### YULE SEASON HELPS TO KEEP KIDS AT HOME

The Christmas season evidently fills juveniles with love for home and family or at least they don't run away.

Or if they do, they aren't caught in Big Spring.

Until the juvenile officer picked up a girl Monday, there hadn't been any runaways since two girls were picked up here Dec. 3.

One of the reasons for no runaways lately, A. E. Long, juvenile officer, said, is that the schools are closing down for the holidays, And the main reason for leaving home is to get out of going to school, he added.

But they usually start taking off soon after receiving their Christmas gifts and the school term begins again.

The first runaway of this year was apprehended the first day of the year. And the same one who ran away and was caught the first of the year is one of the two girls picked up Dec. 3.

If you've been putting up the same old outdoor holiday lights year after year along the same ny them. eaves, treat your family to a change this year.

Try tufting your house with lights

It really isn't hard to put outdoor Christmas lights up this new way. Secret to success is to choose a part of your house with a fairly flat and uncluttered surface. Then, with insulated staples or brass cup hooks, anchor lights in place. Lighting specialists point out that if you're buying new lights this year, be sure to shop for the smaller size, C-7%, strings in outdoor

type sockets. Their smaller size is ideal for the small "button effect" needed for the tufting.

## **Steers Flog Mustang** Cage Quint, 76-69

### Jan Loudermilk LOOKING 'EM OVER **Gets 22 Points**

The Big Spring Steers shocked District I-AAA by upsetting the Sweetwater Mustangs, 76-69, here Tuesday night.

Winless in their first six starts of the campaign, the Longhorns now have a modest winning skein of two games going and appear to get better every time out.

They grabbed the lead early in the game, watched Sweetwater get ahead by one point in the second quarter and then took command from there on in.

The locals boasted a 13-point advantage at half time. That had been hacked to ten points at the end of the third period and the visitors, who had expected to win handily, pulled to within five points of a tie in Round Four but the Bovines let them get no closer. Big Jan Loudermilk and Jimmy Bice did a good job of controlling the back boards and Charles Johnson, playing his best game, got four defensive rebounds when it counted most.

The Steers had three boys hit 18 or better points and four in the double-figure bracket.

Loudermilk, who is only a soph more, paced the scorers with 22 vints Charles Johnson was close with 19 while Mickey Musgrove, as troublesome to the opposition as a cockleburr under a pinto's saddle, tossed in 18 while Bice accounted for ten. Big Jan hit 11 of his points in

the first quarter and 16 in the first half. Johnson had ten points in the third period and 14 in the last half. Bice tossed in six points in the

final eight minutes to help keep the Steers out front. Dale McKeehan, Sweetwater's

all-state pivot man, experienced a cold first half but wound up with 21 points, 16 of which he sent through the hoop in the final half.

The Longhorns hit a percentage of 45.6 of their shots from the field. Sweetwater kept as close as it did because it sank 21 free tosses to only four for Big Spring. The Steers accounted for 12 more field goals than did the invaders.

Loudermilk captured six offen-sive and seven defensive rebounds for a total of 13. Bice's ratio was three and 11 for an aggregate of 11.

The Steer reserves yielded a 58-42 verdict to Sweetwater, despite 16 points scored by Jesse McElreath

The Steers have disbanded until after Christmas. They next see action in the Brownwood tournament.

Big Spring's Jerry Graves and Jerry Barron have rated places on the Snyder Tigers' 1955 all-opponent team, selected recently by John

Conley's boys. Graves was one of four players picked unanimously. The others

were Jerry Bristo, Vernon tackle; Jerry Blair, Monterey tackle; and Bobby Boyd, Garland's great halfback. Barron beat out Sweetwater's Harroll Hobbs for one of the halfback

rths Others honored by the Bengals were:

Jerry Payne, Breckenridge, and Lowell Baker, Garland, ends; Robert Pierce, Levelland, and Bill Cayce, Plainvlew, guards; Bennett Watts, Breckenridge, quarterback; and Bobby Hartgraves, Sweetwater, fullback, Randal Hamby, Steer guard, gained honorable mention on the mythical club.

Graves, incidentally, hasn't made up his mind where he'll go to college. He's had offers from SMU, Rice, Oklahoma and Oklahoma A&M, among others.

He'll probably visit on the SMU campus the second week in February, at which time the Mustangs will be in the midst of their spring workouts.

Jerry's good friend and former teammate, Frosty Robison, is at SMU, incidentally. Barron may attend San Angelo College, where his former team-

mate, Tommy McAdams, is a defensive standout.

Next year will be a year of decision, in all probability, for the people who appoint the SMU coaches.

Woody Woodard has been given another chance to prove himself with the Mustangs and in big-time football. Some believe, if Woodard makes a success of himself on his job,

however, he'll have to play both Robison and Ray Masters at halfback. Right now, Masters is the fullback in Woodard's plans for the 1956

season and Robison will sub at the same position Frosty got to carry the ball few times as the fullback on the freshman team the past season. In the main, he was used as a blocker, It is reasoned Woodard ordered him placed there to add to his blocking experience.

Frosty could throw a mean block when here but he principally lugged the leather. That, he did to perfection. ries 4-2.

Masters is one of the greatest all-around backs ever to play in West Texas but he was given few opportunities to carry the ball for the Ponies last fall.

Reserves on the HCJC basketball team played about half the time in the Hawks' Longhorn Tournament game with Kilgore at

Wharton last week, which Kilgore won, 81-52. The Big Spring club fell behind early and Coach Harold Davis elected to use his B teamers as much as possible for the experience. Kilgore is now recruiting on a nation-wide basis and is fielding of the country's tallest junior college teams. They'll probably

dominate JC play in East Texas this year. The Rangers had won six straight games going into the Longhorn

Tournament. Included among their victims were freshman clubs of TCU and SMU.

### Segregationists **Protest Negroes** In Yule Display

CORPUS CHRISTI UE-A prosegregation group has protested the inclusion of Negro figures in Christmas displays in a downtown park. The manager of the Chamber of Commerce, which sponsors the displays, said the figures will not be removed.

The Nueces County Chapter of the Texas Citizens Council announced it gave a resolution to the chamber objecting to a Negro figure in a group of Wise Men in the nativity scene. The resolution also objected to the inclusion of three Negroes in a children's choir display.

The resolution was signed by Thomas P. Hayos Jr., chairman of the council, and James B. Frazier, vice chairman. The council has a membership of 39 persons, the two officers said.

Dan Chamberlain. Chamber of Commerce manager, said "those figures are definitely going to stay there. If anyone wants to wrestle me. I'll wrestle. We're going to ignore the complaint."

He said the chamber had received numerous phone calls back-ing the stand that the figures **Resident's Nephew** should remain.

Things are getting tough all over for fivestock. We read only the other day where the First Methodist Church of Glen Ellyn, Ill., in the midst of a \$350,000 building project, has decided to retire the church cat-not, forsooth, for economy reasons, but because the cat developed the rather disconcerting habit of wandering down to the pulpit now and then to see how everything was going.

We gather the decision to retire the church cat was not any spur of the moment affair, but received the benefit of a full debate before the board of stewards. Consdering the inevitable dog that pops out from nowhere and cavorts around the field during the season's crucial football game, it seems to us the Glen Ellyn elders might have been a wee bit more lenient with the tabby; for the housecat is the most inquisitive animal alive and should enjoy some privileges in return for keeping the church free of mice.

We hesitate to say the pastor might

Estes Joins Adlai In The Race

In 1952 Senator Estes Kefauver of Tennessee, now again an avowed aspirant for the Democratic nomination for the presidency; enjoyed the fruits of a crime investigation which had been nationally televised to make his face and voice familiar to millions of Americans.

He was quick to capitalize on this windfall, and of the 16 presidential preference primaries he entered, he won 14 of them, most of them without serious opposition. His prize performance was in New Hampshire, where he received 20,000 votes to only 16,000 for President Truman. But Truman made no campaign; he had simply failed to remove his name from the ballot, placed there by well-meaning friends without Truman's blessing.

On the first ballot at Chicago's national convention Kefauver polled a substantial plurality over both Governor Adlai Stevenson and Senator Richard B. Russell of Georgia. Kefauver got 340 votes, Stevenson 273 and Russell 268.

But only 13 of the 236 votes of the ten

solid-South states were cast for Kefauver, and he picked up only two additional votes from that area on the second ballot. On the ballot the man in the Davy Crockett coonskin cap picked up only 22.5 votes,

By the end of the third ballot Kefauver announced he had tried in vain to gain the floor at the start of the ballot so he could withdraw in favor of Senator Paul Douglas of Illinois, whereupon Douglas would then move that "everybody join supporting Governor Stevenson."

Be that as it may the reluctant Stevenson got the convention's nod and went on to defeat.

This time Kefauver is not reluctant, and once more he will be in there swinging. ### Around The Rim Just A Simple Faith . . .

Our three-year-old Wiggy, is at a most wonderful age. In another two months he will be four, and thus he has attained to the mental age when Christmas and Santa Claus are the most wonderful things in the world.

14

The most wonderful part of all is that Wiggy can see one picture of Santa, full, round and jovial; another of the old gentleman with a bean-pole frame and a woebegone countenance; or even a live model somewhat less circumspect than we cal-loused adults have come to expect,

No matter what the shape or size, the disposition or actions of the image, his eyes sparkle with chips of heaven as he "That's Ol' Santa!" says:

Wouldn't it be marvelous if we all could look to Christmas with the same simplicity of faith?

Most of us, hardened by the skepticism of our hurried and sometime selfish time, anticipate Christmas in terms of whether our material blessings have been great, mediocre or small. Unconsciously, we gauge God like we appraise Santa Clauswhether he has been fat, medium or lean. We see in Christmas the reflection of the material products of the year just past. We deplore commercialism but tabulate our own blessings with a cash-register mind.

All too often we are motivated out of a sense of obligation instead of love. And worst of all, we too frequently commit the blasphemy in giving-that of gifts which we hope will bring favor and reward. How tarnished and shoddy these must seem in the sight of God.

I pray that somehow I might-and that you might if you like-recapture something of our little boy's implicit acceptance of the symbol.

I ask that I might not see the tribulations, the sordidness, the selfishness, the jealousles and graspings of our day, but in the manger my eyes would behold only the image of an undying and unequalled love of God toward man.

Then I could understand the angel song how there shell be peace on earth among men of good will.

### The Gallup Poll

#### Stevenson Maintains Lead Among Demos

PRINCETON, N. J .- Adlai Stevenson continues to get more votes than all other candidates put together in the latest monthly pre-convention check on Democratic candidate popularity.

As of today, the Institute finds that Stevenson is picked by 51 per cent of Democrats as the man they want to head their slate in 1956,

In second place is Senator Estes Kefauver of Tennessee who has gained sharply in the last month from 11 per cent in a November survey to 17 per cent today. New York's Governor Averell Harriman is in third place with 8 per cent.

With the nation's Independent voters Stevenson is also out in front, but the difference between Stevenson and Kefauver is much less marked.

In the latest test, Stevenson polls 40 per cent among the Independents to Kefauver's 21 per cent.

Today's survey was completed before Governor Frank Lausche of Ohio announced his candidacy as a "favorite son" and thus does not reflect any change that his announcement may have.

There has been very little change in the Democratic candidate standings over the last year. Governor Stevenson has consistently polled more than all other Democratic possibilities put together among the rank-and-file of his own party and has led the list among Independents.

The question, asked of all persons in today's survey who classified themselves as Democrats:

"Here is a list of men who have been mentioned as possible presidential candidates in 1956 for the Democratic party. Which one would you like to see nominated as the Democratic candidate in 19567"

Each person in the survey was handed a card listing the names of people who are candidates or have, been frequently mentioned as possibilities for the Demo-

The plea to let taxes stay high is being heard by a House-Senate Economic subcommittee studying the effect of taxes on the economy.

Good times have built up enough momentum to carry through next year without any stimulant from tax cuts, according to Edwin B. George, director of the Economics Department of Dun & Bradstreet. He would like to see taxes maintained at the present level and any Treasur surplus used for slum clearance and social security. This view is sure to be unpopular in many quarters.

Another economist, Gerhard Colm of the National Planning Asan., would spend any surplus on both military and nondefense programs.

An industrial economist, Donald B. Woodward, chairman of the Finance Committee of Vick Chemical, would use present tax rates to reduce the federal debt. #### Wherein A Man Has Praise For His Wife

"This is the one time in my life when I don't want to sound like a Katzenjammer kid," said Charlie MacArthur, playwright ("Front Page," "Twenteith Century," etc.), a newspaperman's newspaperman, rugged individualist, salty extrovert and sometime-Katzenjammer kid.

"But this wife of mine, this Helen Hayes, is perpetrating a hoax on the public. All this to-do in the theatrical world about celebrating her fiftleth year on the stage, her golden anniversary!

"Why, she doesn't look a day over 35! I'm certainly not going to run around the house congratulating her on being 55, or whatever the statistics say. It's fine that the Fulton Theatre has been renamed The Helen Hayes in her honor on this occasion.

"But the whole anniversary has to be a fraud. She looks so young, so young!" he said, as he sat in the midst of the MacArthur-Hayes apartment on the East River and ran restless fingers through his hair. gray

"This is Helen's shimmering hour, and I wouldn't diminish it by an lota. But how can anyone look at her and believe she has actually been on the stage fifty years? "I know we've been married twentyseven years, but it doesn't seem that long. For the record, sometimes I feel I've domesticated an angel. When we were married in 1928, there were bets that the marriage wouldn't last a week, That was the public confidence in me, not her.

"Right then and there was born "The Poor Helen Club,' the largest organization in the United States outside the Democratic party. "She's an amazing creature," Mr. Mac-

Arthur continued, as if surprised and a trifle concerned to find himself discussing his wife. "One time, some ten years after we were married, I was trying to tell her why I was so crazy about her and I said. 'In all the years I've known you, you've never once jabbered about the stage or

its problems. Once you walk out of the theatre, you leave the stage behind." "And she said to me, 'Did it ever occur

to you that I might have wanted to talk about the stage all during the years if I could ever have gotten a word in edgewise?"

Of all the roles she has played on the stage, her Maggie in "What Every Woman Knows" is her husband's favorite. It is also the only play in which she has starred in which Mr. MacArthur has played a supporting role, for one performance only.

Once, while he was courting Miss Hayes, Mr. MacArthur returned from Europe unexpectedly, went around to the theatre and persuaded the manager to let him go on stage in a mob scene. He ran on stage confidently with the mob, sidled up to Miss Hayes and said, "Hey, I'm back! and then froze. Other members of the mob had to drag the stricken amateur off stage to get him out of the way, and allow the show to proceed,

"Damn it all," said Mr. MacArthur, the newspaperman's newspaperman, as frustrated a person as I've seen at the end of an interview. "I haven't begun to tell you how wonderful Helen is. Even if I do think this fiftieth anniversary is a hoax on the part of a woman as young as she is, I can't begin to tell you how proud I am of her!"
