Matagorda County Roads.

Matagorda county citizens have voted a \$3,000,000 bond issue with which to build a system of good roads. The sentiment in favor of the bonds and the roads was overwhelming. This means that Matagorda citizens are overwhelmingly progressive and that they are going to draw immense crowds of people to that section of the coast country. Closely following the bond vote comes the announcement that a \$700,000 hotel is to be built at Bayside Beach, the new Matagorda Bay resort, by Chicago capitalists who are developing the resort. Also that the resort town is to have a modern electric and ice and storage plant with a roof garden on top of the building. Twenty-four frame cottages are already under construction there to care for the visitors. The people who help themselves are the people who attract capital and enterprise.

Texas Road Building.

Ten years ago many people were heard to say that railroad building in Texas was about over. They have another guess coming now. It begins to look like there will be more railway construction in the state in the next ten years than in any period of its history. Roads now operating are extending their

lines into undeveloped territory. This is especially true in the Rio Grande Valley and the Panhandle. The Texas roads are making money, having cleared more than \$3,000,000 more the first three months of this year than in a similar period last year. Cities, towns and communities with a progressive spirit, whether on lines of new railroad construction or not, are going to profit by all this expenditure of capital in railroad building.

Places That Are Growing.

I am fairly well acquainted with almost every town in Texas and find that the towns that have a uniformly good business and that are making any growth worth considering are the towns whose newspapers show active, persistent advertising on the part of the local merchants. Good roads make it so easy to get from one town to another that unless merchants attractively advertise their goods in the local papers the people get in their cars and go to those places that do advertise them. Newspapers from the large cities and towns can now be circulated in the smaller places. These carry the messages of the big place merchants attractively displayed day in and day out, right to the doors of the smaller cities and towns. Unless this competition is met through local advertising the business that should be kept at home is largely going to those cities and those stores that seek it through constant advertising. Trade is being centralized in those places that advertise most for it. The only way to meet this is through the methods used by the growing cities—through advertising.

All-Texas Special.

Gov. Dan Moody has announced that he will be in the party that will make the "All-Texas Special" goodwill tour of the North and East, leaving Texas June 19. This tour is not to be a spectacular outing, but a trip by Texas business men and capitalists who are hoping to place Texas in the right light in those cities they will visit. It is sponsored by the Texas Daily Press League, an organization composed of newspapers in the small cities of the state. Moody's presence with the party in the fifteen prominent cities to be visited will add prestige to the trip, for Moody has become a well-known national figure. Texas only needs to be

rightly presented to the Nation to attract attention to its resources.

Texas Made Cedar Chests.

Not long ago I saw in a large furniture store a nice window display of beautiful cedar chests. I asked the furniture dealer where they came from and he gave me the name of a well-known furniture manufacturing city up North. I asked him whether such cedar chests were being made in Texas and he answered that he did not know, but saw no reason why they should not be, and that he would prefer to handle the Texas made goods if he could get them as nicely made and at as good price. With all the cedar that Texas has much of it going to waste, it is surprising that a cedar chest from the North is ever sold in the state. A great deal of capital is not needed to start and operate a cedar chest factory.

The Fields Are Calling.

There is no good reason why any one should be idle in Texas now. Five thousand berry pickers are needed around Lindale in Smith county to save the berry crop. Tomato gatherers and packers are wanted wherever the tomato crop is ripening. Cotton is opening in the Rio Grande Valley.

Cantaloupes and watermelons are ready to be gathered and shipped. The cotton fields, the corn fields and the grain fields are sending out distress signals. Everywhere there is an appeal for labor and the laborers are receiving good wages. The idler in Texas who will not work now does not want to work but should be told in an official way that he must labor willingly or else work under compulsion on the public roads.

Some High School Buildings.

A few years ago a town or six or eight thousand people that had a high school building that cost \$100,000 had a place that was proudly exhibited to all visitors as a special indication of town enterprise and pride. Big Spring, having landed its hotel enterprise, now announces that it will undertake to build a \$250,000 high school building. With the new hotel and such a school building Big Spring will make visitors from neighboring places sit up and take notice.

Canning Plants.

Wherever vegetables and fruits are grown for market there should be a canning plant to handle that part of the crop that does not find a ready market. Many places in Texas are avoiding waste by

having such plants. McAllen has been canning about 3,000 cans of tomatoes a week and is prepared to put up 5,000 cans of produce a day if it becomes necessary. Kosse is packing surplus beans, cabbage, pork, beef, spinach, blackberries and other things. These canners are not only saving waste, but they give employment to people who cannot well work in the fields.

A road to cost \$350,000 is to be built from Huntsville up the Montgomery county line. Walker county used to be noted for its poor, sandy roads, but is showing the right spirit of enterprise in getting away from these things. The result is that Huntsville is taking on new life. Some Huntsville people can not see things that way, but when Huntsville gets rid of its penitentiary the old town is going to take on a new growth.

CHARITY COMMITTEE ACTIVE.

Hereford business men are co-operating with the Charity Committee in an effort to rid the town of beggars, according to Rev. Thurman Morgan, chairman of the committee.

"We wish to express our appreciation for the co-operation we are receiving from the merchants," said Rev. Mr. Morgan Saturday, "and are hopeful that the housewives of Hereford will also report any cases that come to their attention."

The Charity Committee includes the four ministers of the town and the Deaf Smith county sheriff. It was appointed some time ago but until recently only a few cases had been referred to it for consideration.

"An Evening in Hawaii."
 One of the big attractions of this
 season's chautauqua program is
 Vierra's Hawaiians, featuring the
 spectacular musical production, "An
 Evening in Hawaii." In a setting
 of colorful, tropical splendor, pro-
 duced by special lighting and scenic
 effects and quaint native costum-
 ing, the romance of the South Sea
 evening is most vividly portrayed.
 Hawaii is a land where moon-
 light is the most gorgeous in the
 world and where every whispering
 wave breathes of romance and
 music. You will be enthralled by
 the native music as it is played
 and sung by the company of na-
 tive musicians. Moreover, they
 are past masters at the playing of
 the latest popular airs. They
 give to the melody of the day a
 touch of the subtle harmony of
 the true Hawaii.

George Vierra, director of the
 company, first acquainted Ameri-
 cans with Hawaiian music at the
 San Francisco Exhibition, where
 Vierra's Hawaiians were accorded
 an enthusiastic reception. He is
 largely responsible for the subse-
 quent popularity of real Hawaiian
 music in this country.
 His company consists of six
 artists who play the ukelele, banjo
 and guitar. Melody is the soul
 of music and this company dis-
 penses it in a generous measure.
 As singers their voices are un-
 usually clear and sweet, true and
 flexible.

We've Seen 'Em.
 He sat at the lunch counter in
 a cafeteria. He glanced at his
 watch. Only ten minutes to make
 that class. He'd have to hurry.
 He gulped down a sandwich and
 glass of milk and then pointing to
 a pie at the back of the counter,
 said:
 "I'll have a piece of that black-
 berry pie."
 "That ain't blackberry," said the
 waitress as she drove off the flies.
 "It's custard."

**A cheap tube

THIRTY-NINE YEARS of tube-
 building experience has proved
 to Dunlop that "cheap tubes" do
 not pay.
 That is why Dunlop tubes are
 made casing shaped. It costs a
 little more than to build them on a
 straight pole, as cheap tubes are
 built.
 But a casing-shaped Dunlop tube
 is strong everywhere. The outside
 edge is not weakened by excess
 stretch. The side next to the rim has
 no wrinkles to crack with age and
 your casing, because it fits. And
 your casing is worth ten times the
 cost of the tube.
**We strongly recommend a Dunlop
 tube for every casing**

Big Smith Work Clothes

Our work clothes are the best that we can find on the markets of today and every gar-
 ment is guaranteed to give you satisfaction. Our prices are lower and a look at them
 will convince you that we save you money and give you better garments.

No more of this!

Have you ever worn truly uncom-
 fortable overalls? Ever had the sus-
 pendings become unbuttoned and
 fall loose over the shoulders. My,
 how uncomfortable!

In the **BIG SMITH** overalls this is
 eliminated. There is a shield in the
 suspendings which allows equal pull
 even though one of the suspendings
 should come loose. There's no see-
 sawing either, and the shield fits snug-
 ly below the shoulder blades.

BIG SMITH Overalls

these garments made for men of
 all sizes and all ages—and for
 boys, too. These overalls contain
 more cloth than others; they are
 larger at the seat and in the legs—you
 can put them on over your clothes and
 shoes. Note the Smith Shield in the sus-
 pendings. That means comfort for it fits
 snugly and prevents that seesawing and
 slipping over the shoulders. The pocket
 holds. Even the buttons on the bib
 are reinforced with shoe leather, and all
 points of wear and strain are strength-
 ened.

Plan to Erect Federal Markers
 A movement was started Friday by the Chamber of Commerce to induce the state highway commission to take immediate action in the matter of placing federal markers on Highway Number 33 between Amarillo and the New Mexico state line. Highway 33 between these two points is the same as the Abo Pass route.
 Word has been received by E. W. Harrison, vice-president of the Abo Pass Highway Association, from the head office of the association in Enid, Oklahoma, that the Abo route from Enid to Amarillo has been designated as a federal highway and it is possible that the part of the route west from Amarillo may become a part of this highway.
 The Abo Pass officials are anxious to have the state highway commissioners of Oklahoma and

Texas put up the federal markers before the big road meeting in Amarillo, June 26 as it is quite likely that some definite agreement will be reached at this meeting concerning the selection of future federal highways through the two states.
 The Hereford Chamber of Commerce and similar organizations in other towns along the route are sponsoring the movement and it is hoped that the Abo Pass can be made a federal highway from coast to coast.

George Beams, Jr., Burl Witherspoon and Oliver Ray returned to Hereford Sunday from College Station where they have been attending Texas A. & M. College.

A shower was given Mr. and Mrs. Grit Crtalinger Friday at the home of Mrs. Jasper Cockrell. The house was filled with friends and the rooms were nicely decorated with pink and white. A short program was given, consisting of a vocal solo by Gladys Lewis; a violin solo by Miss Mabel Barnhart and a concert by the bride by Mrs. David Thompson.

Then the bride and groom were requested to find the hidden treasure, a little wagon decorated with pink and white, loaded with just lots of nice, useful gifts. After the gifts were unwrapped by the bride and groom and passed to the guests to see refreshments of sandwiches, cake and punch were served.
