METHODIST CONFERENCE HOLDS TWO-DAY SESSION ONE HUNDRED PRESENT

**PRESIDING ELDER G. S. HARDY OPENS SESSION.
WORK OF ALL CHARGES REPORTED PROSPEROUS AND OPTIMISTIC.**

SPLENDID SERMONS ARE DELIVERED

Laymen Make Written Report Urging Active Evangelistic Campaign. Authorize Purchase of Suitable Permanent Encampment Grounds

The Plainview District Methodist Conference closed Wednesday evening with more than 100 in attendance during both days. Besides the report in the last issue of The Brand the following is a brief summary of the business transacted during the two days session.

It was opened Tuesday morning, May 20, at 9:00 o'clock by Presiding Elder G. S. Hardy and remained in session two days. Some splendid sermons were delivered by Revs. Beavers, Lipscomb, Henson, Patterson and Bohman. The work of all the charges was reported in a prosperous condition, and an optimistic note prevailed throughout.

Wednesday, nearly the entire morning was devoted to the laymen—some great addresses were delivered by Prof. B. M. Johnson of the Canyon W. T. C. C., B. H. Oxford of Plainview, J. M. Wilson of Floydada, and Mr. Gault of Hale Center.

The laymen made a written report urging the laybrethren to an active evangelistic campaign—and urged at some length the necessity of the tithe as the minimum anyone should pay to the support of God's cause. There was a general discussion of this report by both preachers and laymen, but all on one side. The report was supported unanimously and enthusiastically.

J. Frank Potts was authorized to negotiate for a suitable place to be purchased for a permanent encampment ground. Mr. Potts was also elected District Lay Leader for the coming year, with J. M. Wilson and J. E. Swebston as associate Lay Leaders.

The visiting delegates were entertained in the homes of our people. The noonday lunch was served in the basement of the Methodist church by the ladies of the Missionary Society.

Many compliments were heard of our town and people and the splendid manner in which our ladies managed the entertainment of the guests. Many new friendships were formed and old ones renewed.

Under the head of recommendations, Mr. Marvin Brotherton of Floydada was recommended to the annual conference at Abilene.

Considerable time was spent under the head of licensing, passing of character, there being many preachers who are not regularly located and whose license runs out annually.

Rev. G. W. Shearer, of Amarillo, announced the training Sunday School to start next week at Clarendon. Rev. Shearer represented Clarendon College at the conference. Rev. W. T. Gray was here and represented the Methodist Orphans Home at Waco.

The conference voted their sentiments for unification of the two branches of the Methodist churches, north and south.

Those who attended felt the time was well spent. We were given both information and inspiration.

Next year the conference will be held at Floydada.

The following were elected as delegates to the annual conference to be held next fall at Abilene: J. E. Swebston of Tulsa, B. H. Oxford and S. S. Slaneker of Plainview, Mrs. J. E. Eldridge of Matador, J. M. Wilson of Floydada, J. Frank Potts and Mrs. J. Frank Potts of Hereford, and B. M. Johnson of Canyon.

Resolutions of Thanks were adopted as follows:

"We the members of the Plainview District Conference, in its fourteenth session, at Hereford, Texas, May 21, 1924, desire to express our thanks:

"1st. To our Presiding Elder, Rev. G. S. Hardy, for the fine program he has prepared for this occasion. Also for the brotherly love in which he has guided our deliberations, in the transaction of the business that has come before this body.

"2nd. To the pastor of this church, Rev. W. P. Garvin, and his Committee on Entertainment, who have so nicely planned for our comfort these two days we have been with them.

"3rd. To the members of this church and the citizenship of this community who have so open heartedly taken us

into their homes, and have so royally entertained us, and fed us morning and night.

"4th. To the good women of the church who have so wonderfully demonstrated their art in cooking and serving at the luncheons in the basement of the church.

"5th. To everyone, old or young, who have in any way, means or manner planned for or helped in the forwarding of this session of the conference.

"6th. Last but not least to Miss Swisher, who has been so faithful in her attendance, always ready and willing to lead in song the congregation or to entertain us with her solos.

"May the blessings of God be upon this church, its pastor and members in the prayer of thanksgiving from this conference.

"Jno. E. Eldridge,
"M. M. Beavers,
"J. P. Patterson."

Homeward Bound

I've launched my ship on the sea of life,
And I'm homeward bound today,
I fear no tide nor the storms fierce strife—

For I'm homeward bound today,
And the tempest may bear me far
But I'll follow the guiding star,
Through the clouded mists
To a land sun kissed
Through the maddening whirl—to the end of the world
I'll follow the guiding star—
The beckoning guiding star.

I've cast my lot with the rest of men,
And I'll follow my burden through,
I'll fight my fight with the best of them
And I'll gain the victory too,
But the struggle will not seem hard,
For I'm journeying on toward God,
To that land afar with its gates ajar,
I'm journeying home to God.

I've turned my ship down the stream of time,
Where the tide of life blows on—
And a peace has come to this soul of mine
Like a quiet evening song,
And I know I shall cross the bar
On my way to the guiding star,
And I'll sing a song as my ship sails on,
Though the storms may roar, I shall reach the shore.

For now I am homeward bound
Today I am homeward bound,

Ward Sunday School Has Successful Box Supper

The Ward Sunday School, nine miles north and three miles west of Hereford, entertained with a big box supper last Saturday night. The supper was staged for the purpose of raising money to buy a piano and song books for the school.

Bo Barber, auctioneer, sold the boxes, the proceeds amounting to \$140, quite a large sum considering that the Sunday School has only been organized a short time. A cake was sold during the evening which brought \$23.00. The cake was then presented to the most popular young lady, Miss Mary J. Crawford, who received five more votes than the next contender, Miss Ruby Morrill.

G. M. Suggs, assisted by members of the Ward community, organized the Sunday School several months ago and up to this time the membership has been dropped.

The Chautauqua closed last night with a good program and a large attendance. We feel like the Chautauqua is a great benefit to our little town and want to sincerely thank the committee who made it possible for us to have it. Everyone will be glad to know that the Chautauqua will be here again one year from the coming September. The committee decided that since Castro was developing into a cotton county money would be more plentiful in the fall, so by having Chautauqua come in September more might be able to enjoy the good things it brings us. Let everyone who didn't get to attend this time get in on it next year, for you miss the very best entertainment our town

Are your lights Fused or "Pennied"?

The fire marshal in Houston recently found 900 pennies in houses in the place of regular fuses. They amounted to that many fire hazards. Fuses are used in electric connections so that they will burn out when extra load is placed on the electric wiring either by chance or lack of knowledge of the capacity of the wires.

Examine your fuses and take out pennies and replace with fuses.

It's dangerous.

**FOOD
and
FRESHENED
AIR**

Perfect preservation of perishable foodstuffs demand dry, clean and chilled air and only constant air circulation will produce these ideal conditions. Food stored in an improperly built refrigerator where the air is "dead" or inactive, will sweat, mildew and become soft. If food is eaten in this condition, the health may not only be impaired, but serious illness may result.

The air in the Automatic is constantly in action—circulating. It is always dry, clean and chilled. The Automatic actually feeds your food freshened air—giving perfect refrigeration—properly preserving all foodstuffs and assuring you of health protection.

There are two natural laws upon which the Scientific Air Circulation of the Automatic is built. First—that cold air descends and will replace warmer air which rises. Second—that air circulating over and around ice becomes purified and freshened. These principals which are indispensable to the proper refrigeration were originally developed and perfected in the Automatic Refrigerator.

Several interesting tests can be made to show how the Scientific Air Circulation in the Automatic operates. Place a dish of kerosene on the lower shelf of the Automatic. Oil spots will appear on the surface of the water in the drip pan beneath the refrigerator showing that as the air becomes re-chilled and freshened it also is purified and free from the oil vapor.

A wet cloth placed in the Automatic is dried by the circulating air. A match can be lighted on the inside walls.

An onion on the top shelf of the Automatic can not harm milk and butter placed in the bottom compartment. Mixing of food odors is eliminated—the Automatic constantly Feeds Your Food Freshened Air.

FEED YOUR FOOD FRESHENED AIR

We handle a complete line of these Splendid Refrigerators. They cost but little more than the ordinary kind. COME AND SEE US.
