Commissioners Reply to League Suggestions

Hereford, Texas, June 24, 1932. County Expenditures Committee, Deaf Smith County Tax League, Hereford, Texas. Gentlemen:

The Commissioners' Court have carefully and deliberately gone into the consideration of the report made by your honorable committee to the Deaf Smith County Tax League, and which report was adopted by the League and then submitted to the Court.

We find in the report recommendations of the reductions of tax levies and expenditures of tax payers money, all of which the Court readily endorses and pledges itself to carry out to the limit where the same can be done without impairing the necessary function of government. We welcome this move on the part of the people to organize themselves into a Tax League whose function it is to cooperate in any movement to curtail the expenses of the County. The Court has been conscious of the need of such a move for some time. It is represented to the Court that the League is a non-political organization and is the people. We accept the report and the recommendations as the voice of the people of Deaf Smith County.

There are many problems existing now and which will show up in the future that will necessitate the cooperation of the League, if the Court is able to bring about the reduction in tax levies and in the conservation of the funds of the county. The Court respectfully solicits your support as these problems show up.

The Court has been operating under a fixed and definite budget for the last 12 months. This means that we have figured out the smallest amount of money that it would take to run the County for each succeeding 12 months and at the same time anything like grant the wishes of the people. At the beginning of each month we go over the budget and ascertain if the expenditures are going over or under the amount allotted for each month. This is the only way a business can be operated successfully. By adopting this method 12 months ago the Court has been able to stay on a cash basis and to keep all local bills paid and in addition warrant indebtedness of the County has been reduced to \$24,000.00, which sum is for equipment incidental to the opening of public roads which the people petitioned for and wanted. No warrant indebtedness has been created against the county since 1930 or since we began to see the handwriting on the wall so far as the depression is concerned.

As you stated in your report the condition of Deaf Smith County at the present time is good, but that fact is no reasonable argument that we should go on spending money for things that we could not do without, for it may come to the point right here in our fair Deaf Smith County where it will be a question of bread and meat with the most of us. So we welcome the people's organization which will pull all together toward the same goal—that of curtailing unnecessary expenses.

CALIFORNIA VETS DRIVE THRU TO WASHINGTON ON QUEST FOR BONUS

Hereford was visited last Sunday by 54 World War service men enroute by cars from California to Washington to join the swelling ranks of veterans encamped at the National Capital in an appeal to Congress for the payment of the soldiers' bonus bill.

The group planned to reach Washington by next Monday when they expected to take part in the proposed Fourth of July parade of 125,000 ex-service men.

HARVEST REACHES FULL SWING WITH THIS WEEK

What little wheat that is to be cut in Deaf Smith county is coming in rapidly the past few days as the weather has warmed up and the grain is ripening fast. Very little shipment is being made, most of the grain being held here. Summerfield has reported shipment of two cars.

Press dispatches from Muleshoe announce that the commissioners court of Bailey county will furnish the required right of way across that county in order to receive the proposed assistance of the highway department in building without further cost to the county of a culchic and asphalt paved road, according to County Judge J. E. Adams.

Questionnaires Returned To Candidates by League

The questionnaires sent by the Tax League to the candidates for commissioners and county judge, seeking their opinions for publication relative to questions pertaining to curtailing tax money expenditures, have been returned to those who mailed them in, according to Frank Glivan, chairman of the Tax League Expenditures Committee.

There were not enough of the candidates for the offices to whom the questionnaires were sent who mailed in answers, for it to be fair to them in competition with those who did not answer the questionnaires, according to Mr. Glivan, so all papers were returned to those who sent them.

Fine Preaching and Music Aid Revival

The interest and attendance have been increasing nightly at the revival meeting which is being conducted by the Vawter evangelistic party at the First Christian church. The services begin at 8:00 o'clock with a special instrumental selection played on either the chimes, marimba and piano or a combination of music by those instruments. Sunday night the first of a series of free, sacred concerts will be given by the evangelistic party. The concert will begin promptly at 7:30 and the program will consist of a quartet on the Notre Dame chimes, Beautiful Isle of Somewhere; a crayon picture by Howard House illustrating the song, The Beautiful River. Mrs. Vawter and Mr. Reeves will whistle a selection. There will be a solo on the marimba, Meditation, by Morrison. Mrs. Vawter will sing One Day, and Mr. House will make a rag picture, illustrating Christ in the Garden. These rag pictures are rapidly executed in imitation of oil paintings. The work is done with pieces of ordinary cloth cut to various shapes and sizes and smoothed upon a background. Amazing landscapes, seascapes and photo studies are presented by this method. It is a feature that is at once entertaining and unique.

The Bible drill began this week with a large number of boys and girls. The class meets every morning at the church at 9:30. The Bible study is in charge of Howard House and the singing is directed by Billy Reeves. This is free to all children of the city of school age and not over 16 years old. The work includes Bible study, stories, pictures, special music and other features.

The regular services begin at 8:30 during the week, every night except Monday. The subjects of the sermons include What God Can't Do; Faith and how to get it; Repentance; Hell and who is going; Does the Bible teach eternal punishment? Bought with blood, and others. A question box has been installed just inside the main entrance of the church.

any questions on religious subjects may be asked.

LIONS WILL HOLD LADIES NIGHT AND INSTALLATION PROGRAM

For the annual installation program to inaugurate their new officers into their responsibilities, the Hereford Lions will have their weekly luncheon affair Tuesday evening of next week at 8:30 in the regular meeting place, the Presbyterian church, and to make the evening a pleasant one of merriment, have invited their wives and lady friends to be guests of the club and see the performance. The situation is full of promise.

The Wednesday noon luncheon of this week was well attended and the usual hilarious fellowship was enjoyed. E. H. Close, father of Harold, and Dr. T. L. Morgan were guests of the club. Don Baer, who was in charge of the program, presented the club officers to the members. Stanford, who in a direct, forceful way, brought to the attention of recent members the purposes and intentions of the Lions organization. It was good for the older Lions to hear the ideals of the order expounded, and Mr. Stanford's talk was well received.

JULY FOURTH PAGEANT WILL NOT BE HELD

The proposed spectacular presentation of colonial and early American history in pageant form the night of July Fourth, has been given up by those in charge. The scene of Lake Park was to have been prepared for the pageant but the vacation period and harvest season kept so many from the city that attendance at practice periods was too irregular for a successful presentation. There were about 75 characterizations in the pageant, covering the part of early history from the coming of Columbus through the colonization period and part of the Revolution-July War.

City Begins Collection of Unpaid Taxes

A form letter sent out to the delinquent tax payers of Hereford during the past week signifies the city commissioners are taking steps to bring the past due taxes up to date. The plan follows the method presented and approved at the West Texas chamber of commerce budget meeting in Lubbock last week, when over 40 cities met to discuss their mutual problems. Stating that it proposes to bring pressure to bear upon those who have unpaid taxes, the city graciously offers to remit all penalties and interest on past due taxes if paid before then, but that the full amount plus the added cost of enforced collection would be called for should legal measures be necessary.

Parts of the letter mailed to Hereford delinquent tax payers follow: "As the city is preparing to publish a list of all delinquent taxes, I am enclosing you here with a statement of delinquent taxes which appear to be assessed against you so that you may have the privilege of paying same before publication and save the additional costs that will be assessed.

"Delinquent taxes have been accruing in the city for a number of years, and while the city commission has been reluctant to file suit for their collection, it seems that a suit will be necessary in order to clean up a part of them, and the publication of this delinquent roll is the first step toward such action, but before taking this step towards such action, it is the desire of the city commission to give everyone an opportunity to clean up all their delinquent taxes without additional expense.

"We invite you to call. If you will pay now, there will be neither penalty nor interest."

Church of Christ Revival Begins Next Wednesday

Evangelist E. C. McKinsey will arrive in Hereford from Willis Point and begin a revival meeting with and for the Church of Christ Wednesday evening, July 6, to continue up to and including Sunday evening, July 17. These meetings will be held in an auditorium adjacent the church, but this point has not been definitely decided, and is in the hands of a committee for final settlement. It is stated that the evangelist will be accompanied by his family. While this is his first visit to Hereford, it is understood he is a strong gospel preacher with years of experience.

Song services will be under the leadership of singers within the congregation, assisted by visiting evangelists.

The preparation of this phase of the work. At 3 o'clock next Sunday afternoon there will be song practice.

Among other committees working for the revival, is one on invitation and visitation. During the course of this campaign, the committee will be active with the work in hand and the hope is expressed that the public generally may attend. Special invitations will be issued and distributed so there may be no lack of information relative to the services nor of the fact that all people are assured of a cordial welcome.

JONES BILL PART OF RECONSTRUCTION PLANS PENDING

The proposal of Marvin Jones, congressman, to use the \$135,000,000 remaining from last spring's farm and seed loan, has been made a part of the Reconstruction Bill of several billion dollars now pending before Congress, according to a telegram received here Wednesday from Mr. Jones. The bill has passed the House of Representatives and is about ready to go to the Senate. Particular pains are being taken to have the bill in acceptable form for the President's approval.

Should the Jones measure be adopted, it will mean many thousands of dollars made available for local assistance in preparing wheat land and planting it this fall in Deaf Smith county.

SAYS TAX COLLECTIONS GOOD IN CURRY COUNTY

Chas. H. Evans, tax collector of Curry county, was over from Clovis Friday of last week to visit with his half-brother, Ernest Medkief, manager of the Hereford Motor Co., and his family. Mr. Evans reports tax collections in Curry county to be better than last year, which in turn were better than the preceding one. New Mexico enforces tax collections each year and keeps its delinquencies cleaned up.

Commission Appointed to Investigate Fires

A new fire prevention board has been appointed by the city commission, the personnel of which is as follows: F. H. Oberthier, Frank Glivan, H. D. Reed, Royce Satterwhite and Dow Mercer. Messrs. Satterwhite and Mercer, on account of their official positions, are placed as members of the board, and the other three members were appointed by the city commission.

This body met in its initial session Wednesday morning, and Mr. Oberthier was selected as president of the board. The duties of the body will be to investigate every fire of any nature to take place in the city of Hereford and vicinity.

Mr. Oberthier stated: "We expect to make an inspection of property and call witnesses, and to do everything to prevent and discourage burning of property, and in cases where it appears necessary we will cooperate with the state authorities in pushing prosecutions. We realize that every fire that occurs is a loss to the people of our community, and not to the insurance companies, for the loss must be made up by increased rates on the property in this community. On account of the excessive fires that have occurred in the past year, our rates have been raised, and we are now paying a higher rate on account of them."

"We especially request the cooperation of the local insurance agencies and policy holders, in taking pains to see that the property is not over-insured, and that three-fourths of the present replacement value should be the maximum under present conditions. We recommend that each policy holder on household furniture furnish their local agent now with a list of their household goods so that the value can be checked. This fire prevention board will have further statements to make from time to time towards the prevention of fire loss."

General Store at Summerfield Looted Monday

Authorities were called Tuesday morning to Summerfield, eight miles southwest, when W. L. Huntley, general store keeper there, reported the loss by burglary of a great deal of merchandise from his store. Deputy J. C. Allred spent part of the day there, working in conjunction with Castro county officers, Summerfield being in the extreme northwest part of that county. Traces of the thieves having gone north in a truck with which they hauled their loot away, was all the available evidence to be found. Investigation is being carried on under the direction of the county officers.

The money was waiting for him and had been here several weeks. Government experts in the treasury department had inspected the crumbled ashes of the rotten bills he sent in, and determined there was the amount which he claimed to have lost.

T. M. Bradley Building a New Rural Home

T. M. Bradley is building new improvements on the farm he purchased about three miles east of town last year. A well and windmill, a new residence, barn and other outbuildings are being erected. The home has one of the best scenic locations in the county, being above and over looking the valley of Frio Draw, northeast of the town. A southern exposure facing a half-mile sweep of the creek valley, protected from the north, the spot can be made into a most beautiful home site.

Picnic Monday Planned to Be Jolly Affair

Those who have been working on the Fourth of July picnic to be held next Monday in Lake Park in Hereford, are planning on providing a fine time for everybody who comes. The picnic was not intended to be an elaborate affair, but a general good-time, get-together for all the folks of this and adjoining communities to enjoy the day together.

The program is scheduled to start at 10 o'clock, and athletic events that can be held within the confines of the park will be indulged in, those requiring a wider field of action being set for later in the afternoon.

The basket dinner will be spread in time for lunch to begin at 1:00 o'clock. Everyone is invited to be present and participate. All who can and will are urged to bring baskets to spread with the others, but none should stay away from the luncheon for it is the plans of those in charge to have enough for all, and to spare.

Candidates will address the crowd, beginning at 2:30, several prominent speakers of district prominence and legislative ability having signified their desire and intention to be present, and it is probable several county candidates will be prevailed upon to make a few remarks, although most of them seem skittish.

DEAF SMITH FARMER RECEIVES MONEY TO REPLACE THAT LOST

T. J. Culbertson, farmer living about 30 miles northwest of town, was in Hereford Tuesday and while here called at the First National Bank to inquire how the government had disposed of his claim for \$13,000 in currency lost several years ago and recently plowed up in a badly decomposed condition.

The money was waiting for him and had been here several weeks. Government experts in the treasury department had inspected the crumbled ashes of the rotten bills he sent in, and determined there was the amount which he claimed to have lost.

Odd Fellows Annex Twilight Lead at Half

puted possession of the top rung of the Twilight League ladder today, and unless the Bible Class defeats the Fireman in tomorrow's game to close the first half of the season, the Odd Fellows will be champions of the League. Should the Bible Class win the two will be tied for the top.

Games for the past week consisted of two snappy wins by the Midgets, they giving the Legion marching orders, 10-5 Friday and routing the Lions from the jungle Monday, 6-0, the second whitewash of the season, and bringing the remark that the Lions were made over into skunks. The Odd Fellows won yesterday from the Legion, 11-5.

County Committee Prepares Ballots

Final plans for getting the names of candidates upon the Democratic primary ballot for July 23, are being made this week. All 35 local candidates who filed last week paid their proportionate costs of conducting the election, before the expiration date last Saturday night, and the ballot proper is being assembled with the names of state and district candidates in their respective places. It will be one of the largest tickets ever used in a Texas primary, the great number running for Congressman-at-Large adding nearly as many as all other state offices.

Trade With Them

E. B. Black Co., Star Theatre, Streu Hardware, Sprrows-Cronin & Co., Ireland-Beavers Motor Co., Stone Department Store, Close Drug Co., Hereford Laundry, D. R. Gass & Son, City Drug Store, Brunley Garage, Corner Drug Store, Fox Mercantile, Panhandle Lumber Co., Hereford Brand, R. H. Kemp Lumber Co., Carlyle Grocery, Rice Tire Shop and S. L. Harman's Store make up the list of Harvest Special advertisers this week.

The Brand for \$1.00. The Brand's offer of \$1.00 a year, will hold good during the two days of the Harvest Specials, as is done regularly with each of the monthly sales features. A number of readers whose expressions occur wait until the special come, and take advantage of the saving in price. Subscriptions must come in or be post-marked either July 1 or July 2, and the dollar rate will apply only to those living in the Hereford territory. Those more than 50 miles from Hereford will be given a special rate of \$1.50, good for those two days only.

Should the new postage rate for newspapers made a reduced price impossible, there may not be another dollar subscription offered this year.

HEREFORD PLAYERS GOLF AT FRIONA; TULLIA IS NEXT LEAGUE OPPONENT

Members of the Hereford golf club visited Friona in a friendly team match on the latter's new course last Sunday and were easily victorious. The local players probably got the greatest kick of the day out of seeing J. R. Roden, Friona champ take J. M. Posey, the Hereford club president, to a cleaning up that isn't accomplished by any other club where.

The Tulla club will be here Sunday week, July 10, for the next match with the local club in the Wheat Belt Golf League. As the visitors enjoy the distinction of leading the league, the Hereford boys will probably have their clubs whetted sharp for the fray, expecting to return the drubbing they received at Tulla some weeks ago.

NO LUNCHEON MEETING OF CHAMBER OF COMMERCE DURING THIS MONTH

W. E. Dameron, president of the Chamber of commerce, has announced that there will be no regular first Monday luncheon of the organization for July. Next Monday being the Fourth, business houses nearly all closed for the holiday and many of the people being away for a day's respite from local surroundings, were determining factors in making the decision to do away with the closing luncheon.

Harvest Sale Is Theme Of Advertising

The regular monthly message of Hereford merchants to readers of the Brand goes out this week to one of the largest lists ever mailed by the paper. Hundreds of extra names are added each time the combined advertising is used, complimentary to the merchants whose patronage makes the feature possible.

Using a reasonable name of Harvest Specials for the bargains they offer in merchandise tomorrow and Saturday, the business interests of the city have made prices that are irresistible in comparison with regular prices on staple and needed supplies. Nearly every needed article of everyday use will be found at satisfactory prices in the business establishment of the firms advertising.

The Brand asks that its readers, if possible, trade with its advertisers. Those are the merchants to whom Trade-at-Home means more than their individual profit. Their advertising is given to the newspaper, that institution representing the civic, political, moral and highest ideals contributing in an unselfish way to the best welfare of the community. No other agency attempts to give the community an unbiased account of the people's activities, and the merchants who support the Brand contribute more to their community life than to sell merchandise from an individual standpoint.

Merchandise an unheard-of price is listed in the Harvest Specials in the center spread of the Brand this week. Other merchants of the city assist in the feature when they advertise in this particular issue, and deserve the earnest consideration of shoppers. Some of them never fall to have advertising in the Brand. They are more than people with something to sell—they are community leaders who recognize the value of their newspaper to all interests concerned.

The Brand cannot commend too highly those citizens who patronize first the merchants who advertise in the Brand. It is the advertising it receives that makes the paper possible of publication, and in no other way can public and civic questions be discussed so openly and fearlessly as through the columns of a newspaper.

What the paper has to say is printed for all to see, and owing no allegiance to anyone or anything, it can present essential facts of community welfare to obtain beneficial results for the people that can be had in no other way.

Naturally, there are going to be folks who will object to such a program and will endeavor to prevent the operation of any paper that dares to speak plainly for community principles.

Hereford merchants whose advertising makes the publication of the Brand possible, are responsible for its existence, and citizens who feel that the work of the paper is essential to its community are urged to trade with the merchants who do more than advertise when they patronize the Brand—they help to put out a spokesman whose chief interest is to look carefully into all questions of public concern and take a stand for the best, regardless of private, individual or group interests.

Trade with Brand advertisers and let them know why.

The discharging of County Agent R. O. Dunkle by the commissioners court at the suggestion of the Tax League, which the court said it recognized as the voice of the people, will put a test upon the efficiency of the tax league and the ability of the court to know the people's wishes.

The refusal of most of the candidates for commissioners and county judge to answer the tax league questionnaire is a further test upon the efficiency of the league. Whether the candidates recognized the wishes of the people in not answering will be told when the election ballots are counted.

Both the commissioners court and the other candidates recognized that fact. The questionnaire was hard to answer to the point, and several of the questions asked varied in importance as different people considered them to apply to their own lives.

A LONG TIME AGO IN HEREFORD

(From Files of Reporter, June 28, 1901.)
Portales, New Mexico, was one of the rural correspondents of the paper, its items along with saloon and hardware advertising taking up most of the front page that week.

The Hereford National Bank had made improvements worthy of editorial comment by putting in electric lights. The fixtures consisted of two bulbs of 14 candlepower each, and received their "juice" from a battery capable of lasting 200 hours. A feature that "made them better than dynamo lights" enabled the lights to be moved about the building wherever desired.

A letter from Washington was published that "proved beyond a doubt" that President McKinley was completely in the power of the trusts.

Roswell and Carlsbad, New Mexico, were celebrating the Fourth that year, the latter place being especially noted as the center of considerable oil activities. The internationally famous cave must not have then been on the map.

A representative of the Dorsey Printing Co. of Dallas had been obliged to leave town without an order because the bank and county printing was being done by the Brand.

V. Witherspoon had been in from La Plata to transact business in Hereford.

McGlothlin and Black, furniture dealers, had changed their ad in that week's paper and readers'

sential functions of government, the city dads have made provision to make the tax burden as light as possible by removing all penalty and interest should payment be made before a specified date, but the clause is added that following that date it is contemplated to begin suit to enforce the payment of past due taxes.

Whenever a person begins talking about taxes there is always someone who sheds great tears of regret over faking people's homes from them. No person with the least grain of sense would want to do a thing like that. Those who need to be made to pay their taxes are the ones who can pay them, but won't because they are hot made to do it. The people who absolutely cannot pay their taxes are perhaps more plentiful now than for several years back, but even at that their inability to pay need not be made a blind for those who are able to pay, to hide behind.

How nice it would be if everybody would own property without the obligation to contribute to the protection of the general welfare. It is a hard question to settle, yet it is very evident it will not improve under the past system of operation, but will continue to grow worse.

THE STATE OF TEXAS

To the Sheriff or Any Constable of Deaf Smith County, Texas, Greeting:

You are hereby commanded to summon R. C. Sellars, whose residence is unknown, to appear at the next regular term of the District Court of Deaf Smith County, Texas, to be held at the court house thereof, in the City of Hereford, on the first Monday in August, 1932, then and there to answer a petition filed in said court on the 29th day of June, 1932, and in which said suit Mamie Sellars is plaintiff and R. C. Sellars is defendant, the cause of action alleged in said petition is for divorce, and the allegations thereof are in substance as follows:

That said plaintiff and said defendant were duly and legally married in Dickens County, Texas, on January 25th, 1911, and lived together as husband and wife until June 21st, 1929, at which time defendant voluntarily left and abandoned plaintiff at Spur, Texas, with the intention of finally separating and living apart from her, and has continued to do so since said date, and that plaintiff in no way caused defendant to so abandon and desert her, and in no way consented to the same, and plaintiff has not seen or heard of the whereabouts of defendant since the said 21st day of June, 1929, and has been forced to support herself since said date.

That plaintiff has been an actual bona fide resident, inhabitant and citizen of the State of Texas, and of Deaf Smith County for a period of 12 months next preceding the filing of said peti-

tion for divorce, and because of the abandonment which has endured over three years, plaintiff prays for a divorce and judgment dissolving the marriage between plaintiff and defendant.

You are commanded to so summon said defendant and to serve this citation by making publication of this citation once in each week for four consecutive weeks previous to the return date hereof in some newspaper published in your county; but, if there be no newspaper published in said county, then in any newspaper published in the nearest county where a newspaper is published.

Herein fail not, but have you before said court on the first day of the next regular term of said court, this writ, with your return thereon, showing how you have executed same.

The Brand had "got in bad" by giving news of a post office appointment, the defeated side accusing the paper of being in the employ of the winning side. Editor Elliott put in some good words by reminding his readers the Brand news was not for sale to anyone at any time, the policy of a worthwhile newspaper to be independent of everybody in recording events being the one thing that made the paper valuable to the citizens of a community—taking side with no one for any reason except as the paper recognized the needs of the public welfare.

Mayor Knight had issued a patriotic call to all citizens to stage a general clean-up of the city, in keeping with a Clean-Town Contest, being put on by Holland's magazine.

Miss Mary B. Triple, D. Long and W. Williams of Texico visited Miss Edna Strawn Sunday.

MORE RAINS LOCALLY DURING PAST WEEK

Continued precipitation since the middle of last week has brought the rainfall for June to 4 1/2 inches in Hereford. Reports from rural sections show heavier moisture receipts in some localities, as most of the rains have been spotted, although plentiful enough in number to cover the entire country.

Farming operations have been hindered materially by the abundant rainfall, harvest being delayed by slower ripening of the wheat and row crop planting and cultivation being slowed up by wet fields. The farmers report weeds "rowing wonderfully."

The warmest weather of the year has been visiting the county between rains, and crops and gardens have been making profuse growth.

St. Anthony's ball team played Westway Sunday, Westway winning 12-6.

She Reduced 38 Pounds The Safe Way

"I have been taking Kruschen Salts for 4 months and I think they are wonderful. I am 32 years old and 5 ft. 2 in. tall. I was very fat. I weighed 165 lbs. and now I weigh 127 lbs. and feel fine. If I let up taking the Salts one morning I feel lazy and heavy." Mrs. Florence Loftus, Boston.

This is just one of hundreds of letters we get every month—Kruschen not only causes you to lose fat but while you are losing it you gain in health—in vivaciousness—you lose fat where fat is most prominent and at the same time keep stomach, liver, kidneys and bowels functioning naturally.

The City Drug Store or any drugstore in the world will sell you a jar of Kruschen for a trifling sum—take one-half teaspoonful in a glass of hot water every morning—go light on fatty meats, potatoes and sweets. But for your health's sake demand and get Kruschen Salts—imitations are numerous. It's the little daily dose that does it.

Mr. Treadwell was Hot . . .

but His Motor Wasn't!

CONTINENTAL OIL COMPANY.
Gentlemen:

"During my recent vacation I had occasion to give Germ Processed Oil a real test, driving some 1,600 miles, temperature from 105 degrees to 111 degrees. The car never previously stayed at cool, and drove nice, and I attribute it to no other cause than the use of Germ Processed Oil. Yours truly,

"T. P. TREADWELL."

Although Mr. Treadwell is Chief of the Fire Department at Fort Collins, Colorado, he must have been pretty hot in weather like that!

But in spite of 105 to 111-degree weather, his motor didn't heat up! Conoco Germ Processed Motor Oil withstands heat better because Conoco's exclusive, patented Germ Process gives it extra "oiliness" other oils don't have. That extra oiliness reduces motor operating temperatures. It guards against thinning out caused by heat and crankcase dilution. It gives Germ Processed Oil more stability.

And, no matter how hot the weather, the Hidden Quart stays up in your motor and never drains away. It's always on duty when you start, cutting down costly wear during the starting period, when almost half of all motor wear occurs.

For Summer, for Winter, any time—Conoco Germ Processed Motor Oil is a better oil for your car. Change now at any Conoco Red Triangle station.

CHILDHOOD AND EDUCATION OF MOSES

Ex. 2:1-10; Acts 7:20-22.

1. And there went a man of the house of Levi, and took to wife a daughter of Levi.
2. And the woman conceived, and bare a son; and when she saw him that he was a goodly child, she hid him three months.
3. And when she could no longer hide him she took for him an ark of bulrushes, and daubed it with slime and with pitch, and put the child therein; and she

B. N. RICHARDS

Candidate for re-election, office of District Attorney, 69th Judicial District, subject to action of Democratic Primary.

I am glad to be able to point to the fact that I have been instrumental in enforcing the law, and all of the law, and that it has been done with fairness and economy. On this basis I solicit the support of the people.

laid it in the flags by the river's brink.

4. And his sister stood afar off, to wit what would be done to him.

5. And the daughter of Pharaoh came down to wash herself at the river, and her maidens walked along by the river's edge; and when they saw the ark among the flags she sent her maid to fetch it.

6. And when she had opened it, she saw the child; and, behold, the babe wept. And she had compassion on him, and said, This is one of the Hebrews' children.

7. Then said his sister to Pharaoh's daughter, Shall I go and call to thee a nurse of the Hebrew woman, that she may nurse the child for thee?

8. And Pharaoh's daughter said to her, Go. And the maid went and called the child's mother.

9. And Pharaoh's daughter said unto her, Take this child away, and nurse it for me, and I will give thee thy wages. And the woman took the child, and nursed it.

10. And the child grew, and she brought him unto Pharaoh's daughter, and he became her son. And she called his name Moses; and she said, Because I drew him out of the water.

Acts 7:20. In which time Moses was born, and was exceeding fair, and nourished in his father's house three months.

21. And when he was cast out, Pharaoh's daughter took him up, and nourished him for her own son.

22. And Moses was learned in all the wisdom of the Egyptians, and was mighty in words and in deeds.

Golden Text: Train up a child in the way he should go and when he is old, he will not depart from it.—Prov. 22:6.

Book of Exodus.

The very name of the book indicates its purpose to narrate the removal of Israel out of Egypt. It illustrates that side of our redemption indicated by our deliverance from an evil plight. The whole story of the Old Testament changes from that of families, given in individual biographies, to that of a nation, chosen for a divine purpose. The divine will is no longer revealed to a few leads, but to a whole people. The aim seems to be to give an account of the first stage in the fulfillment of the promise of God

made to the patriarchs. It shows the power of God exercised thru a Deliverer, and accomplished under a cover of blood in delivering His chosen people.

Lesson Connection.

Between the former lesson and this many important events have taken place. Jacob and his family had just come down into Egypt numbering some 70 souls. Now they have grown into a great multitude. Moses was born about 130 years after the former lesson, and was 80 years old at the time of the deliverance, thus indicating that 200 years of unusual experience had come to the family of Jacob in Egypt. It is about half the period referred to in Galatians 3:17, indicating that it was about 430 years from the call of Abraham out of Hahan to the departure. Joseph had died, new kings have arisen, and the whole attitude of the Egyptians toward the descendants of Jacob is changed. They have forgotten the services of Joseph, and no longer care for his people.

God's Care of Israel.

The story of Exodus everywhere bears testimony to God's care of His own people. His hand was upon them for good, and at all times He exerted His power in their defense. Israel was His covenant people and even in their bondage and suffering God concerned Himself for them and getting ready to deliver them. Even their suffering was used of God to open the way for Him to establish them in a nation apart from others, and far above all others in privileges given.

Moses' Birth.

Here are given us something of the parentage, and hence of the goodly start which Moses had so far as his ancestry was concerned. His father and mother were both of the house of Levi, thereby belonging to that group set apart to such noble services in the Kingdom of God. This story passes over the birth of their older son, Aaron, and also their daughter, Miriam, and comes straight to the story of the birth of Moses, who was to be God's chosen instrument in the deliverance of his people.

The fine spiritual character of these parents is manifested in that they were able to see in this son something unusual. They realized that he was a goodly child, not only to them, but in the eyes of the Lord. In Acts 7:20 Stephen says that they saw he was a proper child, which is being translated, "They saw that he was fair unto God." Happy is the child whose parents realize that it is intended for special divine use. This was the heritage of Moses.

The Hiding of the Child.

His parents, realizing his importance to God and to all the people and the world at large, hid him that he might not be killed, according to the edict of the king. This they did for three months, but when they could no longer hide him they made an ark of bulrushes, and trusted him to the River Nile. They pitched it with slime in order that it might keep out the waves of the sea. He was left among the flags in the edge of the river and doubtless the boat was secured so it would not float downstream. All parents would realize that before they trusted him there, they evidently trusted him to God and doubtless expected that he should be somehow delivered. It is touching information given us when we are told that his sister stood afar off to see what would be done to him. One's heart beats a little faster, as one thinks of the emotions that must have been in the hearts of the father and mother, and in the heart of this child, his sister, as she waited to see whether he would be destroyed or saved.

Found by Pharaoh's Daughter.

God has a way out of every difficulty. If only we trust everything to Him. Moses is not to be destroyed. God has in him a world purpose, and he must be saved. But who is to do it? (1) Israelites could not. They could not save any male child of their own race, that of another. The heavy hand of Pharaoh of Egypt was upon all. Only God can deliver and through such means as He Himself will choose. (2) The daughter of Pharaoh is made the divine instrument. It is strange

that the daughter of the king should be the instrument of defeating his purpose and in violating his edict. I do not know whether, or not, his mother knew that this was the bathing place of royalty—at any rate, she found him. That was his hope. (3) She had him brought to her, and when she saw him weeping as a baby, her heart was touched. She was a woman. Edicts of kings might be cruel, but her heart could not be so cruel as to leave an innocent baby to perish in the waters. She knew that it was a Hebrew child, and knowing that, she realized that it belonged to the oppressed race, and its life had been demanded, but she could not resist the weeping of the child.

A Nurse Secured.

Pharaoh's daughter need not wait long. The sister, who watched concerning him, hastened to her side to ask whether or not a nurse might be called from among the Hebrew women. Here was a desire on the part of the princess and to her own family. Miriam knew that only a Hebrew woman could be secured, as the Egyptians would not have undertaken the task of caring for the child of the despised race. The child's mother was, therefore, called. God's purposes were being fulfilled and the heart of the mother was being gladdened by a Providence that was saving her child, in whom she had recognized something of the holy purposes of God. The child was taken by the mother and for a time she doubtless was recognized as a servant of the princess. Moreover, she was paid for her services, although she would gladly have rendered that service for nothing.

His Growth and Name.

We are told that the child grew. Nothing more is said about his childhood and youth. The mother kept the boy probably until he was seven years old—at least that long. After that he was taken by Pharaoh's daughter and formally adopted. She called his name Moses, which indicated something of the circumstances under which she found him. His name means "drawn out," she having taken him out of the water. We do not know what his name was prior to this time, but the name seems to have been changed when he was definitely taken over by her.

Moses' Education.

Very little is told us concerning the childhood and youth of Moses. We simply know that he grew, and after his adoption by the princess we know that he was

educated. In this passage in Acts we are told that he was exceedingly fair when he was born, that he was in his father's house for three months, and then he was cast out into the river, where the daughter of Pharaoh took him up and nursed him for her own son. As would have been expected, he was given every possible advantage for training. It is said that he was learned in all the wisdom of the Egyptians. He evidently, therefore, had a good education. We know from discoveries made in their land that they were educated in literature, philosophy and religion. Certainly they understood much of mathematics, surveying, architecture and astronomy. Moses was, therefore, a great and outstanding scholar, probably the leading scholar of his time.

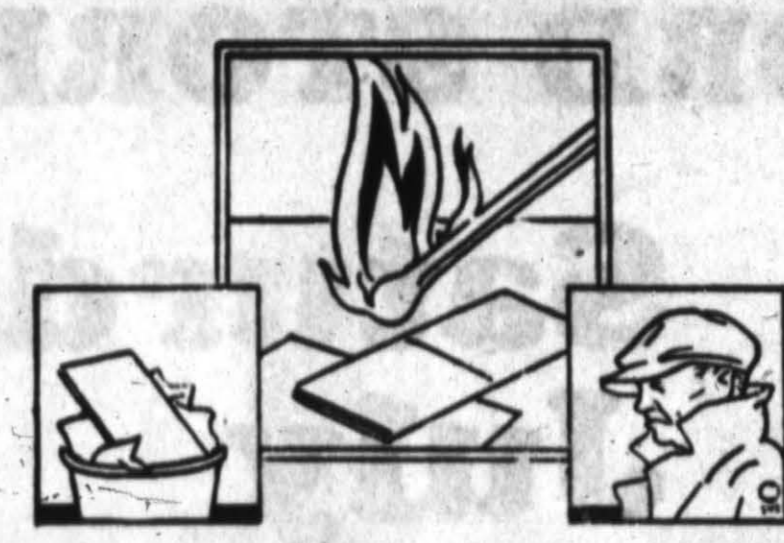

Practical Lessons.
 (1) Happy is the child whose parents are true servants of God.
 (2) True mothers love their children above all else.
 (3) It is good when parents can see in their children a divine purpose.
 (4) In times of emergency or danger Christians commit their children to God.
 (5) Trusting our children to God is the safest for them and the best hope for us.
 (6) The life of any child has eternal values in it.
 (7) We can not over-estimate the value of proper training for children.
 (8) A good mother is necessary, if there is to be a noble son.
 (9) Education and training are necessary to the best usefulness in life.

STREET HARDWARE BUILDS BALCONY ACROSS STORE

Among the improvements being constructed at present in Hereford is the building of a balcony ten feet wide across the rear of the Street Hardware to add storage and display space for the firm. The office has been moved farther back and will be located under the new balcony. The new arrangement will make a more attractive store and will add to the convenience of the shoppers as well as provide extra space for displaying merchandise.

Mr. and Mrs. Preston Heath returned to their home in Denver Sunday after a short visit in Hereford with Mr. and Mrs. J. W. Witherspoon.

RAIL TRANSPORTATION IS EFFICIENT AND ECONOMICAL

THE RAILROAD is the most efficient and the most economical transportation agency the human mind has ever devised.

The ability of commercial trucks to operate with various charges for their services has been because they are not required to carry all kinds and classes of freight. The truck can choose its freight and is privileged to reject that which it cannot handle, either because it is not equipped for such heavy service or the rates are too low to be profitable. The railroad CANNOT DISCRIMINATE but must accept all freight offered it.

In 1930 the shippers of Texas paid the railroads \$225,223,142 in freight charges. If the same volume and character of traffic had been carried by trucks it would have cost the shippers, according to the best available data on trucking costs, \$900,000,000, or four times as much.

What will be the effect on the shippers of Texas if only the traffic which the trucks cannot handle is left to the railroads? If traffic paying the higher rate is taken from the railroads by the trucks, it will be necessary for the rail carriers to increase their rates on the low grade traffic or go out of business. The total transportation bill will be greatly increased.

The railroad rate structure is a composite designed for the purpose of enabling the free movement of ALL ARTICLES OF COMMERCE, making it possible to bring even the cheapest commodities into general use and distribution. Were it not for the low rates made available by the railroads on many low grade commodities and raw materials, their distribution and use would be impossible and all commerce and industry would be seriously affected.

THE RAILROADS CANNOT SUBSIST ON LOW GRADE TRAFFIC ALONE.

THE TEXAS RAILROADS

A very successful orthopedic clinic was held at the county hospital Thursday, June 23, sponsored by the county health council, in cooperation with the hospital staff. Dr. John C. Gray, consultant surgeon of the Crippled Children's Council of Amarillo, conducted the clinic, and was assisted by Dr. T. L. Morgan, county health officer. Eight cases were examined and advice given the parents as to treatment. Dr. Gray also operated on little Gladys Phillippi, who has been under his care for the past two years, and she is doing nicely.

Mr. and Mrs. A. G. Schneider and daughter, Janet Harriet, who have been visiting for several weeks in the H. T. Wedel home, left Monday morning for their home at La Verne, Iowa. On their return they visited in Beatrice, Nebraska, and Royal, Iowa.

Sally Lois, two-months old daughter of Mr. and Mrs. T. E. Purdue, who live about 12 miles northeast of Hereford, died at the family home Tuesday morning, June 28, and the little body was taken overland to the former family home at Clarendon, where funeral services were held Wednesday morning.

THREE CENT POSTAGE IN EFFECT JULY SIXTH

Postmaster E. L. Donner announces the new postage rate of three cents for letter mail will go into effect, all first class letters mailed at Hereford coming under that classification. In addition, when "postage due" must be paid to take a letter from the post office, an extra one cent an ounce more than the regular postage rate is charged. The latter part of the above is not a new rule, but is not generally understood by those who fail to put enough postage on first class mail. Newspaper postage rates go up approximately 25 per cent the first of July, and parcel post rates will go up later in the year.

Postal authorities are calling attention to the law that there must be no competition with the United States mail service, and warn agencies that have been distributing matter for hire, that it must be discontinued. It has been interpreted that an employer may have his own matter for distribution be put out alone, but cannot be sent out in connection with other matter. A merchant may distribute his own advertising matter by hand, but the same carrier may not put out matter for any one else.

The rate on postal cards will not change from one cent.

THURSDAY NIGHT BAND CONCERT DREW CROWD

The municipal band, concert at First and Main streets Thursday evening of last week drew a good attendance and was heartily applauded. All vacant space contingent to the I. & G. filling station where the concert was given, was taken up by cars of listeners who were thus provided comfortable seats and were able to come and go as they wished. The blowing of automobile horns in the approval of the music was completely drowned at one time by the whistle of a Santa Fe freight engine whose train crew was enjoying the occasion as much as anyone.

Director Ralph Smith says the concerts will be played each week during the summer when there is no other public meeting that will interfere.

Community Bible Class.

New enrollments of the Men's Bible Class that meets in the Star theatre each Sunday morning at 9:30, brought the total membership up to 193, with 122 of them present. The class continues to grow and its interest increases with each Sunday.

The lessons are non-sectarian, being taught directly from the Bible and many of its members and regular attendants are men who have never participated in Sunday school work before.

Mr. and Mrs. J. L. Hood and daughter, Marjorie, of Wheeler came to Hereford Wednesday to spend a short time visiting his sister, Mrs. T. E. Seigler, and her brother, T. E. Seigler.

Citation by Publication.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Deaf Smith County, Greeting:
You are hereby commanded to summon Glenn Gault by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, to be held at the Court House thereof, in Hereford, Texas, on the 1st Monday in August A. D. 1932, the same being the 1st day of August A. D. 1932, then and there to answer a petition filed in said Court on the 28th day of June A. D. 1932, in a suit, numbered on the docket in said Court as No. 1907, wherein Fred M. Jackson is Plaintiff, and Annie M. Gault, Ruth Veta Gault, Chas. W. Gault, Glenn Gault, Mary Lee Wiseman, W. B. Wiseman, Frankie McNabb, R. M. McNabb, Margaret McCombs and Robert McCombs are Defendants, and said petition alleging that Plaintiff is now and has been since 1927, the owner in fee simple of all of the following described lands, situated in Deaf Smith County, Texas, to-wit:

All of the NW 1/4 (North-West Quarter) and the E 1/2 (East One-Half) of Section number 31, in Block K-6, Deaf Smith County, Texas.

That Plaintiff was on the 15th day of April, 1929, in possession of said lands and was then and is now entitled to the possession thereof. That defendant's on or about the 15 April, 1929, unlawfully entered upon said premises and unlawfully ejected Plaintiff therefrom, and now withholds from Plaintiff the possession of said lands.

That the reasonable rental value of said lands is the sum of \$40.00 per month.

Plaintiff sues for the title and possession of the land and premises. An alternative plea said petition alleges that in 1917 H. M. Jackson purchased said land from H. S. Cook, and that said title to said land was taken in the name of C. R. Gault deceased, to be held by C. R. Gault in trust for H. M. Jackson. C. R. Gault died in 1923, without having conveyed the title to H. M. Jackson. H. M. Jackson in 1927 conveyed his title to J. C. Campsey and in 1929, in April of said year Campsey conveyed his title to Fred M. Jackson. Plaintiff sues for title and possession of said land and premises and to remove the cloud from said title.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Hereford, Texas, this 29th day of June A. D. 1932.
(Seal) L. H. FOSTER,
Clerk, District Court, Deaf Smith County.

Deputy. 25-1c

MAYOR BLACK ATTENDS TAX BUDGET COUNCIL AT LUBBOCK FRIDAY

Mayor E. B. Black represented Hereford at the West Texas chamber of commerce budget meeting held in Lubbock last week, and reports very interesting and profitable opinions received of delegates from more than 40 towns attending.

Tax problems, of course, took up the greater part of the time, and the operations of the several regions represented brought useful information to the whole assembly.

Two great important truths were given, and they are: (1) that to Mayor Black, the people's realization that public expenditures must be cut down and that all citizens be brought to realize the importance of paying taxes, without which all governmental functioning must cease. Those who do pay their taxes cannot pay extra to make up for those who do not pay, and a serious shortage is evident without the full cooperation of everybody.

HIGHWAY DEPARTMENT PROPOSAL FOR NO. 33 PROGRESSING LOCALLY

While exact information is lacking, there is an indication that local interests are at work looking toward securing the right of way for widening Highway No. 33 across Deaf Smith county, to meet the state department's proposal to construct the drainage structures and grading for a first class paved road if the county will provide the right of way.

Seen On the Screen at the Star

Starting off this week with a heavily dramatic play featuring Richard Barthelmess in "Alias the Doctor" for his final appearance tonight, the Star takes up lighter stories for the rest of the coming week with the exception of Sunday's matinees.

Tomorrow Manager J. C. Parker presents a delightful comedy that brings a quartet of favorite screen actors to Hereford in "Disorderly Conduct" with Sally Eilers, Spencer Tracy, El Brendel and little Dickie Moore in leading parts.

The Star makes a bid for the best attendance of the week tomorrow night, also, by giving away free \$25.00 in cash to the show attendants.

Saturday in its matinee and evening programs brings a strong story of the Mississippi River and its river traffic, with a fine production of "Carnival Boat." Bill Boyd and Ginger Rogers are important in the cast.

Sunday will be a one day only picture coming for the two and four o'clock matinees alone. Wynne Gibson plays the strongest part in the story, "The Strange Case of Clara Deane." A remarkable feature of Sunday's program is the flat admission price of 10 cents each for all who come, whether large or small.

"Blonde Crazy" comes for Monday's Fourth of July afternoon matinee as well as the night performance that day and Tuesday. James Cagney, new on the screen but a star of the first magnitude, is the big shot of the picture and is reported plenty good.

MRS. KROPFF HAS BIRTHDAY DINNER

Friends and neighbors of Mrs. Carrie Kropff surprised her on her birthday Sunday June 27, bringing well filled baskets and enjoying a bountiful feast. There were 59 present, including Chas. Danforth, W. R. Matthews, Ted Matthews, W. I. Kucker, G. W. Heard, J. E. Golden, Mack Beach, J. W. Brown, E. H. Payne, J. E. Cockrell, John Johnson, together with their families; Russell Hunter of Borger, Misses Odessa Long, Lucy Reed, Louise Smith and Elaine Wolfe; Arnold Long and family, Mrs. Carrie Kropff and sons, Mr. and Mrs. John Kropff and son.

BAPTIST W. M. U. NOTES
