COUNTY VOTING was light in the High Plains Underground Water District balloting in Commissioners Courtroom Tuesday. Mrs. L. B. Russell, northwest of Hereford, was one of 98 voters in Deaf Smith County. T. L. Sparkman Jr. was elected as director on the five-man district board. (Staff Photo)

Sparkman Elected To Water Board

T. L. Sparkman Jr. of Hereford Tuesday won election as a director of the High Plains Underground Water District by a margin of 51 votes over G. A. Dietz, Happy, his opponent from Randall County. Sparkman's vote total — 92 in Deaf Smith County — was light as compared to that of 1957, when outgoing director Virgil Dodson collected a total of 230 votes, 201 from this county. Sparkman received 104 votes

If you hurry, there are about 50 tickets to the Chamber of Commerce banquet available. All 867 tickets to the annual affair were grabbed up by Tuesday, but about 50 were turned back and are for sale to the public.

"SOS for SPB for MOD" is scheduled again. The first drive by high school students to collect soda pop bottles for the March of Dimes was postponed because of snow. The youngsters will try again on Saturday, Jan. 17. Residents are asked to leave the bottles on front porches before 9 a.m. and the students will collect them during the day. All proceeds from bottle sales will be given to the March of Dimes.

Herd Opens District Play With Game In Hawks' Nest

Riding the crest of an eight-game winning streak and a season record of 19-3, the Hereford Whitefaces will romp into the Phillips Blackhawk's nest Friday night. It will mark the opening of District 1-AAA cage play for both teams. Phillips is the only district team which coach Cuby Kitchens' squad has not faced in pre-conference hits. Always dangerous, the Blackhawks this season have had a rough time, winning four and losing nine. However, their last contest, Tuesday night at Canyon, shows they are improving. Phillips downed Canyon 74-51. Hawk coach Billy Hughes had a re-building job this year. Four of his starters last year were seniors. The other starter, Bob Moore, was killed in a foot-

ball game. Three seniors and two juniors usual start for Hughes. The seniors are lettermen while the juniors played on the "B" team last year. Listed as starters for the Hawks are: Royce Keller, 5-9 junior, B team; Jesse Williams, 6-9 senior, letter; Butch Gross, 5-11 senior, letter; John Light, 6-5 senior, letter; and Mike Caddell, 6-3 junior, B team. Gross is leading scorer Phillips with about 14 points per game. By comparative scores, which mean little in the rough 1-AAA loop, Hereford would have the edge, although the home court advantage could offset this. Phillips lost to Berger, 43-30; Dumas, 39-42; Palo Duro, 48-71; and Amarillo, 33-45, before whipping Vernon, 50-36. They

Judge Urges Courtroom Renovation

County Starts Jail Planning

Deaf Smith County Commissioners passed an order Monday giving notice of intention to issue warrants, up to \$260,000, to pay for right-of-way purchase on east Highway 60. The time warrants will be issued sometime after Feb. 9. The action was a formality which followed a decision last week to issue the warrants. Half of the cost of the right-of-way will be refunded to the county by the Texas Highway Commission when the contract for a renovation is awarded. Most of the day-long regular session was taken up with (Continued on page 2)

Fast Recovery Of Stolen Cars

The Deaf Smith County Sheriff's Department Saturday night found a stolen car in a bar ditch near the Labor Camp before the owner of the car, Melvin Howard, discovered it was missing from his place of employment. Another car, owned by Stanton Junior High School principal W. C. Quattlebaum, was reported missing Tuesday night and was found by a Hereford resident several hours later. Deputy Sheriff L. R. Cherryhomes discovered a 1955 model automobile beside a dirt road between the Labor Camp and Highway 51 at 9 p.m. Saturday as he was returning to Hereford from the camp. About five minutes later, Howard, an employee at Jones Texaco Service, reported the theft of his car from the service station. Cherryhomes said the car had skidded off the road into a bar ditch and was abandoned. Howard later identified the car taken from the station between 5:30 and 7 p.m. Don T. Martin, who had accompanied Quattlebaum in searching for Quattlebaum's missing 1956 model automobile, discovered the missing car near a water tower north of Hereford as he was returning to his home at 825 Blevins. Quattlebaum previously had suggested that they (Continued on page 2)

In an unprecedented move, Deaf Smith County Commissioners Monday heard a request from District Judge Harry H. Schultz that the District Courtroom be remodeled. The request was in the form of a letter, addressed to the court, and pointing out that he can take the responsibility to urge renovation or changes. Located on the third floor of the 45-year-old courthouse, the District Courtroom is a huge room, with a balcony and a seating capacity of about 250 persons, exclusive of space for attorneys, witnesses, jurors, reporters and court officials. The letter is quoted from the original: "January 9, 1959. 'The Commissioners' Court Deaf Smith County, Texas Attention: Hon. Homer Henslee, County Judge Hereford, Texas Gentlemen: 'As you know the District Court room in Deaf Smith County needs renovating and remodeling. Perhaps this holds true also for the remainder of the courthouse. Until now I have not made any requests to your Court for improvements to the District Court Room. This was because of my feeling that I can hold court in any surroundings and that the condition of (Continued on page 2)

MOD Golf Pairings Made

Pairings for the March of Dimes Golf Tournament have been made and first round matches must be played by Sunday evening, Jan. 18. Play will be by total score on each hole, match play, with handicaps. A total of 16 teams entered the event and will play through Feb. 8.

In participation with the current March of Dimes Drive in Deaf Smith County, members of the Thespian Society, honorary speech organization at Hereford High School, will present "Night of January 16th", a play depicting courtroom drama and using members of the audience as jurors. The production will be presented in 69th District Courtroom, in the County Courthouse, on Jan. 31, Feb. 3 and Feb. 5. The play starts at 8 p.m. each night.

At random, members of the audience, as they enter the courtroom, will be asked if they will serve on the jury. Twelve jurors will be admitted free of charge and will be paid for jury service. Plot of the production will be a murder trial. Originally titled "Penthouse Legend" the drama was written by Ayn Rand. This type of play necessitates two different endings, which will be decided by the jury — whether they find the defendant guilty or innocent. Proceeds of the play will be

split between March of Dimes and the Thespian Society, according to Carroll Hickey, high school speech instructor. Hickey said the play has been presented by many high schools in the United States, but this will be the first time, as far as he knows, that the play will have been staged in an actual courtroom. The 69th District Courtroom will seat 260 people. An unusual feature of the play, Hickey said, is that members of the cast will not know which ending to use until the (Continued on page 2)

Deadline Near; Poll Tax Sales Are Up Slightly

Poll tax sales at the start of this year showed a slight increase over sales up to the same date last year, according to Mark Waddell, assistant tax assessor-collector. With the deadline set for Jan. 31, only 501 receipts had been sold through Jan. 1. There are an estimated 4,000 eligible voters in the county. Total sales through Jan. 1, 1958, Waddell said, totalled only 380. Total sale last year was 2,537 receipts. Cost of the right to vote is \$1.75 per person. Receipts have been of sale since Oct. 1. "Receipts aren't moving very fast and we sure would hate to see a lot of people caught in the last minute rush," Waddell said. Purchase of poll tax entitles a person to vote in April's scheduled general city election for posts of mayor and two city commissioners. It also entitles the purchaser to vote in various bond elections and special called elections.

Three Hereford Boxers Win; Leslie Takes Sportsmanship

Deadly serious Donnie Leslie of Hereford Tuesday night was named winner of the second annual Golden Gloves Sportsman trophy to highlight final fistic activity at the Bull Barn. An expressionless 118-pound high school boxer, Leslie won three fights in two nights to win the judges' nod for conduct. Hereford battlers won two high school titles, while a third was snatched in his class, Leslie and R. C. Welty, 135 pounds, while on technical knock outs, won Jeff Gomez had no opposition in the 170 pound high school division. Hereford's only other finalist, Ace Atchley, was knocked out in an open division light heavy fight by Paul Pulley, D and D Pharmacy team of Amarillo. Atchley is a West Texas State student who was fighting for the first time with the Hereford team.

Two of the biggest surprises of the tourney involved smooth Manny Perez of Amarillo. Perez Monday night knocked out Richard Hodge of Hereford in a 145-pound open bout. Hodge, an All-Navy and All-Service champ last year, had been working out just one week and was unable to keep up with Perez. Tuesday night, Perez lost on a technical knock out to busy Gary Watts of Levelland, who out-fought the ring-wise Amarillo boxer. The referee finally stopped the bout when Perez suffered a badly-cut eye. Only three of the 13 bouts went to a decision Monday night, while five of 12 went the limit on Tuesday.

Winners Tuesday night received trophies, while the runners-up were given small gold boxing gloves. All winners of the Hereford meet will be eligible to enter the regional tourney in Amarillo on Feb. 4, 6 and 7, Hereford (Continued on page 2)

Hereford will participate in a disaster warning tornado siren test sometime Thursday in connection with a National Civil Defense project. Clay Angelo said the siren signals would consist of alternating 10 second blasts and silence periods for a duration of three minutes. Hereford's two tornado sirens, one at the City Hall and one between Ave. H and Ave. I, near Union St., will be sounded as a test measure. The test here will be the first time Hereford has participated in the annual national drill. The sirens were installed in April and have been tested only one time.

Annual meeting of the Hereford Benefit Association will be held Saturday in the County Courtroom at 2:30 p.m. Members and prospective members are invited. Officers will report and new officers will be elected.

Ground-breaking ceremonies for the new Avenue Baptist Church will be held at 3 p.m. Sunday, according to the Rev. A. C. Hamilton. The public is invited to attend.

Hereford High's football banquet will be held Saturday at 7:30 p.m. in the Shirley School cafeteria.

County Commissioner Charles Sowell voted a strong "Aye" when a proposed plat just outside the city was submitted for county approval. However, he demurred on making or seconding the motion, since he is one of the two persons submitting the plat.

County school trustees Tuesday night voted to hire Orpha L. Click as field representative for the purpose of assessing property for the school tax roll.

"This world does not have unlimited amount of space for an unlimited amount of people. The laws of nature have a statute of limitation, and for those who choose to ignore them they have a severe penalty to pay." That is the text of a postcard we received Wednesday from a William R. Sullivan of Los Angeles, Calif. We presume he is talking about the threat of overpopulation. Anyway, it provided an interlude for our labors of the day. The post-mark on the reverse side says, very soberly, "Aliens must report their addresses during January."

Boxing fans got some viewing Monday and Tuesday during the Golden Gloves bouts. By the way, Melvin Young is looking for a job for one of his battlers.

Coach Kitchens and his dribblers have the first of their eight conference contests Friday night against the Phillips Blackhawks.

Group Two will attempt to answer the question, "What do you think the parent-teacher organization should do in your schools?" This will cover opportunities for closer understanding, to buy equipment and supplies, to raise funds, to evaluate school services and programs, to furnish information and to give help.

Group Three will be asked, "Has the real function of the P. T. A. been overlooked in Deaf Smith County?" Included will be the question of whether it is a "social club", an auxiliary, a group capable of coordinating thinking and planning, a group willing to serve or whether it should reevaluate its purposes and functions.

Group Four will deal with the question, "Are you aware of the Council, its purposes and functions?" Group members will study how it can coordinate efforts of local units, how it can solve problems arising in one or more schools and how it can help in leadership training.

Mrs. Chester Wiggins is general chairman of the workshop, with Fred Cunningham as the coordinator. Mrs. John Blocker will be director of the drama and Mrs. Ed Skypala will be in charge of the coffee.

Mrs. Glenn Allred will be leader of Group One. Mrs. Jack Higgins will be hostess and Miss Della Stagner will be recorder. Resource persons will include L. B. Russell, Mrs. Ed Loerwald, John Aikin, Mrs. Stan Sigmund and Kenneth Coker.

Leader of Group Two will be D. C. Martin, assisted by Mrs. Ray Polan, hostess, and Bruce Miller, recorder. Resource persons include Mrs. Pat Robinson, H. C. Ritchie, Mrs. Muri Little, J. N. Kittingworth and Mrs. Earl Springer.

Bill Stanford will lead Group Three, assisted by Mrs. Clinton Jackson, hostess, and Mrs. Viola Chisholm, recorder. Resource persons are Mrs. Colby Conkright, Mrs. Harold Wester, L. C. Thomas, Mrs. O. G. Hill Jr. and J. C. Reese.

Leading Group Four will be Sylvester Slagle, aided by Mrs. J. B. Sneed as hostess and Mrs. Virgil Marsh as recorder. Acting as resource persons will be

lately following the county-wide PTA workshop. Several important items will be presented, according to Mrs. Colby Conkright, president.

(Continued from page 1) conferences and discussions about a proposed new jail for the county.

Architect John P. Work of Amarillo was on hand to discuss preliminary details with the Commission. Work conferred with the group in November, although nothing definite was decided at that time.

At this time, Commissioners are planning for a jail which would provide space for about 40 prisoners. New state laws provide that county jails must have provisions for detention of two women, two juvenile boys, two juvenile girls, solitary confinement area, drunk tank, felony offenders, first offenders and insane persons.

In addition, planning at this time would provide for an interrogation room, office space for the sheriff and his deputies, Texas Highway Patrol office, radio room, Justice of the Peace office, fingerprint area and photographic darkroom. Living quarters for the sheriff, or one of his deputies, also are planned.

Early Monday evening Commissioners called a recess until Wednesday, at which time they planned to complete some unfinished business. Further discussions of plans for the jail were tentatively slated for the special meeting.

In other action, John C. Wilson, district supervisor for the state comptroller's office in Amarillo, met with the Commission to explain the rules and procedures for obtaining fuel tax refunds. Most of the fuel which is eligible for rebate is used in tractors for mowing weeds.

Formal approval was granted for a ten-lot plat immediately south of Hereford on the north side of Austin Road. The tract, to be called Ridgecrest Addition, had been approved by the City Commission on Jan. 5. The plat was submitted by an attorney for Charles Sowell and A. N. Hopson.

(Continued from page 1) the district court room is a local responsibility.

"I have been called on many times in emergencies to substitute for judges in other districts. From the nice surroundings of the court rooms it is obvious that the judges are not backward in letting the Commissioners' Courts know what is needed. What has spurred me into this action is learning that elsewhere it is considered to be the responsibility of the District Judge to initiate action toward getting improvements needed in the court room.

"I can well understand a possible reluctance on the part of your Court to spend as much money as it may take to renovate and modernize the District Court room. Yet Deaf Smith County is fortunate in having a courthouse adequate in size and a basically sound structure.

"If there were any prospects that in the foreseeable future the needed improvements could be made for less money than at the present time, then I would not urge action upon the matter now. But as I am sure you well know, all indications are that the costs of such improvements will continue to increase for a long time to come. And they may increase even more rapidly than they have in the past.

"If you undertake to make improvements in the district court room, I suggest that its size be considerably reduced. Also, that if possible, you provide air conditioning. During the months when it is necessary to have windows open there is much interference with court proceedings by passing trains whistling almost continuously and from noisy trucks. The out-

teemen will appoint the fifth member of the board to fill the vacancy.

Presiding judge at the polling place Tuesday was J. J. Clark.

ly thing that can be done to reduce this interference is to keep the windows closed.  
"I hope that you will readily understand the need for these improvements and start to make plans for having them made.  
Cordially yours,  
s/ Harry Schultz"

Renovation of the District Courtroom was among the plans discussed for the general facelift of the courthouse during Commissioners' Court meetings during November and December. The planning, however, was shelled by the Commission after several lengthy sessions as being too expensive to undertake at this time.  
After Judge Henslee read the letter Monday, there was a very brief discussion of the matter by the court, but no action was taken.

Hodges, sitting, accepts the payment from Mrs. Dean Saul, church treasurer. Standing are Ernest Langley, stewardship director, and the Rev. Alby Cockrell, pastor. (Staff Photo)

## McKinley Named As Thru Street

McKinley St., from Highway 60 to Park Ave. with the exception of its intersection with E. Third St., has been designated as a through street. Police Chief Henry Aycock announced Wednesday morning.

Temporarily, Aycock said, four-way stop signs will be placed at intersections of McKinley and 4th, 5th and 6th streets. Formerly, the streets had been through streets.

Aycock said the stop signs on McKinley would be removed when the department felt drivers had become accustomed to the change.

## About Your HEALTH

Last week a strong and vigorous 50-year-old Central Texas dairyman suddenly crumpled unconscious to the floor of his dairy barn while going about his routine chores. The doctor's diagnosis was quick and sure: Stroke. That's one of the most ominous words in the language today. What does it really mean?

The medical term is "cerebral vascular accident," because it is caused by a cerebral vascular disease. The body's cerebral vascular system is the brain's network of blood vessels. Thus, cerebral vascular disease refers to diseases of blood vessels in the brain.

Brain cells require a good blood supply in order to work properly - more so than most other body cells. When something happens to that blood supply, the brain itself is impaired.

That something could be a hemorrhage, thrombosis, embolism, compression, or a spasm. Each one of those key words is a major cause of strokes.

A hemorrhage (bleeding) is the result of a break in a brain artery which allows blood to escape and damage surrounding brain tissue. Apoplexy is this type of stroke.

A thrombosis is caused by a clot of blood forming in a brain artery, stopping the flow of blood to the part of the brain it supplies. But when a clot is formed by a diseased heart or elsewhere in the body and pumped to the brain to plug up an artery, it is called an embolism.

A tumor, swollen brain tissue or a large clot in another vessel may press upon a brain vessel to stop the flow of blood. This is called compression. A spasm is caused when a brain artery constricts or tightens up, reducing the flow of blood to a particular brain area.

With present medical knowledge it is not possible to prevent the majority of strokes, except insofar as some conditions causing cerebral vascular disease - high blood pressure, for example - can often be helped by moderate

exercise, a low-fat diet, and other measures. Strokes are often preceded by moderate

## EASTER NEWS Community Club Meets Thursday

By MRS. C. L. HALL  
The Easter Club met Thursday at the community building for installation of officers and to work on yearbooks. Ladies present were Mesdames - William Moss, W. A. Epperson, Fred Walton, Leo Hall, J. H. Burnett, Ruby Stone and one child, Rannie Hall.

Mr. and Mrs. William Moss were in Amarillo last week where Moss underwent eye surgery.

Mr. and Mrs. Preston Cargle are the parents of a baby boy born at Muleshoe. The Cargles have two daughters. Ramona Hall spent Sunday with Carol Moutsner.

Jo Ann Cole of Dimmitt spent Friday night with Ramona Hall. Mr. and Mrs. D. W. Fields of Barstow, Calif., visited last week in the home of Mr. and Mrs. Fred Walton. Wednesday the Fields and Waltons were dinner guests of Mrs. Walton's and Field's sister, Mrs. W. H. Fogle and family, in Hereford.

Mr. and Mrs. Leo Hall, Ronnie and Reba were Sunday afternoon visitors in the Jim Brooks home.

Leo Hall was in Plainview Tuesday on business.

Mr. and Mrs. Fred Walton were visitors in the Henry Flood home Sunday afternoon.

By JIMMIE GILLENTE

A frequent topic these days centers around the effect TV is having on the nation's small fry. Some parents think the children are getting a fundamental education over the air waves, while others contend that their morals are being corrupted. To say the least, there are some good arguments on both sides of the question.

It is not unusual for pre-school children at play to slip up excitedly, roll up their sleeve and whisper, "Gimme a fix", aka some role in one of their favorite police programs.

From away down Ramonville way in the Valley, comes the story about a group of youngsters playing along the lines of a TV western. One energetic youngster, overturned some chairs, set up a bridge table and erected a sign: "Last Chance Saloon". Along came a first-grader who banged on the table and yelled, "Gimme a shot of rye!" His less sophisticated 4-year-old brother likewise stalked up, banged on the table and roared out: "Make mine whole-wheat."

Several Lions Club members attended a district work conference in Amarillo over the weekend, and Ray Cowser is still chuckling over a report from one of the speakers who had been visiting in Alaska.

Those Alaskans say that if you Texans continue to take it so hard about becoming second in size of states," reported the speaker, "that they will cut Alaska right across the middle — and then Texas will then be third!"

I notice where Earl Phillips retired from the job of fire chief recently. Earl did not hold the office long enough to set any longevity records but, during his administration, the department came a long way. Today it is considered one of the

most efficient volunteer departments in the State of Texas, and a lot of credit is due Earl. He would be the first to point out that a fire chief is not the man who does the rough work, but I think that most of us realize that our community owes Earl Phillips a debt of gratitude for a job well done in one of the most important spots in our everyday way of life.

There is one bright spot in Earl's resignation, however, in that it made possible the elevation of Glenn Witherspoon to the important office. Glenn is a "fire-horse" of long standing, and has pulled his part of the load down through the years. He will surely be a dandy.

Francis Hardwick tells me that he has finally booked the "Ten Commandments", which is the second Hollywood version of the Bible story. It shows here Feb. 21-24, inclusive — and he will have a special preview for church and school leaders on Feb. 4. The first production broke all records, and the newer version is said to be repeating. Did you ever notice how the all-time great films are usually Bible stories?

Bessie Patterson dropped by with an outline of the Joint Parent - Teacher Meeting and Workshop program. Mrs. Chester Wiggins is general chairman. The time is 7-9:30 p.m., high school auditorium, Thursday, Jan. 15. The general idea seems to be to determine the purpose and function of P.T.A. and to send its roots deeper into helping with the operational policies of our schools.

Meanwhile, I was somewhat surprised to read where Henry Kaizer's passenger cars — far from a success in this country — are creating a spectacular comeback in Argentina. The cars, based on the same body lines they used in this country, have many buyers, pesos in

hand, who have been waiting as long as two years for delivery. They call it the "Carabela" down South — and the big buying spree is a result of the savings on import duties, since the Carabela is manufactured in the country. Tagged at 220,000 pesos, the Carabela delivers for around \$3,500 American money, whereas a U. S. made Ford or Chevy costs the Argentine buyer approximately \$16,000 American money.

It is time to start reminding everyone about their poll taxes, January is it, folks. While 1959 may be an off-election year, there will still be several elections. The city, for instance, will name a mayor and two commissioners, the county will name two commissioners — and we may well have several bond elections during the next 12 months.

Another thing, it isn't right to complain about the way things are being run if you don't vote. It's worth the \$1.75 to be able to pop off about things every once in a while.

Faust Collier is an old boy I seldom see these days. Back when he had the basement office in the courthouse, I saw him a lot, but since the ASC has moved into nicer quarters I seldom run across Faust. Maybe he got things comfortable enough that he hates to leave the office. Again, as Faust will probably tell you, he may just be plain busy.

They put Troy Moore's surrey model car replica on display in the First National lobby the other day — and it really gave me a fright. I thought maybe the banks were going to gather up all of their collateral and put it in the bank lobby. Turned out, however, that it is just an advertising stunt, due to novelty of the machine.

Agriculture continues to puzzle the experts. Now the average farmer grows enough for eight people, whereas in 1950 he grew enough for only five. Over the same span, U. S. population has increased 15 per cent; farm population is off 20 per cent.

Mont Baker went hunting in the area between Childress and Paducah, where he says there are so many quail they are going hungry. Mont swears he killed two quail that were no larger than sparrows — and quit. Mont says he never saw anything like it in his life.

DAWN NEWS

Dawn Musettes Plan International Banquet

By MRS. CARL WIMBERLEY The Dawn Musettes are planning an International Banquet for Jan. 23. All members will dress in costumes of different countries.

A committee composed of Waitine Beavers, Ann Gentry, Dorothea Stewart and Gail Miller met Sunday afternoon at Ann's home and planned decorations.

The Home Demonstration Club will meet Friday afternoon in the home of Mrs. Leo Hoffman instead of in the home of Mrs. Orval Galley, as had been announced earlier. New officers of the club, who have this month assumed duties, are Mrs. Muri Little, president, Mrs. Orval Galley, vice president and council delegate, and Mrs. R. T. Stewart, secretary-treasurer and reporter.

Mrs. A. O. Thompson of Hereford was special guest speaker on the program of the club last week in the home of Mrs. R. L. Johnson. Mrs. Kate Wilson of Belton was also a guest.

The Dawn Music Club meeting has been postponed until

Rumors are floating around that a new, modern Conoco station will be erected on the old bull barn location sometime in 1959, probably the first half. Also hear that Henry Sears is opening an office across from the hotel in the Schroeter building. Many, many people feel that 1959 will be a big growth year for Hereford, perhaps the best since the early 50's.

Remember to pay your poll tax. There is no better time than now.

Jan. 20. The Rev. and Mrs. Charles Davenport left early Monday morning for Dallas, where they will attend the Baptist Evangelistic Conference. The Davenports planned to stop at Seymour and visit her grandparents, Mr. and Mrs. C. M. Casselberry and Mr. and Mrs. C. H. Peck.

E. M. McDill came home Saturday from the hospital in Canyon. He is expected to return to the hospital the latter part of the week.

Mr. and Mrs. Gayle Neal wishes to express their gratitude to all neighbors who helped when their house burned recently. Had it not been for their help, they said, the garage and apartment would have burned to the ground.

Mr. and Mrs. George Zetzsche of north Hereford were dinner guests Sunday in the home of Mr. and Mrs. Leonard Schmidt.

Attendance at the services of the Dawn Church Sunday was considerably higher than it has been. Sixty-three were present at Sunday School and 42 attended Training Union.

Mrs. Millie Fuller and Mr. and Mrs. R. N. Daniel and son of Amarillo visited Sunday with Mr. and Mrs. H. S. Fuller and family.

Mr. and Mrs. Marion Russell and children spent the weekend with Mr. and Mrs. Harold Robinson in Channing.

Mike Jones of Amarillo visited his grandparents, Mr. and Mrs. Alfred Smith, Thursday through Sunday last week.

Mr. and Mrs. Bobby Jones and son Mark visited in the community from Saturday until Sunday afternoon.

A great deal of road grading is being done here now. Also, concrete tile is being laid for ditches so as to forward irrigation water run-off.

W. J. Stewart of Canyon and Mr. and Mrs. R. T. Stewart and son Jerry left Monday. The men are going to an Angus sale at San Angelo. Mrs. Stewart and son plan to stop off in Farsan and visit Mr. and Mrs. Sammy Porter. Mrs. Porter was Margie Oslesby before her marriage.

Mr. and Mrs. H. V. McCabe attended funeral services Friday

day in Claude for Mrs. M. G. Walker. Mrs. Walker, who has lived at Conway the past 60 years, was a neighbor of the McCabes before they moved to Dawn. She was 95 years old.

Muri Peterson of Mabel, Minn., spent Sunday night in the home of Mr. and Mrs. Carl Wimberley. He was on his way from Denver to an Air Force Base at Little Rock, Ark.

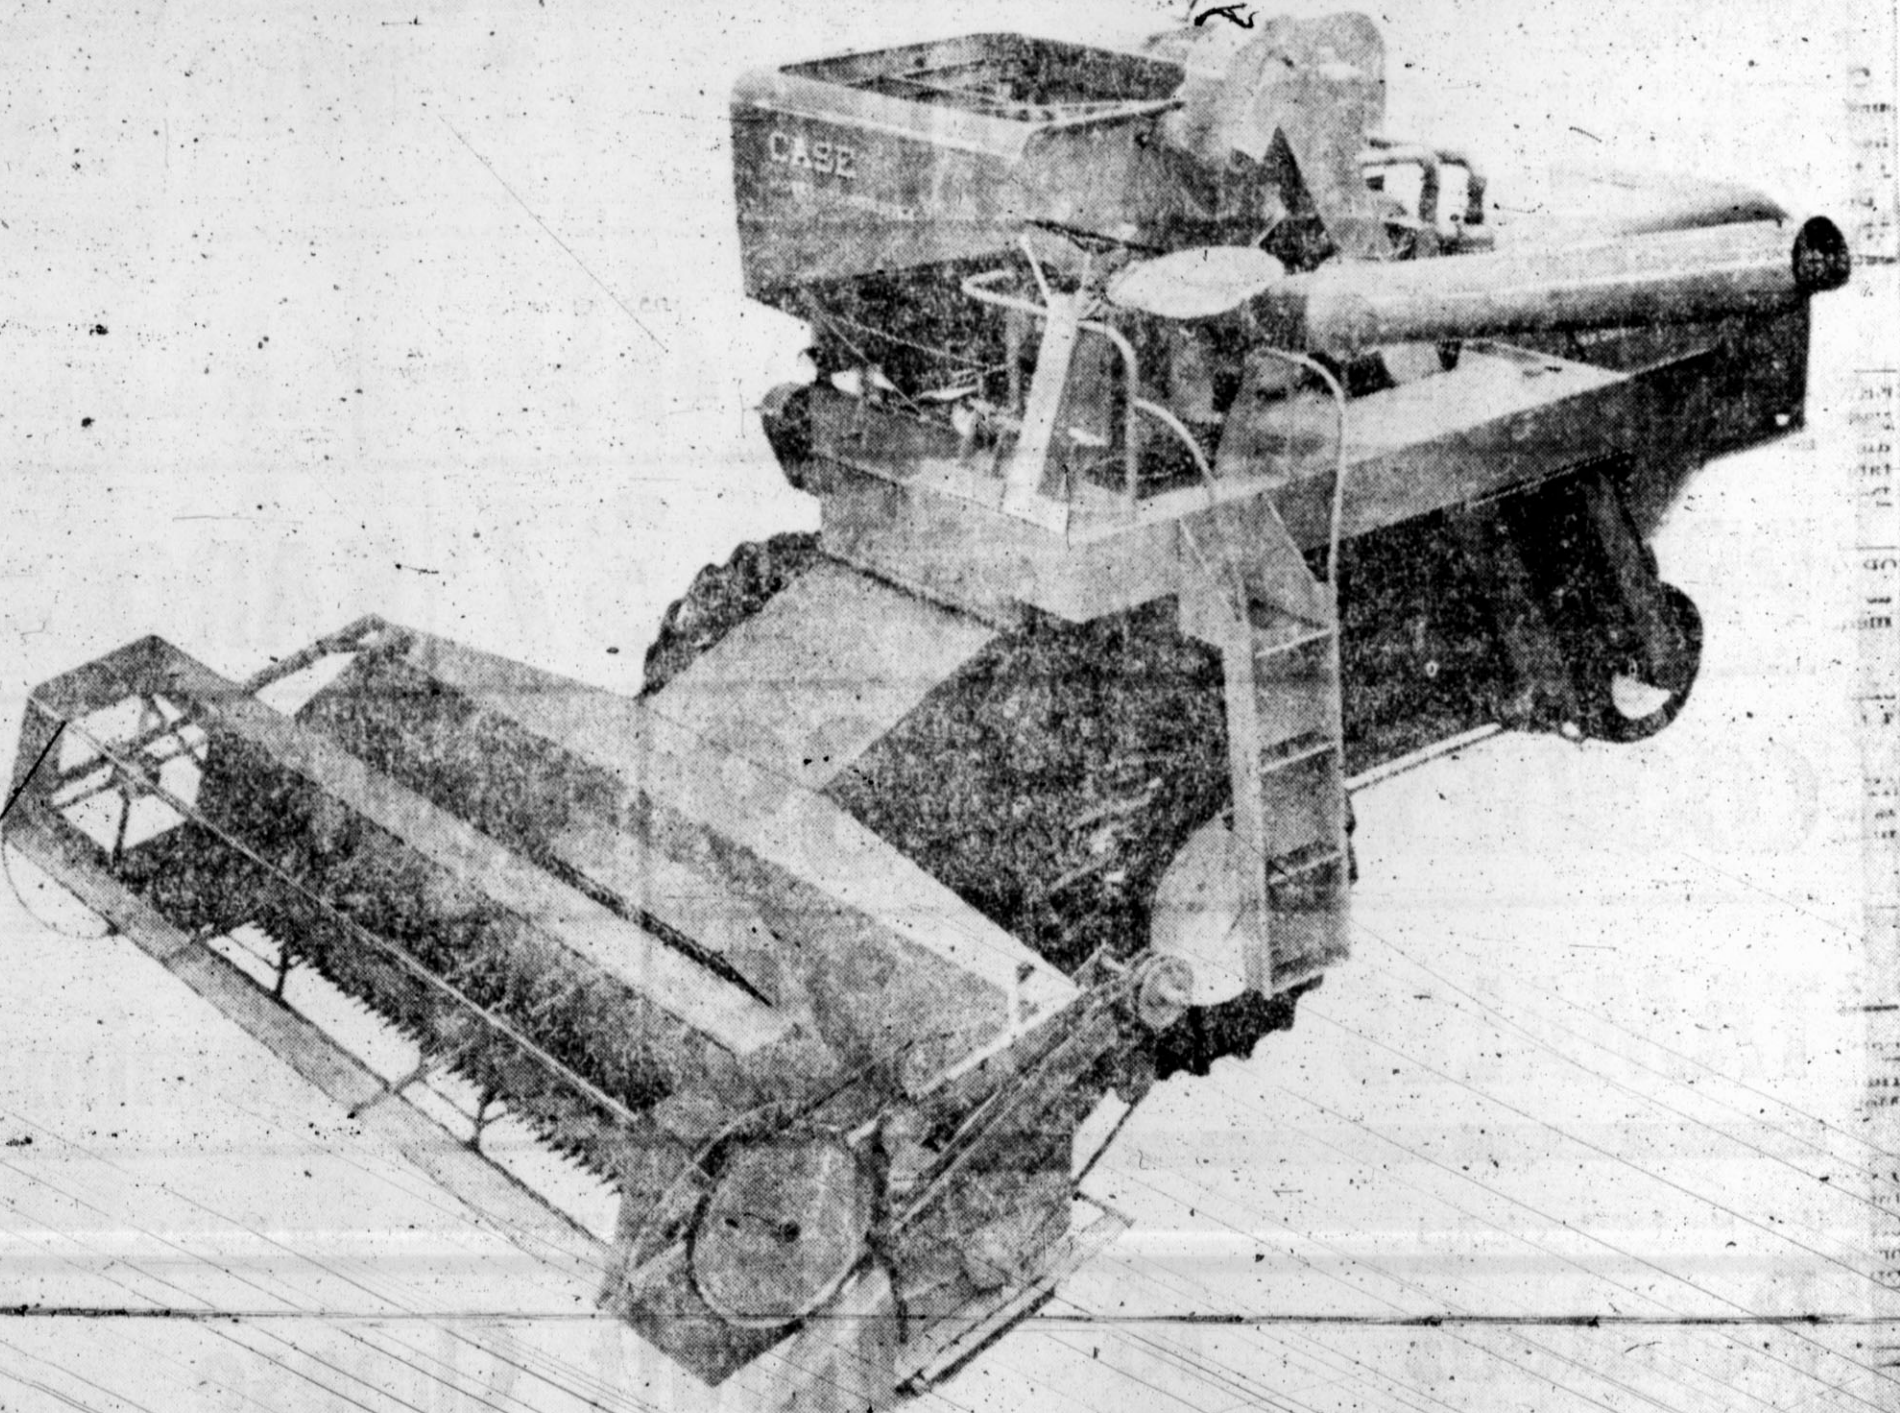

CROTHWAIT IMPROVED Buford Crothwait, who underwent surgery Monday at Providence Hospital in Waco, is reported to be in good condition and much improved.

# Week's Activity Centers Around Golden Gloves

IN BARE FEET, Chester Lee West, Hereford boxer, left, beat Lloyd Lindley by a decision to take the 10th bout of the evening. West prepares to throw a right during the first round of the bout. (Staff Photo)

This week's activity, to many, centered around Hereford's annual Golden Gloves boxing tournament, which was staged Monday and Tuesday nights at the Bull Barn.

Both open and high school division fighters were on hand. The two-day affair matched boxers from Hereford, Levelland, Plainview, Wellington and Memphis. All weight divisions, from 105 pounds up through heavyweight, were represented.

Winners from the tournament will compete in the regional Golden Gloves tourney in Amarillo on Feb. 4, 6 and 7.

THROWING A RIGHT to the head of Amarillo boxer Johnny Chavez is Donnie Leslie, Hereford boxer, at left. Leslie threw quite a few hard rights during the first night of the tournament as he fought in two bouts, winning both. He took the first bout from Wellington boxer Douglas Kittrell by a TKO in the second round, and his second bout from Chavez by a decision. (Staff Photo)

## The Hereford Brand

Hereford, Texas, Thursday, January 15, 1959 Section Two

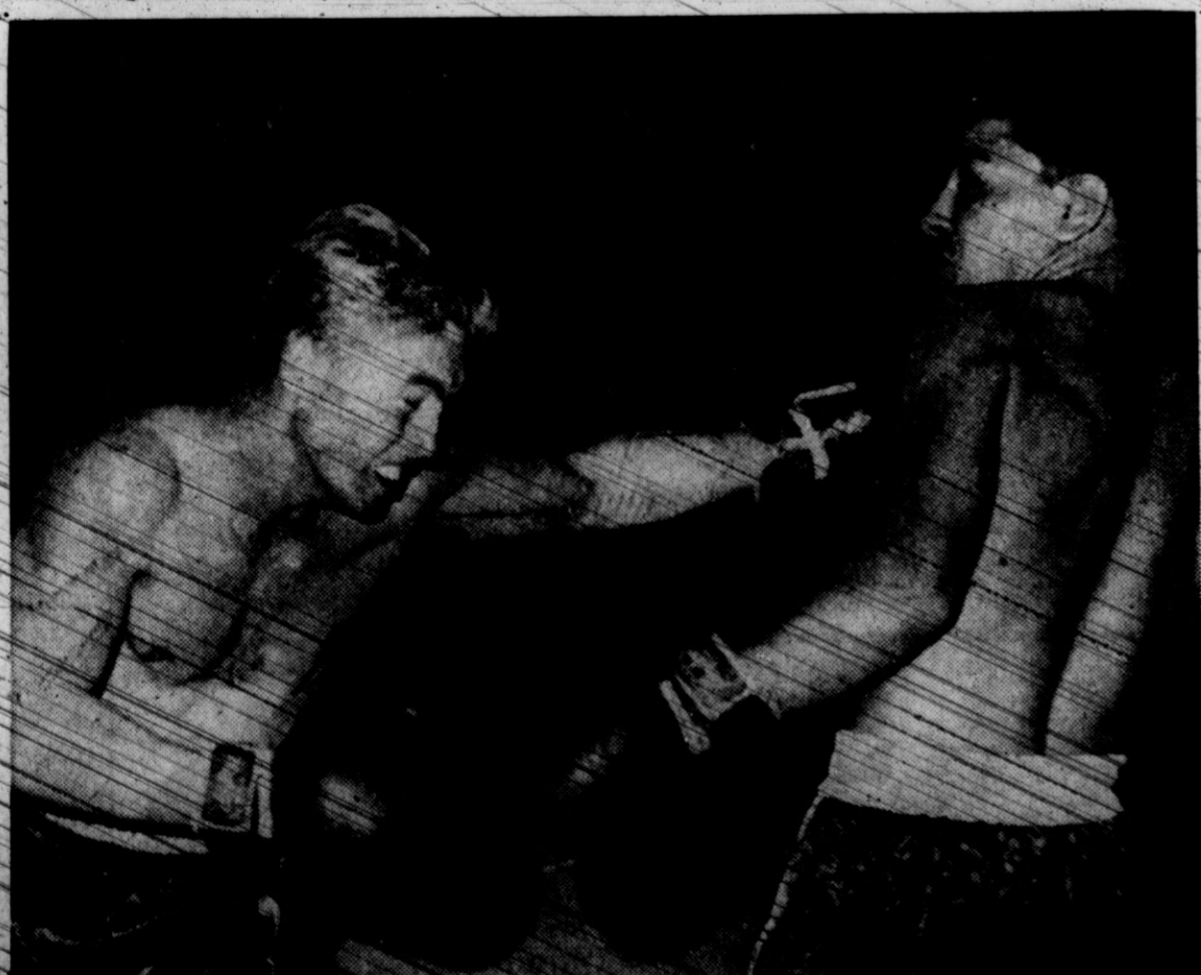

A TKO win went to Tunny Bailes, Amarillo, standing, when he floored Pelo Tienda, Levelland, in 1:30 of the first round during the first night of the tournament. The bout was in the 160 pound open division. (Staff Photo)

DOWN FOR THE COUNT in the first bout of the open division was Richard Hodge, Hereford boxer. He went down to the blows of tough Manny Perez of Amarillo in 1:07 of the third round. (Staff Photo)

BY A DECISION, Bob Willis, Amarillo boxer, at left, won over Douglas Alderidge, Dumas, in the 160 pound open division Monday night. (Staff Photo)

MOST TALKED-ABOUT match during the tournament, perhaps, was when Hereford's Richard Hodge, left, and Manny Perez, Amarillo, clashed. A tough fight all the way. Perez finally managed to floor Hodge for the count and bout. Perez won the fight in 1:07 of the third round. (Staff Photo)

MISSING A LEFT, Douglas Alderidge, Dumas, is about to receive a left to the stomach thrown by Amarillo's Bob Willis. Willis won the open division bout by a decision. (Staff Photo)

# Area Basketball Team Wins Stratford Tourney Trophy

By MRS. R. L. PINNELL  
Adrian boys' basketball team returned home Saturday night victorious after having won the new first place trophy at the Stratford Invitational Tournament.

Teams participating in the tournament were Friona, Channing, Sunray, Stratford, Spearman, Perryton, Panhandle, Texline and Adrian.

The first game for Adrian was Thursday afternoon when they won over Perryton with a final score of 59 to 42. High point man for the Perryton game was Oscar Bronniman with 18 points. The next game was Adrian over Panhandle with a score of 62 to 44. High point man for that game was "Pop Corn" Pinnell with 17 points.

Finals were played Saturday night before a capacity crowd and ended with Adrian, 64, and Spearman, 50. Oscar Bronniman and Jimmy Zaring tied for high points with each having 20 scores to their credit.

Two members of the Adrian team were placed on the all-tournament team and were presented individual trophies. They were Oscar Bronniman and "Pop Corn" Pinnell.

The girls' basketball team was not quite as successful, but did go for consolation finals. They lost to Sunray, beat Channing and were beaten six points by the Spearman girls.

Mrs. Fred Taylor returned home Sunday night from North-west Texas Hospital in Amarillo where she has been suffering from pneumonia for the past 11 days. Her condition is reported to be much improved.

Francine Brown

## Francine Brown To Give Recital Program Sunday

Mrs. Glenn Snyder will present Francine Brown in a piano recital Sunday, Jan. 18, at 3 p.m. in the educational building of the First Baptist Church.

The program, played from memory, will include "Prelude" (Bach), "Solfeggio" (C. P. E. Bach), "Curante" (Handel), "La Tarantelle" (Burgmüller), "The Swallow" (Burgmüller), "Sea Mist" (Mason), "Album Leaf in A Minor" (Koelling) and Schubert Waltzes Nos. 1, 3, 4, 5 and 6.

The program will be concluded with "Sonatina in F" by Beethoven, with second piano accompaniment.

Francine is the daughter of Mr. and Mrs. A. G. Brown and is a seventh grade student at Stanton Junior High School. She has studied piano five years.

Assisting on the program will be Dianne Wilson, vocalist. All interested friends are invited to attend.

Twillia Story suffered several torn ligaments at the Stratford tournament Friday night when she slipped on a piece of paper and fell down a flight of stairs. X-Rays showed no broken bones but she will not be able to play basketball until the torn ligaments are healed.

Funeral services are pending for Mrs. Leonard Edwin of Adrian. Mrs. Ervin died Saturday night in Temple where she and her husband had gone last Wednesday for a medical check-up.

Mrs. Johnnie Williams met Friday with the Negro Leadership school committee at the Polk Street Methodist Church in Amarillo.

The Lions Club announces a Magician Show by Yogi planned for Saturday, Jan. 31, at 7:30 p.m. Tickets will be on sale at the door or may be purchased

## Hereford Figures In Plans For 1959 SWPS Expansion

The Southwestern Public Service Company will spend more than \$14,000,000 in 1959 for new equipment and extensions and additions to their electric system, A. R. "Lon" Watson, executive vice president and general manager of the electric light and power company, announced today.

Hereford will be a pivot point for at least two of these projects, one of which has been recently completed and another which is planned for this year, according to local SWPS manager Cleo Meharg. Watson also revealed that because of the continued growth in the company's 45,000 square mile service area, a long range construction program has been proposed which would see a total of approximately \$90,000,000 invested in the territory in the next five years.

"The public utility business is different than any other, in that we have no direct control over our own growth. We grow as the territory we are privileged to serve grows. Every economic consideration indicates that this country is going to continue its progress, and we are planning now, as we must to keep up with this growth, the expansion that we will undertake in the next five years," Watson said.

Earlier this year, Southwestern Public Service Company announced it was building a 12th electric generating station to be located northwest of Amarillo. Continued work on this project in 1959, is a major item in the construction budget for the new year. The new generating station, which will have a capability of 150,000 horsepower, will be completed in 1961.

"How this territory has grown, and how much more use for electric service the people of our area have found, is probably best illustrated by our increase in generating capability," Watson said. "Ten years ago, the capability of our generating stations was 358,000 horsepower, today it is 1,080,000, with the additional 150,000 under construction. Electricity is unlike any other service or commodity, in that you can't store it and must create it at the very moment that the customers demand it. Thus, new generation and transmission equipment must be planned from two to three years ahead of the time it is needed."

Still another project in the company's 1959 construction program which indicates increased demand is the transmission line program. Two years ago, Southwestern Public Service Company began a program which is designed to double the carrying capacity of the company's 115,000 volt "backbone" transmission line which runs from Borger to Roswell, N. M. The first step in this project was a new line from Hereford to Plant X, near Earth, which was designed for 230,000 volts. In 1959, another segment of this line, from Hereford to Amarillo, will get underway.

In 10 years, Southwestern Public Service Company's investment in equipment to serve its customers has grown from \$84,000,000 to \$227,000,000.

Tech Clothing Division Slates Fashion Show

By ARGENT DRAPER
The Clothing Department at Texas Tech is cooperating with the National Cotton Council of America, the cotton promotion committee of the South Plains Chamber of Commerce, in presenting an outstanding fashion show on Jan. 27.

Forty garments will be shown along with the latest styles in accessories. The stage setting will be made by the Applied Arts Department.

There will be two showings of the garments, one at 2 p.m. on Tuesday afternoon and then the evening revue at 8 p.m. There is no admission charged for the style show and probably will last one hour.

This fashion show will be held in the Lubbock Municipal Auditorium at 8 p.m. Jan. 27.

The club women are very complimentary to Clyde Miller and C. E. Coleman for the nice 1959 year-books. There are some questions about the September program on citizenship.

We have a news release from College Station which is really not news to people in West Texas. This news release states,

'Hearty winter appetites call for good nourishing meals. For economy, plus flavor and nutrition — dried beans have a lot to offer. A serving of home-cooked beans about two cents. From the can, it costs about six cents. Either way, extension foods and nutrition specialists say beans are a cheap source of calories, vegetable protein, iron, thiamine and riboflavin. Dry beans can be used as a meat substitute for some family meals, especially if combined with another protein-rich food that comes from an animal source. Such foods include milk, eggs and cheese. Make the most of beans to help keep food costs low and nutritive values high.'

For the Bake Show, to be held at the Tri-State Fair next Fall, the 4-H girls will compete with two baked products, quick loaf bread and roll cookies. We need recipes for roll cookies, and if some of you have good recipes, we would appreciate getting them for the girls use.

The recipe this week is Old-Fashioned Tea Cakes. See if these taste like the tea cakes did when you were a child. (Continued on Page 2).

AUSTIN HIGHLIGHTS

Launching Of Legislature Means Long Road Ahead

By VERN SANFORD
AUSTIN — Texas' 56th Legislature soars off the launching pad this week.

Predictions are that it'll be orbiting around the Capitol for many months to come — certainly long enough to put to good use the air conditioners newly installed in the Legislative chambers.

Many have suggested the 56th will have to have one or more special sessions before it can solve all its pressing problems. Certainly before they can leave, the lawmakers will have to perform the thankless task of levying many more millions in state taxes.

Additionally, they'll be beset on all sides for new spending programs which would call for even more taxes.

After several months of this, outer space may look invitingly calm compared to the Texas Capitol.

State Comptroller Robert S. Calvert's official revenue estimate for 1960-61 is more of a storm warning than a forecast.

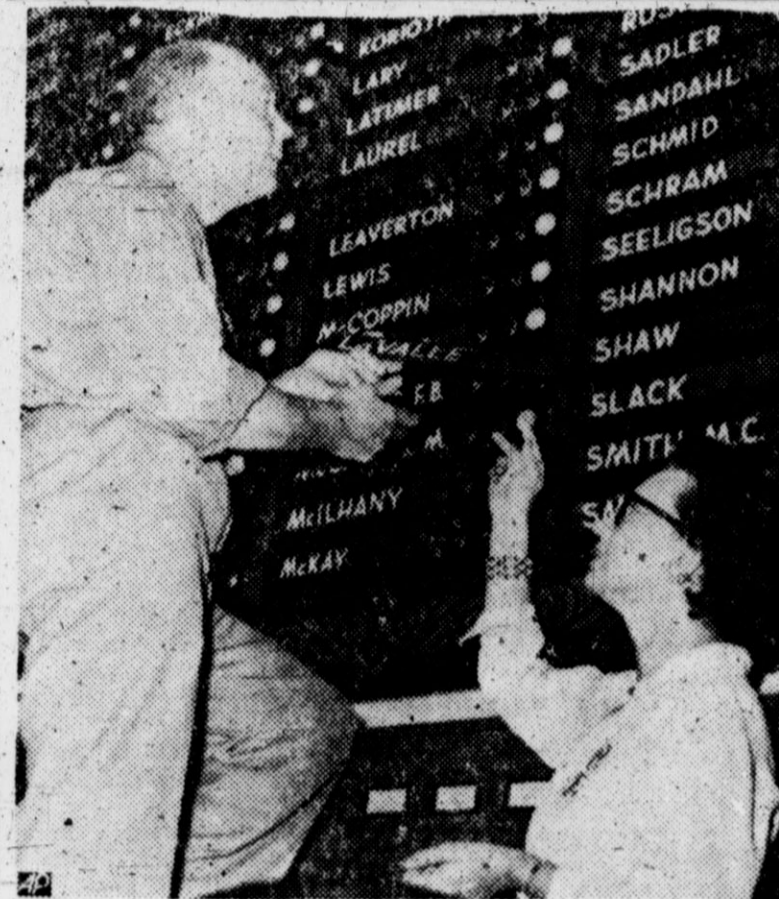

Calvert expects the state's general fund deficit to hit \$65,234,703 by the end of this biennium next August. Under the present tax set-up, he estimates revenue to the same fund during the next two years would total \$180,697,245.

After the deficit is taken care of, only \$115,000,000 would be left for 1960-61 spending. It's a pretty thin kitty when compared with the \$282,000,000 appropriated from general revenue for 1958-59. It means the state will have to raise \$167,000,000 more just to maintain its present "standard of living."

Comptroller Calvert's official revenue estimate this year is a far cry from the one he made two years ago for the 55th Legislature. In that well-heeled era Calvert forecast approximately

a \$50,000,000 surplus. No one paid too much attention to outgoing House Speaker Jim Lindsey's prophecy that spending would outrun this figure.

In good years and bad, the Legislature is bound by law to hold its appropriations within the comptroller's revenue estimate.

A number of economies plus stricter levying and collecting of present taxes might net the state as much as \$74,599,975 without new taxes.

This report was made by a financial study committee headed by Secretary of State Zollie Steakley. Committee was appointed by Gov. Price Daniel last summer.

Its six cash-raising ideas: (1) put more tax-collecting personnel in the comptroller's office, (2) cut out tax exemptions for beer and cigarettes sold on military bases, (3) increase franchise tax rate, (4) consolidate state "housekeeping" services (such as telephones), (5) increase fees charged by state agencies and (6) establish a "conservatorship" for the state to take over unclaimed money (such as bank accounts) and personal property.

Senate's investigating committee also inquired into the comptroller's work, was told that additional personnel would make it possible to collect millions more in taxes.

State Liquidator C. H. Langdeau reported his office is making progress toward clearing up some of the stickier problems resulting from insurance company failures.

Langdeau told the Senate Investigating Committee that if some proposed property sales go through, creditors of US Trust and Guaranty will get a 10 per cent payment. They have previously received a 31 per cent payment.

Deaf Smith County Organization To Attend Wayland College Meet

Deaf Smith County will be represented when more than 100 Royal Ambassadors from the Hockley-Coehran, West Plains and Tierra Blanca associations gather on the campus of Wayland Baptist College Saturday.

The R. A. group will be guests of the college for a day of programs and games demonstrations. Youth and sponsors from Deaf Smith, Randall, Farmer, Castro, Snyisher, and Lamb counties will attend.

Registration is scheduled for 2:30 p.m. and visitors will be conducted on a campus tour before programs begin. A talent parade and R. A. games demonstration is set for 4:30 to 4:50 p.m. Included in the talent show will be a trampolining act, a ventriloquist, music and "Flying Queen" basketball halftime demonstrations.

A special mission program, featuring Wayland's international students, will begin at 4:45 p.m. and will close the afternoon's events. Following dinner in Slaughter Memorial Center, the youths and their sponsors

will be guests at the Wayland Pioneers-Panhandle A&M Aggies basketball game in Plainview High School gymnasium. Wayland personnel in charge of arrangements for the day include Walter Lassiter, executive secretary, Association of Former Students, H. L. Mitchusson, business manager, J. W. Maynard, director of food services, and Dr. J. Ivyjoy Bishop, associate professor of religious education. The committee has worked with Dean Maurice Sharp in completing arrangements.

John Rankin, pastor, American Baptist Church, has been in charge of promotion among the Hockley-Coehran, West Plains and Tierra Blanca Associations. Other meetings of Royal Ambassadors at Wayland are scheduled for Jan. 24 and Feb. 7. The Floyd Association and Staked Plains Association R. A.'s are expected Jan. 24, and more than 100 R. A.'s from the Brownfield, Dickens and Lubbock Associations are due Feb. 7.

First Social Of Year Held

By MRS. HAROLD RUDD

The first community social of the new year was held Friday night at the Community House. Games of "42" and cards were played.

Mr. and Mrs. Ralph Morrison were honored with a shower of gifts. Mrs. Merlin Kaul gave some readings of advice to the newlyweds. Mrs. Kaul, Mrs. Paul Rudd and Mrs. Clarence Sauly then served refreshments of pie, coffee and spiced tea.

Among those attending were Mr. and Mrs. R. L. Wilson, Mr. and Mrs. Paul Rudd, Mr. and Mrs. Harold Rudd, Lynn, Patsy, Marie and Kit, Mr. and Mrs. Joe Landers, Mr. and Mrs. Jack Renfro, Mr. and Mrs. G. REP. WALTER ROGERS WRITES:

President's Message Blisters Communism

To the people of the 17th District:

President Eisenhower's State of the Union message to the 86th Congress on Jan. 9 was vastly similar to his last two state of the union messages.

He began by blasting communism, which met with the approval of almost everyone present except the representatives of Russia and her satellites. He then proceeded to use the communist threat as justification for the tremendous expenditures of this government.

This was, of course, acknowledged by most of those listening, although many will differ with him as to the methods employed in expending tax money for defense purposes. There is a definite feeling on the part of many members of Congress that there is a tremendous waste in military expenditures that should be corrected at this session of Congress. The Administration will find it necessary to justify military expenditures on an economic as well as a defense basis.

The general proposition that the military is an untouchable holy cow will not be recognized. It can be expected that many questions will be asked with regard to the cost of weapons. The Congress will not be satisfied with the simple statement that an atomic submarine costs \$50 million and some cost three times that much, nor that certain bombers cost their weight in gold, nor that the cost of a missile on the eve of this country's right to

What Congress wants to know is WHY. They will expect to be furnished with information as to who is collecting the prices for these weapons and whether or not the taxpayers are getting skinned in the process.

The President stated that the armed forces, the Atomic Energy Commission and military assistance would require \$47 billion in 1960. This would mean that all of the other government activities would have \$30 billion.

When you subtract from this \$30 billion the interest that must be paid on the public debt in the amount of \$8 billion, it leaves the sum of \$22 billion for all activities of the federal government of the United States of America outside of the defense expenditures.

That is, all government activities and programs require an expenditure of less than one-half of the amount required for the military and associated fields. This is one of the main reasons that many Members of Congress are looking to the expenditures in the military programs in an effort to cut out waste and provide possible reductions.

The President proceeded to outline his desire for the setting up of goals to be achieved

in the future to meet the growing needs and demands of this nation. He proposed for this everyone would agree, but the work "a group of selfless and devoted individuals." This is certainly an ideal with which everyone would agree, but the great difficulty throughout history has been to find that group of selfless and devoted individuals.

If this could be achieved it would go a long way toward the abolition of greed, one of the greatest enemies of mankind. Let us all hope that he is eminently successful in his search for this "selfless and devoted" group.

However, I do think that before a great deal of the taxpayers' money is spent on another bureau, agency, committee, or whatever you want to call it, the people should have definite proof that those comprising the organization are purely "selfless and devoted individuals." We presently have entirely too many federal boards, bureaus, and agencies of all kinds that are not entirely controlled by "selfless and devoted individuals."

There are many other items mentioned in the President's message, but space will not permit me to touch on each of (Continued on Page 2)

Highway Dollars An Economic Asset, According To Chairman

AUSTIN — "Highway dollars spent for construction and maintenance are a real economic asset to the counties and cities of Texas. People are again recognizing the importance of the highway dollar being returned to their counties and cities," according to Marshall Formby, Highway Commission chairman.

Formby said that construction and maintenance jobs are a shot in the arm to the economy of a county and city.

"Times have been so good since World War II that people more or less forgot about the value of highway dollars," Formby said. "But during the past two or three years the business leaders have recognized anew the value of the money spent with them."

Formby stated that on a typical million-dollar contract, at least \$700,000 will be spent with the people in the county where the work is being done and the other \$300,000 spent in the area.

"People in all walks of life get some benefit out of this highway dollar," Formby said.

In breaking down the average and typical million-dollar contract, Formby points out that an average 100 to 150 different parcels of land is purchased for right of way at an average cost of \$140,000. This right-of-way money is paid to property owners for their land and for moving buildings, for fences, title policies and other items. On an average, 30 local workers will be employed to move the fences and buildings at a cost of \$20,000. Where title policies are required, at least \$4,000 will be spent for these.

On this average million-dollar contract, about 105 local people will be employed on the construction project. Where bridges are built, about 75 per cent of the labor is locally obtained.

The local lumber yards will sell 3,500 barrels of cement for \$10,000 and 5,000 board feet of

lumber for \$1,000. About 200 tons of structural steel will be needed at a cost of from \$12,000 to \$15,000.

The contractor will spend thousands of dollars with local oil distributors for gasoline, motor fuel and other petroleum products, Formby said. Materials such as sand and gravel, caliche, and other base materials, are always purchased locally if available and will cost about \$8,000. Some 30 trucks, most of them local, will be paid \$30,000 to haul these materials to the job. These trucks would in turn purchase \$5,000 worth of gasoline alone for the job.

The highway dollar will find its way eventually to the laborer, lumber yards, oil distributors, filling stations, garages, welding shops, apartment-house owners, hotels, motels, grocery stores, hardware stores, picture shows, utility companies, barber shops, cafes, department stores, etc. Formby said. The money will find its way into the local tax coffers; some will be used to support churches, schools, and other worthwhile enterprises.

Formby says that a survey shows that this \$700,000 of the typical million-dollar contract that is spent directly in the county, turns over five to six times before it finally spends itself out. Thus a million dollar job is equivalent to about \$4 million being dumped into the county.

"This money does not come from Santa Claus, however," Formby said. "It is the people's tax money being returned to them for the betterment of their highway system and for the boosting of their own economy. It is the duty of my Commissioner, colleagues, Herb Ferry and Charlie Hawn, myself, and of the 15,000 employees of the Highway Department to see that it is spent as wisely as possible."

Diseases Costly To Texas Cotton

College Station — Diseases took a \$156 million bite out of the 1958 Texas cotton crop, report 15 cotton specialists located throughout the state.

"Cotton diseases kept at least 930,000 bales of cotton from being marketed," said Harlan Smith, extension plant pathologist, who compiled the information for the Cotton Disease Council.

Besides the \$156 million cash loss to producers, there were losses of business to farm labor, railroads, trucking companies, suppliers, compress companies, storage facilities and other phases of the industry. Diseases also were a major factor in grade reduction and a limiting factor in yield.

This loss occurred even though 1958 growing conditions were generally good as record yields were harvested in many areas, Smith said.

Major diseases and estimated loss due to their effect on yield were bacterial blight, 7.31 per cent; root rot, 3.18 per cent; verticillium wilt, 3.06 per cent; seedling diseases, 3.0 per cent; and boll rots, 0.92 per cent. Other diseases causing losses were root knot nematodes, fusarium wilt and ascochyta blight.

These average figures don't give the true picture because in areas where diseases struck the hardest losses ran into ruinous figures, pointed out Smith. For example, root rot was estimated to have caused a 25 per cent loss in the Central Blackland area. Seedling diseases were especially damaging in the Lower Rio Grande Valley and in some North Texas areas. Bacterial blight caused damage throughout most of the state.

# Herd Takes 81-55 Tilt From Brownfield's Cubs

Donnie Renfro and Ken Clearman paced the Hereford Whitefaces to an easy 81-55 victory over the Cubs at Brownfield Saturday night. Renfro looped in 23 points, 16 of them in the first quarter. Clearman punched in 23 more for second honors for the Herd.

It was the final non-conference game for the Herd and left them facing District 1-AAA games with a 19-3 record. Hereford did everything better-perfect in the first quarter as they topped to a 33-10 lead at the end of the first quarter. The gap widened considerably as they rolled up 24 points in the second stanza to lead 57-20. Brownfield matched Hereford in the third period, as each team chalked up 16 points. The

Cubs narrowed the margin in the last quarter as Hereford reserves took the court for experience. Brownfield got 19 and Hereford 8 in the fourth quarter. Milner Duval, playing aggressive basketball, added 11 points to the Herd score. He has hit in double figures the last four games.

Hereford's win was the second of the season over Brownfield, as they shelled the Cubs in Hereford last Tuesday, 83-41. High man during the Cubs' losing effort was J. E. Jones, a hustling little guard who tossed in 24 points.

## OFF THE Shelf

By VERITA SANDERS

You might remember a motion picture several years ago entitled "Strangers On A Train" starring the late Robert Walker and Farley Granger. That movie was based on the book chosen for review this week.

"Strangers On A Train, written by Patricia Highsmith, is an unusual novel of how one person can deliberately corrupt another, if the other is somewhat weak — or too honest.

Guy Haines, who was played by Farley Granger, was a successful young architect on his way to Texas to divorce his wife, Miriam, when he met Charles Bruno (Robert Walker) on the train.

From the beginning of their chance meeting Guy was impressed by the compelling personality of Bruno.

Listening to Bruno talk on the train, Guy was under an almost hypnotic fascination and was particularly unaware of the seriousness of the moment when the conversation turned to murder.

Bruno, with a childish impulsiveness, offered a fantastic plan for two perfect murders. He would murder Guy's wife, Miriam, and in turn Guy would dispose of Bruno's father. The success of his plot, he stated, depended on the perfect alibis of the persons having a motive.

Guy scoffed, then became angry, and left the train the next morning at his destination in Texas. He was taken aback when he found his wife had changed her mind about the divorce.

Ten days later, when Guy was in Mexico, Miriam was murdered in an amusement park.

From the very beginning Guy suspected the awful truth. But not until he received the first letter from Bruno did he realize how the stranger on the train

## How Can I?

By Anne Ashley

Q. Is it injurious to the evergreens to become overloaded with snow?  
 A. Yes. When an evergreen is overloaded with snow it often breaks the branches. Take a broom and gently knock the snow off before it becomes heavily laden.  
 Q. How can I prevent a skin from forming over the top of boiled starch, that is not to be used immediately?  
 A. All necessary is to cover the dish closely.  
 Q. How can I clean cloudy bottles and cruets?  
 A. Pour pure household ammonia into them and shake vigorously. Rinse them with boiling water.  
 Q. How can I remove machine grease spots from fabric?  
 A. Ammonia, in which salt has been dissolved, will usually remove machine grease spots from fabric. Or, add a little ammonia and soap to cold water and apply.

 them. However, there was one incident that merits special mention.  
 It was the only time that the President engaged in ad-libbing during his speech. His speech contained these words: "I shall recommend to the Congress that the Chief Executive be given the responsibility either to approve or to veto specific items in appropriations and authorization bills." The President's face then broke into a broad grin because he well knew that the grins on the faces of the members of Congress evidenced what was in their minds.  
 The President then said, and he was correct, "I realize that this power has been sought every year for a long time, but has never been granted the Chief Executive." There was laughter in the Chamber because the members well knew the past history of this request.  
 To vest in the Chief Executive veto any item in an appropriations bill would be to vest in the Chief Executive powers he was not intended to have under the Constitution. It is true that if such a right was properly and discreetly exercised it would not do harm, but if it was misused it could do tremendous damage to the entire country and every section of it. It would constitute an unlimited power, which our form of government does not contemplate be vested in one individual.

# Minor League Baseball Is Still Alive In Texas

**By HAROLD V. RATLIFF**

Who says minor league baseball is dying on the vine? At least it doesn't appear that way in Texas, which will come up with an increase in clubs next season.

Moreover, it will have clubs in four leagues, whereas it had them in only three last campaign.

The Texas League will be greatly changed since Dallas, Houston and Fort Worth moved into the Class AAA American Association. But this represented no loss in clubs since the Texas League will take in one to make it a 6-club circuit. That one appears to be Amarillo, which was in the Western League last season. The Western has given up the ghost.

The Sooner State League blooms anew and that means Paris will be back in baseball, thus adding another club.

The Sophomore League will have two new Texas clubs — Alpine and Odessa. That means two more.

So Texas faces the 1959 professional baseball season with 14 clubs compared to 11 in 1958. Here's the lineup for 1959:

American Association — Houston, Dallas, Fort Worth.

Texas League — San Antonio, Victoria, Corpus Christi, Austin, Amarillo.

Sooner State League — Paris.

Sophomore League — Alpine, Odessa, Midland, San Angelo, Plainview.

Tulsa is the out-of-state member of the Texas League while Carlsbad, Hobbs and Artesia are New Mexico cities in the Sophomore League.

The Southwest Conference football coaches have decided — again — not to come to the Texas coaching school for the annual interview with the sports writers.

The excuse is that they fear they were detracting from the coaching school, which is primarily for the high schools, and that this represented a duplication of effort since the sports writers came around to the schools in the fall and got their stories on prospects.

As before the excuse is weak. The Texas High School Coaches Association, which sponsors

the coaching school, considers the appearance of the conference coaches an attractive feature. "We liked to have this interview," said L. W. McConachie, executive vice-president of the coaches association. "We think it added to our school."

Regardless the excuse that it's a duplication of effort: there are many sports writers who go to the Texas coaching school who do not make the tour of the conference training camps. The coaching school is their only opportunity to see the conference coaches and get material for their stories and columns on their prospects.

What the conference coaches should say is that they just don't want to come to the coaching school; it takes them away from their recruiting or schools where they are paid a

fee.

They certainly don't seem to be paying much attention to their public relations and of promoting the very thing that pays them in their jobs — football.

A TV COURSE in Business English will be written assignments by mail for checking. gin Feb. 2, it was announced recently by and criticism. The course will be taught by Amarillo College administration. Enrollment Miss Beth Miesse, member of the business entitles students to submit letters and other administration faculty at Amarillo College.

## Amarillo College Offers TV Course How Can I?

It will henceforth play an increasingly important role in education at all levels.

The television station at Amarillo College is manned by television production students, several of whom are part-time employees of commercial stations in Amarillo. Under the direction of J. C. McDonough, head of the College radio-TV department, the campus station has telecast news and weather programs, relayed by KFDA-TV to Amarillo area viewers for more than a year.

Those who wish to take the course for college credit will be required to register and to appear on the college campus for tests and other written work four times during the spring semester. Arrangements will be made for local meetings in communities outside Amarillo, wherever 12 or more students register for the course.

Enrollment entitles the student to submit letters and other written assignments by mail for checking and criticism. Thus, registration is advisable if maximum value of the course is to be realized, even though college credit is not desired.

Necessary forms for registration may be obtained by mail or in person from the office of the college registrar. Registration dates are Jan. 15 to Feb. 9.

Further information about the TV course may be obtained by contacting the office of the evening dean, who will administer the course as a part of the community service offerings of Amarillo College.

Miss Beth Miesse, member of the business administration faculty at Amarillo College for more than ten years, will teach the course in the campus television studio. The program will be transmitted by microwave to KFDA-TV, which will relay the telecast to home viewers.

Teaching by television is nothing new either to the medium or to Amarillo College. After several years of experiment, most educators are convinced that education by TV works well. At AC, Miss Miesse has been teaching a course in office practice over the campus closed-circuit TV system for several months.

Junior colleges of the Chicago area have more students registered for television courses than they have in their classrooms. More than 300 colleges and universities are offering credit for a course in physics taught over a nation-wide network by the University of California.

As Dr. Franklin Dunham, chief of the educational section of the U. S. Office of Education, put it recently, "Educational TV is no longer an experiment. Its value has been proved, and

## Household Scrapbook

**Bronze Paint**  
If applying gold or bronze paint to metal surfaces, prepare the surface first by painting with a metal primer. Then mix the bronze powders with a special bronzing liquid or with a mixture of one part benzine to two parts of spar varnish. Apply with a brush as with regular paint.

**Perfume Stains**  
Perfume spots on furniture should be smeared with linseed oil or olive oil or camphorated oil immediately. Mop up and apply more oil on a woolen cloth.

**Ostrich Feathers**  
To restore ostrich feathers, sprinkle a little salt on the hot stove and hold the plume over the smoke a few minutes.

**Glove Odor**  
Kid gloves usually acquire an unpleasant leathery odor if the hands perspire. This can be avoided by dusting rice or talcum powder into the gloves as soon as they are removed.

**Baked Apples**  
Drop a teaspoonful of honey into the heart of each cored apple, when preparing it for baking, and see what a delicious flavor it imparts.

**Clean Leather**  
Leather may be cleaned by rubbing with one part vinegar and two parts linseed oil. Polish with a dry cloth.

**Dried Fruits**  
When dried fruits are to be chopped in the food grinder, run cold water over them and they will not stick together. Dried fruits can be cooked and kept on hand for a week or more.

**Repairing Plaster**  
It is easier to repair cracks in plaster if the plaster does not harden too rapidly, and this can be effected by mixing the plaster with vinegar, instead of water.

**Parchment Shades**  
Parchment shades can be cleaned very nicely with wall paper cleaner. They may also be sponged with a cloth moistened in soapy water.

**Curtains**  
Window curtains will keep clean much longer if they are dusted thoroughly each week. And, shake them before laundering. Soak in cool, soapy water for about a half hour, then wash in warm suds. Rinse thoroughly. Dry full length on the line if they are not to be placed on stretchers.

# COUNT YOUR BLESSINGS!

...but who could count them? They are too numerous to count. God isn't stingy... He doesn't dish them out to us one by one, but rather pours them out in numbers too big to count. Consider only a few of the greater blessings.

He created us in His image and gave us power of reason, of choice, and the capacity to respond to varied stimuli. He put the world at our disposal and cautioned us about how we use it.

He supplied our homes, our families and gobs of material wealth we never thought possible.

Who could ask for more? Tell us just who among us could even begin to count his blessings?

Maybe it's a good time to start doing something for God... start going to church, for He said, "Blessings are upon the head of the just."

By Lynn Carter

Q. Is it all right to squeeze blackheads from the skin?

A. When other means fail, this may be necessary — although you are always risking bruises. First wash face and hands painstakingly with soap and water. Then hold a face cloth wet with very warm water over the spot for a minute to soften the impaction. Cover your fingertips with paper tissues, and press out the contents of the pore. Bathe the skin again in warm water and soap, then touch the spot with an antiseptic or astringent lotion.

Q. What exercise will help to reduce shoulders that are too fleshy and flabby?

A. Extend your arms out from left arm. Now rotate both arms at the same time. Relax when arms are tired, then repeat.

Q. How can I determine the correct length of my eyebrows?

A. Place a pencil from the flare of your nostril up to the outer corner of your eye. Any hairs that grow beyond this point should be plucked out. If the hairs do not grow that far, fill in with eyebrow pencil. Otherwise, pencil only the hairs.

Q. Please suggest a treatment for oiliness and enlarged pores in my skin.

A. After cleansing the face well, cover it with a piece of absorbent cotton wrung out of hot water, to open the pores. When this has cooled, remove

## Long Time Ago

45 Years Ago

Mrs. John L. Fuqua, with a few neighbors present, gave a 6 o'clock dinner Tuesday in honor of Mrs. J. J. Gallaher, who will shortly leave Hereford. The table was beautifully laid in silver and cut glass and a five course dinner served. Toasts were offered during the meal to the departing neighbor by Mrs. Arnold and Mrs. Bates, visiting guest, by Mrs. Ferguson. After the dinner games were played and a short musical program given, Mrs. Norton delighting everyone with a vocal solo. A very pleasant hour was had in this hospitable home by Mesdames Henry Wilkinson, Guinn, O'Brien, Ezra Norton, Arnold, P. W. Price, J. E. Ferguson, Bates, Gallaher.

25 Years Ago  
Two exhibits claimed most of the attention of 527 people who visited the Panhandle Plains Historical Society Museum between 2:00 and 4:00 o'clock Sunday afternoon.

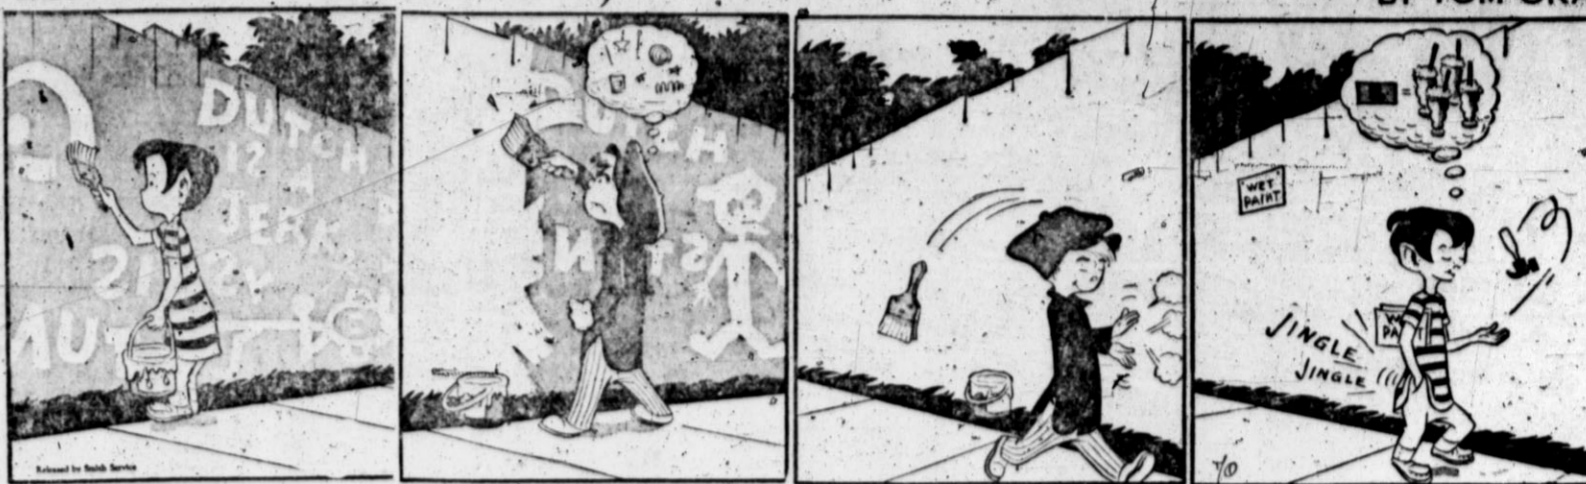

The exhibit of etching, block prints and water colors which are the work of Amy Miers Jackson of Amarillo were viewed by a constant stream of people during the afternoon.

A recently received coin collection, the property of Elmer Patterson of Hereford, was of great interest to Sunday's crowd. There were 358 coins, some antedating the Christian era, in the collection, which represents nearly every part of the globe. It is expected that more than 25,000 people will have registered in the Museum by April 14, on which date it will have been open just one year.

Sponsored by the Industrial Development committee of the West Texas Chamber of Commerce, this conference each year has provided West Texas business leaders with valuable information on techniques and trends in industrial development.

**"It is the desire of business**

**men in Hereford to bring industrial payrolls to Hereford," Sims stated. "That job can best be accomplished by a citizenship aware of the information to be made available at this meeting." Sims continued.**

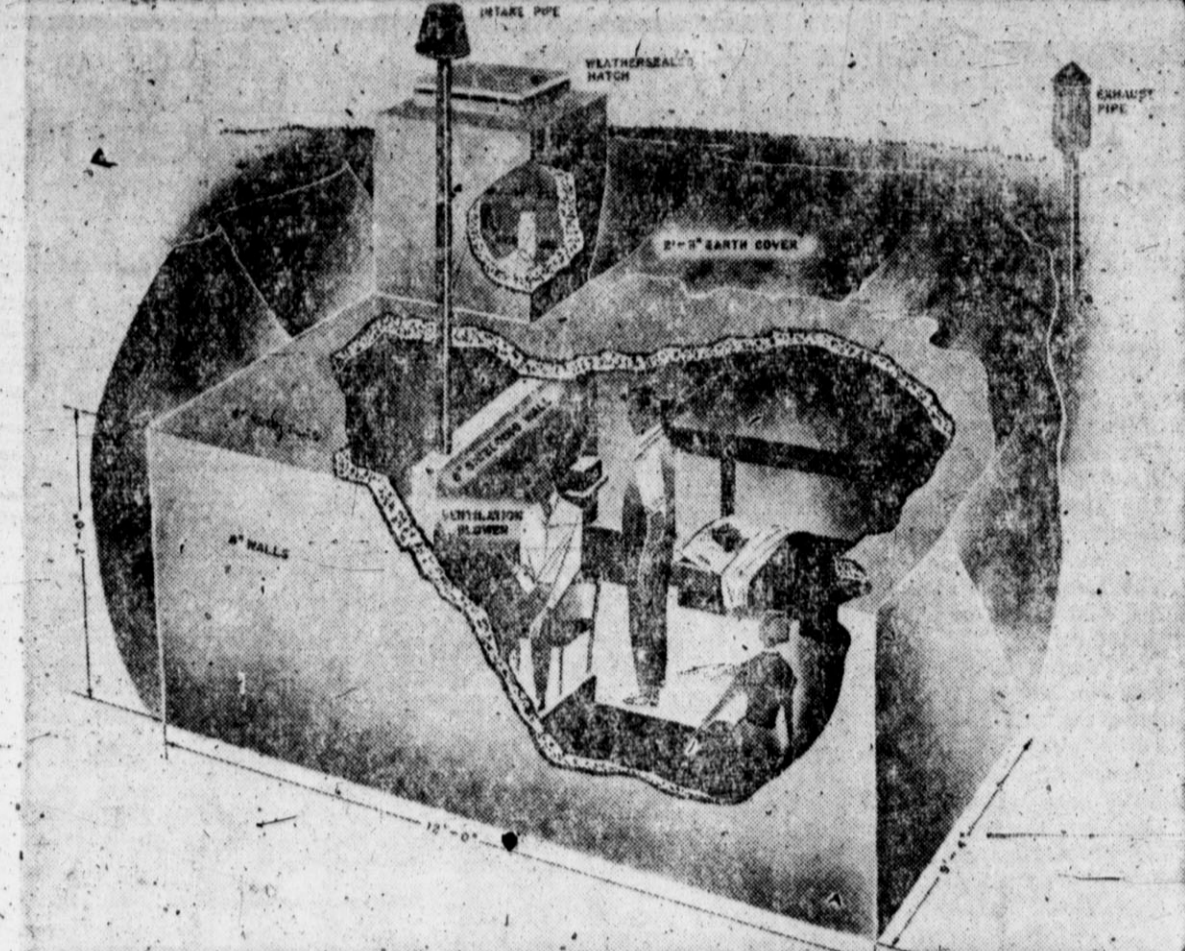

"It is my hope that a large delegation of Hereford business men will take this opportunity to help our area's growth and prosperity by attending this one day event in Abilene," he concluded.

**"The Drought Is Over — Are You Ready?"** will be the subject of a talk by Rex Jennings, manager of the industrial department of the Fort Worth Chamber of Commerce. Douglas Orme, vice president of Cosden

Petroleum Corporation, will speak on "Dies That Shape West Texas Industry".

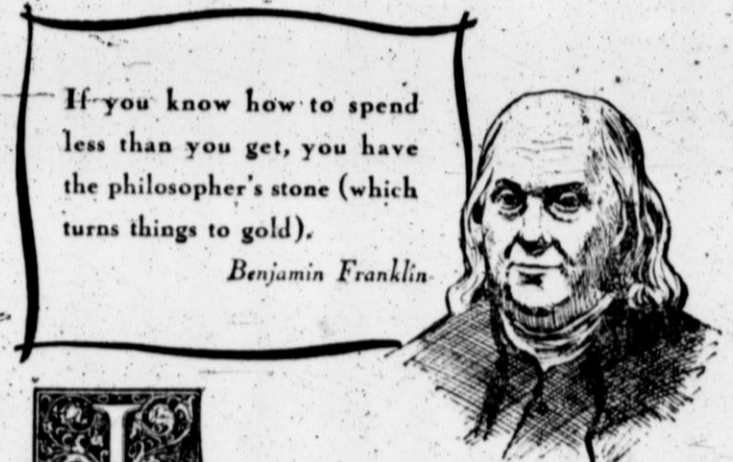

"Do's and Don'ts For The Industrial Committee" will be the subject of a talk by Harry W. Clark, industrial consultant with Texas Power & Light Company. Dan Hart, winner of the essay contest for high school students last year, will give his prize-winning essay, "What My Town Can Do To Have More Industry".

The four talks will be followed by a question and answer session between those attending and a panel made up of J. A. McCaul, director of industrial development for the Texas & Pacific Railway Company, Ray W. Hedges, manager of the Odessa Chamber of Commerce, Bill Sayles, area development representative of the West Texas Utilities Company, and Jim Wyatt, supervisor of Industrial development, area development division, Texas Electric Service Company.

**FALLOUT SHELTER** for a family of four to six shows how a layer of 2 feet 3 inches of earth over a 6-inch concrete roof slab offers good protection even in highly radioactive fallout zones. Cost of this backyard shelter would range from \$1,000 to \$1,500, including ventilation equipment. It is recom-

mended by the Office of Civil and Defense Mobilization as the best family fallout shelter for a moderate price, but other less expensive basement designs are available. Further details appear in Technical Bulletin TB-5-3 issued by OCOM headquarters at Battle Creek, Michigan. (OCOM Photo)

## How Can I?

**Q.** How can I make candles burn without trickling down the sides?

**A.** A few days before the candles are to be used, place them in the refrigerator and let them remain until the last minute before calling the guests to the table. The wax will not run down the sides; the flame will consume it.

**Q.** How can I prevent the formation of icing, or turning back to sugar, when making syrup?

**A.** When the syrup is coming to a boil, add one-third teaspoon cream of tartar to every two cups of sugar used, and this trouble will be avoided.

**Q.** How can I treat wet shoes to prevent them from cracking?

**A.** Stuff the shoes tightly with paper, then let them dry very slowly.

**SMITH VISITORS**

Mr. and Mrs. Bob Goldsborough, Pamela, Deborah and Bobby Jr. of Salem, Ill., have been visiting in the home of her parents, Mr. and Mrs. F. S. Smith, for the past week. Goldsborough is an employee of the Magnolia Oil Co. and he and his family are being transferred to Kermit. In route to Kermit they plan to visit his brother, Harry and family, at Odessa.

## Sheely Brings Back Color Of History's Circuit Judge

**Tyler** — Horseback-powered circuit judges passed into history years ago. But Tyler's Federal District Judge Joe W. Sheehy comes pretty close to reviving that colorful character.

Judge Sheehy handling the wheel of a shiny sedan rather than the reins of plodding Dobbin, administers federal justice to about two million people in an area roughly the size of the State of Maine.

The bespectacled jurist is the chief and only federal judge for the 41-county Eastern District of Texas. Its a job calling for lawbooks, wisdom and a pack of road maps. This staggering work load fell full on Judge Sheehy's straight shoulders last Valentine's Day when his co-jurist, Judge Lamar Cecil, died.

Judge Cecil handled a good portion of the court's cases on a rapidly expanding docket hearing disputes in the Jefferson division and his home division at Beaumont.

With Judge Cecil on the job, Judge Sheehy was able to spend more time on the bench in other divisions at Tyler, Texarkana, Paris and Sherman.

Ordinarily, the President wastes little time in filling a federal judgeship vacancy. But so far, the wheels of legislation have been slow and the list of cases pending continues to swell.

Unless another judge joins Judge Sheehy, it looks like a losing battle with the break-even point the best to be hoped for.

Looking back over 1958, it is easy to see why the 49-year-old

ing more than 10,000 miles to his automobile in his rounds.

Sheehy, on the federal bench since June, 1951, rendered decisions in more than 800 criminal and civil cases during 1958. This is an average of more than two a day and far above the national average.

Even with a junior judge to help, the case load would be astronomical. Throughout the nation, each federal judge has an average annual case load of only 260 cases, about one-third of the number handled by Judge Sheehy during 1958.

This Eastern District of Texas, smallest of the state's four districts, handled the third largest number of civil cases. According to the Justice Department, the Southern District had 1,900 cases while the Northern District had 1,850. The Western District had slightly less than the Eastern District with 790 cases.

But all except the Eastern District have more than one judge. The heavy Southern District has four; the Northern, three; and the Western District, two.

The Tyler-headquartered judge hopes the coming session of Congress may offer some help. "I feel that another bill similar to the so-called Omnibus Judgeship Bill" will go through this time," he said. The bill, designed for quick replacement of federal judges where vacancies exist, failed in the last session of Congress.

But unless the President makes an appointment or Congress sees fit to pass a vacancy-filling bill, 1959 pro-

mises to be just as busy as the past year.

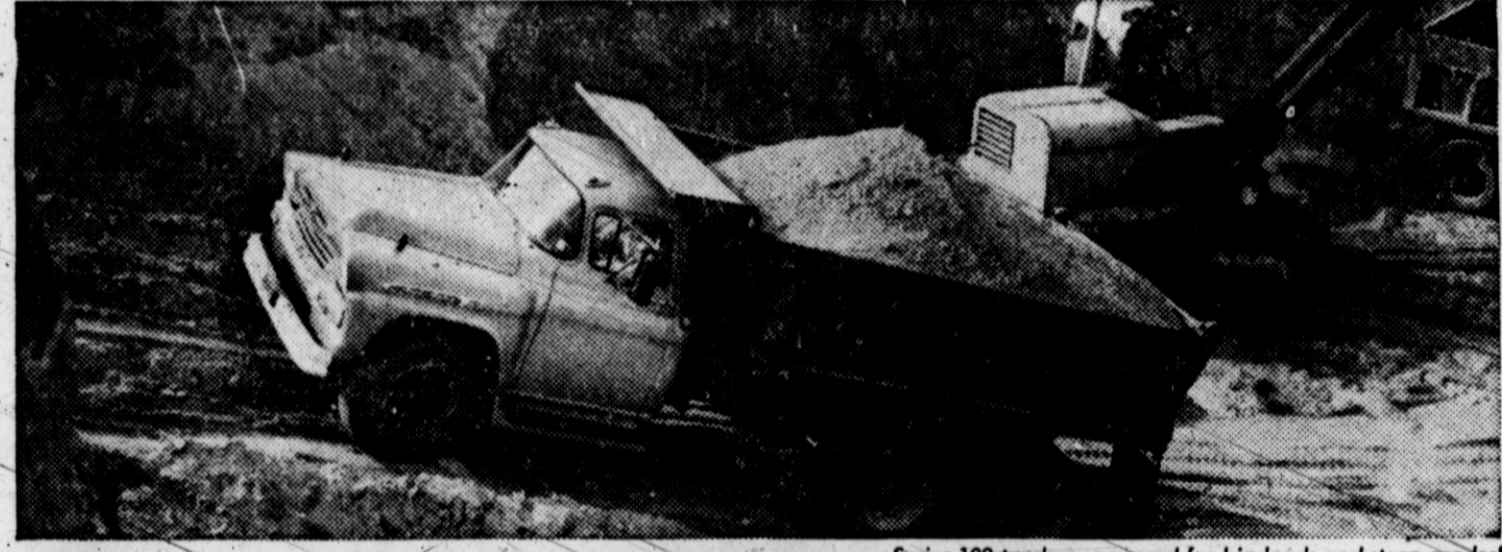

As things now stand, the Eastern District has almost 700 civil cases awaiting a hearing and another 175 criminal cases for the judge's attention.

Though the prospects for a lightened workload in the coming year seem as dim as the summer sun, Judge Sheehy maintains his guiding attitude which he says has helped him in his cases.

"Let each tub sit on its own bottom," he says. "He doesn't refer to himself, either."
