"Tappings" Came At Intervals, Ison Relates To Jury In Conspiracy Trial

NEW YORK, Aug. 19 (47)—Joseph "Big Jos" Ison. 47, a West Indian negro and one-time Harism policy game operator, testified in supereme court today at the conspiracy trial of James J. Ison said Hines got \$125 a week from the multi-million dollar policy racket for political "protection."

The witness said arrests for policy violations dropped 50 per cent late in 1932 and early in 1932—the period shortly after Hines, according to District Attorney Thomas E. Dewey's accusations, entered into a conspiracy with Dutch Schultz to "put the fix" on the racket.

The Big Springers apparently had the afternoon setto sewed up, going shead in the third frame on home runs by Pat Stasey and Frankle Jacot, but the Clovis offense suddenly exploded in the seventh frame and, aided by a magnificent boot by Bobby Decker, the outlook changed. The game, announced as a seven inming affair, swept into the eighth and that was all the opposition needed. They pushed across three runs.

The peace establishment, including the former federal army of Ausmittled to the use of republication amounts to about six hundred thousand men under arms. It is estimated that in the first stage of the maneuvers, by about September 5, this number will be increased by more than a million men, and that in the second stage, when the maneuvers will be conducted by the 18th Army Corps, rather than by the separate 52 divisions, the number of men under arms may reach 1,300,000, and that it will remain at that figure until the end of September.

What is attracting more atten This is no news to Southerners, who have been protesting to no avail against both iniquities for a good many years.

What is attracting more attention are the civilian measures accompanying these maneuvers. Thus there are some four hundred thousand workers who have the same and workers who have the same and the same are some four hundred thousand workers. If the council's finding results and workers who have been conscripted and sent to labor at very long hours and under great pressure on the building of fortifications. Offering immediate relief, but unrate discrimination. Senator Consally pointed out this evil several weeks ago. Just recently somebody said that the rate on shipment of corn from St. Louis is sizeable slump on the Berlin Stock. ody said that the rate on shipnent of corn from St. Louis to

just one example of a system of
differential rates which penalize
the South.

A Texan is head of the interstate

This fact has been remarked blance is seen to size able slump on the Berlin Stock
Exchange. There also has been a
great expansion of imports of food,
raw materials and manufactured
articles during the first half of this
year, and since it appears that some
considerable part of these imports
is being stored rather than reworked for expert, the German
trade balance is such that something will have to be done about it.
Everything indicates that the di-Pifty London policemen visiting version of labor, materials, liquid capital and foreign exchange to military purposes is exceptional, even for Nazi Germany, and that this immensely costly economic effort cannot, therefore, be undertaken merely to exercise the troops and to provide an impressive spectacle.
