ALL SUBSCRIPTIONS STRICTLY CASH IN ADVANCE.

EDITORIAL

(By SETH B. HOLMAN.)

Home again!
I have searched my vocabulary in vain these past few days for proper words with which to describe the feeling of calm content and satisfaction that envelopes me. There are times when words and phrases seem utterly inadequate. In this instance, personal contacts and service rendered in the future will have to suffice to express to the good people of the Hereford community the pleasure and joy felt by my wife and myself at being back HOME.

The world may be topsy-turvy. Business conditions may be chaotic. The future may be dark and uncertain. But I did not spend fifteen of the best years of my life in Hereford without realizing the fighting qualities of the Hereford people, the indomitable spirit of progressiveness, the high quality of citizenship, and the unbeatable field for development of a home community of the first water that is offered here. And we are returning to take our place in the battle line of the finest, truest friends and neighbors to be found anywhere—supreme in the confidence that, come what may, Hereford will solve the problem and find the way out.

While temporary physical limitations prevent my active participation in current affairs, I hope before long to have the pleasure of personally greeting every citizen of the community and of renewing friendships and acquaintances that have meant everything to me over the years.
We want the people of this community to know that we are returning to Hereford, resolved to dedicate The Brand to the service of our community; to the development of its agricultural, commercial, industrial and civic possibilities, as well as the moral and spiritual influence indispensable to the full fruition of any enterprise, individual or collective.

Ann and I are delighted to be back home. We are deeply grateful for the many, many kind expressions and neighborly visits of old friends and acquaintances. If we can't get around to see you first, then you come to see us!

To Detect Watered Milk

The regular Babcock test for determining the amount of fat in milk, checked by the test for specific gravity, will successfully indicate whether milk has been watered or not. Watered milk will obviously have a considerably lessened content of fat and its specific gravity will likewise be altered.

A LONG TIME AGO IN HEREFORD

(From Hereford Reporter, February 28, 1902.)

Cattle prices in the Panhandle were holding good, with about \$24 offered for ewes, \$30 for threes, and \$35 for fours.

Amarillo was scheduled to have a new \$30,000 laundry and ice plant in operation in a short time.

Samples of Deaf Smith county had been sent away for analysis to determine where or how it was suitable for the manufacture of brick.

Sam Wise and family had been here from Dimmitt.

Ira Aten had spent Sunday in town with his family.

G. L. Muse, prominent cattleman of the North-Draw, had been in town over Sunday.

W. R. Evans had transacted business in Roswell.

W. A. Ricketts had been in town purchasing supplies.

C. T. Splawn had purchased a half interest in the tonsorial parlors of Geo. W. Dale.

Verna Owen, James Bell, Ezra Norton, Claud Witherspoon, Charlie Robinson, Mary Burns, Annie Hill, Mand Parker, Roscoe David son, Pearl Feenster and Presly

Dyer had made an average of more than 95 in their school work the past month. Another honor roll included Irma Gough, Dimple Glass, Claud Higgins, Jowell Williams, Irene Williams, Velma Patton, Oscar Cardwell, Annie Hodges, Jewel Buster, French Davis, Carril Hinton. In the high fourth Willie Tygrot, Nannie Davidson, Frankie Dameron, Roy Davis, Undrill Thomas, Oliver Iambreth, Annice Mathis, Clyde Files, Octa Moore, Mike Osborne and Murray Canterbury had made good grades. Jennie Coffey, Eunice Bounds, Ida Beach, Lottie Williams, Jarrell Baster and Roy Moore, low fourth grade, each made grades ranging from 95 to 97.

Judge W. B. Boyd had returned from a business trip to Amarillo.

W. B. Robinson was building a fine new eight-room residence.

(From The Hereford Brand, February 23, 1912.)

Snow, accompanied by high wind, had been general over the Panhandle, the fall having been estimated at about seven inches.

The Amarillo Daily News had sent G. R. Caldwell, special writer, to Hereford for the purpose of gathering data on which to base a story of irrigation possibilities in this territory.

C. P. Arthur had commenced the work of assessing taxes.

The Santa Fe Railway Company was conducting a Better Farming special train, which was to stop in Hereford.

D. L. McDonald had received four cars of well materials, and four huge pumping engines were expected in a few days.

Attorney W. M. Knight had Sundayed in Amarillo.

J. L. Fuqua had returned from a business trip down in Texas.

D. R. Gass had returned from the Eastern markets.

How About It?

Do you believe marriage is a lottery?
No, in a lottery a man is supposed to have a chance.

W. T. S. T. C. to Have Its Usual Summer Session

"There will be a summer session at the West Texas State Teachers College."

This announcement was made by President J. A. Hill upon his return from Austin, Friday. Dr. Hill stated that the Board of Regents had authorized him to make plans for a summer session of the usual length. The first of the two six weeks terms will open Monday, June 5, and practically all of the regular members of the faculty will be on the campus.

Preparation of the summer bulletin which has been delayed will now go forward under the direction of Dean R. P. Jarrett, chairman of the publications committee.

As many special features will be planned for the summer school as conditions will allow, and Dr. Hill states that inquiries which are being received indicate that a great number of teachers from all parts of Texas, and particularly from Northwest Texas, will be in attendance.

Hereford High School Graduates Above Average

The annual report of the Southern Association of Colleges and Secondary schools shows that the graduates of Hereford high school who entered college in the fall of 1931 failed only 5.8 per cent of the work taken at that time. The average for the State for college freshmen from Southern Association high schools was 13 per cent. Graduates of the local high school have been below the State average in failures each of the seven years for which reports have been received. Beginning with 1930 and going back to earlier years, the percentages of failures for each year were: 11.6 (State 15), 9.98 per cent (State 16.5), 12.9 per cent (State 16.2), 7.2 per cent (State 15.5).

Percentages of failures shown by other high schools in the Panhandle are: Perryton 4.9, Canyon 5.9, Teachers College high school 16.1, Clearendon 11.3, Claude 14.1, Dalhart 11.6, Farwell 18.5, Floydada 9.1, Lubbock 15, Pampa 19.1.

Panhandle 12.8, Plainview 7.8, Tulsa 13.8.

The standing of the schools with respect to failures varies from year to year, though it is interesting to note that with only one or two exceptions the Panhandle-Plains schools have better averages than the other high schools of the state, as a whole. Many things cause a variation from year to year, even if the standards of the high school do not change. For example: one year when the graduates of the local high school showed a high per centage of failures, it was found that all except one of

Would You Do This With Milk?

When the milk man brings the morning's milk, do you at once step to the sink and pour out portion of it? Certainly not!

THEN WHY WASTE NATURAL GAS?

The various gas cocks, fittings and piping on your premises may not be gas tight and can frequently waste a large amount of gas in a year through leakage.

With the Sunco type of blue flame burner, a showing of red or yellow in the flame is an indication of imperfect combustion and therefore waste.

Rooms are more healthful if kept at about 70 degrees F., with proper humidity, yet much gas is wasted by keeping room temperatures higher.

Heat radiated into furnace rooms from the furnace, the furnace piping, and hot water and steam piping does not enter the room that is to be heated and therefore is wasted. Proper insulating of furnace piping will greatly curtail this loss. In any gas heating device the temperature of the combustion products where they go into the chimney has an important bearing on heat loss.

Improper adjustment of appliances resulting in imperfect combustion is a waste.

Water that precipitate scale or sediment will frequently build up a thick coating on the inside of the water heater over point of flame contact and greatly increase the amount of gas necessary to heat the water.

Turning on gas to a point where the flame goes over the top in open top space heaters wastes gas.

While we can not regulate the amount of gas that you use we do urge you to take care that your consumption does not exceed your actual needs. Satisfied customers constitute our best asset. They are worth more to us than any revenue derived from which is wasted.

SOCIETY

PRESBYTERIAN AUXILIARIES

Last Wednesday the senior and junior Presbyterian Auxiliaries met in joint session at the church and had the last of the series of lessons from their study book, "Issues of Living in China," by Henry Hodgkin. A special feature of the afternoon was a playette, showing a mission scene in China. This play, written by Mrs. G. M. Hudson, dramatized the sixth and seventh chapters of the study book. Mrs. Chas. Donald, in a very interesting way, presented the last chapter of the book, and Mrs. C. Ferguson led the devotional, using for the subject, "Prayer".

Edgar Pickett Charms With Piano Recital

The piano recital of Edgar Pickett, given at the high school auditorium on Thursday evening of last week, was greatly appreciated by a large audience. The young artist's concert was sponsored by the Music Study club of Hereford. This organization always takes pride in presenting local talent of such high character. The program consisted of com-

positions by Bach and Beethoven, among the classics. Chopin of the romantic school, and the modernists were represented by the French composers, Debussy and Ravel. Mr. Pickett played with an understanding of the masters and with good technique and interpretation. He gave short but interesting explanations of each number before playing it. The entire program was played from memory, a feat in itself considering the long, heavy numbers given and the length of the program. We predict a bright future for this young man in his chosen profession.

MRS. RUSSELL HUNTER GIVES BIRTHDAY DINNER

Friends and neighbors gathered at the home of Mrs. Carrie Kropff Sunday, February 19, in honor of the birthday of Mrs. Kropff's daughter, Mrs. Russell Hunter. A bountiful feast was enjoyed at noon by the 74 present. The entire group wished Mrs. Hunter many more happy birthdays. Present were Messrs. and Mmes. Mack Beach and family, J. E. Cockrell and family, W. A. Long and family, Raymond Saylor and daughter, W. R. Matthews and family, Ted Matthews and son, John Johnson and family, Oscar Rutherford and family, Howard Hershey and family, W. I. Kucker and daughter, John Kropff and family, Mrs. Effie Brown and family, Mrs. Carrie Kropff and sons, Mrs. Garrett Smith and sons, Mrs. J. E. Saylor, J. T. Carroll, Billie Jackson. Messrs. and Mmes. Joe A. Kropff, Jack Lively and family, Miss Dorothy Banner and Gerald Banner, all of Amarillo, were also present.

CHEESE SHOW WILL BE GIVEN BY CLUBS

The Demonstration clubs of Deaf Smith county will sponsor a cheese, cottage cheese and butter show March 11, to be held in the window of the Skelton Variety Store. This educational feature will be open to every club member, and anyone who is not a club member may also enter. A judge from Lubbock Technological College is expected.

JUNIOR BAY VIEW CLUB STUDIES ONE-ACT PLAYS

Thursday evening the Junior Bay View club met with Miss Ina Mae Hastings to study one-act plays. Miss Lucille Hicks acted as leader. Mrs. B. M. Wiltshire, Miss Floyd Wilson and Miss Carey Estes appeared on the program in selected plays of Mary Caroline Davies, Percival Wilde and Alice Gertensberg.

The program was enjoyed by Misses Ruth Conkright, Carey Estes, Dorothy Flanery, Gwendolyn Spradley, Eunice Gilbreath, Ina Mae Hastings, Lucille Hicks, Eloyse Pitman, Edith Shields, Eva Skelton, Floyd Wilson, Mmes. Dave McCurdy, J. W. Witherspoon and B. M. Wiltshire.

MRS. STEWART IS CLUB HOSTESS

Mrs. Herman Stewart entertained the Crescent Scientia club last Thursday afternoon, celebrating St. Valentine's Day.

A dainty salad plate was served to Mmes. E. E. Fridley, Wilbert Carroll and Miss Beth Millard, visitors, and Miss Ursalee Fridley, Mmes. Buren Sowell, Chas. Sowell, Jack Wright, Ralph Sears, R. E. McCullough, Pearl Singleterry, Troy Moore and the hostess.

WEST HEREFORD CLUB TO MEET WITH MRS. COX

The West Hereford Demonstration club will meet with Mrs. Ed Cox Friday, February 24, at 2:00 p. m. Each member is urged to be present for important business.

Music Study Club Enjoys Fine Programs

Modern music of three nations has been the subject of study in the Music club the past month. Mrs. Dillehay as the leader for the music of Austria-Hungary and Bohemia gave an interesting talk on the trend of modern music in those countries, with facts on the lives and music of the composers represented on the musical program. Two lovely violin numbers, "Moon-dawn," by Primi, and "Liebes-fried by Kreisler, were played by Mrs. A. C. Thompson and Mrs. Foster respectively. The beautiful and appealing "Largo," from the New World symphony by Dvorak, was sung as a duet by Mrs. Mountz and Mrs. Wiltshire. Mrs. Stanford played the very dainty "Hejre Kati" of Hubay's "Spring Chorus" from the Bartered Bride, by Smetana, was sung by six members, and the Andantino movement from Granata by Hummel was played by Mrs. Broadwell and Miss Mc-Minn. Mrs. Hales gave a very comprehensive talk on modern French music. Mrs. Mountz sang the exquisite song, "I Know a Lovely Garden," by D'Hardelet. The equally lovely Arabesque of Debussy was played by Miss Mc-Minn. The program closed with one of the most splendid choruses of all, Oratorio, "Unfold Ye Portals, from the Redemption by Gounod, sung by the entire club. The next meeting will be at the home of Mrs. C. O. Ferguson on March 6, at 3:30 p. m., with Mrs. Acker leading the study of Modern Music of Scandinavians. Members will please have roll calls ready.

NORTH HEREFORD HOME DEMONSTRATION CLUB

The North Hereford demonstration club entertained their husbands with a George Washington party at the home of Mrs. John Allen at 8:00 o'clock Tuesday evening.

Forty-two was enjoyed until 11 o'clock and then Mrs. Jerry Behrens talked on "What our club is doing." Sandwiches, doughnuts and coffee were served, and after eating, Mrs. Elmer Patterson gave a reading on "Indigestion," which was very comical.

Present were Messrs. and Mmes. Hunter, John Kropff, Elmer Patterson, Arch Conklin, Jerry Behrens, Mrs. J. W. Brown; Misses Charleen and Margaret Brown; L. J. Mathews, Mrs. Ted Mathews, Miss Chambers, Misses Koelzer, Mr. and Mrs. Koelzer and Baby Behrens.

FORD DEMONSTRATION CLUB MEETS WITH MRS. CLIMER

The Ford Demonstration club met with Mrs. H. Climer Thursday, February 16, for an all-day meeting. A lovely dinner was served by the hostess, and the day was spent tacking comforts. Five members and five visitors were present. The club will meet March 16 in an all-day session with Mrs. J. E. Pierce to make dress forms. All are urged to be present. A covered dish luncheon will be served.

LOYAL WORKERS QUILT

The Loyal Workers Quilting club met at the I. O. O. F. Hall Friday of last week to work on quilts for Mmes. Chas. Sowell and R. A. Walls.

A delicious covered dish luncheon was served to Misses Alline and Virginia Cox, Ursale Fridley, Mmes. Sherman Williams, Wilbert Carroll, Herman Stewart, A. H. Elliston, Henry Williamson, E. E. Fridley, C. C. Cox, F. E. Bowe, Chas. Sowell, R. E. McCullough, J. B. Jones, R. A. Walls and Johnnie Biggs.

BAY VIEW CLUB MEETS AT COURT HOUSE

The Bay View club met Thursday afternoon at the court house to study Walt Whitman. Mrs. B. F. Guthrie appeared on the program with a paper on "Walt Whitman, the Self-acclaimed Prophet of the New Era," and Mrs. John P. Slaton made an interesting talk on "What Critics Say of Mr. Whitman." Mrs. Harry Seed provided the music.

Dawn Items

BY INEZ MILLER

We won no places in the basketball tournament at Hereford last Saturday, but we learned a lot about the game, and also enjoyed the good feeling that was in evidence between the various teams. All teams which we played were certainly fair, and beat us by outplaying us.

The next Literary Society will be held Friday evening, March 3. It will be in celebration of Texas Independence Day, March 2 being the exact date. A program is being prepared by the school and community consisting of songs, poems and character sketches. All are invited to come to this program. There will be no charge, but we hope to make it worth your while.

Mr. and Mrs. John Willis and daughter, Laura, of Tucuman, New Mexico, visited in the H. E. Miller home the first of this week.

Miss Vivian Bowers spent the week end in the Guy Smith home at Hereford.

Miss Elizabeth Cox of Hereford spent last week end in the R. W. Botsford home.

Miss Mary L. Chambers spent the week end in the A. S. Higgins home at Higgins.

Mr. and Mrs. Claude Ricketts of Hereford called in the L. A. Smith home Sunday afternoon.

Mr. and Mrs. W. E. Neal of Hereford called in the H. E. Miller home Sunday afternoon.

Mrs. L. N. George spent the week end in the home of Mr. and Mrs. J. H. Miller at Hereford.

Messrs. and Mmes. H. E. Miller, and John Willis and families, Miss Lois Anderson, Joe Thomas, Martin Campbell and Henard East visited in the L. A. Smith home Monday evening.

Mmes. L. N. George, A. T. Frye and H. H. Miller attended the

Federated Club meeting at Hereford Thursday of last week.

H. H. Miller and family visited friends in Canyon Sunday.

Mrs. Paul Frye and brother, Aubrey O'Neal visited their mother in Amberst Monday.

Mrs. A. Frye is planning to go to Missouri to visit her mother, who is ill.

We have a lively Sunday school at 10:30 each Sunday morning.

A B. Y. P. U. program was put on by group number two Sunday. Following B. Y. P. U. services, Henard East delivered a very interesting sermon.

And It Still Happens.

The traveling salesman called the head waitress over and complained: "Where's my honey?"

The head waitress replied with great dignity: "She got so fresh we had to let her go."

White House Guardian Travels by Air to Roosevelt.

United Airport, Burbank, Calif.—Ready to take up his duties on March 4th, as canine guardian of the White House, General Grant, a \$2,000 prize-winning English bulldog, left the United Airport to join the family circle of President-elect Roosevelt in New York. The dog is a gift to Mr. Roosevelt from S. Almond, breeder of champions. General Grant is pictured bidding good-bye to a select number of his large family before leaving in the passenger cabin of a United Airlines ship in care of Claire Cook, United Airlines air hostess.

What 7,500 People Read

An analysis of The Hereford Brand last week gave the following statistics of the material from which the paper was made up, to make it interesting for every man, woman, boy and girl to read. A careful check-up and count was made to see of just what features last week's Brand was put together.

More than the entire population of Deaf Smith County read The Brand. It was read by everyone able to read, because it had something of interest for each one. It was kept handy so each member of the family could read it at leisure. Most of them are still to be found in the nearly 2000 homes to which it was sent.

Some did not get their papers and either came by the office for one, or sent word to find out what was the matter—THEY WANTED TO GET IT.

WHY?

More than one-sixth of the population of Deaf Smith County was named in last week's Brand. Of Hereford people and their friends the actual names of 604 were used in the news of

the events of the week. Outside of the city there were named 427 people whose interests are centered around Hereford and Deaf Smith County—their home.

World news of the past week was given in brief form so the hurried reader could keep up with events. State news of current interest was given in more detail.

There were 32 civic, political, governmental, religious, social, luncheon or study organizations' activities for that week given in detail.

There were 67 business and professional firms referred to and brought before the attention of 7,500 readers, most of whom recognize and appreciate the importance of the paper to its community.

And there were 43 stories touching on every phase of the life of Hereford and Deaf Smith County, reaching the joys, pleasures, sorrows, successes, trials, failures, hopes and temptations of our own people as they live from day to day.

The Paper Is the Reflection of the Thoughts and Lives of Its People, the Most Interesting Story Ever Told. . . .

The Hereford Brand

Conditions That Affect Human Eye Injurious

Two long hours of continuous use of the eyes should be avoided by a rest at intervals, if only for a few minutes, at which time they can be benefited by being bathed with ordinary cold water from the faucet. Dr. Sol. Rosenblatt explained in "Eye Hygiene and Heat," an article appearing in "Hygeia," the Health Magazine.

It is the heat that is generated over a long period by excessive use of the eyes that causes the eyes to become tired. Heat affects the eyes in numerous ways. Doctor Rosenblatt explained. The heat generated by excessive use of the eyes over long hours, added to the ordinary body heat; the heat of fever repeated over a period of years; the heat of brilliant sunlight or too intense artificial light, and the heat of furnaces over a period of time are detrimental to the function of the eye.

Nature provides a safeguard in a manner somewhat similar to that of the water-cooled motor. Transparent fluids are circulated within the eye, and the anterior surface of the eye is bathed with fluid coming down from the tear gland above the eye. The peculiar special function of the eye requires transparency, and excessive heat destroys that quality; the loss of transparency is fatal to the function of that special organ, even though its form and strength are fully regained.

Possible to Retrieve Letter From the Mail

If, in a moment of artificial bravado or pensive dream, you should mail a letter which, come morning, you are sorry you mailed, there is a regulation way of getting it back. I am told that an average of two letters a day are thus recalled in Manhattan and the Bronx, says a writer in the New York Morning Telegraph.

By the Monroe doctrine, or something like that, one's letter belongs to one until the sender gets it in his hands. That's a post office rule.

Here, then, is what you do. Re-address a second envelope, a duplicate of the first, and rush to room 224 at the central post office. This is the office of the assistant postmaster. Give the man your facsimile envelope and ask for form 1509. Fill it in. It asks nothing more personal than your name, we understand.

The post office promptly gets in touch with the substitution of the district to which your letter has been sent and with the carrier who naturally would deliver it.

You then go home and wait for notification that the letter has been recalled, whereupon you go down and claim it. Letters to distant points are wired or even cabled for, and the sender must pay for this, but for letters within the city there is no charge. I thought you'd like to know.

Mosque of Omar

Visitors to Jerusalem never fail to make the Dome of the Rock or the mosque of Omar one of the first things to see. It is sometimes considered to be the finest building in Asia, if not in the world. It is octagonal in form, each side being 66½ feet wide and composed of richly colored marble and tile, with a dome of beautiful proportions. In part it is the work of the Moslems before the Crusaders, but the Crusaders enlarged it, and Suleiman the Magnificent completed it in 1561. When you have seen its interior, says a confirmed globe-trotter, the mosaics, the rich rugs given by a past sultan, the sixteenth-century stained-glass windows and all the architectural effects and groupings, you realize why it is so praised. It is the chief landmark of the city.

Governmental Departments

Four of the governmental departments are older than the government under the Constitution. These are Departments of Foreign Affairs, Treasury, War and Post Office. They were re-established by the first congress under the Constitution, changing the Department of Foreign Affairs to Department of State. The office of attorney general was also established in 1789 and 1870 the name was changed to Department of Justice. The Department of the Navy was established in 1789; Department of the Interior, 1849; Department of Agriculture, 1889; Department of Commerce (and Labor), 1903; Department of Labor, 1913.

Modern Slang Expression

Honky tonk is the expression used to describe a restaurant which has the characteristics of those of the Limehouse district of London. The expression originated from the words given to the type of music usually played in these places. The music is Chinese and is characterized by deep drum beats used as bass for walling melody. If one stretches his imagination he can almost hear in the drum beats the words "honky tonk, honky tonk." The cafes were of the lower class, dancing girls and opium being two of the attractions. The expression was used during the World war to describe Parisian dance halls of the lowest class.

SEVENTH DISTRICT State Federation CLUB NOTES

Mrs. W. P. Avriett of Lamesa has been interested in the promotion of Junior Clubs for several years, and her work in this field has brought special recognition to the Seventh District. Many clubs throughout the 48 counties of the district are using gavals which were gifts of Mrs. Avriett to them as rewards for work done with Junior clubs. This year Mrs. Avriett is trying to stimulate thought in connection with the aims and purposes of the Junior club movement. To this end she will award a prize of \$5 in gold to the club woman writing the best essay on the subject "The Fine Art of Living as Developed by the Junior Club." The rules for the contest are very simple. The essay must be of 1500 words or fewer in length; essays to be considered must be in the hands of Mrs. Avriett by April 10. The winning essay will be read at the District Convention in Hereford as a feature of the Junior Hour, a new department in club conventions.

If one club of the Seventh District were to win all the prizes that are available this spring, it would have at least \$20 in money, a choice book to add to its library, a gavel and a loving cup. To win all these it would have to show its superior ability in health service, writing, study of crime and reformatories, singing, and the study of current educational problems. Clubs and club women have a chance to develop a wide variety of interests.

Last week end the president of the Seventh District attended a meeting of the State Federation executive committee at Dallas, this meeting having been called to devise plans for the further financing of the permanent headquarters building at Austin. On her return Mrs. Hill stated that the central organization expects to request every federated club in Texas to assist in paying for the building which stands in Austin and is now complete. The former state president, Mrs. R. F. Lindsey, will be in charge of the drive for funds.

The Deaf Smith county federation met in Hereford Thursday, with Mrs. J. A. Hill, district president, and Mrs. Clyde Warwick, secretary, as special guests. At this meeting many details of the district convention which meets in Hereford in April were discussed.

The Dimmitt Study Club is sponsoring an essay contest in the high school. The subject of "The Public Library" and a prize of \$2.50 will be awarded the boy and girl writing the best paper. This club is providing limited library facilities for much of Castro county. It is hoped that the project begun by the county will eventually become a county library.

Mrs. P. P. Langford, 1300 Tilden Street, Wichita Falls, is chairman of Junior work for Texas. She is offering a prize of \$5 for the best pageant portraying the work of the Federation of Womens clubs, this pageant to be written and presented by a Junior club. Manuscripts of pageants should reach the state chairman by March 25, and a copy should also be sent to the district chairman. This is a statewide contest.

The club women of the Seventh

They Deserve the VERY BEST . . .

Pure bred chickens cannot make their best growth and produce the highest type of their breed if they do not receive correctly proportioned and a sufficient amount of the right food elements.

JUST-RIGHT FEEDS are prepared by a scientific formula that uses the exact quantity of necessary feeds to give the baby chicks the build and strength they need to grow into sturdy, highly productive birds. Years of experience in feeding this formula has proved it to be JUST-RIGHT.

DON'T TAKE A CHANCE! Next winter's profits are in the right start this spring.

WEST TEXAS FEED AND SEED COMPANY
Phone 265

District have been interested in the Panhandle-Plains Historical Society since 1923 when the aims and ideals of that organization were outlined to them at their district meeting. When the convention met in Pampa in 1930 a resolution was adopted endorsing the work of the society and particularly commending its efforts to erect a building in which objects significant in Panhandle-Plains history could be kept and displayed. The Panhandle-Plains Historical Society Museum is now nearing completion and will be open to the public for the first time on April 14, the date on which the society holds its annual meeting. Many club women will be present to view the beautiful structure and to hear the dedication program which is now being planned by Prof. L. F. Sheffy, under whose leadership the museum has been built.

Ruth Bryan Owen, Congresswoman of Florida, and an ardent club woman, believes that when boys and girls graduate from high school or college there should be some gesture from the government welcoming them into the responsibilities of citizenship. To carry out her ideas she had "The American Creed," written by Walter Tyler Page, engraved on parchment like a diploma and bearing a gold seal, on which appears the national capitol. This goes to every graduate in her district with this message, "Presented by your representative in congress in recognition of your graduation and welcoming you to participation in the affairs of government." Mrs. Owen believes that such a gift at a time when im-

Weapon Display At W. T. S. T. C. Gets Attention

Work preparatory to the classification and exhibition of the lethal weapons in the collection of the Panhandle Plains Historical society has been started relative to the removal of the relics to the new museum building, Pioneer Hall in Canyon early next month.

The weapons are to be classified as specimens of the various models and as special guns with a known history. All these guns have been loaned to the society by people interested in the work.

Particularly noteworthy is the buffalo hunter's outfit which includes two guns, a rifle, and a carbine, bullet molds, powder measure, and loading tools. Not only is this outfit complete but it has a most interesting history of the owner, J. H. Cator, deceased, is reputed to have killed 1000 buffaloes with it. Mr. Cator, a pioneer citizen of Hansford county, who lived near Spearman, was a native of England.

Just prior to his death, Col. Charles Goodnight, well known as a pioneer of the Panhandle, was engaged in collecting a complete scout outfit for the museum. Unfortunately Col. Goodnight, who was a scout himself in Texas as early as the '60's, did not get to commissions are vivid might influence the entire life of the recipient.

plete his task, but there is thought to be sufficient material in the museum to fill out the outfit.

The main feature of the scout outfit, which antedates the Buffalo hunter's, is a Colt's percussion cap revolver. This model does not shoot a brass-cased cartridge, but the powder and lead are stuffed directly into the cylinder with the percussion cap fitting on nipples in the rear. The only tools necessary for one of these revolvers are a bullet mould and a powder measure.

Among the many unusual guns present in the collection are two combination guns. One has a shotgun barrel directly under the rifle barrel, while the other is a home made weapon with two shot gun barrels side by side and a rifle barrel slung underneath and between them. This gun is said to have been the first of its type ever made.

Another interesting piece is a Texas Ranger muzzle loading rifle of which the craftsmanship is unusually fine. The metal work is carved and the stock is decorated with brass inlay, with a lone star set in the cheek piece. It is equipped with a set trigger.

Some of the edged weapons in the collection date back to the time of the Spanish conquerors in this country. There is a pair of handcuts which closely resemble the type used on the old Spanish slave galleys.

The Sharps .50 calibre, favorite rifle of the buffalo hunter, is represented in the museum in two models, the rifle and the short saddle carbine.

In addition to these more or less

antiquated arms, there are relics of the World War, presented by the United States Disbursing Office, which include two German machine guns, German rifles and assorted bayonets, German saw-tooth bayonet, and the short, efficient American bayonet and the long, curving French bayonet.

NOTICE OF SHERIFF'S SALE OF REAL ESTATE.

Notice is hereby given that by virtue of an order of sale issued by the Clerk of the District Courts of Dallas County, Texas, on the 6th day of February, 1933, in a certain cause wherein Central Life Assurance Society (Mutual), a corporation, is plaintiff, and E. H. Pigg, Viola Pigg, A. J. Walker, P. L. London, H. D. Culpepper, Geo. J. Nash, Commerce Trust Company and Keystone Mortgage Investment Company are defendants, No. 101873-A, plaintiff recovered judgment against the defendant E. H. Pigg for the sum of \$50,678.06, with interest thereon from January 4, 1933, at the rate of ten per cent per annum, and costs of suit, which judgment was rendered on January 4, 1933, in the District Court of Dallas County, for the 14th Judicial District of Texas, I have levied upon and will, on the first Tuesday in March, 1933, same being the 7th day of said month, at the Court House door in the City of Hereford, Deaf Smith County, Texas, between the hours of ten o'clock A. M. and four o'clock P. M., proceed to sell to the highest bidder for cash all the right, title and interests of the

defendants therein, or any of them in and to the following described real estate, levied upon on February 8th, 1933, as the property of said defendants, to-wit:

Situated in the County of Deaf Smith, State of Texas, being 4788.5 acres of land, located about ten miles Northwest of Hereford, known as the Pigg Ranch, out of various surveys in said County, and being the same 4788.5 acres of land described in deed of trust from E. H. Pigg and wife, Viola Pigg, to JoZach Miller, III, Trustee, dated February 11, 1930, and recorded in Volume 83, page 540, of the Deed of Trust Records of Deaf Smith County, Texas.

The above sale will be made by me to satisfy the above described judgment, and the proceeds thereof will be applied to the satisfaction of said judgment.

J. B. MILLER, Sheriff, of Deaf Smith County, Texas. 6-3c

Was She Right?

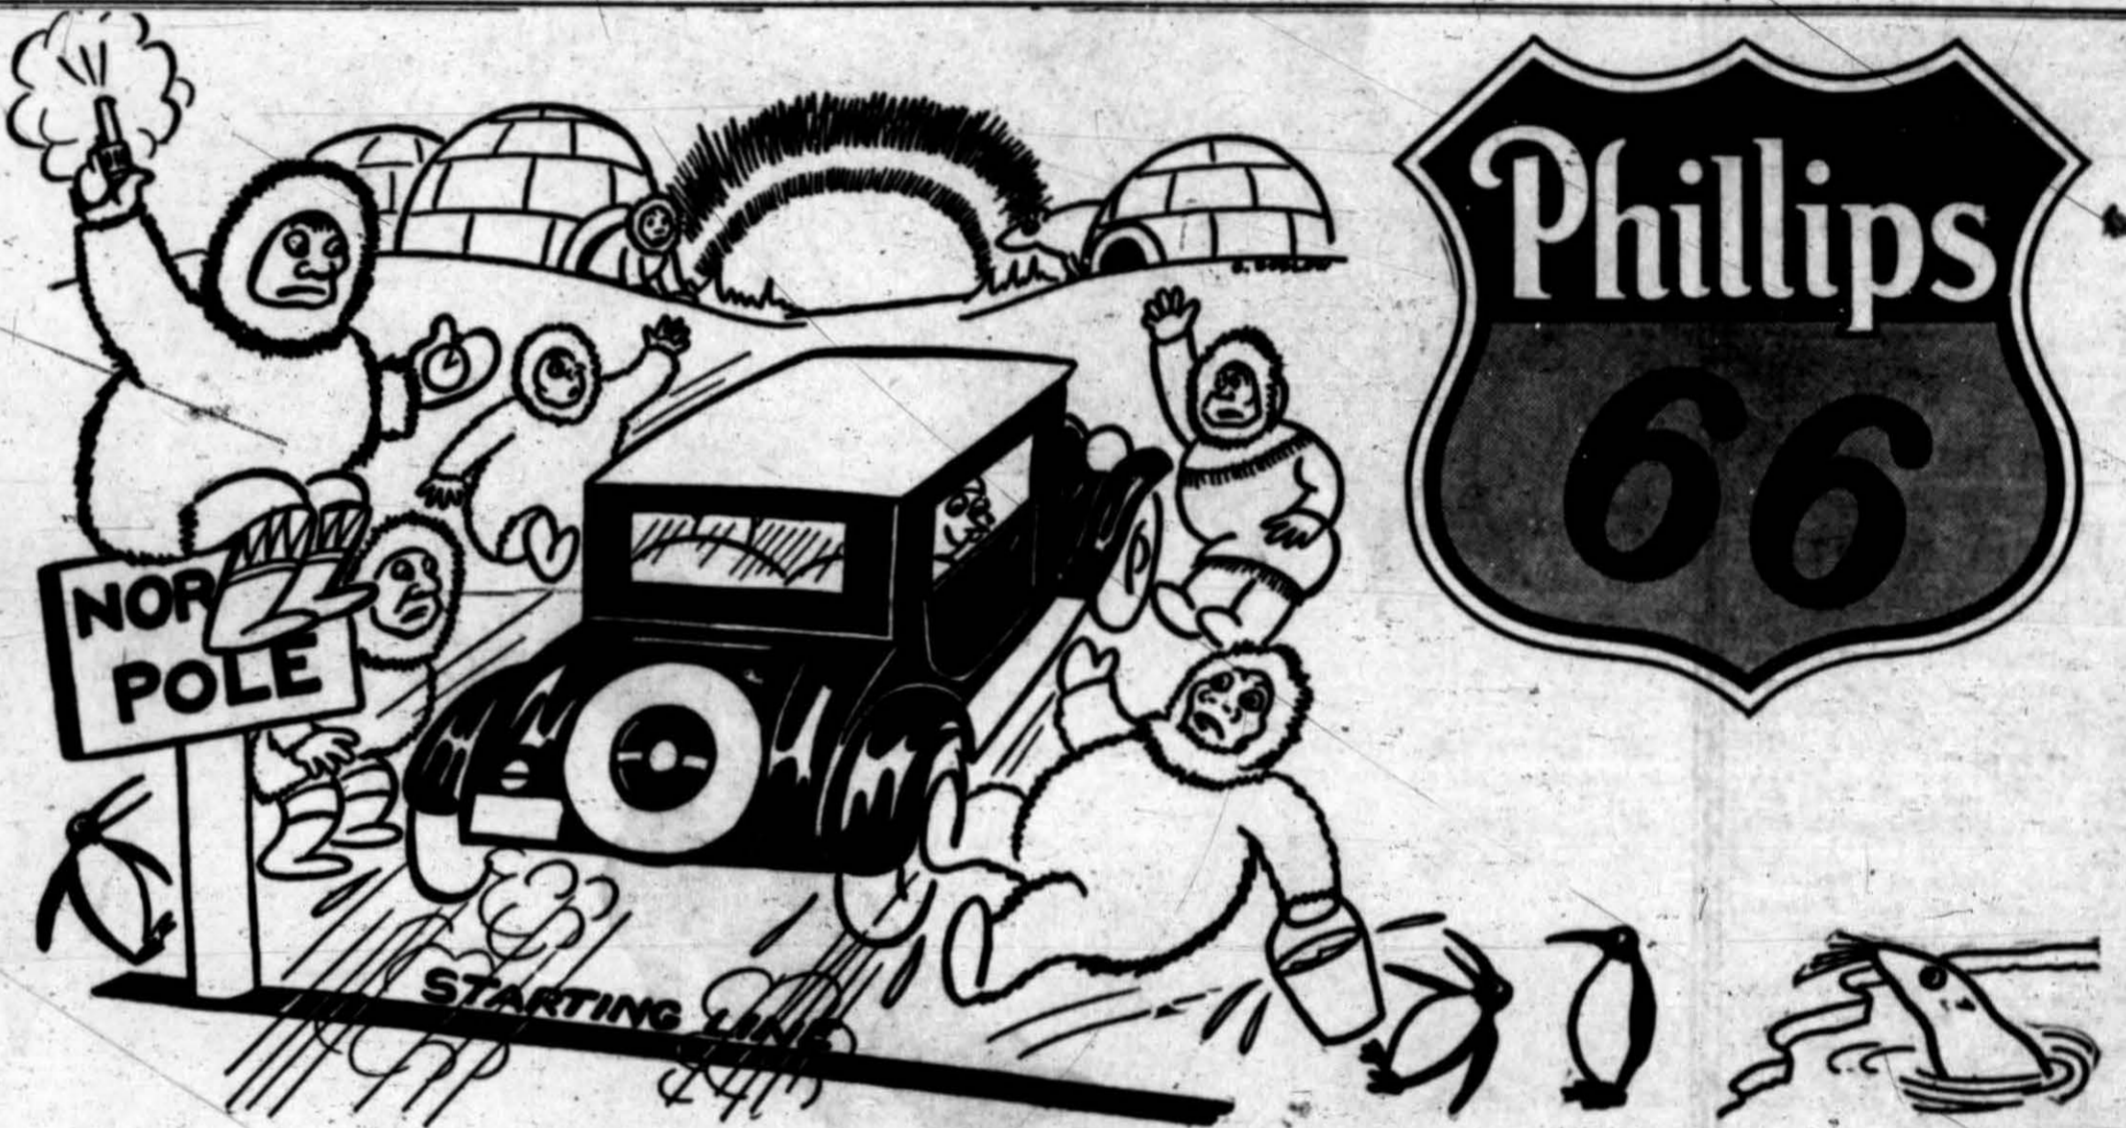

Young Lady (coming in with partner from room where progressive whist was being played): "Oh, mummy, I've captured the booty."

Mother: "Well, my dear daughter, come here and kiss me, both of you."

Why, Bishop!

A bishop had been speaking with some feeling about the use of cosmetics by girls.

"The more experience I have with lipstick," he declared warmly, "the more distasteful I find it."

Split-second starting at 20° below zero

Now, you can laugh at cold weather starting troubles . . . because the gravity of Phillips 66, the greater gasoline, right now ranges from

65.6° to 80.5°

The red line on the thermometer may sink out of sight, but this sensational high test is more than a match for the toughest blizzard that ever hit town.

Twenty above or ten below, whatever your weather, you know that every gallon of Phillips 66 which you buy is scientifically and accurately matched to its demands. So you always get a gas that gives the peak of performance, guaranteed by the process and principle which the great Phillips organization pioneered: CONTROLLED VOLATILITY.

And here's the big news: This honest high test with CONTROLLED VOLATILITY does not cost a single penny more than ordinary low gravity

gasoline. You DO NOT pay any 3¢ premium per gallon. But you do get premium performance on every count, from flashier get-away to longer mileage.

When you read or hear other claims, remember that PHILLIPS IS THE LARGEST PRODUCER OF NATURAL HIGH GRAVITY GASOLINE—and this certainly qualifies us to offer world-challenging value in a high test motor fuel.

Hence we confidently promise you exceptional and outstanding results if you try a tankful of Phillips 66.

Stop the very next time you see the Orange and Black 66 shield. That is where you get extra high test without paying a penny extra. That is where you also get the amazing new Phillips 66 Motor Oil . . . perfect team-mate for instant-starting Phillips 66 Gasoline, because it flows instantly and freely even at temperatures 62° below freezing.

What is CONTROLLED VOLATILITY?

In gasoline, volatility is that quality which makes it deliver perfect performance at any temperature. Since the weather can't be controlled, the only way to insure perfect performance is by CONTROLLING the VOLATILITY—increasing the volatility as the temperature drops. Phillips 66 is the gasoline with Controlled Volatility. That is why it always gives instant action even in below-zero weather . . . faster warm-up . . . flashier acceleration . . . more miles . . . less carbon and crankcase dilution. Phill-up with Phillips and you will feel the difference, because right now—this month—

PHILLIPS 66 HAS 78% MORE VOLATILITY than any other leading gasoline.

"HIGHEST TEST" at the price of ordinary gasoline

Also Phillips 66 Ethyl at the regular price of Ethyl Gasoline

A gasoline of U. S. Motor grade at a competitive price

BIG NEWS! This oil lubricates perfectly.. even at 62° below Freezing

WILL PUMPING THE LAKE DRY SAVE THE BATHER?

surface with great force and very suddenly, sometimes when the sky is perfectly clear. Describing such a storm in his own experience, a traveller says: "The surface of the lake was like that of a boiling cauldron. . . . We pitched our tents on the shore, and remained for three days and nights exposed to that vehement wind. We had to double pin the tent ropes, and frequently were obliged to hang on with our whole weight upon them to keep the quivering tabernacle from being carried bodily into the air. The whole lake was lashed into such violence as to carry away the tent-pins."—Rev. William M. Thompson, D. D.

Jesus "Muzzled" the Sea.
"And rebuked the wind." He addressed it as if it were a raging demon, perhaps seeing some devil or some host of devils back of its fury. "And said unto the sea, Peace, be still." Literally, 'be muzzled,' as if the sea were raging, roaring beast. The form of the word, too, means, 'be still forthwith and remain so.' "And the wind ceased and there was a great calm." The verb is very graphic, depicting the sinking to rest of the sea like a beast after a terrific struggle against irresistible force.

"Who then is this, that even the wind and the sea obey him?" Who indeed could it be but He who "was in the beginning with God?" Only the Creator could thus have controlled the forces, which ages before, he had himself set in motion.

"The winds and the waves shall obey my will;
Peace, be still, peace, be still!
Whether the wrath of the storm tossed sea,
Or demons, or men, or whatever it be,
No water can swallow the ship where lies
The Master of ocean and earth and skies.
They all shall sweetly obey my will:
Peace, peace, be still!"
—M. A. Baker.

Jesus and the Demoniac.
After the storm had subsided, "they came to the other side of the sea." They were now in the country of the Gadarenes and in the vicinity of a town whose site is not certainly known. Though it may have been well after night-fall "when he was come out of the boat, straightway there met him a man with an unclean spirit." The demoniac who was doubtless

that the Lord is King;
Tell it out! Tell it out!
Tell it out among the nations, bid them shout and sing;
Tell it out! Tell it out!"
—Frances R. Havergal.

Ain't It the Truth?
Salesman (wiping the perspiration from his brow): "I'm afraid, madam, that we've shown you all our stock of linoleums, but we could get more from our factory."
Customer: "Well, perhaps you'd better. You see I want something of a neater pattern and quite small. Just a little square for my bird cage."

International Sunday School Lesson

BY DR. J. E. NUNN

February 26.
JESUS SHOWS HIS POWER
Mark 4:35-5:8, 18-20.

Mark 4:35. And on that day, when even was come, he saith unto them, Let us go over unto the other side.

36. And leaving the multitude, they take him with them, even as he was in the boat. And other boats were with him.

37. And there ariseth a great storm of wind, and the waves beat into the boat inso much that the boat was now filling.

38. And he himself was in the stern, asleep on the cushion; and they awake him, and say unto him, Teacher, carest thou not that we perish?

39. And he awoke, and rebuked the wind, and said unto the sea, Peace, be still. And the wind ceased, and there was a great calm.

40. And he said unto them, Why are ye fearful? have ye not yet faith?

41. And they feared exceedingly, and said one to another, who then is this, that even the wind and the sea obey him?

Mark 5:1. And they came to the other side of the sea, into the country of the Gerasenes.

2. And when he was come out of the boat, straightway there met him out of the tombs a man with an unclean spirit.

3. Who had his dwelling in the tombs; and no man could any more, bind him, no, not with a chain;

4. Because that he had been often bound with fetters and chains, and the chains had been rent asunder by him, and the fetters broken in pieces; and no man had strength to tame him.

5. And always, night and day, in the tombs and in the mountains, he was crying out, and cutting himself with stones.

6. And when he saw Jesus from afar, he ran and worshipped him;

7. And crying out with a loud voice, he saith, What have I to do with thee, Jesus, thou Son of God?

8. For he said unto him, Come forth, thou unclean spirit, out of the man.

18. And as he was entering into the boat, he that had been possessed with demons besought him that he might be with him.

19. And he suffered him not, but saith unto him, Go to thy house unto thy friends, and tell them how great things the Lord hath done for thee, and how he had mercy on thee.

20. And he went his way, and began to publish in Decapolis how great things Jesus had done for him; and all men marvelled.

Golden Text: For I know him whom I have believed, and am persuaded that he is able to guard that which I have committed unto him against that day.—2 Tim. 1:12b.

Introduction.
In the two great miracles recorded in the present passage Jesus in a most spectacular way showed his power, the one a physical wonder and the other a spiritual marvel.

vel. By calming the troubled sea he showed his power in the world of spirit. It was at the close of that great day of teaching with 'ts sermon in ten recorded and many unrecorded parables delivered at Capernaum and the lakeside. Late in the afternoon or early, night, Jesus and the disciples while crossing the sea encountered the storm that was stilled at the words of the Master. That night or the next day the Gadarene demoniac was healed, but the visit did not extend beyond a single day for at the request of the Gadarene, Jesus and his disciples recrossed the sea to Capernaum.

A Great Storm of Wind.
"And there ariseth a great storm of wind." "We do not realize that the greater part of our Lord's ministry was accomplished at what may be truly called the bottom of a trench, 680 feet below the level of the sea."—Prof. George Adam Smith. The surface of the Sea of Galilee is 682.5 feet below the level of the Mediterranean. Moreover, it is surrounded by steep cliffs, and by hills from three hundred to more than a thousand feet high. Therefore the sea is very hot at the surface, and great masses of air rise from it. To take their place cold air rushes in from the Mediterranean on the west, from the mountainous region on the east; and from snow-clad Mt. Hermon to the north. It is focused by the gorges in the sides of the sea, and descends upon its

A Sound Foundation Assurance of Success

As our Nation grew and prospered—fostered by the sterling principles and sound counsel of its great men—so do business establishments depend for their success, upon a wise, a practical foundation.

It is the privilege of this bank to offer its unbiased guidance in business affairs. To aid in carrying out the tradition of sound policy of houses long established, or in formulating methods of procedure for institutions newly incepted.

The FIRST STATE BANK

Prowlers Fear Being In Light

Strange noises at night become less disturbing when one can turn on lights and illuminate dark corners around the house.

A convenient switch at the bedside and another near the door can be arranged to control outside lights.

The comfort and peace of mind afforded by these protective lights will be worth many times the cost. Your contractor will gladly estimate the slight cost of installing protective lights for your home.

Light Is An Ever-Present Policeman—Always On the Job.

Texas Utilities Company

WOMAN LOST 20 POUNDS IN 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 25 yrs. old and weighed 130 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 110 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one-half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE harmless way to reduce as tons of thousands of men and women know.

For your health's sake ask for and get Kruschen any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

LOCALS

W. H. Warren of Friona transacted business in Hereford Thursday of last week.

M. M. Hardin of Clovis, New Mexico, was in Hereford Friday on business.

Bill Thompson, ex-sheriff of Potter county, was in Hereford attending to business Friday.

J. A. Gowdy, of Olton, attended district court here last Friday.

Wednesday, March 1, 7:30 p. m., mid-week Bible study.
Every one is cordially invited to attend all services.

AUSTIN EVENTS.
(Continued from Page One.)

recreational, \$5,744,739; public schools, \$28,961,501.44; higher education, \$9,525,277.33; pensions, \$3,562,641.57. Figures are from the Comptroller's office. Items of income and expenditure of less than one million dollars are not included in the above.

Forty-one per cent of all State expenditures are for highways, 31 per cent for public free school and slightly less than ten per cent for colleges and universities. These three items, plus Confederate pensions, care and education of blind, deaf and other wards of the State, account for 91 per cent of all State expenditures. Hence, if all other costs were eliminated, including judiciary, law enforcement, legislative and executive, saving to tax payers would be less than ten per cent.

The first bill relating to costs of government to be passed by both House and Senate provides for 25 per cent reduction in the pay of Rangers. It takes effect immediately and continues until August 31, 1933. Captains are reduced from \$225 per month to \$170; sergeants from \$175 to \$130; privates from \$150 to \$112.

The House passed the judiciary bill last week providing for 25 per cent reductions in pay of judges and district attorneys, and elimination of assistant district attorneys. The bill applies to district and higher courts.

BY MRS. JOHN BOLING

R. D. and Otis Smith have been out of school, having contracted sore or "pink eye".

Get highest cream prices at Farmers Creamery Association. 7-4c

Rev. and Mrs. D. W. Henry of Plainview visited with her brother Cecil Allred and wife over the week end.

Mrs. O. J. Grabbe called on Mrs. Tom Boling of the Pierce community Sunday.

The Pierce school will close this week, completing a six-months term.

Messrs. and Mmes. Royce Satterwhite and E. W. Womble and son, Mrs. Stanley Thomas of Wildorado and Mart Burum of Dahiel were Sunday dinner guests in the John Boling home.

J. C. Allred and family of Hereford spent Sunday in the Cecil Allred home.

Byron Campbell returned to school Monday after a two weeks' absence.

Fear of being the next victim of "pink eye" cost Mrs. C. Cretzinger a day out of school last week when one eye became swollen and red. The appearance of a sty on that eye relieved her mentally and she resumed her work of teaching.

Lawrence Womble left this week for Temple for medical care. He was operated on some time ago but has been in ill health since.

R. L. Campbell expects to return home this week after his operation.

KEEP YOUR ROOF IN REPAIR

—The slight present cost of mending a small leak in your roof is a mere incident to the enormous LOSS you will sustain by having your furniture and the interior finish of your home ruined during a storm.

—Let us show you just how little the repairs will cost.
