Physician Urges Careful Study of Hospital's Real Value

A rousing Monday noon luncheon was held by the business men at the City Cafe this week, attended by nearly thirty optimists. Vice chairman Homer Wilkinson presided in the absence of D. L. McDonald. The hospital situation was discussed in detail, the committee reported that the petitions had been filed with the court, and ways and means were discussed of handling the coming election. Dr. W. A. Price made one of the finest phrases, connected and sensible talks heard here in some time on the subject. He likened the hospital to the schools, churches, banks and other necessary cogs in any civilized community and said simply that the Hereford Hospital had been the dream of his life and that its closing would cause him to feel that the greatest effort of his life had been wasted and that the people of Deaf Smith county were unmindful of their obligations to society and to themselves. The talk was a powerful effort in its effect and caused the diners to depart with a deeper appreciation of the hospital and of their duty to maintain it.

F. H. Oberthier and T. K. Wilson were appointed a grounds committee for the coming Chautauqua and it was announced that tickets for the course would be sold absolutely at face value this year and no "scalping" or reductions would be allowed to anyone.

Judge Gough reported on the work of the Wheat Growers in forming their pool, the School Fair of last week was praised by several speakers and the coming visit of the Governor discussed. Next week the luncheon will be held at the Stockmen's Cafe.

Knights Templar At Presbyterian Church Sunday

The special Easter services for the local Knights Templar will be held at the Presbyterian church next Sunday morning instead of at the Baptist church, as announced in The Brand last week. Dr. Atwood will not be here on that particular Sunday and the sermon for the Sir Knights will be preached by the Rev. J. R. Sharp of the Presbyterian church at 11:00 a. m.

All Sir Knights are requested to gather at the Masonic Hall at 10:00 a. m. in full uniform for the occasion.

J. H. WAGNER HERE AFTER LONG VISIT TO INDIANA HOME

County Commissioner J. H. Wagner reached home Sunday morning from Brookfield, Indiana, where he has been sojourning for several months. Mr. Wagner attended the regular monthly meeting of the Commissioners Court on Monday.

Mr. Wagner, who went to Indiana on account of his wife's health, reports that she is doing fairly well and that the children are in school at Brookfield.

WHEAT POOL ASS'N DIVIDE PANHANDLE INTO 20 DISTRICTS

At the meeting of the "organization committee" of the Texas Wheat Growers held at Amarillo last week the wheat growing counties in northwest Texas were divided into twenty districts, according to Judge L. Gough, who presided. Deaf Smith county will be the tenth district and an election will be held Thursday to choose a director for this district.

COMMISSIONERS IN ROUTINE SESSION HERE ON MONDAY

The County Commissioners Court met last Monday and transacted business that was necessary, such as paying bills, hearing petitions, etc. The court heard a petition to open a road from the V. T. Glenn Ranch, north about five miles, to the county line. A jury of view was ordered appointed.

School Fair A Decided Success

Governor Neff To Speak Here On April 29th

Dispatches from Austin carry the news that Governor Neff is to begin a speaking tour of the Panhandle in the near future and that he will speak at Hereford on Saturday, April 29. That is all the news regarding this matter that has been received here, but is considered authentic.

At Monday's luncheon of the Chamber of Commerce a reception and entertainment committee was appointed to look after the Governor when he arrives here. The committee consists of Mayor Knight, Judge L. Gough and W. E. Dameron. An effort will be made to show the state's chief executive every courtesy while in Deaf Smith county.

Chautauqua Will Present 2 Plays And Big Magician

Two great comedy dramas with Broadway casts will be presented to the Hereford patrons of the Redpath-Horner chautauqua which opens here on May 22. One is entitled "Turn to the Right" and the other "Friendly Enemies." Both are reputed to be absolutely A-1 in every respect and staged in a way to delight the audiences over the Frontier Circuit this summer.

Laurant, the ace of magicians, is another big feature. He will make an especial appeal to the children on Children's Day. Other headliners will be Miss Jane Goude, the Girl from the Golden West and the Highland Lassies, six in number, of whom five are sisters. They appear dressed in Highland costumes. Other features of the coming attractions will be given from time to time.

MANY ENTERTAINMENTS ON DOCKET FOR NEAR FUTURE

Entertainments, recitals and socials are the order of the day everywhere just now. No less than four are announced for the immediate future. On Tuesday night, April 11, the Progressive Literary Society, of the Progressive School community, were billed to offer a play entitled, "A Little Clodhopper." Free "cats" was another attractive feature of this program.

On Thursday night, April 13, a vocal recital will be given by Mrs. Robert Wilson, of Amarillo assisted by Mrs. Ryburn, accompanist, under the auspices of the Methodist Missionary Society, at the Methodist church. The program will begin a 8:00 o'clock, and is divided into three groups, (1) Songs from Operas and Old Masters, etc., (2) Songs from Childhood, (3) Songs of American Composers. Mrs. Wilson comes here highly recommended as a finished musician.

The Summerfield young folks will stage a play next Friday night, April 14, at 8:30 o'clock at the Summerfield High School auditorium. The play is a four-act comedy entitled "Arizona Cowboy." The proceeds will go to the public school library.

The pupils of the Wyche school will present a program at the school on Thursday night, April 20. Songs, recitations, a playlet and a presentation of prizes constitute the evening's entertainment.

HEREFORD GIRL IS BRIDE OF FORMER LOCAL RESIDENT

Information has been received here of the marriage at Wichita Falls, Texas, last Sunday, April 9, of William Kelly, formerly of this city, and Miss Corrine Smith, daughter of Mr. and Mrs. W. T. Smith. Mrs. Walter Bennett and Lester Gray both former Herefordites, were witnesses.

The young couple will make their home at Walters, Okla. The bride left Hereford Saturday and met Mr. Kelly at Wichita Falls. She has been one of Hereford's popular young ladies. The groom came to Hereford several years ago and engaged in automobile repair work. He will take a place immediately as foreman of the Buick Garage at Walters. He is a brother of Lige Kelly of Hereford.

PETE MURPHY HAS RETURNED FROM MAYO'S HOSPITAL

Albert and Pete Murphy reached Hereford Monday morning from Rochester, Minn., where Pete's broken left leg was reset. The operation was a complete success.

Band, Floats and Children in Long Line. Exercises are Held on Main Street. Address of President Hill of the Normal Replete With Good Thoughts For All

Deaf Smith County's Second Annual School Fair came to a glorious end Saturday afternoon after two days of enthusiastic approval by overflow crowds. The extent, tastefulness and beauty of the exhibits from both the rural and city schools was an eye-opener to everybody. The children were proud of their work, too, and the parents were much more generous in their attendance this year than last. The basement of the courthouse was thronged all day both Friday and Saturday. Judge Megert, Miss Griffith of the Chamber of Commerce committee, and all the teachers of the schools in the county deserve the highest praise, and are receiving it, too, for their enterprise and resourcefulness. The County School Fair has decidedly made a place for itself in the community's affairs and will be an annual event as a matter of course hereafter.

Owing to the extent of the Fair displays it is impossible for The Brand to give as detailed an account of each exhibit as the displays deserved, and the Declaration Contest results cannot be given until Friday's paper.

The Parade

The parade, starting promptly at 1:30 o'clock, was headed by the Hereford Band, followed by the official automobile in which were seated President J. A. Hill of the West Texas Normal, Chairman Parker of the Hereford school board, and County Judge Megert, who is ex-officio superintendent of the county schools. Two beautifully decorated floats followed. The first was loaded with Seniors, the hunting and color scheme being in the class colors, Gold and White. The second float contained the personnel of Deaf Smith county's only Pig Club, from the Askren school. A registered Duroc Jersey sow occupied a crate in the center of the float, and the boys were grouped about it, all wearing farm straw hats. There followed what appeared to be literally hundreds of little tots and big boys and girls, the line reaching down a good portion of Main Street.

At the intersection of Third and Main a special program was held. The Star Spangled Banner was sung by all; readings were given by Evelyn Witherspoon, Inez Jones and Eric Marie Foster. The girls in the sixth grade gave two chorus selections. The exercises were closed with a song by all the pupils, "Columbia, the Gem of the Ocean."

President Hill's Address

Immediately afterwards President Hill, of the Normal, delivered a masterly address at the Courthouse. The distinguished speaker said that the future superiority of the nation lies in the education of the children and in their spiritual understanding. He declared that taxes levied for educational purposes are the least burdensome of all

taxes; that no nation had ever decayed through too much education and that the roots of decay draw their sustenance from ignorance and vice. He expressed the sentiment that the real national crisis lies in the indifference of the people to the proper maintenance of school and college work. Mr. Hill said that "ignorance is the twin brother of crime," and that more than two billion dollars is spent annually for tobacco to "chew and Snuff and Smoke and Paft."

The first grade booth, trimmed in a color scheme of green and red, attracted a great lot of attention, more especially because of the evident great amount of work done for such little folks. The lake, the farm landscape scene, the water scene and the Eskimo and his Igloo were very original. The walls were decorated with symbols of the months of the year in nature's designs. The miniature residence, the windmill, the exercises and art work all added to the make up of one of the best booths at the Fair. Mrs. C. S. Garrison and Miss Helen Frieble and their scholars are to be praised for their untiring work.

The second grade display, all dolled up in red, white and blue, presented an imposing array of free hand drawings of birds and animals. Note-books, pamphlets, written exercises from the books of the Bible and maps displayed on the walls were a delight to the on-lookers. Misses Kibbe and Bell are proving their ability in this grade.

Third grade, Misses Rosabelle Jones and Beauchamp and their scholars presented an Eskimo and Igloo art design that attracted much attention. The booth was literally covered with pamphlets, books, perspective drawings and general school work applying to this grade work.

Fourth grade. Directed by their able teachers, Misses Irene Tidenburg and Beauchamp, the pupils presented a combination third and fourth grade booth. The raffia work done by the students of the fourth grade was probably the first done in this school. The red, white and blue Washington books, the art, historic and geographical designs, mounted clippings, free hand work from the natural flowers and leaves, all blending with the class colors, blue and gold, certainly loaded the walls with beautiful colors.

Fifth grade. The beautiful class colors, orange and white, constituted the outside border trimmings of the fifth grade booth. The two accommodating teachers, Misses Mary Lou Roberson and Mrs. James Black, gave The Brand more interesting information than this space will allow. "What struck the eye in this particular booth was the American flag in its colors done in paper chain work. This idea was one of the (Continued on Page 2.)

Major Operation Shows Skill Of Local Surgeons

What Hereford surgical skill can really accomplish when called upon was perhaps never better demonstrated than in the case of J. D. Weaver, of Shattuck, Okla., who was brought here last week to Dr. W. A. Price and upon whom Drs. Price and LeGrand performed a major abdominal operation, in which the intestines had to be dealt with extensively. The operation occurred Saturday, April 8, and at this writing the patient is doing splendidly.

The remarkable thing about this particular case is the fact that Mr. Weaver, who has a father and brother living here, was operated upon four years ago in Indiana without lasting results. Since that time he has twice been discharged from Mayo Brothers Clinic at Rochester, Minn., without relief. As a last resort his relatives appealed to the surgical skill of the local physicians.

Dr. LeGrand led the operation and Dr. Price assisted in the intestinal work. It was a most difficult and severe test of surgical skill and knowledge and the fact that the two local surgeons made such a completely successful and workmanlike job of it is a significant point that should give food for thought to every local community supporter.

Physicians are always reticent about themselves and their work and the facts in this case were hard to secure, but The Brand feels that such meritorious skill right here at home should be generally known and risks the displeasure of the principals in the case to put the truth before the people. There is an old adage about "a prophet is without honor in his own home" that is all too true, and it is a fact that scores of patients and thousands of dollars have been sent away from Hereford for treatment elsewhere when it was not at all necessary, with an institution like the Hereford Hospital right at hand and physicians and surgeons of unqualified skill within calling distance.

Odd Fellows are Planning to Send Team to Amarillo

A called meeting of the subordinate lodge, I. O. O. F., has been called for next Thursday night, April 13, at 8:00 p. m., to discuss the coming district meeting at Amarillo May 30 and 31. It is planned to select a team to compete at Amarillo, and the preliminary work of picking this team will be undertaken, Thursday night.

MAYOR KNIGHT IS BACK FROM TRIP TO AUSTIN, TEXAS

Mayor W. M. Knight reached home Tuesday morning after an absence of over a week in Austin, Texas, where he had a case before the supreme court. The Mayor's trip seems to have been good for him and he tackled accumulated work with renewed pep and spirit.

J. D. Thompson is now owner of the Benton Ranch, located twelve miles south of Black. Mr. Thompson will remodel all the buildings and improve in general for a first class stock farm.

PETITION ON HOSPITAL IS WITH COURT

REQUIRED NUMBER OF SIGNATURES ARE ATTACHED

IS UP TO VOTERS

Commissioners Expected to Take Action on Petition Soon

The question of whether or not the county of Deaf Smith will take over the Hereford Hospital and operate it as a county institution is now in the hands of the Commissioners Court and will doubtless soon be put squarely up to the voters of the county. This fact developed at the luncheon Monday when the committee in charge reported that they secured the required number of signatures to the petition calling for such an election and had filed same with the court for action.

The hospital is being kept open for the time being by the stockholders, and will probably be for the balance of this month, or until the fate of the institution is decided at the polls, if that decision is not too far off. But if the people of the county turn down the proposition then there seems to be small hope of keeping the institution open. The Court is expected to take action on the petition in the near future.

Chilly Wind and Slight Freezes Pre-Easter Gift

High winds and some late freezing weather featured the first of the present week in this section. A strong wind came up Sunday afternoon and blew steadily into the night. An unusually cold southwest wind blew all of Monday and there was ice in the water pans in the chicken yards before the sun came up. Tuesday morning was also puncturingly cool, but during the day the wind dropped and the sun shone and the afternoon was balmy and delightful. Fruit growers are hoping that this is the last gasp of winter and that a real fruit crop will be saved to this country this summer.

DR. KIBBE'S FORD COUPE DESTROYED BY FIRE MONDAY

Dr. and Mrs. C. T. Kibbe drove out to the Kibbe home Monday just before twelve o'clock in their Ford Coupe for dinner. They left the car standing out in front of the house while eating. When they came out to return to town they discovered the automobile in flames. Fast work saved the running gear and engine. The rest of the machine was a total loss. No insurance was carried on the car.

Dr. Kibbe is at a loss to understand how the car caught fire unless it was through some defective wiring. The loss is a heavy one to sustain in these times of stringency and the Doctor has the sympathy of his friends in his misfortune.

CHARITY COMMITTEE HANDLES TWO BROKE STRANGERS

The Charity Committee of the Chamber of Commerce has been busy this week. Two cases that took a lot of time were handled. One was a sick man, wife and children who came from New Mexico, and the other was a crippled student solicitor. The first received aid in the way of groceries and medical attention from the good church ladies of the town and the second was given a letter of indorsement locally.

many outstanding features of the Fair. The free hand sketching, mounted paper designs, illustrations in arithmetic, English papers, language pamphlets, historical booklets, and mounted illustration of "Jason and the Golden Fleece" will remain in the thought of those who did the work and others who took the time to study the real inside meaning of it all.

The sixth grade, under the instruction of Mrs. G. F. Parker and D. W. Hawkins, presented with its blue and white colors, one of the largest booths at the Fair. One of the best features of this grade was a work on Texas history from the American Indian down to the present time. This booth was so overcrowded that an extra space had to be added. The salt and sketch maps, photos of interest, hand drawings, the plain maps with the products placed in their respective localities, health posters, English work, were among the best seen on display.

Seventh grade. The Junior High, under direction of Mrs. L. Fertsch and Miss Helen Sisk, presented as a leading feature a magnificent geographical display consisting of posters from every country on the globe, maps of both free hand and salt, art work and designs, English papers, etc. The dress designs were far beyond the expectations of those who took the time to study them. Mrs. Fertsch and Miss Sisk and their students are to be congratulated on their display.

The Kindergarten department, while not a branch of the city schools, is worth considerable mention. Miss Lollie Shore and her little pupils made a wonderful showing with their free hand drawings, language papers, nurs-

"GENTLEMAN JIM" HAS A RIVAL

At last a heavyweight champion has appeared who likes to wear good clothes even better than "Gentleman Jim" Corbett. This new picture of Jack Dempsey shows the champ in his "open faced" frock,

ery rhymes, sewing demonstrations, and all the little things that they are taught. One work by little Russell McDonald attracted much attention. It was the story of Jack and the Bean Stalk, done in sand. The giant's castle, the lake, the bean stalk, and Jack were all there.

Two airplanes constructed by George Beams, Jr., occupied a place at the Fair. The planes were driven by electric motors and would really fly by their own power.

History Booth. The history booth, trimmed and decorated with its morning glories, presented a most interesting array of information. This booth represented all the classes of the High School and its walls were literally covered with interesting historical themes of the modern day questions, papers and pamphlets of all description on ancient, medieval and modern history. Miss Pauline Halslip has charge of this important study in the High School.

The Music and Bible booth, presented under the supervision and instruction of Misses Swisher and Livingstone. Through the kindness of Miss Swisher we were conducted thru the music booth. The walls were covered with every conceivable work of the students in this branch of study. Posters encouraging good music were in evidence, papers and booklets on 23 of the great masters, examination papers, compositions, etc. Even Jazz was represented by the Frog. In this display there were shown three medals and a number of gold pins which will be given to the students making a perfect grade. The medals and pins were presented to the school by "The National Bureau for Advancement of Music."

In connection with this booth was the display of the work of the students of Mrs. Fred Oberthier, Jr., consisting of transcriptions, variations of old hymns, etc., the students have more than just learned to play, but have really composed some music that is a credit to teacher and student. This is the first time that this important phase of music has ever been taught in Hereford.

In connection with the Music booth was Miss Marian Livingstone's Bible study work. Many favorite verses were in evidence, a poster of the three wise men, the mountains spoken of in the Bible, salt and plain maps of Palestine and other Biblical countries, memory work and exercises, etc. Among the memory work was the Ten Commandments, a work that was required, and favorite memory verses. This work done by Miss Livingstone and her pupils attracted more than local attention.

The display containing the work of Mr. Prewitt and his four classes in Manual Training attracted a large crowd owing to the fact that the work in this department was far above the average. The vanity dresser, stool, candle sticks, hair and hair pin receivers, looked like the work of trained

eyes and hands. Table lamps, piano benches, pedestals, foot stools, bunk racks, smoking stands, rolling pins, nut bowls, library tables, cedar chests, phonograph cabinet, also work in mechanical drawing, blue prints, and tracings were a revelation to the onlookers.

The Mathematical department occupied a central place at the Fair, all trimmed up in gold and blue. Forty-five geometrical propositions and a number of algebraic problems making the booth one of the largest booths. This important department of the high school is under the instruction of Supt. Griffith and Mr. Dameron.

The Domestic Science and Art Department displayed everything from ladies' attire to a loaf of bread, preserved fruit, designs and drawings, of all descriptions, relating to this important study. The booth was tastefully decorated in pink and white. The Biological work was also represented in this booth, showing snakes, bugs and all the hideous animals the pupils love to gather especially at this adventuresome age. Miss Ethel Williamson has charge of this department of study and has more than made good, according to the verdict of those who closely inspected her work.

The Spanish, English and Latin booth decorated in green and white with its sketches, illustrations and free hand drawings attracted a lot of attention. The birthplace and life of Shakespeare, and English literature illustrations made a deep impression, especially on those who are interested in this indispensable study. The Latin and Spanish pamphlets and drawings ran well back into ancient history down to the present time. Mrs. Ezell and Mr. Blocker have proved that they are well able and capable of handling the work assigned to them.

The Senior booth will long be remembered, all dolled up in gold and white, the colors of the noble Senior Class. The slogans, the illustrations, all the sample work of the different departments of this class were beautifully done. Posters proclaimed "Success comes in cans: I can you can, we can." "Be square and be wise." "Give to the

world the best you have and the best will come back to you." An illustration of the road up to a Senior; the musical maps, books and papers on the history of music, the geographical location of the great masters, where they were born and where they died, were novel and well done. Miss Griffith called attention to a book, containing thirty-eight pages, which had been presented to her, entitled *The Senior Book*. It gave the name of each Senior with the favorite quotation, song, month, flower and motto of each member of the class. The front-cover was done in the class colors. Roses climbing over a fence, in the front of the Senior booth attracted much attention.

Wyche School

The Wyche school is a two-teacher school and is taught by Miss Mattie Mounts and Miss Walker. Their booth was very attractively arranged with many good drawings, map done in water colors, examination papers and note books.

Fairview School

The Fairview School is taught by Misses Irene Combs and Ornie Walker and they had a good display in silhouette work, water color maps and basket and flower making. Misses Walker and Combs and pupils made a very tasty booth featuring a rising sun emblematical of the promise of another studious day.

Higgins School

Miss Beattie Frazer is the teacher of the Higgins school and showed some very good work in story books, maps, free hand drawings, busy work, water color work and domestic art. Miss Frazer's effort and her school attracted much attention to their booth by the great number of neat displays.

Files and Sherer School

The Files and Sherer schools, under the direction of Mrs. Sherrell and Mrs. Fulkerson, put their booths together. The striking feature was the "Salt Pork" and "Hereford Cattle." There were some excellent free hand drawings and examination papers.

Walcott School

The Walcott school, taught by Miss

Gladys Rutter, had some very excellent industrial maps, drawing and papers of the daily and examination work. The idea of Easter was carried out by nine salt rabbits and baskets of flowers which gave the booth an attractive appearance.

Farwell School

The attractive feature of the Farwell booth was the salt map of the Farwell School District. Miss Corrine Jewell, the teacher of the Farwell school had some good papers showing the daily work of the pupils, drawings, seat work of beginners, composition work and nature study which was illustrated by specimens of a spring collection.

Askren School

The Askren school is taught by Earl Clements. Its booth was noted for the most excellent salt map work. There was a map of Texas made by the sixth grade that was almost perfect, showing the most important rivers and cities and giving the industry of each section by the use of pictures, such as Hereford illustrated by the Whiteface cow. Also a map of North and South America made by the fifth grade, and one of the United States by the seventh grade. The United States map was made in colors which made each state stand out. While there were good drawings and note books, the maps stood out above all.

Tierra Blanco School

The Tierra Blanco school, which is taught by Miss Clara Davis, had many good drawings, water color work, silhouette and seat work. There were also several salt maps and some maps done in water colors.

Messenger School

Under the direction of Miss Lillian Fulkerson the Messenger school was most attractively illustrated by a little messenger boy. The booth was noted for its free hand drawings. The physiology course was wonderfully shown by free hand drawings of the different organs of the human body and common disease carriers. There were also drawings of nature and of animals that were almost perfect.

Daniel School

The Daniel school, taught by Miss Thomas, had a very good free hand drawn industrial map of Texas, examination papers, busy and silhouette work.

Summerfield School
 The Summerfield School is a three teacher school, taught by Misses Estelle Slaton, Billie Smith and Mary Smiley. The Summerfield school booth was very pretty and of course larger than some of the others for Summerfield has a larger attendance. It has a good Domestic Art Department and had some good work on display. The other departments of work were shown by examination papers, maps, drawings, water color paintings, geography and English scrap books. This school filled.

THE NON-CHURCH GOER

Why do men neglect church attendance? If you mean all men do not attend church you are in error. It is true that far too many stay away from divine worship. The following reasons can be assigned why certain classes neglect this important duty:

FIRST: A so-called Sabbath conscience sends men to the golf links on the Holy Sabbath.

SECOND: The gasoline mania causes thousands to take the family, the dog, and the lunch basket into the automobile early Sabbath morning when they begin to break the Ten Commandments, the speed laws, the rules of domestic tranquility and Sabbath observance.

THIRD: Screenitis sends thousands into the motion picture houses, where they make a pagan attack upon God's Holy Day.

FOURTH: Laziness keeps thousands at home wrapped in the bed clothes of indolence and filth—too indolent, slovenly and filthy to dress and attend divine worship.

FIFTH: False conception of worship, or because the sermon is poor, or the minister worse than dead, they drift into the habit of neglecting church attendance.

SIXTH: A large number of those who stay away do so because they are vain pagans; their education is defective; their breeding is below the standard. They are just plain heathens, so well-bred, well-trained, modern, up-to-date, and otherwise normal man stays away from church. Behold the rowd with which the non-church goer is to be classed.

SEVENTH: There are thousands of business, professional, political, and official men who neglect church because they are conscious of the fact that they are grossly sinful, selfish, conceited, and derelict in the performance of their duties. They dread to face the gospel mirror wherein they can behold their own faces over which is written guilt. They know that if they face the gospel as expounded from God's infallible Word they will have to surrender their selfish, mean, conceited business and professional attitude toward the church and the gospel.

The conceited professional man tries to build for himself a code and produces a state of self-satisfied, self-righteous and self-centered contentment, which he does not want disturbed by the courageous presentation of the full gospel of Jesus Christ. Men are neglecting to attend church because they are afraid to face the judgment gospel. Men are staying at home or they are going on the fields of pleasure or they are attending to business because of their innate and overt and continued meanness. They are trying to avoid the doctrine of responsibility, accountability, and judgment. They are foolish. Every sensible man ought to prepare to meet His God. Every desirable, worthy citizen ought to be found in his pew every Sunday morning worshipping God and paying his honest obligations to the church of Jesus Christ.

THE STATE OF TEXAS
TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:
You are hereby Commanded to summon ZORA WHITE, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County, where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, to be holden at the Court House thereof, in Hereford, on the First Monday in May, A. D. 1922, the same being the 1st day of May, A. D. 1922, then and there to answer a petition filed in said Court on the 22nd day of March, A. D. 1922, in a suit, numbered on the docket of said Court No. 1342, wherein T. N. WHITE, is Plaintiff, and ZORA

WHITE, defendant, alleging that plaintiff and defendant were married July 25, 1909, and lived together as husband and wife until on or about March 1st, 1919, when without fault on plaintiff's part the defendant voluntarily abandoned the plaintiff and has continuously from said date failed and refused to reside with the plaintiff as his wife, and has permanently abandoned the plaintiff.

The plaintiff prays for divorce and that said marriage be in all things dissolved, and for all relief in law and equity, special and general he may be entitled to.

Herein Fall Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

DAWN

Dawn will be on the map yet, if interest in everything that is started keeps everyone pulling together as they have been doing lately.

The baseball team is organized and strong. Had a practice game last week with Umbarger but owing to the lack of a rule book, it wasn't much of a game. However, Dawn has the making of a fast team.

Miss Olive Wilson spent the week with friends and relatives in Hereford. The school will be out after two weeks.

A party from Dawn made a trip to Marillo last Thursday. The party consisted of Mr. and Mrs. Leslie Neal, Mrs. Perkins and Miss Bertha Frye.

PROGRESSIVE

"Success depends partially upon opportunity, but more thoroughly upon hard work and genius. And of these the greatest is hard work."

Mr. and Mrs. D. F. Perkins. Mrs. Gullows is a sister to Mr. Perkins. Having spent the winter in California, she is now returning home.

Some of our young men attended Sunday morning services and Christian Endeavor at Hereford Sunday.

A. G. Hatchell's spent Sunday with C. O. Norton and family.

Marguerite Russell represented our school in the spelling contest.

Mr. and Mrs. Caldwell were visitors at Summerfield Sunday.

We are glad to read about the Literaries and Sunday Schools springing up over the county. Every movement for better education and better Sunday Schools for rural districts should be encouraged. Many, many a child does not enjoy these privileges in the country.

"The mimic stage, if rightly planned, becomes a teacher, wise and grand. Exposing faults to open view with their attendant follies too, And wakens in our minds a strife, For higher aims and nobler life."

Following is the program for April 15, 8 o'clock:
Song by audience.
Song—Little girls not in school.
Piano—Mr. Richard Kimmons.
Reading—"Tom Sawyer's Courtship"—Mrs. Rayzor.

Reading—Edna Reedy.
Piano—Marguerite Russell.
Reading—Otto Massey.
Current Events—C. O. Norton.
Song—Juanita and Beatrice Vaughn.
Reading—Mrs. Bowman.
Ward School—Play.
Violin Solo—Miss Fraser.
Reading—C. A. Norton.
Vocal Duet—Mrs. Russell and Mrs. Jacobs.

WORLD CRYING FOR A LABOR MOSES

The withdrawal of 600,000 workers from the coal mines of America even for a week means that the public must pay the bill. The operators, of course, profess great concern, but as a fact they are flipping a coin in the game of "Heads I Win, Tails You Lose." The public may suffer from cold if the shortage be excessive, but operators will have coal to heat their sumptuous offices and their luxurious homes. If the shortage be less acute, then the people will pay through the nose in inflated prices, and the operators will reap the reward that way. As for the men, they will suffer from lack of work and it will take time for them to get back to their established status even though they do win some things in their favor. The issues of the strike do not appear to be clearly defined. There are always two sides to a story. The pitiable condition is the purrity of the government in its confessed failure to cope with the situation.

Eventually the strike must be settled and the men go back to work, and the trouble must be settled by agreement reached between the contending forces. It is a sad reflection on the intelligence of the American people that it is always necessary to go through the fire and heat the public into suffering before understanding can be established. The condition is deplorable. What is the matter when this nation leads the world in discovery and invention yet lags so far behind it in an effort to solve the problem of capital and labor. Perhaps the secret lies in the fact that the intellectual giants for the most part lie on the side of the capitalists. If they are not capitalists themselves, then they are controlled by capitalists. This problem and the problem of food distribution are the two great difficulties that seem to confound humanity. The people are crying aloud for a Moses to lead them to the promised land of common sense. If some way can be found to concretely express the public will, there will come an end to this

SAFEGUARDS AGAINST LIGHTNING

With America's greatest electrical wizard announcing the artificial production of lightning, it is but a step to the control of this destructive element and the turning of it to some useful purpose. As a fact there are practical methods, practices and appliances for protecting buildings against lightning, but they have made little headway as a result of the "lightning rod" campaigns of twenty years ago. At that time every fakir in the land was selling light-

ning rods to farmers and other folks in the country towns, their unscrupulous methods not being unearthed until they had covered the country and even cheated and deceived a great number of persons in the cities. The lightning rod outfits made vast fortunes and the farmers were left holding the bag. Comfortable in their feeling of security the barns of the farmers burned down just the same and the resulting condition of the farmer's mind was more harmful than the loss of money.

Unfortunately the government did not lock the stable door until the horse was gone, but nevertheless forward strides can now be announced. To put the official mark of approval on light-

ning production methods, the Bureau of Standards, the Weather Bureau and The American Institute of Electrical Engineers had a joint committee prepared a code and many firmly established principles for lightning protection have been established. Indications are that before long there will be developed practical appliances that will make farm buildings and others safer, if not entirely safe. The committee might wisely invite the creator of artificial lightning to suggest means of controlling the force he is now able to employ. The farm losses by lightning are very heavy, though fortunately the loss of life is not very great. Also let it be hoped that when appliances are approved they will not provide another vehicle for the financial exploitation of the public.

BUILDING CREDIT

When you borrow money from a bank you give a note which is your promise to return the money at maturity. If you do not make payment as agreed and fail to advise your banker why you cannot, you have not kept your promise, and quite likely disappointed your banker friend.

The man who promptly meets his maturing obligations, or explains why he cannot, is not only showing a proper regard for his "Promise" but is building himself additional credit. One who does otherwise is destroying what credit he has.

Beware the Wireless Fakirs
 Watch out for wireless fakirs. The new generation, since the scandalous stock jobbing operations that marked the advent of the Marconi wireless telegraph concern in which thousands of widows and other poor folk were robbed of their life savings, should read a little history. The public is of short memory. It will not be long before the stock jobbers will be at work offering all kinds of alluring propositions identified with the manufacture and operation of wireless telephone outfits. The danger of being swindled in these highly speculative enterprises is in proportion to the opportunity for profit, and so a double warning is necessary, because the wireless telephone business is destined to stagger the imagination before many years have passed. When the thousand per cent per day proposals reach this town, let those with loose change be cautious. Cupidity is a dangerous leader. Follow old General Conservation and be safe.

Lettered Men

know the power of knowledge. Knowledge is the truth about Persons, Places, Things.

For instances: If you had time to count all of the letters used by the printers of this page, you would find more "e's" used than any other letter. The letter "t" comes next, then "o," "a," "n" and so on with "q" least used.

That is all very interesting, but not very valuable knowledge. However, the words these letters spell can prove valuable to you. In the news and advertising columns of The Brand the regiments of "e's" "t's," "o's," "a's" and "n's," tell both interesting and valuable messages every week—if you will but read and profit.

Card of Thanks
We wish to thank those who were so kind to us in the sickness and passing of our wife and daughter. And especially to we appreciate the many floral offerings bearing with them the love and kind consideration that always accompany nature's flowers, shedding a fragrance which blesses and heals. Words are inadequate to express our heartfelt love to those who came to us in this sad hour.

PARIS APACHE BAND
ROB IN NEW YORK

In a bold daylight robbery in which a band of eight thugs held up the entire household of A. R. Shattuck, retired banker living in the very heart of New York, making away with valuables worth \$100,000, the police think they see the work of a Paris Apache band which sailed here for the job. Eugenio Doslet, shown here, was captured.

WANT ROAD BUILDING TO COST LESS

Thomas H. MacDonald, chief of the Bureau of Public Roads, wants to cut down the cost of road building throughout the United States. He called highway officials of many states to Washington, and asked for standardized specifications which would permit plants to furnish materials to all states at greatly reduced prices.

DIMMITT

A Box Supper is to be given by Mrs. Mayes Miller on Tuesday night, April 18, at the High School auditorium in Dimmitt for the purpose of raising the necessary funds in defraying the expenses the Chautauqua will incur on our part. That will be here the 27th of May.

The program is going to be eventful and full of fun and merriment throughout and will be well worth your time. In fact, you will seldom see a better one for a dollar, absolutely free of charge.

Then to add one good thing to another, the bountiful feast after the program, the Dimmitt women are the best cooks in the world and the men should show their appreciation of that fact by buying a box, which will be filled with the finest and most appetizing eatables that one seldom sees.

A beautiful cake is to be offered as a prize for the prettiest girl, which is to be determined by the majority of votes, which will sell at \$1 per 100.

Boys if you think your girl is the prettiest there, vote for her, if you do not, vote for the other fellow's girl.

WHY WORK?
"What do you work for?" one fellow says to another. Then the first fellow thinks—he thinks Why wouldn't it be best for him to start where the other fellow expects to finish—never work at all—arrive at the finishing post without starting to run. We can reach all sorts of conclusions if we start to think wrong, and the conclusions will be logical and seem right. They won't be right, because they start from a twisted root. When we see how surely brains and not force must rule the world, we see why we should harness up our mental horses properly, curvy the cobwebs from our minds and get down to truth as the basis of our thinking. A fire can give up life as well as death according to how we use it. Twisted reasoning is a dangerous thing.

with its many displays, a booth by itself. The teachers and pupils of the Summerfield district deserve a great deal of praise for the effort made by them.

Dawn
The Dawn school is taught by Miss Olive Wilson. While this booth was mostly made up of silhouette work it was very attractive. There were a few examination papers, drawings and a real pretty house made of card board with the rooms and their furnishing just as complete as could be.

Progressive School
Under the direction of Mrs. Raynor the Progressive booth showed a variation in the way of a free hand drawing of the Progressive school house. It had good story books on different subjects, free hand drawings salt and water color maps, paintings, and Domestic Art work which showed that the school had a very good art department.
