**Need It Every Way**

The editor of a country paper received a paragraph to the effect that a bride in his ballroom kneaded bread with her gloves on.

He ran the paragraph in his paper adding as an appendix: "The editor of this paper needs bread with his shoes on, he also needs it with his clothes on, but if some of the delinquent subscribers don't pay up pretty soon, he will need bread without a darn thing on."

**And Now In Closing—**

Help yourself to a cackle out of the conversation of the two Irish women who were discussing a railroad accident. One asked the other if any were killed in the terrible crash. She replied: "Shure, twenty-sivin, Ottalians and wan Irishman." Whereupon Mrs. Dooley, with a long sigh, came back with, "Oh, the pore fellar."

## Baptist Campaign Has Put \$4,000,000 Into Care of South's Orphan Children

Benevolent Phases of Forward Movement Are Set Out In General Statement From Headquarters—Hospitals and Ministerial Relief Greatly Extended.

A Group of Happy Homeless Boys Provided for in a Baptist Orphanage.

Of the \$48,500,000 that has been collected in cash on the Baptist 75 Million Campaign to January 1, 1924, the sum of \$7,732,831.53 has gone to such benevolent work as caring for orphan children, healing the sick and ministering to aged, worn-out preachers. It is announced by the headquarters of the Campaign.

**\$4,000,000 Went to Orphanages.** More than half of the benevolent fund, or \$4,999,192.63, has gone to the 21 Baptist orphanages of the South, two of which have been established as a result of this movement and all of which have been greatly helped by this forward program. Nearly 4,000 orphan boys and girls are being housed, fed, clothed, educated and trained for Christian citizenship in these orphanages and the Campaign has put between \$800,000 and \$900,000 into the maintenance of these institutions each year. The orphanages are now caring for more children than their normal capacities permit, but despite this extra effort the institutions have been compelled to turn down the applications of 2,000 other orphan boys and girls, simply because there was no room for them.

### Sick and Suffering Aided.

Large advance has been made in the ministry of Southern Baptists to the sick and suffering during the four years of the Campaign. At the time this movement was inaugurated Southern Baptists were operating twelve hospitals. The number now in operation has grown to 22, six others are practically completed and ready for service, while two more have been projected. At the time the Campaign began the value of Southern Baptist hospital property

was \$2,227,000, while today it has grown to approximately \$9,000,000 among the institutions already in operation. The number of hospital beds has increased from 1,625 to 3,000.

During the four years of the Campaign a total of 170,000 patients have been treated in these hospitals. Approximately \$1,000,000 worth of charity service has been performed there for needy but deserving persons.

**925 Old Preachers Helped.** Into the work of ministerial relief the Campaign has put the sum of \$1,440,133.31. More than \$500,000 has been put into supplying the needs of aged and dependent ministers and their families. This, representing the efforts of four years, is far more than Southern Baptists had ever done for old preachers in all their history prior to the launching of this forward movement. At the same time the Relief and Annuity Board has gathered an interest-bearing endowment and sinking fund for relief alone of more than \$450,000, and has gathered for its annuity work an interest-bearing endowment and sinking fund of more than \$1,100,000. Today 925 beneficiaries are carried on the rolls of the Relief and Annuity Board.

An effort is being made to bring the 75 Million Campaign to a successful completion during 1924. It is announced by the headquarters office, and forces are at work in every state in the territory of the Southern Baptist Convention with a view to enlisting the churches in the immediate discharge of the task they assumed in this five-year movement.

## Signals of Service

You've noticed the lines of telephone and electric light poles as you speeded by on trains or in automobiles. These power and communication lines which stretch along the roads, streets, and alleys are the outward signs of the little-seen service you so greatly depend upon to make your home and business what it is today.

Holes alone represent a big investment in your behalf. Placed end to end the holes dug for telephone, electric light, and trolley poles would make a tube reaching to a distant planet.

Then there are the cross arms, the wires, the insulators. Add to these visible signals of electricity, the expensive intricate plant equipment that is back of the button and the total investment reaches a mighty big figure. Public utility plants in Texas represent a cost of more than five hundred million dollars. Yet the cost to the average family for utility service is but about four per cent of its income. It is insignificant compared with the value received and the investment involved.
