Argentine War Kills More

BUENOS AIRES, Argentina (AP) - The war between the Argentine government and leftist gurerrillas has taken 17 more lives in the La Plata area and in Buenos Aires, security sources report. It raised the toll for the year to at least 1,260 dead.

Tuesday was the 11th day of attacks and clashes around La Plata, 35 miles south of Buenos Aires. At least 80 suspected guerrillas have been reported killed there.

Security sources said 10 guerrillas were killed and four policemen were wounded when about 40 guerrillas attacked a police station at Arana, five miles from La Plata, before dawn.

Russia Helps Rhodesians

WASHINGTON (AP) - Russia is increasing military aid to Rhodesian guerrillas even while white and black African leaders in Geneva are trying to negotiate a peaceful solution, according to U.S. intelligence reports.

Intelligence sources say a Russian ship unloaded 18 heavily-gunned armored vehicles and ammunition in Tanzania in recent days. Tanzania has served as a relay point for Soviet arms bound for the black Rhodesian guerrillas, the sources

Quebec Leader Cools Public

MONTREAL (AP) - Quebec's premierelect appeared today to be trying to reassure those who think his separatist party's capture of the provincial government threatens the breakup of the Canadian federation.

Pierre Levesque, whose Parti Quebecois won 60 of the 110 seats in the provincial assembly Monday, said in a broadcast interview that his party's goal of independence for French-speaking Quebec is gaining support. But he said independence would not be possible without general agreement.

TV Sex. Violence Debated

ARLINGTON (AP) - A concentrated effort to let the television networks know which programs have too much sex or violence would get results, Southern Baptist committee has been told.

The Christian Life Commission of the Southern Baptist General Convention is holding hearings at Arlington this week by on ways to stop violence and sex on television

William Hill, director of production of commercials for the Bloom Agency in Dallas, told the commission that network television shows are "extremely sensitive" to public opinion.

With the meeting room of the chamber office jammed with ag committee members and other interested individuals, Sherman heard proposed guidelines for items to be taken into consideration in order to insure equitable tax values statewide, as presented by Jim McMorries, local tax consultant.

McMorries first presented the proposals at a meeting of the chamber ag committee Nov. 5, and it was after that presentation that ag committee members voted to invite Senator Sherman here to listen to a presentation on the proposal.

Apparently the Panhandle legislator was impressed with what he heard Tuesday--He vowed support for the proposals and encouraged local ag committee members to begin enlisting support for their list of proposals as soon

DURING HIS PRESENTATION, Mc-Morries told the 23 committee members and interested individuals in attendance that upcoming legislation dealing with school taxes "is not going to aid our area or make things equitable throughout the

The tax consultant pointed out the need for guidelines concerning agricultural evaluation which all areas of the state would follow, explaining that there are currently no guidelines to determine which items may be included in an

income approach to capitalization. "Our area is going to be penalized until we get some guidelines. We need something so that every jurisdiction in the state will be using the same items to

Included in a list of 20 items which McMorries feels should be provided for by legislation, to insure equitable agricultural values by use of the income approach are irrigation well cost, granting 20 year depreciation and prorating to acre cost per year by crop. and water depletion, granting 20 year

NEITHER ITEM can be used under current legislation.

Other items on the list include numerous crop inputs and depreciation on farm and irrigation machinery.

McMorries also suggested that principal and interest on land should be allowed, and stated, "If we could use the items on this list, it could help to reduce our tax evaluation 40-45 per cent, for those who qualify."

School board member James Gentry commented that currently there is "no legislation for this area, and irrigation has not been kept in mind," and McMorries added that current legislation helps farmers living next to Dallas, Fort Worth and Houston, but was never intended to help local farmers or farming in general.

After hearing McMorries' presentation and listening to comments from ag committee members, Senator Sherman pointed out "we can't get support for this proposal unless we educate those we hope to influence to vote for it."

HE EXPLAINED that the proposal needs the support of broad-based farm organizations, and stated that the Sullivant and Creighton bills dealing with matters of school taxation will be coming before the legislature soon, and have extensive support.

"I think it would be to your advantage

Cities In South May Suffer Losses

DALLAS (AP)- Houston Mayor Fred Hofheinz says he is concerned that Texas and other southern states will lose federal appropriations after seeing that other areas have turned in "wishlists" to President-elect Jimmy Carter.

Hofheinz said Tuesday night that Northeast governors met in Saratoga, N.Y., with members of Congress and mayors of large cities met in Chicago after the election to draw up "wishilets" for Carter.

These requests were heavily weighted to help cities which have made mistakesin short: cities other than those in the Sunbelt, other than those in Texas," Hofheinz said.

The mayor said at the final session of the Texas Municipal League convention that Texas and other southern states

should not forfeit their share of federal dollars just because they have different needs than the rest of the country.

"... The rest of the nation is inclined to ignore our special situation in national domestic programs," said Hofheinz, who was elected president of the TML earlier Tuesday, succeeding San Antonio Mayor Lila Cockrell. "Texas and the Sunbelt don't need the federal dollars. the argument goes, because they are unique they're doing well while the rest of the nation is not doing well."

Hofheinz said Texans must "stake our claim and speak out about our special needs as a fast growing, dynamic state which has the opportunity and the challenge to grow and prosper in an orderly manner, and to avoid the pitfalls that the older cities of the Northeast and Midwest have not avoided.

He added: "But as Texans and as Sunbelt states, we are proud. We will not come together and draft out ransom demands. We will not speak with a strident voice. But we will speak. We will

remind the new President of the special

needs of this area of the country. We will earnestly and sincerely ask that President Carter remember his southern roots.

Police Seeking Suspect In Break-In Here

Hereford police are currently seeking a suspect in connection with a break-in at a residence on Star Street last week.

Gwen Scott of 207 Star told officers that a man described as 5 ft. 8 in. to 5 ft. 10 in. tall and weighing 160-170 pounds kicked in a door on a small porch at the residence.

The housebreaker, who was wearing a ski mask and dark clothing, was apparently startled when he discovered that Mrs. Scott was home and fled the

White Sox Hire Lemon

CHICAGO (AP)- Bob Lemon a Hall of Fame pitcher who did 'creditable' job in his only stin as a major league manager, is the new manager of the Chicago White Sox.

The announcement was made Tuesday by Bill Veeck at a news conference held in Illinois Masonic Medical Center, where the White Sox president is scheduled to undergo cervical spine surgery to relieve pressure from his neck nerves.

"Bob Lemon did a creditable job when he managed the Kansas City Royals," said Veeck, propped in a wheelchair and wearing a brown robe with gold polka dots.

While last season was not a complete disaster, he is the type of man who can do the job,' said Veeck.

Lemon, 56, replaced 67-yearold Paul Richard, who is stepping down and will serve as a consultant for the white Sox. who finished last in the American League West.

Cowboys Offense **Undergoes Change**

By DENNE H. FREEMAN **AP Sports Writer**

DALLAS (AP) - Dallas Cowboy Coach Tom Landry is wondering if his 9-1 team is good enough to return to the Super Bowl.

Defensively, he believes the Cowboys are the class of the National Football League with the exception of Pittsburgh.

Offensively, he isn't sure. 'We have to get better offensively to go back to the Super Bowl, and I think we will," he says. "Our defense has what it takes right now to go

to the Super Bowl. Landry adds "I'm not overly concerned. Of course, I don't get concerned easily. I believe things will straighten out. In fact, next to Pittsburgh, we're playing defense as good as anybody.

Landry believes his offense needs more cohesion and he has junked his running back messenger system. The guards will carry in the plays Sunday against Atlanta.

He installed tailback Preston Pearson and fullback Scott Laidway as his starters. Regular fullback Robert Newhouse has a groin injury. Doug Dennison will be used in a reverse role at running back. At wide receiver, Landry

Landry was kidded at his weekly press luncheon about having the "worst" 9-1 team in the National Football League.

"You guys writers never appreciated good records." Landry joked. "There's nothing to write about when we are winning.'

It's Dallas' best start in the 16-year history of the club. The Cowboys are leading the

St. Louis Cardinals by a full game in the National Conference Eastern Division and both teams have all but assured themselves of at least a wild card berth. 'We've got problems as it is

without mentioning that wild card," said Landry.

Landry said the difference between the worst and the best teams in the NFL "Is a step. When you're not taking that step, they the bad teams are just Falcons if Golden Richards as good as you are."

House Supports School Funding

AUSTIN (AP)- The special House Committee on Alternatives to Public School Financing recommends full state support of public school operations with less money required from local taxpavers.

The bill recommended 6-1 Monday by the Committee goes to the 1977 Legislature for

"The special committee feels that providing a program of public school education is rightly a function of the state as a whole, and recommends that the state of Texas fully fund the foundation school program and that the local fund assignment be eliminated" the committee said in a statement.

The 100 per cent state support compares with present 75-25 support. Gov. Dolph Briscoe has recommended that local money still furnish 10 per cent of the cost of operations with the state portion increasing to 90 per

Local funds required during the 1977-78 school year were estimated to be more than \$508 million, about double the local fund assignment in 1974-75.

"Testimony before the committee clearly indicated that a great many citizens feel that property taxes have risen to unacceptable levels; there is also fear they will go still higher as school costs rise," the committee said.

The committee recommended no new taxes at this time, suggesting that the increased state costs be taken from the expected \$2.6 billion surplus.

rather than trying to do it alone in an uphill fight," said Sherman. "I think you should see what kind of reaction you get from various statewide farm organizations. This work needs to be done soon, --- between now and the first week of December."

The state senator stressed the importance of backing from state farm organizations, and indicated, "Creighton will probably ask for an early hearing and may try to get his bill passed before the end of January, so you must get organized and act quickly."

Sherman emphasized his willingness to work with the local committee, saying, "You probably won't get every item you want provided by legislation, but let's try to get every one of them that we can."

FOLLOWING SHERMAN'S comments, McMorries was joined by Jay Boston, president of the Texas-New Mexico Sugar Beet Growers Association in elaborating on the broad-based farm support which could be united in support of the proposal in just the High Plains

"We have the president of the Texas Farm Bureau, the Texas Corn Growers Association, the Sugar Beet Growers Association and the Cattle Feeders Association right here in the Panhandle," said Boston. "We should be able to gather support quickly," he added.

Charles Schlabs, acting in the absence of committee president Gerald McCathern, appointed a special committee to set up the guidelines for the proposals to

be presented to farm groups.

Those appointed included McMorries, Gentry, Bobby Veigel and Eldred Brown.

FOLLOWING ACTION on the school tax matter, Schlabs asked Sherman, who serves as chairman of the Committee On Natural Resources, to comment on the natural gas situation in the state.

Sherman explained that in an effort to help people in other portions of the state to understand the problems of farmers in the local area who are encountering extremely high natural gas prices for irrigation, a special hearing has been set for Tuesday, Nov. 30, in Austin.

'Hopefully this hearing will be covered by the media in Dallas, Fort Worth and San Antonio, and most of the testimony presented should come from this area,

Killer Alive Despite His Attempt To Kill Himself

SALT LAKE CITY (AP) - Gary Gilmroe, the killer who wants to die, may have prolonged his life instead of taking sleeping pills in an apparent lovers' suicide pact that left him and his girl friend hospitalized.

Gilmore, 35, who has fought-efforts to delay his execution by a firing squad, remained in what officials called "very serious" condition today with a drug overdose complicated by pneumonia.

He was hospitalized Tuesday after taking sleeping pills and writing a suicide note despite what officials called a prison "suicide watch" to guard against such an Nicole Barrett, his girl friend, was in

Gilmore's condition forced the Utah Board of Pardons to drop plans to consider his case at its regular hearing today. He was to have pleaded in person for the three-man board to uphold his execution.

Deputy Warden Leon Hatch said the note in Gilmore's Utah State Prison cell said, "I leave all of my personal belongings to my mother.'

Asst. Utah County Atty. Brent Bullock refused to discuss the contents of the two notes found near Mrs. Barrett, except to say that they were "like suicide notes."

A prison spokesman said the pills could have been slipped to him by visitors or other inmates and that he could have concealed them under his tongue during routine searches.

Gilmore, convicted of killing Provo motel clerk Bennie Bushnell last summer, was originally sentenced to die on Monday. But the sentence was deferred by outgoing Gov. Calvin L. Rampton.

Jeff Newman, a friend who discovered Mrs. Barrett in her apartment, said she had told him of a suicide pact she and Gilmore had made, but he said he had not believed her. Newman said Mrs. Barrett told him after visiting Gilmore on Monday that she would not be going to

Springville Police Chief Leland Bowers said police had been watching Mrs. Barrett closely in recent days. "We knew where she's been," he said. "We knew she had received a prescription."

After the stay was announced, Mike Esplin, one of two fired lawyers who earlier represented Gilmore, recalled a conversation he once had with the condemned man.

He quoted Gilmore as telling him, "If they don't do it. I'm going to do it myself. I'm not going to spend the rest of my life in prison.

Doctors said Gilmore had taken a "sublethal dose" of 10 to 20 sleeping pills which would not have killed him even had he not received emergency treatment. He was found in his cell breathing with difficulty.

Ann Landers Caught In Welfare Trap

DEAR ANN LANDERS: We are writing as a group of mothers who have shared a total of 3 years of public assistance. We hope you will print our letter to help educate the damn fools who think being on welfare is some kind of picnic. We are sick of being thought of as a bunch of lazy chiselers who are having a ball at the taxpayer's expense.

Not one of us would be on welfare if there was a decent alternative. It's the last resort this side of begging on the street, staying with some creep committing suicide.

It's bad enough to be on welfare, but getting OFF is even worse. When we do find work, our food stamps, medical insurance and other benefits are reduced to the point where we are worse off than when we were on welfare. So--we stay on.

What's the answer? We don't pretend to know. Do you? If so, please tell us. We are-- Sick Of The Labels In St. Paul

Recently I became aware of the demoralizing effect these jokes were having on my teenage children. Since then I have taken a militant attitude. I've told my friends and acquaintances that I don't care to listen to any more Polish jokes and to stop telling them in my presence.

A fellow I work with (we are both engineers) accused me of being humorless when I put him on notice. Then I told him a joke deriding HIS ethnic background -- a really rough one. He apologized and said, "Now I understand how you feel about Polish jokes."

I hope you will publish my letter and comment .-- Not

Christie Mystery Attracts Crowds

The Hereford Brand, Hereford, Texas, Wednesday, November 17, 1976

Agatha Christie's mystery chiller, "The Mousetrap," is breaking attendance records at the Country Squire Dinner Theatre I-40 and Lakeside in Amarillo.

The plot centers around a group of strangers stranded in a boarding house during a snowstorm, one of whom is a murderer. Suspects include a newly-married couple who run the house, a spinster, an architect, a retired Army major, a foreigner, and a policeman who arrives on skis.

Included in the professional cast are Dana Scott Galloway, Rebecca Galloway, Richard Privitt, Toni Cobb, Charlie Cudd, Jr., Steve Berrier, Peter Fox Jr. and Jane Lipscomb.

Regulary scheduled performances are Tuesday through Saturday evenings, with buffet food service from 6:30-8 p.m. preshow entertainment by the Country Rouges and performance beginning at 8:30 p.m. The Mousetrap will run through December 11.

film that deals with the Bible accurate picture of how the prophecy relating to the return of Jesus Christ, will be shown at Summerfield Baptist Church at 7:30 p.m. Thursday. All interested persons are invited to see the presentation, free of admission charge.

According to a film spokesman, this film adds a new dimension to the ministry of David Wilkerson," a phenomenon of our times." Bringing the Christian message into the ghettos of this country, Wilkerson pioneered a Gospel ministry that has spread around

The author of the bestseller, "The Cross and the Switchblade," Wilkerson has now entered the motion picture industry, with "The Rapture" being his first production. At a time when a number of films are appearing on the subject of the return of Christ, "The Rapture" is "a low-key, but highly imaginative portrayal of how a television network might possibly handle the spectacular catching away of millions of Saints with the chaos that would be the result."

Recognizing that there are diverse opinions concerning the return of Christ, "The Rap-

people of science, a liberal clergy and the news media would react to the sudden and unexplained disappearance of millions of people whenever it occurs in God's chronology of events.'

A film spokesman continued,/ saying, " 'The Rapture,' in a very graphic way, reveals the folly of not being ready for the return of Christ whenever it occurs, and--after all-- isn't that what the Bible is all about?"

"Worry is a form of fear, and all forms of fear produce fatigue. A man who has learn ed not to feel fear will find the fatigue of daily life enormous-ly diminished." — Bertrand Russell, English philosopher.

Guesswork Removed For Carpet Buyers Carpeting for a home or it is seen in every room

apartment should be considered an investment. And as with any other major purchase, the wise shopper should make several basic decisions before entering a carpet sales center with checkbook in hand.

Phillip D. Hill, manager of the Sherwin-Williams Decorating center at 1003 W. Park Avenue, has several tips for the consumer who is shopping for carpeting that will not only look good, but will wear well and last for many years.

First ask yourself: Where will the carpeting be used? Halls and stairways, for example, receive a lot of traffic in most homes. For these areas, Hill recommends buying the best quality, densest and most soil-resistant carpet you can afford. One good bet would be nylon--the strongest of the synthetic fibers, says Hill.

On the other hand, a less-durable, medium-grade carpet is an excellent choice for such areas as bedrooms and dining rooms, where traffic is relatively light.

Hill adds that an inexpensive carpet doesn't have to look or feel that way. To get the feel of luxury without the expense, "Dress up" an inexpensive carpet with a thick pad underneath.

Next, consider your decor. Wall-to-wall carpeting looks well just about anywhere. Today

is getting younger. Back in 1960, for every person in the area who was older than 23.8 years, there was

one who was younger. That was the median age locally, as determined by the 1960 Census

Also, it was found, the median age was moving downward, year by year, which meant that the population as a whole was getting younger. It continued in that direction until 1971, when it reached a low point, 23.8 years.

From then on, the age level has fluctuated. According to the latest figures from the Department of Commerce, the median age in Deaf Smith County is now approximately 23.2 years.

In the rest of the United States, by way of comparison, the reports place the median at 28.8 years. It is 27.2 years in the State of Texas:

Several explanations are given for the change. One is that people are living longer these days than in earlier years, giving added weight to the upper end of the age scale.

Another is that there has been a marked drop, locally and elsewhere, in the birth rate. The trend, among today's young people, is toward smaller families

Currently, the figures show, 41 per cent of the married women in the 20 to 24 bracket are childless, compared to 24 per cent in 1960. Statistically, it appears that the average wife plans to have 2.17 children in her lifetime, down from 2.4 in

The Population Reference Bureau attributes this, in part, "to a realization by younger married couples that rearing

The general effect of the lower birth rate shows up in the Census Bureau's so-called 'fertility ratio," which refers to the number of children under age five per 1,000 women of

child-bearing age.

In Deaf Smith County, in 1960, this ratio was 584. It is now estimated at 476.

Compared with many sections of the country, some of which have a ratio of no more than 100, the local figure continues to be relatively high. Elsewhere in the United States, the average is 337. It is 352 in the State of Texas.

Robber Got More Than Expected

DALLAS (AP)- The man police said robbed a Japanese restaurant Monday night should have quit while he was ahead.

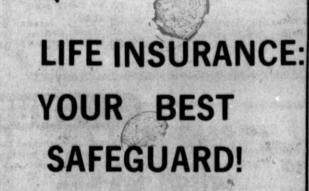

Police said the man pulled a gun and demanded money from restaurant manager Norman Yamamoto, who took \$300 from a cash register and handed it over. The man wanted more. and ordered Yamamoto into the office where the safe was ocated.

Big mistake. Before he was a restaurant nanager, Yamamoto was a practicing fifth-degree black belt karate expert, a one-time all-Japan Karate Champion and karate instructor for the Chicago Police Department. He's also an acknowledged judo

Yamamoto gently wheeled around, easily disarmed the nan and eld him for police.

He said he had to restrain mself from hurting the robber

Charlie's Angels Review By David Handler

CHEESECAKE is what sells Charlie's Angels. A little bare leg and shoulder action like this (Farrah Fawcett-Majors is left, Jaclyn Smith right) keeps the men coming back for more.

What makes Charlie's Angels the first run-away fall hit since The Beverly Hillbillies? Try and place yourself in the minds of the guys who devised the show - it's really not so hard -and the reasons come together awfully fast

First, you look to where all TV thinkers look when they're trying to come up with an idea to sell the networks -- the past. Specifically, past glories. Current hits on other neta retread of a bunch of other shows. The basic format is that of a team of highly trained specialists who are called together at the beginning of each episode and assigned tough jobs by a mystery man who we know only by his voice. Sound familiar? That's Mission: Impossible. Charlie's Angels is an Aaron Spelling production. His last two successful series were jazzy

A scare on the set

Aimee Semple McPherson made international news in the 20s, 30s and 40s with her evangelism, and her temple remains a Los Angeles landmark to this day.

But another temple. nearly 1,000 miles away, served as the setting for The Disappearance of AIMEE," a Hallmark Hall of Fame production airing Wednesday, Nov. 17.

The temple for the picture is in Denver, Colo. Once a synagogue, it is now part of the Denver Indian Center.

For three days in the sweltering August heat. however, it was Aimee's temple, with stars like Faye Dunaway and Bette Davis working inside.

All went well on the set except for one incident. The company finished filming on Saturday and was expected back on Monday: the Indians needed the place Sunday for a wake.

"One of the Indians was an actor and he explained the proceedings to us," said

Rosen. "The wake, we were told, lasts all night, and the funeral follows in the morning. Unfortunately, the body was still there when our production assistant went to make coffee at 9 a.m. She really needed a cup after

cop shows about sexy young crimefighters who care

Mod Squad and The Rookies. Last but not least -among the muck of cop shows on the air, one of the most successful last season was about an attractive temale cop -- "Police Woman.

Next step: combine all three ingredients and tack on new gimmicks so no one can accuse you of plagiarism. Our mystery man here is a multi-millionaire jet setter who delivers his assignments from the deck of a vacht, or while being worked over by a beautiful masseuse at poolside. Although we never see Charlie's face, his voice belongs to John Forsythe. In this case, fantasy works better than reality: Bachelor Father is no doubt a few seasons past his prime. As for the stars, one-up the pastand your competition by making them three girls. Gorgeous girls. Unbelievably beautiful girls.

Sold. Charlie's Angels has carved out a Wednesday night audience of Monday night football fans. It's an unmitigated girlie show for TV. long on character, short on plot, action or even the tube's standards for good dialogue.

The cast is carefully assembled for not only the widest appeal of physical attributes but for what

The Hereford Brand, Hereford, Texas, Wednesday, November 17, 1976 aspect of the male sex drive

they evoke. Leader of the Angels is Sabrina Duncan, played by Kate Jackson, who Spelling lifted from The Rokkies Looks tall, boyish figure, brown hair. Personality: intelligent, calm and fiercely independent. She split up with her cop husband because he cramped her style, fretting about her dangerous job. Sabrina, I'd respect your lifestyle. I

swear I wouldn't hassle you. Next is Jill Munroe (Farray Fawcett-Majors) who is a throwback to giggly. wacky, curvaceous blonds from times past. She's a jock and a gambler, your basic cheerleader who the guys from the frat want to get drunk and attack. preferably in a hayloft. Me first. guys. Major breakthrough: she doesn't wear a bra, even though she needs to.

Third is Kelly Garrett (Jaclyn Smith) a sensitive, dark-haired orphan who is plagued by her inability to open herself up to men. Kelly, I wouldn't hurt you --I'm sensitive, too.

If any of these girls could act the show would be a lot better. As it stands. I can only fantasize for about 20 minutes over which one I'd be happiest with. I mean. they look good in clothes. but the wooden delivery and routine plots take their toll. Last week, I fell asleep before half-time.

Mac Davis has been given his second holiday special. The Mac Davis Christmas Show," set for Dec. 15 on NBC. The theme of the show is to look at Christmas through the eyes of children. So, who do they get for guests? Some kids. right? Wrong. Try Richard Thomas and Raquel Welch.

John Davidson will also headline a yuletide special for NBC. "The John Davidson Christmas Show. Davidson's got some little people on his special anyway -- his two kids, his relatives and their kids, and the Lennon Sisters with their numerous offspring.

Speaking of children, in a rare television committment, Ingrid Bergman will take viewers into the world of "Childhood," a series of five one-hour dramas to be seen on PBS, beginning in January. Bergman will open each hour to provide a frame of reference for the plays, which were adapted from the work of five wellknown writers: Rudyard Kipling, H.E. Bates, George Ewart Evans, Frank O'Connor and Barbara Waring. The series is intended primarily for adults. although each drama is told through the eves of a child. So, don't dismiss it as merely a kid's show.

State Law Allows High Payments To Houston, San Antonio Workers

SAN ANTONIO (AP)- Tick. Tick. Tick. Tick. Tick.

"This city is sitting on a time bomb," says Councilman Phil Pyndus.

'A blank check," says Mayor Lila Cockrell.

The time bomb is a modified state law which allows policemen and firemen in San Antonio to receive tens of thousands of dollars in cash when they resign or retire. A retiring officer also would receive his regular

The new law lets the officers collect cash for staying healthy.
Police Chief E.E. Petters could draw more than \$54,000 cash if he resigned today, city officials say.

City labor relations analyst Art Borrego says a fireman hired today and never sick a day in 30 years would receive \$87,750 cash at retirement, while a policeman would draw \$95,400. The figures presume

neither officer is ever promoted. Under the law, which was passed by the 1975 legislature and currently affects only San Antonio and Houston, policemen and firemen collect cash for sick leave days they don't use. The policy could be applied in cities all over Texas.

City Finance Director Carl White says if all fire and police officers in San Antonio now eligible decided to retire, the city would owe \$66 million.

"It's a frightening picture," says Mayor Cockrell. "There is not enough money in San Antonio to underwrite that kind of deficit."

The law, as it stands now,

allows officers to build up unused sick leave at the rate of 15 days per year, with no ceiling. At retirement or resignation, an officer is paid in cash for the unused sick leave days he has accumulated.

For example, an officer never sick in 30 years would accumulate 450 days. At retirement he would receive a cash payoff, based on the salary he was earning at the time of retirement.

Before the law was modified last year, officers could be paid for the maximum of 90 unused days. The remainder were lost.

San Antonio want the same unlimited sick pay accumulation

City officials here fear that the program could eventually put San Antonio into a financial crisis similar to that faced by New York City. The legislation which opened

the door for the unlimited sick leave payoffs was initiated by Houston lawmakers, but state Sen. Frank Lombardino of San Antonio added this city to the provisions.

Lombardino, a former police detective, said in an interview

Bus Kidnap Victims Changed By Incident

CHOWCILLA, Calif. (AP)-They went to school Monday just like the other children in town, some of them even riding the yellow school bus. But four months after they were held hostage in the Chowchilla bus kidnapping, some of the 27 young victims still experience nightmares and nervousness.

In the hours after their release, they had handled the attention of reporters and townspeople with aplomb, telling with surprising detail and coolness their individual stories.

But negative reactions have since developed among some of the children, parents say.

Judy Reynolds, 13, bothered because her eighth grade classmates still treat her as "one of those kids." Her sister Becky, 10, finds herself uncharacteristically shy.

"Sometimes I really need to talk about it and how I am feeling," Judy said. "Sometimes I don't want to talk about it at

Their mother, Evelyn, said she quit her night, job as a convalescent hospital aide because the girls began having violent nightmares.

"Most of the children are different." Mrs. Reynolds said. "Most of us could use a psychologist, and some even a psychiatrist. It sure would help. But we just can't afford things like that."

Mrs. Reynolds also said that she and her husband have become more irritable since the trauma of the July 15 abduction. "I go into depressed moods," she said. "I'd like to get away

and forget about it all." To which Judy responded: "Mamma, you know anywhere we go, they're still talking about

Postal Service Reports Surplus

WASHINGTON (AP)-The Postal Service said Monday it 'had a surplus of \$15 million in the last quarter and Postmaster General Benjamin F. Bailar called it "a milestone in terms of getting our finances in balance."

Bailar cautioned that "one swallow doesn't make a summer. We're not out of the woods yet. Nevertheless, this is a major accomplishment."

The Postal Service has been a consistent money loser since it was reorganized from the old Post Office Department in 1971. The new agency has had a deficit in each of the five complete years since.

The postmaster general attributed the improving financial picture principally (to reductions in the Postal Service. work force through attrition.

The mail service now employs

728,911 at the time of reorganization.

Bailar said he has set no goals on further reductions in the work force. "I'm going to rely on our people in the field to reduce the payroll wherever they think they can do so without reducing service," he told a news conference.

A smaller factor in the surplus was a slight upturn in the use of the mail, he said.

Nevertheless, he predicted that mail volume in years to come will decline because of increasing use of electronic technology to communicate at the expense of letters.

Tower Fires Broadsides At Federal Agencies

DALLAS (AP)-U.S. Sen. John Tower, R-Tex., fired a pair of broadsides at federal agencies Monday, accusing them of maligning much good congressional legislation with bureaucratic red tape and misinterpreting laws passed to benefit the cities.

Speaking to members of the Texas Municipal League here, Tower cited the Department of Housing and Urban Development's denial of funds to San Antonio after the city had proposed to use the money for a recreation area on land owned by the local school district.

He said HUD's denial, based on a provision of the 1974 Community Development Act prohibiting funds for schools. outweighed the general intent of the law to allow cities to be flexible in the use of CDA funds. Despite congressional attempts to be specific as to the intent

of legislation. Tower said misinterpretations still occur. In such an event, he said the intent of the law must be resolved in the courts, or Congress must pass remedial legislation.

Tower got in a quick reference to the upcoming presidential transition and President Ford's short-term loan program and how it has helped reduce New York City's deficit by "over \$300 million."

"Given the progress that has been made to date, it is my hope that partisan political considerations will not lead to replacement of the fiscally-responsible short-term loan program with loan guarantees. grants or any other program that would undermine the efforts to return fiscal responsibility to New York City," said

Bentsen Proposes **Employment Credit**

WASHINGTON (AP)-Sen. Lloyd Bentsen, D-Tex., proposed on Monday an employment tax credit as a means of reducing unemployment with

out stimulating inflation. Patterned on the investment tax credit for new equipment and machinery, Bentsen suggested to a news conference a credit to employers for 10 to 15 per cent of the first year's

salaries of additional employes. Returning from a successful re-election campaign, Bentsen said the employment tax credit plan would take people off unemployment compensation or welfare and at the same time lower the costs of production. which could benefit consumers through lower prices.

As a last resort, Bentsen said he would vote for additional public service jobs.

He said, however, that a

Boeing Uses Soviet Civil Defense Plan

SEATTLE (AP) - The Boeing Co. says it has tapped the Soviet Union's civil defense program to develop a system to protect its industrial machinery from a thermonuclear attack and has tested the plan by using Soviet defense manuals.

The protection method involves supporting machines and equipment on polyurethane foam and covering them at the first sign of attack with plastic foam, metal chips, balsa wood, dirt or sandbags.

Boeing estimates that all the nation's industrial machinery could be partially protected for between \$1.2 billion and \$1.5

Boeing itself could resume airplane production 12 weeks after a nuclear attack if its machinery is protected in the Soviet manner, the report said. T.K. Jones, Boeing's prog-

ram and product evaluation manager, says in his report that the protection method works if industrial plants have 48 hours to prepare for an attack. However, the company said it had not yet found a way to protect the workers who would have to implement the protecttive measures.

The report was prepared for the U.S. Joint Committee on Defense Production. Jones is to testify today at the committee's opening hearings in Washington, D.C., on proposals for protecting critical U.S. industries against a Soviet nuclear

George Weiss, one of two Boeing representatives in Washington, said Tuesday that the arerospace firm and federal government used conventional explosives to test the theory of the Soviet Union's civil defense program that machinery can be protected through the use of plastic foam, metal chips, balsa wood and dirt or sandbags.

Weiss said tests were conducted using Soviet civil defense manuals as a guide. He said he did not know how the company obtained the manuals. He said they are "commonly available inside Russia."

Jones criticized "the widespread notion that nuclear war would be the end of all mankind.

..." But he said if the Soviets execute the defense plan while the United States does not, "the consequences to the United states of escalation to nuclear war would be disastrous while consequences might be tolerable to the Soviet Union could recover in "no more than 2 to 4 years," while the United States would need 12 years to recover.

Record Beef Prices Seen In 1977

WASHINGTON (AP) - Consprices fall steadily from last year's highs can expect to pay record prices to put beef on the table in 1977, an Agriculture Department economist predicted today.

Retail beef prices soon will begin climbing and probably will cost a record average of \$1.49 a pound next year. Richard J. Crom of the department's Economic Research Service said.

That is 10 cents above the estimated 1976 average of average was \$1.46.

The reason that beef prices umers who have seen beef will swing back up is that cattlemen, who are enduring severe financial losses because of a glut of beef this year, have reduced their herds sharply. Crom said.

One consolation is that pork prices will be down in 1977, he said, although beef accounts for about two-thirds of the meat consumed by American families. Meat is the biggest item in food budgets.

"Look for beef prices in 1977 to average about 10 cents per pound higher than this year's \$1.39. Last year's record average, while pork prices may average five cents lower," Crom

Retail food prices over-all are expected to rise 3 to 4 per cent in 1977, about the same as the 3 per cent increase now estimated for this year, the department announced earlier this week. A spokesman said the prospective jump in 1977 beef prices was included in that estimate.

Beef prices traditionally peak in the summer. In July 1975, they hit a record monthly high of \$1.61 a pound before turning down. By last September, store prices were about \$1.34 a pound, measured on an all-cut

Telephone Rate Reductions Asked

AUSTIN (AP) - The Texas Public Utility Commission's chief economist Tuesday recommended telephone rate reductions for 92 per cent of Southwestern Bell Telephone's residential and business custo-

Dr. Caroline Smith said this would reduce Bell's revenues by as much as \$70.8 million, but would be justifiable.

Her testimony was submitted in writing at the commission's hearing on Bell's request for rate increases totaling \$298.3 million over the coming year and she was cross-examined in detail by Bell attorney Ford Hall.

She noted that under local regulation, residential rates for one-party telephones now vary from \$4.75 to \$9.20 per month.

But statewide regulation by the commission, which took effect Sept. 1, demands standarized rates so that service of equal value is provided at equal prices, she said.

"However, the transition from local to statewide rates need not impose an unreasonable burden upon telephone customers especially since no cost data have been offered in support of the large increase requested for local residential and business users." Dr. Smith

She noted that Bell's request would increase residential rates by from \$1 to \$3 for more than 80 per cent of Bell's Texas customers.

Hall questioned her concerning her recommendation against allowing Bell to charge for more than three directory assistance čalls per month.

Hall asked her if the mobility rate of Texas was a factor in her recommendation.

"Yes. a higher mobility rate for Texans would cause me to question the three call limit," she said.

Hall observed that Arizonans change residences at a more rapid rate than Texans, yet that state's utility commission has approved directory assistance charges.

He also said that in cities. residential phones are "put on intercept" for 90 days and businesses for the life of the current directory.

For if a man lives many years, let him rejoice in them all; but let him remember that the days of darkness will be many. All that comes is vanity. - Eccl. 11:8.

Congress To Blame, Not **President Says Connally**

HOUSTON (AP)- Former Texas Gov. John Connally says national problems ranging from federal deficits to burdensome restrictions on private business can be blamed more on the congressional seniority system than on action or inaction by the White House.

'We reward longevity in office and congressmen with long service often tend to be so entrenched in the status quo that they fight needed change and pass bills without knowing the contents," he said.

Connally drew heavy applause Tuesday from the nation's realtors when he repeated earlier statements that believes the President should be limited to one six-year term, U.S. senators to one eight-year term and U.S. representatives to two

four-year terms.

Connally told the 69th annual convention of the National Association of Realtors that the real estate industry should support the proposed change by working for the necessary amendment to the U.S. Constitution.

The proposal has been a recent theme of Connally, a former Democrat who served as Texas campaign manager for President Ford in the recent

presidential campaign.
Connally, a Houston attorney and also a former Secretary of the Treasury, drew the loudest applause for his suggestion on how lawmakers should be welcomed home on completion of the limited terms.

'We should welcome them with a banner," he said, "and we should tell them: 'Come and live with us under the laws and regulations you have passed.' " He said the political process is

long overdue for a major reform. "No President can spend a dime not voted by Congress." he said. "Only Congress can create or abolish a department or agency or cause a deficit. And the lack of an energy policy and of incentive for capital formation can be blamed on Congress, not

the President. Connally said he sees little hope for a major reorganization

of the government under the new administration.

"I worked on a reorganization plan for two years," he said. "We couldn't get any of it adopted. And I doubt if any better luck will be enjoyed by the new administration."

PLAYFULNESS HELPS SKOKIE, Ill. (AP) - Man is the most advanced of mammals probably because he nev-

er grows up.
According to Rand McNally's 'Atlas of the Body and Mind," human evolution has been dominated by a process known as neoteny, or "remaining young." Essentially, this means that man has evolved by retaining the immature characteristics of his ancestors. These include not only such physiological characteristics as the large brain found in newborn primates and the resulting capacity to learn, but also such behavioral characteristics as a curiosity about the world.
