# PUBLIC NOTICE!

Montgomery Ward & Co. has filed a complaint with the Federal Trade Commission against Unfair Tire Advertising

... Newspaper and magazine advertisements are being published throughout the country in which nationally advertised tires are compared with a "mail order" tire ... We have been asked if the "mail order" tire referred to is our RIVERSIDE. The reason for this is obvious. Ward's is the oldest mail order house in America. So, when anyone says "mail order," most people naturally think first of Montgomery Ward & Co. No! the tire referred to is not Ward's Riverside!

# RIVERSIDES

Are Equal to or Better Than ANY Tires Made Regardless of Name or Price!

Montgomery Ward & Co. is one of the largest distributors of automobile tires in the world. And for 19 years, Riversides have been one of the best known tires in the industry. Millions have been sold. They are made by one of the largest rubber companies in America. They are built to the most rigid tire specifications known. They are the finest quality it is possible to produce. They are backed by the fairest, squarest guarantee ever written, and they sell for less than other nationally known tires of equal quality. These sound like extraordinary claims. But they are facts. And Montgomery Ward & Co. stands behind every word.

The big tire companies have found it impossible to meet Riverside quality at Riverside prices—so most of them now sell what are known as "second quality" tires at the same prices as we charge for Riversides, a first-quality tire! Furthermore, a recent check dis-

closed that nearly 90% of all the newspaper advertising of the leading tire companies is being devoted to their second quality tires. Why? Evidently to confuse the reader. The reader notes that the prices are the same as Riversides, and assumes that the quality is the same. But the nationally advertised tires offered at Riverside prices are not equal to Riversides in quality. Always compare QUALITIES as well as PRICES. The table at the right lists some of the best-known first-quality tires that do compare with Riversides in quality—YOU compare the prices!

# DOUGHNUTS ARE BETTER IF COOKED A FEW AT A TIME

Likewise Coffee Has More Delicious Flavor When Roasted in Small Lots

Experience shows that if too many doughnuts are put into the het fat at once, the cooking process is hindered. The temperature of the fat is reduced and the dough-

A similar situation occurs when offee is roasted in bulk. It is difficult to apply the heat evenly, and as a . ult some of the coffee berries may be overdone and some underdone. Such variation in the roast causes disappointing varia-tion in flavor tion in flavor.

Hills Bros, overcame this by inventing and patenting a process—Controlled Roasting—that roasts every coffee berry evenly. With automatic control of heat and speed of operation, a few pounds at a time pass through the roasters. Uniformity of roast and unequaled flavor is the result.

Hills Bros. Coffee is always fresh when you buy it because it is packed in vacuum. This process takes air, which destroys the flavor of coffee, from the can and keeps it out. Coffee will not stay fresh in ordinary cans, even if air-tight. Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab on the can.

# Scenes at Notre Dame With Knute Rockne and His Boys

RYMLL ROGERS

Well all lamve is just what I hoping that the California being publics and in the sapers. Been so much calamity, here the last week or so that the hard to dig much cheerful mourishment out of the hews prints. Poor Knute Rockne so upset everybedy that we just can for the good fortune to know him one everybedy that we just can for the good fortune to know him one where here have wear as team bearing the many of the good posts. Well on the good fortune to know him one where here have were the good fortune to know him one where here here the good fortune to know him one where here here the good fortune to know him one when they come out of a three here of the good fortune to know him one when they come out of it we nature of the party all doubt and the good fortune to know him one when they come out of it we nature of the party all doubt and the good fortune to know him one when the good fortune to know him one while the with him most of the day, go out to the school, and if it was any did, as each one of his Stars that where around football time. I would would be taken out of the game in

see them, I mean them, there would the last half and it was their last be literally hundreds of em on all game for Notre Dame, he would jump up from the bench and go out and meet him and hug him. You know he dident just have the big team and the Scrubs, he had dozens of em. Dormitary teams class teams. Every kind of team all but Fraternity teams, they don't have them there. They have got there too I guess, for he showed me practicing one time a bunch of little kids, and he would show me how they had all his play.

He said, "If some Coach was smart enough he would come here and watch these little kids work out and he would get ev y plry I've got. I have secret practice, to try out my new formations and there wont seem to be a soul in the place, but you come out here the next day and you will see them

the place, but you come out here an ovation, was a hurricane. the next day and you will ree them We dident know then what we standing through the same ones I was looking at. We thought it was had the Varsity working on the day before. They sneak in here eway ahead and hide it the most outlandish places, under the stands, outlandish places, under the stands, and they the seats, and everywe and they all try to copy my Stars, they try to walk like em, talk like em, copy all their little mannerisms. Two was Struldehr. I will always have on the crest. He had beaten the pretty rood material as long as they study the fine points of the game that early."

But it was little ridea that got the last hug. Here he was right on the crest. He had beaten the Coasts great team for a two year no defeat record for Notre Dame.

Then down at the Theatre that hight wher I was playing I would get him up on the stage and also sall the team and t would alw score and said. I had to make it get him up on the stage, and assort all the team, and it would alw:
be a great night and also day for him. Just to be around him was him. Just to be around him was a treat. He had developed into one
Speakers. of the best after dinner Speakers twice after that. I it this was his in this country. He had a great last real Notre Dame scheduled fund of humor, an

happenings and he had so much sincerity in his talks, he really made you believe it. I can easily u-'tstand how those Boys played thei heads off for him. He sure did saw his passing out, his last game, spire confidence.

I think his greatest feat was his life. and it will "ick with us last game, that was out here with University of Southern California. Here we thought out here we had the greatest team that ever represented the coast, trinendous Stadium filled, Notre Dame hadent lost a game in two years, and this was their last, it was the last for a lot of their big Stars who were graduating. Rockne —s touted to lose. The night gefore the radio he admitted that he dident have much of a chance, "Savoldi is out; he was our mainstay. Then on the way out we lost our fullback by illness. We have gone through a tough season them this season with the , rrible get a bottle, use as directed, and if schedule they had and it just is you are not satisfied druggists will not in human beings to keep up return your money. Cunningham their pace till now. We have got to nd we want to lose to you in preference to anybody else. Its a long train trip out here. Its much warmer here than back home, and the heat is against the boys, but we will just give you th bast we got. But I dont possibly see how we can win, in the shape we are in."

Now what other coach on earth could give such a straightforward talk as that, and not have every word swallowed hook, line and sinkfer? Then get this last line he gave up that night before, "Now there is going to be a lot of heart-aches tomorrow afternoon after that game. Great big strong young men are coming into the dressing rooms and break down and cry. But my boys can take it a little er 'er because they dont expect to win, they have steeled themselves to the de-

memory of many older men and by the oil fraternity this month. women when the only use for mineral oil was in kerosene lamps for illumination. Such was the situation when Col. E. L. Drake struck off at Titusville, Pa., in 1859, and

transform the habits of mankind products. and place the United States forever And those early Pennsylvania on pioneers never dresmed that before many years their efforts were to be far eclipsed by the remarkable oil struck oil and the citizens of Cordevelopment in the Southwest. thirds of the output in the . United cased off and the well came in as

Many interesting facts concern-ing the early days of the oil industry in the Southwest are brought to light this mouth with the observance of the Marnolia Petrol-eum Company of its Founders' Month. The beginning of this pio-neer company marked the birth of nercial oil production and refining in the Southwest. From its start at Corsicana, Texas, in 1896. the Southwestern all business recelved an impetus that it has never lost, even now when the wearch for petroleum continues into new fields regardless of overproduction

Long before the war between he States, the Indians who habitated Texas, Oklahoma and other Southwestern States made use of petroleum seepace to which they attributed many curative proper ties. In East Texas they would gather at a place called Damon mather at a place cases.

Mound in Brazeria County to drink
the blue-black water that collectes in depressions and to bathe in the "sour dirt" in the belief that their rheumatism would be cured, while in Oklahoma, the oil springs on the shits River in the old Chicks naw Nation were a favorite health report of the Red Men who came there in the expectation of being

cured by the petroleum-laden wa-

fumps into the spotlight with new discoveries at Longview, Kilgore. Joinerville and Henderson in the huge East Texas field. But the Southwest has become accustomed to this never-ending succession of Johnstone Park on the banks of oil developments and probably would not be surprised to learn the succession of Johnstone Park on the banks of the Caney River at Bartlesville in would not be surprised to learn the succession of Johnstone Park on the banks of the Caney River at Bartlesville in the oil showing, a well driller, John Davidson, and several Corsicana citizens, including Ralph Beaton and H. G. Damon, decided to drill for oil. Their first oil well came in 1896. Additional wells were drilled and the that Arkansas had found another in commercial quantities until tional wells were drilled and the El Dorado, or that New Mexico had several years later. Louisiana, Corsicana field, the first in the Il Dorado, or that New Mexico nan several years later. Louisiana Corsicana neid, the first in the moovered a new Hobbs.

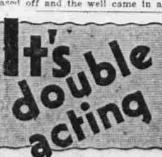

Arkansas and New Mexico also had Southwest, produced 1.450 barrels

# How Olive Palmer sang her way to Fame

by Long Distance

AN Iowa girl, just out of her 'teens rushed excitedly to her mother with a crumpled newspaper in her hand.

"Look, mother! Sanford Abbott\*, the New York producer, is reviving twenty operas. I'm going to ask for a place in the cast."

"Why Olive, dear, you'd be foolish to go to New York for that! Your chances are almost nothing."

"I'll telephone him and see!"

Let a noted newspaper tell the story (name of newspaper and date of article on request): "She got long distance. And when a far-

. . .

away voice said: 'This is Mr. Abbott speaking,' she talked as fast as she could. But Abbott cut her short. His casts were full. It was useless for her to come to New York.

"'I don't want to come to New York,' the girl said. 'Just let me sing for you.'

"And singing through those miles and miles of wire came a silvery voice-Olive Palmer singing the famous 'Shadow Song.'

"Get the next train to New York,' Abbott said quietly when the last note died away."

Olive Palmer went-and made good. Ever. Wednesday night in thousands of homes throughout the land, radios catch from the ether the liquid beauty of her voice. A radio magazine lists her as one of the ten most popular stars on the air.

\*Firstians Name.

So clear is long distance that even the subtle shadings of a singer's voice are heard easily

separated by half a continent. That's why you hear so clearly and understand so easily over the long distance telephone.
