Editor Brand:

I believe in the issuance of bonds for needed beneficial public improvement. Especially so in a new, undeveloped and progressive county like Deaf Smith. Good roads which are negotiable in all seasons and times of the year are the best and most profitable investment and improvement which any county can make. To vote and issue road paving bonds in Deaf Smith county would be the best and most profitable and wisest act in the history of this county; PROVIDED the money from such bonds was judiciously and wisely expended.

If all the bond money is to be expended on paving the road from Hereford to Amarillo, I shall oppose and vote against the proposition. If our commissioners propose to expend all this money in paving the highway paralleling the Santa Fe Railroad through Deaf Smith county, I shall oppose the bond issue. I would like to see that road paved, yes, but not to the detriment and injury of the whole county. It would be nice for the tourist passing through, and fine for joy-riders going to Amarillo, but would benefit only about three families out of a hundred trading and marketing and doing business in Hereford. If all the money is put on that road, then when can we ever issue bonds to pave other roads which 95 per cent of the people travel in coming to Hereford?

I will vote for a bond issue to pave the road toward Dimmitt from the Castro county line to Hereford and thereby build our town and county. I will vote for a bond issue to pave the road from Hereford north up 25-Mile Avenue toward Vega to our north county line and thereby benefit all those people and build up our whole county and town. I will vote for a bond issue to pave the road due west to the New Mexico line and thereby secure all that New Mexico trade and settle up with farmers that vast open space in this county between here and New Mexico. Those three lines of paved road leading into Hereford will make our county seat the hub of the wheel with three spokes leading north, south and west, binding a vast trade territory to Hereford which will more than double our trade and much more than double rural development in the way of new farms and settlers and produce and additional lands in cultivation. Why should we vote bonds and spend all our money in putting an additional spoke in Amarillo's wheel? If we pave first the road to Amarillo, if it does not actually hurt the business of our county seat, it will certainly be of less benefit to our

town and county than any other road we might pave in the county. First pave our three roads north, south and west, then if we have any money left, pave part of the tourist road up and down the Santa Fe. Serve our own people, serve our own trade territory, serve our own and best interest for our county and county seat first, then if we have anything left, put it on the road for the tourist and joy-riders.

Jim Patterson and family returned from a visit with relatives in Oklahoma last week.

Mr. and Mrs. C. S. Moss were Clovis shoppers Friday.

Jess Wood and Henry Stovall are helping each other stack feed and Mrs. Stovall and Mrs. Wood visit with each other the days the men are at work.

F. B. Scott helped Cecil Clayton work on his well Thursday afternoon.

The high winds of the past few days have been very disagreeable. Everyone is grieving over the death of J. Z. Isler, which occurred at the home of his daughter, Mrs. Josie Crecelius, at Clovis, on November 11. Mr. Isler was a pioneer settler of this community, having come here a number of years ago. He had been in ill health for about three weeks. Mr. and Mrs. Isler had started about a month ago to Port Arthur, Texas, to spend the winter and while they were stopping at Wellington to see Mrs. Isler's daughter and family, Mr. and Mrs. John Nickels, Mr. Isler took seriously ill of ptomaine poison. His sons, Reid

and Rome, and daughter, Josie, went to his bedside and after he had partly recovered he was taken to Clovis. A few days later he had a stroke of paralysis, which was the third serious attack in the course of a few months. This fourth stroke, which proved fatal, came a day or two before his death. Funeral services were held at Wheatland Friday at one o'clock, and he was laid to rest in the Blair cemetery. All of the children were present except Rob. Mr. Isler's son, and Paul, Mrs. Isler's son. Mr. Isler lived a life that will cause all who knew him to mourn his absence. He was always ready and willing to help where there was a helping hand needed.

Mr. and Mrs. J. R. Burnett are enjoying a new radio.

Verg Tillman Tom and Earl Boney got home Friday from their hunt in the mountains, but we failed to see any thing of the game.

Mr. and Mrs. Fred Long of Grady visited Mr. and Mrs. Barney Blackburn Sunday.

F. B. Scott and family were dinner guests of J. C. Woods and family one day recently.

Grover Cogdill and family took Sunday dinner with R. A. Lowe and family.

Ocell Clayton is helping F. B. Scott thresh maize and hand-headed maize and kafir with a combine.

So many are leaving that our Sunday school and prayer meeting attendance is smaller than usual. Plans were made Sunday for a Christmas tree here.

J. C. Cheery and family of near Flagg, Texas, attended the funeral of J. Z. Isler.

Mr. and Mrs. C. S. Moss and Belle and Mrs. J. O. Wood and Mrs. F. B. Scott called at the Henry Stovall home Sunday.

R. A. Lowe preached at New Hope Sunday morning.

Mrs. Ella Isler and son, Floyd, left Monday for Memphis, Texas, to be with her daughter and family, Mr. and Mrs. A. A. Dethrage.

There's no end to the uses for electricity. The time, strength, light, and money saved through having a Westinghouse Light and Power Plant is immeasurable. Everywhere lighting plants are known and used, this plant is noted for its freedom from bother of all kinds, its simplicity of operation, its dependability, its long life.

**Westinghouse  
Farm LIGHT & POWER Plant**

**Easy to Operate** - The Westinghouse Light and Power Plant is so simply designed that anyone, with a few minutes' instructions, can operate it. It can be installed in a corner of the cellar, or in an out-building.

**Easy to Own** - One of the things that make the Westinghouse Light and Power Plant so desirable is the deferred payment plan. And its operating cost is hardly as great as the amount you now spend for coal oil.

Thermostatic Circulation Control is a new reason why the Buick engine is so easy to start and so pleasant to drive, in all kinds of weather. Summer conditions prevail all year, under the Buick hood. At 90°, or at zero, this valuable Buick improvement reduces the warming-up period to less than three minutes!

For this, and many other vital reasons, the 1927 Buick is the Greatest Ever Built. The engine is vibrationless beyond belief. Drive it and see what that means.

### What's Doing In Western Texas

**Stamford**—The West Texas C. of C. is making an effort to check a new form of bootlegging being practiced by unscrupulous hog dealers through their careless introduction of infected or exposed swine into West Texas and federal aid is being sought by the regional organization in the matter.

**Graham**—A novel storage system has solved the cotton problem for a farmer in this section. Asa Vaughn and sons of Wilbarger county are using a hay baler to put up their seed cotton as it is picked. Dispensing with the cost of ginning and storage, the cotton seed bales are to be held in the Vaughn barn during the present crisis, and will be released to the market at a later date. When ready for marketing the cotton seed bales will be loaded and taken to the gin.

**Fort Worth**—The committee named by the West Texas Chamber of Commerce to investigate the cotton situation in Texas went on record at its recent meeting here as endorsing the Texas Cotton Corporation to be organized with a five million dollar subscribed capital stock by a special cotton committee of the Texas Bankers' Association in accordance with plans adopted by six Southern states for the retirement of 1,250,000 bales of Texas cotton. The committee also adopted a resolution relative to a plan for option acreage reduction in the State of Texas to an extent of not less than twenty-five per cent.

Christian hit right guard for 4; Campbell smashed thru center for 6 yards to 30 yard line; Canyon fumbles and Wilson draped himself around that ball like a hen grab a jupe bug; Hereford's ball on Canyon's 29 yard line.  
Russell rapped right end for 1 and then right guard for 4; a pass, Russell to Barrett, was completed for 2 yards; another pass by Barrett was incomplete, just as the whistle sounded for the quarter.

**Second Quarter.**  
Canyon's ball on their 20 yard line. Campbell thru center 2; Christian, right tackle 3; a push play thru right guard with Christian carrying the ball gained only 1; Canyon attempted to punt, but John L. Wilson came storming thru, threw up his arms and blocked the attempt; in the melee which followed, Hereford came up with the ball (29 yard line).  
Barrett took 1 at center; Russell went thru right tackle for 4; Barrett fumbled on a center smash, but Babe Russell, who had just returned J. O. Gilbreath at right end, caught the day by falling on the ball on Canyon's 10 yard line; Barrett took 1 at left tackle and then Jess Russell, on a fake play, pushed the ball to the 2 yard line; Barrett then raced around left end for a touchdown and the first score of the game. Captain Russell kicked goal. Score: Hereford, 6; Canyon, 0.  
Hereford kicked off to Canyon's 15 yard line and they returned it to their 34 yard line. Christian went around left end for 4; Thompson was hurt on the play; time out for Hereford; the Canyon push play thru right guard netted 5; Brown made 1 at right tackle, and then a short gain at right end; Christian then broke thru the line for 26 yards, placing the ball on Hereford's 28 yard line; Campbell made 3 at center, but failed at right guard; Babe Russell flashed thru and tackled Campbell savagely but missed his hold and Campbell made 3 yards on the play; a pass, Christian to Watson, put the ball on Hereford's 14 yard line; after Liberte had stopped a smash at center, Christian tried a pass across the goal line, which grounded, and Hereford took the ball on her 20 yard line.  
On the first play Jess Russell carried the big crowd with a beau-

tiful end run of 21 yards, placing the ball on Hereford's 41 yard line (the Hereford interference was splendid); Barrett took 4 at right tackle and J. Russell, 1 at the same place; Barrett was thrown for a 2 yard loss at left end; Russell punted to Canyon's 20 yard line and Canyon put it in play on their 28 yard line; O'Donnell smashed right tackle for 5 and Brown made 2 at end, where Wilson smeared him; a wonderful pass, Christian to Watson, put the ball on Hereford's 20 yard line, a net gain of 35 yards; half up.  
**Third Quarter.**  
Canyon kicked off across the line and Hereford took the ball on her 20 yard line. Murphy went thru right guard for 2; Barrett 1 at left tackle; Russell 3 at right end; Russell punted to Canyon's 40 yard line and they brought it back to their 32 yard line. On the first play Jess Russell intercepted a Canyon pass and it was Hereford's ball on the Canyon 38 yard line. Spradley thru center for 1; Russell then made a brilliant dash around right end to the 25 yard line, a gain of 12 yards; Barrett scratched 1 at center and Russell again circled the end to the 16 yard line; Barrett took 1 at left tackle, but O'Donnell threw Russell for a loss on a try at end, leaving the ball on the 19 yard line; a pass was incomplete, Barrett

missed the ball three 8 yards to the 11 yard line, just missing the required distance, and Canyon took the ball on down.  
Campbell tried an end run and Wilson threw him without gain; the second play was fumbled, no gain; Canyon lifted a long punt and Russell returned it to the 38 yard line. On the first play Russell broke thru right guard for 16 yards to Canyon's 45 yard line; Russell again, plowed thru the same hole 15 yards to Canyon's 33 yard line; Barrett twisted thru 7 yards to the 24 yard line; Russell plunged right tackle for 4; Barrett was stopped at left guard and Hereford was penalized 5 yards for off side (ball on Canyon's 25 yard line). On a clever fake pass Buddy Witherspoon darted around right end 7 yards to their 18 yard line; Russell then began a remarkable series of stabs at the tackle and ends, using a fake play that simply mystified the opposition; he made 11 yards on three plays, a thrust at center by Witherspoon was stopped; on the next play Russell put the ball on the chalk line in the extreme southwest corner of the gridiron, and the spectators thought it was another touchdown, but the referee ruled the ball still inside and Canyon took the ball. It had been a marvelous march down the field and the Canyon line was simply ripped to shreds by the shifty Hereford captain.  
Russell caught the Canyon punt from behind their goal line on the Canyon 38 yard line and was spilled in his tracks. Barrett then pushed a spectacular end run for 20

yards to the Canyon 12 yard line. The Hereford interference was a thing of beauty. Barrett hit left tackle for 3 and Russell center for 1, but Brown, grabbed the next play, a pass, and made a brilliant run to Hereford's 46 yard line before being downed. They hit center for 4 and then made 4 thru the line just as the whistle blew for the quarter. Score: Hereford, 6; Canyon, 0.  
**Fourth Quarter.**  
Canyon's ball on Hereford's 40 yard line. They made 2 at center and 2 at right end and then pulled as fine a pass as has ever been seen here, Christian to Brown, good for 31 yards, and putting the ball on Hereford's 5 yard line. Brown was hurt on the play and missed. Christian smashed 1 thru right guard and then jammed thru center to the 1 yard line. Another desperate plunge was held at the six inch line by the fighting Hereford eleven, but on the next play Campbell nosed over for a touchdown. He missed goal and the game was tied in a hard knot, 6 to 6.  
Canyon kicked to Barrett who ran the ball back in a sensational 25 yard return to the Hereford 45 yard line. His interference worked smoothly and efficiently. Barrett then went thru left tackle for 8 and Russell smashed 5 thru the other side of the line; Barrett

made 1, and Canyon was penalized 5 yards for off side; Russell rushed thru left guard 3 and Barrett circled left end for 7, placing the ball on Canyon's 23 yard line. Russell rushed thru right tackle for 7. From which point Russell heaved as pretty a pass as that of Christian a few moments before and Buddy Witherspoon, standing on Canyon's 5 yard line, gathered in the oval lovingly to his bosom and sprinted across for the second and deciding score of the game. Russell kicked goal. Score: Hereford, 12; Canyon, 6.  
Hereford kicked out of bounds and had to do it over. On the run back Christian was run out of bounds at the thirty yard line by Thompson who was hurt on the play, but continued in the game. One the first play following Russell snatched a Canyon pass out of the ether and ran 34 yards before he was thrown on Canyon's 22 yard line. Barrett and Russell then carried the ball forward and lost a few yards in a series of plays around Canyon's 20 yard line, and

then lost the ball at this point when a pass failed. Campbell plunged desperately for 12 yards thru the line and was then held on the second attempt. The third play was fumbled and Hereford recov-

ered on the thirty yard line. Thompson netted 4 yards, and Hereford was penalized 5 yards for the time out, just as the whistle ended the spectacular exhibit.

**Local Farmer Feeds Home-Grown Grain**

"A farmer should keep enough Jersey cows and chickens for living expenses, and should feed all he raises on the farm to calves and hogs." This is the statement of G. W. Brumley, hog buyer, and a successful farmer. Mr. Brumley states that he has made more money feeding calves and hogs than he has ever made shipping hogs. "Home grown feeds, fed with tankage, get results, and there are great possibilities for the farmer who will feed everything he raises instead of selling the feed."

All hogs are fed in self-feeders. The tankage is placed in one feeder and the ground grain is put in

another feeder. This gives the hog a chance to balance his own rations. The idea is contrary to many of the stockmen of this section, who believe that the rations should be balanced before feeding, but it has been getting splendid results.

Mr. Brumley is now feeding 114 calves and 250 shoats in the same pen. Two hundred laying hens and twelve Jersey cows are kept on the farm and only two hired hands are used to do the work. Mr. Brumley is selling cream and says that the skimmed milk is worth as much for the pigs and chickens as the cream that he sells. The living expenses are reduced as this man has his own meat, eggs, butter and milk.

Mr. Brumley is solving the problem which every farmer of this section needs to solve, that is, "selling low priced grain at a profit." With the high prices of hogs and finished calves, and with grain sorghums lower than in years, conditions here are ideal for the feeding industry. Many of the stockmen of this section are taking up the work, and are finding it more profitable to market the home grown grains on foot.

Robert Lee—Lights in this community are to be installed upon receipt of a transformer which was ordered some time ago.
