stock itself. The goal in view is greater efficiency in production.

Every live stock owner actively cooperating and keeping and using none but pure-bred sires of good quality will be given an emblem as an official recognition of meritorious effort.

The campaign is to be supervised from Washington by the Department of Agriculture and in the states by the state agriculture college.

As far as possible the buyer should select pullets of the same breed and variety as shown by the size, color of plumage, and form of comb. It is not advisable, however, for one who keeps only a small flock to supply eggs for the family table to select for uniformity in comb or color if to do so leads to marked inequality in size.

STATIONERY!—and printing at living prices. **THE BRAND.**

RELATING TO CONFEDERATE PENSIONS AND INCREASING TAX RATES FOR PAYMENT OF SAME.

House Joint Resolution No. 35.

Proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas to provide that the Legislature may grant pensions to Confederate Soldiers, sailors and their widows, who have been citizens of Texas prior to Jan. 1, 1910, providing that all soldiers, sailors and their widows eligible under the provisions hereof shall be entitled to be placed upon the rolls and participate in the pension fund created hereunder; levying a tax of seven (\$0.07) cents on the \$100.00 valuation of property in this State for the payment of such pension, providing that the Legislature may reduce the rate of pension for such purpose, fixing a time for the election to be held on such amendment, and making appropriation to pay the expenses thereof:

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas shall be amended so as to hereafter read as follows:

Sec. 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public

money to any individual, association of individuals, municipalities or other corporations whatsoever, provided, however, the Legislature may grant aid to indigent or disabled Confederate soldiers and sailors, who came to Texas prior to January 1, 1910, and to their widows in indigent circumstances and who have been bona fide residents of this State since January 1, 1910, and who were married to such soldiers or sailors prior to January 1, 1910, and to indigent and disabled soldiers who under special laws of the State of Texas during the war between the States served in organizations for the protection of the Frontier against Indian raiders or Mexican marauders and to indigent and disabled soldiers of the militia of the State of Texas who were in active service during the war between the States and to widows of such soldiers who are in indigent circumstances and who were married to such soldiers prior to January 1, 1910, provided that the word "widow" in the preceding lines of this section shall not apply to women born since the year 1860, and all soldiers and sailors and widows of soldiers and sailors eligible under the above conditions shall be entitled to be placed upon the pension rolls and participate in the distribution of the pension fund of this State under existing law or laws hereafter passed by the Legislature, and also to grant aid for the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the confederacy under such regulations and limitations as may be provided by law, provided the Legislature may provide for husband and wife to remain together in the home. There is hereby levied in addition to all other taxes heretofore permitted by the Constitution of Texas a State ad valorem tax on property of seven (\$0.07) cents on the \$100 valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate herein levied. And provided further that the provisions of this section shall not be construed so as to prevent the grant of aid in cases of public calamity.

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified voters of this State at an election to be held on Tuesday after the first Monday in November, A. D. 1919, at which all voters shall have printed or written on their ballots: "For amendment of Section 51 of Article 3 of the Constitution authorizing the Legislature to grant aid to Confederate soldiers, sailors and their widows who have been residents of this State since January 1, 1912," and "Against amendment to Section 51 of Article 3 of the Constitution, authorizing the Legislature to grant aid to Confederate soldiers and their widows."

Sec. 3. The Governor is hereby directed to issue the proclamation for said election and have the same published as required by the Constitution and laws of this State, and the sum of Five Thousand (\$5,000.00) Dollars or so

much thereof as may be necessary is hereby appropriated out of the general fund of this State not otherwise appropriated for expenses of publications

and elections thereunder. GEORGE F. HOWARD, Secretary of State. (Attent—A True Copy.) 25-41

Business Session. Some officers to be elected. A large attendance is expected and desired.

To avoid a barrel of trouble buy a barrel of Magnolia Safety Oil, a nice clear kerosene. Phone 371.

PROVIDING FOR AN ISSUE OF BONDS BY THE STATE FOR THE PURPOSE OF CONSTRUCTION OF HIGHWAYS.

House Joint Resolution No. 13
 A Joint Resolution proposing to amend Section 49, Article 3 of the Constitution of the State of Texas relating to the power to create debts by or on behalf of the State so as hereafter to authorize the Legislature to enact such laws as may be necessary directing the Governor of the State to issue bonds in a sum not to exceed \$75,000,000 providing for the levy of a tax to create the necessary interest and sinking fund therefor; and providing that the proceeds from the sale of such bonds shall be used in the construction of durable, hard surfaced roads upon the public highways of the State.

Be it resolved by the Legislature of the State of Texas:

Section 1. Amend said Section so as to read after its adoption as follows:
 Article 3. Section 49. No debt shall be created by or on behalf of the State, except to supply casual deficiencies of revenue, repel invasion, suppress insurrection, defend the State in war, or pay existing debt; and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate at any time two hundred thousand dollars (\$200,000); providing however, that the Legislature may enact such legislation as may be necessary to authorize and direct the Governor to issue bonds of the State in a sum not to exceed Seventy-five million (\$75,000,000) dollars, the proceeds to be used in the construction of durable, hard surfaced roads upon the public highways of the State; provided that such proceeds shall be apportioned to the different counties of the State according to the needs of the State Highways in such counties; and, provided further that under Legislative authority a tax not to exceed twenty cents on the one hundred dollars valuation of taxable property in the State may be levied, assessed and collected to provide the necessary interest and sinking fund therefor, and said taxes shall be, in addition to the taxes authorized by Article 8, Section 9 of the Constitution.

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held throughout the State of Texas on the first Tuesday in November, the same being the fourth day of November, A. D. 1919, and the Governor of this State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of the State. Those favoring the amendment shall have written or printed on their ballots the words "For amendment to Section 49, Article 3, of the Constitution proposing to amend Section 49, of Article 3, relating to the power to create debts by or on behalf of the State, so as hereafter to authorize the Legislature to enact a law directing the issuance of bonds by the Governor of the State in a sum not to exceed Seventy-five Million (\$75,000,000) dollars, the proceeds of said bonds to be used in the construction of durable, hard surfaced roads upon public highways of the State; and providing for the levy of a tax not to exceed 20 cents on the one Hundred Dollars valuation, on taxable property in the State." Those opposing the amendment shall have written or printed on their ballots the words "Against the amendment to Section 49, Article 3, of the Constitution proposing to amend Section 49 of Article 3 relating to the power to create debts by or on behalf of the State, so as hereafter to authorize the Legislature to enact a law directing the issuance of bonds by the Governor of the State in a sum not to exceed Seventy-five Million (\$75,000,000) dollars, the proceeds of said bonds to be used in the construction of durable, hard surfaced roads upon public highways of the State; and providing for the levy of a tax, not to exceed 20 cents on the One Hundred Dollars valuation, on taxable property in the State."

Section 3. The sum of Five thousand dollars (\$5,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the State treasury not otherwise appropriated to defray the expenses of such proclamation, publication and election.

Section 4. The fact that the Legislature is restricted by the provisions of Section 49, Article 3 of the State Constitution from enacting needed Highway Legislation creates an emergency and an imperative public necessity exists, demanding the suspension of the rule requiring bills to be read upon three several days, and such rule is hereby suspended.

SAFETY SERVICE SECURITY

The Power Unit

—How to Pick it Out

The first step in picking a tractor is to turn over in your mind what the job will be. No one knows quite as well as you what the needs of farm work are.

There should be three things uppermost in your mind when you pick a tractor. First—labor saving; second—time saving; third—greater crops. Let us talk about them briefly in their order.

Your choice should be the machine which will enable you to prepare your seed-bed that it will yield the greatest possible crops and thereby increase your profits. WITHOUT NECESSITATING AN INCREASE OF MAN POWER.

Your tractor should be able to prepare your fields for crops in the shortest possible time. Weather conditions often make it necessary for the bed to be prepared quickly and for the crops to be harvested in a big hurry. This is a doubly important factor and should

have a great deal of your thought in picking your machine.

Lastly your tractor should be the type that will prepare your bed correctly so as to insure greater crops. Soil is not dirt. It is the storehouse for plant food and should be so cultivated as to be ready to receive and hold the greatest possible amount of food for the plants which are to grow in it. We cannot control the rainfall but we can conserve it for our plants by the proper seed-bed preparation.

Therefore, the selection of your tractor should be made on the basis of the four points:

1. Ease of Manipulation.
 2. Reserve Power.
 3. Speed.
 4. Non-packing of the Soil.
- together with consideration of the Company which places at your hand a large and intelligent agricultural engineering staff, whose whole duty is to furnish you with means for increasing your profits.

SOCIETY AND CLUBS

MISS CECIL GHELLAND, Phone 20

Last Thursday afternoon at the home of Mr. and Mrs. W. A. Stewart a lawn party was enjoyed by a number of the friends of Sloan Baker, who is spending a few days visiting friends.

A number of out-door games were enjoyed after which a picnic supper was served. Again the young folks entered into many merry games until a late hour when ice cream and cake was served.

A very enjoyable day was spent at the home of Mr. and Mrs. W. A. Dougherty last Sunday. The occasion being in honor of Mr. Dougherty's sisters, Mesdames Davis and Turner, who are visiting in the Dougherty home. Those who have had the pleasure of visiting in the Dougherty home will know that a real country dinner was served. The occasion was one long to be remembered.

Those present were, Mr. and Mrs. Jeff Davis and sons, of Ardmore, Oklahoma, Mrs. C. E. Turner and children, of Amarillo, Mrs. Wymore, of Ardmore, Oklahoma, Miss Jessie Mirris, Mr. Alec Thompson and mother and Mrs. C. T. Kibbe.

The Presbyterian Missionary Society met at the home of Mrs. Ray Barber in their regular social meeting with a large attendance. We are glad to see such a good attendance through the summer months. The social was in honor of Mrs. J. A. Fox from Waxahachie. It is a joy to welcome such friends as Mrs. Fox into our midst. Meeting was called to order and a devotional led by the president of the society after which a social program was given as follows:

Violin Solo by Miss Mabel Barnhart.
Reading by Sena May Mounts,
Vocal Solo by Janie Gregg.

A social hour was then spent in visiting with Mrs. Fox and among ourselves.

The hostesses, Mesdames Barber, Davidson, and Holman served the guests with ice cream and Devil's food cake. Our next meeting will be with Mrs. Fertsch. Lesson will be all of Ecclesiastes.

Additional News From Dimmitt, Castro County

Sergt. R. E. Ryle, from Durant, Oklahoma, is visiting his uncle, Mr. J. N. Alexander. Sergt. Ryle has just returned from France.

Miss Nora Mae Waldrip, leaves for Lockney this week to visit her sister.

Miss Alice McLean very charmingly entertained a number of her girl friends in her home at Dimmitt, with a slumber party Saturday, July 26th.

The girls, chaperoned by Mrs. McLean, motored to Shuford Lake about eight miles south of Dimmitt Saturday afternoon and enjoyed a delightful supper, after which they returned home and entered into many enjoyable games until a late hour.

All day Sunday was enjoyed to the utmost and in the afternoon as the guests departed for their homes they voted Miss Alice and her mother as most delightful entertainers.

Those present were: Misses Helen and Ruth Cowser, Faye Alexander, Velma and Thelma O'Brien, Ray Young, Cecilia Holman and Nora Mae Waldrip.

Resolutions Adopted by Texas Farmers Congress

Resolutions adopted by the Texas Farmers Congress in Annual Session on July 17th, 18th and 19th, at College Station, Texas:

1. Be it resolved, by the Texas Farmers Congress that we will call the attention of the farmers and people in general to the great value of the work being done by the extension service of the A. & M. College, and that we approve this work heartily, and request the legislature of Texas to make such appropriations as are needed to carry on the experimental work properly.

2. Whereas, the Homestead law of Texas has the effect of depriving the farmer of proper credit and prevents him from securing

needed financial aid, and what is secured is at excessive rates of interest, be it

Resolved, that the Texas Farmers Congress, in convention assembled, declare itself strongly in favor of amending the Homestead Law so as to permit the farmer to take advantage of the Federal Reserve Land Bank law, and that we earnestly request the legislature of Texas to submit such amendment at the earliest possible date.

3. Whereas, agriculture in all its branches make up 75 percent of the industrial wealth of Texas and of her population, and

Whereas, this calls for Rural Schools to be of the highest efficiency in preparing boys and girls for the best service and making of them the best citizens, therefore, be it

Resolved, by the Texas Farmers Congress, now assembled in annual session at the A. & M. College of Texas, this the 18th day of July, 1919, that we insist that steps be taken by the proper authorities of this State to urge the teaching of agriculture in a practical manner in all rural schools, and that as

soon as possible these schools be formed into communities or districts with sufficient means and patronage to organize them into High Schools with grades equal to any in cities and towns, and that they be made social centers for the purpose of giving the rural communities the largest advantages in religious, social and amusement facilities; and that this be made more nearly possible for every home by installing wherever needed what is known as "Rural School Conveyance" for taking children to and from such schools who may live too far to make this possible under all other circumstances without such conveyances. And be it further,

Resolved that we insist that in all our industrial schools having agricultural as one of its purposes and aims and for which public money is appropriated, that agriculture shall be taught and shall be practically carried out, and that such course shall have a place as prominent and be as important a part of all such schools in necessary buildings and equipment as agriculture bears in its importance

to the wealth and population of Texas.

4. Whereas, the Federal Government has through the enactment of the Smith-Hughes Act made large provision for the teaching of Vocational Agriculture, Vocational Home Making and Vocational Industrial Education, and

Whereas, the total federal money available for Texas for the teaching of vocational agriculture and vocational industrial education has not been used by the schools of the State for the past two years, be it

Resolved, First, that local and county communities be urged to study the advantages of vocational education and introduce such types of vocational work as is adapted to the local needs. And be it resolved especially that school boards in rural communi-

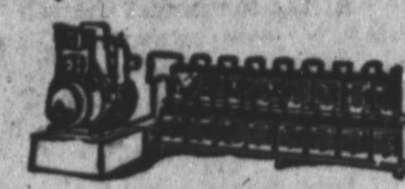

ties make every effort to take advantage of the Federal aid for the teaching of vocational agriculture

Rain water for the family wash

The ideal water for washing clothes is rain water. Under its velvety, soothing action dirt vanishes magically. This cleansing virtue in rain water is due to its purity.

Ordinary water lacks this quality because of its hardness, making necessary more of the rubbing that shortens the life of clothes. Most housewives must of necessity use this more or less hard water for the family wash.

WE can give you **SOFT WATER LAUNDRY SERVICE**, for in our modern laundry all cleansing is done with water equally as pure as that which comes to us from the clouds. We secure our supply by a special filtering process.

Our clothes-washing method is one the housewives endorse,—no rubbing and wringing; just sousing and rinsing in soft water and suds of pure white soap. Leave word with us and our driver will call for your family bundle.

VICTORY FAIR HELPS SWINE INDUSTRY

\$5,500.00 IN PREMIUMS ANNOUNCED BY SECRETARY STRATTON OF STATE FAIR

Swine breeders will have every reason to feel that their industry has been given adequate attention by the Directors of the State Fair of Texas, at the Victory Exposition, Secretary Stratton said a few days ago.

Premiums aggregating \$5,500.00 have been offered. Enthusiasts predict that the swine industry in Texas will very soon rank among the chief money-making industries of the great Southwest. The State Fair of Texas is doing its part to hasten that day.

Many additional special prizes will be offered. Among them are the American Poland China Record Association Futurity, the Standard Poland China Record Association, the Futurity of the American Berkshire Association, the National Duroc Jersey Record Association Futurity, and specials from the Armstrong Packing Company of Dallas, J. J. McLain of Anna, Texas, the American Tamworth Swine Record Association, the Chester White Swine Record Association, and the Flowerdale Farm of Dallas.

The American Duroc Association of Chicago is financing a promotion club show to be put on during the 1919 Victory Fair.

Entries are being made from all parts of the country. It will be a great show.

\$25,000.00 BEING SPENT ON STATE FAIR GROUNDS

GROUNDS AND BUILDINGS SPICK AND SPAN FOR VICTORY EXPOSITION

A glimpse behind the scenes at the great State Fair of Texas was enjoyed by the writer recently in a trip over the grounds and buildings with Secretary W. H. Stratton.

First we visited the coliseum, where all was bustle and activity. Skilled workmen were busy constructing an entire new set of elaborate scenery. A new drop curtain has been painted by a well-known artist. It depicts "Victory," with soldiers marching through a Victory arch.

At the grandstand, where the hippodrome, spectacular and pyrotechnic displays will be held, improvements are being made. About 1,000 loads of dirt are being placed, covered with gravel and macadam, so as to make a hard-surfaced walk in front of the stand. A double row of boxes, and a new hand-stand are being added.

The race track is soon to be regraded for the auto races. The evacuation of Camp Dick has necessitated many repairs, alterations and improvements. The renovating will include a new coat of paint for all buildings on the grounds. A steel arch at the southern turn of Grandstand Drive is to be erected. The paint itself makes the buildings look fresh and attractive, seeming to beckon one to enter and view the wonders within the walls.

The eight buildings formerly used as barracks at Camp Dick are being remodeled for the Boys and Girls Educational Encampment, so as to provide commodious and comfortable quarters for the young folks.

SCHOLARSHIPS OFFERED IN TEXAS COLLEGES

FOR BOYS AND GIRLS ENCAMPMENT AT VICTORY FAIR

The boys and girls of Texas will have greater representation than ever before, at the Victory Fair. Forty thousand boys and twenty thousand girls of the State of Texas are now competing for free entertainment there. This they are doing through their work in the Boys and Girls clubs, under the direction of the A. & M. College of Texas and the U. S. Department of Agriculture.

Plans are being made to house six hundred boys and three hundred and fifty girls in new commodious, comfortable quarters at the Victory Fair this fall, at the Educational Encampment.

The County Agents supervising their work report the boys are making great progress in raising corn and poultry, and the girls in poultry raising and home demonstration work.

Appreciating the vital importance of this work, scholarships in leading Texas colleges have been donated by several public-spirited Texas business concerns, as follows:

Titche-Goettinger Company, and the newly organized L. H. Lewis (Wholesale) Dry Goods Company, both of Dallas, each offer a scholarship to some girl club member, in the College of Industrial Arts at Denton.

Sears, Roebuck & Company of Texas, and T. B. Truitt, (of Truitt's Improved Cottonseed) Ennis, Texas, each offer a scholarship to some boy club member, in the A. & M. College, or some of the Junior Colleges of Texas. Awards will be made to the young folks attending the Encampment at the Victory Fair.

RESOLUTIONS ADOPTED

(Continued from page 6)

and vocational home making, that the legislature be commended for action of appropriating \$25,000 for each of the next two years to help rural communities to duplicate the federal funds available under the Smith-Hughes Act, and that the legislature be urged at its next session to provide for greater funds for the same purpose.

5. Whereas, the schools in many localities throughout the State are seriously handicapped for lack of funds because the constitutional limitation of 50 percent tax on the \$100 valuation to be used for the maintenance of schools, and

Whereas, this limitation is preventing many localities from securing the benefits of the funds from the Smith-Hughes Act, be it

Resolved, that the people of the State be urged to support an amendment to the constitution raising the limit of taxation for this purpose to not less than \$1 on the \$100 valuation.

6. Whereas, the most pressing and fundamental need of rural education and rural life is more continuous and effective leadership in the various counties of the State, and closer and more effective supervision of country schools, and

Whereas, under the present method of selecting the County Superintendent, it often happens that county politics is too prominent a factor and results in a lack of continuity of service essential to the development of an educational program in the county, and

Whereas, it has been demonstrated that the method of selecting a superintendent by a board has resulted in better supervision and stronger school administration in the town and city schools of the State, and

Whereas, it is the inalienable right of the children of the rural districts to have as good school advantages as the children of the urban communities, therefore, be it

Resolved, that we especially urge and request the Legislature of the State of Texas, at its next session whether it be a special or regular session, to enact a law providing for the appointment of the County Superintendent by the County Board of Education, and that we further urge the legislature to provide by a separate law for such clerical assistance and expense allowance for getting around to the schools as will enable the County Superintendent to do effective supervision.

WM. A. BOWEN,
Committee on Education.

Reclamation Farmers Sell Wool Together.

Farmers on the Belle Fourche, Minidoka, and Shoshone reclamation projects are engaging in the cooperative marketing of wool in respective localities under the direction of the United States Department of Agriculture. The plan of concentrating the graded wool at central points, where it is rapidly accessible to the buyers, assures better prices and larger net profits to the producers. Flock owners are paying from 17 to 29 cents a head for machine shearing, an average of about 21 cents being common. A few years ago the cost of machine shearing was only about 10 cents a head. This increase of over 200 per cent is not able as another reason why woolen clothes cost so much.

Young pigs should be given their feed in such a manner that each individual pig gets its share. The simplest way to accomplish this is to allow the pigs to eat from a properly constructed feed trough, one that will keep the pigs out of the feed and will lessen the possibility of crowding.

Good food habits are an important part of personal hygiene and thrift. Children get such habits by having suitable amounts of suitable foods served them and then being expected to eat what is set before them.

RELATING TO SPECIAL TAXES BY CITIES, TOWNS AND COUNTIES FOR PUBLIC IMPROVEMENTS, PUBLIC ROADS, ETC.

Senate Joint Resolution No. 20.

Proposing an amendment to Section 9 of Article 8 of the Constitution of the State of Texas, by changing said Section 9 so as to provide for the levy of taxes by counties, cities and towns, not to exceed thirty cents for roads and bridges, and a tax not to exceed fifty cents on the One Hundred (\$100.00) Dollars valuation in any one year, for the erection of public buildings, streets, sewers, water works, improvements of cemeteries and other permanent improvements, providing for the levy of a maintenance tax by counties, or political subdivisions thereof, not to exceed sixty cents on the One Hundred (\$100.00)

Dollars' valuation, upon a majority vote of the qualified property tax payers voting at an election held for that purpose, and making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 9 of Article 8 of the Constitution of the State of Texas be so amended that the same will hereafter read as follows:

Section 9. The State tax on property, exclusive of the tax necessary to pay public debt, and the taxes provided for the benefit of the public free schools, shall never exceed thirty-five cents on the One Hundred Dollars' valuation; and counties, cities and towns are authorized to levy not exceeding thirty-five cents for city or county purposes, and not exceeding thirty cents for roads and bridges, and not exceeding fifteen cents to pay jurors, on the One Hundred Dollars' valuation, exclusive of taxes levied for the payment of debts incurred prior to the adoption of the amendment September 25th, 1883; and for the erection of public buildings, streets, sewers, waterworks, improvement of cemeteries, and other permanent improvements, not to exceed fifty cents on the One Hundred Dollars' valuation, in one year, and except as in this Constitution otherwise provided and qualified voters, who have been assessed or paid property tax of any county or subdivision thereof now existing or that may hereafter be defined by the Commissioners' Court, may at an election called in accordance with the law authorizing the levy of a special road tax, by a majority vote levy a special tax of not exceeding sixty cents on the one hundred dollars' valuation on all property, for the further improvement and maintenance of public roads, provided that this provision shall be self-enacting and that no part of such tax shall be available to pay an indebtedness incurred prior to the current year for which said tax is collected, except to pay indebtedness now existing, and provided further that such levy may be voted off or changed at any time by majority vote of those qualified to vote under this provision. And the Legislature may pass local laws for the maintenance of public roads and highways, without the local notice required for special or local laws.

amendment shall be submitted to a vote of the qualified electors at an election to be held for that purpose on the fourth day of November, A. D. 1919; at said election the vote shall be by official ballot which shall have printed or written thereon the words "For the amendment to Article 8, Section 9 of the Constitution of the State of Texas providing for the levy of taxes not to exceed thirty cents for roads, streets and bridges; and not to exceed fifty cents for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, and not to exceed sixty cents for maintenance of public roads in one year," and, also, the words "Against the amendment to Article 8, Section 9 of the Constitution of the State of Texas providing for the levy of taxes not to exceed thirty cents for roads, streets and bridges, and not to exceed fifty cents for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, and not to exceed sixty cents for the maintenance of public roads, in any one year." All voters favoring this proposed constitutional amendment shall erase the words "Against the amendment to Article 8, Section 9 of the Constitution," etc., and those opposing it shall erase the words "For the amendment to Article 8, Section 9 of the Constitution," etc., which erasure shall be made by making a mark with pencil or pen, through said words. All ballots cast as above provided shall be counted as cast for or against this proposed amendment; and if a majority of the votes cast shall be for the amendment, it shall be declared adopted; if a majority of the votes cast shall be against the amendment, said amendment shall be lost.

Sec. 3. The Governor of this State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of funds in the State Treasury not otherwise appropriated to defray the expense of such publication and election.

GEORGE F. HOWARD,
Secretary of State.

Come to the meeting, take part and be promoted to the Inner Circle.

Regular Meeting of the B.W.M.W.

The Circle met in joint session at the beautiful and hospital home of Mrs. Roy Bruner, last Wednesday afternoon, with a large enthusiastic crowd present.

There was a profusion of flowers that added to the attractiveness of the occasion.

The meeting was opened with the dear song: "Love Lifted Me," Mrs. Mounts as pianist. Then followed an earnest prayer by Bro. McClurkin. Another sweet song: "Jesus Lover of My Soul."

Mrs. W. E. Hicks led the devotional by reading the 15th Chap. of John. Each verse is a gem and she made inspiring comments while reading.

A prayer for greater blessing and consecration by Mother LeGrand.

A special song, well rendered by Helen Lambert, accompanied by Mrs. Calla Mounts.

The next number on the program was Marie Burns, but as it was impossible for her to be present, she requested to talk to the S. S. about her impressions, and service laid on her heart for young people.

Then came the looked-for message from Palacios by Sister McClurkin. She carried us right from Hereford to Palacios, and even before we got there could feel the thrill, the joy and the spirit of the encampment. Besides the bathing, refreshments: and other amusements, there were classes with efficient instructors in every activity and service of the church for young people; also a sermon by some noted preacher every day.

Dr. Truett's name and fame were imperishable before the war, but during that time he endeared himself to the dear boys and his country as well. His talks were wonderful and uplifting every day, but on Sunday he appealed to the young people for greater service, not only at home, but in the war-wrecked countries. O, he made them see visions, and he wished himself twenty years younger that he might do more for the Master; he thrilled and stirred their hearts mightily and while they were moved with a holy inspiration, they volunteered in such great numbers

that it was marvelous. He did not leave the older people out, but told them to use their influence and means at home for the cause. That was a great day and one long to be remembered.

When Sister McClurkin finished, she was overwhelmed with praise and appreciation.

All were charmed with a sweet solo by Mrs. Homer Wilkinson: "Sing Me to Sleep."

Bro. McClurkin gave an interesting and enlightening address on the \$75,000,000 the Baptists are to raise; all enjoyed it extremely. A few more notes were given on Palacios; of special mention

was the Coleman-Jolly-Orchestra. Space forbids further mention.

Our hearts went out in sympathy to Mrs. Audry Thompson in her late sorrow.

All reports and minutes were read and praised and approved.

Personal service items were arranged and provided for.

After the song: "Near The Cross," Mrs. Stanley made the closing prayer.

Then followed delicious refreshments and a happy social time.

It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

Take

CARDUI

The Woman's Tonic

Mrs. N. E. Varner, of Hixson, Tenn., writes: "I was passing through the ... My back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over, I think ... I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework. Try Cardui, today. E-76"

SLAT'S DIARY

FRIDAY—I opened pa's chest of tules tonite and tuk out his brace & bit & was going out of the house & pa seen me & he sed Hay Slat's what you doing with that brace & bit & I replied I have organized a band of campfire boys & we hafta drill tonite. He sed Slat's if yure branes was grass you end sell yure lawn more.

SATURDAY—I tuk a walk over past Jane's house today. Just happened to accidentally go thataway & was studying how cud I make 17 ets so as 2 go and see Wm S. Hart & Jane sed wot are you thinking about & I answered & sed Nothing. & she sed You all ways have yure mind on your own self it seems. Threw with women. That's wot I yam.

SUNDAY—I got 2 tawking 2 Jake & ast him wot he thot about me & Jane & he sed he thot I showed a lots better taste that she does. So we are not good friends enny more.

MONDAY—Ma & pa including me went 2 the Confeckshunary & had ice Cream & then pa got sum cigarets & went 2 lite 1. The owner sed Mister no smoking in here & pa sed that's funny you sell them dont you not. The man sed Yes & they sell upon Underware up 2 the dry Goods store, but they dont let you put them on in the store room.

TUESDAY—I was telling pa & ma & sum other ladys about a girl wich hurt her leg in swimming & ma sed You must say lims not legs. So later in the evening I told them of a man arrested for boot limming & ma never under Stood me a tall. Shes not so awful wise. At times.

WEDNESDAY—walked down the street with my skool teacher today & we saw a house wich wis being bilt & she sed Slat's do you know when & where Shingles was 1st used I sed I dont know when but I got a good idea where they was 1st used. But I diddent care to discuss it with her. Nor nobuddy else.

THURSDAY—In Swimming today. Lots of people was in. Blisters was there and he can dive & turn summer Sets & flote ded man & all & the girls are after him to lern them to swim. Even Jane is. She wanted me 2 jump off of the bridge like Blisters but I sed 2 her that they was lots of little boys in hevin wich tried that & I wood rether not try it. She called me a big trade calf. But I shud worry. I dont care.

FLOYDADA FARMER CUTS THROAT AND HANGSSELF TO A SHED RAFTER

"Sunday morning, June 20, about 11 o'clock," says the Plainview Herald, "Jim Hammonds, 45 years of age, a Floyd county farm-

er, after tying one end of a rope about his neck and the other to a rafter in a shed on his farm, five miles from Floydada, slashed his throat with a large knife, and then jumped, hanging himself. No reason is known for the act. Hammonds had but one arm. "Hammonds left a note to a brother in regard to some notes at a local bank, but no other word. He leaves a wife. It is said he was divorced from his first wife about five or six years ago. "The rope which Hammonds used was a twelve-foot, one-inch rope, which he purchased in Floydada Friday."

PROVIDING FOR THE SEPARATION OF THE STATE UNIVERSITY AND THE AGRICULTURAL AND MECHANICAL COLLEGE, AND FOR BOND ISSUES BY EACH.

House Joint Resolution No. 29

A Joint Resolution to amend Article 7, Sections 10, 11, 12, 13, 14 and 15 of the Constitution of the State of Texas, which article relates to education, and which sections provide for the establishment and support of the University of Texas, the Agricultural and Mechanical College of Texas, and for a branch college for the instruction of colored youths; provides that the Texas State Medical College and the School of Mines at El Paso shall be branches of the University of Texas; provides that said University, said Agricultural and Mechanical College, and said College of Industrial Arts shall be separate State Institutions and independent in organization; provides for the sale of the lands belonging to the University of Texas permanent fund, and for the division of the proceeds of such sale and all securities between the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View Normal and Industrial College; directs that the respective parts of each shall become the permanent fund of each institution and how it shall be invested; provides that the University of Texas and the Agricultural and Mechanical College of Texas may utilize the permanent fund of each as a basis for the issuance of bonds for improvements, and for redemption of such bonds from the income of such permanent funds; provides that the governing board of the Agricultural and Mechanical College may make provisions for permanent buildings for the Prairie View Normal and Industrial College from the proceeds of bond issues by the said Agricultural and Mechanical College; and declares said Prairie View Normal and Industrial College a Constitutional branch of the Agricultural and Mechanical College; provides that the Legislature shall make provisions for appropriation for the maintenance and development of the University of Texas and the Agricultural and Mechanical College, and for the development and support of the College of Industrial Arts, the Normal Schools, the Prairie View State Normal and Industrial College; provides for the authority to the University of Texas and the Agricultural and Mechanical College, pending division of the University endowment, to issue bonds redeemable from the income of the endowment, and granting authority to the Legislature to make appropriations to supply any deficiency; provides that the Legislature shall give encouragement and direction to the development of a University of the first-class, and an agricultural and Mechanical College of the first-class, and a College of Industrial Arts of the first-class; provides for the submission of this proposed amendment of the Constitution to the people, fixing the date for election to be held, and making an appropriation to pay the expense of said election.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Sections 10, 11, 12, 13, 14 and 15 of Article VII of the Constitution of the State of Texas, which Article relates to education, and which sections provide for the establishment and support of the University of Texas, the Agricultural and Mechanical College of Texas, and a branch college or university for the instruction of colored youths, be amended to read as follows:

Section 10. In pursuance of constitutional authority and direction the State having established the University of Texas at Austin, in Travis County; the Agricultural and Mechanical College of Texas at College Station, in Brazos County; and the Prairie View State Normal and Industrial College for the instruction of the colored youths of the State at Prairie View, in Waller County; and the Legislature having established the College of Industrial Arts at Denton, in Denton County, the said University of Texas, the said Agricultural and Mechanical College of Texas, and the said College of Industrial Arts for white girls, are hereby declared separate state institutions and independent in organization. The Texas State Medical College, located at Galveston, in Galveston County, and the School of Mines, located at El Paso, in El Paso County, are constituted branches of the University of Texas. The Prairie View State Normal and Industrial College for the instruction of colored youths is constituted a branch of the Agricultural and Mechanical College of Texas.

Section 11. To better enable the University of Texas and its constitutional branches; the Agricultural and Mechanical College of Texas and the Prairie View State Normal and Industrial College, to fulfill the purposes for which created, all lands and other property heretofore set apart and appropriated for the establishment, endowment, and maintenance of the University of Texas and its constitutional branches, together with the proceeds of the sale of such

lands heretofore made, or hereafter to be made, for the support and benefit of either institution, shall constitute a permanent fund for the University of Texas, the Agricultural and Mechanical College of Texas, and for the Prairie View State Normal and Industrial College; provided, that when the permanent University endowment shall, by constitutional and statutory authority, be apportioned to the institutions named it shall be divided between the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View State Normal and Industrial College in the following manner: To the University of Texas, sixty-six and two-thirds (66 2/3) per cent, and the Agricultural and Mechanical College of Texas, thirty-three and one-third (33 1/3) per cent; and the governing board of the Agricultural and Mechanical College of Texas shall apportion to the Prairie View State Normal and Industrial College for colored youths such part of, or interest in, the said thirty-three and one-third (33 1/3) per cent as may be determined equitably by said governing board. The principal of all funds accruing to each institution from the division of the University endowment under the provisions of this section shall, whenever the said endowment is divided, constitute the permanent fund of each, and shall be invested as the permanent public free school fund is now or may hereafter be authorized by law to be invested; and the governing board of the University of Texas and the Agricultural and Mechanical College of Texas shall be authorized, with the approval of the Governor, and in the manner to be provided by law, to issue bonds for permanent improvements, such bond issues to be based upon the permanent funds of the institution issuing them; and the governing board of each institution shall make provision from the income derivable from its permanent fund for the payment of all bonds issued under its authority as may be provided by law.

Sec. 12. The lands set apart to the University fund shall be sold under such regulations, at such times, and on such terms as may be provided by law; and the Legislature shall provide for the prompt collection, at maturity, of all debts due on account of University lands heretofore sold, or that may hereafter be sold, and shall in neither event have the power to grant relief to the purchasers. And, until such time as the University endowment fund shall be divided, in accordance with constitutional and statutory authority, the proceeds from the sale of lands, as realized and received into the Treasury of the State, together with such sum belonging to the funds as may now be in the Treasury, shall be invested as the permanent public free school fund is now or may hereafter be authorized by law to be invested; and the interest accruing thereon, and any income from the use of the said University lands, shall be subject to appropriation by the Legislature, and may be available for the redemption of bonds based on the University endowment and to be redeemed from the use of the land, as may be provided by law, to aid in the construction, equipment and maintenance of the University of Texas and the Agricultural and Mechanical College of Texas, and the total of such bond issues outstanding shall at no time exceed four and one-half million dollars; and the Legislature is hereby authorized to appropriate out of the general revenues of the State such moneys as may be necessary to cover deficiencies in the interest and sinking fund accounts of the bond issues herein provided for. Provided, that the one-tenth of the alternate sections of the lands granted to railroads, reserved by the State, which were set apart and appropriated to the establishment of "The University of Texas" by an Act of the Legislature of February 11, 1858, entitled "An Act to Establish 'The University of Texas,'" shall not be included in or constitute a part of the permanent University fund.

Sec. 13. The Legislature shall provide by appropriation for the equipment, maintenance and development of the University of Texas, and the branches of the said institution named in this Article and such other branches as may be hereafter established by law; for the Agricultural and Mechanical College of Texas and its branches as now or hereafter may be established by law; for the College of Industrial Arts for the education of white girls; for State Normal Schools; and for the Prairie View State Normal and Industrial College for colored youths.

Sec. 14. The Legislature shall give encouragement and direction to, and make provision for the educational activities of the respective State Institutions provided for in this Article, and as may be adequate for the promotion of literature and the arts and sciences, pure and applied, and for instruction in the professions, of a University of the first class; and for instruction in all these branches of learning which relate to agriculture, animal husbandry, the natural sciences, pure and applied, connected therewith, the mechanic arts and military science and tactics, requisite to the development of an Agricultural and Mechanical College of the first class; and for the education of white girls in the literary branches, the arts and sciences, and in social and domestic economy of the age, as may be necessary to establish and maintain a College of Industrial Arts of the first class for white girls, and for instruction in all branches requisite to the development of normal schools of the first class.

Sec. 15. The Prairie View State Normal and Industrial College for the instruction of colored youths of the State, Waller County, as a branch of the University of Texas, is hereby declared a branch of the Agricultural and Mechanical College of Texas. And in lieu of the separate apportionment of a part of the University endowment, as authorized in Section 11 hereof, the said Board of Directors of the Agricultural and Mechanical College may apportion to the Prairie View State Normal and Industrial College such part of any fund realized from any authorized bond issue by the Board for the purpose of permanent improvements as the Board may determine to be equitable and the fund so apportioned shall be available only for the purpose of constructing permanent improvements for the said Prairie View State Normal and Industrial College.

Sec. 2. The Governor of this State is hereby directed to issue and have

published the necessary proclamation for the submission of this proposed amendment to the Constitution of the State, to the qualified voters of the State, said election to be held throughout the State on the first Tuesday in November, 1919, and all voters favoring the amendment shall have written or printed on their ballots the words:

"For the amendments to Sections 10, 11, 12, 13, 14 and 15 of Art. VII of the Constitution of the State of Texas, fixing the constitutional status of the University of Texas, the Agricultural and Mechanical College of Texas, the College of Industrial Arts at Denton, Texas; the Sam Houston Normal Institute at Huntsville, Texas; the North Texas State Normal at Denton, Texas; the Southwest Texas State Normal at San Marcos, Texas; the West Texas State Normal at Canyon, Texas; and the East Texas State Normal at Commerce, Texas; and other State educational institutions, and determining the interest, respectively, of the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View State Normal and Industrial College in the University permanent fund; and providing for the support, direction, and development of State Educational Institutions."

Those opposing the amendment shall have written or printed on their ballots the words:

"Against the amendments to Sections 10, 11, 12, 13, 14 and 15 of Article VII of the Constitution of the State of Texas; fixing the constitutional status of the University of Texas, the Agricultural and Mechanical College of Texas, the College of Industrial Arts at Denton, Texas; the Sam Houston Normal Institute at Huntsville, Texas; the North Texas State Normal at Denton, Texas; the Southwest Texas State Normal at San Marcos, Texas; the West Texas State Normal at Canyon, Texas; and the East Texas State Normal at Commerce, Texas; and other State educational institutions, and determining the interest, respectively, of the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View State Normal and Industrial College in the University permanent fund; and providing for the support, direction and development of State educational institutions."

Sec. 3. The Governor is hereby directed to submit this amendment to the qualified voters at an election to be held throughout the State on the date herein specified, and the sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the general revenue not otherwise appropriated, for the purpose of issuing the proclamation and publishing the amendment as required by the Constitution and laws of this State.

GEORGE F. HOWARD, (Attest—A True Copy.) 25-41

Plum Curran is 6 to 14 Days... Druggist return money if PAIN EXTINGUISHER fails to relieve toothache, headache or rheumatism. Money returned if they do not help you.

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to kidney trouble. The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood. Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach troubles, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatitis and lumbago. All these arrangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Haasium Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Do not wait until tomorrow. Go to your druggist today and insist on GOLD MEDAL Haasium Oil Capsules. In twenty-four hours you should feel health and vigor returning and will bless the day you first heard of GOLD MEDAL Haasium Oil. After you feel that you have cured yourself, continue to take one or two capsules each day, to see to keep in first-class condition and ward off the danger of other attacks. Ask for the original imported GOLD MEDAL brand. Three times. Money refunded if they do not help you.

Connell says—

IF YOU will watch this space every week you may find a bargain that will interest you. For instance, this week, I have the following, which is worth the price asked for it:

Shallow water section 7 miles from town. Joining irrigation well. \$20.00 per acre, 1-4 cash, balance 1 to 5 years, 6 percent. 50 head high grade heifer yearlings for sale.

RENEWED TESTIMONY

No one in Hereford who suffers backache, headaches, or distressing urinary ills can afford to ignore this Hereford woman's twice-told story. It is confirmed testimony that no Hereford resident can doubt.

Mrs. W. G. Ross, 319 W. 3rd St., Hereford, says: "I used Doan's Kidney Pills a couple of years ago, which I got at Burns' Drug Store, and from the results I had I know they are a good remedy. I gladly advise anyone to try them if bothered with weak or disordered kidneys." (Statement given November 15, 1915.)

On May 2, 1919, Mrs. Ross said: "I have used Doan's Kidney Pills occasionally since I recommended them before. They have never failed to give perfect results, therefore my faith in them has increased."

Price, 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ross had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

THE STATE OF TEXAS
County of Deaf Smith
City of Hereford

I, Annie J. Price, Tax Collector for the City of Hereford do hereby certify that the foregoing is a true and complete list of Delinquent or Insolvent taxes on property assessed on the Tax Rolls of said City for the year 1918.

Annie J. Price
City Tax Collector.
Subscribed and sworn to before me this the 14th day of July, 1919.

A. O. Thompson,
County Clerk, Deaf Smith Co.
By A. L. Biggs, Deputy.

THE STATE OF TEXAS
To the Sheriff or any Constable of Deaf Smith County, Greeting:
You are hereby commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, a copy of the following notice:
THE STATE OF TEXAS
To all persons interested in the es-

take of Elvira M. Gordon, Deceased.
Geo. L. Mann, Executor-Administrator has filed in the County Court of Deaf Smith County an application for an order to sell the following property of said estate, situated in Deaf Smith County, Texas, to-wit:

The North East Quarter (NE1-4) of Section No. 36 in Township No. 4, North, Range No. 3 East of a Capitol Syndicate Subdivision as shown by a plat of said subdivision of record in the deed records of Deaf Smith County, Texas.

which will be heard at the next term of said Court, commencing on the first Monday in August A. D. 1919, the same being the 4th day of August A. D. 1919, at the Court House thereof in Hereford, at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein fall not, but have you before said Court on the said first day of the next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Hereford this the 5th day of June A. D. 1919.

(seal) A. O. THOMPSON, Clerk
County Court, Deaf Smith County, Texas.

LUBBOCK WOMAN GETS FIVE-YEAR SENTENCE FOR MURDER OF HUSBAND

Lubbock reports state that Mrs. Florence Reynolds was given a five-year sentence by a jury in the district court at Lubbock last week, for the murder of her husband.

Mrs. Reynolds was indicted two years ago in connection with the death of her husband from shotgun wounds. This is her third trial. She was first tried in Potter county, and sentenced to twenty years imprisonment. A new trial

in the same court resulted in a hung jury.

Mrs. Reynolds is the first woman convicted for murder in Lubbock county.

THE STINGY FEEDER CHEATS HIMSELF

The cow requires not only materials for maintenance, but must also have protein, fat, and carbohydrates to make milk from. The milk contains water, fat, protein (casein, or curd), sugar, and

ash, and these are all made from the constituents of the food. If insufficient protein, fat, and carbohydrates are contained in the food given her, the cow supplies this deficiency for a time by drawing on her own body, and gradually begins to shrink in quantity or quality of milk, or both. The stingy feeder cheats himself as well as the cow.

LET THE LITTLE FORDSON DO YOUR WORK

A test of the Fordson Tractor was made at Wichita, Kansas. The test was crowding a seasons work into thirty days. The test was begun on June 16th and on July 12 the tractor had cut 220 acres of wheat; dragged 44 miles of road; plowed over 100 acres of land; plowed, disced and planted 8 acres of cane; to say nothing of cutting feed, sawing wood and other farm work. The tractor was run day and night the engine not being permitted to stop more than five minutes during the entire time.

If You Want Big Money, Invest Where Big Money Is Being Made---Now Is Your Opportunity

Kansas-New Mexico Oil Co.

General Offices, Artesia, New Mexico

Incorporated Under the Laws of New Mexico

CAPITAL STOCK \$500,000

Fully Paid and Non-Assessable Par Value, \$1

A SAFE, CONSERVATIVE COMPANY

The stability of any enterprise is measured by the character and financial ability of the men conducting it.—The Kansas-New Mexico Oil Company is officered by men of integrity and experience in handling large business affairs—the kind of men who inspire confidence in the investing public—men, whose presence on the board of directors is a guarantee that the money secured by the company will be judiciously expended.—Men who are held in the highest repute for their success in business and who will see that the investors are protected in every way possible.

Parties buying stock in this company, whether it is one share or one hundred thousand, are assured of a square deal.—The same good business judgment which has made all these men successful in their private enterprises, will be observed in the handling of the affairs of this Corporation.

WE ARE A DRILLING COMPANY

The Kansas-New Mexico Oil Company was incorporated for the purpose of drilling for, and producing oil. The only way to make big money in oil investments is to strike oil and the only way to strike oil is to drill for it.—Therefore, invest in a company where your money is being used for drilling wells. The officers of this company are not promoters. They are

OFFICERS

successful, conservative-business men, who have organized this company because it appeals to them as a good business opportunity. They expect to derive their profits along with other investors from the development of the property.—This is the kind of a company you have been looking for.

PROPERTIES

Comprise about three thousand acres of deeded land and more than seven thousand acres of leases from the original locators on government land, in Eddy County, New Mexico, principally in the Seven Rivers country. These leases have been examined by competent Geologists, and are surrounded

by wells which were originally drilled for Artesian water, that have shown more or less oil for a number of years. Our leases are located on land selected and approved by some of the most noted geologists in the United States. And are in a direct line between the Eddy Oil Company and the Illinois Producers' well, which have had several showings of oil, so this demonstrates conclusively that our leases lie directly in the trend of development, so if there is any oil in the New Mexico field, it lies under our holdings. It is the belief of the officers in charge that the property of the corporation can be developed successfully and profitably.

TODAY
50c—PER SHARE—50c

The stock should be selling at One Dollar, Par Value, but the Directors of the Company have decided to sell a part of the capital stock at 50c, (fifty cents) per Share. The reason for this special fifty cent price is to give the people who have faith of the future development of the oil business in New Mexico, an opportunity to not only make money on the oil and gas found under our holdings, but to profit from the advance of the stock. It is the intention of the Company that as the development progresses, to increase its price, and it is very reasonable to suppose that before the well is completed, the stock should sell for at least \$1.00—Par Value per Share.

WEALTH FOR YOU IN NEW MEXICO OIL

Never was there—Never will there be—A better time than RIGHT NOW for you to get an interest in OIL. We implicitly believe within the confines of our ten thousand acres, lies an Oil Pool that will equal the production of the largest wells in the country.

We want to bring the oil to the surface and convert it into money as quickly as possible—help us do it. You are now coming in at the bottom, be among those who come in at the very first offered price.

The shares today are being offered on a special basis of fifty cents (50c) per share.

\$ 25.00 Buys 50 Shares	\$ 200.00 Buys 400 Shares
50.00 Buys 100 Shares	300.00 Buys 600 Shares
100.00 Buys 200 Shares	400.00 Buys 800 Shares
150.00 Buys 300 Shares	500.00 Buys 1000 Shares

AND OTHER AMOUNTS PROPORTIONATELY

Let a little of your Money make some extra Money for you. A rare opportunity for profitable investment in Oil.

PERSONAL INVITATION FROM FAIR OFFICIALS

TO VICTORY EXPOSITION, DALLAS, TEXAS, OCTOBER 6TH TO 19TH, 1919.

JNO. N. SIMPSON, President W. H. STRATTON, Secretary

After two years, during a part of which time the grounds and buildings were patriotically turned over to "Uncle Sam" during the war, the gates of the State Fair of Texas will again open for the thirty-third session on Oct. 6th. This will be known as the "Victory Fair."

For many months our beloved State has been blessed with copious rains. These have transformed our fields into modern, variegated Gardens of Eden. Business is good. All conditions favor the most comprehensive, representative and largely attended Fair we have ever held. We hope to bring two people here where only one was here before.

Golden grain from fertile fields, luscious fruits from fragrant orchards, succulent vegetables from well-kept gardens; loving herds of fattened cattle; magnificent thoroughbred horses, and all the other faithful, lowly friends of man; as well as riches from the marts of trade; modern creations of the inventive wizard's brain; the wonders of science; the beauties of art—in a word, our Twentieth Century Texas civilization will be typified, visualized at the Victory Fair!

It takes time to prepare displays. Are you seeing that your county, your home town, will be properly represented. Little display space is left.

In the spirit of fullest confidence, therefore, in the extent of our preparations, we most cordially invite the people of Texas and of the entire Southwest, to accept this, our hearty invitation to be present Oct. 6th to 19th, so that you may enjoy to the utmost the benefits and pleasures that we have provided for you at the Victory Fair.

STATE FAIR OF TEXAS, Jno. N. Simpson, W. H. Stratton, President, Secretary.

\$60,000.00 IN PREMIUMS FOR LIVE STOCK ALONE

PRESIDENT SIMPSON INCREASES APPROPRIATION TO THAT AMOUNT FOR VICTORY FAIR

President Simpson, of the State Fair of Texas, believes thoroughly in the live stock industry. He is doing everything he possibly can to encourage it.

To this end, at President Simpson's urgent request, the Board of Directors has appropriated the largest amount in its history, and the largest amount offered by any Fair anywhere, for live stock at the Victory Fair this fall. The amount is apportioned as follows:

For Beef Cattle: Herefords, \$15,000.00; Aberden-Angus, \$5,000.00; Shorthorns, \$15,000.00; Red Polled, \$1,250.00.

For Dairy Cattle: Jerseys, \$3,000.00; Holsteins, \$3,000.00; Gurnseys, \$500.00.

In addition to this, the number of special premiums has been largely increased. To increase Texas cattle productivity, these premiums have been offered. Already cattlemen from many sections of the country have entered their herds so that the cattle show at the Victory Fair will greatly surpass all former cattle shows.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC**, when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

J. Frank Potts left Monday for Hillsboro, Texas, to attend the Abstractors Convention and from there will go to Austin and Houston to attend to business matters.

Mrs. Sid L. Loving and son, Millage, arrived Sunday from their home in Gainesville, Texas for a visit with Mrs. Loving's parents, Mr. and Mrs. W. J. Gilliland.

Hereford's best talent is working hard in the interest of the Public Library. Citizens, do your part. Come Thursday night, August 7th at 8:30 p. m., and donate freely. Help fill your library with good books.

New shipment of brown cooking ware just received at Skelton's.

The first solid ear of poultry to be shipped from Holmes County, Miss., left Lexington in May. The poultry raisers of the county are not stopping with one earload, but have arranged to ship several others before the season is over. The shipments are being made on a cooperative plan of marketing, all arrangements being made by the local county agent and home demonstration agent, who have been largely responsible for the extensive growth of the poultry industry in the community.
