THE WATER BUCKET

The latest contribution to the mythical eleven collection comes from the pen of Wesley B. Hodges, sports editor of the Breckenridge American. Hodges, who early this year declared scrap iron grimes to be the "most overrated athlete in Texas," places him as all-district tackle, Hodges, who early this year declared Chuck Luck Bird of the Ranger Bulldogs was "one of the best backs in the district" ignored him entirely. Bird was not mentioned as all-district material.

Midland sent another challenge to the local football solons Monday, but it was sidestepped. Midland is anxious, terribly anxious, to get at the Steers. Football, it seems, is a closed proposition at the high school so the challenge was filed there for further reference. The Steers played three class B teams last season. They defeated one 60-0, one 6-0, and lost one 29-14. That's enough to cause B-enthusiasts for the current and fiscal year.

If Midland is so anxious to take on a class A opponent, we would suggest that one of the Midland high school sports men file a proposition to try and win a class A game this year. They are below the class as they are. They are below the class as they are. They are below the class as they are.

However, Sheriff W. C. Blankenship declares the sum of at least \$100 was signed over same season this season. That doesn't mean any thing. That doesn't mean any thing.

Members Of The Big Four Corner Market On Places, With Captain Thomas Of Brownwood Playing Lone Little Six Hand

Reading over an all-district mythical eleven is something like eating raw oysters. One always hopes to find a pearl in one, yet seldom does. So it goes in looking over the ratings as placed by the various dopsters scattered hither and yon over the district. One looks at the layout just in hope a correct one may be found, yet one rarely is.

Hanley Hailed In Court As Result Of First Fight

CHICAGO, Dec. 2 (AP)—An aftermath of the Notre Dame Army football game is in the courts. The court testimony disclosed that Leo Hanley, Northwestern University halfback, went to Soldier Field Saturday to see the game and pumped out of his taxi just as Miss Mary Miller jumped in. Her escort, Louis Allain, unaware that Hanley had just finished two months of blocking and tackling, exchanged blows with Hanley and got the worst of it.

Manager Of Pen Store Arrested

HUNTSVILLE, Texas, Dec. 2 (AP)—J. L. Willford, 26-year-old manager of the state prison system store, was held in the prison today for county authorities on charges of misappropriation of public funds, according to Sheriff N. J. Speer. Speer said he did not know the exact amount involved, but it was said to have been small.

Manager Of Pen Store Arrested

If one looks diligently and faithfully enough one will find in one of the corners of this page the department's all-district selection. With the help of Andrew the gallery boy, Eddie the professor, and a number of advertising boards, the selection was made. Eddie insisted that selections should be based entirely on how a player's hair looked after 15 minutes of tussling. Andrew came back with the smart crack that few of the players in the district had much hair left. The advertising representatives insisted that the team that drew the most game receipts should be chosen. Only this department was impartial. We based our selection on whether the lads played football on the gridiron or on the sports page. However, the five of us compiled quite a nice bunch, with the names below perfectly.

MINORS READY FOR SHOWDOWN

MONTREAL, Que., Dec. 2 (AP)—Minor league baseball's three Class AA circuits, the American Association, International League and Pacific Coast League, prepared for a showdown today on the draft question, chief thorn in the side of major-minor relations.

Some sort of decisive action is expected during the day when three leagues meet in joint conference to discuss the major league's demand that they submit to the draft. In event of a refusal the majors asserted they were prepared to sever all business relations with the big minors as well as with the class A Western and Class B Indiana-Illinois-Iowa leagues.

Three five organizations are non-draft leagues. That is, they are exempt from the major-minor agreement under which the majors can purchase any minor league player for certain fixed sums. The three AA circuits have a separate agreement with the majors, a modified draft, by which the majors can select for a fixed sum players in these leagues who previously have played in the majors.

Since the three big minors have failed to manifest any unanimity of opinion on the question, baseball men fought shy of predictions as to the outcome of today's conference.

GRANGE GAINS

CHICAGO, Dec. 2 (AP)—Red Grange, halfback for the Chicago Bears, was chiefly responsible for a 14 to 6 victory over the Portsmouth, O., Spartans Sunday during a football game.

Grange, weighed 189 1/2 pounds in uniform before the game. He reduced 4 1/2 pounds while setting one touchdown and throwing a pair for leaders, but the mud and sleet added 8 1/2 pounds to his weight, a net gain of 3 3/4 pounds. His uniform weighed 15 pounds.

Snyder Comes To Stanton Friday For Game To Decide Bi-District Championship

Snyder and Stanton will meet by defeating Marfa in a contest for the championship of District 10. The early season encounter between Snyder and Stanton, called in victory of four touchdowns for the former.

Coaches of the rival teams program an interesting subplot of history game between the two teams each at Stanton, captured the Simmons University eleven through plays at Snyder, the Stanton of 1929. Moore at Snyder was Cowboy leader in 1928.

Lamesa Faced With Little Unemployment

LAMESA, Dec. 2.—The unemployment problem in this city has been negligible so far this year. The normal production of farm products, has resulted in much work in gathering crops, and also stimulated business in the city, to where the usual number of employees have been used by merchants and others. There are very few unemployed people in Lamesa at the present time, though it is felt there is no room for outsiders who come expecting to get work.

Thomas of Brownwood, Van Horn of Cisco, and Carey of Breckenridge. That takes up the end one tackle, two guards, the center and three backfield assignments.

There are few that will deny the Magnus-Bird-McCarthy combination is not worthy of the honor, if any, of being named. There are still less, we presume, who doubt the ability of Dick Murray at tackle.

Here's The Lub

The doubt over one of the tackle positions and one of the backfield berths is creating the future. There are some who point to Rex Clark of Eastland and below, "there's your man." Unfortunately when Eastland paraded before the eyes of this correspondent, Clark sat on one corner of the bench and saw his team go down in defeat.

There is not a fan in the district that watched the work of Captain Thomas of Brownwood that wouldn't say he is the best guard in the loop.

There is not a fan in the district that watched the work of Captain Thomas of Brownwood that wouldn't say he is the best guard in the loop. He played everything, including havoc with the opposing eleven. Handicapped by being on a team composed of greenhorns—some greenhorns, too—Thomas stood head and shoulders above the opposing guards. It was Thomas who whipped Big Spring; Thomas who tore a heavier line to shreds, and whipped down a secondary. To Thomas should go the crown as the best guard in district two. He should win the assignment in a walk.

What No Steers?

It will be noticed that in this instance not a Steer was picked for the first or second team selections. The reason is apparent. None of the Steers was entitled to the rating. Captain Delbert Rogers was the outstanding player of the entire team, with that of Bill Flowers the most spectacular. Rogers' playing was consistent; Flowers' spasmodic and colorful. Yet there is no doubt but what either of the two leading backfield men of the Steer collection, placed behind them like Ranger, Cisco or Breckenridge, might make the rating.

American Legion Post Opens Campaign To Secure Quota Of Members; Get Legislation

Opening a campaign which will bring to the attention of the members of more than 150 member-quotas assigned by state headquarters, members of William Frank Martin post, American Legion to day placed membership posters at a number of places in the city and county.

Ex-service men may join the legion at either of the following places: First State Building, 1015 Main; Welch barber shop, 2414 1/2; Cosden refinery, West Texas National bank, State National bank, Continental Oil company's office at Ross City, All-Weather Tire company, Crawford hotel barber shop.

The drive for members starts right away. It will continue indefinitely until it is completed. Meetings of the local post will be held each Monday evening at 7:30 o'clock at the Crawford, according to L. W. Croft, post commander.

Many veterans who are asked to pay their dues in the American Legion do not realize just to what extent they owe the legion the dues. The payment of such dues is an obligation that should be met each year, with the same promptness that attends any other obligation, say local members.

In order that legionnaires may know about benefits obtained by the legion for veterans, and there by remind misinformed or uninformed veterans the following list of benefits is submitted:

Compensation—To the veteran for disability due to or aggravated by service in the war. To his widow, children, mother and father for death in service resulting from disability incurred therein.

Government Insurance—To a maximum of \$10,000 may be obtained by any veteran physically fit and who was entitled to apply therefor, whether or not he has been carried in service. Insurance for able-bodied veterans at war risk rates based on present age can be obtained under five-year convertible policy.

Disability Allowance—To the veteran with permanent disability caused by disease or injury exclusive of miscellaneous disabilities, and excepting veterans who pay federal income tax, regardless of service origin, as follows: 50 per cent, \$12 a month; 60 per cent, \$14.75 per cent; 70 per cent, \$17.50 per cent; 80 per cent, \$20.

Hospital Treatment—For disabilities not service connected, a veteran may receive transportation to government hospital and hospitalization without cost when beds are available. Extreme emergencies, such as acute appendicitis, and the like, and service connected disabilities requiring immediate treatment have preference.

Burial Allowance—Up to \$100 payable in all cases where a veteran dies leaving net assets not exceeding \$1,000. Compensation, adjusted compensation, pension, bonus, insurance or other death benefits are not to be considered as assets.

This law includes veterans of any war expedition, even those who sailed since April 6, 1917.

National Cemetery—A veteran is entitled to burial in any national cemetery, upon presentation of honorable discharge certificate or information of his service.

Adjusted Compensation—Must be applied for before Jan. 1, 1932. For service over sixty (60) days, credit of \$1 for each day of home service, and \$1.25 for each day of overseas service is allowed, not to exceed \$500 for home service or \$625 for those with service overseas. If credit is not more than \$500, no payment will be made. If over, a 20-year endowment policy is issued in the amount the credit would purchase as a single premium. If a veteran does not apply his widow, children, mother or father may apply if dependent at any time before Jan. 1, 1935.

Loans—On adjusted service certificate.

Probe Death Of Soldier

Private Edward G. El Paso, Texas, of Battery "B" 10th Field Artillery, was found shot through the head, Private Herschel E. Moses, Cherryville, N. C., of the same unit, was wounded three times.

Moses told officers a fiery spark from the darkness while he walked his post last night, struck his cap and fired. Bullets entered Moses' thighs and nose. Soldiers found Grogan had a bullet wound in his forehead. A pistol nearby, identified as having been taken from the post supply room, had four empty shells.

Court Upholds Hoover Policy

WASHINGTON, Dec. 2.—President Hoover's oil conservation policy was upheld today by the District of Columbia court of appeals. The court sustained the order of Secretary Wilbur in March of last year, that pending applications for permits to prospect for oil on government lands be rejected.

Wilbur's order was issued the day after President Hoover announced his conservation policy in a brief statement to newspaper men, saying there would be "complete conservation of government oil in this administration."

In a dissenting opinion Justice Josiah Van Orsdel held Hoover's policy could only be put into actual effect by the issuance of a formal proclamation.

Rusk County Well Is Extinguished By Steam. HENDERSON, Texas, Dec. 2. (AP) --Fire, which burned fiercely in the Stroube Frederick No. 1 in the Rusk county oil field, was extinguished with chemicals and steam this afternoon.

Sl Langford, head drifter, was seriously burned while attempting to extinguish the fire, and Doc Longmire, fireman, fainted from heat while fighting the blaze.

Lack of wind probably saved several adjoining shacks from destruction.

The burning well was only 300 feet from the discovery Jolner well. The Henderson fire department, assisted by 100 volunteers fought the fire.

Railroad Employees' Movement At C.U. Connellee, Abilene Spreads Over Entire State 79, Succumbs

ABILENE, Dec. 2.--Abilene employees of the Texas & Pacific and Abilene & Southern railroads, who organized here two weeks ago to combat "unfair and unequal" competition of truck and bus lines and Sunday made their organization a permanent one with a full corps of officers, a slogan and a name, started a movement that is spreading over the state.

Saturday night employees of all railway lines entering Fort Worth formed a permanent organization; there similar to the one here. Similar groups have also been organized in Sweetwater, Wichita Falls and Texarkana. Local employees have been notified.

The organizations were brought about by situations similar to the Abilene one--reduction of railway forces and threats of further reductions due to the supplanting of the railroads by motor truck and bus lines as common carriers of freight and traffic passengers; and they have outlined a common purpose--that of fighting what they term unfair competition of motor trucks and buses.

Resolutions proposed to remedy the situation are practically duplicated for the organizations. The Fort Worth resolution, following in detail the proposals in a memorial addressed by the "parent" organization of Abilene employees to state legislators, sets out that the remedy is to impose a ton-mile tax on highway truck operation and a passenger-mile tax on bus operation. It calls attention to a "lack of regulations and freedom from taxation of trucks and buses" and demanded that all "subsidies" be withdrawn from these forms of transportation by the government.

W. E. Lence, manager of the Abilene & Southern, attended the Fort Worth meeting, and was one of the principal speakers. He was back here Sunday afternoon to speak for the Abilene meeting. "The railroad employees of Abilene" is the name of the organization here, and the slogan is the title of the resolution adopted at the initial meeting. "Taxing one industry to subsidize its competitor is tyrannical."

Abilene employees were joined in their meeting Sunday by Sweetwater, Anson, Bradshaw and Willetts railway employees, and one of the group, E. E. Hunt, agent of the T. & P. at Willetts, was made one of the permanent officers. Robert Gray, local agent of the T. & P. is president; T. R. Dodson, roadmaster of the A. & S., is first vice-president; Hunt is second vice-president; and C. F. Rowden, an assistant agent of the T. & P., is secretary.

Addresses of Protest. Addresses in protest in the bus-employee situation were made by Mr. C. E. Lence, L. S. Daniel, local agent of the T. & P., and J. D. Dorton, agent of the A. & S. "Safety On Highways" was an theme of talks, however, continuing to be about steady as compared with last week. Strictly comparing Ohio and similar figures of 61 and finer qualities will at 20 cents in the present for the bulk with reasonable tonnage. 31 cents. "The continuing strike of similar qualities bring 25 to 27 cents in the present."

CASH GRAIN. FORT WORTH, Dec. 2. (AP) --Demand for corn and barley on the Fort Worth cash grain market showed some improvement. Turkey, however, were nominal and based upon last reported sales with the changes in contract markets not fully reflected here. No. 1 hard wheat of any protein was probably worth \$3.84 delivered Texas common points.

Estimated receipts: Wheat, 45,000; corn, 3, and sorghums, 6,000. Bids and offers on coarse grains ranged nominally as follows: bids, 100,000 delivered Texas common points, freight paid.

Oats, No. 2 red 48.00; No. 2 white delivered Texas group, 48.00; points 47.25, to which add one cent for delivery group three.

Sorghums, No. 2 white per 100 pounds 1.33 1/2; No. 2 kafir 1.28 1/2.

CONTINUED TRIAL

CHICAGO, Dec. 2. (AP) --Trial of Frankie Foster for the slaying of the Tribune crime reporter, Alfred Langie, was unexpectedly continued to February 15 today, and as a tentative jury had been chosen.

in carrying out the plan. Cray's statement continued that competitors of the railroad contributed nothing to the relief program. "As the buses and trucks operate over the state highways, which have been built and are being maintained out of taxes paid by property owners, stockmen and farmers would have a right to expect a larger measure of relief from the buses and trucks than from the railroads, but these competitors of the railroads have contributed nothing to their relief."

The statement concluded that railway employees are "proud of the fact that our companies, although at this time in dire need of all the revenues they can get, voluntarily reduced their freight rates on certain commodities moving in the drought stricken areas, thereby materially assisting the stockmen and farmer in their emergency." It was signed by Cray and Rowden.

Lence's attack was on the taxation situation. "Four years ago this country celebrated the centennial of the adoption of the Declaration of Independence. That famous declaration written by Thomas Jefferson was a protest against unjust taxation. It was no more unjust than the unbelievable situation that we are now protesting against."

He declared that the tax payer is "suffering." Five years ago a highway number one was hardy faced through Howard county and opened to the public. The heavy trucks and buses have already worn it out and preparations are in progress at this moment to submit to the voters the question of issuing bonds in the amount of \$225,000 to rebuild it.

Lence also declared, "The actual cost of truck transportation is more than ten times the actual cost of rail transportation, notwithstanding the shippers pay a lesser rate to the truck than to the railroad. The difference is partly made up in concessions in wages by the truck employees, but chiefly by the taxpayer, whose tax bill has increased 952 per cent in thirty years."

Gorman Man Reports Shooting At Bandits

EASTLAND, Texas, Dec. 2. (AP) --Tom Clements, operator of a filling station at Gorman, fired three shots at two men who held him up and took \$100 last night, he reported to county officers today.

Father of Eastland Dies In Fort Worth Hospital

FORT WORTH, Dec. 2. (AP) --C. U. Connellee, 73, affectionately known over West Texas as "the father of Eastland," died at a hospital here at 5:30 o'clock this morning after an illness of almost three months. His wife and daughter, Mrs. J. N. Graves, Dallas, were at his bedside.

The body was sent to Eastland and funeral services will be held there Wednesday afternoon.

Connellee came to Texas in 1871 from Kentucky, where he had graduated from the University of Kentucky in the engineering department. He settled in a log cabin in a spot which now is the downtown district of Eastland. In 1875 he laid out the town and named it in honor of William Eastland, one of his comrades in wrestling that section from the Indians.

Manufacturers Appose Campaign Advertising State

WACO, Texas, Dec. 2. (AP) --One hundred Texas manufacturers, meeting here today, unanimously endorsed a plan, proposed by the all-state council of the regional chamber of commerce, proposing a five-year advertising campaign for Texas-made goods.

A manufacturers' committee of 15, to be chosen five from each of three regional chambers of the state--South, East and West--meeting with the all-state council, will decide upon the character of campaign, size of the budget and manner of collecting it, and shall have authority to employ an advertising agency.

The conference voiced the opinion in resolutions that the movement should embody the entire southwest, and not have the effect of building a wall around Texas by pushing Texas products to the exclusion of other southwestern states. Belief expressed that Texas would possibly build a prejudice against it in surrounding states, and bring about a boycott from those states on products, such as fruit from the valley, influenced the meeting to vote to include other states.

Guy Blount, president of the East Texas Chamber of Commerce, introduced the presiding officer, R. M. Kelly of Longview.

It was decided that Texas should attempt to sell her products "on merit rather than sentiment."

Governor Dan Moody and Governor-elect Ross S. Sterling were speakers at a banquet session.

FORT WORTH, Dec. 2. (AP) --C. U. Connellee, 73, affectionately known over West Texas as "the father of Eastland," died at a hospital here at 5:30 o'clock this morning after an illness of almost three months. His wife and daughter, Mrs. J. N. Graves, Dallas, were at his bedside.

The body was sent to Eastland and funeral services will be held there Wednesday afternoon.

Four Park Associations Will Discuss Problems

ABILENE, Texas, Dec. 2. (AP) --The combined problems of four major park associations in Texas will come up for consideration at a meeting of park association representatives and legislators here Wednesday night, on call of D. E. Colp of San Antonio, chairman of the state park board.

Park associations to be represented are the Palo Duro Canyon, at Caddo Lake, in the Davis Mountains and Guadalupe Mountains, and McCurtick Canyon areas. Delegates are expected from Alpine, Marfa, Fort Davis, El Paso, Wellington and other Texas areas.

The men were masked and each was armed with a pistol, Clements said. After they took the money and were leaving Clements fired at them.

4,204,531 Barrels Taken From Hobbs Pool In Four Months

For the first time since production was adopted in the Hobbs pool of Lea County, N. M., on July 10, pipe line runs during the first half of November exceeded the nominations. The margin, however, was slight, averaging 78.25 barrels daily for the 15-day period. Total runs from the Hobbs pool from Nov. 1 to 15 were 470,674 barrels, compared to the total nominations of 469,200 barrels, or a difference of 1,474 barrels.

During the five months that Hobbs pool production has been operated, there has been 4,204,531 barrels of oil withdrawn, which is 57,884 barrels less than the allowable of 4,262,415 barrels, or no less than the figures issued in production schedules.

Various leases in the pool have overproduced their quota to an extent of 15,500 barrels but short-ages assumed by other leases amounting to 23,448 barrels leaves a total shortage of 7,948 barrels over the five month period.

During the first half of November the Hobbs Petroleum Corporation maintained its leadership among the Hobbs pool producers by running 69,154 barrels of oil, which was 1,425 barrels in excess of its allowable for the period.

Hobbs Oil and Refinery company was the second largest producer running 56,620 barrels of oil which was 222 barrels more than its allowable. Amstar Petroleum Corporation was third with 43,247 barrels delivered during the 15-day period. Midwest Refining company was fourth with 40,418 barrels. Gypsy Oil company, which produced 42,443 barrels was fifth in total recovery.

Other companies in the pool produced the following totals during the first half of this month: Continental Oil company, 32,437 barrels; Atlantic Oil company, 28,544 barrels; Empire Gas and Fuel company, 16,900 barrels; Landreth Production Corporation, Maljamar and Texas Nutty, 6,240 barrels; Ohio Oil company and Independent Oil and Gas company, 35,077 barrels; Prairie Oil and Gas company, 8,115 barrels; Kelly Oil company, 4,550 barrels; Sun Oil company, 12,661 barrels; California company, 13,294 barrels; Texas company, 18,429 barrels; Texas Pacific Coal and Oil company, 5,296 barrels; Tidal Oil company, 12,335 barrels; Walker Oil Corporation, 7,885 barrels.

C. S. HOLMES

Resident of Blackwell today made final identification of the bodies. Mrs. Ora Dismore of Big Spring, friend of the Lewellen family, looked at the bodies this afternoon but could not make definite identification. She declared, however, the body of Lewellen resembled the man she knew. Both of the bodies were badly mutilated in the crash.

Lewellen's skull was fractured, his legs broken, his hip and side badly injured and he received internal injuries.

Both of Lee's arms and legs were fractured, his back and neck broken and his skull crushed. He was badly cut and bruised on the face and head.

The bodies are being held at Early Funeral home pending positive identification by parents or relatives.

Lee has two sons at Midland, it was declared. It is thought he had been picking cotton in Midland county before returning to his home in Blackwell.

Headed by Adam Konz, justice of the peace of Martin county, officials were probing the fatal crash. They were to meet at 2 p. m. today. It is alleged two other occupants of the coupe was only slightly injured.

Judge Beall

Judge Beall advocated returning to the old system of two terms a year. He declared the "district court" need a reorganization. He expressed the belief that the present system of one term and less court "is a mistake."

"There is a great amount of sentiment and history in district courts," Judge Beall declared. "We waste too much court time if we utilize there would be no need of additional time."

Thomas declared the move was not a matter of sentiment, but a matter of personalities, and not a matter of politics.

"We must have more time," Thomas said. "We are in a desperate situation. Additional time does not benefit the lawyer, but the people in the courts. The present system means we try all cases and most contested suits and the courts are out of order."

James Beall Jr., assistant district judge, declared that the present system of one term is much better than the old system of two terms. He declared that the present plan means that the courts would be opened for business any day and would not be closed any day.

EMP HEARD

W. Earl Egan, Sweetwater, declared there is no use in trying to keep the district court. This has been coming up for five years.

Egan made a motion that a vote be taken as to whether or not the district judge was willing to have the district divided. The motion was tabled on the motion of C. P. Rogers of Big Spring.

Judge Fritz R. Smith, district judge, explaining that it was his intention to say nothing regarding the proposed change, declared there is no objection, but what Howard county must have relief.

"We cannot do the work and do it as we are now," he declared. "This is the best district bar in the state and I would be ungrateful if I said I wanted to give up any county in the district."

In presenting statistics, Judge Smith declared Seury has nine weeks of court and could give up two of them. He also declared "Hobbs has nine and could do the work in seven. In his belief, Sweetwater might spare two weeks, giving Howard county six additional weeks, bringing the total to 18."

At 1:15 p. m. Garland A. Wood, ward made a motion that a committee composed of two representatives of each local bar association be appointed, and authorized to meet at Sweetwater to discuss the proposed move.

The motion, the only one of many made during the night to be voted upon, carried.

Judge Smith adjourned Dec. 23 at the late for the meeting of the committee. Among those attending the banquet were G. A. Woodward, M. R. Showalter, John R. Whitaker, Martelle O'Donnell, Charles Sullivan, J. L. Sullivan, T. H. Chilton, court stenographer, Thomas J. Coffey, C. T. Rogers, Clyde E. Thomas, T. T. Brooks, Tracy T. Smith, Judge Fritz R. Creamery Plans Are Developed At Committee Meet

Designation of a committee to draw up a contract to be presented to farmers in an effort to determine how much stock they would buy and how much milk they would agree to furnish daily to a cooperative creamery was made here Tuesday morning in a meeting at the Settles hotel of a group of farmers, dairymen and business men.

C. M. Anderson of Lamesa, manager of the Powdered Milk plant there, addressed the meeting, pointing out factors entering into successful operation of a cooperative creamery.

Those comprising the contract committee were Ray Wilcox, J. B. Bush and W. D. Coffey.
