PANHANDLE TO BE SCENE OF TRI STATE

FIELD TRIALS IN THE FAMOUS PRAIRIE CHICKEN HOME

TENTATIVE PLAN

Discussed at a Recent Meeting of Sportsmen in Amarillo

A field trial in the famous prairie chicken country of the Texas Panhandle during the month of August is the plan of the Tri-State Field Trials Association, which is to be permanently organized at a meeting of sportsmen in the Longhorn Club Rooms of the Amarillo Hotel, at Amarillo, Thursday night, June 20th.

Every sportsman in the Panhandle and Western Oklahoma and Eastern New Mexico is expected to be present at this meeting which will be attended by L. C. Shaw, special representative of the Fish and Game Commission of Texas, who will assist in making the First Annual Tri-State Field Trials a success.

The prairie chicken are found only in the Panhandle and in North Dakota in the United States at this time and this will be the only field trial held in the south where these wonderful birds are used.

Tentative plans for the trials were discussed at a meeting of Amarillo sportsmen recently and F. T. Collins was elected temporary president and the Association and Henry A. Ansley, sport editor of the Amarillo Daily News, temporary secretary of the Assn.

The Panhandle country is signally blessed with prairie chicken and a number of large ranch owners have already tendered the use of their ranches to the Association for the trials. Chicken abound on these ranches and the dog owner with a dog that doesn't know what to do when he finds game had better stay away from the trials for the territory selected will abound in game and special wardens will see that the game is protected in order that the lovers of dogs may see the splendid animals in action against that wonderful bird, the beautiful prairie chicken.

## MARS WILL TEACH US HOPE FOR THE HOPELESS. ONE GOOD DEED. THE GREAT DERBY.

Sending photographs by wire is at last perfectly successful. This will mean more to the education of this earth than we can realize now. Mesely gratifying curiosity or capturing criminals by telephotography on this little planet isn't the important thing.

What can be done on wires can be done through the ether that separates this earth from other planets in our family.

We shall get from these planets radio portraits showing faces of their strange inhabitants and radio "blue prints" from Mars showing us how to dig canals to store the waters of the oceans when frost, pain and attrition make this earth perfectly round, leaving no natural cavities to hold the water.

If the earth were absolutely round, as it will be in a few million years, the ocean would cover it about a mile deep everywhere. We must know how to prevent that. Mars, tens of millions of years older than Earth, will reach us by radio.

If that sounds preposterous remember what you would have said twenty years ago if you had been told that a preacher in Chicago some day would be heard in Los Angeles and Newfoundland in the same second.

Republican gentlemen that tried to "frame up" Senator Wheeler, as corrupt detectives once in a while "frame" a victim when they need a scapegoat, are in trouble. Men in Montana who thought that copper should control the State, and the men in Washington who thought oil should control the Nation, both disliked Wheeler and decided to put him in jail. They will wish before the thing is over that they hadn't

made that attempt. It wasn't a good time for it, although it has doubtless often been done before.

Here's hope for the hopeless, the victims of hay fever. Mr. Coolidge, who has a "rose cold," sits for forty-five minutes in an air-tight room, breathing in air mixed with chlorine gas. He leaves saying "the trouble is gone."

Chlorine gas cures colds in men and epidemic in horses. Why should it not cure, or at least relieve, hay fever that tortures thousands for weeks every year?

When European nations decided to take what money they could get from China after the Boxer uprising, the United States got some of the indemnity cash, and then realized that it was international blackmail. The money was sent back to China to be used for education. China now thanks the United States Minister, saying that other nations have followed our example.

"So shines a good deed in a naughty world."

The Dutch Reformed Church of South Africa opposes prohibition, saying: "Wine is the gift of God which no one should denigrate."

That church takes seriously the Bible statement that the founder of Christianity, by a miracle turned water into wine, to make a wedding more cheerful. Some American preachers say the wine thus produced was non-alcoholic. But is it likely that wedding guests would have considered that a miracle worth while?

The Senate Committee of Agriculture rejected the Ford bid for Muscle Shoals by a vote of 10 to 6. That isn't final, but it shows how difficult it is to get anything through in Washington sometimes. It isn't quite so difficult if there is a "little black bag" with the right kind of lining in the office.

Wall Street men will discover that Secretary Mellon who had no trouble in cutting hundreds of millions of the national expenditures, will easily find a way to finance the soldiers' bonus.

Tens of thousands gather at Louisville, Kentucky, all excited, eager, speculating, betting on "the great American Derby." The winning horse will get \$50,000. For half the money that a good jockey earns in a week you can buy an automobile that will run any ten race horses to death every day and never get tired. Speed in horses no longer means anything useful. Racing, betting, horse excitement will continue, for it takes men a long time to get over anything they have been doing for a thousand years.

# Poem by Uncle John

COMES NOW, the glad "vacation-time" so happened as real... Seduction is her favorite crime, though she delights to steal—she licks us with an art sublime—resisting in appeal...

She hails us from her arched loam—from haunts of rose and fern... She calls from Bed-burnt-by-the-sea, or, Bass Creek at its turn—and when she casts her lure at me, she reckons I am here!

So-out from Mammon's fierce demands, my weary soul would fare... You'll see me spittin' on my hands—my golf-ball in the air—sweet maid—yer uncle understands—Gwendolyn, I'm be there!

## Beau Randolph, One of The Ten Greatest Living Hereford Bulls

In the June issue of the American Hereford Journal W. C. McGavock, of Columbia, Missouri, a recognized authority and breeder of Hereford cattle, gives a very interesting history of the American Hereford cattle. According to Mr. McGavock it was in 1872 that T. L. Miller, of Beecher, Illinois, started the first herd of registered Hereford cattle in America. Mr. Miller's success was the beginning of a breed of beef type now recognized as the best in America.

Many great bulls of the Hereford breed have made history in America and in this article Mr. McGavock gives the history of ten of the most famous bulls now dead and of ten living. Of the ten living Beau Randolph is included as one, the reference to this famous bull being in the following language:

"Beau Randolph 418803. Calved June 23, 1911. Bred by Gudge & Simpson, Independence, Mo. Sire Beau Presiden 171349 (Anxiety 4th.) Dam Alice 3rd 312596 (Anxiety 4th.) Grand Champion Texas State Fair, 1916. Bought 1915 by Jowell & Jowell, Hereford, Texas, for \$5,000; by Mrs. H. M. Pegues & Sons, Odessa, Texas, for \$6,000."

Mrs. Pegues & Sons (Mrs. Pegues now being Mrs. Lee Satterwhite) sold Beau Randolph in 1920 to H. Gaudreault & Sons, Brady, Nebraska, for \$21,000.—Panhandle Herald.

## THE GOLDEN RULE PRODUCE COMPANY

Roy Rutherford was badly bruised and received a number of broken bones last Friday afternoon when his jumper got tangled in the fly wheel of his tractor. His right arm was broken, left arm jerked out of place, collar bone broken, and a number of ribs broken.

He was carried by this fly wheel three times around between it and the frame of the tractor. He was fortunate enough to catch hold of the lugs on the drive wheel, while the fly wheel tore off his clothes and freed him.

Local Medical aid was immediately summoned. But owing to the severe bone breaks Mr. Rutherford was taken to Amarillo Tuesday and placed in a hospital.—Vega Sentinel

### Fire Alarm Arouses Citizens Wednesday Nite

The fire alarm sounded Wednesday night about nine o'clock. The first report was that Fred Millard's barn was on fire but it later developed that the car of W. H. Davis across the alley from the Millard barn was burning. The fire alarm was sounded but on the arrival of the firemen at the

scene of the blaze the car was practically destroyed. Mr. Davis had just installed a new engine in his car and the loss was quite heavy. Mr. Davis was inspecting the gas supply with a lighted lantern when the gasoline fumes exploded, setting fire to car, and the barn in which the car was standing.
