U. S. Army, Navy And Air Force Officials Meet To Iron Out Differences Over Duty

WASHINGTON, August 23. (AP)— The nation's top military officials announced today an agreement in general terms was reached in weekend meetings at Newport, Rhode Island, on duties of the Army, Navy and Air Force in peace and war.

A statement issued by Secretary of Defense Forrestal's office said this agreement embraces a previous one that the Air Force's main job is strategic air warfare but emphasized "this does not preclude participation of other services".

There has been a squabble between the Navy and the Air Force over air duties of each ever since the Air Force was created as a separate department on equal footing with the Army and Navy.

Forrestal called the joint chiefs of staffs, which includes the top Air Force, Navy and Army officers to Key West, Fla., some months ago to iron out arguments over functions.

Today's announcement said that the Key West agreement has been "subject to different interpretations since its preparation".

The Newport meeting was to settle those different interpretations. The Air Force, for instance, has loudly criticized the Navy's proposed construction of a super-carrier on the grounds that it infringes on Air Force long-range bombing functions. The Navy has denied the purpose of the carrier is to do long-range bombing.

The two-day meeting at the Naval War College there closed yesterday in the same light-lipped secrecy that surrounded it ever since the first announcement that it would be held.

While these top-secret meetings were in progress, however, the Air Force let it be known that one of the things it would like to have most of all is a guided missile capable of carrying an atom-bomb to a target 5,000 miles away—and faster than the speed of sound.

Such a weapon was labeled a must in the final report of Gen. Carl Spaatz, who turned over his job as air force chief of staff to Gen. Hoyt Vandenberg several weeks ago.

Spaatz said that since there is no existing defense against a weapon of this type the United States must be the first to develop it. He said it has been a prime objective ever since the guided missile program was launched. But he gave no hint what, if any, progress has been made.

Polio Foundation Sends \$100,000 To Help Texas

NEW YORK, Aug. 23. (AP)— Dimes, \$100,000 worth of them from the March of Dimes Funds, have been sent to Texas to fight the current outbreak of polio, the National Foundation for Infantile Paralysis said yesterday.

The foundation already had contributed more than \$290,000 to the state during the present epidemic. All funds are used by the foundation chapters to pay medical care costs of victims of the disease.

Ruth Leaves 10 Per Cent Of His Estate To 'Kids Of U. S.'

NEW YORK, Aug. 23. (AP)— Babe Ruth set aside part of his estate to be used for "the interests of the kids of America," his will showed today.

The will provided for the home run king's widow and daughters and left 10 per cent of the remainder for "the kids." It was filed in surrogate's court for probate today.

Cottonseed Lower

PARIS, Aug. 23. (AP)— The cotton seed price dropped another \$5 per ton here today and was quoted at \$65 a ton. Cottonseed meal also fell from \$70 to \$65 per ton.

SKYMASTER LANDS 5 TONS OF FLOUR IN BERLIN — The U. S. Air Force C-74 Skymaster, largest plane ever to land in Berlin, is unloaded at Gatow airport in the British sector of the German capital Aug. 17, after landing with the largest single load to be brought into Berlin since the start of the airlift. A Royal Air Force Dakota (landing in right background) gives an idea of the size of the U. S. plane. Gatow airport was used as its runway is longer than that at Tempelhof field. (AP Wirephoto).

SPIRITUAL GUIDANCE FOR GLOBE SOUGHT

World Council Of Churches Formally Comes Into Being

AMSTERDAM, The Netherlands, Aug. 23. (AP)— The World Council of Churches formally came into being today, the result of years of effort to give the spiritual guidance of a unified Christian church to the social, economic and political problems of the world.

After 10 years as a provisional body, the council took on its new status when the Archbishop of Canterbury, chairman of the first business session, called some 450 official delegates from 40 countries for the first order of business.

Nowhere else could the birth of the world council have had a more appropriate setting than in Holland, a land of tolerance and spir-

itual freedom where the persecuted and oppressed of all countries have found sanctuary.

Now, for the first time, official representatives of 145 churches are creating "a permanent instrument of fellowship and co-operation on a worldwide scale," said the Rev. Dr. Samuel McCrea Cavert, general secretary of the Federal Council of Churches of Christ in America, a speaker at this morning's sessions.

The delegates will be divided into committees to prepare recommendations for discussion and action by the assembly. One committee will take up the council's

constitutional basis. A second will deal with matters of policy affecting the council. A third will be concerned with a program and administration of the council. The assembly will continue through Sept. 4.

"We meet at a time of deep confusion and uncertainty when men everywhere are eager for some work which shall shed the light of God's truth upon the present scene," said Cavert.

"Any utterance of the assembly will claim no authority over the churches. Its significance will depend solely upon whatever measures of inherent truth or wisdom it may possess."

BIRTHS HIGHEST, DEATHS LOWER

TOKYO, Aug. 23. (AP)— Allied Headquarters announced today the Japanese birth rate is the highest since 1926 and the death rate is the lowest ever recorded.

In a review of vital statistics headquarters also noted that the marriage rate was the highest on record.

Last year there were 1,562,587 more births than deaths in Japan. Japan's population Oct. 1, 1947, was 78,090,991.

Devers Praises 56th Cavalry, Entire TNG

SAN ANTONIO, Aug. 23. (AP)— The entire Texas National Guard was praised and the 56th Cavalry Group singled out for special mention by Gen. Jacob L. Devers, chief of the Army Field Forces, 4th Army Headquarters said here today.

The 56th Cavalry Group is composed of men from the Rio Grande Valley, West Texas and San Antonio.

Following inspection of the first summer encampment since World War II at Camp Hood, Saturday, Devers declared "I am well pleased. The training is laid out right. Everyone seems satisfied from top officers all the way down to the newest privates."

With Devers during his inspection was Gen. Thomas T. Handy, 4th Army Commander. Gen. Devers also gave special praise to the 112th Cavalry Squadron, led by Maj. Albert V. Jernigan of San Benito.

McKELLER SUPPORT GAINED Trumanites Claim Headway In South

WASHINGTON, August 23. (AP)— Senator McKellar (D-Tenn.), said today he is supporting President Truman in the November election.

McKellar's announcement came in the face of reports from Tennessee that at least two of the state's 12 Democratic elector candidates have made known their intention of voting for the States' Rights ticket headed by Governor J. Strom Thurmond of South Carolina.

"I was born and bred a Democrat," McKellar told a reporter. "I always vote for and support the ticket and, of course, I will continue to do so."

The Tennessee senator's statement recalled a recent similar declaration by Sen. A. Willis Robertson of Virginia.

Administration Democrats immediately put them together to back their claims that Mr. Truman is making some headway in the South, despite the angry protests which arose there over his civil rights program.

Elsewhere in the South Mr. Truman appears unlikely to get much active support from senatorial democrats. Sen. Pepper (D-Fla.) has said he will work for the ticket and the administration counts on Sen. Connally (D-Tex) for backing.

Mr. Truman has strong support in so-called border states. Sen. Barkley of Kentucky is his running-mate. Sens. Elmer Thomas of Oklahoma and Kilgore of West Virginia back the president.

But a lot of the Dixie Senate Democrats are going to sit this one out.

Berry Is Named Dixiecrat Advisor

HOUSTON, Aug. 23. (AP)— Twenty-five members have been added to the States' Rights Democrats Advisory Committee for Texas, Chairman Palmer Bradley has announced.

New committeemen include: Leslie H. McKay and Joe W. Wheeler, Austin; J. B. McGuire, Jr., and Curtis Douglas, Pampa; James M. Harrison, Longview; P. L. (Pete) Long, Kilgore; W. R. Hughes, Texasboro; Hail E. Timanus, Bay City; W. D. Berry, Big Spring.

Thomas D. Affect, Jr., Galveston; Jack Hays, Goliad; Miss Nan Proctor, Victoria; Dr. R. H. McLeod, Palestine; J. Robert Liles, Conroe, and Lee Curtis, Belton.

RAILMEN STRIKE

TOKYO, Aug. 23. (AP)— Seventy-nine trains were tied up in Northern Japan today by a walkout of government railroad workers in defiance of a government ordinance against strikes.

LOST AT SEA

TOKYO, Aug. 23. (AP)— Lawrence Wilson Garcia, of Roswell, N. M., a seaman aboard the minesweeper Chatterer, was lost at sea on Aug. 20 when he fell overboard.

Berlin Tension Eases Slightly

Soviets Release Three Americans

BERLIN, August 23. (AP)— The Russians released today three U. S. military government officials they had seized in blocked Berlin and in Southern Germany.

The British in turn set free Franz Erdmann, head of the criminal division of the Russian-controlled eastern Berlin police. He was arrested at a boxing match Sunday and accused of abduction of western Berlin police and "presumption of authority," charges that still will stand.

Bentley Will Tell Of Spies In Industry

WASHINGTON, Aug. 23. (AP)— Congressional spy investigators said today Elizabeth T. Bentley is ready to tell how a Soviet spy ring went after America's wartime industrial secrets.

One member of the House Un-American Activities Committee said he fears the Russians may have been highly successful.

Miss Bentley already has given the committee, in secret sessions, a brief peek at what she knows about "espionage in industry," this member said, adding that she evidently knows a lot.

As soon as it can be arranged, he said, public hearings will be held on operations of what the committee regards as a fourth Red spy network in the United States.

But first, the committee has several mopping up jobs to finish. There are leftovers from:

1. Testimony of Miss Bentley that she used to be a Communist who gathered secrets from the government officials and passed them on to Moscow. Further hearings are planned starting Sept. 7.

2. Testimony of Whittaker Chambers, an editor of Time Magazine, that he, too, used to be a Red and that the Communists operated a pre-war underground in Washington in which Alger Hiss was a leading member. Hiss, former State Department official who now heads the Carnegie Endowment for International Peace, denies it.

Chambers never has called the underground a spy ring, but he said espionage undoubtedly was one of its eventual objectives.

14,000 Arrested As Aliens Along Border In June

EL PASO, Aug. 23. (AP)— Fourteen thousand aliens were arrested during June in the three immigration districts along the Mexican border, compared to less than 1,000 in other districts throughout the United States.

Grover C. Wilmoth of El Paso, district governor of U. S. Immigration and Naturalization, gave these figures by districts: El Paso, 2,146; Los Angeles, 5,562; and San Antonio, 8,789.

During June, 1,379,951 persons crossed and to from Mexico over international bridges in the El Paso district, which extends from Arizona to Presidio, Wilmoth said.

Senate Candidates Out Shaking Hands

By the Associated Press

Both candidates in the U. S. Senatorial race were out shaking hands today and conferring with supporters. Both planned radio speeches tonight.

Lyndon Johnson went to Houston for what his supporters there said was a "homecoming rally." He taught in a Houston high school in the early '30s. After a public reception at his hotel headquarters in Houston Johnson planned to spend the remainder of the day with supporters and shaking hands.

At 8 p. m. he will hold a rally in a Houston radio station auditorium. Coke Stevenson was seeking votes in the Lower Rio Grande Valley. His schedule through the citrus county called for stops at San Benito, La Feria and McAllen. At 7 p. m. he will make a statewide broadcast from Weslaco.

Asked if he planned any change from his usual person-to-person campaign, Stevenson said: "Well, I'm sort of like the Quaker now; I'm waiting for the spirit to move me. I'll do whatever seems best. But I'm not planning any change right now."

In a speech prepared for noon radio delivery today Johnson broadcast what he said was "part two" of the records of himself and "the other man in this race."

FOUR POWERS AGAIN CONFER

MOSCOW, Aug. 23. (AP)— The three western envoys went to the Kremlin tonight for another four power conference.

An American embassy spokesman would not say with whom the envoys of the U. S., Britain and France were talking.

Greek Army Continuing Rebel Route

ATHENS, Aug. 23. (AP)— The Greek Army, turning north and east from the Grammos Mountains, today routed guerrillas who were moving toward the Vitsi area with the apparent aim of finding a new home for Communist "Free Greece."

A communique said the Rebels entered Greece from Albania directly west of Kastoria. Government troops blunted their advance and sent them scurrying toward the southeast. A spokesman said this stopped their march toward Vitsi.

The Vitsi area is about 13 miles north of Nesorion, northeastern anchor of the old Grammos Front. The Vitsi sector would offer the guerrillas supply lines into both Albania and Yugoslavia, but the terrain is not merely so rugged as the Grammos Mountains and thus offers fewer natural defenses.

About 1,000 rebels were reported in Vitsi last week. The Greeks reported 1,500 heading that way from Albania after the retreat from Grammos.

(The dispatch did not indicate whether this was the group defeated today by the Greek Army.)

Gen. Stelios Kiriakis, deputy chief of staff, said earlier that Guerrilla Chieftain Markos Vafiades is whipped and Communist "Free Greece" is no more.

County Jail Is Crowded

The county jail did a booming business over the weekend, eight persons being placed in the local battle on a variety of charges.

G. W. Harris, picked up Saturday on a charge of car theft, was returned here and later turned over to Corpus Christi authorities. Harris allegedly stole a vehicle there earlier in the week.

Jerónimo Calderon was fined \$1 and costs in justice court on a charge of drunkenness.

L. J. Glen was placed in confinement, accused of transporting liquor without a license.

Bernardino Selgado was arrested on a charge of carrying a pistol and faced trial in the county court sometime today.

Bennie L. Lyles, a Negro, was picked up on a charge of driving without an operator's license.

Edward Gatewood, Ollie Calton and Estie M. Glen, all Negroes, were all arrested following a disturbance Saturday night and placed in confinement. Gatewood and Miss Calton were each fined \$2 and costs in justice court while Miss Glen, accused of indecent exposure, was fined \$5 and expenses.

State Agencies Join Forces In Fighting Texas Forest Fires

AUSTIN, Aug. 24. (AP)— State agencies joined forces today to fight 78 forest fires ranging through tinder-dry timberlands in East Texas.

An inter-agency committee composed of Adjutant General K. L. Berry, Public Safety Director Homer Garrison Jr., and State Highway Engineer D. C. Greer was appointed by Gov. Beauford H. Jester to work with the Texas Forest Service.

Jester conferred here yesterday with D. A. Anderson, acting forest service director of College Station; J. O. Burnside of Lufkin; division of forest protection; State Rep. Otis Lock of Lufkin; Garrison, Berry and T. H. Webb, representing the highway department.

Forest service officials reported that 44 new fires broke out yesterday.

Masked Quintet Makes Chicago Raid

CHICAGO, Aug. 23. (AP)— Five masked gunmen invaded the home of Radio Executive Gene T. Dyer last night, holding Dyer and two others captive for 45 minutes before escaping with \$23,000 loot.

POSTWAR RECORD IN GERMANY

Industrial Output Shows 10 Per Cent Gain In West Zone

BERLIN, Aug. 23. (AP)— Industrial production in the combined British-American zones of Germany scored a 10 per cent gain to reach a new postwar record in July, the American Military Government reported today in its semi-monthly review of occupation affairs.

The report said overall production now stands at 60 per cent of the 1936 base level and that all industrial groups showed increases during the month, with all but two setting occupation highs.

The brightest spot was the new postwar record reached by iron

and steel production in the Ruhr, which is a cornerstone of German participation in the European recovery program.

Pig iron output rose to 401,903 metric tons, a 20 per cent gain over June. Ingot steel production rose 21 per cent, to 457,623 tons, and hot rolled products increased 27 per cent to 321,974 tons.

Ingot steel was 11 per cent above the July target of 400,000 tons and now is coming from the mills at an annual rate of 5.5 million tons. Under the revised level of industry plan adopted a year ago to make western Germany self-sustaining, production of ingot

steel is permitted to reach 10.7 million tons annually.

The AMG report credited several factors for these newest gains, including:

- 1. Currency reform enacted in June, which, the report said, "brought about greater labor efficiency, decreased absenteeism, and provided a smoother flow of raw materials."
- 2. A vastly improved food situation, aided by good crops and European recovery program allotments.
- 3. Increased imports of raw materials and removal of controls on production, distribution and prices.

More Dramatic Than Words Are Actions Of Soviet

More dramatically than all the tirades, all the propaganda, than all the eloquent comparisons, the inclination of Soviet nationals to stay in democratic countries tells the story.

There may be other reasons why Russian teachers in the U. S. and Russian athletes in England, and not so long ago Russian diplomatic servants in Canada have decided to cut ties with the homeland, but the chief reason is a sense of political and mental freedom which they never experienced in their native land.

Russia must be afraid of this, just as she was afraid to let her troops come in direct contact with U. S. and allied troops. Evidence of this may be seen in the frantic efforts to compel these dissatisfied

nationals to return home. Far-fetched and lurid tales of kidnapping, drugging of victims, and that sort of thing not believed by even enlightened children, have been dished out as explanations by Russian agents.

The United States has had a few of its nationals who decided to stay in Russia. They gave their reasons and they were quoted freely in the American press. The government didn't get hot and bothered. In fact, the general attitude was "let 'em go if that's the way they feel." In other words, we seem to possess a confidence that our democracy is better and that practically all our people know it is better. Russia does not possess that confidence.

Mechanically Gathered Lint May Prove Surer In Drouth

Mechanization has worked wonders for the maize crop in West Texas. No longer must it be harvested laboriously by hand, then tossed in big fork loads at a time into threshing machines. Combines move down the rows, cutting and threshing the grain and depositing the litter on the ground right where it ought to be.

And now experimentation is well along on mechanization of the cotton crop. At the present time one of the most logical approaches seems to be through cotton that will hold its locks until it has been defoliated. One successful type is a storm proof cotton. The Von Roeder seed farms in southwestern Borden county has developed a new Western Prolific with

this in mind and so has Sam Little, a Howard county breeder whose native Mebane has been well accepted.

An odd coincidence with most of these cottons designed for stripper, or mechanized gathering is that they support less foliage. Some studies, although not yet conclusive, indicate that this may be quite as much a factor in inducing their use in this area as their adaptability to mechanical gathering. Less foliage takes less moisture to support. Developed a little more highly, that might mean, a few years hence, not only more easily and cheaply gathered cotton but cotton that is surer of making in dry years—which, alas, we have in West Texas now and then.

Here's Proof Chimpanzee Should File Suit For Libel

By ARTHUR EDSON

WASHINGTON, (U)—A magazine carried a story the other day about a chimpanzee who acted "almost like a human."

I don't know the chimpanzee myself, and I dislike giving advice to strangers. But if he doesn't sue for libel, that chimp's a chump.

I don't suppose he could collect. But think of the fun he'd have, reading the newspapers as I have done, collecting evidence to show that nobody, not even chimpanzees, have as much fun as people.

For instance:

In Hollywood, a bank has announced its plans for Hollywoodian opening. The first depositor will be Dorothy Lamour. She'll show up, lift her skirts and extract a roll of bills from the top of her armpits. Lassie will be there too. He'll deposit a bone.

In Argentina, passengers, sore because they no longer could buy tickets after boarding their trains, waged war on conductors.

One passenger tossed a conductor off a moving train. To even things up apparently, another conductor took a pot shot at a passenger. He missed, but in the understandable excitement, the passenger fell off and broke an ankle.

In La Ciotat, France, 19 Girls line up for a bicycle race. Bang went the gun. Away went 18 of the girls. The 19th didn't because she couldn't; she'd been slightly wounded.

No, the official starter hadn't fired. No. 19's no longer sweet sweetie had stepped up, shot his girl—and started the race.

In Tokyo, six Japanese psychiatrists studied Rikizo Hirano, one time cabinet member accused of falsifying his political past. It might not do to put him on trial, the psychiatrists decided, for if the questioning got tough, you know what might happen to Hirano? He might become depressed.

Back to Washington for our windup:

A local resident looked through her binoculars, brought police cars a-screaming after she reported, "there's a lion loose out here."

The cops finally located the beast, a very sad, small feeble fox.

Said the woman:

"Those glasses are stronger than I thought."

Child Care Ordered

MOSCOW, (U)—The Ministry of Education of the USSR has decreed that Soviet schools must provide for after-school activities of children in schools of working parents until their parents return from work.

Soviet schools before the war did provide such facilities, the ministry says. There is a high rate of failure among students who spend after school hours on the streets, and there have been cases of serious accidents among such children, the ministry says.

It Happened Back In—

FIVE YEARS AGO—James Lemons is stationed at naval training school in Ames, Ia.; income tax computing class held at Bettles.

TEN YEARS AGO—Mrs. A. Amabelle Lovelace and Charles and Nancy return from Fort Sumner, N. M., vacation; John Daniel elected assistant football coach; city wide croquet tourney here.

FIFTEEN YEARS AGO—Cecile Mitchell, Paris, France, singer, visits uncle, C. W. Mitchell, here; J. D. Castle family holds reunion at park.

Blast Tardy Workers

PRAGUE, (U)—Strenuous efforts are being made to reduce absenteeism and late arrival for work in Czechoslovakia's nationalized industries. Premier Antonin Zapotocky has denounced late-comers as "saboteurs" of the nation's economic efforts.

Propaganda is the chief weapon being used in an effort to cut down these figures. At some factories, loudspeakers have been set up, with a union leader at the microphone. Late arrivals may hear something like this: "Well, Comrade Svoboda, we hope this will be the last time you are late to work" or "Oh, Miss Cerna, we cannot imagine what made you 15 minutes late today."

I regret to announce that I've reached the age where, except in a business deal, I'm afraid to make a good impression. The possible consequences alarm me.

Bull Ring Inflation

MADRID, (U)—The cost of staging a bullfight—Spain's "national fiesta"—has jumped from 7,500 to 1,000,000 pesetas (\$750 to \$100,000) in the last two hundred years, the Madrid sports weekly "Diario" reports. The magazine said that in 1748 a star bullfighter received 850 pesetas (89¢) for an afternoon's performance. The late Manolete, "Champion" matador, received as high as 275,000 pesetas (\$27,500) for killing two bulls.

Please, girls, this magazine is for your boss. See that he gets it eventually, if not now.

Two Titans Of Mighty Teamsters Union Squaring Off For Showdown

By ROBERT S. ALLEN

WASHINGTON — The two Titans of the mighty AFL Teamsters Union are squaring off for a roaring showdown.

They are Dan Tobin, 72-year-old long-time national president, and Dave Beck, tough, fancy-dressing and ambitious West Coast "czar."

Basis of the seething feud is Beck's chafing yen for Tobin's job. Beck thought he had it all set to become No. 1 teamster at last year's convention. He was wrong. But he displayed so much strength that Tobin decided it would be smart to throw his younger rival a sop.

Tobin had the teamster constitution amended empowering him to appoint an "executive vice president" from among the nine elected vice presidents. This new official was to be the direct assistant to the president. Beck got the job, although he is not senior vice president.

The appointment was accepted throughout the union as formal acknowledgment that Beck was Tobin's "heir apparent."

But Beck, apparently, wasn't satisfied. The burly Seattle laborite didn't want to wait until Tobin stepped out. Restlessly ambitious, Beck decided to build a labor empire of his own.

That is where he overreached himself. Eire-born Tobin has reared back and declared open war on Beck.

UNION GRABBER

Beck's empire — building has been bold—to put it mildly. It has included a bit of strike-busting against another union.

Since last April, 12,000 machinists have been on strike at the huge Boeing bomber plant in Seattle. The strikers are members of the International Machinists Association, an independent union long on good terms with the teamsters. During a teamster's strike in Hartford, Conn., the machinists contributed thousands of dollars and did picket duty.

Notwithstanding this, in May, Beck sent his teamster through the Boeing picket line, and the following month began organizing Boeing mechanics. Beck claimed jurisdiction over half the plant's employees.

The outraged machinists yelled bloody murder. With Tobin's hearty approval, Harvey Brown, head of the machinists, wrote to every West-Coast teamster local denouncing Beck and asking their support for the strike.

The Washington State Federation of Labor also took a husky slam at Beck. It adopted a resolution condemning strike-breaking and union-grabbing. The Everett, Wash., AFL metal trades council went further. Charging Beck with recruiting high-school students as Boeing strike-breakers, the council sent a resolution to Gov. Wm. Wallgren demanding Beck be fired as a regent of the state university.

And last week, the AFL international clerks went right into Beck's own Balliwick and slugged him.

For years, Beck has bossed five Seattle retail unions. They were part of his private labor barony, consisting of brewers, chicken cleaners, cannery, and various processors.

Again with Tobin's blessing, Cecil Dunlap, a top official of the clerks, went to Seattle and took over four of Beck's retail locals, Dunlap impounded their

funds and fired their business agents—all Beck appointees. None of the locals had ever elected officials; Beck always appointed them. Also, of the \$2.50 dues the members paid, only 35 cents went to the international union. Beck got the rest.

OPEN WAR

Up to this point, Tobin had done all his countering indirectly through others. But in the latest issue of his official mouthpiece, the International Teamster, he squared off himself.

Tobin served blunt notice that he is boss and intends to remain so. He also laid the ground for firing Beck as executive vice president.

"The executive vice president," Tobin declared, "is a new officer created to be helpful to the general president in every way possible. The executive vice president is appointed for no special length of time and can be removed at any time if his services and actions are not satisfactory to the general president. It would be entirely impracticable to have anyone as executive vice president who did not carry out the policies and work in harmony with the general president either now or in the future."

The next move is up to Beck. Insiders are predicting it will be in the political field.

Beck is an old friend of Gov. Earl Warren, GOP vice-presidential candidate. Tobin is a lifelong Democrat, headed the Roosevelt labor campaign committee in all the late president's campaigns. But Tobin has been cool to Truman.

It's still in the works what will happen between the two teamsters titans.

Stubborn Men Were Largely Cause Of Two Earlier Wars

American history books have always minimized the significance of the South African or Boer war, perhaps because that struggle between two stubborn people was of a local nature and because it occurred at the same time that the United States was engaged in a campaign to rid the Western Hemisphere of a Spanish influence.

Yet, in one way, the two conflicts were not dissimilar. One individual, in each case, is credited with starting the conflagration which snuffed out the lives of tens of thousands of the combatants in the trouble zones.

The head of an American newspaper empire is given liberal credit for magnifying and agitating the differences that led to the Spanish-American war in 1898.

Historians bundle up all the reasons for the trouble between the Boers and English in South Africa in 1899 and place them on Cecil Rhodes' door step. That august individual, Great Britain's greatest empire builder, probably would not deny it.

England's disputes with the Boers might have been worked out at the conference

table had not Rhodes been confronted with a man with a mind as stubborn as his own. It belonged to Paul Kruger, president of the Boer country.

Englishmen poured into Kruger's domain following the discovery of gold in the Transvaal. Kruger refused to give the aliens political rights and often blocked their ventures by government monopoly.

He placed prohibitive rates on Rhodes' railroad, which passed over a few miles of the Transvaal. Rhodes countered by setting up an ox cart fleet to by pass the stretch. Kruger blocked the roads. The Englishman sent him a four word letter: "Open them or war."

A raid on Boer position, led by one of Rhodes' close friends, Dr. Leander Jameson, followed but the English forces were trapped and wiped out.

The Jameson offensive worsened relations between the British and the Dutch. Finally, war broke out Oct. 11, 1899. Some 250,000 British troops invaded the country and quickly captured all major cities of the enemy. Rhodes died in March, 1902. Peace was to come two months later.—TOMMY HART

United States Of Europe Given Big Boost By France

By DeWITT MacKENZIE
AP Foreign Affairs Analyst agate

THE IDEA OF FORMING A UNITED STATES OF Western Europe—a modification of the generations-old dream of a United States of all Europe—has been given a further boost by France.

New French Secretary of State Francois Mitterand announces that the cabinet has decided to support a plan for convocation of an international assembly to draft a charter for uniting western Europe under a federal constitution. This project is sponsored by the international committee for co-ordination of movements for a European union.

The committee is headed by Duncan Sandys, son-in-law of Winston Churchill who long has been an advocate of such a union. Sandys' committee was appointed last May by the Congress of Europe held at the Hague under presidency of Churchill.

MITTERAND SAYS FRANCE WILL BEGIN negotiations soon with interested governments. Presumably he has in mind the nations which have subscribed to the Marshall Plan for European rehabilitation.

It strikes me as highly significant that Finance Minister Reynaud should interest himself in this project at a moment when

he is struggling with the gravest economic crisis France has experienced. He is working with virtually dictatorial powers to meet this great emergency, and he obviously wouldn't pause to consider such a European union if he didn't regard it as being of utmost importance.

A good deal of Reynaud's political life has been spent in meeting crises of one sort or another, and I'm reminded that just a bit less than 10 years ago I interviewed him in Paris when, as finance minister, he was battling another economic emergency. He had plenary powers at that time, too, for he long has been regarded as a financial wizard.

THAT ECONOMIC CRISIS WAS caused in part by France's terrific rearmament costs, which were made necessary by the threat of a war which was just around the corner. I asked him what he thought of America's tendency to confine its activities to the Western Hemisphere, and he replied without hesitation: "There was a time when England thought she was an island."

I waited for more and when that didn't come inquired if that was his complete answer. "That is my answer," he grinned.

Sidney Kingsley Is No Ordinary U.S. Playwright

NEW YORK—Spent a week end at Playwright Sidney Kingsley's country place, and George Jean Nathan, veteran drama critic, was the lighthearted life of the party... Far from being the snooty gentleman some folks believe, Mr. N. is a sly good humor, is not above a pun, however sad, and likes to play games, mostly of a literary or alphabetical sort.

We played one game in which letters are scrambled and names appended as swiftly as they are called... George managed to dredge up a considerable number of names which he swore are well known, some of them from Elizabethan times... But with all his concern with the cultural, he kept up one famous facet of his personality, his renowned respect for a good looking young lady... He not only remembered fairly obscure Ziegfeld Girls but even bowed slightly toward an idiom he loathes, the movies, when initials "A. G." were drawn. Mr. George Jean Nathan replied, with a good deal of a leer: "Ava Gardner." He dismissed his jeering audience with, "I refuse to ignore a lovely lady, no matter what dubious profession she may follow."

Sidney Kingsley, Pulitzer Prize winner (Men in White) and author of some fine stage items such as "Dead End," and a considerable handful of good motion pictures, is the unusual in his calling... Generally, when a playwright meets success, his existence gets so complicated that he immediately hires an agent, a lawyer, a business manager, a secretary, researcher, typist for his scripts, valet, chauffeur and masseur.

Instead, Sidney has a fashionably located but small apartment on Park Avenue and a modest, lovely little house in the country; and, horror of horrors, without that insistent badge of solvency, a swimming pool... He has no agent. Sidney's sister handles all his business, even typing his play and movie manuscripts. He spends a couple of years on each play, although he can and does bat out a film in a few weeks... Currently he's working on a detective play, and has accomplished his own research by simply having the police department accredit him as a reporter... Unlike his fellow reporters, Sidney stuck to his job 15 and 18 hours a day... And unlike his fellow reporters, his work probably will turn up another fortune, and who knows, maybe still another Pulitzer prize.

Pity the poor producer. Though his heart and pocketbook are breaking he has to keep up a front of prosperous grandeur with frequent trips in four-motor jobs to Hollywood, winter vacations in Florida and an occasional luncheon in 21 or the Stork. No one in the theatre can admit anything but success without loss of face. At the moment this trick is more difficult for the producer to perform than ever

before. Everything seems to be conspiring against the amusement industry. While these few sorrowful words are written about the legitimate branch, substitute movies, radio, night clubs or any other medium and they will apply. The wonderful era of spending brought on by the war, which continued for a year or more after demobilization, has exploded with an atomic bang, with showmen scattered all over the canvas unable to rise even to one knee.

The war days when women welders in slacks and gentlemen armament makers in windbreakers used to pull out hundred dollar bills in ticket brokers' stores to pay for seats down front now seem so unreal as to be memory figments. Today only two plays in New York are selling out. They are comparatively new successes and even they, because of the faulty method of ticket distribution, have to keep close check on the ticket agencies to insure no seats will be vacant.

In an effort to reach a vast public no longer willing or able to pay the full price many plays are using the two-price system. This consists of distributing hundreds of thousands of special tickets entitling the holder of two tickets for the price of one through large industrial groups. The publicizing of this has brought so many inquiries to the Leblang Agency that it is seriously considering re-establishing its central office for cut-rate tickets famous for many years as Gray's. Some years ago the cut-rate mart was abandoned when free spending made it no longer profitable.

At the opposite end of falling receipts are rising costs. The theatre is now completely unionized, and using the cost of living as a lever nearly every union succeeds annually in raising its wage scale. Likewise production costs, now four times as much as they were twenty years ago, continue to rise. My first production twenty-eight years ago cost \$10,000; I wouldn't start it today without \$50,000 in the bank. With both production and operating costs still going up it is almost impossible to lower admission scales. In times of war the Federal Government immediately turns to the theatre to give aid as a morale builder and in putting over its bond drives. In return it doubles the 10 per cent admission taxes carried over from World War I and keeps them on. This is a serious handicap in times of retrenchment.

People say they like uplifting books and constructive criticism, but publishers know better.

If you need \$5000 always ask your banker for \$50,000. If you don't pay, he figures he saved the bank \$45,000, that being the sum he didn't lend.

Movie Industry Runs Low On Picture Titles

By BOB THOMAS

HOLLYWOOD, (U)—Here is an addition to Hollywood's many troubles—the movie industry is running low on titles.

It's not so bad that studios are releasing titleless pictures. But the problem of tagging handles onto movies is becoming a bigger headache every day.

From 1916 to 1947, Hollywood used 21,458 feature picture titles and few of them were repeats. Four hundred or more new ones are added to the total as each year passes. And every studio is allowed to keep 250 titles in reserve for forthcoming pictures. Past names of films can be used only after they are seven years old.

The majority of film customers judge whether they want to see a picture by (1) its stars, (2) its title. That's why the right title is so important in these days of slow business.

The all-star "A Miracle Can Happen" flopped because people thought it was a religious film. Given a lighter tag, "On Our Merry Way," it fared better.

Likewise Goldwyn's "The Bishop's Wife." It was later billed as "Cary and The Bishop's Wife," with the ads slanted at comedy. It did better that way — "but think how much it would have made if it had a good title," lamented Sam.

The increased importance and the decreased availability of titles has studios going mad.

Welch Manages Motor Inn As McClellan Gains Promotion

Watson (Watt) Welch has assumed charge of the local store of Motor Inn Auto Supply, 404 Johnson street, succeeding Luke McClellan. Welch, who came here from Pampa several weeks ago, has been with the organization eight years. McClellan now becomes general manager of both the Pampa and Big Spring stores. Motor Inn Auto Supply serves as wholesale distributor for a variety of items, ranging from Duco paint to A-C sparkplugs. Most of the nationally known automobile accessories are handled

by the concern. One of the most recent additions to the Motor Inn stock of supplies is Perfect Circle piston rings, recommended by most experienced garage men. The local concern also serves as an outlet for the products of such companies as F. A. M. Walker, Gates, Allen Electric, Plomb, Vise Grip, Sioux Tools, Trico, Raybestos, Starrett and Standard, to name a few. The newest thing in automobile visitors, popular with an increasing number of West Texas motorists, is available through the local store. That would be the Fulton visor. Air conditioners, popular with all makes of vehicles, can be purchased through Motor Inn Auto Supply. An up-to-date machine shop, which specializes in cold welding of motor blocks, is located in the rear of the local store. Business telephone of the establishment is 244.

Hartley Bros. Is Being Remodeled

Service as usual is being proffered by Hartley Brothers cleaning shop, 116 Main street, even though the establishment's building is being remodeled. Two-day service on all kinds of dry cleaning is promised at Hartley's, which operates a pick-up-and-delivery truck to all points within the city. Fall and winter clothes which have been stored away during the warmer months can be conditioned for use during the cold months ahead by having them cleaned and pressed at Hartley Brothers cleaning plant. Garments destined to go into retirement when summer exits in favor of fall should also be processed in like manner before they are taken out of circulation. Such treatment guarantees their long life and continued good appearance. Alterations of all kinds are also accomplished at the Hartley shop. Orders of that type are guaranteed to satisfy the customer. Buttons will be added to any type of clothes, if ordered. Drapes and blankets can also be cleaned and restored to their original shape by the organization's experienced personnel. Old hats which are battered and out of shape can be made to look like new if sent to Hartley, which has special tools for that purpose, operated by D. G. and J. W. Hartley. The latter boasts more than 16 years in the dry cleaning business. Business telephone number of the establishment is 420.

Nalley Funeral Staff Members Are Advanced

Two members of the Nalley Funeral Home staff recently completed courses and successfully passed examinations denoting advancement in the mortician's profession. Bill Funderburk, who has finished his apprenticeship, is now a licensed embalmer, and J. C. Pickle, who recently completed a course at Dallas is an apprentice embalmer. Funderburk completed the prescribed course two years ago at Houston. He came to Big Spring from Goose Creek and has been associated with the Nalley Funeral home for the past year. His license was issued after he passed the final examination given by the state board of embalmers and funeral directors. Pickle joined the Nalley staff about two years ago, and then enrolled in the school at Dallas last fall. He will take the final examination before the board after serving an apprenticeship of two years. The state board requires that the course must be completed successfully and a two-year apprenticeship must be served before an applicant is eligible to receive a state license. The Nalley Funeral Home, which has been serving the Big Spring area for more than a decade, has continually maintained a staff of capable personnel. C. O. Nalley.

TRUCKERS' DELIGHT - The Driver White Truck company is the delight of many truck operators in West Texas, for it is one of the few concerns in the entire state which was designed expressly for truck, bus and heavy equipment service. Here may be seen the six big stalls which will permit truck tractors and long trailers to be pulled inside while repairs are effected. The huge transports above show how easily this big equipment is handled. Expert mechanics are on duty at the Driver White company, just east on U. S. 80. (Jack M. Haynes photo).

Crazed Man Holds Off Police, Kills Self And Sister

HARRISON, Ark., Aug. 22. (AP)—A blaze of gunfire amid the burning timbers of a crudely built frame house brought death Friday to a 60-year-old mountain fugitive and his elderly bedridden sister.

The fugitive, Heywood Brown, held a 30-man posse at bay with rifle fire for 10 hours before he shot his sister Dora, set fire to his dwelling on Buffalo River about 20 miles south of here, and then took his own life.

Director J. R. Porter of the Arkansas State Police said the charred bodies of the brother and sister were removed from the smoking ruins late Friday afternoon.

Officers had sought to arrest Brown on an insanity warrant.

Three of the state policemen were wounded, two critically, in the siege which began Thursday afternoon. When Brown resisted, officers settled down to a "waiting game" in the heavily wooded section near here. This lasted until the fugitive opened a brisk rifle fire early Friday morning.

Officers returned the fire, but did so cautiously in order not to harm Brown's sister.

Hosses Corraled By San Angelo Contingent, 6-1

The Big Spring baseball Broncs palmed off a \$1 decision to the San Angelo Colts here Sunday afternoon but lost none of their \$4 game lead to second place Odessa, which also was having its troubles in Ballinger.

LOOKING 'EM OVER

With TOMMY HART

The Vernon baseball club recently assured itself of a profit for the season when it sold Gerald Fahr for the fabulous sum (for Class D baseball) of \$6,000.

FAHR TO HELP ISAACS COACH BASEBALL TEAM
Roy Baird, the new assistant coach of the Big Spring high school football team who has been in Wichita, Kansas, playing in the National Semi-Pro Baseball congress with the Alpine Cowboys, will help Conn Isaacs tutor the Steer diamond corps next spring.

THE 1948 STEERS SHOULD BE ABLE TO MAKE A STRONG BID FOR THE DISTRICT FLAG BY THE WAY, but a lot depends upon the health of Floyd Martin, brother to Odessa's outfielder, Pepper. Martin was the top pitcher in the local camp last season but he wasn't eligible because he hadn't lived here long enough.

HE INJURED HIS LEG AND WALKED WITH A LIMP but still showed Isaacs more than anyone else in camp. Recently, he underwent a new operation to graft muscles to the ailing limb. It will be a while yet before the doctors know the verdict. If it is favorable and Martin can maneuver normally again, then the Longhorns have nothing to fear from any team in the circuit.

CLUB OWNERS COULD SAVE WEAR AND TEAR ON BOTTLES
Owners of professional baseball teams should take measures to place cushions around the concrete foundations of their grandstands. They could probably meet the expense in the savings realized through recovering bottles dropped through the stands. Most every bottle discarded seems to crash against the underpinnings of the stands and shatter.

TEXAS, ARKANSAS PICKED TO WIN GRID TITLE
Paul O. Ridings, news director of the TCU news service, has sent out a questionnaire asking the sports writers the order in which they think the Southwest Conference football teams will finish this fall.

SWIMMING HAS COME ONTO OWN AS LOCAL SPORT
Swimming as a recreation has long been a popular summer favorite here but only recently has anything been done toward organized promotion of the sport. This year, Bo Hardy and the YMCA have gone to great pains to make new converts and the municipal pool has accepted a record business, as a result.

TEXAS HAS NEVER BEEN NOTED FOR ITS SWIMMERS in competition against outside athletes. It could be, if the competitive angle of the sport is emphasized in the future as it has been here this summer.

Pro Grid 11's Open Activity On Two Fronts

NEW YORK, Aug. 23. (AP)—Professional football boots its way into the sports picture Friday night. It's coming so early it will find nine major league baseball teams still very much in the running for World Series berths.

The All America Conference, starting its third season, bursts on the scene first. The Chicago Rockets play host to the Los Angeles Dons in Soldier Field Friday night and the New York Yankees visit the Brooklyn Dodgers at Ebbets Field.

Next Sunday the Buffalo Bills will play the 49ers in San Francisco and the conference champion Cleveland Browns complete the first week's activity by entertaining Los Angeles the following Friday.

Meanwhile the National League will content itself with exhibition games until Sept. 17 when the Green Bay Packers meet the Boston Yankees in a night game at Boston.

The All America Conference will have played almost half of its 55 game schedule by the time the baseball world series ends in October. Thirteen night games dot its schedule, but starting Oct. 17 it goes on a Sunday-only basis with time out for two Thanksgiving Day contests.

The New York Yankees opened with a 28-28 tie with Buffalo, then downed the Chicago Rockets, 35-Brooklyn, 14-7.

After tying the Yanks, Buffalo beat Brooklyn, 21-19, before losing to Cleveland. Brooklyn stepped outside the conference to register a victory, defeating a Montreal team, 27-1, in a game played under both American and Canadian rules. Los Angeles began with a 27-21 decision over Baltimore.

Only three National League teams have seen regular action. The Champion Chicago Cardinals thrashed the College All-Stars Friday night in Chicago, 28-0. The Chicago Bears defeated the Steelers in Pittsburgh yesterday, 28-14.

Padres Return To 4th Place

By WILBUR MARTIN
Associated Press Staff

The San Antonio Missions climbed back into fourth place in the Texas League yesterday when they handed the Tulsa Oilers their fourth straight licking, 6-1.

Shreveport slipped back to fifth when the pace-setting Fort Worth Cats came from behind to win, 7-1. Oklahoma City hung a 7-3 defeat on Houston and Beaumont downed Dallas, 8-6, in other games.

Procopio Herrera scattered eight hits to Tulsa and Bill Somers paced a ten-hit attack against Bud Beverly. Somers binged out three hits.

Shreveport made three costly errors and Fort Worth bunched hits to pile up three runs in the fifth and sixth and salt the game away in the eighth with four tallies. Willard Ramsdell held the Sports to six hits.

Oklahoma City chased Houston's ace southpaw, Pete Mazar, then hit two other hurlers hard in winning going away.

Beaumont made only two unearned runs, but took advantage of three Dallas errors to build up its margin of victory.

The same teams meet again tonight in the second tilt of three-game series.

Vernon Hurler Registers 20th Win Of Year

VERNON, Aug. 23. (AP)—Eddie Jacome became the first 20-game winner in Longhorn league play when he subdued the Sweetwater Sports, 10-5, behind his Vernon mates here Sunday afternoon.

Jacome scattered 10 Sweetwater hits. His mates rallied for nine runs in the fifth inning to clinch victory.

The Vernon pitcher has lost nine games. The reversal eliminated all mathematical chance Sweetwater had to finish in first place in Longhorn league standings.

Field Show Planned By Wildlife Group
AUSTIN, Aug. 23. (AP)—The Texas Wildlife Federation plans to sponsor a field show as well as a statewide game and fish conservation program and an organizational program.

Forsan Nips Junior College In Playoff Opener, 12 To 11

Brigades Play Again Wednesday

FORSAN, Aug. 23.—Forsan's Oilers made the most of 14 hits, five enemy errors and four bases on balls to nudge the Howard County Junior college Jayhawks, 12-11, here Sunday in the first game of the playoff for the Tri-County baseball league championship.

The two teams will play again in Steeple park at Big Spring starting at 8:15-p. m. Wednesday. A third game, if necessary, will be played next week.

The Oilers won out in an extra inning Sunday after the collegians had climbed back into the ball game with a six-run outburst in the eighth.

Bill Brown, who worked the last two innings for Forsan, was the winning pitcher while A. J. Cain, who relieved John Urey in the eighth, was the loser.

Urey, Ladd Smith and Donnie Carter all hit round trippers for the Hawks. Urey also had a triple to his credit.

Brown and Red Amason paced the Forsan offense, each with three safeties. Amason batted in five runs for the winners. Amason, who started on the hill for Forsan, was wild throughout. He hit no less than six batters.

The CHIROPRACTOR-and You This is One Of A Series Of Articles Published In The Public Interest To Explain And Illustrate The Practice Of Chiropractic CASE HISTORY No. 206 This patient had developed fainting spells which grew in numbers and severity as time went on. During one of these spells she struck her head on the floor and on trying to rise discovered that all use, had gone from her legs. Despite costly advice and treatment the condition gradually became worse. Sensation as well as movement was lost in the limbs. Eventually she was carried into a Chiropractor's office where analysis revealed the nerve pressure that was the cause of her trouble. The first simple adjustment enabled her to move her toes. In three weeks' time, leg movement returned, and a week later she was able to walk again. There has been no recurrence of the fainting spells since Chiropractic adjustments were given. CASE HISTORY No. 468. Severe headaches had troubled this woman for eight years, the attacks occurring sometimes two and three times a week. She had obtained only temporary relief from the many treatments undertaken, and when she finally decided to try Chiropractic it was, she explained, "her last hope." A series of spinal adjustments brought immediate relief, and within 3 months the headaches had apparently ceased. Headaches occurred twice during the following six months and in both instances Chiropractic adjustment brought prompt relief. There have been no headaches since. CASE HISTORY No. 421. A baby girl who had been subject to eczema since she was six months old. Scores of remedies were tried without success. Her mother, who had begun taking Chiropractic adjustment herself, suggested that Chiropractic might help the child. Analysis indicated nerve pressure and a series of adjustments were given. The eczema completely cleared up and has not reappeared at any time since. WHAT IS CHIROPRACTIC? The Chiropractor teaches that the brain and nervous system are the root of health. From the brain, nerve energy is distributed through the nervous system to control all parts of the body. When this nerve energy is shut off even slightly between brain and body (by bone displacement in the spine), one or more body functions are interfered with and ill health results. By X-ray, analysis and spinal adjustment the Chiropractor is able to relieve nerve interference and restore normalcy to the affected part. No drugs. No surgery. Nature is the healer. Believed Dead, Son And Mother Are Reunited

LINCOLN, Neb., Aug. 23. (AP) - A mother and son who thought each other dead for more than 40 years were rapidly closing the gaps in time today. Since she arrived in Lincoln Saturday night to greet Roscoe V. Pershall, the son from whom she had been separated for 48 years, Mrs. Lulu Swartzlander, 68, of Long Beach, Calif., has visited the place where he works, toured the city and talked with other relatives in the Midwest. "It doesn't seem real," said Mrs. Swartzlander when she rushed into the arms of her greying 51-year-old son Saturday night. Pershall's parents separated when he was a child of three and went to live with his father. Both mother and son thought the other dead. Through a chance conversation last June with a patient at the Veterans' Hospital where he is employed, Pershall got track of an aunt and sought information about his mother's death. He was stunned to learn she was alive. The reunion was speedily arranged.
