HEREFORD, DEAF SMITH COUNTY, TEXAS, FRIDAY, JULY 15, 1921.

IN HEREFORD TWENTY ONE YEARS AGO

COPY OLD NEWSPAPER FULL OF HISTORICAL CURIOSITIES

NOT A BOOTLEG

Could Walk in and Wet Your Whistle. — Startling Changes Shown

Did you know that in 1900, twenty-one years ago, you could walk right in the front door of Harwell & Elles of Hereford and buy a bottle of fine wine, or a drink of Old Scotch; that E. H. Fullwood was owner and proprietor of The Hereford Dairy; that D. R. Gass had just formed a partnership with his sons, Nestor and C. L.; that Geo. E. Burns was a dealer in Staple and Fancy Groceries; that J. W. Carter, Jr., was an announced candidate for District and County Clerk; that Rat Jowell was High Sheriff of Deaf Smith county; that the Knights of Phythias instituted a lodge here on March 8, 1900; that Geo. A. Stambaugh and A. J. Lipcomb ran a coal, grain and hay business?

It's a bunch of facts. The Brand has a copy of the Hereford Enterprise, a weekly paper published here at that time, dated February 24, 1900, in which these things are set forth. A. E. McKellar was editor and Gaut & Gough publishers of this little sheet, issued when Hereford was officially two years old. The Brand has the copy through the courtesy of Dr. R. H. Gough, of Fort Worth, a nephew of Judge L. Gough, who practiced medicine here at that time and was interested in the Enterprise.

We note from the local columns that "The abandonment of the Sunday train does not meet with approval. A great many here have been decidedly discommoded, and many are the 'kicks' registered against the change." Twenty-one years does not seem to make much change in the local railroad situation.

The local columns state that C. R. Moreman was a business visitor in Amarillo; that Hereford needed a good shoemaker badly; that Sam Dunn, well known live stock inspector, was in town; that W. H. Gilbreath went out to his ranch near Dimmitt and returned with the statement that "this country is incomparable in its resources" and that he had determined to permanently settle here; and that Joe Kilough, now in the clothing business in Amarillo, was about to resign his job as county treasurer to open a machine shop.

Funny, isn't it, how many changes occur in familiar faces and in the business world, in twenty-one years? This old paper is chock full of things that would delight the hearts of "old timers" left in this community. G. A. F. Parker says this paper was published three years before he moved to Hereford, and that is almost incomprehensible.

Anyone who desires to delve into the records of the past for their own pleasure or to refresh dim memories are welcome to come to The Brand office and peruse the yellow columns of this frayed and tattered old chronicle of Hereford's doings the year the first Galveston storm startled the world.

Tourist Pointers Will Be Erected Strategic Points

Three big sign boards, attractively painted in red and white by Glenn Boardman, have been secured by Chairman Homer Wilkinson of the Publicity Department of the Chamber of Commerce and will be erected at strategic points to guide tourists to the new Hereford Camp Site. One will be placed at each end of town where the road enters, and the other at the turn on Third street. The signs will be erected in concrete bases and securely bolted for permanence.

HEREFORD BAND IN CONCERT THURSDAY NIGHT PLEASING

The Hereford Band concert was held Thursday night as planned and was enjoyed by a large and appreciative audience. The concert was held on the south side of the courthouse instead of the north side, as advertised, owing to the fact that electrical connections could not be arranged on the north. However, there was little wind and no inconvenience was caused.

NEW LEGION COMMANDER IN WASHINGTON

Having succeeded the late Col. F. W. Galbraith, Jr., as National Commander of the American Legion, John J. Emery was quick to get on the firing line. This new picture, with Col. Theodore Roosevelt, Jr., on his left, was snapped in Washington, where he is fighting for better legislation for wounded soldiers.

A. C. Elliott is To Teach School The Coming Year

A letter from Davis Elliott, son of Mr. and Mrs. A. C. Elliott, former prominent resident of Hereford, advises that the family have moved from Deming, N. M. to El Paso, for the summer. When schools open in September they will move to Ysleta, Texas, where Mr. Elliott has the superintendency of the city schools for the coming year. Davis has an excellent position with the Western Union which he has held since his graduation from Deming high school in May.

The Elliotts came to Hereford in its early days. Mr. Elliott having been president of the Hereford Christian College for a number of years. Later, he purchased the Hereford Band and was for years its editor and owner. Since leaving Hereford he has held a clerical position with the Santa Fe until the scarcity of teachers last year threw open such an excellent field in the teaching profession that he was impelled to again take up that work.

Here's Big Score For 'Em All to Take a Crack At

That bunch of hawk-eyed Hereford trap sharks set 'em another mark to shoot at on Wednesday of this week. It's a grand total of 121 dead ones out of a possible 125. One man had a perfect score and the other four missed just one bird each.

Report from other clubs were not received Thursday, but it is not believed the local score is in any danger. Here's the champions:

Beene	25
Godwin	24
Rockwell	24
Bennett	24
Herbst	24
Total	121

W. B. PHILLIPS TO BE OPERATED UPON FOR APPENDICITIS

W. B. Phillips, County Commissioner, went to the Hereford Sanitarium Friday where he is being prepared for an operation for appendicitis Saturday. Mr. Phillips has not been well for some time back and is submitting to the operation now in the interests of his general health.

BRUNK'S COMEDIANS LEAVE FOR TULIA THURSDAY MORNING

Brunk's Comedians closed a three days engagement here Wednesday night and departed Thursday for Tulia, where they will play Friday and Saturday during a Legion celebration at that place.

The show left a good impression here. Manager Sadler states that they intend to return in the fall.

Big Farmer Will Be Located Here In Near Future

J. P. Martin, of Aledo, Texas, who recently purchased about 2,000 acres of the McCaskey ranch near old LaPlatta twenty miles northwest, arrived in Hereford Wednesday morning.

Mr. Martin has 400 head of cattle near Carlsbad, N. M., and will move them to Deaf Smith county soon. He has three sons with families who will also move here, and it is his present intention to cultivate about 500 acres and more as time goes on. He is well equipped with mules and farm machinery to farm on a large scale.

Mr. Martin recently disposed of 900 acres in Tarrant county, and intends to concentrate his efforts here. He is now looking for a house for his family, who will arrive here about August 1.

Mr. Martin is an old time cow man; who operated all over Texas in the old days with the Waggoners and Slaughters. He states that he drove cattle through Deaf Smith county as far back as 1876.

MR. AND MRS. H. B. WEBB ON VISIT THEIR TWO SONS

Mr. and Mrs. H. B. Webb will leave Hereford Friday morning for Denver, Colo., where they will visit their two sons, Tom and Edgar. Mr. Webb states that the sons are in business together in Denver.

LOOSIER PURCHASES INTEREST IN STOCKMEN'S CAFE

R. H. Loosier, of Pampa, Texas, has purchased the half interest of R. E. Johnson in the Stockmen's Cafe. Mr. Johnson, who is now in Pampa, owns land near that place and has been harvesting his wheat for some time back.

\$10,000 IS SECURED FOR FARMERS BY POTTS

FARM LOAN ASSOCIATION RECEIVED CASH IN TIME OF NEED

J. Frank Potts, secretary-treasurer of the local Farm Loan Bank Association, announced Thursday the receipt of ten thousand dollars for new farm loans made in the past month.

He also stated that he had received Deeds of Trust sufficient to get ten thousand dollars more by about August 15.

Five new applications for farm loans have just been filed with Mr. Potts. And the thrilling part of it all is that every dollar of this money is spent right here at home in helping relieve the financial stringency. After the men who receive this money have paid their debtors, said debtors proceed to pay their bills, etc., etc., and the first thing you know that ten thousand dollars has multiplied itself many times in easing up the local money market.

Coffee Urn Blows Up; Firemen Put Quietus on Fire

The coffee urn in the Stockmen's Cafe blew up with a terrific lot of fuss and smoke Wednesday afternoon just before the supper hour and for a time it looked like a serious fire might result. But that hustling fire department was on the job before the fire bell had rung the town and that fire never had a fighting chance. The truck shot past the cafe at regulation speed, its Chalmers fanned the hose off at the psychological moment. Chief Rockwell's trained men swarmed over that building like flies, every man with something definite to do.

Quick as the firework was, however, the chemical division grabbed the spotlight and had the fire out before the speedy water-bearers could get a hose on the blaze. For Dubbs Pitman, custodian of the chemical extinguisher, calmly waded through the front door into a black mass of swirling smoke, squirted the dope onto the flaming coffee urn, and stopped the excitement.

It appears that an attendant in the Cafe was refilling the urn with gasoline and inadvertently left the fire going. The gasoline ran over and "p-u-f-f!" the excitement began. The urn was demolished, the immediate walls were scorched, and the ceiling was singed, even under the metal roofing. Only the quick work of Pitman saved a possible blaze upstairs.

That fire department Hereford now boasts is about the piffiest thing in this community.

MISS COFFIN WILL VISIT HERE PRIOR TO SCHOOL TIME

Miss Minnie Dea Coffin is now located at Blum, Texas, with her parents, until September 1. She will spend a week in Hereford before the opening of her music school in Plainview next fall.

EBERLE HELPS IN SUPPLYING AFALFA SEED TO STATE

The Chamber of Commerce wishes to thank Mr. and Mrs. F. J. Eberle for a donation of native-grown alfalfa seed which has been sent to the State Experiment Station at College Station. The seed is to be used in seed experiment work by the Station.

ILLINOIS GIRL SETS A "PERFECT" MARK

Miss Izora May Hankins, of Vienna, Ill., is the "perfect school girl." Starting at the age of six years, she this season graduated from high school at the age of seventeen, never absent nor tardy, and never having had a bad mark against her record. She ranked high in her graduation class.

Irlbeck to Hold Another Big Hog Sale August 16

Ludwig Irlbeck, breeder of Poland China hogs at Happy, Texas, accompanied by County Agent Ware of Swisher county and Dr. G. F. Flaherty, U. S. Hog Cholera expert, spent most of Wednesday in Deaf Smith county. They came up to vaccinate hogs sold in this county by Mr. Irlbeck. There is no cholera here but this vaccination is given merely as a preventative. It is a recognized custom for breeders of registered hogs to immunize their stock for safety's sake.

County Agent Ware says his work is humming in Swisher county. All reports indicate that he is performing an invaluable service to the stockmen, farmers and boys and girls of his territory.

Mr. Irlbeck has announced another big sale of Poland Chinas on August 16. He will sell fifty head of bred sows, five head of good gilts and five head of boars.

MRS. SHARP HAS ENJOYABLE VISIT FROM A BROTHER

Mr. and Mrs. T. R. James and daughter and niece, of Dallas, left Hereford for their home Wednesday. Enroute they will visit in the home of Mrs. James Daley, of Amarillo, a sister of Mrs. James.

Mr. and Mrs. James and party spent several weeks touring the mountain resorts of New Mexico. They arrived in Hereford last Sunday and spent the intervening time fishing on the Jones & Dameron ranch.

Mr. James is a brother of Mrs. Rev. J. R. Sharp.

FINE BIRD DOGS BROUGHT HERE BY CLARK AND H. FOX

J. J. Clark and Homer Fox are preparing to make the Bob White and other feathered game birds take to the hills. They have just purchased a couple of pointer bird dogs from kennels at Mangum, Okla. The pups are three months old and come from the famous Hip Rap strain. Their dam, a three-time field winner, cost \$500.

T. B. Slaughter's Gravel Pit Brings Hidden Evidences Out

Historical events of twenty-one years ago, as discussed in another column of The Brand, seem clouded in antiquity to the minds of the present-day generation, but there's a spot right near Hereford where evidences of prehistoric life are almost daily unearthed that make twenty-one years ago seem but an hour by comparison.

School books teach our children of prehistoric monsters, who could toy with an African elephant and who would crack the pavement on Main street with their weight, were they allowed to return to the scenes of their day and time and to roam around Hereford as they did so many thousands of years ago that the pyramids are modern by comparison.

Men working in the T. B. Slaughter gravel pit near here are finding huge tusks, and monster thigh bones and other components of the frame-works of giant animals that inhabited this section of the earth. Mr. Slaughter gives some hint of the importance of these finds, from a research standpoint, in the letter below. It may be that the attention of scientists learned in this reconstructive historical work will be attracted and more systematic collecting done. Here's Mr. Slaughter's letter:

"Hereford, Texas, July 13, 1921. To the Editor of the Hereford Brand, Hereford, Texas.

Dear Sir: "As the Hereford people know, I have been working a sand and gravel pit for the past three years in the summertime, one-half mile east of the city limits of Hereford, near the Tierra Blanco Creek.

"The different ones that have been working in the sand and gravel have found specimens of the most interesting pre-historic American animals. While I have a great many parts of these animals, one of the most interesting is a thigh bone, which is four feet long. And I would refer you to "Compound of Geology," by Joseph Le Conte, Professor of Geology in California. If any of the teachers of the Hereford Schools are interested they will find a complete outline of these animals that I have mentioned. They are the Mammoth (Elephas Primigenius) and the Mastodon Americanus.

"Just recently T. F. Bishop found almost the complete lower jaw of the former animal, weighing fourteen pounds. The teeth and jaw bone of this animal were all together. J. J. Bodkin and Frank Neill found, this week, the larger part of the tusk of the latter animal. This tusk measures now eighteen inches in circumference and was in all probability twelve feet long and probably weighed 500 pounds. These animals are quoted by authorities as being twice greater in weight than any living elephant today.

"Probably if an automobile had come along and the animal had taken a notion to take it up its tusk, it could have carried it with ease. But, probably 50,000 years have elapsed since this animal made Hereford its home, hence the joy-riders need have no fear.

Yours truly,
T. B. Slaughter."

MR. AND MRS. ARTHUR DAVIS HOME FROM TEXAS TRIP

Mr. and Mrs. Arthur Davis and little daughter, Alberta, arrived home this week from a two months visit with relatives and friends in Central Texas. They come home liking the Plains country better than ever.

At Italy, Texas, Mr. Davis picked up his brother, F. A. Davis, who accompanied the family back to Hereford. Mr. Davis says he has entirely recovered from an operation he had some time ago.

IOWA PARK FOLKS LIKE HEREFORD SO WELL MAY LOCATE

E. F. Neugent and nephew, Wayland Neugent, and Neugent Major, grandson of Mr. and Mrs. G. C. Major, arrived in Hereford Wednesday from Iowa Park. Mr. Neugent is looking up a new location and says he will buy and make his home here as soon as possible.

HUMAN NATURE AND NUMBERS

We regret to observe that the underlying sentiment at the noteworthy national convention of negroes at Detroit recently was a threat.

At best it is hard for two totally opposite races to live on the same soil in harmony. When such a condition exists bitterness and hate, finding outlet in threats, is a direct incentive to trouble. During the Detroit convention a threatening feeling was manifest among the delegates and one of two speakers were even foolish enough to say openly that unless the colored race were granted its full "rights" in America, it might follow that force would be necessary.

Lynching by criminal whites is not to be palliated. But although it is not called lynching, more white people are murdered by white people in America than colored people are murdered by whites. The accumulation of the criminal records of our cities and states will show that the foregoing is true. Consequently, in the matter of the taking of human life, the negro is no more discriminated against than the white man. Both are victims of the assassin to a degree unheard of in any other nation.

But, understand, lynching is not the chief grievance of the colored brother. Talk to him singly or 'en masse and you will soon find that his greatest grievance is, simply, that he is not treated socially by the whites as they treat each other, socially. To threaten force—actually civil war—against a condition that is so human and natural as that is foolish bravado, when you are outnumbered by more than 10 to 1. It is worse than that—it is tactless.

We wonder what would happen if this were a country in which the population were one hundred million negroes and ten million whites, a reversal of present figures.

We don't think the whites would receive much consideration. It isn't in human nature that they should.

THE STAYER

I've studied mankind from sun to sun, an' ravelled 'em all to bits, and I find, the man wuth dependin' on, is the feller that never quits. . . . Most any chap in the common herd can bring a few things to pass, but he's apt to prove an unlucky bird, unless he can show some class. . . . I've watched the boys as they sallied forth, to garner a share of fame, and I've seen 'em collapse, an' come to earth, when trifles would queer their game. . . . There's no reward for the shifty guy that straddles in forty ways, with allers some bran new scheme to try, that promises better days. . . . But the feller that marks his life-course well, an' studies his lessons by heart, will ring as clear as a weddin' bell and win, from the very start. . . . There ain't much room for the soft-nose boy, that juggles with artless wits. . . . But we bust right out into song of joy for the feller that never quits.

For your Uncle John

WHERE YOU GOT THAT AWFUL DREAM

Do you ever give any thought, Mr. and Mrs. Reader, to your subconscious mind? In other words, the other things your brain is working on without your conscious knowledge, while it is at the same time working on those things you know of, that you are fully alive to.

The scientists have developed a whole shelf full of books on this subject during the last ten or fifteen years, mostly as a result of close observation of picked human individuals, great numbers of them. And these observations in all cases have been card-indexed as you would card-index a hundred thousand books in a public library. The result is that a great deal of interesting information has been obtained on sub-consciousness, much of it valuable to the medical man in his task of healing sick mankind.

There are few of us who have not experienced "night-terrors" sometime between babyhood and old age. Night terrors and nightmares are the action

of the subconscious mind, and one of the writers, a Dr. Bowers, informs us that they date back thousands and thousands of years through our ancestors to the days of the "flying lizard" and other giant horrors that devastated early humanity.

Then there is the "gravity fall" as the scientists call it—the dream we have of falling great distances. It is a heritage of the age when our far distant forefathers lived in tree-tops to escape the dreadful animals that preyed upon them. They were always in danger of falling, and always in terror of it, and their danger has descended to us in the sub-conscious mind and only comes forth in dreams.

But when you slip into the pantry and devour the wife's last piece of lemon pie, you can't blame that on the sub-conscious mind!

The thirsty ones who anticipated wetting their whistle with beer prescribed as a medicine have had their hopes blasted by the pros in Congress.

YORK, GREATEST HERO OF WAR, IS IN NEED OF HELP

A national "Help-a-Hero" fund has been started at Evansville, Ind., by Walter A. Edison, conductor of the Chicago and Eastern Illinois railroad, to prevent the foreclosure of a \$12,000 mortgage on the farm of Alvin C. York, "greatest hero of the world war."

He sent \$5 to the office of the Evansville Press and urged that others send money to the newspaper for the same purpose.

"I admire the stand York has taken in refusing to go on the stage," Thomas said. "His attitude has been splendid. He hated war. He was a conscientious objector. He took it to the Lord in prayer and decided that it was best to go. And he made the best soldier in the allied armies. I'll say it's modest when a man, single handed, kills twenty-five Germans, puts out of commission thirty-five machine guns, and cap-

tures 132 prisoners and then calls it 'an act of providence.' "It's up to the people to force enough money on this modest man to pay off his mortgage and that \$250 grocery bill. This has been a hard year for farmers."

For the first time in history, a woman presided over the House of Representatives at Washington, June 20. Miss Alice Robertson, a Republican member from Oklahoma, occupied the chair for about 10 minutes.

CAPITAL AND SURPLUS OVER \$100,000

Why Accident and Health Insurance

One person in seven is killed or injured by accident each year.

One person is killed in an automobile accident every 35 minutes.

For every accidental death there are from 120 to 140 disabling injuries.

One out of every eight deaths is accidental between

the ages of 20 and 60.

Five times as many people are killed and injured as have been killed or injured in any war of the last 200 years.

There are constantly about 3,000,000 persons seriously ill. Approximately 400 out of every 1,000 persons are sick every year.

More Americans died from influenza and pneumonia during the epidemics of 1918, 1919 and 1920 than were killed in the European War.

Fifty-six thousand people were killed during 1919 as a result of automobile accidents—an average of more than 4,000 a month, or more than 1,000 a week.

Always a Satisfying Service.

Strongest in the Panhandle.

A half million members of the Mystic Shrine order of the Masons will give \$2 each annually for the maintenance of a great hospital at St. Louis for the crippled children of all races and creeds. A fund of \$1,100,000 for the erection of the hospital has been voted, the site purchased, and it is planned to start construction this summer.

NOTICE IN PROBATE THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith County, Greeting:
YOU ARE HEREBY COMMANDED to cause to be published once each week for a period of three consecutive weeks before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County a copy of the following notice:

TO ALL PERSONS INTERESTED IN the guardianship of Walter T. Curtis and William D. Curtis, minors, Wm. M. Knight, guardian of the estate of said minors, has filed an account in the County Court of Deaf Smith County, on the 13th day of July, 1921, for final settlement with the minor, Walter T. Curtis, which said account will be heard by said Court on the first day of August, 1921, at the Court House of said County, in Hereford, Texas at which time all persons interested in said guardianship are required to appear and contest account, should they desire to do so.

HEREIN FAIL NOT, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Hereford, Texas, this 13th day of July, 1921.
(SEAL) A. L. BIGGS, Clerk County Court, Deaf Smith County, Texas.

KENT COUNTY BOY HIT BY LIGHTNING

One of the most shocking and deplorable deaths in the history of Kent county occurred Sunday morning, June 26, when Carlos McCombs was instantly killed by a bolt of lightning. Carlos McCombs and Bert Jay were on horseback driving a bunch of cattle several miles west of Clairmont, when a rain cloud and thunder storm came up. A bolt of lightning struck McCombs, killing him and his horse instantly. Bert Jay, who was riding nearby, was shocked severely and injured in that his upper teeth were all shaken out of his mouth and the teeth of his lower jaw all loosened. However, he was not knocked from his horse but upon recovering from the shock found himself astride his horse and back of his saddle. Finding his companion dead from the bolt of lightning, Bert immediately departed for assistance, the body being removed to his home in Clairmont.—Texas Spur.

WELLINGTON YOUTH DROWNED IN LAKE

One of the saddest funerals ever held in Wellington was that of Roy Slough Thursday; who was drowned last Monday night. Roy and several other young men were in swimming in a lake about three miles from White Deer last Monday after supper. He and another young man swam across the lake and started back. When about half way across Roy took the cramps and was helpless and his companion attempted to take him to shore but gave out and had to turn Roy loose in order to save himself. The other young men on the bank tried to reach them, but being poor swimmers were unable to do so. Help was summoned and the body recovered after some little time had elapsed.—Wellington Leader.

CLOVIS FINANCES HIGHWAY TO GRADY

The County Commissioners last week appropriated \$1,000 for immediate use on the Grady road running north from Clovis. This is the main artery to the wheat-raising section of the county and thousands of loads of wheat will come over this road during the next sixty days. It was for this reason that the commissioners appropriated this money for immediate use. This is a state high-

way and already some work has been done with a big program to follow later. This is the first county money that has been appropriated for the road.

D. W. Jones, secretary of the Clovis Chamber of Commerce will have charge of the work of dragging and putting the Grady highway in better shape for wheat haulers.—Clovis News.

Mattress Renovating

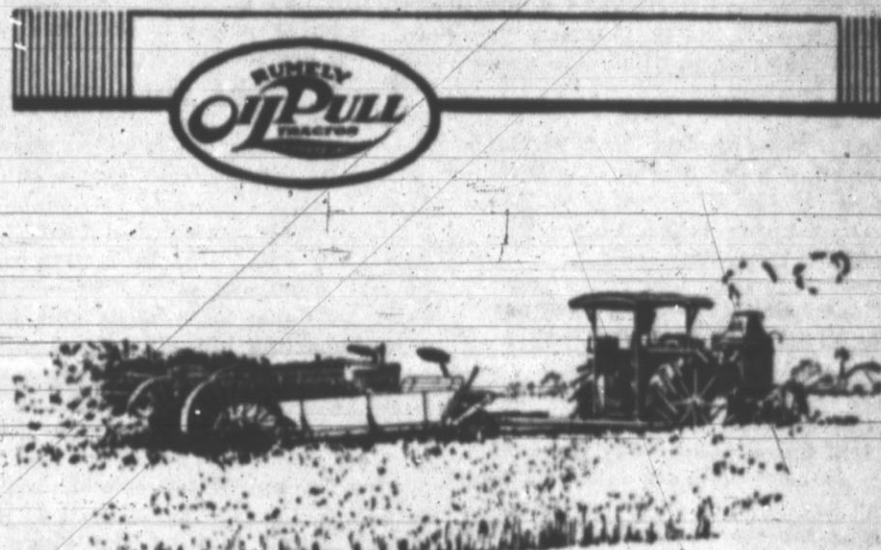

"THE ECONOMICAL WAY"

Old mattresses made new, new mattresses made to order, largest assortment of ticking in the Panhandle. Our trucks cover the entire country—a port card will bring one to your door.

Why not have your mattress made where mattress making is an art. An all cotton mattress made to order, ranging from \$7.50 to \$15.00.

Our ability to make mattresses is proved by our many satisfied customers.

In old Christian Church east of Steam Laundry.
ECONOMY MATTRESS FACTORY

More and Better Crops at Less Expense

To get the maximum crop returns from your land and to do it as cheaply as possible, are the main reasons for buying a tractor. And the tractor that will do the work at the least cost is the tractor you want—provided, of course, that it has strength and durability to give it long life.

The OilPull has proved that it can give dependable service—has proved it ever since the beginning of the tractor industry. Consider that Old Number One and many other old OilPulls have been giving dependable service for many years, and that they are still good for many more seasons of day-in-and-day-out work.

And when it comes to fuel economy the OilPull is again supreme. It will plow an acre of ground at less cost than any other tractor made—bar none.

Proof of this statement is established by the fact that the OilPull won the world's record for fuel economy at the Columbus, Ohio, tests last year. It showed a lower fuel cost than any of the 32 competing tractors, kerosene or gasoline. What the OilPull did at Columbus, it will do for you on your farm. Right now it is producing more crops at less expense for over 20,000 OilPull owners.

It not only will do all your plowing and thrashing but it can be used to your advantage in pulling manure spreaders, mowers, binders; in fact, it will save time and money in nearly every farm operation.

Better drop in next time you are in town. We will be glad to show you what the OilPull can do for you.

CORD TIRES Now Selling at the Lowest Price Level in Tire History

30x3½ - - \$24.50
32x4 - - 46.30
34x4½ - - 54.90
(And Other Sizes in Proportion)

Tire repair men, who judge values best, class these tires as having the sturdiest carcass made. Forty-seven high-grade car manufacturers use them as standard equipment. They are the quality choice of cord users.

\$13.95 for 30x3½ Regular Non-Skid Fabric

This new low price is made possible by strictest economies and specialized production.

Plant No. 2 was erected for the sole purpose of making 30x3½-inch Non-Skid fabric tires. With a daily capacity of 16,000 tires and 20,000 tubes, this plant permits refined production on a quantity basis.

All materials used are the best obtainable. The quality is uniform. It is the best fabric tire ever offered to the car owner at any price.

Progressive Party

A number of teen-age girls enjoyed a succession of pleasant events the first of the week in honor of Miss Mabel McQueen, who is the house guest of Miss Grace Ferguson, and Miss Eva Skelton, who is having this week for a visit in Frost, Texas.

On Monday afternoon, a swimming party ushered in the further festivities of a picnic supper served on the lawn at the Ferguson home followed by a slumber party whose program of varied amusements bore not the slightest resemblance to slumber.

A climax to the series of enjoyable affairs was a daintily appointed eight o'clock breakfast given by Mrs. Ferguson. Half-blown roses gave a pretty decorative touch doubly charming in its suggestiveness of the budding womanhood it honored.

Sharing these pleasures were Misses Frances Wilson, Eva Skelton, Mabel McQueen, Mary McDonald, Maurine Hughes, Kathleen Hawkins, Elizabeth Stegall, Virginia Laird, Eloyse Pitman and Grace Ferguson.

Daniel Bell Celebrates Birthday

The families of A. G. Bell and W. H. Russel participated on Saturday, July ninth, in a festive celebration of the seventh birthday of the oldest son of the Bell home, Daniel Grafton Bell.

An elaborate dinner, whose delicious menu had been planned with special thought for the youthful honoree and which included a beautifully iced birthday cake bearing seventeen candles, was served at twelve o'clock.

The afternoon was spent on the creek fishing and swimming, with a picnic supper as a close to the very enjoyable day.

Christian Women Meet

The women of the Christian Church organized for local work Wednesday afternoon with the following officers: Mrs. Ralph Barnett, president, Mrs. W. H. Russell, first vice president, Mrs. W. H. Glibreath, second vice president, Mrs. Rex Tynes, secretary, Mesdames J. J. Clark and John Miller, assistant secretaries.

The plan of work as outlined will include not only financial aid to the various departments of the church, but other local fields where help is needed as well. A gift of twenty dollars to the sanitarium to assist in securing bedside tables was made Wednesday.

The organization will hold its regular monthly social with Mrs. John Miller on Wednesday, and Thursday evening an ice cream social will be given on the Courthouse lawn.

Mothers' Club

That popular form of summertime social, the picnic, achieved the zenith of perfection Tuesday evening, when the Mothers' Club entertained their families and a number of friends at Mothers' Park.

Both the evening and the environment were ideal and the delicious supper spread on the soft grass at dusk, was in keeping with the delightful occasion.

Lights were hung in the park, precluding a not far distant day when the park will be permanently lighted. The city has generously offered to furnish the current if the club installs the lights and arrangements to that end are being made.

A number of new members have recently been initiated into this service-giving club. Among them are Mesdames John Miller and J. J. Clark.

Picnic Party

Miss Dene Dunlap, who spent the week-end with homefolks, and her friend, Miss Mary Bell Reeves, of Sherman, were honor guests of a delightful picnic excursion to the Jones and Dameron ranch Saturday evening.

The jolly company of pleasure seekers gathered at the home of Miss Lura Gregg and motored to the home of Mr. and Mrs. W. E. Dameron and later to an idyllic spot on the borders of the nearby creek where they enjoyed a delicious supper eaten under the rainbow-tinted skies of late sunset.

The hospitality of the Dameron home afforded a pleasant hour following the supper and the moonlit journey back to town was an added pleasure.

The company was made up of Misses Grace Skelton, Dene Dunlap, Mary Bell Reeves, Victoria Wilson, Hazel McQueen, Marjorie Dameron, Lura Gregg; Messrs. Gano Hastings, Eddie Shore, George V. Sambaugh, Ferd Johnson, Mack Pitman, Otis Cobb, Finis Owens.

Society Personals

Little Miss Maybelle Witherspoon is leaving today for a several week's visit with relatives in Amarillo.

Mrs. C. S. Garrison has as her house guests this week her niece and nephew, France and Lyman Hall, of Amarillo.

Miss Mozelle Hill is spending the week with Miss Lucille Glibreath at the Glibreath ranch.

FISHING PARTY ON TOUR OF RESORTS THRU NEW MEXICO

D. F. Ashbrook, T. K. Wilson, W. F. West and Bob Brazil left Hereford Wednesday for a fishing and camping trip of about ten days. While away they expect to visit the New Mexico cities of Santa Fe, Las Vegas and Santa Rosa.

BAPTIST PREACHER NICELY IMMERSSED

As both chose to do the same thing at the same time without either having a knowledge of the other's plans, the Methodists and Baptists decided that the bigger the picnic the more fun would be possible, so they agreed to go together and hold one Fourth of July picnic.

The place decided upon was on Skillet creek, in the Rowe pasture, a beautiful place, well shaded by a grove.

Several hundred people were there, and everybody got a square meal when the basket dinner was spread at noon, for the housewives did their best everything in the way of toothsome vittles they could devise.

It turned out, however, that the basket dinner was not the main feature of the day's entertainment, as was announced in last week's News. The entertainment committee was not responsible, and the stunt had no place on the tentative program that had been arranged previously.

Rev. A. F. Agee, pastor of the First Baptist church, had a mighty good time. He became a boy again, and the grown-up girls became as little children to him. He didn't pull their pig-tails, for they have quit wearing their hair that way. But he did tantalize them in numerous ways, dropping pieces of ice down their backs and otherwise disporting himself rather boisterously. But the big little girls were wiser than they used to be, and so conspired against him. When the preacher wasn't looking, and was least expecting the unexpected, two of the girls, both rather overgrown as well as over-strong, seized him by the ying-yang, threw him to the ground, caught him by the heels, and drug him on his stomach, into the shallow waters of the creek, soaking him thoroughly, and, according to those who were there, convincing him that it was better to be a good little boy.—McLean News.

An epidemic of mad dogs at Blue Ridge, Texas, caused eighty-one citizens to go to Austin where they received treatment.

MEMPHIS TOURING CAR IS WRECKED

Three young men had a very narrow escape from death Monday afternoon when the heavy touring car in which they were speeding on the highway north of this city turned completely over twice and was almost completely demolished.

The car, a heavy seven-passenger Jeffery, was being driven by a young man named Anderson, an employee at the Owens & Hardy Garage. With him in the car was Kyle Bromley and Ernest Melugin.

The car was being driven at a high rate of speed on the highway a mile north of Memphis when the accident occurred. Anderson swerved to the side of the road to pass a car and in attempting to turn back to the middle of the road the car got out of control and turned completely over twice.

Anderson's collar bone was broken and he and the other two young men were painfully bruised and shaken up. The car was so badly wrecked as to be hardly worth salvaging.—Hill County Herald.

United States Department of Agriculture, Bureau of Markets and Crop Estimates, Houston, Texas, July 9, 1921.

TEXAS CROP CONDITIONS
(The following figures are representative of conditions as of July 1st, 1921.)
(By E. M. Johnson, Agricultural Statistician.)

CORN
Texas has the largest acreage in corn this year that has ever been planted. This is due largely to the material reduction in the cotton acreage, much of the land usually given over to cotton having been planted to this crop. The increase over last year's planted acreage is 14 percent making 7,638,000 acres standing at this time. Though the early spring was not wholly favorable and the freeze of April injured the stand yet a good recovery has been made and the present condition of the crop is 86 percent of normal indicative of a yield of 21.5 bushels per acre and a production of 164,217,000 bushels.

crop, remaining on the farms at this date is 5 percent or 477,750 bushels. The movement for export throughout the last year has been heavy and has left little old wheat in the state.

OATS
Oats show an improvement of 4 percent over last month with a condition of 60 percent of normal. This forecasts an average yield of 23.1 bushels per acre and a production of 43,650,000 bushels for the state based on the planted acreage of 1,890,000 acres.

Correction

In last issue The Brand inadvertently said that Mrs. Mayes Miller had been discharged from the Sanitarium after an appendicitis operation. The item should have read Dr. Florence Miller instead.

President Harding received visitors in his shirt sleeves recently. The weather was extremely hot and sultry.

A farmer in Ellis county raised seven bales of cotton in 1920. The combination on selling the cotton, plus insurance, picking, freight and other charges incident to getting the cotton to Houston, amounted to \$39.68. The gross receipts on the cotton were \$92.40, making a net return to the owner of \$52.72.

Baskin, owner. 29-4f

FOR SALE—Haynes Car, in first class shape. Would trade for smaller car. 34-4f Jno. B. Davis.

GUY SMITH, WITH HIS FAMILY, IS EXPECTED SATURDAY

Guy Smith and family, who have been visiting relatives and friends in Tennessee and other states, are expected in Hereford Saturday, according to information received by W. T. Smith.

A member of the family back in Tennessee has sent The Brand the following story of Guy's adventures of late:

"On June the 5th Mr. Guy Smith and family of Hereford, Texas, arrived at A. J. Smith's, Huntingdon, Tenn., an uncle of Guy's. They claim to have had a fine trip coming here in his Henry. On several occasions the family connection had meals together. On the Fourth of July there were between 45 and 50 people met near the J. S. Smith place and had lemonade and dollar pitching. Guy Smith and J. S. Smith were champions. On Wednesday, July 6, another crowd gathered at the same place, lemonade was served, and dollar pitching was the pastime again. Mrs. D. W. Smith carried supper and the Smith's all ate supper on J. S. Smith's back porch, in picnic style, all in honor of Guy Smith and family.

"On July 7 Guy and family started on the way home in Old Henry. They intended to stop and spend a few days in Cabool, Mo., with Mr. Grant Womble and family. Guy said he had a fine time eating Tennessee squirrels and fish and that his appetite was so good he could eat eight or ten biscuits at a meal. And his wife ate cornbread until her feet got sore. That is a sign she got fondered, I guess.

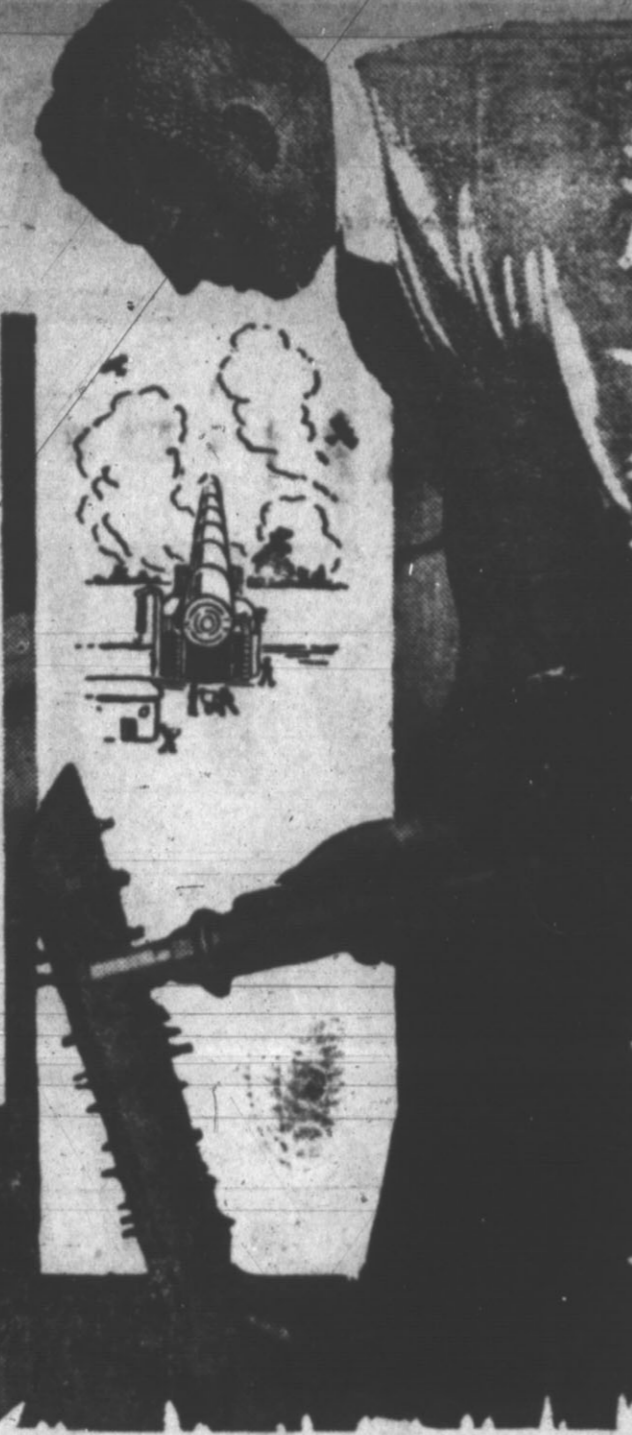

A Friend."

TRUCK TIRE BLOWS OUT; MAN KILLED

John Wilson, of Odessa, was killed instantly Tuesday of this week when an auto truck tire exploded and a rim struck him. His brother, Jim Wilson, of Plainview, was notified immediately and he and daughters left to attend the funeral services.—Plainview Herald.

GUN TO SHOOT FIVE TON SHELLS 300 MILES

The German's "Big Bertha" gun which dropped shells on Paris at a distance of seventy miles, fades into insignificance before the new American gun, which will shoot gas bombs or shells weighing five tons a distance of 300 miles. Such a gun has not been built as yet, but in a miniature demonstration before noted American inventors in the tower of the great Woolworth Building at New York the other day this little gun shot steel bullets through a three-quarter inch steel plate, as shown in the picture. Experts declare the big gun practical. It is smokeless and almost noiseless—the only sound coming with the impact of the bullet against the steel. The same principle is to be followed in riveting machines for ship construction.

CASTRO COUNTY

DIMMITT
 Miss Billy McMullen, of Dallas, was called to Dimmitt this week to nurse her sister, Mrs. Preston Florence, who is seriously ill. Miss McMullen is a graduate nurse from Hotel-due, of El Paso.

Mrs. C. E. McLean and daughter, Alice, returned Friday from a week's visit with Mrs. C. Dickson, near Friona.

Misses Ola and Sallie Maline Brashers spent the week-end with Gladys and Leona Hastings.

Cleve Tate made a business trip to Hereford Monday.

Mrs. Harrel, of Abernathy, is visiting her sister, Mrs. B. D. Woodlee, this week.

Mrs. A. J. Williams, of Mineral Wells, is the guest of Dr. and Mrs. Mayes Miller this week. Mrs. Miller lived in the home of Mrs. Williams three years before coming to Dimmitt. Mrs. Williams has a host of friends here that she expects to visit.

Mr. and Mrs. Walter London, who live near Hereford, spent Sunday with Mr. and Mrs. Baxter Easter.

Mr. and Mrs. Conaway, of Black, spent Sunday with Mr. and Mrs. Ralph Patton.

Mr. and Mrs. Joe Birkenfeld, of

Nazareth are the proud parents of twins, both girls.

Val Acker left Sunday for Amarillo, where he expects to make his home.

Mrs. Edwin Ramey has been ill this week, but is now improving. We are glad to state.

Beekeepers' Short Course

College Station, Texas, July 9.—The Beekeepers' Short Course given annually by the Texas Honey Producers' Association in connection with the Farmers' Short Course at the A. & M. College of Texas will begin Thursday, July 29, and continue for three days. Professor S. W. Bilsing, entomologist of the College who has been appointed manager of the three-day meeting, has announced that there has never been available so many prominent men to act as speakers at the annual beekeepers' meeting.

Members of the college faculty, Extension Service and Experiment Station staff will take part in the program and a number of men of this and other states prominent in the work of beekeeping and honey production are on the program.

The wheat crop of Floyd county, Texas, is estimated at 2,000,000 bushels.

A San Antonio man, in an effort to charm a rattlesnake, was bitten and died a few hours later.

CLARENDON DRILLER KILLED WHEN MACHINE CRUMPLES

O. O. Dick, contractor and driller at the Bugbee test well north of this city, died Tuesday afternoon at the Adair hospital from injuries sustained Saturday morning when the machinery collapsed, and the cable to which a heavy wrench was attached struck deceased throwing him some twenty-five feet from the ground. The body was prepared and shipped Tuesday evening to Aradla, Indiana, the former home of the deceased. Deceased was forty-three years of age.

The sad accident occurred when the brake on the machine to which was attached the heavy tools in the well broke and a heavy wheel was hurled to the top of the derrick by the cable. Horace Tucker was with the deceased at the time, and each jumped to get from under the derrick; the deceased was first to leap out at the door and was caught by the wrench cable, the heavy iron striking him in the pit of the stomach, and was hurled several feet into the air. He fell on a rock pile and suffered serious bruises. He was hurried to the Adair hospital, where he underwent an operation Tuesday afternoon, but his condition was too serious for recovery, and he died at 5:15 o'clock.

In the crash, which wrecked the derrick, Mr. Tucker was fortunately not injured. A son of the deceased was also here. Deceased is survived by two sons and two daughters, all of whom live at Aradla, Indiana, except the son who was here.—Clarendon News.

More than 200 railroads are affected by a recent decision of the Railroad Board in its order for a reduction of wages of employees.
