## County To Call Three Special Elections

WHATEVER IT IS, it landed about three miles south of Hereford Tuesday night. A box loaded with transistor transmitting equipment, carried by a balloon, landed on U. S. Highway 385 and was found by C. R. Gandy. The balloon ignited as the

Three special elections will be called for March 7, at which time citizens will vote on issuance of right-of-way warrants, and funds for a new county jail and courthouse renovation. The move was indicated during a regular session of the Deaf Smith County Commissioners' Court Monday.

Voters will cast ballots simultaneously for adoption of a law to issue \$260,000 for highway right-of-way cost, and bond issues of \$185,000 for a new jail

and \$200,000 for courthouse modernization.

Judge Homer E. Henslee recessed the court until Saturday morning, at which time the formal call for special elections is expected. The delay is necessary to comply with legal waiting period between time of notice to call for an election and the actual call is made.

Each of the three issues, right-of-way, jail and courthouse improvement, will be voted on separately. Monday, Commissioners voted to issue warrants for cost of

purchasing right-of-way along U. S. Highway 60, from Hereford east to the Randall County line. Total authorized issue will be for \$260,000.

Meeting with the Commission to iron out details of the right-of-way warrant issue were Bob Davis and Norman Palmer, both with Municipal Securities Company in Amarillo.

The vote, which is to be called for March 7, will be to allow the county to establish a maximum of 30 cents assessment for road and bridge funds on each \$100 valuation. The county then will assess

## Committee Heads Named By C of C

J. R. "Monk" Johnson, president of the Deaf Smith County Chamber of Commerce, Tuesday named his committee chairman and co-chairmen for the current year.

Selected to head the Membership committee are Neil Hooper and Dub Reeves. Howard Gault and Homer Brumby will lead the Agricultural committee activities for the year, while Guy Lawrence and Virgil Dodson already are busy formulating plans to keep their tourist and Convention committee busy.

The Civic Affairs committee will be directed by Francis Hardwick, assisted by Mrs. Tom Carter. The very important Industrial Development committee will be led by Cleo Meharg, aided by Les Combs.

A new committee, Legislative Affairs, will be headed by Bruce Miller and Wayne Thomas. J. W. Robinson and Dick Ross will lead the Aviation committee, whose work will be to help promote the county airport and aviation in the area.

A new Livestock committee is to be directed by Bill Dameron, with Lee Cocanougher as co-chairman. The Merchants' committee elects its own chairman each spring. Gene Moore presently is serving as chairman of that group.

## Around Town

This has been a right unusual week so far. We've had dust, bangs, balloons, basketball and boxing, not to mention some rapid-fire action by the county commission.

Basketball finally ended up in the spotlight as Coach Kitchens'azers clinched their second district championship. Some folks already have their reservations in Austin, working on the theory that it's easier to cancel them than to sleep in a car. No predictions from this corner, although we will admit the Whitefaces are one of the best-balanced teams we have ever seen.

This is Boy Scout Week throughout the nation and we join our neighbors in a tip of the hat to the organization on (Continued on Page 2)

## Boom? And Balloon Hit On Heels Of Blowing Dirt

By DAN MUDD  
BRAND STAFF REPORTER

Monday started out as a fairly decent day — with a refreshing drizzle greeting bread winners as they journeyed to their jobs early in the morning.

Then, before bank clerks could take their place at their respective windows, a duster, with gusts up to 90 miles per hour, hit the area.

Tuesday was a calm, pleasant day.

By no means was it a common day. Shortly after 2 p.m. a mysterious "boom" — or a "boom-boom" — shook the county.

Then, before residents had a chance to forget the thunderous rock 'n' roll, of the earth in the afternoon, C. R. Gandy nearly got his head knocked off by a strange box with a small aerial protruding from it near Hereford.

Was it a Sputnik that missed orbit? You name it — it was loaded with transistor transmitting equipment.

Anyway, it was unique from

the usual Sputnik. It was carried by a balloon, which exploded when the object hit U. S.

## Nab Two Sought For Floyd Co.

Hereford City Police arrested Bernardino "Nino" R. Cruz, 21 here Tuesday afternoon and turned him over to the Floyd County Sheriff's Department where he was charged with enticing a juvenile for immoral purposes.

Cruz's arrest resulted after the Sheriff's department in Floydada came to Hereford Tuesday to return a 15-year-old girl who had been missing from her home in Floydada for about four months. The girl was arrested here Tuesday.

Hereford Police officers later arrested Cruz and notified Floyd County officers of the arrest. Cruz was returned to Floydada Tuesday night.

The girl was 14 years old when she left Floydada with Cruz, officers said.

## Friday The 13th Stunt Night To Pit 11 Groups

Friday the 13th traditionally is a time to avoid black cats, ladders and mirrors but it will pay off handsomely for two organizations and the entire audience when the Hereford Rotary Club presents a "Friday The 13th Stunt Night."

The variety program will start at 8 p.m. in the Hereford High School auditorium. Eleven clubs and organizations have entered the show, competing for \$50 and \$25 prizes.

What will be in store for the audience is as dark as the traditional cat that walks that night. Each group is sure it has something unique and different, but none will announce in advance what it will present.

Organizations which will compete for the prize money are: Lions Club, Business and Professional Women's Club, Toastmasters Club, Hereford Art Guild, Rebekah Lodge No. 228, Music Club, Madre Mia Study Club, Hereford Garden Club, Jumbo Community Club, L'Allegria Study Club and the Young Mothers' Club.

A trio will provide music between the stunts, which are limited to a maximum of 10 minutes each.

Tickets may be purchased (Continued on page 6)

## Hereford Boxers Win Four Titles, Special GG Trophy

Hereford boxers covered themselves with glory at the regional Golden Gloves tournament finals in Amarillo Saturday night, winning four championships and one special trophy.

In its second year of operation, the Hereford boxing team lost just one fight in the final round and ended up with four first places from a seven-man squad.

With three winners in the High School division, Hereford fighters were the class of the

tournament. However, Leveland and Plainview combined their forces of two wins each to garner the team trophy. Hereford also took one Open division championship.

Unruffled Donny Lesly opened up the tremendous evening for Hereford by winning a decision over Sammy James Arredondo, ABC team, Amarillo, in the 188-pound class.

One of the big surprises came when Hereford's R. C. Welty knocked-out Alvin Hays of Lockney in 1:20 of the first round. Fighting in the 135-pound high school class, it was Welty's second KO win of his career. He bombed Hays with looping left hands from the opening bell. The Lockney batter finally slumped across the ropes after Welty connected with a sizzling left to the head.

Fancy Jeff Gomez gave Hereford its third high school trophy when he decisively Sam Lilly of Stinnett in a 175-pound fight. Gomez combined his fancy Dan defense with a strong right hand lead to earn the lop-sided decision.

In a 147-pound scrap, Don Bomar of Hereford was KO'd in 1:50 of the second by rugged Manuel Gonzales of Plainview. Using a big hand, Bomar tried

for the KO in the first, but was unable to cope with the unusually smooth defense Gonzales offered. Gonzales' came back strong in the second to earn the win.

Hereford's single finalist in the open class was Richard Hodge, a hard-hitting welterweight. Hodge battered Gary Watt of Leveland with stinging rights and lefts for three rounds to win the championship. (Continued on Page 2)

## Hereford Wins District Title; Two Games Left

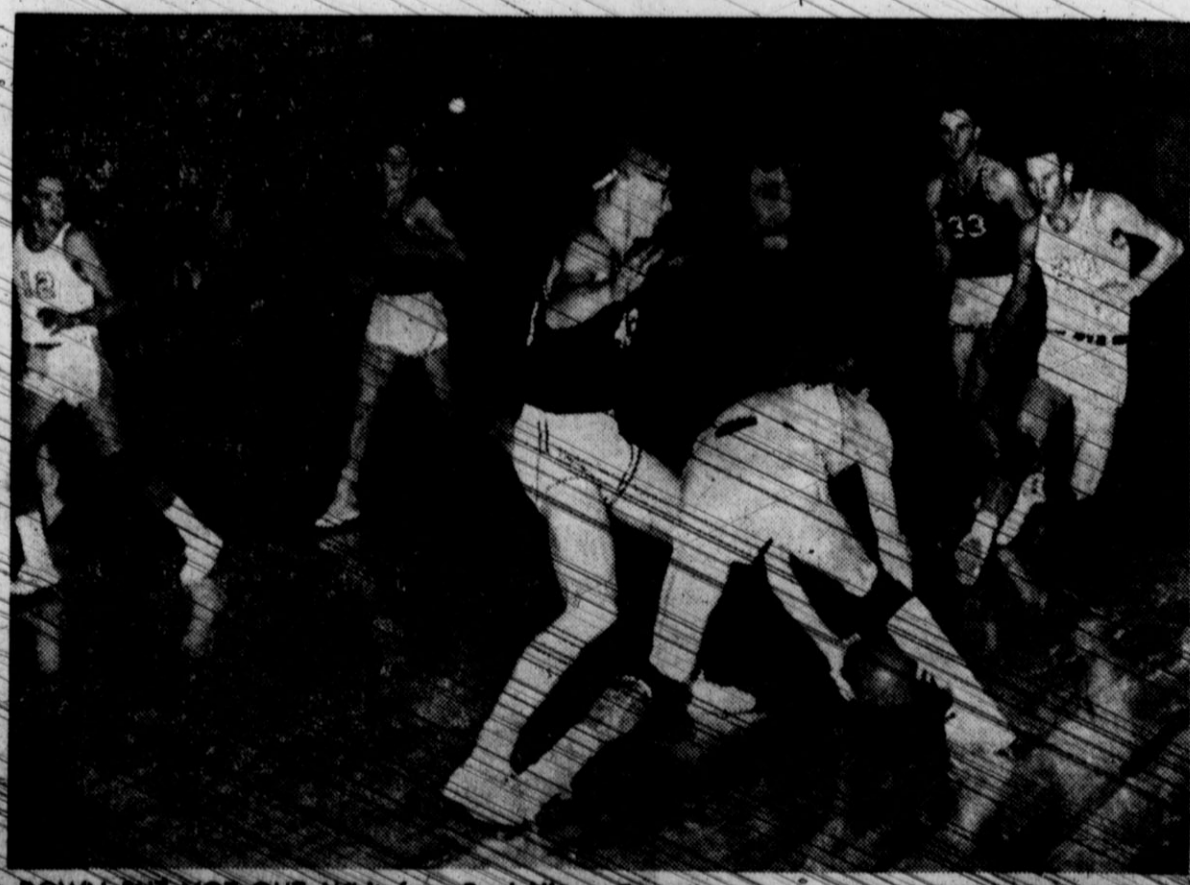

Hereford's mighty Whitefaces won their second consecutive 1-AAA District basketball crown Tuesday night, with the cooperation of Littlefield and Phillips.

While the Herd was trouncing Littlefield, 74-46, Phillips was knocking off Dumas, 61-56, to erase any possibility of a tie. Dumas, Phillips and Leveland now have three losses each, while the Herd is 6-0 with two games left to play.

Hereford schools superintendent Fred Cunningham told the brand that Hereford either would play bi-district or would combine into a regional of journey, depending upon the wishes of the other school officials of district winners. Last year four district winners met in a round-robin in Lubbock with Hereford picking up the marbles and moving into the state meet.

Dates set for bi-district or regional play-offs are Feb. 26, 27 and 28. The state meet will be held in Austin on March 5, 6 and 7.

Friday night Hereford will hit the road for the first of two games, playing the Leveland Lobos, who are always tough

## City Awards Sewer Line, Traffic Light Contracts

Wilson Construction Company of Perryton and C. B. Anderson Company of Amarillo were low bidders for two separate contracts granted by the Hereford City Commission Monday afternoon after sealed proposals were opened.

Projects let for contract were for construction of approximately 3,000 feet of six-inch arillo sewer line northwest of Hereford and for the furnishing of traffic signals at the intersection of Highway 60 and U. S. 385 (formerly Highway 51).

Wilson Construction, bidding \$5,748.53, was \$1,211.25 lower than the second lowest bidder.

C. B. Jordan Company of Amarillo, which offered a bid of \$6,959.78 for sewer line construction, Wilson estimated the construction would require about 40 days for completion.

Other bidders for the contract were Foran Construction of Amarillo, \$7,020.45; and Brodie Construction of Amarillo, \$7,479.25.

In the Brownlow subdivision, the line will be installed in the section between Aspen and Emma streets. The entire line will be from six to seven feet deep. The project also includes eight standard diameter manholes and six extra-deep manholes and a tie-in to an existing manhole.

C. B. Anderson's bid of \$1,493.69 for the furnishing of traffic signals at the intersection of Highway 60 and U. S. 385 was \$1,025.42 lower than a bid of (Continued on Page 2)

 A 126-pound exhibition between John Cordero of Hereford and Benny Diaz of Amarillo proved to be one of the crowd-pleasers of the evening. The stocky fighters stood toe to toe for the first round throwing leather as fast as possible.  
 In the second round Cordero got the upper hand with hard smashes to Diaz' head. The Amarillo boxer finally crumpled for the ten-count at 1:59 of the second round. Cordero was awarded the "Golden Trophy" for the win. This, in part, made up for his unpopular loss on the first night of the tourney.  
 Hereford boxing coaches were Melvin Young, Don McNeese and Charley Martinez.

 Items of construction include four two-way signals, one two-movement traffic controller, four one-way signals and four traffic signals standards.  
 Anderson estimated the project would take from 30 to 60 days to complete.  
 Speaking on behalf of the Deaf Smith County Commission, which attended the meeting, County Judge Homer Henslee told the city commissioners that the proposed County Jail, if built, would be large enough to house an overflow of city prisoners if the situation developed.  
 "The facilities of the new jail will be available to the city at any time," Henslee said, "as we feel that it will be large enough to make it available for use of both the county and city, if necessary."

### Boom...

(Continued from Page 1)  
 Highway 385 about three miles south of Hereford.  
 And back to the "boom" — at first Panhandle and New Mexico residents thought it might be a "minor earthquake." But weather officials and seismograph companies said "un-uh" to that.  
 A "Sonic Boom", an earthquake, or whatever it was — it stirred up a lot of excitement. Telephone buzzed as wife called hubby telling him that somebody's jumping on the roof.  
 Law enforcement officers scratched their heads Wednesday morning as they inspected an important-looking box they recovered Tuesday night south of Hereford.  
 Continuing five transistors and an antenna, the ??? was powered by three transistor batteries.  
 The equipment was contained in an 18 by eight-inch styrofoam box, which was about seven inches in height. In a separate compartment was found several wet cell batteries. The box contained no metal.  
 In an effort to identify the object, Hereford police called the weather bureau in Amarillo and were told that they didn't know what the thing was — might check the Air Force, they said.  
 Whatever the recent phenomena might be, the only damage reported locally resulted from the dusty wind, which played havoc with TV aerials and loosened some metal doors from hangers at Hereford Airport. And, of course, a little house-cleaning became necessary.  
 What next — green men?

 on the needed amount — in this case, it is estimated a 15-cent tax would be more than sufficient to pay the cost. This should drop to 7½ or 8 cents after the state pays its half.  
 Davis told the court that Municipal Securities will hold the warrants, at 4 per cent interest, with the county able to redeem half of them upon repayment by the state. The rest will be converted into bonds, at a rate to be determined by the bond market at that time, but probably, Davis said, less than 3½ per cent.  
 The proposed bond issue for construction of a new county jail will be \$185,000. The building, a one-story structure, is to be located on the north side of the courthouse, which the architect has estimated will be much cheaper than building another jail across the street, on the same property with the present jail.

Third proposed vote for the March 7 ballot will be \$200,000 bond issue for the remodeling and renovation of the 49-year-old courthouse.  
 Commissioners plan, with voters' approval, to put some of the Sheriff's department and other law enforcement offices on the north side of the first floor of the courthouse, which would be less expensive than building similar quarters across the street.  
 Although plans are not complete for the courthouse renovation, earlier discussions included such items as lower ceilings, modern heating and lighting, weather-tight windows, rest room facilities, remodeled District Courtroom and several other items.

Saturday also is the day the Commissioners are to decide which Hereford bank will serve as county depository for the next two fiscal years.

## Wind Damage Is Reported By Community Residents

By MRS. OWEN ANDREWS

The high winds Monday afternoon did quite a bit of damage in the community.

A trailer house belonging to Mr. and Mrs. Glen Andrews was rolled once and a half, doing considerable damage. The trailer was parked near their new house, which is nearing completion and into which the Andrews had been moving. One end of the trailer burst, causing some light items to be blown away, but clothing and most valuable things had already been moved. Charles Springer helped Andrews right the trailer and they were salvaging that worth saving.

A barn at the Lloyd Shultz farm was unroofed and several cotton trailers were overturned. A part of a shed roof at the Weldon Stephan place was blown away. Cotton trailers at the Owen Andrews farm, Glen Andrews place and Barber places were overturned, some of them receiving quite a bit of damage to sideboards.

Mr. and Mrs. Carlton Dobbins and Mr. and Mrs. Robert Dobbins went to Drasco, where they attended the wedding of Carlton's nephew's daughter, Martha Dobbins, Friday night. The rest of the weekend they spent visiting other relatives at Winters and Abilene.

Mr. and Mrs. Edgar Venson and daughters visited Sunday with Mr. and Mrs. Jeff Terrell and family in the Lone Star Community, which is nine miles north of Lockney.

Mr. and Mrs. Woodrow Jones and family have moved to the R. E. Haberer farm, which is located 12 miles south of Dimmitt. Visiting there Friday afternoon were Mr. and Mrs. R. L. Jones and Mutt Patterson, Mr. and Mrs. Jimmy Jones of Black visited the Woodrow Jones' Saturday night.

Mr. and Mrs. Jimmy Jones recently went to Dallas to see an uncle and aunt who had been injured in a car wreck. Mrs. Jones' grandmother, who also was in the accident, died Monday of last week and funeral services were held at Sherman. The wreck occurred near Corsicana.

Mr. and Mrs. Weldon Stephan and daughters were Sunday dinner guests in the home of his parents, Mr. and Mrs. Moody Stephens, north of Hereford. On Friday night, Becky and

OUR ANTHEM  
BYRAM, Conn. (AP) — George L. B. Frasher, principal of the Byram school, assigned parents of fourth to eighth grade pupils the job of teaching their children the national anthem when he found that many children didn't even know the first stanza.

A school quiz revealed that only two pupils in the fourth grade and one sixth grader knew the words to the anthem. NEWSPAPER CIRCULATION  
ELGIN, Ill. (AP) — Despite television and radio, newspapers reach most citizens.

The local newspaper reports that the Audit Bureau of Circulation announced that an average of 57 million copies of daily newspapers were sold every day last year.

Its survey shows that 84 per cent of U. S. families buy at least one newspaper every day, and that 82 per cent of all persons 12 years and older read their paper.

Mrs. King's body was taken to Pollett for burial. Mr. and Mrs. Clark Andrews went there also and spent Friday night in the home of friends, Mr. and Mrs. Joe Hershey, at Lipscomb, while their sons, Rocky and Kirk, spent the night with her sister, Mrs. Wallace White and family at Amarillo.

Mrs. Glen Andrews was honored at a gift party in the Weldon Stephan home Thursday afternoon. Other hostesses for the occasion were Mesdames Edgar Venson, Gary Mason, H. M. Mobbly and Floyd Cole.

Visiting the Warricks Saturday was Mrs. Warrick's grandson, Glenn Warrick of W. T. S. C. On Sunday Velman Warrick and Bill of Wellington came to visit them.

The Hereford boxers sure did bring up a record in the Golden Gloves district fights in Amarillo. We entered seven boys and came back with six trophies, including four first places, one runner-up and one exhibition award. Any way you look at it, that is a real record.

Gaylord Newell was on the federal jury in Amarillo last week, and got to make every one of the Golden Gloves bouts. Called it so happened was called for district court jury service and for actual jury service at the same time. I don't know how he decided which summons to answer, but he wound up reporting in Amarillo. It could be that federal jury service automatically takes precedent over district court — or he may have talked with Judge Schultz and secured special permission.

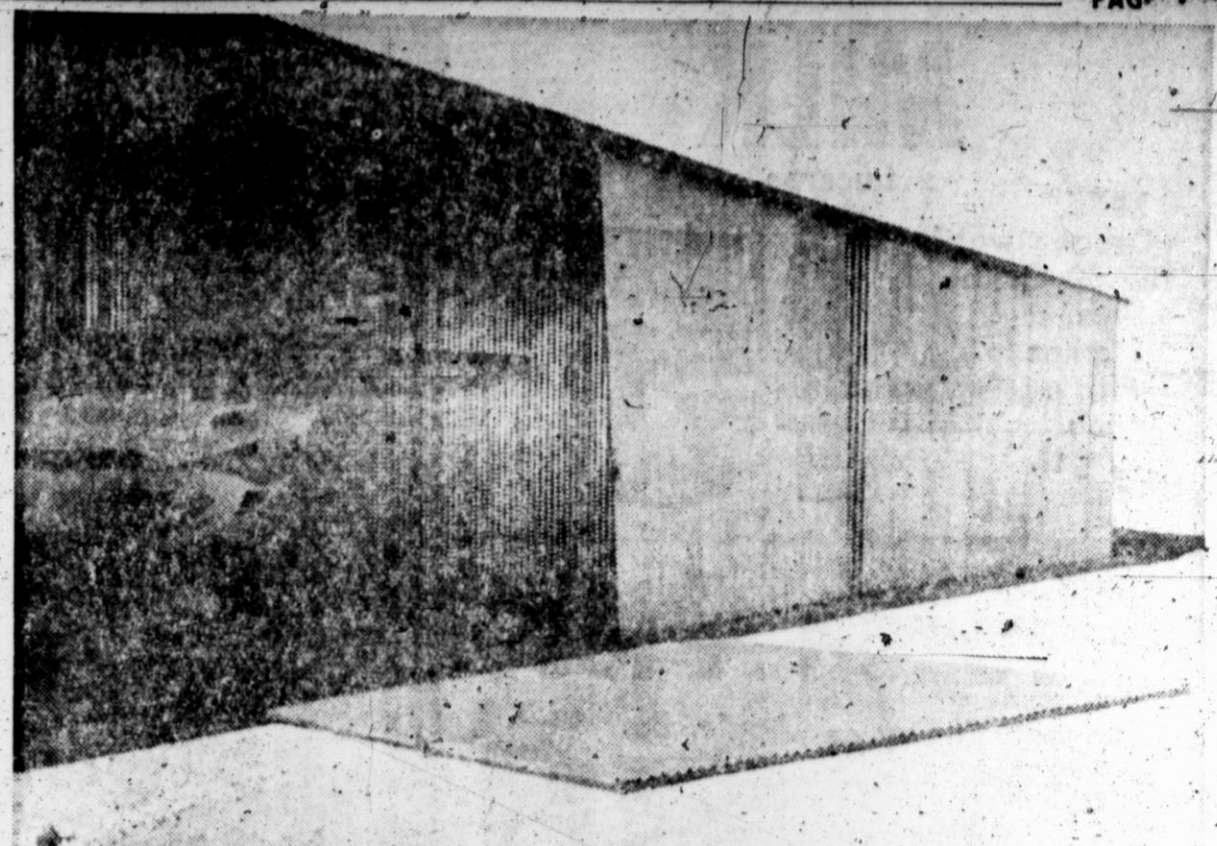

And if you see John Douglas Pitman coming your way, be sure and dodge. I notice where he is one of 62 people in Texas who have been "honored" with the privilege of selling tickets to a \$100-per-plate Democratic banquet to

Mary Harman, despite her Yankee upbringing, is becoming a fully naturalized West Texan. Tuesday morning she was going great guns on what a beautiful day we were having. This, of course, is what makes Texas such a great state. Natives forget the sandstorm of yesterday, and concentrate on the beautiful weather this morning.

Mrs. John Kelly, on the other hand, got all torn up over the "earthquake" we had Tuesday afternoon. She was out gathering clothes off the line and the thing hit just as she pulled open the storm door. She wrestled the door and the clothes, injured her left leg and couldn't figure out what was happening.

Joe Green and Major Schroeter were out doing some survey work at the time the "boom" occurred, and Joe says he saw a jet plane break the sound barrier to cause the "boom". This fits in with the theory held by many people following seismograph observer reports which said that we did not have an earthquake. I told him to go and tell Mrs. Kelly, but I doubt if he did.

Personally, I am concentrating on moisture. Earthquakes are out of my line. However, several housewives called in to say that the dishes were rattled off their shelves. Right or wrong, I am not going to argue with a bunch of women. I may not be very smart, but I know better than that.

TEARING DOORS LOOSE on hangars of Hereford Airport, a duster, powered by gusts of wind up to 90 miles per hour, hit Deaf Smith County Monday morning. Several runway lighting installations bent and fell over from velocity of the wind, and several TV antennas on Hereford homes showed results of the wind. (Staff Photo)

Dayton Chisholm, who moved from here to South Dakota a round four years ago, was visiting in Hereford this week. Dayton, who now files his own Cessna 180, landed at the local airport Monday — and couldn't stop talking about how Hereford has changed and grown. Dayton lives north of Pierre, where he operates a ranch. He says his part of the country is growing — but nothing like we have seen in this area. He also reports that Joe Poindexter is still on the ball in his area.

A town is sort of like your own children; you never realize how much they have grown until an aunt or uncle who hasn't seen them in several years drops in to emphasize the point.

I notice where the C-C has again started its news bulletin. This is a real good deal, and merits Manager Bill Thompson a pat on the back. People will take a lot more interest if they are well informed regarding accomplishments, plans and aims.

About the weather. If you have an irrigation well, keep on the good side of the butane, gas and electric people, depending on your source of power. No question, 1960 will be a wet year, but we still have to get through 1959. However, I am working on it. Maybe I will have something to forecast by Sunday.

Proceeds from the Rotary Club stunt night Friday 13th will be used to buy new equipment for the annual Jr. Livestock Show. The place will be high school auditorium, and they have booked 11 acts from various organizations.

The Wall Street Journal says that coffee and celery are due to be a lot cheaper in the coming weeks. I am always happy to buy anything cheaper, but I can't help wondering if a diet of celery and coffee might not get monotonous after a week or two.

I guess all of the basketball fans who want to accompany our boys to Austin are wishing they had taken the precaution of reserving some rooms back in December. Jay Boston was talking about it, but I don't know if he went ahead. I haven't heard anything about rooms, but I'll bet they are pretty scarce. This is one year I figure our boys may go all of the way. The boys in the news department are really having a heyday. There is nothing any more depressing than writing about a losing team and, visa-versa, nothing much more fun than following a consistent winner. The present Whiteface team, in addition, has come up with some photo-finishes, which add zest to the job.

ATTEND CONGRESSIONAL DINNER—Mrs. Dyalitha Benson, left, of Hereford talks with Congressman and Mrs. Walter Rogers of Pampa during a Congressional Dinner Feb. 4 in Washington, D. C. The dinner was sponsored by the Credit Union National Association (CUNA) in observance of the 25th anniversary of the passage of the Federal Credit Union Act. # REP. WALTER ROGERS WRITES: Hawaiian Statehood Grant Not Economically Feasible

To the people of the 18th District:

Last week the Interior Committee approved a bill granting statehood to Hawaii. The vote was 25 to 4. I was one of the four.

My opposition to statehood for Alaska and Hawaii has been known for a long time. Many attempts have been made to associate opposition to statehood for Hawaii with racial prejudice or some other type of emotional basis. This, of course, is not true. The opposition to both Alaska and Hawaii was based upon two primary reasons: (1) non-contiguity to the continental United States; and (2) economic factors. Both of these will be thoroughly discussed in Floor debate. They are too extensive to attempt proper discussion in a short newsletter.

One of the major reasons used by the proponents of statehood was the argument that Hawaii had been promised statehood when it joined with the United States. This creates a rather odd situation which will be difficult for the people of Hawaii to reconcile. If such a promise was ever made, it would have been a promise to all of the territory of the Hawaiian Islands at the time it became associated with this country. However, the bill granting statehood to Hawaii does not include all of the Territory of Hawaii. It includes only the eight major islands.

The smaller islands, which certainly would have been included in the promise of statehood, have been cast adrift insofar as statehood status is concerned. They will remain in the same territorial status that they have always occupied. It has also been argued that until statehood status is granted to Hawaii, the people of those islands will be second-class citizens. Yet, these same people are willing to cut off several of the islands in the original Hawaiian archipelago and simply disregard them either as to a promise of statehood or as to the question of second-class citizenship. The truth is that this type of reasoning just does not make sense.

The facts of the matter are that these islands are not included by the proponents of statehood because it is not economically feasible to include them, which is, of course, one of the reasons why statehood should not be granted to Hawaii.

### 'Removing Spots' Demonstration Presented At Wyche H. D. Meet

"Removing Spots" was the program presented to the Wyche Home Demonstration Club last Thursday in the home of Mrs. C. R. Damron.

Mrs. W. P. Axe talked on caring for handbags and shoes, pointing out that shoes deserve good care as they can effect one's comfort more than any other part of the wardrobe.

Mrs. Ira Ott demonstrated cleaning a hat. She used a vacuum cleaner with a clean dusting brush. After cleaning she steamed a velvet hat and placed it on a one-pound can to dry before storing. "Steaming brings a hat back to original shape and brings out the nap," she said. She stressed packing paper in the crown for storage and placing them in dust proof boxes or plastic bags.

Recommendations of the education expansion committee were read by Mrs. Ott and were adopted by the club.

Committees were appointed for planning a luncheon to be given in honor of the Progressive Home Demonstration Club March 19. Mrs. Ira Ott is chairman of the food committee and Mrs. C. F. Newsom is chairman of entertainment.

Mrs. Norman Hodges was welcomed as a new member. Members present were Mesdames George L. Olson, Ira Ott, J. V. Pickens, W. P. Axe, E. C. Hewitt Jr., H. L. Ward, C. F. Newsom and the hostess, C. R. Damron.

The next meeting will be held at the home of Mrs. C. F. Newsom on Feb. 19.

A great hue and cry arose in Washington last week, both at the White House and in the halls of Congress. The President argued that the Congress was trying to unbalance his budget by the passage of the veterans housing bill.

The President's stalwarts on Capitol Hill argued long and loud, that the passage of this bill would upset the budget that had been so carefully balanced by the President. The bill to which they were referring was the log jam in veterans housing starts.

The bill actually consisted of two parts. One part provided for increasing the interest rate from 4 1/2 per cent to 5 1/2 per cent. The other portion of the bill provided for the use of \$300 million to be used by the Veterans Administration for the purpose of making direct loans to those veterans living in areas outside of the metropolitan areas who were unable to obtain home financing from private enterprise, banking and lending institutions.

The bill did not provide for loose spending, as would be indicated by some of the stories that went out. The fact is that

### Rural Contest To Be Sponsored By County

By ARGENT DRAPER

The Rural Neighborhood Progress Contest is in its final year. After the judging and awards this year, the efforts in the community program will be directed to local sponsors. The Extension Office will still have record books, family report forms, and other material to help in working with the sponsors. In some localities local groups will sponsor these community programs and everyone concerned feels that it is working out well.

The "Farmer Stockman" magazine has available 50 extra community signs. They have agreed to put the community's name on the sign and then ship the sign direct to the County Extension office. These signs are being offered on a first-come, first-serve basis.

If the organized community in this county would like the signs the officers should contact the "Farmer Stockman" magazine at an early date. The address is: 4321 North Central Expressway, Dallas.

To get the most from today's food dollar consider these suggestions:

Plan your marketing list before you shop.

Buy only what can be used or stored satisfactorily.

Plan to use left-overs. Avoid waste.

Market in person — see what you buy.

Buy the form and quality that is best suited to the intended use.

Buy foods in plentiful supply.

Consider the cheaper versus the more expensive foods of similar composition and food value when you shop. Often the

food value of the cheaper food is just as good.

Examples are: canned or nonfat dry milk solids versus fresh milk; uncooked cereals versus ready to eat cereals; milk-flavored cheese; and canned fruits versus frozen fruits. Use the cheaper cuts of beef in pot roast or stuffed or flank steaks; use ground meat in loaves, patties or combined with vegetables in one-dish meals.

Now is the time to organize shrubs into screen or foundation plantings around the house. Many shrubs that dot the lawn and complicate mow-

#### AUSTIN HIGHLIGHTS

## Legislature Reaching Stage Of Hard Work

By VERN SANFORD

AUSTIN — With committee hearings going full tilt, the Legislature has reached the rough and tumble stage.

Committee hearings give everyone who has anything to say about a proposed measure a chance to come and speak up. It brings people to Austin in droves. And many speak up — very bluntly.

This year's lawmakers, particularly in the House, seem to be falling into an early pattern of much work, little play. In part, the shortage of sociability is attributed to the hard-fought speaker's race. It divided the House into two camps, whose members, for the most part, stayed aloof from each other during early weeks.

A second sobering factor is attributed to the new lobby control law. Actually, the lobby registration requirement has probably done more than any one thing in years, to make lobbying seem common-place, respectable. A total registration of some 700 indicated that just about everybody and his brother has a lobbyist.

But the law also requires that each lobbyist make a monthly report on the amount spent influencing legislation. Herein comes the reason for caution in embarking on a lobbyist, but too large expenses might incur the risk of being tagged a "rich lobbyist."

Toughest sliding continues to be over the money problem.

Gov. Price Daniel let go with both barrels at critics of his plan for clearing the state deficit and raising additional money for future state services.

Daniel's principal target is Rep. Frates Seeligson of San Antonio, whose 18 months' work with the State Tax Study Commission convinced him Texas taxing had to branch out, partly through a 1.5 per cent sales tax.

Daniel's money program is based primarily on a natural gas severance tax and increases to a number of present taxes. He warned he'd fight for this

program to the last ditch, even into a third term, if necessary.

First official consideration of a part of the governor's money program brought a real set-to.

It was a hearing on "the bookkeeping bill" by the House Revenue and Taxation Com-

mittee. This is a proposal, sponsored by Rep. James E. Bates of Edinburg, to credit to the general revenue fund \$18,000,000 from the omnibus tax fund. Since the general revenue fund is expected to be \$65,000,000 in the red by August 31, this would help to ease the pain in that area.

Representatives from the state comptroller's office called the pan unsound, declared such juggling around would just be "legalizing a false statement." Legislative critics labeled it "check kiting."

But members of the governor's office defended it stoutly as a means of giving a "true picture of financial condition."

More heat was generated when representatives of organized labor came up to protest Sen. George Parkhouse's Uniga reporting bill.

Briefly, the Parkhouse bill would prohibit use of union dues for political purposes, and require unions to file financial statements audited by a certified public accountant.

Labor officials protested that some phrasing in the bill was so broad as to limit union members from expressing opinions and, hence, free speech. They also said the CPA requirement would be too heavy an expense for small unions.

Parkhouse said many union members had asked him to sponsor such a bill so they could get an accounting of what goes with union funds. Some, he said, complained their dues money was used for purposes with which they did not agree.

Committee hearings on higher education appropriations brought varied, but cautious, expressions on how these increasing costs might be met.

Before the House Appropriations panel, A. M. Muldrow, Higher Education Commission chairman, said that the commission was studying the question of asking for higher college tuition rates. State college tuition was doubled, from \$50 to \$100 a year, last session.

### Designates 4-H Week In Texas

College Station — By proclamation, Governor Price Daniel has designated the week of Feb. 28-Mar. 7 as 4-H Club Week in Texas. The week is also being observed nationally.

"In 1914," Governor Daniel said, "the United States Government invested in the rural youth of our nation through the 4-H club program. Since that time, more than 20 million young people have received the benefits of this vast program and become 4-H alumni. These alumni are engaged in farming, ranching, homemaking and a variety of other occupations. Throughout Texas and the Nation a special salute is extended to them."

In a letter to the 111,000 4-H club members in Texas, the Governor said, "Since the 4-H club program was organized 50 years ago, members of your organization have made outstanding contributions to the material wealth of Texas and the Nation. More important, as young people, you represent the richest resource of our State.

"I extend sincere congratulations to each of you on your fine accomplishments of the past year and join the people of Texas in saluting you, your parents, adult leaders and friends who make this program possible."

"Please accept my best wishes for 1959 and the years ahead. May you continue to build yourselves, your homes and your communities, and thus help build our State and Country. The future holds bright promise for our land, and as 4-H club members you have a vital share of this future," Daniel said.

Plans for observing 4-H Week are being perfected in the counties and will include special recognition for 4-H alumni. More than 1,000,000 Texas young people have been 4-H members during the past 50 years. Today, 4-H alumni are leaders in business, industry, the professions and government and are among the strongest supporters of the Agricultural Extension Service sponsored organization.

### Church Members Set Celebration

The Central Church of Christ of Hereford, Sunday, Feb. 15, will celebrate its first year in the new church building.

Jack Mackey, a former Federal Bureau of Investigation agent and police officer and now pastor of the Southside Church of Christ in Amarillo, will speak at 8 p.m. His topic will be "The Place of Religion in America's Future."

Members of the church are working for a new record in Bible School attendance Sunday mornings. Their goal is 500 in attendance.

Russell Ingalls, pastor of the Central Church of Christ, urged the public to attend the talk in the afternoon and the Bible School in the morning.

More heat was generated when representatives of organized labor came up to protest Sen. George Parkhouse's Uniga reporting bill.

## Dormitory Construction Slated At Boys Ranch

Construction of a cottage-type dormitory at Cal Farley's Boys Ranch is the 1959 project of the United Peace Officers of America, according to Sheriff Day Thompson of Vega, president of the national association.

The project was approved recently at a meeting of the board of directors of the organization. The new dormitory will be designed especially for boys in the year to eight year age bracket, Thompson said.

In the new building, eight of these smaller youngsters will live with a man and his wife. The housemother will prepare all meals and the entire surroundings will be as nearly like a real home as possible, and there will always be a houseparent on hand to look after the little fellows.

At the present time, 17 boys below eight years of age are living in the Old Tascosa court-house, and it has long been the aim of Ranch founder Cal Farley to be able to provide a more homelike atmosphere for them. Most of the small boys came to the Ranch along with older brothers so that the brothers would not have to be separated and also in many cases, to remove the little fellows from unwholesome environments, Sheriff Thompson explained.

In 1955, the United Peace Officers of America was organized to assist Boys Ranch in a building program. The first project was the Boys Ranch Independent School and since that time the group

Ranch. The national organization is composed of peace officers, sheriffs, highway patrolmen, rangers and FBI men from all over the United States and Canada.

Members present were Becky Duncan, Linda Hubbard, Ellen McGowan, Vickey Schneider, Janis Dean, Anna Mae Schroeder. Others present were Mrs. Louis Olson, leader of the group, and visitors, Mrs. Karroll Higgins and Susie, Mrs. Claude McGowan Jr. and Mrs. Mary Dean.

The next meeting will be held in the home of Janis Dean Feb. 20.

To save work later, consider the potential size of the tree or shrub when choosing a location for setting and resetting. Keep the size of your house in mind when you choose foundation plantings. The landscaping meeting will be held next week. If interested you should call the office for information.

With the pretty spring clothes in the stores I am really anxious to begin the sewing courses. You should now be planning for your spring and summer wardrobe needs. With the pretty materials and accessories, careful planning is very important in stretching your clothing dollars. Accessories are still very important. In jewelry, pins seem to be more popular than bracelets. Don't forget that home sewing can cut clothing costs.

The club women are reporting good programs on improving the memory.

The cooperation that you have given me on the community center is certainly appreciated. To organize the rural area is quite a job. Letters have been sent to chairman in most parts of the area, however, if any of you, who did not receive a letter are interested in volunteering your services, please call the office.

A meeting of rural workers will be held Tuesday, Feb. 17 at 2 p.m. in the Community Room of the First National Bank. Material should be ready at this time and we will have a County map so that areas can be designated. We are hoping that each person will not need to call on more than six or eight people.

Special appreciation goes to the young people who got out and made the personal appeal which brought the generous response. The cities on the list that contributed more than Hereford were Dallas, Ft. The governor of Texas has proclaimed Feb. 28-March 7 as 4-H Club Week in Texas. Locally there will be a lot of celebration. Deaf Smith County 4-H Clubs will hold their week March 8-14. The 4-H "Share-The-Fun" Festival is Friday, Feb. 20. This is the night 4-H'ers bring their families for a night of fun.

The 4-H King and Queen will be crowned at the festival. The king and queen will be chosen on the basis of the best record book.  J. Ray, a capitalist of Vernon and also editor of the Vernon Record, will erect a modern store building on the two lots adjoining Ray's jewelry store on Main Street. The building will be 50 foot front by 100 feet deep with deep, plate-glass windows and a double entrance. The interior will be up-to-date in every respect, especially for a dry goods emporium. For the present the structure will be one story, but a second and third story is contemplated in the near future. The new building, in one of the best locations on Main Street, will be occupied by the Fox Dry Goods Company, a corporation of sufficient capital to handle a large volume of business. Work will begin as soon as material can be bought and placed upon the ground.

Mr. M. E. Garrett, formerly Penny manager at Cooper, Texas, is the Hereford manager. Mr. A. N. Henry is Garrett's assistant.  
 Mr. Garrett announced his store ready to celebrate the opening with two days, Friday and Saturday.

 the White House was strong in support of increasing the interest rate from 4 1/2 per cent to 5 1/2 per cent, yet was opposed to that portion of the Veteran Housing Bill making it possible for veterans in the smaller towns and cities to be able to get loans to build homes. The direct loan money is available only if the veteran in the smaller town or city cannot get financing from private institutions.

Naturally, the large lending institutions are for the increased interest rate, and also like to have their outstanding loans as close to home as possible. This means that it is very difficult for the veterans living in the lesser populated areas of our country to be able to build homes under the veterans program. This is the thing we are trying to correct. We hope that the private lending institutions will meet the needs of the veterans.

There was much opposition to the increase in the interest rate, but everyone realized that unless the interest rate increase was permitted, the private lending institutions simply would not loan money to the veterans to build homes, either in the metropolitan areas or in the lesser populated areas.

The President last week delivered to the Congress a message concerning his feelings about civil rights. It was a seven-point program in which the President, with all due respect, undoubtedly permitted some of his advisors to lead him into advocating several measures that would further centralize the government, place in the hands of the Executive powers that are now supposed to be exercised by our judicial branch of the government, and set up a new commission.

The President would also extend the life of the Civil Rights Commission, give financial and technical aid to State and local agencies in carrying out desegregation decisions, and provide for children of armed forces personnel to be educated when schools have been closed because of desegregation troubles.

This message was in keeping with what the Congress expected the President to recommend. We appreciated seeing several people from the Panhandle in the office last week. They included Howard Saunders, Frank Storm, Mark Miles, Mr. and Mrs. Cecil Blakley, and Mayor

San Armstrong — all from Hereford. Mrs. Dyalitha Benson, Managing Director of the Hereford Federal Credit Union; and the Rev. Woodrow Adeock, pastor of the First Methodist Church at Pampa.

### Legislature.

(Continued from Page 1)

Committee, most of a group of 8 junior college presidents said they would approve a general sales tax if necessary.

**BY THE DOZENS** — More and more bills keep pouring into the legislative mill daily. Among recent ones are those measures which would:

**PROTECT PUBLIC RECORDS** by providing a three to seven year prison term for unlawful removal, by Sen. David Tattill of Stamford.

**CREATE A NEW COMMISSION** to regulate telephone, gas and electric power companies statewide, by Rep. Bill Kilgartin of Houston.

**KEEP PASSENGER TRAINS** running longer after revenue declines, by Rep. Clyde Miller of Houston. Railroads cannot now be required to operate passenger service at a loss.

**INCREASE FRANCHISE TAX** on corporations by 60 cents on each \$1,000 capital, by Rep. J.E. Winfree of Houston. Part of the Daniel tax program. It would raise an estimated \$14,000,000 this year, \$15,000,000 next year, then expire.

**RAISE STATE EMPLOYEE** pay 5 to 20 per cent on salaries under \$4,800, by Travis County legislators.

**PERMIT FLEXIBLE RATES** on automobile insurance, varying according to good and bad records of drivers, by Sen. Jarrard Secrest of Temple. This is a highly controversial bill which was defeated last session.

**TAX TRADING STAMPS** by 10 per cent, by Rep. Joe Chapman of Sulphur Springs.

**REGULATE BOXING AND WRESTLING** by a new commission created for that purpose, by Rep. Will Smith of Beaumont.

**ABOLISH AERONAUTICS BOARD** by Rep. Bill Hollowell of Grand Saline. He called it a "needless waste" of state money with the CAA serving all useful aviation functions. He said he is considering a similar bill to end the Good Neighbor Commission.

## EVERY CENTURY

NEW HAVEN, Conn. (AP) — Yale officials wonder who the Ohio boy will be who will graduate with the Yale class of 2037 and wind up in the U. S. Supreme Court.

Here is the pattern to date: In the class of 1837, from Ohio, was Mortimer R. Waite. He became Chief Justice. In the class of 1937, from Ohio, was Potter Stewart. He was recently appointed to the high bench.

The pattern may have started two centuries ago. In the class of 1737 was Philip Livingston who signed the Declaration of Independence — which created the Supreme Court.

"TEST SHOWED  
28 Times More Profit  
WITH PURINA STEER FATENA"

STEER FATENA
SINGLE-SOURCE PROTEIN
NO SUPPLEMENT

R. E. Spangler,  
Assistant Manager  
PURINA RESEARCH FARM

"In one of our tests with 160 steers, the lot on Steer Fatena returned 28 times more profit than those fed no supplement. The Steer Fatena lot made 6 times more profit than a group fed a single-source protein. All steers in this 195-day test got the same quality hay and were fed Livestock Mineral free-choice.

"Purina Steer Fatena did a better job, because it stimulated bacterial activity in the rumen . . . used grain and roughage to better advantage. The Steer Fatena steers carried more weight, better finish . . . brought more money."

Whether you feed light cattle or heavy cattle, whether your roughage is of good or poor quality, there's a Steer Fatena to help you get the most beef from your grain and roughage. Come in. Let us help you work out a profitable feeding program.

# LIGHT

GOD said, "Let there be light: and there was light."

How much is shining on you? Are you just sitting there—  
 oblivious to the needs of your fellow-man — and inactive in your church?  
 Then a cloud is hiding you! Want to be a reflector?  
 Then get out in the open — out where the light can beam upon you.  
 Absorb aplenty of it...enough to purify and light up the  
 dark corners of your soul. Lead your family and  
 others to church. That is being a reflector of real light...true light.  
 For, "God is light and in Him is no darkness." 1 John 1-5.

 Let Us Forget: The Gospel of the Crucified Christ views all men as in a lost and perishing condition. Its provisions are made for all mankind without exception. It knows nothing of persons so good as not to need salvation, or of persons so bad as to be beyond the reach of the salvation which it provides. All, without exception, are to view themselves as "wretched, miserable, poor, blind, and naked; all are counseled to come to the Lord Jesus for eye-salve that they may see; for gold that they may be enriched; for garments that they may be clothed."  
 A most cordial welcome to you.

# OFF THE Shelf

By P. A. TUCK  
Fact is more exciting than fiction, but when both are combined artistically, the result is nothing short of amazing. Such a difficult task has been handled with a deft touch in *The Day On Fire* by James Ramsey Ullman.

The author took the known facts about a brilliant French poet, Jean - Nicolas - Arthur Rimbaud, mixed them with a dash of imagination and concocted a glittering adventure story.  
Rimbaud was born in 1854 in northern France and died 37 years later in Marseilles. Until he was 15, Rimbaud was a child and a schoolboy. For the next four - and only four - he was, simultaneously, a poet of genius, a visionary idealist, and a deliberate wallower in the gutters of depravity perhaps unmatched in all human experience.

For the next six, now through forever, with both writing and debauch, he was a vagabond wanderer through Europe and Asia. And for the last twelve, until just a few months before his death, he was a trader, explorer, gunrunner and possibly a slaver along the Red Sea coasts in the section of north-east Africa known then as Abyssinia and today as Ethiopia.  
Ullman spent months in Africa tracing routes and gathering material for the book, which was 18 months in creation. His attention to detail does not detract, but rather adds to the fascinating tale.

Using Claude Morel as the fictitious version of Rimbaud, Ullman has woven an adventure story that seizes the reader and makes him part of the strange lives of a genius poet who turns his back on family, friends, background and the writing he loves to search for a nebulous goal in the far corners of backward countries.

Tortured by dreams and nightmares, Morel grasps happiness only momentarily during his lifetime. In a mud hut or amid the sun-drenched desert, as his questing toward the unknown drives him into remote corners of the earth.  
Morel cares nothing for the conventional, either in jobs, friends or surroundings. And

through the talented writing of Ullman, the reader shares the black depths, the blue green nightmares, the restlessness of Morel, all the while uncertain of the future.  
*The Day On Fire* will most certainly sear the imagination of its readers for years to come.

# LESABRE, the Buick you can own for only \$200 more than the best models of the leading low-priced cars...

This is in no way a "stripped" car you're looking at. Come in and study the manufacturer's suggested retail price of a Buick LeSABRE like this, equipped with Twin Turbine automatic transmission, radio, heater, white sidewall tires, and anything else you want in your next car. Then do the same to the top models of the leading low-priced three, and you'll find the statement above stands up.

What a difference for only \$200!

Now think how much more you'd enjoy a Buick. A comfortable, substantially built automobile. A car with the finest ride in all Buick history. A car with Buick's exclusive fin-cooled brakes, and the smoothest type of transmission money can buy. A wonderfully quiet and greatly respected car!

**Owners report QUALITY outstanding**

Your money in a Buick today puts you in on the ground floor of what promises to be a long new time of leadership for Buick cars. "My sixth Buick and the best I ever owned!" "Best-operating car I've driven in thirty years!" "Much the best Buick yet!" Reports like these mean extra pleasure in your Buick ownership... and they mean hard dollar value when the time comes to trade. It all adds up to the best proof in 56 years that: **"WHEN BETTER AUTOMOBILES ARE BUILT, BUICK PEOPLE WILL BUILD THEM!"**

**New in gas economy, too!**

In planning the '59 Buick, the new Wildcat engines, transmissions, and axles were all engineered to work together for greater gas mileage. Across the country owners tell us they are getting 15 to 20 miles per gallon in the '59 Buicks. And in a recent thorough test of Buick LeSabre against another car of comparable size and a good reputation for economy... the Buick won in every case under all kinds of driving conditions.

So we think we've got a new kind of value in this Buick LeSabre. And we suggest you go to your Quality Buick Dealer's and see whether you agree before you buy a new car.

## Household Scrapbook

### Making Hole in Glass

A perfect hole may be made in glass by first covering the area where the hole is to be with putty and making a hole the size desired in the putty. Pour into the hole or "well" a little melted lead, and unless the glass is exceptionally thick, a perfect hole will result.

### Meringue

If too much sugar is used little drops of syrup will form on the top of the meringue. The correct proportions for pies are from one to five tablespoons of sugar to each egg white.

### Scratched Silver

When silver has been scratched, make it as smooth as new by rubbing with a chamois dipped in olive oil.

### Vegetables

Vegetables that grow underground should be covered in cooking, and those that grow above ground should be left uncovered. To keep the green color in green vegetables, cook them in an uncovered kettle until they are just tender.

### Leather Furniture

Old stains may be removed from leather furniture by coating with a mixture of powdered pipe clay and water, mixed to a paste. Allow to remain several hours, then brush off, repeating if necessary.

### Threading Needles

Cut the thread on a slant when threading a needle, and see how much easier it is to slip the pointed thread through the eye of the needle.

### Duck Feathers

Remove the feathers from white ducks by dipping the ducks into boiling water and then wrapping in a thick cloth. The steaming will loosen the feathers within a few minutes, and the pins will come out readily after the feathers are removed.

### Spiced Fruit Peel

To make spiced fruit peel add cinnamon bark and whole cloves to the syrup used for cooking the peel. The proportions are half a stick of cinnamon and six whole cloves to each two cups of sugar.

### Downspouts

Clogged downspouts may often be opened by dropping a few handfuls of ordinary rock salt into them where they connect with the eaves.

I didn't think there were any bashful boys left in this day and time, but it seems that I am wrong.

Billy Legg complains that he is so-o bashful that it takes him two days, at least, to muster enough courage to call a girl for a date. However, after he calls her he becomes bolder — just ask Lois Christman. She knows!

While we're on the subject of being bashful, Ann Wagner and Bonnie Wagner were walking down the hall together. As usual, Ann was talking with her hands, and she accidentally put her arm around Vance Robinson. Ann was very embarrassed, especially because Vance's girlfriend was behind them!

Finding a bold person is not hard to find as a bashful one. Take John Gilliland for example: He asked a girl to go steady on the second date — rather

bold wouldn't you say? Girls aren't as bold as boys; if they are they don't want it to be known. Right, Carolyn Lee, Betty Sneed and Connie Robinson?

What is your favorite sport? Are you interested in basketball, football, baseball or sport car racing? If you are interested in sport car racing, here is something to look forward to seeing.

An educational highway safety program, which has been presented to more than a million students in 1,400 high schools throughout the country, will be brought to Hereford High School on Thursday at 1:30 p.m. by a famed Indianapolis Speedway race driver.

Lecture teams of internationally-known track veterans are in their third year of personally taking to teenagers the expert instruction on safety derived from their unparalleled motoring experiences on the race track and on the highways. The visit here has been arranged by

the operation of Mr. Bill Stanford, Suit's Auto Supply Company, and the Champion Spark Plug Company of Toledo, Ohio.

Fred Agabashian, who began his career on California tracks at the age of 17 and has raced in the famed Indianapolis Speedway classic eleven times, will conduct the lecture-demonstration here. He will illustrate his talk with a racing film, a flannel-board demonstration and with selections from his own racing experience, comparing race track situations to highway driving. He will, upon request, give student cars a safety inspection, advising on detection of functional defects that could lead to traffic accidents.

The National Safety Council

Public Interest Award for Exceptional Service to Safety has been presented to the Champion Spark Plug Company of Toledo for developing and maintaining this highway safety program in public schools. It was also the subject of an editorial in the "Saturday Evening Post," Educational, civic and law enforcement officials who have observed the impact of the safety lectures and films upon assembled students have given it unqualified written endorsement, citing the program for its objective, constructive and wholly non-commercial approach.

The program was developed to supplement the work of secondary school educators, in emphasizing the safe driving theme. The nation's top race

drivers — Indianapolis Speedway veterans — were selected in order to gain and hold the attention and respect of students, many of whom are familiar with their names.

Mr. Agabashian is one of the world's few drivers, who have qualified for membership in the exclusive Champion 100-Mile-An-Hour Club, a feat attainable by driving the 500-mile Indianapolis race without relief at an average speed in excess of 100 miles per hour.

More than any motorist on the highway, he points out, professional race drivers know the crucial necessity of driving with a mind constantly alert with sound judgment at all times, and with a constant spirit of courtesy. They know the impor-

tance of having cars in sound mechanical condition. For these drivers travel from 35,000 to 50,000 accident-free miles per year, on public highways, going from race to race and school to school.

In his lecture and flannel-board demonstration with mock cars in such hazardous highway situations, Mr. Agabashian

draws upon his own rich background to bring home the safety message. Each anecdote is an object lesson — how circumstances on a race track compare with highway-driving problems, but with this vital difference — when a professional driver gets into trouble, he knows what to do; when the average motorist gets into trou-

able he is, neither equipped nor prepared to meet that emergency.

# 18 Congressmen Own Homes In Washington

By **TEX EASLEY**  
Washington — Texas members of Congress were wedded to the idea of owning your own home in Washington.

Of the 21 members of the Lone Star state delegation, only 18 don't own their homes here, and with many it's a second house since they also have one in Texas.

"Maybe the word 'own' ought to be clarified," commented Rep. Joe Kilgore of McAllen with a smile. "Most wage holders have an interest." He voiced the feelings of several, especially the newer ones. Few are the members from any state, who ever buy during their first term here. Some aren't certain they'll be back. Some don't want to seem presumptuous, and give an opponent a possible peg on which to hang a snide remark.

There has been a great change in attitude by the legislators toward owning a home in Washington. Twenty years ago, with Depression years just behind, many felt they would be charged with getting a hit too removed from their district if they bought a house in Washington. Rep. Paul Kilday (D) of San Antonio is one of the old timers with foresight. He bought a nice brick home soon after coming here in 1939, and today it's probably worth more than twice the price paid.

Rep. John Young (D) of Corpus Christi, now in his second term, illustrates current thinking.

"We're looking around and hope to build or buy," he commented. "It's just not practical not to own your own home, especially if you have kids. And we have three now and expect the fourth in March."

Rep. Frank Ikard (D) of Wichita Falls said his predecessor, Ed Gosset, told him that one of the first things he should do was buy a home. He did convince that rent here is as much or more than payments on a house.

Only non-home owners among the delegation besides Young are Reps. Omar Burleson, Abilene; John Dowdy, Athens; Clark Fisher; Speaker Sam Rayburn and Sen. Ralph Yarborough.

Most of the Texas congressmen's homes here are attractive, brick houses in upper middle class suburban areas. Some are in Washington, others in nearby Maryland and Virginia

**SAYS HE FOUND GOLD**—D. E. Jones, 38, Corsicana, who says he found almost 2½ million dollars worth of gold bars, poses in the filling station where he continues to work. Jones says he found the gold while berry-picking in East Texas. He says he reburied the bars and will not reveal their location until he can establish clear title. (AP Wirephoto)

suburbs. On the whole, they are about \$40,000 houses.

The exception, and a big one it is, is the mansion of Rep. and Mrs. Clark Thompson of Galveston. She is a daughter of the late Galveston multi-millionaire W. L. Moody Jr.

The Thompson house is located in Massachusetts Avenue's Embassy row, next door to the Apostolic Legation where the Pope's chief emissary in this country resides.

A new red brick structure, the size and elegance of the Thompson's mansion can be imagined by their invitation to 600 persons, among them the cream of Washington's society and officialdom, to their mid-February house warming. They were invited in two groups, half to come Feb. 16 and the other half the next night.

The house has two drawing rooms, the solarium overlooking a rose garden and swimming pool. The dining room seats 10, and there is a marble-floor powder room on the first floor. In the basement is a "Texas Room" with a Gulf Coast motif—procelain Geese, quail, seagulls, deer and western art on the walls. There

is a mahogany bar and champagne coolers.

The Thompsons acquired the house about the time she received an 8½ million dollar settlement from her father's estate. Now being mentioned in Washington society columns as a potential rival to famed hostesses Perle Mesta, Marjorie Post May and Gwen Cafritz, Mrs. Thompson has one of the capital's most valued collections of jewels. They include separated sets of diamond necklaces, earrings, clips and bracelets. Some pieces are rubies, emeralds and among others is a giant star sapphire necklace.

When former Texas Gov. W. Lee (Pass the Biscuits Pappy) O'Daniel was here as a Senator he bought a big six-story apartment house near the Supreme Court building. It was remodeled to reduce some 40 small apartments to 13. O'Daniel then incorporated and sold the individual units as cooperative apartments. Only recently his son Pat was here seeing a bolt sale of some of the units which had been relinquished by former occupants.

## Bible Words for Today

**I TIMOTHY 4:7b-8** — "Train yourself in godliness; for while bodily training is of some value, godliness is of value in every way, as it holds promise for the present life and also for the life to come." (RSV)

To be spiritually fit is of utmost importance. How well we know this to be true. When we lose out spiritually we are whipped. When our spiritual strength ebbs our physical and mental powers decline. On the other hand, when we experience a spiritual uplift our physical and mental powers increase and we are able for the tasks that confront us. To train one's self in godliness is to practice regularly the devotional habits of prayer and Bible reading—to keep one's self in close communion with God. To be spiritually fit at all times requires holy habits of living and a constant practice of the presence of God. It is our only assurance for this life and on it hangs all hope for the life to come.

# Brownfield, Tex., Man Reports— 2¾-Bale Cotton

L. H. (Howard) Wheeler, prominent Texas farmer, says: "I farm 1,840 acres. With that much land I have to maintain high yields, year after year. Phillips 66 Ammonia helped me to do that. This past year we watched our cotton carefully, then when conditions looked right, we went in and side dressed it with Phillips 66 Ammonia. The cotton came right on along, setting a high count of squares, and of course that meant a good yield, averaging 2¼ bales per acre. I use Phillips 66 Ammonia with excellent results on my maize, too." Other successful Southwestern farmers have discovered that they make more profit per

acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about your supply of Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.
