

While towns over the entire Panhandle are being warned by City Officials to conserve water by discontinuing irrigation of lawns and gardens, Hereford residents were this week advised to use as much water as they need.

"We have plenty of water in this community and are glad to see residents improve their homes with irrigation of lawns, trees and gardens," Mayor W. E. Dameron said. Installation of a new city well in 1945 placed Hereford in a position to meet emergencies and still supply residents with ample water.

Are you a night owl? Marshall Formby, manager, announced today that KPAN, Hereford's new radio station, will start testing tonight on 880 kilocycles. The tests will be made after 1 o'clock each morning, and the station is anxious to know if they are being received. He asked all persons hearing the tests to send cards to the station.

The people on 25-Mile Avenue are having tree troubles of their own. Quite a few houses are being moved into and through Hereford -- and the movers are reported to be damaging trees along the Avenue. City Police Chief F. S. Buckalew said today that he will be glad to answer all calls and to re-route the movers outside of town. Call 222, the City Office, if someone starts pushing over your trees.

Chief Buckalew, however, says call someone else if your car buries up to the hub in the sections where new ditches are being run in the City Improvement campaign. Several cars, following recent rains, have been stuck in the new sewer ditches.

Hotel Leaders Study Plans In Friday Session

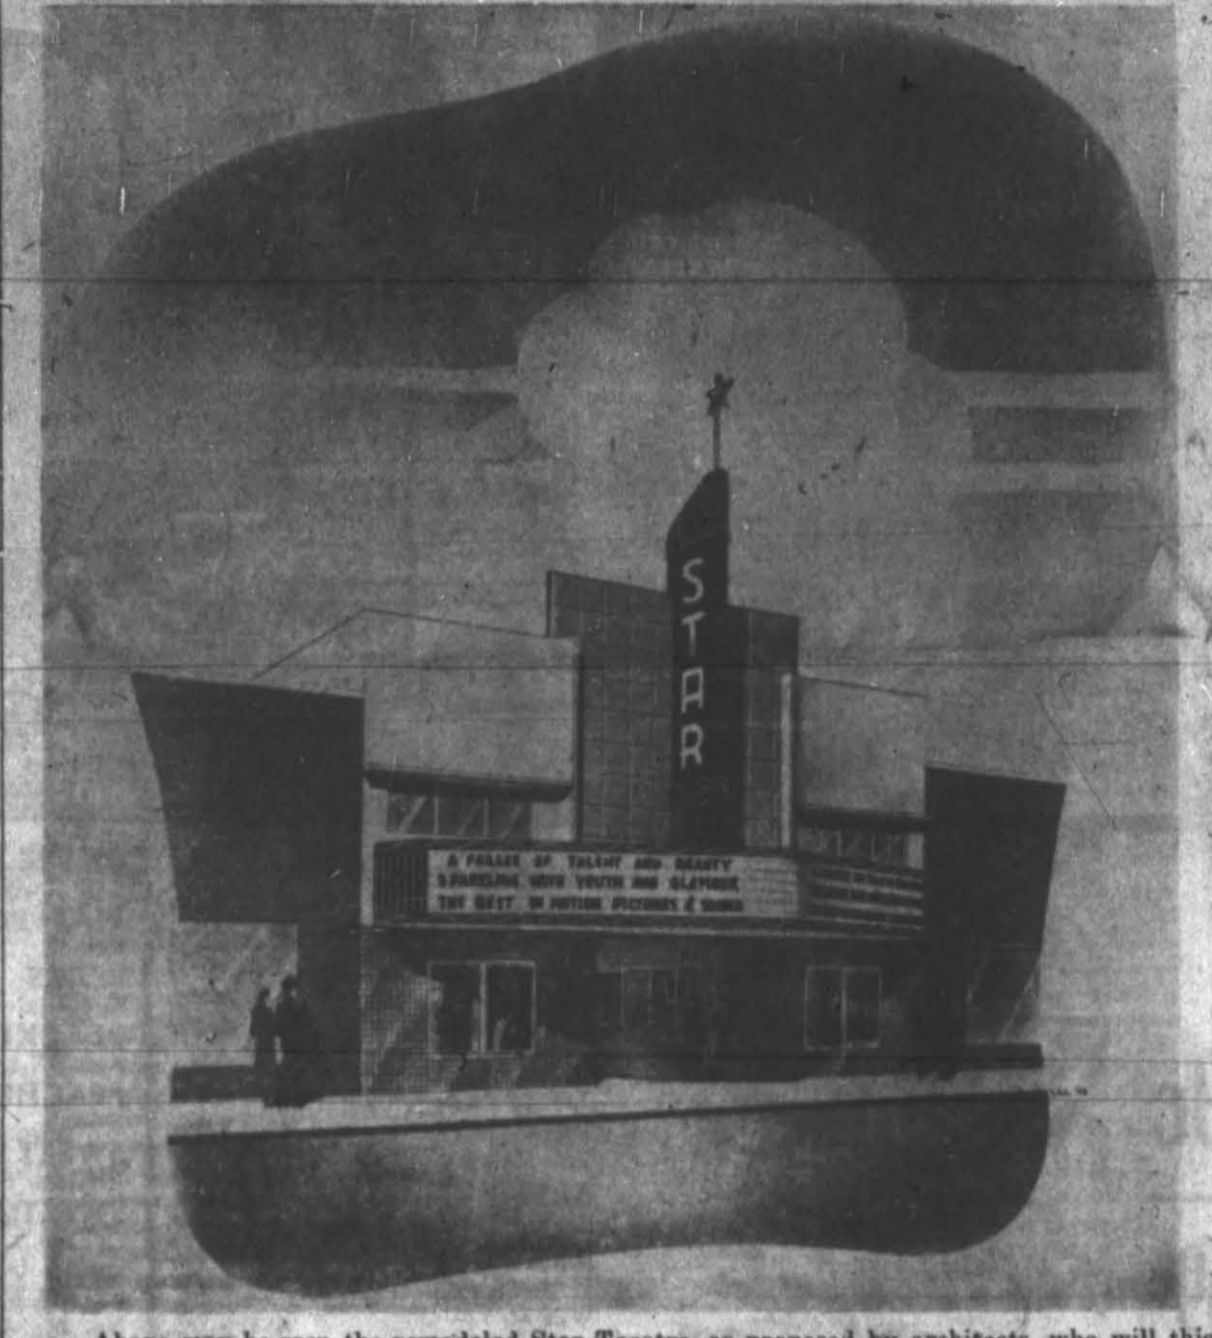

With Hereford's Hotel fund less than \$5,000 short of the 60 per cent goal, the Architectural Committee met Tuesday night to discuss preliminary designs for the structure. They will contact architects and check all submitted drawings. The group, consisting of Dr. L. B. Barnett, Wayne Evans, R. J. Richardson, Robert Thompson and Harry McCauley, reviewed the plans which George E. McIntyre of Kansas City had offered previously and asked for several alterations in the original design. No definite commitments have been made and the committee would like to meet with any architects who are interested in the project. A report will be made to the general executive committee Friday night.

Precinct 2 Delegates

County Demos To Meet Here Next Saturday

Six delegates and seven alternates were named to the Deaf Smith County Democratic Convention, scheduled for 2 o'clock Saturday afternoon, July 31, at the courthouse, when the Precinct 2 convention met last Saturday. The meeting was called to order by W. E. Dunlap, precinct chairman, and the small delegation elected the following delegates to attend the County convention: Robert Thompson, J. E. Hill, A. O. Thompson, W. E. Dunlap, O. L. Bybee, S. O. Wilson, and Jimmie Gillentine; alternates named were: Jim Clark, G. T. Higgins, J. C. Reese, H. V. Stanton, Rual Ford, Clarence Morrison and L. H. Foster. "By unanimous vote the delegates were instructed to support the nominees of the national Democratic convention," A. O. Thompson, secretary, reported.

Star Theatre To Be Remodeled Soon

Above may be seen the remodeled Star Theatre, as proposed by architects, who will this week review plans with contractors. In addition to the new front and marquee, the theatre will be lengthened 20 feet to give a total seating capacity of 750. A new lobby, projection booth and offices will be built, seats will be recovered, new wiring and a complete heating system will be installed. The remodeling program is estimated at a \$30,000, and is scheduled to begin within three weeks.

Simms District To Decide \$1.50 Rate August 10

Residents of the Simms School District of Deaf Smith County will vote Tuesday, August 10, on the proposition of raising their school tax from \$1 on each \$100 valuation to the State maximum of \$1.50 on each \$100 valuation, County Judge L. H. Foster said today.

The election has been called in compliance with wishes of the board members, Foster said. The last rate set by the district was a \$1 rate when the district was operating with the Ford School.

In more recent years the Simms District has been transferring into Adrian for the purpose of receiving better educational facilities at lower cost, Judge Foster pointed out.

"The coming election is called in an effort to help the Adrian District maintain their present school system," Judge Foster said. Trustees of the Adrian School District will work out their budget and the Simms area is expected to help defray expenses on a per capita basis. Trustees feel that the increased rate will be necessary to meet (Continued on page 8)

Nazareth Girl Suffers Minor Injuries in Umbarger Accident

A two-way traffic collision last Saturday afternoon on Highway 60, a half mile west of Umbarger resulted in injuries for five persons, some relatives of people in this community. Seriously injured was Francis Linsenfeiler, 14, of Freepport. Minor injuries were suffered by Bonita Kern, 20, and Dolores Warren, six, both of Nazareth; Charles Allen, Friona, and Raymond Euler, 20, also of Friona. Miss Kern and Dolores Warren are nieces of the five Warren brothers, Bill, Tom, John, Walt and Frank of Hereford, and have other relatives here. They were reported Wednesday to be suffering only from painful bruises and scratches and are now at their home in Nazareth. Euler and Allen had also returned to Friona and were Wednesday said to be likewise suffering from scratches and bruises. Linsenfeiler, more seriously injured, was still in an Amarillo hospital awaiting possible developments. Following the accident the two Nazareth girls were carried into Canyon hospital. Allen and Linsenfeiler were carried into Amarillo. Highway patrolmen said Euler was driver of a 1943 sedan going east which was involved with a 1946 Hudson, owned by Joe Warren of Nazareth, and driven by Miss Kern. Miss Kern was starting a left hand turn off the highway into the Nazareth-Umbarger cutoff when the collision occurred about 3:30 o'clock Saturday afternoon.

Money Refunded When

Directory Is Cancelled By Band Parents

Reporting that the Hereford Band Parents Association has turned over publication of the proposed City Directory to a directory specialist company of Amarillo, Ernest Wade, president, today said that all money collected for advertising is being returned to the firm which paid in the funds.

"The Band Parents will sponsor sale of 400 directories after publication this fall," Mr. Wade continued, "but will have nothing to do with the sale of advertising or the collection of names and information."

GET \$200 IN CASH The Band Parents made the deal with W. J. Winter Publications this week, receiving \$200 in cash and 400 copies of the completed directories as their only portion of the proposed publication. The band group will receive entire revenue from sale of the 400 copies at \$2.50 per copy, but will not participate in any of the advertising revenue from the book.

With the \$200 in cash, plus potential revenue of a possible \$1,000 from the sale of completed books, the Band Parents felt that the organization might benefit with a net profit equal to that if they had continued with their own publication plans, according to Mr. Wade. He also pointed out that material would have to be again collected from residents to bring the book up to date, due to the fact that information previously secured is out of date.

"We regret the unavoidable delays and thank you for your patience," Wade told advertisers in a form letter. "We have cancelled your present contract and if remittance was made, it is returned herewith."

The directory information was compiled by the Hereford group with the idea of publication early in January, 1948. Publication was delayed, however, due to proposed changing of street names in the City.

Hereford Wins Over Plainview Sunday, 9 to 3

BY HOMER FOX Hereford pinned Plainview's ears back last Sunday in a ball game at Plainview that was plenty smooth and fast. Hereford won 9 to 3.

Johnny Winkler went all the way for Hereford and let Plainview down with six scattered hits and struck out seven batters, while his team mates backed him up with a lot of base ball. Two fast double plays from Barrett-to-Burdine-to-Clark at first, 13 putouts at first, and only one out in the outfield to Bill Stengle.

Lueb grabbed three at third, one a hard line drive that Lueb grabbed in a back-handed catch and one from left fielder Carroll, when Bond tried to stretch a double into a triple.

Fire Damages Paul Lee Home

Fire Wednesday afternoon resulted in heavy damage to the Paul Lee home, 315 Avenue A, despite the fact that the walls were still standing. The blaze broke out around 4 o'clock and was extinguished by the Hereford Fire department. Loss was heavy, however, due to loss of the roof and ceiling. Water damage was also heavy and most of the furnishings were considered a loss in the two-story house.

Presbyterians To Hear Address By District Judge

District Judge Harry Shultz will be guest speaker at the First Presbyterian Church Sunday morning, August 1, at the 11 o'clock hour, it was announced today. Shultz will replace Rev. Russell Wingert, pastor, who will be on vacation. "Men's Work in the Church," Shultz's topic, he Grubbs of Jal, New Mex.; Mrs. is chairman of the committee E. L. Layman of Hereford; Mrs. on Men's Work for the Amarillo Joe Massey of Craig, Colo.; Mrs. Presbyter, and has made several talks on the subject in this area during the past six months.

Reliable Fruit Growers

O. E. Sherman, right, and Mrs. Sherman are seen above with one of their cherry trees. Starting yields for several years, leads the couple to believe that cherries afford commercial possibilities in this area. Mrs. Sherman also holds the reputation as "master gardener" of the Hereford area.

Case May Be Appealed Plea To Halt City Disposal Plant Not Granted By Court

At a preliminary hearing Tuesday morning, Dist. Judge Harry Schultz sustained sufficient points in a nine-point "Exception," filed by the City of Hereford, thus delaying the suit for injunction filed by Don Webb and C. E. Thomas to halt construction of the disposal plant in the east portion of the Veterans Park.

The plaintiffs sought to enjoin the city from constructing the particular type of disposal plant in the present location, citing several points of inconvenience and damages to homes and businesses. The plaintiffs will have until August 9 to amend their plea, or an appeal the case to a higher court. They indicated Tuesday morning that they would probably appeal, but no action has been announced.

The exception filed by the City of Hereford on the case, listed nine points on "lack of sufficiency of the plea," and Judge Schultz upheld the exception in part.

One of the points sustained in the City "Exception" was that which read: "These defendants specially except the paragraph 12 and all of the allegations of the petition wherein Plaintiffs allege that their property is being confiscated without due process of law, for the petition shows on its face that there is no actual taking of Plaintiff's property in contemplation of the constitutional provision and that said allegations are prejudiced." Hereford Lions At Convention

New York, July 27 -- The Hereford Lions Club delegation arrived here around midnight Saturday, following an inspection tour of Washington, D. C., in which they visited the Capitol, Mount Vernon, Lincoln Memorial, Washington Monument, Arlington Cemetery and other points of interest.

Included in the Hereford delegation are John McLean, District 2T-1 Governor and Mrs. McLean; W. J. Reeves, Secretary of the Hereford Club, and Mrs. Reeves; Wayne Evans, President of the Hereford Club, and Mrs. Evans; Mr. and Mrs. G. (Continued on Page 8)

Ice Company Starts Work On New, Modern Plant in Hereford

Contractors began work this week on a \$10,000 brick and tile one-story building for Community Ice Company, located on West Third Street. When completed, the building will be 40 by 70 feet with compact modern equipment and facilities. The present ice making equipment will be supplemented with new devices. Ice chutes which will deliver ice to customers and a coin machine which will furnish the same service for customers during hours when the business is closed. Community Ice Company is a corporation from Clovis with Harold Murphy in charge of the business here. Johnnie Miller, who owns an interest in the business is now handling the ice sales and supervises the making of the ice. Miller says it will be next year before the new place will be open. Following completion of the building the present machinery will have to be moved and new equipment installed; but this cannot be done until the need of ice for summer is over, he said.

County Seeks \$83,000 More For Hospital

Directors of the Deaf Smith County Hospital and members of the County Commissioners Court voted Monday night to submit an application to the Texas State Health Department for \$83,000.00.

This represents one-third of the amount necessary for the completion of the addition to the present Deaf Smith County Hospital, and is a part of the Federal Government's hospital assistance plan under which the Federal Government will contribute one-third of the cost of the construction, remodeling and furnishing of hospitals providing the hospital adheres to the specifications as set forth by the State Health Department.

Representatives from the Hospital Board met with Norman B. Roberts in Dallas two weeks ago and were advised that there was a strong possibility of Deaf Smith County obtaining the federal assistance. The State Health Department sent its inspector to Hereford last week to make a personal inspection of the local plant, and try to determine the exact need of the hospital.

The hospital board was given further encouragement by this inspector and the formal application will be submitted by Hospital Manager, Elmer Mathies this week. Sponsors said that the additional \$83,000 will make the Deaf Smith County Hospital one of the most complete and modern small-town hospitals in the Southwest.

Nation's Youth Will Register Next Two Months

Reporting no further orders in setting up the new Deaf Smith County draft board, S. O. Wilson today said that the local board can be in operation on 24 hour notice.

Releases from Washington meanwhile repeated previous draft regulations in which President Truman has ordered all American men 18 through 25 years of age to register for the draft between Aug. 30 and Sept. 15.

No predictions have been made as to when actual inductions will begin, but the date cannot be until 90 days after President Truman signed the draft bill making it a law.

Eighteen-year-olds, not subject to the 21-month draft, may begin enlisting in the armed services at any time. Volunteers on this basis may serve one year, then find places in the reserves. By law 161,000 of the 18-year-olds may be accepted.

Maj. Gen. Lewis B. Hershey selective service director, emphasized that all men 18 through 25 unless they already are in the active armed forces, must register.

Whether a man is exempt from the draft makes no difference, he said. All must register, unless they now are in the regular force. (Continued on Page 8)

Garden Clubs To Hold Joint Meet

A joint meeting of the three Garden Clubs has been called for 4 o'clock Friday afternoon at the County Court room. Mrs. Homer Brumley, president of the Council of the Garden Clubs, urges every member to be present.

Rules and schedules for the fall flower show will be discussed and approved. The constitution and by-laws for the Council will also be approved during this meeting.

When completed, the building will be 40 by 70 feet with compact modern equipment and facilities. The present ice making equipment will be supplemented with new devices. Ice chutes which will deliver ice to customers and a coin machine which will furnish the same service for customers during hours when the business is closed. Community Ice Company is a corporation from Clovis with Harold Murphy in charge of the business here. QUESTION of the WEEK

What would you estimate the true population of Hereford, including the adjoining areas?

Jim Lipscomb: "I believe there are 8,000 people in Hereford now. Last November postal officials here were checked in as many ways as possible, and estimated 7,000 at that time. I believe there are at least 1,000 more since then." R. C. McGilvray: "I feel sure Hereford has a population of 6500 people at this time, we use a national form for computing this, by taking for an average five people to the family and with the number of gas meters we have now this would be the answer." Jessie Ann Buckner (in lieu of C. M. Hardesty who was out of town): "We have 1800 meters and if we deducted 500 and allowed five as an average for a family, the answer would be 9500." Pete Cowart: (who has just finished a survey): "Hereford proper, in the city limits, has 2,340 for population and including surrounding areas should be about 6500 for the total population."

LEGAL NOTICE

H. J. R. No. 35
HOUSE JOINT RESOLUTION
 proposing an amendment to Article VIII of the Constitution of the State of Texas to provide that Three Thousand Dollars (\$3,000) of the assessed taxable value of all residence homesteads as now defined by law shall be exempt from all taxes for all State purposes, providing the effective date, providing for the submission of said amendment to a vote of the qualified voters at an election and providing for necessary proclamation and publication.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Sections 1-b and 1-c be added to Article VIII of the Constitution of the State of Texas to read as follows:

"Section 1-b. Three Thousand Dollars (\$3,000) of the assessed taxable value of all residence homesteads as now defined by law shall be exempt from all taxation for all State purposes."

"Section 1-c. Provided, however, the terms of this Resolution shall not be effective unless House Joint Resolution No. 24 is adopted by the people and in no event shall this Resolution go into effect until January 1, 1951."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the general election in November, A. D. 1948, at which all ballots shall have printed thereon the following words:

"FOR the Constitutional Amendment exempting Three Thousand Dollars (\$3,000) of the assessed taxable value of all residence homesteads from all State taxes," and "AGAINST the Constitutional Amendment exempting Three Thousand Dollars (\$3,000) of the assessed taxable value of all residence homesteads from all State taxes."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on such machine in counties using voting machines, the above provisions for voting for and against this Constitutional Amendment shall be placed on said machine in such manner that each voter shall vote on such machine for or against the Constitutional Amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and Laws of this State.

H. J. R. No. 34
HOUSE JOINT RESOLUTION
 proposing an amendment to Section 1-a of Article VIII of the Constitution of Texas to provide that no ad valorem tax shall be levied for State general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes for certain purposes, providing for a Three Thousand Dollar (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations; providing for submission to the qualified electors and for the necessary proclamation by the Governor.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article VIII of the Constitution be amended so as to be and read as follows:

follows:
 "Section 1-a. From and after January 1, 1951, no State ad valorem tax shall be levied upon any property within this State for general revenue purposes. From and after January 1, 1951, the several counties of the State are authorized to levy ad valorem taxes upon all property within their respective boundaries for county purposes, except the first Three Thousand Dollars (\$3,000) value of residential homesteads, not to exceed thirty cents (30c) on each One Hundred Dollars (\$100) valuation, in addition to all other ad valorem taxes authorized by the Constitution of this State, provided the revenue derived therefrom shall be used for construction and maintenance of Farm to Market Roads or for Flood Control, except as herein otherwise provided. Provided that in those counties or political subdivisions or areas of the State from which tax donations have heretofore been granted, the State Automatic Tax Board shall continue to levy the full amount of the State ad valorem tax for the duration of such donation, or until all legal obligations heretofore authorized by the law granting such donation or donations shall have been fully discharged, whichever shall first occur; provided that if such donation to any such county or political subdivision is for less than the full amount of State ad valorem taxes so levied, the portion of such taxes remaining over and above such donation shall be retained by said county or subdivision."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the general election in November, A. D. 1948, at which all ballots shall have printed thereon "FOR the Constitutional Amendment of Section 1-a of Article VIII of the Constitution of the State of Texas to provide that no ad valorem tax shall be levied for State general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes, providing for a Three Thousand Dollars (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations," and "AGAINST the Constitutional Amendment of Section 1-a of Article VIII of the Constitution of the State of Texas to provide that no ad valorem tax shall be levied for State general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes, providing for a Three Thousand Dollars (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on such machine in counties using voting machines, the above provision for voting for and against this Constitutional Amendment shall be placed on said machine in such manner that each voter shall vote on such machine for or against the Constitutional Amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and Laws of this State.

THE STATE OF TEXAS
TO: MARION DENNIS, Defendant, Greeting:
 You are hereby commanded to appear before the Honorable District Court of Deaf Smith County at the Court House thereof, in Hereford, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 30th day of August A. D. 1948, then and there to answer Plaintiff's Petition filed in said Court, on the 15 day of July A. D. 1948, in this cause, numbered 3079 on the docket of said court and styled George Dennis, Jr. Plaintiff vs. Marion Dennis Defendant.
 A brief statement of the nature of this suit is as follows, to wit:—
 For divorce based upon mental cruelty of a gross nature, rendering the further living together of plaintiff and defendant insupportable, and it being further alleged that no children have been born to plaintiff and defendant as issue of said marriage, and no property rights to be divided, as is more fully shown by Plaintiff's Petition on file in this suit.
 The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.
 Issued and given under my hand and the Seal of said Court, at office in Hereford, Texas this the 15th day of July A. D. 1948.
 Attest: R. L. Thompson, Clerk, District Court, Deaf Smith County, Texas, By Lonidene Edmondson, Deputy.

**SPEED BALL TESTS
JET PLANE PAINT**

CINCINNATI — (AP) — A small steel ball spinning at a speed of 1,800 miles an hour, is helping the navy find a paint which will stay on jet planes. The experiments are under way at the University of Cincinnati. The ball spins at 2,400,000 (M) R. P. M. and once the equipment is turned off, the high speed and lack of friction keep it twirling for more than a month, according to Dr. Walter Soller. Conventional paint will not stay on jet planes which travel faster than sound, Dr. Soller said, adding that as the paint peels it creates serious disruptions to the airflow.

ONLY TWO MADE IT
CHICAGO — (AP) — Only two players have ever hit homers into Chicago's Comiskey Park's center field bleachers. Jimmy Foxx and Hank Greenberg, both right-handed power hitters turned the trick during their American League careers. The wall is 440 feet away from home plate and is 35 feet high.

Mr. and Mrs. R. L. Bullard of Hugo, Colo., were in Hereford this week visiting friends and transacting business.

'DOUBLE X' BLASTED 'EM
CHICAGO — (AP) — Jimmy Foxx, famed home run hitter, blasted the ball over the roof of the left field stands in Comiskey Park, Chicago, four times. He was the only right hand hitter ever to hit a ball over the structure. Two left-handed sluggers—Babe Ruth and Lou Gehrig—did it, however.

**Amarillo Field
To Sell Sedans**

Eleven sedans, trucks and other vehicles plus about \$10,000 worth of other government surplus miscellany will go on the big block to veterans and the general public in a War Assets Administration sale to be held at Amarillo Air Base at 1 p. m. Friday, August 5.

The vehicles, including a bus, passenger cars, pick-ups, trucks and other types, will be offered to World War II veterans only. Sale will be by informal bidding on each vehicle, and veterans will need to present discharges or other proof of service at time of purchase.

In the assortment of other goods to be offered in bid lots without regard to priority qualifications will be vehicles, steel coats, nuts, bolts and screws, bunk beds and numerous other items in limited quantities. Awards to individuals, commercial buyers and other groups will be made on a non-priority, high bid basis, for this part of the sale.

The field will be open for inspection on August 4 between the hours of 9 a. m. and 3:30 p. m. and on August 5 until sale time. Prospective purchasers will receive information regarding location of sale property by making inquiries at the main gate of the air base.

HOUSE JOINT RESOLUTION
amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a provision that the husband and wife from time to time may in writing partition between themselves in severalty or into undivided interests all or any part of their community property, whereupon without prejudice to the right of existing creditors the portion or interest set aside to each spouse shall be and constitute a part of the separate property of each spouse; further providing that such Constitutional Amendment if adopted shall be self-operative and self-executing; providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 15. All property, both real and personal, of the wife, owned or claimed by her before marriage, and that acquired afterward by gift, devise or descent, shall be the separate property of the wife; and laws shall be passed more clearly defining the rights of the wife, in relation as well to her separate property as that held in common with her husband; provided that husband and wife, without prejudice or pre-existing creditors, may from time to time by written instrument as if the wife were a feme sole partition between themselves in severalty or into equal undivided interests all or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, whereupon the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse.

This Amendment is self-operative, but laws may be passed prescribing requirements as to the form and manner of execution of such instruments, and providing for their recordation, and for such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an Act with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their recordation and other reasonable requirements not inconsistent herewith and anticipatory hereto, such Act shall not be invalid by reason of its anticipatory character, and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the second day of November, 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"FOR the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severalty or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors.

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severalty or into undivided interests community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto. T-31-4c

Dawn Takes Loop Around Town Lead With 8 to 7 Win Over Legion

Dawn won over American Legion in one of the closest softball games of the season Tuesday night. The final score was 8 to 7, and the game went into eight innings, due to a 7-7 tie at the close of the usual seventh.

Contrary to usual custom, the Dawn boys made eight errors, and since Dawn is noted for few errors, the situation was unusual. The Legion team, which usually hangs up quite a few errors, held their tabulation down to two.

NEW YORK — (AP) — No player has ever hit a ball out of Yankee Stadium but three players have landed drives in the center field bleachers, which are 461 feet away from the plate. The three sluggers were Babe Ruth, Hank Greenberg, and Joe DiMaggio.

Thank You

I take this means to thank the people of Deaf Smith County for their liberal vote and support in the election, just the same as if I had an opponent.

I have tried to be fair to all and to enforce the Law, by the written Law, to all.

I will endeavor to do the same.

Your Servant,
A. L. Thomas

Considerable speculation has resulted from the moving of materials to the location across east from the Catholic Parochial School. No announcement has yet been released as to the proposed structure. The lots belong to Mrs. N. C. Vogele.

Lyle Blanton was one of the speakers at the Texas Butane Association meeting recently in Dallas. The Texas Butane News reports: "The underwriters elected eight of its own members to serve with Lyle Blanton. Attorney-in-Fact, as legal and duly constituted Executive Board of American Lloyds." His recent talk before the association was titled "Why an Industry Insurance Company?"

Rains and break-downs slowed marketing of potatoes in this area during the past week. Buyers were also becoming scarce as Idaho and Colorado spuds hit the market. Cobblers were selling at \$2.40, (five cents above support) while reds were drawing \$2.65. Producers anticipated considerable yields for PMA channels during August.

Rev. Herard East of Kingsville will occupy the pulpit of the First Baptist Church here Sunday. He will conduct both the morning and evening services. Rev. East will be remembered as the son of Mr. and Mrs. Ed East of Amarillo, and one time residents of Hereford.

Also staying at the same hotel is the Cappella Choir of Amarillo High School, directed by Mrs. Junia Dean Evans; the Hardin-Simmons University Cowboy Band, directed by M. B. McClure; Midland Cowboy Swing Band, directed by Johnnie Biggs, former Hereford resident.

Monday morning registrations totaled 26,000 with delegates from 23 countries. Flags of the countries were presented in a colorful ceremony. Mayor O'Dwyer welcomed the delegates; response was made by Jesus Maria Rosas of Panama and Jean Paul Galland of Switzerland.

The a cappella choir, representing Lions of District 27-1, appeared on the program Monday morning and was selected to again appear when Gov. Dewey failed to keep his time. Both appearances were greeted with enthusiasm by the entire delegation.

Deaf Smith Voters Follow Pattern Set In State Returns By Supporting All Winners

Complete returns for Deaf Smith County were made Monday morning following arrival of the Simms box, which contained 43 votes. Figures for the county showed that this area fairly well followed the trend over the entire state, except for the fact that Deaf Smith voters would have shoved Coke Stevenson into the office of United States Senator -- without a run-off.

Run-Off Assured in Senate Race

Jester, Thompson, McDonald Hold Safe Leads

A run-off in the race for junior U. S. Senator from Texas between former Gov. Coke R. Stevenson and Congressman Lyndon Johnson was assured for the second Democratic primary Aug. 28.
Tuesday morning Stevenson was reported with 39.05 percent of the vote, Johnson had 33.05 percent and Peddy 21.03 percent. The returns were based on results from 253 out of 254 counties, including 158 counties complete -- with a total of 1,108,790 votes, which placed the July vote well on its way toward becoming the largest in Texas' history.
Count on the Senate race was Stevenson 433,658, Johnson 365,969, Peddy 236,916.
Other state races seemed to be following the earlier pattern and were well established, except for the office of Associate Jus-

tice of Supreme Court, Place 3. In this race St. John Garwood lead with 480,711 to Jefferson G. Smith's 440,032, and the lead had been switching as reports trickled into counting centers.
Reports on other races follow, as shown by Associated Press reports:
Returns to the Texas Election Bureau from 244 out of 254 counties in the State, including 95 complete show the following totals for candidates in Saturday's Democratic primary election:

CHINESE FACTORIES WARNED-ON CHISELING
HONG KONG — (AP) — Hong Kong Chinese manufacturers have been advised to improve the standard of their goods if they wish to compete with reviving Japanese industry.
"If Chinese manufacturers would only learn to deliver goods according to sample and thus inspire confidence in their products, they need have no fear of Japanese competition," say exporters in Hong Kong. One exporter said the reputation of some Hong Kong manufacturers had been impaired because of their carelessness and indifference. "Complaints are being received from buyers with almost every shipment I make," said one exporter. "The shipments are either short delivered or not delivered according to sample."

PLOW MASTER

Smooth, abundant power! That's what the new Oliver "77" delivers!
Thorough soil pulverization! That's the result when you use the Oliver Plow Master and its exclusive Raydex bottoms with shares so low in cost you can throw them away when they get dull.
The new farm features of the Oliver "77" make this famous tractor more versatile and economical than ever to own. Its steady 6-cylinder engine and 6-forward-speed transmission give you nearly any ground travel and drawbar pull combination you need.
You have a choice of three engines: one for gasoline, one for tractor fuel—and a diesel, a specially designed, farm-engineered engine that will be available later. Also, you have a choice of interchangeable cast iron or stamped steel wheels for Row Crop Models to suit your traction conditions. What's more, every mounted tool is basically interchangeable with every other new Row Crop tractor. When you add the direct drive power take-off of the "77", metered oil system, battery ignition and the several other new improvements, you'll realize why the "77" is truly a farmer's tractor.

USSIA RESENTS 'CHERRY ORCHARD'
MOSCOW — (AP) — The "Literary Gazette" has criticized American theatrical producers for titling the scene of the "Cherry Orchard" in the south of the United States.

"Americans allow themselves ceremoniously to re-hash plays by foreign dramatists with no thought to the author's idea," at any times, for common sense," said the "Gazette."

"Thus, according to 'Harper's Magazine,' a certain theatrical producer contrived to unguile Chekhov's 'Cherry Orchard' so that the action takes place in the south of the USA. First is replaced by an old negro, a former slave, while a transformed Tremain exclaims: 'All America is my Garden!'"

"STINGY" QUINN
NEW HAVEN, Conn. — (AP) — Frank Quinn, the stellar hurler of Yale's collegiate champs, secured eight league games, secured them complete, and finished the loop campaign with an amazing average of .329; Quinn gave up seven runs in 68 innings, but even while giving up less than a run a game to his opponents, he lost two games. He was shut out in both of his losses.

Florida Peaches Inspect Pineapple

Florida may soon boast it's the only state growing pineapples on a large scale. Peggy Wilson and Joyce Chandler look over this year's crop on a plantation near Miami. Started in 1945, the plantation now has 100 acres in cultivation. By 1950, growers hope to increase it to 400 acres.

AUSTRALIAN COSTS RISE SHARPLY

SYDNEY — (AP) — Living costs in Australia are on the way up. The climb has become steeper in the past few months. Recent increases have been made

in the fixed maximum prices of beef and mutton, eggs, butter, cheese, chocolate, cocoa, tobacco and soap. Rises also were permitted in the prices for gasoline and diesel oil. Fares also have gone up. Most increases have been a-

round 10 percent. Price ceilings recently were taken off lamb, which now is about 25 percent dearer than early this year. Fresh string beans cost up to 40 cents US a pound, peas almost as much. The Sydney housewife estim-

ates that food costs for a family of four rose between \$2.45 and \$3.25 a week in the first six months of 1948.

NEW Serwel

Only the GAS Refrigerator
STAYS SILENT LASTS LONGER

Thousands have waited for it! And now you can get the famous Serwel Gas Refrigerator — new and greater than ever. Serwel is the only refrigerator that stays silent, lasts longer. The reason? Its different, simpler freezing system has no moving parts. No motor, valves, piston or pump. Just a tiny gas flame does the work.

More than two million families are enjoying Serwel Gas Refrigerators right now. Many have had theirs 18 and 20 years. And all of them will tell you, "Pick Serwel. It stays noise-free, wear-free year after year."

The new Serwel brings you every up-to-the-minute food-keeping convenience, too. See it now.

PORTUGUESE STUDY BRONZE AGE VILLAGE

CARTAXO, Portugal — (AP) — Excavations have begun anew on the site of former ones where traces of a prehistoric Bronze Age settlement were found some years ago. The site is at Vila Nova S. Pedro where it is presumed that the village was destroyed by fire somewhere around 1700 B.C.

Excavations in 1947 showed that in the center of the village or settlement there must have been a granary, for charred grains still existed. Silex arrows were also found, hundreds of them having their tips broken as if there had been an attack on the village. Under the layer of ashes many valuable archeological objects have been found, such as polished stone hatchets, rounded hammers, sickles, blades, charred bone buttons etc. There are also hairpins showing Egyptian influence and pottery. The excavations are under the direction of Dr. Eugenio Jalhay and Captain Afonso do Paço.

The "missing link" between birds and reptiles is a peculiar creature, Archeopteryx, that lived about 125 million years ago.

From the Album: Pictures Identified!

Thanks to several who have been kind enough to help identify pictures in our old files. Here are two of them, correctly labeled:

Above are G. C. (Jiggs) Hartman and Elwin Hartman with Club Calves. The picture was made at the Hartman farm, nine miles west of Hereford following the 4-H show in 1930, when R. O. Dunkle was County Agent. Identification was made by Jiggs and his sister, Nina Beth.

The above picture shows Alex Thompson at the wheel of his 1908 Two-Spot. The girls are Miss Ora Oatis of Gainsville, who was visiting here at the time; Misses Georgia and Frank Hammer, Mina Dameron (Mrs. A. M. Jones), Lelia Gregg (Mrs. Wright of Silverton) and Miss Jessie Morris. Alex made the identification in person.

Happy Homes 4H Clubbers Meet

Mrs. Ira Scott, a sponsor of the Happy Homes 4H Club, gave a demonstration in the home of Nell Walker, hostess to the club July 22. Subject of the demonstration was the making of whole wheat cornbread.

Gracie Fotheringham, president of the club, was away attending a 4H Club Camp. Vice president Jo Eddy Scott presided over the business meeting in her absence.

Betty Henry gave a report on the results of the bake sale and Gail Albracht read the minutes. The club appointed Gail Albracht to go on the Carbad trip planned to take place soon. Jo Eddy Scott was named as an alternate.

Those present were, Jo Eddy Scott, Gail Albracht, Doris Wilhelm, Nell Walker, Yvonne Axe, Caren Albracht, Ernestine Garrison, and Betty Henry. Leaders present were Mrs. V. P. Walker, Mrs. Ira Scott and Mrs. Ira Ott.

Once Blind, Now He's Grid Star

BALTIMORE — Jack Simmons was totally blind less than five years ago. Today he's a promising candidate for the Baltimore Colts of the All-America Professional Football Conference.

The chance to play professional football climaxes a long climb from the depths of despair for the 22-year-old physical giant.

All hopes for athletics seemed blasted on the coast of northern France. It was there as a commando that Simmons was wounded so badly by artillery fire that he was given little hope of returning to England alive.

Survive he did. But the shell explosion messed up his nervous system so that he no longer could see.

One of those odd quirks of fate, a fall down an embankment and thump on the head, miraculously restored Simmons' sight.

By the time the six-foot, 4-inch, 240-pounder was discharged in 1944 he was ready to start his college football which war prevented. His college choice, Detroit, had not yet resumed the game so he entered Maryland.

But in 1945 Simmons did go to Detroit and played fullback. The next year he played center. And last season he was at guard, a post he will seek with the Baltimore Colts.

LEGAL NOTICE

S. J. R. No. 2
A JOINT RESOLUTION

proposing an amendment to Section 28 of Article III of the Constitution of the State of Texas, so as to provide for a Board for apportioning the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment; providing for the issuance of the necessary proclamation by the Governor; and making an appropriation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 28 of Article III of the Constitution of the State of Texas be amended so as hereafter to read as follows: "Section 28. The Legislature shall, at its first regular session after the publication of each United States decennial census, apportion the state into senatorial and representative districts, agreeable to the provisions of Sections 23, 24, and 25-a of this article. In the event the Legislature shall at any such first regular session following the publication of a United States decennial census, fail to make such apportionment, same shall be done by the Legislative Redistricting Board of Texas, which is hereby created, and shall be composed of five (5) members, as follows: The Lieutenant Governor, the Speaker of the House of Representatives, the Attorney General, the Comptroller of Public Accounts and the Commissioner of the General Land Office. A majority of whom shall constitute a quorum. Said Board shall assemble in the City of Austin within ninety (90) days after the final adjournment of such regular session. The Board shall, within sixty (60) days after assembling, apportion the state into senatorial or representative districts, as the failure of action of such Legislature may make necessary. Such apportionment shall be in writing and signed by three (3) or more of the members of the Board and shall be filed with the Secretary of State, and when so executed and filed with the Secretary of State, shall have force and effect of law. Such apportionment shall become effective at the next succeeding statewide general election. The Supreme Court of Texas shall have jurisdiction to compel such Commission to perform its duties in accordance with the provisions of this section by writ of mandamus or other extraordinary writs conformable to the usages of law. The Legislature shall provide necessary funds for clerical and technical aid and for other expenses incidental to the work of the Board and the Lieutenant Governor and the Speaker of the House of Representatives shall be entitled to receive per diem and travel expense during the Board's session in the same manner and amount as they would receive while attending a special session of the Legislature. This amendment shall become effective January 1, 1951."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A. D. 1948, at which all ballots shall have printed thereon:

"For the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

Against the amendment to Section 28, Article III of the Constitution of Texas providing for a Board for apportionment of the state into senatorial districts and representative districts in the event the Legislature fails to make such apportionment."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated, to pay the expenses of such publication and election.

Rev. and Mrs. M. M. Beavers visited with children in Lubbock Sunday. They spent some time in the home of Dr. and Mrs. J. W. Hendrick and Joan, also with Morris Beavers and Miss Lovie Beavers.

KAISER

FRAZER

In just two years we've built and sold more fine cars than any other new manufacturer in automobile history.

Why? Because America fell in love with the KAISER and the FRAZER on sight. Folks are streaming into Kaiser-Frazer showrooms and learning from present owners how dependable these two great cars are. They're learning — from people who drive them — how soundly they are built... how economical they are... how much enjoyment there is in owning one.

THESE ARE THE MOST-COPIED CARS IN AMERICA, road-proved by 250,000 owners in two billion miles of driving.

Because plenty of Americans insist on comfort, convenience, style and value, traditional leaders had to "move over" — as Kaiser-Frazer became the fourth largest manufacturer of motor cars in the world in two short years.

Why wait? Enjoy your new car this summer. You'll get fair treatment and highest trade-in allowance.

Camera Picks Up Colors We Can't See Tin Can Island Is Now Deserted

By Alice L. Blakeslee
Associate Press Science Reporter
ROCHESTER, N. Y. — (AP)—Color pictures pick up one color that many people never see — the blueness of shadows on clear sunny days. The shadow of a tree, out in the open, will show this blue. The tree is lighted by the sun. But the shadow is lighted by reflected light from the sky. And this skylight is blue.

A red brick wall, reflecting red light, may give the shadow a reddish tinge. Shadows take on different colors depending upon what color of reflected light is striking the shadowed area. This little-observed delicacy of coloring by nature is described by Ralph M. Evans, an authority on color of the Eastman Kodak Company, in a new book, "An Introduction to Color." (John Wiley & Sons, \$6).

A shadow on a white surface on a clear sunny day will be found to match the sky, he points out. If there are isolated clouds, reflecting the sunlight, they mix sunlight with the blue in the shadow. The color of the shadow is far less blue. With many scattered clouds, the light intensity may become quite high in the shadows, and be the same color as the sun.

"We tend merely to assume that colors are what we think they are and do not verify our assumptions. If people look more carefully at colors, they will be surprised at what they see," Evans writes.

HOW TO OUTWIT HUNTERS
BOISE, Idaho — (AP) — An open season on cattle is suggested by an Idaho livestock grower as a means of reducing the killing of cattle during big game hunting seasons.

"Every year," says John J. Highgate, "scores of cattle — to say nothing of horses, mules, sheep and other hunters — are shot by hunters who mistake them for game animals. Deer and elk are thereby saved, and continue to roam our hills in unabated numbers. All we have to do is declare an open season on cattle and close the season on deer and elk."

Camera Picks Up Colors We Can't See Tin Can Island Is Now Deserted

AUCKLAND, N. Z. — (AP) — Niua F'ou, the "Tin Can Island" of the South Pacific, is deserted. Abandoned buildings, untended plantations and a few roaming pigs and dogs alone remain as a record of a once thriving Tongan community. The people were forced to flee the island by repeated volcanic eruptions.

Four hundred miles northeast of Nukualofa, Niua F'ou is one of the loneliest islands of the southern Pacific. It has a long volcanic record. When a large area was devastated by lava 18 months ago the Tongan Government decided to move the island's 1200 people to the fertile lightly-settled island of Eua. The main migration was carried out a year ago. A small party left on the island to complete the evacuation has since been removed. Because of the difficulty of attempting a landing on the rocky shores, Niua F'ou will be rarely visited in the future.

Known to philatelists throughout the world as Tin Can Island, the place got its name from a mailing practice begun by Charles S. Ramsay in 1921. For 11 years he swam out to ships to deliver and receive mail in a tin can.

PORTUGUESE STUDY COLONIAL LABOR

LISBON — (AP) — The natural reluctance of the native to work hard, underpayment in the Portuguese colonies and the temptation of leaving to work for high wages in the Rand mines are contributory causes to the labour crisis in Angola and Mozambique, according to Amadeu Cunha in the "Diario de Noticias."

He gives the example of Angola's cotton industry. During the 1945-46 season there were only 36,644 workers out of a native population of 221,746. Out of every ten persons of working age only 3 have gone into cotton growing or any other industry or activity.

LONG DROUGHT
CINCINNATI — (AP) — The last member of the Cincinnati Reds to win the National League home run championship was outfielder Fred Odwell, who copped the crown in 1905 with a total of nine circuit blasts. The all-time Cincinnati record is held by Ival Goodman who blasted 30 in 1938. Mel Ott won the crown that year with 38.

What It Means:

The High Cost of Illiteracy

WHAT IT MEANS: THE HIGH COST OF ILLITERACY

By Robert E. Geiger
WASHINGTON -- Would you know what to do if you saw a sign that said "Explosives--Keep Away"? Or "Folsom--For External Use Only"?

Sen. Harley M. Kilgore (D-W. Va.) says the census reveals that slightly over 10,000,000 Americans -- one out of every seven adults -- wouldn't know. He calls them "sheer or near illiterates." He proposed \$130,000,000 federal aid to help such people learn to read and write. His bill died, but educators say it is sure to come up again.

What is an illiterate? Where do these 10,000,000 illiterates live? Kilgore says the answers to these questions are so amazing the situation can only be described as a national disgrace.

First, he describes illiterates as persons without the equivalent of a fourth grade education. They can't read or, if they can, they can't understand what they read sufficiently well to function as citizens.

Second, he says many of these people -- probably the majority of them -- don't live far out in the sticks, where an education is hard to come by. And the majority are not foreign born, but native Americans.

He gives these figures: 4,200,000 are white people, born in this country; 3,200,000 are foreign born whites; 2,700,000 are Negroes. He says one-tenth of the 10,000,000 live in New York, 462,000 in Illinois and 385,000 in California. Louisiana has a higher percentage of illiterates among its total population than any other state. Kilgore estimates the number at 36 per cent. Iowa has the lowest, 4.1 per cent. There are three times as many

illiterates in this country as college graduates, Kilgore adds. He says this weakens democracy because many of these people cannot read the words "freedom" or "peace". Communists are aware of this situation and take full advantage of it by using only the simplest types of propaganda or by making personal contacts, the senator says.

He proposed that \$5,000,000 aid be given the states in 1949 to teach people how to read, write, speak and understand the English language, to perform elementary arithmetical computations and to understand the basic features of U. S. government. He would appropriate \$10,000,000 for the teaching program in 1950, and then \$15,000,000 a year until 1957, decreasing to \$5,000,000 in 1958-59. By that time, he believes illiteracy would be eliminated in the United States.

One difficulty is that illiteracy apparently hasn't been accurately defined. Most authorities agree that the 10,000,000 estimate may be wide of the true mark, one way or the other. Until 1940 the U. S. Census Bureau counted illiterates merely by asking people if they could read or write in any language. If they couldn't, they were classified as illiterate. In 1940 the census classified people by their degree of education -- number of years they attended school. This is the origin of the estimate that there are 10,000,000 people without the equivalent of a fourth grade education.

During the war the Army used the fourth grade as the dividing line between literary and illiteracy. This was based on the wartime experience of the Army. It found that as a general rule people with less than a fourth grade education couldn't read or obey the simplest sort of orders.

Army officials say 350,000 soldiers between 21 and 45 had to "make their mark" with an X because they couldn't write their own names.

FLYING FIREMEN
COEUR D'ALENE, IDAHOE
(AP) -- Visitors to the Coeur d'Alene national forest are warned -- from the sky -- of fire hazards in the timbered area. Forest Service Employee Walter A. Lafon said a fire patrol plane carries white cards with this message:

"Fire danger now severe. Special care with fire by everyone is most important." When fire conditions are hazardous the cards are dropped from the plane.

Social Security Do's and Don'ts

When a worker starts a job in industry or business, he should show his social security card to his employer. The employer will enter the exact name and account number in the company's records and use it to report the wages to the Social Security Administration.

To make sure every employee and his family receive all the insurance to which they may be entitled, employers should report all wages to the Government under the name and account number of each employee as shown on the worker's social security card.

When a veteran of World War II dies within 3 years after his discharge, social security benefits may be paid, if certain requirements are met, even if the deceased had never worked in social security employment.

Social security cards are not to be used for identification. They are issued to workers in business and industry to maintain social security wage accounts. Federal social security payments which a worker earns for himself and his family are based on these wage accounts.

Have you gone on a new job lately? Did you show your new employer your social security card, or did you try to remember the number? An incorrect number on your employer's tax returns may mean that you will not get credit for all of your wages.

Federal old-age and survivors insurance -- social security -- provides monthly payments for retired insured workers after they are 65 and for survivors of deceased insured workers. Further information can be secured from your office of the Social Security Administration.

EMPLOYERS -- The payroll tax report, which you make every calendar quarter, must include the name, social security account number, and the amount of wages paid to each employee. Every business that has ONE or more employees is covered by the Federal Social Security Act.

ATOMIC VAULTS SMALL

NEW YORK — (AP) — The stuff that makes atomic bombs is, or was, kept in not-very-large vaults writes Daniel Lang in a new book, "Early Tales of the Atomic Age." One such vault was seen in 1946 by Herbert S. Marks, Washington attorney while on a trip to Los Alamos, New Mexico.

"Many people," Lang writes, "would regard as the most important spot in the world a vault used to store the stuff out of which the bomb is made. It is, Marks told me, one of the most carefully guarded and least frequented vaults ever built."

The book also has a section on the search for suitable caves for wartime industry. Another section deals with rocket tests in New Mexico. Many of the Atomic Energy Commissions big problems and human sidelights are told at length.
