#### Welcoming fall

Pumpkins, hay, corn, milo, gourds -- and a vigilant scarecrow -- are all used to celebrate fall and Halloween at the James and Kyla McDowell home located at 139 N. Texas. The colorful display can be seen in the front yard. An existing tree was used to help prop up the spineless scarecrow.

Governor's race 1994

## SEC official jumps in middle of Bush-Richards stock fray

**By SCOTT ROTHCHILD**  
Associated Press Writer  
AUSTIN (AP) - A Securities and Exchange Commission official has denied accusations by Gov. Ann Richards' campaign that an investigation into George W. Bush's 1990 sale of Harken Energy stock was a whitewash.

Bill McLucas, director of enforcement for the SEC in Washington, D.C., said Tuesday. "All of our investigations are free of any political influence. This case was no different."

He added, "We are apolitical. The prosecutorial arm of this place doesn't respond to political pressures."

Richards' campaign alleged that the SEC probe "was at least incomplete and at worst a cover-up." "Was this a real investigation, or was it a whitewash of an insider stock sale by the son of the sitting president?" Richards' spokesman Chuck McDonald asked.

Bush, who faces Richards in the Nov. 8 general election, defended the stock sale as "entirely legal and proper." He accused Richards, a Democrat, of "engaging in personal and negative campaigning."

"Like the overwhelming majority of Texans, I believe gubernatorial candidates should discuss the issues of importance to the future of the state," Bush said. "I feel sorry Ann Richards, an incumbent governor, cannot do so."

Bush sold the stock June 22, 1990 for \$848,560, at about \$4 per share. Within months, the stock's value plummeted.

The SEC looked into the sale amid allegations that Bush sold the stock

while knowing that Harken Energy was about to report a loss, according to published reports.

Stuart Watson, who served with Bush on Harken Energy's audit committee, said reports of poor financial performance at the company "were never a surprise to us," according to The Dallas Morning News' Tuesday editions.

Bush said Watson was mistaken.

## Governor's race gifts top \$6 million mark

AUSTIN (AP) - The cost of running for governor this year is getting higher.

Both major candidates Tuesday reported multimillion-dollar totals for their most recent contributions and expenses.

Reports filed with the Texas Ethics Commission for the period July 1 to Sept. 29 showed Democratic Gov. Ann Richards raising another \$3.28 million. Republican challenger George W. Bush raised \$3.45 million during those three months.

That brought the Richards' fund-raising total since taking office in January 1991 to about \$15.5 million.

Bush's total since launching his campaign last year rose to \$11 million, close to the \$11.6 million Richards has reported raising since June 1993.

The two candidates are spending at a rapid pace, too.

Bush reported expenditures of \$5 million for the most recent period,

A telephone message left for Watson by The Associated Press was not immediately returned.

Bush denied selling the stock based on insider knowledge that the company was about to report a loss. On Oct. 18, 1993, the SEC said the investigation into Bush was completed and "no enforcement action is contemplated with respect to him."

## Return of Aristide prompts work to clean up Port-au-Prince, Haiti

PORT-AU-PRINCE, Haiti (AP) - Workers tidied up Haiti's haggard capital in anticipation of President Jean-Bertrand Aristide's return, and U.S. soldiers wielded the biggest broom of all - at the National Palace.

Five hundred American soldiers took over the palace on Tuesday and escorted employees of the departing military government out the door. Aristide's Cabinet ministers prepared to move into their offices today.

"We can now roll up our sleeves and begin to rebuild democracy in the spirit of reconciliation," said Aristide's commerce minister, Louis Dejoie II.

Port-au-Prince Mayor Evans Paul ordered the city swept clean for its presidential homecoming on Saturday. Among the dignitaries scheduled to attend were U.S. Secretary of State Warren Christopher and the Rev. Jesse Jackson.

All three leaders of the September 1991 coup that ousted Aristide have resigned under the pressure of the U.S. military occupation.

Lt. Gen. Raoul Cedras, the nation's top military leader, met with diplomats at his home, apparently finalizing plans to leave the country.

## Brooks targeted by term limits group

WASHINGTON (AP) - It's not likely that Texas Congressman Jack Brooks will drop his longstanding opposition to congressional term limits - even in the face of a \$100,000 advertising blitz urging him to do so, his campaign consultant says.

The 21-term Democrat is one of four incumbents being targeted by Americans for Limited Terms, a new Illinois-based group that advocates term limits. If re-elected, he will become the longest-serving member of Congress next year.

The group promised at a news conference Tuesday to spend at least \$100,000 between now and Election Day in critical advertising against

Brooks, who has been in Congress since 1953.

That's not expected to budge the Beaumont lawmaker, said campaign political consultant Dan McClung. "I would say it's highly unlikely," he said, noting that Brooks believes term limits are unconstitutional.

As chairman of the House Judiciary Committee, he's perfectly placed to block term limits legislation, over which his panel has jurisdiction.

The group plans media buys in two other close races: those of House Speaker Tom Foley and Massachusetts Democratic Sen. Edward Kennedy. Other incumbents are

expected to be targeted later.

The organization - which won't divulge its funding base - plans television, print and radio advertising buys as well as mass mailings to try and convince the incumbents to rescind their opposition.

While the ads - which will begin in Brooks' district within 10 days - don't specifically urge voters to vote against the incumbents, they aren't likely to improve their re-election chances.

"It will give a boost to our campaign," said Steve Stockman, the Republican seeking to unseat Brooks. "That's some pretty big bucks."

KUWAIT (AP) - The United States and its allies aren't ready to declare the showdown with Saddam Hussein over, despite Iraq's pledge to withdraw its remaining troops from positions near the Kuwaiti border.

Washington is pursuing a huge military buildup, assembling its biggest force since the 1991 Gulf War, all the while keeping a skeptical eye on Iraqi troop movements.

The Pentagon said some Iraqi forces had shifted away from their combat positions Tuesday, five days after the crisis began. "There's fairly broad movement" among the 80,000 Iraqis assembled at the Kuwaiti border, said Gen. John Shalikashvili.

But "considerable (Iraqi) units" remain in the area, he said. "I'm not at all prepared to say the crisis is over in any way."

Secretary of State Warren Christopher was meeting with the foreign ministers of Britain, Kuwait,

Saudi Arabia, Qatar, the United Arab Emirates, Bahrain and Oman today to discuss the Iraqi moves.

"We have to make sure that the threat Saddam Hussein has mounted is removed, and then we have to see how it can be prevented in the future," Douglas Hurd, the British foreign minister, said as he arrived for the meeting today.

"The first thing is to make sure that threat is averted," he added.

Baghdad claimed only two brigades, about 8,000 men, remained near the border. The official Iraqi News Agency, monitored in Cyprus, quoted Foreign Minister Mohammed Said al-Sahhaf as saying the pullback was largely completed Tuesday, and that the remaining troops will withdraw soon.

Journalists on the road to Basra said troops and military equipment were moving in both directions Tuesday, with heavy artillery heading south.

Baghdad had claimed the buildup

was a routine rotation and training exercise. But the mobilization was alarmingly similar to the one that preceded Iraq's August 1990 invasion of Kuwait.

With the arrival of U.S. troops, tensions in Kuwait eased somewhat today. Officials said oil operations - the golden goose of the emirate's economy - were continuing normally. Banks had plenty of dollars, gasoline stations were open, and there were no signs of hoarding.

Still, Kuwaitis did not appear to trust their neighbor to the north. The government announced today that an additional 8,000 men had volunteered to fight.

Seeking ways to prevent Iraq from triggering another crisis, the United States suggested the U.N. Security Council impose a wide off-limits zone on Saddam's ground forces near Kuwait's border.

The proposal would expand the no-fly zone in effect in southern Iraq.

## Agreement could lead to ban on some pesticides

**By ROBERT GREENE**  
AP Farm Writer

WASHINGTON (AP) - The government could start the process of banning several suspected cancer-causing pesticides in food as early as next spring under an agreement announced today.

The agreement is part of a court settlement that must be approved by U.S. District Judge William Schubert in Sacramento, Calif. The agreement, which could be signed as early as Dec. 2 if not challenged by industry, would create a schedule for resolving a major dispute over pesticide regulation.

At issue are pesticides that show up in processed foods such as raisins, cooking oil, tomato paste and flour in greater concentrations than in their raw ingredients: grapes, soybeans, tomatoes and wheat.

A 1992 court ruling said those processed foods can have no trace of pesticides found to cause tumors in animals or people, regardless of how small the actual risk of cancer.

The ruling dealt with a 1958 section of food law, the Delaney Clause, enacted before scientists could detect increasingly minute amounts of chemicals in products.

Residues in raw foods such as apples and tomatoes are regulated by a different standard that allows some risk, weighed along with the benefits to consumers and agriculture.

In practice, a pesticide that fails to meet the "zero risk" standard for tomato paste, for example, can't be allowed on whole tomatoes because there's no way to tell how the tomatoes will be used.

The agreement calls for the Environmental Protection Agency to rule within 60 days of settlement on a 1992 petition by the National Food Processors Association to cut the tie between rules for raw and processed foods.

"I am pleased that EPA has reached this proposed

agreement, which continues the Clinton administration's commitment to reduce pesticide use and ensure a safe food supply," EPA Administrator Carol Browner said.

The industry group says the Delaney standard was intended for food additives such as preservatives, not pesticides. Moreover, regulations should consider whether the processed foods are used as ingredients or eaten whole, said Juanita Duggan, the group's senior vice president for governmental affairs.

"Nobody eats flour," she said. "But people do eat raisins."

If the EPA refuses, it will take steps to ban the use of up to 36 chemicals on about 140 raw and processed foods. The first proposals would be announced in six months and cover 18 pesticides in some 60 processed foods.

Those uses would be banned within two years, and the remainder within five.

"If carried out, it will phase out some of the most widely used cancer-causing pesticides from our food supply," said Erik Olson, senior attorney for the Natural Resources Defense Council, which sued EPA in 1989.

Other plaintiffs are the state of California, the AFL-CIO, the consumer group Public Citizen and three farm workers.

Under the proposed agreement, the fungicide benomyl could be banned on apples, citrus, grapes, rice and tomatoes; the fungicide captan, on grapes, plums and tomatoes; and the fungicide mancozeb, on wheat, oats, barley, rye and grapes.

Additionally, the EPA will complete its review of data on 49 other pesticides that show up in processed foods.

The administration this year introduced a bill to create a uniform standard for pesticide residues that accounts for all health risks, not just cancer. The effects of pesticides on children would get special consideration.

## Citywide crusade continues here

A citywide church crusade, sponsored by Hereford Ministerial Alliance, continue tonight and Thursday with evangelist Homer Martinez of Dallas as the featured speaker.

The Wednesday service will be held at the Nazarene Church and the "Five Crosses" will be Martinez's sermon title. Each service begins at 7 p.m. Steve Taylor of Nashville, TN., is the music minister.

Thursday night's service will be held at Christ's Church Fellowship and will be highlighted by Rev. Martinez's testimony, "When God Spoke Spanish."

Services were held at First Baptist Church and St. Anthony's Catholic Church Monday and Tuesday.

## Pentagon says U.S. military has capability to deal with conflicts

By SUSANNE M. SCHAFER  
AP Military Writer

WASHINGTON (AP) - American troops are standing guard in Europe, Haiti, Korea and the Balkans. Troops have left Rwanda and Somalia, but thousands more are en route to the Middle East.

Is America's military being stretched too thin? Has Saddam Hussein deliberately made trouble while the United States is preoccupied in Haiti?

Some military experts worry that's the case. But the Pentagon's top commanders contend that despite recent troop and budget cuts, America's military can handle two major regional conflicts - such as Korea and Iraq - at nearly the same time.

"I believe we have the capability to do so," Gen. John Shalikshvili told reporters at a Pentagon briefing. "I would not want North Korea for a moment to think otherwise, or for that matter, anyone else."

Under the national security strategy devised during the tenure of former Defense Secretary Les Aspin, the Clinton administration said the Pentagon should maintain enough military force to fight - and win - "two nearly simultaneous regional conflicts."

That means while vanquishing one foe, the forces must be ready to shift to face, and defeat, another.

But the administration's budget also calls for cutting the Army's divisions from 14 to 10; Air Force wings from 28 to 20; and aircraft carriers from 13 to 12 by 1999.

Rep. Ike Skelton, D-Mo., said he backs the plan, but the strategy "isn't even funded.... I'm really concerned about it."

Skelton said a variety of projections show the Pentagon's long-term budgets would need between \$40 billion and \$150 billion above and over the next five years to pay for the cutback force outlined in the Clinton strategy.

"And what if North Korea rattles the saber, what if the Serbs decide to assist the Bosnian Serbs? We'll find ourselves stretched thinner than paper," said Skelton, the influential chairman of the House Armed Services personnel subcommittee.

Retired Army Col. Roy Alcalá, a former assistant to Army Chief of Staff Carl Vuono, argued "things are stretched" now.

In cases like Korea or the Middle East, allies may be able to help out, Alcalá said. But he argued it would not be possible for the United States

to manage two major conflicts alone "without a preplanned and large" call-up of the civilians who are members of its reserve forces.

Only three weeks after 20,000 troops were dispatched to Haiti, the military is shifting thousands more into the Persian Gulf region.

"We've been able to do very, very well those difficult tasks we've been asked to do. But we also have to watch very carefully to make sure that we don't get stretched out," Shalikshvili said.

Air Force Gen. Merrill McPeak told reporters at a separate session the Air Force was "in pretty good shape" and has enough fighter air wings to handle any contingency.

## Emergency funding given for food, shelter

WASHINGTON D.C. -- Deaf Smith County is one of 134 Texas counties that have been earmarked for \$9.8 million in funding to provide emergency food and shelter, according to a Thursday announcement by Sen. Phil Gramm.

The money is available to sponsoring organizations through the Emergency Food and Shelter National Board Program, which is overseen by the Federal Emergency Management Agency.

Local sponsors, including both public and private agencies, must now apply for the funding.

In Deaf Smith County, \$12,145 has been set aside. The only other Panhandle counties to have funds designated are: Gray County, \$9,494; Hutchinson County, \$13,780; and Moore County, \$6,541.

"This program has five basic operating principles: Fast response, allocations to the neediest areas, public-private cooperation, local

decision-making and minimum, but available, accountable reporting," said Gramm.

The board is chaired by a FEMA representative and is made up of representatives of the American Red Cross, Catholic Charities USA, Council of Jewish Federations, National Council of Churches, Salvation Army and United Way.

In each jurisdiction funded, a local board advertises the availability of funds, establishes local priorities, selects local non-profit and government agencies to receive supplemental funding and monitors program compliance. The local boards mirror the composition of the EFT National Board, with a local government official replacing FEMA.

For a listing of the Emergency Food and Shelter boards in this area, call the Emergency Food and Shelter National Board at (202) 646-3652, or (703) 646-4500.

## Crime bill's first funds go to cities for officers

By MICHAEL J. SNIFFEN  
Associated Press Writer  
WASHINGTON (AP) - The first \$200 million from the newly enacted crime bill will go to 300 communities selected by the Justice Department to implement local plans to put 2,700 new police officers on the street.

Police chiefs and mayors from the selected cities were invited to the White House, where the list was being announced today in a ceremony designed to highlight President Clinton's largest victory in Congress this year.

"We've been meeting daily since August, planning these grants," Associate Attorney General John Schmidt told reporters Tuesday.

The 300 communities were chosen from 2,450 that had applied for but failed to receive shares of \$150 million in police-hiring grants distributed last year. Some 250 cities received grants last year to hire a total of 2,000 police officers who should finish training and show up on the streets this fall, Schmidt said.

The \$200 million is the first installment of \$8.8 billion authorized by the crime bill over the next six years to hire more police. An additional \$1.1 billion will be distributed over the next 12 months, based on applications now being designed.

Communities must submit plans for using the new officers in so-called community policing projects that strengthen ties between officers and civilians. The winners of the first round were chosen on the basis of a Justice Department evaluation of their policing plans plus a rating of their violent and overall crime rates, Schmidt said.

The new law requires that half the \$8.8 billion go to cities with fewer than 150,000 residents.

## Capitol doors open after restoration

By PEGGY FIKAC  
Associated Press Writer

AUSTIN (AP) - Texans can take a peek at history beginning Saturday: The Texas Capitol's doors will reopen for tours after being shut to the public for more than a year during a restoration project.

But Dealey Herndon, executive director of the State Preservation Board, said Tuesday that no special events are planned to mark the day.

"It's just that when people come up to the door, it will be unlocked," she said. "We're going to have some informational brochures that answer some basic questions for them and let them just come in and see how it's going."

Not all of the Capitol will be open yet, since work still is being done, including in the House chamber. But visitors are expected to be able to see areas including the refurbished Senate chamber, the rotunda and the restored old Texas Supreme Court room.

At a ribbon-cutting for Tuesday's official opening of the courtroom, former Chief Justice Joe Greenhill said one thing had bothered him when he first saw the room: the spittoons.

The Preservation Board had put them in the back of the courtroom, he said, because, "I'm sure that they could not conceive of justices of the Supreme Court chewing tobacco on the bench."

But Greenhill, who served as a law clerk for the court in 1941 before going on to become a justice himself, knew differently - at least one justice had used the receptacle "as convenient and necessary."

Greenhill showed off a spittoon that had been moved up to the judges' bench for a crowd including current Supreme Court members, House Speaker Pete Laney and sponsors such as Exxon Co., which donated money

for historical furnishings in the room.

Current Supreme Court members won't be able to take advantage of the spittoons; justices will continue meeting in a separate building. But the restored room, which served the court from 1888 to 1959, will be used for committee hearings and other group meetings, officials said.

Greenhill also sounded a serious note for the ribbon-cutting, saying, "This is the room where the roots of the Supreme Court were laid." Echoed current Chief Justice Tom Phillips, "We build today on what was done in this room 100 years ago."

"It is hard sometimes ... to remember that those of us who sit on the court and work for the court are merely here temporarily, and that we are part of a much larger and more important and more enduring system. This courtroom will help us to do that," Phillips said.

The state Legislature allowed \$187.6 million for the project, including restoration and preservation of the Capitol, construction of an underground extension to the building and restoration of the 1857 General Land Office Building on the Capitol grounds.

About \$5 million in private money also was raised for such items as furnishings, artwork, a visitors' center and grounds work.

Restoration efforts have drawn some good-natured criticism - one state government worker joked that swags of elaborate green draperies behind the podium in the Senate chamber seem ready for Scarlett O'Hara to pull down and fashion a dress.

Draperies in the restored courtroom are an even fancier gold, and the judges' bench has only three chairs, rather than the current nine. That was the size of the court panel in 1905, the period to which the room was restored.

## Sorority hears program on types of personality tests

"Your Personal Score" was the program held during the recent meeting of Xi Epsilon Alpha Chapter of Beta Sigma Phi Sorority. Held in the Reddy Room of Southwestern Public Service, the program focused on various types of personality tests as hostess Gaye B. Reily presented the program.

Reily noted that giving personality tests to job applicants is a popular means of fitting that person's skills to a job. One such test, the Enneagram, is used by such disparate organizations as the CIA, U.S. Postal Service and the Vatican, to name a few. This test groups human

emotions and behaviors—negative and positive—into nine personality types. According to Enneagram theory, personality develops in early childhood and undesirable traits may be modified.

Another type of personality test, the Omnia Vocational Compatibility Rating, asks a job applicant to select words that describes himself, then select words that describe how others see him. Answers are matched against desirable traits for a certain job and the employer may use this information as a hiring tool.

Yet another test is comprised of five shapes from which a person may choose to describe himself. Reily gave this test to members present and later informed them of each shape's characteristics.

Whitfill hosting the program on "CPR and the Heimlich Maneuver."

Rosebud committee chairman Whitfill said she mailed a sympathy card to Jane and Steve Meives after the loss of their daughter Yvonne.

Highlight of the evening occurred when last year's chapter sweetheart, Shaw, announced the selection of Whitfill as this year's sweetheart. Whitfill was surprised when her husband, Gary, stopped by to present her a bouquet during the surprise announcement.

Following adjournment, the group did closing ritual and said Mizpah. Hostess Reily and co-hostess Ramey served refreshments of carrot cake, candy and Cokes to the group using a Halloween motif.

## Valeda Study Club holds meeting

The Valeda Study Club met Monday in the home of Clovis Seago, and 13 members answered the roll call by giving a favorite Bible verse.

Mary Dziuk, president, led members in a business meeting, and the treasurer's report was given. Margaret Zinser volunteered to help Friends of the Library with their sale of books on Oct. 15 from 3 to 5 p.m.

It was reported that George Olson was doing well after surgery and would be returning home from the hospital soon.

Mrs. Duffy McBrayer presented an interesting program from her study of Hebrews.

Before the program, President Ruby Lee led 11 other members and one guest, Denise Hafliger, in the opening ritual. Members present besides Lee and Reily were: Linda Arellano, Holly Bixler, Deann Harris, Melinda Henson, Peggy Hyer, Connie Matthews, Brenda Ramey, Susan Shaw, Melinda Whitfill and Kay Williams.

Secret Sisters were thanked by Deann Harris and Holly Bixler.

Service committee chairman Shaw asked members to play a version of "The Price is Right" with wrong answers used to collect money for the Christmas Stocking Fund.

Program and yearbook chairman Williams announced that the Oct. 18 meeting would be held at 7 p.m. with

## When you're away

### Tips on keeping home safe

Homes are especially vulnerable to break-ins when their owners are away. In fact, the United States Justice Department reports that 25 percent of burglaries occur when owners are engaged in leisure activity away from home.

Fortunately, most Americans are taking action to protect their homes from crime, according to a new national survey conducted by Brink's Home Security on crime preparedness. The survey found that since 1991 nearly 99 percent of homeowners have taken steps to help prevent being crime victims. Most have purchased exterior home lighting (59 percent) as well as new home and door window locks (56 percent).

Here are some tips from the experts at Brink's Home Security to help keep your property safe while you're away:

-Make sure the streets around your home are well lit. While it is always a good idea to install your own exterior lighting, this may have little impact on a dimly lit street. If you live in a poorly lit neighborhood, ask authorities to install street lights or replace existing bulbs with those of higher wattage.

-Use timers on indoor and outdoor lighting fixtures when you're away. -Install security or break resistant glass in windows, these often prevent burglars from breaking or unlocking windows.

-Use natural barriers, such as shrubs with prickly thorns or leaves, to deter break-ins. Check with a local nursery to find out which plants fit the bill and grow well in your area.

-Permanently mark your valuables with a personal identification number. Call your local police to inquire about Operation I.D., a national program that involves inscribing a personal number (driver's license is best) on your key possessions.

-Notify police when you will be away on vacation and let them know if you have a monitored security system. That way, police will have advance notice that you are out of town should your system be activated.

Many local departments provide residential security checks. At a minimum, let your friends in the neighborhood know when you will leave and when you will return.

-Park in the driveway. When you are away from home, park another car or ask a neighbor to park in your

driveway. This gives the appearance someone is home.

-Install a monitored home security system.

**NOTICE OF PROPOSED  
GAS RATE CHANGE**

On September 20, 1994 Energas Company filed Statements of Intent to change its gas rates and service charges with the Texas Railroad Commission and each incorporated city listed below. The proposed changes will take effect no sooner than 35 days after filing.

The Company proposes to increase its customer charge by 89 cents per month with no other changes to its gas rate schedules. The change would apply to General Service (residential and commercial) and Small Industrial Service. The Company also proposes the following increased service charges:

|   | During<br>Business<br>Hours | After<br>Hours |
|---|-----------------------------|----------------|
| Turn on new service with meter set  | \$23.50                     | \$35.25        |
| Turn on service (shut-in test required)                                       | 19.00                       | 28.50          |
| Turn on service (meter read only required) and miscellaneous service calls    | 10.50                       | 15.75          |
| Reconnect delinquent service or service temporarily off at customer's request | 29.50                       | 39.00          |
| Dishonored check charge   | 25.00                       |                |

The proposed changes are expected to increase the Company's annual revenues by approximately 1.9% and therefore do not constitute a "major change." The proposed changes could affect approximately 217,000 gas consumers in the following communities and surrounding rural areas:

## Winning touchdown

Mark Rodriguez (2) of the Hereford eighth grade Maroon A team carries the ball for a touchdown with 54 seconds left, with a key lead block by Thomas Suarez (22). Moments later, Rodriguez carried for a two-point conversion to give Hereford a 14-12 win over Pampa Tuesday in Hereford. Trailing the play is quarterback Mitch Wagner (3).

## HJH gridders win in last minute

Mark Rodriguez scored his second touchdown of the game with 54 seconds left, then ran for a two-point conversion to lift the Hereford eighth grade Maroon A team to a 14-12 win over Pampa Tuesday in Hereford. Rodriguez' run came in a fourth-down-and-six-inches situation from the Pampa 11-yard line. It was the second fourth-down conversion of the winning drive; earlier, on fourth-and-13, Brent Berend caught a 25-yard pass from Mitch Wagner to extend the drive deep into Pampa territory. David Casarez sealed the win with an interception on Pampa's first play after the kickoff. Rodriguez also scored in the first half on a four-yard run. Hereford lost the B game, 22-14.

## Former S. Carolina hoops coach McGuire dies at 80

COLUMBIA, S.C. (AP) — Frank McGuire, who brought style, flair and bigtime basketball to a region that reveled in football, is dead after a long illness. McGuire, 80, died at his West Columbia home shortly after 1:30 p.m. Tuesday. Wanda McNair, a deputy Lexington County coroner, said McGuire suffered from complications of a stroke about two years ago. Bob Fulton, South Carolina's longtime announcer, said McGuire fought to stay alive through the weekend until his sister could arrive from New York on Monday. "His family agreed that it was a godsend," Fulton said. "He was in so much pain the last few weeks." McNair said McGuire's wife and other family members were at his side when he died. McGuire led North Carolina to its first national basketball championship and was the winningest coach in South Carolina history. McGuire, a dapper dresser who had a pair of alligator coaching shoes, won 724 games - 549 at the college level - during a 41-year career that ended in 1980 when he was eased out as head coach at South Carolina. He was named to the National Basketball Hall of Fame in 1977. McGuire was 283-142 in 16 seasons at South Carolina, leading the Gamecocks to four straight NCAA tournaments beginning with the school's first NCAA appearance in 1971. In 1952, McGuire led St. John's to the NCAA championship game, which the Redmen lost to Kansas 80-63. Five years later, McGuire led North Carolina to the NCAA title in what many still consider the most exciting championship game ever. The Tar Heels beat Kansas and Wilt Chamberlain 54-53 in triple overtime to complete a 32-0 season. McGuire was born Nov. 8, 1913, the son of a New York police officer. He began his head coaching career at his alma mater, St. John's, in 1948 after serving in the Navy during World War II.

Damon Frazier scored both touchdowns for Hereford, on a 36-yard run and a 78-yard kickoff return. Shane Decker ran for a two-point conversion.

Hereford Junior High won three of its five games Tuesday, including the seventh grade White B team's 28-2 win over Friona in Hereford (there was no A game). Edward Dominguez ran for three touchdowns—of 45, 36 and 35 yards—and a two-point conversion. Chris Diller added a 50-yard TD run.

The seventh Maroon teams went to Pampa, and the A team won 32-12. Nicholas Whatley had TD runs of five and 65 yards; Seth Pietsek had TD runs of one and five yards; and Eric McNutt passed to Morris Penaber for a 50-yard TD.

The B team lost, 28-20. For Hereford, Daniel Carnahan had TD runs of 30 and 35 yards and threw to Ian Isaacson for a 55-yard TD. Carnahan also ran for a two-point conversion.

The eighth grade White B teams game at Friona was cancelled.

## Herd spikers dump Pampa

By JAY PEDEN

The Lady Whitefaces volleyball team dispatched Pampa 15-3, 15-6 Tuesday in Pampa. Hereford stays undefeated (8-0) in District 1-4A. Hereford is 27-4 overall with four matches left in the regular season; the next one is at 2 p.m. Saturday when Borger comes to Whiteface Gym.

Pampa remains in fourth place in the district at 3-5 and 10-9.

The Lady Whitefaces "did a pretty good job in all areas," coach Brenda Reeh said. Each game started a little slow, but the Herd soon took command and won.

"At the very beginning of the match our passing was a little off," Reeh said. "We were a little nervous, and we didn't have a very good warm-up defensively. But once we loosened up and started passing (to the setter), we went after them aggressively at the net."

Pampa led briefly in the second game, at 2-0 and at 3-1, but Hereford scored five straight points with Jessica Evers at the service line.

Reeh said she was "concerned" with Pampa because the Lady Harvesters had played well at home. In the teams' district match last year in Pampa, the Lady Harvesters won a game off Hereford before losing the match.

"I was pleased with the way our kids rose to the occasion and handled the pressure," Reeh said.

The YMCA is a great place to go for any kid. For some kids, it's the only great place to go.

The truth is, because of family problems or low incomes, a lot of kids can't afford the opportunities to go places and be with adults who can give them the caring attention they need. That's why the YMCA is so important. We give kids the positive experiences they need to grow up prepared for happy and productive lives. But we always run out of money before we run out of kids. Support the place that supports kids and families. **The YMCA**

# Cowboys' defensive coordinator lauds '94 unit

By DENNE H. FREEMAN  
AP Sports Writer  
IRVING, Texas (AP) - Forgive Butch Davis if he points out he predicted it.

"I said this summer we'll have a better defense than the Super Bowl champions of last year," said the defensive coordinator of the Dallas Cowboys. "I think we do and we're

showing it."

Five games into the season, the Dallas defense leads the NFL, allowing only 235.2 yards per game. The Cowboys have the best pass defense, permitting just 139 yards per game. In rushing, they've allowed 95.8 yards per game.

"We traditionally don't start jelling until late October or Novem-

ber," defensive end Jim Jeffcoat said. "You haven't seen anything yet."

Safety Darren Woodson said the ranking is no fluke.

"I think we can stay No. 1," he said. "When our linebackers and defensive linemen play like they did against Washington and Arizona, it makes the job for the secondary much easier."

Cornerbacks Kevin Smith and Larry Brown shut out Redskins wide receivers Henry Ellard and Desmond Howard in a 34-3 victory. Ellard didn't catch a pass until Smith and Brown came out of the game.

Against Arizona, the Cowboys had five interceptions in a 38-3 rout.

"I think everyone underestimates

our defense," said linebacker Robert Jones. "Philadelphia certainly doesn't put any fear in our hearts. Our defense will match up really well against them. It's tough to run against us."

Safety James Washington said he's been having fun.

"We'd like to be the No. 1 defense when the season ends," Washington said.

what he sees.

"I kind of expected we would be good on defense," Switzer said. "We're not a huge physical team. But we have great techniques and we are quicker than most teams we play. We have great effort in chasing the ball."

Switzer said a good defense "has to have the correct mix of chemistry. You have to have the correct recipe and we have it."

Woodson has played a big part in the Dallas defense. He had two interceptions against Arizona on Sunday.

"Darren is starting to be a dominating player," said secondary coach Dave Campos.

Rookie coach Barry Switzer likes

The Cowboys have forced nine turnovers in the last two weeks. Arizona could only get 10 first downs against Dallas.

"Nobody talks about our defense," Woodson said, "except opposing offenses after they play us. We're going to get even better."

# Oilers' owner mandates use of TE

By MICHAEL A. LUTZ  
AP Sports Writer  
HOUSTON (AP) - Kevin Gilbride knows he can't ignore all the critics of the Houston Oilers' offense.

He has ignored abuse from fans, but he doesn't have that option with team owner Bud Adams, who has instructed him to expand the role of the tight end for Thursday night's game against the Cleveland Browns.

The Oilers have been under fire because of their 1-4 start and the offense, which was supposed to expand this season to include tight end formations, has looked much like the run-and-shoot of previous years.

Tight end Pat Carter has caught one pass in five games, spending his playing time blocking or running patterns without getting the ball. Adams wondered why he wasn't

getting more for the \$750,000 he is paying Carter.

"It's our obligation to put our guys in the best possible position," said Gilbride, assistant head coach in charge of offense. "We can try to do a few other protections that may help but sometimes learning those things causes breakdowns. That's contributed to our problems."

Offensive coordinator Dick Couray says Adams' instructions will be followed.

"We'll definitely be going to use the tight end more," Couray said. "How much we use the tight end in the game will depend on how successful we are."

The problem is, nothing the Oilers have tried offensively this season has worked very well.

"We are using it more and more and if that aspect was being effective, we'd use it even more," he said. "Unfortunately, we're not playing well enough that there's any one thing that we can hang our hats on."

The Oilers have been to the playoffs seven straight years, the longest current streak in the NFL. The run-and-shoot has helped them remain a contender, ranking among the top offensive teams annually.

But they've slipped this season without Warren Moon, and the offensive line that gave him good protection last season. They now rank No. 16 in offense and No. 17 in passing.

Gilbride has sparred with the media and fans throughout the season over offensive strategy.

Since the run-and-shoot is faltering anyway, why not use Carter more, to bolster the blocking and to add a new passing option, the fans say. To which, Gilbride said:

"I don't think you can be influenced by the public perception of what should be done because they don't know. They look at it from a fans perspective and we get a chance to look and study opponents and know what our guys can do best."

Gilbride is sensitive to the fans' view, he just doesn't always agree with it.

"I understand the frustration they (fans) are feeling because whatever they're feeling its doubly so on the inside," Gilbride said. "We've got a lot of new parts that we're trying to bring together and do the best that we can with what we've got."

# Seifert deals with high expectations

By DAVE GOLDBERG  
AP Football Writer  
George Seifert, clearly relieved that his San Francisco 49ers overcame Detroit last Sunday, also is a little dismayed at the lofty expectations of his team because of the way it has manipulated the salary cap.

"Maybe the last two weeks will teach us," said Seifert, whose 'Niners were blown away 40-8 at home by Philadelphia and fell behind 14-0 to the Lions before coming back for a 27-21 win.

"We can't beat someone just by showing up."

In some ways, the 'Niners are victims of their own maneuvering.

When Carmen Policy, the team's president, renegotiated the contracts of his key players, the idea was to stretch out their contracts so he could fill holes by signing more veterans. But he also mortgaged the future because he will be limited under the cap in future years by money guaranteed to players long gone.

But even that maneuvering couldn't save them when they lost four of their five offensive line starters - Harris Barton and Ralph Tamm for a couple of months, Steve Wallace and Jesse Sapulu for a couple of games. That left Steve Young at the mercy of an inexperienced and sometimes incompetent offensive line, and there was no money left to seek out more experienced replacements.

"I guess there's one team that knows how to use the cap and 27 teams that don't," George Young, general manager of the New York Giants, said facetiously. "When they signed Deion Sanders, someone asked me what effect it would have on them and I asked, 'Can he play right tackle?'"

That, in fact, is the crux of the problem - for the 'Niners as well as the rest of the NFL, which this season has divided itself into three tiers - Dallas, 26 other teams and Cincinnati. The 49ers are one of the 26, much to the chagrin of owner Eddie

DeBartolo and the Bay Area fans spoiled by four Super Bowl victories. But since the last one, after the 1989 season, they've done no better than advance to the NFC title game three of the last four seasons, becoming, in effect, the Bills or Broncos of their own conference.

That's the reason for the maneuvering by DeBartolo's pal, Policy, whom he made the team's president.

Policy is, in fact, one of the NFL's more astute executives, and he did use the cap better than anybody.

But he used it with a specific purpose in mind - getting to the Super Bowl this season, as DeBartolo wants. Gary Plummer, Bart Oates, Richard Dent and Rickey Jackson weren't signed to get the 'Niners there in 1995 or 1996.

Even before the season, Policy knew the team was one or two injuries away from disaster. So far, Seifert has managed to tread water despite the knee injury to Dent and the loss of the four offensive linemen.

But it's rough water. At halftime

in Detroit, after the 'Niners had come back from that two touchdown deficit to tie it, Policy wasn't sure all the anguish was worth it.

"I wasn't smiling like this half an hour ago," he said.

The same applies to his players, particularly the veterans who know about winning Super Bowls.

"It's hard to get your timing back. You're not sure where you are," Sapulu said after the game, unrolling mounds of tape that relieved the groin pull in his upper right leg.

"I wasn't sure I was ready to play, but when you're in our shape, you have to go out and suck it up."

Sapulu is 33, one of a dozen 49ers past the 30-year point.

In a few years, they won't be around to "suck it up," and the money may not be there to get high-caliber replacements.

To reprise George Allen, for the 49ers, the future is now.

Add one more injury and it may be never.

# Baylor DE Lewis honored

By CHIP BROWN  
Associated Press Writer  
AUSTIN (AP) - Baylor defensive end Scotty Lewis says the Bears defense is so confident it can make big plays that players have put their money where their mouth is.

"We have an ongoing bet with the offense that we can score more points than they can each game," said Lewis, who has been named the Southwest Conference Defensive Player of the Week by The Associated Press. "Loser has to pay for a big barbecue dinner."

While Lewis privately acknowledges that it's a bet the defense can't win, Bears defenders have made a serious run at some free barbecue.

The defense is averaging five points per game after scoring two touchdowns in a victory against Texas Christian, a touchdown and a safety in a victory against San Jose State and another touchdown in a victory against Louisiana Tech.

The defense and special teams combined are averaging 10.2 points per game.

"The attitude is not just that we can make big plays," said Lewis, a senior from Sulphur Springs. "It's that we can score points. We believe that and shoot for that."

Southern Methodist certainly is a believer.

SMU was so afraid of the Bears' big-play potential on Saturday that it abandoned the "shoot" in its run-and-shoot offense and focused almost exclusively on the run.

The result? Two yards on 10 carries in the first quarter, and 38 yards on 22 carries at halftime. By then, Baylor, which is 5-1 heading into a game this week at Texas A&M, had already built a 28-3 lead on its way to a 44-10 blowout.

"We kept trying to run to keep their defense from making big plays," SMU coach Tom Rossley said.

Much of the credit goes to Lewis, who had eight tackles - seven unassisted - including three for losses of 14 yards. His first two tackles went for losses of 4 and 8 yards.

"Scotty is the one guy up front who can really take charge of a game by himself," Baylor coach Chuck Reed said.

Texas quarterback James Brown is the AP's SWC Offensive Player of the Week. Brown took over for injured starter Shea Morenz on Saturday and with the poise of a veteran helped the 12th-ranked Longhorns knock off Oklahoma 17-10.

The Beaumont West Brook product ran for a score and passed for another. He completed 17 of 22 passes for 148 yards and ran nine times for 51 yards.

It was a huge improvement over

a relief appearance by Brown in a 34-18 victory against Texas Christian.

In that game, Brown's play consisted of nine snaps, two sacks, one fumble, no passes and no touchdowns. It was a game that earned him the nickname "TD" from Longhorns defensive end Tony Brackens.

"Tony said TD stood for 'Tackling Dummy,'" Brown said. "'Now (after the Oklahoma game) maybe he'll call me TD - for touchdown.'"

# Baytown QB approaches record passing day

By JAIME ARON  
AP Sports Writer

DALLAS (AP) - In a season where few quarterbacks have made much of a mark, Baytown Lee's Jermain Alfred has shot to the top of the pack. Alfred, who threw for only 19 yards in the season opener, completed 21-of-35 passes for 505 yards and five touchdowns in the Ganders' 50-14 victory over Vidor last weekend.

The huge game boosted his season totals to 1,703 yards and 16 TDs, earned Alfred top billing on The Associated Press honor roll and secured a spot in state record books.

The yardage is the second-best ever in Class 5A and the fifth-most in any class, according to Bill MacMurray's Texas High School All-Time Sports Record Book. Mission's Koy Detmer set the 5A mark with 522 yards against Corpus Christi Miller in 1991.

"He's getting better and better, and the best is yet to come," Baytown Lee coach Dick Olin said. "He'll make someone a very good college quarterback."

Alfred already is a great high school quarterback, and he may be the best in the state in what seems to be a down year for pure passers.

At 6-foot-2 and 200 pounds, Alfred has the size to play college ball. He runs the 40 in about 4.7 or 4.8, Olin said, meaning Alfred is most suited for a pro-style offense.

He's already playing in a similar one because Lee uses the same offense as the University of Miami, which Olin learned five years ago from Hurricanes coaches.

Olin began using the offense in 1989 when he was at Aldine Eisenhower. The first quarterback under his system was Rick Roper, who threw for 481 yards in a playoff

game that season against Baytown Central.

He brought the system to Baytown Lee in 1991, taking over a program that he says was in shambles.

With no quarterback in place, Olin opened the competition to all comers. That included Alfred, who then was playing offensive guard and linebacker.

"We noticed right away he'd stand in there and look downfield," Olin said. "He had great poise and a great field presence."

Alfred took his lumps as a sophomore starter on an 0-10 team. He improved last year as Lee jumped to 4-5. Now the Ganders are 4-2 and Alfred is a bonafide star.

His great numbers against Vidor came in less than three quarters.

"We took him out with three minutes to go in the third," Olin said. "Had we known (how close Alfred was to the record), we would have kept him in."

Alfred has no favorite receiver, instead throwing to a variety of players. One of the best pass-catchers is Clint Stoerner, who also is Alfred's backup.

But it was Wallace Louis who had the big day against Vidor. Louis caught eight passes for 229 yards and three touchdowns.

In other outstanding Week Six performances: Deundray Mason ran The Colony into the Class 5A poll at No. 9 with four second-half touchdowns in a 61-26 upset thrashing of then-No. 7 Grapevine. He ran for 217 yards, returned the opening kickoff of the third quarter 100 yards for a score and had a two-point conversion.

Amarillo River Road quarterback Jeff Davis completed 15-of-27 for 260 yards and scored on three two-point conversion runs to turn a

41-12 deficit with 5:29 left into a 42-41 victory over Tulia.

Bartlett's John Johnson keyed a 30-0 victory over Holland with TDs on an 80-yard kickoff return, a 70-yard punt return and a 50-yard run. He had 10 carries for 100 yards.

Sinton's Juan Garcia ran seven times for 208 yards and TDs of 67 and 61 yards in a 39-6 victory over Taft. He also scored on a 50-yard punt return.

Richardson Lake Highlands only gave Dexter Ford the ball eight times, but he turned it into four touchdowns and 207 yards in a 38-3 victory over Richardson Pearce.

Eric Maldonado ran nine times for 202 yards and touchdowns of 84, 35, 23 and 5 yards as Roma ended a 21-game losing streak by drubbing Brownsville Lopez 42-0.

Goliad's Elton Perry rushed for 343 yards and five TDs in a 40-34 victory over Aransas Pass. He scored on runs of 3, 93, 66, 66 and 16 yards.

El Campo's Michael Perry ran 37 times for 335 yards and four touchdowns in a 35-28 victory over Lamar Consolidated.

Monte Williams ran 16 times for 317 yards and TDs of 95, 60, 55 and

25 in Bremond's 35-0 victory over Mildred.

Woodville's Aubre Jackson ran 24 times for 301 yards and four TDs in a 42-12 victory over Kountze.

Jason Bragg scored touchdowns on kickoff returns of 106 and 96 yards, plus made six tackles in just over two quarters of Class 4A No. 1 Stephenville's 50-12 victory over Granbury.

Hemphill gained 672 yards in a 42-28 victory over East Chambers. Dexter Blueford led the attack with 284 yards rushing and three TDs.

Laredo Nixon's Ricky Mata completed just nine of 22 passes, but

three went for touchdowns (57, 73 and 96 yards) as he threw for 321 yards in a 31-20 victory over Laredo Cigarra.

Mata has 15 TD passes and only one interception in 140 attempts.

Alex Silva returned a fumble 58 yards with 55 seconds to play to give New Waverly a 29-28 victory over Groveton.

El Paso Riverside quarterback Mike Herrera completed 17-of-23 passes for 320 yards and five TDs in a 59-14 victory over El Paso Ysleta.

Kaufman cornerback Daniel Norell had three interceptions, a fumble recovery and four tackles in a 20-6 victory over Mesquite Potet. He also

punted five times for a 42-yard average, kicked two extra points and scored a touchdown on a 28-yard reception.

San Antonio McCollum safety Abel Zepeda returned an interception 36 yards for a touchdown, recovered a fumble, made eight solo tackles and returned a punt 33 yards to set up another TD in a 36-0 victory over San Antonio Edison.

Jacksonville defender Jerald Thompson had 17 solo tackles in a 36-20 victory over Hallsville.

Dallas Sunset cornerback Ivan Gaines had three interceptions and nine tackles in a 28-6 victory over Dallas Adams.

## Ann Landers

**DEAR ANN LANDERS:** I am sick and tired of all those female readers who write in and moan, "Why aren't there any nice guys out there?" I'm a nice guy," and here is my story:

I have a good job and am financially responsible. I don't go to bars and get stinking drunk. I don't smoke. I don't do drugs. I am interested in having a real relationship, but the women I have asked out turn me down because I am not much to look at.

Then I met my dream girl, "Wendy." I was one of many suitors, and we dated platonically for almost a year. I held her hand at the movies, and that was as far as we went. When Wendy got pregnant from a one-night stand, I was the only one who stood by her. When she couldn't get a job and was evicted from her apartment, I asked her to move in with me. Two weeks later, we became lovers. This was entirely her move.

I did all the cooking and the laundry. I brought her breakfast in bed on weekends and gave her a \$2,500 engagement ring. When her beautiful girl was born, I was in the delivery room.

Three months later, I came home and was totally shocked to find that she had cleared out, bag and baggage, and taken the baby. When I called her sister and asked, "Where in the world is Wendy?" I learned that she had run off and married "Bill," who she had mentioned in passing as a very good-looking guy but, unfortunately, a heroin addict.

Face it. Women don't want a nice guy or a sensitive man. They want a vain hunk they can show off to other women. I have resigned myself to a life of being alone. Am I bitter? You're darned tootin' I am, and who can blame me?—Permanently Scared in Sacramento, Calif.

**DEAR SACRAMENTO:** Wendy gave you a lousy deal, and I'm sorry, but don't judge all women by that rotten egg. Please don't give up. I printed your phone number, you would get at least 400 calls. Keep looking!

**DEAR ANN LANDERS:** My wife, "Evelyn," has chosen to be a housewife for practically all of our 10-year marriage. I have always been able to provide for my family without her assistance. She has earned about \$7,000 during our marriage at part-

time jobs and has not worked in four years.

My problem is that four years ago a bank issued Evelyn her own major credit card with a very high credit limit. Evelyn has used this card recklessly, and the bank continues to raise her credit limit. Her outstanding balance is over \$6,000. She pays her monthly minimum from money I give her for my household. She has ignored my protests, and the financial institution has rebuffed my inquiries.

Because I own property and have financial accounts jointly with Evelyn, everything I have worked hard for is threatened. I have decided that my only recourse is to take over our property, move our finances into accounts of my own and let Evelyn eventually default on her debt. I have written the bank that issued her the card and voiced a stern ultimatum about my intentions.

A few years ago, a husband could easily take away his wife's credit cards. Not in the '90s. Any suggestions?—Endangered by Her Debt in Pensacola

**DEAR ENDANGERED:** You need a third party to mediate this war. How about your banker? Evelyn needs to give up her credit card NOW—no ifs, ands or buts.

P.S. Your reference to "my household" suggests that you may be a bit too controlling, which might be the root of the problem.

### Students graduate

Griselda Garza and Sherri Harrel, both of Hereford, have graduated from the Texas State Technical College Amarillo summer quarter with an associate of applied science degree from the computer science technology program.

Texas State Technical College of Amarillo is a non-profit technical college created in 1970 by the Texas Legislature. The school offers 10 technical programs including three new programs: chemical technology, metrology and telecommunications.

**Prayer to The Holy Spirit**  
Oh Holy Spirit! Thou who art all knowing, who brightens every path that I may reach my ideal. Thou who givest me the divine gift of forgetting and forgiving wrongs done unto me and who in every instant of life art with me. I'd like in this short dialogue to affirm my gratitude for all my blessings and reaffirm once again that I never want to part again from Thee. Though the illusion of material things abound—my desire is to be with Thee and all my loved ones in perpetual grace. Thank You for Your mercy on me and my loved ones.  
Persons should pray three consecutive days without revealing petition. Within three days grace will be attained regardless of how difficult the petition may be. Publish this prayer once grace has been attained.  
**Grateful for Grace attained.**

### The Newspaper BIBLE

**THEY SPOKE LANGUAGES THEY HAD NEVER HEARD!**

Seven weeks had now gone by since Jesus' death and resurrection, and the Day of Pentecost arrived. As the believers met together that day, suddenly there was a sound like the roaring of a mighty windstorm in the skies above them and it filled the house where they were meeting. Then, what looked like flames or tongues of fire appeared and settled on their heads. And everyone present was filled with the Holy Spirit and began speaking in languages they didn't know, for the Holy Spirit gave them this ability.

Many godly Jews were in Jerusalem that day for the religious celebrations, having arrived from many nations. And when they heard the roaring in the sky above the house, crowds came running to see what it was all about, and were stunned to hear

their own languages being spoken by the disciples. "How can this be?" they exclaimed, "For these men are all from Galilee, and yet we hear them speaking all the native languages of the lands where we were born! Here we are—Parthians, Medes, Elamites, men from Mesopotamia, Judea, Cappadocia, Pontus, Asia, Phrygia, Pamphylia, Egypt, the Cyrene language areas of Libya, visitors from Rome—both Jews and Jewish converts—Cretans, and Arabians. And we hear these men telling in our own languages about the mighty miracles of God!"

They stood there amazed and perplexed. "What can this mean?" they asked each other. But others in the crowd were mocking "They're drunk, that's all!" they said.  
Acts 2:1-13

### YOU KILLED HIM, BUT NOW HE'S ALIVE!

Peter stepped forward with the eleven apostles, and shouted to the crowd, "Listen, all of you, visitors and residents of Jerusalem alike! Some of you are saying these men are drunk! It isn't true! It's much too early for that! People don't get drunk by 9 a.m.!

"No! What you see this morning was predicted centuries ago by the prophet Joel—"In the last days," God said, "I will pour out My Holy Spirit upon all mankind, and your sons and daughters shall prophesy, and your young men shall see visions, and your old men dream dreams. Yes, the Holy Spirit shall come upon all My servants, men and women alike, and they shall prophesy. And I will cause strange demonstrations in the heavens and

on the earth—blood and fire and clouds of smoke; the sun shall turn black and the moon blood-red before that awesome Day of the Lord arrives. But anyone who asks for mercy from the Lord shall have it and shall be saved."

"O men of Israel, listen! God publicly endorsed Jesus of Nazareth by doing tremendous miracles through Him, as you well know. But God, following His prearranged plan, let you use the Roman government to nail Him to the cross and murder Him. Then God released Him from the horrors of death and brought Him back to life again, for death could not keep this man within its grip."  
Acts 2:14-24
