## Streu's Diary

Dear Diary:

I'm going to abstain from all mention of political, social and civic reforms this week, and devote this entire entry to the effort of selling merchandise. Not that it makes any difference, anyway.

Been getting more and more merchandise the last few weeks—things like Case pocket knives—and scissors—and butcher knives—and those beautiful Case slicers and carving sets in the wood blocks. Then there is that shipment of Model 40 Presto Cookers that we've been waiting for.

Seems silly to mention it, but we received six 4 quart ice cream freezers the other day! All metal cabinet sink combinations—and natural gas water heaters in 20 and 30 gallon sizes—and a shipment of Dearborn natural gas heaters.

The gardening season is rapidly approaching, and we are prepared—and how! We have garden plows, handcars, hoes, rakes, spading forks, shovels, post hole diggers and augers, vegetable and flower seed, Vigoro, water hose, sprinklers, sprays, nozzles, hose menders and couplings, hose washers and outdoor faucets. Last

year I was apologizing for our stock of garden needs—now I'm bragging. It's all here.

Over on the other side of the store can be found metal waste baskets for the office, bedroom, or bath—clothes hampers in several sizes—kitchen stools, ironing boards—and some new aluminum ware.

Elsewhere in this issue of the Brand you will note an ad announcing a special of 1 qt. Sani-Wax for only \$1. We are making this offer to acquaint more ladies with this super-duper cleaner. It cleans so easily and leaves such a beautiful finish that those who have used it are still looking for the joker. There just isn't any—it's just another case of Streu's always being on the look-out for things to make house keeping less work and more pleasure.

Speaking of pleasure—I don't know anything that has given more women pleasure than the Shelley bone china tea set we have on display—come in and see it. Mmmmm!

STREU.

### Margaret Simpson, George Hartman Married in Pretty Home Ceremony

A wedding of interest is that of Miss Margaret Simpson, daughter of Mr. and Mrs. M. L. Simpson of the Jumbo Community, and George C. Hartman, son of G. C. Hartman of Dove Creek, Colo.

Wedding cake was served before the couple left on a short trip to points in Texas. For traveling the bride donned a beige gaberdine suit.

## Dakonya Group Has Valentine Party-Program

Dakonya Camp Fire Girls enjoyed a Valentine party at the hut Thursday afternoon with Alberta Higgins as hostess. She was assisted by Nelda Guy Lawrence.

The girls had decorated the hut with Valentines and fortunes were revealed from a Valentine box. Informal Valentine games completed the entertainment.

Those present were Patsy Frye, Patsy Wiltshire, Dolores Wester, Julia Conklin, Lois Vern Pitts, Sandra Bateman, Geraldine Patterson, Claudia Lewis, the hostesses and the sponsor, Mrs. Elmer Patterson.

### Appreciation

For all the kindness extended to me through gifts, flowers and cards I received during my recent stay in the hospital, I find that words are inadequate to express my appreciation. I want to say thank you from the bottom of my heart for all pleasure and assistance my friends gave to me. Mrs. Phillip Miller.

## Mrs. Bob Higgins Is Hostess For L. A. E. Club

"Racial Problems" formed an interesting program subject for the L. A. E. Club meeting held Tuesday afternoon in the home of Mrs. Bob Higgins.

Mrs. Robert Veigel gave the program discussing the "Negro Question" and giving historical highlights relative to that subject.

Roll call was answered by members giving items of interest on subjects outlined for the year in yearbooks.

Attending the meeting were Meadames George Benson, Hugh Bookout, Alvis Higgins, Bill Hutson, Bill Jones, Luther Leslie, T. W. Robertson, Robert Veigel, W. R. Black and the hostess.

Mother and son were today reported to be resting nicely.

## TEXANS HEAD SCOTTISH RITE HOSPITAL

Eight prominent Texans—all High Masons—will direct the policies of Texas Scottish Rite Hospital for Crippled Children in Dallas for the ensuing year. The new officers shown above were unanimously elected at the annual meeting of the Board of Trustees recently. Reading from left to right (top row) they are: Nathan Adams, chairman of the board; Judge Hiram F. Lively, vice-chairman; W. A. Browning, president; E. B. Germany, 1st vice-president; (bottom row) John L. DeGraser, 2nd vice-president; Judge Towne Young, 3rd vice-president; George R. Jordan, treasurer; and Asher Mintz, secretary. Dr. Brandon Carrell was re-elected chief surgeon and Miss A. L. Little, superintendent. The Scottish Rite Hospital is nearing the end of a successful state-wide drive for funds with which to operate the hospital for crippled children. A major portion of the funds received have come from the "general Texas territory," according to reports.

## J. Grady Attends Board Meeting of NFLA in Houston

E. J. Grady of Hereford, member of the board of directors of the Hereford National Farm Loan Association attended the Federal Land Bank of Houston's annual stockholders' meeting in Houston on February 11-12 as the association representative.

Mr. Grady said that the Land Bank, which is owned entirely by the 144 national farm loan associations in Texas, is celebrating its 30th anniversary this spring. Local farmer and rancher-owned national farm loan associations "are the foundation of the Land Bank System and the meeting in Houston was featured by discussion of the operations of these organizations which are set up for providing safe, long-term credit at low cost, to suit the needs of landowners."

Reports at the Houston meeting showed that 164,717 Land Bank and Land Bank Commission loans for a total of \$477,850,000 have been made in Texas during the past 30 years, many thousands of these loans having already resulted in debt-free ownership of farm homes.

The Hereford Association which serves Deaf Smith & Farmer counties now has \$59,070.00 in farmer and ranchman-owned capital and surplus of \$64,396.99. In the past year a total of 10 percent dividends on stock has been paid to members in passing back part of the Land Bank System's savings to the users of the loan service, another \$9,957.25 having gone into surplus to further strengthen the association for the future.

After a refreshment course, club adjourned to meet with Mrs. Fortenberry on the Fourth Wednesday, February 26. Mrs. Deaper, county home demonstration agent, will meet with the club at that time.

## New Listening Device Tested by U.N.

A new system of wireless, portable receivers to pick up simultaneous interpretations of proceedings in any one of five languages is being tried out by the United Nations. Here Cuba's E. F. Cisneros turns the language selector dial of his receiver as China's Dr. T. Y. Wu watches.

The T. E. Brock family had as their week-end guests relatives from Floydada and Earth. Reverend Sharp filled his regular appointment here Sunday. Sunday school attendance is still low.

# George Washington Wasn't Born on 22nd Says Britannica, But Date Is Celebrated Anyway

George Washington was not born on February 22, although almost 140,000,000 Americans will celebrate his 215th birthday next Saturday on that date.

He "rarely swore," in spite of many legends to the contrary.

And of course he did not chop down his father's cherry tree with his little hatchet.

The actual facts of George Washington's life as recorded in the Encyclopaedia Britannica reveal that Washington was born on February 11, not February 22. In 1752, when he was 30 years old, 11 days of the English calendar were deliberately omitted in order to adopt the Gregorian calendar, and an incidental effect was to place the anniversary of Washington's birth on the date now celebrated.

The cherry tree incident is dismissed by the Britannica article written by Allan Nevine, noted biographer, as an "absurd fiction," less noteworthy than the true achievements of Washington's youth. He had mastered the elements of surveying by the time he was 14, the Britannica points out, and when he was only 16 he became assistant surveyor on a rough Western expedition. In his journal he described sleeping under "one thread bare blanket with double its weight of vermin such as Lice Fleas etc." The adolescent and ungrammatical traveler called the Pennsylvania-German emigrants "as ignorant a set of people as the Indians they would never speak English but when spoken to they speak all Dutch!" At 20 Washington was the

strict and canny manager of a large plantation, fond of riding, fox-hunting, dancing, theatrical performances and "despite an unconquerable awkwardness with the fair sex, of flirtation." Six feet three inches tall and weighing 200 pounds, he excelled in all outdoor pursuits, from wrestling to horse-breaking, the Britannica reports.

His appearance was marred by smallpox scars, however, and before his marriage at 26 to the "good housewife and companion," Martha Custis, Washington had been rejected by a Miss Betsy Fauntleroy and had wooed Mary Phillips of New York with little success. "There is clear evidence," the Britannica also states, "that he temporarily felt a romantic attachment for Sarah, wife of his friend George William Fairfax."

As a Virginia planter, Washington attended horse-races, lost money at cards and billiards, liked to go to picnics, barbecues and clam-bakes—and became one of the richest men in the country. He was "industrious, punctual, efficient and economical," says the Britannica, practicing crop rotation, diversified farming and experimental cattle breeding.

Recognized as an authority on military matters and known for his poise, sense and resolution, Washington was elected commander-in-chief of the colonial forces in 1775. Although "he was not a great tactician," according to the Encyclopaedia Britannica, "it is unquestionable that Washington's strength of character, his ability to hold the confidence of army and people and to diffuse his own courage among them, his unremitting activity and his strong common sense, constituted the chief factor in achieving American victory."

When he became the first President of the United States, Washington maintained the dignity which he felt was demanded by his high office, driving in a coach with four or six smart horses and outriders and lackeys in rich livery. "At receptions he came in a black velvet suit with gold buckles, yellow gloves, powdered hair, a cocked hat with an ostrich plume in one hand, and a sword in a white leather scabbard," the Britannica relates.

The famous speech of 1796 known as "Washington's Farewell Address" was actually written, not by Washington, but by Alexander Hamilton, the Britannica reveals, although it was remodeled by Washington and expressed his ideas.

### O. E. S. Club Plan Party

Plans for a George Washington party were made Monday evening when members of the Order of Eastern Star Study Club met with Mrs. Opal Robertson in Summerfield. The plans include a supper-party Saturday night, February 22 at the banquet room of the City Hall. Mason and Eastern Star members are invited.

The study program of the Monday afternoon meeting was conducted by Mrs. Clara Shore. Those present were Mesdames Clara Shore, Vivian Major, Virginia Patton, Pearl Kinsey, Myrtle Witherspoon, Ethel Curry, Della Walser, Mary Baird, Ollie Brady, Jessie Terrell, Juanita Hershey, and the hostess.

The next regular meeting of the study club will be held with Mrs. Virginia Patton on March 3.

After two strenuous terms of office and two and a half years of retirement at Mount Vernon, Washington caught a severe cold and failed to improve in spite of gargles of "molasses, vinegar and butter" and other remedies. "He faced the end with characteristic serenity," the Britannica says, "saying, 'I die hard, but I am not afraid to go,' and later: 'I feel myself going. I thank you for your attentions; but I pray you take no more trouble about me. Let me go off quietly. I cannot last long.'"

Keeping his finger on his own pulse until it stopped, he died at 10 p. m. on December 14, 1799, "first in war, first in peace and first in the hearts of his countrymen."

 The lateral road fund on January 31 maintained a balance of \$65.74.  
 The County's tax rate for 1947 has been set two cents higher than last year, at 84 cents. Of this amount, one cent goes to the Jury Fund, 23 cents to the Road and Bridge Fund, 34 cents to the General Fund; six cents to the Hospital Maintenance fund, and 20 cents to the Hospital Interest and Sinking Fund.  
 The statutory limit on the tax rate for general fund purposes is 40 cents, but Commissioners said that an increase in the rate to this maximum figure would not bring in sufficient revenue without an increase in property valuations; and considered it unnecessary and undesirable to raise the tax rate to the maximum after the valuation had been increased.

 which have not been rendered in the past. The remaining \$1,000,000 in valuations will be spread out over the county, resulting in an increase to the average property owner.  
 Commissioners further pointed out that valuations will be placed on a basis of six zones on land on approximately the following basis:  
 Zone 1—\$20 per acre.  
 Includes nine sections with Hereford as the center; one mile in each direction from the town section of Hereford.  
 Zone 2—\$17 per acre.  
 Includes next mile in all directions around Zone 1.  
 Zone 3—\$14 per acre.  
 Includes next mile in all directions from Zone 2.  
 Zone 4—\$8 per acre.  
 Includes next three miles in all directions from Zone 3.  
 Zone 5—\$6; Zone 6—\$5.  
 Includes remainder of the county.  
 As previously announced, the County Tax Assessor has been ordered by the court to assess

city property on 40 percent of the total value as set by G. B. Whitney tax engineers (\$4,100,000).  
 Although general increases will be seen in tax valuations, some of the valuations will be lower than in 1932, when a 20 percent reduction in valuations was ordered by the Commissioners, depending largely on the zone line locations.

## Voting Is Light In Contest To Select Community's "Best All-Round Citizen"

### Winner To Be Announced At C-C Banquet

Who is the "Best All-Round Citizen" in this community? The Lions Club committee is still searching for this person, who will be introduced and presented with a silver loving cup at the annual Chamber of Commerce banquet March 14.

In response to an appeal published in The Brand last week several nominations were made, but voting was extremely light, according to a canvass by the committee. It was also reported that no single nominee had more than three votes, due to the small vote.

Among those listed in the nominations were: Wayne Evans, George W. Heard, Alex O. Thompson, W. J. Stanford, D. C. Kinsey, Leo Forrest, and Miss Mattie Mae Swisher.

The coupon is again being published in The Brand this week and members of the Lions Club committee urged all persons to vote. They pointed out that other nominations are still in order and that any sign of interest could change the results completely.

The committee has been appointed by Howard Gault, Lions Club president, and will remain secret. However, they are eager for a representative ballot, as shown in the following statement:

"May we urge that more people vote in this contest. We feel that it is highly important and we know that the honor will be long remembered by the citizen who is selected. For this reason we ask that you help us in making the selection. Please send your votes to The Brand and they will be sent on to the

### Plans Announced for Annual B.&P.W. Spring Style Show Here On March 14

Plans are being completed for the annual Spring Style Show, sponsored annually by the Hereford B. & P. W. Club, according to Mrs. Corrine Jennings, president, who said today that the show will be held Tuesday evening, March 18, at the High School Auditorium.

"Merchants have already been contacted and have pledged their support," Mrs. Jennings said. "We appreciate the splendid cooperation given the event last year and hope to make it an even greater success in 1947."

Club members have to give proceeds from the event to improvement of civic conditions. Last year the money was given to the VFW-American Legion Building fund.

About 95 per cent of the substance in grass comes from sunlight, air and water. The remaining 5 per cent is made up of nutrients from the soil.

#### Living Costs Place Gardens In Top Spot

COLLEGE STATION, Feb. 18—High cost of living and the low price of a vegetable garden makes home gardening a smart move this year, say Extension horticulturists of the Texas A. and M. College.

Giving pointers on February and March plantings, the horticulturists say that such vegetables as English peas, beets, carrots, spinach, lettuce, Irish potatoes, sweet corn and cabbage should be planted early. These are cool season plants, and may be planted now in Central, East and West Texas. In the southern part of the state, it may be advisable to substitute other plants, such as mustard or Swiss chard, for these cool season vegetables.

The horticulturists warn gardeners not to plant the entire garden now. Space should be left for tomato plants, pepper plants, butter beans, okra and eggplants. These vegetables can be started now in a plant bed, however, and given protection on cold days. Six or eight weeks later they'll be ready to transplant in the open garden. This practice will give the slow-growing, frost-tender plants a good head start, and make it possible for the gardener to have them out in the garden and producing vegetables from six weeks to two months earlier than usual.

Home gardeners can always call on county offices of the Extension service for help on any

Horse racing, for many years the most popular sport in the West, is coming back by popular acclaim, according to members of the VFW and American Legion, who will sponsor a two-day meet at the tracks east of Hereford Saturday and Sunday, Feb. 22-23.

The meet here this week end will feature only Quarter Horses and will include 18 races, nine each day. The races are scheduled to begin at 1 o'clock each afternoon and will be run on the hour and on the half hour.

"Horses from four states, New Mexico, Oklahoma, Arizona and Texas, have already been entered in the meeting," Earl Wood, VFW president said. "This is the second of a series of races which we expect to sponsor."

Proceeds from the races will be used to benefit the Legion-VFW Building Fund, according to Frank Cogdell, Legion Commander.

All races will be run on the tracks north of the Club House, located east of Hereford and just south of Highway 60.

Doris Ann Coffee of Amarillo has been appointed publications assistant in the University of Texas Bureau of Business Research. She will be in charge of circulation of the Texas Business Review, monthly summary of Texas business conditions, and of all other publications of the Bureau, Dr. R. W. French, director, said.

Strength featured the farm markets last week, as most commodities held their own or sold at higher prices, according to the Production and Marketing Administration, USDA. Weak spots appeared at some livestock terminals, however, and feed continued downward.

Cattle moved at mostly fully steady to higher prices at southwest terminals although beef steers and yearlings were weak at Fort Worth, and calves showed some weakness at San Antonio. Good to choice calves brought \$18.50 to \$22.25 per hundred at San Antonio; \$17.00 to \$20 at Fort Worth and Denver, and \$17 to 18.50 at Wichita. Medium to Good cows turned at \$12 to \$14 at San Antonio and Fort Worth; while common to good kinds sold for \$11.50 to \$14.50 at Wichita and \$11 to \$14 at Denver.

Hogs netted mostly 25 to 50 cents advance for the week at Texas markets, but were only steady to even lower at other southwest points. The week's top was \$23.50 at San Antonio; \$24.50 at Fort Worth; \$25.85 at Wichita; and \$26.35 at Denver. Sheep ruled steady to strong at Southwest terminals except for weakness on fat lambs at Denver. Good and choice lambs moved at \$19 to \$20 at San Antonio.

**Alvin Rettman Is Back from Cruise In Caribbean Area**

Along with 600 other officers and men of the Naval Reserve, Alvin Rettman, fireman, first class, of Hereford, Texas, arrived in New Orleans, La., Feb. 8, after a 14-day training cruise to the Canal Zone and Guantanamo Bay Cuba, aboard the cruiser USS Macon.

This was the first postwar training cruise for the Eight Naval District. The trip included sham battles, gunnery practice and a three-day liberty in Christobal, Canal Zone. Planes towing targets were captured from the cruiser for anti-aircraft practice. Also making the cruise was the destroyer-mine-layer USS Shannon.

Reserves left the ships after the cruise, in civilian clothes and with checks for full pay and allowances for their two-week annual tour of active duty. The Navy provided transportation to homes in the eight-state district, which includes Alabama, Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee, Texas and extreme Northwest Florida.

Dr. B. C. Tharp, professor of botany at the University of Texas, has completed a monograph on the *Ruellia*, a beautiful azure blue flower native to Texas and the Southwest. He describes a number of species which had hitherto been undescribed.

**Eleven of State's 36 PCA Groups Have Repaid All Government Funds**

HOUSTON, TEX., Feb. 17 Eleven of the 36 production credit associations in Texas have practically completed the job of returning their Government capital to the U. S. Treasury, according to President Virgil P. Lee of the Production Credit Corporation of Houston. The Government now has only a \$5,000 investment in these associations, which formerly had from \$200,000 to \$800,000 of Government capital. Over a period of 13 years these Government funds have been replaced by members of the associations, he said.

Definite plans have been made by the remainder of the production credit associations in Texas to finish paying out by the end of 1947. Nearly 30,000 Texas farmers and ranchmen now own \$9,245,105 of capital and surplus in the 36 associations, which made loans for more than \$85,000,000 during 1946.

The Amarillo Production Credit Association, which serves Dallam, Sherman, Hansford, Hartley, Moore, Hutchinson, Oldham, Potter, Carson, Deaf

Smith, Randall, and Armstrong Counties, is one of the eleven which are no longer dependent upon Government capital. President Byron Gist of Amarillo says that farmers and ranchmen now own more than \$310,000 of capital and surplus in the association. He states that he thinks the association is now well established and will be in good position to serve the needs of the territory.

**Foot and Mouth Disease Must Be Stopped Now**

The gravest danger which has menaced the livestock industry of the United States, the dread foot and mouth disease, has cropped up in Old Mexico. The importation of several hundred head of bulls from Brazil into Mexico last year brought the disease and unless prompt and effective action is taken by the United States and Mexico, it could and will undoubtedly spread to Texas and all over the United States. This disease, according to competent testimony taken by us as members of the special group of the Committee on Agriculture of the House, attacks and can be transmitted by cattle, hogs, sheep and goats, and other cloven-hoofed animals and is highly infectious. In addition, the germs may be carried on the shoes, clothing, or bodies of persons, feet or bodies of poultry, birds, dogs, cats, or other animals which may have been in the immediate vicinity of infected animals; also by insects, particles of straw or litter which may be carried by the wind; and in many other ways. For example, a tourist could fly overnight by commercial plane from Mexico to New York and be a carrier of the disease, and infect the dairy cattle in New York, thousands of miles from the infected cattle. It can spread like a prairie fire. The United States has had seven outbreaks of the foot and mouth disease since 1900, which have cost the State and Federal Government in excess of two hundred million dollars. The most serious occurred in 1914, spreading to 22 states and the District of Columbia. In that year it was necessary to slaughter 172,222 head of cattle, hogs, and sheep in this country to eradicate the disease. Only by herculean efforts and tremendous financial costs was it finally stamped out. Should it again spread to this country, it could cost multiplied millions of dollars in losses to both our livestock and farming industries.

Nine University of Texas students from foreign countries received degrees at the close of the winter semester. Seven were from Mexico, one was from Venezuela, and one was from the Canal Zone.

is this true of buzzards and other birds which are probable carriers. The foot and mouth virus is so tiny it can hardly be seen under a microscope and to date no quick and positive remedy except prompt slaughter and burial of infected livestock is known. Since this virus has no respect for international state lines it is imperative this country fight it where it exists and not wait until it reaches our own animals.

In the proposed legislation Congress has asked for thirty day progress reports from the Department of Agriculture so we may be kept informed as to exactly what is being done to exterminate and prevent the spread of this disease.

A group of Texas Congressmen, together with representatives of the Cattle Raisers' Association, called on President Truman to enlist his active support. We found him thoroughly familiar with the facts and seriousness of conditions in Mexico and their probable danger to our own livestock industry. He promised his full support in every respect.

As a matter of precaution, I most earnestly suggest to any owner of livestock that he immediately contact his local veterinarian or his County Agent should any of his livestock show any symptoms of foot and mouth disease. May I also urge further that such owner, veterinarian or county agent immediately contact me by wire or long distance telephone at the Capitol in Washington, D. C.

So serious is the threat of this disease that the House Committee on Agriculture last week promptly reported to Congress measures which would provide full cooperation between this country and Mexico in taking any steps necessary to completely eradicate the disease. We hope to have immediate and full approval of the Congress and President in order to begin a quick attack on the infected cattle in Mexico. The Mexican Border has been closed to cattle shipments into the United States but it is impossible to effectively close the Border to human beings and other carriers of the dread disease. Especially

**10 ways you can help yourself to good telephone service**

Telephoning is easy. But more depends on the user than people realize. What you do when making or receiving a call often has a lot to do with how satisfactory that call is. Here are ten suggestions:

1. Before you call, make sure of the number. If you're not sure of it, look in the telephone directory, and thus avoid wrong numbers.
2. Give the called party time to answer. He or she may be some distance from the telephone. A minute isn't too long.
3. Speak directly into the mouthpiece. About an inch between it and your lips is right for best results.
4. Move the switch hook slowly up and down to recall or signal the operator. "Jiggling" the hook rapidly often won't cause a signal to come in and is useless.
5. Replace the receiver carefully when you have finished talking. A receiver partly off the hook puts the whole line out of order.
6. Answer calls promptly. It's courteous to do so and often keeps the caller from hanging up—thinking you're not at home.
7. Identify yourself when you call or answer. Not everyone recognizes you by your voice. Telling who you are saves time and sometimes embarrassment.
8. Space calls on party lines. If you have a series of calls to make, allow a few minutes between each one so others can use the line to call or be called.
9. Keep calls brief on party lines. Other folks on the line will appreciate your thoughtfulness and—who knows—may follow your good example.
10. Avoid calling in busy hours if possible. Switchboards are usually busiest during midmorning and late afternoon.

## THE FRUIT OF UNCEASING LABOR

Between 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression. Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treatment of disease.

# E. B. Posey Writes Open Letter to People of Hereford; Denies Resignation Was Offered

February 20, 1947  
TO THE—Members of the Hereford Chamber of Commerce, Inc., Friends, and Neighbors:

This letter is published as an explanatory message to my friends and loyal supporters during the years I was Secretary-Manager of the Hereford Chamber of Commerce and for the purpose of answering numerous questions asked me pertaining to articles which appeared in the Amarillo Daily paper on January 30, 1947, and in the Hereford Brand on January 23rd, 1947. In these articles statements were made that I had resigned as secretary-manager of the organization.

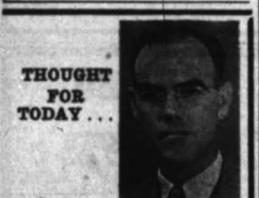

At this time I desire to correct erroneous statements with regard to mention made in these two articles using the expression resign and retire. Your many questions are answered as follows:

1. I knew nothing about the contents of these two articles until I read them in the papers.
2. I very definitely did not offer or tender my resignation as secretary-manager.
3. My term of office as secretary-manager expired on December 31, 1946, hence there was no need to offer or tender my resignation as secretary-manager.
4. I very definitely have not retired from activity in the organization. I hold a membership in the organization paid up to December 13, 1947. This mem-

## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood croscote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

bership was paid for—with my own money—out of my own pocket.

**FACTS:** I was not re-elected as secretary-manager for the ensuing year by the newly organized board of directors. Prior to discussion to filling the office of secretary-manager, I made it clear to the board—that in the event they should consider my re-election it would be necessary to make some changes and improvements for the proper functioning of the office to render efficient service to the organization—such as granting a substantial increase in salary—furnish a competent office assistant, and that the organization was vitally in need of transportation facilities. I also requested the board to feel perfectly free and easy in their discussion and action. The board excused me from the meeting. After some time had elapsed I was invited to return to the meeting. A member of the board who makes his home mostly in the state of New Mexico but who has extensive property interests in Hereford acted as spokesman and stated to me that the board was of the opinion they wanted and should make a change in the office of secretary-manager and further he was directed to state the board would give a 30 day period of notice dating from January 15, 1947, and had unanimously agreed to pay the said Posey a cash bonus of \$1,000.00 (One thousand dollars) in addition to his regular monthly salary from January 1, 1947, up to February 15, 1947, the cash bonus made in consideration, appreciation and recognition for past services rendered to the organization by (Posey) and to Hereford and Deaf Smith County. I had no choice other than to accept and step out of the official family of the organization.

5. My future plans—I have made none.

I feel that we are all agreed to the fact that the Hereford Chamber of Commerce in its work program since 1939 has achieved and accomplished a great deal for the town and community. Up to the year 1946, the organization operated on a shoestring income. The income of the organization at the present time is not sufficiently large enough to maintain and carry on its operations efficiently.

The progress made and accomplishments achieved up to the present time for the town and community was brought about by the work program of the Hereford Chamber of Commerce and cannot go unrecognized as such. Every property owner both local and non-resident—every business firm—employees—wholesale oil and gas compan-

ies—retail oil and gas stations—irrigation pump companies—pipe companies—pipe dealers—well drilling contractors—building contractors—carpenters—plumbers—painters—all business coming under the head of commercial and industrial transportation (railway—bus and truck lines—all lines of professional business such as—accounting—banking—dentists—doctors—lawyers—loan agencies—both commercial and private)—real estate—curb—market dealers—private clinics, etc. Also all of those coming under the head of commonly known "gray train riders"—have directly and indirectly very materially benefitted from the work program carried on by the Hereford Chamber of Commerce.

In fact more real substantial progress was made during the past seven and one-half years than for any period of time since Deaf Smith County was organized or since Hereford was named as a town.

The Hereford Chamber of Commerce organization at the present time is on a good solid foundation upon which to build. A well planned follow through program of work is essential and necessary at the present time. The ground work has been completed.

I wish for the organization and the present administration every success it is possible to attain. The achievements and ac-

complishments of the Hereford Chamber of Commerce up to January 1, 1947, are in a large measure due to those who cooperated with and supported its program of work. Without this cooperation, confidence and support—the magnificent piece of work recognized as outstanding—second to none of its kind—couldn't have been accomplished. To those of you who cooperated and supported the program of work during the time I was secretary-manager—I wish to express my appreciation and thanks.

During most of the time I have lived at Hereford (approximately 40 years) it has been my pleasure to be active and have a small part in the development of the natural resources of the Hereford and Deaf Smith County area. In my opinion the surface hasn't been scratched—there yet remains "Diamond Mines" to be developed. It is my fondest hope to participate and have a small part in the development of these "Diamond Mines."

I am not ready to retire—in fact I can't retire because I must continue to work to accumulate my second thousand dollars—instead of my first million.

I wish to make it plain and understandable that during the time I was secretary-manager of the Hereford Chamber of Commerce, politics and person-

al selfish motives were not permitted to enter into the work program of the organization.

In conclusion: To all former members of my various boards of directors—I wish to express my appreciation and thanks for your splendid cooperation—your time—your wise counsel and for your assistance in rendering to Hereford and Deaf Smith County a constructive piece of work which is unexcelled in the channel of Chamber of Commerce leadership from which all the people of this area have actually benefited.

To you—Dr. Geo. W. Heard—Dr. Edward Taylor—Dr. Weston A. Price—A. W. Erickson—Alfreda F. Rooke, and to many others engaged in this professional field—I wish to extend my hearty congratulations to all of you for your splendid work and untiring efforts for the use and benefit of mankind—also, to express my sincere appreciation for your time and your valuable assistance rendered to the organization while I was its secretary-manager.

Especially do I wish to SALUTE and express my sincere appreciation to those loyal friends (SOLDIERS OF THE PRESS AND RADIO WORLD) local, regional and national who worked so faithfully to assist me in publicizing the possibilities and selling the merits of Hereford and Deaf Smith County to the Nation and the World. You

did a swell job. Thanks a million times—Ladies & Gentlemen. I'll be seeing you.

Sincerely,  
**E. B. Posey.**

## The Rath Trail

By SVETIS RALEY

Coverman, historian and author of "Charles Goodnight, Cowman and Pioneers" and other Southwestern books.

The Rath Trail was an important trade route for the buffalo herds in the summer of 1870. It was not laid out by herders of bison, but was the trail of the world it was simple. It was built on the business of buffalo hides.

In the early 1870's the sporadic slaughter of the buffalo boomed into a commercial market for their hides. At once greedy and unscrupulous men, with the vigor of youthful men entered in their veins and the light of bold desire in their eyes, moved out on the frontiers of Kansas where the animals grew fat on the grass in millions. They fell upon them and mowed them down. They skinned their hides to dry on the ground and hauled them to market at the newly-founded village called Dodge City. Their hunting grounds were never

profitable past of the hunting camps. Rath led the way with his compass on the horn of his saddle. Day after day they kept south of the foot of the Flats, across the Salt Fork, across Red River, over to the Brazos, and up the Double Mountains. There Rath established a hunter's trading post, both personally of poles and covered with hides. It lasted until the buffalo were gone as Rath or Reynolds City.

Along the rough route of the Rath Trail that almost reached the mountain peaks from there in Moberle, the settlement at Fort Elliott, moved hundreds of thousands of high-staked, heavy hides seeking a certain market at Dodge. Each down the trail sweating and sweating half-loads, each with "an eye aimed for Indians," brought the heavy loads of supplies the hunters had to have.

In two years the best of the trade was done and those so-called South Plains hunters, the Moor Brothers, took their heavy yokes of cattle and at one trip moved Rath City, Kit and cohooids, back up the Rath Trail to Camp Supply in Indian Territory. And except for the mellow memories of once vigorous men the Rath Trail was gone.

### "Big Blow" Tests Conservation Practices on West Texas Farms

COLLEGE STATION, February 18.—The "big blow" that swept across West Texas January 29 had its points—it was a good test of the Texas farmer's soil conservation work.

Bailey County Agricultural Agent J. K. Adams reports that the duster, called by old timers "the strongest puff of wind that has hit Bailey County in many

months," would have caused ten times as much soil damage if it had come along before the days when farmers knew how to protect their land from wind erosion.

Most Bailey County farmers were ready for it, Adams says. They left stubble in the fields after the grain sorghum harvest, and let late weeds stay on the ground to help anchor down the top soil. The farmers are realizing the value of vegetative cover as a protection against wind erosion, says Adams, and to prevent speeding up moisture loss, they are not in too big a hurry to get their land opened up.

The County Extension agent is working with the Soil Conservation Service in promoting Bailey County's soil conservation program.

### WOULD YOU SELL YOUR PROPERTY at 1936 PRICES?

NOT LIKELY... for instance: In 1936 bricks were \$11.50 per thousand as compared to \$20 and higher today. Roofing in 1936 brought \$3.97 per square and now it is \$10 and higher. Too, carpenters were working for 65c an hour. BUT in spite of the rising cost of commodities, insurance rates are even lower. You can't afford to be under-insured. ### Spread of Mumps Throughout State

AUSTIN.—During the past few weeks there has been a general increase in the incidence of mumps throughout the State. There have been 1750 cases reported since January 1, compared with only 398 cases during the same period last year, according to Dr. Geo. W. Cox, State Health Officer.

Though mumps is one of the common childhood diseases, serious complications may develop, so children should be protected as much as possible from this disease. The usual control procedures such as avoidance of crowds, exclusion from school of all cases or suspected cases and quarantine should be followed. The family physician should always be consulted when a case occurs.

The most easily recognizable characteristic symptom of mumps is a painful swelling of the salivary glands. Sometimes there is an involvement of other portions of the body causing disturbances in the digestive, nervous, circulatory, and genito-urinary systems. The disease is usually accompanied by a temperature rise which more often than not is mild.

"The patient suffering with this disease should be isolated from other members of the family immediately upon the suspicion that mumps exists, and the family physician should be called promptly," Dr. Cox advises. "In the meantime, complete rest in bed is indicated. The doctor's orders should be followed strictly. Violating his instructions can lead to serious injury, which may permanently affect the individual's health."
