

Fallen Tree Saves Two Boaters

Only a tree prevents two men in a small motorboat from being swept by the rain-swollen St. Joseph River over a dam in South Bend, Ind. Louis Lanthier, 25, is over the side, clinging to the fallen tree. Curtis Miller, 23, grasps a rope floated down the river from a fire department rescue boat. The two were taking the boat out for a trial run when the motor failed. They drifted helplessly toward the dam. Riverbank witnesses called the fire department for the rescue.

House Locked In State Park Hotels Debate

AUSTIN (AP)—The House remained locked today in debate over Rep. Charles Murphy's plan to give state backing to hotel projects in state parks.

The bill, calling for the state to validate up to 25 million dollars in revenue bonds, ran into a block of amendments offered by opponents in what Murphy called an attempt to kill the bill.

Reps. Ben Atwell of Hutchins and J. W. Cooper of Corpus Christi continued their attacks on the measure, telling the House that the bill allowed the State Park Board to take authority it did not have and that the measure was not economically sound.

Atwell called for a change in the bill exempting all state parks except those where hotels are built from responsibility for the bonds. His proposal was defeated by the House 82-58.

Cooper offered an amendment exempting the state parks around Corpus Christi from responsibility. It was tabled 74-53.

Murphy, from Houston, told the House the measure would not benefit his district but would help the whole state by improving the state park system.

Rep. D. B. Hardeman of Denison argued against the Atwell and Cooper proposals, saying that the state park system is for the benefit of the entire state. "It removes one of the state's liabilities," he said, "and takes one part of the state out of the Gilmer-Aikin school program," Hardeman said.

On a so-called "local and uncontented" calendar, the Senate passed and sent to the governor 17 House-approved bills.

Also passed and sent to the House were seven Senate bills and four House-passed bills to which the Senate affixed amendments requiring further House consideration.

Twenty resolutions were also passed. Sixteen of them were House resolutions, 10 of which were returned to the House with amendments.

Among the measures sent to the governor was one to prohibit intoxicants in any athletic stadium or field event sponsored by public schools.

The House also had a local calendar scheduled after lunch. It was still arguing the parks bill at noon.

Atwell told the House that the 47-unit state park system would be forced to establish or maintain admission fees at all parks in order to insure the bonds if the hotels failed to make money.

He called the hotels "seasonal" operations which would not make enough money to retire the revenue bonds. Atwell also questioned the authority of the park board to issue the bonds in the first place.

The second and last of the immunization bills, including tentative approval of the so-called "Ford bill" halting unemployment compensation to workers thrown out of work by strikes and other labor disputes involving workers in the same union or general class of workers.

By Sen. George Parkhouse of Dallas, the bill got its name because it grew out of a work stoppage at the Ford Motor Co. plant in Dallas caused by a labor dispute in a Ford plant in Michigan. When the Michigan plant stopped supplying parts to other factories, the Dallas plant was forced to cease operation.

Saigon Burns As Civil War Rages

CASE FOR A GUMSHOE

CHICAGO (AP)—Gumshoes from the Maxwell Street police district have solved the big bubble gum mystery. They rounded up nine lads, aged 7 to 13, gave them a good talking to and freed them yesterday.

The Toops Gum Co. of Brooklyn had advertised it would give prizes for coupons packed with the company's bubble gum. For \$1.750 coupons a child could get a bike, for 125 a knife.

A few days ago stacks of coupons began flowing into the company—all from one neighborhood in Chicago. The company became suspicious and notified police.

Prospective prize winners were rounded up and related one of the group a year ago had broken into a Chicago paper company that had printed the coupons.

U. S. Friend Vows End To Private Army

SAIGON, Indochina (AP)—Flames burned a square mile of Saigon tonight and hundreds were killed or wounded in bloody fighting for control of South Viet Nam's government.

The American-supported Premier Ngo Dinh Diem declared war to the finish against the rebel Binh Xuyen society after a triple attack on Diem's palace, army and police headquarters.

Three battalions of Nationalist infantrymen and parachute troops, supported by tanks, pressed the attack on the 5,000-man private army.

At nightfall, with Saigon under a pall of smoke, the Premier appealed to the government radio for calm. He said the government troops had the situation in hand.

He accused Binh Xuyen Gen. Le Van Vien of touching off a civil war and disobeying an order from Chief of State Bao Dai to refrain from violence.

After six hours of fighting the army said it had disengaged the Binh Xuyen from both Nationalist army headquarters and the headquarters of the National Surete, or security police, where there had been some hand-to-hand fighting.

Massed Nationalist forces were pressing the Binh Xuyen back toward the bridge which leads to their territory in Cho Lon, about seven miles from the French residential business area.

Binh Xuyen, a society of former river pirates, which controls Saigon's gambling and vice spots, started the battle at 1:10 p.m. with two mortar bombardments of the Nationalist Premier's palace.

Diem met the challenge promptly by declaring all-out war on the Binh Xuyen. He had held off direct military intervention because of French fears such action would touch off civil war.

Initial fighting appeared to be favoring the well-equipped Diem forces, which outnumber by far the estimated 5,000 men of the Binh Xuyen.

Casualties were estimated in first reports at 120 dead and 300 wounded. Hospitals were filled with the dead and dying.

Fighting was hotly and hard. Diem's troops knocked over four principal garrisons and posts held in Saigon and Cholon, the Chinese sector of the capital's several miles from the French section. The total population of the city, swollen by an influx of refugees from the North, is about two million.

The Nationalists threw an artillery barrage against the Binh Xuyen headquarters near Cholon.

This, in brief, is the background behind the struggle for control of non-Communist South Viet Nam, upon which the West and particularly the United States is counting to hold the tide against the Communist North.

The Binh Xuyen, along with two religious sects, the Hoa Hao and Cao Dai, have been demanding that Diem quit in favor of a coalition in which they would have increased representation. Diem had refused. Last March 30 the Binh Xuyen touched off an attack in which at least 25 persons were killed. A truce ended that fighting, but Diem did not relent in his efforts to put his government in complete control. To gain that control Diem sought to take over the security police, called the National Surete, from the Binh Xuyen.

Today's fighting broke out within 90 minutes of a deadline set by army Col. Nguyen Ngoc Le to get the Binh Xuyen troops off the streets. Le was named head of the surete two days ago by Diem. An American source who refused to be named commented:

"Diem must meet this challenge firmly and with force. If he stops now he might as well resign because he will not be able to govern later."

Although the French had opposed direct military action against the Binh Xuyen, the Premier's secretary said Diem gave the order to attack after consulting with Gen. Paul Ely, the French commissioner general.

The Premier ordered the army to attack after two mortar bombardments of his palace. Previously Diem had withheld the command to fire because the French feared it would touch off a civil war.

WHAT TO WEAR? All That And Still She's Undecided

WASHINGTON (AP)—The 1955 Maid of Cotton, with 35 brand new dresses—all of cotton, of course—still has woman's eternal problem of what to wear.

"A woman always has trouble deciding what to wear," is the diplomatic explanation of Miss De Lois Faulkner, 20, 5 feet 6 1/2, 119 pounds, blonde hair, blue eyes, dimpled, from Sallisaw, Okla.

She is billed as the ambassador of cotton, the 17th Maid of Cotton to advertise the cotton industry.

"I met the second Maid in New Orleans in February," she said. "And she was lovely, still was wearing dresses from her Maid of Cotton wardrobe. And she told me she has seven children. Seven?"

Miss Faulkner arrived in Washington with all 22 pieces of luggage—brown and white checked, cotton-treated. One big suitcase carries nothing but petticoats.

"It's really a sensation when we get off the plane," she told interviewers.

Two young women from the National Cotton Council headquarters in Memphis are on a tour with the Maid.

Washington is the half-way point of the tour that ends in July with two weeks in Paris, France.

The Maid's wardrobe is the work of leading American fashion designers. She gets more dresses—of cotton, of course—from French designers in Paris.

Cotton states congressmen held a reception for her last night. She has coffee at the Capitol today with more congressmen and three fashion-shows later in which to model.

Medics Watch 1,000 Children As Vaccine Probe Continues

By The Associated Press

Doctors kept a careful eye Thursday on more than 1,000 Texas children who received questioned Salk polio vaccine made by the Cutter Laboratories.

Pharmacists in the state estimated the number of children injected with the Cutter vaccine may number more than 1,000. Private physicians were the only ones who received this vaccine. No child in the school injection program received the questioned vaccine.

Use of the Berkeley, Calif., firm's anti-polio product was ordered suspended Wednesday by the U. S. Public Health Service. At least eight children had been reported as having contracted polio after taking the Cutter shots.

Health authorities said there was no indication the shots caused the disease, however. The suspension was made by the federal government as a precautionary measure.

After a spokesman for the Cutter firm said in Dallas that some of the suspended vaccine had been distributed in Texas, Houston pharmacists estimated that between 500 and 1,000 Harris County children had received Cutter shots.

In Tyler, a survey of physicians showed an estimated 300 to 300 children in that East Texas area had been injected with the suspended vaccine.

The Austin American said between 120 and 150 youngsters in the Central Texas area had received the Cutter vaccine injections.

Other distributions of Cutter poliovaccine were made in Corpus Christi, Taft, and Kingsville. But there was no estimate as to how many shots had been administered in those localities.

The first Cutter shots were given in Tyler, the Tyler Telegraph said, on April 13. There have been no reports there of any child taking the vaccine and later contracting the disease.

At Austin, Ted Deeming of the Texas Pharmaceutical Assn., said the amount of the vaccine distributed in Texas and the nation must have been slight. Only one per cent

Mickey Jelke Gets 3-Year Prison Term

NEW YORK (AP)—Mickey Jelke today was given a prison sentence of two to three years on his conviction in the cafe society vice case.

The sentence was imposed on the young heir to an oil and gas fortune after a 12-minute plea by defense attorneys for leniency.

Jelke, who was tried twice, was convicted of inducing Pat Ward to live a life of prostitution and of attempting to induce Marguerite Cordova to do the same.

His first conviction was thrown out because the trial judge excluded press and public during presentation of prosecution testimony.

The sentence given in the second trial was less than that imposed after the first—three to six years. He could have received a maximum term of 40 years. Jelke is 25 years old.

Judge Francis L. Valente, who heard both trials, said before the sentencing today that there never had been any question of Jelke's guilt.

Storm Threat Not Serious

By The Associated Press

A four-hour alert for severe thunderstorms in North Texas ended without incident at 5 a.m. Wednesday, but it looked like the weather was feinting the observers.

The thunderstorms skipped the area alerted—bounded by Dallas, Wichita Falls, Denison and Mineral Wells—but rocked the Lufkin and Beaumont areas of Southeast Texas most of the night.

During Wednesday afternoon, rain, wind and hail struck Perrin Air Force Base in Grayson County. Dust, symbol of despair for drought-weary farmers and ranchers, rolled again into the Panhandle Wednesday night.

Slightly cooler weather for most of the state Thursday was expected to drop maximum temperatures below Wednesday's highs, ranging from Presidio's 96 to 76 at Alice and San Antonio.

Polio Vaccinations To Go On As Planned In County

Continuation of the Salk polio vaccine shots for first and second graders here will be controlled by supply and not by reports from some areas of a few polio cases among youngsters who had been inoculated.

Vaccine made by the Cutter Company in California has been ordered withdrawn by public health officials pending a double-check. They emphasized that it had

Chou Last To Leave After Bandung Meet

JAKARTA, Indonesia (AP)—Red Chinese Premier Chou En-lai left home by air today after several days of talks with Indonesian officials. He was the last of the top delegates at the Bandung Asian-African conference to go.

Slightly cooler weather for most of the state Thursday was expected to drop maximum temperatures below Wednesday's highs, ranging from Presidio's 96 to 76 at Alice and San Antonio.

HCJC BOND ISSUE Expansion Cost Average Is Low

Howard County taxpayers can double the size of their junior college almost without noticing the cost.

The proposed \$600,000 bond issue, which will provide for doubling the size of the HCJC plant, can be retired for an additional tax levy of 10 cents per \$100 of property valuations. And valuations for that purpose are the same as those for county tax purposes—extremely low.

Authority for increasing the total tax levy from 50 cents to 60 cents per \$100 valuation and authority for issuance of the \$600,000 in bonds are the two propositions on which voters are asked to pass Saturday.

For the average taxpayer in the county, additional taxes which will be required to retire the bonds will amount to about \$2 to \$3 per year. That applies to city dwellers as well as farm owners.

The average city home (in the two- or three-bedroom class) is listed on the county and HCJC tax rolls at a value of from \$2,000 to \$2,500. For the owners of these, the 10-cent tax levy would amount to \$2 to \$2.50 per year.

Virtually all farm and ranch land in the county is listed on county and junior college tax rolls at a value of \$4 or \$5 per acre. Consequently, the owner of a half-section farm or ranch would be

Mansfield-Fort Match Set Here

Two former world champion calf ropers, Toots Mansfield of Big Spring and Troy Fort of Lovington, N. M. — will meet in a matched event here May 6.

Mansfield was seven times champion roper, a record which has been approached by no man. Fort, acknowledged as one of the greatest ropers of the country as well as the Southwest, held the title for three years.

They are being presented here under the lights at the Big Spring Rodeo Bowl at 8 p.m. next Friday under auspices of the Howard County Roping Club. Tariff will be 40 cents and \$1.20.

Each of the contestants will rope 10 calves.

In addition to the main event, there will be a jackpot roping contest in which participants put in an entry fee and the man with fastest time takes the pot.

Clean-Up Drive Is Unproductive

Indications are that trash gathered during this year's clean-up campaign will be less than half the amount picked up last year, said R. V. Foresyth, superintendent of the city street department.

Final count on the loads gathered should be available Saturday, Foresyth said. Special pick-up routes should be completed by then.

Wednesday only 28 loads of trash were hauled from residences here, it was pointed out. This is considerably lower than the daily average during last year's campaign.

Last year's record campaign yielded 617 loads of trash, according to the records at City Hall. Trucks had to spend a week extra on the scheduled routes to pick up all the clean-up debris moving.

This year trucks have been mobilized according to schedule the load has been so light. One truck was finishing up in Edwards Heights today and another was on the route in the Lakeview Addition.

Better Kinky Than None

OKLAHOMA CITY (AP)—Joe Hamilton didn't like his kinky hair but he's convinced that it is better than what he's got today—none at all.

He told officers he tried a friend's solution to straighten kinky hair and came out with a bald, baked hoggin. But he said he didn't want his friend, Leon Stamps, prosecuted. He said he would be satisfied if Stamps would pay the hospital bill and find some other solution to get his hair back.

The solution: Marshbed potatoes, petroleum jelly, soap and lye.

Chicago Fires Claim 12 Lives

CHICAGO (AP)—Separate fires in a hotel and an apartment building claimed at least 12 lives today.

The bodies of eight victims, including that of a fire captain, were recovered from ruins of the Green Hill Hotel. The other four victims, including three children, died in the apartment house blaze.

Twenty-two residents of the four-story hotel, near downtown Chicago, leaped from upper floors of the hotel and were injured.

And The Sheep Doesn't Even Pay

GRAND JUNCTION, Colo. (AP)—Shearing a sheep takes less time than shearing a man, Carl Charlesworth, a barber who clips sheep in his off hours, says it takes four minutes per sheep while a haircut takes 20.

Coahoma Phone Rates To Go Up, Dial System Is Planned

COAHOMA, (SC)—An increase in Coahoma telephone rates will go into effect Sunday.

In most instances, the rate hike amounts to about \$1 per month per telephone, said R. J. Caudle of the Coahoma Telephone Company. Purpose is to install dial telephones, he stated.

"We should have new dial telephones in the Coahoma, S and Springs vicinity by early 1956 or sooner," Caudle announced.

The new monthly rates will be as follows: \$6 for one-party business phones, \$4.50 for two-party business phones, \$2.75 for four-party residential phones, and \$3 for rural phones.

The exact increase in rates is impossible to figure, Caudle stated, as individuals now receiving service pay different rates. Some people having one-party residential phones are now paying \$1.50, some \$2 and others \$2.50, he said.

"There just was not a standard rate," Caudle stated. "The change will mean that everyone receiving the same service will pay the same rate. It is better for everyone."

The Coahoma City Commission approved the rate hike on the 14th of April, he said.

At the present time there are between 250 and 300 telephones serviced by the company, and Caudle states that he expects to install others after the dial system is initiated. There should be around 300 in the near future, he said.

Coahoma and Sand Springs residents have not been able to get phones recently, and they will probably have to wait on the dial system before others are installed. Applications cannot be received before Monday, Caudle said.

Reich Treaties Get Final Okay

THE HAGUE, Netherlands (AP)—The Paris treaties cleared the final parliamentary hurdle today. The Dutch Senate approved the pact—previously ratified by the legislatures of all 14 other countries affected—to rearm West Germany for Western defense.

The West Germans expect the Allied occupation to end, and their sovereignty to be restored, early next month. Their enrollment in a seven-nation Western European Union and in the North Atlantic Treaty Organization is planned for meetings scheduled to begin in Paris May 7.

Patient Puts Bite To Bed Rent Firm

BALTIMORE (AP)—Bed bugs that allegedly came in a rented hotel bed and worked their way into a patient's leg cast are the subject of a \$50,000 damage suit filed in Superior Court.

Mr. and Mrs. Ella Cohen and their son Thomas brought the suit against Earl W. Wolverton, who rents beds, stretchers and other hospital equipment.

Hirohito To Celebrate His 54th Birthday

TOKYO (AP)—Emperor Hirohito celebrates his 54th birthday tomorrow. The day is a national holiday with business offices and schools closed.

Coal Town Striken By Railroad Walkout

HARLAN, Ky. (AP)—This community's economic heart died March 14.

The Louisville & Nashville Railroad was struck that day and one of the first casualties was Harlan County's 6,500 coal miners.

All are out of work. They're worried; the operators are worried; and some businessmen are preparing for a slump.

Since he is losing \$18.75 a day in wages, the miner must fall back on unemployment compensation—\$23 a week. Before the strike the county's average claim load was about 2,000 cases a month. Now it is four times greater.

Most of the coal firms are helping by extending credit to their men at the company stores. Some \$4-\$5 a day.

Privately, some miners will admit their sympathy lies with the strikers. When the coal mines were strike-bound during the war years, it was the railroaders who suffered.

What about the miner's boss? "Until March, our picture looked better than it had for two or three years," says George S. Ward, secretary of the Harlan County Coal Operators Assn.

"We had prospects of increased shipments to the Great Lakes but the strike has gone on so long, some firms have lost these orders."

The Harlan field ships 8 million tons or more of coal a year and

FISHERMAN'S

Here This Evening

Southern Methodist University's renowned Seminary Singers will make their appearance in Big Spring at 7:30 p.m. today at the First Methodist Church. There is no admission charge and the entire community is invited, said Dr. Jordan Grooms, pastor. The singers are under the direction of Dr. Fred D. Gealy, professor of church music and New Testament at Perkins School of Theology, SMU. Dr. Gealy is minister of music at University Park Methodist in Dallas. The program this evening will include types of all the more important historic schools of music.

HARD OF HEARING

3 Million Children Believed Afflicted

EDITOR'S NOTE—National hearing week begins May 1. This first of a two-part series tells of a handicap under which at least three million suffer—and how you can make sure that your child is not among them.

By JOY MILLER
NEW YORK (U)—At least three million schoolchildren have impaired hearing.

The trouble with these statistics is that they tell us how many—but not whom. We don't always know if it's Johnny Jones or Mary Smith who needs help.

Why? The American Hearing Society got the three million figure by applying the number of children with impaired hearing in certain tested areas to the total school population across the country.

If Johnny or Mary happen to live in one of the 24 states where hearing tests are not required by state law, their deficiency might go undetected indefinitely.

You'd be surprised how many youngsters are trying to live normal lives with a hearing impairment no one knows about or admits. They are often called inattentive, unmanageable, even stupid. Either they think they have normal hearing or they are too sensitive to tell anyone.

Billy was one of the latter. And his is a more or less typical case: He was a shy, quiet child, of a large family. After scarlet fever at 3 he became even more reticent. Often he didn't respond to directions from his parents. His father thought he was disobedient and should be spanked.

"He's not a bad boy," his mother always would say. "It's just Billy's nature to be absentminded. Maybe he'll outgrow it."

The next time she told him to do something she almost shouted. Billy heard her and did the errand. So his mother concluded that if you just impress it on Billy, he'll do what you say.

When Billy started to school he didn't play much with the other children. Since he was a bright lad he managed to do passing work in his overcrowded class.

Once when he saw the teacher ask him a question he said timidly he hadn't heard her. She smiled at him reproachfully, said, "How could you, Billy? You weren't listening." After that he just shook his head that he didn't know the answer.

Billy lived in a state that left the problem of hearing tests up to the individual communities. When he was 9 his town's school board decided to institute audiometer tests.

He was found to have a serious hearing impairment, stemming from an infection that didn't clear up after scarlet fever. With a hearing aid, he is at last able to hear everything said to him. There is hope too that proper medical care will improve his natural hearing.

Not every case has such a happy ending. Even if there is a state law requiring testing, and even if it is properly enforced, treatment does not automatically follow.

"The weakest point at present is not in the testing program, but in the follow-up," says Mrs. Eleanor Ronnel, head of the educational service of the New York League for the Hard of Hearing.

"You test, you put a card in

the file, and you go somewhere else to test. But what happens after you leave? Do the parents and schools follow up what you've told them? That's the crux of the problem."

Even this may be too late to avoid permanent impairment, says Dr. Edmund Prince Fowler Sr.

"The mother is the logical person to notice impaired hearing," Fowler maintains. "And she should do it long before the child enters school. All she'd have to do is put him in the next room and speak to him and see if he acts like other children. Then she'd know. But some parents won't face it."

Dr. Fowler, a pioneer in hearing conservation, helped invent the audiometer more than 30 years ago. Here are some tests he suggests for mothers to use in simple home checks every few months:

1. Does your baby react to sudden noises like a telephone ringing, a door banging, loud clapping of hands, dogs barking? He should, with normal hearing.

2. Does your baby react if you suddenly come into his line of vision, as if he hasn't heard you enter the room? This would indicate impaired hearing.

3. Are there discharges or odors from your child's ear, or deformities or swellings in or about the external ear canal? These are danger signals.

4. If your child is old enough, does he respond to spoken directions while he is out of sight in another room? He should, if he can hear satisfactorily.

5. Is he learning to talk normally and is his voice natural? Children learn to talk from hearing others talk. If they can't hear properly, they obviously won't be able to talk properly either.

A Bible Thought For Today

Wherefore in all things it behooved him to be made like unto his brethren, that he might be a merciful and faithful high priest in things pertaining to God, to make reconciliation for the sins of the people. (Heb. 1:7).

Editorial

Negotiate But Take Safeguards

It became reasonably certain this week that there would be talks between the U. S. and Red China regarding the Formosa issue. U. S. diplomatic maneuvers were shaping up to that end, and in Peiping a radio broadcast declared that direct negotiations between the two are "necessary" to relax tensions over Formosa. But Peiping declared that the U. S. was "putting forth unreasonable prerequisites for such negotiations."

Farmer Not Only One To Suffer

Complaints and suggestions of many kinds put before Secretary Benson's ears as he toured the dust bowl area this week to determine the extent of damage inflicted by drought-born duststorms. Some blamed "unwise farmers" who move in when conditions are good for crops and prices are reasonably stable, to make a quick killing by large scale mechanized farming. Nobody mentioned those who make a quick dying in that particular gamble.

Marquis Childs

Dulles Cannot Be Restricted By Home Ties

WASHINGTON — Red China's offer to negotiate with the United States may have been no more than a tactical move in the propaganda war. But if it had been a genuine effort to get together to ease the tensions threatening war in the Far East, the U. S. would nevertheless have found it difficult, if not impossible, to enter those negotiations.

Sun Heats Stove

BEIRUT, Lebanon (U) — Poverty-stricken people in the Arab world soon will be able to take advantage of their most abundant natural resource — sunshine. Dr. Adnan Tarcici, has invented a cooking stove which uses the sun's rays. An Egyptian firm has contracted to turn out 25,000 stoves yearly.

Salt Lake Food

SALT LAKE CITY (U) — America's "dead sea," the Great Salt Lake, is a source of food for humans and tropical fish.

Table salt is obtained by pumping lake water into shallow basins and allowing it to evaporate. Food for tropical fish comes from tiny brine shrimp which grow in the salty waters, mostly along the shoreline. These are gathered and shipped to many parts of the world.

declared the presence of the Nationalists should not prevent peace talks between Washington and Peiping. Meantime, Assistant Secretary of State Walter Robertson visited the island of Quemoy while his companion on the Formosa jaunt, Adm. Radford, chairman of the Joint Chiefs of Staff, reportedly stayed in bed nursing a cold. The Nationalists were pictured as greatly agitated and confused, though the Robertson-Radford call was beginning to be pictured as a fact-gathering and inspection trip, rather than an effort to induce Chiang to fall in with the cease-fire idea.

the farmers about broken spirits, the secretary should reserve some of his sympathy for the city dwellers who are dependent upon the farmer for everything they eat, and for a lot of the clothing they wear. Unfortunately some urban "experts" on farming, as represented in Congress, have been guilty of picturing the farmer as self-centered and profit-hungry, the sort of economic buccaneer who would snatch the very bread from the city man's mouth.

Chou's offer would lead to negotiation and a peaceful settlement. It was just a year ago that Secretary of State John Foster Dulles entered a conference at Geneva over Indochina, with Chou heading a delegation from Peiping. At that conference Dulles was under a grave handicap.

He would enter any conference with Red China under precisely the same handicap, knowing that such a step would mean a wider breach in the Republican Party. Partisan politics to one side, the whole Formosa issue has been so inflamed that the Secretary's range of negotiation in such a conference would in any event be extremely limited.

To enter another conference as Dulles faced at Geneva — his lips sealed and his hands tied — would be fatal. If it is not possible to solve a bargaining position for the U. S., then it would be almost better not to enter such a conference. The position of Sen. Knowland is at least logical — he wants no negotiation of any kind or condition.

This means primarily, in the view of this observer, that Secretary Dulles must show greater independence of action. He cannot expect to please everyone at home and at the same time maintain America's position of responsibility and leadership in the non-Communist world. In other words, there are hazards of unpopularity that a Secretary of State must risk.

"All Men Come To The Party"

James Marlow

Knowland Lacks Faith In Ike Strength

WASHINGTON (U)—Sen. Knowland, Republican Senate leader, has repeated misgivings that if this country tries to talk peace face to face with the Communists it may lose its shirt. This hardly indicates full confidence in the Eisenhower administration's ability to come out even in dealing directly with the Reds.

Hal Boyle

Hospitality War Was A Draw

NEW YORK (U)—America introduced a secret weapon to win a draw with the Russians in an odd hospitality war fought along the Elbe River 10 years ago. That weapon, it now may be revealed, was Kentucky's bottled breakfast of champions — 100-proof bourbon.

Destitution

TOKYO (U)—Police today estimated that at least 300 teen-age girls had been sold into prostitution in Tokyo in the past four months, a number of them by destitute parents or relatives.

T-View Of Home Life

TOKYO (U)—Japanese will see on TV and theater film this fall how the imperial family lives at home.

Mr. Breger

"Ladies and gentlemen—a rather simple melody of my own composition"

Around The Rim

If It Goes Up, Must It Come Down?

You can look for the high cost of hospital care to go even higher. That's according to Ray Brown of Chicago, the new president of the American Hospital Association. Brown said that as the price index goes up, hospital costs are going up, too. And he expects the price index to go up some more—call it prosperity, inflation or whatever you like.

hospital. Ten days of treatment along the most expensive route could be more economical than 20 days in the hospital with the less costly types of treatment. Hospitalization, across the nation, now averages out at about \$20 per day per patient. Brown says the rate will be a little higher in the big cities, a little lower in the rural areas.

David Lawrence

Propaganda Is Weapon That Weakens Us

PARIS — The "cold war," which has brought varying degrees of tension since 1954, appears on the surface to be entering a period of less tension, but actually the very opposite is true. As the chances of a "hot war" are reduced, the maneuvers in the "cold war" are intensified.

Broadly speaking, the Communists are winning ground constantly. This is not because of the strength of their own appeal but because of the lack of solidarity of the Western governments, which in turn are being weakened from within by selfish men who would rather win an election than stop the undermining tactics of the Communists.

The United States, of course, also suffers from this malady. While the Democrats, who are in control of Congress, are recorded in formal action as supporting the government, such belittling and snide comments as were delivered recently by Messrs. Truman and Stevenson and concurred in by various Democrats in Congress do not help American prestige abroad.

This is a war and, though it is called a "cold war," it is nonetheless a war in which the risks are great and the dangers to America cannot be underestimated. Yet the number of Americans whose writings and utterances are reproduced constantly in the European press and who repeatedly cast aspersions on the sincerity as well as the intelligence of the topmost officials of the United States government is astonishingly large and creates no end of mischief in a "cold war." It all adds up to a thousand times more damage than the things for which McCarthy was berated by his critics.

Hollywood Review

Little Strips Of Cloth? Fah!

HOLLYWOOD (U) — Anita Ekberg, a blonde Venus from Sweden, today lamented that Hollywood covers up a girl's best assets.

Miss Ekberg, who was Miss Sweden of 1952, is filmland's latest sexbait. Her cheesecake is being broadcast in a volume that recalls the early days of Marilyn Monroe. Unlike Miss Monroe, she is a talkative type and excites easily. Her latest passion is what she considers an unfair cover-up.

"It's ridiculous!" she exclaimed. "When a girl comes to Hollywood, the first thing she is asked is her measurements. If she happens to have a good figure, the men whistle and carry on. The wardrobe women marvel about how great it is to have such a fine figure to dress."

"So what happens? If a girl has a beautiful bust with a nice curve to it, she shouldn't be covered up. She should be allowed to show her beauty. I don't mean that we should go around with nothing on above the waist. But she shouldn't be completely hidden either."

"The whistle at a pretty girl is an international language," she said. "Boy in this country men whistle at girls with more of an evil intent."

\$2,755 Budgeted For Legal Services

The City of Big Spring has only \$2,755 budgeted for legal expenses during the 1955-56 fiscal year, which started April 1. This is about 11 cents for every resident.

Salaries and wages are listed at \$2,530, supply costs are pegged at \$25, miscellaneous services are tabulated at \$175, and contributions are estimated at \$25.

The salaries include two-thirds time of the city attorney for the year, which is \$2,450, and employment which the city must set aside, \$122. Miscellaneous services include communications, insurance, travel, dues, and bonds.

Carrier Sails

YOKOSUKA, Japan (U)—The aircraft carrier Kearsarge, which operated with the 7th fleet, sailed for San Diego Wednesday, ending her third tour of duty in Far East waters.

girls appear nude on the beaches up to the age of 8 or 10. I think it's ridiculous to see 8-year-old girls at the beaches bare wearing pants and little strips of cloth across their chests."

—BOB THOMAS

The Big Spring Herald

Published Sunday morning and weekday afternoons except Saturday by AFFILIATED NEWSPAPERS INC. 500 Main St. Dallas 4-1311 Big Spring, Texas Entered as second class matter July 16, 1938, at the Post Office at Big Spring, Texas under the act of March 3, 1879.

Rainmaking Test Blamed For Floods

ALBUQUERQUE (AP)—The man who fathered the science of making rain said today he believes armed forces experiments may have caused the disastrous Missouri Valley floods of June 1952.

Dr. Irving Langmuir, a Nobel Prize winner and consultant for General Electric Co. experiments with rainmaking, also declared:

1. An Air Force test on a tornado off the eastern coast Oct. 11, 1947, may have turned the twister off its course and pushed it into Savannah, Ga., with damage of five million dollars.

2. There is evidence that rainmaking in some areas may create drought in others.

Langmuir was interviewed while attending the International Arid Lands Symposium, where scientists from 18 nations are seeking answers to the rapidly growing arid regions which already cover a third of the earth's land surface.

He declared that he thinks now—and insisted at the time—that a single silver iodide generator operating at Alamogordo, N. M., under Project Cirrus caused the steady downpours which drowned the Missouri Valley three years ago.

"We had been seeding for some time, and the storms kept getting bigger and better. I told them (the armed forces heads administering the project) that I felt we ought to stop seeding as the rains in the Missouri Valley kept falling."

"But the administrator of the project was on vacation at the time. No one would take responsibility for ordering the seeding stopped.

"Finally, I told them we must stop, things were getting serious. We stopped on July 2. On July 7 the flood just about devastated Omaha."

Langmuir explained how a lone cloud generator in New Mexico could affect the weather so far away: The silver iodide particles are sent into the air, say, in New Mexico. Winds from the west-blow them across the Mississippi, where they come in contact with moist air masses coming in from the Gulf of Mexico.

A particle of silver iodide about the size of a pencil dot is enough to affect a cubic mile of air weighing 100 million tons, Langmuir said. Once a storm has been started, it triggers other storms. And if the cloud seeds is restarted at intervals, you get rain at about the same intervals.

"If we had stopped our generator two weeks earlier," Langmuir said, "the Missouri Valley floods would not have happened."

Langmuir said that on Oct. 17, 1947, an Air Force plane seeded a tornado heading north off the East Coast. The twister turned 130 degrees, "which the Weather Bureau said was impossible," and smashed on to Savannah.

"There was not one chance in 7,000 that the tornado would have turned if it had not been seeded," Langmuir said. "I had suggested that we wait until the storm was further north and out to sea to experiment."

Aqua Demon

Charlie Whitaker, trick artist of the Aqua Demons and Debs of Orange, Tex., demonstrates his amazing kite stunt with an 8 by 10 ft. nylon kite with one-half inch aluminum pipe frame. Whitaker races across the water at 35 miles an hour, goes 65 feet in the air, and his record for distance is one mile. The Orange, Tex., water skiing group does ballet numbers, clown stunts and a boat jumping act. The group will be featured during Galveston's Splash Day, April 30-May 1.

Jess-Talkin

by Jess Blair

A. J. Stallings of Lomax says that farmland in his community is holding much better than during some of the previous dry years.

"Most of it was put up in good shape and we had some moisture until a few weeks ago," he said. "We still have a little, and might plant on an inch or inch and half of rain."

M. H. Ulmer who farms south of Vealmoor is planning to plow up 300 acres of wheat and oat pasture, and replant the land to row crops. The pasture didn't get enough moisture to provide any grazing and has almost died out.

Ulmer says if rains come within the next few weeks, he will plant cotton, then wait awhile before starting on the maize.

"Either plant maize late or early," he said, "but never in-between. Maize planted in May will start maturing in the hottest part of the summer, just when we usually don't have any rains. This year I might even wait until July to plant it."

He has been rebuilding his terraces and also running some diversion lines to catch water from some pasture land. His farm has fairly tight soil, and there used to be quite a bit of water movement after big rains.

Recent figures released by the Rodeo Cowboys Association, Inc. show that Toots Mansfield of Big Spring is leading the calf ropers in number of points won for the first three months of this year. Mansfield had 6,452; Dean Oliver was second with 5,447 and Ray Wharton third with 4,184. These figures were for rodeos sponsored by the RCA and do not include money won in jackpot or matched roping contests.

Greatest number of points won by any contestant was the 7,856 chalked up by all-around cowboy Casey Tibbs. Jim Shoulders was pushing him for second place with 7,716. Bill Linderman, who was a one-time great and still one of the best, had gained a total of 5,175. Each point represents one dollar in earnings.

There will be a lot of farmers and ranchers take advantage of the drought feed bill, says Homer McKinley, local grain dealer. The purchaser will save about \$15 a ton on 75 per cent range cubes and \$12 on 60 per cent cubes. Maize is expected to climb still higher, though the price is not increasing as fast as it was a week or so ago.

We heard from a reliable source that some stock tanks lost as much as a foot of water from the high winds last Saturday. Two farmers to whom we mentioned this said the figure seemed mighty high, since the evaporation for Big Spring is only about six feet for an entire year.

It could be possible, however, if the wind whipped the water into high waves and a spray. Tests run by the Soil Conservation Service last year showed that a sprinkler irrigation system will often lose as much as 25 per cent of the water to evaporation during a strong, dry wind.

At the Big Spring FFA Banquet

Makes Mistake

BETHALTO, Ill. (AP)—Mrs. Earl C. Welton admits she made a mistake in teaching her son Gene to smoke more than a year ago "as a stunt." She says Gene, now 3 1/2, "spends one dollar a week for cigars. He would rather have them than candy. He stands and bows until I get him one. That's how much he likes them." She said the family doctor told her the smoking wouldn't hurt the boy.

A. W. Dillon Gets Promotion, Transfer

A. W. (Al) Dillon, formerly of Big Spring and now of Amarillo, has been promoted by the United Fidelity Life Insurance Company and will be transferred to the Dallas headquarters.

He recently received another promotion, this one in the Air Force Reserve where he is getting a lieutenant colonel. The Dillons have another member of the family in the Air Force, their son, 2nd Lt. Larry Dillon, who is stationed at Luke AFB, Ariz.

Benson Looks To Plains Governors For Planning Aid

TUCUMCARI, N.M. (AP)—Secretary of Agriculture Benson looked to the governors of 10 Great Plains states today for help in drafting a program that would maintain a "stable, prosperous and free agriculture" in areas now suffering from drought and dust storms.

Completing a two-day motor tour through distressed areas of Colorado, Kansas, Oklahoma, Texas and New Mexico to get a close view of the situation, Benson invited the state chief executives to meet with him in Denver June 1 to draw blueprints for future governmental actions.

The invitations went to the governors of Montana, North Dakota, South Dakota, Wyoming, Nebraska, Colorado, Kansas, Oklahoma, New Mexico and Texas.

In asking governors of both major political parties for this aid, the GOP farm chief said "No farm program should be manipulated to serve partisan political purposes."

Meeting a day ahead of the governors' conference will be the

Program Changed

NEW YORK (AP)—The American Broadcasting Co. has announced that Bishop Fulton J. Sheen's program will switch from the DuMont Network to ABC radio and TV networks next fall.

ATHLETES FOOT SHOWN HOW TO KILL IT IN ONE HOUR.

If you are a foot player, you know that you need a shoe that will give you the best possible performance. The new G-E athletic shoe is the answer. It is made of a special material that will keep your feet cool and dry, and it has a special sole that will give you the best possible traction. It is the only shoe that has been designed specifically for foot players. It is the only shoe that has been designed to last. It is the only shoe that has been designed to give you the best possible performance. It is the only shoe that has been designed to give you the best possible performance.

Rescuers Find Body Of Miner

POTTSVILLE, Pa. (AP)—The body of an independent coal miner, buried for nearly 32 hours 150 feet below the surface at a small mine near here, was recovered by rescue workers last night.

Michael Chervenak, 45, who worked the operation by himself, was trapped Tuesday morning in a cave-in. His wife and several other members of the family had kept a vigil at the mine entrance until word was received he was dead.

POSITIONS OPEN

Responsible person to manage a small part time business. Work consists of packaging and making light deliveries to bulk merchandising accounts. No sales work. Can be handled on weekends or evenings. Earnings should average about \$3,700 per year. No equipment to purchase, however, applicant must be financially able to take out a maintenance and repair service agreement. Requires a cash investment of about \$1,200 for all coverage for three years. All applicants granted personal interviews. Definitely interested persons send name, address and phone no. to

HOLLYWOOD BEAUTY

A Proper Method For Sun Tan Is Outlined

By LYDIA LANE
HOLLYWOOD—When I lunched with Jean Wallace recently at the Beverly Hills Club she was happy and enthusiastic about the success of "The Big Combo" which she made with her husband Cornell Wilde. It's her best role to date and the critics have only nice things to say about Jean's performance.

Jean was showing off her marvelous tan in an ice blue cotton, a color which also set off her blue eyes and blond hair.

"I was surprised when she said, 'I'm not one for fussing with my appearance, Lydia.'"

"Well, I'm sure you did something to promote that beautiful tan," I remarked.

"Yes," she admitted, "When I get ready to face the sun, I'm always well prepared. I make sure my skin is well protected with lots of sun tan lotion. There are so many good ones on the market. I like the greatest kind that spreads smoothly and protects your skin by deflecting the rays of the sun."

"I've heard so many women say they don't like to get a tan because it makes their skin look blotchy brown — almost dirty. I think this happens because they don't realize that for a good tan you need a good base. This is where suntan lotion comes in. It provides a base for tanning smoothly and evenly, and some of them even govern the shade of your suntan."

"I don't blame women for not

wanting a dirty-looking tan. To me the essence of beauty is cleanliness. A busy mother or career girl may not have time for the glamour routine but she can still be attractive through absolute cleanliness.

"Sometimes I see a smart-looking woman and when I get up close I notice that her hair needs shampooing. She instantly ceases to be attractive — the picture is completely spoiled."

"While a 'once a week' schedule for washing your hair may be all right most of the time, you are not exposed to the same conditions all the time and frequently your hair may need washing more often. Being in a smoke-filled room, traveling, the elements — all these things often make in-between washings necessary."

"I guess I have a fetish about washing," Jean confessed. "I never wear a sweater next to my skin more than once without marking it for the wash."

"Although I shower every morning and have a tub bath every night, I like to have a steam bath once a week. This really gets into the pores and brings out all the impurities. It's a good way to keep blemishes from forming."

Jean has a clear, pink skin that shines like a little girl's.

"I know the time is fast approaching when I'll need more than soap and water and I am starting to use creams, but I really haven't found one that I want to keep using. I'm still experimenting," she concluded.

Keep Clean

"The essence of beauty is cleanliness," contends Jean Wallace. The star of Allied Artists' "The Big Combo" talks to Lydia Lane about her routine for keeping hair and skin clean. Jean also has some suntan suggestions.

Garden Council Plans Pilgrimage, 'Litterbug' Drive

Discussions on the "Litter-Bug" campaign and the garden pilgrimage were held Wednesday morning by members of the Garden Club Council in session in the home of Mrs. Don Burk.

Mrs. V. A. Whittington, council

president, was in charge of the meeting.

Mrs. John Knox is the chairman of the "Litter Bug" campaign which the council hopes to get under way soon to make the people more conscious of keeping the city clean.

Announcement was made of the garden pilgrimage that will be held on May 22. Plans have not been completed but this is a fund raising project, and tickets will be sold to the public.

Representatives were present from the five member clubs.

Lamesa Prize Winners

Mrs. Bowers Purcell, left, and Mrs. J. P. White, both of Lamesa, were first place winners in the South-west Ceramic Show held recently in Dallas. Mrs. Purcell won with her entry of a stained bisque figurine, while Mrs. White was awarded first place for a hand painted pitcher.

Garden Club Moves Meeting Up A Week

Because of the flower show scheduled for next week, the Big Spring Garden Club met Wednesday instead of at the regular time in May. The group met in the home of Mrs. Obie Bristow with Mrs. Della K. Agnell and Mrs. Royce Satterwhite as co-hostesses.

Further plans were made for the flower show which will be held on Tuesday from 3 p.m. to 8 p.m.

Stanton Seniors To Present Play

STANTON — The Stanton Senior class will present a three-act comedy of Irish-American life, "The Absent-Minded Bridegroom," Thursday in the high school gymnasium.

Sixteen Stanton Rebekahs attended the lodge meeting at the Big Spring Rebekah Lodge 284 recently.

The Stanton Rebekah Lodge 287 held an initiation degree for Mrs. Dorothy Vostke at a recent meeting. The degree staff had charge of the candlelight ceremony.

Mrs. Den Forrest of Big Spring reviewed the book "Seven Steps," when the WSCS of the Stanton Methodist Church met Monday.

The review was a conclusion to the recent Bible study "Jesus' Teachings Concerning Women."

Mrs. Cecil Bridges and Mrs. Morgan Hall were co-hostesses for the social meeting which was in the home of Mrs. Phil Berry.

Twenty-one attended.

Two guests, Mrs. Edmund Tom and Mrs. Tom Tolson, attended the Stitch and Chatter Club which met in the home of Mrs. R. M. Deavenport, recently.

Eight members attended.

Casual Shirtwaist

The ever-popular shirtwaist is so practical and smart, with a gaily flared skirt, collar, cool cap sleeves.

No. 2593 is cut in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30. Size 16: 3 1/2 yds. 35-in.

For first class mail include an extra 5 cents per pattern.

NOW! Just out, the SPRING-SUMMER FASHION WORLD, illustrating in COLOR scores of delightfully wearable fashions for every size and occasion. See these practical pattern designs for the season ahead. Order your copy now. Price just 35 cents.

In the gymnasium at Howard County Junior College. A garden pilgrimage, sponsored by the Council of Garden Clubs for May 22, was announced.

Mrs. Norman Read, in speaking on "Roses," told members that roses should be fed three times during the year but not after September. They should be sprayed regularly to keep down insects and should be mulched. Deep watering is required for best results, and sprinkling should be avoided.

Mrs. Read and Mrs. J. D. Elliott brought arrangements featuring roses. Mrs. Bristow was awarded the shrub given by S&S Nursery. Mrs. J. E. Brown announced that the club is to serve at the Servicemen's Center on Friday.

Mrs. Robert Stripling, in giving horticultural tips, told members that it is time to plant hardy annuals, such as anemones, bachelor buttons, verbena, petunias and other summer flowers. When chrysanthemums grow to the height of eight inches, it is time to pinch them back to make them bushy. Michaelmas daisies also should be cut back to make them bushy. When dahlias have developed the third set of leaves, they should be cut back to the first set for the same reason. This develops stronger plants for all the various flowers.

The announcement was made of an area conference to be held by the Midland Garden Clubs on May 16. All garden club members are invited to attend. At this time, some of the subjects discussed will be "The New President and Her Problems," Flower Show Practice, "The Yearbook and Programs," "Horticulture" and "Publicity."

Dr. Anthony Hunt spoke to the club on the coming bond election. About 26 attended the meeting.

Stanton HD Club Studies Upholstery

STANTON — Mrs. L. H. Alexander was hostess to the Stanton Home Demonstration Club recently with Mrs. Mildred Elland, agent, in charge of the program on "Upholstery." The group upholstered a platform rocker.

Mrs. Ollie Morpew was a new member and Mrs. E. J. Wells was a visitor. Ten attended.

Mrs. Edith Sorrells has returned from a Big Spring hospital where she underwent minor surgery.

Mrs. Elmer Long was hostess when the Friendship Sunday School class met Tuesday night. Refreshments were served to 10.

Mrs. Finley Rhodes, chairman of the Chamber of Commerce special committee announced that the time set for Clean-up and Paint-up week in Stanton will probably be held sometime in early May.

Mrs. A. C. Abernathy and daughters have returned home from visiting out-of-town relatives.

Mr. and Mrs. Sid Supulver and family of Abilene have returned home after visiting friends here.

Seven-Year-Olds Win Talent Show

GARDEN CITY — Barbara Ann Cook and Greg Henderson, both seven years old, were the winners in the 4-H Club talent show held recently with their rendition of "Ma, He's Kissing Me." They were accompanied at the piano by Mrs. R. Ricker.

Second and third place winners were Jo Melanie Calverly and Deanna Watkins, the latter of whom was accompanied by Rob Childers and Euger. Davee who played guitars.

Doanna will represent the 4-H Club at their district meet.

The Youth Fellowship of the Methodist Church held a bake sale which netted them \$100 which they will apply on their project of building a miniature golf course.

Coffee Postponed

The coffee planned by the Officers Wives Club for Friday morning has been postponed to Monday morning at 10 a.m. This is for all newcomers to the base and will be held at Ellis Hall.

New Forum Entertains Three Clubs

The Junior Woman's Forum entertained with their initial Federation Day affair Wednesday afternoon at the home of Mrs. Maple Avery with a tea.

Guests of the occasion were members of the Modern Woman's Forum, the Spoudasio Fora and The Woman's Forum.

In the receiving line were Mrs. Avery, Mrs. R. E. McClure, president and Mrs. Johnny Johnson, vice president. Mrs. Zack Gray and Mrs. Bill Tubb registered the guests while Mrs. Dewey Mark, Mrs. Rex Shropp and Mrs. John Nobles served refreshments.

A handmade cloth, made in Malta by the native, covered the tea table and serving pieces were of crystal. Centering the table was a brass container which held a matching candelabrum. Lemon leaves formed the base, and yellow and white Dutch Iris were used in the floral arrangement which was completed by yellow tapers.

Twenty-five called during the receiving hours.

Mrs. Lightfoot Feted

Birthday gifts were presented to Mrs. Jack Lightfoot at a meeting of the Sew and Chatter Club Wednesday afternoon in the home of Mrs. Louis Murdock. Nine members attended. The next meeting is scheduled for May 11 in the home of Mrs. Lawrence Robinson, 602 E. 17th.

Party Bag

Crocheted in velvety white chenille, delicately trimmed with fine gold thread, each separately made circle is centered with a big fat pearl! Very expensive if you bought it, costs less than \$5.00 to make it yourself! White is prettiest but you may want it in red, navy, black or another color. All instructions.

Send 25 cents for PATTERN No. 323, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

The NEEDLEWORK GUIDE, 36 pages, 150 designs for knitting, crochet, embroidery, hairpin lace, dozens of beautiful color transfers. Order as you do needlework patterns. Only 25 cents.

Monahans Greenhouse Is A Small 'Oasis'

A booming commercial flower business is "blossoming" in Monahans because Mrs. T. M. Russell wanted a greenhouse to raise tomatoes and said her husband would never get around to building it.

Just to prove she was wrong, as some husbands are wont to do, Mr. Russell built her a greenhouse 30 x 56 feet and set out tomato plants. The plants flourished so that the couple was soon in the tomato business.

Just how the Russell's got into the flower business still escapes him but he is definitely there and now has a greenhouse that has 9,000 square feet of glass in it.

The Russells came to Ranger in 1919 from Wooster, Ohio, where Mrs. Russell's family held interests in large greenhouses. In 1927 they left Ranger for Fayette and lived there until 1935 when they moved to Monahans. Their present location is one mile west of the town.

For the past 20 years these transplanted Ohioans have been in this business. Water is obtained from a well on the place and is pure. It needs no treatment which is very important to a nurseryman.

Last Christmas 13,000 poinsettias were raised and if there had been 10,000 more they could have been sold. Included in the variety of

Desk, Derrick Club Of Dallas Plans Seminar For June

Speakers have been announced for the forthcoming Seminar for oil women to be conducted by the Dallas Desk & Derrick Club at Southern Methodist University on June 4-5.

William J. Murray Jr., of the Texas Railroad Commission will speak on "Pressure Maintenance and Secondary Recovery of Oil." Edwin P. Davis, British-American Oil Producing Company, will discuss "Leasing."

Other speakers will be Eugene McElvany, senior vice president of the First National Bank in Dallas, John C. Jacobs, executive vice president, Wilcox Trend Gathering System, Harold D. Herndon, consulting geologist, San Antonio, and W. K. Powell, Beard Drilling Company, Duncan, Okla.

The welcome address will be given by Dr. Willis Tate, president of SMU. Dr. Aaron Q. Sarnoff of the University's Psychology Department will conclude the Seminar with a discussion of "Your Job and You."

Members of Desk and Derrick Clubs in Texas, New Mexico and Arkansas will attend the two-day meeting.

House guests in the home of Mr. and Mrs. W. W. Lanning, 1402 Grafa, have been her parents, Mr. and Mrs. Charles Smith of Tucson, Ariz.

Kremlin Fearful Of Both War, Peace

By WILLIAM L. RYAN Associated Press Foreign News Analyst

PARIS (AP)—There are two things in this world the Soviet regime fears more than anything else. One is all-out war. The other is all-out peace.

This is the opinion of competent Western observers around the rim of the Iron Curtain in Europe today. They put it this way:

1. The retreat of Communist parties in Europe behind a "soft line" denotes Soviet worry over the possibility that Moscow may stumble into the all-out war it dreads at this moment.

2. Eruptions of international tension betray Soviet worry that the appearance of world peace surely would revive pressure from the Soviet population for a fairer share of the economy.

3. The idea that any war in any part of the world might turn into a general conflict is regarded as a powerful reason for Moscow to lay a restraining hand upon Communist China.

4. The threat to "liberate" Formosa by force is enough to create the tension. But an attempt to carry out the threat could explode the possibility of ultimate disaster.

5. Aside from the threat in Asia, the other factors which could touch off world conflict are desperation, fear, miscalculation or accident.

6. NATO is in the process of building strong deterrents to the first three and defenses against the fourth.

7. Across the middle of Europe and deep into the Middle East a line has been drawn. It runs from the Arctic through the middle of Germany.

8. By means of the Balkan pact of Greece, Yugoslavia and Turkey, it rims Yugoslavia and links up with NATO again on the West's right flank in Turkey.

9. Another link is established, through the British-Turkish-Israeli pact, linking NATO's defenses with those of Britain in the Middle East.

10. The Russians dare not trespass across that line without risking a shower of hell on earth from a mighty combination of strategic air power.

11. Moscow, say the military experts, is not likely in the near future to launch any military attack westward.

12. NATO has made tremendous strides. There is no complacency among the officers of the 14 nations in the alliance. But there is rising confidence.

not see land or air forces on all hands doesn't mean they won't be there. If and whenever the time comes they are needed, they will be there, in vast power.

Yet the problems are manifold. Nationalism, instability, deep-rooted suspicions and hostilities throw obstacles in the way of any integrated Middle East defense system.

Greece and Italy could become weak links in the NATO chain should political instability return to those countries.

Turkey's monumental economic problems are a source of deep concern to the United States, which since 1947 has invested a billion dollars in Turkish military defense.

The best that can be elicited about the role of Yugoslavia in the Balkan defense pact is that she represents a "reasonable gamble."

If President Tito should be toppled, a reassessment of Yugoslavia's position would be required.

At NATO headquarters, the primary concern is arming 12 German divisions and integrating them with NATO land forces.

There must be a German army in being, the experts say, with its structure adapted to the contingency of nuclear warfare.

Otherwise Germany represents a dangerous vacuum in Europe.

NATO strategy is to defend as far to the east as possible. There would be no trading of space for time in this planning.

No idea of giving up Denmark and the Low Countries for a delaying or holding action. But Germany is necessary for such defense planning.

Backed by Allied strategic air power, dispersed and in depth, there are forces in Europe today which represent a deterrent to Soviet aggressive action.

One NATO spokesman reports that the NATO nations could put 100 divisions into the field within 30 days of a mobilization order.

The Soviet Union and European satellites probably could put 400 divisions—more than 200 of them Russian—into the field in "M plus 30."

Of the satellite troops, estimates are that perhaps 50 per cent would be unreliable. Russian air power seems stabilized at 20,000 warplanes of all types.

But Russian development of the later Western types of long and medium-range bombers has not advanced beyond the prototype stage, the experts say.

However, the Soviet change-over to jet fighters has been rapid, and today almost all Soviet fighters are jet types.

Similarly, almost all Soviet light bombers are jets now. Satellite air forces now are 50 per cent jet. Two years ago the figure was only 10 per cent.

Student Dean

Dr. Robert B. Kamm, Dean of Students at Drake University, Des Moines, Iowa, since 1948, was appointed Dean of Student Personnel Services at Texas A&M College by the board of directors of the Texas A&M College System at a meeting in Mineral Wells, Tex. Dr. Kamm will head all work dealing with student life outside the classrooms at the Texas college.

UIUC Directors To Talk Plans For Insurance Concern

With a charter in hand for the United Industries Life Insurance Company, directors of the parent United Industries Underwriters Company will convene Friday.

The meeting has been set for 3 p.m. in the Secities. Tom Helton, president of the company, said that conditions for beginning of operations had been met and that plans for making the insurance division operative would be considered.

The United Industries Underwriters Company, which will invest in old line securities, has more than met its goal in subscriptions.

At a previous meeting of the board, it was indicated that once the insurance division went into operation, its headquarters, like those of UIUC would be established in Big Spring.

A large number of the board of directors are either Big Spring residents or live in this vicinity.

Partridge, Next Continental Air Chief, No Arm-Chair Expert

By FORREST EDWARDS TOKYO (AP)—At Dayton, Ohio, last year a tall, lean, soft-spoken general climbed into the cockpit of a captured Russian-built MIG jet fighter plane.

Off he took, and for the next half hour he rocketed that MIG through the Ohio skies.

"I wanted to see what it could do," the general said after a perfect landing.

That's the way he operates—Gen. Earle E. Partridge, commander of the Far East Air Forces, who on June 1 becomes the new continental air defense commander in the United States.

Partridge likes to get his information first hand. In the Korean War, as commander of the 5th Air Force, he racked up more than 300 combat hours in one year flying over Communist lines, seeing what the enemy was doing and assessing the damage wrought by U.S. air raids.

To his new job of protecting the United States from enemy air attack, Partridge takes years of experience in air combat, command, administration and in research and development of new planes and weapons.

He was an enlisted infantry engineer in World War I. Then he went to West Point. Since 1922 he has been an Air Force pilot. He has flown all combat planes the Air Force has in operation, including the six-jet B47 Stratofortress.

In 1928 he was a test pilot at Wright-Patterson Field, Dayton.

In World War II he served in Africa and then commanded the 8th Air Force in England and on Okinawa.

In 1932 and 1933 he was head of the Air Research and Development Command. He used World War II combat experience and Korean War experience in directing design and development of many of the Air Force's top aircraft of today as well as guided missiles.

As Far East Air Forces commander, he has stressed constant alertness and extreme mobility of Air Force units against surprise attack. That includes:

- 1. An early warning network to sound an instant alarm if unfriendly planes approach the outer perimeter of defense.
2. The deadliest U.S. interceptors based where they can knock down invaders before they get within striking distance.
3. Waves of long-range bombers capable of knocking out enemy airfields.
4. Ground and operations crews ready to move an entire Air Force base at a moment's notice.

Merchants Urged To Make Gail Dinner Reservations

Big Spring business men who are planning to attend the goodwill dinner at Gail next Tuesday evening are asked to contact the Chamber of Commerce as soon as possible.

Quite a few tickets are still available for the occasion, said J. H. Greene, Chamber manager. It is hoped that 100 tickets each here will purchase two tickets each.

Object of the goodwill dinner is to bring residents of the city into closer contact with those of Borden County. City residents who attend sponsor guests from the county.

The neighborhood suppers have been held in Gay Hill and Midway, and both have been highly successful. The Gail undertakings is the largest to date.

Tickets are selling for \$1.50 each and are available at the Chamber office. Reservations can be made over the telephone, said Jim Fryar, chairman of the rural relations committee.

The program for the goodwill dinner has not yet been scheduled.

though it is known that Bill Bodner of Webb will present a comedy pantomime.

The Parent-Teachers Association and the Home Demonstration Club at Gail will prepare the meal for the occasion, and the dinner will be served in the gymnasium at the Gail School.

Street Lighting To Cost \$20,000

Street lighting will cost the City of Big Spring an estimated \$20,000 during the 1955-56 fiscal year, according to the city budget.

This is approximately 80 cents for every man, woman and child in the city.

Electricity for street lights alone will cost an estimated \$10,000. Christmas lighting is pegged at \$500, and cost of street light poles is listed at \$500.

The expenditure estimate is for the period between April 1 this year and March 31 next year.

Aussies Go To Work To Keep Olympics

Avery's Visit Helped Matters

By GAYLE TALBOT
NEW YORK (AP)—A traveler from Australia reports that Melbourne received a wful jolt recently from Avery Brundage, the Olympics president, but came out of it in good shape and now is digging in like crazy in a belated drive to make the 1956 games a success.

Gerald Patterson, who was one of the world's best tennis players around 1920 and has lived in Melbourne most of his life, says that Brundage's visit and his criticism of the progress made up to this time in preparation for the games really lighted a fire under his fellow citizens. Patterson is stopping over here briefly en route to England.

"It was the best thing that could possibly have happened to us," he said. "I'm sure there's nothing to worry about now. From what I heard, everyone reacted well to what Brundage said and things were starting to go ahead."

"The carpenters' strike which had held up work on the Olympic Stadium was settled just before I left. Everything has been streamlined and the bottlenecks eliminated. All the money that is needed is there ready to be spent, and those in charge have full authority to spend it without going through a lot of red tape."

He was asked what he thought about the hotel situation in Melbourne. How could the city, with fewer rooms available than are to be found in an average city of 100,000 in this country, hope to absorb the multitude which will descend upon it.

"That's worried me too," Patterson confessed. "According to your standards, we are in bad shape for hotels, but we have already started to take care of that by lining up rooms in private homes. For example, I have said that I will take three guests in my home in the city and on Davis Bay. I'm sure that by the time of the games we will have rooms for everybody."

Clippers Back Atop Circuit
By The Associated Press
Corpus Christi's Clippers were back on top of the Big State League Thursday but they sure had to work for it.

The Clippers went 11 innings to beat Texas City 4-3 Wednesday night and pull into the undisputed lead.

Start Of Double Play

Chicago White Sox Second Baseman Nellie Fox is forced out at second base as New York Yankees' Second Baseman Gil McDougald relays the ball to first base for a double play in the third inning of game in Chicago. The play started when Sox Right Fielder Minnie Miñoso grounded to Yanks Third Sacker Andy Carey who threw to McDougald. The Yankees won, 5 to 6. (AP Wirephoto.)

Newlin James Hurt In Steer Workout

Newlin James, a gritty end who missed last football season due to a broken arm, suffered an identical break of the same arm in practice with the Big Spring High School football team earlier this week.

The attending doctor said the break was a hairline fracture but placed the arm in a cast. James, of course, will miss all the spring work, which started only Monday.

The youngsters first broke his arm in a motor scooter accident last year.

He is regarded as one of the best punters on the high school squad. A total of 55 boys are going through the drills, which will continue for three weeks.

The Steers worked until near dark last night and an equally lengthy session is upcoming tonight.

Sides will be chosen for a full-scale scrimmage Friday, the first of several planned by Coach Carl Coleman.

Kansas City Sprouts Circuit Ply Punch

By ED WILKS
The Associated Press

It may be those Kansas City sprouts, but the Athletics are sprouting biceps and a home run punch. Trouble is, they were better off as puny singles hitters back in Philadelphia. The A's have swatted 17 home runs so far, yet have won only five of 12 games. A year ago, with a mere four homers, they were 7-5. And in '53, with nine home runs, they also were 7-5.

The A's have a three-game winning streak going now, of course, and may be set to pad it. But the 1954 crew had won three straight after their 12th game, too.

LOOKING 'EM OVER

With Tommy Hart

The house of baseball has been built. Within hours after Artie DiCesare, the Big Spring rookie, had made his sensational debut against Roswell here last Friday night, Manager Pepper Martin's phone started ringing.

Austin of the Big State League was calling. Dutch Lorbeer, Ed Knebel's front office man an scout, asked Pepper to put a price on the young man. Furthermore, he wanted Artie right away, if he were available.

Pepper discouraged all talk of a sale, with thanks. He fully intends to do his best to give Big Spring a winner this year and DiCesare figures largely in his plans.

If DiCesare has a good year, then Pepper figures he'll bring a nice price—between seasons.

Too, the young ex-Marine needs a year in Class C ball. The Class B Big State circuit is perhaps too fast for anyone starting out in professional baseball. The young man might get his ears pinned back and his confidence injured under such circumstances.

This early in the year, Pepper is interested in selling baseball, not players. The fans have a stake in this, too, and he wants to keep their interest buoyed.

John Teletnik, the Cop hurler, figures this may be a jinx year for him. While John was enroute here, he had an automobile accident that grounded him for several days. After his arrival here, the elements—unpredictable and angry—made him wonder if the only worthwhile endeavor around here might be kite-flying.

Then he left an expensive camera in the locked glove compartment of his car. That didn't discourage one of the light-fingered gentry. The thief broke the lock and walked off with the camera.

Jim Bello, who tried out as a first sacker here this spring and then went on to Odessa, managed Lakeland of the Florida State League briefly in 1954. He was replaced by Rip Sewell, the former blooper ball hurler for Pittsburgh, on April 30.

He finished up with Crowley of Evangeline League, where he hit .270.

Lonnie Leatherman, who starred against Big Spring High School as a quarterback for Stephenville last fall, is TCU-bound.

Pete Reiser, the hard-luck ex-major league fly-chaser, is back in baseball because he lost his poke in a used car business that failed. He's managing Thomasville in the Georgia-Florida League.

The umpires in the Longhorn League will tell you Odessa has the worst lighting system in the Longhorn League. Is it possible?

Johnny Johnson, personable basketball coach at the local high school, had an offer to take his 1955-56 club to Roswell, N.M., for a tournament late next January.

Johnny had to pass up the chance because his Steers will be imbedded in the conference race by that time, and won't be able to spare the time.

The Steers would have received \$200 plus bus expenses to and from the tournament site. That kind offer was hard to pass up.

The Steer cagers will go back to the Odessa Tournament, after all, because the tourney has been moved back.

Johnny Malaise, the Odessa tournament director, is cutting the entry list of his meet from 18 to eight teams, too. Five Class AAAA schools will be invited, along with three AA teams and Big Spring.

MIAMI BEACH PROVES A JINX FOR EZZ CHARLES

By BEN FUNK
MIAMI BEACH, Fla. (AP)—They call the Miami Beach Auditorium "Ezz Arena" because so many well-known fighters are beaten there. One of the most popular victims is Ezzard Charles.

Last night, an unrated, 27-year-old Negro from Chicago, John Holman, launched a thunderous surprise attack in the ninth round to stop Charles, a 4-1 favorite, on a technical knockout.

"I've got no excuse," Charles said later. "I really blew that one. He was a hard hitter and he wore me down."

It was the second bitter upset for Charles in Miami Beach. Two years ago, in the same auditorium, he was outpointed by Nino Valdes, an unknown Cuban underdog who went on from there to become the top contender for Rocky Marciano's heavyweight crown.

"This won't stop me," said Charles, who still has hopes of winning a third shot at Marciano's title. "I'll keep right on fighting."

Holman dropped Charles in the first round with a right behind the left ear but the 33-year-old former champion was up at the count of three and immediately took command of the fight.

Charles hurt Holman with a consistent body attack and was leading on all cards when the fight went into the ninth round. Then a sudden left-right-left barrage by Holman staggered Charles and another left flattened him for a count of nine.

Referee Eddie Coachman stopped the fight at 2:48 of the ninth after Holman had nailed Charles with three straight solid rights to the head and seemed on the verge of putting the ex-champ down for good.

Utah Mentor Is Censured

KANSAS CITY (AP)—The NCAA verbally blasted Utah basketball Coach Jack Gardner yesterday for obtaining players by methods it termed unorthodox and unethical.

It said Gardner "resorted to deception, himself, and encouraged devious and deceptive behavior by advising student-athletes to collaborate in not revealing" to officials they were planning to shift from one school to another.

The action by the National Collegiate Athletic Assn.'s policy-making council grew out of an incident two years ago that led to the transfer of two Big Seven Conference basketball players to Utah of the Skyline Conference.

Gardner resigned as head coach at Kansas State College in September, 1953, to take the Utah position.

The council said that during the summer of 1953 Gardner "actively but covertly carried beyond reasonable limits his contact with three Kansas State College varsity basketball players in an obvious effort to persuade them to transfer" to Utah.

Gary Bergan, a Kansas State center, transferred to the Salt Lake City school. A University of Colorado player, Art Bunte, also shifted there. Jerry Jung and Roger Craft were the other K-State athletes involved but they remained at the Kansas college.

Gardner was not available for comment on the NCAA's action.

In the National, Brooklyn beat Cincinnati 7-2 last night to stay three games up on Milwaukee. The Braves whipped the New York Giants 9-4 in a day game. Pittsburgh slipped out of the cellar as the Redlegs fell in, beating Chicago 4-1.

Boyer, a St. Louis Cardinals castoff and brother of Redbird rookie Ken Boyer, was troubled only by his own wildness and Faye Throneberry's home run as he beat the sagging Red Sox. He walked the bases full in the fifth after Norb Zauchin's leadoff double, and Billy Goodman's sacrifice fly scored the other Boston run.

The White Sox got four-hit relief work from Billy Pierce over 6 2-3 innings after Virgil Trucks' departure. Pierce won it, with Walt Dropp hammering home three runs with fourth and fifth-inning homers. Sherm Lollar homered for two as the Sox routed Whitey Ford with five runs in the first.

The Yanks also lost hard-hitting Bill Skowron for an indefinite time when he pulled a leg muscle running out a triple. The young first baseman leads the AL with a .451 average.

Cleveland didn't shake off Washington until Bobby Avila lifted a sacrifice fly with the bases loaded and one out in the 17th inning. Both clubs used four hurlers. Chuck Stobbs lost it and Art Houston won it. Mickey Vernon batted in four of the Nats' runs with a three-run homer off starter Early Wynn in the third and a single that tied it in the seventh.

Detroit had a grand-slam from catcher Frank House, his first in the majors, and three free runs to beat the Orioles. Bill Miller walked five in a row for two Tiger runs in the fifth and Lou Kretlow gave up a single before walking three in a row for another gift in the eighth.

Pitching was the big thing in the National League games. Bob Purkey gave up just four hits as Pittsburgh snapped a three-game Chicago winning streak.

At the Polo Grounds, big Gene Conley held the Giants to two hits for eight innings and had a 9-1 lead that withstood a five-run New York rally in the ninth. Five Milwaukee runs chased starter Ruben Gomez in the second and Hank Aaron, Bobby Thomson and Danny O'Connell followed it up with home runs. Willie Mays homered for New York in the second and Hank Thompson capped the too-late, too-little heroics with a three-run pinch homer.

The Albuquerque Dukes cracked Abilene's five-game winning streak 10-5 Wednesday night while Plainville and Pampa raked up victories to throw the West Texas-New Mexico League top spot into a three-way tie.

Pampa, playing at home, rallied in the ninth frame on a two-run double to smash Clovis 5-7. Plainville, relying on fine pitching, whipped El Paso 7-3.

At Lubbock, cellar-dwelling Amarillo defeated Lubbock in a marathon match 15-14.

Abilene Winning Streak Ended

By The Associated Press
The Albuquerque Dukes cracked Abilene's five-game winning streak 10-5 Wednesday night while Plainville and Pampa raked up victories to throw the West Texas-New Mexico League top spot into a three-way tie.

Pampa, playing at home, rallied in the ninth frame on a two-run double to smash Clovis 5-7. Plainville, relying on fine pitching, whipped El Paso 7-3.

At Lubbock, cellar-dwelling Amarillo defeated Lubbock in a marathon match 15-14.

Pitching was the big thing in the National League games. Bob Purkey gave up just four hits as Pittsburgh snapped a three-game Chicago winning streak.

Big Spring (Texas) Herald, Thurs., April 28, 1955

Las Vegas Play Opening Today

LAS VEGAS, Nev. (AP)—Easy swinging Sam Snead and 30 other topflight professional golfers tee off today in the first round of the \$21,500 Tournament of Champions.

This is the third edition in Las Vegas' annual spurge into the major league of golf, and as in the past, it is a wide open affair. The field is limited to winners of at least one major PGA tournament in the past year, and leading the troupe off first tee at 1 p.m. (PDT) is the 1954 Las Vegas winner, Art Wall Jr., and former National Open champion Julius Boros.

Snead, the favored but unsuccessful threat in the first two tournaments, once again was a top challenger to win the \$10,000 first money. But as usual, the opposition is tough.

Play is at the Desert Inn Country Club, stretched out to 7,102 yards with par 36-35-72. "It plays tougher than it did a year ago."

So commented an expert on any kind of course, U.S. Open champion Ed Furgol.

Furgol's National Open victory qualified him for this event, and last year his win in the Phoenix Open, in play-off with Cary Middlecott, qualified him for Las Vegas.

Middlecott, the 1953 Masters champion, is, of course, a solid favorite. He finished fourth, with 285, last year, and the year before third with 285.

Turner New Coach

FREER (AP)—Robert Turner, who coached Freer's basketball team, has been hired as head football coach. He replaces J. W. Helms, who resigned to become coach at Laredo.

Big Spring vs. San Angelo, baseball, Steer Park, 1 p.m.

Sectional Matches In North - South

PINEHURST, N.C. (AP)—The North and South Amateur golf tournament was scaled down to a South vs. Midwest struggle today as the quarter-finals shaped up like this: Dave Smith, Gasolina, N.C., vs. Dale Morey, Indianapolis; Don Bisplinghoff, Orlando, Fla., vs. Glenn Johnson, Grosse Ile, Mich.; Bill Campbell, Huntington, W.Va., vs. Alex Welsh, Rockford, Ill.; Ed Gravely, Rocky Mount, N.C., vs. Ed Meister, Willoughby, Ohio.

Winners today will move into 18-hole semifinals tomorrow over the 7,000-yard layout of the No. 2 course of the country club.

It is utterly impossible to make a better Bourbon whiskey than Old Charter...

Suppose we don't try to put in words what happens with your first taste of this great whiskey. Instead, do this... Imagine you have started with the basically finest whiskey ever made in old Kentucky... Then you have waited for 7 full, round years to ripen it slowly, perfectly... Then take from your memory the finest-tasting whiskey you have ever known and imagine one still silkier, still mellower, still smoother. Do all these things... and then taste Old Charter!

Tick, tock... tick, tock... the whiskey that didn't watch the clock... seven long years!

HCJC Hawks Wind Up 1955 Baseball Season Friday

Howard County Junior College winds up its 1955 baseball season in a 1:30 p.m. game here Friday with the Odessa JC Wranglers. Odessa, coached by Larry McCulloch former Big Spring High School mentor, has already clinched first place in West Zone standings.

Vet Linksters Better, Claim

By WILL GRIMSLEY
NEW YORK (AP)—How old is "old" in competitive golf? Fred Corcoran, nimble-witted tournament adviser of the Professional Golfers Assn., proposed a match today to find the concrete answer.

"We've been reading about the swan song of these oldsters in golf," Corcoran said. "Okay, let's find out if they're really over the hill, as some people say."
"Let's have a team match pitting the 10 top players 40 years old and over against this new brigade under that age. Let's see who would win. I'd have to go along with the older guys."

Corcoran, onetime Boston caddy who became one of the country's foremost promoters and personal managers, didn't attempt to fix the lineups.
They would go something like this:
Forty and over: Ben Hogan, Sam Snead, Lloyd Mangrum, E. J. (Dutch) Harrison, Byron Nelson, Chick Harbert, Jimmy Demaret, Claude Harmon, Gene Sarazen, Horton Smith and Johnny Hevela.

Lamesa Lions Officials

Lions of Lamesa are pointing toward the annual installation banquet in June. Meanwhile, they will concentrate on the Ladies Night banquet set Friday evening at the First Methodist Church with David Hester, Lubbock, as speaker. Hester was a goodwill ambassador to Sweden last year and will tell of his travels. Lions pictured here are Skeeter Noret, outgoing president; J. D. Dyer Jr., first vice president; Ray Renner, second vice president; and Abe Holder, third vice president. (Dean's Photo).

H-SU To Host West Texas Historical Meet

ABILENE — Hardin-Simmons University will be host to the annual meeting of the West Texas Historical Association May 7. The sessions will open at 9:45 a.m. in Behrens Chapel, where the program will continue through until 1:00 p.m. when a luncheon will be held in the University cafeteria for visitors, members and guests.

The Association was organized in Abilene in 1923 and has met here several times since that meeting. The last meeting in Abilene was in 1948, but this is the first time the sessions have been on the campus of the university.

Papers will be presented by the following: Mr. Ernest Lee, engineering surveyor of Wichita Falls, and ex-student of H-SU; Dr. Joe B. Franz, of the history department of the University of Texas; Lorenna Friend, staff member of the University of Texas Library; Mr. E. W. McMillan, teaching fellow in history at Texas Tech; Mrs. Joe Vogler, of Pecos; and Mr. Kenneth F. Neighbours of Bryan.

Star Ends Hopes Of Reconciliation

HOLLYWOOD — Movie actress Susan Hayward has slammed the door shut on the reconciliation hopes of her ex-husband Jess Barker.

The actor, who flew here from New Orleans after Miss Hayward was found near her death from an overdose of sleeping pills Tuesday, still hasn't been able to see her. She refused to see him in Cedars of Lebanon Hospital. Through a press agent of her movie studio she issued a statement yesterday, saying: "There is not the slightest possibility of a reconciliation, but if Mr. Barker can discuss the future of our children (Timothy and Gregory, 9-year-old twins) in a rational manner, I shall always be willing to confer with him."

Miss Hayward was reported well on the way to recovery.

WTCC Support Given Burleson-Poage Crop Bill

ABILENE — The West Texas Chamber of Commerce announced Thursday that it is supporting legislation introduced in Congress by Rep. Omar Burleson, Anson, and Rep. W. R. Poage, Waco, which would provide additional acreage for the six basic crops in areas of general crop failure, to be effective for 1955 and subsequent years.

The bill provides for temporary additional acreage in areas where the secretary of agriculture finds that a natural disaster has reduced the average yield for the immediately preceding two years to less than 50 per cent of the highest average yield for such areas for any three consecutive years of the preceding 10 years.

Hess May Go To Mental Hospital

BERLIN — Allied doctors are reported discussing a U.S. proposal to transfer Rudolf Hess to a mental home. Informed sources revealed yesterday Adolf Hitler's former deputy, now serving a life sentence as a war criminal, recently attempted suicide in Spandau prison.

These sources said Hess has deteriorated mentally in recent weeks and a special guard has been placed on him. He reportedly is convinced that he has cancer, although medical examinations disclosed no evidence of the disease.

Hess, Hitler's first deputy in the Nazi party, is one of six Nazi leaders held in Spandau prison under joint American, British, Russian and French guard. Any decision to remove him would have to be approved by all four powers.

Although an American doctor at the prison denied the suicide attempt reports, other sources said Hess swallowed insecticide he had been given for his garden in the prison grounds. They said the incident occurred several days ago. Word of it seeped out of the tightly guarded jail only yesterday — Hess' 61st birthday. U.S. Army doctors reportedly used stomach pumps and antidotes to save his life.

Faulty Vaccine Report Checked

WASHINGTON — Public health authorities expressed anew today their confidence in the Salk polio vaccine, even as they checked the possibility that some batches from one of six makers may have been faulty.

Intensive tests were ordered after it was reported that eight children had been stricken by polio — one fatally — within a week of receiving their first polio shots. Four others suspected cases of the disease were reported.

In each case, the vaccine used was manufactured by the Cutter Laboratories of Berkeley, Calif., which said more than 750,000 doses of its product had been issued.

As a "precautionary measure," all further use of Cutter vaccine was ordered halted pending tests, and the inoculation program was stopped in most of the West Coast areas where it was supplied for free use in the schools.

Dr. Surgeon General Leonard Scheles of the Public Health Service called for continuance of the program in other areas of the country, where vaccine supplied by five other drug firms have been used without reported incident.

Liberty Bell Gift

JERUSALEM — A reproduction of the American Liberty Bell, gift of the American-Israel Society, was presented in Israel yesterday.

Ike Poses Acid Test Of Power, Good Will Of Old Pal Zhukov

WASHINGTON — President Eisenhower has posed a tough test of the power and good will of Soviet Marshal Georgi Zhukov, comrade-in-arms of 10 years ago.

Ever since Eisenhower became President there has been speculation that the friendly relationship

which existed between the two men in the rule of occupied Germany might someday, in some way, help to bridge the gap between Moscow and Washington.

This speculation was stimulated last February when Zhukov stepped up to the post of defense minister after Nicolai Bulganin became Premier.

Now the President has written like this:

"Why don't you help obtain the release from Red China of 15 American airmen held over from the Korean War. Why don't you persuade the Chinese Reds to let other Americans come home?"

That was the sense of what Eisenhower is reported to have written Zhukov about two weeks ago. At a news conference yesterday he declined to disclose the contents of the correspondence he said had taken place.

From other sources it was learned that Zhukov initiated the correspondence about three weeks ago with an appeal to the President to bring about the return to his parents of a Russian school-boy who fled from East Berlin to West Berlin March 18. The boy, Valery A. Lysikov, son of a lieutenant colonel in the Soviet Air Force, was returned April 9. U.S. authorities at Berlin announced he had decided he wanted to go home.

Zhukov had forwarded to the President a letter he received from Col. Lysikov. Zhukov had called the President a great humanitarian, according to a responsible account of the exchange, and said he knew the President would realize the anxiety of the family.

Immediately after the boy's return, Eisenhower wrote Zhukov calling it to his attention. He added that he hoped Zhukov could realize the anxiety of people whose sons were being detained in jails in Red China.

Such words, going from the President to a member of the Soviet government, constituted not only an appeal but a challenge. They raised the question whether Zhukov would want to do anything about Americans held in Red China, whether the Soviet government would agree, and whether Soviet influence would prove persuasive with Red China.

Actress Better After Collapse

BOSTON — Actress Diana Barrymore, 34, was reported recovering early today from what a Boston City Hospital doctor said was "drug intoxication—an overdose of sleeping pills."

Miss Barrymore collapsed last night in her room at the Hotel Touraine and was taken by police ambulance to the hospital, where she immediately was placed in an oxygen tent.

Her husband, Robert Wilcox denied the doctor's report to police that Miss Barrymore had taken sleeping pills.

**U. S. Bomber Crashes
On Okinawa, 10 Killed**

NAHA, Okinawa (AP)—An American B29 bomber groping through an overcast crashed three miles from Naha airport today.

Ten bodies were recovered. There was no indication whether this was the complete crew. No names were released.

Four Okinawans were burned and hospitalized when the big B29, apparently letting down for a radar-controlled approach to the field, smashed into a series of ridges. Wreckage was scattered over a 400-yard-wide area.

THE SPRINGBOARD

News From Webb Air Force Base
By BILL SEILER

MAJOR ROONEY PROMOTED

The silver leaves of a lieutenant colonel were presented to Gerald Rooney, acting commander of the Pilot Training Group, by Col. Charles M. Young, Wing Commander, at the group dinner in the Officers' Club Friday night.

LT. Col Rooney has been at Webb since August 1952. Prior to his assignment here he was stationed in Greece for 22 months as a United Nations observer.

The new lieutenant colonel holds the Air Medal and the Distinguished Flying Cross, awarded largely on the basis of the 76 P38 and P51 combat missions he flew in the European Theater during World War II.

SAFETY RECORD HALTED
Accident-conscious people at Webb contributed directly to the Base's new safety record of 62 accident-free days, declares Capt. Leverett C. Ficklin, Ground Safety officer.

The record was halted on April 20 when an officer of the 3361st Pilot Training Sq. closed a car door on his hand, breaking a finger and

requiring five days hospitalization. Webb still has an outside chance of beating the present record in this fiscal year, says Capt. Ficklin, but it will be close, since there are only 67 days left.

So far, Webb has set and broken two ground safety records this year, and established a third. The record of 23 accident-free days was broken in February, and a subsequent record of 34 days without a lost-time accident was broken in March.

CREDIT UNION DEPOSITS
Traffic was fairly slow in the temporary office of Webb's Federal Credit Union last Friday, the first day that business was transacted, but about \$1,100 was taken in during the two hours that the office was open, reports Lt. Chester M. Henry, treasurer.

Largest deposit made in the credit union so far was the \$1,000 invested by a technical sergeant who had been a member of the credit union at Reese AFB, Lubbock, and was definitely sold on its operations.

Among the many attractive features about doing business with the credit union is that the loans are insured, at the expense of the credit union, to pay off the unpaid balance in the event of death or total disability.

Another feature is that the union will have insurance policies in effect on each depositor up to the amount of \$1,000. In the event of a member's death, the insurance would match the amount of the deposit, and both the deposit and the sum matched by the insurance will be turned over to the estate of the deceased.

GRADUATION TOMORROW
Jet pilot Class 55-M will be graduated tomorrow morning at 9:30 in special exercises held in the Academics Auditorium.

Guest speaker at the graduation will be W. W. Brazzel, director of flying operations for Amers. Airlines and father of one of the graduates. Following the graduation, there will be an informal reception for the graduates and their guests in the Officers' Club lounge.

Class 55-M has 37 student officers and no aviation cadets in the group. The sole foreign student is 2nd Lt. Jorge Morales, from Cuba.

NCO CLUB SECRETARY
In a triple play that becomes effective Sunday, M-Sgt. Charles R. Fletcher, first sergeant of the 3560th Field Maint. Sq., assumes new full-time duties as secretary of the NCO Club and M-Sgt. Joseph C. Seal, present secretary, takes over as topkick of a squadron in Air Base Group.

At the same time, M-Sgt. William J. Gromer, Base Flight line chief, moves up to take over the first sergeancy slot vacated by Fletcher.

HOLSKE FAMILY LEAVING
Capt. and Mrs. Clifford Holske were guests of honor at a cocktail party given in the guest house last Saturday night by Col. and Mrs. Robert D. Whittington Jr., Capt. and Mrs. Richard Franz, and Lt. and Mrs. Jesse Williams.

Capt. Holske is being reassigned to Moody AFB, Valdosta, Ga., for training in the F94 Shooting Star all-weather interceptor.

Mrs. Holske has been an active member of the Webb community during her stay here, recently completing a term as president of the Officers' Wives Club. She has served as secretary of the same group, and as editor of the club's newspaper, the "Tiger Rag."

**George Urges
Neutral Aide
For Chiang**

WASHINGTON (AP)—Sen. George (D-Ga.) suggested today the possibility that some neutral nation might represent the Chinese Nationalists at any international talks aimed at settling the future of Formosa.

George said that "unavoidably we would have to bring in the Chinese Republic or some representative of the Chinese Republic" to such a conference. But he added in an interview that Chiang Kai-shek's interest could be represented by "any agreed representative" such as a neutral nation.

Any such proposal was certain to be opposed by Chiang and by Nationalist supporters in this country. Formosa, Chiang's seat of government, is claimed both by him and the Communists.

**Merchants Trim
Cotton Week Plans**
A number of placards will be displayed in store windows here during Cotton Week, which is being observed on a nationwide basis starting May 2.

Plans for a style show and a parade fell through. It was announced at the Chamber of Commerce. Merchants who met here this week decided not to attempt such an endeavor.

Chamber Manager J. H. Greene stated that some displays possibly will be placed about the city. Object of the week's celebration is to promote interest in cotton.

**Youth Admits
Bomb Blast**

DETROIT (AP)—The mystery of the homemade bomb set off near the home of Recorder's Judge W. McKay Skillman Tuesday night has been solved, police said today.

Detectives quoted a 15-year-old boy who lives in the judge's neighborhood as saying he did it "just for the fun of it."

The boy told police he made the bomb from a six-inch lead pipe stuffed with chemicals taken from a high school laboratory. It did no serious damage. He was ordered to report with his parents to the youth bureau.

HERALD

UNCLE RAY'S CORNER

Leaves of an aspen tree.

Was there a time when North America was covered completely by forests? Not during any time on record. It appears, however, that about 35 per cent of the continent had forests or woodlands before the coming of white settlers.

Q. What is the timberline of a mountain?
A. It is the line up to which trees grow. Below this line there may be many trees above it none.

Q. Are mountain trees tall?
A. On the contrary, most of them are short. As a rule, the higher the location, the shorter the tree. If a mountain has trees at a height of a mile and a half or two miles, they are likely to be dwarfs. Some mountain trees rise to a height of only three feet before they grow old and die.

Q. Is it true that dozens of kinds of willow trees exist?
A. There are about 175 kinds of willows. Among these are the weeping willows, the yellow willows, the white willows, the blue willows and the shining willows.

Q. What are the close relative of willow trees?
A. There are about two dozen, and they include the trembling aspen, the large-toothed aspen, the silver poplar and the cottonwood.

Q. Where did the trembling aspen get its name?
A. From the fact that its leaves seem to tremble. They move back and forth in the slightest breeze.

Few trees can equal the wide range of the trembling aspens in North America. They grow from Newfoundland and Nova Scotia across Canada to Alaska, and southward to California and Mexico.

They live about the shores of Hudson Bay and in the mountains of Kentucky. It is rare to find them thickly covering an area of much size, but they surely are widespread.

Tomorrow: Magnolias.

Salk Shots Given

MANILA (AP)—Hundreds of children of U.S. military personnel were given the Salk antipolio vaccine yesterday at Clark Air Force Base. The serum was flown from Alameda Medical Depot, Calif.

**Cops Hold Elderly Eccentric
Found In Mountain Of Filth**

BUFFALO, N. Y. (AP)—A 74-year-old eccentric was held for hospital observation today while authorities took steps to clean up a mountain of junk and filth in his three-story home.

When health officials and firemen, equipped with gas masks, entered the home of Bayard Martin yesterday, they were greeted with a waist-deep pile of trash from cellar to attic. The smell was insufferable.

Included in the rubble were at least 75 dead cats, many of them "embalmed" in mothballs. Thirty-four live cats and three dogs were found penned amidst litter and filth in the basement.

Martin, a bachelor, said he had lived alone since his brother married five years ago. He said he was an insurance broker who had "paid \$22,500 in city taxes this year."

A city judge ordered him to a hospital for examination.

MEN IN SERVICE

Completing their Air Force basic training at Lackland AFB, near San Antonio are three airmen from Big Spring and area.

They are James Delbert Olds, 19, son of Mr. and Mrs. J. H. Olds of Lamesa; Donald G. Miller, 20, son of John J. Miller of Colorado City; and Ronald L. Simmons, son of Elfreda Simmons, 113 Wright, Big Spring.

Each expects to be assigned to one of the Air Force technical schools on completion of the basic training.

Cpl. Emilio R. Molina, son of Mr. and Mrs. Jesus Molina, 100 NW 4th, is now stationed in Ansbach, Germany, as a gunner in Battery B of the 750th Field Artillery. He entered the Army in July, 1953, and has been overseas since the following December.

Alan W. Hamm, son of Mr. and Mrs. Sie Hamm, 921 Elm, Colorado City, recently arrived in Korea and is now a member of the 7th Infantry Division.

Pvt. Hamm, an aidman, entered the Army last October and received basic training at Ft. Bliss, Tex. He received his B. S. degree from the University of Texas.

Cpl. Kenneth W. Williams, son of P. L. Williams, 408 Gollad, is slated to participate in Exercise Apple Jack during May.

The exercise will be held at the Yakima Firing Center in the state of Washington. The movement is to test efficiency of infantry units in mountainous and desert terrain, and simulated use of atomic weapons will be included.

Williams, 22, is a cook with the Heavy Mortar Company in the 2nd Infantry Division's 8th Regiment at Ft. Lewis, Wash. He is a former employe of Norwood Brothers in Midland and completed basic training at Camp Roberts, Calif.

His wife, Jean, lives in Tacoma, Wash.

Keeping Big Ones?

WASHINGTON (AP)—The Pentagon has ordered a reduction in the number of shoe sizes for male members of the Armed Forces from 235 to 113. The order, following years of study, is aimed at saving money on reserve stocks and supply problems.

RONALD L. SIMMONS

JAMES DELBERT OLDS

County Engineer To Submit 'Master Road Plan' Friday

Foster Dickey, county engineer, will unfold his "master road plan" at a special meeting of the commissioners court Friday morning.

A map, showing Dickey's plan for dividing the county into four road districts for maintenance purposes, already has been submitted to commissioners.

The master road plan, which will serve as a maintenance guide as well as the outline for a long-range road improvement program, divides the county's roads into three classes.

Included are paved roads or those to be paved to state FM standards; compacted caliche roads, or roads to be improved to that status; and other unpaved roads.

The plan projects roads for which paving is proposed or will be proposed.

The engineer met with each commissioner individually in preparing the plan and has taken into consideration their recommendations as to designation of roads for paving or the compacted caliche improvements in the various precincts.

Both the "master plan" and the division of the county into road

maintenance districts are parts of the engineer's reorganization of the county road and bridge department.

Dickey said he plans to put the reorganization into effect Monday.

Under the new setup, the maintenance of roads, all major construction, and operation of shops and allied facilities will be in separate divisions of the organization.

A maintenance crew will be assigned permanently to each road district. There will be a construction crew to perform all new construction, as well as major repairs. Another force will operate vehicle and equipment maintenance and repair shops.

Division of the county into the four maintenance districts was made irrespective of precinct lines. Approximately the same amount of road mileage was included in the four districts. Geographical factors such as area, type of terrain, etc., also were considered.

Dickey said he will propose that the county construct a few miles of permanent roadway this year, but that he will recommend that any major construction projects be put

off until 1955.

During the remainder of this year, he said, any "bugs" can be worked out of the new organizational setup and equipment can be prepared for the major undertakings.

A new county map already has

been prepared, showing all roads in the county. Dickey also has been setting up administrative machinery for the reorganized road department. He has employed two aides authorized in connection with the reorganization. They are Ross Hodges, engineering assistant and Mrs. Laura Harris, administrative assistant.

Hodges is draftsman and will assist with other engineering work, such as surveying. Mrs. Harris assists with operation of the office in the courthouse, will handle cost accounting and similar duties.

Meteorologist Hot On Trail Of New Mexico 'Fireballs'

ALBUQUERQUE, N.M., April 23 (AP)—If anybody ever catches up with the mysterious fireballs which are reported frequently over the Southwest, it's a good bet that Lincoln LaPaz won't be far behind.

What are the fireballs? Nobody knows for sure. And nobody wants to know more than LaPaz, who runs, at the University of New Mexico, the only Institute of Meteoritics in the United States.

LaPaz feels that while the reports have touched off controversy as well as sensation, there has been enough documentation to warrant a thorough investigation. And recently he has been so busy that it's hard for his family or anyone else to keep up with him.

This spring brought a new rash of the reports, which over a period of years have been made by ranchers, bus drivers, airline pilots, state troopers and other persons.

During the week beginning April 3, five fireballs were reported in New Mexico and two in Northern California. Midmorning of April 5 brought many reports, although LaPaz said it was finally concluded that only three objects were involved.

Descriptions vary so widely that they could be applied to almost

anything from an exploding star to a runaway traffic light.

They come by day and by night. Most often the fireballs are reported at night as yellow-green. But various other colors, including white, blue and red, creep into the descriptions.

LaPaz has found it hard to apply the hard, cold logic of mathematics in seeking to track down the reports.

"There's no definite way to measure the size of the fireballs," he says. "There's nothing to compare them with side by side, the distance they are from the observer is unknown and no remains of any have been found."

One theory is that the fireballs are a form of meteorites, but LaPaz says he's sure they're not normal meteorites because they are not accompanied by sound.

For the moment, at least, LaPaz is just plain stumped. He says he has no definite theory as to what the fireballs are.

Air Force planes have occasionally been sent to search areas where fireballs were reported. So far they have found nothing, but a spokesman at Biggs AFB, El Paso, Tex., says the matter "is by no means closed."

MRS. M. T. KUYKENDALL
Good at flowers or cooking

Doodle With Noodles And Make This Dish

Today's good cook does a sort of "doodle with the noodle" and comes up with a good one dish meal called Lasagna Casserole. She is Mrs. M. T. Kuykendall who resides at 107 W. 13th Street.

Mrs. Kuykendall, who owns Faye's Flowers, is a busy woman in her business and in various clubs and organizations in the city. She takes the short cuts and leaves the meat cooking to her husband. He got the original recipe from Mrs. Louis Mark at Buchanan Dam and when he prepares it he spends hours over the special cooking of the sauce.

This is an Italian recipe and when it is made the old way, very wide noodles are used. Mrs. Mark orders hers from a house in New York.

Mrs. Kuykendall has streamlined the method and makes it like this: Buy the widest noodles available, cook and drain. Grease large casserole dish and place one layer of noodles. Use 10½ ounce size of spaghetti sauce with meat and cover layer of noodles with part of this. Use ¼ of a pound jar of processed cheese as the next layer then top this with either chopped green or ripe olives. Now, start all over and do it again but stop when you get the rest of the cheese on. This should be baked for 30 or 40 minutes at 350 degrees and will make six or eight servings.

This dish can be made several days in advance of the time of serving and is especially good with a tossed salad and garlic bread.

Most of Mrs. Kuykendall's acquaintances call her just plain Faye because when she moved here from Liberty she was Faye Colthrop. She had received her degree from Texas Tech and worked in a Lubbock florist's shop while in school. After graduation, she taught school in Slaton and Lubbock and later went to Liberty to manage a flower shop there. When her parents became ill in their home in Lubbock she wanted to be nearer to them. Spotting an advertisement in a florist maga-

Chocolate Nut Bars For Better Lunches

One way of making a company supper something special, is to serve a first course that's on the lavish side, Italian-style antipasto fills this bill to perfection.

Here are directions for such an appetizing beginning. Add to or subtract from our suggestions as you like. The Tuna Savory is always enjoyed by guests.

Your main course can be spaghetti with a meat sauce and side dishes of broccoli with lemon-butter. Be sure to cook the broccoli so it remains beautifully green.

For a dessert that resembles the famous Italian one called Zuppa Inglese, choose Boston Cream Pie. Use two layers of sponge cake (homemade or bought) and put them together with packaged vanilla pudding (instant or cooked) embellished with rum flavoring. Top the cake with a smooth chocolate frosting.

Add a cheese course before the dessert, and fruit after it, if you like. You'll have a memorable meal.

TUNA ANTIPASTO TRAY
Ingredients:
Celery hearts, 1 can (7 ounces) whole pimientos (drained), green olives, thin thin onion slices (red or Bermuda), 2 cans (8 ounces each) artichoke hearts, Italian-style red-peppers, 1 can (7 ounces) solid-pack tuna, tomato wedges, capers, parsley, Tuna Savory, cucumber slices.

Method:
Arrange celery pimientos, olives, onion slices, artichoke hearts and Italian-style red peppers in separate sections on serving tray. Drain solid-pack tuna and turn out whole; garnish with tomato wedges, capers and parsley. Spoon Tuna Savory over cucumber slices. Makes 8 to 12 servings.

TJUNA SAVORY
Ingredients:
1 can (7 ounces) tuna, 2 tablespoons red wine vinegar, ¼ teaspoon salt, pepper, 1 small clove garlic, ¼ cup finely diced onion (red or Bermuda).

Method:
Drain oil from tuna into a small bowl—there should be 3 tablespoons. Add vinegar, salt and dash of pepper. Put garlic through a press, or mince and mash; stir into oil with onion. Turn drained tuna into dressing, flake and mix.

Banana, Oatmeal Make Cookie Treat

1½ cups sifted flour
1 cup sugar
¼ teaspoon baking soda
1 teaspoon salt
¼ teaspoon cinnamon
¼ teaspoon nutmeg
¼ cup shortening
1 egg, well beaten
1 cup mashed ripe bananas
½ cup chopped nuts
1½ cup rolled oats

Set oven for hot—400 degrees F. Sift together first six ingredients into a large mixing bowl. Blend in shortening, add egg, mashed bananas, nuts, and rolled oats. Beat until thoroughly mixed. Drop by teaspoonful, about 1½ inches apart, on an ungreased baking sheet. Top with whole walnut meats, if desired. Bake 12 to 15 minutes or until light brown. Remove immediately from pan; cool on a rack. Makes 3½ dozen.

Fluting Makes Fine One-Crust Pie Trim

Want a fine trim for your one-crust pie? Cut the rolled out pastry one half inch (at least) larger than the top edges of the pie pan. After fitting the pastry into the pan, turn the hanging edge under and flute the edge.

To flute, put your little finger under the edge and press the pastry on each side of it with the thumb and forefinger of your other hand.

Here's Good Start For Company

Here's Good Start For Company

Oatmeal Muffins Are A Substantial Food

By CECILY BROWNSTONE
Associated Press Food Editor

Muffins will help you make a lunch or supper substantial. They're delicious with so many fish, egg and creamed dishes — as well as with salads — and usually give that feeling of satisfaction everyone enjoys after a meal.

For family service, we're enthusiastic about this oatmeal muffin recipe. First, the muffins are nutritious. Second, they have a fluffy texture. Third, they have a welcome flavor that comes not only from the rolled oats but from the buttermilk and dark brown sugar that go into them.

Muffins should, of course, always be served hot. But if you want to make these oatmeal muffins ahead of time, or there are any left over, you can reheat them. One way is to put them on a rack in a shallow pan in a hot (425 degrees) oven for about 10 minutes.

One note about the mixing technique for these oatmeal muffins: Some cooks like to beat the egg that goes into a batch of muffins until it is ivory colored and about as thick as mayonnaise because this method they believe produces a fluffy texture. We tried beating the egg to full volume for one batch of these oatmeal muffins; for another batch we beat the egg only slightly. Both methods produced muffins much the same in texture.

OATMEAL BUTTERMILK MUFFINS

Ingredients:
One cup sifted flour, 2 teaspoons double-acting baking powder, ¼ teaspoon baking soda, ¼ teaspoon salt, ¼ cup firmly packed dark brown sugar, ¼ cup butter or margarine, 1 cup uncooked quick rolled oats, 1 egg, ¼ cup buttermilk.

Method:
Sift together the flour, baking powder, baking soda and salt into a medium-sized mixing bowl. Stir in the brown sugar. Cut in the butter with a pastry blender until no particles of fat can be seen; rub the mixture between the palms of your hands, if you like, to hasten this process. Stir in rolled oats thoroughly. Beat the egg enough to

combine yolk and white; beat in buttermilk enough to combine. Add egg-buttermilk to rolled oats mixture; stir just until dry ingredients are moistened. Fill greased muffin cups each about ¾ full. Bake in a hot (425 degrees) oven until cake tester inserted in the center of a muffin comes out clean. Remove muffins from cups at once and serve piping hot. If muffin pans whose cups each hold ¼ cup are used, this recipe will make 8 or 9 muffins and will need to be baked about 18 minutes.

Macaroni, Tuna Good For Rush Day

Tuna Macaroni Bake is ideal for those meals when you want to avoid a last-minute rush of preparation. Cook the macaroni ahead of time, if you like. Then, an hour before meal time, blend all the ingredients. Slip into a 375 degree oven and forget it until it's time to serve.

TUNA-MACARONI BAKE
1 7-oz. package macaroni (or ½ 14-oz. pkg.)
1 egg
¼ cup evaporated milk
¼ cup water
¼ teaspoon dry mustard
1 tablespoon minced onion
¼ teaspoon salt
1½ cups grated American cheese
1 7-oz. can tuna, broken

Cook macaroni as directed on package. Drain. Break egg into mixing bowl and beat slightly. Add all remaining ingredients including cooked macaroni. Pour into greased baking dish, 6 x 10 inches, and bake in 375 degree oven for about 1 hour, or until mixture is firm and lightly browned. Cut into squares and serve with a topping of catsup or chili sauce. Serves 6.

Apple Chutney Ideal For Curry Dishes

Zippy relishes are the grace notes of any meal, particularly if there is a curry dish involved. This recipe for apple chutney can be made in quantity and kept on hand.

APPLE CHUTNEY
2½ cups sliced apples
1 cup light brown sugar
¼ cup cider vinegar
¼ cup silvered candied ginger
½ cup thinly sliced onion
1 cup seedless white raisins
1 teaspoon chili powder
½ teaspoon salt
2 teaspoons mustard seeds
¼ cup diced pimiento
¼ cup chopped walnut meats

Chop apples; combine with sugar, vinegar, ginger, onions, raisins, chili powder, salt and mustard seeds. Bring to a boil; simmer about 30 minutes. Add pimiento and nut meats. Makes about 2½ cups.

Ambrosia Inspires Fruit Dessert

Sprinkle sliced fresh pears with lemon juice and arrange them with alternate layers of sliced oranges in a pretty glass bowl. Sprinkle each layer lightly with sugar.

Top with moist shredded coconut. It's a delicious dessert patterned after the famous Southern concoction called Ambrosia.

RAYMOND HOGG
... And Talking Raven

'Quacky,' Talking Bird, Helps Run Paper Route

By CLIFTON LAWHORNE

Raymond Hogg, 13-year-old delivery boy for The Herald, has a mighty peculiar companion who helps him on his newspaper route. The companion, also his pet, is a raven.

"Quacky," the name acquired by the raven because of his constant conversation, precedes Raymond on the route. The bird flies from house to house, and he is a familiar sight to newspaper subscribers in North Big Spring. Quacky always waits on his master at each door before taking off for the next.

When not flying, the bird perches on the handle bars of Raymond's bicycle or on his master's arm. The raven is almost two years old, and as Raymond says, he does not know the difference between being tame and being wild. The Hogs have raised him practically since birth.

Raymond and his father, Jim Hogg, got Quacky out of a nest between here and Tarzan shortly after the bird hatched out of an egg. The family has never had any trouble in raising the raven.

However, some of the neighbors have complained. The Hogs live at 467 NW 11th, and they say that people living nearby just can't raise a garden with Quacky around.

Consequently, when Quacky is not with Raymond or some other member of the family, he is kept in a pen behind the house with other fowl. Quacky and the chickens get along fine.

The Hogs also have a dog—Nutsy—and a rabbit. Quacky has no trouble with either, and he is

often heard shouting "Nutsy, Nutsy."

The raven has not yet started saying "nevermore" like the raven which Edgar Allen Poe wrote about, but he does say quite a lot.

Quacky is the inquisitive type, and he is always asking the questions why, when, where, what and how. He barks like his dog companion Nutsy, and he makes a sound like a gun shot.

Most of the time Quacky will not talk unless he is in his pen and mad or unless he is out flying by himself or with Raymond on the paper route.

Raymond did have an assistant on the route named Randel. Quacky used to always yell, "Randel, come here — Randel, come here."

Everything is not harmony with Quacky on the route. Raymond says Quacky sometimes tears up papers left in doors. The bird has also been known to pester people and pick at dogs, Raymond explained.

Quacky is fairly large, weighing well over a pound. His wing span is about two feet, and he is solid black. His feathers are white underneath the black outer covering, however.

It costs only about 50 cents a month to feed the raven. Raymond says the bird eats practically anything, including bread and other scraps from the table.

About the longest time that Quacky has ever been away from home is three days. He has flown all over town, and the Hogs are never worried about him when he

is gone. He always reappears.

Many times members of the family have taken Quacky to town, let him go, and found him at home when they got back.

Raymond is in the seventh grade at Junior High School. He has had a paper route for about two years, starting shortly after acquiring Quacky.

Co-Ops Argue For Rights In Cities

AUSTIN (AP)—Texas rural electric co-ops have a "clear right" to operate in any city or town, their attorneys argued yesterday in a suit challenging that power.

The state and the Southwestern Gas and Electric Co., Shreveport, La., contended that a 1951 law make it unlawful for such rural electric co-ops to serve customers in areas with more than 1,500 inhabitants.

The suit was tried before Judge Jack Roberts in 126th District Court. He heard concluding arguments yesterday and set May 12 as the deadline for filing of written briefs.

The case directly challenges power distribution in Gilmer by the Upshur County Rural Electric Co-op. Of the state's 76 rural co-ops, 54 entered the suit as intervenors.

The co-ops claim if the court rules against them, it will seriously hamper their operations in Texas. The state and Southwestern have contended it will not materially affect their economy.

Nurses Become Technicians, Aides Give 'Personal Care'

By STANLEY MEISLER
NEW ORLEANS, April 23 (AP)—Mary Smith, a new student nurse, dreamed of the day she would minister tenderly among clean, white beds.

In her excited young mind, she could see herself bending over a coughing little boy, her gentle hand pushing back the dampened hair from his forehead.

Three years later, in the crisp uniform of a registered nurse, she entered a big city hospital. Now she had her clean, white beds and the coughing boy.

But when the boy coughed, it was an aide who bent over him. Mary had to scribble on charts, mix medications, prepare hypodermic needles, supervise student nurses. She had no time for nursing in the old sense.

What's more, a group of Tulane University researchers have concluded, that's the way Mary wants things to be, even though she may neither realize nor admit this fact.

The major conclusion of the researchers was that nurses are no longer Florence Nightingales, even though they are trained in this tradition at many nursing schools. They have become professional technicians.

The Tulane Urban Life Research Institute conducted its study at the 3,200-bed Charity Hospital in New Orleans. Institute Director John Rohrer says checks with other hospitals show the nurse situation there is typical of the nation.

The institute's report, edited by Rohrer and Leonard Reissman, is scheduled for publication this fall. Personal relations with patients, the institute found, is rarely the job of the registered nurse.

The modern nurse supervises students, makes charts, prepares medicines, helps make spinal taps and manages her part of the ward. Of 2,432 personal bedside tasks, researchers found nurse aides did 34.5 per cent, visitors 17.5 per cent, practical nurses 9.3 per cent and nurses 7.4 per cent. Doctors, students, orderlies and supervisors did the rest.

This was part of a strange contradiction encountered by the researchers. Nurses said in interviews that their biggest cause of dissatisfaction was the lack of personal contacts with patients. This was a role for which their training had often prepared them. But the institute found that when chances come up, most nurses prefer to do something else.

For example, the study showed that most nurses prefer surgical wards to medical wards. Patients in surgical wards usually leave the hospital quickly. They often can take care of themselves. Medical ward patients often linger in the hospital. They need more bedside care.

Nightingale and Florence Nightingale may be due to shortness of breath. Nurses say good bedside care is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer ranging backache—foot inlabeled. Since bladder irritations due to cold or wrong diet may Don't neglect your kidneys if these conditions bother you. Try Don's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Don's give happy relief from these discomforts—help that is free of habit-forming and ill-effects. Don's Pills today! Don't flush out waste. Get Don's Pills today!
