## Texas Political Primaries Are To Be Held Next Saturday

### REPUBLICAN ENTRY AN INTERESTING FEATURE; GOVERNOR'S RACE HOTLY FOUGHT

The long political campaign for state and county offices is about over and Saturday night will tell the story of ambitions realized and hopes dashed to earth. Local arrangements are all completed for the election, both Democrats and Republicans having sent out election supplies to the various precinct officials.

From a local standpoint the feature this year is the separate primary to be held by the Republicans, the first thing of the kind in this state or county. The Republicans do not hope, of course, to elect their candidates, but are putting out a ticket to comply with the decision of the state committee to do so. The local Democratic races for county offices have warmed up considerably the past three weeks, with candidates "shelling the woods" daily and increasing their pep and determination as the fateful lay draws near.

Main interest in the election centers around the governor's struggle between "Ma" Ferguson, Dan Moody and Lunch Davidson. Conflicting reports from down state regarding the relative strength of the three candidates becloud the issue, but from this instance it looks like Moody is leading, with Davidson second and Mrs. Ferguson third.

Nomination in this primary is tantamount to election in November, and therefore a heavy vote is expected, in spite of the fact that everybody is extremely busy and have their minds on other things.

Election returns will be shown at the Corner Drug Store Saturday night, McLean now being busy endeavoring to make suitable arrangements this end.

### Laying of Brick Begun By Construction Co.

The actual laying of bricks on West Third Street has already started, and with the concrete base already put down on most of that part of the street, Hereford's pavement is increasing daily. The curb and gutter are now being laid on Fifth Street and paving will start on that street as soon as West Third is finished. East Third will probably be paved before the extension is made on North Main Street, due to the heavy traffic over Main Street during the marketing season of the huge wheat crop.

### Fire Truck Given Right-of-Way; Mayor Issues Warning

As there has been some complaint about cars approaching too close to the recent fire at the Hough residence, I wish to call attention to a City Ordinance regulating traffic during a fire.

This ordinance provides that when the fire alarm sounds, all cars to the curb and park and that no car shall follow closer than within 600 feet of the truck when going to a fire, nor approach closer than 600 feet of the fire.

This ordinance was passed for the protection of our Fire Boys, and in order that they may be able to work with the greatest efficiency. People naturally become excited when the fire alarm sounds, and most of us are too anxious to get to the fire, and often unconsciously hinder the boys in their work. By driving too close to the trucks or by approaching too close to the fire, you may not only endanger the lives of Fire Boys, but you may prevent the speedy laying of a line of hose and prevent the saving of property that might have been saved.

Our Fire Boys are Volunteers who have offered their services to the town in order that your property may be protected from fire. They stand ready at all hours of the day or night to respond to any call, and they deserve all the help we can give them.

It is the duty of every good citizen to refrain from violating the above mentioned ordinance, and it is the duty of the city authorities to enforce it.

Respectfully,  
E. S. IRELAND.

### Highways and Hogs Are Discussed at Weekly Luncheon

President E. B. Black, after an absence of three weeks, resumed his place at the head of the table at the weekly luncheon of the Chamber of Commerce, at the Stockman's cafe Monday. Mr. Black was called upon for an account of his trip and briefly recounted the wonders and pleasures encountered on the 3,000 mile automobile jaunt just completed by his party of twelve through Colorado, Utah, Montana, Wyoming, New Mexico and other states. Fine as it all was, however, he was glad to see Hereford again. Mr. Black concluded, Seth B. Holman reported briefly on his trip last Monday to Abilene, where he represented the organization at the meeting of the Directors of the West Texas Chamber of Commerce.

County Agent R. O. Dunkle called attention to the Farmers Encampment to be held at Sulphur Park in August and urged that the business men make arrangements to come to the encampment prepared to camp, and swim and attend the lectures and demonstrations of the specialists who will be there for that occasion. He was assured hearty co-operation by those present.

Secretary Moss stated that the elevator men here said Monday that there were sufficient cars on hand now to care for the wheat in hand and that the wheat car shortage appeared to be over. The statement met with applause.

L. Baskin, reporting for a special rural route committee, said plans were on foot for a new route west, which it was hoped to get through by spring. Not enough families have yet been secured to put through the route now. He was asked to continue the committee work until the job was finished.

G. W. Brumley discussed the need for signs on the highways leading in and out of Hereford and urged that some action be taken to remedy the present lack of such guides. In this connection D. F. Ashbrook told a good story. He said that a tourist came in the other day and asked a garage man "How far is it to Hereford?" "Why, this is Hereford," said the surprised garage man. "Why, I thought this was Harrison," said the tourist. "I have been following signs all along the road reading, 'Ten miles to Harrison,' and 'Five miles to Harrison,' etc." This brought a roar of applause and a plain lesson in the value of advertising.

The meeting was concluded with a short address by attorney L. C. Penry, a new member and a new citizen, who pledged his support in public work for Hereford in an entertaining and pleasing address. Next Monday the luncheon will be held at the City Cafe.

### Texas-New Mexico Highway Meeting August 2-3

The Texas-New Mexico Highway Association will hold its annual meeting in Taos, New Mexico August 2-3, according to E. C. Eubanks, of Hereford, who is secretary of the organization. Plans are being made to take care of delegates from every city along the route. The meeting was set for August 2-3 so that delegates attending the annual meeting could then attend the Historic Spanish Fiesta, which starts at Santa Fe August 4th.

The Texas-New Mexico Highway was planned primarily to give tourists a short cut from Texas to the Taos Mountains, and it leads into some of the most beautiful scenery in New Mexico. Mr. Eubanks is planning for a large delegation to go from this section of Texas to the annual meeting.

### Wilkinson & Lee Form An Electrical Firm

Lester Wilkinson and Leland Lee, both well known local young men, have formed a partnership to be known as Wilkinson & Lee, electrical contractors. Both are experienced electrical workers and will enter the field of house wiring and general electrical work of all kinds.

They have secured the agency for the Servel electric refrigeration system and have one of these refrigerators on display at the City Drug Store. This machine is being erected in the new Palo Duro Apartments at Amarillo, the largest in the Panhandle, and Messrs. Wilkinson & Lee are enthusiastic over its future possibilities in this territory.

### Hereford's Banks Show Large Gains Over Same Period 1925

Deposits in the three Hereford banks on July 19, were \$1,140,892.07, as compared with \$854,009.10 for a year ago. Cash on hand on July 19 was nearly \$300,000 more than it was this time last year. The big increase in deposits and cash on hand is caused by the marketing of the huge wheat crop in the Hereford country, and predictions are that the figures will climb considerably during the next thirty days as more of the grain is dumped on the market.

Here is a comparative statement of the financial condition of the three local banks:

	CASH	
	July 18, 1925	July 19, 1926
Western National	\$ 25,579.64	\$ 98,598.31
First State Bank and Trust Co.	96,899.50	190,122.96
First National	61,929.58	170,136.36
Total	\$184,408.77	\$458,856.63
	LOANS	
Western National	\$176,200.38	\$221,026.33
First State Bank and Trust Co.	450,932.60	390,840.94
First National	213,283.50	215,293.26
Total	\$839,416.48	\$827,160.53
	DEPOSITS	
Western National	\$143,054.04	\$266,626.95
First State Bank and Trust Co.	356,042.02	511,180.08
First National	255,942.08	363,085.54
Total	\$754,038.14	\$1,140,892.07

If the condition of the banks is an index of the prosperity of the country, farmers of this section are in much better shape than of a year ago. The huge grain crop has put many of the farmers in a prosperous condition, and with a good row crop in prospect much better times are now here.

### G.W. Brumley Has Traded Home for Two Other Farms

G. W. Brumley has just traded his home farm east of Hereford to J. David Thompson for two other farms and has purchased a lot in East Hereford where he will erect a \$10,000 home immediately. Mr. Brumley still holds 100 acres on the Tierra Blanca and states that he will continue to buy, feed and ship hogs, handle Chevrolet cars and sell gasoline.

The efforts of this man are not concentrated entirely on his own personal success. When the West Texas Chamber of Commerce started the hog importing campaign for West Texas, Mr. Brumley purchased approximately 100 brood gilts and is selling them to farmers on time in an effort to encourage farmers of this section to keep more hogs on the farm.

### IMAGINARY INTERVIEWS

(If We Survive This Series, There May Be Others)

Wanted: A blooming Rose of Sharon. Suitable reward paid if delivered at The Brand office.

Ernest Handley: "Business Good?" "Absolutely. Why, we can't begin to get enough cars and trucks to meet the demand. Hereford is certainly climbing that hill on high—but there's one thing we ARE shy on—some trade expansion work. Let's get onto that and make it unanimous!"

Rev. T. Morgan: "If you will let me slip a word into all this boasting, I just want to remark that I got in my copy for the next Sunday school lesson Monday afternoon of this week. Take notice, you preachers!"

Homer Wilson: "That darned wheat car shortage got a headlock on me and almost threw me for a loss; but I managed to get a draw out of the referee. The outlook?—absolutely good. Some of these older heads may remember a better year, but this one for mine."

Homer Fox: "I've still got that gold medal—but don't tell anybody about it! Last Sunday Harry Rice made me travel nineteen holes to keep it, and like to have scared me to death. Something's got to be done about these pesky silver medalers. Business conditions?—the best yet. We are selling lots of goods in this sale and if I just had more time to go fishing, I wouldn't have a kick in the world."

E. B. Black: "Those Yellowstone Park bears are the friendliest things—not only eat right out of your hand but if you don't look out they will swipe your nightie while you slumber. How's that? Oh, present conditions? Why, just fine, man. Wheat was magnificent, row crops looking

fine; I'm getting ready to remodel my store, and the cotton is looking great, too. We are going to pay off some mortgages with that cotton this fall."

G. W. Brumley: "I'm tickled to death with the outlook—everything is looking up—I have only one kick—we need more HOGS. Talk wheat, and cotton, and row crops all you like. But a good brood sow sandwiched in between all these is the leaven that makes the dough rise and creates a perfect Loaf of Prosperity."

C. C. Rockwell: "I have been milling around here in this lumber yard for a couple of weeks past, doing a little business of my own, but with one eye glued across the street, watching a remarkable performance—by one man—aided, of course, by his willing helpers."

"Wonder how many people in this community really appreciate what E. W. Harrison means to Hereford? Did you ever stop to think what would have happened here without that new elevator, rushed to completion just in the nick of time to care for this biggest of all local wheat crops? I wonder if the people stop long enough to consider the calm courage, foresight, unlimited confidence that man must have possessed to do what he did. I take off my hat to Harrison—the man who don't, is not thinking straight."

G. A. F. Parker: "The year 1926 appears to be the best one since Bob Baird and Rat Jowell and associates dug the Tierra Blanca. The wheat yield was staggering, the row crops look good, the Western National's statement is very gratifying, the Chautauque paid out, and the Boy Scouts are going into summer camp. What more could we expect?"

### 300 CARS WHEAT WILL ADD NEARLY HALF MILLION DOLLARS TO LOCAL RESOURCES

### Herd Law Proposal Was Defeated By Vote 153-105

The herd law election called in the Hereford Independent School District last Saturday for the purpose of determining whether or not stock should be allowed to run at large, was defeated at the polls by a vote of 105 for to 153 against.

The measure is said to have originated among residents of the South Side, who do not have their premises protected by the city stock ordinance. Opponents of the measure declared that while such a law is undoubtedly good in some instances, they felt that this section is still a stock country and not thickly settled enough to warrant such a law. Proponents of the proposition declare that they will take steps to cut out another district and call another election.

### State's Revenue Tax Is Reduced Total 12 Cents

Recent announcement from Austin that the State Board of Control had fixed the State Revenue tax rate for the coming year at lower figures than heretofore was followed Thursday by receipt of a letter addressed to Albert Murphy, tax assessor, advising him that the rate for the next roll would be as follows:

State Revenue ----- 23 Cents  
State School ----- 35 Cents  
Confederate Pension -- 07 Cents  
The school and pension rates remain unchanged, but the state revenue rate is reduced twelve cents on the \$100 valuation from last year, and will save the people of the state many thousands of dollars.

### Black to Occupy the New Brick for a Short Time

The lower floor of the new Lambert-Buckner building, next door to the Star Theatre, now nearing completion, will be occupied temporarily as soon as finished by the E. S. Black Furniture store, according to information given out by Mr. Black Wednesday. He is planning a complete interior overhauling and modernizing of his own place of business, beginning August 1, and must have some place in which to transact business while the work is in progress on his own building. Accordingly he has secured the new brick building for a limited time only.

It is a splendid location, and Mr. Black is delighted that he was able to secure it. The move will be made as soon as the building is completed, probably next week.

### ELECTRIC RANGE BEING DEMONSTRATED HERE

The remarkable progress that has been made in the art of cooking by electricity, is being demonstrated to the housewives of Hereford. The modern cooking school is in charge of Miss Ethel Stone, of Mansfield, Ohio, and is being held at the Texas Utilities Company office from 2:30 to 4:30 each afternoon.

The Westinghouse electric range, the widely advertised "range with the clock" that actually turns itself on at any designated time and turns itself off when the food inside has been cooked, is being used by Miss Stone in her demonstrations. This new range has completely revolutionized cooking. It enables housewives to prepare complete meals, leave and attend to other duties and find the meal completely cooked and piping hot when they return. In short, it means the emancipation of watching food as it cooks.

The mechanism that works this remarkable range is simplicity itself. A simple alarm clock on the top of the stove is set at a certain time, say five o'clock in the afternoon when the evening meal is usually started. Then the raw food is placed in the oven and the housewife forgets about it. The alarm clock rings, the switch and the heat pours into the oven. When the right temperature has been provided by the electric wire, the stove automatically cuts itself off and keeps the food hot until wanted.

Mrs. C. E. McLean, of Dimmitt, spent the first of the week visiting her daughter, Mrs. Wes Anthony.

The big rush is over, the night work is easing up; the greatest wheat crop in the history of the Texas Panhandle is about two-thirds harvested, according to estimates by elevator and railroad men. The Santa Fe has supplied sufficient cars for all needed the past week, and the elevator business is about back to normal.

Up to Wednesday afternoon a total of 253 cars of wheat had been shipped out of Hereford; Summerfield reported 22, and Dawn 21, making a total of 298. There has been several cars since that time.

An average of between 1200 and 1500 bushels per car is handled. Figuring it at 1200 bushels per car, and 300 cars, gives 360,000 bushels of wheat shipped from the three stations. Of course there were heavy shipments from outlying territory through Vega, Adrian, Bovina, Friona and to the south.

For the past week the price has fluctuated around \$1.20 per bushel. Just taking \$1.10 as an average; that means nearly \$400,000 in cash that the wheat harvest circulated in this community, from these three shipping points alone.

The effect is already noticeable in bank deposits and activity generally. It has supplied a backbone for the plans of the future, and now the farmers are turning their attention to preparation of the land for another wheat crop and to the cultivation of the fine row crops. Some rain has fallen to the northeast and north the past few days, and indications are for a general rain over this territory soon. The crops will need it very soon and the moisture will surely be welcome when it does arrive.

An era of land buying and settlement should follow such a crop and with such fine prospects immediately ahead, and the people of this community are preparing cheerfully and confidently for better times to come.

### Texas Meat Market Has Been Sold by Cloyds

George Cloyd and sons, Elawick and John, who have conducted the Texas Meat Market here for several years, last week sold the business to Henry Cloyd and Jim Robinson, who took charge at once.

The new owners have operated the business before and are too well known as experienced cowmen and butchers to need introduction. They state that they will strive to keep the business on the same high plane that Mr. Cloyd and his sons have maintained.

George Cloyd and his sons have not made definite plans for the future, although it is understood that the two boys may enter the railroad service.

L. Coffman, who is the owner of the old Mounts place west of Hereford, arrived Friday for a business visit and inspection of his holdings here.

Mr. and Mrs. Tom Bassett and son, of Mineral Wells, are here visiting their daughter, Mrs. John Whitsett.

### Mid-Summer Clean Up Week to Begin Monday, July 26

TO THE PEOPLE OF

HEREFORD:

The week beginning Monday, July 26th, is hereby designated as Mid-Summer Clean Up Week, and all are requested to clean their premises by cutting weeds, burning all trash and other refuse matter, and collecting all non-combustible matter and placing it in a convenient place in the alley so that it may be removed by the City truck.

All are urged to complete the cleaning of their premises as soon as possible so that the City's truck will not be called upon to cover any part of the town but once; however, if you should be overlooked, please call the City Office, phone 222, and they will get it to you as soon as possible. The truck cannot commence collecting refuse until all have completed the cleaning of their premises, so do not get impatient if yours is not removed as soon as you think it should be.

E. S. IRELAND,  
Mayor.

### Texas Tech Will Open Second Year With 86 Teachers

Lubbock, Texas, July 19.—Eighty-six instructors, all with high degrees and with many years of experience are included in the list of professors for the second year of the Texas Technological College which will begin September 23, according to Dr. Paul W. Horn, president.

The school opened its initial year last fall with a staff of forty professors but when the 1,043 students began crowding the class rooms of the new college, the faculty had to be increased in order to give the students proper attention.

The faculty and board of regents of the Tech are expecting from 1,500 to 1,750 students this year and in selecting the staff of professors to give them instruction, the best teachers available were secured.

Among the faculty, we find 12 with Ph. D. degrees; 46 with master of arts degrees and only 9 with bachelor of arts degrees.

Every student who enrolls in the Tech will have as good a staff of professors as can be found in any college in the Southwest to give him instruction. The July illustrated summer bulletin will be off the press in the next few days, according to Dean J. M. Gordon and will be sent to all of last year's students and to high school graduates over the entire state.

The following professors are included on the teaching staff of the Tech for next year:

Officers of Administration: P. W. Horn, LL. D., President; J. M. Gordon, LL. D., Dean of the School of Liberal Arts; A. H. Leidigh, M. S., Dean of the School of Agriculture; William J. Miller, S. M. ### Heiselman Loses 300 Acres Wheat in Fire

(From the Vega Sentinel)  
 One of the most disastrous fires ever known to this section of the country was that of John Heiselman's wheat field last Friday afternoon, which burned from about 3:30 until nearly sundown, completely destroying 300 acres of the best wheat around here. The loss by this fire is estimated at \$15,000.00.

The fire started from a Packard truck that was hauling grain on the Heiselman farm. The truck was loaded with wheat and was near the home and big granary when the fire caught from the manifold. Fire fighting, by those there was successful in turning the fire from the big granary, but with the aid of farmers of that vicinity and of the town people of Adrian and Vega it was impossible to do much with the flames that were leaping 12 to 15 feet high. This wheat was making a little over 50 bushels per acre and the straw stood nearly shoulder high to a man.

The flames were fought with wet blankets, robes, sacks and chemicals sent out from Vega. Also the two big tractors of Mr. Heiselman's were

unscathed from their combines and hitched to plows which made fire guards through the tall wheat. In some places the wheat was so thick and so much straw to it that the plows rode over the top instead of going into the ground.

People from Vega phoned to Hereford fire department for their chemical truck to be sent out, but somehow the word did not get through in time to get the truck there in time to be of any assistance in putting out the flames.

In this field there was 1920 acres of wheat but on the west end approximately 400 acres had already been combined.

It was fortunate indeed that there was hardly any breeze and what little there was was from the east. If there had been an average breeze from the west, it would have taken about 1000 acres of wheat.

Even as bad as it was, Mr. Heiselman feels very fortunate that the loss was not much larger. Over 150 people were out, fighting this big fire.

### Brunk's Leading Lady Dies Very Suddenly

The Tulsa Herald of last week carried the following story, which will be of interest to Herefordites who attended the recent performances of Brunk's Comedians here:

On last Saturday night about 11:00 Mrs. Everett Evans, leading lady in the Brunk's Show died in the sanitarium at Plainview. The physicians pronounced the cause of her death as cholera morbus. She had only been sick since Thursday night.

Her husband was unable to be at her bedside at the end as she was not considered to be in a serious condition until just a few hours before her death.

A lady has been secured to take her place and the show will rest here until she arrives from Kansas City, and will begin their show here again Thursday night.

## Texas & Texans

By WILL H. MAYES  
of Austin, Texas

### Care for Wheat Needed.

The wheat section of Texas, which includes all of north Texas and some of West and Central Texas, is turning out an immense crop. The railroads had made provision for extra cars by the thousand, but these are proving insufficient. Fort Worth alone received and handled more than 1,500,000 bushels in one week and the receipts would have been larger if the roads could have handled more grain. In the extreme northern part of the State—in Hansford, Ochiltree, Gray and other counties—the threshed wheat is being piled out in the open by the thousands of bushels. At Pampa a million bushels end at Spearman nearly as much is reported piled up in great golden piles awaiting shipment. Dealers are pouring millions of dollars into Texas for payment for wheat and oats, and growers would be happy if only the car shortage could be relieved before rains fall. The Panhandle, once erroneously regarded as an arid desert, has become one of the richest farming sections of the country.

### Reclaiming Trinity River Lands

The withdrawal of objections to the project by the Rock Island railroad leaves Dallas free to carry out its \$6,000,000 Trinity River levee and reclamation plan which will insure the reclamation of 11,500 acres of rich Trinity bottom lands adjacent to Dallas. Much of this land will be available for industrial purposes, and it is estimated that its valuation will be increased from \$35,000,000 to \$50,000,000. The Trinity, instead of being a menace, as it now is, will become a valuable asset, at least in Dallas county. Texas is fast awakening to the advantages of protection against floods, conservation of waters now going to waste, and the irrigation of the State's fertile valleys.

### Texas Makes Glass Bottles.

Texas has a glass bottle factory at Three Rivers in Live Oak county. Recently the capital stock of the factory has been increased to \$150,000 and the capacity of the plant is now 100,000 bottles daily. The products are milk bottles, soda water bottles and glass food containers. Three-fourths of all the milk bottles used in Texas are made at Three Rivers. Geologists say that good glass sands are found at many places in Texas. Where there is a combination of the right kind of sand and cheap fuel glass making is a profitable industry. Three Rivers is pioneering an industry in Texas that will likely grow to large proportions in a few years.

### Edinburg's School Bonds.

The Edinburg Independent School District has voted a bond issue of \$1,000,000 for new school buildings and equipment. The district covers 630,000 acres of land and is the largest school district in Texas. High school buildings are to be erected at Edinburg and grade school buildings wherever they may be needed in the district. Trucks will be used to transport children from the country to the Edinburg school as such conveyances may be needed. This service will be free. It is said that the best indices to the character of a people are the schools, the churches and the newspapers. Good schools, good churches and progressive newspapers with constructive ideals and purposes are the first essentials to the best community spirit. The prospector looking for a home for his family first considers the schools, the churches, and the press. He knows that where there is little pride in these there is less pride in other things.

### Bulling Auditoriums.

The Texas towns that are growing are finding that one of the es-

entials to growth is an auditorium of sufficient size to seat the people that ordinarily attend public gatherings and large enough to accommodate such conventions as may be attracted to such places. Such buildings usually have to be erected thru bond issues. Much of Amarillo's prestige is due to its splendid auditorium. Brownwood soon after the World War, erected a \$100,000 auditorium as a memorial to its boys who had made the supreme sacrifice. Sweetwater is building a combined auditorium and city hall to cost \$100,000. Wichita Falls is planning a convention hall that will seat 5,000 people. All the cities and many of the smaller towns have found public auditoriums essential to their progress. We have reached an age of mass movements. Not long ago an assembly of a thousand people was considered an immense audience; now gatherings of five and ten thousand persons are not at all unusual.

### Training Them While Young.

Plainview has a Junior Chamber of Commerce Band, composed of 76 boys of an average of 10 and 11 years. The band has been organized about nine months. For a month before the convention of the West Texas Chamber of Commerce at Amarillo this "big band of little boys" practiced twice daily. It acquitted itself with much credit at Amarillo. If the Plainview Chamber of Commerce accomplishes nothing else this year, the organization and training of those 76 boys justifies all the year's expense. They are not only being trained in music but in citizenship. The Chamber of Commerce will not lack for support from these boys when they become men. Organizations that show interest in the boys in some substantial way are certain to hold the interest of the public.

### Marking American Graves.

Protest is being made against the use of Italian marble to mark the graves of American soldiers buried in France. Aside from the sentiment against the foreign material, it is objected that the Italian marble is not durable. This suggests that an effort should be made to have the graves marked with

Llano-Burnet granite which lasts forever. Doubtless some wealthy American patriot would contribute the granite in order that America's soldiers' graves in France might be suitably marked.

### Tulia Man Is Studying Home Making at School

Austin, Texas, July 19.—W. H. Younger of Tulia is the only man student who is taking a course in home-making at the University of Texas. Members of the department of home economics were somewhat surprised recently to discover a man burrowing among the professional text books, pouring over the intricacies of the unit-kitchen and the hollow square plan, the best way to teach felled seams, and puzzling as to whether to locate the ironing board in the cellar or on the back porch. On being questioned, Younger, who is superintendent of schools at Tulia, admitted that he had equipped and gained affiliation in two home economics departments within the last few years. His study of the subject has met with such success that his foods laboratory at Tulia has been selected as a model of Texas' schools.

### Judging to Begin This Week; Home and Garden Work

The first period of judging in the Home and Garden Contest for Hereford is under way, and everything points to some spirited competition. The final judging will be done between the first and tenth of September. No awards will be made until the final judging is done.

Regardless of the fact that two severe frosts ruined a number of the gardens and flowers, seventy-five entered the contest. This was nearly fifteen more than entered the Home Beautiful Contest last year. Several homes in South Hereford entered the contest this year. This is the first time that that section of our city has been represented.

Another feature of the contest is the Public Buildings entries. All these are in competition with each other, but they do not compete with the private homes of individuals. The following have been entered: Deaf Smith County Court House, St. Anthony's Church, Deaf Smith County Hospital, Hereford High School, First Christian Church and the Methodist Church.

Five judges are being used this year, while four did the work in 1925. Here are the judges: Reverends W. R. Hill and Thurman Morgan, Professor C. W. Humble, Mrs. Myrtle Spellman and Mrs. F. H. Oberthier, who takes the place of Rev. J. O. Haymes. He was unable to serve on the judging committee.

Rewards: Owned homes, first, \$15; second, \$10; third, \$5. Rented homes: First, \$15; second, \$10; third, \$5. Public Buildings: a silver loving cup will be given which must be won three consecutive times before it becomes permanent property.

### Rev. J. T. Ross In Revival Work at Jumbo

Revival services planned to continue through next Sunday evening at Jumbo last Sunday evening at 8:30. A well filled house greeted the Rev. Jas. T. Ross at the initial service and much interest is being manifested. An unusual feature of this meeting is the hour at which the evening services are being held. Each evening at sunset the services begin and are concluded shortly after dark, usually by the time that revival services are accustomed to begin in the evening. It was at the invitation of the entire community that this meeting was undertaken and the co-operation of all Christian people in the services is expected to yield large results for the community.

### White Leghorns Profitable, Hawkins Thinks

White Leghorn hens are proving very profitable for their keepers in this section of the Panhandle. H. H. Hawkins, owner of Hereford's mammoth hatchery, kept records on two hundred laying hens from January 15 to June 30, and found that the flock laid 1338 dozen eggs, or a total of 16,056 eggs. Mr. Hawkins received on an average of thirty cents per dozen for the eggs, making \$401.40. It took \$216.25 worth of commercial feeds for the flock, leaving a net profit of \$185.15.

The poultry industry is increasing in this section by leaps and bounds, and where the chickens are properly cared for, they are proving to be very profitable.

If you want economy and efficiency in the Tax Assessor's office, vote for Al Miller.

### Lockett Adair to Hold Revival at Hereford

It will doubtless be a pleasing item of news to many Hereford people that this community is to have the privilege of hearing Lockett Adair, the noted Evangelist, during the summer. Mr. Adair was converted some years ago in Dallas while serving as a member of the police force in that city. He has preached in revivals in nearly every state in the Union with great success. Thousands of people have been converted in his services and more than one hundred and fifty ministers of vari-

Lockett Adair

ous churches have consecrated themselves to the Gospel ministry as a result of his work in the evangelistic field. Many of the older residents of Hereford will recall that a number of years ago Adair held evangelistic services here, and a number of members in the several churches of Hereford are able to date their conversion to that meeting. Further announcement will be made through the columns of The Brand as the weeks wear by. Watch for it.

### Surprise Birthday Dinner for Mrs. Rutherford

Speaking of a bolt from a clear sky—Wednesday morning about eleven-thirty, as Mrs. Hattie Rutherford sat serenely sewing in the living room of her home in northeast Hereford, without knock or bell, one of her friends opened the door and abruptly asked: "Have you dinner ready for us?" Before Mrs. Rutherford in her surprise, could answer, in bolted about forty other friends and neighbors, each with a dish or more of good "eats." Soon this beautiful home was a veritable bee hive of noise and industry, which did not abate for hours. One feature which gave an added pleasure was the presence of Mrs. Perciful and baby, of Clovis. Mrs. Perciful is the daughter of Mrs. Rutherford. Another out of town guest was Mrs. Frank Williams, of Phoenix, Arizona, a former resident of Hereford.

About fifty-one guests registered and one and all we wished for Mrs. Rutherford as many more happy birthdays.

### Commissioners Reroof Pavilion Without Cost

The Sales Pavilion is being treated to a new roof this week, and when the work is completed will be better looking and in better shape than ever. The commissioners court is having this work done without additional expense to the county treasury. They collected nearly \$400 in insurance money for recent hail and weather damage, and are using this money in putting the roof in first class condition.

### The Federal Land Bank's Rates of Interest Lower

The Federal Land Bank of Houston, has notified all secretary-treasurers of local Associations that the interest rate on farm loans will be 5 per cent on all loans made August first and after until further notice. This is a reduction of one-half per cent over the rate now in effect.

This reduction will mean thousands of dollars saved to the borrowers of Texas, as all lending agencies will have to either lower their rates or lose a big percentage of business.

The reason that the Federal Land Bank is able to make this reduction is that there is such a big demand for Federal Farm Loan Bonds, which are tax free, and the wonderful record the Federal Land Bank has made since its organization. Expenses have been cut to the minimum, and the loans being made on a safe valuation, very few foreclosures have been necessary. There has been no foreclosures made by the Federal Land Bank of Houston on Panhandle lands.

The Federal Land Bank of Houston is owned and controlled by the local Associations. These local Associations are owned and controlled by the member borrowers. It is therefore one of the largest co-operative

institutions in America a success from the start. The secretary-treasurer of the Association, A. O. reports that there are 200 in this Association, that of is now loaned to its new loans are being made and that special pre- being made in the office of the additional business result from the announced lower interest rate. They may make loans in Dallas, Castro and Farm

### Lee Satterwhite Seeks Re-Election to

Hon. Lee Satterwhite, of Amarillo, Speaker of the House of Representatives at Austin, and representative from this district, was in Hereford Monday, campaigning for re-election to the office he now holds. Mr. Satterwhite is the father of Mrs. Jim Sanders of Hereford.

Mr. Satterwhite has represented this district for several terms with signal distinction, and he is the only man who ever came from this part of the country who attained the Speakership of the lower branch of the legislature. Mr. Satterwhite is well known in Deaf Smith and has a host of friends here who are confident that his past record and commanding influence at Austin will not be overlooked by the voters of this section.

Amarillo's Cubs Take Walloping; Score Is 12 to 1

A radical infield shift was what Hereford baseball team needed, apparently. At any rate such a shift worked slick as a whistle last Sunday against the Amarillo Cubs, and the result was an overwhelming victory for the home products.

Curtisinger went to first, swapping places with J. M. Posey; Carroll was sent to third, and Jess Russell was brought in from the outfield and placed at short. The result was a snappy, smooth working combination that the Cubs were unable to penetrate. The boys all played splendidly in their new positions, especially Posey, who sparkled in the field and at bat.

The Cubs could do little with Tate, while his teammates had on the batting clothes and pounded Rogers for thirteen base hits. The game was never in doubt and left the fans in a happy and optimistic mood.

Next Sunday afternoon at 3:30 the Clovis aggregation will play at West Park. Galbraith will be in the box for Hereford, and the boys are determined to make it two in a row. The box score Sunday reads as follows:

Table with columns: Name, AB, R, H, PO, A, E. Rows include Carroll, J. Russell, Curtisinger, Galbraith, Spencer, Young, Robinson, R. Smith, J. M. Posey, Tate, Murphy.

Table with columns: Name, AB, R, H, PO, A, E. Rows include Youngblood, Odell, Cooper, Duncan, B. Hart, Walker, S. Hart, Willis, Rogers.

Summary: Three base hits, Spencer, Tate; two base hits, Young; double play, Youngblood to B. Hart to S. Hart; passed ball, S. Hart; sacrifice hit, Spencer; stolen bases, Tate 2, Posey, Murphy, J. Russell, Carroll 2, Duncan 2; struck out, Tate 7, Rogers 4; bases on balls, Tate 2, Rogers 4. Scorekeeper, John Patton.

Hatchery Will Double Capacity Next Year

The Golden Rule Hatchery will be able to turn out just twice as many baby chicks during the coming season as were hatched last year, according to H. H. Hawkins, owner. Another 12,000 egg capacity machine will be installed in August. This will double the capacity of the hatchery.

The local hatchery started operations last February and was not able to fill more than half of the orders received. The two machines will probably take care of the fall and winter trade, but Mr. Hawkins predicts that he will have to install the third machine by next spring. The poultry business in Deaf Smith county is growing by leaps and bounds. It has doubled during the past two years, and the industry is still on the upward trend.

Mr. and Mrs. John Haberer and children, Roy Haberer and son, Mr. and Mrs. Art Haberer and children spent Saturday evening in the home of Mr. and Mrs. Herman Haberer. Ice cream and cake was served. The occasion was a celebration of Mr. Art Haberer's birthday.

The attendance at Endeavor Sunday evening was very good. We think perhaps a contest would help out some at this evening service.

Miss Ruth Haberer was leader and Mrs. Ham Lambert has charge of

next Sunday's service. A committee meeting was called to appoint new leaders.

Ford Doings

If the editor of this paper will permit us to use valuable space in a good paper, we would like to say that we are glad we are not a politician this week. After Saturday it wouldn't be so bad if we happened to be the right one.

Anyone can't help but notice that on the third Sunday, when there isn't any church services that the attendance is not what it usually is, which should encourage the preachers who come on other Sundays. Yes, Rev. Morgan from Hereford, will be with us next Sunday at four o'clock, so let's all go hear him.

Mr. and Mrs. A. E. Benson from Clarendon spent Sunday with Mr. and Mrs. George Benson.

Mr. and Mrs. Elmer Benson from Claude were visitors Sunday in the Fred Benson home.

Mrs. R. H. Parker spent last week with her daughter, Mrs. Floyd Walton, who lives near West Way.

Last fall Floyd Benson had a 35 acre cotton patch. He didn't think much of it so sowed it in wheat for a pasture for milk cows. So imagine how pleased he was after pasturing it all winter to harvest 1100 bushels from it one day last week. Floyd also has a number of milk cows, about 400 white leghorn chickens and says his white cats are white Leghorn cats.

Mr. T. E. Baker and sons who live near Ward school, drove into Hardie Benson's 70-acre wheat field Tuesday evening just before sundown and Wednesday at about 10 o'clock p. m. he was ready to go home. Threshing—something over 1800 bushels of wheat with his combine.

Mr. and Mrs. Howard Morel went to Ward to literary Friday night.

Mr. and Mrs. Slim Garrett went to Progressive Sunday night to singing.

Mrs. M. J. Parks returned to her home Saturday, near Cisco, after an extended visit here with her daughter, Mrs. Hardy Benson. Mrs. Parks has endeared herself to many during her stay here. She was a consistent church worker and faithful in attendance.

Miss Mavis Harrison from Vegas, visited Misses Dorothy and Louise Smith Sunday.

Misses Willie and Elizabeth Davis from Clarendon, came up Wednesday to visit their sister, Mrs. George Benson. Miss Willie returned home on Thursday and Miss Elizabeth remained until Monday.

Miss Hazel Smith spent last week in Adrain.

George Benson made a business trip to Clarendon Thursday, returning home the next day with Mrs. Benson's piano.

Mr. and Mrs. T. E. Major, Mr. and Mrs. F. C. Benson and Mr. and Mrs. Hardy Benson ate Sunday dinner with Mr. and Mrs. Fielding.

Mr. and Mrs. Joe Bassett have recently moved to Vega. They plan to

move soon to Klamath Falls, Oregon. Joe has lived here nearly all his life and Mrs. Bassett came here about eleven years ago from Oregon.

Mr. and Mrs. John Whitsett were in Hereford Saturday.

man Morgan. y 26, 1925. PASSOVER. rnal—Exodus II:1-12: —I Cor. 5:7, "Our hach been sacrificed." ture—Exodus 12:1, 2. ovah spake unto Moses the land of Egypt, say- outh shall be unto you of months: It shall uth of the year to you. ones called for all the el, and said unto them, d take you lambs se- our families, and kill 22 And ye shall take

a bunch of hyssop, and dip it in the blood that is on the two-side post with the listel and in the basin; and some of you shall go out of the door of his house, and smite through to smite the Egyptians; and when he smote the blood upon the listel, and on the two side posts, Jehovah will pass over the door, and will not suffer the destroyer to come in unto your houses to smite you. 24 And ye shall observe this thing for an ordinance to these and to thy sons forever. 25. And it shall come to pass, when ye are come to the land which Jehovah will give you, according as he hath promised, that ye shall keep this service. 26. And it shall come to pass, when your children say unto you, What mean ye by this service? 27 That ye shall say, It is the sacrifice of Jehovah's passover, who passed over the houses of the children of Israel in Egypt, when he smote the Egyptians, and delivered our houses. And the people bowed the head and worshipped. 28. And the children of Israel went and did so; as Jehovah had commanded Moses and Aaron, so did they."

Our Scripture lesson today is plain and easy. It needs very little comment. Verse 2 marks the beginning of a new year. This is the month of deliverance. It corresponds to the latter part of March and the first of April. This new month, Nisan, from this time hence became the first month of the Jewish religious year. The civil year began with Tishri (November). The lamb was chosen on the 10th day of Nisan, (Ex. 12:3). It was slain on the 14th, and the Passover was eaten on the 15th. The day began at 6 o'clock in the evening. The month of Nisan began on March 22, and the Passover came on the 15th day.

The Passover is the most significant religious festival of the Jewish people. It was so in the time of Christ and it is so today. The two places of its observance is in the home and at the temple. In the earlier times it was observed by each family at their own hearthstone, but in the time of Josiah the decree was made that the people should all come to Jerusalem for its observance. All faithful Jews obeyed this decree. The Passover is the most significant symbol of the individual and national life of the Jews. It means, even today, that God takes a particular interest in the individual and national life, and that as God led his fathers out of ancient slavery, so will he deliver them today. This is a

beautiful and helpful faith. Great comfort and inspiration may be derived from such a religion.

When Moses accepted the call, studied last Sunday, he lost no time in going to Egypt to fulfill his mission. His father-in-law, Jethro, wisely counselled for him to take his family and make the journey to Egypt. In the wilderness, Moses met his brother, Aaron. He told him of his call, and the two went to the elders of Israel.

Without further delay the brothers went to Pharaoh and asked permission for the children of Israel to leave. Not only did they ask permission, they said, "Thus saith the Lord God of Israel, Let my people go." But Pharaoh replied: "Who is the Lord that I should obey his voice to let Israel go? I know not the Lord, neither will I let Israel go."

Pharaoh felt that God could not be God if the ruler of a mighty empire denied and derided him. In the months to follow he learned who this God was and he learned he was more powerful than Pharaoh and the Gods of Egypt. It was not far in the distance when he said to Moses: "Go serve the Lord, as ye have said."

The first effort of Moses was a failure. Pharaoh refused his demand and he also increased the afflictions of the enslaved Egyptians. Now begins the real struggle between Moses and Pharaoh. With the 7th chapter of Exodus begins the story of the attack which Moses made on the King of Egypt. One plague after another was sent upon the land of Egypt, trying to get Pharaoh to release the Jews. First of all the waters of the river Nile became like blood. All the waters in the land of Egypt turned to blood. Then followed in succession other grievous plagues—frogs, lice, flies, murrain, boils, locusts and darkness. As long as each plague lasted Pharaoh professed his willingness to let the people of Israel go. But when the respite came, he hardened his heart and refused.

The plague of darkness caused Pharaoh to make a concession. He held Moses the people might go if they would leave behind all of their cattle. This angered Moses and he replied: "There shall not a hoof be left behind." It was during this verbal combat that Moses informed the King that God would destroy the first born in the land of Egypt from the first born of Pharaoh unto the first born of the captive that was in the dungeon.

The death angel was to visit every home in the land of Egypt. Our Scripture lesson today is telling us how the Jews might have this death angel to pass over their homes. It is in two parts. The first section God gives instructions to Moses; the second part Moses gives instructions to the elders of Israel. In the observance of these instructions the first born would not be killed. The death angel would pass over the homes and Jehovah would enter wherever the blood was found sprinkled on the door post.

Moses gave explicit instructions about the selection and the killing of the lamb, and the procedure after the killing. The elders were to take hyssop, dip it in the basin in which the blood of the lamb was caught, and strike the listel and two side-posts of the door. There would be no safety outside the portal, and none must go out until morning. He told them, also, of the trouble that was to come upon the Egyptians, a calamity that they might escape by the observance of the command which had been given them.

People forget very easily. Moses knew that the Passover meant more than just the preservation of the lives of the first born and the deliverance from bondage. He wanted to fix deeply in the minds of his people that God was responsible for it all. So he instructed them to celebrate the Passover not only on this memorable night, but for them and their sons forever.

There is nothing going to defeat God's will. Men may fall Him, nations may fall Him, but his will is not defeated. God works slowly, and through human agency. His plan may be delayed by organized opposition, but in the end the will of God will be done, "on earth as it is in heaven."

Our Passover is the Lord's Supper. When we compare it with the Jewish Passover we find: both are a memorial; both are social, and they are both binding on all. "This do" says Jesus. Both are symbols. A symbol is the vehicle of a truth. It has value only when it symbolizes something.

In this study we find very much for profitable meditation. The Passover is a challenge. It is a test of faith. It is a test of obedience. Further we notice that deliverance has Divine origin; it is plainly stated; the sinner must be saved God's way.

The facts recorded here and all the other records of God's dealing with his people, we find that God keeps his promise. God is keeping watch over his own.

The Passover is a Jewish institution. But we also have an interest in it; it is symbolic of our deliverance. Jesus is the innocent lamb that has been slain for us. The blood of

## CHURCH ANNOUNCEMENTS

### First Presbyterian Church Jas. T. Ross, Pastor

The past Sunday was one long to be remembered in this church. Perhaps the largest congregation at any morning service during the present pastorate witnessed the ordination service. Then at the close of the service the Session voted to invite Rev. Lockett Adair, the noted evangelist, to preach for us in the ongoing revival. Mr. Adair accepted the invitation as extended and will be on hand for the first service on Sunday morning of the third Sunday in August. The Endeavor installation and the Women's Missionary Society program aided by the High School Orchestra under the direction of Mr. Ralph Smith, were the enjoyable features of the evening hour.

Next Sunday Rev. Ernest M. Rice will supply the pulpit in the Pastor's absence at both morning and evening hours. In the afternoon at five o'clock, Vesper Services will be conducted by the Rev. Mr. Eason, Rector of the Episcopal Church of Plainview, to which the local members of the Episcopal faith invite their friends. Sunday School, 9:45 a. m., Senior Endeavor, 7:30 p. m.; morning and evening preaching hours 11 a. m. and 8:30 p. m. Prayer meeting 8:30 p. m. Wednesday; Choir Rehearsal, Thursday 8:30 p. m. "How amiable are thy tabernacles, O Lord of Hosts!" In the name of Christ, our Lord, we bid you welcome to all the services of this church.

### First Christian Church T. Morgan, Pastor

There is nothing but praise to be said of the work last Sunday. We are still climbing upward. A little assistance from the few thoughtless ones would be a mighty big help. Come join us and see how happy it will make us.  
9:45 a. m., Church School. Supt. J. C. Ricketts was gone last Sunday. But the assistant superintendent, Mrs. E. F. Guthrie, was on the and she started the school at 9:45. Remember we start on time.  
11:00 a. m. Communion and preaching service. The subject for this hour is, "Fellowship."  
7:30 p. m. Senior C. E.  
8:30 p. m. Preaching. The subject is, "All Rivers Run Into the Sea."

### Methodist Church J. O. Hayes, Pastor

You will very probably not be able to change the results of the election by staying up all night Saturday night to get the returns and thus making yourself unfit or disinclined to come to Sunday school and church. The most patriotic thing you can do is to keep religion alive, and the only way you can do that is to keep yourself spiritually alive and help to keep others so.

The Pastor will preach at both hours, 11 a. m., and 8:30 p. m. Good congregational singing and special music at each service. Visitors and strangers are always welcome in our services.

Parents do not forget that the Junior Church meets each Sunday at 11 a. m., conducted by the Pastor's wife. It is a real helpful service for boys and girls from six to thirteen years of age. These citizens and church leaders of tomorrow are trained to worship and serve through the church. You should have your children in this service each Sunday. They will like it and derive great benefit from it.

Sunday school at 9:45.  
Epworth League at 7:30 p. m.  
Prayer meeting Wednesday at 8:30 p. m.

### Baptist Church W. E. Hill, Pastor

The Sunday school, for Bible study, begins at 9:45. Alex O. Thompson is the general superintendent, and is ably assisted by a group of loyal and trained teachers in all the six departments. All should know the most possible about the teachings of the Bible. You get it by reading it at home and in the church, and not by inspiration or revelation today.

The morning preaching service begins at 10:45. This service does not start at 11 o'clock, but at 10:45. We adjourn before 12 o'clock for the convenience of worshippers who eat at hotels, etc. The sermon subject will be, "Contrary Winds—Their Blessing." Opportunity for membership will be given.

Baptist Young People Unions all meet at 7:30. Come and welcome! Evening preaching service for all who will come begins at 8:30. "A View of God's Anxiety for the Lost" will be the subject of the sermon. The pastor will do his best to bring a brief, bright, and brotherly message of interest to all. Baptismal service to follow.

A cordial invitation is extended to visitors to worship with us.

#### THE PASSOVER

Lesson Material—Exodus II:1-12:36.  
Golden Text—1 Cor. 5:7, "Our passover also hath been sacrificed, even Christ."

Lesson Scripture—Exodus 12:1, 2, 21-28.

1. "And Jehovah spake unto Moses and Aaron in the land of Egypt, saying, 2 This month shall be unto you the beginning of months: it shall be the first month of the year to you. 21. Then Moses called for all the elders of Israel, and said unto them, Draw out, and take you lambs according to your families, and kill the passover. 22 And ye shall take

a bunch of hyssop, and dip it in the blood that is in the basin, and strike the lintel and the two-side post with the blood that is in the basin; and some of you shall go out of the door of his house until morning. 23. For Jehovah will pass through to smite the Egyptians; and when he seeth the blood upon the lintel, and on the two side posts, Jehovah will pass over the door, and will not suffer the destroyer to come in unto your houses to smite you. 24 And ye shall observe this thing for an ordinance to thee and to thy sons forever. 25. And it shall come to pass, when ye are come to the land which Jehovah will give you, according as he hath promised, that ye shall keep this service. 26. And it shall come to pass, when your children say unto you, What mean ye by this service? 27 that ye shall say, It is the sacrifice of Jehovah's passover, who passed over the houses of the children of Israel in Egypt, when he smote the Egyptians, and delivered our houses. And the people bowed the head and worshipped. 28 And the children of Israel went and did so; as Jehovah had commanded Moses and Aaron, so did they."

Our Scripture lesson today is plain and easy. It needs very little comment. Verse 2 marks the beginning of a new year. This is the month of deliverance. It corresponds to the latter part of March and the first of April. This new month, Nisan, from this time hence became the first month of the Jewish religious year. The civil year began with Tishri (November).  
The lamb was chosen on the 10th day of Nisan, (Ex. 12:3). It was slain on the 14th, and the Passover was eaten on the 15th. The day began at 6 o'clock in the evening. The month of Nisan began on March 22, and the Passover came on the 15th day.

The Passover is the most significant religious festival of the Jewish people. It was so in the time of Christ and it is so today. The two places of its observance is in the home and at the temple. In the earlier times it was observed by each family at their own hearthstone, but in the time of Josiah the decree was made that the people should all come to Jerusalem for its observance. All faithful Jews obeyed this decree.  
The Passover is the most significant symbol of the individual and national life of the Jews. It means, even today, that God takes a particular interest in the individual and national life, and that as God led his fathers out of ancient slavery, so will he deliver them today. This is a

beautiful and helpful faith. Great comfort and inspiration may be derived from such a religion.  
When Moses accepted the call, sanctified last Sunday, he lost no time in going to Egypt to fulfill his mission. His father-in-law, Jethro, willingly consented for him to take his family and make the journey to Egypt. In the wilderness, Moses met his brother, Aaron. He told him of his call, and the two went to the elders of Israel.

Without further delay the brothers went to Pharaoh and asked permission for the children of Israel to leave. Not only did they ask permission, they said, "Thus saith the Lord God of Israel, Let my people go." But Pharaoh replied: "Who is the Lord that I should obey his voice to let Israel go? I know not the Lord, neither will I let Israel go."  
Pharaoh felt that God could not be God if the ruler of a mighty empire denied and derided him. In the months to follow he learned who this God was and he learned he was more powerful than Pharaoh and the Gods of Egypt. It was not far in the distant when he said to Moses: "Go serve the Lord, as ye have said."

The first effort of Moses was a failure. Pharaoh refused his demand and he also increased the afflictions of the enslaved Egyptians.  
Now begins the real struggle between Moses and Pharaoh. With the 7th chapter of Exodus begins the story of the attack which Moses made on the King of Egypt. One plague after another was sent upon the land of Egypt, trying to get Pharaoh to release the Jews. First of all the waters of the river Nile became like blood. All the waters in the land of Egypt turned to blood.  
Then followed in succession other grievous plagues—frogs, lice, flies, murrain, boils, locusts and darkness.

As long as each plague lasted Pharaoh professed his willingness to let the people of Israel go. But when the respite came, he hardened his heart and refused.  
The plague of darkness caused Pharaoh to make a concession. He

told Moses the people might go if they would leave behind all of their cattle. This angered Moses and he replied: "There shall not a hoof be left behind." It was during this verbal combat that Moses informed the King that God would destroy the first born in the land of Egypt; from the first born of Pharaoh unto the first born of the captive that was in the dungeon.

The death angel was to visit every home in the land of Egypt. Our Scripture lesson today is telling us how the Jews might have their death angel to pass over their homes. It is in two parts. The first section God gives instructions to Moses; the second part Moses gives instructions to the elders of Israel. In the observance of these instructions the first born would not be killed. The death angel would pass over the homes and Jehovah would enter wherever the blood was found sprinkled on the door post.

Moses gave explicit instructions about the selection and the killing of the lamb, and the procedure after the killing. The elders were to take hyssop, dip it in the basin in which the blood of the lamb was caught, and strike the lintel and two side-posts of the door. There would be no safety outside the portal, and none must go out until morning. He told them, also, of the trouble that was to come upon the Egyptians, a calamity that they might escape by the observance of the command which had been given them.

People forget very easily. Moses knew that the Passover meant more than just the preservation of the lives of the first born and the deliverance from bondage. He wanted to fix deeply in the minds of his people that God was responsible for it all. So he instructed them to celebrate the Passover not only on this memorable night, but for them and their sons forever.

The Passover is a Jewish institution. But we also have an interest in it; it is symbolic of our deliverance. Jesus is the innocent lamb that has been slain for us. The blood of

the lamb is a type of the blood that was spilled on Calvary. The blood is useless unless applied. The deliverance involves a sacrifice of innocent life. It is a complete deliverance. And the method requires a practical trust in God.

Our Passover is the Lord's Supper. When we compare it with the Jewish Passover we find: both are a memorial; both are social, and they are both binding on all. "This do" says Jesus. Both are symbols. A symbol is the vehicle of a truth. It has value only when it symbolizes something.

In this study we find very much for profitable meditation. The Passover is a challenge. It is a test of faith. It is a test of obedience. Further we notice that deliverance has Divine origin; it is plainly stated; the sinner must be saved God's way. The facts recorded here and all the other records of God's dealing with his people, we find that God keeps his promise. God is keeping watch over his own.

There is nothing going to defeat God's will. Men may fall Him, nations may fall Him, but his will is not defeated. God works slowly, and through human agency. His plan may be delayed by organized opposition, but in the end the will of God will be done, "on earth as it is in heaven."

### What's Doing in West Texas

Herietta—The Red River District of the West Texas Chamber of Commerce will hold its annual convention here July 26. B. M. Whitaker, exhibit manager of the organization, has been here several days working on the meeting and reports that a heavy attendance from the score of counties which comprise this district will be on hand.

Decatur—The public square has been surfaced with asphalt.

Lockney—This city will have natural gas by January 1st. A franchise has been let calling for construction to begin not later than September 1st. The pipe line will be completed to Lockney by December 1st and gas ready for use by January 1, 1927.

New Mexico Association composed of the chambers of commerce of twelve cities of southeastern New Mexico will meet here August 17-18. A. P. Duggan and Homer D. Wade of the West Texas Chamber of Commerce have accepted invitations to be present.

Decatur—Wise county farmers will import ewes from Southwest Texas. It is planned to purchase several car loads among Wise county farmers and ship them in co-operatively.

Washington, D. C.—Walter B. Lang of the U. S. Geological Survey has completed field investigations of the potash deposits of West Texas and has published his findings in a bulletin just issued by the Department of Interior entitled "Potash Investigation in 1924." This bulletin contains highly interesting and instructive information and may be obtained by writing the Department of Interior through the congressman.

Wheeler—A fact that was generally overlooked in connection with the recent Eighth Annual Convention of the West Texas Chamber of Commerce was the fact that the Wheeler band was the youngest band at the convention, yet playing under the same conditions and before the same judges as the older organizations, won the gold medal offered for the highest score.

Snyder—The Snyder Times-Signal is conducting an unique popularity contest which is getting good results for the paper. In the contest the subscribers vote for the local correspondents of the Times-Signal of the rural districts whose work appeals to them most. An improvement has

been noticed in both the quality and quantity of material sent in by the rural correspondents.

## Amarillo's Cubs Take Walloping; Score Is 12 to 1

A radical infield shift was what Hereford baseball team needed, apparently. At any rate such a shift worked slick as a whistle last Sunday against the Amarillo Cubs, and the result was an overwhelming victory for the home products.

Curtisinger went to first, swapping places with J. M. Posey; Carroll was sent to third, and Jess Russell was brought in from the outfield and placed at short. The result was a snappy, smooth working combination that the Cubs were unable to penetrate. The boys all played splendidly in their new positions, especially Posey, who sparkled in the field and at bat.

The Cubs could do little with Tate, while his teammates had on the batting clothes and pounded Rogers for thirteen base hits. The game was never in doubt and left the fans in a happy and optimistic mood.

Next Sunday afternoon at 3:30 the Clovis aggregation will play at West Park. Galbraith will be in the box for Hereford, and the boys are determined to make it two in a row. The box score Sunday reads as follows:

Hereford		Amarillo Cubs	
Name	AB R H PO A E	Name	AB R H PO A E
Carroll, 3b	4 2 1 2 0 1	Youngblood, ss	4 0 1 0 5 1

## LOCAL AND PERSONAL

Henry Garrett, who has been in Oklahoma for several months, returned the first of the week and says "Hereford looks good to me." Mr. Garrett says he is home to stay.

Mr. and Mrs. George Miller and little daughter, Georgianne, of Indianapolis, Ind., who have been visiting Mrs. Miller's mother, Mrs. R. G. Sisk, will leave the first of next week for Philadelphia to attend the Sesqui-Centennial. They will be accompanied by Miss Helen Sisk. The party will visit relatives in Pennsylvania before returning to their homes. Miss Sisk will return to her school in Wichita, Kansas.

Albert Murphy will appreciate your vote and influence for tax assessor Saturday. He has tried to see all the voters, but if he has missed any up to now he will try to see them before the polls open. —dv.

Mrs. W. J. Walters and daughters, Misses Ruth, Jo, Louise and Doris, and Messrs. Kenna Longmire and Lewis Bromley, of Dallas, arrived Monday for a few days visit with Mr. and Mrs. Dow Mercer. They were traveling overland and left Wednesday for California where they will make their future home.

Mrs. J.H. Head arrived home Monday from Cisco, where she has been visiting for several weeks. She stopped off at Plainview enroute home, for a short visit with her daughter, Mrs. Jessie Groner and was accompanied home by her granddaughter, Mozelle, who will visit her for some time.

Miss Ida Lee Parker, who is attending W. T. T. C. at Canyon, spent the week-end with Miss Eloise Pitman.

Miss Mildred Wilson, of Amarillo, who is attending W. T. T. C. at Canyon, was the week-end guest of Miss Katherine Wilson.

On Monday morning Misses Eloise Pitman and Katherine Wilson were charming hostesses at a bridge party, honoring their house guests, Misses Parker and Wilson. There were four tables of players and at the conclusion of the games, Miss Floy Collier, of Dallas, was found to have held high score and was given the prize. Both honorees were given guest prizes. A salad and ice course was served at noon and the guests departed, hoping that these delightful guests would return for another visit soon.

Albert Murphy will appreciate your vote and influence for tax assessor Saturday. He has tried to see all the voters, but if he has missed any up to now he will try to see them before the polls open. —dv.

Wheat harvest still continues in full blast. Forty bushels to the acre is about an average on the early sowed wheat. Late wheat is not so good.

Mr. Heiselman lost about 300 acres from fire this past week. The fire started from a truck that was hauling wheat.

John Rector transacted business in Adrain Friday.

Mr. and Mrs. Rex Higgins and baby and Raymond Odem visited with J. M. Chapman and family Saturday night and Sunday.

John Rector, Jr., returned home from Dallas last week.

Mr. and Mrs. Clyde Alfred, of Willadorado, visited with Mr. and Mrs. J. M. Chapman last Saturday.

## Hatchery Will Double Capacity Next Year

The Golden Rule Hatchery will be able to turn out just twice as many baby chicks during the coming season as were hatched last year, according to H. H. Hawkins, owner. Another 12,000 egg capacity machine will be installed in August. This will double the capacity of the hatchery.

The local hatchery started operations last February and was not able to fill more than half of the orders received. The two machines will probably take care of the fall and winter trade, but Mr. Hawkins predicts that he will have to install the third machine by next spring. The poultry business in Deaf Smith county is growing by leaps and bounds. It has doubled during the past two years, and the industry is still on the upward trend.

## Judging to Begin This Week; Home and Garden Work

The first period of judging in the Home and Garden Contest for Hereford is under way, and everything points to some spirited competition. The final judging will be done between the first and tenth of September. No awards will be made until the final judging is done.

Regardless of the fact that two severe hail storms ruined a number of the gardens and flowers, seventy-five entered the contest. This was nearly fifteen more than entered the Home and Garden Contest last year. Several homes in South Hereford entered the contest this year. This is the first time that that section of our city has been represented.

Another feature of the contest is the Public Buildings entries. All these are in competition with each other, but they do not compete with the private homes of individuals. The following have been entered: Deaf Smith County Court House, St. Anthony's Church, Deaf Smith County Hospital, Hereford High School, First Christian Church and the Methodist Church.

Five judges are being used this year, while four did the work in 1925. Here are the judges: Reverends W. R. Hill and Thurman Morgan, Professor C. W. Humble, Mrs. Myrtle Spelman and Mrs. F. H. Oberthier, who takes the place of Rev. J. O. Haymes. He was unable to serve on the judging committee.

Rewards: Owned homes, first, \$15; second, \$10; third, \$5. Rented homes: First, \$15; second, \$10; third, \$5. Public Buildings: a silver loving cup will be given which must be won three consecutive times before it becomes permanent property.

## Rev. J. T. Ross In Revival Work at Jumbo

Revival services planned to continue through next Sunday were begun at Jumbo last Sunday evening at 8:30. A well filled house greeted the Rev. J. T. Ross at the initial service and much interest is being manifested. An unusual feature of this meeting is the hour at which the evening services are being held. Each evening at sunset the services begin and are concluded shortly after dark, usually by the time that revival services are accustomed to begin in the evening. It was at the invitation of the entire community that this meeting was undertaken and the co-operation of all Christian people in the services is expected to yield large results for the community.

## White Leghorns Profitable, Hawkins Thinks

White Leghorn hens are proving very profitable for their keepers in this section of the Panhandle. H. H. Hawkins, owner of Hereford's mammoth hatchery, kept records on two hundred laying hens from January 15 to June 30, and found that the flock laid 1338 dozen eggs, or a total of 16,056 eggs. Mr. Hawkins received on an average of thirty cents per dozen for the eggs, making \$401.40. It took \$216.25 worth of commercial feeds for the flock, leaving a net profit of \$185.15.

The poultry industry is increasing in this section by leaps and bounds, and where the chickens are properly cared for, they are proving to be very profitable.

If you want economy and efficiency in the Tax Assessor's office, vote for Al Miller.

## Lockett Adair to Hold Revival at Hereford

It will doubtless be a pleasing item of news to many Hereford people that this community is to have the privilege of hearing Lockett Adair, the noted Evangelist, during the summer. Mr. Adair was converted some years ago in Dallas while serving as a member of the police force in that city. He has preached in revivals in nearly every state in the Union with great success. Thousands of people have been converted to his services and more than one hundred and fifty ministers of various churches have consecrated themselves to the Gospel ministry as a result of his work in the evangelistic field. Many of the older residents of Hereford will recall that a number of years ago Adair held evangelistic services here, and a number of members in the several churches of Hereford are able to date their conversion to that meeting. Further announcement will be made through the columns of The Brand as the weeks wear by. Watch for it.

## Surprise Birthday Dinner for Mrs. Rutherford

Speaking of a bolt from a clear sky—Wednesday morning about eleven-thirty, as Mrs. Hattie Rutherford sat serenely sewing in the living room of her home in northeast Hereford, without knock or bell, one of her friends opened the door and abruptly asked: "Have you dinner ready for us?" Before Mrs. Rutherford in her surprise, could answer, in bolted about forty other friends and neighbors, each with a dish or more of good "eats." Soon this beautiful home was a veritable bee hive of noise and industry, which did not abate for hours. One feature which gave an added pleasure was the presence of Mrs. Perciful and baby, of Clovis. Mrs. Perciful is the daughter of Mrs. Rutherford. Another out of town guest was Mrs. Frank Williams, of Phoenix, Arizona, a former resident of Hereford.

About fifty-one guests registered and one and all we wished for Mrs. Rutherford as many more happy birthdays.

## Commissioners Reroof Pavilion Without Cost

The Sales Pavilion is being treated to a new roof this week, and when the work is completed will be better looking and in better shape than ever. The commissioners' court is having this work done without additional expense to the county treasury. They collected nearly \$400 in insurance money for recent hail and weather damage, and are using this money in putting the roof in first class condition.

## The Federal Land Bank's Rates of Interest Lower

The Federal Land Bank of Houston, has notified all secretary-treasurers of local Associations that the interest rate on farm loans will be 5 per cent on all loans made August first and after until further notice. This is a reduction of one-half per cent over the rate now in effect.

This reduction will mean thousands of dollars saved to the borrowers of Texas, as all lending agencies will have to either lower their rates or lose a big percentage of business.

The reason that the Federal Land Bank is able to make this reduction is that there is such a big demand for Federal Farm Loan Bonds, which are tax free, and the wonderful record the Federal Land Bank has made since its organization. Expenses have been cut to the minimum, and the loans being made on a safe valuation, very few foreclosures have been necessary. There has been no foreclosures made by the Federal Land Bank of Houston on Panhandle lands.

The Federal Land Bank of Houston is owned and controlled by the local Associations. These local Associations are owned and controlled by the member borrowers. It is therefore one of the largest co-operative

institutions in America and has been a success from the start.

The secretary-treasurer of the local Association, A. O. Thompson, reports that there are 265 members in this Association, that over \$1,300,000 is now loaned to its members, that new loans are being made right along and that special preparations are being made in the office to take care of the additional business which will result from the announcement of the lower interest rate. This Association may make loans in Deaf Smith, Randall, Castro and Farmer Counties.

## Lee Satterwhite Seeks Re-Election to Office

Hon. Lee Satterwhite, of Amarillo, Speaker of the House of Representatives at Austin, and representative from this district, was in Hereford Monday, campaigning for re-election to the office he now holds. Mr. Satterwhite is the father of Mrs. Jim Sanders of Hereford.

Mr. Satterwhite has represented this district for several terms with signal distinction, and he is the only man who ever came from this part of the country who attained the Speakership of the lower branch of the legislature. Mr. Satterwhite is well known in Deaf Smith and has a host of friends here who are confident that his past record and commanding influence at Austin will not be overlooked by the voters of this section.

## Carson County Voters Carry \$1,000,000 Bonds

Carson county carried a million dollar highway bond election Wednesday of last week by a vote of 648 to 281, or 69 more than the required two-thirds necessary to put over the issue.

The county probably never had a more interesting election than the one in which the Carson county voters endorsed the good roads issue.

Panhandle piled up a vote of 453 for the issue, with only 15 against it, or a majority of more than 30 to 1.

The tremendous majority in Panhandle was a big surprise to workers for the issue.

Groom voted more than 3 to 1 for the issue with a vote of 111 to 34. Conway went almost 3 to 1, or 31 to 12 for the bonds.

The largest opposition to the bonds were at White Deer with only 21 affirmative votes and 140 negatives, or almost 7 to 1 against the proposal. Pleasant Plains and Liberty communities also went against the bonds, the former almost 3 to 1 and the latter about 2 1-2 to 1.
