

The Hereford Brand

TUESDAYS—TWICE A WEEK—FRIDAYS

22nd YEAR, NO. 15

HEREFORD, DEAF SMITH COUNTY, TEXAS, TUESDAY, MARCH 14, 1922

MASS MEETING CALLED MARCH 27TH

TO SELECT TICKET FOR SCHOOL ELECTION ON APRIL 1

FOUR TO SELECT

Present Board Faced Many Problems in Work Past Term

An election in the Hereford Independent School District, for the purpose of naming four school trustees to serve for the ensuing term, is to be held here on the first Saturday in April.

The present Board of Trustees consists of: G. A. F. Parker, president; A. O. Thompson, Mrs. E. W. Harrison, Mrs. B. F. Guthrie, Al Miller, F. H. Oberthier and Jas. A. Hughes. The two ladies and A. O. Thompson have another term yet to serve. Messrs. Parker, Miller, Oberthier and Hughes are the four whose terms expire this year.

According to custom the board, at its last meeting, decided to call a mass meeting of the voters in the district on March 27, at 4:00 p. m., at the Courthouse, where the school question is to be threshed out and a committee appointed to select four names to go on the official ballot. Notices about the coming election have been posted about the city in accordance with law.

The Brand has heard very little comment about the personnel of the present board, and does not know what the feeling of the people is regarding the coming election, but has an idea that the bulk of the people are well satisfied with the make-up of the present board. It has been an unusually hard and trying term, with many financial and other vexing problems to face and the solution of all these difficulties seems to have been worked out nicely and fairly by the present incumbents. It is a fact that the school problems the past year have been handled in a way to cause practically no criticism at all. It is poor policy to swap horses of tried mettle in mid-stream and The Brand has an idea that the people will be glad to hand the job back to the present board, if they will accept the assignment.

E. B. Black's Sister is Dead at Home, Blum, Tex.

Mrs. J. M. Coffin of Blum, Texas, sister of E. B. Black of Hereford, and mother of Miss Minnie Dea Coffin, now of Plainview, died very suddenly at her home on Monday of this week. Mr. and Mrs. Black started at once for Canyon, overland, where they caught the southbound Santa Fe for Blum. Miss Coffin joined them at Plainview. Besides her husband, it is understood that Mrs. Coffin leaves three daughters and two sons to mourn her loss.

"DOC" BUTLER IS A FULL-FLEDGED EDITOR-IN-CHIEF

Charles J. Butler, better known locally as "Doc" Butler, tree surgeon, who left Hereford in October, is now a student at The Lansing Business University, East Lansing, Michigan. Mr. Butler has been made the managing editor of the school paper, known as the "Forum," and send The Brand a copy of his first number, an attractive and "peppy" little sheet full of good and modern ideas.

GOOD MORNING, BOYS
The greatest thing in the world we get for nothing if we want it—education—but half of us don't know where to look for it. We have an idea it is locked up in the little red schoolhouse or the palatial university just as if education was book learning instead of development of the mind and heart and the knowing of useful things and the expansion of our best qualities. Education doesn't begin until schooling ends. It is then we meet the real teachers—other men and women, the birds, the flowers, the soul of books, the great expanse. Soon—before we go to work we'll pick up our "talkers" and say to the people over in India "Good morning, boys. How are you fellows getting along over there?" and then we'll learn. The invisible school house has just opened.

Soak the Grape Vines Now, Say The Old Timers

There is one fruit in this country that never freezes out, according to the "old timers," and that always makes some kind of a crop, no matter how late the season, and that is the grape. Very few people thoroughly understand how to handle grapes but there are several successful growers in Hereford who never fail to produce an annual crop, among them being H. B. Webb, George Beams, J. A. Buckner and Judge W. M. Megert.

Judge Megert says that there are three buds on the grape and that if the first two freeze out or are lost the third will make a small crop anyhow. The first bud makes the largest crop, the second the next best, and the third the smallest of all, hence the desirability of saving the first one if possible. He advises that the vines should be thoroughly soaked now and kept moist until the grapes show the slightest tinge of coloring, when the water should be shut off and the grapes allowed to cure. If water is kept on the vines after the grapes begin to turn the flavor will be lost. A thorough soaking now will aid in saving the first bud.

Grapes are being grown in increasing quantities in this country every year and any information that the amateur can accumulate from the "old timers" in the industry is always eagerly seized upon.

Harman to Drive Across Country To West Virginia

S. L. Harman and family are planning to leave Hereford Thursday in their car and drive across country to Richwood, West Virginia. Mr. Harman's former home and where he has extensive business interests. Mr. Harman has leased his dairy and home place here for the year 1922, but plans to wind up his affairs in West Virginia if possible and return here permanently.

THE FARM

The farm hath laid the steel-rib bands For freight and passage toll, Where thundering engines tread the rail And tons of commerce roll. It sends on roaring pinions high The Bi-plane through the air, It feeds the miner in tunnels deep In search of treasures rare. It grades and paves the great highway Where purring motors speed, And the blessings of the farm We must forever heed. It feeds the mills and factories With every earthly need, And keeps the world a moving in harvest time and seed. We're building cities great Where lures the phantom charm, But the life of this Republic Is embedded in the farm. We boast our fleet of ships That sail the ocean wide, The FARM is the solid rock On which we must abide. We proudly speak of Harvard And the mighty men of Yale, But these would come to naught If the farm should ever fail. We admire the Alpine peaks White with eternal snow, But the farm is the fertile field Where the human race must grow. Man has builded many things With many a magic charm, We admire his handiwork, But Jehovah made the farm. —L. Gough.

REV. SHARP GOES TO CALL MEETING THIS PRESBYTERY

The Rev. J. R. Sharp, of the Presbyterian church went to Canyon Tuesday to attend a called meeting of the Amarillo Presbytery, of which he is Stated Clerk and Treasurer. Among other business matters on the docket is the matter of changing the date for the regular meeting of the Presbytery.

WEEKLY LUNCHEON POSTPONED UNTIL MONDAY, THE 20TH

Owing to inclement weather and other causes the regular weekly luncheon of the Chamber of Commerce Monday was postponed one week. The meeting will be held at the Stockmen's Cafe on Monday, March 20.

Slow Rain, Amounting to Half Inch Here, Following Snow, Causes Smiles to Chase Gloom

Beginning shortly after dusk Sunday night, accompanied by a brisk breeze, a slow rain began falling over the Panhandle and continued most of the time into Monday night. The local gauge at the First National bank showed only a half inch total in the city. But the drizzle, following on the heels of the recent wet snow, soaked thoroughly into the ground and undoubtedly did a tremendous amount of good. As usual, the rain was heavier in some spots than in others and a general average was hard to arrive at. As a general thing the heaviest precipitation started around Amarillo and got lighter as it came west. The reports from all over the country show the rain to have been very well spread out and of a general nature.

As one business man put it Tuesday: "The combination snow-rain of the past week will undoubtedly clear up a lot of uncertainty and doubt about crop prospects and the people can now 'carry on' cheerfully and with confidence in the future. It was simply great for the vast majority of the farmers; folks ought to smile now and go to it with a vim."

The rain report in The Amarillo News for Tuesday gives a comprehensive idea of the scope of the rainfall, as follows:

"The total precipitation here up to 7 o'clock in the evening Monday was 2.74 inches, and this was augmented by showers a little later, and to this was

added the rain in the early evening. The rain began falling early Sunday evening and continued all night, letting up about 8 o'clock in the forenoon Monday."

"Reports from the railroad offices in Amarillo gave out the following: 'Santa Fe: From Clovis through Texas to Wagon, Okla., the rain ranged from less than a half-inch at the first named station to two and one-half inches beyond Amarillo to the point last referred to. On the Shattuck branch, including the stations of Darousette, Follet, Booker, Perryton and Spearman an average of an inch was reported. On the Slaton division south from Canyon, the rainfall was: Happy, 2 inches; Tulsa, 1 1/2 inches; Kress, 1 inch; Plainview, 1 1/2 inches; Lockney, 2 1/2 inches; Hale Center, 1 1/2 inches; Abernathy, 1 1/2 inches; Lubbock, light showers; Floydada, one-tenth of an inch. From Slaton to Sweetwater, 1-2 to 1 inch. There was no rain reported from Crosbyton, but from that branch, it is stated that the rain approximated one-half inch. On the Lamesa branch the rain ranged from one-half to one inch. From Lubbock to Seagraves the same measurements were reported, while on the line connecting Lubbock and Farwell the precipitation was from three-fourths of an inch at Sudan to one-eighth of an inch at Muleshoe."

"Fort Worth and Denver: Rain declared to be heavy fell from Texline to Dalhart and from Dalhart to Hartley, and Channing not so ample. From Tascosa to Clarendon the rain increased, at the latter point gauging somewhat more than two inches."

"Rock Island: Beginning at Wildorado the stations reported rains ranging from two to three inches at McLean, and getting but little lighter at Sayre, Okla. Fairly good showers fell at Vega but the precipitation was lighter at points farther west."

\$12,600 In Loans Are Allowed in Last Thirty Days

Secretary J. Frank Potts of the local National Farm Loan Bank Association, stated Tuesday that a total of \$55,900 had been received in applications during the last thirty days, and that of this amount \$12,600 had already been approved.

NORTH-SOUTH HIGHWAY OFFICIAL IS CAMPING ON JOB

Hereford's new north and south road, the Texas-New Mexico Highway, is being actively pushed to completion in preparation for the summer's traffic by Secretary Warren of Logan, N. M., elected at the recent convention at that point.

The Hereford Chamber of Commerce is in receipt of advice from the secretary regarding sign posting, condition of the road, etc., which shows a determination to get the route in shape at once.

MR. ASHBROOK IS STANDING STRAIN OF TROUBLE WELL

Rev. M. M. Beavers returned Tuesday from Spickard, Mo., where he went with D. F. Ashbrook and the body of Mrs. Ashbrook, which was buried at that place.

Rev. Beavers states that Mr. Ashbrook, who was very ill when he left here, stood the trip very well. He is not expected back home for several days.

MRS. HAL HAWKINS SISTER OPERATED ON AT AMARILLO

Mrs. H. H. Hawkins went to Amarillo Sunday to be with her sister, Mrs. F. M. Davidson of Panhandle, Texas, who underwent an operation at that point last Thursday. The patient being better, Mrs. Hawkins returned home Tuesday.

SCHOOL FAIR COMMITTEE BUSY WITH NUMEROUS PLANS

Work of the committee assisting Judge Megert and Miss Griffith in preparation for the coming School Fair, April 7-8, is progressing nicely. Frames for booths to exhibit the students' offerings in the basement of the courthouse are being constructed, and other details worked out.

Murphy's Limb Has Three Bad Fractures

Pictures of the left leg of Lee Murphy were made by the Hereford X-Ray Laboratory this week that show a frightful condition of the bones of that member, and will probably result in the breaking of the leg in three places and a delicate operation of re-setting.

Mr. Murphy, a brother of Albert, Ernest and Jack Murphy, sustained the injury last November in an accident in the breaks near Kenton, Okla. The team he was driving became frightened and ran away. Mr. Murphy being thrown from the wagon. He lay on the prairie for days without aid and crawled quite a distance before being found. Further delays occurred before he received medical attention at Clayton, N. M., and his limb was in horrible condition at that time. He was brought here February 20 to the home of his brother, Albert.

The X-Ray pictures show the bone between the thigh and knee of his leg to have been cleanly snapped in two, then the end of the top break slipped down the side of the lower piece about four inches, which it now adheres. Below the knee two complete fractures are shown. It will take a major operation to put the bones in place again, and it is not now known whether the work will be attempted here.

Father of McLean Boys Dies After Hurry Operation

A. W. McLean of Clarendon, father of John and Bobo McLean of Hereford, died at Amarillo about six o'clock Tuesday morning, following an emergency operation. The body was taken to the home at Clarendon Tuesday, where burial will probably occur Wednesday.

Mr. and Mrs. John McLean and Bobo McLean left overland for Clarendon Sunday upon receipt of the news of the serious condition of the sufferer, but turned back to Amarillo after reaching Claude, where they were informed that Mr. McLean was being rushed to Amarillo for the operation. Mrs. Bobo McLean went to Amarillo by train Monday and joined the others at the bedside of the sick man.

Mr. McLean was the mayor of Clarendon and one of the oldest residents and most highly respected citizens of Donley county. He leaves a large family of children and grand children.

STOCKING'S BROTHER CLIMBS LADDER HIS PROFESSION

George W. Stocking, a brother of Roy Stocking of Hereford, has just advised his relatives that he has been named as an assistant professor of economics at the University of Pennsylvania for next year. He is at present a student at Columbia University, New York.

As a student, George Stocking has achieved a splendid record. He graduated at Clarendon High School with the highest honors of his class. At Clarendon College he again took first honors at graduation, and shortly afterwards on competitive examination received a Civil Service appointment as teacher in the Philippines. While there he became a Supervisor of Education in the Mountain Provinces. After two year's experience abroad he returned and graduated at the University of Texas, receiving an A. B. degree. After the war he entered Columbia University of New York City and last June was awarded the degree of M. A., at the same time winning the Garth Fellowship that is the highest endowed Fellowship that Columbia offers. He will receive his Ph. D. sometime this summer and will take up his duties at Philadelphia next fall. This will be his first position as a college professor.

BLACK LOCUST IS GOOD HARDY TREE SAYS MR. HUNTER

The Brand acknowledges receipt of a package of Black Locust tree seeds from T. M. Hunter of Emporia, Kansas, a former resident of this community. Mr. Hunter says the seeds should be planted an inch deep in a shallow trench; two seeds every fifteen inches, and covered with a light mulch. "These trees are hardy," says Mr. Hunter, "and any ordinary drouth has no effect on them, as they root deep."

LEE CONKLIN NOW IN PRODUCE WORK AMARILLO CONCERN

Mr. and Mrs. Lee Conklin and two children left Hereford for Amarillo Monday morning. Mr. Conklin will engage in the produce business, acting as buyer for the Siefert Produce Co.

GUARD BOYS UNKIPER UP BY OFFICERS

THREE HIGH RANK MEN LOOK AT PROPERTY AND PERSONNEL

THE RIFLE RANGE

Possible Grounds Are Inspected. Boys Want To Shoot

The local camp of the National Guard was all snug Tuesday over the arrival here on the morning train of three high ranking officers on an inspection trip. The three are Major W. L. Culberson of Wichita Falls, Major C. A. Adams and Captain S. M. Hankins, of Quanah. The three officers were extremely busy all day with their various duties. Inspection of equipment at the armory was set for 3:00 p. m. Tuesday afternoon, and the men themselves were billed for a looking over at 7:30 in the evening.

Major Adams, it is understood, has in charge the matter of a rifle range here for the boys and spent the day looking over sites and perfecting plans for the establishment of a range second to none in the state.

The local company under Captain Morris is in splendid condition and is maintaining a high degree of discipline and esprit de corps. The men are much interested in the outcome of the range question and eager to get down to some real target practice.

Lutherans Plan To Call Pastor In Near Future

The Lutheran congregation will hold services in the county court room Sunday morning. Rev. O. P. Hings, of Canyon, will be present to conduct the service and to confirm a class of catechumens. Those to be confirmed are: Reinhold Frye, Arthur Tiefert, Ann and Clara Wedel, Helen and Ellmore Tiefert, and Ester Schuette. This is the largest number of catechumens that has been confirmed at one time in the history of the local congregation. The public has been invited to attend this service.

Word has also been received by the Lutherans of Hereford that the Board of Missions of Texas has extended a call to Rev. L. Temme of Wallis, Texas, to become their pastor. It is hoped that Rev. Temme will accept this call, as a resident pastor would be a great asset to the local congregation.

LESTER WILKINSON TRAVELING SALESMAN AT AMARILLO

Lester Wilkinson, the first of the month, accepted a position as traveling salesman for the J. A. Folger Co., Mr. and Mrs. Wilkinson will make their home at Amarillo.

NO TELLIN' WHAT
When a feller gets sick as we sometimes do, the sun don't shine, nor the sky ain't blue. . . . But the wind turns cold, an' the clouds look black, when we shift from feet to the flat of our back, An' we hurl bad words at our blasted luck, till the Doc comes in with his pizen truck, an' he looks us over, inside an' out, to find if it's fever, chills, or gont. It might be measles, or mumps, or pip,—it could be flu, or the doggone grippie,—we may have fits, or it may be faints, or more than like. It's a dozen complaints. So, the Doc bombards 'em, with shot an' shell, till fust thing, we know we're around an' well!
It's about that way with our human life, which largely consists of man and wife. There's a heap depends on the kids we raise, whether flesh an' blood, or dark-blue days. And there's lots depends on the heights we vault,—if we land on thorns, it's all our fault, or, maybe we land in a bed of rose,—it all depends on the seed folks sows. The Doc's called in, when the fever's high, but when we cool off, he salls on by,—but tomorrow is due, with the freight it brings, whether better or wuss, it's our'n by Jings! An' when I reflect on the human mess, I'm bound to conclude, it's a game of guess.
Uncle John.

POLITICAL ANNOUNCEMENTS

The following candidates authorize us to announce them for the office under which they are listed, subject to the action of the Democratic Primary:

For County Judge:

W. M. Mogert

For Sheriff and Tax Collector:

Omer Baker

C. R. Smith

C. S. Purcell

For Tax Assessor:

W. W. Bennett

Ira Ricketts

J. H. Daniel

Albert Murphy

For District and County Clerk:

A. L. (Lee) Biggs

For County Treasurer:

J. J. (or Uncle Joe) Ward

PEOPLE NOT POLITICAL HUCKSTERS

Representative Thomas S. Williams of Illinois chose a poor form of attack when he assailed Will H. Hays because the newly retired Postmaster General did not go through the Post Office department with a political broom and sweep from office every man who could not exhibit the party tag.

"When the Democratic party came into power in 1913," said Williams, "every Republican postmaster and official was kicked out and a good Democrat put in his place. The people approved that. It was the natural and proper thing to do."

Mr. Williams assumes much when he speaks the voice of the American people. The American people are tired of the spoils system. What they want in the Post Office is efficiency in the delivery of mail, not efficiency in the delivery of the vote. The Williams conception of the Post Office department—the largest business in the world—may be that of a political huckster, but he needs a pair of binoculars to visualize the heart of the American people.

WHAT SHIPS MEAN TO FARMERS

What ships mean to country America is demonstrated in the movement of American grain into the interior of Russia. Don Livingston, Commissioner of Agriculture of South Dakota and a member of the purchasing committee for Russian Relief of the American Relief Association, reports that the first two steamers that sailed from Baltimore, Md., carrying approximately 500,000 bushels of corn have arrived at Novorossiisk. Four hundred cars were assembled at the port to rush the grain to the interior in an effort to save the children from starvation.

Since the first of the year thirty steamers have left for Russia bearing relief corn—in round figures 5,700,000 bushels, in addition to 1,464,750 bushels of wheat. The ships have cleared from New York, Baltimore, New Orleans, Philadelphia and Boston. In days of

THE HEREFORD BRAND Education

old when partisans were held the suggestion of government aid for American shipping was regarded in the light of coming to see that American ships mean the expansion of American trade and that a merchant marine is an import to the farmer who has never seen a ship. It is in that of the present on the basis of allotment by President passenger liners will be great favor while slow freight vessels will not be aided materially. This is something the farm bloc may be relied on to investigate. Ships mean increased agricultural activity and agricultural activity means increased prosperity for all the people. Undoubtedly there would be still a greater driving force behind the development of an American merchant marine had Chairman Lasker carried out his program of education instead of confining it to the glittering generalities that have characterized his talks at banquets to advertising men.

HOW THE SUIT DOLLAR IS DIVIDED
Presumably the American Wool Company will not send a vote of thanks to C. J. Fawcett, director of the wool marketing department of The American Farm Bureau Federation for his disclosures regarding the travels of the suit buyer's dollar. It appears that on a suit of clothes which retails at \$40 the wool grower's share is 4.9 cents. Also a few other fallacies are exploded as for example the statement that domestic wool is not suited to the manufacture of the better grades of men's wear. There is no better wool in the world than American wool. The injection of cotton and shoddy into fabrics has swelled the coffers of manufacturers who in addition have offered as an excuse for inferiority the poor quality of domestic wool. As the situation stands the wool growers get but a small share of the money and for their product condemnation instead of praise.

SMILE!!!
Present. Change that long face and put on one of those broad smiles that will prove one of the greatest assets to your business that you could possibly possess. Kitchergrochindandsmille! Nowlaughwilllyer?—Lubbock Avalanche.

ALBERT MURPHY IS OUT FOR ASSESSOR
The Brand is authorized to present the name of Albert Murphy to the voters of Deaf Smith county as a candidate for the office of Tax Assessor, subject to the action of the Democratic primaries next July.

Mr. Murphy has been a resident of this county so long and is so well known to everyone that it seems a detailed history is unnecessary. Mr. Murphy asks the careful consideration of his fitness for the office and will greatly appreciate the support and good will of all.

Mutton is excellent. A sheep is a small animal and one may be slaughtered for family use without waste even in warm weather. Sheep ought to be raised for fresh meat, if not for wool and for breeding stock.

Colorado's 1921 Pinto bean crop came in several weeks ahead of usual maturity due to early planting and favorable weather. There is no carry-over from 1920.

It takes considerable skill to transplant so the plants will live, grow off and develop. This is where practice is needed.

B. FRANK BUIE, LAWYER
Office in Court House, Hereford, Texas.
Will practice in the Civil Courts, Special attention to examining abstracts of Texas land titles, representing Executors, Administrators and Guardians. Patronage solicited.

Hereford Light & Power Company
"Your Electrical Servants"

Some of the early effects of the French revolution on styles of men's and women's clothes and manner of wearing the hair in America were, short hair took the place of powdered hair of wigs; loose trousers supplanted tight knee breeches; dark or black cloth instead of gayer colors for men's wear.

No Fancy Frills
The question is not whether such or such knowledge is of worth, but what is its relative worth? Any subject at all that student might pursue is perhaps of some worth to him some time in life, but the question is, is it of enough importance as to life living and life-work to justify the time it requires to learn it. A measure of value is first in importance. We are always asking, "Of what use is it?"
To prepare us for complete living is the function of education.
Classified in order of importance are the leading kinds of activity which constitute human life: (1) Those activities which minister directly to self-preservation; (2) Those activities which aid in securing the necessities of life, or ministering indirectly to self-preservation; (3) Those activities which aid in rearing and disciplining of offspring; (4) Those activities which aid in the maintenance of proper social and political relations; (5) Those miscellaneous activities which make up the leisure part of our lives.
In each one of these activities, Spencer gives the proper subject matter that should enter into the school curriculum, and concrete examples of each phase discussed.
Spencer says what our school courses leave almost entirely out, we find to

COUNTY AGENT IS BUSY AT WHEELER

Wheeler, the county seat of Wheeler county, recently held a hog sale which continued for an entire week. According to the Wheeler News-Review, during the week of sales 262 head of hogs were sold for a total of \$10,227.50. The town of Wheeler is not as large as Spearman, and down to brass tacks, Wheeler is not as good stock-farming county as Hansford. The town of Wheeler is 16 miles from a railroad. But, Wheeler county has a county agent and has had for the past five years. They wouldn't be without an agent because they have learned the worth of one. This agent preaches the doctrine of the milk cow, the hen and the sow, and it is this doctrine which will eventually bring about the conditions of which Henry W. Grady was thinking when he said: "When every farmer in the south shall eat bread from his own fields and meat from his own pasture, disturbed by no creditor and enslaved by no debt; shall sit among his teeming gardens and orchards and vineyards and dairies; and barnyards, pitching his crops in his own wisdom and growing them in independence; making cotton (wheat) his clean surplus and selling it in his own time and in his own chosen market—and not at a master's bidding—getting his pay in cash and not in a receipted mortgage that discharges his debt but does not restore his freedom—then shall be the breaking of the fullness of our day."—Spearman Reporter.

U. S. STEER FEEDING EXPERIMENT

The experiment in feeding steers home grown feeds to secure data which farmers might use in making decisions about cattle feeding in the future was conducted Saturday at the Experiment station. Thirty head of yearling steers were based and put on feed November 12 and fed 110 days, or until March 2. They were divided into two lots of fifteen each. Lot 1 was fed a ration of sumac sorghum fodder, cotton seed meal and ground milo. Lot 2 was fed a ration of kafir silage, cow pea hay and ground milo. The following questions were answered in the affirmative: When feeds are plentiful in this section, is it good business for farmers to fatten their steers before shipping to market? Will steers make satisfactory gains on feeds produced in this section? Will a farmer derive a better income from crops marketed on the hoof than from those marketed by wagon? Is there a possibility of cattle feeding becoming one of the farm enterprises of this section? The total profit per steer in Lot 1, was \$3.61; Lot No. 2, \$3.30. Prices of feeds used: Milo, 60c to \$1.00 per hundred weight; Cotton seed cake, \$2.40; Sumac fodder, \$10 per ton; Silage, \$5 per ton; Cow pea hay, \$20.—Tucumcari News.

SOME MODERN THINKERS CRITICIZE GRADE SYSTEM

Education comes from nature, from man, or from things; the developing of our faculties and organs is nature's work; that of man is the application we learn to make of this developing; and that of things is the experience acquired regarding different objects which affect us. All that we lack at birth, and have need of at the years of maturity, is the gift of education.

FRIONA
 The long drought was broken here on Thursday of last week by the furious blizzard and snow storm, which according to the reports of different farmers, left from three to six inches of snow on the fields. The snow being wet and heavy it was estimated it would produce at least an inch of moisture. It is hoped that this amount will be sufficient to penetrate to the strata of underground moisture which could be found in most places, and thus afford enough to bring up and sustain for a time at least, the wheat now in the ground. This was followed on Monday by a rainfall of at least an inch which now insures abundant moisture for spring farming, and the farmers are now planning for planting spring wheat, oats and other broadcast grain crops.

A meeting of the Friona Commercial Club was called last Friday night. There was a goodly number in attendance and the organization was put on a firmer footing by securing a permanent membership and the appointment of a committee to secure all the members possible. A delegate was chosen to represent Friona at the fall road meeting called to meet at Fort Worth on the 18th, in response to an invitation from the West Texas Chamber of Commerce.

About nine o'clock Sunday night the light of fire was seen reflected on the clouds to the southwest of Friona. It was thought by some to be a prairie fire, while others thought it was a burning building. At this writing no information had been received here as to what had been destroyed by the fire.

The revival services held at the school house during the past week by the Christian church, were well attended, considering the weather conditions, and those who heard him were well pleased with Brother Johnson as an evangelist.

The prairie fire which swept across the territory about eighteen miles south of here on the fifth of this month struck the ranch of E. G. Taylor and literally consumed everything on the land, but the dwelling and the live stock. All sheds, barns and out-buildings were destroyed. Mr. Taylor had a large amount of feed in the stack and an immense pile of maize heads awaiting the thrasher and it all went. It is said there was not a bundle of feed left on the ranch. Professors Golden and Noble have equipped a nice double tennis court on

the school grounds for the use of the students and also any of the citizens who enjoy the game and have the leisure to do so may spend many pleasant hours, and when the weather is favorable there are not many hours of the day that the courts are vacant. We are informed that Miss Muri Sander and Reuben Gischer are the champions of the game.

The farmers of this vicinity are taking quite an active interest in the work of the Farm Bureau Wheat Growers' Association, but seem to be hindered from various causes in holding their meetings regularly. A group of them, including the officers if the local Bureau, had planned to attend the big meeting in Amarillo last week, but the blizzard prevented and it is probable that they will attend the meeting at that place dated for Thursday of this week.

JUMBO

After one week of storm we are all still attempting to live.

H. D. Neely left Sunday for his son's place in South Texas.

Mr. and Mrs. Leonard Ricketts and U. G. Randall took dinner Sunday with C. S. Walker and family.

Several of our neighbors helped to fight the big fire in West Castro, a few days ago.

Mrs. Randall has returned from a few days visit in Amarillo. Mr. Randall says that he cannot eat very much of his own cooking.

E. B. Posey and family spent the day Sunday with the W. A. Hunter family.

Mr. Bob Baird has returned home from an extended trip in the Southland. He is looking much better.

Miss Ruth Clements and Mrs. M. L. Simpson spent the evening of the 7th with Mrs. Hunter.

The Jumbo School Board met at Leonard Ricketts' home Tuesday night. The school is in good financial condition and is making fine progress.

Everybody will please attend the school election on April 1.

Go To Church Sunday!

We... of our neighbors... day School and... that they have a correspond... Brand. It would be a fine thing... school and neighborhood in the... has a correspondent. It brings us closer together and helps in our welfare work and gets us acquainted and interested in each other.

Two new cases of mumps: Reford West and Lester Galley.

Not so much benefit is gained from last week's snow as was at first thought, only wetting about two and one-half inches of our dry dirt.

Mr. and Mrs. L. A. Smith took their ten-week-old baby to see the doctor Sunday evening. The baby seems to be suffering with ear ache.

Our school boys who attend school at Hereford took the home road at noon Thursday on account of the snow storm and it was well they did as they could hardly have made home by night.

THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith County Greeting:
YOU ARE HEREBY COMMANDED to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the Estate of George G. Smith, Deceased, Wm. M. Knight, Administrator, has filed in the County Court of Deaf Smith County an application for an order to sell the following property of said estate, situated in Deaf Smith County, Texas, to-wit: An undivided one-half interest of the north one-half of Survey No. 25, Block M-7, Certificate No. 1294, which will be heard at the next term of said Court, commencing on the first Monday in April, A. D. 1922, the same being the 3rd day of April, A. D. 1922, at the Court House thereof, in Hereford, Texas, at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Mrs. D. F. Ashbrook—A Tribute

"God's finger touched her—and she slept." Eternal harmonies claimed yet one note—and life's sweet song was ended.

To the members of the Music Study Club the life of Mrs. D. F. Ashbrook will ever exemplify and exalted conception of music as an expression of the Divine Voice, speaking its way into the hearts of men; for, to her, music was the world's balm of healing—a heavenly messenger of truth and comfort.

Faithful to this ideal, her club work was an uplift and an inspiration. No duty was ever lightly performed. Lofty purpose and sincere conviction outshone the material excellences of her work. She recognized but one kind of music—the best, and gladly gave untiring service in the interest of higher musical standards. This interest, she felt she best served, through the Music Study Club and in that belief she freely gave of herself that its work might prosper. Her perfect attendance for the year was broken only by her final illness.

Her own musical talent, itself not meager, she consecrated to the church, to the Sunday School, to His work wherever she found it, believing that music in the home, and in the community meant more of God manifest among men.

Her influence, a silent symphony immortal, is a rich legacy gratefully claimed by the Music Study Club. Mrs. B. F. Guthrie, Mrs. G. A. F. Parker, Mrs. H. H. Hawkins.

C. E. Moreman

Chapley Ross Moreman was born July 16, 1863, in the state of Georgia. While he was still a child his parents moved to Alabama, where he resided until about fifteen years of age, when the family again moved to Mississippi. In May, 1881, he volunteered his services in the cause of his beloved Southland and enlisted with company F, 20th Mississippi regiment. He served in the army throughout the war, and his experiences in West Virginia, Virginia, Kentucky, Tennessee and other states remained fresh in his memory to the end.

On August 17, 1905, young Moreman was married to Mary Bacon Yarbrough of Alabama. Soon afterward he removed to Texas and settled in Collin County near Plano, where he made his home for more than thirty years. In 1900 he

come to Hereford where he made his home until his death.

Mr. Moreman was a faithful Christian, an active church member and a useful citizen. He and his wife were charter members of the Baptist Church of Hereford. He was a Geocod in the church and it was largely through his efforts that the present house of wor-
