HEREFORD IS AIDING PALO DURO PARK

DELEGATION ATTENDS INSPECTION BY STATE LOOKOUT BODY

A DRAWING CARD

Selection as State Park is Certain to Draw Tourists To This Section

Amarillo having called on the other Panhandle towns to assist them in properly presenting the claims of the Palo Duro canyon as a State Park to the special Park Board appointed by the Legislature, the Hereford Chamber of Commerce on Monday responded by sending three of its officers and directors to aid the Amarillo committee in showing the wonders of the Palo Duro to the legislative committee, who arrived in Amarillo Sunday for that purpose. President D. L. McDonald, vice-president Homer Wilkinson, and Highway Director, E. W. Harrison, were the three who drove through for this purpose, returning home Monday night.

The selection of the Palo Duro as a State Park would be a tremendous advertisement and drawing card for this section of the State. It would automatically place the Park in all the tourist guide books as a stopping off place overland and would tend to concentrate tourist traffic routing through this section. The Amarillo News of Tuesday gives the following account of Monday's activities:

"The official Senate and House Joint committee, selected to make an investigation of sites for a proposed state park, arrived in Amarillo Sunday night over the Fort Worth and Denver railroad, reaching here some hours earlier than had been anticipated in the making of arrangements.

"An early meeting was held at the city hall at which time plans for the visit in Amarillo were explained. Following these explanations cars were provided and the state officials went to the Palo Duro Club grounds. After some time at the grounds, the party went to a point lower down and made an excursion into the canyon proper.

"About 12:30 p. m. a hall was called for a splendid luncheon prepared under the auspices of the Board of City Development and Panhandle-Plains Chamber of Commerce.

"J. S. Edwards, photographer, snapped the picture of the party in the canyon. One of these photos will be put in the souvenir booklet, which will be presented today to the visitors.

"Following luncheon more exploration was done in the canyon. Several places farther down were visited, including Blue Spring and Indian Trail.

"Great surprise was expressed by the visitors at the beauty of the Palo Duro canyon and even local people who had made many visits to it were surprised at its grandeur.

"After a busy day the state party returned to the city shortly after 6 o'clock to prepare for a banquet at 7:30 o'clock at the Amarillo Hotel.

"Today will bring about further inspection of the canyon and a barbecue. At 7 o'clock the party will leave for Hermosa ranch, Devil's Kitchen and Fern Cave, as well as adjoining beauty spots.

Window Smashed When Truck Hits Pipe Coupling!

A peculiar accident, which cost an insurance company some money, happened at the Post office Saturday afternoon.

A piece of gas pipe 3/4 inch coupling was lying on the pavement in front of the post office. The Magnolia truck came along and the right front tire squeezed the coupling in a manner much like a man shooting a wet watermelon seed from between his thumb and forefinger.

That coupling rose up from the pavement, sailed through the plate glass window in front of the post office, and struck the boxes inside, shattering glass all over the front of the office.

As luck would have it there was no one in front at the time, otherwise there might have been a bloody accident.

MOLLA IS DEMPSEY OF TENNIS COURT

Molla Bjurstedt Mallory doesn't look much the pretty favorite of society in this picture taken as she proved for the sixth time that she is the best woman tennis player in the world. It was she who made the French European champion, Suzanne Lenglen, quit in the second set of a terrific net battle in national play this month at Long Island.

Watchman Snares Man and Charges Him with Theft

Just what a Night Watchman really means to Hereford was again demonstrated last week. A local hardware concern had sold a piece of machinery for delivery next day. Early in the morning when the machine was being made ready for delivery it was discovered that during the previous night several parts on the machine and some tools had disappeared.

Night Watchman Omer Baker was consulted. He said at once that he had a notion he knew where to find those parts. Accompanied by the hardware man he drove direct into the country to a certain barn and there were the parts. The owner of the premises was taken into custody and the parts recovered.

When asked how he knew where the parts were, Baker said that the night before about 2:00 a. m. this man had looked through a window at him, and he saw he was watched. He made a note of the fact, placed a few other things together, and solved the problem.

SALVATION ARMY SECURES SOME MONEY HERE

BARON AURIEMMA GIVEN NEARLY \$200 FOR ARMY WORK

Baron Auriemma, field representative of the Salvation Army, who spent a part of last week in Hereford soliciting funds for the Army, departed for Amarillo Monday. He reported that he raised nearly \$200 in his personally conducted drive. He is billed to work next in Canyon and Amarillo.

The Baron is blessed with an exceptionally good voice and is donating it freely to the cause in which he works. He sang for our school children and for the public at the Star theatre on Fridays and Saturdays. Sunday afternoon, under the auspices of the Chamber of Commerce and others he rendered a concert at the Methodist church in which he was assisted by Misses Gregg and Swisher. A large and appreciative audience heard a splendid program of musical numbers. A collection for the Salvation Army was taken up during the afternoon.

POSTPONED ACCOUNT PARK MEETING HELD AT AMARILLO

CHEESE FACTORY

Proposition to be Submitted; Boys Pig Clubs To be Considered

The regular weekly luncheon of the business men was postponed this week from Monday to Wednesday, owing to the fact that members of the board desired to go to Amarillo and meet the State Park committee.

On Wednesday at noon the meeting will be held at the Stockman's Cafe and there are two or three very important items on the docket. Among them will be a proposition from Amarillo parties concerning the possibility of establishing a small cheese factory at Hereford, and another is what can be done for the encouragement of Boys Pig Clubs in this county. County Agent Walker of Randall county will be on hand to discuss this latter subject, and several interested farmers have signified their intention of being present to hear Mr. Walker's talk.

It is hoped that a liberal attendance of the business men will be recorded on Wednesday.

Special Cowmen's Train For Rock Island Announced

Charles Hanson, traffic manager of the Oklahoma National Stock Yards Co., Oklahoma City, spent a few days in Hereford this week rustling business for his company.

Mr. Hanson was trying to talk local cattlemen into shipping their cattle and hogs to Oklahoma instead of Kansas City, citing the fact that there was a difference of three hundred miles in favor of the former and a considerable saving in freight rates.

Mr. Hanson stated that the Rock Island would again run a special live stock train from Tucuman, N. M., to Oklahoma City, beginning next Saturday, with a maximum time limit of thirty-six hours into the Oklahoma capitol city.

Mrs. Curfman is a former resident of Hereford, living here about fifteen years ago.

T. C. U. NORMAL FOOTBALL GAME IS VERY INTERESTING

The football game at Amarillo next Saturday between Texas Christian University and the Canyon Normal is attracting a lot of attention locally. T. C. U. had a strong eleven last year with a splendid showing. This year the team is practically intact. The Normal has the strongest team in its history, according to those who have watched them work out and have the advantage of longer practice than their opponents. It is probable that a large delegation of lovers of the sport will go from Hereford to witness the conflict.

Odd Fellows Are Hosts to Visitors Vega Lodge

Hereford Lodge No. 476, I. O. O. F., entertained a delegation from the new Vega Lodge Monday night and the local degree team put two Vega novices through the first and second degrees. Following the work a social hour was enjoyed, featured by a late lunch and "smoker".

The Vega crowd came through in a truck, which ran out of gas and delayed the arrival of the visitors until about ten o'clock, as a consequence it was adjourned before the lodge adjourned.

THE CHIEF PROBLEM TO BE SETTLED NEXT NOVEMBER

HIGH FOOTBALL IS DEVELOPING WITH STEADY PRACTICE

Coach Travis Dameron of the High School is putting his men through a steady daily drill that is beginning to show results. Some shifts have been made in positions and the team shaped until the coach is beginning to perform a regular machine for the season's work.

In all probability the first game will be played until about October 1, and the first opponent has not yet been definitely selected.

MRS. Q. B. HILL IS ON WAY HOME AFTER SUMMER VISITING

STREAKED RAIN IS HELP BUT GENERAL DOWNPOUR WANTED

Streaked rains have fallen the past few days in different sections of the country roundabouts, but none has been received in the city of Hereford. There are strips of country that need no rain, but probably more that do need it. It is hoped that a general rain will come soon and settle all arguments.

Mrs. A. B. Schultz Honoree of Dinner Party

The home of Mr. and Mrs. A. B. Schultz, east of town, was the scene of an enjoyable neighborhood gathering when, on Wednesday, Mrs. Schultz was honoree of a surprise dinner party celebrating her birthday.

Entirely unaware of her neighbors' plans, she was preparing the family dinner when the simultaneous appearance of some ten or twelve automobiles attracted her attention and before she could realize what was happening her home was filled with a laughing, merry company, each eager to be the first to congratulate her upon her birthday.

The guests had provided an elaborate dinner which very soon was attractively arranged for cafeteria serving. The menu included fried chicken, a variety of vegetable dishes, fruit salad, pickles, cakes and pies, with hot tea and coffee.

During the afternoon, the guests enjoyed a sewing party, each one piecing a quilt block in maple leaf design and embroidering upon it her name. The blocks were later put together and the quilt presented to the honoree.

Victrola music added to the afternoon's social features. About forty guests shared the day's pleasures.

Miscellaneous Shower for Miss Green

Mrs. Branford Harlin was hostess on Thursday at a miscellaneous shower honoring Miss Lena Green, a charming bride-elect.

The pretty home was attractively arranged for the occasion, late summer blossoms being combined with fern in bouquets effectively placed throughout the rooms.

A novel idea was developed in the "shower." An improvised well covered with vines was wonderfully realistic, as well as very decorative. From its depths, the honoree was asked to draw water. As she did so the bucket laden with gifts was disclosed to view, the guests sharing with the bride-to-be the pleasure of examining the pretty display.

The "shower" included a great variety of lovely articles, all especially dear to the heart of a bride.

A refreshment course consisted of iced tea with assorted cakes.

Guests of the occasion were: Mesdames U. B. Green, Richard Dixon, Hall Douglas, C. L. Whitehead, J. D. Thompson, C. E. Tice, Walter Smith, Walter Easter, H. J. Roberson, Carl Frye, Edna Park, N. J. Lovelace; Misses Fernia Axe, Helen Estes, Nettie Lee Green, Lenna Estes, Maurine Thompson, Lena Green, Lois Thompson.

Barn Dance a Delightful Affair

That successful social activities are not dependent upon feminine direction was attested Friday evening when Messrs. Harry Seed and Richard Kimmons were hosts at one of the most thoroughly enjoyable functions of the season, given in honor of Misses Katharine and Virginia Doane.

The delightful hospitality took the form of a barn dance, the big barn at the Seed ranch providing every facility for the old time country dance, which of late is being accorded such marked favor in social circles.

Guests were ushered to the second floor of the mammoth structure, making the ascent by means of a stairway built of assorted dry goods boxes.

terns hanging from the rafters revealed a rustic scene of wonderful attractiveness.

Bales of new mown clover furnished comfortable seats, at the same time scattering a delightful fragrance throughout the spacious apartment and adding a distinctive decorative note. An immense stone jar held delicious iced punch and in a nook arranged at one side of the room, Smith's orchestra was stationed.

The evening was delightfully spent about thirty couples sharing its pleasurable pastime.

Mrs. Hicks Entertains Young People

Complimentary to Messrs. Barnard Hicks and Egbert Bradley, who have since left for school, the one at Arlington, the other at Terrell, Mrs. J. W. Hicks entertained at her home on Friday evening.

The young people first motored to the creek where a swimming party was enjoyed, returning later to the Hicks home for a delightful buffet luncheon and an evening of genuine fun.

The party included Misses Eloise Pitman, Maurine Hughes, Virginia Laird, Mary McDonald, Kathleen Hawkins, Eva Skelton, Frances Wilson, Elizabeth Stegall, Grace Ferguson; Messrs. Barnard Hicks, Harold Hicks, Egbert Bradley, Thurmon Hines, Roger Wilkinson, Roger Corbett, J. M. Posey, William Black and Oscar Womack.

Kodaking Party

A kodaking and hunting party provided an enjoyable afternoon Sunday for a number of young people who were later entertained at dinner at the home of Mr. and Mrs. W. E. Dameron.

A finale to the pleasant occasion was attendance at evening church services. The party was made up of six couples of young people.

The British medical profession are taking account of a new "habit," so far confined to the women of England. In Sheffield a large number of patients have become addicted to aspirin. Some of the victims take as high as 125 grains a day and others have been known to go as high as 150 grains in 24 hours.

MIAMI MAN KILLED BY RAILWAY TRAIN

Z. T. Ivey, an aged citizen of Miami, was struck by the afternoon train on Friday evening of last week, as he was crossing the railroad track foot, and after being carried about forty feet, was thrown clear of the track and against the brick platform. He received a very bad wound on the forehead, either from parts of the engine or the edge of the platform, and hardly regained consciousness up to his death Sunday night at 7 o'clock.

The accident happened as the 7:12 passenger train was running up to the depot. Mr. Ivey hesitated at the edge of the track, as though wondering whether or not he could get across ahead of the train, and then attempted to get across, which he failed to do. Several people saw the accident who were standing on the depot platform.

Mr. Ivey was 72 years of age, and leaves two sons in Miami, Travis and Bill. Funeral services were held at the hotel Monday afternoon at 3 o'clock, conducted by Rev. Pennington and his remains placed in the Miami cemetery. Mr. Ivey was born in Georgia, and has lived in Miami for the past twelve years.—The Miami Chief.

WHY "MAIN STREET" WENT DARK

A few short months ago the literary world blazed with the praise of a new novel entitled "Main Street." The new book purported to be a masterpiece of vivid and truthful tones of people and scenes in the average country town. The blazing aforesaid was done by other novelists, to whom was given the task of reviewing the book and who, of course, expected the author of "Main Street" to be as enthusiastic as they when he, in turn, wrote reviews of their books.

A few short months have passed and "Main Street" has fallen. It blazed like a rocket and went out like one. "Main Street" did not visualize the average country town by a long shot and the people who were enveloped into buying it were disappointed.

Down east, certain would-be high-brows are trying fearfully hard to lift present day American literature by its bootstraps. They pretend that every few weeks a great novel is produced by some American writer. We don't believe they dupe themselves, but the solemn, nasty truth is that they are duping the American public.

Compare any book of 1919, 1920 or 1921, with the works of a Mark Twain, of a Howells, a Garland, a Bret Harte or a Crawford, not to speak of the greater ones of a generation before, and one's heart sinks. The fiction of today is hardly on a par with the fiction famous a third of a century ago in the dime and half dime novels of our fathers. It is not a bit too much to say that no wild West story of recent issue can compare in interest, description, entertainment or even use of the English language with the writings of Edward W. Wheeler in the eighties, and all of Wheeler's stories sold for cents a copy. Today your Grays and Pearsons and Bowers and the rest stand \$2 a throw, the price sinking to \$1 when the same book appears a few weeks later in the drug store windows.

There are epochs in art and literature. Today's is not one of the great epochs in American fiction.

"DICTATED, BUT NOT READ"

Did you ever get a letter from some dy or other with the notation at the bottom "Dictated but not read?" If you did, you probably remember that you did with it—dumped it into a waste paper basket. You dumped it firstly, because if the man who dictated the said letter didn't have enough interest in what he wrote to read it over, why should you have any interest in it? Secondly, you gave it the backhand because it was an open insult to him. The great man forsooth, didn't have time or inclination to read what himself had to say to you, but ar-

recently felt that you must find time to read what he had to say to you, mispelt words, bad grammar and all. The country is full of business men who are making this and similar mistakes in every letter they send through the mails. And then wondering why so many of their letters are ineffective.

Letters are at best a poor facility of communication in business matters. They are cold bits of dead black and dead white. They are from one who is thinking along one line on a certain subject—and not putting down all his thoughts on it by any means—to another who is probably thinking along another line on the same subject. Then if you'll add just a bit of offensiveness to the mixture, the letter might better have never been written.

No man should permit himself to slight his letters in the smallest degree. No really good business man does.

SIMPLIFIED SEWING MACHINE DOES THE FAMILY DARNING

A sewing machine that will do the family darning has now been patented, says Popular Mechanics Magazine for October. Its essential feature is a steel arm which carries the intricate mechanism controlling the shuttle and feed. This is incased in a ball at the end of the arm. In this way about 20 parts have been eliminated, making maintenance less expensive, and because of its simplicity requiring less power to run. In darning, the bedplate covers over the ball and arm arm, are removed, and the sock is drawn over the ball and along the arm. This construction also permits sewing and mending of various other articles that require circular seaming.

The prize cheese of the world was made at Lowville, N. Y., for exhibition at the New York State Fair at Syracuse in September. It weighs twelve tons and required 150,000 pounds of milk or the milk for one day of 7,500 cows, for its manufacture. Among other material required are four barrels of salt and \$100 worth of cheese bandage.

The miners and operators are signed up at present high wages until next April.

There will be no reduction of freight rates soon.

More Chickens!

F. W. Kazmeier, Poultry Specialist with the A. & M. Extension Service says:

"The farmer who keeps a good sized flock of standard-bred chickens SELLS something every time he goes to town. The farmer that does not own a flock of high grade chickens BUYS something every time he goes to town—and charges it. The first one deposits something at the local bank every week—he GETS THE HABIT; the latter goes to the bank less frequently, and then only to borrow money. HE ALSO GETS THE HABIT. The difference between these two habits is the cause of the hopeless system of farming now in style and universal practice."

"Bankers can well afford to take a definite stand and encourage our farmers to keep more standard-bred chickens."

We believe this to be good, sound advice. We are strong for the RIGHT KIND of chickens. Come in and let's talk about them!

MURDEROUS ATTACK ON MEMPHIS MAN

B. W. Breedlove was attacked by two men Monday evening as he was on his way to work at the oil mill. One of the men used a knife and Breedlove was cut in five places on the chest and abdomen.

Breedlove says that one of the two men in a car waived him to stop and approaching him stretched out his hand as if to shake hands. When Breedlove stuck out his hand the man grasped his wrist and his companion struck him in the eye knocking him down. The first man began using his knife.

Breedlove, who is almost a physical giant knocked down the man with the knife and was again attacked by his companion who attempted to choke him. He threw them off and ran, making his escape.

Breedlove says that he knew the man who accosted him, at Burkburnett, and that they had had some words but had later been friendly to the extent of speaking when they passed. He said that he had never seen the other man.

He gave the name of the man who used the knife as Len Denby. He said that Denby has two fingers off the right hand, which may account for the fact that the cuts were not serious.

Efforts were made to apprehend the men who were traveling in an Olds roadster but no trace of them had been found up to yesterday.—Hall Co. Dem.

YOUNG MAN LOSES FOOT UNDER TRAIN
 An accident happened Thursday a mile south of town, in which Homer Christopher lost his left foot. His home is at Graham. He was attempting to board a south-bound freight train to go to Childress. He was accompanied by Carl Washburn, also of Graham.
 The two young men had come here to get an automobile that had been left in a local garage for repairs. The car was not ready for them, and they decided to go to Childress. They went to the hill near the section house and attempted to board the freight. Christopher's foot slipped and his leg went under the train. The wheels passed over his ankle. He was picked up and brought back here and the foot amputated. His parents were phoned at Graham. He is now at the home of Mrs. A. A. Long, and it is believed that he will recover. He is about twenty years of age and single.
 No one was to blame for the accident except the unfortunate young man. It will be many weeks before he will be able to get about, even on crutches.—Hall County Herald.

PREHISTORIC BONE NEAR WELLINGTON CREATES INTEREST
 Last week J. W. Loter brought to the Leader office a large bone which has been creating quite a lot of interest. It is a jaw bone of some large animal—evidently one of the prehistoric kind that makes the elephant of the present day a pigmy by the side of it. It may have been a dinosaur—a reptile eighty feet in length, or it may have been a land beast like the mastodon. Any way the jaw bone is about two feet in length and two teeth are with it, the other teeth were lost. The two teeth will weigh about fifteen or twenty pounds each.
 Mr. Loter says the bone was found sticking out of a creek bank, the water having washed the earth away until the bone protruded. He is going to dig at this place to see if he can find any more bones. If he should find more, then the naturalists may be able to give it a name.
 There are men in the employ of the Government who are looking for bones of the prehistoric animals at work now in some portions of the Panhandle. The finding of this bone will evidently show them that Coffingsworth county is a good field for their search.—The Wellington Leader.

Card of Thanks
To our neighbors and friends we so much want to thank you for the kind words and deeds you extended to us at the passing of our dear sister, Laura Marie. Diversification Means Prosperity

It is being demonstrated every year that the farmer who diversifies his crop, grows hogs, chickens and keeps a few milk cows, along with his range stock, is the man who succeeds. We will be glad to assist in making the improvements necessary for this kind of farming.
