THE ONE THEY TALK ABOUT

Have you ever made good on

THE extra mileage you get from Dunlop L tires starts with the fact that Dunlop has had thirty-nine years of tire-building experience more than any other tire-

Each part of each Dunlop is built right. Dunlop owns its own cotton mills to spin selected long-fibre cotton into the special Dunlop cable-twist cords.

These cords mean extra strength—an added factor of safety against constant load and pounding of roads-longer life and greater mileage.

They mean extra "stretch" -so the tire carcass will give under blows, and come back to its original shape without the slightest injury.

Every Dunlop you buy has extra miles built into it because Dunlop knows each part of its job. That is why we recommend you put Dunlops on your car.
