THE HEREFORD BRAND, FRIDAY, OCT. 14, 1921.

21st YEAR, No. 62.

\$77,100 HAS BEEN LOANED IN HEREFORD

FARM LOAN BANK HAS HELPED OUT IN EMERGENCY.

NO SPECULATION

Government Act Designed For Development of Nation's Farms

With the delivery Thursday of the cash on a loan application for \$6,000, the total amount of actual money loaned to ranchmen and farmers in this community by the local Federal Land Bank Association since the decision handed down by the Supreme Court last March reached an even \$77,100.00.

Over seventy-seven thousand dollars in cash turned loose here in about six months is a lot of money in these kind of times and has gone far toward relieving local financial embarrassments.

In addition to this, \$53,400 in loans have already been approved by the Bank officials and this money will be received along in varying amounts during the coming weeks.

Applications are also pending for \$50,500 more in loans, although it is a question whether this additional amount can be secured.

At any rate, when the approved loans have all been settled it is assured that the total cash-put into this community from this one source will be \$130,500.

Aside from the immediate financial relief afforded, the big feature of this whole Federal plan, in the opinion of those who look to future development, is the fact that the government absolutely requires that this money be used for development of the land and turns a cold shoulder to the idea of speculation. As the secretary, J. Frank Potts, says, "The government has no time for patience with the man who wants to borrow this money with which to speculate. The Federal Act creating this bank system was designed to aid actual, bonafide farmers, and no one else. I receive applications every week from people who want to get money with which to speculate in land. Such requests are useless. Under the law this money can be used only for development work and to my notion that is the finest and greatest thing about the entire plan."

Canyon High Men To Tackle Hereford on Monday

The Canyon High School football eleven is scheduled to play the Hereford High squad at the High School grounds next Monday afternoon at 3:30 o'clock. The Canyon bunch have won one game so far this season by a top heavy score and are heralded as a fast and formidable aggregation. Coach Dameron has been putting the locals through stiff practice drills daily since the Clavin game and hopes to stop the visitors this time.

A snappy and interesting contest is promised for Monday afternoon.

Five Students at Texas University From This City

Through the courtesy of Miss Ruth Smith, The Brand is informed that there are five Hereford students in the University of Texas this year. These are: Paul Guthrie, Charles Greer, Edythe Bule, Ruth Smith and Willie Dickert. Of these five students one is a freshman, two are sophomores, and the other two are Juniors. Paul Guthrie is in the engineering department, and the others are taking academic work.

After a long journey to Austin, the students made a mad rush to get settled in their new homes before registration, which began last Wednesday and lasted through Saturday. The students report that registration is a long and tiresome process, and that they are glad it is over.

The rally at the Men's Gymnasium Friday night, and the football game Saturday afternoon between the Longhorns and Austin College, were well attended, and furnished the new students with a demonstration of Texas pep and spirit. However, some of the bigger games will bring forth much more of this than was shown on the field Saturday.

Classes began last Monday, and the professors have already given work enough to keep the students busy, and some hard studying is being done.

"Get acquainted" parties are to be held at the churches this week, and promise to be interesting affairs.

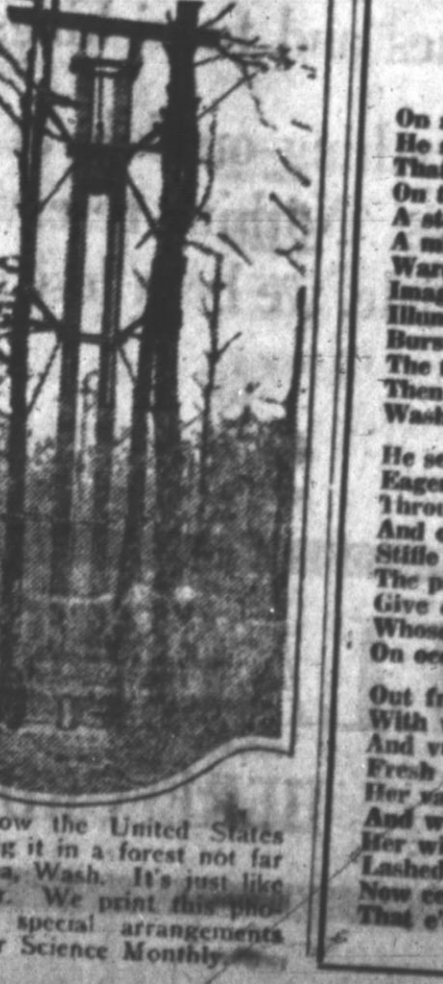

SINGERS SECURED BY THE CHURCHES FOR NEXT SUNDAY

Prof. H. W. Van Berggrun, Dramatic Bagitone, will sing at the Methodist Church next Sunday morning, October 16, and at the Christian Church in the evening. He will render the "Holy City," by Stephen Adams, by special request.

James Gibbs, of Trinidad, Colo., will sing at the Presbyterian Church Sunday morning and at the Baptist Church in the evening.

Mr. Gibbs is a pupil of Prof. Van Berggrun and has come down, among a number of others, to study with the Professor this winter.

Dr. C. T. Kibbe, and Mrs. Kibbe, arrived in Hereford October 6 from Davenport, Iowa, where on September 21, Dr. Kibbe received the D. C. degree from the Palmer School of Chiropractic, the largest institution of its kind in the world.

Immediately following his graduation Dr. and Mrs. Kibbe started on a 1400 mile vacation trip overland, visiting Des Moines and other parts of western Iowa.

Dr. Kibbe states that he will open an office for the practice of his profession over the Clark Drug Store about November 1. He is a son of Mr. and Mrs. R. J. Kibbe of Hereford and was raised and educated here. He attended the 'Canyon Normal' for the term of 1917-18.

Science Plans Model Homestead

Nebraska's College of Agriculture has constructed a model farmstead for that state. In the picture model, which is herewith printed by special arrangements with Popular Science Monthly, the various buildings have been laid out, so that the farmer walks around the circle in doing his chores. Many farmers, it is said, think of wasted motion only in relation to their machinery, never in relation to their own movements.

In this plan, the barns and yards are located so that the prevailing wind will carry offensive odors away from the house. All the buildings also are placed so as to act as windbreaks to garden and yards. Nearly all fences serve two purposes. The barn has a central alley to allow the winds to blow through it from south to north. Generally, the glass lighters drugery and aims to make for pleasant appearances and good views.

Hereford "Fans" Can Now Return To Daily Tasks

As the last telegram arrived Thursday afternoon telling of the victory of the New York Giants in the world's baseball contest, one fan who had been watching the score board all afternoon sighed and remarked, "Well, I guess we can all go back to work now."

That about expressed the situation locally. Ever since the series started Hereford's large contingent of baseball enthusiasts have literally quit business to watch the daily results. The returns were received by wire by innings and the local interest was intense. Both teams had their body of supporters and Thursday afternoon the Giant rosters "had their innings."

The Giants won five contests out of eight played. Better balanced team play in all departments told the story.

W. B. Funk and family, of Des Moines, N. M., have moved here and now occupy the T. M. Coulson residence in north Hereford. It is understood the move was made for Mrs. Funk's health.

JNO. McFARLIN IS HAVING TO FIGHT SAYS POSTAL CARD

John McFarlin is having difficulty in holding his own and cannot speak above a whisper now is the latest news received from the bedside of the sick man. The item was contained on a postal card from Mrs. McFarlin at Daltart to Mrs. W. O. Fox of this city.

POST OFFICE BUILDING IS CONSIDERED

INSPECTOR HERE WITH EQUIPMENT FIRM MAN, ALSO

WANTS BUILDING

Uncle Sam Willing to Pay Good Rent For Proper Room and Place

The old question of how to acquire better post office facilities, which hobb up perennially, again came prominently to the fore Thursday when Post Office Inspector John of Amarillo, and O. S. Toole, agent for a post office fixture house, arrived in Hereford to again look into the local situation.

These gentlemen conferred with Postmaster Mrs. D. N. Cox, with the Mayor and with several property owners. Mr. Johnson stated that the Department was very anxious to obtain larger quarters than at present. He further stated that the apparently prevailing opinion that Uncle Sam did not pay a fair rental was all wrong and that a fair and just rental would be cheerfully paid if a suitable contract could be entered into with a property owner whose building was available and suitably situated.

It is understood that one property owner is figuring on the government's requirements, but has not yet definitely decided the matter in his own mind. The government requires the owner of the building to furnish the fixtures, heat, light and water under the contract. The fixture man stated that the furniture may be purchased outright or rented from his company.

Mr. Johnson left on the train Thursday, but promised to return soon and continue the negotiations.

Parmer County's Growth Shown in Census Reports

Agriculture statistics issued by the Census Bureau for Parmer county this week show that the border county increased its number of farms by 31.7 per cent from 1910 to 1920, increased the farms operated by owners 5.3 per cent, increased the number of acres in farms by 209.1 per cent, and the total value of its land and buildings by the sum of \$6,461.06. A corresponding increase all down the line of farm animals and crops is also given.

The report is a most excellent one, showing Parmer county to be steadily on the upgrade and is a source of congratulation on the part of its enterprising citizens.

MISS ELIZABETH MARY WILES HAS GONE TO REWARD

Miss Elizabeth Mary Wiles, aged about 57 years, 8 months and 25 days, passed away Wednesday at the home of R. T. Nunn near Hereford. Funeral services were held from the Presbyterian church Thursday afternoon at 2:30 o'clock, with interment in the Hereford cemetery.

Miss Wiles was a sister of Mrs. R. T. Nunn and of F. A. Wiles. She joined the Presbyterian church when fourteen years of age and was a devout Christian worker throughout a useful life.

Mr. Bone is giving daily demonstrations of the workings of the new machine.

1492—"LEST WE FORGET"

By J. M. Kimmons

On a rude deck pondering and alone,
He stands; his white hair floating in the breeze
That fan the Spanish shores and wildly play
On the broad bosom of the Mediterranean.
A stately form with restless searching eye,
A mind commanding, daring, bold yet meek,
Ward of the waters, wizard of the deep,
Imagination like a glowing torch
Illuminates his all-expectant mind.
Borns forth and gleams across the vast unknown,
The trackless waste, the mapless ocean wild,
Then girls the globe to where old ocean's waves
Wash the gray sands on Asia's island shores.

He sees the weary, toil worn caravan
Eagerly retire from their laborous trudge
Through forest depths, o'er desolate plateaus,
And over arid plains whose maddening sands
Stifle the rider with burning blasts;
The panting camel and the drooping ass
Give o'er their burdens to the tireless deep,
Whose heaving bosom bears them lightly round
On ocean steeds where he must mark the way.

Out from the dromedary of Asia's dreaming hordes
With which, through ages past, the untamed beast
And vulture fierce have held their allied sway,
Fresh empires usher kingdoms, v. n. l. v. rise;
Her sales of cure, now gladden into smile
Her wild and desert shores, through rolling time
Lashed only by the waves of the lonesome sea
Now celebrate with joy the greatest dawn
That e'er hath opened upon a world's commerce.

(Editor's Note:—This pretty tribute to the discoverer of America was written for The News on this the four hundred and twenty-ninth anniversary of the discovery, by J. M. Kimmons, a planter near Hereford, whose literary efforts have had rather local recognition. His articles have been published, mostly in poetic form, in numerous publications including his home town paper and in portions of the United States.)—Amarillo News.

Bay View Club

A continuation of the Bay View Club's work on the short-story furnished material for an interesting study Thursday, the topic being "Construction of the Short-Story."

Mrs. J. E. Ferguson, as leader, combined in a most excellent paper, the story plot and its characters. Mrs. C. S. Garrison discussed the story setting. Mrs. George Garrison, the style, and Mrs. Seth B. Holman, the unities. The addition of these three comprehensive and instructive papers, completed an exceedingly helpful program.

Presbyterian Missionary Society

The Presbyterian Missionary Society met in regular session Wednesday afternoon, Oct. 12. A devotional and business session was held, after which the Bible study was given. The Society is studying the Minor Prophets and under the able leadership of Mrs. Chan Donald, the lessons are proving very interesting and helpful. The Society is glad to welcome Mrs. J. M. Farrell as a new member.

Methodist Missionary Society

Our October "Voices" lesson, Wednesday, October 5, was of unusual interest, our subject being Japan.

After the devotional, Mrs. Rolson discussed recent relations between Japan and the United States.

Beginning with the Russo-Japanese war, and reasoning from cause to effect, she showed how the U. S. has incurred Japan's enmity by insisting on the "Open Door" policy throughout all Japan's efforts to gain naval supremacy in the Pacific and to over-ride China, especially in gaining control of the chief industrial interests of Manchuria.

She also touched upon Japan's "eight-night" program, describing the type powerful vessels now in process of construction, to be manned with eight-hundred men.

Mrs. John McLean gave an interesting account of our Lambuth Memorial School, from its beginning, with Mrs. Lambuth as organizer and principal of the school for women and children, to the present status and future plans of the entire school in all its departments.

An added note of interest, touched with sadness, was given, in her brief biographical sketch of Bishop Lambuth, who recently died in Japan. Like a true soldier of the cross he died at his post of duty.

Mrs. Spratt discussed the duties of the Bible women—outlining a weekly program, as given in a letter from one of our native Bible women.

Mrs. Spradley gave a vivid description of Osaka, the "Venice of Japan," of special interest to us just at this time, because the new Lambuth Bible and Training School for Christian Workers is to be located there.

Wednesday, October 12, was our regular Bible Study conducted by our study leader, Mrs. Ashbrook.

Time and space forbid giving any adequate idea of the good points brought out in this program, dealing with the miracles wrought and the ministry in general, of our Lord in the region around the sea of Galilee.

A few of the strong points especially noticed were: the great faith exercised by those who came to Him for help, either for themselves or in behalf of others; the infinite and tender compassion of the Saviour toward all suffering and need of humanity; His concern for even our material need; His readiness to forget our ingratitude of the past when we present a present need, and our neglect and indifference toward the wonderful blessings that might be ours from so great a Saviour.

Our leader is making these lessons so interesting, so instructive and helpful every member who can possibly do so, should attend and get the benefit of every one of them.

A MAIL ORDER SHRIEK

Your average mail order house has a lot of tricks up its sleeve when it comes to breaking down the businesses of struggling merchants in ten thousand American towns, and it doesn't hesitate to play every one of them.

But it shrieks blue murder when some of those struggling merchants get together and turn a trick of their own. As, for instance, the whine that has just been made by one of the biggest mail order houses to the Federal Trade Commission against the Chamber of Commerce of Missoula, Montana.

Catalogues are the main stock in trade of mail order concerns. It seems the Missoula chamber offered one free admission to a movie picture theatre for every catalogue turned in at the window. Great numbers of people thought so little of these catalogues that they were glad to hand them over in lieu of the 10 cent price of admission. After the collection was made, it is alleged that the Chamber of Commerce, having no use for them, burned the whole lot.

Whereupon, the mail order house rips the atmosphere into tatters with its screams, and enters complaint with the government at Washington.

Well, if a citizen gets so little out of a bulky mail order catalogue, and makes such little use of it that he is glad to exchange it for a 10-cent theatre pass, we can't see where anybody is very seriously hurt.

Poultry in Carloads!

They are shipping poultry and eggs by the carloads from some of our neighboring Plains towns. Five years ago such an industry on such a grand scale was unheard of.

These carload shipments of chickens and eggs represent many thousands of dollars paid in cash to the farmers for these products. Cash paid when it is needed most.

Hereford can ship poultry and poultry products in carloads as well as any other town, if our farmers will realize the cash returns to be derived from this industry and will raise the poultry.

This bank is strong for more and better poultry. If you want further information on the subject, come to see us—if we don't know what you ask us about, we will find out for you, Right Now!

A HEREFORD INTERVIEW

Mrs. McCord Tells Her Experience.
The following brief account of an interview with a Hereford woman four years ago, and its sequel, will be read with keen interest by every citizen.

Mrs. J. B. McCord, 692 W. 2nd St., Hereford, says: "I used Doan's Kidney Pills a couple years ago, getting them at the Betts-Clark Drug Co. and they proved perfectly satisfactory in every way. I had been bothered at that time with my kidneys being weak. My back gave me the most trouble for it ached all the time. My kidneys were also irregular in action. I have had but very little trouble since Doan's Kidney Pills cured the attack at that time. I gladly advise anyone suffering from kidney complaint to use Doan's." (Statement given November 16, 1915.)

On May 3, 1919, Mrs. McCord said: "Since recommending Doan's Kidney Pills before I have used them occasionally. Doan's have never failed to give satisfactory results. This has increased my faith in this remedy and I praise them just as highly today as I did when I first endorsed them." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
