Hereford Masons organized Monday night in an effort to build up both attendance and interest in the work. The plan decided upon is to take the form of a contest, the losing side to stand the expense of a "feed" each regular, stated meeting night.

patent) imparts to this motor oil that peculiar ability to penetrate and com-bine with metal sur-faces. Of the first filling about one quart will "hide" itself up in your motor's precious working mets. This working parts. This hidden quart n-e-v-e-r drains a way. It be-comes a part of the more itself; worth its weight in gold.

The One Oil that Gives You Protection for Winter's Worst Days Ahead

Drip! trickle! drip! through long night hours, ordinary oil drains away. When the pump quits, ordinary oil quits, leaving the motor's parts high and dry. You touch the starter. The motor roars. The pump strains at the sluggish oil. It is only a few minutes till circulation is completed. But, in the meantime, working surfaces only partly lubricated are in contact, while the motor makes three to five thousand revolutions. This causes 50% of all motor wear.

Prevent this loss. Choose not merely a quick oil, but an oil that never leaves. Choose the oil with the \*hidden quart that penetrates and combines with the metal surfaces of the motor itself. In the emergency of an empty crankcase, users have driven many miles, without damage, on this \*hidden quart alone. This proves that your motor need never suffer while waiting upon the pump. Don't remain in doubt. Drain and refill with the \*hidden quart oil today.

The name means "The village of Nahum or of consolation." It was situated on the northwestern shore of the Sea of Galilee. Jesus probably lived with Peter and Andrew, who were natives of Bethsaida on the northern re of the lake, but had removed Capernaum. Because of the unbelief of the people of Caper-naum in spite of his many miracles worked there, the Redeemer prophesied its destruction, which was accomplished so thoroughly that no one now knows just where it was situated.

CARL'S CASH & CARRY

While the imitators' chorus sings, "We are high test, too"—Phillips continues its solo performance by plainly printing its gravity figures.

If every gasoline did likewise, you could see at a glance, the outstanding superiority of Phillips 66 . . . the greater gasoline. You could quickly compare the simple figures and immediately know how much higher test you get in every gallon of Phillips 66.

All experienced drivers know that high test determines the speed of starting on cold days. They know that high test vitally affects the operation of the engine every day in the year. And they know that Phillips high test DOES NOT cost 8¢ more per gallon.

This is the simple secret of Phillips sensational rise to high place among the leaders. All in the shortest time ever known in the entire history of the petroleum industry.

Phillips entered the business by giving greater value. Phillips is still doing it, still offering a gasoline that is short on claims but long on performance a gasoline with CONTROLLED VOLATIL

ITY, always perfectly matched to your weather.

Experts call it the most dramatic, self-demonstrating gasoline ever presented to American motorists. You step on the starter, and your engine couldn't get under way any faster if you had a handful of dynamite under the hood.

Man, you don't have to think and ponder whether this gasoline is better! You instantly feel the difference! And every mile, which you drive thereafter, adds convincing proof of greater power, extra pep, and longer mileage.

Certainly, when the world's largest producer of natural high gravity gasoline says that you can save 3 a gallon, that is exciting news. And the way to find out just what it means to your motor and your pocketbook is to try some.

Switch to high test Phillips 66 for just one week. Then see if you ever think of getting gas any place but the Orange and Black 66 shield—where extra high test costs not a penny extra.

Also Phillips 66 Ethyl at the regular price of Ethyl Gasoline

#### Highway Program Incorporation Finally Adopted At Stake, Says by Hereford In '06 Huggins

An article carried in last week's Brand, in which the first incorpora-tion of Hereford was taken up and discussed, from facts supplied by G. A. F. Parker, ploneer citizen, Judge W. O. Huggins, president of created quite a bit of interest as to what transpired here in early days, Mr. Parker again comes forward with information relative to the incorporation move and the causes leading up to final adop-

tion, of incorporation. There is one thing which must not be overlooked regarding Hereford at that time: The editor of the Brand emphatically stated that Hereford had a population of about 2,000, and stated he could prove it. This will refute the idea that our city, even at that early date, was only a strangling cross-roads vil-

Following the annuliment of incorperation on June 6, 1903, advocates of such organization were not satisfied. Among other arguments used were that all dooryards had to be fenced to keep out horses and cows in search of greener pastures; flowers and gar-dens were forever being scratch. But if the program is stopped for lack of funds, where will they even kept hoge right here in town. The latter complaint was the cause of much controversy-but what

to hog culture to do about it \. But the strongest argument for incorporation was found in the lack of fire protection. A bad fire broke Avenue (now Main Street), which two cents for actual road work; cleaned the premises from Second Street south to First, on both wax leaders are satisfied with I able to stop the fire, and the great loss suffered at the time caused quite a change in sentiment respecting incorporation. The present Baskin office and C. H. Carl grocery were the only buildings

left on lower Main Street. On March 27, 1906, another vote was taken, but the wold-be incorporators went down in defeat, 56 votes having been cast in favor

#### CLASS EXTENDS INVITATION

The Berean Sunday school class the Baptist church is making a drive for new members, and ex-tends an invitation to all young men who are not attending Sunday school elsewhere to visit them and join the class,

This class will have charge of the opening exercises in the young people's' department Sunday, and it is then planned to visit the class of Earl W. Wilson on the ground floor of the church. It is intended to consolidate the two classes if agreeable to both; and, as Mr Wilson's class is not organized, it is hoped that the two as one may be able to do a greater amount of good, at the same time making it possible to build up one of the largest classes in the church.
