Sights and Faces Seen

This week, Around Town attempts to present a sample of opinions in Hereford concerning the European war:

**NANCY CONKWRIGHT**, employee in the County Agent's office: "I don't know what to think; I only hope we don't get into it."

**HERBERT BOARDMAN**, Trinity University student: "I think Roosevelt will try to keep us out, but I am afraid he can't."

**GASTON BAER**, Popular Store owner: "In my opinion, the war in Europe won't last very long. A revolt of the German people is likely to occur. When somebody shoots Hitler and the German people discover to what extent they have been duped, the Reich will fall."

**PACK LONDON**, barber: "Let them fight it out, as long as they stay over there. The thing that will get us into the mess is the sinking of an American ship or the killing of some American citizens."

**HAROLD CLOSE**, owner, Close Drug Store: "The United States will declare war in March, 1940, if the present conflict lasts that long."

**A. J. SCHROETER**, County Judge: "It Roosevelt wants to declare war he had better do so before the next election."

**CHARLIE FELTS**, grocer: "It looks like we'll all be totin' a un before winter."

**HOMER FOX**, owner, Fox Man's Shop: "I suppose we will (Continued on Page 12)"

## Will Accept 1940 Crop Insurance Applications Now

Officials in the County Agents office are now ready to receive applications for 1940 crop insurance, according to an announcement received this week from that office.

T. P. McCollister, farm loan agent, stated that his department is ready to take all applications from those who wish to insure their 1940 wheat crops. Terms are much better this year than in the past, he stated, and added that the rates have been revised so that the yield is up and the premium is down.

An added attraction for the insurance program in 1940 is the fact that farmers who have complied with the farm program and have soil conservation money due them can assign this money for payment of the insurance premium. In this way, the wheat grower may insure his crop without any actual cash expenditure.

September 30 is the last day on which application can be made for 1940 crop insurance.

## Activity Seen On Garcia Test Well

Indications for continued drilling on the Garcia Lake test well, 40 miles west of Hereford, were expected in the near future, according to promoters who said that the well will this time be either developed into a producer or abandoned.

The announcement followed a drive to raise \$500 in Hereford for the purpose of pulling 300 feet of casing prior to continued drilling. Most of the money was (Continued on Page 12)

## "Hot Checkers" Subject To Heavy Penalties Imposed By New State Law

Texas business men and merchants will have a new "Hot Check" law to protect their interests when the act passed by the last legislature goes into effect September 20.

The new law makes the passing of a hot check strictly illegal and makes the checker subject to fine or imprisonment. If a complaint is filed against a person for giving a hot check and then the complaint is asked to be withdrawn, the person who filed the complaint is subject to a fine of not less than \$100 nor more than \$500 upon conviction.

## Evacuation of London Children

While thousands of American children are being marshaled in hundreds of schools throughout the nation this week, thousands of English children are being marshaled in evacuation centers. They gaily take the evacuation activities as an exciting new sport, but anxious mothers have no joy in their hearts as they hurry their little ones off to a hoped-for safety. The total population in the designated evacuation area in England is about 11,000,000, but only about 3,000,000 of these were included in the first group.

### Fred Harrell To Be News Editor Of The Brand

Fred Harrell arrived this week to get acquainted before he assumes full responsibility as news editor and feature writer for the Brand, on September 18, when he will replace Bill McLean, who will leave for Galveston to attend the medical college there.

Mr. Harrell graduated from Texas Technological College at Lubbock in 1938 with a bachelor's degree in journalism. He has had practical experience with the Lubbock Morning Avalanche and with The Torador, official bi-weekly paper of Texas Tech. He will handle all the news at the Brand.

Mr. and Mrs. Harrell are making their home at 517 East Eleventh Street at present.

### Ireland Motor Co. Displays Plymouths For 1940 Here

The first 1940 model cars displayed in Hereford were shown by the Ireland Motor Co. this week when they announced the new Plymouths. Two models are on display this week, and others are on the way.

The new models feature a new type of streamlined design carries out the same type of lines from the front to the back, even to beginning a line on the front fender and completing it on the rear fender on the same side.

Sturdier build and improved engine design make the 1940 Plymouth an even more economical car than the 1939 model. Of especial interest is the new "porcelain" paint finish which is resistant to weather and road film and which appears in a wide variety of beautiful pastel shades.

The models have a roomy 117 inch wheel base, and all models (Continued on Page 12)

## Whiteface Team Shows Promise, Needs Practice

Coach Tommy McCollum put the Whiteface team through its first scrimmage this season last Wednesday, and the boys gave, on the whole, a promising performance.

The team has been at practice since September 1. This is unusually late, but under a new State Law, September 1 is the first day on which Class A teams may begin practice. This means that only one more week of training remains before the team plays the first game of the season, for the opening game is scheduled for Friday night, September 15, with Vega. The game will be played on the Whiteface field.

On the whole, the boys seem to be rather badly in need of further practice. Most of them are only in fair shape, and their wind is not what it ought to be. It is hard to tell what they will look like this time next week, but it is certain that if they fail to improve about 100 percent, their first showing will not be what it could. Eager fans are anticipating a real game to

The complete schedule for the coming season as announced by the Athletic Association is as follows: Home games are night games.

- September 15, Hereford vs Vega at Hereford.
- September 22, Hereford vs Portales at Portales.
- September 29, Hereford vs Dimmitt at Hereford.
- October 6, Hereford vs Dumas at Dumas.
- October 13, Hereford vs White Deer at White Deer.
- October 20, Hereford vs Friona at Friona.
- October 27, Hereford vs Dalhart at Hereford.
- November 3, open date.
- November 10, Hereford vs Tulla at Hereford.
- November 17, Hereford vs Canyon at Canyon.

christen the new lights, and it is likely that they will not be disappointed, but it is going to take a lot of work and real enthusiasm to whip the team into the shape the fans want it.

There is no doubt that the boys have it in them. Most of them were too sore yesterday to work up too much enthusiasm over practice, and it stands to reason that they will show up much better during the ensuing practice sessions. What they seem to lack most is fire and enthusiasm—there is little chatter among the players, and they get up too slow when they fall.

The promise of a good team is definitely there, however, and the fans can be certain that if the boys can be whipped into (Continued on Page 12)

## Henry Mazurek And Family Hurt In San Antonio Auto Wreck

E. L. Pyka and Mr. and Mrs. T. H. Mazurek and children, Mrs. B. A. Hamlin of Bovina and Mrs. J. H. Wheeler of Hereford were called to San Antonio on Thursday of last week when Mr. Pyka's sister, Mrs. Henry Mazurek, her husband and three children were involved in an accident there on Wednesday. Mr. Mazurek is a son of Mr. and Mrs. T. H. Mazurek.

Members of the Henry Mazurek family were rushed to a San Antonio hospital after the accident. Mrs. Mazurek sustained the worst injuries. She suffered a fractured skull and numerous internal injuries. Her husband is also in a critical condition. The children were not seriously hurt, and they were released from the hospital after a brief period of treatment and recuperation. Mr. and Mrs. Mazurek are reported out of danger now unless pneumonia sets in.

The Hereford party returned from San Antonio last Tuesday.

## Dimmitt Post To Be District Legion Host

Castro County Post of the American Legion, Dimmitt, Tex., will be host to the other Posts in the most unique, the most unusual meeting in the history of the 18th District, Thursday night, September 14.

All Posts that have not already installed officers for the year of 1940, are asked to bring their newly elected officers for a mass installation for the District. Our newly elected State Department Commander, Lou Roberts, will do the honors of installation.

Aside from the mass installation, Castro County Post expects to do itself proud in its efforts at entertaining its guests at this meeting. (Continued on Page 12)

### F. L. Ridgeway Is Buried Here Sunday

Forrest Ridgeway, brother of Mrs. Al Werner of Hereford, died September 2 in an Amarillo hospital following an operation. He was the son of Mrs. T. B. Ridgeway of Mexico, Mo.

Funeral services were conducted here Sunday from the parlors of the Black Funeral Home under the direction of Rev. James Alken, pastor of the First Presbyterian Church, and Rev. M. M. Beavers, pastor of the First Methodist Church. Interment was made in West Park Cemetery.

Mr. Ridgeway was forty years (Continued on Page 12)

### Bobbie's Beauty Salon Re-Opens Here

Mrs. Bobbie Seed has announced that she has purchased a full interest in "Alma's Beauty Salon." The shop will continue operation with the same personnel.

Mrs. Seed was owner of the shop two years ago, and at that time it was called "Bobbie's." The name was changed to "Alma's" when Bobbie sold a half interest in the business. She now has full ownership again, and the name will be changed to "Bobbie's."

The shop will be completely remodeled during the month, the proprietor said, and every means will be taken to insure satisfaction to the customers. (Continued on Page 12)

### Farm Loan Members Will Meet Saturday

Annual Stock Holder's Meeting of the Amarillo National Farm Loan Association will be held in the Crystal Ballroom of the Herring Hotel, Amarillo, Saturday afternoon at 1:30. H. T. Neely, Secretary-Treasurer, has announced.

Highlight of the program will be motion pictures shown by Mr. A. C. Williams, President of the Federal Land Bank of Houston. These pictures are in natural color and include places of historic interest as well as scenes of farm and ranch activities in various parts of Texas. Of particular interest is a film devoted to work of outstanding 4-H Club boys and girls.

The Amarillo Association was organized in 1918 and during the period of its operation has handled more than four million dollars in loans. The Association can handle Federal loans on land located in Potter, Randall, Carson, Armstrong, Oldham, Deaf Smith and Moore counties. A large attendance at the meeting is urged.

Season tickets and reserved seat tickets for the 1939 Whiteface football season were placed on sale by the Athletic Association yesterday. Also placed on sale yesterday were the first tickets entitling the holder to reserved space for his car at the games played on the Whiteface field.

All reserve tickets and season tickets admit the holder to the four games which will be played on the Whiteface field. The home games will all be night games unless weather prohibits.

Reserved seat tickets and tickets for car reservations are available only at Close Drug Store. These tickets are 50 cents each—if there are those who care to have both a car reservation and a reserved seat in the grandstand, it will be necessary for them to purchase a ticket for each reservation.

Season tickets are selling for \$1.75 for the adult class, and 50 cents for the student class. An adult season ticket and a reserved seat ticket or a car reservation ticket can be obtained for \$2.25.

Reservations in the grandstand will be on the west side of the field. Car reservations (Continued on Page 12)

## Scout Leaders To Attend Ceta Glen Training Camp

Plans were made this week for the troop leaders of Troop 1 of the Hereford Boy Scouts to attend a training camp at Ceta Glen next Sunday afternoon and night.

The brief overnight camp has been planned in order to afford the leaders an opportunity to plan their work together in order that they may better train the younger members of the troop. The topics discussed at the camp will consist largely of the fundamental essentials of scouting.

Planning to attend the camp are Urllin Streu, scoutmaster, and the assistant and junior assistant scoutmasters.

### Frank Marrs Is New Shop Foreman For Norton Motor Co.

Norton Motor Company issued a statement this week that the repair shops of that concern are now under the supervision of Frank Marrs, veteran mechanic and garage man. The shop will continue to operate with the same efficient personnel whose work is well known to Hereford motorists.

Simultaneously with the announcement of the new shop foreman, Norton Motor Company issued the surprising statement that the new Pontiac automobiles for 1940 were on display in their showrooms this morning. The new models are among the first of the 1940 series to be produced in the automobile industry. They feature complete changes in design and engineering. (Continued on Page 12)

## War News In Hereford 25 Years Ago Scarce Compared With News Today

Slightly more than 25 years ago Hereford people were reading about the beginning of the World War and wondering, as they are today, if civilization could survive a world conflict. But issues of the Hereford Brand published as the war began, failed to show unusual excitement. Uncertainty of war news was evident in those issues. In one story a ship owner reported the sinking of 19 German ships by the British, and a Finnish sea captain reported that the Germans had taken two Russian (Continued on Page 12)

There was trading on the wheat market for the first time in three days today, and the price fluctuated wildly from gains of five cents in Minneapolis to losses of three cents in Chicago during the early minutes of trading. Cash wheat in Hereford was two cents off from yesterday's closing figure this morning. Experts are of the opinion that the price will rise slowly to a peak, due to a "psychological demand," and then fall from that peak. Buyers are still clamoring for grain, and several mills are reported to be uncomfortably low on grain. Since most of the wheat in Hereford went into the government loan, it is expected that most producers will not take their wheat out of the loan and sell it until the price advances more than it has to date.

Market prices on wheat rose consistently when the market opened this week after the holiday. On both Tuesday and Wednesday the markets in Chicago, Winnipeg and Minneapolis closed after the maximum advance allowed of 5 cents in a day's trading had been reached. Tuesday the market closed twenty minutes after it opened with the transfer of only 5,000 bushels of wheat. Wednesday saw further restriction on the wheat boards; the market closed with a price of 72 cents a bushel in Hereford.

Thursday, exchanges raised the price fluctuation limit for wheat in a day's trading to 10 cents per bushel.

Most of the record wheat crop produced in Deaf Smith county this year went into the government loan. Under the terms of this loan, the producer receives cash equal to the face value of his loan, which is based on the amount of wheat stored under the terms of the loan. Prices paid for wheat at the time the loans were made varied from 60 cents to 63 cents per bushel in Hereford, depending on the protein content of the grain. The producer who stores his wheat under the terms of the government loan agrees to pay back the loan plus interest at 4 percent per year at the end of seven months or on April 30, whichever is earlier. He also pays storage at the rate of a cent a bushel a month unless the wheat is delivered to the Commodity Credit Corporation in settlement for the loan at the end of the seven-month period, in which case he is paid seven cents a bushel for storage on his wheat.

In case of an advance in the price of wheat, the producer who has placed his wheat in the government loan has the privilege of selling it at the higher price and realizing a profit. In case he does take advantage of an increase in price in this manner, no storage is paid him by the government and the storage bill reverts to him for payment.

## THE RIGHT VARIETY

The time for planting winter wheat is near, and Deaf Smith County farmers, with the taste of the best harvest in seven years still strong in their mouths, are laying plans to make next year's harvest one that will represent a still larger net profit. Ground preparations are being made with the care of long experience, and every "trick of the trade" is being tried in the effort to do everything possible to insure a good crop next season. All these preparations are being made, of course, with the hopeful understanding that the weather will be favorable.

Much has been said concerning the varieties of wheat which seem to be the best adapted to growth in this soil and climate. The natural result of these discussions is that there are mixed opinions as to the relative merits of the various varieties of wheat, as to their respective yields, adaptability to soils and climate, etc. And a further result no less natural, is that certain varieties have come into more or less unanimous favor among growers; and, consequently, these varieties constitute the majority of the wheat produced in this county.

In all the efforts to select the varieties best adapted to growth in this country, however, one factor has been entirely omitted from the considerations involved. While almost every wheat producer has a ready opinion as to what he considers the best variety of wheat to plant for the most satisfactory growth and yield, almost none of them have any idea of the relative values of the various grains with respect to their milling and baking excellence. Nor do they care, for it has never been necessary for them to care. The millers have never stressed the point, and they have paid the same for all varieties of wheat.

This practice is fast becoming obsolete now, due to the force of several influences. Modern baking proficiency demands a superlative flour, pure food laws demand flour made only from grains of the highest quality, and the pampered tastes of millions of Americans demand breads and pastries of a texture and flavor that can only be produced by the use of high quality flours, expertly milled from choice grains. Also, the mills are no longer forced to take all they can get, because the United States has a tremendous wheat surplus, and the mills are beginning to exercise a shrewd choice not only as to the amount of grain they purchase but also as to the variety of that grain.

Even in the event that a European war should consume this surplus, American mills would still retain their choice varieties for the production of domestic flours, and, unless foreign demands rose to unexpected quantities, would continue to offer a premium for the better varieties.

In the opinion of Alex R. Bateman, County Agent, the mills will pay less for those varieties which produce inferior flours beginning the next harvest year. Even the most conservative estimates give the mills only five years to come to this point.

In the face of such facts, it behooves the wheat farmers in Deaf Smith County to learn the varieties which are considered best by the mills and to select families of these varieties which are adapted to this soil and climate for seeding purposes.

The varieties that are accepted by the mills as desirable for producing high quality flours are Tenmar, Turkey Red and Kanred, or families of these varieties. It has been shown that strains or families of these three varieties do as well here as most other varieties.

These varieties definitely not desirable from a milling standpoint, and which are being grown locally to some extent at the present time are, Chiefkan, Blackhull and Heiberling. The following quotations summarize the opinion of millers throughout the county:

"Chiefkan produces a plump, dark, hard kernel. It was originated from spring wheat, Durham variety, and developed to grow in this climate. Its characteristics prevent a good milling yield from being received; and, after milling, it has a very poor baking quality, as the gluten, though present in sufficient quantity is not of the right quality to obtain good baking results."

Black hull mills up fairly well, but the flour milled from it will not produce satisfactorily in the bake shop. After the loaf is developed and put into the oven, it has a tendency to break down under the heat, producing a poor loaf of bread.

Heiberling is an early Blackhull variety. This selection of wheat was made by A. P. Haeberle of Clearwater, Kansas,—hence, its name. Its characteristics are the same as those of Blackhull."

A continued increase in the acreage devoted to these undesirable varieties with a resulting increase in the amounts of them received on the market from this county will undoubtedly lead to the institution of sharp discriminatory discounts by buyers of wheat from this county. It is obviously to the advantage of the grower to avoid these varieties.

Good seed is as essential to the wheat grower as fine cattle are to the cattle breeder. Varieties of wheat that will produce a high grade of flour and other milled products are certainly desirable in all markets. Such varieties will grow here as well as other inferior varieties. Business wisdom dictates the only reasonable course to be followed by the Deaf Smith County wheat producers.

# GIVE YOUR MOTOR A CHANCE

## to surprise you

YOU probably have just had your vacation, which was anything but that for your car. You drove it more miles in less time, and with less care, than usual. Hence it is likely the engine has more carbon in it... has less pep... is noisier... and less responsive.

So right now is the perfect time to try Phillips 66 Poly Gas, the high test, high energy, custom-tailored motor fuel, which costs nothing extra! You should feel that difference with your very first trial tankful—added power, pep, pick-up, and mileage.

Remember, the Phillips 66 Poly Gas you buy today isn't merely another Summer gasoline. It is actually a September gas, more accurately custom-tailored than any other gasoline. Matched and re-matched to the climate in your locality, every month in the year. And there is hardly a day in 365, when its high test rating and anti-knock value are not unsurpassed in its field.

Why not find out the facts personally? Why not give your motor a chance to surprise you? September Phillips 66 Poly Gas is waiting for you now at every Orange and Black 66 Shell.

## Junior Pioneer Club Builds New Program Around Contemporary Life

Different phases of contemporary life, ranging from science and politics to public welfare and world peace will form program for the Junior Pioneer Study Club's 1939-40 season.

The club study course opens Friday night at the home of Mrs. Alton Miller, with a look into the latest scientific development in the field of medicine. Public welfare will be the subject of one of the October programs. November will include the annual Thanksgiving Dinner honoring husbands and friends. A Christmas party in December will highlight the holidays and peace programs will fill most of January's program dates. Subjects chosen by the trend of time will fill February's calendar with the required Texas Day program featuring meetings in March. Other special days will be featured during the year including Federation Day. Mrs. S. J. Jones and Mrs. A. J. Schroeter will be leaders for the April programs. Senior Pioneer Club members and mothers will also be honored in April. The annual spring party comes in May when the regular study sessions are concluded.

Officers who will guide the club's activities this year include: Mrs. Urlin Streu, president; Mrs. Meade Halle, vice-president; Mrs. O. H. Culppepper, recording secretary; Mrs. Jack Telford, corresponding secretary; Mrs. Willis Edelman, treasurer; Mrs. Buford Crosthwait, parliamentarian; and Mrs. A. J. Schroeter, reporter.

### Complete Beauty Aids Found In New Store

"Every aid for modern beauty care" might be the slogan of the cosmetic department of the new Halle Drug Store. Leon Lorrain Toilettries, recognized for quality, are featured here as well as all standard lines of creams, lotions, powders, etc.

The cosmetics are conveniently displayed on the south side front of the new store.

### LONE STAR STUDY CLUB BEGINS YEAR'S ACTIVITIES WITH STUDY PROGRAM

Activities for the year were begun with a study program Monday afternoon when members of the Lone Star Study Club were entertained at the home of Mrs. A. Petersen with Mrs. Ralph White as assistant hostess.

Mrs. Louie LeGrand, president, conducted the business session when plans for the year's work were discussed and new year books were distributed.

The study course is built around the theme "Other Peoples Lives" and deals with outstanding characters of America and other nations. The first lesson was on Pearl S. Buck and her achievements. Mrs. R. G. Blue gave a biography of Mrs. Buck with high lights of her life among the Chinese forming the major part of her talk. Mrs. Louie LeGrand reviewed the book "The Patriot" by Buck. The story has to do with the revolution in China. Character sketches were given and descriptive excerpts were read.

The next program, which will be given on September 18, is distinctively an American one. Personalities from the White House will furnish lesson topics including the Woodrow Wilsons and the Roosevelts.

Those attending the meeting were Mesdames E. W. Young, Lawrence Womble, Jack Grady, Earl Phillips, Ellis Coombes, Louie LeGrand, H. E. Henslee, Tom Major, Robert Thompson, R. G. Blue, C. F. Moore, Roger Corbett, and the hostesses.

### MRS. SNYDER IS CLUB HOSTESS

Fringed marigolds in simple bouquet arrangements furnished seasonal decorations Tuesday afternoon when Mrs. Glenn Snyder was hostess to members and guests of the Tuesday Afternoon Bridge Club. Special guests included Mrs. Colby Colby Conkright and Mrs. Knox Kinard.

Mrs. Gaston Baer played high for score award.

Members attending were Mesdames W. L. Davis, Travis Dameron, Woodrow Ireland, Tom McCollum, Gaston Baer, W. M. Emmons and the hostess.

A salad course was served after the games.

### BREAKFAST WILL BEGIN ACTIVITIES FOR PIONEER STUDY CLUB TUESDAY

A breakfast Tuesday morning at 9 o'clock will begin the season's activities for the Pioneer Study Club.

The breakfast will be given at the home of Mrs. F. L. Lucas and all members are requested to give prompt attendance.

Mr. and Mrs. Jim Lipscomb transacted business in Amarillo yesterday.

Misses Louise and Wanda Comber of Clovis, N. M., have been visiting in the home of their uncle, Jim Higgins.

Mr. and Mrs. Claude White of Lubbock were in Hereford last week visiting his brother, Ralph White and Mrs. White.

### VISITS CARLSBAD CAVERNS

Mr. and Mrs. Orin McLain of Amarillo stopped here Saturday for a brief visit with his sister, Mrs. C. O. Phillips and family. They were enroute to Carlsbad, N. M., and were accompanied from here by their niece, Miss Bernadine Phillips who visited the Caverns with them.

### WIENER ROAST AND PICNIC ENTERTAINS CLASS

Mrs. Wiley Roberson entertained members of the eight year old boys class of the Primary Department of the Baptist Church with a picnic supper party Thursday night at Hereford State Park.

Wieners and marshmallows were roasted and games were enjoyed. Those attending were, Ellis Posey, Oliver Streu, Eugene Roberson, Van Earl Riggs, James Miles, Glenn Earl Manning, Bobbie Owen, Virgil Ray Terry and the teacher. Guests were Pat and Marion Longbottom and Donald Roberson.

### RE-ASSEMBLY SESSION HELD BY L. A. E. CLUB

The L. A. E. Club re-assembled Tuesday afternoon at the home of Mrs. Jim Higgins.

Roll call was answered with books of the Bible and comments concerning them. Mrs. Bob Higgins was in charge of the program on "The Old and New Testaments." Mrs. Higgins gave a history of the Testaments followed by a round table discussion comparing the women of the Old and New Testaments.

New year books were discussed and plans for the coming year's work were disclosed.

The club will study "Sacred Literature" during the winter. The Bible programs which have been sponsored each year have been so unanimously enjoyed that the club voted last spring to devote a whole season's study to the Bible. Included in the outlines are programs on "The Bible as Literature," "Famous Stories of the Bible," "Sermons From the Bible," "Women of the Bible," "Influences of the Bible on Music and Art" and other relative subjects. Parties, lunch-

rooms to rent, try a want ad

### JUNIOR BAND GROUP HAS FIRST MEETING

Junior Band and Clarette Mothers Organization held its first meeting of the season at Central School Tuesday afternoon.

Mrs. R. G. Blue who will head the club this year presided. Director Ralph Smith gave an interesting talk on the need for co-operation on the part of the mothers and the need for a well organized group. A trophy won by the Junior Band at the annual Band Festival held in Plainville last spring, was displayed.

The organization will meet on the first Tuesday afternoon of each month. Programs will be presented at each meeting by members of the Junior Band.

Officers include: Mrs. R. G. Blue, president; Mrs. Carl Williams, vice-president; Mrs. C. T. Guseman, secretary; Mrs. G. M. Hudson, treasurer and Mrs. Wm. Bell, reporter.

### Miscellaneous Shower

# Amarillo Clowns Mow Down All-Stars With A One-Man Team

BY HOMER FOX

Monday night the Amarillo Clown Soft Ball club slipped down here and demonstrated to a bunch of local flat heads that the wrong bunch was wearing the Clown Suits in a School Cafeteria benefit game, and the Clowns mowed the local boys down 6 to 0.

Bud Wilkins did the chunking and Nasty Clayton, the receiving for the home bunch, Wilkins held the boys to 8 hits, which should win most any soft ball game; but not this one, because this Norton who was burning 'em across for the Clowns, was the stingiest pitcher I ever saw. He just pitched a little old no hitter, and it was the first one I ever saw in any kind of ball. It is pretty hard to win a ball game when you get exactly no hits at all.

It really was a treat for the fans to watch it, though, after going all year and reading a score like "14 hits, 16 runs and 11 errors". Then to sit out there and see this old Norton boy whiz 'em past the boys for seven frames without a single lick seemed unbelievable, and besides, how the sam hill can any guy throw a ball as fast as this meat head anyway, let alone under handed. He actually had our Stars striking after the catcher threw the ball back to Norton, and a lot of fans that saw the game still don't believe it: Fourteen strike outs, 2 easy outfield balls and three infield balls; he walked 6 men, but when they showed ambition to cross home plate, this baby just struck 'em out. You have heard all your life, "how can they hit 'em when they can't see them," but it was true Monday night. Why, even Brown, calling 'em wrong behind the bat, was clawing leather from the start. But even at that he did a nice job of guessing at them.

The Clowns sewed up the game in the first inning when Hinkamp walked, and with two men

out Rouse crashed one over left field for a home run. They scored one more in the fourth when Rouse singled, went to second on an F. C. and scored on a wild pitch. They finished the scoring in the sixth with three more runs.

Onias Carroll led the batting with 100 per cent over the left shoulder with three strikeouts; runner up was Kimmons with 2, Clayton 2, Larry Loerwald 2, and T. Loerwald and Wilkins 2, and you just can't win a ball game like that even with three umpires and the score keeper on your side. It was just a case of too much Norton, too many errors—too dadgummed bad we had to use such narrow bats.

## Attractive Tea At Bride-Elect's Home Announces Coming Wedding

Attractive in detail were appointments for the tea given at the home of Mrs. J. H. Miller Saturday afternoon to announce the approaching marriage of her daughter, Miss Katherine Miller, to Mr. John E. Kane of Fayetteville, Ark. The wedding is scheduled to take place at the home of the bride Sunday morning, September 10.

Rooms at the Miller home were decorated with fall flowers in pastel shades and lighted tapers. All appointments emphasized a pastel color theme.

Tea was served from a lace-laid table centered with an arrangement of pale pink and cream roses in crystal flanked by delicate green tapers burning in crystal holders. Matching tapers adorned the buffet. Mrs. F. H. Oberthier and Mrs. Alton Miller presided at the punch bowl.

The approaching marriage was revealed with cake squares in white which bore the inscription "Katherine and John" traced in pale green frosting. Flowers, repeating the pastel color theme, were given as plate favors.

Those who were privileged first to hear of the wedding date were Mesdames Marvel Upton, E. B. Hicks, J. M. Gilliland, Alton Miller, F. H. Oberthier, George Benson, Ralph Barnett, B. Y. Crosthwait, Carl Moutz, Frank Huckert, W. M. Cogdell, J. S. Orr, H. G. Conkwright, John Whitsett, R. A. Daniel, Louis Woodford, Rex Tynes of Lubbock, M. S. Gatewood of Ft. Worth, Misses

## SEEDS of ADVICE

from The Garden Club

### IT'S TIME TO PLANT IRIS AND DAY LILIES

The iris, like the lowly zinnia, is becoming more and more appreciated by the general public. It is the general impression that some of the older plants, and perhaps the best ones, are quite forgotten. The reason is neglect—failure to cultivate, weed or feed the iris results in the plant growing smaller, giving off fewer spikes and in its size decreasing, even losing the substance and richness of color.

It is of great importance that the iris should be planted as early as possible in September. The plant begins to grow at once and a well developed root system will help take it through the winter and give good flowers the following spring.

### KIND OF IRIS

While the flowers of the bulbous iris look like those of the hardy garden species, the roots foliage and habits of growth are entirely different. They grow from small bulbs about the size of crocus bulbs and the foliage is slender and grass-like. In fact, the foliage is so scant in spring it is hard to visualize the flower show which the plant produces in the fall. The three best known varieties of bulbous iris are: Dutch, Spanish and English. The Dutch iris is nearly two weeks earlier than the Spanish and they are stronger and have much larger flowers. The Spanish iris grows from one to two feet tall and flowers in June. The English type is still later but for the beginner, it is likely the most satisfactory one to try.

**THE LILY (HEMEROCALLIS)**  
These splendid flowers which belong to the lily family deserve a place in every garden. They will grow luxuriantly under varied soil and climatic conditions from moist shady spots to full

exposure and dry soil. In the latter instance they should be given plenty of water while making early growth and during the flowering period, which with the several varieties, is from early May to late July. Varieties range in height from two to five feet and include colors shading from lemon yellow to burnt orange. The individual flower lasts but a day but the flowers are produced so freely that the plants are constantly in bloom. The two best known varieties are the flava, which is deep lemon in color and very fragrant, and the flava, a tawny plant, dark orange with darker shadings. Both of these types flower in June and July, but by careful selection one can have blooms from May to September.

Keep on pinching out the laterals of Dahlias, saving only good flowering stems. Don't let Dahlias want for water now and continue tying up the stalks as they continue to grow.

FOX CLEANERS AND HATTERS Phone 111

CHDA NOTES

By Sadie Lee Oliver

"What would you do with a family which always wants potatoes baked with the jackets on?" asked Mrs. W. B. Saxton of the Wyche Home Demonstration Club at a recent meeting. The answer is: Be thankful for such a healthful preference in food preparation.

An Irish potato, bugaboo of persons trying to lose weight, is no more fattening than a large apple, yet it provides the diet with valuable vitamins and minerals at low cost.

Moisture absorbed during cooking is the primary cause of soggy potatoes. Steamed potatoes absorb less moisture than boiled ones and therefore are healthier, though not as mealy as baked potatoes. Mature potatoes are recommended for baking purposes.

Food specialists consider potatoes the first vegetable to buy when a low-cost health food is to be bought, and they advise serving this economical food at least once a day.

Have you tried locally grown potatoes? Their superior flavor is creating a market demand for them.

An outstanding event of the home demonstration club party held at the Hereford State Park Building on the evening of August 31 was the program put on by pupils of Dixie Dice of Amarillo.

Clarence Kropff, grandson of Mrs. Carrie Kropff of North Hereford, and Dixie Hedgecock were featured in a popular tap dance number and Ernestine Mercer sang two numbers which were very well received. Dixie Dice directed the program and played accompaniments.

Cowboy songs were sung by Melba Sawyer of North Hereford who played her own mandolin accompaniment.

Mrs. John Kropff directed games and stunts of active and most hilarious types which the group thoroughly enjoyed.

The forty-four who registered present were Messers and Mesdames Carl Kropff, G. S. Parkes, G. A. Frye, W. H. Miller, John Kropff, Russell Hunter, C. L. Bogle, Glenn Hetzler, O. L. Shugart, Mrs. Carrie Kropff, Nolan and Joyce Miller, H. M. Koelzer, Mrs. Otto Olson, Sadie Lee Oliver, Charles Kropff, Sylvia Brink, Norma Hetzler, Christine Olson, Melba Sawyer, Mrs. B. B. Corn, Betty Jo Kendall, Elma Shugart, Dorothy Banner, Adeline Koelzer, Mrs. Maud Dice, Jay Duncan, C. C. Kropff, Mrs. J. Ernest Mercer, Dixie Dice, Ernestine Mercer, Vivian Earson, Dixie Hedgecock and Clarence Kropff, all of Amarillo.

Thirty articles were modeled by eleven 4-H Club girls who met in the District Courtroom on the afternoon of Saturday, September 2 to model garments made and discuss articles made and displayed. Their construction work was selected from four groups: 1. Work Clothes, 2. Sleeping and lounging garments 3. Underclothing, 4. Dresses.

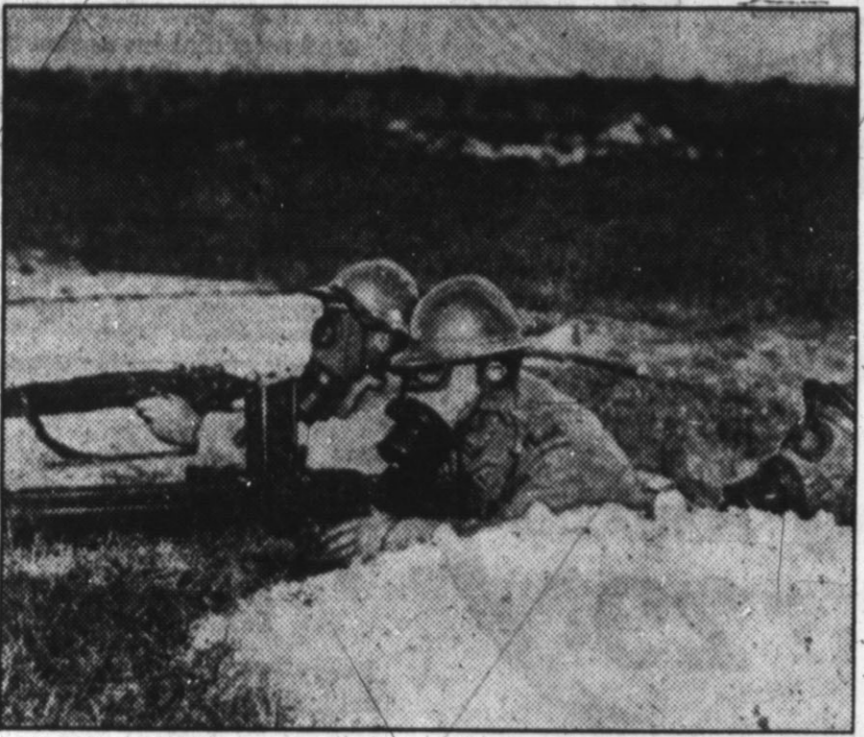

Items on display varied from potholders and cup towels, to pajamas, housecoats, slacks, school dresses, and party dresses. Each girl told of her reasons for selecting designs, colors, materials and garment, as well as seams and finishes.

Modeling was done by Rosalie Powlson, Dora Lee Burgess, Wilma Higgins, Ira Jeanne Ricketts, Verna Fay Hurford, and Vela Pearl Hurford of Progressive; Wilma Jean Miller of Dawn; Georgia Neel Coleman of Messenger; Nancy Olson, Betty Jean McBrayer and Helen Rinart of Wyche. Mrs. V. E. Dodson had charge of the method of presentation.

Others present were Mrs. Louie Olson, sponsor of the Wyche club, Mesdames H. E. Miller, Dawn; Edgar Russell and Ira Ricketts, Progressive; Luke McBrayer, Wyche; M. H. Koelzer and Otto Olson, North Hereford; and Misses Armella Reinart, Minnie Hurford, Christine Olson, Norma Lea Edwards, Pearl Edwards, Sarah Smith, Doris Smith and Mary Frye.

Delegates from the Deaf Smith County Home Demonstration clubs to the Texas Home Demonstration Association meeting in Lubbock on September 6-7-8 are Mesdames R. A. Frye,

French Troops on Frontier

French soldiers manning field fortifications on the German border. They are equipped with gas masks in anticipation of Germany's use of gas as a weapon against its enemies. France's army of 6,000,000 men is looked upon as one of the greatest armies in the world. Army officials, in answer to President Roosevelt's plea, guaranteed that French forces will not bombard open cities or civilian populations as long as enemy forces do not do so.

Dawn, Frank Wilde, North Hereford; Lee Cocanougher, Wyche. These delegates may vote in the election for state and district officers who will serve the next two years. Revision of the constitution is also to be considered.

Other club members may attend the business meetings and the banquet on Thursday night, Miss Ruby Mashburn, District Agent writes: "Since the meeting is so close I hope that each county will have their three delegates and also one or two other women in addition, in order to study functioning, organization and better familiarize themselves in their county with the objectives of their state organization. This is an opportunity which many club women should take advantage of."

WAR is the topic on every tongue these days. Last week folks in this community were wondering if Europe would be plunged into war. Now most of us are wondering if the United States will enter the war. If anyone really knew the answers to these questions, I doubt if he would be given much audience. In the issue of August 24, I predicted that war would come to Europe—and plenty of people told me that I was plain nuts. If the war continues five more years, it's a good guess that the U. S. A. will be fighting by that time; if the war ends within a period of three years, it's a fair guess that we won't be actually fighting.

Then again, the factor of war may become a national issue in the presidential election in 1940—and I might miss my guess a million miles. It stands to reason that Germany is not going out of her way to entice Uncle Sam into the war. Hitler has plenty to worry about as things stand.

On the other hand, "What will Russia do?" To the people of Deaf Smith County and of the United States this presents a question of vital importance, because the actions of Soviet Russia will do much toward determining our position in the conflict. When I made my first guess I

was betting that Russia expects to sit quietly at home and do some high pressure profiteering. Russia is willing to give arms and food to Germany—and when Germany loses the war and goes under martial rule of France and England, Stalin hopes to step in and gradually replace Hitler's teachings with Russia's communism. Russia has everything to gain and nothing to lose. Win, lose or draw in the present war—and Russia stands a chance to deeply root the foundation of the Soviet Communism throughout Europe.

In 1914 most persons in the United States thought that the World War would be over within six months. This time most people expect the war to be long and drawn out. Don't be surprised if the war ends in six months this time. There is the ever-present threat of revolution in Germany. Hitler is not a popular man—and if you start speculating on the outcome, don't ever over-look the possibility of total collapse of the Hitler regime.

Next in importance to the present war is the steadily rising price of wheat. This gets even closer to home, and for once it looks like the farmer rather than the speculator is going to benefit from the wheat price fluctuations. Wheat prices in Hereford jumped from 55 cents to 72 cents a bushel—and it looks like farmers can repay their loans and sell their wheat at a profit. Dollar wheat in Hereford will mean that the price of the 1939 crop is doubled; most of the grain will go into the profit columns, since the production costs have already been paid.

The people of Deaf Smith County have no desire to profiteer on wheat at the expense of their former al-

lies. On the other hand, Dollar Wheat is not profiteering. A dollar a bushel is a fair price for wheat under normal conditions; under present conditions it may not be enough. Here's another prediction: "The government will put a 'top' on wheat prices within 30 days."

Meanwhile, President Roosevelt has definitely laid out our course. He told us to go ahead with our jobs and to mind our own business. This is good advice. In this territory our chief occupations are wheat and cattle. The world needs these two products more than anything else right now—and if our own nation gets into war they will be more valuable than steel and gun powder. Let's string along with our government, paying just as much attention as ever to our own business. If war comes to us we'll do our part. If it doesn't come, we'll all rejoice.

While Europeans are busy tearing down the efforts of their toil, it is gratifying to note that our own community is building. Several persons plan to build homes in Hereford within the next month, and several business firms are expanding.

**IT SHOULDN'T TAKE AN HOUR TO FILL A BATHTUB!**

Buy a Full Capacity MYERS WATER SYSTEM

CAPACITY is the very first requirement of an individual water system for suburban and country homes. Some owners, attracted largely by price, have mistakenly purchased water systems with sustained capacity barely sufficient to supply one faucet at a time. Try filling the bathtub in such a home while others open faucets elsewhere in the house... and the water flow sinks to an aggravating dribble. Protect yourself against such disappointment by installing a full capacity MYERS Water System. Be sure of all the water you need—in kitchen, bathroom and laundry—at outside hose taps for sprinkling and fire protection—in lines to barnyard and outbuildings should you live on a farm—with a reliable, precision built MYERS.

LONDON BRIDGE CLUB HAS FIRST FALL MEETING

After a vacation during the summer months, regular fall meetings were resumed by the London Bridge Club, Wednesday August 30.

The lovely affair, in the form of a noon luncheon, was given at the home of Mrs. Frank Cogdell where flowers of every description were used in decoration. Luncheon was served to four-somes at small tables. Later games of bridge furnished diversion with game awards going to Mrs. Keller Muse, high and Mrs. Ernest Medkief, second high.

Those present included Mesdames: R. R. Wills, Ralph Roden, J. T. Gilbreath, Jr., Ernest Medkief, Keller Muse Sherman Morgan, N. E. Milburn, Meade Halle and the hostess.

WIENER ROAST ENTERTAINS YOUNGER GROUP

A last minute out-door party before school days returned was given by Mary Ellen Henslee at the home of her parents, Mr. and Mrs. H. E. Henslee, Friday night. Wieners were roasted and their supper accompaniments enjoyed and games were played on the lighted lawn.

Present for the fun and frolic were; Richard Petersen; Rachel Ireland, Ruth Temple Hastings, Jack London, Wayne Phillips, John Estes, Rue Wilson, Mattie Louise Lawhon, Donald McCullough, Eleanor Wilson, Polly Dixon, Lois Agnes Gilbreath and the hostess.

PIRATES PARTY IS GIVEN AT STREU HOME

A pirates party entertained a group of Oliver Streu's little friends Friday afternoon in the spacious back yard of his grandparents, Mr. and Mrs. A. H. Streu. His mother, Mrs. Urlin Streu was hostess, assisted by Helen Frances Streu and Viola Phillips.

Invitations were written on burnt parchment colored paper and guests came dressed as pirates. Appropriate contests and races were featured with Kathleen Miller, Martisha Ramey, and Beverley Morgan winning prizes. The party was climaxed with a mapped search for a buried treasure chest. Martisha Ramey found the chest which was opened and divided equally among the pirates.

Refreshments were served to Jacqueline Newell, Eugene Roberson, Alex J. Schroeter, Gene Moore, Quida Kathleen Hudson, Martisha and Peyton Ramey, Beverly and Gloria Morgan of Amarillo, Kathleen Miller of San Antonio and Oliver Streu.

Miss Lorene Valentine returned to Amarillo Wednesday after spending a three weeks vacation.

MRS FRASER IS CLUB HOSTESS

African marigolds and variegated zinnias were used in decorations on Wednesday last week when Mrs. Alton Fraser was hostess to members and guests of the Wednesday Luncheon Club.

After a luncheon downtown the group enjoyed bridge games at the Fraser home. Zinnias were placed in black floor vases and the marigolds adorned the center of the dining table.

Mrs. J. C. McCracken played high for score award and Mrs. W. L. Davis, second high. Low award went to Mrs. W. M. Emmons.

Guests included Mrs. Colby Conkright and Mrs. O. E. Easley.

Members present were Mesdames W. M. Emmons, W. L. Davis, J. C. McCracken, C. C. Stockwell, Jack Wayland and the hostess.

ALL DAY MEETING IS HELD BL CLASS

An all-day meeting was held by members of the Frances Witherspoon Bible Class of the Presbyterian Church Thursday at the home of Mrs. John Haberer.

A luncheon was enjoyed at noon and in the afternoon a program with Mrs. C. F. Kerr in charge, was presented. A question box resulted in discussions concerning interests of the class and of the church. A quilt top was pieced which will later be quilted and sold to raise class funds.

Old fashioned bouquets of late summer flowers decorated the house throughout.

Members and guests attending the meeting were Mesdames: B. T. Bell, Mary Palmer, Ezra Norton, W. M. Cogdell, E. E. Rogers, W. M. Rigler, H. H. Boardman, F. P. Potter, A. D. Godwin, Maggie Hopper, C. F. Kerr, J. E. Gyles, Joe Bodkin, B. L. Branson, Miss Sadye Rigler, Mrs. Boyd and the hostess.

"BACK-TO-SCHOOL" PARTY IS GIVEN

Following a precedent established last year, Nona Dean Rose and Genelle Potter entertained with a "back-to-school" party at the Doyle Rose home Friday night. Most of the group have attended school together since first grade time and most of them will be members of the freshmen class of Hereford High School this year.

A talk-fest on the lawn entertained arriving guests as past school days were reviewed and future school days were planned. Games inside the house were enjoyed and watermelon was served on the lawn to Billy Louise Crawford, Phyllis Jean Radovich, Evelyn Walker, Virginia Ann Dillehay of Vernon, Georgeanne Miller of San Antonio, Margaret Olson, Texie Ruth Reynolds, Nadine Newell, Donald Robertson, Billy Dameron, George L. LeGrand, Donald Henslee, F. L. Lucas, Daniel Russell, David Neal Beavers, Thurman Williamson, Gerald Banner, Glenn Smith, Jack Randall of Long Beach, Calif. ### Haile Drug's New Fountain Largest In Territory

The largest fountain in this territory is an outstanding feature of the new Haile Drug Store which opens today. There are stools to seat 59 persons at the fountain besides special booths for parties and special booths for two persons. The fountain is 45 feet long and has a mirror behind it the entire length.

Roy Stuart of El Paso arrived this week to take charge. He is an experienced man having had charge of fountains in California. He is to be assisted by Bud Higgins.

Besides all the regulation fountain services the new store will have a complete line of foods, including salads, sandwiches, and grilled steaks.

The fountain has modern equipment throughout. There is a new Hydrotherm Sterilizer which assures complete protection of fountain customers; a highly refrigerated salad unit, a steak grill, and a new toasting machine. The kitchen is completely equipped with steam tables, sinks, and an air-conditioned ice refrigerator holding 300 pounds.

Fountain customers will be given checks which they will take to the cashier to make payment, instead of paying at the fountain.

The fountain is located along the north side of the store.

### Deaf Smith Farm Payments Largest Made In State

WASHINGTON, Sept. 6.—The Agricultural Adjustment Administration announced today certifications for payment and obligations to farmers in Texas under the 1937 agricultural conservation program amounted to \$35,009,865.56.

These payments are made to farmers who conform to the administration's "soil conservation" program which is designed to maintain a balance between farm production and demand.

In Texas the largest payment, \$528,566.31 went to Deaf Smith County.

will be on the East side and on the end zones.

With such a prospect for four really good games in view, it is hard to see how any real fan can feel that he can afford to miss any of them. By buying season tickets in advance, he not only saves money, but he also aids greatly in giving the team financial backing. The new lights are to be paid for out of the gate receipts. Attendance at the games will undoubtedly be larger than it has in years, both because the games are at night and because the team gives promise of being one of the best Hereford has seen in several seasons. Buying tickets early will enable the lights to be paid for early in the season and will assure a good attendance at the games to lend enthusiasm to the team.

and finish. A total of 59 persons can be seated at the fountain stools and in the booths. In addition to two complete soda dispensing compartments the fountain also includes complete food compartments, with a steam table, broiling and sandwich equipment, and refrigerated storage for salads and food supplies. A complete kitchen is maintained in the rear of the store. The fountain and food department will be under the direction of Roy Stuart, assisted by Bud Higgins.

### Modern Displays

Down the center of the store adjoining the booths is located a series of open display counters which feature school supplies, sporting goods, stationery, electrical appliances, drugs, drug sundries and household items. To the rear of this counter is located the hospital department and prescription room.

Beginning at the front and running down the south side of the building will be found the cashier's desk and a complete tobacco department. Counters and wall displays also feature complete lines of cosmetics, drugs, and drug sundries.

In addition to Meade Haile the drug department will include the following employees: Kathryn Poff, cashier; Lee Cavin, registered pharmacist; Marcus Houser, drug clerk, and Nelly

### Williams, stock man.

In announcing the grand opening of the store Mr. Haile stated that several new lines have been added to the large stock, and said that service will be one of the chief points stressed in the new store.

"We believe that we are in a position to better serve the people of this territory than ever before," he said. "We hope that you like our new store, for it was your loyalty that made it possible. It is our hope to give the people of this area a store which they will appreciate and which they deserve. We invite the public to visit us in the new location, and to carefully inspect the new store."

### Whiteface Team

(Continued from Page 1)

shape, Coach McCollum can do it. Wesley Guthrie shows real ability with the ball, and Robert Petersen, Ernest Schumacher, and Harold Loerwald all give promise of developing into fast, accurate backfield men. Schumacher doesn't put enough snap into his signal calling but he will in a few more practices.

The line shows every indication of dependability. Clyde Hagar cuts a big figure with his 180 pounds at tackle. Clifford Estes can be called the spark-plug of the team. He plays center, and he has more pepper and delivers more than most any other two men on the team. He is well balanced, and seems to know how to handle himself on the defense as well as he knows how to snap the ball back on the offense.

The guard and tackle positions are still not permanently filled. In fact, no position on the team is clinched as yet, but it is possible to guess closer on any of the positions than the guards and tackles. Kenneth Lisenbee and Henry Ford show possibilities as guards, but they are both still too slow, and they don't dig enough on the defense. Jack Knox made a fair showing at tackle. Clyde Hagar is plenty big, and he can handle his hands to the distinct disadvantage of his offensive opponent. The ends look as though they have been pretty well filled by Jo Brock and Danny Hales.

Ewell Fox has shown himself to be one of the most accurate tacklers on the team. He plays in the backfield. Lynwood Hallam and J. P. Jones look good in the line, especially on the defense.

After a week of hard practice and conscientious training, the team ought to be 100 percent better than it is now. Plenty of room for improvement is expected this early in the practice season. It is no less expected that the team will show that improvement by the time the first game is to be played. The fans have every right to expect a team capable of playing a good, hard game of football by that time, and it is practically certain that they will get just that plus the fact that the players will enjoy every minute of it as much as the fans.

reported to have been raised this morning and the work was expected to continue this week. O. R. Jeffers of Midland is in charge of operations on the well.

Present plans are to run new casing in part of the well and then to drill around 750 feet deeper. At the present time the well is at a depth of 5,650 feet. Mr. Jeffers reported a showing of gas now and expects to drill through the granit wash, which he believes is just below present drillings. He expects to continue to a depth of 6,300 if necessary, at which he believes the well will either be a producer, or a dry hole.

be like all the rest of them—just pack up and go to war without knowing what we are fighting for."

Barney Hicks is one of the many men in the community who has yet to buy a fall hat. He says, "I'm going to just keep this old straw lid until the government issues me an army hat."

Employees at Close Drug are busy re-arranging counters and displays preparatory to installing a new, modern fountain which was recently purchased. Mr. Close said that he hopes to have the new fountain in operation in a few more days, and that the store will serve sandwiches and lunches.

Highway Commission. The purpose of these delegations is to urge the continuance of the highway before the Texas official body.

At present, there are two chief obstacles in the way of immediate action on the situation. Oldham County, which at present is not crossed by Highway 51, has been unable to secure authority to build a connecting link through that county. The reason for the lack of authority is that no location has been assigned for a bridge across the Canadian River, and it is impossible to locate the right of

way in Oldham County until the bridge has been given a location. Judge Pulliam of Oldham County expressed the readiness of that county to begin construction on the road as soon as the Highway Commission issued it authority to do so and designated a route for the highway through the county.

The other obstacle is that no contract for a long stretch of road can be obtained, and the various counties concerned have been unable to lay out routes for the road.

Deaf Smith County will begin petitions to the State Commission to surface Highway 51 in this county in the near future.

The Association voted to retain its present officers for the ensuing year. They are: J. T. Long, president; R. A. De Fee, vice-president; and the secretary to be appointed.

County officials present at the meeting here Monday were Judge Pulliam of Oldham County, Judge A. H. Dennison of Ector County, Judge Turner of Castro County, Judge J. A. Ellis of Hockley County, Judge R. A. DeFee of Hartley County, Judge A. J. Schroeter of Deaf Smith County.

### Advancing Wheat

day opening), the price of wheat is 8 cents above the price at the time the loans were made. If wheat in the government loan were sold now, the Hereford produce would realize a profit of 7 to 8 cents per bushel less interest at the rate of 4 percent per year and storage at the rate of one cent a bushel a month. Most loans have been in effect only a little over a month. The interest would, therefore, amount to almost nothing, and the storage would be a little over a cent a bushel.

In case the producer has stored his wheat on his farm, it is likely that he has been unable to secure his loan to date. This means that these producers can sell their wheat now at the advanced price and realize the full gross profit less cutting expenses.

ure titled: "Last of the Germans Marching out of Moulant, the Belgain Town They Sacked and Burned."

Last Tuesday President Roosevelt invoked the Neutrality Act, designed to keep us out of war. The September 11, 1914 Brand carried a proclamation by President Woodrow Wilson naming Sunday, October 4, as a day of nationwide prayer for world peace.

Through co-operative housing, nearly 400 University of Texas students are receiving an education for the daily "room and board" expenditure of fifty cents. Students operate their own living quarters on a share-the-work basis.

A carburetorless-car may be the handiwork of one University of Texas student engineer. He has devised a "mechanical injector" which will outlast an outperform the ordinary carburetor, he believes.
