## PROMINENT DIVINE WRITES LETTER

Says Fire Terms Employed in Bible to Designate Punishment of Wicked are Metaphors.

The Brand had no idea of raising a "question" by the publication of the matter concerning the "Anti-Hell-Fire and Brimstone Resolution," but it seems that a number have become interested to such an extent as to advise with some of the most prominent divines of the state. The letter appended below is from Dr. B. H. Carroll, President of the Southwestern Baptist Theological Seminary. Mr. Carroll is the leading writer and most eminent scholar of the Baptist denomination of the South and what he has to say will have weight, not only with the people of that order, but with other church folks. His answers to the questions asked and his comment thereon agree with the current and progressive thought on the subject.

He says: "The kind of eternal punishment meted out to the unsaved has not been revealed beyond the terms themselves, as given in the Bible. I regard the 'fire terms' employed by the Bible to designate the punishment of the wicked as metaphors."

His letter clearly states that he believes in a real place, a real hell, but the punishment of the unsaved will be "more than a reproach of conscience or remorse," but the "lake of fire" and other similar terms are only symbols of the punishment. This does not lessen the awful condition of the wicked for the metaphor must never be considered to mean less than the literal."

Southwestern Baptist Theological Seminary, B. H. Carroll, President, Fort Worth, Texas.

DR. CARROLL'S LETTER  
September 18th, 1912.

Rev. G. T. Bailey,  
Hereford, Texas.

Dear Brother:

You ask me in your letter of September 11th four questions, which I will answer in the order given:

1st. I do not endorse the Anti-Hell-Fire and Brimstone resolution, adopted by the National Bible Student's Association held recently in Washington City. It was a useless piece of folly.

2nd. The final impenitent believer will not be saved, but will be eternally punished.

3rd. The kind of eternal punishment meted out to the unsaved has not been revealed beyond what the terms themselves, as given in the Bible, as conveyed to the ordinary mind. It will be, however, more than a reproach of conscience or remorse. It will be punishment resulting from judicial decision. There will be actual punishment. That the conscience of the punished will torture them is unquestionable, but God does not make the human conscience the administrator of His punishment, though the conscience will subscribe to the Divine verdict.

4th. I believe in a place or abode for the unsaved, just as much as I believe in a place for the saved. Only the infinite is omnipresent. All finite beings, whether angels or man, whether in body or spirit, must have a place. This results from their finite nature. I regard the fire terms employed by the Bible to designate the punishment of the wicked, as

metaphors. But the metaphor must never be considered to mean less than the literal would convey. It is useless for me to cite the scriptures that you ask—I have not the time, but I do cite the following: The 16th chapter of Luke, in the parable of the rich man and Lazarus, shows that the souls of departed saints and sinners go to separate places, one to the place of delight and the other to the place of torment. The following passages show that after the resurrection from the dead the places are still separate, one a place of delight, and the other a place of torment and punishment: Math. 10:28, Math. 25:31 to 46; 2-Thess. 1:7 to 10; Rev. 20:11 to 15. There are, of course, many others.

Sincerely yours,  
B. H. Carroll, President.

### Harvests the Hoosier Crop.

A. W. Gregg has just made a report on the crop raised by a Hoosier, who came here from Spencer, Ind., last spring and after pitching a crop of maize and millet got discouraged and pulled up stakes for "back yander." The Hoosier was a good worker and did all that was necessary to raise a crop, but he turned loose too soon. It got a little dry here in the summer and the crop took the wits "party" bad, so the Indiana man, not accustomed to raising such crops as are grown here, also took the wits a good worse and the next thing any body knew he had "done gone and went" and left for Indiana. Mr. Gregg bought his crop and last week he harvested what was left after the "dry weather" got thru with it. Of the 40 acres of maize he harvested over 12,000 bundles, and everybody says it is very fine feed. The six acres of millet made at least six tons. The small potato patch gave up 8 or 10 bushels of fine tubers; and over 200 fine melons were taken from the water melon patch; besides there were oodles of tomatoes and cucumbers in the garden. The entire crop could be sold for at least \$650.

### Sunday School Census.

As a result of the work of the Sunday schools, the religious census of the town was taken last Saturday in about two hours. Some 60 visitors did the work. The tabulation shows that Hereford has about 1850 population, and when a number were not at home, an estimate was made of those "not taken." The object of the census was to get more folks into the Sunday schools. The weather on Sunday immediately following the taking of the census was not conducive to Sunday school attendance and hence not a large number were present at the different schools, though some more than usual. The census cards have been divided between the schools and visitations will be made to all who do not attend the schools. It is desired that every one attend some Bible school.

### Lutheran Service at College.

Rev. C. E. Schmidt of Rhea, Texas, will hold services in German at the College Chapel next Sunday morning. Sunday school at 10 o'clock. The public is cordially invited.

### At the Baptist Church.

Pastor Purser announces that he will take for his subject Sunday morning—"The Best Investment," and for Sunday evening—"Refuge." All are invited to attend the services.

Yoakum Has Built 1200 Miles of Railroad in Texas. Leading Railroad Man of U. S. A.

COL. B. F. YOAKUM

Col. B. F. Yoakum has built more miles of railroad in Texas than any other living man during the "past ten years."

Mr. Yoakum was born in Limestone County, Texas. Like nearly all big railroad men he mastered his profession from the bottom up. He began his railroad experience as a laborer on a construction gang of the International & Great Northern between Jacksonville and Palestine and reached the top rung in railroad management in 1905 when he was elected chairman of the Executive Committee of the Rock Island and Frisco lines and directed the affairs of 17,000 miles of railroad—the greatest aggregate mileage under any single control in the world.

It was Mr. Yoakum's early ambition to span the prairies of Texas with railroads and in the beginning of his career, he mapped out a comprehensive system of 6,000 miles of railroad needed in Texas, which he secretly determined to build, and he has constructed over 1,200 miles, but at the close of the 32nd Legislature announced that he had grown weary of the task and would soon retire from construction work. Legislation inimical to railroad investments and public sentiment hostile to the railroad industry are said to be the reasons assigned for his retirement from the field.

### Burn Thistles Now.

If the farmers do not wish to be troubled with the rolling thistle again this year, a wholesale burning should begin. While the grass is green, there would be no danger of firing the pastures. There are thousands of acres of the thistles that could be burned. Some have already burned off adjoining fields. They take a rope saturated with oil and drag it slowly along the wind side of the field. After once started, the weeds burn readily. Others have been using a fork to scatter the fire along the margins. Let everybody burn thistles and save a lot of trouble.

### An Early Winter, Save Feed.

All indications point to an early winter. Frost a month earlier than usual has been reported in Oklahoma, and it appeared in this county 20 days earlier than the accustomed time, October 15, being the date for frost in this section. Those who have late feed would do well to cut it at once.

It will pay you to get our prices before you buy that bill of lumber. No matter how small, we save you money. R. H. Kemp Lumber Co. 11

### Services Well Attended.

The "Service of Song" at the Presbyterian church last Sunday evening was largely attended and much enjoyed by those present. The singing of the choir was good and the individual selections were not excelled. At the morning service, Rev. F. C. Baker, father of the pastor and a pioneer preacher of the Presbyterian church in Texas, occupied the pulpit. Father Baker has been an active preacher for 40 years and has preached for the McGregor church for 32 years, and was pastor continuously with the exception of 6 years, 5 of which his son, Rev. W. M. Baker, was the pastor. Rev. Baker and Rev. T. G. Nance, now of this city, though of a different order, were friends and co-laborers in the Christian work in the central part of the state in those early days. In the early days he traveled over McLennan, Bell, Coryell and adjoining counties and preached in the "By-ways." This is his first visit to the Plains of the great state in which he has much to do in shaping its religious complexion and he is pleased to see that that same high moral and religious life prevails even in the "wild and wooly west of the Panhandle." The following program was given:

## FIRST WELL ON FLAG RANCH

"Oceans of Water" Struck in Irrigation Well in Castro County Ranch.

The first of a number of irrigation wells on the Flag Ranch in Castro county was tested Wednesday of this week. The developing test was made in the presence of D. L. McDonald of Hereford, who sold the equipment, and Mr. Peden of Amarillo, who has charge of the development of that large body of land. The first run was entirely satisfactory. Large quantities of sand were pumped, requiring the work of a number of men and teams to keep the sand removed from the discharge basin. "Oceans of Water" were found in the well, which is something over 150 feet, but only 110 feet to the water level. The pump, a four-stage Layne, placed at 150 feet deep, with proper equipment of shafting and discharge pipe. The power is furnished by an 80-H. P. Bessimer Gas Engine, using fuel oil. This equipment is pumping a large volume of water. The well is located on the extreme left L of the Flag Ranch, about 1 1/2 miles from Stiles settlement and about 6 miles from the south line of Castro county. The location of this well widens the irrigation territory in this section considerably and the result will be watched with interest. It might be well to mention that the Flag Ranch, consisting of 48 sections of land, is owned by C. T. Herring, president of the Amarillo National Life Insurance Company. If this well proves profitable and satisfactory, other wells will be put down as rapidly as opportunity offers. Mr. Peden and his associates, who have charge of the development, have a drilling outfit of their own which will enable them to proceed as they find it proper.

### At the Methodist Church.

The subject for the sermon at the Methodist church at the morning hour will be—"A Leading Methodist in the College of Apostles." At 7:30 p. m., the subject will be—"A Wicked Man in High Office and His Chief Sins." The pastor is J. M. Sherman, Pastor in Charge.

Going Up.

"Business is full of ups and downs" as the elevator boy said--and he certainly new.

The way we figure this dope about business conditions is as follows: For the past few years business in general has been on a decline--generally speaking. Why? Ask the politicians, the trust buster, the mackrakers and a few others.

Today conditions are different. The great Common People, the final ruling power, are tiring of destructive agitation and are desiring constructive legislation. Politicians will be forced to heed this desire.

Today enormous crops, the basis of prosperity, are assured. The cattle business is booming, irrigation is increasing and safe and sane business methods prevail.

We've had a great housecleaning and now the fellow that doesn't prosper can blame only himself--or his habits. By the way, how about your habits? Are you spending more than you make, or have you formed the Saving Habit? If not, begin at once and form ONE GOOD HABIT. Then when an opportunity affords itself you will be prepared to take advantage of it.

If you have already acquired the Saving Habit, and have a balance

Making Good Butter.

Some two weeks ago a short article appeared in these columns with reference to butter-making. It is a fact, if the grocers would tell the truth once, that nearly all country butter is bad. "Country butter" includes all butter made in the town home or in the country spring-house and the term is used by butter dealers to distinguish the kind from creamery butter. In some sections, the merchants ship the country product to the "Renovators," and there it is melted and cleaned and remolded, and then sold to cheap restaurants or shipped back to the grocer who sells it over his counter. But no merchant ever refused to buy any woman's home-grown butter because it was "bad." He knows that he would engender her everlasting wrath. In fact, any man would be in danger to tell a well meaning woman that the product of her churn was unfit for human consumption, but as a question of honesty there are comparatively few women who are prepared to make real wholesome butter and do not turn out a first class product. Butter is one of the most difficult food products of the farm to make. The milk from the time it is drawn from the udder until the butter is sealed in clean parchment paper, is subject to spoilation from a hundred sources. Even the condition of the cow, the kind of feed for the herd, the pasture, the climatic conditions, the stable surroundings, the condition of the milk can or maid, all affect the butter. The care of the milk is all important, the churning process, time and temperature, have to do with the good or bad product. A filthy stable,

a feverish cow, poor food, a weedy pasture, stormy condition of the weather or of the milk man, will tell its story in the butter. And the consumer must eat all of this combination in one of his table blessings. No wonder, all "country butter" is classed by dealers as bad. But occasionally, you will find a good product produced on the farm. There are a number of men and women around Hereford who are making good butter. The merchants never have too much butter on hand to buy their product--it has a ready sale at all times; in fact, many housekeepers have standing orders for the butter made by So-and-so. They never ask any questions when the grocer tells who has made the butter or when they see whose name is stamped on the wrapper.

HAVE YOU EVER

TAKEN CALOMEL?

Next Time Don't Do It, It's Dangerous. Try Dodson's Liver-Tone Instead--It's Safe.

You ought to know what a dangerous and uncertain drug the chemical, calomel, is. Perhaps you know several people who have been salivated by what they thought was a very light dose of calomel.

Next time you have an attack of biliousness, or when your liver has gotten sluggish, come to Betts-Clark drug store and ask for a bottle of Dodson's Liver-Tone. You will find it a pleasant tasted liquid and a perfect substitute for calomel in every respect and without the dangerous after-effects of calomel.

Dodson's Liver-Tone gives the liver just the amount of gentle stimulation it needs to induce it to do its work properly and thoroughly. Betts-Clark drug store will give you your money back any time Dodson's Liver-Tone fails to prove itself a perfect substitute for calomel.

Equitable Taxation.

First--Exempt all money, personal property, mechanic's tools, farm machinery from taxation.

Second--Assess buildings and improvements on real estate at 25 per cent of their cost, reducing the assessment each year according to character of material.

Third--Assess all land at its market value or real value.

Fourth--Assess bonds, notes, stocks and other certificates of indebtedness at 75 per cent of their face value.

Fifth--Assess semi-public utilities such as railroads, street line roads, telegraph, telephone and electric lines at 75 per cent of the commission's estimate; rolling stock to be assessed at 25 per cent of their cost.

Sixth--Deduct face value of land mortgages from assessed valuation before taxation begins.

Some just and equitable system of estimating values for taxing purposes should be inaugurated.

This platform of taxation is subject to change or revision without notice. Study them and if you can add or suggest something better, let the people have it. 35tf

Only a Penny for Each Year.

In making a statement about the birthday box which the ladies of the First Christian church had inaugurated, it was mentioned that those who had a birthday, should put a penny in for each day, when it should have been a penny for each year, or a quarter for each year, or a dollar for each year. The ladies also wish it to be known that every one who has had a birthday this year or hopes to have one this year, is expected to remember the box.

Mrs. Collins and her daughter, Mrs. Evans, entertained for Mrs. Anna Witherspoon last Saturday afternoon that she might have the pleasure of meeting her many friends before her departure for California. A large number were present. After an hour of pleasant conversation, the hostess introduced a puzzle contest, using the names of popular makes of automobiles in a hidden manner, the successful winner to be presented with Mrs. Evans fine new auto. At the close of the contest one of the number was presented with a new miniature auto. Another diversion was the kodak party on the lawn during which a number of groups and poses were made and later to be developed and to be sent to Mrs. Witherspoon. At the close of the reception, refreshments of jellatine with nuts and cake were served. The ladies were all pleased to have this opportunity to be with Mrs. Witherspoon before her final departure and they wished for her a pleasant trip and a soon return to this state.

Give it a trial and see how much at home you will feel in it. No underwear in the world gives such real comfort and satisfaction as MUNSINGWEAR.

Munsingwear is the most popular underwear in the world for Men, Women and Children. It fits and covers the form perfectly because made just right in every way. It stands in a class by itself; there is no high grade underwear so inexpensive, and no low priced underwear of such excellent quality as Munsingwear. Supply yourself early.

**Gettin' Miffed.**

Every once and occasionally a newspaper will say something either in a jocular way or will give an item simply as a matter of news, and the persons to whom the article refers gets miffed at the paper if they do not get a personal grudge at the reporter or editor. What's the use? If you don't want your name to appear in the paper, just kindly whisper you to the news fakir that do not wish to attain newspaper notoriety, and therefore prefer that your name be omitted from its columns. The newspaper man, if he is a gentleman, will thank you for the suggestion and will refrain from mentioning your name, unless you happen to get into court or jail when it becomes his bounden duty to chronicle the incident. Therefore, if you have "aught against thy brother," a newspaper man, don't get miffed and say mean things about him.

It is a well known fact, admitted by all tax assessors and tax gatherers, that the more property a man has the less tax he pays in proportion. It is simple: All men are

**Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

human and it is pale streak of sickly humanity that causes some to look up to the wealthy as their superiors and to worship their favors if not their persons, that the few burnt crumbs from their generosity might fall into their open bird-like mouths. So oftentimes, the wealthy are excused from a rigid assessment on the score of the liberality in other ways when the tax assessor comes around. Only the tangible property is listed and as the man of little house can not hide his, the assessor finds him easily.

COMMENDATION and criticism is the result of an article under the title of "Penalizing Industry" which appeared in this department last week. The commendation was in excess of the adverse criticism, but this is little consolation when "the powers that be" go right on in the same old way of assessing unjust taxes just because it has been the custom to do that way. Simply because a system has been in vogue for years is not one argument in its favor; it would rather suggest that the people have not progressed in that branch of human industry. One man in upholding the antiquated system of taxation remarked that a man should pay taxes on all of his property alike. That sounds alright upon its first speaking, but when compared with this definition, that a man should pay taxes in proportion to the benefits derived from the state and community, it falls back as an echo: who pays the taxes?

THIS tax question is being studied by many classes of people; the rich and the poor, the well-to-do and the average holder, and in not many years, some just and equitable system will be evolved. About the first step towards an equitable system of taxation is to cease using the voluntary system of assessment. The assessor will simply be the clerk of the tax board who will sit as a commission and list each man's property and fix a value. Each holder will be required to give under oath a complete list of all property in his possession whether as an owner or as a holder. The tax dodger will not be able to dodge the penalty of false swearing and the penalty would not be too severe if the hidden property should become the property of the state or county. This would prevent any more such occurrences of the Ananias and Saphira type. But some men would fall dead even now if they were compelled to reveal all of their holdings and property.

THE Tulia Herald, L. D. Webster, editor, came to the exchange box this week with twenty pages full of the "meat of the cocoanut," the edition being "Tulia's Annual Fair and Exhibit Edition." The issue does credit not only to Tulia and Swisher county, but to the newspaper business. The ads of the merchants form a good part of the best reading matter, but the facile pen of the editor is seen on every page. May The Herald waive as a Banner of Success over the fair city of its home.

**City Building Notes.**

After all is said and done, it takes laboring men to build cities. Don't waste money on general advertising; state something specific

and keep a pounding at the public. To be successful is not merely to accumulate wealth, but to assist in the up-building of your community also.

A prevailing spirit of friendliness will create an impression on the stranger and your city will not soon be forgotten.

Natural advantages are location, population and transportation. Without these your city is doomed to a slow and uncertain growth.

Posterity will honor that forefather who supported all measures that made for the up-building of the community and assisted in the welfare of his fellow man.

You can never hope to locate a large factory in your city without adequate shipping facilities and until such a time as you can secure these transportation lines, your efforts

should be devoted to local development.

Everyone has heard of "hold-up" men. Is your city a "hold up" town? We are not speaking of highwaymen, but of merchants who think it a wise or smart business method to get prices for their goods above real value—in other words who "hold up" their customers. If they cannot sell right they do not buy in the right way. High prices asked for goods will kill any town. With right business methods, people in business can buy and sell at fair rates and make a fair living profit.

How are the business methods of the merchants of your town, and is there the right co-operative spirit to make your city a big trading and market center?

Take Dr. Miles' Laxative Tablets for constipation. They will help you.

**Texas Industrial Notes.**

**Galveston**—The Santa Fe is to start at once on the \$500,000 Union Depot and General Office building in this city. When completed, it will be one of the finest of its kind in south Texas.

**Waco**—The grading for the Katy terminals will be entirely completed by October 1st. The round house is practically finished now and will be in use soon.

**Waxahachie**—At a meeting of the Commissioners Court of Ellis county, the sum of \$600 was raised for the purpose of continuing the Agricultural work another year, also the United States Department of Agriculture has added \$400 to the Ellis county fund. F. E. Hilton will continue in charge of the work.

**Dalhart**—Finch Bros. of Memphis, Texas, have purchased the twenty-five-section ranch of R. S. Coon, the consideration being \$100,000. Finch Bros. will make a breeding proposition of the ranch and will stock it with cattle.

**Port Aransas**—The first shipment from this point was carried by the steamer "Brinkburn" loaded with a cargo of 11,000 bales of cotton, bound for Liverpool.

**Tulia**—There will be an immense yield of kaffir corn and milo maize in this vicinity this season and investigations show that these crops will average fifty bushels to the acre. Specimens of these products are now on display in this city and the heads are well matured and of a larger size than ever before shown here.

**Gainesville**—The Farmers' Union of this county has leased a lot from the Santa Fe Railway Company and will erect a cotton warehouse. The Young Men's Business League has raised a bonus of \$1,000 to apply on expense of constructing the warehouse. The building will have a storage capacity of 2,000 bales.

**Farwell**—D. W. Jones, who is doing the grading work on the Texico-Coleman cut off of the Santa Fe, says that by November 1st, forty-eight miles will be completed, and by

January 1st, steel laying will commence.

J. H. Vander Boom of Quincy, Ill., was a caller at this office Wednesday morning. This is his first visit to Hereford in four years and he is pleased with the conditions. He thinks the irrigation wells the greatest ever and hopes to see the work pushed right along. He says the town should send out thousands of advertising posters and tons of literature. "I had heard of the irrigation and have watched the results with much interest," he said, "now that I have seen the wells and fields with my own eyes, I believe Hereford has the greatest proposition and that a prosperous future is assured." Mr. Vander Boom is a dealer in lumber.

## Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

## TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

D. 1912 in a suit, numbered on the docket of said Court No. 519, wherein J. E. Mathews is Plaintiff and Minnie F. Mathews is Defendant, and said petition alleging that on or about May 1st, 1892 plaintiff was legally married to defendant in Glen Grouse, Kansas, and continued to live with her as her husband until about August 1st, 1911, when by reason of the cruel and harsh and improper conduct of defendant towards plaintiff, he was forced to permanently abandon her, since which time they have not lived together as husband and wife. That defendants maiden name at the time of such marriage was Minnie F. Stewart.

Plaintiff alleges that defendant's actions and conduct towards him generally are of such a nature as to render their further living together as husband and wife insupportable. Premises considered, plaintiff prays the Court that defendant be cited to appear and answer herein and for a judgement dissolving said marriage relations, for costs of suit and for such other and further relief, special and general in law or in equity, that he may be entitled to.

## Finds Cure for Epilepsy After Years of Suffering

"My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine."

MRS. FRANK ANDERSON, Comfrey, Minn.

Thousands of children in the United States who are suffering from attacks of epilepsy are a burden and sorrow to their parents, who would give anything to restore health to the sufferers.

**Ladies Rest Room.**  
For some years there was a constant agitation for a ladies' rest room. Now, that there is one, it is not being used as it should. At the court house, in the northwest basement corner, is a splendidly equipped rest room for the ladies, and they should use it. Only this week, the ladies, who had come in from the country to do their shopping, after they were thru at the stores, stood around and looked tired instead of resting at that room. Use the rest room, ladies.  
Our Tailored-to-your-measure clothes cost but \$12.50 up. You can order now. There's a dressy look to them, and they represent the best workmanship in the world. **Ralph Barnett.**  
**Dr. Turrentine Returns With a Bride.**  
Dr. Turrentine surprised a number of his friends by returning from his western trip with a wife, who was Miss Bess Ridgeway. While a few of his most intimate friends knew what his intentions were when he departed on Sept. 1, but the circle to whom this information had been given was small. The event occurred at the home of the

bride's father, T. B. Ridgeway, of Mexico, Mo., on September 4, and the couple left at once for a western trip to the Pacific coast. They visited Denver, Salt Lake City and the coast towns, enjoying a pleasant trip. They returned to Hereford on October 1, and they will make their home in this city. The Brand joins with their many friends in wishing the new couple a happy life in their new relation.

**Judge Graham Resigns.**  
Amarillo, Texas, Oct. 3.—The following letter of resignation was sent this afternoon by Judge Graham of the Seventh Supreme Judicial District, to Governor Colquitt:  
October 3, 1912.  
O. B. Colquitt, Governor,  
Austin, Texas.  
My Dear Governor:  
I have formed a co-partnership for the practice of law at Brownsville, Texas, with Frank C. Pearce at that place under the firm name of Graham & Pearce, the co-partnership relation to begin November 1st, 1912, about which date I will move to Brownsville with my family, and I therefore tender to you as Governor my resignation as Chief Justice of the Court of Civil Appeals for the Seventh Supreme Judicial District of Texas, said resignation to take effect November 1st, 1912.  
I think proper to thus notify you in advance that you may make proper appointment to fill the vacancy which will result from my resignation in time for my successor to assume the duties of the position promptly on my resignation taking effect, as our appellate court dockets are crowded and there should at all times be a full bench at work.  
Sincerely your friend,  
**JAS. A. GRAHAM.**

**Sunday School Attendance.**  
While last Sunday was a very bad day for a Rally Day on account of the inclement weather, the attendance was more than could have been expected. The following numbers were present at the different schools reporting:  

	No. Pres.	Coll.
Baptist	137	\$3.41
First Christian	105	3.65
Methodist	122	2.95
Presbyterian	90	2.64
Total	454	\$12.65

  
If the different schools of the town will hand in their reports each week, publication will be made of the attendance and collections, and other items of general interest.

**Galveston Leads The World In Cotton Exportation**  
Galveston, Texas, Oct. 3.—Figures recently received from the Department of Commerce of Labor, show that Galveston leads the world in cotton exportation. This city has sent more cotton out than its two nearest competitors, namely, Savannah and New Orleans, and more

**To Keep Your Teeth a Lifetime**

You who wish to preserve your teeth—keep them solid and free from discoloration—remember this—  
Be attentive to your teeth—keep the shreds of food from out of the crevices—thoroughly masticate your food and avoid as much as possible soft and poorly cooked foods—use the brush regularly and with an up and down motion—  
**and use that most efficient tooth cleanser and preservative—Nydenta Cream**  
Prevents fermentation arising from the decomposition of food particles—hardens the gums, protects, whitens and polishes the enamel of the teeth—sweetens and perfumes the breath. It renders the secretions and membranes of the mouth thoroughly germ proof.  
This is not a mere tooth paste—it is a real tooth preservative.  
In collapsible tubes—clean and economical—25c the tube.
