Art of Great Singers is Doing Great Service For Christianity In Interpretating Sacred Music

The supreme art of Nevada Van der Veer and Reed Miller, who appear here Monday evening has been and is being a great service for Christianity, in its glorious interpretation of sacred music. It is doubtful if there is a single great oratorio society in America that has not had Reed Miller as tenor soloist in some great musical work and the great majority of them have had him again and again; for he is a singer of such beautiful voice, such splendid musicianship and such rare musical feeling that he stands almost alone in his adaptability to oratorio—the great voice of the church that makes its call to the world through musical art. Football Eleven On Way to Tullia For Friday Game

The Hereford High School football squad, headed by Coach Travis Dameron and Captain Baker Womble, left for Tullia Friday morning and were scheduled to tackle the Tullia High Friday afternoon. The team traveled in the big Fallwell truck. A carload or two of interested citizens accompanied the eleven to cheer them in their battle.

The team has played ragged football so far this year and cannot boast of much accomplished, but they are full of fight and pep and hope to turn the tide of fortune, beginning with Friday's contest.

PRELIMINARY TRIALS ARE WAIVED

MEN FACING "BOOZE" CHARGE STILL HERE IN COUNTY JAIL

J. D. Catharp and Charles Hall, arrested last Sunday by Sheriff Purcell and Night Watchman Omer Baker, charged with unlawfully transporting liquor, were taken before County Judge W. M. Megey, sitting as a magistrate, this week for their examining trial. They waived this and so far have failed to make \$1,000 bond in each case. They are being held for investigation by the grand jury which meets soon.

PLAINS WEATHER MISREPRESENTED AT SAN ANTONIO

Two traveling men from San Antonio reached Hereford Thursday by automobile. They expressed themselves as being utterly astonished at the magnificent weather on the Plains. They had had in a supply of heavy garments, blankets, foot-warmers, chest protectors, etc., expecting to tackle regular Arctic Circle weather.

They said that prior to their departure from San Antonio they had called on the local Chamber of Commerce to get some information about this country. They were told, they said, that they were a couple of fools to venture into this country in a car at this time of year; that the country would probably be snow bound and that using an automobile would be a joke!

The fellow that handed out this line of dope ought to be given a pick and shovel and put to work where his capabilities justify. It is such rotten, stupid, plain ignorance as this that hurts this country more than anything else.

San Antonio has splendid weather itself, but it never saw the day in its history that it produced a brand of weather like the one enjoyed in Hereford today, October 20. The nights are clear, cool and snappy, the days absolutely ideal. California never beat any such weather as the Plains country produces from April to November. And the winter months are badly misstated as to severity.

Why we have not even had a killing frost as yet, while Hereford men returning from the Dallas Fair state that frost has killed everything in that section a week ago.

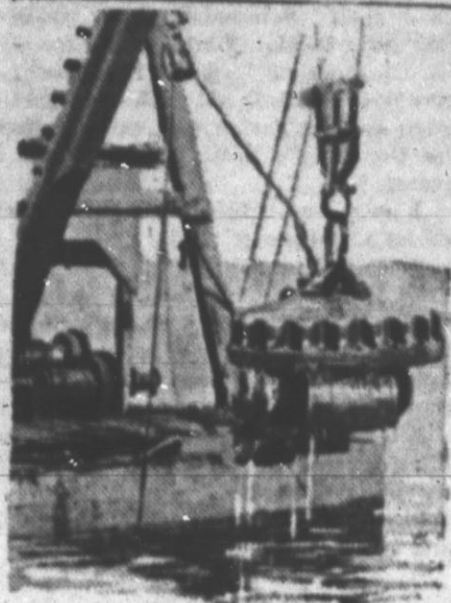

The Brand does not believe there is any malice in these mis-statements. It's just pure, down-right ignorance and lack of information. And about the only way to overcome it, so far as we can see, is to maintain a steady, concise, persevering advertising campaign to the world, telling of the most magnificent weather conditions produced anywhere, from San Antonio, Texas, to Los Angeles, Calif.

TOWN BASKETBALL GIRLS DEFEAT HI TEAM 27 TO 26

A close and exciting basketball game was played Thursday afternoon between the High School girls team and a town team. The high school was finally nosed out at the end by one point, the score being 27-26. The school girls led most of the way, but the weight and experience of the town girls finally told in the long run. The teams lined up as follows:

High School	Position	Town Team
Gladys Beams	f	Sena Mae Mounts
Lois Jones	f	Clyde Estes
Elizabeth Stegall	c	Lelia Orr
Frances Wilson	c	Maurine Stockman
Mabel Jewell	g	Olive Wilson

IMPORTANCE NEW TRAIL RECOGNIZED

WILL CLINCH TRAFFIC FOR THIS SECTION OF COUNTRY

RIVER'S BRIDGE

Is Keystone to Route, as it Has Stood Test of Time and Water

The recent organization of an extension of the Southwest Trails from Kansas City to El Paso at a meeting at Canadian, Texas, called by Frank A. Davis, managing secretary of the American Highways Association of Kansas City, is of very vital interest to Hereford's business interests and will have a great deal to do with holding through tourist traffic for this part of the country.

The Abo Pass highway, originally projected from Kansas City into New Mexico, has really never been organized east of Amarillo. Traffic which came through Hereford this summer came out of Kansas City via Stratford and Dumas. A large portion of the traffic both ways was lost somewhere on the road owing to the nationally advertised and marked National Trail, only a few miles way from the Stratford-Kansas City line. It has been realized locally for some time that if the tourist traffic east and west is to be nailed down for the Amarillo-Clovis route as opposed to the Ozark Trail between Amarillo and Tucumcari, or a line south of us, it was necessary to establish a through, well-organized, all-the-year-around line from Kansas City west through here. It is also realized locally that the opening of the Logan bridge near Tucumcari will surely divert lots of traffic through that way unless steps are taken to prevent it.

The missing link in the through Kansas City route to Clovis was between Canadian, Texas, and Wichita, Kansas. The Canadian bridge holds the key to this line, as it has stood the test of time and water. However, the line east to Wichita has never been promoted.

Plans for opening this line and utilizing this good bridge were laid in Hereford several weeks ago at a conference between Mr. Davis, Secretary Jones of Clovis, and D. L. McDonald of Hereford, representing the Chamber of Commerce. Mr. Davis left Hereford to stir up Canadian and Wichita to the importance of opening up this through route southwest. The Canadian convention was the direct outcome of this conference.

The Southwest Trails is already in active operation between Chicago and Kansas City. At the Canadian meeting the route from Kansas City to El Paso was divided into four divisions. The first reaches from Kansas City to Wichita, Kans., the second from Wichita to Canadian, the third from Canadian to Clovis, N. M., and the fourth from Clovis to El Paso.

The line follows the Santa Fe railroad practically the entire route. The Southwest Trails was organized with headquarters in Chicago for the purpose of promoting a route from Chicago to El Paso to a connection with the Bankhead Highway to Los Angeles. (Continued on Page 2.)

Bay View Club

Ideally instructive and entertaining was the lesson study of the Bay View Club Thursday afternoon with Mrs. Harrison directing its very excellent program.

"Great Stories from the Bible" revealed, in their delightful analysis, the fact that the Bible is not alone the great ethical text-book, but represents as well the highest form of literary excellence.

The lesson setting explaining romance, myth, and motive stories, was lucidly given by the leader and formed a perfect introduction for the following program: romance—"Joseph," a

thrilling exposition of this matchless Bible romance, given by Mrs. McLean; the myth, "Ruth," a beautiful word picture of the Moabite maiden and the significance of her life and character in both literature and history; motive—"The Prodigal Son," a delightful illustrative lesson from this great didactic Bible story.

The lesson was an inspiration and the meeting as a whole was one of the best of the year.

Birthday Social

The ladies of the Christian Church held their September and October Birthday Social Wednesday afternoon at the home of Mrs. Ed Shore on Lee Avenue. Various old fashioned games, such as fruit basket, etc., were enjoyed by the elderly ladies, as well as the young.

A very enjoyable program was rendered as follows:

Readings by Billy Hill, Ardell and Earl Marie Foster, Floyd Wilson, Geo. K. Muse. Miss Lollie Shore's Sunday School class sang a song, which was appreciated very much. Mesdames Smith and Steckman sang a duet.

A large number attended and a silver offering was taken, which netted the society a neat sum.

Pumpkin pie, with whipped cream, and coffee, was served.

Hostesses for the occasion were Mesdames Frank Marrs, A. Lowther, E. H. Shore, A. A. Foster, J. H. Wilson, Claud Ricketts, Geo. Muse, E. W. Kinney, Chas. Jowell, Clyde Kibbe, Delphia Cox and Misses Pearl Golden and Lollie Shore.

Honoring Misses Doane

Misses Ina and Lura Gregg entertained the Doane sisters of Oak Park, Ill., Wednesday evening, October 19, with a Cafeteria Dinner and social party. The guests arrived at seven o'clock at the Gregg home and dinner was served immediately. The guests were Mr. and Mrs. C. H. Dyar, Mr. and Mrs. W. E. Dameron, Misses Kathryn and Virginia Doane, Harry Seed, Earl Gough, Travis Dameron and Finis Owen.

Following the dinner the evening was spent in general social entertainment and with musical numbers. Friends of the Misses Doane presented them with a leather backed album filled with views of the surrounding country made during their visit here, properly autographed, etc. A pair of Jack rabbit ears as well as a rabbit's left hind foot were attached to the book.

The evening was voted one of the

most enjoyable of the many social affairs given for the Misses Doane while in Hereford.

A GUN UP EACH SLEEVE OF HER KIMONA

As the fated day of the Armament Conference draws near, it appears to the average American as if the ink in the milk is Japan—silent, cunning Japan.

We hear all sorts of talk in our very best sensational papers and magazines of the great navy she is building in secret; of her mysterious battleships, her mysterious airplanes and this and that mysterious engine of war. Add to this the fact, which has been impressed on us all for a third of a century, that Japan works darkly and springs on her victim like a bludgeoned thief in the night—no wonder we fear her attitude at the coming conference.

But the American military experts do not share our average impressions. They laugh at the widely printed stories of the Japanese navy being as strong as ours, or that it is likely to be as strong as ours in a few years. They point out:

It takes time, great sums of money, large purchases of material abroad to build a dreadnought. It is impossible to camouflage such a huge undertaking.

Japan is a poor country. Her revenues are only one-fifteenth of the revenues of the United States, and her people are even now groaning and resting under the burden. Be her naval program what it may, she cannot compete in sea strength with \$7 to Uncle Sam's \$100.

Our naval experts are willing to bet their reputations that she has only six dreadnoughts to our nineteen, and they say that that proportion—or nearly that—will continue under our and Japan's programs up to 1928, which is as far as anybody can figure in 1921.

Perhaps it is another cunning oriental game to make the world think that Japan is armed to the teeth. Maybe she thinks that she'll scare somebody by pretending at the Conference that she has a gun up each sleeve of her kimona.

WHAT NEXT IN ELECTRICITY? THOUGHT TELEGRAPHY?

Away back in the nineties, Mark Twain wrote an interesting piece about mental telegraphy—some folks call it "telepathy." Mark recited instances where he had wanted very much to hear from this or that person, and had written letters to them. In each example the letter "crossed" in the mails another from the individual in mind.

Few of us but have had letters "cross" in the mails, both written on

the same subject. And how frequently have each one of us been surprised to find people about whom we were talking suddenly appear on the scene, causing us to remark: "Speak of angels and you'll hear their wings," or "Speak of the devil," etc. And then there is the constant recurring duplication of thought and ideas which brings the saying, "Great minds travel in the same direction."

Few think of these as "mental telegraphy," but are they not?

Mark Twain wrote in the days when common telegraphy of messages was by wire. He was convinced that mental telegraphy was not clairvoyance or spiritism, but the action of some unknown quality of electricity. Since that time wireless telegraphy has become common. Wireless telephony is beginning to become common. We know that the sounds are carried through the air by waves of electricity which wash against poles and standpipes to which receivers are attached.

The world is making amazing strides in the science of electricity. What will it yield next? Will it be the discovery of a quality or element in electricity that, with the help of apparatus, will wash waves of thought from one brain to another?

Charlie Chaplin, the movie actor, recently filled a dinner engagement by going by airplane from Paris to the country house near London where he was expected.

The driver of an oil truck at Kingsville, Texas, is said to have put two eggs in a paper sack under the hood of his truck and forgotten them. He was surprised to hear a "peep" and found two newly hatched chicks.

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you have.
 That's where the moral hazard comes in.
 And you can't establish credit over night. Rather, it is a matter of becoming known at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.
 Get Acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

return day hereof, you summon John Alexander Beith, John Thompson, Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson and the unknown heirs of John Alexander Beith, John Thompson, Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson and also the said Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson, as trustees of the estate and properties of the said John Alexander Beith whose residences are unknown, to be and appear before the District Court to be holden in and for the county of Castro at the Court House thereof in the town of Dimmitt, on the First Monday in Nov., A. D. 1921, the same being the 7th day of said month, then and there to answer the petition of R. Leslie Ward, Administrator of the Estate of G. R. Ward, deceased, as plaintiff filed in said court on the 29th day of July, A. D. 1921, against John Alexander Beith, John Thompson, Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson, and the unknown heirs of John Alexander Beith, John Thompson, Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson, and also the said Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson as trustees of the estate and properties of the said John Alexander Beith, as defendants, said suit being numbered 1381 on the docket of said court, the nature of which demand is as follows, to-wit: Trespass to try title and to remove cloud from title to Sections No. 163, 195, 205, and 233 in Block M-6 in Randall and Castro Counties, Texas, plaintiff alleging fee simple title in him on the 1st day of May, 1921, and eviction by defendants. Plaintiff also alleges possession in plaintiff peaceably, adversely, exclusively and continuously with cultivation, use and enjoyment of said lands under fence for more than three years and for more than ten years next before the filing of this suit with payment of taxes and under deeds duly registered for more than five of said years and therefore claims title under three, five, and ten year's limitations. Plaintiff also shows that he claims title to said lands by regular chain of title by instruments duly recorded from the State of Texas, one link therein being deed dated October 6, 1898 by Jeanette Beith, Alexander Beith, John Hay Beith, William John Robertson, and John Bradford Parkinson, as trustees of the estate and properties of John Alexander Beith to Cornelius C. Kyler and Benjamin Graham reciting a consideration of one dollar only and a supplemental conveyance dated February 21st, 1902, declaring that further consideration passed for said conveyance, but some question is made as to the sufficiency of said conveyance by said trustees for such nominal consideration and cloud is thereby cast upon plaintiff's title. Defendants are notified to produce the original of said deed and conveyance or secondary evidence will be used thereon on trial.

Plaintiff prays for title and possession of said land, for removal of cloud from title thereto, on account of said irregularities and adverse claims of defendants, and to be quieted in said title and for relief general and special both in law and in equity. Herein fall not, but have you then and there before said court this writ with your return thereon showing how you have executed the same.
