

# The Hereford Brand

TUESDAYS—TWICE-A-WEEK—FRIDAYS

24TH YEAR, NO. 44

HEREFORD, DEAF SMITH COUNTY, TEXAS, FRIDAY, JUNE 20, 1924

## WHAT'S GOING ON OUTSIDE HEREFORD

Frank G. Carpenter, famous traveler and newspaper correspondent, died at Nanking, China, Wednesday, after a short illness.

Mr. Carpenter was making a tour of the world and readers of the Dallas News will miss his weekly stories from foreign countries.

Rhode Island state senators engaged in a free-for-all fight at Providence Tuesday when Republican and Democratic senators became over-heated in partisan wrangles. It required a squad of police to restore order in the senate chamber.

Gaston Doumergue is new president of France and says he will continue the French policy of holding on to the Rhur until the German situation clears up. The new French Premier, Herriot, is the leader of the radical party in France.

A round up of members of the industrial workers of the world in Oregon, Washington, California, Nevada and Arizona is to be conducted by the United States department of Justice because of the alleged activity of the organization in spreading the foot and mouth disease in California and illegally aiding in the general boycott of California goods. It was announced Thursday by G. L. Fink, assistant United States district attorney of San Francisco.

The campaign was directed from the I. W. W. headquarters in Chicago and infected dogs were used to spread the infection over a large area, Fink said.

The Democratic national convention opens in New York next Thursday and already the advance guard is feverishly busy arranging pre-convention details. Headquarters for McAdoo and Governor Smith of New York are established and putting out propaganda for their candidates. There is much uncertainty as to the outcome. Secretary of State Hughes has informed the Japanese Government that the door is closed for any change in the immigration law excluding Japanese and that the act of Congress must be considered as final.

The Secretary of State in a note answering Japan's protest on May 31 against the exclusion law, expressed the good will of this Government towards Japanese and recalls the wish of President Coolidge to modify the law, but declaring that the action of Congress "is mandatory upon the executive branch of the Government and allows no latitude for the exercise of executive discretion."

Great Britain has broken off all diplomatic relations with Mexico as a result of the refusal of the Mexican Government to rescind its order expelling Herbert C. Cummins, British agent for a number of years.

At the request of the British Government the American Embassy at Mexico City has taken over the archives and effects of the British Legation.

This means the breaking of diplomatic relations between the two Governments, as it will result in the immediate recall of Cummins.

This action came Wednesday after Mexico had refused finally to withdraw its order expelling Cummins. It follows to a long aggravated state of affairs between the two Governments, brought on when Mexico objected some weeks ago to alleged "discourtesies" of Cummins, and asked for recall. This Great Britain refused, and Mexico ordered that he be expelled.

Lieut. John A. MacReady, veteran of the non-stop cross country flight, Thursday night escaped death by making a parachute jump from his airplane when it burst into flames at an altitude of 1,500 feet near Dayton, Ohio.

When the plane hit the earth the crash brought hundreds of people to the scene, who stood by helpless, while the heat from the burning wreck kept them at a distance from which they were unable to rescue the pilot, whom they believed imprisoned in the flames.

As the flames smothered away, permitting search of the wreckage for the body of the pilot, Lieutenant MacReady pushed through the crowd and said he had landed safely about a quarter of a mile away, floating to an easy landing.

## Jensen-Farley in Wrestling Match Amarillo Friday

All preliminary dope points to a huge attendance of Hereford wrestling fans at Amarillo Friday night when Thor Jensen matches skill, strength and science against the redoubtable Gal Farley. This is going to be a real wrestling match, and some one is due for keen disappointment Friday night.

## First Lady Sees Son Graduate

Mrs. Calvin Coolidge, first lady of the land, and her oldest son, John Coolidge, as he was graduated from the Academy at Mercersburg, Pa., last week. Mrs. Coolidge motored from the capital to attend exercises.

## Shamrock Has Small Cheese Factory; would Pay Big Here if Right Man to Handle it Could be Found

While doing Lyceum work about five years ago in the southern part of Idaho, A. M. Hilburn conceived the idea of a cheese factory at Shamrock. In the section through which he was traveling at that time, almost every town has a cheese factory, and he was given every opportunity to study the industry. It was not Mr. Hilburn's plan at that time to establish the factory himself, but to induce a good cheese maker to come to Shamrock. He became acquainted with the man who had the reputation of being the best cheese maker in Idaho and sought to get him to come to this city but was not able to do so.

Later, while traveling in Wisconsin, the greatest cheese producing state in the Union, he made other attempts to get a cheese maker to come to Shamrock but all the best ones were busy and prosperous and could not be prevailed upon to leave. He then decided to learn cheese making himself and devoted his spare time between Lyceum dates to that end. He relates that he had to pay the first cheese maker he worked for. After gaining a little experience he was allowed to work for nothing. He studied cheese making from every angle and became an expert cheese maker thru practical experience in the factories of Wisconsin, some of the larger of which produce as much as 17,000 lbs. of cheese daily.

At the close of the last Lyceum season he returned home and announced his intention of establishing a cheese making plant. His friends, ourselves included, thought at first that he was only joking and it was only when he made use of the Texan's office typewriter to make orders for cheese making equipment that we became convinced of his earnestness.

Mr. Hilburn has made a model factory at his home about half a mile south of town. His present plant is small in size, but big in its possibilities. He has all the equipment necessary for cheese making and has had a special cellar dug for the curing and ripening process. This cellar is over six feet deep, is cool in the hottest weather and is ideal for the purpose. Two ventilators insure plenty of fresh air. In the cellar is a specially constructed cabinet of screen wire, which is mouse, fly and insect proof, where the cheese is stored during the curing process.

He now has about 200 pounds of cheese in various stages of curing. The cheese range from five to seven pounds in weight and are of the very highest quality.

The process of cheese making is very interesting to the uninitiated. Every step requires the utmost skill and carefulness. Four weeks or longer are required for curing American cheddar, or full cream cheese, and about eight weeks for brick cheese. After being taken from the mold each cream cheese is wrapped in cheese cloth, several days must then lapse before the cheese is coated with paraffin. Mr. Hilburn allows more time for this process than is required by the Wisconsin state law. Each cheese must then be turned daily until it is cured. All cheese are dated when taken from the press and again when paraffined, so that Mr. Hilburn can tell exactly when each one is ready for market.

All of Mr. Hilburn's cheese is made from the whole, rich milk from his own full blood Jersey cows. While full cream cheese is his principal product,

he also makes an extra high grade of brick cheese. The process required in making brick cheese is more intricate and longer than that of cream cheese. Each brick cheese must be washed daily while ripening.

Mr. Hilburn has already placed some of his cheese on the market, and all those who have been so fortunate as to obtain some of it are unanimous in the opinion that it is the best cheese they have ever eaten. Local merchants are paying above market price for Mr. Hilburn's product, and he is unable at present to supply the demand here in Shamrock. However, it is his purpose to enlarge his plant from time to time as it is necessary to take care of the demand, and expects ultimately to supply the merchants in all the neighboring towns with cheese.

**Cleanliness Important Factor**  
The thing that strikes the visitor to Mr. Hilburn's plant most forcibly is the cleanliness and care devoted to every stage of the cheese making process. "Cleanliness is essential to cheese making," asserts Mr. Hilburn. "Most people are very particular about their butter and other dairy products being produced under clean conditions, and think very little about the conditions under which the cheese they eat is produced. It is more important that cheese should be made in clean surroundings than butter."

Mr. Hilburn is also making investigations as to the adaptability of this section for the making of Swiss cheese. This kind of cheese can only be made under certain conditions. The principal consideration is that the land where the cows are pastured from whose milk the cheese is made, must contain at least four per cent of lime. Both the land and water in this section contain lime and it is quite probable that this may be an excellent country for producing Swiss cheese. Wheeler County Texas.

## Hottest Weather Known in Southwest Continues

The hottest spell that the southwest has experienced in years began last week and still continues over this section, although clouds, thunder and lightning and a small shower, Thursday night cleared up the heat somewhat and Friday has been much cooler. Hot winds and blistering weather has hurt crops to some extent, although the magnificent ground season is sustaining plant life very well so far. But rain must come, and come within the next few days, if serious damage to young stuff is to be avoided.

What will be ready for the harvest very soon now. What there is of it is fine, state all reports received, but the acreage is small owing to the wet fall last year, which prevented getting the ground in shape for planting.

A general rain is now needed here and needed at once, and every one is holding their breath, hoping the best.

## Cox Aston Wedding at Home of Bride Wednesday

Wallace C. Cox and Miss Bobbie Aston were united in marriage Wednesday evening at 8:30 o'clock at the home of the bride, the home of Mr. and Mrs. A. A. Foster, where the bride has been making her home since coming to Hereford.

The home was beautifully decorated in roses and pot plants. Only a few guests were there to witness the ceremony. The bride and groom entered to the strains of Mendelssohn's "Wedding March" played by Mrs. Paul J. Merrill. The wedding ceremony was pronounced by Rev. Paul J. Merrill.

Mr. Cox is a son of Mrs. D. N. Cox and has been with the Gyles Grocery Store as a clerk for the past five years. He graduated from the Hereford High School with the class of 1917, served during the World War with the American Army and received an honorable discharge at the close of the war. Wallace has been with the Frank Gyles as clerk and jazz ad writer.

Miss Bobbie Aston one of Hereford's most popular and handsome young ladies came to Hereford from Tulla about nine years ago and since that time has made her home with her sister, Mrs. A. A. Foster. Miss Aston began her clerkship with the J. A. Callen store and continued with Mr. Newell at the time of his purchase of the Callen stock, and has since remained with the Newell Store a steady and reliable employee. Miss Aston was attired for the occasion in a beautiful gray georgette gown with the gray hose to harmonize and black satin slippers. The groom wore the conventional blue. Immediately after the ceremony light refreshments were served.

Mr. and Mrs. Cox have leased the J. H. Cardwell residence on Third street at which place they will make their home.

## Barrett Wins in County Court vs Benefit Number 2

County Court closed for the month of June, Friday evening. Only one case was tried, it being the S. A. Association No. Two et al. The Court decided for the plaintiff, S. A. Barrett.

## Mrs. Martha E. Lance Passes Away Thursday

Mrs. Martha E. Lance passed away last Wednesday, at her home in Sunmerfield, the remains were brought to Hereford Thursday, the funeral services were held at the Methodist Church, Thursday afternoon, Rev. J. E. Walker officiating. The remains were laid to rest in the Hereford cemetery. Mrs. Lance made her home with her son Robert Lance near Sunmerfield, she was eighty-nine years past and has made her home with her son for the past eleven years. Mrs. Lance came here from Chillicothe, Texas.

## West-Way School plans Big day on July 4th

West-Way is planning big things for the Fourth, said S. G. Moore. The West-Wayites are going to have some speeches in the morning, a big basket dinner and a rodeo and a base ball game in the afternoon performance. The program will be held at the school house July 4th, where plenty of water and other conveniences can be had.

## Co. "E" Guard Officers Go to Austin Wednesday

Captain B. B. Farmer, Sergeant Harry Cannon and corporal Ramsey Landrum left Wednesday morning for Austin to take part in a rifle shoot with other members of the National Guard. The three men will be gone about eight days.

## District Court Closes Saturday, Judge leaves

District court closed Saturday noon with a hung jury on the J. H. McCaskey vs Ed Doniphan case. Judge A. A. Lumpkin left Saturday afternoon for his home in Amarillo. The Grand Jury was dismissed Saturday evening after turning in two indictments.

## Jones & McLean make Big showing on building

Jones & McLean, with the aid of artist Stapp, are making a huge Purina sign on the south roof of the building. Red white and blue are the Purina colors and the sign show up, with its checker board design, like a big Fourth of July poster.

## That New Railroad Question is Under Discussion

For months past all West Texas has been agitated over the question of a railroad from Fort Worth to Tucumcari. Col. Powell of Chicago has made application for such a line to the Interstate Commerce Commission.

Now comes report of mysterious engineering crews of the Santa Fe paralleling the proposed line with stakes, and there's a lot of speculating as to just what is in the air. The Fort Worth Star Telegram of June 17 says:

In a message received Monday by The Star Telegram from W. B. Storey, Chicago, president of the Atchison, Topeka and Santa Fe Railroad, he confirmed the Star Telegram's article that appeared Sunday to the effect that Santa Fe surveyors are running lines from Tulla to Silverton and that they are gathering data and information for an analysis of the situation.

Storey wired that so far construction of an extension from the Plains has not been authorized. The surveying crew, after it transferred headquarters from Tulla to Silverton, announced that it had orders to run lines as far as Benjamin, about half way between Fort Worth and Tulla.

While Star-Telegram correspondents has reported that a crew was making this survey, no definite, official information was received until Storey's message came. If the Santa Fe intends to build from the Plains to Fort Worth via Benjamin, as reports indicate, exact plans for such a route are not known.

Just before the World War the Santa Fe made an effort to purchase the Gulf, Texas and Western, which runs from Seymour to Mineral Wells, but whose track ends at Perrin. Benjamin is west of Seymour. It is known that the owners of the G. T. & W. have been anxious to sell for sometime, and the only thing that prevented sale to the Santa Fe before was a disagreement in the price.

That there is possibility of the Santa Fe going to Seymour and then acquiring the G. T. & W. was pointed out as a feasible and practicable development. Rails however, would have to be laid from Fort Worth to Perrin. The proposed Panhandle and Gulf Railroad, promoted by C. H. Powell has indicated that it may seek track rights over the G. T. & W. but no steps have been taken for such rights so far.

While neither the Santa Fe nor Fort Worth and Denver would have to build terminal facilities here, the Powell road would have to establish passenger and freight terminals, besides yard facilities. Some significance may be attached to a statement made Sunday in Dallas by Edwards Chambers of Chicago, vice president of the Santa Fe, who indicated that the Santa Fe in the near future expects a great expansion of its West Texas traffic, pointing out that the Santa Fe's new terminal could handle all increase to advantage. Chambers is on an inspection tour in the Southwest.

## Road Conditions To Be Radiocast From Austin Now

A letter from J. M. Rider, Maintenance Supt. State Highway Department of Amarillo to county Judge, W. E. Hamilton reads as follows:

Commencing today, the State Highway Department will broadcast by radio, road condition reports, covering the preferred systems in the state of Texas.

In order to make these reports of value to the public it is necessary that I have prompt and reliable information as to any change in road conditions. In asking you to get this information to this office, I am, presuming somewhat but feel that I can depend on you to assist in working out a reliable system for the benefit of the general public.

You are authorized to call "State Highway" Department, Phone 821, Amarillo at any time there is any change. Calls should reach me by 12 o'clock noon. As the information must reach Austin by 4 p. m.

It is not necessary to report every day but only when changes occur. Thus:

"One half inch rain Hereford to Embarger, roads heavy but passable." "After each rain and the roads are dragged, it is just as important that you report." "All roads dragged and in good condition." Mr. Rider was over the Southwest Trail about a week ago and in another letter to Judge Hamilton commented of the fine condition of the Trail thru this county. Anyone who has been over this road, and especially the west end, can only come to one conclusion that it is in the best shape that it has ever been.

## PRESS ASS'N CONVENTION AT AMARILLO

STATE ORGANIZATION MEETS WITH PANHANDLE BOYS

## WELLS SELECTED

As President, Panhandle Ass'n; Steckman on the new Board

J. Claude Wells, editor of the Wellington Leader, was elected president of the Panhandle Press Association for the ensuing year at a business meeting of that organization at Amarillo Thursday following the meeting of the Texas Press Association.

J. G. Graves Portales, N. M., was elected vice-president. Clyde Warwick, Canyon, secretary-treasurer; Joe Smith, Pampa, and W. R. Steckman, Hereford, members of the executive committee.

The association voted unanimously to hold its 1925 convention in Amarillo. The date of the convention will be set by the executive committee, which will also arrange the program for the convention.

The Panhandle Press Association is said to be one of the largest regional associations in America. It was one of the principal factors in securing the 1924 meeting of the Texas Press Association for Amarillo and is serving as joint host with Amarillo in entertaining that body.

Owing to the meeting of the Texas Press Association, the Panhandle organization will not hold a convention this year combining its meeting with that of the state organization.

The Texas Press Association convention at Amarillo attracted between 300 and 400 publishers from every part of the state and the visit to this section by these keen observers will undoubtedly result in great benefit to the Panhandle country as a whole. Amarillo has entertained them royally and made a good impression upon them. The convention ended Friday afternoon after three days of instructive meetings and social intercourse.

—More People—More Farms—

## Odds and Ends

It is estimated that Quay county has 100,000 acres of wheat. It is also estimated by some of the plains farmers that it will harvest an average of ten bushels to the acre. Some wheat! Tucumcari should tare off enough of the Ragland Cap to enable the trucks to get easily to town. The county is now working this road and will have it ready for the wheat haul by the time the thresher starts. This is a great country, ain't it?—Tucumcari American.

A rose tree—maybe you never saw one, but you just haven't been to the right place if you haven't. H. B. Hulien, horticulturist and apple king, has a rose tree in his yard in full bloom. Four years ago Mr. Hulien grafted a rose on a black locust sapling and now his rose tree is eight feet high, with no branches for six feet. At this height it branches into a perfect rose bush, much larger than ordinarily found in the flower garden.

"What kind of a rose did you use?" a representative of the Herald asked Mr. Hulien.

"Just a country rose bush, that's all. I know about it," was Bob's laconic reply.

Mr. Hulien has many varieties of fruit and other trees around his home place on West Eighth street. He has made a union of the roots of a small black grape vine and a vine which bears large white grapes and has produced a grape of wonderful flavor and heavy fruiting quality.—Plainview Herald.

At the meeting of the Panhandle Bankers Association last week in Amarillo, it was voted to give a fund of \$15,000 to the West Texas State Teachers College to be used as a loan fund for worthy students attending this institution.

President J. A. Hill was asked to explain the use the fund might have, and the various other loan funds now in use at the College. He explained the rapid turn over made by these funds, and the noteworthy fact that since the funds were started, not a single dollar has been lost by a bad loan.

# SUNDAY SERVICE

Church and Societies

### Methodist Church

Next Sunday will be the beginning of our Revival Meeting. Rev. S. H. Fisher, of Dallas, Texas, will do the preaching, and our very faithful and efficient choir leader, Miss Swisher, will have charge of the music. All Christians who have an interest in the moral welfare of the community are cordially invited to cooperate in the Meeting.

Definite announcements will be made Sunday as to the time of the daily services.

At 7:30 Sunday evening the Epworth League will have a very interesting service. All the young people are invited to attend this service. The Pastors of the town are especially cordially invited to be with us.

W. P. GARVIN, Pastor.

### Baptist Church

Sunday School, with A. O. Thompson the General Supt., at 9:45.

Morning service at 11:00. All B. Y. P. U. meetings at 7:30 p. m. There will be no evening services during the Revival Meeting of the Methodist Episcopal Church.

Let us all make the most of the services we are to have.

Visitors are cordially invited to worship with us. Come and Welcome! The Home-like Church.

W. R. HILL, Pastor.

### First Christian Church

Interest in both church and bible school work is increasing each week. Attendance is also travelling uphill. If you are not regularly in your place at each service you are missing a great deal. Our goal is to reach and maintain an average of over 200 in Sunday school by July 13.

Sunday school begins promptly at 9:45—please be on time.

PAUL J. MERRILL, Pastor.

### Presbyterian Church

9:45 a. m. Sunday School. Morning Worship at 11 o'clock. 2:30 p. m. Jr. Christian Endeavor. 7:15 p. m. Intermediate and Senior Christian Endeavor. Everyone invited.

J. R. Sharp, Pastor.

### Church of Christ

Two Blocks North of Courthouse Bible Study Class at 10:00 a. m. Regular Lord's Day Worship from 11 to 12 a. m.

W. A. Knox, A. S. Higgins, Elders

### St. Anthony's Church

Mass Sunday morning at 10:00. Evening service at 8:00.

Rev. Fr. Salvator Francis, S. A.

### C. E. Presbyterian Church

Sunday, June 22. Topic: The pledge the foundation of Christian Endeavor—Neh. 8: 1-3, 5 & 8.

Leader—Miss Dorothy Boardman. What does the pledge do for the in-

There are but sixty European bison left in the forests of Europe. Efforts are being made to preserve for Europe this interesting animal in the same manner that the American bison have been saved from extinction.

Good Job Printing at The Brand.

### STOP THAT ITCHING

Use Blue Star Remedy for Eczema, Itch, Tetter or Cracked Hands, Ring Worms, Chapped Face, Poison Oak, Sunburns, Old Sores or Sores on Children. It relieves all forms of Sore Feet. For sale by

CITY DRUG STORE

dividual Endeavor?—Miss Viola Nump. How can we make our daily Bible reading more profitable?—Mr. Leonard Foster.

What gains come from regular church attendance?—Miss Dorothy Shore.

How does the pledge refer to committee work?—Mr. Howard Golden.

What development comes from speaking in prayer meeting?—Mr. Rodney Williams.

Pastor five minutes.

Business.

Benediction.

### Epworth League

Radio Program

Leaders: Gladys Byrant and Pauline Swartz.

Song.

Prayer.

Scripture reading.

Duet—Station (WCAP) Washington, 409.

Ten Commandments for recreation—Station (WMC) Memphis 500.

Reading—Station (WHB) Kansas City, 411.

What is it?—Station (WJZ) New York, 455.

What is it for?—Station (WAAW) Omaha, 300.

Solo—Station (K G O R) Nashville, 425.

Business.

Offering.

Benediction.

—“More People—More Farms”—Columbus, City, Iowa, has a woman mayor and a council made up of representatives of the fair sex.

Ira Sparks, an Indiana carpenter, who left Honolulu alone in a twenty-three-foot boat en route “to the Holy Land, to take up the work of Moses,” landed in the Philippines, Island of Mindanao, March 22. He was at sea seventy-three days without sighting land.

When a Japanese merchant goes to his banker for credit, the banker wants to see his balance sheet but also asks about the family. Who are his relatives? who are his wife's relatives? Will the family council back him up? If the family is a good one he has no difficulty in obtaining credit.

J. C. Allred  
(re-election)  
B. J. Mecankey

**For Public Weigher:**  
C. F. Arthur

## Political Announcements CASTRO COUNTY

The following candidates authorize us to announce them for the office under which they are listed, subject to the action of the Democratic Primary:

**For County and District Clerk:**  
Joe Hastings  
(re-election)

**For Sheriff and Tax Collector:**  
Bill Burman  
(re-election)

### WYCHE

Sunday School will begin Sunday morning at 10 o'clock.

The regular "42" will be at the school house next Saturday night. The committee to entertain for the evening are Mrs. G. F. Branson and Miss Gladys Applegate and Messrs. J. W. Dugan and Leo Wolfe. They have been very busy on a program to be given before we start playing "42." Everyone is invited.

The singing Sunday night, was well attended and when Messrs. Leslie Robson and G. F. Branson play their saxophone and slide, we have very pretty music. We thank them for helping our Sunday School too.

Mr. Charles Penn happened to an accident Saturday week. In some way while fixing his lister, he was caught and an ugly gash was cut in his forehead. Medical aid was soon obtained and now he is reported doing fine.

Mr. Frank Owen of Forrester, Texas Mr. and Mrs. Clem Dugan of Wildorado were all-day guests of Mr. and Mrs. J. W. Dugan and family, one day this week.

Misses Callie McKenney and Ethel Decker spent Saturday night with Miss Gladys Gold.

Mr. and Mrs. J. L. Hoffman and family attended a dance at Umbarger, Monday night, and one at Happy Sunday night.

Miss Eiberta Ried is attending the Normal at Canyon. She visited with Mr. and Mrs. Robson Monday. They took her back to Canyon, Tuesday morning.

Mr. and Mrs. J. C. Williams and family and Joe Hough spent Sunday in the Sam Hembre home.

Mr. and Mrs. Forrest Randall and Mr. and Mrs. Edd Horn of Amarillo and Miss Corinne Jewell of Hereford spent Sunday on the creek enjoying the day swimming and camping.

All the families along the new mail route were very expectant Monday morning. All were watching for the mail carrier to see what time the mail arrived. We are glad to get the mail route for it is so much more convenient.

Mesdames J. C. Sanders, Donald Sowers and Mrs. Sowers mother, Mrs. Eyns, spent Thursday with Mrs. Leo Wolfe.

A large crowd attended the party Saturday night at Mr. and Mrs. E. M. Cox. Play games and "42" were played until a late hour. There were about fifty-five present.

Mesdames, Leo Wolfe, Branson, Robson, and Messrs. Wolfe Branson and Robson and their families spent Monday evening with Mr. and Mrs. R. W. Hough.

Miss Anna Hoffman returned home Saturday from Happy where she has been going to school.

Miss Vera Dugan spent Friday night in her brother's home Mr. Clem Dugan in Wildorado.

"More People—More Farms"

### JOEL

Mrs. Green and daughter Hazel spent a day last week with Mrs. Lee Conklin.

Mr. Felix A. Robinson and family attended the singing convention at Canyon Sunday.

Mr. Walter London went to Amarillo Friday to meet his mother, who has come to make them a visit.

Lee Conklin was at Amarillo on Friday.

We are surely having hot winds these days. Who ever heard of it being 110-degrees in the shade, in the Panhandle before? and it has been from 104 to 108 nearly any afternoon for over a week. We must be moving south.

Robt. Green is having an attack of appendicitis.

Mrs. Minnie Walker and son Ceal attended the Plantau Singing convention at Canyon Sunday.

There was a much smaller attendance than expected at the Cooperative Marketing Picnic held at Suphur Park Tuesday. Owing to the extreme heat and mixup of dates in the Brand. Much information was given by the speakers and much interest manifested by the members in answer to many questions asked for information.

"More People—More Farms"

More than 20,000,000 dozen eggs were handled by three California organizations marketing poultry products in 1923. Approximately one-fifth the total quantity was sold in New York City.

Foreign authorities credit Japan with practically 100 per cent literacy.

A new petrified forest has been found in the Mojave Desert in Calif.

Up to 1840 the "buggy" was practically unknown, the common mode of travel being horseback.

Approximately 20,000,000 tons of scrap iron and steel are marketed annually to be remelted and used again.

From January 1 to April 15, Dimmitt county, Texas, shipped to the north 2,116 carloads of vegetables.

Almost 200,000,000 pounds of canned milk were exported from this country in 1923—twelve times the quantity of canned meat exported.

Enough immigrants have registered at the American consulate at Kovno, Lithuania, to fill the Lithuanian quota to the United States for seven years.

A saw mill is now in successful operation which can make four foot wide boards from lumber wastage that was formerly a dead loss.

Fully \$40,000,000 worth of wheat, corn, oats, grain, sorghum and broom-corn are destroyed annually by chinch bugs, according to the United States Department of Agriculture.

Dr. Kenyon L. Butterfield, president of the Massachusetts Agricultural College, has resigned to accept the presidency of the Michigan Agricultural College.

Thrown overboard from the sea wall at the Naval Academy by classmates in an annual frolic, Midshipman Leicester R. Smith of Kent, Ohio, was killed recently.

Texas peach prospects are promising, according to the State markets and warehouse department. Trade estimates give Cherokee county a possible 300 cars of Elbertas, or three times the movement for the State as a whole last year.

More than 2,500,000 cows are now being milked by machine, according to the Farm Implement News.

Experiments in New York, covering a period of ten years, show an increased potato yield of 97.5 bushels to the acre as a direct result of spraying.

Shipment of citrus fruit from the Rio Grande Valley this season show an increase of more than 64 per cent over last season, according to the Texas Department of Agriculture.

According to the Farm Implement News, American farmers saved 1,382,339,294 days in producing their eight leading crops by machine methods, compared with the methods of farming in vogue less than a hundred years ago.

The natives of New Guinea are immune to ptomaine poisoning. Tins of canned food that had gone bad on explorers were in great demand. At Port Moresby, trading in spoiled tinned foods has become a sizeable business.

Experiments made in France, with the object of discovering whether light or heat is the determined factor in the reddening of cherries, indicates that light exerts no direct action upon the process of turning red; heat alone counts in the matter.

The American flag is the second oldest flag in use on earth today.

Twenty-five per cent of the 2,500,000 public school pupils of the country are taking business subjects, according to authorities connected with the United States bureau of education.

The quantities of fuel obtained from Germany by France and Luxemburg in 1923 amounted to only 28 per cent of the annual delivery as scheduled by the reparations commission.

A new process of manufacturing synthetic marble has been devised in which the marble is made by a wet method in place of the fire method. The product has the same high luster as marble.

A proposal has been made to change the name of Manhattan Square in New York City to Roosevelt Square and the proposal contains the suggestion that a space in that square be reserved for a Roosevelt memorial.

A fifteen-story hotel and church will soon be built around and over the old Calvary Baptist Church on West Fifty-seventh street, in New York City, while the congregation will continue to sit in their accustomed pews.

# "THE GOLD BUG"

## ROYALTY PLAY

At Progressive, Saturday Night,  
June 21, 8:30 p. m.  
COME to Progressive COME  
Four Acts

"THE GOLD BUG," by Walter Ben Hare, is a modern comedy telling the story of a gay young man in New York—how his millions palled on him—how he became penniless—how he tried to work for himself—how he was defeated and how he came back—how he sacrificed and was rewarded.

The immortal tale of Edgar Allen Poe, has furnished the back ground for one of the many incidents of this clever, clean comedy. William LeGrand learns that his grand father has disinherited him—a tempting offer is made to him to enter a dishonorable business, but he decides to win or lose his own way, in an honest manner. The clever comedy is strengthened by dramatic scenes of intensity. The tone of the play is clean and uplifting.

The real purpose of the play is to show the growth of responsibility and the strengthening of the moral nature of a young man hampered with too much money.

### PROGRAM

### Large attendance at Sulphur Park, picnic

The picnic of the Fawn Bureau Association June 17 at Sulphur Park was well attended and enjoyable, through a nicely balanced program. Judge L. Gough and other members of the movement made addresses and a business session was held during the day. Quite a few business men of Hereford were guests of the association for lunch on the banks of the creek.

America replies to Japan and the text is to be made public in Tokio Thursday. A protest was made by the Japanese government to the exclusion section of the new immigration law. Ambassador Hanihara, after his visit to the state department, proceeded at once to have the official of the embassy to translate the document and have it cabled to Tokio. Publications will be made over the world about Thursday.

The richest radium ore yet discovered contains only one part of radium to from 10,000,000 to 20,000,000 parts of other substance. A pound of radium is now worth about \$50,000,000!

There on an average of 3,000,000 persons sick all the time in the United States, and 42 per cent of this illness could be prevented, according to the health commissioner of Chicago.

By the 1920 census, 1,060,858 boys and girls between ten and fifteen years of age are tabulated as "child laborers" employed in factories, mines, quarries, agricultural work, and trade in the United States.

The forest service reports that 36,000 forest fires every year destroy timber and property valued at \$16,500,000 in the United States, besides costing many human lives. Be careful with fire in the forests.

It is estimated that 90 per cent of last year's production of cement was shipped in cotton bags, 400,000,000 of these bags being needed; 34,000 miles of cotton fabric were required to make the bags.

San Francisco has the highest cancer death rate in the world, with 500 deaths reported in the past five years, according to prominent physician in Newark, New Jersey, who has made a study of the disease.

### When You Pay Your Monthly Bills

Do you have anything left for yourself—that is, to set aside in a savings fund?

If in the past you have had nothing left for yourself, try this month to proportion your expenditures, so much for clothing, fuel, etc., and set aside as a beginner a fair amount as a saving fund.
