Mothers' Game Feature During LL Season End

Duke Snyder, Pee Wee Nelson and Speedy Gilbert will appear in an exhibition game for the Little League Mothers Saturday night at 7:30 in Little League Park.

The Mothers, who will play a game Saturday, normally answer to such names as Mrs. Earlene Snyder, Mrs. Helen Nelson and Mrs. Betty Gilbert, but just for that night they have been dubbed with these names.

In an attempt to raise money for the purchase of equipment and pay operation expenses, the Little League mothers have divided into two teams, the Red Shirts and the White Shirts for the game.

The White Shirts have enlisted the aid of Cuby Kitchens and Larry Summers as coaches and the Red Shirts will be coached by Dwayne Baize and Henry Aycock.

The opening ceremonies will begin at 7:30 when all the Little League players, both from the major and minor teams will appear in uniform to be introduced. Pictures will be made of the teams.

Following the introduction of the teams, the mothers' game will be played and to end the ceremonies, the All-Star team will be introduced. There will be a small admission charge for adults.

Vegetable Harvesting Starts Close Behind Wheat Ending

Harvest of a predicted multi-million dollar vegetable crop in Deaf Smith County crept in at the climax of wheat harvest Monday as sheds in the county opened its doors and influx of grain generally came to a close at county elevators.

An estimated two million bushels of wheat have gone over the scales of county elevators from approximately 240,000 acres.

Combines took a last big bite in county wheat fields Sunday to bring the harvest to a close. Wheat was still being cut Monday and Tuesday, but harvesting of the crop generally has come to a close, county elevator shed managers said.

Harvest of potatoes and onions went into operation Monday. The market is up and quality of products is high, vegetable shed managers said.

Market on potatoes reportedly is \$4 or more per hundred pounds. That price contrasts with the \$3.25 offered at the start of harvest last year. Fifty-pound rates on onions are from \$1.35 to \$1.50.

One vegetable producer predicted a multi-million dollar harvest for vegetables in the county this year. He said the current crop is the best he has seen in 13 years.

POTATO HARVEST operations began Monday in Deaf Smith County. Vegetable producers say the product is the best in 15 years. Onion harvest also began Monday and is expected to be in full swing by the first of next week. Market on both crops is up this year, shed operators report. (Staff Photo)

City Golf Tourney Crown Won As Minton Edges Seed

Around Town

Jeff Minton of Hereford scored a three and two edge over former Hereford champion Charley Seed Sunday afternoon in the final match of the Hereford City Golf Tournament to become 1959 champion.

Championship consolation honors went to John Ethridge of Dimmitt, who downed Joe Kerr of Hereford, one up, in final play.

County Approves R-O-W, Raises Some Valuations

Seven parcels of right-of-way along east Highway 60 were approved for purchase by the Deaf Smith County Commission Monday. They are among the first of 28 pieces of land needed for expansion of the highway to four divided lanes.

The purchases are subject to approval by the Texas Highway Department.

No taxpayers appeared before the Commission, sitting as the County Board of Equalization Monday morning. However, the Commission conferred with the county Tax Assessor-Collector about several tax renditions which are believed to be low.

The Tax Assessor was told to raise valuations and to notify persons concerned. If they desire to protest or confer with the Commission on the new valuations, the Commission has set Monday, July 27, at 1 p.m. for them to appear.

Minton blasted Dell Trautman of Hereford, seven and six, in the first match, but had to come from behind in the semi-final with Wally Walker of Hereford. Three down and four to go, he won holes 15, 16 and 17 from Walker and tied on the 18th.

On the first extra hole of the sudden death match, Minton edged Walker, one up. Minton also won medalist honors with a four-under-par 68.

Seed reached the finals by downing Bob Lindsey of Dimmitt, two and one, and John Renner of Friona, six and five. Seed was city champion in 1957, and was defeated in the 1958 finals by Max Drever of Hereford.

The Ladies' City Tournament was postponed and will be held at a later date, according to Bud Posey, Hereford professional. Thirty area golfers participated in this year's affair.

Delegates Going To Honor Rogers White Governor

A delegation from Hereford and Deaf Smith County is expected to be in Austin Thursday night for a dinner honoring Sen. Andy Rogers.

The State Senator from this district will be feted at the close of a day as Governor Pro-Tem of the State of Texas.

Planning to fly to Austin for the ceremonies are Bill Decker, Henry Sears, Louis Woodford and Bill Thompson.

The dinner is to be held at the Villa Capri and will draw constituents from all over Rogers' congressional district.

Thompson, Chamber of Commerce manager, said it was expected Rogers, while acting Governor, would proclaim July 30, 31 and Aug. 1 as official Harvest Festival Days for Hereford.

Tigers Outrun White Sox In 18-14 Pony League Win

In a pitchers' nightmare and track meet-like ball game the Tigers outran the White Sox 18-14 in Pony League play Tuesday night.

Using three pitchers, the Tigers allowed four walks and nine hits while the White Sox, who also used three pit-

chers, gave up 11 walks and 12 hits. Blanked in the first inning, the Sox got two men on bases by walks and errors. The Tigers used one hit to make two runs.

Jerry Bybee hit a double and Randall Long accounted for the

second score of the inning by a walk.

The second inning saw the track meet begin when the White Sox brought in four runs and the Tigers added three runs to their collection.

Municipal Golf Course Named For John Pitman

In memory of J. A. Pitman, prominent businessman and a member of the board of governors of Hereford City Golf Club, the city's nine-hole course was designated the

John Pitman Municipal Golf Course by unanimous vote of Hereford City Commission Monday evening.

Mr. Pitman died June 26 while playing on the local links. Commissioners pointed out that he has been one of the most active golfers in the city for 20 years, and that the designation of the course in his name would be a fitting tribute.

In other action, Mr. Pitman's son, John Douglas, was named to replace him on the board of governors of the course.

Pitman joins Dr. John Chaner and Dale Tinnin on the governors' board. The board was formed early this year.

Set District Court

Harry Schultz of Dalhart, 69th District Judge, will be in District Courtroom Thursday to hear civil cases.

He did not indicate whether or not pleas in criminal cases would be heard at that time.

The commissioners also approved Dr. B. M. Wiltshire, Earnest Kendall and Dale Tinnin for membership on the city's

Festival Queen Contest Growing

W. R. Henry, superintendent of Santa Fe Railroad, requested that the commissioners approved hiking speed of trains through the city from 30 to 40 miles per hour.

For the sake of safety to motorists, the commissioners declined approving the request. (Continued On Page 2)

Hold Man Here For San Antonio

Martin Garcia, 32, of Hereford was arrested by the Deaf Smith County Sheriff's Department Tuesday morning and is being held for authorities in San Antonio, where Garcia is wanted, on a charge of child desertion. Garcia was arrested at 143 Clements St. in Hereford by Deputy Sheriff L. R. Cherryhomes.

Ranspot Pitches And Bats As Cards Beat Dodgers, 7-0

Southpaw Mike Ranspot pitched and batted the Cardinals to a 7-0 victory of the Dodgers in Tuesday's Little League action.

Ranspot went the entire six innings in posting the no-run, no-hit game. He struck out eight and was backed up by errorless fielding. He walked four Dodgers in the first three innings. He allowed a runner to get to second base in the first, gave one Dodger a pass to first in the second and almost got in trouble in the third when he passed two batters, who died on second and third.

Frank Cain looped a Texas Leaguer to right center in the first inning for a single. But the

Cardinal shortstop died on third. In the second, Cardinal Jerry Mudrock got on by an error, but also died on third.

In the bottom of the third, the Cards finally managed to score two runs on three hits. Jerry Fowlkes singled, but was erased as Gary Stagner got on by fielder's choice. Then Stagner got wiped out on second as Cain got on by fielder's choice.

Ranspot picked out a high fast ball and sent it looping far over the center field fence for a two-run homer that gave him breathing room as a pitcher. Steve Coneway singled during the inning, but was forced out at second on Lynn Cook's hard

smash, which was handled beautifully by Dodger third sacker Iley Barton.

Cards added three more runs in the last of the fourth. Gary Payne singled, moved two bases on passed balls and scored on an error. Lewis Barnett walked, stole second and scored on an error. Jerry Fowlkes got on by error. Stagner walked and Ranspot drove in Fowlkes with a single. After Coneway walked, Lynn Warren relieved Danny Loerwald on the mound for the Dodgers.

The Cards clinched the game in the last of the fifth with another pair of runs on three hits. Payne doubled, Barnett singled (Continued on Page 2)

Tigers....

(Continued From Page 1) Eddie Johnson started things by hitting a single. Doubles by Richard Patton and Don Sheppard and the use of a fielder's choice by Larry Hair accounted for the Sox scores. Randall Long, Tom Powell and Mike Ferguson made scores for the Tigers.

Both teams used long third innings to add six runs each. Scores were made for the White Sox by Johnson, who used a short stop error. Patton and Sheppard, who hit doubles, and Mankillas, who got on base by a pitcher's error. Starting at the top of the order, Ronnie Roberts hit a double and Hair got on base by a fielder's choice to score.

Dan Cates opened scoring in the inning for the Tigers by hitting a single. Another single by Bybee and the use of a first base error by Ferguson caused more scores. A single by Long and a triple by Mike Kelly plus the use of a second base error by Powell ended the third inning with a score of 11-10, with the Tigers on top.

The White Sox were blanked in the fourth inning and the Tigers were likewise scoreless.

The fifth inning added one score for the Sox when Larry Hair hit a single.

Four scores were added for the Tigers.

Randall Long was hit by the pitcher and Powell parked one over the fence. Kelly and Stapp walked to give the Tigers a more comfortable margin.

Blanked in the sixth inning, the White Sox saw the Tigers widen the distance between them by adding three more runs.

Long scored on a walk and Powell hit a single to score. A walk by Kelly added the third score for the inning.

A last-ditch attempt to catch the Tigers before the game ran out ended with the White Sox four runs shy of the tie.

Three runs were added by Mankillas, who hit a single. Roberts, who got on by fielder's choice, and Hair, who singled.

The winning pitcher for the Tigers was Tom Powell. He shared the hill with Calloway and Cates. Larry Hair was the losing pitcher, sharing the duties with Neal Lueb and Patton.

The Red Sox are scheduled to meet the White Sox Thursday and Friday the Tigers and Indians are to play.

Castle described the history of the shaping of the "Friend of the Boy" philosophy and the forming of clubs outside of the United States. He told of the strengthening of youth work of the club and legislative triumphs that have been brought about by the Optimists.

Among the awards gained by the Optimists in recognition of work performed are the American Heritage award and the Crusade For Freedom Award. Castle pointed out.

Attending the meeting were Leo Miller, Weldon Baskin, Alfred Kip and Wilfred Locke of the Amarillo Optimist Club.

The Dodgers took the Minor League game, trouncing the Cards 20-8. Final games of the season will be unrrolled this week. Thursday the Dodgers will meet the Giants and Friday the curtain will come down with the champion Yankees opposing the Cardinals.

No acute shortages of field and shed workers have been reported. Although the demand for workers is greater than the supply, immigration of workers should take care of the lack within the week, Patterson said.

Hail and heavy rain has hit fields of onions and potatoes, one shed manager said, but has not seemed to lower quality of the crops. He predicted that this year's crop will be one of the best in the history of the county.

Patterson reports most of the shortage of workers is for tractor drivers and shed employees. He has placed about 400 workers on jobs this month, although many other immigrants had arranged for jobs before coming to the county.

Peak of harvest will be about the last of August or first of September, when harvesting of carrots begins. Producers had no estimates of vegetable acreage available.

More than 90 per cent of the wheat crop was reported to have been completed Saturday. Rain and overcast skies placed about a three-day delay on harvesting operations early last week.

Several farmers reported 60-bushel yields per acre, and some have reported up to 80 bushels. Moisture content ranged from 12 to 14 per cent at the elevators.

Yields and quality of wheat were reported to be above average this year by County Agent J. W. "Lefty" Thomas.

Quality of wheat last year was lower as result of hot winds which shrunk some of the county grain. Quantity suffered because of hail which battered much of the crop west of Hereford last year.

Earlier in the year, some dry-land farmers predicted that they planned to harvest, but expected to just "break even." However, late season rains revived much of the crop.

At the end of harvest, intermittent rains placed temporary halts in harvesting. Hail damage, however, was low.

From 9 to 12 daily, classes will be held for children beginners and intermediates and for pre-school age children.

At registration, the applicant will be notified of his class time and who his instructor for the session will be. Hardwick said.

"Due to experiences during the first term," Hardwick added, "it will be absolutely necessary that all classes be limited to a maximum of 20 enrollees."

More than 450 volunteer hours were put forth by instructors and their aides during the first term, Hardwick said.

Boys will hear a detailed explanation of how a new livestock program will be handled. Mothers Ready For Diamond Duel Saturday

PLAY BALL! To wind up the Little League season on a comedy note, the players' mothers will stage a softball game Saturday night at Little League Park.

After a strenuous afternoon work-out Monday, the mothers have resorted to liniment and rubbing alcohol to iron out the aches and pains before game-time.

Coaches are busy with secret strategy, like who's arm is likely to hold out for an inning, or which mom promises to make the least errors at shortstop. Not content with routine plays, the gals are cooking up some sharp entertainment for the spectators.

The same evening, players for all major and minor teams and their parents will be announced, climaxed by the naming of the season All-Star selections.

Johnson Benefield was the star of the game when he knocked in seven of the 13 runs with his home run and base hits.

Pitchers were Billy Perry and Mack Fortenberry. All 14 boys played.

The White Sox have two more games to play. On July 7 they will play the Vega Dodgers at Vega.

The Adrian Indians have not been quite so successful, but have most of their season yet

Among the publications, Hardwick discussed were the President's notebook, which is a compilation of many different types of information about all phases of the club, and the Manual of Procedure. Hardwick said of the Manual of Procedure, that it contains "everything that has anything to do with Rotary".

An interesting booklet shown by Hardwick was the Official Directory. This directory contains a listing of all the clubs in Rotary International as well as their place and time of meeting and key officers.

Hardwick referred to pamphlets having information for members of committees of all the avenues of service.

Among the guests of Rotary were the volunteer instructors for the Hereford Red Cross Water Safety Program. They were recognized and commended for their contribution to water safety.

PRACTICAL EXPERIENCE

CLEVELAND — Mrs. Barbara Kelley, 22, and her brother, Harold Easterwood, 23, recently got some unscheduled training. Coming home at night, Mrs. Kelley was grabbed by a man. Her brother heard her cries, raced out of the family apartment nearby and collared a 19-year-old youth.

The brother and sister work for the state in a juvenile diagnostic center, trying to figure out why delinquents act as they do.

OFF THE Shelf

By H. A. TUCK
Wake Me When It's Over by Howard Singer is a highly-amusing novel from the Deaf Smith County Library.

There are basically two kinds of people in the world, shnooks and yulds. Shnooks stumble through life with terrible things happening to them, mostly through error.

Gusty Denington was such a shnook. This poor creature, through a horrible error, was recalled by the Air Force during the Korean War. He was probably the only such character to have two serial numbers during World War II. And his five years of service are ignored when Uncle Sam beckons.

He finds himself stranded on a lonely island radar station halfway between Japan and Korea. The 400 men and officers are at rock-bottom so far as morale is concerned.

Gusty Denington is a would-be hotel manager who has been thwarted by the recall. But he cherishes the dream of setting up a rest and recreation enterprise on the island.

With the enthusiastic cooperation of the officers and men, he eventually finds himself managing a luxury hotel which, for mysterious reasons, attracts military personnel from all over Japan and Korea.

But, shnook-like, such a tremendous success becomes the focal point of a very involved scandal that reaches the U. S. and rebounds in Far East military circles.

Gusty finds himself the defendant in a court-martial that threatens to send him to Leavenworth for many years. The climax to the court-martial is most unusual... and most amusing.

Summary: Wake Me When It's Over will keep you awake until you finish it.

A NEAR MISS BALTIMORE (P) — A publicity photograph of Mrs. Louis E. Shecter, official Maryland delegate to the Brussels World's Fair, was okay except that it: Misspelled her last name.

Misspelled the street she lives on.

MEMO TO ADVERTISERS

Coal—by the ton

There are standards

for advertising, too!

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

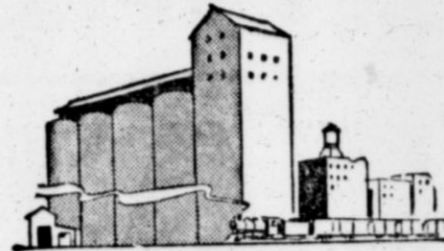

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.

TELEPHONE TALK

by Al Leach, Manager

July 19, 1959 will mark a milestone of service at the Telephone Office. On July 19th, Virginia Curtsinger will have completed fifteen years of continuous service with the Telephone Company in Hereford. You will notice I said "fifteen years of service" rather than employment as service is a more accurate term in Virginia's case. Congratulations Virginia.

VACATIONS AND TELEPHONES

When you think of vacation, about this time of year, you probably think of fishing, swimming, visiting, or just plain relaxing at some nice vacation spot.

Well, I'm happy to say that more and more people are using the telephone to have more fun on their vacation trips.

Here's how it works (and you can do the same if you're one of the lucky people still looking forward to a vacation):

First, call ahead to make overnight reservations along the highway. This way, you can drive longer and still be sure of a place to stay.

I think you'll find that this "calling-ahead habit" will help you and your family have an even better vacation.

Why not give it a try? And remember, call station-to-station—it's about one-third cheaper.

TEN RINGS

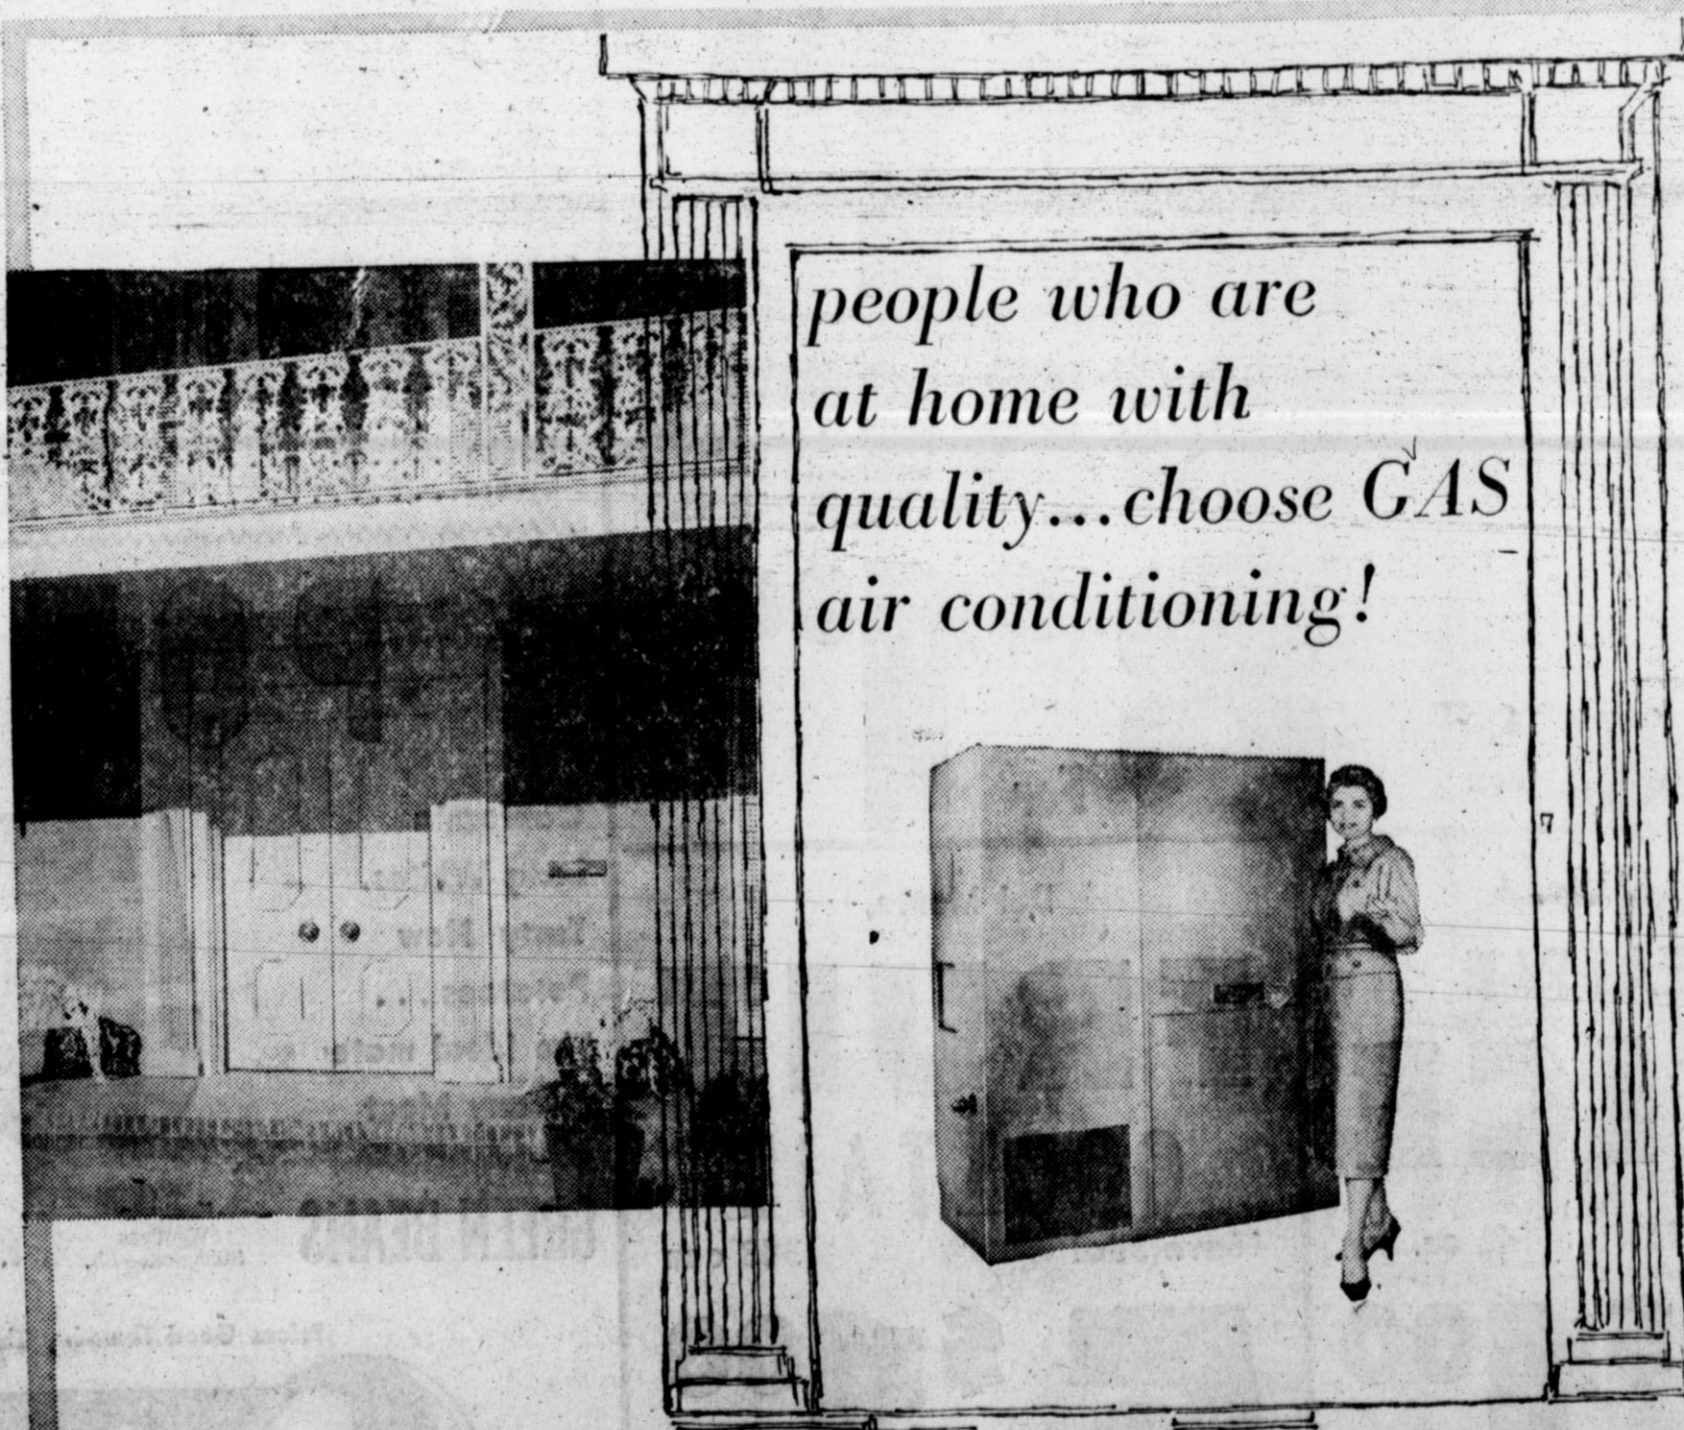

With backyard barbecues so popular nowadays, people are spending more and more time outdoors. So when you call your friends, remember it may be quite a run from the backyard to the telephone.

Give them time to make the dash by letting the telephone ring ten times.

Who knows? They may ask you over, too, for some of those hamburgers on the grill!

Call by number. It's twice as fast.

He explained he had been using a shovel, but knocked off his glasses. After a hour's search with the vacuum cleaner he found all but one lens. Then he reversed the hoses on the cleaner and blew away the snow. Out came the missing lens.

FANCY FISH: A rainy-day special made electric food server keeps the dish warm, from your favorite fisherman's catch. An

Fisherman's Catch Makes Appetizing Wet Day Meal

By CECILY BROWNSTONE

Not quite a soup, not quite a stew, but a cross between the two. Borrowed from both New England and Finland — to be enjoyed anywhere. We call this fish dish our rainy-day special because it's perfect to enjoy for lunch or supper in front of the fireplace.

Make the dish with the fish your husband or best bean catches this summer or with the more prosaic sort from your market.

But be sure to use fish that is firm of flesh, that doesn't go to pieces when it really feels the heat of the kettle. This is a main dish so you want it to have substance. There should be large filling chunks of fish into which you can sink your teeth.

With the fish go potatoes, onion, celery, bacon, milk, and that belongs to the New England way with a chowder. Its intriguing flavor comes from the Finnish manner of adding fresh dill to a fish-

and-potato soup.

If you live in the city, try to find some real country dill; the hothouse variety, often sold in urban markets, usually lacks flavor.

Pull up a table in front of the hearth and if you have an electric food server deposit it here. The fish dish, wide shallow soup plates and crusty bread and seeded rolls plus bread sticks can all go on this convenient portable appliance.

Get out your best tureen if you like, or bring on the fish dish in the kettle in which it was cooked; either way the server will keep it beautifully hot. Our recipe serves four; you may double it if you feel your eaters will want seconds or if there are eight persons to feed.

All you need to add to your main course is a big bowl of salad greens; enliven them, if you wish, with strips of cheese, chicken and ham; or with hard-cooked eggs, anchovies and tomatoes. For dessert on this menu we like a

luscious fresh fruit tart.

Ingredients: 1 slice bacon, 1 tablespoon butter or margarine, 1/2 cup chopped onion, 1/3 cup celery, 2 cups (1 pound) diced potatoes, 2 cups water, 1 1/2 teaspoons salt, 1/8 teaspoon white pepper, 1 pound firm-fleshed thick (fresh or frozen) fish fillets, 1 cup milk or light cream, 2 1/2 teaspoons minced dill.

Method: In a wide-bottom kettle, cook bacon until crisp; remove. Add butter and onion to bacon drippings; slowly cook onion until golden; remove. Add celery, potatoes, water and half the salt and pepper to kettle; simmer, covered, until potatoes are tender.

Arrange fish (thawed if frozen) over vegetables and liquid; sprinkle fish with remaining salt and pepper.

Simmer, covered, until fish is opaque through — this may take only 5 minutes; do not overcook. Break fish into large chunks in kettle. Add milk, dill, reserved bacon and onion; reheat very slowly; do not boil. Serve in wide soup plates. Makes 4 servings.

Note: Halibut is perfect for this recipe.

Lopat Lists Control As First Thing For Pitchers

By ED LOPAT

My best advice to a young pitcher is that he stay away from trick deliveries like the screwball and knuckleball. A pitcher should learn control first.

He must practice getting the ball over the plate. Starting out, a boy's best pitch should be his fast ball. It may be all he has, but that's enough, especially if he can put the pitch in the strike zone.

I learned two things from practical experience. They are rhythm and coordination. Put these two things together and you will get control. Unless you get the two you may never acquire control. Get your pitch in the proper groove, and with stuff on it.

The curve ball should come into use only after a boy perfects his fast ball. The curve is more difficult to get started, although some youngsters pick it up easily. A teen-ager must start on the curve gradually. It takes much practice to get the proper spin on the ball for

the curve to break properly. A youngster often worries about how to hold the ball and from which position to throw it (overhand or three quarters). He should throw from the position that helps him feel comfort-

able. Once he gets that comfortable feeling he can get his rhythm. Off that will come control. But he must have coordination. These things can be developed with constant practice.

One of the musts is that a pitcher should be relaxed at all times. Now by that I don't mean he should slop all over the place. When a pitcher is relaxed his muscles react to what his mind tells them. If tension builds up in the body a pitcher is not as fluid as

when he's relaxed. Tension causes wildness.

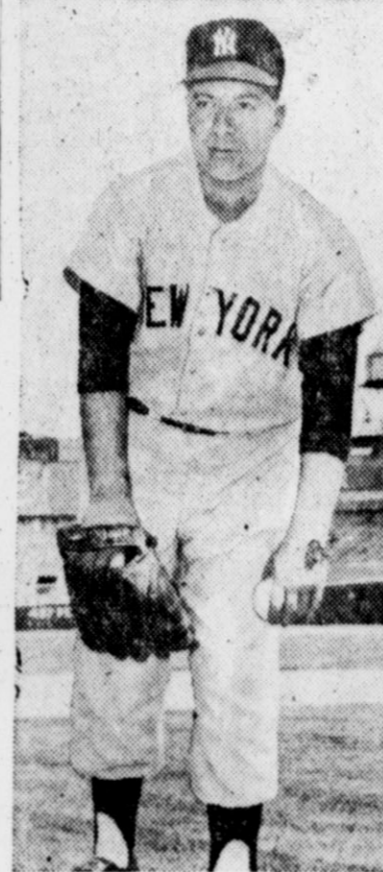

For example, when a youngster throws batting practice — and every pitcher should do this when he's not pitching a game — he is relaxed. He often has good stuff on the ball. The minute the same pitcher gets in a little jam in a ball game he sometimes tightens up, gets to pressing a bit and blows sky high.

Confidence is half the battle. A pitcher should have confidence in himself regardless of how many runners are on base. When you get a chance, look at Whitey Ford or Bob Turley of the Yankees, Early Wynn of the White Sox or, in the National League, Warren Spahn of the Braves, Robin Roberts of the Phillies or Bob Friend of the Pirates. They are relaxed pit-

chers. They have that fine rhythm and coordination. They have control.

Whether or not Deaf Smith County will have legal sale of beer containing not more than three and two-tenths per cent alcohol will be determined by voters at the election of July 28. Order was issued this week by the county commissioners

calling the election for that date.

Citizens having views on the beer question which they wish to air are free to use the columns of the Brand to do so, providing their names are signed to letters. Rev. T. C. Willett of the Methodist church opened the battle with a letter in this edition in which he flays the wets and sale of beer.

The county turned down beer in the election of last August 26 by a sizeable majority. Proponents of beer say they will stage an intensive campaign during the final days of the campaign.

Nearly two centuries ago in the fateful course of human events Liberty was born. With justifiable pride we declared our Independence... Liberty and the rights of all men. *The spiritual aspect of the proposition of freedom, equality and justice for all was fundamental in the development of these new ideas.* Liberty loving fathers, possessed of unyielding faith and vital religious convictions supplied the genius. Before a government could be founded on the brotherhood of man... there had to be the Fatherhood of God. Then let us preserve this freedom through eternal vigilance, unceasing prayer and unflinching faith. Independence!!!... the Fourth of July. *Let us ever remember the source of our freedom... Good Habits Essential To Control, Advises Lopat

By ED LOPAT

In order to pitch properly, a youngster must know what he is about to do. Don't get into the bad habit of looking at the sky, at the ground or to the sidelines. Look at your target. That would be the catcher's mitt.

The sooner you school yourself to the good habits, the sooner you will learn good control.

Don't try to pick up the target when the pitch is halfway home. Get your eyes on the target when you come to the set pitching position, and stay

HERE'S HOW Ed Lopat sights the target, which is the catcher's glove, and stays with it even while in the motion of pitching.

with that target. This will also help you follow through. Once you go into a pitching

motion with your arms, your eyes should never leave the catcher's mitt. Even after releasing the ball, follow the ball all the way in with your eyes.

With this method of pitching you can see every reaction the batter has towards the ball. You can see what your pitch is doing and what the batter is doing.

I advise youngsters to refrain from pitching every day or even every other day. Working daily does quite a bit of harm to the arm. The arm must have proper rest.

When it comes your turn to pitch, say every fourth day, the warmup pitching on the sidelines should be done gradually. Throw the ball easy at first. Take your time so that the arm muscles will loosen up gradually.

Ten to 14 minutes should be enough for a pitcher's warm up. This depends on the individual and weather conditions. You throw maybe 75 or more pitches warming up. The first 20 or 25 balls should be thrown as you would throw a ball while playing soft catch. Then gradually increase the momentum to the point where you throw the ball possibly as hard as you can.

CHANGING WEATHER.

MADISON, Wis. (AP) — A University of Wisconsin meteorologist says Grandpa is right about those winters when he was young. They were colder, especially in the eastern part of the country. Reid Bryson, head of the meteorology department, said winter temperatures in the North Atlantic states are up an average of 10 degrees since 1885. On the other hand, the Pacific Coast area is getting cooler. He added that meteorologists don't know why.

AVALANCHE

COLUMBUS, Ohio (AP) — A 10th anniversary promotion stunt backfired at Lane Avenue Shopping Center here. Merchants offered to honor 1948 dimes for dollar purchases. After customers threatened to clean out store merchandise with a flood of dimes, the merchants called off their offer. They learned later that 163,311,000 dimes were minted in 1948 — a large annual issue for any year.
