

WTCC Meet Looks At State

CofC Teams Begin Drive

The annual Chamber of Commerce membership drive kicks off Tuesday morning with a breakfast meeting for all membership workers. Team captains have already had a briefing session under the direction of drive chairman Ralph Owens. He challenged the captains to top last year's result in light of the fact that the new industries moving to Hereford had resulted in a much heavier work load.

on the chamber. Though \$31,000 was budgeted for chamber activities this year the heavy influx of new people expected in the next few months will tax the manpower of the chamber to its fullest.

Team captains for the drive are Mr. and Mrs. Larry Summers, Oliver Streu, Frank Ball, Lynton Allred, John Gilliland, Melvin Jayroe, Terry Hodges and one captain to be named. Each team will have five workers and each worker will receive just five prospects. Target of the drive in most cases is those new businesses that have come to town during the last year and have not yet been contacted and those businesses which have had a change in ownership or management during that time.

Workers will be working for individual and team prizes. The high team will be treated to a steak dinner at the dining place in Hereford of their choice. The individual high man will receive two tickets to the West Texas State football game of his choice (home game). All workers that earn 20 or more points will be entitled to join the Hereford Hustlers, the red jacketed good-will ambassadors of our community. The individual high for the year, not just for the drive

Grid Practice Starts Monday For 90 Boys

Football practice for the 1967 season at Hereford High School will begin at 8 a.m. Monday for approximately 90 eager players.

Coach Larry Wartes, who will be handling a Hereford team for the first time, said plans call for two workouts a day—weather permitting.

The afternoon workouts, said Wartes, will begin about 6 p.m. when it is expected the heat will be diminishing. Also planned for this week is a scrimmage, probably to be held Saturday.

During the past week, the aspirant footballers reported to the See GRID PRACTICE, Page 2

HARLAN VANDER ZEE

Harlan D. Vander Zee, president of the Hereford State Bank was one of 25 men named Friday as directors of the West Texas Chamber of Commerce.

Also director of the Deaf Smith County Chamber of Commerce, Vander Zee came to Hereford in April when he and Jeff Carlile bought controlling interest in the Hereford State Bank. He assumed duties as president and director of the bank at that time.

Other directors accepted Friday by the board include Wales Madden and F. V. Wallace of Amarillo, Fritz Thompson of Borger, Boyd Anthony of Comanche, Ken Spencer of Crane, B. M. Holman of Henrietta, M. I. Knudson of Hico, Lem G. Neely of Kerrville, Odie Alinsworth of Kingsland, Thad Mc-

Hereford Man Is Named Director

Approximately 125 directors of the West Texas Chamber of Commerce climaxed a two-day business session in Hereford Friday when they passed several resolutions concerning amendments to Texas Constitution.

In a three-hour meeting at the Community Center, the directors gave their support to five of the six proposed amendments to the Texas Constitution and passed two others urging support for a "fair-share disbursement of state monies for West Texas education" and Water, Inc.

Also approved by directors was the appointment of 25 new directors to the WTCC. One of the new directors is Harlan Vander Zee of Hereford. Resolutions approved by the board called for:

... A higher rate of return to the farmer for sale of his products. The resolutions states that the farmer is paid only a small portion for a product which sells for two and three times as much on the counter.

... Stopping importation of long staple cotton from Egypt, which broke off diplomatic relations with the United States.

... Establishment of a Texas Agriculture Coordinating Board, which would prevent the overlapping of services now provided by a multitude of state agencies.

... Support on all but one of six constitutional amendments which will be decided in November by Texas voters.

Opposed by the directors is the amendment which proposes to increase the total of the veterans Land Bond fund to \$400 million. In presenting the state affairs committee's action on the proposed amendments, Max Preston of San Angelo said it was the committee's feeling that the program did not fulfill the purpose of providing money for purchase of land by veterans. One director said he felt the amendment should be supported because it would give the veterans a chance to settle down with their own land.

The resolution concerning education in West Texas states in part that "whereas, the last session of the State Legislature did appropriate over \$1.1 billion for Texas' public four-year schools and West Texas four-year schools received only \$75 million."

Herefords On Exhibit Here; Tour Tuesday

More than 100 cars carrying an estimated 500 to 600 persons are expected to enter the city about noon Tuesday as Hereford becomes one of the many stops during the annual Hereford cattle tour.

Sponsored by the Panhandle Hereford Breeders Association and the Hereford Breeders Association of Hereford, the two-day tour will begin at 7:30 a.m. Monday with a breakfast on the Ponger Brothers Ranch in Dalhart.

Continuing, the caravan will See HEREFORD, Page 2

Restaurant Is Heavily Damaged By Kitchen Fire

Some \$3,000 damage to the kitchen in the Green Hedge Cafe, 513 E. 1st Street, was caused by a fire about 7:30 p.m. Thursday.

All units of the Hereford Volunteer Fire Department were dispatched to the scene at 7:23 p.m., shortly after the fire had broken out around the stove in the kitchen.

Workers in the cafe, firemen were told, first summoned help from the Phillips and Lawrence Texaco service station next door. Earl Phillips, who is a longtime member of the fire department, has several extinguishers in the business and his partner, Guy Lawrence, grabbed one and ran to help.

Lawrence said the extinguisher would snuff out the flame, but the stove was so hot that the fire would break out again almost immediately.

The fire department arrived before the fire had spread to other parts of the cafe. Damage was contained to the stove and surrounding area, although there was much smoke damage. Mrs. Ollie Forbus is manager of the cafe.

NEW VISTA WORKERS — David Rader and Mary Schinnick arrived during the past week to fill the staff of VISTA workers at the Hereford Labor Camp. The pair immediately jumped into the work and began getting acquainted with the residents of the camp—especially the children.

New VISTA Volunteers Start Work

Two new VISTA (Volunteers In Service To America) workers arrived at the Hereford Labor Camp during the past week to again fill the staff there.

Mary Schinnick, 20, a resident of Vancouver, Wash., most of her life, arrived at the camp Aug. 5 to replace Denise Waltman, who ended her year's service at the camp on July 29.

A graduate of Clark Junior College in Vancouver, Miss Schinnick received her VISTA training in Montpelier, a Spanish-speaking community in Austin.

David Rader, 24, a graduate of the University of Washington, where he also has completed one year of graduate work in Latin American history, arrived at the camp on Thursday.

A native of Seattle, Wash., Rader received his six weeks of training at the University of New Mexico.

A full character sketch on each new volunteer and the VISTA program presented in detail is included in the column "Casa De Amigos" by Martin Winch, in this issue of the Sunday Brand.

Brand Takes 3 Out Of 5 In Press Contest

The Hereford Brand took three of the five first place awards presented during the West Texas Press Association in Big Spring over the weekend.

The top awards included first in "General Excellence," "News Pictures," and "Advertising Composition." Melvin Young, general manager, was on hand to receive the "Better News Awards."

LADIES VISIT MUSEUM — Mrs. Geron at the Deaf Smith County Beverly King of Graham, A "Quota Museum Friday morning as the chamber ladies wandered through the show-buster" in the West Texas Chamber of Commerce, chats with Mrs. Jesse case.

Man Walks In Following Extensive Man Hunt

A 22-year-old Latin American man, the object of an extensive search by law enforcement agencies Wednesday night and Thursday, turned himself over to the Deaf Smith County Sheriff's office about 1 a. m. Friday.

Fred Zavala was arraigned before Deaf Smith County Judge H. C. Williams Friday on a charge of assault with intent to murder. Bond was set at \$5,000 and Zavala was placed in jail in lieu of bond.

Zavala, who recently moved here, was charged with the Wednesday night stabbing of Jesus Mendoza, 26, of the Hereford Labor Camp.

Deputies said they received a call from officials at Deaf Smith County Hospital just before 7 p. m. Wednesday that a man was being treated for a severe stomach wound. Mendoza's sister, provided a

description of the person who allegedly had stabbed her brother and sheriff's deputies began looking for the suspect, whose father worked in the country.

The trail led to a farm house near the Hereford Cattle Feeders Inc., which is located about 25 miles north and east of Hereford. The suspect was spotted there Wednesday night and his tracks found early the next morning, but he eluded officers.

Thursday morning, the search began in earnest. Rumors came into the sheriff's office that the

man was armed and should be considered dangerous. Officers took necessary precautions by heavily arming themselves.

Part of the sheriff's department began the search at daybreak, and were joined just before noon by other deputies and members of Department of Public Safety. At the peak of the search, there were 10 law enforcement officers scouring the rough country.

As the other officials rode the country roads and seldom crossed paths, Sgt. Bill Wells of the DPS, rode in a small plane from the Hereford Municipal Airport. He talked back and forth during the flight with Sheriff Ed Roberson by walkie talkies.

Numerous buildings were searched and people in the area warned to be on the lookout for the suspect. All efforts were See MAN WALKS, Page 2

GLEN TOLES, who finished his training with the Department of Public Safety August 4, has been stationed with the office in Hereford. Toles, who worked on the Lamesa Police Department three years previous to beginning his 4 months training on April 18, has moved here with his wife, Darlene.

School Ends -- In English!

By TOM PORTER
Staff Writer
The most successful pre-school program the Hereford Independent School District has attempted ended Friday as some

96 Latin American students waved goodbye from the buses — some of them having learned to speak English for the first time. The eight-week program be-

gan June 19 with non-English speaking children aged six or before Sept. 1. Attendance this year was consistently high, with the number of students going as high as 104 at one time.

"We thought there were many reasons for this," said Mrs. Lucille Smith, supervisor. "The biggest reason probably has been because the program has been consolidated here at Shirley Elementary School. Then too, the teachers, young girls and VISTA workers have helped tremendously."

Each day of the free eight-week program, buses have run to the Labor Camp and Buena Vista to get the students. Once they have the students, then it is up to the instructors to teach in a manner that is as enjoyable as it is educational.

This is done mainly with the use of audio-visual aids, explained Mrs. Smith. Showing of films, singing, dancing, painting, and dramatizations take up a big part of the three hours the children spent at the school each day.

Explaining the dramatizations, Mrs. Smith said the children would dress up as different members of a family — out of the classroom. They then would

PRE-SCHOOL EDUCATOR AND STUDENTS — A major portion of teaching in the Pre-School program, which ended Friday, was with audio-visual aids. Mrs. Lucille Smith, who was supervisor, is pictured showing one small child a horse and having her repeat

the name of the animal. Also shown is a "family" of the students. The children would say in English "I am Mother" or "I am Father," as they made a "visit" to the classroom. Another picture shows the children as they tell which animal they are.

Kiwanis Honors Ladies, Presidents At Banquet

Past presidents and ladies of the Hereford Kiwanis were honored guests Friday night at the local civic club held its annual Ladies' Night banquet.

Speaker for the affair, which attracted some 300 persons, was Leon Hill of Amarillo, well-known speaker and former Baptist preacher.

Past presidents of the club, from 1950, have been Bob Wear, Littlefield; John Pool; Pat Sullivan, Canyon; H. D. Stanton; Bill Patton; Bartley Dowell; Lloyd Lovell; Lubbock; Hap Cavness; Lloyd Sharp; Don Little, El Paso; Clint Formby; Lowell Sharp; Jess Robinson; Jay Hammond, Amarillo; Charlie Stone; Paul Stevens; Wayne Phillips; Charles Duvall; Gene Campbell; and finally, this year's president, Dean Herring.

Hereford's Kiwanis club has been rated the third fastest growing in the nation, behind a club in Florida and one in Kentucky.

Master of ceremonies for the

Bob Wear, past president of Hereford Kiwanis, is shown in a portrait.

Ladies Night affair was Dale Young. Also on hand was the Kiwanis' lieutenant governor, George Blackwell, and his wife. In a spiced speech filled with laughs, Hill told the Kiwanians and their wives, "I like mottos and I like the motto of your Kiwanis club." In honor of the ladies, he quipped, "You never

know what makes a man tick... if you look close, you may see that his wife is the works." In a changing world, leaders need to draw on the past to solve the problems of the present, Hill told the ex-presidents, asking them to remember this in their continued work in Kiwanis.

go on to the Summerour Ranch Green Ranch, Porter Ranch, and stop at the Rita Banca Lake near Dalhart for lunch. During the afternoon, stops will include the Robert Meeks Ranch, Latham Ranch, G. I. Edlin and Son Ranch of Channing, and to Amarillo for the night's stop. An evening of entertainment has been planned in Amarillo, where tour headquarters will be the Coronado Inn.

The F. G. Collard Ranch, located at the end of Amarillo Boulevard West will be first stop Tuesday morning as the group pauses for coffee and doughnuts. The Dawn Allred Ranch at Wildorado will be visited at 8:40 a. m.; Colby Conkright 7/8 Son Ranch, 1 a. m. and the H. D. Robbins Ranch, 11:0 a. m.

The noon barbecue luncheon at the Deaf Smith County Bull Barn in Hereford will be sponsored by the Hereford Rotary Club. Gene Weise, director of the American Hereford Association, and Paul Swaffar, AHA secretary, will speak during the luncheon.

At the Little Bull Barn, several area breeders not included in the tour themselves will have their cattle displayed in pens so tour members may inspect them following the meal. Cattle will be shown by J. Frank Ford Sr., L. J. Iwig, Larry Kaul, Olen Caviness, Bud Minor, R. A. Daniel, R. Paul Conaway and G. C. "Prech" Merritt Sr.

The tour is free to anyone wishing to participate. Overall chairman for the tour has been Wayne Maddox of Miami, with Conkright and Johnny Summerour of Dalhart assisting.

Leaving the city, the tour will continue at the Sparkman Hereford Ranch, 1:40 p. m.; Gault's Diamond Ranch, 2:40 p. m.; Colard-Bidegain Cattle Co., 3:35 p. m.; Walter Graham's Happy Hereford Ranch, 4:40 p. m. and then to the Warren Hereford Ranch, 4 miles east of Canyon at 6 p. m. The tour is expected to end about 6:45 p. m.

According to Conkright, persons may join or leave the tour at any time. A service truck, furnished by the East Side '66 service station in Hereford, will accompany the caravan, along with a car from the Deaf Smith County Sheriff's Department. The Department of Public Safety also will assist. The American Hereford Association is helping the sponsoring groups.

to no avail and the search was called off about 4 p. m. Thursday.

Those participating in the search said the numerous fields with sorghum and corn offered perfect hiding places for anyone not wanting to be seen, even from the air.

Zavala came to the home of Domingo Pesina, a sheriff's deputy assigned to the Labor Camp, about 1 a. m. and surrendered.

Mendoza was listed in good condition Saturday at Deaf Smith County Hospital.

The attending physician said he had a laceration of the left upper arm, a laceration of the left thigh, a perforating laceration of the left abdomen with multiple lacerations of the small bowel. Specifically, the doctor said, there was a cut about five inches long on the right belly wall.

WTCC Meets ...

million which is less than 6.77 per cent of available funds, and ...

"Now, therefore, the Education Committee and Board of Directors of the West Texas Chamber of Commerce resolves that the coordinating Board for Texas' University and College System and member of the State Legislature, present and future, should be urged to support a "fair-share" disbursement of state monies for West Texas Education."

Also, the resolution says that \$23,571,825 was appropriated for Texas' Public Junior Colleges and those in West Texas received approximately \$4,856,575, and West Texas has over one-half (54%) of the total land area of Texas and has not less than 30 per cent of the state's total population.

K. B. Watson of Amarillo, a director and vice president of Water, Inc., outlined the program which has been set up to bring water to the High Plains from as far away as Mississippi, and received approval of the directors when he called for a resolution to support the organization.

Also heard during the meeting at the Community Center were reports from the WTCC president Don Wooten, of Abilene, chairman of the agriculture and ranching committee, finance and membership reports, public information and the state affairs.

The convention began Thursday morning with registration at the Red Carpet Inn. By 3:30 that afternoon, over 90 directors from throughout the state had registered, with the remainder coming in for the board of directors meeting Friday morning.

Business began with a meeting of the Agriculture and Ranching Committee, Thursday afternoon, followed by the State Affairs Committee, the Water Committee and the Executive Committee.

A reception was held at the Hereford Country Club Thursday afternoon, followed by a dinner hosted by the local chambers.

mons are ranked second in the state.

An in depth report on the players, coaches and the coming season will begin in the Thursday issue of the Hereford Brand.

REGISTRATION TIME — Two directors of the West Texas Chamber of Commerce were pictured Friday as they went through registration procedures.

Attending the two-day business meeting were D. E. Allison, right, of Stephenville, and Darrel E. Allison of Dublin. Registration was held at the Red Carpet Inn.

ber. Guests were met at the door by the "Hereford Hustlers," and were welcomed by Clint Formby, who introduced dignitaries.

At the dinner, Wooten was presented a "Hereford Bull" award for his outstanding work with the chamber during the year.

A "Quota Busters Club Breakfast" began activities on Friday and the board of directors meeting started at 9 a. m.

At intervals in the directors meeting, drawings were held for various gifts which had been donated by Hereford merchants. They included potatoes, onions, flour and other items.

The Program of Work during 1967-68 for each committee under the chamber also was outlined briefly by the committee chairmen.

Also on Friday morning, the Deaf Smith County Museum was opened for wives of directors, with coffee and doughnuts being served.

It was announced during the close of the meeting that the next meeting of the WTCC board of directors will be in Fort Worth Nov. 30 through Dec. 1.

St. Anthony's Play Amarillo In District Game

St. Anthony's baseball team will attempt to stay in the district tournament at 2:30 p. m. today when they host the Graham Hayme Plows of Amarillo in an Irrigation League game.

The Amarillo team defeated the local squad last Sunday in the first game of the tournament. St. Anthony's must win today or be eliminated from competition. Should they win today, the final game will be played next Sunday.

Winner of the Amarillo-Hereford battle will face the winner of games between Umbarger and Nazareth. The team winning the district will go on to area play in Lubbock.

St. Anthony's games are played on the field just west of the church. There is no admission charge.

The world's first crude lamp probably appeared about 30,000 years ago. This was a shallow, soapstone lamp with animal-fat fuel, used by Cro-Magnon man for lighting his caves.

FOR MUSCULAR DYSTROPHY VICTIMS — Lance Martin, top, tried his luck and skill in tossing bottle caps last week as he spent his money at a carnival — backyard variety — at the Johnny Patterson home at 200 Beach. In bottom photo, Lisa Patterson mans the table where neighborhood youngsters are guessing the number of beans in the jar. Several children in the Beach St. neighborhood work together in this project to raise money for the Muscular Dystrophy Associations of America research and patient service programs; more than 12,600 such "backyard carnivals" last year raised \$213,600 for the cause.

Nominations Open For ASC Spots

Slates of nominees for membership on ASC community committees now are being established at the ASCS County Office. The present ASC Committee is making a special effort to encourage the greatest possible participation of eligible voters in the election. Any local resident who is eligible to take part in an ASCS farm program may vote and may hold office as a committeeman; regardless of race, color, creed or national origin.

Frank J. Bezner, chairman, Deaf Smith County Agricultural Stabilization and Conservation committee, said today that farmers who are eligible to vote in the committee elections also have the right to nominate as candidates for committee membership any farmer who is eligible and willing to serve. Such petitions, each one nominating one farmer and signed by six or more eligible voters, may be filed at the County Office any time before Aug. 26. Eligible voters may sign as many petitions as they wish.

Additional nominations may be made by the incumbent ASC community and county committees.

A "farmer eligible to vote in the committee elections," according to the Chairman, is generally a farmer who is eligible to take part in one or more of the national farm programs which the ASC committee helps to administer. A person eligible to hold office as a committeeman is a local resident who is eligible to vote in the election and who meets other qualifications. Further information on these and other qualifications may be obtained from the ASCS County Office. In general, these rule out employees of the Department of Agriculture, holders of elective office, and persons who have been dishonorably discharged from a military service or removed from office for cause.

The election of ASC community committees throughout Deaf Smith County will be held by mail as in previous years.

Ballots with the names of nominees of Community Committees for each community will be mailed by this office on Sept. 10. The final date for the return of these ballots will be Sept. 20.

The wives of eligible producers will be mailed a separate ballot which must be returned in a separate envelope to qualify for count. The certification on this envelope must be signed

by the wives, using their given name, in order to qualify.

The certification on the back of the indicia envelope must be signed and dated to be counted. If signed by a mark, the signature of a witness is required. The witness shall also enter the date and name of the voter making the mark.

Boundaries of the communities are the same as in previous years.

Each community election will choose three community committeemen and two alternates. The chairman, vice-chairman and third regular member of the elected ASC community committee will also serve as delegates — and the alternate committeemen will serve as alternate delegates — to the county convention to be held soon thereafter. The ASC county committee will be chosen at the convention which will be open to the public and will be announced at a later date.

Rites Held For Mrs. Gunnels, Aged 90 Years

Funeral services for Mrs. Anna Gunnels, 90, who had lived the past 11 years in Hereford, were held Saturday afternoon in Tulia Church of Christ. She died Friday at Nichols Manor in Tulia, where she had resided a month.

Burial was in Rose Hill Cemetery at Tulia, directed by Wallace Funeral Home. Her great-grandsons were pallbearers. Born Aug. 23, 1876 at Mount Calm, Mrs. Gunnels had lived here in the home of her daughter, Mrs. Jim Hart, 134 Ave. I. She married Joe Gunnels at Rising Star in 1895 and he died in 1939.

In addition to the daughter, Mrs. Gunnels is survived by three grandsons, Cecil Hart of Hereford, J. T. Gunnels of Tulia and Wayne Gunnels of Amarillo; seven great-grandchildren and three great-great-grandchildren; and a brother, Henry Dandney of Rochester, Tex.

Custodian Released Following Treatment

J. C. Simpson, custodian in charge of the Deaf Smith County Bull Barn, was released from the hospital Thursday after receiving treatment for a broken ankle.

Simpson was hanging curtains at the Bill Barn Monday when he fell and broke an ankle.

Answers Given Concerning New Draft Law

EDITOR'S NOTE: Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 702 Colorado St., Austin, Texas 78701. He will welcome your questions.

Q—For the purpose of college student deferments, is a junior college considered an institution of higher learning?

A—Yes, if its credits are acceptable toward granting of a baccalaureate degree by a college, university, or similar institution.

Q—How long can a person be deferred as an undergraduate college student?

A—He can be deferred in Class II-S until he completes the requirements for his baccalaureate degree (if completed within the normal and specified time), until he fails to pursue satisfactorily a full-time course of instruction, or until he reaches age 24, whichever occurs first.

Q—Will men who become fathers after the new Selective Service law became effective (June 30, 1967) be deferred in Class III-A?

A—Every case will have to be considered on an individual basis.

Q—Does the new law make any change on fathers?

A—Yes. Any man classified in Class II-S (college student) after June 30, 1967, can not, under the law, be classified in Class III-A as a father.

Q—Can the college student who received a Class III-A deferment after June 30, 1967, receive a Class III-A deferment for dependency in any manner?

A—Only on the basis of hardship to dependents, and the burden will be on him to prove hardship in the individual case.

Williams Chosen For Training

AMARILLO — Airman David E. Williams, whose mother is Mrs. Mildred M. Erwin of Vega, has been selected for technical training at Chanute AFB, Ill. as a U. S. Air Force fire protection specialist.

The airman recently completed basic training at Amarillo AFB. His new school is part of the Air Training Command which conducts hundreds of specialized courses to provide the technically trained personnel for the nation's aerospace force.

Airman Williams is a 1967 graduate of Vega High School.

Letter To The Editor

(Editor's note: The following letter concerning a notice of call to Army Reserve duty of two Hereford doctors, Howard R. Johnson and Noble Ballard, has been sent to Sen. John G. Tower.)

August 11, 1967
118 Oregon Street
Hereford, Texas

Senator John G. Tower - United States Senate

In view of being your special representative of this area, I have been asked by our taxpayers of this district, to get a petition going to request that both Doctors Noble Ballard, serial number 05420717, and Howard Johnson, 05420716 not be transferred from this Community of Hereford, Texas.

These two Doctors are General Practitioners who are loved and

respected by our people for their good service to the community. At present, we only have four general practitioners here in Hereford and these two Doctors take care of patients from Friona, Dimmitt, Boys' Ranch, Adrian, Vega, Bovina, Canyon, and other surrounding areas.

These two Doctors are in the Reserves and they received their notice from Col. Babcock from the Army Reserves Headquarters in St. Louis. The time they are suppose to report is said to be between October and January.

As a request of the people, a copy of this letter was sent to our local newspaper to be printed. They like I, think that you would be the only one that could help us. Your answer will likewise be printed in the newspaper as a request of the people.

Thanking you,
Sincerely,
Joe Soliz

Texas Call Is For 1,180 Men

AUSTIN — State draft boards will be called upon to furnish 1,180 men for the armed forces in September, Colonel Morris S. Schwartz, state Selective Service director, said Tuesday.

This compares with quotas of 1,421 for August, 974 for July, 975 for June, 885 for May, and 675 for April.

The Selective Service boards will forward approximately 4,000 men in September for pre-induction examination, Colonel Schwartz said, and they have scheduled 6,220 for this examination in August.

Local board quotas for induction and pre-induction examination in September already have been figured and sent to the state's 155 draft boards.

The Texas quota of 1,180 for September is the state's share of a national call of 25,000 for the army.

MISSOURI FAMILY VISITS

Mr. and Mrs. D. D. Williams and two children of St. Louis, Mo., were visitors in the home of Dr. and Mrs. John C. Chaner of 607 S. 25 Mile Avenue during the past week.

Mrs. Williams is the former Sue Chataer.

PIANO INSTRUCTION

Pre-school through advanced.

Trained in the latest piano teaching methods, at the University of Texas.

Teaching and judging experience.

Mrs. Tom Burdett

Come in and choose a complete wardrobe of CIRANNO'S to take back to school.

GLENN'S FOOTWEAR
Fashion At Your Feet

By MELVIN YOUNG.

Probably no industry has changed as much in the past 30 years as has the farming industry, and chances are, the revolution in farming methods has come about without much notice from most of the folks who live in town. Farmers, too, seem to have taken the changes in stride without much ado. We're wondering now, what the next 30 years will bring about. Will farming become a "Customized" operation? Certainly, the quarter-section farm that used to be so numerous in our area, has all but disappeared from the scene. And taking its place is

the mammoth farming operation of two, three and even four sections. Big — and supposedly efficient.

Machinery costs have spiraled too over the past two decades, and it now takes more and more land, bigger and bigger operations to justify the cost of tractors, combines, implements, etc. And even then, does it really make sense to pay \$10,000 dollars for a tractor and let it sit in the barn most of the year? Or, how about that combine? Can today's farmer afford to buy a new machine to be used only twice a year? Of course, the trend has al-

ready been set as far as harvesting operations go. It's already customized to a great extent. We would not hazard a guess as to the number of farmers that still own their own machines, but we would say that a large portion of the acres in Deaf Smith County are harvested by custom combine operators rather than the man who farms the land. Fertilizing has become a custom operation also, as has the spraying service on the average farm. Most farmers today call their local flying service, or ground sprayers to take care of their herbicide and insecticide application problems. And certainly, this makes good sense. The farmer cannot possibly know all the answers to every problem that comes his way — particularly in the ever expanding field of herbicides and insecticides — and the man who is in this business should make it a point to study the situation and know what's best in any given situation.

So customized farming to some degree is with us now. Do you suppose that within the next twenty years, a large

farm operator will be able to sit in his air-conditioned pick-up, talk into his mobilephone, order a custom operator, to come out and disc, level and list his ground preparatory to planting; then call another operator who specializes in planting milo or cotton, or sugar beets? It's entirely possible. And it may be with us faster than we think.

—HB—

The folks around the courthouse have been giving B.F. Cain a bad time lately. All over an automobile that B.F. reported stolen from the courthouse parking lot.

Actually, a serviceman from Hereford Radiator had picked up the car to make some minor repairs, but had gotten the wrong automobile.

B. F. had left the order earlier in the week for the men to pick up his car when they had time. But the kicker in the deal was the fact that on this particular day, B.F. had driven his son's automobile to work rather than the one he wanted worked on. The serviceman didn't know the difference, and finding a car

that he knew belonged to the Cain family parked on the parking lot, with keys in the specified place, he drove it off. The police wires were hot for awhile, but finally someone spotted the mechanic delivering the car back to the courthouse — repaired, whether it need it or not.

B. F. was so relieved to get his auto back that he didn't have much to say. And he still looks a little sheepish when they ask him about the "all-points bulletin" put out over the sheriff's department wires concerning his stolen auto.

—HB—

A grouchy old fellow who owned a ranch in the cattle county was thrown from his horse and hurried to the hospital. A few days later one friend of his asked another: "Did old Hank finally get all right?" "No, he ain't all right, but he's back like he used to be."

Some 10,000 species of butterflies flutter throughout the United States.

Calendar Of Events

MONDAY
Masonic Lodge, stated meeting at temple, 7:30 p.m.
Paisano Lions Club at Hotel Jim Hill, 7:35 p.m.

Mothers' Needle Club supper for husbands and other guests, Blue Flame Room, 7:30 p.m.

Lamb and antelope not dogs are popular in Africa. The Finns prefer wienies made of reindeer meat. Japanese vendors sell whale - meat franks.

The "international oval" is a medallion which identifies an automobile's country of registration when it is being driven in another country.

Letter To The Editor

Dear editor:
Thanks for elegant "wandering by" picture of the most beautiful land mark of my life — it reflects so many happy band concerts, land-scaping, library, courtship on steps and lawn — memories as I grew up in Hereford where folks always gathered for long table shareholders and watermelon feasts on the court house lawn.

So grateful for your personal interest business and individual life pictures, and thrilled to see those stone blocks moving upward at 130 W. 4th Street — congratulations!

Edna Lee Collier

MANHUNT SCENES — The area surrounding Hereford Cattle Feeders Inc., about 25 miles north and east of Hereford, was the focal point of a search Wednesday night and most of Thursday for a 22-year-old Latin American man who allegedly stabbed another person in the Labor Camp. Scenes show Deputy Sheriff Emmett Duke talking with two

women who were fishing on the Frio Draw in the area. Sgt. Bill Wells boarding the plane for an aerial search of the terrain and the law enforcement officers pausing briefly for a sandwich and coffee. Some of the officers had been of duty and were called in to assist. See story on Page 1.

John Tower Speaks Out

Taxpayers Being Asked To 'Bail Out' Johnson

As you know, Congress has been asked by the Administration to add an extra 10 percent to everybody's federal income taxes.

It is no secret around Washington that Congress looks on this tax-increase request with a considerable lack of enthusiasm. I, for one, think it would be a grave mistake to increase taxes, and I will oppose the bill if it ever gets before the Senate.

The Administration's call for a 10 percent tax increase is a confession of past fiscal failure and a promise of failure to come. It admits the Administration's spending policies have undermined the economy, but it reveals that the Administration's blind solution is simply more and more spending. The facts are that this Administration's irresponsible spending policies already have subjected the American people to a massive dose of the most cruel of all taxations—inflation. This year we are faced with a federal deficit of 30-Billion dollars. Even if there were a tax increase the deficit still would be in the 20's of Billions.

Such an enormous deficit, coupled with continued government spending and with pressure on interest rates leaves us only the prospect of more and more inflation. If the Administration is now given even more tax dollars, it will simply spend them and compound inflation.

For months many of us in Congress have been warning this Administration that its deficit spending policies were leading us toward a \$30-Billion-dollar annual deficit and urging a cut in domestic spending. Now, the Administration asks individual taxpayers to bail out of its fiscal irresponsibility.

An income tax increase, on top of federally-spurred inflation, on top of a coming Social Security tax increase could only further and drastically increase the cost of living of every single American.

Just last month that cost of living was forced up to an all-time high, and it now costs Americans \$11.60 to buy what

what they could get for \$10 about six years ago. Repressive taxation on top of such inflation could kick off a serious recession saddling the United States with that most dreaded of economic woes—combined recession and inflation.

It has been estimated that if such a tax increase goes into effect on top of other increases, a worker getting \$7,500 a year would have to get an immediate pay raise of \$385 just to break even with his current annual purchasing power.

Neither is it any justification to claim that this increase is some sort of "war tax" for future Vietnam needs. The big jump in federal spending has been in domestic, not defense funding, and the needs of Vietnam have been well known months before now.

Since 1960 when the New

Frontier-Great Society began its inflationary spending spree, defense spending has increased 68 percent—chiefly because war in Vietnam broke out during the period—but nondefense federal spending has increased 97 percent.

Looking at it another way, since 1960 our population has grown 10 percent, but federal government spending has jumped 83 percent.

Today, this Administration is asking taxpayers to save it from its bankrupt policies. And, if it gets away with that, it never will bring its finances under control but will continue to spend and spend and spend.

This Federal inflationary spending has not achieved its loudly-proclaimed goals — reduced poverty, domestic law and order and more jobs. In fact, through high costs of liv-

ing, this spending has contributed further to the hardship of many Americans living on fixed incomes.

By refusing to face the fact that it's on the wrong track, the Administration is simply stockpiling a time-bomb of problems just as it has stockpiled deficits each year since 1961 to a total of 60-Billion-dollars. In those seven years the Administration has had to raise the Federal debt limit 14 times until interest on the debt now eats up a dime of every tax dollar.

And these deficits do matter. To go into debt means to borrow. When the government borrows it adds to the money supply, inflating it and causing pressure for increased prices. When it borrows, the government competes with business for investment funds, driving up interest rates and soaking up private capital that might otherwise be creating new jobs.

I, therefore, will oppose this tax increase because it is time to draw the line. It is time for the Federal government to understand that its citizens expect the value of their dollar to be protected and their living cost stabilized.

Knit'n House Has Clientele From Assorted Backgrounds

By SUE COLEMAN
Women's Editor

Knitting is a craft practiced by men who want to relax from business tensions, women who have spare time to kill, the aged or the handicapped who can handle needles and yarn more easily than the tools of any other work, young teenagers and aged war veterans, as well as persons who simply wish to produce smart clothing or gay afghans.

Experience with all the types of knitters is an everyday business with Mrs. Palmer Norton and Mrs. Kenny Gearn, who operate the Knit'n House and are preparing to open it for its fourth season after the customary summer recess.

Both enthusiastic knitters, they were inspired to start the shop by their own wish to find high quality yarns without going to larger cities. They try to keep a good assortment of colors and weights in imported and domestic wools, also new orlon and nylon yarns, to meet customers' demands.

Pattern books are stocked, and there are materials for other yarn crafts such as needlepoint and crewel embroidery although the emphasis is on knitting.

Classes open to beginners as well as knitters who want to learn the finer points of the craft, are conducted each year. Morning and evening classes will start in September. Students will learn by making basic sweaters.

"A mistaken idea of many beginners is that it would be easier to start with a sock or other small item," says Mrs. Norton, "but something bigger is actually easier to work on."

Age range of the students is "from 6 to 60," the women say, adding that younger persons usually learn more quickly. Last year Mrs. Gearn assisted high school home ec students who chose knitting for home projects, also a group of Camp Fire girls. One 14-year-old girl completed a sweater and won an award with it.

A boy of junior high age with problems of speech and muscle coordination found knitting a useful therapy; a woman with

—Hereford Brand Photo

PARTNERS DIVIDE DUTIES — Mrs. Palmer Norton, left, and Mrs. Kenny Gearn, owners of the Knit'n House, make no formal division of the work and each takes care of whatever task

is at hand, but they say this picture is accurate in indicating that Mrs. Gearn does more of the book work and Mrs. Norton knits more of their display items.

only one finger and thumb on her right hand gained a sense of achievement when she learned to knit.

Such pupils are the pride of the shop owners, who also admit, "We like to cheat the idiot box; we have customers who say they grow bored to distraction with constant television watching, and want something to make them feel they are accomplishing something."

Knitting a handsome garment like those on display at the shop does just that. The partners say that is the reason they urge the use of top quality yarns.

"If you spend your time making a garment it is worth the best materials," they agree.

They give extra services to knitters, in addition to lessons. One or another of the partners has frequently come back after hours, on holidays or while the shop is closed in summer, to get material needed by a customer.

"Even if someone runs out of yarn at 10 p.m. when she is night, either of us will come down and open the shop," they say. And they often take yarn to the home of an ill or shut-in knitter.

Both women give their own families priority over the business; that's why they say the shop "keeps school hours."

Mrs. Norton, who has lived in Hereford since 1945, has a teenage daughter and son, Nelda and David. She is a member of the Presbyterian Church and formerly was active in Home Demonstration Clubs of the county, winning the first H. D. Club Woman of the Year award.

"My husband teases me about

quitting while I was champion," she laughs. "That was the last year of my club activity, because home and children were taking more of my time."

Born and raised at Tulia, she attended business school and was an office-employee several years in Lubbock, Washington, D.C. and New Orleans.

For pastime she likes to — of course — knit, but says she has lost her taste for other handwork which she did in profusion when she was a girl.

"The other day I was using a towel!" she exclaims, embroidered, and wondered what on earth anyone would spend all that work on a dish-towel!" she exclaims.

Now her daughter is learning

The Sunday Brand, Hereford, Texas, Sun., Aug. 13, 1967

to sew but Mrs. Norton expects to stick to her knitting.

Mrs. Gearn, mother of four sons and boastful grandmother of one girl, four-month-old Stephanie, came here 19 years ago from California. In addition to Geary, the oldest son who is married, there are Tim, Kenny Jr. and Gordon.

As hobbies she claims a variety of household skills, canning, refinishing furniture, cooking for her family and sewing.

She is a native Oklahoman, born in Shattuck. Her home for a good many years was Enid,

where she attended school. She is also a Presbyterian, and taught in the junior department of the Sunday School while her boys were in that age group.

CLOSED SUNDAYS

CHECKING ON YARN — From the varied stock of knitting yarns at the Knit 'n House, Mrs. Palmer Norton and Mrs. Kenny Gearn, owners, examine a new item. Boxes and bins of colorful yarn line the walls of a room at the shop, which has a homelike atmosphere because it was a home, that of Norton's grandmother, for many years.

—Hereford Brand Photo

—Hereford Brand Photo

HOBBYIST HEAVEN — A wealth of material for hobby knitters is on display at the Knit 'n House, and instruction is offered also in classes to begin next month. Mrs. Kenny Gearn, one of the owners, is pictured with a part of the yarn stock and a knitted shift and sweater, two of the many finished garments shown.

Mishap Causes \$250 Damages

An estimated \$250 total damages resulted in a car-pickup wreck about 3 miles southwest of Hereford on U.S. 60 Thursday just after noon.

Officers said a GMC pickup driven by Makim Lacombe of Hereford received about \$100 damage when it struck a Chevrolet driven by Pete Caviness of Hereford.

The car apparently had slowed to turn, and when the pickup slowed a brake cylinder ruptured, leaving the driver with no brakes, said officers. There were a row of trucks on one side of the highway and traffic on the other, so the driver could do nothing but strike the car, which sustained about \$150 damage.

Red Cross Marks Anniversary At Guest Luncheon

Observing the 50th anniversary of Deaf Smith County Red Cross Chapter, a luncheon with county Red Cross board members invited as special guests will be held by the Red Cross Volunteers Thursday.

The luncheon is scheduled at 12 noon in Ward's Hickory Log Restaurant.

Deaf Smith County Chapter received its charter from the American Red Cross Aug. 2, 1917, at the completion of organization which had begun in

DURING CHAMBER MEETING — Mrs. Ralph Duncan, foreground, and Mrs. Jack G. Springer, wives of WTCC directors, are shown points of interest in the Deaf Smith County Museum by Mrs. Bill Thompson, background, wife of the local chamber manager. Mrs. Duncan and Mrs. Springer are both from Abilene.

the spring. Formation of the chapter grew out of local activity related to U.S. entrance into World War I.

J. R. (Monk) Johnson is chapter chairman at present, and chairman of the Volunteers.

TAX MAN SAM SEZ:

Most of us pay our taxes through withholding, but if you are in business for yourself you have to file an estimated tax by April 15 of each year and pay your tax quarterly. If you are one of those fortunate taxpayers who had "windfall" income this year, the good tax folks remind you that you will need to file an estimated tax on the "windfall" income.

If you have already filed and have made more than you anticipated, you need to amend your estimated tax return for the year by Sept. 17.

THE INK SPOT

IN FASHION PARADE — Hereford cheerleaders caught candidly while they get ready for a style show in Sugarland Mall, show off new wardrobe items for this fall. From the left, they are Margaret Phipps, Sue Easley, Debbie Ogan, Margaret Adams and Suzanne Hart.

GASTON'S

Fashions Shown At Sugarland

Fall fashions galore — with emphasis on "fun things" — will catch the eye of shoppers at Sugarland Mall Thursday evening when "Campus Close-up — Fall '67" is presented at Gaston's Popular Store at Sugarland.

Proceeds from the gigantic

show, which is Mademoiselle magazine's preview of back-to-school, will go to the high school activity fund to help pay cheerleaders' expenses. The six girls will be among the 75 to 80 models showing new attire. Cheerleaders are: Kändis Hill, Sue Easley, Margaret Phipps,

Debbie Ogan, Suzanne Hart and Margret Adams.

The tickets sell for \$1 for adults, 50 cents for students, and can be purchased at the store or in the mall itself in the afternoons. Hopes are that some 200-300 will be able to attend the fashion show.

Junior and misses sizes will be modeled, as well as children's wear.

In Thailand it is considered that every plot of ground has a spirit. When one builds a house, one must give the spirit a house to live in, out of doors, in the east corner. Driving the spirit away would bring misfortune.

WTSU Names Lynn Laird Head Trainer

CANYON — Lynn Laird, who has held training posts at Texas A & M College and the United States Air Force Academy, has accepted a position as head trainer at West Texas State University.

The appointment becomes effective Sept. 1.

Laird replaces Harry Tyson Jr., who resigned to accept a faculty position at Bowling Green University. Tyson has served as Buff trainer for five years.

The 29-year-old Laird, a native Texan, served as assistant trainer at the Air Force Academy for the past two and a half years. Prior to this he served as head trainer at Texas A & T for a year.

Laird received his BS degree in physical education from Texas A & M in 1959. He then did post graduate work at Grady Vaughn School of Physical Therapy (at the Baylor Medical Center in Dallas) where he received his certificate in physical therapy in 1960.

Laird and his wife Judy have one daughter, Lora Lee, 5. The Lairds plan to make their home in Canyon.

WELCOME

to this

blue flame home

PRESENTED BY...

SAM SMITH, BUILDER 322 CENTRE

Truly American in design, this spacious home presents an exterior charm that only a gabled roof and used-brick walls can give. And your appreciation is heightened as you step from the entry hall in to the large, birch-paneled den with its cosy wood-burning fireplace of distinctive Colorado stone. There's added charm, too, in the formal dining room with its glistening cut-glass chandelier. And the homemaker is sure to find delight in the completely Gas-equipped kitchen with its birch-paneled walls and ample cabinetry. Conveniently located near the three bedrooms are two baths finished in the purest white. Carpeted throughout, this showplace also has a utility room, a double garage, a patio with a gas-fired grill for relaxed outdoor living. Gas air conditioning for year 'round comfort, this outstanding Blue Flame Home has everything you might desire for modern living at its best. Be sure you see it today.

"BLUE FLAME HOME" MEANS IT'S AN ALL-GAS HOME WITH YEAR 'ROUND GAS AIR CONDITIONING

It means that the fortunate family who lives here will enjoy the many benefits of Gas, including trouble-free service.

And, it means they will save \$10,000 in utility costs over a 25-year mortgage period. This home features these Gas Appliances.

School Ends

Continued From Page One

"take a trip" back to the classroom and have a visit.
 Each member of the family would introduce himself by saying "I am Mother," or "I am Father." The children enjoyed the dramatization tremendously and could remember the English words better than if they were shown them in a book.

Another popular dramatization was the animal game in which the teacher would hold up an animal mask and the student would tell her what animal it was. The child then would put on the mask and say to the other students, "I am a horse."

Also throughout the lesson, the students would repeat small phrases which will appear quite frequently in the English language. They included "please, thank you, may I, goodbye, hello, and my name is —"

"For the most part, they enter the schools and know no English," said Mrs. Smith. "Usually, the only English they get is in school and it's hard for the teacher and hard for the kids."

"We try to make the teaching where they like it and enjoy it, but still learn," she continued. Also included in the daily visit to the school is a short recess and a mid-morning snack of milk and cookies.

Teachers for this year's program were Mrs. Dick Tubb, a first grade instructor at Bluebonnet Elementary School; Mrs. Gene Newton, a first grade teacher at Central School; and Mrs. C. V. Darden, second grade instructor at Aikman Elementary School.

The women were assisted by three Neighborhood Youth Corps workers, two of which have been hired by the school system and the third by the City of Hereford. Under the program, girls work and attend classes to complete their education.

Mrs. Smith also had much praise for the NYC program, because it offered the girls a chance to complete their schooling and go on to higher paying jobs and college, if they desire.

"This program has given at least two of the girls the desire to go on to college or at least utilize what they have learned," said Mrs. Smith.

During the program, the workers have learned to use the mimeograph machine, laminating machine, opaque projector, film slide projector, and several other machines which are available.

The girls, as part of their working in the program, taught the children songs and educational games! The NYC workers are Bonita Salazar, Lucinda De La Cruz and Angie Martinez.

Della Stagner, program coordinator, recently told the school board that this year's pre-school program has been the "best we've ever had." Mrs. Smith echoed the statement and said "it's definitely been a success."

She emphasized her point by stating that "several of these children couldn't speak English when they first came in eight weeks ago." As the small children filed out of the room, she would have each one say "Goodbye, Mrs. Smith," and give them a hug.

Some of the children could remember the names of their other teachers and would say, "Goodbye, Mrs. Newton," or "Goodbye, Mrs. Tubb," but all could speak the English.

Mrs. Smith was especially proud of one small boy, who she said had moved from Mexico just in time to start the program. "He couldn't speak a word of English when he started," she emphasized.

PART OF LEARNING — Students in the Pre-School program conducted by the school system, are shown learning some of the finer arts as part of their training. During the dance, the boys bow and the girls curtsy and they say "thank you" and "may I"

mind. What was most important, however, he was speaking English.

Josh Lee, Former Speaker Here, Is Buried
 Funeral services for Josh Lee, 75, of Norman, Okla., one of the top public speakers in the United States and well-known in the Hereford area, will be at 2:30 p.m. today in the First Baptist Church in Norman. Burial will be in Norman.

Mr. Lee, who was speaker for a Chamber of Commerce banquet in Hereford about six years ago, died Thursday in Norman. An ordained Baptist minister, Mr. Lee also had been head of the Public Speaking Department at the University of Oklahoma, a U.S. Senator and an Oklahoma congressman before his retirement.

Survivors include his wife, Louise, and one son.

Theresa Rudd Attends CAP Encampment

AMARILLO AIR FORCE BASE — A Civil Air Patrol member of the Hereford Composite Squadron, Cadet Theresa C. Rudd, recently completed a week-long summer encampment at Amarillo Air Force Base.

The encampment was designed to educate those "space minded" teenagers in some of the subjects most important to CAP. Included in the week's activities were visits to the base's technical training schools for airframe repair, jet engine maintenance and administration.

Such visits also serve to acquaint the cadets with a working knowledge of the operation of an Air Force base. The encampment was highlighted by an exhibit of model aerospace equipment from the National Aeronautics and Space Administration and concluded with graduation ceremonies Friday, Aug. 4.

The crust of the earth is about 5 per cent iron, with the only elements in greater proportion being oxygen, aluminum and silicon.

Reeves-Haney Marriage Is Conducted In Dallas

Miss Judith Kaye Reeves of Dallas became the bride of James Lee Haney, Hereford, in an evening ceremony Saturday at Lovers Lane Methodist Church, Dallas. Dr. Fred Edgar of Oak Lawn Methodist Church read the marriage service.

Parents of the couple are Mr. and Mrs. H. W. Reeves of Dallas and Mr. and Mrs. Johnnie Haney, 200 East Grand. Her father gave the bride in marriage.

Her attendants were Miss Lana Thomas of San Francisco, maid of honor; Miss Gwyn Saylor of Goldthwaite, the

bride's niece, junior bridesmaid; Misses Marcelle Woods and Connie Smith of Houston and Mrs. Dean King of Lubbock, bridesmaids.

Larry Powell of Hereford served as Haney's best man, with Dick Rogers of Hereford, Lou Brewer of Richardson and Bill Adams of Hobbs, N.M., as groomsmen. Ushers were Edwin Duncan of Roscoe and Dan Garner of Dallas.

Altar candles were lighted before the ceremony by Ronny and Steven Saylor of Goldthwaite, nephews of the bride. Veiling a silhouette of silk

peau de soie, the bride's gown was of candlelight Alencon lace with yoked bodice, high bateau neckline and brief sleeves complemented by ivory kid gloves.

Scallops of the lace edged the yoke and sleeves, applied lace medallions were scattered over the English net cage skirt to the hemline, which was finished with scallops and rounded into a court train.

Her veil of ivory silk illusion floated beyond the train from a Dior bow of peau de soie above her forehead.

Attendants' gowns were all alike, of jade green linen with matching coils. The empire bodice with wide waistline band of Guipure lace was fashioned with squared neckline and elbow sleeves, also banded with the lace. Slim A-line skirts, floor length, had gathered back fullness.

Mr. and Mrs. Haney will live in Lubbock after the wedding trip. He will be a senior in Texas Technological College next term and is a letterman on the varsity football team. His high school studies were completed in Hereford.

Mrs. Haney is a graduate of Thomas Jefferson High School at Dallas and has attended Texas Tech three years.

Miss Jack Weds James Perkins

Wedding vows were spoken at mid-afternoon Saturday by Miss Anita Dianne Jack, daughter of Mr. and Mrs. Bertram Jack, Route 2, Friona, and James Earl Perkins, son of Mr. and Mrs. Richard Perkins of Friona.

The maid of honor's dress was in similar style to that of the bride, with sleeveless bodice of emerald velvet over a white satin skirt and a sash of Peking blue satin. Her headpiece of green illusion was caught to a small bunch of rosebuds in the same color. She carried a single white mum.

A medley of wedding songs was presented before the ceremony by Mrs. Lon Miller of Lubbock, organist, who also played the marches. The closing song was Our Wedding Prayer (Kate Pitts Noble).

Green and Peking blue colors were repeated in decoration of the reception table, where Mrs. Wayne McLaughlin served the triple-tiered cake and Mrs. Jerry Cogburn ladled punch. Miss Veri Miller of Floydada, the bride's aunt, made the wedding cake.

After a honeymoon trip the couple will be at home Sept. 1 at 3002 Fourth Street, Apt. 188, Lubbock. For travel Mrs. Perkins wore an aqua knit suit. Accessories were white and her gardenia corsage was taken from her bouquet.

She was a 1965 graduate of Hereford High School and will be a junior at Texas Tech, majoring in home economics education. Perkins will teach in Lubbock public schools next term, after receiving a BS degree in math from Tech with the class of 1967. He is a Friona High School graduate.

OES Schedules Work Session

A work session Tuesday was planned at the recent Order of Eastern Star meeting in the Masonic Hall. Members are to bring clean worn sheets, scissors, needles, thread and tape measures to make dressings for use on cancer patients.

Mrs. Marple Cline, past worthy matron, gave the final report of her administration, stating that 10 persons were initiated and 17 affiliated with the chapter in that period.

Mrs. O. H. Culpepper gave the program on Rob Morris, founder of the order. Mrs. R. B. Hutson, worthy matron, presided.

Hosts, Mrs. C. A. Saulcy, Mr. and Mrs. A. L. Manjeot and Mrs. Vivian Majors, served refreshments to 33 members and visitors, Dr. and Mrs. Wesley Drury of Carlsbad, N.M., and Mrs. Bobbie McCall, member of the Dumas chapter.

First Presbyterian Church at Friona was decorated with altar baskets of white gladioli and mums with a pair of seven-branched wedding candelabra, for the ceremony conducted by Garland Lipe of Clovis, N.M.

Miss Marla Jack, sister of the bride, was her only attendant and Wayne McLaughlin was Perkins' best man. Serving as ushers were Don Stubbs of Littlefield, David Current of Plano, Bobby Perkins and Galen Jack of Friona, brothers of the wedding principals.

Miss Jack, who was given in marriage by her father, wore a dress she designed and made of snowdrift bridal satin. Box pleats lent fullness at side front and back of the slim-lined skirt. The bodice was overlaid with Chantilly lace.

Long lace sleeves were pointed at the wrists and lace motifs were applied on the skirt front and on the chapel train which extended from the shoulders.

Her bouquet of Frenched mums and gardenias was in cascade style. She wore a pearl drop necklace, gift of the bridegroom. Her veil, a short-puff of illusion, was held by a cluster of white satin rosebuds.

Miss Struben, Houston, Is Charles Mims' Bride

The marriage of Miss Amanda Felicitia Struben and Charles Arthur Mims was conducted Saturday evening in Second Presbyterian Church at Houston, where her parents, Mr. and Mrs. Frederik S. Struben, exchanged their wedding vows.

Bride-Elect Honoree At Pantry Party

Continuing courtesies for Miss Ruth Ann Allison before her marriage August 26 to Mack Canisler, a pantry party was given in the home of Mrs. Lynton Allred, 204, Douglas, Saturday afternoon. Mrs. Harvey Penner was hostess with Mrs. Allred.

Dr. and Mrs. Arthur Trow Mims, 909 East Fifth. The Rev. Joe M. Owen of St. Luke's Presbyterian Church of Houston officiated for the double ring ceremony in which Mr. Struben gave his daughter in marriage.

Tapers burned in tall standing candelabra twined with green foliage, the only altar decoration. The long church aisle, carpeted in deep red, was lighted with tapers in leaf-twined standards.

Mrs. Karl E. Olson of Austin was matron of honor, Mrs. Robert E. Sebastian of Austin, Miss Nancy Austin of Houston and Miss Ann Mims of Hereford, sister of the bridegroom, were bridesmaids.

Edward Mims acted as his brother's best man, with Gerry Bybee and Dick Combs of Hereford and Dale Dossey of Houston as groomsmen. Ushers were Robert Sebastian, Ronnie Gray of Hereford, Billy Daniels of Houston and Karl Olson.

Charles Kelly of Houston was the soloist who sang traditional wedding songs before the processional played by the organist. Candlelight English net fash-

ioned in a cage silhouette, embellished from neckline to toe-tip length with Alencon lace appliques, was chosen by Miss Struben for her bridal gown. Lace scalloped edged the skirt, the high neckline and the brief sleeves with which short gloves were worn.

Her mantilla veil bordered with lace floated to the floor and rounded into a chapel train. She carried a white Bible that her mother and her aunt, Mrs. E. O. McBride of Houston, carried in their weddings. It was topped with a white orchid and fern, with ivy tendrils cascading downward.

Heirloom pieces in her costume were her maternal grandmother's lace handkerchief and her paternal grandmother's pearl earrings.

Her attendants were dressed in lime green chiffon styled on empire lines, floor length, with flowing back panels on the soft sheath skirts. Their shoes matched in color. They carried arrangements of variegated foliage and small pastiches of the same leaves were in their hair.

Immediately after the ceremony a reception was held in church courtyard. Lighted hurricane lamps were set among the plantings, and a background of greenery defined by tall foliage arrangements was arranged for wedding party members as they greeted guests.

The bride's table, in circle shape, was laid with Alencon lace over organza and held candelabra with votive lamps as well as the wedding cake, three-tiered and topped with white blossoms in a pedestal container.

Greenery decorated bases of candelabra on the punch table, which was covered with organza and lace. Silver punch and coffee services were used.

Leaving on a brief wedding trip, Mrs. Mims changed to a gold sheer wool suit with moss green linen shell and accessories in brown and beige.

The couple will be at home in Houston until late in September, when they will go to Berkeley, Calif. and Mims will pursue graduate studies at the Uni-

LIONS CLUB PROGRAM — Mary Rando (left) and Cindy Ingram were the program for the Lions Club regular luncheon meeting last Wednesday. Miss Rando gave three readings with Cindy accompanying her on the piano.

Deferments Must Be Requested, Says Draft Law

AUSTIN — A new draft form in which undergraduate college students can request deferment has been furnished draft boards, Colonel Morris S. Schwartz state Selective Service director, said Friday.

Undergraduates must request deferment under the new Military Selective Service Act of 1967 after the date of its enactment, June 30, in order to be deferred.

The form, titled "Request for Undergraduate Student Deferment (SSS Form 104)," reproduces pertinent provisions of Section 6 of the law dealing with student deferments.

On the form the student states his understanding of the provisions of law printed on the form, states he is pursuing a full-time college course, and asks for deferment in Class II-S, then signs the form. The blank forms may be secured from local boards.

Colonel Schwartz said that requests for deferment could be made by ordinary letter, too.

"The form is for the convenience of students," he observed. "It will help them understand what the law provides."

Deferment of undergraduates in Class II-S is mandatory if they are full time and satisfactory, under 24 years old, and request deferment.

To be satisfactory, a student must make normal progress to-

Student Couple Repeat Vows In Canyon Church

Both students in West Texas State University at Canyon, where they will be at home, Miss Sandra Kay Ellis of that city and Herschel James Burrus, son of Mr. and Mrs. Herschel Burrus, 412 Avenue J, were married in St. Anne's Cath-

olic Church at Canyon Friday evening.

The bride is the daughter of Mr. and Mrs. Lloyd E. Ellis. Her father gave her in marriage, in a double ring ceremony read by the Rev. George Gallo-way.

Light from candelabra glowed behind the church altar, which was flanked by flower arrangements. Music was by Miss Matilda Gaume of Canyon, organist.

Bridal attendants were Miss Alice Wilson of Amarillo, maid of honor; the bridegroom's sister, Miss Mary Alice Burrus, and Miss Charlot Stringer of Lamesa, cousin of the bride. Another cousin, Elizabeth Westmoreland of Panhandle, and a niece of the bridegroom, Glenda Young, were flower girls.

Baron L. Presley was the best man, Gary Foster of Farwell and the bride's brother, Bobby Ellis, the groomsmen. Ushering guests to their seats were Don Aiken of Midland, Bert Morrison of Pampa, the bridegroom's cousin, Glen Ray Metcalf and Bill Richey of Canyon.

Wide lace in daisy pattern defined the waistline of the bride's white linen gown, trimmed the long sleeves at the wrists and

edged the chapel train which was attached at shoulder - line. The floor - length skirt was cut on straight lines.

Her illusion veil, elbow length, was gathered in a pouf to a seed pearl petal cluster above her forehead. She carried a bouquet of gardenias and carnations and, as a luck piece, a 1905 penny which belonged to her maternal grandfather.

Pastel pink of the honor attendant's dress and rose pink of the bridesmaids' introduced the wedding color note. Their frocks were similar in design to the bride's and their headpieces were huge roses in the material of their gowns. Each carried a nosegay of matching carnations. The flower girls wore white dresses and hair bows.

For the reception in Baptist Student Union building, a table was laid with white lace over pink and centered with carnations in those colors. Wedding cake and punch were served by Misses Cecelia Burrus of Hereford and Martha Westmoreland of Panhandle and Mrs. Baron L. Presley. Miss Frances Burrus registered guests.

The couple left for a trip to Ruidoso and other New Mexico cities. Mrs. Burrus traveled in a sapphire blue knit suit with black accessories and a gardenia corsage from her bouquet. After Aug. 15 they will be at home at 1109 First Avenue, Canyon. The bride is a sophomore at WTSU and Burrus, a graduate of Hereford High School, will be a senior.

In parts of northern Chile, rain may not fall for five or 10 successive years.

Larrymore Dance Studio

Will start dance classes in Hereford after Sept. 1st

A Free Lesson will be given to any student mailing in this ad.

We would appreciate any extra information as to type of dancing lesson, day, teacher preferred, etc.

We have big plans for our school in Hereford this season, and we know you wonderful people will help as you have in the past.

Tennis Is Sporting Again

Residents in the 100 block of Avenue D will soon see the return of tennis players to their neighborhood, thanks to the efforts of the City of Hereford — finally — in improving the courts so that tennis is possible. At present, the two courts maintained by the city are the only ones available for the 11,500 population; although the schools' new courts will help the situation, we think it important for the city to keep its facilities available to the older set and the ones whose practice doesn't require better facilities.

The city has spent a few hours in getting the courts into their proper shape; the weeds — which had been approaching the classification of tropical undergrowth — have been completely cleared out, making it a much simpler task to recover a tennis ball.

Also, new netting has been erected which will keep a tennis player from having to make a trek toward the Hereford Community Center every time a ball doesn't meet with the receiver's racket.

The only thing lacking, as a matter of fact, would be the marking of the courts themselves (along with improved surfacing). However, these are items that can be overlooked for the present since it is at least possible to play a decent match on the city courts. The school courts will probably provide a more professional place for

more advanced players, anyway; hopefully there will be a tennis team that can earn Hereford some University Interscholastic League honors.

The city doesn't necessarily owe its young people recreational facilities. But it did go to the trouble to provide the courts in the first place, and we think it commendable that they have finally done something to make tennis a possible sport here again. The only question remaining in our minds is, why did it take them so long to get it done? Over half the summer was gone!

Talk Of Texas

By JACK MAGUIRE

THE LAND OF ODD — Texas once had a "railroad" 100 miles long that operated without either rails or locomotives, but made a handsome profit.

In 1911, the Fort Worth and Rio Grande Railroad wanted to tap the rich ranch lands of the Texas Hill Country, but lacked the funds to extend the line south. Undaunted, the road simply purchased a right-of-way 100 miles long and 250 feet wide from Brady south to Sonora, fenced it, built holding pastures, installed water wells and invited ranchers to drive their cattle up the "railroad."

For more than a decade — until the Santa Fe built into Sonora — this unique rail-less road was the trail to market for hundreds of thousands of cattle from southwest Texas.

WOMAN'S WORK — In 1882, a score of Houston's young society women organized a volunteer fire-fighting brigade but they never put out a blaze.

The Light Guard Sweepers wielded brooms, not hoses. Their job was to wait until the blaze was out, then clean up the mess left by the firemen.

THE PASSING PARADE — It was just a little more than a century ago that Confederate troops had a camp on the site where the Littlefield Dormitory now stands on the University of Texas campus at Austin.

FOOTNOTE TO HISTORY — John McLennan was born a Scotchman, raised an Indian and spent a lifetime torn between the red man and the white.

When he was six, and only a year after arriving in Texas, Indians raided the McLennan home on the Brazos River near the present site of Waco. They killed his father and kidnapped his mother, sister, brother and himself. Mrs. McLennan and the daughter died, the brother was traded and John was kept and raised by the Kichai tribe.

He was happy as a Kichai brave and became an excellent hunter and expert horse thief. Then, in 1845, an Indian agent discovered him and forced the tribe to return him to civilization.

McLennan discovered that he was a wealthy landowner. He married, raised a family and tried to adjust to his new life. Occasionally, however, he would disappear and rejoin the Kichai for long hunts. For the rest of his life, he was never happy in a crowd of white men.

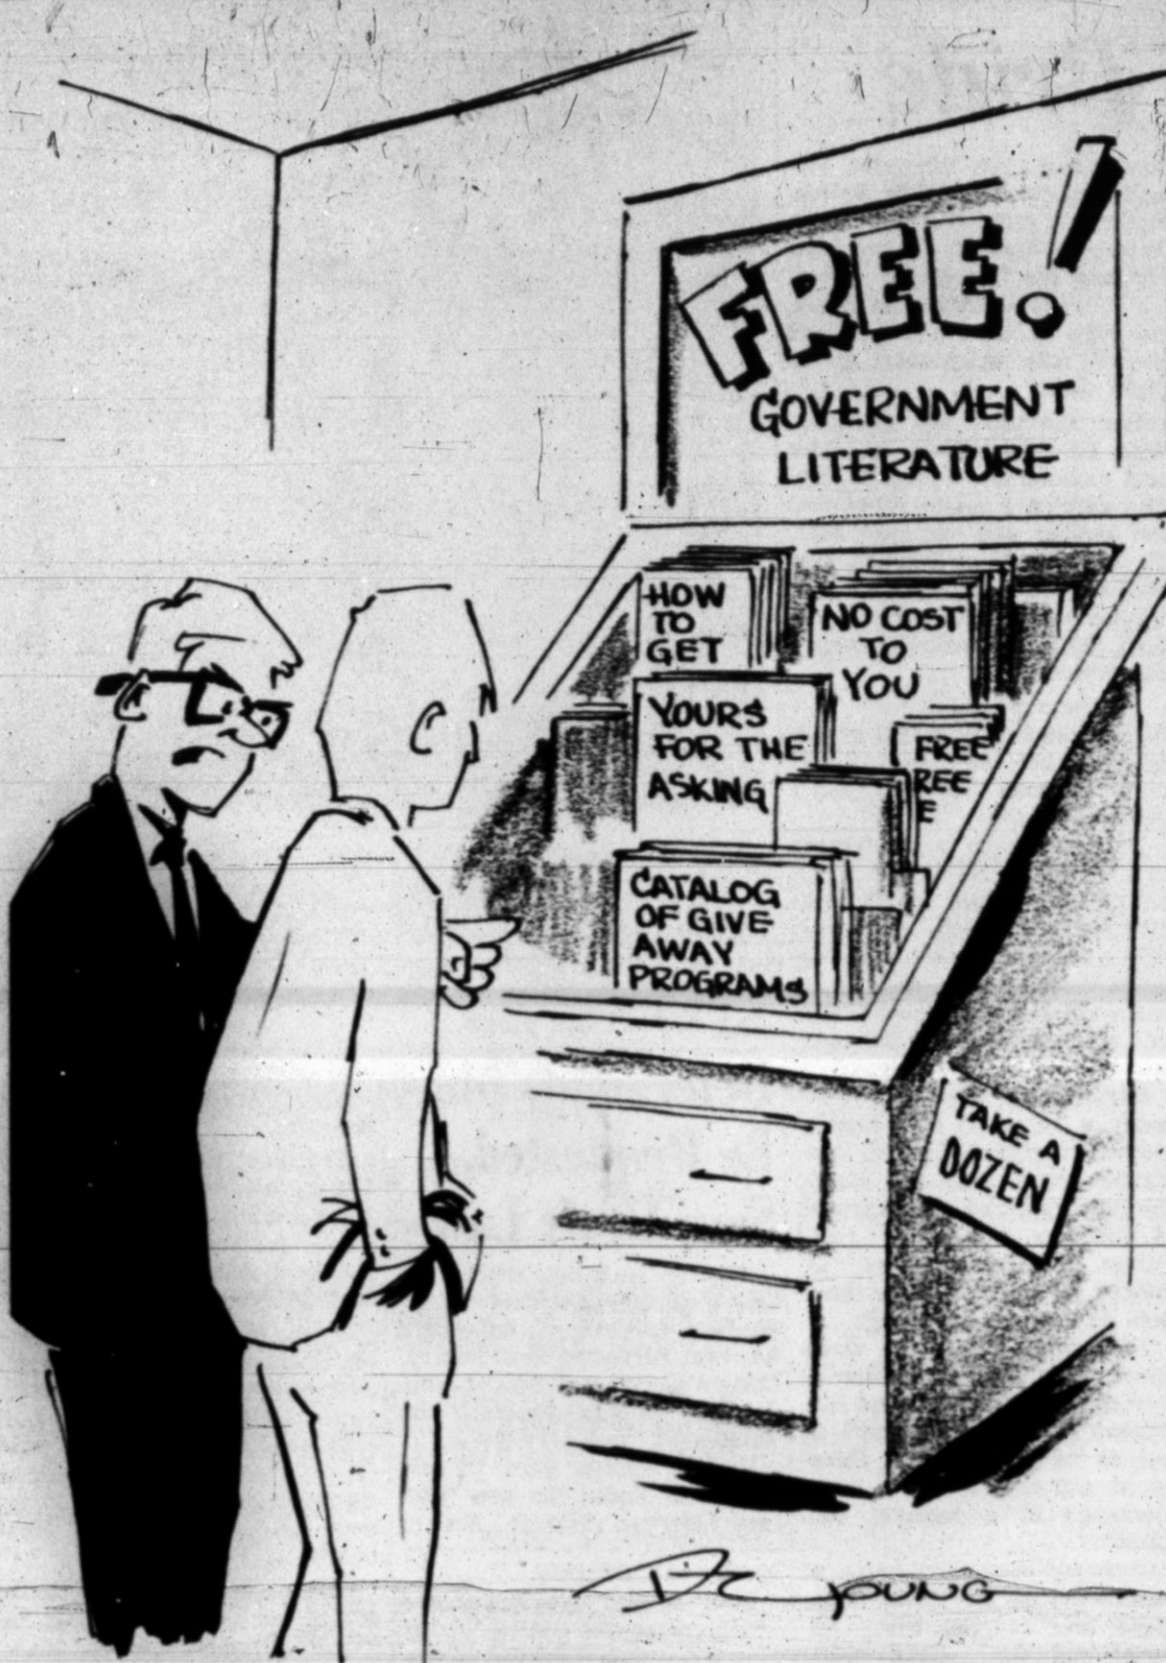

NO STARCH, PLEASE — One of the regular jobs of county seat blacksmiths in the early days was the "ironing" of prisoners.

For a standard rate (usually \$3.50), the blacksmith provided leg irons for every prisoner who was expected to be a guest of the county for more than a day or two.

WHAT'S IN A NAME? — Muleshoe, Bailey County, wasn't named for either a mule or a shoe. It takes its name from the old Muleshoe Ranch.

(Copyright, 1967, by Jack Maguire)

Happiness Is... Learning Tennis In High School

By LARRY FUHRMANN

After 20 minutes of playing, the game was still going — ad, deuce, etc. — and from all indications there wasn't much to stop it. But after two hours of that nonsense, I finally lost out to another UT frosh in intramural competition two years ago.

Although I lost out in my first try at tennis competition (not bad considering that I had been playing something like four weeks) it was indeed an experience to be pleasantly remembered; the only regret is that tennis wasn't around at Hereford High School while I was still roaming its hallowed halls back in the spring of 1965.

Hereford has long had the tennis courts; it has also had tennis instruction, mainly for the girls, taught by a teacher in after-school hours. But for some reason or other, individual sports have never received the attention here that they have in other schools. The only thing that comes close is track, and it is overshadowed by football, basketball and baseball.

Team sports are always going to stay in the limelight because of the fact that they do require groups of people. They have a large following as the high school set faithfully gathers at the stadiums and gymnasiums for each and every event. They have their reward, as the saying goes.

But neglected have been sports that concentrate on individuals, namely, swimming and tennis. Golf has been offered, but only in extra-curricular activities.

With the addition of the tennis courts at Hereford High School comes an important addition to physical education; tennis is a sport that can interest a boy or girl who is not particularly influenced by the type school spirit that stirs the blood of football players and cheerleaders. With the new courts at the high school, a new field is being entered that can bring even more honors to Hereford High School.

Out of all the potential tennis players in high school, there are bound to be some who are wanting to enlist in University Interscholastic League competition; a few victories in that category will help round out honors won on the golf course, the track field, the football field, the basketball court and last — but by no means least in scholastic competition.

A high school supposedly gives a youngster a broad education; yet we have neglected several endeavors which due to prevalent attitudes have been cast away. Adding tennis to the curriculum of both physical education and athletics will be one step forward in making Hereford High School a school any student can be proud of when he leaves for college.

... from the Brand's files

25 YEARS AGO

With a few men already on the job at the new \$2,000,000 Federal Prison Camp to be located south of Hereford, preliminary work was started Monday, Aug. 3. However, no official announcements have been made in regard to the construction and most information concerning the work remained a mystery so far as official channels are concerned.

The length of construction will depend entirely upon specifications. Wage scales will also be announced following arrival of the contractors. Scales on similar work in the Panhandle have been around 55 cents for common labor to \$1.12 for skilled labor.

Warning! In regard to the anticipated influx of workmen: We feel sure that many of our citizens are planning to accommodate roomers and their families during the coming months — and because of the serious trouble which has arisen in other towns we feel that it is our duty to warn all persons who take strangers or strange families into their homes — demand a health certificate signed by the local health officer. If every will take this precaution, it will go a long way toward eliminating possible epidemics or diseases which are reported in many other Defense Localities! Be sure the certificate is recent and that it is signed by a physician who hold in confidence. City of Hereford.

50 YEARS AGO

AN OMISSION

The name of Ray Williams was accidentally omitted last week from the list of volunteers. Ray is at Albuquerque and is still pleased with life as a private in Uncle Sam's army.

WANTED — 50 Young men to come out and join the "Go-getters" Class at the Christian Church next Sunday morning at 9:45. "We are after you."

We handle the Oakland 5-passer auto. Come in and look them over. Recent purchasers of the Chevrolet, the family car, are Messrs. Brown, Moore and Smith, residents of Hereford. Witherspoon & Stubbs.

The Hereford boys who have enlisted in the national guard were given a big "at home" with the City of Hereford doing the honors on Friday evening. The lawn at the court house was lighted and comfortable chairs were placed for the convenient seating of the big crowd. The privilege of using the court house grounds for a lawn fete was a real tribute to the boys as the privilege would scarce have been granted for any other occasion. It was an ideal spot and the spirit which prompted the granting of the beautiful and spacious grounds is typical of that which dominates all Deaf Smith County in regard to her soldier boys the feeling that they are worthy of the best.

From the south gallery of the court house the city band, under the direction of Prof. Brockbahn, discoursed the familiar patriotic airs calculated to intensify the already strong feeling which made the occasion sacred to the many whose hearts were full, but whose faces showed no trace of emotion. The cheerfulness — almost gaiety sometimes — was evidence that the fathers and mothers, sisters, wives, sweethearts, and friends of these young men, are imbued with that heroic courage needed as badly at home as at the front, to strengthen, and cheer, and encourage, those who do go.

ATTENTION CLASS NO. 12

All members of Class No. 12 of the Methodist Sunday School are requested to be in attendance at the Class Room Sunday morning, the 12th, at 9:45, to meet your teacher, Judge Stanton, who has been in attendance at the Southern S. S. Conference at Asheville, N.C. for the past three weeks. He will have a great message for you. Come and bring some young men with you.

THE BOOTLEG — Philosopher

Editor's note: The Bootleg Philosopher on his Bindweed grass farm comes up with an odd idea this week, but it's not the first time.

Dear editor:

I was looking over a three-weeks-old newspaper I found in some weeds out here on this bindweed farm yesterday — you know, there's a lot to be said for a paper that old, what was headlined as a major crisis then by now has turned into something you can hardly remember, and you can relax and read worry-free.

At any rate, over on an inside page I read about a murder trial where it already had taken five weeks to pick a jury and they were still three short. I presume they finally made it, but that's beside the point. I thought of something else.

I talked with a neighbor who got called to jury duty some time past and he said as he understood it, the job of lawyers on both sides was to find 12 people who didn't know anything about the case.

With newspapers, radio and television going 24 hours a day, not to mention women, this getting harder and harder to do.

Therefore, I have a suggestion for the courts. Why not specialize? If you're going to send some men on a space flight, you don't go out on the street and pick up a few, do you? Of course not. You pick them carefully ahead of time and then keep them in training.

The same would work with juries. What the courts ought to do is pick 12 fair-minded, reputable men interested in a jury career and sign them up for a four-year term. Lock them up in comfortable quarters, pay them a first-rate salary, feed and exercise them carefully, but don't let them find out anything. After all you never know what citizen, however prominent, may be envolved next. No newspapers, no radio, and no newscasts on television, just Gunsmoke and sports and soap operas if they can take them.

With 12 men with fresh minds and completely out of touch with everything, every case could go to trial immediately, or as soon as the lawyers on both sides got through with their customary delays. Just get set, get the judge in place, call for quiet, then open the door and let the 12 in and start the testimony.

In the long run I believe this would be cheaper than bringing in 75 to 150 people every time a trial comes up and spending a week getting down to the 12 who know the least.

I doubt if this would work, but if you've ever spent any time on a jury panel waiting around in a court room, you got to admit it's worth thinking about.

Yours faithfully,
J. A.

Upwind or Downwind

With more and more livestock feedlots dotting the Plains, owners need always to incorporate a bit of weather savvy in their building plans.

Our prevailing winds — from the southwest in spring and summer and frequently from the northwest in winter — make the east side of town an ideal location for these welcomed economic boosters.

But why risk the unpleasantness of being classed a public nuisance and violator of air pollution laws, more strict with the passing months?

Hereford, Stratford and Perryton have enormous cattle feeding operations on their east sides, and it is rare that odors visit their towns. On the other hand, the first commercial feed lot in Cimarron County will be located 6 miles southwest of Boise City, Okla. The long distance probably will reduce in-town odors, but an easterly location would all but eliminate them.

Feeding operations, the industrial giants of the High Plains, are welcome, but operators need always be mindful of nuisance factors and the potential pitfalls associated with some certain locations.

H.D. CHATTER News Supplied By Military

By Mrs. Argen Draper
Home Demonstration Agent

On the Military Front: Justin McBride is back from Army Reserves Camp. He says he has never worked quite so hard in two weeks as at the Reserves Camp in Albuquerque.

RONALD CORBETT, in Vietnam, writes his parents, the Paul Corbetts, some very interesting and hair-raising accounts of his experiences. Ronald's birthday is August 27 and some of the Corbett's friends are planning a birthday card shower for him.

The regular "happy" birthday cards aren't quite appropriate with conditions as they are with Ronald on the battlefield, but we hope he knows the intentions are well meant. His address: PFC John R. Crobett, US 54 370 951, Co C 8th Support Bn., 196th Inf. Bde., APO San Francisco 96256.

The Elza Warricks have had a most exciting vacation, and it is doubtful if any family anywhere can match it. Don Warrick, their son, has finished a tour with the Air Corps and received a discharge August 1 in Alaska.

ELZA AND HAZEL celebrated their 26th wedding anniversary by flying to Alaska and driving back with Don. Another thrilling angle is that the other Warrick children, Norma Jean Odom, Center, Colo. and Phyllis Warrick, Hereford, went along on the trip.

Don, we're glad to have you home and are proud of you and want to thank you for doing for us, what we can't do for ourselves.

Also, Fred Baird, grandson of the H. C. Bairds, is visiting in Hereford. Fred, is back from Vietnam and enroute to San Antonio where he will be stationed with the Army. Fred, Ramona and six month old James Wallace are having a good time visiting.

Fred was born at Jumbo in Castro County and moved with his parents, the Bob Bairds, to Seattle, Wash.

It has been my observation that grandchildren are really grand, but I can't describe great-grandchildren. We will have to get the opinion of Mr. and Mrs. H. C. Baird as James is their second great-grandson.

THIS MORNING, Jean Kennedy and I have had an imaginary trip to the Hawaiian Islands via a gift from Mrs. Edwin Ramey. She brought me a keepsake from her recent holiday and Jean and I reviewed the exciting pictures of the fun and industry of the Islands.

Jean visited the Islands and gets very excited when she talks about it. Don't ask Jean anything about Hawaii unless you have some time, as she is enthusiastic.

THERE ARE NAMES in the office of persons who have

A STRONG AMERICA with Rural Electricity...

Thanks to consumer-owned rural electric systems, more than 580 defense installations, from radar listening posts to atomic missile sites, could be located in remote areas of the country.

Without an ample supply of electric power, their strategic placement would have been much more difficult. Rural electric systems are helping to keep America's defenses at peak efficiency, and are contributing to our national security.

Deaf Smith County ELECTRIC COOPERATIVE, INC.

used pressure cookers for sale. Call 364-3573 if you are in the market to buy or sell. Too, Mrs. Grimes, 364-0756, has jars for sale. There are both pints and quarts and will be a good buy for you. People who are not canning now accumulate jars which take up so much space. It is a good management practice to get excess canning equipment where it can be used and we'll help at the office.

MRS. J. E. WARRICK, Sr., has some of the best ideas. She had a peach tree that did produce despite the weather. The peaches were small and hard to peel.

Mrs. Warrick wanted to utilize the fruit so she cut the fruit from the seed and dried it by spreading the fruit thin in a flat pan or cookie sheet. Then she put the pan under the pilot light on the range.

With a little imagination, she utilized the fruit and also the heat that was there anyway. It takes approximately 36 hours to dry. I hope I drop in sometimes when Mrs. Warrick has some dried pies made from these dry peaches.

THIS IS THE FOURTH year for the Warren Brothers vegetable stand. They are located about five miles south on Highway 385 and have set up their business in the driveway of their home. Now they are selling onions and field corn.

They have all the charm for the business and made me feel I had really gotten a bargain and had done them a big favor. Dwane and Eddie Warren seem to be the working end of the partnership, but they gave their little brother, Bud, credit for running errands.

Can't you just imagine in 15 or 20 years, these three brothers selling cars or succeeding as salesmen somewhere? I don't know what it is about my personality that gives me so much pleasure about seeing industrious people.

—Hereford Brand Photo

CARNIVALS DON'T STOP — Another carnival was in Hereford last week, this one of the backyard variety at the Johnny Patterson home, 200 Beach St. Donny Lauderback, top, gives Dirk Vander Zee bean bags for a game, and Sandra Patterson, bottom, pins up balloons for a dart game. Proceeds of the carnival went to the research and patient service programs of the Muscular Dystrophy Associations of America.

Frio News

By MRS. OWEN ANDREWS
Brand Correspondent

Mr. and Mrs. George Ward, from near Seattle, Wash., accompanied her sister-in-law, Mrs. Charles King, Amarillo, to visit friends in this area one day last week. The Wards lived in the Arney Community before moving to Washington in 1935.

Mrs. Ward, the former Helen King of Follett, taught at Frio school 1930-31 before their marriage in May of that year. Her brother, Charles King, was principal here that year and the following. He was also married in May 1931, to Miss Mattie Belle Andrews.

The Wards visited the Ward homeplace near Arney and other remembered places as well as taking an interest in the progress of this area over the past years. His last visit here was in '48. Mrs. Ward has visited her relatives in Amarillo more recently.

Mr. and Mrs. Leo Hall, Reba and Ronnie, of Wilcox, Ariz., visited in the community last weekend. They were taking a two-week vacation and planned to visit relatives at Wellington and in Oklahoma.

Guests of the D. C. Millers Saturday evening were Mr. and Mrs. Bill Struve, Mr. and Mrs. Leo Hall and Reba, Mr. and Mrs. Floyd Cole and family, Mr. and Mrs. T. L. Sparkman Jr. and Darlene, Mrs. H. M. Mobley, Austin Mobley and Miss Alma Andrews. Ice cream and cake were served. The occasion was the celebration of Miller's birthday.

Mr. and Mrs. Tommy Sparkman, Kevin and Kirk moved to their new home located across the road from the old Andrews homeplace on FM1055. The red brick house has double garage, central heating and cooling system, two baths and a new sprayed vinyl floor and counter cover as well as unusually ample closet and storage room.

Mr. and Mrs. Z. P. Pilgreen, Vernon, visited their granddaughter, Mrs. Joe Andrews and family Wednesday until Friday.

Mrs. Charles Self, Genese and Tory, and Mrs. Aubry Self returned home Monday from Oklahoma after visiting Mrs. Aubry Self's parents and other relatives.

Visiting the Earl Harkins Sunday were the Art McDaniels of Edmonson. On Monday the F. B. Harkins of Plainview, the Orville Hansens from Oklahoma and the Cecil Scercya from California, all relatives of Earl's, visited the Harkins.

Mrs. Bill Maddox of Sayre, Okla. spent Tuesday night in the home of her daughter, Mrs. Z. G. Newberry and on Wednesday Mrs. Newberry and Virginia, Paul and Preston accompanied her home for a few days visit.

Mr. and Mrs. Ben Dean and family, Dallas, brought her mother, Mrs. B. H. Baldwin, home on Saturday after Mrs. Baldwin had spent about a month visiting her children in the Dallas area. They came to Brownfield Friday, attended the wedding of Dean's nephew that evening and spent the night with the Darold Baldwins. On Sunday morning, Linda West went home with the Deans for a few days visit.

Mr. and Mrs. H. E. Lindley and their daughter, Mrs. Jack Shirley of Friona, recently returned from a trip down in Texas. At Kilgore they visited a cousin, Monette Dreamer, at Dallas they visited nephew John Lindley and at Willsboro they attended a Lindley family reunion. Also they visited nephew Dick Lindley at Wellington and J. P. Warrick at Tyler.

Visiting the John Simpsons during the weekend were their daughters, Mrs. Sam Lindley, Brownwood, and Mrs. Leon Roberts, Wellington. On Sunday the Robert Simpsons and J.C. Simpsons and also a niece Mrs. Tom Roach and Charlotte of Amarillo joined the family gathering on Tuesday a granddaughter, Mrs. Ronnie Ford ad

daughter spent the night and went home to Wellington with her mother, Mrs. Roberts. Mrs. Ford had been in Nebraska with her husband, who was with a harvesting crew.

J. C. Simpson was in Hereford hospital after having broken his ankle in a fall while working at the Bull Barn Monday. He expected to be released the last of the week.

Mr. and Mrs. Elza Warrick, Phyllis and Norma Jean Odom left Amarillo July 31 by jet for Anchorage, Alaska. After three stops, they arrived there about 12 hours later. The Warrick son, Don, and receive his release from the Army, having spent most of his two years at Anchorage.

On Wednesday the Warricks left in Don's car for the return trip. They drove over 1200 miles of dirt road, delayed by seven flats, and with headlights on all the way because of dust. In Great Falls, Mont., they visited Elza's brother, Sidney Warrick and family.

At Anchorage, they had visited Mr. and Mrs. Bobby Townsend, who are from here. Bobby is the son of Mr. and Mrs. Archie Townsend of Hereford. Bobby does construction work. The Warricks drove over 400 miles from Anchorage to Hereford, arriving here Wednesday, one week from the time they left.

Phyllis and Don Warrick and Judy Osborn spent the weekend in Dallas. They expected to attend the wedding of Jim Haney, former Hereford resident three Saturday night.

Mr. and Mrs. Elza Warrick and Mrs. M. B. Odom and Mike of Dimmitt went to Center, Colo during the weekend to take Bruce Odoms' car. Mrs. Odom and Mike expected to remain for a few days visit with the Bruce Odoms.

Mr. and Mrs. W. H. Andrews attended a gathering of Mrs. Andrews' relatives at Marlowe, Okla. during the weekend.

Small Talk

By SUE COLEMAN
 Women's Editor

Ever since I've been in Hereford I've heard about the canyon country in the extreme north-west part of this county, and have been eager to see it but never quite got there until this week.

Out at Bridwell ranch, where the Wayne Siffords live, you are definitely in the canyons and almost in New Mexico. As in more famous Palo Duro canyon and others which break off from the Plains, you drive right to the brink of the gash before you know it is there.

Suddenly, there is the sheer drop off the Caprock into the valley of a little creek which runs north toward the Canadian River. Views are magnificent; you can see miles across rugged canyons and away in the distance is the outline of Tucumcari Mountain, dim the day we saw it because it was a cloudy afternoon.

They say there are antelope, bobcats, coyotes and other western fauna out there, and the place looks it.

Think I'll go out some night and camp on the canyon rim and listen for the coyotes to howl. That sense-tingling sound I haven't heard since I was a

child, and my grandparents lived on a farm in Hall county where there were plenty of coyotes then although I fear the place is to civilized for them now.

It's always nice to find someone who speaks your language, and Argen Draper speaks mine - both of us grew up in the cotton-pickin' country just below the caprock to the southeast. It was with Argen that I visited Mrs. Sifford this week.

In casual conversation on the long ride out there, we agreed that the form of crime described as a stabbing is really a stobbin', especially if it occurs on Saturday night in connection with a crap game. If you wonder what two dignified(?) business women talk about in casual conversation, this may give you an idea.

Another bright note in the week: A letter from Jewell Meeks Sheffield, the granddaughter of the late Mr. and Mrs. J. C. Womble who compiled the unique Womble Family cookbook which was the subject of a piece I wrote recently.

From San Antonio she wrote a note of thanks for the article (but the thanks go the other way, really) and saying, "Doing this cookbook has been an experience for me and I might add a most rewarding one."

Reading her cookbook has been a rewarding experience for me, and I know scores of people here enjoyed reading just the bits of it that I could get into a newspaper article - because many have mentioned it to me.

Mrs. Scheffield's clever idea of a family cookbook impressed a lot of people, and I'll bet it will be copied in more than one family.

Iceland is the largest above-section of the 10,000 mile long Mid-Atlantic Ridge, the mostly subsurface mountain chain that stretches the bulk of the distance from the Arctic to Antarctic.

Errors Slow Payments Of Social Security

Recently some claims for Medicare payments made by some of the residents of Deaf Smith County have been slowed up because of simple errors made on the claim form.

Bruce Grady, Social Security representative for this county, said today that the most common error made is that the Medicare identification number is omitted.

Because of the great number of claims handled by the Group Medical and Surgical Service, the carrier which handles Medicare doctor bills for Texas, it is almost impossible to identify a person unless he furnishes his number. The number should be copied exactly from the red, white, and blue Medicare card.

Grady said other common errors are the omission of signatures, addresses, or other items. He said that the top half of the claim form should be filled in completely.

Grady invited beneficiaries who are filing for the first time to bring their payment requests to him for review any Tuesday morning at the Courthouse.

Hereford People Due SS Benefits

There are many people in the Hereford area who may be entitled to some social security payments but are not getting them, according to Bruce Grady, Social Security Representative for Hereford.

It isn't necessary to stop working completely in order to get social security retirement benefits," Grady said. "In fact, you could earn a good deal more than \$1500 a year and still get some checks."

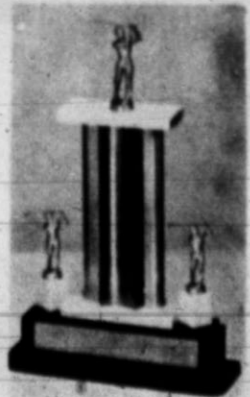

Grady further stated, "regardless of whether you are eligible for monthly benefits, we urge you to come in and sign up during the 3 months before you are 65. This is because we have health insurance now as well as retirement insurance under the social security law. You do not have to retire at age 65 to become eligible for Medicare."

For further information concerning your rights under the social security law, contact Bruce Grady, Social Security Representative, any Tuesday, 9:00 - 11:00 a.m. at the Courthouse in Hereford.

The oldest public park in the United States is Boston Common. Its original use, back in 1634, was for pasturing cows, holding public meetings and publicly punishing lawbreakers by putting them in stocks.

There are enough underground pipelines in the United States to build a line to the moon and back —with pipe left over.

LETTER FROM MICHIO

Ex-AFS Student Here Sends News

Now a university student in her native Japan, Michio Wakai, who spent the 1964-65 term in Hereford High School under the American Field Service program, has written to the Don T. Martin family with whom she lived here, telling of some of her activities.

She had previously written that she passed the university entrance examinations, adding that "for my surprise, I found out that I made the highest point among more than 8,000 students who had the examination. That was really surprising to my teachers, friends, my family, and most of all to me."

"That was a really unusual case - I was just a junior of high school. Oh, I felt so proud when I told about Hereford High School to many newspaper men."

She enclosed a clipping from a local newspaper, with a photograph showing her receiving congratulations of the school head at the university entrance ceremony.

The attractive Japanese girl, who made numerous friends during her stay in Hereford, also told in earlier correspondence of her older sister's marriage in the spring of 1966.

Dated July 10 from her town, Sagiyama Gifu City, the recent letter reads:

"Dear Mother, Daddy, Nancy and Fred, Summer has come again, and it is already two years since I

left the United States. How is everything going in Hereford? I am now sophomore in Nagoya University, still going to and back in a crowded train." (The university is a two-hour train ride from her home, she had previously written).

"This year, an AFS student from America, David Stark, came to our city. He is such a nice and energetic boy, he goes to everywhere, tries everything. He finally catch a cold and is now lying down in bed. His Japanese father is a doctor, and with his care David will get well soon, I hope."

"My elder sister was delivered of a boy this April. My parents were very excited to have their first grandson; my little sister and I to have a nephew for the first time. The baby is a cute one, sleeping or crying all the time."

"My sister is now going to graduate school to continue studying mathematics. She is busy to be a wife, a mother, and a student at the same time."

"I am now in the Liberal Arts Department. All students have to be there for the first two years in the university, but soon we will be in a Law Department. There are two courses in it, law or political science, and I don't decide yet which to go."

"I have to study law to be a lawyer, but on the other hand, politics seems very interesting. It's hard to choose one."

"All my family asked me to say hello to you, and also give my kindest regards to all the people in Hereford. When you have time, please write me about you and Hereford. I'd love to hear. Love, Michio."

Races Set For 3 P.M. Today

Hereford Speed Bowl, located east of the city and south of U. S. 60, will again be the scene of much action beginning at 3 p. m. today.

Drivers from throughout the area have been invited to participate in the races. Several prizes also will be given away, including the \$15 jackpot by the Optimist Club.

Admission to the races is \$1 for adults and children admitted free when accompanied by an adult.

Mrs. Larry Wartes And Children Susan and Alan present, Mike absent

Newcomers In Profile

Home Ready For Family

By SUE-COLEMAN Women's Editor

Moving into a new home, built for her family since they came to Hereford early in the summer, is keeping Mrs. Larry Wartes occupied just at present.

WARTES, WHO BECAME athletic director of Hereford High School last spring, and his family have been living in a rented house at 117 Northwest Drive while their own was being built in the next block.

Mrs. Wartes expects to be busy getting their belongings arranged in the new house, from now until the beginning of the school term when she will teach shorthand and typing in high school.

The family moved from Stamford, where they lived the past 2 years and Wartes was head coach in the school system. Previously their home were in Meadow and Stanton.

MRS. WARTES, THE former Joyce Hale, was born in Hubbard, in Central Texas, but

spent much of her student years in Big Spring and was graduated from Odessa High School.

Brown-haired and green-eyed, the pretty newcomer is an enthusiastic sports fan who likes to go to all the school games, whatever the sport. Water skiing and tennis are her choices for personal participation.

She enjoys playing bridge "when there is time" and sewing for her 11-year-old daughter,

Susan. The Wartes' other children are Mike, 14, and Alan, going-on-five.

THEY ARE MEMBERS of First Baptist Church. Both Mr. and Mrs. Wartes have taught in church groups in former homes, she working with adults and he with junior high ages. Her other memberships have been in professional organizations.

The family has found Hereford an easy place to get acquainted, and look forward to

PERSONALS

by Penny

The Harold Hersleys, Darrell Hersleys, Joe Hersleys and Kenneth Walterscheids have all recently returned from an Ingram reunion in Idaho Falls, Idaho. Sixty-two people from 8 states attended the reunion in the home of Mrs. Mary Ingram, the mother of Mrs. Harold Hersley. Mrs. Ingram will be 86 on August 15.

After the reunion at Mrs. Ingram's, the group traveled to Bird's log cabin near palasade Lake. Water sports, square dancing and a barbeque were enjoyed by all.

Before returning home, most of the Hereford clan visited Yellowstone National Park.

Mr. and Mrs. Harold Anderson, 718 Thunderbird, have had as guests Mr. and Mrs. Jimmy Noble of Fort Worth and his grandfather, H. L. Van Sickle of Macon, Mo. The visitors were enroute to Alaska on a six-week camping tour and hunt. The Nobles were college friends of the Andersons at North Texas State University, Denton.

Mr. and Mrs. G. S. Wheeler and daughter Mary visited Mr. and Mrs. E. D. Wheeler in Paris, Texas.

—Hold in case more come in

Mr. and Mrs. Bill Morton are leaving this weekend for California to visit relatives and attend the week of Aug. 24-29 during the 32nd General Council of the Assemblies of God, to be held in Long Beach.

They will visit their daughter and family, Mr. and Mrs. Gordon King and son Todd, in Long Beach, and in San Diego will be guests of Mr. and Mrs.

the school year. Meanwhile, there is the routine of getting settled in the new house, a time-consuming but pleasant chore.

Salad Supper Is Slated For Post Meeting Tuesday

Preceding formal opening of the new American Legion Post home in Veterans Park, a salad dinner for the Legion and Auxiliary is scheduled at 8 p. m. Tuesday.

Reports will be heard then from Cynthia Hanna and Jim Childers, Hereford representatives to this year's Girls State and Boys State. Each will tell of experiences at the annual youth convocations at Austin sponsored by the Legion and Auxiliary in Texas.

This meeting will be the first held in the new post home, which will be open to the public at a dedication program Aug. 20. Members of both organizations are urged to see it at the Tuesday meeting and hear the students' reports. Each family is to bring a salad for the meal. Guests are invited.

Iceland's capital city, Reykjavik, is the most northerly capital in the world, yet thanks to the Gulf Stream it is warmer in winter than New York.

Local Managers Attend Clinic

Ed Hutto, Bovina area manager for Tuloma Gas Products Company, reports that S. T. Wiseman, Dawn plant manager for Tuloma, and C. R. Brandon, Hereford plant manager for Tuloma, recently attended a training clinic devoted to his firm's new line of Crop-Mate fertilizers.

Hutto said the training session included instruction in soil sampling techniques and in interpreting soil analysis reports.

According to Hutto, Crop-Mate fertilizers will be manufactured at the company's fertilizer complex which includes a modern soil testing lab at Holland, Texas. The Crop-Mate fertilizers are designed to meet specific needs of Texas soils and crops.

Wiseman, Dawn fertilizer representative, and Brandon, Hereford fertilizer representative, have both been with Tuloma since 1963. Wiseman and his wife Dee live at 414 Avenue I in Hereford. Brandon and his wife Elva and their two children live at 146 Greenwood in Hereford.

Ciudad Guayana lies in the heart of the wild and lonely Guiana Highlands in southeastern Venezuela. Government officials hope the region will grow into a Ruhr-type industrial complex. The area bounds in minerals and waterpower.

WE RESERVE THE RIGHT TO LIMIT QUANTITIES

By MARTIN WINCH
Last week two new VISTA workers came to Hereford under the sponsorship and direction of the Hereford Migrant Ministry. Their arrival should insure a complement of four workers under the Casa de Amigos through the winter.

VISTA stands for Volunteers in Service to America, a program under the Economic Opportunity Act of 1964. It is modeled on the Peace Corps, except that VISTA service is for only one year and is always given in the United States. There are now more than 3,500 VISTA workers in city slums, mental hospitals, Indian reservations, Spanish-speaking communities, legal service programs, prisons, juvenile homes, Job Corps centers, isolated rural areas, and similar locations.

A VISTA worker is paid a living allowance by the Government. This allowance is adjusted to the area of service: in Hereford, we receive \$35 per week, plus a health insurance plan, use of a GSA station wagon, 6 cents per mile for work-related travel on personal vehicles, and a "readjustment allowance" to cover our going into other work after VISTA service.

In his work, a VISTA is entirely responsible to his local sponsoring agency or organization.

VISTA is one of the more widely supported programs under the Economic Opportunity Act. It is designed to help to stimulate and develop local responses to local problems. Obviously, the job to be done is undefined and the solutions elusive. Accordingly, training for VISTA workers is continuously being improved.

Less than a year ago, VISTA training generally centered in the University classroom and drew primarily upon lectures, panels, seminars, and readings. Some field experience was included, most often under local public agencies. The training of the two new VISTA workers under the Casa de Amigos shows a marked change in emphasis. Mary Schinnick was the first of the new VISTAs to arrive, reaching the Labor Camp last

Saturday. Born in Grand Forks, North Dakota, Mary has lived most of her life in Vancouver, Washington. Located on the Columbia River, Vancouver was the first permanent settlement in the Far West. A farmer while still in North Dakota, Mary's father now works for a co-operative plywood mill. Mary has graduated from Clark Junior College in Vancouver, majoring in political science with a minor in sociology. She has four sisters, no brothers.

Mary trained under St. Edward's University in Austin. Nearly all of her six weeks' training took place in Montopolis, a predominantly Spanish-speaking low income community within Austin. The training emphasized encouraging residents to work in behalf of their community. Living with a family in the community for more than five weeks, Mary met regularly with other trainees and her supervisors to discuss experiences and problems.

Trainees in Mary's group were encouraged to start projects which would be carried on by community residents after the trainees left. Among the projects Mary's group attempted were English classes for young people, outings for grade-school children, meetings and petitions to request paved streets and lighting for the area, and the beginning of regular community meetings under local leadership.

The other new VISTA in Hereford is David Rader, a native of Seattle, Wash. He graduated from the University of Washington, where he has also completed one year of graduate work in Latin American history. David's father is Professor of Philosophy at the University, where he has taught since 1932.

David was assigned to the University of New Mexico for his six weeks of training, but spent little time in the classroom. After three days of lectures and panels in Albuquerque, he was sent with another trainee to live with a family in La Union, a Spanish-speaking community to the north of El Paso. In La Union, Davis helped to

Mr. and Mrs. Alex Petersen
... married 50 years

Petersens Mark Golden Wedding

The Golden Wedding anniversary of Mr. and Mrs. Alex Petersen will be observed with open house this afternoon from 3 to 6 o'clock at the couple's home, 409 Irving.

Their two sons, daughter-in-law and three grandchildren are expected to be here for the occasion, and the Petersens' friends are invited to call.

Married August 14, 1917, in

begin a head-Strat program, tried to organize a recreation program, assisted with an adult English project under HELP (New Mexico Migrant Ministry), and worked closely with the local Community Action Program.

VISTA training has come a long way toward acquainting workers with communities similar to those in which they will be placed for service. Training has become localized by region, as has VISTA itself. The VISTA workers in Hereford are continually in contact with Virgil Dodson and the Migrant Ministry board, but rarely hear from Washington, D. C. With Mary and David here for a year, the Casa de Amigos will be half-full of Washington, but of the Evergreen State of the Pacific Northwest.

the home of Petersen's family at Sockett, Mont., the couple has lived here since 1935 when they moved from Childress, Mrs. Petersen before her marriage was Miss Eunice Stevens of Conrad, Mont.

Their children are Robert Petersen of Lubbock and Richard Petersen of Hereford and Amarillo.

Mr. and Mrs. Petersen have both been active in the business and social life of Hereford. He retired six years ago after a long employment with the local post office and she was draft board clerk until she retired three years ago.

She had begun painting as a hobby, progressed to teaching before her retirement, and has taught since as a full-time profession. Membership in Hereford Art Guild stems from that interest.

Both the Petersens are members of First Christian Church. He is a Scottish Rite Mason and she works with the Red Cross Volunteers and is currently secretary of that service organization.

Researchers have given rats ulcers and literally driven them crazy with loud sounds.

Farmers Union Meet Features National Head

Tony Dechant, National Farmers Union president, will be the featured speaker at a District I banquet in Wellington, Aug. 26th. Collingsworth County Farmers Union will be host for the dinner to be served in the Bura Handey Community Center at 7:30 p. m. Dean Harmon, vice president of Texas Farmers Union, will be master of ceremonies.

Farmers Union members from each county in District I and guests who are interested in the organization are expected to attend.

Tickets are \$2.50 and may be obtained from Farmers Union County offices or county offices.

Sports On Tube Being Examined

NEW YORK — Congressman Richard L. Ottinger (Dem.-N.Y.) is taking steps to stop TV from taking over the sports it covers, reports an article in the current issue of SPORT Magazine.

In the article, Representative Ottinger outlines some of the abuses that have led to the formulation of the Dingell-Ottinger-Moss bill, which he is co-sponsoring with Representative John D. Dingell (Dem.) of Michigan and Representative John E. Moss (Dem.) of California. The bill is designed to impose strict federal controls on the network TV practices and curb the following abuses.

Rep. Ottinger list a Pittsburgh-Toronto soccer game in which 11 phoney "fouls" were called to stop play and create time for commercial announcements; the Syracuse - Penn

The Sunday Brand, Hereford, Texas, Sun., Aug. 13, 1967

State game last December in which the start of the game was delayed 45 minutes to allow TV to draw a larger audience, and in which the final few minutes were played in the darkness of a stadium without lights, and a typical pro basketball game in which the TV ground rules provide that the home team must call one time-out during the fifth and sixth minutes of action, while the visiting team must call time during the tenth and eleventh minutes, regardless of the strategy dictated by the situation.

The Dingell-Ottinger-Moss bill outlined in SPORT Magazine, is intended to prevent TV's encroachment on sports, and on the viewer's enjoyment of televised sports in these ways: (1) Television will be prevented from "rigging" games simply to put in the required number of commercials. In other words, no more phoney TV time-outs. (2) Networks will be barred from ob-

taining controlling interests in sports franchises. (3) TV "black outs" will be permitted only in the host city, but not in surrounding areas.

What did in the dinosaurs is one of the most tantalizing riddles of paleontology.

Earthquakes breed among the Andes Mountains.

Visitors going through a large lumber mill in the Pacific Northwest may see how bark is blasted off logs with high-pressure jets of water. Wafer-thin veneer is swiftly peeled off logs with a sharp saw.

The harp is one of the oldest of all instruments. There are carvings of harp players on Egyptian tombs, and a Sumerian harp of 2500 B.C. has been found in Iraq.

Regina, Saskatchewan, is named for Queen Victoria. The Indian name was Pile of Bones.

MANDRAKE THE MAGICIAN

BY LEE FALK

The PHANTOM

By Lee Falk

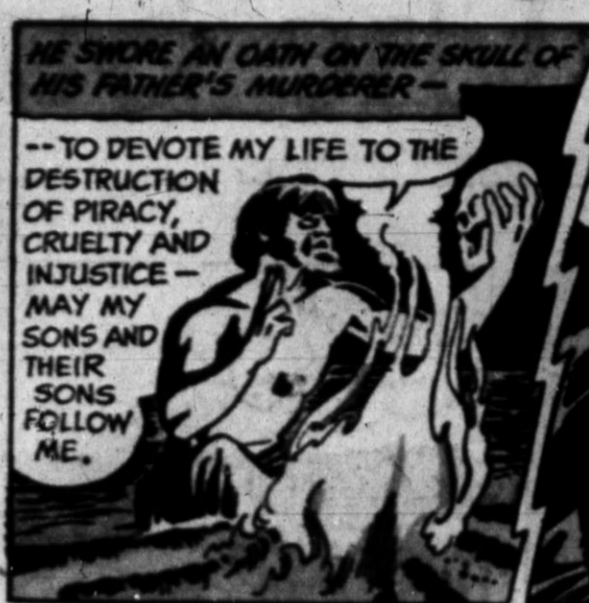

FOR THOSE WHO CAME IN LATE -

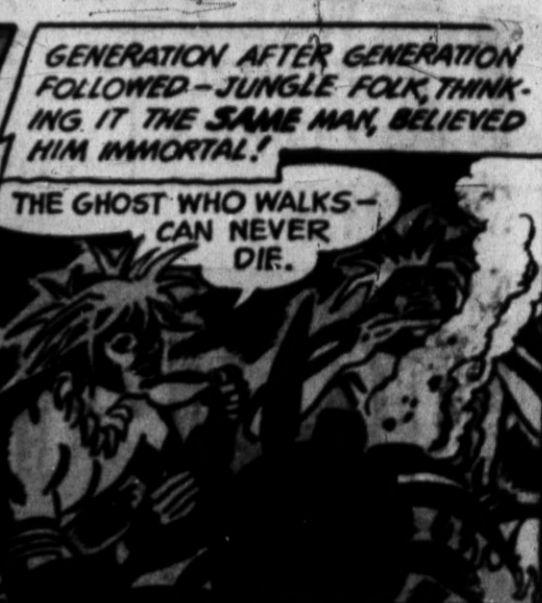

400 YEARS AGO - SINGH PIRATES ATTACKED AND DESTROYED A GREAT SAILING SHIP IN THE BAY OF BENGALI.

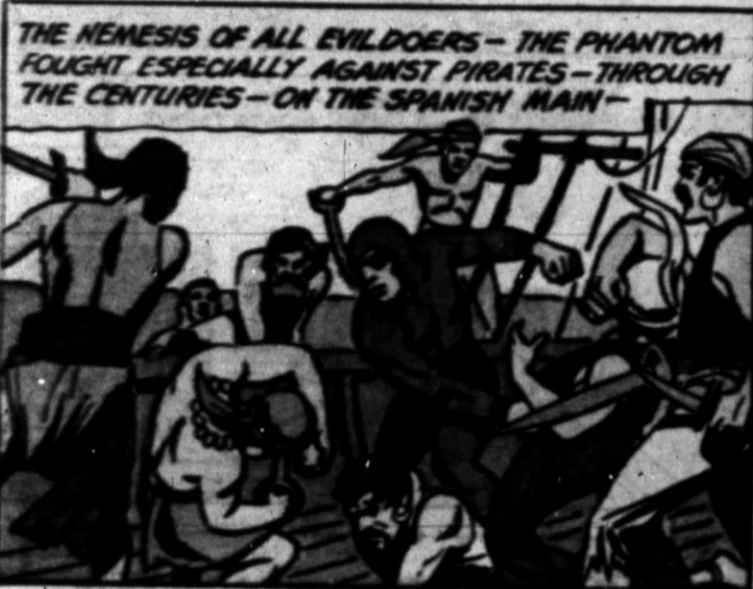

-THE SOLE SURVIVOR WAS WASHED ASHORE ON A REMOTE BEACH WHERE HE WAS FOUND AND SAVED BY FRIENDLY PYGMIES. THIS WAS THE FIRST PHANTOM.

HE SWORE AN OATH ON THE SKULL OF HIS FATHER'S MURDERER -
-- TO DEVOTE MY LIFE TO THE DESTRUCTION OF PIRACY, CRUELTY AND INJUSTICE - MAY MY SONS AND THEIR SONS FOLLOW ME.

GENERATION AFTER GENERATION FOLLOWED - JUNGLE FOLK, THINKING IT THE SAME MAN, BELIEVED HIM IMMORTAL!
THE GHOST WHO WALKS - CAN NEVER DIE.

THE NEMESIS OF ALL EVILDOERS - THE PHANTOM FOUGHT ESPECIALLY AGAINST PIRATES - THROUGH THE CENTURIES - ON THE SPANISH MAIN -

EVEN ON MODERN LINERS - AS LONG AS SHIPS CROSS THE SEA - THERE ARE PIRATES TO PREY UPON THEM.

NOW - NEW LINERS ARE CROSSING THE SEVEN SEAS - THE SUPER-JETS - AND WITH THEM - NEW-AGE PIRATES!
EVERYTHING READY?

YES, IT'LL BE A CINCH.

BEGINNING: THE SUPER-JET GANG

BRINGING UP FATHER

by BILL KAVANAGH & FRANK FLETCHER

MAGGIE, I THINK I'LL FORGET ABOUT SAVING MONEY AND HIRE A BUTLER -
I THOUGHT YOU'D COME TO THAT DECISION -

I'LL CALL THE AGENCY RIGHT AWAY -

A BUTLER IS HERE, DEAR -
I'M BUSY! GO AHEAD AND HIRE HIM IF YOU LIKE HIM -

-- ONLY I HOPE HE'S A BETTER-LOOKING TYPE THAN THE LAST ONE YOU HIRED!

I GUESS YOU'RE THE NEW BUTLER --

OH, IT WAS THAT GUY - ON TV TALKING -

LOOK, LENA -- THE GUY WHO PICKED OUT THE CAST FOR THAT SHOW MUST BE STUPID -

-- IMAGINE A BUTLER WORKING FOR ANYBODY AS DUMB-LOOKING AS THAT!
