Chilean soarer drops in on Frio family Sunday

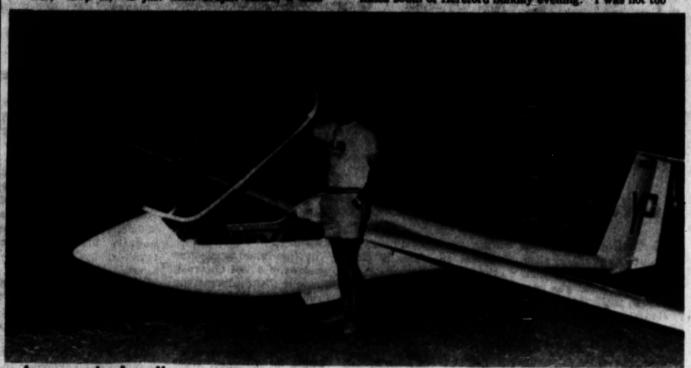

MANAGING EDITOR

Mrs. Joe Ed Andrews of Frio thought her husband might have been out in the midday sun a bit too long Sunday when he called and told her he was bringing an "out of town" guest home for dinner. After all, whoever'd believe that a world traveler from South America would take the time to drop in on the High Plains of Texas?

But, "drop in," is just what Srdjan Radio, a more-

munications executive from Santiago, Chile, did around 5:30 p.m. Sunday. Radic, 44, ran out of air in his sleek, white fiberglass glider as he participated in the final race of the 18th World Soaring Championships. The expert pilot found the best landing area he could and wound up sliding to a halt in a plowed field owned by Andrews.

"I just couldn't find a thermal to keep me up," Radic explained as he lounged in the Andrews home about five miles south of Hereford Sunday evening. "I was not too

Radic, a partner in TEXCOM Communications in Santiago, found welcome hosts in the Andrews family, who provided a place for him to rest as his three-man crew

was driving up from Hobbs, N.M. where the championships have been going on for the past 12 days.

The championship was decided Sunday in the final race,
a loop which carried glider pilots from Hobbs to Littlefield
to Vega and back to Hobbs. If they were lucky enough to
find the right kind of air, that is.

The 408-mile round trip proved to be a challenge for more of the pilots than Radic. Andrews said that an official in Hobbs had told him earlier Sunday evening that at least 10 other entrants were still unaccounted for, and would probably be hauled in also.

Radic, who flies with the Club de Plenadores de Santiago, is many times a national champion soarer in Chile, and even won the world championship in 1979, when the contest was held near Badderbonn, West Germany.

He has been soaring since 1964, and has held a pilot's license since 1959. The Hobbs championship is the third world title event he has flown in. He also participated in the 1977 championships in France, but admitted that he "did not do to good."

Radic flies in the 15 meter class, which means that his glider has a maximum wingspan of 15 meters (just over 49 feet). Other classes in the championship include the Open Class (unlimited), and the Standard Class, which als cludes 15 meter gliders, but has limitations on fi

He, in fact, became more than familiar with the Andes Mountains, a massive chain which dominates the terrian in the southwest part of South America.

In January of 1982 he became the first and only glider pilot to soar solo over the Andes from Argentina to Chile. It took him three hours to travel 150 kilometers (93 miles) over massive peaks which jutted as high as 20,000 feet into

He said that several others has tried to make the trip over the Andes, but had failed. "It takes the right temperature, air and wind stability to make it," he said.

At Hobbs, Radic used a rented glider which he and his crew picked up in Michigan. He said it was much cheaper and easy to use a rented glider here than to bring the club's glider from Santiago, "Besides, this glider is a better one than the club has," he explained.

He did bring the instrument panel from the club's glider, however, preferring to use a panel he was familiar with in the competition.

The streamlined glider is designed with small size and low weight in mind. The hollow wings can hold 634 gallons of water, a ballast which is released by the pilot to help the craft keep airborne when the thermals become weak or

The snug cockpit is not necessarily designed with comfort in mind, but room is reserved for the inclusion of a parachute for the pilot.

"Fortunately, I've never had the occasion to use a parachute," Radic laughed.

The craft's maximum speed is 165 miles per hour, and weighs approximately 1,000 pounds, including the liquid

Pope wants proof girl is still alive

ROME (AP) - The uncle of a teen-age girl whose abduction has involved Pope John Paul II and the pope's Turkish attacker is pleading for proof that she is alive to ease her family's "indescribable anguish."

Mario Meneguzzi said Monday he has spoken by telephone with the man claiming to hold his 15-yearold niece Emanuela Orlandi. He said the purported abductor speaks Italian with an accent that "may be American."

Meneguzzi made a fiveminute televised appeal for proof that the girl is not dead. He asked for a snapshot of his niece with a newspaper and the date on the masthead and the answer to where and with whom Emanuela had dinner on June 20, two days before she disappeared.

"It would calm her family," Meneguzzi said of the request. "Since June 22, her family has been living in a state of indescribable anguish." An anonymous caller to

Italian news media said last week he is demanding freedom for papal assailant Mehmet Ali Agca in return for the release of the girl, the daughter of a Vatican employee.

On Sunday, the pontiff said without elaborating that he is doing "all that is humanly possible" to help free the girl, missing since she left a music lesson in Rome.

Meneguzzi told reporters after the television appearance that the suspected abductor, who has called the girl's family three or four times, was "extremely polite.'

"He's someone who likes to talk," the girl's uncle said, adding that one call lasted 10 minutes. "It's always been the same man. To me it seems like the accent may be American."

He also said the caller makes mistakes in speaking Italian.

Meneguzzi, who does not speak English, said the man has not made threats or demands, or even mentioned Agca during the calls to the

Metzenbaum and Kennedy were protesting an incident June 28, in the final hours of the Senate Armed Services Committee's work on the bill, when White House and Pen-tagon budget officials presented \$2.1 billion in savings by reducing the projected cost of fuel and trimming inflation estimates.

Among other things, this addition enabled the panel to include in the bill all \$5.6 billion the Air Force wanted for its B-1B strategic bomber program and also to certify the plane as eligible for multiyear, rather than annual, contracts.

County okays budget

MANAGING EDITOR

Dear Smith County Commissioners aproved a \$3.3 million budget for 1983-84 Monday, holding down the county's tax rate to an increase of less than one cent per \$100 valuation despite the loss of \$9 million from the county's tax base.

The court gave its stamp of approval to a 1983-84 budget of \$3,314,306 as submitted by County Auditor Alex Schroeter. The budget in- 1983-84 fiscal year is \$329,000, before the court asking the cludes expenditures in the General Fund of \$2,078,062, and \$963,744 in the Road & Bridge Fund.

Western boot retailer ordered to jail

FORT WORTH, Texas (AP) -Western boot retailer Don Morgan has been sentenced to 18 months in prison for failing to pay income taxes on more than \$600,000 in earnings from his Morgan Boots stores.

Morgan also was fined \$5,000 Monday by U.S. District Judge David O. Belew Jr., who ordered him to surrender to U.S. marshals on Sept. 6.

"We all have to pay taxes, but it seems everyone wants to take a chance on getting caught," Belew said before passing sentence. "And the fact that a man like you, who grosses \$20 million a year ... if we want this country to stay like it is, we have got to support it."

Morgan, 38, was indicted last December on charges that he filed false tax returns in an attempt to hide \$600,000 in income and inflated by \$40,000 a damage claim made on a Small Business Administration loan application.

A second indictment returned in January accused him of paying his exwife, Patsy Morgan Allen, \$25,000 to write a false affidavit that Morgan thought would clear him of the tax charges that he knew were imminent.

Ms. Allen, who worked as Morgan's bookkeeper both before and after their marriage, testified that she contacted the Internal Revenue Service out of fear that Morgan might blame her for the inaccurate tax claims.

Liver transplant candidate clings to life

MINNEAPOLIS (AP) - A 10-month-old West Texas infant was clinging to life today as the search continued for a donor liver - the only thing that could save the child's life, doctors said.

Ashley Bailey remained in critical condition at the University of Minnesota Hospitals, refusing food and being fed through a tube.

The infant, suffering from biliary artresia, an incurable liver disease which hardens the liver, has been hospitalized while a national search for a liver donor is conducted.

Dr. John Najarian, head of the transplant team, met with family members Monday, bringing bad

"Dr. Najarian said he couldn't give us an exact time limit on her life, but said she could die in two days or in a month," said Annette Bailey Gossett, the infant's mother.

"We've got to get a liver," said Mrs. Gossett, "You can just look at her to know how bad she's feeling. "We can't even get a smile out of her."

Last week, Ashley's condition deteriorated rapidly and doctors feared her lack of energy would diminish chances for a successful liver transplant.

Mrs. Gossett's husband, Gregg, said Nariaian told them Ashley would die within a month without a liver transplant.

MONTAGUE, Texas (AP) - Selfproclaimed mass killer Henry Lee Lucas claims to have known a woman wanted on suspicion of perjury in connection with a murder investigation in Brownwood, authorities say.

Texas Ranger Norman Autry said Lucas was questioned last week about the slaying of Donna Mae Inlow, 72, of Brownwood.

Ms. Inlow was found stabbed to death at her business April 27, 1981. An autopsy showed she had been raped, authorities said.

Lucas, 46, who has claimed to have killed about 100 women, is charged with five slayings.

Lucas also was questioned about 59-year-old Bettye Jo Glendining, who is wanted on suspicion of aggravated perjury in connection with Ms. Inlow's slaying, Autry said Monday.

Ms. Glendining volunteered information about the case to a Brown County grand jury in February 1982, authorities said.

After investigators showed him a photograph of the woman, Lucas claimed to have known Ms. Glendining in 1978 as Billie Jo Snyder, Autry said.

"So far, we have not been able to substantiate the claim," Autry said.

Ms. Glendining's testimony led to the arrest and indictment of a Louisiana man in Ms. Inlow's slaying. The charges later were dropped when officials could not find Ms. Glendining or verify her testimony.

Publisher pushes Pie

Brand Publisher Speedy Nieman paid to rub a pie in the face of KPAN's Clint Formby, but his glee was short-lived as Formby also won the aution bidding on Nieman's pie.

Roughly 300 people attended the annual Chili Cookoff Saturday, where about \$730 was raised for the sponsoring Cowgirl Hall of Fame.

Included in the festivities were a cowchip throwing con-test, stick horse racing and bubble gum blowing contest. Hereford's Margaret Formby had the highest bid in the

cream pie auction: \$350.

The first-place finisher in the Chili Cookoff was Jerry Fisher of Amarillo. His "team" was judged best of the 45 entrants.

Fisher was followed by Amarillo's Larry Spikes in second, Ron Twitty of Amarillo was third, Canyon's Mike Douglas fourth and Pip Prescott of Quanah fifth.

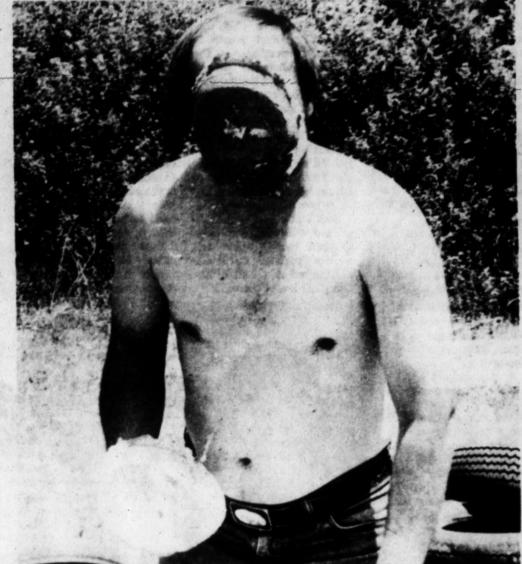

Rounding out the Cookoff's top ten were Hereford's Randy Jones, Susan Sledge of Amarillo, Hereford's Bob Williams, Ken Ruland (also of Hereford) and Amarillo's Ennis Penland.

Spikes and fellow Amarillo resident Joe Sutphen reportedly earned enough points to qualify for the Terlingua Chili Cookoff later this

In addition to the Cookoff judging, showmanship awards were given to Sutphen, Ruland and Ray Shade of Lubbock. Spikes was presented the humanitarian award for collecting for a local charity the most money from the chili tasters.

Winners were announced at 4:30 p.m., eight and a half hours after cooking began. Before the celebration concluded, the Merry Mixers Square Dancers gave an exhibition on the patio.

All the collected funds are marked for aiding day-to-day operations of the Cowgirl Hall of Fame.

New pastor assumes position at Summerfield Baptist Church

BY LINDA CAUDLE **Family News Editor**

Summerfield Baptist merfield Community southwest of Hereford, recently welcomed a new pastor, the Rev. Dusty Stout, along with his wife, Carla, and their two sons, Cody, 10, and Joel 5.

The family moved here several weeks ago from where Carla was raised. Dusty, who is originally from East Ten-nessee, finished high school in Lamesa after moving there with his parents.

He has served as associate pastor of Crestview Baptist Church in Lamesa for the past year, filling in when the pastor was gone, assisting in general church functions, helping with the youth, and teaching Evangelism Explosion, in which he is a certified

He attended an E.E. convention in Fort Worth to receive the cartification. The clinic was held for pastors and church staff so that they and church staff so that they could go back to their churches and start an E.E. program. "I really like E.E. because it focuses on actual ty. "It's not just a lot of classroom learning without actual practice involving

other people:"
Both Dusty and Carla hadworked with youth and went to youth camps when they were at Crestview. Carla had also served as a Girls in Action (GA) leader there.

"That experience came in andy, because the first week were hare, I went to GA comp at High Plains Baptist Assembly near Canyon," smiles Carls. She will be go-ing to youth camp later in the g to youth camp and samer, and Dusty will ac-supeny the beys to Reyal unbussadors (RA) camp.

youth director at Lamesa, seeking with all the junior high and high school age youth people in the Baptist churches of that area. "I was in charge of planning and organising activities for the

organizing activities for the kids," states Dusty: "We tried to have something for them every month."

Dusty served as interim paster at Midway Baptist Church in a small community

the before coming here. Since he surrendered to the ministry and was licensed to preach about three and a half years ago, he has supply preached in area churches, from Hobbs, N.M., to Big Spring. He has worked as a corpenter in addition to his pastoral duties for the past year, and he was a bricklayer prior to that time.

"One of the greatest joys of supply preaching was eeting so many new people

all the time," notes Dusty.

The young pastor has been working on a bachelor's degree in divinity through correspondence classes at Luther Rice Bible College and he has taken courses at Howard College in Lamesa to apply toward the degree.

Since moving to Summer-

field, he is planning to attend es three days a week at Southwestern Theological Seminary Extension in Amarillo, and he hopes to graduate in a year.

Dusty is a member of the Gideon's Association, a group of business and profes men who volunteer their time to raise money to purchase Bibles to place in hotels, motels, hospitals, schools and other public places. He was actively involved in the organization for several years in Lamesa, traveling from Lubbock to San Angelo speaking and seeking to raise support for the volunteer

The Stouts are looking forward to getting involved in the church and the community. Dusty's goals include building up the Sunday school and reaching out through fellowship with the people of Summerfield.

"We have really enjoyed visiting with the people we've met since coming here," he comments. "There are a lot of possibilities because we have such a large area to reach out to."

Right now plans are underway for Vacation Bible School, and in September the church is planning to hold a revival.

Also as summer draws to a close, Cody will enter the fifth grade and Joel will start kindergarten in Hereford. Both boys like to ride horses and play soccer, and Cody plays baseball, football, and basketball. He is a Webelo

Southwestern Bell, en conformidad à las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel de tarifas para servicio de teléfono en Texas, con vigencia a partir del to de agosto de 1983, a menos que la Comisión haga otra determinación

Una copia completa del nuevo arancel de tarifas se ha archivado en las oficinas del Public Utility Commission (PUC, ó Comisión de Servicios Públicos) de Texas en Austin, Texas, al igual que en cada municipalidad afectada y que es servida por Southwestern Bell, y dicho aráncel está disponsible para inspección pública en todas las oficinas de Southwestern Bell en Texas. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios cada vez que Southwestern Bell solicite un cambio en dichas tarifas:

Como resultado del arregio judicial al cual se llegó tras el proceso legal entablado en contra de AT&T por el U.S. Department of Justice (Departmento de Justicia), Southwestern Bell dejará de formar parte del Bell System (Sistema Bell) a partir del To de enero de 1964 (ó en la fecha que disponga el United States District Court — Tribunal Federal de Distrito), y llegará a ser posesión de accionístas públicos. Bajo las condiciones de dicho arregio, Southwestern Bell ha identificado 15 regiones dentro del Estado de Texas en las cuales puede proporcionar servicio, y el tribunal federal con jurisdicción en el arregio ha dado su aprobación provisoria a éstas regiones, que se denominan "LATA's" (Local Access and Transport Area, ó Regiones Locales de Acceso y Transporte). A partir de fecha 10 Regiones Locales de Acceso y Transporte). A partir de fecha 10 de enero de 1984 aproximademente, Southwestern Bell no podrá proporcionar servicio entre dichas LATAs, y además deberá ceder a AT&T todo equipo ubicado en premisas de clientes y alquilado a los mismo

Estos cambios se han incluido en el propuesto arancel de artías de servicio revisado que Southwestern Bell ha archivado con le PUC. Diches tarites tendrían vigencia a partir del 10 de agosto de 1983, a menos que fueran suspendidas por la PUC; sin embargo, se espera que sí seran suspendidas, y que as tarifas que en último caso establezos la PUC entrarán en vigor a partir de fecha 10 de enero de 1984 aproximadamente. Si las tarifas entráren en vigor tal y como se han archivadas, aumentarian en un 48.2% los ingresos no-ajustados de Southwestern Bell para año de prueba (unadjusted test year revenues), é ses un aumento de 75.38% en los ingresos de Southwestern Bell para año de prueba, ajustados para reflejar nues), é ses un sumente de 76.38% en los ingresos de Southwestern Bell para año de prueba, ájustados para reflejar el efecto del desposetmiento entre Southwestern Bell y AT&T. Cualquier cambio en las tarifes para cualquier servicio tipo-nterLATA que proporcione AT&T é una compañía subsidiaria despues del 10 de enero de 1964 podría afectar a los clientes de Southwestern Bell Telephone Company.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective August 1, 1983, unless otherwise determined by the Commission.

A complete copy of the new rate schedule is on file with the Texas Public Utility Commission (PUC) at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

As a result of the settlement of a lawsuit brought by the U.S. Department of Justice against AT&T, Southwestern Bell, on January 1, 1984, (or as otherwise ordered by the United States District Court) will no longer be a part of the Bell System, but will be owned by public share-holders. Under the terms of the settlement, Southwestern Bell has identified 15 areas in the state within which it may provide service, and the federal court with jurisdiction of the settlement has tentatively approved these areas, called LATAs (Local Access and Transport Area). On or about January 1, 1984, Southwestern Bell can not provide service between these LATAs, and in addition, must transfer to AT&T customer premises

equipment that it leases to customers.

Southwestern Bell has filed a proposed revised rate schedule with the PUC reflecting these changes. These schedule with the PUC reflecting these changes. These rates would become effective August 1, 1983, if they are not suspended by the PUC; however, it is expected that they will be suspended and that the rates ultimately set by the PUC will become effective on or about January 1, 1984. If the rates were to become effective as filed, they would produce a 48.2% increase in Southwestern Bell's unadjusted test year revenues (or a 76.36% increase in Southwestern Bell's test year revenues adjusted to reflect the effect of Southwestern Bell's divestiture from AT&T). Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of Southwestern Bell Telephone Company.

Notice to Customers of Other Telephone Companies

While Southwestern Bell has proposed no increase in rates for intraLATA intereschange toll services, any change in those rates could also affect customers of other telephone companies. Southwestern Bell is proposing changes in the structure of the present private line and foreign exchange services. Changes in these rates may affect customers of other telephone companies. Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of other telephone companies.

Abundant Life

PATIENT ENDURANCE by Bob Wear

The final test for us human beings is in how well we persevere. There is an inclination to quit trying, when the desired results are not accomplished immediately. Of course, it is encouraging to have some success now and then; an we can, if we are discerning enough to see it and wise enough to appreciate it. Even so, the basic nature of life is in its continuance; including the renewed efforts in doing the things which we have learned to be

There are many instances of people accomplishing good things long after many other have quit trying. The difference is in the basic understanding of these people. The quitters are people who have failed to learn some of the essentials of effective living. They are not patient, they are not humble, they are not correctly motivated, they do not have a good selfimage, they make the mistake of measuring themselves by others, they do not have sensible expectations. In fact, they have, for one reason or another, miss-

ed the whole point of living. Patient endurance is the key to better living. It will embrace the elements of humility, permanent motivation, a well-formed self image, sensible expectations, and we will not be measuring ourselves by others. Whatever spirit of competition we have will be in our competition with our self to try to do a little better.

There is no such acceptable condition as 'getting it all done' and holding. In a sense, living must be re-done each day; because no one day can suffice for any other day. Ob-

viously, some folk make the living experience easier than others do. This, however, is no reason for discouragement. All of us must keep on keeping on, making a little improvement here and there, and patiently enduring.

With the spirit of 'patient endurance', in the best light available to us, we can move ahead to better days and better times.

Baker's blast boosts Dodgers

By BEN WALKER AP Sports Writer

The Los Angeles Dodgers overcame a bizarre wild pitch and sloppy fielding and when it was over, hero Dusty Baker had little to say.

Baker, still fighting his way out of a season-long slump, belted a two-run homer with one out in the bottom of the ninth inning off St. Louis reliever Bruce Sutter for a 7-6 victory over the Cardinals Monday night.

That blast capped a threerun rally for the Dodgers and a big night for Baker, who finished with four hits, including a two-run homer earlier in the game.

"I've still got some work to do," said Baker, who hit only .231 - 50 points below his career average - during the first half of the season. Since then, he's gone 7-for-14 to

raise his average to .244. In other National League games, Atlanta topped Montreal 6-4, Philadelphia powered past Cincinnati 11-7 in 11 innings, San Diego held off Chicago 6-5 and Pittsburgh nipped San Francisco

The Dodgers trailed 6-4 in the ninth when Steve Sax and Ken Landreaux belted doubles off Sutter. Baker then drilled his 10th homer into the left-field stands.

Los Angeles had scored once in the eighth as Baker singled off starter Bob Forsch, which fetched Sutter. The reliever got two outs before Mike Marshall singled and pinch hitter Rick Monday followed with a run-scoring

Dodgers starter Fernando Valenzuela took a four-hitter and a 3-0 lead into the sixth inning. But George Hendrick doubled with one out and went to third on Willie McGee's single. David Green then reached on an error by third baseman Pedro Guerrero, allowing Hendrick to

Glen Brummer singled to

load the bases and McGee scored when Ozzie Smith grounded out. Valenzuela left the game after he walked Forsch, reloading the bases.

Then, with the runners going on a full count, reliever Dave Stewart threw a wild pitch for ball four to Tom Herr, forcing in Green. Brummer raced in from second and when catcher Steve Yeager retrieved the ball and threw wildly to the plate, Forsch also scored.

Joe Beckwith, 1-2, blanked St. Louis over the final three innings. Meanwhile, the Dodgers committed three errors in all, giving them 101 for

Cannon's conspiracy growing

BATON ROUGE, La. (AP) - More arrests in the counterfeiting conspiracy case involving former football great Billy Cannon are imminent, according to a Secret Service spokesman who said two more suspects have been brought into

custody. The Secret Service in New Orleans confirmed Monday night the arrests of William Glassock in Pensacola, Fla., and Eric Kramer in Brownsville, Texas, as conspirators. They are the fourth and fifth suspects to be charged in the case.

Dennis Shaw, agent in charge of the Secret Service office in New Orleans, said bond was set at \$2.5 million for Glasscock, president of Mangun Oil Co. of Pensacola. Shaw said Glassock, unlike Cannon, was refusing to cooperate with investigators. Shaw said Kramer also was accused of smuggling gold from Mexico.

Sources close to the investigation said the man who purportedly printed more than \$5 million in counterfeit money, identified by a federal prosecutor as John Stiglets, would soon surrender voluntarily.

Meanwhile, Cannon's induction into the college football Hall of Fame next December could be in jeopar-

Jimmie McDowell, executive director of the National Football Foundation and Hall of Fame, said in New York, "The foundation position now is Billy is innocent until proven guilty and the foundation is waiting to get all the facts before making a decision.

... One of the foundation's rules for election is that a man is judged not only on his playing ability but also on citizenship."

Earlier Monday, court records showed Cannon, former Heisman Trophy winner and now a Baton Rouge dentist, had lost a \$122,000 condominium because he couldn't keep up the payments and was under court orders to pay \$246,000 in promissory notes when arrested last weekend.

The records revealed that the American Football League and Louisiana State University football star had paid only \$60,000 on the Jefferson Parish condominium when it was seized for a sheriff's sale.

Records in the East Baton Rouge clerk of court's office also showed that Cannon was about \$246,925 on four promissory notes to First Progressive Bank in Jefferson

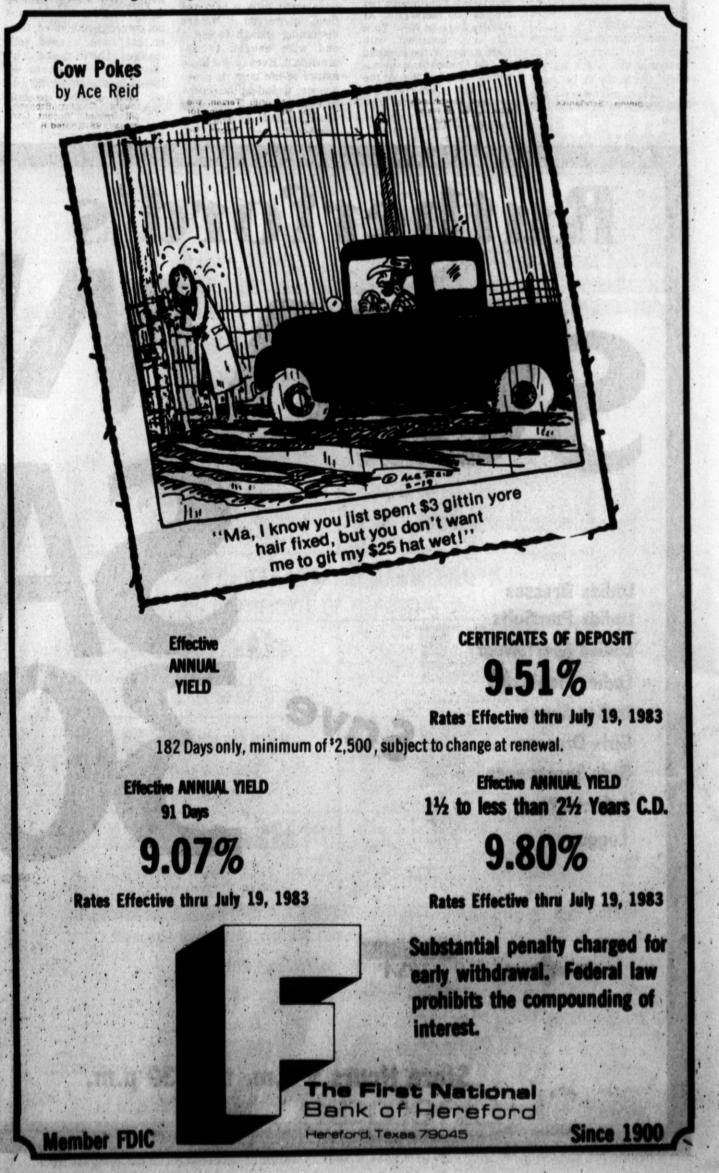

The bank held 23 such notes, the records showed.

A woman who answered Cannon's home telephone Monday said Cannon would not comment. She refused to call him to the telephone.

Cannon, the 1959 Heisman Trophy winner and pro football's first \$100,000 player, was arrested Saturday and arraigned on a charge that he conspired to possess and deal in counterfeit \$100 bills.

He tried to plead guilty, but U.S. District Judge Frank Polozola refused to accept the plea and gave him until Friday to reconsider.

San Antonio joins USFL

By KRISTIN GAZLAY Associated Press Writer

SAN ANTONIO, Texas (AP) - After two months of hemming, hawing and backpedaling, it's official. San Antonio has been awarded the fifth United States Football League expansion franchise team, which will start play in 1984.

South Texas rancher Clinton Manges put up \$6 million to become the principal owner of the as-yet unnamed team, which will play its games in an as-yet unmodified Alamo Stadium under an as-yet unnamed

USFL Commissioner Chet Simmons flew into town to make the official announcement Monday night to a cheering crowd that included a marching band, three state senators, some authentic mariachi players and Texas Attorney General Jim Mat-

Manges and his investment group, South Texas Sports Inc., had prematurely announced the awarding of the franchise two months ago.

Simmons said the official word was slowed by "the paperwork and all the financial stuff that has to be done." "We have to do checks on

the people putting up the money and get a two-thirds vote from the rest of the league," he said. "That all takes time."

South Texas Sports will conduct a contest to name the football team, and a coach and staff should be selected within 30 days. Many of the club's players

are expected to be culled from the San Antonio Bulls, a member of the minor-league American Football Associa-

The success of San Antonio's other pro team, the Spurs of the National Basketball Association, made the city an attractive spot for a USFL franchise, Simmons said.

"We looked at what was done here with the Spurs," he said. "We were told, 'Don't turn your back on what you might consider the smaller

"The San Diego, San Antonio, Jacksonville and (Tulsa) Oklahoma franchises will end up being very signifi-cant franchises because we own the market," he said.

South Texas Sports has leased Alamo Stadium from

the San Antonio Independent School District and agreed to make more than \$2 million in mprovements - including increasing the seating capacity from 23,700 to 32,029, installing artificial turf, and putting in a new scoreboard and lighting system.

The group also will pick up the tab for parking im-provements, including the purchase of land for additional parking.

Former Texas A&I football coach Gil Steinke was named executive vice president of the San Antonio team, and could be head coach, Manges

McAllen attorney Morris Atlas is president of South Texas Sports, and Roger Gill of San Antonio serves as nam-

ed general manager. The USFL, which recently finished its first regular season, started with 12

Rugby star wastes little time impressing 'Poke coaches

(AP) — A former rugby star from South Africa, trying to earn a spot as a punter on the Dallas Cowboys roster, wasted little time on Monday's first day of rookie camp in getting the attention of coaches.

Naas Botha, a free agent, had the fastest time in the traditional 11/2-mile run that annually signals the opening of the Cowboys' camp here. He breezed through the distance in 8 minutes 25

Free-agent quarterback Scott Ruiz of St. Mary's had the second-fastest time, finishing in 8:33.

Following physical exams, there were 90 rookies and nine veterans in the cowboys camp. Three players - wide receiver Charles Doolittle of Howard Payne, guard Darryl

THOUSAND OAKS, Calif. Moore of Southern Cal and Dan Pepock of Waynesburg College failed the preworkout physicals and were

> Veterans on hand with the rookies include quarterback Brad Wright, center Bryan Baldinger, cornerback Rod

Hill, linebacker Jim Eliopulos, defensive back Monte Hunter, running back George Peoples, defensive lineman Phil Pozderac, linebacker Jeff Rohrer and injured reserve player Scott McLean, a linebacker.

Ann Landers Determined to hang on

DEAR ANN LANDERS: I have suffered from depres-sion since I was a child. I am in therapy now and taking an antidepressant and a tran-quilizer for anxiety when necessary. "R," to whom I have been married for 18 months, gives me a lot of emotional support. My sisterin-law is always at my side when things are rough. I have loving friends who care and let me know it.

So why do I still want to kill myself? Why isn't all this love enough? I have a good job, a roof over my head, all the material things I want and money to spare. I'm fighting like a tiger to survive, but I can't stand all this confusion and pain in my

The main reason I don't kill myself is because I'm afraid the people who have been so good to me will feel that it was somehow their fault. I don't want them to grieve or feel guilty.

I recently had a consulta-tion with a psychiatric pharmaceutical doctor and he insists that I continue the present antidepressant prescrib-ed by my family physician.

Even as I write this, I feel that my emotions are walled off. Nothing seems worthwhile. I am weary of being depressed and unhappy. I am also tired of fighting.

So why do I write? For two

1. To ask parents not to be afraid to show their children that they are fallible. Living up to the ideal of perfection to lease parents is an impossible struggle. It's OK to be wrong, you know.

DEAR FRIEND: You are fighting hard and I'm betting you will make it. I'm printing your letter because a great many people will see it and realize they are not alone.

Ask your therapist about a change in medication. Often this can be helpful. Ask him, too, about the possibility that you are overmedicated. Therapists sometimes need to be alerted to this possibility. Let me hear how you are doing. I want a progress report in 60 days and, remember, I'm betting on

DEAR ANN LANDERS: I pay a lot of taxes. I should. I make a lot of money. But for the past several years I have chiseled on my returns because I felt the government was spending too much on military hardware and not enough on education, the elderly and medical research.

Now I realize one thing has nothing to do with the other. Please print once again the address of the "conscience fund." I know approximately how much I owe and I want to send a money order which, according to you, I can do anonymously. - Need A Night's Sleep

Class reunion begins with trip to 'Texas'

the 45th reunion weekend for the Hereford High School class of 1938 Thursday evening. This was the second time the class had met since graduation. A 40th reunion was held in 1978.

Class members registered Friday evening at the Community Center. After a coffee Saturday morning, the group toured the old high school (now Stanton Junior High School) and recalled old memories.

On Saturday evening the class held a dinner at the Community Center, hosted by L.A. Ricketts and Melba Kiser, both from Fort Worth. Class pictures were taken and cups with the Whiteface emblem were given out.

The group decided to meet again in five years for a 50th reunion. Local class members will plan the event.

Class members and their spouses attending from Hereford were Aurelia "Bunny" Hoffman Urbanczyk, Anna Marie Kuper Dupnik, S.T. "Tup" Loerwald, Leo Hellman and his wife, Elizabeth, and Mary V."Billie" Whitehead Watts.

Out of town class members and spouses attending includ-ed Melba Schultz Kiser and her husband, Glenn; Darrell and Virginia Erle (Reed) Staggers; L.H. Hereford Eablevision needs your assistance!

Dear Cablevision Customer:

We Need Your Help In Making The Final Step In Getting FCC Approval For The Lee Microwave Pending Waiver So That We Can Soon Get The KTXT-TV Service To You.

We Anticipate The FCC Approval Of The Waiver Very Quickly Following The Filing Of This Final Pleading. A Letter From You Like The Enclosed One Would Be Most Helpful. If You Like, Word Your Own Letter In A Similar Vain.

Please Address Your Letter To The FCC, But SEND TO:

MR. HOWARD LIBERMAN 2000 L. STREET, OR NW SUITE 200 WASHINGTON,

D.C. 20036

LLOYD AMES HEREFORD **CABLEVISION BOX 1656** HEREFORD, TX 79045

Again, Please DO NOT Send This Letter To The FCC Because The Presentation Must Be Made In Proper Fashion To The FCC By Lee Microwave's Attorney, Mr. Howard Liberman.

Yours Truly, Lloyd Ames General Manager HEREFORD CABLEVISION

Washington, D.C.

I am writing on behalf of Hereford Cablevision with regard to the pending petition for waiver filed by the Lee Optical and Associated Companies Dear Commissioners:

In its petition, the Trust seeks commission authorization to utilize Retirement Pension Fund Trust. its existing microwave system on a common carrier basis to deliver the

programming of non-commercial educational television station KTXT-TV Lubbock, Texas, to cable systems in West Texas.

The citizens of our community desire to view the programming of KTXT-TV, in order to avail themselves of the PBS programming and other educational and instructional programming produced by the station Licensee, Texas Tech University. Station KTXT-TV is of special interest to the people of community because it is the only non-commercial educational television

station in West Texas, and is operated by a state institution. Our cable system currently does not carry the signal of any non-commercial

educational T.V. station, so grant of the Trust's petition for waiver would insure that the citizens of our community would have available to them on their cable system national PBS programming and locally originated programming from the nearest state university. Included in such programming is instructional programming designed specifically for curricula in Texas

Therefore, we fully support the Trust's petition for waiver and ask that it be granted soon so that our cable system can begin carrying station KTXT-TV.

Yours truly,

Pick up your letter at Cablevision's office!

FBI to check campaign documents

The FBI, probing possible political espionage in the 1960 presidential campaign, is sending agents to the Hoover Institution at Stanford University to make arrangements to see original campaign documents stored there, an administration official says.

Meanwhile, the chairman of the House subcommittee investigating how the Reagan campaign received briefing material and other documents prepared by the Carter White House said he had not been assured that his panel would have access to the material at the California campus. But he said he hoped approval would be granted to-

WASHINGTON (AP) - wanted because the subcommittee's purpose is broader than the FBI's, going beyond simply potential violations of law to ethical questions and whether they is any need for additional legislation.

Deputy White House press

secretary Larry Speakes, announcing Reagan's decision, said the subcommittee investigators "will have complete access, they will have access to all the material."

"It is the president's desire to allow this investigation to proceed, by the Justice Department, by the congressional committee, to proceed unimpeded," the spokesman

Shortly after Reagan's order was made public, an administration official, speaking on condition that he not be further identified, said the Justice Department had directed the FBI to send agents to the Hoover Institution to discuss the department's access to original documents in the files there.

While the terms under which the papers were donated require Reagan or two of his most senior aides to grant approval before the documents can be inspected or copied, there were no indications there would be problems gaining such permis-

There were these other developments in the briefing book case on Monday:

-Sen. Alan Cranston.

D-Calif., who is running for the Democratic presidential nomination, said in Council Bluffs, Iowa, that a special prosecutor should be appointed to investigate how the Reagan campaign obtained the material.

-Senate Majority Leader Howard H. Baker Jr., R-Tenn., said he had seen or heard nothing so far indicating a separate Senate in-

vestigation was required. -Sen. Barry Goldwater, R-Ariz., said of the briefing book affair in a speech on the Senate floor: "It's a laughable joke what's going on in this town in the name of news."

Albosta had written to Reagan on June 29 asking for any material being provided by the White House to the Justice Department for the FBI investigation. He has also asked the Hoover Institution to retain original Carter documents in its files, rather than send them to the Justice Department. This raised the possibility of disputes over access to the original material.
